These properties are located in twenty-six states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Iowa, Kansas, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and Wisconsin. In addition, one of the properties that the Company currently owns is owned through a majority interest in a limited liability company, with which the Company consolidates its results of operations and financial condition. The Company also owns a portfolio of REIT investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended March 31, 2013 are not necessarily indicative of the results that may be expected for the year ending September 30, 2013. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the fiscal year ended September 30, 2012.

Use of Estimates

In preparing the financial statements in accordance with US GAAP, management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates and assumptions.

#### Reclassification

Certain prior period amounts in the accompanying consolidated financial statements have been reclassified to conform to the current period's presentation.

During fiscal 2011, the Quakertown, PA property was reclassified to held for sale, which resulted in \$19,628 of income for the six months ended March 31, 2012, being reclassified into discontinued operations. Lease Termination Income

Lease termination income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company.

In March 2012, the Company received \$3,222,283 in lease termination income on its 388,671 square foot property located in St. Joseph, MO. Under the terms of this lease termination agreement, the tenant was required to pay the Company additional rent from September 1, 2012 through November 30, 2012 in the amount of \$111,113 per month (pro-rated for any area/time leased to another tenant). On May 8, 2012, the Company entered into a 5-year lease agreement for this space with another tenant for 256,000 square feet (representing approximately 66% of the space). In December 2012, the Company received \$113,784 in lease termination income representing additional rent from September 1, 2012 through November 30, 2012 for the 34% portion of the space that was not re-leased.

In October 2012, the Company's tenant at its 160,000 square foot property located in Monroe, NC exercised its early termination option. The Company received a lump sum termination payment in October 2012 of \$576,946 which was calculated based on the period covering November 1, 2012 through July 31, 2013.

The Company's lease with its tenant at its 26,340 square foot location in Ridgeland (Jackson), MS has an early termination option which may be exercised at any time subsequent to December 2013 provided the Company is given six months notice. The rent per annum for this location is \$109,275 and the lease expires in July 2019. The Company does not anticipate that this tenant will exercise its early termination option. The Company does not have any other leases that contain an early termination option.

Stock Based Compensation

The Company accounts for stock options and restricted stock in accordance with ASC 718-10 which requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). This compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value for restricted stock awards is equal to the fair value of the Company's common stock on the grant date. Included in General and Administrative Expense in the accompanying Consolidated Statements of Operations are compensation costs of \$81,562 and \$62,373 which have been recognized during the three months ended March 31, 2013 and 2012, respectively and compensation costs of \$161,089 and \$126,696 which have been recognized during the six months ended March 31, 2013 and 2012, respectively.

During the six months ended March 31, 2013 and 2012, the following stock options were granted under the Company's amended and restated 2007 stock option and stock award plan (the amended and restated 2007 Plan):

## Recent Accounting Pronouncements

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. ASU 2013-02 does not change the current requirements for reporting net income or other comprehensive income in financial statements. However, ASU 2013-02 requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under US GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under US GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under US GAAP that provide additional detail about those amounts. This ASU is effective prospectively, for annual and interim periods, beginning on or after December 15, 2012. The adoption of ASU 2013-02 did not have a material impact on our financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying consolidated financial statements

NOTE 2 – NET INCOME PER SHARE

Basic net income per share is calculated by dividing net income attributable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net income per common share is calculated by dividing net income attributable to common shareholders plus interest expense related to the Company's Convertible Subordinated Debentures (Debentures) by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method, plus the number of shares resulting from the possible conversion of the Debentures during the period. During the three months ended December 31, 2012, the Company redeemed all of its Debentures (see Note 6). Interest expense of \$175,800 and \$351,600 for the three and six months ended March 31, 2012, respectively, and 850,000 common shares to be issued upon conversion related to the potential conversion of the outstanding Debentures as of March 31, 2012 were excluded from the calculation due to their antidilutive effect.

In addition, common stock equivalents of 218,687 and 160,540 shares are included in the diluted weighted average shares outstanding for the three months ended March 31, 2013 and 2012, respectively, and common stock equivalents of 213,406 and 118,761 shares are included in the diluted weighted average shares outstanding for the six months ended March 31, 2013 and 2012, respectively. As of March 31, 2013 and 2012, options to purchase -0- and 65,000 shares of common stock, respectively, were antidilutive.

NOTE 3 – REAL ESTATE INVESTMENTS

Acquisitions

On November 9, 2012, the Company purchased a 172,005 square foot industrial building located in Livonia, MI. The building is 100% net leased to FedEx Ground Packaging System, Inc. through March 31, 2022. The purchase price was \$14,350,000. The Company obtained a mortgage of \$9,500,000 at a fixed interest rate of 4.45% for 14 years and paid the remaining amount with cash on hand. This mortgage matures on December 1, 2026. Annual rental income over the remaining term of the lease is approximately \$1,194,000. In connection with the acquisition, the Company completed its evaluation of the acquired lease. As a result of its evaluation, the Company has allocated \$650,000 to an intangible asset associated with the net fair value assigned to the acquired lease at the property. The David Cronheim Mortgage Corporation, an affiliated company of one of the Company's directors and the Company's former management agent, received \$95,000 in mortgage brokerage commissions in connection with obtaining financing for this acquisition.

On December 20, 2012, the Company purchased a 615,305 square foot industrial building located in Olive Branch, MS. The building is 100% net leased to Milwaukee Electric Tool Corporation through March 31, 2023. The initial purchase price was \$28,000,000. The Company obtained a mortgage of \$17,500,000 at a fixed interest rate of 3.76% for 10 years and paid the remaining amount with a draw on its unsecured line of credit (line of credit). This mortgage matures on January 1, 2023. During the three months ended March 31, 2013, the purchase price was adjusted to \$27,368,816, resulting in a refund of the purchase price totaling \$631,184. Per the terms of the mortgage agreement, 62.5% of any purchase price reduction was required to be used to pay down the mortgage balance. Therefore, \$394,490 of the refund was applied as a reduction to the mortgage balance and the mortgage agreement was amended to reflect this reduction in principal. In addition, in accordance with the purchase and lease agreements, the reduction in purchase price resulted in the annual rental income over the remaining term of the lease to be adjusted from approximately \$1,965,000 to \$1,928,000. In connection with the acquisition, the Company completed its evaluation of the acquired lease. As a result of its evaluation, the Company has not allocated any amount to an intangible asset.

FedEx Ground Packaging System, Inc.'s ultimate parent, FedEx Corporation and Milwaukee Electric Tool Corporation's ultimate parent, Techtronic Industries Company Limited are publicly-owned corporations and financial information on their business operations is readily available to the Company's shareholders.

On December 21, 2012, the Company purchased approximately 4.1 acres of land adjacent to its property which is leased to FedEx Ground Packaging System, Inc. located in Orion, MI for \$988,300 in connection with a 52,154 square foot expansion of the building which is expected to be completed in fiscal 2013.

The unaudited pro forma condensed financial information is not indicative of the results of operations that would have been achieved had the acquisitions reflected herein been consummated on the dates indicated or that will be achieved in the future.

The Company is also required to disclose certain information about fair values of financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only, and therefore cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate loans payable and Subordinated Debentures (which have been fully redeemed as of March 31, 2013) approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. At March 31, 2013, the fair value (estimated based upon expected cash outflows discounted at current market rates) and carrying value of fixed rate mortgage notes payable amounted to \$262,956,252 and \$251,352,627, respectively.

The Company obtained a mortgage of \$9,500,000 at a fixed interest rate of 4.45% for 14 years and paid the remaining amount from cash on hand. This mortgage matures on December 1, 2026. Annual rental income over the remaining term of the lease is approximately \$1,194,000. In connection with the acquisition, the Company completed its evaluation of the acquired lease. As of March 31, 2013, the total remaining expansion costs expected to be incurred during fiscal 2013 and fiscal 2014 amount to approximately \$10,100,000. Total expansion costs for the buildings being expanded are expected to average \$83 per square foot. Of the total 896,813 square feet of gross leasable area originally set to expire during fiscal 2013, 837,388 square feet or 93% has been renewed. The lease renewals have been renewed for a weighted average term of 4.7 years at an average lease rate per square foot of \$4.68 as compared to \$4.84 per square foot formerly, representing a reduction of 3.3%.

The one remaining lease located in White Bear Lake, MN leased to FedEx Express through November 30, 2012, representing 59,425 square feet or 7% of the space, did not renew.

Effective March 31, 2013, we entered into a seven and half year lease with Tampa Bay Grand Prix at our 68,385 square foot facility located in Tampa FL, which was previously vacant. The tenant receives free rent for six months. Effective October 1, 2013, annual base rent will be \$256,443 or \$3.74 per square foot with 3% increases each year through the September 30, 2020 lease expiration.

Rental revenue increased \$1,046,452 or 10% for the three months ended March 31, 2013 as compared to the three months ended March 31, 2012 and increased \$1,698,080 or 8% for the six months ended March 31, 2013 as compared to the six months ended March 31, 2012. The increase for the three and six months ended March 31, 2013 was due primarily to the increased rental income earned from acquisitions of seven properties during fiscal 2012 (of which two were purchased subsequent to March 31, 2012) and two properties purchased during the six months ended March 31, 2013.

Reimbursement revenue decreased \$308,046 or 16% for the three months ended March 31, 2013 as compared to the three months ended March 31, 2012 and decreased \$369,650 or 11% for the six months ended March 31, 2013 as compared to the six months ended March 31, 2012. Real estate tax expense decreased \$557,745 or 33% for the three months ended March 31, 2013 as compared to the three months ended March 31, 2012 and decreased \$818,834 or 26% for the six months ended March 31, 2013 as compared to the six months ended March 31, 2012. The decrease for the three and six months ended March 31, 2013 for both reimbursement revenue and real estate taxes was due primarily to the Company's ability to obtain refunds and reductions in real estate taxes in several jurisdictions. Our single tenant properties are subject to net leases which require the tenants to absorb the real estate taxes as well as insurance and the majority of repairs and maintenance. As such, the Company is reimbursed by the tenants for these real estate taxes. Because the reduction in real estate taxes results in reducing our tenants overall occupancy costs, it is expected to result in higher tenant retention rates.

Lease termination income amounted to \$0- and \$690,730 for the three and six months ended March 31, 2013, respectively, as compared to \$3,222,283 for the three and six months ended March 31, 2012. This income represents the payments from former tenants at our St. Joseph, MO and Monroe, NC properties terminating their lease obligations before the end of the contractual term of the leases.

Operating expenses increased \$361,674 or 60% for the three months ended March 31, 2013 as compared to the three months ended March 31, 2012 and increased \$223,471 or 18% for the six months ended March 31, 2013 as compared to the six months ended March 31, 2012. The increase in Operating expenses for the three months ended March 31, 2013 was due primarily to the increase in insurance costs of \$216,000, an increase in repair and maintenance costs of \$102,000 and an increase in utility costs of \$30,000. The increase in Operating expenses for the six months ended March 31, 2013 was due primarily to the increase in insurance costs of \$153,000, an increase in repair and maintenance costs of \$161,000 and an increase in utility costs of \$95,000. The increases were mainly due to the acquisitions in 2012 and 2013. The increases were offset by a decrease in management fees of \$74,000 and \$161,000 for the three and six months ended March 31, 2013. Effective August 1, 2012, the Company terminated its contract with its management agent and the Company became a fully integrated and self-managed real estate company.

General and administrative expense increased \$18,085 or 2% for the three months ended March 31, 2013 as compared to the three months ended March 31, 2012 and increased \$297,908 or 15% for the six months ended March 31, 2013 as compared to the six months ended March 31, 2012. The increase in General and administrative expense for the six months ended March 31, 2013 was due primarily to increased salary and related expenses for recent hires of approximately \$135,000, professional fees associated with redeeming the Debentures of approximately \$60,000 and general professional fees of approximately \$85,000.

Table of Contents

Interest and dividend income increased \$112,458 or 13% for the three months ended March 31, 2013 as compared to the three months ended March 31, 2012 and increased \$286,193 or 16% for the six months ended March 31, 2013 as compared to the six months ended March 31, 2012. This increase was due mainly to an increase of 19% in investments in securities available for sale as of March 31, 2013 as compared to the investments in securities available for sale as of March 31, 2012. The weighted average yield was approximately 6.9% and 7.3% for the three months ended March 31, 2013 and 2012, respectively and approximately 6.8% for the six months ended March 31, 2013 and 2012.

The Company recognized a gain on sale of securities of \$3,802,704 and \$2,209,257 for the three months ended March 31, 2013 and 2012, respectively and \$5,913,472 and \$4,997,715 for the six months ended March 31, 2013 and 2012, respectively. In addition, the Company had net unrealized gains on its securities held for sale of \$5,922,580 as of March 31, 2013.

Net real estate investments increased \$39,409,082 from September 30, 2012 to March 31, 2013. Table of Contents

Securities available for sale decreased \$9,420,783 from September 30, 2012 to March 31, 2013. The decrease was due to the sales of securities with a cost basis of \$19,264,555 offset by purchases of securities totaling \$9,305,129 and an increase in net unrealized gains of \$538,643.

Mortgage notes payable increased \$13,408,716 from September 30, 2012 to March 31, 2013. The increase was due mainly to the two mortgages of \$27,000,000 originated in connection with the acquisitions of the two industrial properties purchased in fiscal 2013. Details on the mortgages are as follows:

	Mortgage	Maturity	Interest
<u>Property</u>	<u>Originated</u>	<u>Date</u>	<u>Rate</u>
Livonia, MI	\$9,500,000	12/1/26	4.45%
Olive Branch, MS (1)	17,500,000	01/1/23	3.76%

- (1) On February 27, 2013, the mortgage was amended to reduce the balance by 62.5% of the reduction in the purchase price of the acquisition requiring a one-time principal payment of \$394,490.

The increase in mortgages was partially offset by scheduled payments of principal of \$8,793,117, balloon payments on the Montgomery, IL and Ft. Myers, FL property mortgages of \$7,233,929, and a one-time principal payment of \$394,490 on the Olive Branch, MS property mortgage. In addition, the Company refinanced the existing mortgage on the Tolleson, AZ property with a balance of \$5,169,748 at an interest rate of 5.8% due December 1, 2012. The new \$8,000,000 mortgage, which matures on November 1, 2022, is at a fixed interest rate of 3.95%. The Company is scheduled to repay a total of approximately \$26,304,000 in mortgage principal payments in the next twelve months, consisting of balloon payments of approximately \$7,500,000 and normal monthly amortization payments of approximately \$18,804,000. The Company intends to make these principal payments from the funds raised from the DRIP, draws from the line of credit, cash from operations and refinancings.

Loans payable increased \$12,000,000 from September 30, 2012 to March 31, 2013. The increase was due to a draw on the line of credit of \$12,000,000. As of March 31, 2013, total loans payable of \$17,200,000 consisted of \$12,000,000 outstanding under the Company's current \$20,000,000 line of credit, a \$2,700,000 loan from the Bank of Princeton and a \$2,500,000 loan from Two River Bank.

The renewed facility will mature in June 2016, has a one-year extension option, and will bear interest at LIBOR plus 175 basis points to 250 basis points depending on the Company's leverage ratio. Based on the Company's current leverage ratio, the facility would bear interest at LIBOR plus 200 basis points. The current \$20 million facility does not have an extension option and interest is at LIBOR plus 200 basis points to 250 basis points depending on the amount drawn down on the facility, which is currently at LIBOR plus 200 basis points. The Company expects to close on its renewed credit facility during the third quarter of fiscal 2013. The Company's total net debt to total market capitalization was 29% and the Company's total net debt plus preferred equity to total market capitalization was 42% as of March 31, 2013.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its line of credit or securities margin loans, refinance debt, or raise capital through the DRIP or capital markets.

The Company has been raising capital through its DRIP, registered direct placements and public offerings of common and preferred stock and investing in net leased industrial properties. The Company believes that funds generated from operations and from its public offerings, together with the ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next year.

The Company seeks to invest in well-located, modern buildings, leased primarily to investment grade tenants on long-term leases. In management's opinion, newly built facilities leased to FedEx Corporation (FDX) and its subsidiaries meet these criteria. The Company has a concentration of FedEx Corporation (FDX) and FDX subsidiary-leased properties consisting of thirty-seven separate stand-alone leases. The percentage of FDX leased square footage to the total of the Company's rental space was 41% (10% to FDX and 31% to FDX subsidiaries) as of

March 31, 2013. At the quarter end, no other tenants leased more than 5% of the Company's total square footage with the exception of Milwaukee Electric Tool Corporation which leased 7%. The only tenant that accounted for more than 5% of the Company's total rental and reimbursement revenue for the six months ended March 31, 2013 was FDX and its subsidiaries. Annualized rental and reimbursement revenue from FDX and its subsidiaries is estimated to be approximately 52% (12% to FDX and 40% to FDX subsidiaries) of total rental and reimbursement revenue for fiscal 2013.

FDX and Milwaukee Electric Tool Corporation's ultimate parent, Techtronic Industries Company Limited are publicly-owned companies and information on the business operations and financial condition on each company is readily available to the Company's shareholders.

The Company intends to acquire additional net-leased industrial properties on long-term leases, primarily to investment grade tenants, and expand its current properties when needed. The Company has historically financed purchases of real estate and expansions primarily through mortgages, draws on its

unsecured line of credit and available cash reserves. To the extent that funds or appropriate properties are not available, fewer acquisitions and expansions will be made.

## Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

## Funds From Operations and Core Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts (NAREIT), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (US GAAP), excluding extraordinary items, as defined under US GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-US GAAP supplemental measure of REIT operating performance. Core Funds From Operations (Core FFO), is defined as FFO plus acquisition costs. FFO and Core FFO should be considered as a supplemental measure of operating performance used by REITs. FFO and Core FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO and Core FFO are significant components in understanding the Company's financial performance.

FFO and Core FFO (i) do not represent cash flow from operations as defined by US GAAP; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FFO and Core FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

The Company's FFO and Core FFO for the three and six months ended March 31, 2013 and 2012 is calculated as follows:
