

Edgar Filing: INTERDIGITAL COMMUNICATIONS CORP - Form 8-K

investigation into whether Samsung Electronics Co. Ltd and certain of its affiliates (collectively, "Samsung") engaged in unfair trade practices by importing for sale certain 3G handsets and components that infringe on three of InterDigital's patents. Products identified in the investigation include models SGH-ZX20, SGH-i607 (also known as the "BlackJack(TM)"), SGH-A707 and SGH-ZX10.

The investigation was prompted by a complaint filed by InterDigital on March 23, 2007 in which the company is seeking a permanent exclusion order to bar from entry into the U.S. infringing 3G WCDMA handsets and components that are imported by or on behalf of Samsung. In addition, the complaint asks for a permanent cease and desist order to bar further sales of infringing products that have already been imported into the United States.

The case (No. 337-TA-601) has been referred to ITC Administrative Law Judge Paul J. Luckern, who will schedule and hold an evidentiary hearing followed by an initial determination. The ITC indicated in its press release dated April 23, 2007, that the final determination will be completed "at the earliest practicable time," with a target date being announced within 45 days after the institution of the investigation. As noted in InterDigital's previous press release dated March 23, 2007 relating to the action, typical schedules used by the ITC would result in a trial on the matter by January 2008.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

INTERDIGITAL COMMUNICATIONS CORPORATION
