Stockgroup Information Systems Inc.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Six Months Ended June 30, 2002
(UNAUDITED)

1. NATURE OF BUSINESS AND BASIS OF PRESENTATION

Stockgroup Information Systems Inc. (the "Company") is a financial media and technology company that provides various financial software solutions, tools, content and services to media, corporate, and financial services companies. The Company employs proprietary technologies that enable its clients to provide financial data streams and news combined with fundamental, technical, productivity, and disclosure tools to their customers, shareholders, and employees in a cost effective manner. The Company also provides Internet communications products for publicly traded companies and an online research center for the investment community through its www.smallcapcenter.com financial web site.

The Company was incorporated under the laws of Colorado on December 6, 1994.

The accompanying interim unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month and six-month periods ended June 30, 2002 are not necessarily indicative of the results that may be expected for the year ended December 31, 2002.

The balance sheet at December 31, 2001 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements.

These interim financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the year ended December 31, 2001.

These financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States on a going concern basis, which contemplates the realization of assets and the discharge of liabilities in the normal course of business for the foreseeable future.

The Company incurred a loss before extraordinary items of \$802,272. for the six months ended June 30, 2002, has an accumulated deficit of \$12,848,392, and had a working capital deficiency of \$363,525 as at June 30, 2002. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management has been able, thus far, to finance the losses, as well as the growth of the business, through a series of equity and debt private placements. Management expects that revenues resulting from current operations will increase which should allow the Company to continue profitable operations and positive cash flows in 2002. The Company is continuing to seek other sources of financing in order to grow the business to the greatest possible extent. There are no assurances that the Company will be successful in achieving its goals.

In view of these conditions, the ability of the Company to continue as a going concern is uncertain and dependent upon achieving a profitable level of operations and on the ability of the Company to obtain necessary financing to fund ongoing operations. Management believes that its current and future plans provide an opportunity to continue as a going concern. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

7

2. CONVERTIBLE NOTES

	June 30, 2002	December 31, 2001
Convertible notes, maturing December 31, 2005		
Principal	\$ 1,800,660	\$1,924,000

Interest	--	296,636
Unamortized debt discount	(203,798)	--
Subtotal	\$ 1,596,862	\$2,509,236

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

Current portion	156,660	2,509,236
Long term portion	1,440,202	--

=====

On February 6, 2002 the Company and note holders reached an agreement to restructure the terms and conditions of the existing convertible notes and callable warrants.

The note holders agreed to waive the 15% prepayment premium of \$288,600 and the accrued interest to date of \$315,000 and immediately converted \$100,000 of the principal balance due into 666,700 common shares of the Company at a conversion price of \$0.15. The remaining principal balance of \$1,824,000 matures on December 31, 2005. The notes are non-interest bearing and are convertible into common shares at the option of the holder at any time at a fixed conversion price of \$0.50 through to December 31, 2003. From January 1, 2004 to December 31, 2005, or sooner in the event of a default on any mandatory payment described below, the notes bear interest at 8% and are convertible into common shares at the option of the holder at any time at a conversion price equal to the lesser of (i) the initial conversion price of \$0.50 and (ii) 88% of the average of the 5 lowest closing prices of the Company's common shares during the 30 trading days prior to the date of conversion.

The restructured agreement provides for \$300,000 of mandatory payments through to December 31, 2004. A one-time payment \$100,000 was paid in two parts, of which \$23,340 was paid on June 28, 2002 and \$76,660 was paid on July 12, 2002. Separate payments of \$20,000 are due at the end of each of the following ten quarters through to December 31, 2004. If applicable, the Company will also provide mandatory payments of 20% of the gross proceeds raised from any common stock or common stock equivalent financing in excess of \$2,000,000 in 2002 and 20% of the gross proceeds raised from any common stock or common stock equivalent financing in excess of \$500,000 in 2003.

The restructuring resulted in an extraordinary gain of \$1,088,586 consisting of \$603,600 for the waived prepayment premium and accrued interest, \$247,222 for the repurchase of the beneficial conversion feature and \$237,764 for the debt discount representing the difference between the fair value of the notes at a market interest rate of 8% and the face value of the notes which are non-interest bearing through to December 31, 2003. The debt discount of \$237,764 is subject to accretion over the interest-free period ending December 31, 2003.

The callable warrants permit the holders to acquire up to 181,818 common shares at an exercise price of \$3.00 at any time up to March 31, 2005. The warrants may be called by the Company, at a purchase price of \$.01 per underlying share, if the stock price of the Company's common shares exceeds \$6.00 for any 20 consecutive trading days, provided that the holders have the right to exercise the warrants within 30 days after their receipt of such a call.

3. CONVERTIBLE DEBENTURES

8

On March 15, 2002, the Company and the 3% convertible debenture holders agreed to an amendment to the original Securities Purchase Agreement. The debenture holders agreed to immediately convert the \$200,000 outstanding principal and \$6,904 accrued interest into 413,808 common shares of the Company at the minimum conversion price of \$0.50. The conversion resulted in the immediate recognition of \$135,503 in interest expense related to the previously unamortized debt discount and beneficial conversion feature.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

The Company agreed to modify the existing terms of the Series A and B warrants. The exercise price of the Series A warrants has been reduced from \$1.00 to \$0.25. The exercise price of the Series B warrants has been reduced from \$2.00 to \$0.50. The expiry date for both the Series A and B warrants has been extended to July 31, 2005 from December 31, 2004. The reduction in the exercise price and extension of the expiry date of the warrants is accounted for as an inducement to convert the convertible debentures. The fair value of the warrants after the conversion was \$24,000 greater than the fair value of the warrants prior to conversion and this excess fair value was recorded as interest expense on the conversion date.

4. WARRANTS LIABILITY

The Emerging Issues Task Force Abstract No. 00-19, Accounting for Derivative Financial Instruments Indexed to, and Potentially Settled in, a Company's Own Stock ("EITF 00-19") became applicable to the Company's warrants on June 30, 2001. EITF 00-19 requires the Company to evaluate whether a sufficient number of authorized and unissued shares exists at each reporting date to control settlement by delivering shares. In that evaluation, the Company must compare the number of authorized but unissued shares, less the maximum number of shares that could be required to be delivered under existing convertible debt, stock option and warrant agreements with the maximum number of shares that could be required to be delivered on net share settlement of the warrants. If the Company does not have a sufficient number of authorized but unissued shares at the reporting date then the share settlement is not within the control of the Company and the warrants will be presented as a liability.

As at December 31, 2001, the Company could not demonstrate they had a sufficient number of authorized but unissued shares to share settle all of the outstanding warrants if exercised and the \$110,000 fair value of the warrants was classified as a current liability. As a result of the February 6, 2002 restructuring of the convertible notes and callable warrants, the Company could demonstrate they had a sufficient number of authorized but unissued shares to settle all of the outstanding warrants if exercised and the \$165,000 fair value of the warrants was reclassified as equity. The \$55,000 difference between the fair value on December 31, 2001 and February 6, 2002 was recorded as a loss on warrants liability in the statement of operations.

5. SHARE CAPITAL

The Company is authorized to issue up to 75,000,000 shares of common stock and 5,000,000 shares of preferred stock.

At June 30, 2002, in addition to the 15,875,768. common shares outstanding, there were also 2,593,200. stock options and 3,331,818. warrants outstanding.

Issues of common shares and common share equivalents for the six month period ended June 30, 2002 are summarized as follows:

On February 6, 2002, the Company issued 666,700 common shares pursuant to a conversion of \$100,000 of principal under the restructured convertible notes as discussed in Note 2.

9

On February 25, 2002, the Company issued 33,000 common shares to an employee for services rendered. The transaction was recorded at a fair value of \$7,500 based on the closing stock price on the date of the agreement.

On March 5, 2002, the Company issued 500,000 common shares to a consultant

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

pursuant to a service contract. The transaction was recorded at a fair value of \$107,500 based on the closing stock price on the date of the agreement.

On March 16, 2002, the Company issued warrants to purchase 250,000 common shares to a management consultant pursuant to a services agreement. The warrants have an exercise price of \$0.30 and expire on September 15, 2003. The \$60,000 fair value of the warrants issued was estimated using the Black-Scholes option pricing model and was recorded as an expense in the first quarter 2002.

On March 25, 2002, the Company issued 413,808 common shares pursuant to a conversion of the final \$206,904 in principal and accrued interest of the convertible debentures as amended, discussed in Note 3.

On March 28, 2002, the Company completed a placement of 2,000,000 units at \$0.20, each unit consisting of one common share and one warrant, plus 51,000 common shares, for gross proceeds of \$410,200. Financing fees were \$19,280, resulting in net cash proceeds of \$390,920. Each warrant entitles the holder to acquire one common share at \$0.25 per share until March 31, 2003. The net proceeds were allocated to common stock and warrants based on the relative fair value of each security at the time of issuance.

On June 28, 2002, the Company issued 2,080,000 common shares with a fair value of \$424,320 to Stockhouse Media Corporation pursuant to an asset purchase agreement. The shares are being held in escrow until certain terms of the agreement are met.

Stock Options

The Company's 1999, 2000, 2001, and 2002 Stock Option Plans (collectively the "Plans") authorize a total of 5,000,000 common shares for issuance. Activity under the Plans is set forth below.

	Shares available for grant	Options Outstanding	
		Number of shares	Price per share
Balance at December 31, 2001	391,156	2,415,900	\$0.01 - 2.75
Additional shares authorized	1,500,000	--	--
Options granted	(1,525,500)	1,525,500	0.15 - 0.40
Options forfeited	815,200	(815,200)	0.31 - 2.75
Options exercised	--	(533,000)	0.23 - 0.25
Balance at June 30, 2002	1,180,856	2,593,200	\$0.01 - 2.50

Warrants

As at June 30, 2002, common stock issuable pursuant to warrants outstanding is as follows:

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

	Warrants Outstanding At January 1, 2002 #	Warrants Issued #	Warrants Exercised #	Warrants Cancelled #	Warrants Outstanding at June 30, 2002 #	Exercise Price \$
Series 1	300,000	--	--	18,182	281,818	3.00
Series 3A	500,000	--	--	--	500,000	0.25
Series 3B	300,000	--	--	--	300,000	0.50
Series 4	--	2,000,000	--	--	2,000,000	0.25
Series 5	--	250,000	--	--	250,000	0.30
	1,100,000	2,250,000	--	18,182	3,331,818	

6. SEGMENTED INFORMATION

SFAS No. 131, Disclosure about Segments of an Enterprise and Related Information, requires a public business enterprise to report financial and descriptive information about its reportable operating segments. The Company has concluded that its business activities fall into one identifiable industry segment with the following sources of revenue:

	For the three months ended June 30, 2002 June 30, 2001		For the six months ended June 30, 2002 June 30, 2001	
Public Company Disclosure and Awareness Products	\$242,190	\$356,574	\$ 527,366	\$ 787,000
Financial Software and Content Systems	165,513	122,277	322,578	232,635
E-business Solutions	--	37,167	--	601,743
	\$407,703	\$516,018	\$ 849,944	\$1,621,378

During the first six months of 2002, the Company had one customer from whom revenue received by the Company represented approximately 11% of total revenue. During the first six months 2001, the Company had two customers from whom revenue received by the Company represented approximately 46% of total revenue. No other customers represented greater than 10% of revenue.

7. COMMITMENTS AND CONTINGENCIES

The Company is currently involved in litigation with a customer to collect amounts owing pursuant to a contract entered into in September 2000. The defendant provided a \$100,000 deposit and contracted the Company to provide certain advertising services. The Company delivered the requested services throughout October and November 2000; however, the defendant defaulted on all additional payments. The Company is suing the defendant for the \$351,800 balance owing, plus interest and costs. The defendant has filed a statement of defense and counterclaim to recover the \$100,000 deposit. No court date has been set at this time. Although management currently believes the outcome of the litigation will be in the Company's favour, they have not elected to aggressively pursue

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

the litigation at this time. The Company has made no provision for the counterclaim in the financial statements and any settlement or final award will be reflected in the statement of operations as the litigation is resolved.

11

8. ASSET ACQUISITION

On June 24, 2002, the Company acquired certain website and related software assets of Stockhouse Media Corporation ("Stockhouse"). Under the terms of the agreement, the Company purchased a 65% interest in the assets by issuing 2,080,000 shares of unregistered common stock with a fair value of \$424,320. The assets acquired are program source codes underlying the website, which are classified as software, for \$347,122, and prepaid operating costs of \$77,198.

Presently, an unrelated third party investor is also considering an investment in Stockhouse that would effect certain terms and conditions of the Company's agreement with Stockhouse. If the third party invests in Stockhouse, then the Company would maintain its 65% interest in the acquired assets but would then have the option to acquire the remaining 35% during the period of one year following June 24, 2004. During the same period, Stockhouse would also have the option to cause the Company to purchase the remaining 35% interest.

If the third party does not invest in Stockhouse, then the Company will immediately acquire the remaining 35% of the website and related software assets of Stockhouse with the issuance of additional common shares. As per the terms of the agreement, the number of common shares to be issued for the remaining 35% shall not be less than 920,000 shares and not more than 1,120,000 shares.

The third party has a deadline of September 30, 2002 to decide whether or not to invest in Stockhouse.

The original 2,080,000 common shares were issued into an escrow account on June 28, 2002 and will be released to Stockhouse on the date the third party investor makes its decision.

9. SUBSEQUENT EVENT

Stockgroup has an informal agreement with the holders of the 16% notes payable due July 31, 2002 for \$109,855, to extend the maturity date and continue the interest accrual.

Item 2. Management's Discussion and Analysis of Financial Condition and Results Of Operations

RESULTS OF OPERATIONS - SIX MONTHS ENDED JUNE 30, 2002 AND JUNE 30, 2001

The results of the first half of 2002 are a product of our continued focus on improving the balance sheet and obtaining high quality sales customers and partners for our Financial Software and Content Systems. Near the end of the second quarter we acquired the Stockhouse website in a non-cash transaction which added to the already improved balance sheet from the first quarter. Overall sales are down from the first half of 2001, but operating loss has improved. Like most companies who are involved in the financial markets, our business has been negatively affected by the downturn in the stock market, particularly in recent months.

The decrease in revenue is primarily due to the reduction in E-Business Solutions revenue, which we discontinued early in 2001. We spent some time during the first half of 2002 on improvements to our balance sheet, as we felt

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

it necessary to restructure and reduce our convertible debt, as well as raise capital to support future growth. We accomplished all of these balance sheet improvements in the quarter, including restructuring our 8% convertible notes, converting the balance of our 3% convertible debentures into shares, and raising \$0.410 million in a private placement financing. These three events are further described in Notes 2 through 5 to the financial statements.

12

Near the end of Q2 we added another significant improvement to our business, acquiring the Stockhouse website and software systems in exchange for common shares. This adds a significant asset to our balance sheet with no corresponding debt. This acquisition is also expected to improve our profitability going forward.

Besides the improvements to the balance sheet, we also established new sales partnerships with two high quality and high potential financial and media companies to sell our Financial Software and Content Systems. Despite the adversity of a temporary lull in interest in the stock markets, we have continued to acquire long-term customers and to develop products and strategies which should help our future profitability.

Revenue and Gross Profits

Total revenues in the first six months of 2002 were \$0.850 million compared to \$1.621 million in the first six months 2001, a decrease of \$0.771 million, or 48%. Our Public Company Disclosure and Awareness Products revenue was \$0.527 million compared to \$0.787 million in the first six months 2001, a decrease of \$0.260 million or 33%. Financial Software and Content Systems revenue was \$0.323 million compared to \$0.233 million in the first six months 2001, an increase of \$0.090 million or 39%. E-Business Solutions revenue was nil in the first six months 2002 compared to \$0.602 million a year earlier. We have chosen not to actively pursue E-Business Solutions business since the second quarter of 2001 in favour of revenue streams which carry more potential profitability in the long term, namely Financial Software and Content Systems and Public Company Disclosure and Awareness Products.

Gross profits in the first six months of 2002 were \$0.516 million compared to \$0.886 million in the first six months 2001, a decrease of \$0.370 million, or 42%. Gross profits as a percentage of sales, however, increased from 54.6% in the first six months 2001 to 60.8% in 2002.

We are continuing to provide innovative products in our Public Company Disclosure and Awareness Products line, and the IntegratIR sales remain strong, delivering high value to customers. The decrease in total Public Company Disclosure and Awareness Products sales is due in large part to a general slowdown in public company investor communication spending on most other products. Historically, many of our Public Company Disclosure and Awareness Products customers have come from the technology sector, and the slowdown in this sector has caused considerable attrition, especially with small cap and micro cap companies. We have been diversifying our target market for some time in order to be less dependent on any one sector. As well, sales and marketing efforts have been increased in this area late in the quarter, mainly through our attendance at carefully selected trade shows and improving our sales force.

Financial Software and Content Systems continues to be a strong contributor to our overall revenue and gross profits. Our process has matured over the past year, and we are able to efficiently deliver high quality services to customers for a fraction of the cost to customers of having it done internally. We have

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

established relationships with major sales channels, media networks, and financial companies, and have seen significant results already, and expect to see more in the near future. Financial Software and Content Systems revenue was up this six month period 39% over the same period a year ago. All of this revenue is contractual, typically in 12-month terms, so we have a solid base of revenue in this area to grow from.

E-business Solutions revenue for the first six months of 2001 was mainly derived from work on a financial leasing exchange for a single client. Since that contract, which ended in the first quarter of 2001, we have chosen not to pursue further contracts of this nature. As a result, our revenue from this segment was nil in the first six months of 2002. We have instead decided to focus our energy on more stable, predictable revenue streams, which ultimately will be more profitable, such as Public Company Disclosure and Awareness Products and Financial Software and Content Systems.

13

Operating Expenses

Total operating expenses in the first six months of 2002 were \$1.044 million compared to \$1.624 million in the same six months last year, a decrease of \$0.580 million or 36%. This decrease was a result of the reductions in all areas of expenditures that we made in 2001 and continued in 2002. We have stabilized our operating expenses at a level which will enable us to grow our sales efficiently, thereby generating the greatest return on investment.

Sales and Marketing expenses were \$0.230 million in the first six months of 2002 compared to \$0.346 million in the first six months 2001, a decrease of \$0.116 million, or 34%. This decrease is due in large part to a decreased emphasis on broad-scope advertising for our advertising community, Smallcapcenter. We also reduced the costs associated with our New York and Dallas sales centers by centralizing sales in our head office, where maximum synergy can be attained.

Product Development expenses in the first six months of 2002 were \$0.037 million compared to \$0.150 million in the first six months 2001, a decrease of \$0.113 million, or 75%. As our business has matured, product development has naturally taken a lesser role. Our staff is more experienced, and our processes for developing new products are streamlined so that overall development costs are minimized.

General and Administrative expenses in the first six months of 2002 were \$0.777 million compared to \$1.129 million in the first six months 2001, a decrease of \$0.352 million, or 31%. Expenses steadily declined during 2001 and have stabilized in 2002 at a level that can generate the maximum return on investment. The most notable cuts have been in payroll, which is our largest expense category. We have also eliminated our premises costs in New York and Dallas.

Other Income (Expense) and Income Taxes

Interest expense in the first six months of 2002 was \$0.222 million compared to \$0.198 million in the first six months 2001, an increase of \$0.024 million, or 12%. Of the amount for the first six months of 2002, \$9,881 is cash interest, either already paid or payable after the quarter end. The remaining interest is non-cash interest arising out of the 8% convertible notes and the 3% convertible debentures. Upon restructuring of the 8% convertible notes, there was a non-cash interest expense of \$18,364, plus amortized debt discount in Q2 of \$33,966. Upon

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

conversion of the remaining balance of the 3% convertible debentures there was a total non-cash interest expense of \$160,209.

Loss on warrants liability of \$55,000 was a result of the increase in the fair value of the Company's 300,000 callable warrants and 800,000 other warrants immediately before the February 6, 2002 restructuring of the 8% convertible notes as described in Notes 2 and 4 to the financial statements.

Income taxes were nil in both the first six months 2002 and the same six months 2001. Due to our net loss position, we did not incur tax in the first six months of 2002. As at the most recent year end, Stockgroup had tax loss carry forwards of \$5,751,000 in Canada which expire in 2006, 2007, and 2008, and tax loss carry forwards of \$2,916,000 in the U.S. which expire in 2019, 2020, and 2021.

Extraordinary Gain was \$1,088,586 for the first six months 2002 and nil in the first six months 2001. The extraordinary gain was a result of the February 6, 2002 restructuring of the Company's 8% convertible notes, as described in Note 2 to the financial statements.

Net Income

The net income for the first six months of 2002 was \$0.286 million compared to a loss of \$0.495 million in the first six months 2001, an increase of \$0.781 million or 158%.

14

LIQUIDITY AND CAPITAL RESOURCES

Stockgroup ended the second quarter of 2002 with cash and cash equivalents of \$146,307, a decrease of \$110,324 from March 31, 2002. This compares with net cash increases of \$130,013 in Q1 2002, \$19,062 in Q4 2001 and \$14,698 in Q3 2001. Although we expect to generate positive cash flow from operations, we will pursue financing to improve our working capital position and to grow the business to the greatest possible extent.

Our income from operations in Q3 and Q4 2001 contributed to our improved cash flow during fiscal 2001. Added to that, in the first six months of 2002, three events took place which should further solidify our cash position going forward. They are the restructuring of certain convertible notes, the conversion of certain convertible debentures, and the raising of \$410,200 in a private placement. The restructuring of \$1,924,000 in convertible notes removed a discount to market conversion factor which, in our opinion, was inhibiting further investment in Stockgroup. The restructuring, which can be referenced in our 8-K filing on February 15, 2002, removed a great deal of the uncertainty as to the timing of cash payments relating to this debt, and eliminated the interest and prepayment penalties which had been accrued. The second event, the conversion of \$206,904 in convertible debentures and accrued interest on March 15, 2002 into common stock at \$0.50 per share improved our balance sheet. The third event, the raising of \$410,200 in a private placement, added working capital which will be used to grow the business. This financing also included warrants with an exercise value of \$500,000 if they are exercised, although there can be no assurance that this will happen within their 12 month life. The warrants issued with the 3% convertible debentures, if exercised, would provide an exercise value of \$275,000, and the warrants issued with the restructured convertible notes, if exercised, would provide an exercise value of \$845,454. The exercise of warrants is the decision of the warrant holders, so there can be no assurance that any warrants will be exercised.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

Despite these significant improvements, we will continue to pursue further financing opportunities during 2002, as we believe more working capital would give us more leverage to maximize our capacity for growth.

You should be cautioned that there can be no assurance that revenue, margins, and profitability will increase. In addition, we have cash payments due to certain of the noteholders on September 30, 2002, December 31, 2002, and at the end of each of the next 8 quarters after that. To the extent that either of these possibilities seriously depletes cash levels, we may need to seek additional capital. If we do, there can be no assurance that we will be successful in raising a sufficient amount of additional capital or in internally generating a sufficient amount of capital to meet long-term requirements. If we are unable to generate the required amount of additional capital, our ability to continue as a going concern is in substantial doubt.

CORPORATE DEVELOPMENTS DURING THE PERIOD

A synopsis of corporate highlights for 2002 is as follows:

1. On February 11, 2002, we announced an agreement with Freedom Communications, a large private media company with publications and websites throughout the U.S., to provide our Financial Software and Content Systems to its websites.
 2. On February 6, 2002, we restructured the 8% convertible notes with Deephaven Private Placement Trading Ltd. and Amro International, S.A. Under the restructuring, the interest rate and prepayment penalties are reduced to zero, accrued interest has been waived, the conversion price is fixed at \$0.50, and a total of up to \$300,000 cash is required to be paid to the noteholders over 10 quarterly installments starting June 30, 2002. The new notes have a two-year term with renewal provisions for another two years. We filed a form 8-K on February 20, 2002 which fully describes the restructured notes.
- 15
3. On February 21, 2002, we announced an agreement with The Canadian Press (CP) in which CP will re-sell our Financial Software and Content Systems. This agreement will give CP exclusive re-distribution rights for Canada.
 4. On March 15, 2002, we and the remaining noteholders from the January 19, 2001 3% convertible debenture reached an agreement whereby they would convert the \$0.2M balance of the debt into common shares at \$0.50 per share. The exercise price of the Series A warrants has been reduced from \$1.00 to \$0.25. The exercise price of the Series B warrants has been reduced from \$2.00 to \$0.50. The expiry date for both the Series A and B warrants has been extended to July 31, 2005.
 5. On March 19, 2002, we announced an agreement with Credential Group in which Credential Group would license our Financial Software and Content Systems, and offer our products to its more than 450 credit union partners across Canada.
 6. On March 25, 2002, we completed a \$0.410M financing with 22 unaffiliated investors pursuant to a Subscription Agreement. The funding included 2,000,000 units consisting of one common share and one warrant each, at a price of \$0.20 per units, plus 51,000 common shares at a price of \$0.20 per share. The warrants have an exercise price of \$0.25 and an expiry date of March 31, 2003. The full details of this financing, including all relevant documents, were filed in a Form 8-K on March 26, 2002 and can be viewed therein.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

7. On April 16, 2002, we announced our licensing agreement with Ladenburg Thalmann in which they would license our Financial Software and Content Systems for use in their full service investment banking and brokerage operations.

8. On June 24, 2002, we completed an agreement with Stockhouse Media Corporation, in which we acquired certain of Stockhouse's assets. On June 28, 2002, we issued 2,080,000 common shares to Stockhouse as part of the agreement. The shares are being held in escrow until certain terms of the agreement are met. We filed a form 8-K on July 11, 2002 which fully describes the agreement.

DESCRIPTION OF BUSINESS MODEL

GENERAL

We are a financial media and technology company. Our revenue streams can be categorized into two areas:

- Financial Software and Content Systems,
- Public Company Disclosure and Awareness Products

The clients for Financial Software and Content Systems are primarily enterprise companies from many different markets, such as media, banks and credit unions, stock brokerages, insurance, and others. Public Company Disclosure and Awareness Products are awareness and disclosure products that are purchased by public companies in all industries. See PRODUCTS AND SERVICES below for a full description of these revenue streams.

CORPORATE BACKGROUND

Stockgroup was incorporated under the laws of Colorado on December 6, 1994 under the name I-Tech Holdings Group, Inc. ("I-Tech"), a United States non-operating company registered on the NASD OTC Bulletin Board. The financial statements and supporting information in this report are issued under the name of Stockgroup but are a continuation of the financial statements and report of operations of Stock Research Group, Inc. ("SRG"), a British Columbia corporation which was incorporated on May 4, 1995. On March 11, 1999, pursuant to a reverse acquisition, SRG acquired the net assets of I-Tech. For accounting purposes, SRG became a subsidiary of I-Tech.

16

Our name was changed from I-Tech to Stockgroup.com Holdings Inc. on May 6, 1999 and to Stockgroup Information Systems Inc. on September 20, 2001.

We are a United States publicly traded company registered on the NASD OTC Bulletin Board under the symbol SWEB. From our head office in Vancouver, we operate branch offices in San Francisco and Toronto.

As SRG, we operated from 1995 to 1997 as a profitable financial Internet technology and media company that offered proprietary financial news and tools to investors and companies. We used our experience and the funds from a public offering in spring 1999 to provide the foundation for the development and initial marketing of our products. In October 1999 we launched Smallcapcenter.com. At that time it was widely believed that a subscription/advertising model centering around Smallcapcenter was viable. While parts of this business model did not prove to be profitable, the building of Smallcapcenter and its related investment software and content aggregation & management systems gave us a strong foundation of skills and a suite of products to sell commercially. Smallcapcenter is still a high-traffic and well-maintained portal for the investment community, and its drawing power is a key driver to

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

many of our investor awareness products. It also serves as an excellent development and testing ground for new financial software applications being developed by us on a continuing basis.

From late 1999 to early 2001 we were hired to create several large enterprise web sites for different clients on a contract basis. These were large contracts, and added a significant amount of revenue to the Company, but they also added instability in our cost structure. In early 2001 it was decided that this E-Business Solutions division would be de-emphasized in favour of other areas with more profit potential, namely Financial Software and Content Systems and Public Company Disclosure and Awareness Products (as described in the PRODUCTS AND SERVICES section below).

From 2000 to 2001, we expanded our awareness and disclosure product line to include Sector Supplements, and automated investor relations software applications such as the IntegratIR. We already had a large public company customer base, so the transition into this area was a natural extension of our core competencies.

We entered the Financial Software and Content Systems market late in 2000 by licensing our proprietary financial software applications and third party content to customers that need to offer financial information to their customers or improve their content offering. We had access to a wide array of customers through our internal sales team as well as our reseller channels. Our software content model is attractive to customers because it is a comprehensive and cost effective alternative to in-house development.

Early in 2001, as the market for our products and services evolved, it became apparent to our management where the most profitable and sustainable areas of the business were. They were Financial Software and Content Systems and Public Company Disclosure and Awareness Products (including IntegratIR and other awareness and disclosure products). Once these were identified, a more streamlined and stable cost structure was introduced to improve profitability and cash flow.

On June 24, 2002, we acquired the Stockhouse website and related assets. These assets added a new dimension to our business, that being a high-traffic, highly recognized financial community. We immediately went to work marketing products and services which leverage the Stockhouse assets.

PRODUCTS AND SERVICES

Our understanding of internet based financial technology and media has enabled us to leverage our products and services to enter new markets and secure new clients. Using a common integrated technology platform, we have developed two main revenue sources: Financial Software and Content Systems and Public Company Disclosure and Awareness Products.

17

FINANCIAL SOFTWARE AND CONTENT SYSTEMS

We have developed proprietary financial applications and tools we license to clients. The clients for Financial Software and Content Systems are from many different markets, such as media, banks and credit unions, stock brokerages, leasing, insurance, and other financial services companies.

We provide Financial Software and Content Systems on a private-labeled basis, and they are typically sold on long term (twelve-month or more) contracts, generating recurring revenue streams. Many of the software applications are

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

data-feed driven. We either feed data from our own aggregated databases or from third parties. The advantage of using the Stockgroup system is that the customer is able to receive data and information from a variety of different feeds all from one point of contact, at a fraction of the cost of purchasing all feeds individually. We add value by customizing, filtering, and sorting data in the configuration the customer wants, and then adding the different software applications and hosting the entire solution. We are able to use our economies of scale and automation to give a product that is efficiently delivered and customized, and at a substantial costs savings to having the customer build and manage it internally.

Examples of some of the providers of third-party data feeds include Marketguide, Comtex, Multex, and North American Quotations.

We distribute Financial Software and Content Systems through content and application syndicates, such as Yellowbrix, through channel resellers such as The Canadian Press, Comtex News Network, Clarinet Communications, and through its own sales team. These Financial Software and Content Systems cover the entire North American market including mutual funds, commodities, and equities.

We bring in market feeds through satellite, File Transfer Protocol (FTP), Extensible Markup Language (XML), and other delivery formats. We have built and maintain our proprietary middleware solution that aggregates the multiple feeds, translates and builds a common database infrastructure. Our system then cleans, filters, and maintains the data in a common database structure. A sophisticated server cluster and security system backs this content/data management system. The data is then streamed to our proprietary software applications.

Here are just a few of the over 25 Financial Software and Content Systems products:

- o Real-time stock quotes on major U.S. exchanges
- o North American 20-minute delayed stock quotes and indices
- o Portfolio management, live portfolio updates and wireless portfolio updates
- o Most active stock updates
- o Stock watch lists
- o Company fundamentals, SEC/SEDAR filings
- o Daily stock market winners/losers, most actives
- o Company profiles, stock screening (investment data) and technical stock analysis
- o Employee stock option calculations

The Financial Software and Content Systems is delivered to customers in four different formats:

On an Application Service Provider (ASP) basis where the content and software is hosted by us and private-labeled to the customers Internet or Intranet site Through our proprietary software objects residing on the customer's servers which use a proprietary Application Protocol Interface (API) to retrieve data from our servers Through secured Extensible Markup Language (XML) channel

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

Through different wireless devices and modes including: handheld devices, Short Message Service (SMS) paging, and Wireless Application Protocol (WAP) portals which have been built and maintained by us.

PUBLIC COMPANY DISCLOSURE AND AWARENESS PRODUCTS

We have developed and own a large array of Public Company Disclosure and Awareness Products. These products are used by clients to either a) manage their investor relations and shareholder communications through their web site, b) generate awareness for their company, or c) improve their public disclosure compliance.

Products and services offered by this revenue stream include the IntegratIR software system, Investor Marketplace, E-Mail Distribution of Press Releases, Sector Supplements, Smallcap Express sponsorship, Banner and Button Advertising, Monthly Investor Marketing, Custom Web Site Development, and other online investor marketing products.

Public companies are increasingly outsourcing these activities because they lack the internal skills and resources or because it is more effective and cost efficient than in-house development and maintenance. We offer a 'one-stop shopping' package for corporate clients and provide everything from news release tracking and postings to quarterly streaming conference calls. Our understanding of this market segment and focus has resulted in a highly specialized bundle of products including: private label quotes, charts and database tools for building relationships with shareholders and traffic reports to track investor usage of Web sites and inquiries.

In the third quarter of 2001 we launched version 2.01 of the IntegratIR, an automated financial application that is licensed to public companies. The IntegratIR updates the clients' regulated investor relations information automatically by private labeling this software application into the clients corporate web site. The SEC has mandated fair disclosure policies that make our IntegratIR especially attractive as it updates news releases, webcasts and SEC filings direct from the wire services as they happen and automatically sends the information to the client's shareholders and interested parties. The IntegratIR helps to prevent mistakes and increase timeliness compared to having internal staff manually update these activities.

Our IntegratIR system represents a way to manage shareholder communications and reach new investors. The IntegratIR is an investor relations web page and email management system that functions as a software application - giving the Investor Relations Officer (IRO) and Chief Financial Officer (CFO) desktop control over the investor relations portion of their web site. In addition to standard features, such as dynamic quotes and charts, the IntegratIR provides powerful new tools that automate the client's online disclosure activities including publishing their press releases, publishing of regulatory filings and distributing information requested by shareholders, all on a real-time, automated basis.

Other Public Company Disclosure and Awareness Products include the following:

Investor Marketplace (IMP), a web page which is actively marketed through advertising to draw readers, where companies can be featured online to prospective investors. Being featured on the IMP enables customers to get their name, profile, and internet link in front of a large investor audience that they may not otherwise be able to attain.

Targeted e-mail marketing, which is used to disseminate news releases to an exclusive list of opt-in investors and interested parties.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

Sector Supplements, which are a spotlight feature on a certain industry sector, such as Energy, Mining, Biotech, or Technology, are an effective exposure tool for companies. In a Sector Supplement, investors are drawn to a web site which features up to twelve companies and contains industry-specific news and information. Investors who visit this

19

web site can view each of the featured companies' profiles, request information, or link directly to the client's own web site.

Sponsorship of the Smallcap Express daily market recap mailing that goes to a large audience of e-mail readers who have signed up to receive it through Smallcapcenter.com. A client who sponsors Smallcap Express gets an advertising banner at the top of each flight. This can be an effective way for the client to get their name in front of a large number of investors.

Banner Advertising and Button Advertising, which is shown at the top of Smallcapcenter.com's front page on a prescribed rotation, is another way for clients to get the attention of a targeted investor audience. Potential investors who see the banner or button ad can 'click through' the ad to get to a jump page which can include the client's own description of their company.

The products developed by us over the past five years enable us to offer Public Company Disclosure and Awareness Products to a rapidly growing customer base while maintaining a high sales margin. The revenues derived from this source are typically contractual over a specified term. The Internet communities developed by Stockgroup host the critical mass to ensure a high level of exposure to the Company's communication products for public companies.

SHARE PRICE AND VOLUME DATA

The Company's Common Stock has been quoted for trading on the OTC Bulletin Board since March 17, 1999. The following table sets forth high and low bid prices for the Common Stock for the three-month periods ended June 30, September 30, December 31, 2001, March 31, and June 30, 2002. These prices represent quotations between dealers without adjustment for retail markup, markdown or commission and may not represent actual transactions.

Quarter Ended:	High	Low	Volume
June 30, 2001	\$ 0.650	\$ 0.280	2,840,800
September 30, 2001	\$ 0.390	\$ 0.090	1,105,300
December 31, 2001	\$ 0.200	\$ 0.115	1,977,800
March 31, 2002	\$ 0.400	\$ 0.140	5,509,300
June 30, 2002	\$ 0.230	\$ 0.150	2,734,400

On June 30, 2002, the Company had 71 registered shareholders owning 15,875,768 shares.

DIVIDENDS

The Company has not declared any dividends since inception, and has no intention of paying any cash dividends on its Common Stock in the foreseeable future. The payment by the Company of dividends, if any, in the future, rests with the discretion of its Board of Directors and will depend, among other things, upon the Company's earnings, its capital requirements and its financial condition, as well as other relevant factors.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

We filed a statement of claim in the Supreme Court of British Columbia on January 3, 2001, against Pacific Capital Markets Inc., James King, Rick Jeffs, and Heidi Hirst. We are suing Pacific Capital Markets Inc. for \$351,800 due to it under a sales contract we signed with them on September 20, 2000. We are suing the individuals named above, who are managers of Pacific Capital Markets Inc., for general damages for misrepresentation. We are seeking payment of the \$351,800 owing, plus interest, damages, costs and such further and other relief as deemed suitable by the court.

On January 12, 2001, Pacific Capital Markets Inc., James King, Rick Jeffs, and Heidi Hirst filed a Statement of Defense and Counterclaim. At the time of this filing, no settlement conferences have been held and no court date has been set.

As of August 5, 2002, no further action had been taken by either side. While we believe we have a strong case, we have not elected to aggressively pursue this litigation at this time, pending further information on the collectibility of the debt.

Item 2. Changes in Securities and Use of Proceeds

On February 6, 2002, we restructured our 8% convertible notes. This transaction is fully described in Note 2 to the financial statements, included herein.

On March 15, 2002, the holders of our 3% convertible debentures converted the final \$200,000 of principal and \$6,904 of accrued interest into 413,808 common shares. This transaction is fully described in Note 3 to the financial statements, included herein.

On March 28, 2002, we completed a placement of 2,000,000 units at \$0.20, each unit consisting of one common share and one warrant, plus 51,000 common shares, for gross proceeds of \$410,200. This transaction is fully described in Note 5 to the financial statements, included herein.

On June 24, 2002, we acquired certain of Stockhouse's assets. On June 28, 2002, we issued 2,080,000 common shares to Stockhouse as part of the agreement. The shares are being held in escrow until certain of the covenants of the agreement are met. We filed a form 8-K on July 11, 2002 which fully describes the agreement.

Other equity transactions for the period are fully described in Note 5 to the financial statements, included herein.

Item 6. Exhibits and Reports on Form 8-K

(a) Reports on Form 8-K

On February 20, 2002, we filed an 8-K regarding the restructuring of the 8% convertible notes issued on April 3, 2000. This restructuring is described completely in Note 2 to the financial statements included herein.

On March 26, 2002, we filed an 8-K regarding our \$0.410M private placement which is described in Note 5 to the financial statements included herein.

Edgar Filing: STOCKGROUP INFORMATION SYSTEMS INC - Form 10QSB

On July 11, 2002, we filed an 8-K regarding our acquisition of certain assets of Stockhouse Media Corporation.

No other reports on form 8-K have been filed in 2002.
