SECURITIES REGISTERED PURSUANT TO SECTION 12(g) OF THE ACT: None

Indicate by check mark whether the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.
Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.
Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

EXPLANATORY NOTE - AMENDMENT

ArvinMeritor, Inc. (the “company” or “ArvinMeritor”) is filing this Form 10-K/A to include in its Annual Report on Form 10-K for the fiscal year ended September 30, 2007 (the “Annual Report”), pursuant to Rule 3-09 of Regulation S-X under the Securities Exchange Act of 1934, financial statements and related notes of Automotive Axles Limited (“AAL”), an unconsolidated joint venture in which the company owns a 35.52% interest.

Rule 3-09 of Regulation S-X provides that if a 50% or less owned person accounted for by the equity method meets the first or third condition of the significant subsidiary tests set forth in Rule 1-02(w), substituting 20% for 10%, separate financial statements for such 50% or less owned person shall be filed. AAL did meet such test as of and for the year ended October 2, 2005 and the company has included in this Form 10-K/A the required audited financial statements for those periods. However, as AAL did not meet the significance test as of and for the years ended September 30, 2007 and October 1, 2006, ArvinMeritor is only required to file unaudited financial statements for that period. ArvinMeritor has included in this Form 10-K/A AAL’s unaudited financial statements for the years ended September 30, 2007 and October 1, 2006. Item 15 is the only portion of the Annual Report being supplemented or amended by this Form 10-K/A.

AAL’s financial statements are prepared in accordance with accounting principles generally accepted in India, a basis of accounting other than U.S. GAAP. Since AAL did not meet a 30% significance test set forth in Rule 3-09, the financial statements include a narrative description of differences between these two bases of accounting.

Additionally, in connection with the filing of this Form 10-K/A and pursuant to Securities and Exchange Commission (“SEC”) rules, ArvinMeritor is including currently dated certifications. This Form 10-K/A does not otherwise update any exhibits as originally filed and does not otherwise reflect events occurring after the original filing date of the Annual Report. Accordingly, this Form 10-K/A should be read in conjunction with ArvinMeritor’s filings with the SEC subsequent to the filing of the Annual Report.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

(a) Financial Statements, Financial Statement Schedules and Exhibits.

(1) Financial Statements.

ArvinMeritor

The following financial statements and related notes were filed as part of the Annual Report filed with the SEC on November 19, 2007 (all financial statements listed below are those of the company and its consolidated subsidiaries):

Consolidated Statement of Operations, years ended September 30, 2007, 2006 and 2005.

Consolidated Balance Sheet, September 30, 2007 and 2006.

Consolidated Statement of Cash Flows, years ended September 30, 2007, 2006 and 2005.

Consolidated Statement of Shareowners’ Equity, years ended September 30, 2007, 2006 and 2005.

Notes to Consolidated Financial Statements.

Report of Independent Registered Public Accounting Firm.

Meritor WABCO

The following financial statements and related notes of Meritor WABCO Vehicle Control Systems were filed as part of Amendment No. 1 on Form 10-K/A filed with the SEC on December 20, 2007:

Financial Statements as of and for the Year Ended September 30, 2007 (Unaudited).

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

Financial Statements as of and for the Year Ended September 30, 2006 and 2005, and Independent Auditors' Report.

Automotive Axles Limited

The following financial statements and related notes of Automotive Axles Limited are included in this Form 10-K/A pursuant to Rule 3-09 of Regulation S-X:

Financial Statements as of and for the Years Ended September 30, 2007 and 2006 (Unaudited)

Financial Statements as of and for the Year Ended September 30, 2005 and Independent

Auditors' Report

30TH SEPTEMBER 2007 AND 2006 (UNAUDITED)
All amounts in Indian Rupees (Rs.), unless otherwise stated
SCHEDULE 18

NOTES FORMING PART OF ACCOUNTS

1. Significant Accounting Policies

a) Accounting Convention

The financial statements are prepared under the historical cost convention, on the accrual basis of accounting, to comply in all material respects with the mandatory accounting standards issued by the Institute of Chartered Accountants of India and requirements in the Indian Companies Act, 1956.

b) Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires that the management makes estimates & assumptions that affect the reported amount of assets & liabilities, disclosure of contingent liabilities as at the date of financial statements & reported amounts of revenue & expenses during the reported period. Actual results could differ from those estimates.

c) Fixed Assets and Depreciation

(i) Fixed Assets

Fixed assets are stated at cost (net of CENVAT) less accumulated depreciation. Cost includes all costs relating to the acquisition and installation of fixed assets including interest on borrowings for the project / fixed asset till the date of commercial production or the assets are put in use.

Expenditure on reconditioning of machinery is capitalised where such expenditure results in increase in the future benefits from the asset and / or results in an extension of the useful life of the asset based on technical assessment.

(ii) Depreciation

Depreciation on buildings and plant & machinery is provided under the "straight line method" and on other assets under the "reducing balance method" at the rates specified in Schedule XIV to the Companies Act, 1956 (the "Schedule"), based on technical estimates that indicate the useful lives would be comparable with or higher than those arrived at using these rates

In cases where the useful lives are estimated to be lower than those considered in determining the rates specified in the Schedule, depreciation is provided under the straight line method over the useful lives of the assets as follows:

AUTOMOTIVE AXLES LIMITED
SCHEDULES FORMING PART OF THE ACCOUNTS
30TH SEPTEMBER 2007 AND 2006 (UNAUDITED)
All amounts in Indian Rupees (Rs.), unless otherwise stated
SCHEDULE 18

NOTES FORMING PART OF ACCOUNTS (Cont...)

Reconditioned machinery and related expenditure	As specifically estimated and currently ranging between 3 and 10 years
Tools, jig and fixtures and measuring gauges	2 to 5 years
Certain imported machinery	As per technical evaluation of their useful life and currently ranging between 4 to 15 years

In case of diminution in value of the asset due to technological reasons, the difference between written down value and estimated net realisable value of assets is provided as depreciation in the year in which it is ascertained.

d) Inventories

Raw material, stores & spares, work-in process and finished goods are valued at the lower of cost and estimated realisable value. Cost of materials is determined on weighted average basis. In the case of work-in-process and finished goods, cost includes the cost of conversion. Closing stock of finished goods includes liability towards excise duty payable on clearance of goods. Imported materials in transit at the year-end are valued inclusive of customs duty.

e) Foreign Currency Transactions

Monetary assets & liabilities denominated in foreign currency at the balance sheet date are translated into rupees at the exchange rate prevailing on that date. Gains or losses arising on settlement / restatement are charged to the Profit & Loss Account.

Premium in respect of forward contract is accounted over the period of the contract.

f) Revenue Recognition

Sales: - Sales are recognised on dispatch and transfer of underlying risk & rewards as per contracted terms and are recorded at invoice value, net of sales taxes, but including excise duties.

Export incentives: Export incentives are accounted for on accrual basis at the time of export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are fulfilled.

SCHEDULE 18

NOTES FORMING PART OF ACCOUNTS (Cont...)

g) Research and Development

Revenue expenditure on research and development is charged to the Profit and Loss Account in the year of incurrence. However capital expenditure on research and development is treated in the same way as other fixed assets.

h) Employee Benefits

a) Defined Contribution Plan

Company's contributions paid / payable during the year to Provident Fund and Superannuation Fund are recognised in the Profit and Loss Account.

b) Defined Benefit Plan

Liabilities for gratuity funded in terms of a scheme administered by a fund manager are determined by an independent actuarial valuation made at the end of each financial year. Provision for liabilities pending remittance to the fund is carried in the Balance Sheet.

Actuarial gain and losses are recognized immediately in the Profit and Loss Account as income or expense. Obligation is measured at the present value of estimated future cash flows using a discount rate that is determined by reference to market yields at the Balance Sheet date on Government bonds where the currency and terms of the Government bonds are consistent with the currency and estimated terms of the defined benefit obligation.

c) Liability for leave encashment is provided based on accumulated leave credit outstanding to the employees as on the date of Balance Sheet.

i) Events Subsequent to the Balance Sheet Date

Events occurring after the balance sheet date, which have a material impact on the financial affairs of the Company, are taken into cognisance.

j) Prior Period and Extraordinary Items

Prior period and extraordinary items, and changes in accounting policies, having a material impact on the financial affairs of the Company are disclosed.

k) Income Tax

Income tax comprises the current tax provision, net change in the deferred tax asset or liability in the year and fringe benefit tax.

AUTOMOTIVE AXLES LIMITED
SCHEDULES FORMING PART OF THE ACCOUNTS
30TH SEPTEMBER 2007 AND 2006 (UNAUDITED)
All amounts in Indian Rupees (Rs.), unless otherwise stated
SCHEDULE 18

NOTES FORMING PART OF ACCOUNTS (Cont...)

Provision for current tax is made taking into account the admissible deductions / allowances and is subject to revision based on the taxable income for the fiscal year ending 31 March each year.

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between carrying values of the assets and liabilities and their respective tax bases and are measured using enacted tax rates applicable on the Balance Sheet date. Deferred tax assets are recognized subject to management's judgment that realization is virtually certain.

The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the income statement in the period of enactment of the change.

Fringe benefit tax has been provided as per provisions of Indian Income Tax Act, 1961.

l) Cash flow Statement

Cash Flow Statement has been prepared in accordance with the indirect method prescribed in Accounting Standard 3 issued by the Institute of Chartered Accountants of India.

m) Impairment of Assets

The carrying amounts of assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal / external factors. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss is charged to Profit and Loss Account in the year in which an asset is identified as impaired. The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to the present value. A previously recognized impairment loss is further provided or reversed depending on changes in circumstances.

n) Earning Per Share

In determining the earning per share, the Company considers the net profit after tax. The number of shares used in computing basic earnings per share is the weighted average number of shares outstanding during the period. The number of shares used in computing diluted earning per share comprises the weighted average shares considered for deriving basic earning per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date.

o) Provision & Contingencies

A Provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present values and are determined based on best estimate required to settle the obligation at the balance sheet date. These

are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Warranty expenses are provided for in the year of sale based on technical estimates. In addition, specific provision is also made against customer claims for manufacturing defects, where necessary.

2 (a) Installed Capacity

In accordance with revised Accounting Standard 15 "Employee Benefit", issued by the Institute of Chartered Accountants of India, the transitional liability of Rs. 16,195,604 in respect of Gratuity existing as on 1st October 2006 is adjusted against opening balance of General Reserve, net of deferred tax adjustment of Rs. 5,451,440. The impact of the change in the method of calculating such liability on the current year's Profit and Loss Account is estimated not to be material.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

The above disclosures have been consequent to early adoption of revised AS 15. Therefore, figures for the previous year have not been disclosed.

13. Segment Reporting (Cont...)

1. The Company has identified its primary segment as geographical, i.e., domestic and exports. Export markets have been considered together as the products sold to these markets have comparable risks and rewards.
2. Sales for exports represent export sales channelised through Meritor HVS (India) Limited and includes DEPB.
3. There are no inter-segment transactions during the year.
4. Fixed Assets of the Company have not been identified to the segments as they are common to the segments. Depreciation has been allocated to segments based on standard rates determined by the Company.
5. Secondary segment disclosures have not been furnished as there is only a single business segment.
6. Figures in brackets relate to the previous year.

SCHEDULE 18

NOTES FORMING PART OF ACCOUNTS (Cont...)

25. Previous year's figures have been regrouped/reclassified wherever necessary.
26. Differences between Indian and United States Generally Accepted Accounting Principles

The Company's financial statements are prepared in accordance with accounting principles generally accepted in India ("Indian GAAP") which differ from those generally accepted in United States ("US GAAP"). The significant differences, as they apply to the Company, are summarized below:

Employee costs

Leave encashment/compensated absences

The Company records liabilities towards leave encashment on the basis of contributions towards schemes with fund managers. Such contributions are determined by periodical actuarial valuation by the fund managers, which is expected to be paid in cash.

Under US GAAP, the determination of the liability would also take into consideration vacation that may be availed or utilized.

Gratuity

As discussed in note 12 above, the Company has adopted revised accounting standard (AS) 15 on employee benefits effective 1st October 2006. The revised AS 15 requires employee benefit liabilities to be determined based on actuarial valuation using projected unit credit method. In accordance with the revised AS 15, the transitional liability arising out of change in the method of actuarial valuation is adjusted against actual balance of reserve and surplus, net of deferred taxes thereon.

Under US GAAP, such transitional liability arising from the change in the method of actuarial valuation would require restatement of such liability in the respective years to which it pertains to.

Depreciation charge

The Company charges depreciation on buildings and plant and machinery under the straight line method and on other assets under the reducing balance method at the rates prescribed under Schedule XIV to the Indian Companies Act, or based on technical estimates that indicate the useful lives would be comparable with, or higher than, those arrived at using these rates. In case where the useful lives are estimated to be lower when compared using rates in the Schedule XIV, depreciation is charged under straight line method over the useful lives.

Under US GAAP, depreciation is charged on a systematic basis to each accounting period over its useful life, reflecting the pattern in which the entity consumes the asset's benefits.

Fixed Assets

Foreign exchange transaction losses and gains relating to the acquisition of fixed assets are adjusted to the cost of fixed assets.

Under US GAAP, foreign exchange transaction gains and losses related to the acquisition of fixed assets would be recorded as an expense and included in manufacturing, administration and selling expenses.

Forward Contracts

Forward contracts are entered into for mitigating the risk of price fluctuations and not for trading purposes. Premium / discounts on such contracts are amortised over the contract period. The underlying assets / liabilities have been restated at exchange rates prevailing at the year-end and exchange gain / loss thereon have been recognised in the profit and loss account.

Under US GAAP, forward contracts are measured at fair value; changes in fair value are recognised in income statement except for effective portion of cash flow hedges, where the changes are deferred in equity until effect of underlying transaction is recognised in income statement.

Dividend

Dividends are accounted for in the year to which they pertain. Dividends on ordinary equity shares are presented as an appropriation to the income statement.

Under US GAAP, dividends are accounted for in the year they are declared. Dividends on ordinary equity shares are presented as a deduction in the statement of changes in shareholders' equity in the period when authorised by shareholders.

AUTOMOTIVE AXLES LIMITED
SCHEDULES FORMING PART OF THE ACCOUNTS
30TH SEPTEMBER 2007 AND 2006 (UNAUDITED)

All amounts in Indian Rupees (Rs.), unless otherwise stated

SCHEDULE 18

NOTES FORMING PART OF ACCOUNTS (Cont...)

Profit & Loss Account / Income Statement

The profit and loss account is presented with total income including from sales, operational and other income; expenditure including raw material consumed, increase / decrease in stock of finished goods and work in progress, manufacturing, administration and selling expenses, interest and depreciation to arrive at a measure of profit before tax. Such a measure is not appropriate under US GAAP, wherein the presentation is either in a single-step where all expenses are classified by function and are deducted from total income to give income before tax; or multiple step where cost of sales is deducted from sales to show gross profit, and other income and expense are then presented to give income before tax. Also, under US GAAP the expenditures are presented by function.

Fringe benefit tax is disclosed as a separate item after 'profit before tax' on the face of the income statement as a component of income tax expense under Indian GAAP. Under US GAAP it is included as a part of related salary and benefits expense arriving at a measure of profit before tax.

Also under US GAAP, total comprehensive income and accumulated other comprehensive income are disclosed, presented either as a separate primary statement or combined with the income statement or with the statement of changes in stockholders' equity, while there are no such measures under Indian GAAP.

Cash Flow Statement

Interest received and interest paid has been disclosed under cash from investing and cash from financing activities, respectively. Under US GAAP, interest received and paid are disclosed under cash from operating activities.

Balance sheet

The presentation of certain items in the balance sheet under Indian GAAP is not consistent with financial statement presentation under US GAAP. These items are as follows:

- (i) Items on the face of the balance sheet are presented in decreasing order of liquidity under US GAAP.
- (ii) The company has presented changes in shareholders' equity in separate schedules of 'Share Capital' and 'Reserves and Surplus'. Under US GAAP, a separate statement of changes in shareholders' equity is presented showing capital transactions with owners, the movement in accumulated profit and a reconciliation of all other components of equity.
- (iii) Secured and unsecured loans repayable within twelve months from the balance sheet date are shown separately under Indian GAAP whereas these would be included in current liabilities under US GAAP.
- (iv) Deferred tax liability net of deferred tax assets is disclosed separately in the balance sheet after the secured loans. Under US GAAP, deferred tax assets and liabilities are either classified as current or non-current, based on the classification of the related tax asset or liability for financial reporting.
- (v) Loans and advances not receivable within twelve months from the balance sheet date would be disclosed separately under Indian GAAP, whereas these are reclassified as non-current assets under US GAAP.
- (vi)

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

Advance income tax included under loans and advances would be offset against provision for tax included under provisions, where as under the Indian GAAP these are separately disclosed.

- (vii) Provisions for warranty included in provisions not payable within twelve months from the balance sheet date would be reclassified as a non-current liability under US GAAP, whereas under Indian GAAP such reclassification is not made.
-

Automotive Axles Limited

*Financial Statements as of and for the
Year Ended September 30, 2005,
and Independent Auditors' Report*

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of
Automotive Axles Limited

We have audited the accompanying balance sheet of Automotive Axles Limited (“Company”), a company incorporated in India as of September 30, 2005 and the related profit and loss account and the cash flow statement for the year then ended (all expressed in Indian Rupees). These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards generally accepted in India and those in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to and nor were we engaged to perform an audit of the Company’s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of September 30, 2005 and the results of its operations and its cash flows for the year then ended, in conformity with accounting principles generally accepted in India (Refer note no. 1a of Schedule 16).

Accounting principles generally accepted in India vary in certain significant respects from accounting principles generally accepted in the United States of America. The application of the latter would have affected the determination of the net profit for the year ended September 30, 2005 and the determination of stockholder’s equity and the cash flows as of September 30, 2005, to the extent summarized in note no. 22 of Schedule 16.

SCHEDULES FORMING PART OF THE ACCOUNTS AS AT 30TH SEPTEMBER 2005

All amounts in Indian Rupees (Rs.), unless otherwise stated

SCHEDULE 16

NOTES FORMING PART OF ACCOUNTS

1. Significant Accounting Policies:

a) Accounting convention

The financial statements are prepared under the historical cost convention, on the accrual basis of accounting, to comply in all material respects with the mandatory accounting standards issued by the Institute of Chartered Accountants of India and requirements in the Indian Companies Act, 1956.

b) Fixed Assets and Depreciation

(i) Fixed Assets

Fixed assets are stated at cost (net of CENVAT) less accumulated depreciation. Cost includes all costs relating to the acquisition and installation of fixed assets including interest on borrowings for the project / fixed asset till the date of commercial production / the assets are put in use.

Expenditure on reconditioning of machinery is capitalised where such expenditure results in increase in the future benefits from the asset and /or results in an extension of the useful life of the asset based on technical assessment.

(ii) Depreciation

Depreciation on buildings and plant & machinery is provided under the "straight line method" and on other assets under the "reducing balance method" at the rates specified in Schedule XIV to the Companies Act, 1956 (the "Schedule"), based on technical estimates that indicate the useful lives would be comparable with or higher than those arrived at using these rates.

In cases where the useful lives are estimated to be lower than those considered in determining the rates specified in that Schedule, depreciation is provided under the straight line method over the useful lives of the assets as follows:

- Reconditioned machinery and related expenditure - as specifically estimated and currently ranging between 3 to 10 years
- Tools, jig and fixtures and measuring gauges - 2 to 5 years
- Certain imported machinery - as per technical evaluation, of their useful life and currently ranging between 4 to 15 years.

In case of diminution in value of the asset due to technological reasons, the difference between written down value and estimated net realizable value of assets is provided as depreciation in the year in which it is ascertained.

AUTOMOTIVE AXLES LIMITED

SCHEDULES FORMING PART OF THE ACCOUNTS AS AT 30TH SEPTEMBER 2005

All amounts in Indian Rupees (Rs.), unless otherwise stated

SCHEDULE 16

NOTES FORMING PART OF ACCOUNTS (Contd...)

c) Inventories

Raw material, stores & spares, work-in process and finished goods are valued at the lower of cost and estimated realizable value. Cost of materials is determined on weighted average basis. In the case of work-in-process and finished goods, cost includes the cost of conversion. Closing stock of finished goods includes liability towards excise duty payable on clearance of goods. Imported materials in transit at the year-end are valued inclusive of customs duty.

d) Foreign Currency Transactions

Foreign currency assets and liabilities covered by forward contracts are stated at the forward contract rates whilst those not covered by forward contract are restated at rates ruling at the year end. Premium in respect of forward contract is accounted over the period of the contract.

Gains or losses arising on settlement / restatement are adjusted to Profit & Loss Account as appropriate.

e) Revenue Recognition

Sales: Sales are recognised on dispatch and transfer of underlying risk & rewards as per contracted terms and are recorded at invoice value, net of sales taxes, but including excise duties.

Export incentives: Export incentives are accounted for on accrual basis at the time of export of goods if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are fulfilled.

f) Warranty

Warranty expenses are provided for in the year of sale based on technical estimates. In addition, specific provision is also made against customer claims for manufacturing defects, where necessary.

g) Research and Development

Revenue expenditure on research and development is charged to the Profit and Loss Account in the year of incurrence. However capital expenditure on research and development is treated in the same way as other fixed assets.

h) Retirement Benefits

Liabilities towards superannuation, gratuity and leave encashment benefits are charged to the Profit and Loss Account as contributions towards schemes with the Life Insurance Corporation of India. The adequacy of the contributions is determined by periodical actuarial valuation by the Life Insurance Corporation of India.

Fixed contribution to Provident Fund and the cost of other benefits are determined as per the Schemes at the actual cost to the Company.

AUTOMOTIVE AXLES LIMITED
SCHEDULES FORMING PART OF THE ACCOUNTS AS AT 30TH SEPTEMBER 2005

All amounts in Indian Rupees (Rs.), unless otherwise stated

SCHEDULE 16
NOTES FORMING PART OF ACCOUNTS (Contd...)

i) Events Subsequent to the Balance Sheet Date

Events occurring after the balance sheet date, which have a material impact on the financial affairs of the Company, are taken into cognisance.

j) Prior Period and Extraordinary items

Prior period and extraordinary items, and changes in accounting policies, having a material impact on the financial affairs of the Company are disclosed.

k) Income Tax

Income tax comprises the current tax provision and the net change in the deferred tax asset or liability in the year.

Provision for current tax is made taking into account the admissible deductions / allowances and is subject to revision based on the taxable income for the fiscal year ending 31 March each year.

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between carrying values of the assets and liabilities and their respective tax bases and are measured using enacted tax rates applicable on the Balance Sheet date. Deferred tax assets are recognized subject to management's judgment that realization is virtually certain.

The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the income statement in the period of enactment of the change.

l) Provision

A provision is recognized when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

NOTES FORMING PART OF ACCOUNTS (Contd...)

13. Segment Reporting

	Domestic (Rupees)	Sale for exports (Note 2 Below) (Rupees)	Consolidated (Rupees)
I. Revenue			
Sales to external customers	3,888,928,482	186,620,956	4,075,549,438
Segment Result	563,598,270	45,430,154	609,028,424
Unallocated expenses net of unallocated income			37,497,295
Operating profit			571,531,129
Interest expenses			21,435,612
Income taxes			181,460,217
Net profit			368,635,300
II. Other Information			
Segment Assets	1,012,950,853	93,500,273	1,106,451,126
Unallocated assets			1,438,540,235
Total assets			2,544,991,361
Segment Liabilities			
Unallocated liabilities			1,726,810,052
Total liabilities			1,726,810,052
Depreciation	97,493,278	6,357,091	

- The Company has identified its primary segments as geographical, i.e., domestic and exports. Export markets have been considered together as the products sold to these markets have comparable risks and rewards.
- Sales for exports represent export sales channelised through Meritor HVS (India) Limited and includes DEPB.

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

3. There are no inter-segment transactions during the year.
 4. Fixed assets of the Company have not been identified to the segments as they are common to the segments. Depreciation has been allocated to segments based on standard rates determined by the Company.
 5. Secondary segment disclosures have not been furnished as there is only a single business segment.

SCHEDULE 16

NOTES FORMING PART OF ACCOUNTS (Contd...)

14. Deferred Tax

The net deferred tax liability comprises the tax impact arising from timing differences on account of:

	Rupees
Depreciation & amortisation	252,586,876
Provision for warranty & other provisions	(26,722,534)
	<u>225,864,342</u>
Net deferred tax liability relating to the above	76,220,000

- 15.** During the year, the Company has changed the method of valuation of materials from FIFO basis to weighted average basis. Consequent to this change the profit for the year is higher by Rs. 3,026,351.

16. Finance Lease

The lease transactions of the Company represent lease of vehicles on a non-cancelable basis. The minimum lease payments under the various agreements are given below:

	Rupees
For the next one year	901,835
One year to five years	2,431,656
Total	<u>3,333,491</u>
Less: Interest	522,910
Present value of minimum lease payments	<u>2,810,581</u>

17. Details of Provisions Under AS - 29 (Provisions, Contingent Liabilities and Contingent Assets)

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

	<u>Rupees</u>
Nature of Expense	Warranty
Probable outflow estimated within	One Year
Liability at beginning of the year	8,733,073
Amount provided during the year	12,079,945
Amount utilized during the year	(7,843,622)
Amount reversed during the year	(3,881,302)
	<u> </u>
Liability at on end of the year	<u>9,088,094</u>

- 18.** Estimated amount of contracts remaining to be executed on capital account, net of advances and not provided for is Rs. 275,379,677.
- 19.** Claims against the company not acknowledged as debt are Rs. 473,922.

SCHEDULE 16
NOTES FORMING PART OF ACCOUNTS (Contd...)

20. Contingent Liability: Company has certain labor disputes which are pending adjudication. The liability that may arise on account of these disputes cannot be reasonably estimated.
21. There are no overdue amounts outstanding for over 30 days at the year end to small scale industrial undertakings.
22. **Differences between Indian and United States Generally Accepted Accounting Principles**

The Company's financial statements are prepared in accordance with accounting principles generally accepted in the India ('Indian GAAP') which differ from those generally accepted in the United States ("US GAAP"). The significant differences, as they apply to the Company, are summarized below.

Employee costs

Leave encashment / compensated absences

The Company records liabilities for leave encashment / compensated absences on the basis of contributions towards plans with third-party fund managers. Such contributions are determined by periodical actuarial valuation by the third-party fund managers, which are expected to be paid in cash.

Under US GAAP, the determination of the liability would also take into consideration unused vacation based on expected cash payments on an undiscounted basis.

Gratuity

The Company records liabilities for gratuity benefits on the basis of contributions towards schemes with fund managers. Such contributions are determined by periodical actuarial valuation by the fund managers. Under Indian GAAP, the actuary can choose a method for (i) expense determination, (ii) determining the discount rate and (iii) valuing plan assets.

Under US GAAP, the liability for gratuity benefits requires the use of the projected unit credit method. The discount rate (reflecting the rate of interest which would provide the necessary future cash flows to pay the accumulated benefits when due) reflects current market rates for high quality debt instruments.

Depreciation charge

The Company records depreciation expense on buildings and plant and machinery under the 'straight line method' and on other assets under the 'reducing balance method' at the rates prescribed in Schedule XIV to the Indian Companies Act, or based on technical estimates that indicate the useful lives would be comparable with or higher than those arrived at using these rates. In case where the useful lives are estimated to be lower when compared using rates in the Schedule XIV, depreciation is charged under 'straight line method' over the useful lives.

Under US GAAP, depreciation is charged on a systematic basis to each accounting period over its

AUTOMOTIVE AXLES LIMITED
SCHEDULES FORMING PART OF THE ACCOUNTS AS AT 30TH SEPTEMBER 2005
All amounts in Indian Rupees (Rs.), unless otherwise stated

SCHEDULE 16
NOTES FORMING PART OF ACCOUNTS (Contd...)

estimated economic useful life, reflecting the pattern in which the entity consumes the asset's benefits.

Fixed assets

Foreign exchange transaction losses and gains relating to the acquisition of fixed assets are adjusted to the cost of the fixed asset.

Under US GAAP, foreign exchange transaction gains and losses related to the acquisition of fixed assets would be recorded as an expense and included in manufacturing, administration and selling expenses.

Dividends

Dividends are accounted for in the year to which they pertain to. Dividends on ordinary equity shares are presented as an appropriation to the income statement.

Under US GAAP, dividends are accounted in the year when declared. Dividends on ordinary equity shares are presented as a deduction in the statement of changes in shareholders' equity in the period when authorised by shareholders.

Reclassification

Profit & Loss Account / Income Statement

The profit and loss account is presented with total income including from sales, operational and other income; expenditure including raw material consumed, (increase)/decrease in stock of finished goods and work in progress, manufacturing, administration and selling expenses, interest and depreciation to arrive at a measure of profit before tax. Such a measure is not appropriate under US GAAP, wherein the presentation is either in a single-step where all expenses are classified by function and are deducted from total income to give income before tax; or multiple step where cost of sales is deducted from sales to show gross profit, and other income and expense are then presented to give income before tax.

Fringe benefit tax is disclosed as a separate item after 'profit before tax' on the face of the income statement as a component of income tax expense under Indian GAAP. Under US GAAP fringe benefit taxes are included as a part of related salary and benefit expense arriving at a measure of profit before tax.

Also under US GAAP, total comprehensive income and accumulated other comprehensive income are disclosed, presented either as a separate primary statement or combined with the income statement or with the statement of changes in stockholders' equity while there are no such measures under Indian GAAP.

Cash Flow Statement

Interest received and interest paid has been disclosed under cash from investing and cash from financing activities, respectively. Under US GAAP interest received and paid are disclosed under cash from operating activities.

AUTOMOTIVE AXLES LIMITED
SCHEDULES FORMING PART OF THE ACCOUNTS AS AT 30TH SEPTEMBER 2005

All amounts in Indian Rupees (Rs.), unless otherwise stated

SCHEDULE 16
NOTES FORMING PART OF ACCOUNTS (Contd...)

Balance Sheet

The presentation of certain items in the balance sheet under Indian GAAP is not consistent with financial statement presentation under US GAAP. The following differences pertaining to the Company are identified:

- (i) Items on the face of the balance sheet are presented in decreasing order of liquidity under US GAAP.
 - (ii) The Company has presented changes in shareholders' equity in separate schedules of 'Share capital' and 'Reserves and Surplus'. Under US GAAP, a separate statement of changes in shareholders' equity is presented showing capital transactions with owners, the movement in accumulated profit and a reconciliation of all other components of equity.
 - (iii) Secured and unsecured loans repayable within twelve months from the balance sheet date would be included in current liabilities under US GAAP.
 - (iv) Deferred tax liability net of deferred tax assets is disclosed in the balance sheet under loans. Under US GAAP, deferred tax assets and liabilities are either classified as current or non-current, based on the classification of the related non-tax asset or liability for financial reporting.
 - (v) Loans and advances not receivable within twelve months from the balance sheet date would be classified as non-current assets under US GAAP.
 - (vi) Advance income tax included under loans and advances under Indian GAAP would be offset against provision for tax included under provisions under US GAAP.
 - (vii) Provisions for warranty included in provisions not payable within twelve months from the balance sheet date would be reclassified as a non-current liability under US GAAP, whereas under Indian GAAP, such reclassification is not made.
-

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

(2) Financial Statement Schedule for the years ended September 30, 2007, 2006 and 2005. The following schedule was filed as part of the Annual Report filed with the SEC on November 19, 2007:

Schedule II - Valuation and Qualifying Accounts

Schedules not filed with this Annual Report on Form 10-K are omitted because of the absence of conditions under which they are required or because the information called for is shown in the financial statements or related notes.

(3) Exhibits

- 3-a Restated Articles of Incorporation of ArvinMeritor, filed as Exhibit 4.01 to ArvinMeritor's Registration Statement on Form S-4, as amended (Registration Statement No. 333-36448) ("Form S-4"), is incorporated by reference.
- 3-b By-laws of ArvinMeritor, filed as Exhibit 3 to ArvinMeritor's Quarterly Report on Form 10-Q for the quarterly period ended June 29, 2003 (File No. 1-15983), is incorporated by reference.
- 4-a Rights Agreement, dated as of July 3, 2000, between ArvinMeritor and The Bank of New York (successor to EquiServeTrust Company, N.A.), as rights agent, filed as Exhibit 4.03 to the Form S-4, is incorporated by reference.
- 4-b Indenture, dated as of April 1, 1998, between ArvinMeritor and BNY Midwest Trust Company (successor to The Chase Manhattan Bank), as trustee, filed as Exhibit 4 to Meritor's Registration Statement on Form S-3 (Registration No. 333-49777), is incorporated by reference.
