AMT Alternative Minimum Tax (subject to)
FHA Federal Housing Administration
GO General Obligation Bonds

GO General Obligation Bon LRB Lease Revenue Bonds

NPFGC National Public Finance Guarantee Corp.

Radian Financial Guaranty

RB Revenue Bonds

Fair Value Measurements - Various inputs are used in determining the fair value of investments. These inputs to valuation techniques are categorized into a disclosure hierarchy consisting of three broad levels for financial reporting purposes as follows:

Level 1 unadjusted price quotations in active markets/exchanges for identical assets and liabilities that the Trust has the ability to access

Level 2 other observable inputs (including, but not limited to: quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Trust s own assumptions used in determining the fair value of investments)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

BLACKROCK NEW YORK MUNICIPAL 2018 TERM TRUST

SEPTEMBER 30, 2012

#### Schedule of Investments (concluded)

#### BlackRock New York Municipal 2018 Term Trust (BLH)

Changes in valuation techniques may result in transfers into or out of an assigned level within the disclosure hierarchy. In accordance with the Trust s policy, transfers between different levels of the fair value disclosure hierarchy are deemed to have occurred as of the beginning of the reporting period. The categorization of a value determined for investments is based on the pricing transparency of the investment and is not necessarily an indication of the risks associated with investing in those securities. For information about the Trust s policy regarding valuation of investments and other significant accounting policies, please refer to the Trust s most recent financial statements as contained in its semi-annual report.

The following table summarizes the Trust s investments categorized in the disclosure hierarchy as of September 30, 2012:

	L	evel 1	Level 2	Level 3	Total
Assets:					
Investments:					
Long-Term Investments <sup>1</sup>			\$ 88,578,306		\$ 88,578,306
Short-Term Securities	\$	108,597			108,597
Total	\$	108,597	\$ 88,578,306		\$ 88,686,903

See above Schedule of Investments for values in each sector or political subdivision

Certain of the Trust s liabilities are held at carrying amount, which approximates fair value for financial reporting purposes. As of September 30, 2012, bank overdraft of \$29,816 is categorized as Level 2 within the disclosure hierarchy.

There were no transfers between levels during the period ended September 30, 2012.
