Sales increased by 2.6% versus second quarter of 2017, gross profit increased by 51.8% versus second quarter of 2017, operating profit increased by 560% versus second quarter of 2017, and net profit increased by 312% versus second quarter of 2017.

This is the fourth consecutive quarter since the Company's control has been changed and new managers have been appointed in which the Company presents improvement in its operating results over the comparable quarter of the previous year. We believe that the activities we are taking will continue to generate steady growth and increase profitability over time.

We are happy to update that the Company has contracted with several European dairies to supply a range of alternative dairy products to the products previously provided by Arla Foods Amba (a former significant supplier of our dairy products segment). In August 2018, the Company launched a dairy line with the products from the European dairies under an independent brand called Euro Dairy Europe.
