Unless otherwise expressly stated or the context otherwise requires, all information presented in this prospectus supplement assumes that the underwriters' over-allotment option to purchase additional shares is not exercised.

Unless the context otherwise requires or indicates, each reference in this prospectus supplement and the accompanying prospectus to (i) we, our, us and the Company means Gladstone Land Corporation, a Maryland corporation, and its consolidated subsidiaries, (ii) Operating Partnership means Gladstone Land Limited Partnership, a wholly-owned subsidiary of the Company and a Delaware limited partnership, (iii) Adviser means Gladstone Management Corporation, the external adviser of the Company and a Delaware corporation, and (iv) Administrator means Gladstone Administration, LLC, the external administrator to the Company and a Delaware limited liability company.

The Company

We are an externally-managed real estate company formed to engage in the business of owning and leasing farmland located in major agricultural markets throughout the United States. Our farmland is predominantly concentrated in locations where tenants are able to grow annual row crops such as berries, lettuce and melons, among others, which are planted and harvested annually or more frequently. We may also acquire property related to farming, such as storage facilities utilized for cooling crops, processing plants, packaging buildings and distribution centers. We completed our initial public offering on January 28, 2013 with 1,630 acres on twelve farms, leased to six separate corporate and independent farmer tenants, in California and Florida. At that time, we also owned two storage facilities utilized for cooling crops (coolers) and a facility utilized for storage and assembly of boxes for shipping (box barn). As of the date of this prospectus supplement, we own 6,833 acres on 28 farms: 11 in California, 8 in Florida, 4 in Michigan, 4 in Oregon and 1 in Arizona. We also own two coolers and a box barn. These properties are currently leased to 22 separate tenants that are either corporate or independent farmers. We also lease a small parcel on our 653-acre farm near Oxnard, California, or West Gonzales, to an oil company.

During 2013 and continuing in 2014, we began to diversify the variety of crops grown on our properties. We now own several farms with more permanent crops, such as blueberries, and we also have one farm that grows grains, such as corn and beans. While our focus remains on annual row crops, in the future, we may acquire additional land farmed for fruit or nut trees, bushes, wine berries and wine grapes, as well as land to grow grains. We may also acquire more property related to farming, such as coolers, freezer buildings, box barns, silos, storage facilities, green houses, processing plants, packaging buildings and distribution centers.

We generally lease our properties under triple-net leases, an arrangement under which the tenant pays rent to us and maintains the property while paying the related taxes, maintenance and insurance costs. We may also elect to sell farmland at certain times, such as when the land could be developed by others for urban or suburban uses. We do not currently intend to enter the business of growing, packing or marketing

S-1

farmed products; however, if we do so in the future, we expect that we would conduct such business through a taxable REIT subsidiary, or TRS.

To a lesser extent, we may provide senior secured first lien mortgage loans to farmers for the purchase of farmland and farm-related properties. We expect that any mortgage loans we make would be secured by farming properties that have a successful history of crop production and profitable farming operations and that, over time, such mortgages would not exceed 5.0% of the fair value of our total assets. Currently, we do not hold any mortgages, and we have not identified any properties for which to make loans secured by mortgages.

Our business is managed by our external adviser, Gladstone Management Corporation, or our Adviser, which is an affiliated registered investment adviser under the Investment Advisers Act of 1940. Our Adviser is responsible for managing our business on a daily basis and for identifying and making acquisitions and dispositions that it believes satisfy our investment criteria. Administrative services are provided to us by Gladstone Administration, LLC, or our Administrator, also an affiliate of ours and our Adviser. Our Adviser and our Administrator are owned and controlled by David Gladstone, our chief executive officer, president, chairman of our board of directors and our largest stockholder.

We conduct our business through an Umbrella Partnership Real Estate Investment Trust, or UPREIT, structure in which our properties and the mortgage loans we make will be held directly or indirectly by Gladstone Land Limited Partnership, our Operating Partnership. We are the manager and 100% owner of Gladstone Land Partners, LLC, or Land Partners, which is the sole general partner of our Operating Partnership, and we currently hold, directly and indirectly through Land Partners, 100% of its outstanding limited partnership units, or Units. In the future, we may offer equity ownership in our Operating Partnership by issuing Units to farmland owners from time to time in consideration for acquiring their farms. Holders of Units in our Operating Partnership will be entitled to redeem these units for cash or, at our election, shares of our common stock on a one-for-one basis at any time after holding the Units for one year. Farmland owners who exchange their farms for Units may be able to do so in a tax-deferred exchange under U.S. federal income tax laws.

The Operating Partnership is the sole member of our subsidiary, Gladstone Land Advisers, Inc., which has elected to be a TRS. We may own or manage our assets and engage in other activities through Gladstone Land Advisers or another TRS we form or acquire when we deem it necessary or advisable. The taxable income generated by any TRS will be subject to regular corporate income tax. Currently, we do not conduct any operations through a TRS.

Our executive offices are located at 1521 Westbranch Drive, Suite 100, McLean, Virginia 22102, and our telephone number is (703) 287-5800. Our website address is www.GladstoneLand.com. However, the information located on, or accessible from, our website is not, and shall not be deemed to be, a part of this prospectus, any accompanying prospectus supplement or any free writing prospectus or incorporated into any other filings that we make with the SEC.

Table of Contents

Our Competitive Strengths

We believe that the following strengths differentiate us from our competitors:

Innovative Business Strategy: First public company formed primarily to own and lease farmland with the goal of providing investors with steady income and capital appreciation, as well as a hedge against inflation.

Experienced Management Team: We are managed by an investment advisor registered with the SEC with over \$1.4 billion of assets currently under management. Our management team has a successful track record of underwriting agricultural real estate and conducting extensive due diligence on the management teams, cash flows, financial statements and risk ratings of our respective tenants. In addition, our chief executive officer has unique industry knowledge as a past owner of Coastal Berry Company (from 1997-2004) one of the largest integrated berry and vegetable growers, marketers, and shippers in California.

Focused Business Model: Our business model seeks to foster investment opportunities that are generated from our strategic relationships with agricultural real estate brokers and corporate and independent farmers.

Attractive Market Opportunities: We believe that attractive investment opportunities currently exist that will allow us to capitalize on investing in farmland that has demonstrated relatively steady appreciation in value and increases in rental rates with relatively low volatility.

Conservative Dual Underwriting Strategy: When underwriting a tenant's farming operations and the real estate it occupies, we focus on the cash flow of the tenant and management of the farming operations as well as the intrinsic value of the property, including evaluation of access to water and other attributes.

Proven Ability to Execute Business Model: Since our IPO, in January 2013, we have invested \$61.8 million into the acquisition of 16 new farms, and an additional \$2.6 million has been invested in the form of capital improvements on existing farms.

Distribution Stability: Since our IPO in January 2013, we have made 19 consecutive monthly distributions on our common stock. We currently pay monthly distributions (declared quarterly) to holders of shares of our common stock at the current rate of \$0.03 per share.

Recent Developments

Investment Activities

On July 23, 2014 we acquired one farm comprised of 68 acres of farmland near Oxnard, California, (Naumann Road) for an aggregate purchase price of approximately \$6.9 million. The property is currently being farmed for fruits and vegetables. We funded this acquisition by drawing on our \$25.0 million revolving equity line of credit with MetLife, or our Line of Credit. At closing, we executed a three-year lease, which provides annualized, straight-line rents of approximately \$330,000.

On July 25, 2014, we acquired one farm comprised of 326 acres of farmland near Arvin, California (Sycamore Road), for an aggregate purchase price of approximately \$5.8 million. The property is currently being farmed for vegetables. We funded this acquisition by drawing on our Line of Credit with MetLife. At closing, we were assigned the existing lease, which has 15 months remaining on the term. The lease provides for annualized, straight-line rents of \$58,000. In addition, we also executed a nine-year, triple-net follow-on lease with a new tenant that begins at the end of the

15-month lease assumed at acquisition. Under the terms of the follow-on lease, the tenant has one option to extend the lease for an additional three-year term. This nine-year lease will provide for prescribed rent escalations over its life, with annualized, straight-line rents of approximately \$312,000. In addition, this follow-on lease requires us to make certain irrigation improvements

S-3

Table of Contents

to the property, for which we will earn additional rent on the total cost of the improvements, up to a total cost of \$750,000, commensurate with the yield on the farmland.

Pending Acquisitions

On July 25, 2014, we entered into an agreement of purchase and sale to purchase 64 acres of land in California for approximately \$6.4 million. This property is irrigated cropland that is farmed primarily for strawberries.

On July 31, 2014, we entered into an agreement with G&D Farms, Inc. to purchase an 825-acre farm near Duette, Florida at a purchase price of approximately \$14.2 million. This property is irrigated cropland that is farmed primarily for strawberries.

On August 11, 2014, we entered into an agreement with Oxnard Plains, LLC and Santa Clara Plains, LLC for the purchase of approximately 332 acres of cropland located in Ventura County, California, for a purchase price that is expected to be approximately \$24.6 million, exclusive of closing costs. The Property is irrigated cropland that is primarily farmed for berries and vegetables.

Closing of each of the above pending acquisitions are subject to customary conditions and termination rights for transactions of this type, including a due diligence inspection period and financing. As described below under Use of Proceeds, we expect to fund certain of these acquisitions using proceeds from this offering and drawing on our Line of Credit on the properties. This offering is not contingent upon the consummation of either of these acquisitions. Further, there can be no assurance with respect to the timing of the closing of these acquisitions or whether the acquisitions will be completed on the currently-contemplated terms, other terms or at all.

Property Improvement

In July 2014, we completed an irrigation upgrade project on 1,761 acres of farmland near Willcox, Arizona, for which we rehabilitated several of the 13 existing wells on the property, in addition to adding two new wells. The total cost of this project was approximately \$1.2 million, and we expect to execute a lease with the tenant to provide for a return of 5% of the total cost of the project during the three months ending September 30, 2014.

Financing Activity

On September 19, 2014, we closed on an agreement with Farm Credit of Central Florida, ACA (Farm Credit), to borrow approximately \$4.3 million (the Farm Credit Loan). The loan is scheduled to mature on August 31, 2034, and will bear interest at a fixed rate of 3.52% per annum through July 31, 2017. Thereafter, the interest rate will be equal to the one-month London Interbank Offered Rate plus 2.875% per annum. The Farm Credit Loan is collateralized by certain of our Florida farmland properties, on which we were loaned at a rate of 60% of the farmlands aggregate value. We intend to use these funds to help acquire additional farmland in the U.S.

September Cash Distribution

On July 15, 2014, our Board of Directors authorized and we declared a monthly cash distribution of \$0.03 per share of common stock, payable to stockholders of record as of the close of business on September 19, 2014.

S-5

Table of Contents**RISK FACTORS**

Your investment in shares of our common stock involves substantial risks. In consultation with your own financial and legal advisers, you should carefully consider, among other matters, the factors set forth below as well as in the accompanying prospectus, our Annual Report on Form 10-K for the year ended December 31, 2013 and other reports and information that we file from time to time with the SEC, which are incorporated by reference into this prospectus supplement and the accompanying prospectus before deciding whether an investment in shares of our common stock is suitable for you. If any of the risks contained in or incorporated by reference into this prospectus supplement or the accompanying prospectus develop into actual events, our business, financial condition, liquidity, results of operations, FFO, our ability to make cash distributions to holders of our common stock and prospects could be materially and adversely affected, the market price of our common stock could decline and you may lose all or part of your investment. In addition, new risks may emerge at any time and we cannot predict such risks or estimate the extent to which they may affect our financial performance. Some statements in this prospectus supplement, including statements in the following risk factors, constitute forward-looking statements. See the Forward-Looking Statements sections in this prospectus supplement and in the accompanying prospectus.

This offering is expected to be dilutive, and there may be future dilution related to our common stock.

Giving effect to the issuance of shares of common stock in this offering, the receipt of the expected net proceeds and the use of those proceeds, we expect that this offering will have a dilutive effect on our expected earnings per share and FFO per share for the year ending December 31, 2014. The actual amount of dilution cannot be determined at this time and will be based upon numerous factors. Additionally, but subject to the 60 day lock-up restrictions described under the caption Underwriting in this prospectus supplement, we are not restricted from issuing additional securities, including common stock, senior common stock, preferred stock and securities that are convertible into or exchangeable for, or that represent the right to receive, common stock, senior common stock, preferred stock or any substantially similar securities. The market price of our common stock could decline as a result of issuances or sales of a large number of shares of our common stock in the market after this offering, or the perception that such issuances or sales could occur. A perception that an issuance of a large number of shares of our common stock will likely occur if we file an S-11 registration statement to register additional shares of our common stock. We intend to do file an S-11 registration statement in the near future. Please see Our ability to raise capital is limited by applicable laws and regulations and we may utilize more costly and time-consuming methods of raising capital to fulfill our investment objectives, including an offering using a Form S-11 registration statement. Additionally, future issuances or sales of substantial amounts of our common stock may be at prices below the offering price of the common stock offered by this prospectus supplement and may result in further dilution in our earnings per share and FFO per share and adversely impact the market price of our common stock.

Securities eligible for future sale may have adverse effects on the share price of our common stock, and any additional capital raised by us through the sale of equity securities may dilute your ownership in us.

As of September 23, 2014, we had the ability to raise up to \$300 million of additional equity capital through the sale of securities that are registered under our universal shelf registration statement on Form S-3, or the Universal Shelf, in one or more future public offerings. Sales of substantial amounts of our common stock or the perception that these sales could occur, may adversely affect the liquidity of our common stock or prevailing market prices for our common stock. Large price changes or low trading volume may preclude you from buying or selling our common stock at all, or at any particular price or during a time frame that meets your investment objectives.

In the future, we may attempt to increase our capital resources by making additional offerings of debt or equity securities. Upon liquidation, holders of preferred securities and debt securities, if any, and lenders with respect to

other borrowings, such as our Line of Credit, would receive a distribution of our available assets prior to the holders of our common stock. Future equity offerings may dilute the holdings of our existing stockholders. If we

S-6

Table of Contents

decide to issue preferred stock, it could have a priority right to dividend payments that could limit our ability to make a dividend distribution to the holders of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings.

Future holders of any securities ranking senior to our common stock have dividend and liquidation rights that are senior to the rights of the holders of our common stock.

Any future holders of any securities ranking senior to our common stock will be entitled to receive their liquidation preference in full before we can pay distributions of remaining proceeds to all holders of shares of our common stock.

Shares of common stock will be ranked junior to any future preferred stock that we may issue with respect to dividends and liquidation rights. We may in the future attempt to increase our capital resources by making additional offerings of equity securities, including classes or series of shares of preferred stock, which would likely have preferences with respect to dividends or upon dissolution that are senior to our common stock. Because our decision to issue securities in any future offerings will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of any such future offerings. Thus, our common stockholders bear the risk that our future offerings reduce the per share trading price of our common stock and dilute their interest in us.

There was no active public market for our common stock prior to the IPO and the market price and trading volume of our common stock has been volatile at times following the IPO and may continue to be so following this offering, which may adversely impact the market for shares of our common stock and make it difficult to sell your shares.

Prior to the IPO, there was no active market for our common stock. Although our common stock is listed on the NASDAQ, the stock markets, including the NASDAQ on which our common stock is listed, have from time to time experienced significant price and volume fluctuations. As a result, the market price of shares of our common stock may be similarly volatile, and holders of shares of our common stock may from time to time experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. The offering price for shares of our common stock has been determined by negotiation between us and the underwriters. You may not be able to sell your shares of common stock at or above the offering price.

In addition, the trading prices of equity securities issued by REITs historically have been affected by changes in market interest rates. One of the factors that may influence the price of our common stock is the annual yield from distributions on our common stock as compared to yields on other financial instruments. An increase in market interest rates, which may lead prospective purchasers of our common stock to demand a higher annual yield, or a decrease in our distributions to stockholders, could reduce the market price of our common stock.

Other factors that could significantly affect the market price of our common stock include the following:

actual or anticipated variations in our operating results, FFO, cash flows or liquidity;

changes in earnings estimates of analysts and any failure to meet such estimates;

changes in our distribution policy;

publication of research reports about us or the agricultural real estate industry generally;

changes in market valuations of agricultural real estate;

adverse market reaction to the amount of our outstanding debt at any time, the amount of our maturing debt in the near- and medium-term and our ability to refinance such debt and the terms thereof or our plans to incur additional debt in the future;

S-7

Table of Contents

additions or departures of key management personnel, including our ability to find attractive replacements;

speculation in the press or investment community;

the realization of any of the other risk factors included in, or incorporated by reference into, this prospectus supplement and the accompanying prospectus;

changes in regulatory policies or tax laws, particularly with respect to REITs;

price and volume fluctuations in the stock market from time to time, which are often unrelated to the operating performance of particular companies;

significant volatility in the market price and trading volume of shares of REITs, real estate companies, agricultural companies or other companies in our sector, which is not necessarily related to the performance of those companies;

investor confidence in the stock market; and

general market and economic conditions.

Many of the factors listed above are beyond our control. Those factors may cause the market price of our common stock to decline, regardless of our financial performance, condition and prospects. It is impossible to provide any assurance that the market price of our common stock will not decline in the future, and it may be difficult for our stockholders to resell their shares of our common stock at prices that they find attractive, or at all.

The Company is considered an emerging growth company and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our common stock less attractive to investors.

We are an emerging growth company, as defined in the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies, including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of SOX and delayed implementation of certain accounting standards.

We will remain an emerging growth company until the earlier of (i) the last day of the fiscal year (A) following the fifth anniversary of our first sale of common equity securities pursuant to an effective registration statement, (B) in which we have total annual gross revenue of at least \$1.0 billion, or (C) the date that we become a large accelerated filer as defined in Rule 12b-2 under the Exchange Act, which would occur if the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter, and (ii) the date on which we have issued more than \$1.0 billion in non-convertible debt during the prior three-year period.

For as long as we remain an emerging growth company we intend to take advantage of certain exemptions from various reporting requirements until we are no longer an emerging growth company. After we are no longer an emerging growth company, we expect to incur significant additional expenses and devote substantial management effort toward ensuring compliance with those requirements applicable to companies that are not emerging growth companies, including Section 404 of SOX.

We cannot predict if investors will find our common stock less attractive because we will rely on these exemptions. If some investors find our common stock less attractive as a result, there may be a less active trading market for our common stock and our stock price may be more volatile when trading occurs.

Table of Contents

Shares of our common stock have been thinly traded in the past.

Although a trading market for our common stock exists, the trading volume has not been significant and there can be no assurance that an active trading market for our common stock will be sustained in the future. As a result of the thin trading market or float for our stock, the market price for our common stock may fluctuate significantly more than the stock market as a whole. Without a large float, our common stock is less liquid than the stock of companies with broader public ownership and, as a result, the trading prices of our common stock may be more volatile. In addition, in the absence of an active public trading market, an investor may be unable to liquidate his or her investment in us. Trading of a relatively small volume of our common stock may have a greater impact on the trading price for our stock than would be the case if our public float were larger. We cannot predict the prices at which our common stock will trade in the future.

Our ability to raise capital is limited by applicable laws and regulations and we may utilize more costly and time-consuming methods of raising capital to fulfill our investment objectives, including an offering using a Form S-11 registration statement.

This registration statement is a shelf registration on Form S-3, which typically enables an issuer to raise additional capital on a more timely and cost effective basis than through other means, such as registration of a securities offering under a Form S-11 registration statement. Our ability to raise additional capital through the sale and issuance of our equity securities is limited by, among other things, SEC rules and regulations. Under current SEC rules and regulations, to be eligible to use a Form S-3 registration statement for primary offerings without restriction as to the amount of securities to be sold and issued, the aggregate market value of our common equity held by non-affiliates (i.e., our public float) must be at least \$75 million (calculated pursuant to the General Instructions to Form S-3). Furthermore, the SEC's rules and regulations require that we periodically re-evaluate the value of our public float to determine whether we continue to satisfy the foregoing public float requirement. We currently do not meet the \$75 million public float requirement and the amount we could raise through primary offerings of our securities in any 12-month period using a Form S-3 registration statement is limited to an aggregate of one-third of our public float.

Moreover, the market value of all securities sold by us under our Form S-3 registration statements during the 12-month period prior to any intended sale will be subtracted from that amount to determine the amount we can then raise under our Form S-3 registration statements. If our public float subsequently increases to \$75 million or more, such limitation would cease to apply until we conduct our next re-evaluation. Until our public float reaches \$75 million or more, the amount of capital we are allowed to raise under our Form S-3 registration statement may not be sufficient to fulfill our investment objective.

Further, the issuance of additional shares of our common stock will have the immediate effect of increasing the public float of our common stock and any such increase will likely cause the market price of our common stock to decline or fluctuate significantly. Alternative means of raising capital through sales of our securities, including through the use of a Form S-11 registration statement, though more costly and time-consuming, may be required to raise additional capital to assist in funding acquisitions of properties under consideration and for other general corporate purposes. We intend to file a Form S-11 registration statement shortly after the date of this prospectus supplement so that we may raise additional capital to fulfill our investment objectives.

Market interest rates may have an effect on the value of our common stock.

One of the factors that will influence the price of our common stock will be the dividend yield on our common stock (as a percentage of the price of our common stock) relative to market interest rates. An increase in market interest rates, which are currently at low levels relative to historical rates, may lead prospective purchasers of our common

stock to expect a higher dividend yield and higher interest rates would likely increase our borrowing costs and potentially decrease funds available for distribution. Thus, higher market interest rates could cause the market price of our common stock to decrease.

Our ability to pay dividends is limited by the requirements of Maryland law.

Our ability to pay dividends on our common stock is limited by the laws of Maryland. Under applicable Maryland law, a Maryland corporation generally may not make a distribution if, after giving effect to the distribution, the corporation would not be able to pay its debts as the debts become due in the usual course of business or the corporation's total assets would be less than the sum of its total liabilities plus, unless the corporation's charter permits otherwise, the amount that would be needed, if the corporation were dissolved at the time of the distribution, to satisfy the preferential rights upon dissolution of stockholders whose preferential rights are superior to those receiving the distribution. Accordingly, we generally may not make a distribution on our common stock if, after giving effect to the distribution, we would not be able to pay our debts as they become due in the usual course of business or our total assets would be less than the sum of our total liabilities plus, unless the terms of such class or series provide otherwise, the amount that would be needed to satisfy the preferential rights upon dissolution of the holders of shares of any class or series of preferred stock then outstanding, if any, with preferences upon dissolution senior to those of our common stock.

We have paid, may continue to pay, or may in the future pay distributions from offering proceeds, borrowings or the sale of assets to the extent our cash flow from operations or earnings are not sufficient to fund declared distributions. Rates of distribution to you will not necessarily be indicative of our operating results. If we make distributions from sources other than our cash flows from operations or earnings, we will have fewer funds available for the acquisition of properties and your overall return may be reduced.

Our organizational documents permit us to make distributions from any source, including the net proceeds from this offering. There is no limit on the amount of offering proceeds we may use to pay distributions. During the early stages of our operations following the IPO, we funded certain of our distributions from the net proceeds of the IPO, borrowings and the sale of assets to the extent distributions exceed our earnings or cash flows from operations. To the extent we fund distributions from sources other than cash flow from operations, such distributions may constitute a return of capital and we will have fewer funds available for the acquisition of properties and your overall return may be reduced. Further, to the extent distributions exceed our earnings and profits, a stockholder's basis in our stock will be reduced and, to the extent distributions exceed a stockholder's basis, the stockholder will be required to recognize capital gain.

If the properties we acquire or invest in do not produce the cash flow that we expect in order to meet our REIT minimum distribution requirement, we may decide to borrow funds to meet the REIT minimum distribution requirements, which could adversely affect our overall financial performance.

We may decide to borrow funds in order to meet the REIT minimum distribution requirements even if our management believes that the then prevailing market conditions generally are not favorable for such borrowings or that such borrowings would not be advisable in the absence of such tax considerations. If we borrow money to meet the REIT minimum distribution requirement or for other working capital needs, our expenses will increase, our net income will be reduced by the amount of interest we pay on the money we borrow and we will be obligated to repay the money we borrow from future earnings or by selling assets, which may decrease future distributions to stockholders.

A limit on the percentage of our securities a person may own may discourage a takeover or business combination, which could prevent our stockholders from realizing a premium price for their stock.

Our charter generally restricts direct or indirect ownership by one person or entity to no more than 3.3% in value of the outstanding shares of our capital stock, unless exempted (prospectively or retroactively) by our board of directors.

This restriction may have the effect of delaying, deferring or preventing a change in control of us, including an extraordinary transaction (such as a merger, tender offer or sale of all or substantially all of our assets) that might provide a premium price to our stockholders.

Table of Contents

We operate as a holding company dependent upon the assets and operations of our subsidiaries, and because of our structure, we may not be able to generate the funds necessary to make dividend payments on our common stock.

We generally operate as a holding company that conducts its businesses through our subsidiaries. These subsidiaries conduct all of our operations and are our only source of income. Accordingly, we are dependent on cash flows and payments of funds to us by our subsidiaries as dividends, distributions, loans, advances, leases or other payments from our subsidiaries to generate the funds necessary to make dividend payments on our common stock. Our subsidiaries ability to pay such dividends and/or make such loans, advances, leases or other payments may be restricted by, among other things, applicable laws and regulations, any debt agreements and management agreements into which our subsidiaries may enter, which may impair our ability to make cash payments on our common stock. In addition, such agreements may prohibit or limit the ability of our subsidiaries to transfer any of their property or assets to us, any of our other subsidiaries or to third parties. Our future indebtedness or our subsidiaries future indebtedness may also include restrictions with similar effects.

In addition, because we are a holding company, stockholders claims will be structurally subordinated to all existing and future liabilities and obligations (whether or not for borrowed money) of our Operating Partnership and its subsidiaries. Therefore, in the event of our bankruptcy, liquidation or reorganization, claims of our stockholders will be satisfied only after all of our and our Operating Partnership s and its subsidiaries liabilities and obligations have been paid in full.

USE OF PROCEEDS

We estimate that our net proceeds from this offering will be approximately \$ million (or approximately \$ million if the underwriters exercise their over-allotment option in full) after deducting the underwriting discount and commissions and other estimated offering expenses of approximately \$140,000 payable by us.

We intend to use the proceeds from this offering to repay existing indebtedness, fund pending and future property acquisitions (including certain of the pending acquisitions described in the Summary section above under Recent Developments Pending Acquisitions) and for other general corporate purposes. This offering is not contingent upon the closing of any pending acquisitions.

Our \$100.0 million long-term mortgage note payable, or our mortgage term note, matures in January 2029 and our Line of Credit matures in April 2024. The interest rate per annum applicable to the mortgage term note is initially 3.50% and is subject to adjustment in January 2017 and every three years thereafter based on the then reported yield rate for the three year U.S. Treasury obligations and a spread determined by the lender. The interest rate per annum applicable to our Line of Credit is equal to the greater of (i) London Interbank Offered Rate, or LIBOR, or (ii) 2.75% per annum, in each case plus a spread equal to 2.5%, with such spread subject to adjustment in April 2017. As of September 23, 2014, our mortgage term note had an outstanding balance of \$41.3 million and our Line of Credit had an outstanding balance of \$14.6 million. The maximum amount available to be drawn, in aggregate, under our mortgage note and our line of credit is currently \$13.7 million. Capacity to borrow under these instruments, with a maximum aggregate availability of \$125 million is limited to 58% of the appraised value of property that is pledged as collateral.

Pending application of any portion of the net proceeds as described above, we may invest it in interest-bearing accounts and short-term, interest-bearing securities as is consistent with our intention to maintain our qualification as a REIT for federal income tax purposes. Such investments may include, for example, obligations of the Government National Mortgage Association, other government and governmental agency securities, certificates of deposit and interest-bearing bank deposits.

While the statements in this prospectus supplement concerning our distribution policy represent our current expectations, any actual distribution payable will be determined by our Board of Directors based upon the circumstances at the time of authorization and the actual number of shares of common stock then outstanding, and any future cash distribution payable on our common stock may vary from such expected amounts.

The underwriting agreement provides that the obligations of the several underwriters are subject to certain conditions precedent such as the receipt by the underwriters of officers and trustees certificates and legal opinions and approval of certain legal matters by their counsel. The underwriting agreement provides that the underwriters will purchase all of the shares of common stock if any of them are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated. We have agreed to indemnify the underwriters and certain of their controlling persons against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares of common stock subject to their acceptance of the shares of common stock from us and subject to prior sale. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commission and Expenses

The underwriters have advised us that they propose to offer the shares of common stock to the public at the public offering price set forth on the cover page of this prospectus supplement and to certain dealers, which may include the underwriters, at that price less a concession not in excess of \$ per share of common stock. The underwriters may allow, and such dealers may reallow, a concession not in excess of \$ per share to certain other dealers. After the offering, the public offering price and concession to dealers may be reduced by the representative. No such reduction will change the amount of proceeds to be received by us as set forth on the cover page of this prospectus supplement.

The following table shows the public offering price, the underwriting discounts and commissions that we are to pay the underwriters and the proceeds, before expenses, to us in connection with this offering. Such amounts are

shown assuming both no exercise and full exercise of the underwriters' option to purchase the over-allotment shares.

We estimate expenses payable by us in connection with this offering, other than the underwriting discounts and commissions referred to above, will be approximately \$140,000. This amount includes reimbursement to the underwriters of up to \$25,000 for certain out-of-pocket expenses incurred by them in connection with this offering including, but not limited to, fees and disbursements of counsel to the underwriters.

Our common stock is listed on The NASDAQ Global Market under the trading symbol LAND.

Over-Allotment Option

We have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase, from time to time, in whole or in part, up to an aggregate of _____ shares from us at the public offering price set forth on the cover page of this prospectus supplement, less underwriting discounts and commissions. The underwriters may exercise such option only to cover over-allotments in the sale of shares of common stock offered by this prospectus supplement. If the underwriters exercise this option, each underwriter will be obligated, subject to specified conditions, to purchase a number of additional shares proportionate to that underwriter's initial purchase commitment as indicated in the table above.

No Sales of Similar Securities

We and our executive officers and directors have agreed, subject to specified exceptions, not to directly or indirectly, for a period of 60 days:

sell, offer, contract or grant any option to sell (including any short sale), pledge, transfer, establish an open put equivalent position within the meaning of Rule 16a-1(h) under the Exchange Act of shares of our common stock or

otherwise dispose of any shares of our common stock, options or warrants to acquire common stock, or securities exchangeable or exercisable for or convertible into our common stock (other than shares of senior common stock) currently or hereafter owned either of record or beneficially, or

publicly announce an intention to do any of the foregoing for a period of 60 days after the date of this prospectus supplement without the prior written consent of Janney Montgomery Scott LLC.

This restriction terminates after the close of trading of the common stock on and including the 60th day after the date of this prospectus supplement. However, subject to certain exceptions, in the event that either:

during the last 17 days of the 60 day restricted period, we issue an earnings release or material news or a material event relating to us occurs, or

prior to the expiration of the 60 day restricted period, we announce that we will release earnings results during the 16-day period beginning on the last day of the 60 day restricted period, then in either case, subject to certain exceptions specified in the underwriting agreement, the expiration of the 60 day restricted period will be extended until the expiration of the 18-day period beginning on the date of the

issuance of an earnings release or the occurrence of the material news or event, as applicable, unless Janney Montgomery Scott LLC waives, in writing, such an extension.

Janney Montgomery Scott LLC may, in its sole discretion and at any time or from time to time before the termination of the 60 day period release all or any portion of the securities subject to lock-up agreements. There are no existing agreements between the underwriters and any of our stockholders who will execute a lock-up agreement, providing consent to the sale of shares prior to the expiration of the lock-up period.

Stabilization

The underwriters have advised us that they, pursuant to Regulation M under the Exchange Act, and certain persons participating in the offering, may engage in short sale transactions, stabilizing transactions, syndicate covering transactions or the imposition of penalty bids in connection with this offering. These activities may have the effect of stabilizing or maintaining the market price of the common stock at a level above that which might otherwise prevail in the open market. Establishing short sales positions may involve either covered short sales or naked short sales.

Covered short sales are sales made in an amount not greater than the underwriters' over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option or purchasing shares of our common stock in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option.

Naked short sales are sales in excess of the over-allotment option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares of our common stock in the open market after pricing that could adversely affect investors who purchase in this offering.

A stabilizing bid is a bid for the purchase of shares of common stock on behalf of the underwriters for the purpose of fixing or maintaining the price of the common stock. A syndicate covering transaction is the bid for or the purchase of shares of common stock on behalf of the underwriters to reduce a short position incurred by the underwriters in connection with the offering. Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. A penalty bid is an arrangement permitting the underwriters to reclaim the selling concession otherwise accruing to a syndicate member in connection with the offering if the common stock originally sold by such syndicate member are purchased in a syndicate covering transaction and therefore have not been effectively placed by such syndicate member.

Neither we, nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. The underwriters are not obligated to engage in these activities and, if commenced, any of the activities may be discontinued at any time.

The underwriters may also engage in passive market making transactions in our common stock on The NASDAQ Global Select Market in accordance with Rule 103 of Regulation M during a period before the commencement of offers or sales of shares of our common stock in this offering and extending through the completion of distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, that bid must then be lowered when specified purchase limits are exceeded.

Electronic Distribution

A prospectus in electronic format may be made available by e-mail or on the web sites or through online services maintained by one or more of the underwriters or their affiliates. In those cases, prospective investors may view offering terms online and may be allowed to place orders online. The underwriters may agree with us to allocate a specific number of shares of common stock for sale to online brokerage account holders. Any such allocation for online distributions will be made by the underwriters on the same basis as other allocations. Other than the prospectus in electronic format, the information on the underwriters' web sites and any information contained in any other web site maintained by any of the underwriters is not part of this prospectus supplement or the accompanying prospectus, has not been approved and/or endorsed by us or the underwriters and should not be relied upon by investors.

Other Activities and Relationships

The underwriters and certain of their affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and certain of their respective affiliates have, from time to time, performed, and may in the future perform, various commercial and investment banking and financial advisory services for us and our affiliates, for which they received or will receive customary fees and expenses.

In the ordinary course of their various business activities, the underwriters and certain of their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments issued by us and our affiliates. If the underwriters or their respective affiliates have a lending relationship with us, they may routinely hedge their credit exposure to us consistent with their customary risk management policies. The underwriters and their respective affiliates may hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities or the securities of our affiliates, including potentially the common stock offered hereby. Any such short positions could adversely affect future trading prices of the common stock offered hereby. The underwriters and certain of their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

THE COMPANY

We are an externally-managed real estate company that was originally incorporated in California on June 14, 1997 and that intends to elect to be taxed as a real estate investment trust for the year ended December 31, 2013. We were subsequently re-incorporated in Delaware on May 25, 2004 and finally re-incorporated in Maryland on March 24, 2011. We exist primarily for the purpose of engaging in the business of owning and leasing farmland. Prior to 2004, we engaged in the owning and leasing of farmland, as well as an agricultural operating business whereby we engaged in the farming, contract growing, packaging, marketing and distribution of fresh berries, including commission selling and contract cooling services to independent berry growers. In 2004, we sold our agricultural operating business, and since 2004, our operations have consisted solely of leasing our farms to medium-sized, independent farming operations and larger, corporate farming operations.

We currently own 21 farms: 8 in California, 6 in Florida, 4 in Michigan, 2 in Oregon and 1 in Arizona. We also own two storage facilities utilized for cooling crops (known as coolers), and one facility used for the storage and assembly of boxes for shipping produce (known as a box barn). These properties are currently leased to 16 separate tenants that are either corporate or independent farmers. We also lease a small parcel on our farm near Oxnard, California, or West Gonzales, to an oil company. Historically, our farmland has predominantly been concentrated in locations where tenants are able to grow annual row crops, such as certain types of berries (such as strawberries and raspberries), lettuce and other crops, which are planted and harvested annually or more frequently. However, during 2013, we began to diversify the variety of crops grown on our properties, and now own several farms with more permanent crops, such as blueberries, as well as a couple of farms that grow grains, such as corn and beans. While our focus remains on annual row crops, in the future, we may acquire additional land farmed for fruit or nut trees, bushes, wine berries and wine grapes, as well as land to grow grains. We may also acquire more property related to farming, such as cooler buildings, freezer buildings, box barns, silos, storage facilities, green houses, processing plants, packaging buildings and distribution centers.

We generally lease our properties under triple-net leases, an arrangement under which the tenant pays rent to us and maintains the property while paying the related taxes, maintenance and insurance costs. We may also elect to sell farmland at certain times, such as when the land could be developed by others for urban or suburban uses. We do not currently intend to enter the business of growing, packing or marketing farmed products; however, if we do so in the future, we expect that we would conduct such business through a taxable REIT subsidiary, or TRS.

To a lesser extent, we may provide senior secured first lien mortgage loans to farmers for the purchase of farmland and farm-related properties. We expect that any mortgage loans we make would be secured by farming properties that have a successful history of crop production and profitable farming operations and that, over time, such mortgages would not exceed 5.0% of the fair value of our total assets. Currently, we do not hold any mortgages, and we have not identified any properties for which to make loans secured by mortgages.

Our business is managed by our external adviser, Gladstone Management Corporation, or our Adviser, which is an affiliated registered investment adviser under the Investment Advisers Act of 1940. Our Adviser is responsible for managing our business on a daily basis and for identifying and making acquisitions and dispositions that it believes satisfy our investment criteria. Administrative services are provided to us by our Administrator, also an affiliate of ours and our Adviser. Our Adviser and our Administrator are owned and controlled by David Gladstone, our chief executive officer, president, chairman of our board of directors and our largest stockholder.

We intend to conduct our business through an Umbrella Partnership Real Estate Investment Trust, or UPREIT, structure in which our properties and the mortgage loans we make will be held directly or indirectly by Gladstone Land Limited Partnership, our Operating Partnership. We are the manager and 100% owner of Gladstone Land

Partners, LLC, or Land Partners, which is the sole general partner of our Operating Partnership,

Table of Contents

and we currently hold, directly and indirectly through Land Partners, 100% of its outstanding limited partnership units, or Units. In the future, we may offer equity ownership in our Operating Partnership by issuing Units to farmland owners from time to time in consideration for acquiring their farms. Holders of Units in our Operating Partnership will be entitled to redeem these units for cash or, at our election, shares of our common stock on a one-for-one basis at any time after holding the Units for one year. Farmland owners who exchange their farms for Units may be able to do so in a tax-deferred exchange under U.S. federal income tax laws.

The Operating Partnership is the sole member of our subsidiary, Gladstone Land Advisers, Inc., which we will elect to be a TRS. We may own or manage our assets and engage in other activities through Gladstone Land Advisers or another TRS we form or acquire when we deem it necessary or advisable. The taxable income generated by any TRS will be subject to regular corporate income tax. Currently, we do not conduct any operations through our TRS.

Our executive offices are located at 1521 Westbranch Drive, Suite 100, McLean, Virginia 22102, and our telephone number is (703) 287-5800. Our website address is www.GladstoneLand.com. However, the information located on, or accessible from, our website is not, and shall not be deemed to be, a part of this prospectus, any accompanying prospectus supplement or any free writing prospectus or incorporated into any other filings that we make with the SEC.

RISK FACTORS

An investment in any securities offered pursuant to this prospectus involves substantial risks. You should carefully consider the risk factors incorporated by reference herein from our most recent Annual Report on Form 10-K, our subsequent Quarterly Reports on Form 10-Q and the other information contained in this prospectus, as updated, amended or superseded by our subsequent filings under the Exchange Act, and the risk factors and other information contained in any accompanying prospectus supplement before acquiring any of such securities. The occurrence of any of these risks could materially and adversely affect our business, prospects, financial condition, results of operations and cash flow and might cause you to lose all or part of your investment in the offered securities. Much of the business information, as well as the financial and operational data contained in our risk factors, is updated in our periodic reports filed with the SEC pursuant to the Exchange Act, which are also incorporated by reference into this prospectus. Although we have tried to discuss key risk factors, please be aware that these are not the only risks we face and there may be additional risks that we do not presently know of or that we currently consider not likely to have a significant impact. New risks may emerge at any time and we cannot predict such risks or estimate the extent to which they may affect our business or our financial performance. Please also refer to the section entitled Forward-Looking Statements above.

RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED DIVIDENDS

Our ratios of earnings to fixed charges and preferred dividends for the years ended December 31, 2013, 2012 and 2011 are set forth below. For purposes of calculating the ratio of earnings to fixed charges and preferred dividends, earnings consist of net income from continuing operations before fixed charges. Fixed charges consist of interest expense, amortization of deferred financing fees and the portion of operating lease expense that represents interest. We do not currently have and have not historically had any outstanding preference equity securities or dividends on such securities.

USE OF PROCEEDS

Unless we specify otherwise in an accompanying prospectus supplement, we intend to use the net proceeds from the issuance or sale of our securities to provide additional funds for general corporate purposes, which may include, without limitation, the repayment of outstanding indebtedness, the acquisition of additional properties, capital expenditures and/or improvements to properties in our portfolio, distributions to stockholders and working capital. Any specific allocation of the net proceeds of an offering of securities to a specific purpose will be determined at the time of such offering and will be described in the accompanying prospectus supplement to this prospectus.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

General

Our authorized capital stock consists of 20,000,000 shares of common stock, \$0.001 par value per share. Under our charter, our board of directors is authorized to classify and reclassify any unissued shares of common stock into other classes or series of stock by setting or changing in any one or more respects, from time to time before issuance of such stock, the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms and conditions of redemption of such stock. In addition, our board of directors, with the approval of a majority of the entire board and without any action by our stockholders, may amend our charter from time to time to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that we have authority to issue. As of March 13, 2014, there were 6,530,264 shares of common stock issued and outstanding and no shares of senior common stock or preferred stock issued and outstanding. The following summary description of our capital stock is not necessarily complete and is qualified in its entirety by reference to our charter and bylaws, each of which has been filed with the SEC, as well as applicable provisions of Maryland General Corporation Law, or the MGCL.

Common Stock

Voting Rights

Subject to the provisions of our charter regarding restrictions on the transfer and ownership of our capital stock and except as may otherwise be specified in the terms of any class or series of common stock, each outstanding share of common stock entitles the holder to one vote on all matters submitted to a vote of stockholders, including the election of directors, and, except as provided with respect to any other class or series of capital stock (of which there currently is none), the holders of the common stock possess the exclusive voting power. There is no cumulative voting in the election of directors, which means that the holders of a majority of the outstanding common stock, voting as a single class, can elect all of the directors then standing for election and the holders of the remaining shares are not able to elect any directors.

Dividends, Liquidations and Other Rights

All shares of common stock offered by this prospectus will be duly authorized, fully paid and nonassessable. Holders of our common stock are entitled to receive dividends when authorized by our board of directors and declared by us out of assets legally available for the payment of dividends. They also are entitled to share ratably in our assets legally available for distribution to our stockholders in the event of our liquidation, dissolution or winding up, after payment of or adequate provision for all of our known debts and liabilities. These rights are subject to the preferential rights of any other class or series of our shares (of which there currently are none) and to the provisions of our charter regarding restrictions on transfer of our shares.

Holders of our common stock have no preference, conversion, exchange, sinking fund, redemption or appraisal rights and have no preemptive rights to subscribe for any of our securities. Subject to the restrictions on transfer of shares contained in our charter, all shares of common stock have equal dividend, liquidation and other rights.

Certificates

We will not issue certificates. Shares will be held in uncertificated form which will eliminate the physical handling and safekeeping responsibilities inherent in owning transferable stock certificates and eliminate the need to return a

duly executed stock certificate to the transfer agent to affect a transfer. Transfers can be affected simply by mailing to us a duly executed transfer form. Upon the issuance of our shares, we will send to each stockholder a written statement which will include all information that is required to be written upon stock certificates under the MGCL.

Table of Contents

Meetings and Special Voting Requirements

An annual meeting of the stockholders will be held each year for the purpose of electing the class of directors whose term is up for election and to conduct other business that may be brought before the stockholders. Special meetings of stockholders may be called upon the request of our chairman, our chief executive officer, our president, a majority of our directors or a majority of our independent directors or by the written request of stockholders of record as of the request date entitled to cast not less than a majority of all votes entitled to be cast at such meeting, provided that the request is in the form and manner specified in our Bylaws. In general, the presence in person or by proxy of a majority of the outstanding shares entitled to vote at the meeting constitutes a quorum. Generally, the affirmative vote of a majority of the votes cast at a meeting at which a quorum is present is necessary to take stockholder action, except that a plurality of all votes cast at such a meeting is sufficient to elect a director.

Under the MGCL, a Maryland corporation generally cannot dissolve, amend its charter, merge or consolidate with another entity, sell all or substantially all of its assets or engage in a statutory share exchange unless the action is approved by its board of directors and approved by the affirmative vote of stockholders entitled to cast at least two-thirds of the votes entitled to be cast on the matter, unless a lesser percentage (but not less than a majority of all of the votes entitled to be cast on the matter) is specified in the corporation's charter. Our charter provides that these actions (other than certain amendments to the provisions of our charter related to the removal of directors and the restrictions on ownership and transfer of our stock, and the vote required to amend such provisions, which must be approved by the affirmative vote of holders of at least two-thirds of the votes entitled to be cast on the amendment) may be approved by a majority of all of the votes entitled to be cast on the matter.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Computershare, Inc.

Senior Common Stock

Future Class of Senior Common Stock

If we offer senior common stock pursuant to this prospectus, an accompanying prospectus supplement will describe the specific terms of the senior common stock, including voting rights, dividends, liquidation, exchange or conversion options and any other applicable terms. Such terms will be subject to and qualified in their entirety by reference to the articles supplementary to our charter fixing the preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications and terms and conditions of redemption, if any of such senior common stock.

If we issue shares of senior common stock under this prospectus, the shares will be fully paid and non-assessable and will not have, or be subject to, any preemptive or similar rights.

If we issue shares of preferred stock under this prospectus, the shares will be fully paid and non-assessable and will not have, or be subject to, any preemptive or similar rights.

Table of Contents

The issuance of preferred stock could adversely affect the voting power, conversion or other rights of holders of common stock. Preferred stock could be issued quickly with terms designed to delay or prevent a change in control of our company or make removal of management more difficult. Additionally, the issuance of preferred stock may have the effect of decreasing the market price of our common stock. Restrictions on ownership and transfer of our common stock, senior common stock and preferred stock are designed to preserve our qualification as a REIT and, therefore, may act to prevent or hinder a change of control. See **Restrictions on Ownership and Transfer** below. Investors should review the accompanying prospectus supplement for information with respect to any deletions from, modifications of or additions to the events of default or covenants that are described below, including any addition of a covenant or other provision providing event risk or similar protection.

Restrictions on Ownership and Transfer

To qualify as a REIT under the Code, shares of our stock must be owned by 100 or more persons during at least 335 days of a taxable year of 12 months (other than the first year for which an election to be a REIT has been made) or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of the outstanding shares of our stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include certain entities) during the last half of a taxable year (other than the first year for which an election to be a REIT has been made). We intend to elect to be taxed as a REIT beginning with our taxable year ended December 31, 2013, in which case, these ownership limits will apply to us beginning with our taxable year ending December 31, 2014.

Our charter imposes restrictions on the ownership and transfer of our stock. The relevant sections of our charter provide that, subject to the exceptions described below, no person or entity may own, or be deemed to own, beneficially or by virtue of the applicable constructive ownership provisions of the Code, more than 3.3% in value of the aggregate number of shares of the outstanding shares of all classes and series of our capital stock or more than 3.3% in value or in number of shares (whichever is more restrictive) of the outstanding shares of our common stock. We refer to this limit as the **ownership limit**. An individual or entity that becomes subject to the ownership limit or any of the other restrictions on ownership and transfer of our stock described below is referred to as a **prohibited owner** if, had the violative transfer or other event been effective, the individual or entity would have been a beneficial owner or, if appropriate, a record owner of shares of our stock.

The constructive ownership rules under the Code are complex and may cause shares of stock owned actually or constructively by a group of related individuals and/or entities to be owned constructively by one individual or entity. As a result, the acquisition of less than 3.3% in value of the outstanding shares of all classes and series of our capital stock or in value or in number of shares (whichever is more restrictive) of the outstanding shares of our common stock (or the acquisition of an interest in an entity that owns, actually or constructively, shares of our stock by an individual or entity), could, nevertheless, cause that individual or entity, or another individual or entity, to own constructively in excess of the ownership limit.

Our board of directors may, in its sole discretion, subject to such conditions as it may determine and the receipt of certain representations and undertakings, prospectively or retroactively, waive the ownership limit or establish a different limit on ownership, or excepted holder limit, for a particular stockholder if the stockholder's ownership in excess of the ownership limit would not result in our being **closely held** within the meaning of Section 856(h) of the Code (without regard to whether the ownership interest is held during the last half of a taxable year) or otherwise would not result in our failing to qualify as a REIT. As a condition of its waiver or grant of excepted holder limit, our board of directors may, but is not required to, require an opinion of counsel or IRS ruling satisfactory to our board of directors in order to determine or ensure our qualification as a REIT. Our charter contains or our board of directors has created excepted holder limits for David Gladstone and the Gladstone Future Trust, a trust for the benefit of Mr. Gladstone's adult children. The excepted holder limits, which our charter contains or our board of directors

approved, allow David Gladstone and Gladstone Future Trust to hold up to 33.3% and 17%, respectively in value of the aggregate of outstanding shares of our capital

Table of Contents

stock, or 33.3% and 17% in value or number of shares, whichever is more restrictive, of our outstanding shares of common stock and certain qualified institutional investors to collectively hold up to 9.8% by value or number of shares, whichever is more restrictive, of the aggregate of the outstanding shares of capital stock or up to 9.8% by value or number of shares, whichever is more restrictive, of our outstanding shares of common stock (excluding any outstanding shares of capital or common stock not treated as outstanding for federal income tax purposes). David Gladstone currently holds approximately 30.9% of the number of shares of capital stock outstanding and Gladstone Future Trust currently holds approximately 10.2% of the number of shares of capital stock outstanding (which shares will be attributed to Mr. Gladstone for purposes of the REIT stock ownership diversification requirements).

In connection with granting a waiver of the ownership limit, creating an excepted holder limit or at any other time, our board of directors may from time to time increase or decrease the ownership limit for all other individuals and entities unless, (a) after giving effect to such increase, five or fewer individuals could beneficially or constructively own in the aggregate, more than 49.9% in value of the shares then outstanding or (b) doing so would result in our failure to qualify as a REIT. Prior to the modification of the ownership limit, our board of directors may require such opinions of counsel, affidavits, undertakings or agreements as it may deem necessary or advisable in order to determine or ensure our qualification as a REIT. A reduced ownership limit will not apply to any person or entity whose percentage ownership of our common stock or stock of all classes and series, as applicable, is in excess of such decreased ownership limit until such time as such individual's or entity's percentage ownership of our common stock or stock of all classes and series, as applicable, equals or falls below the decreased ownership limit, but any further acquisition of shares of our common stock or stock of any other class or series, as applicable, in excess of such percentage ownership of our common stock or stock of all classes and series will be in violation of the ownership limit.

Our charter further prohibits:

any person from beneficially or constructively owning, applying certain attribution rules of the Code, shares of our stock that would result in our being closely held under Section 856(h) of the Code (without regard to whether the ownership interest is held during the last half of a taxable year) or our constructively owning 10% or more of ownership interests in a tenant (other than a taxable REIT subsidiary) of our real property or otherwise cause us to fail to qualify as a REIT; and

any person from transferring shares of our stock if such transfer would result in shares of our stock being beneficially owned by fewer than 100 persons (determined without reference to any rules of attribution).

Any person who acquires or attempts or intends to acquire beneficial or constructive ownership of shares of our stock that will or may violate the ownership limit or any of the other foregoing restrictions on ownership and transfer of our stock, or who would have owned shares of our stock transferred to a trust as described below, must immediately give us written notice of the event or, in the case of an attempted or proposed transaction, must give at least 15 days prior written notice to us and provide us with such other information as we may request in order to determine the effect of such transfer on our qualification as a REIT. The foregoing restrictions on ownership and transfer of our stock will not apply if our board of directors determines that it is no longer in our best interests to attempt to qualify, or to continue to qualify, as a REIT or that compliance with the restrictions and limitations on ownership and transfer of our stock as described above is no longer required in order for us to qualify as a REIT.

If any transfer of shares of our stock would result in shares of our stock being beneficially owned by fewer than 100 persons, such transfer will be null and void and the intended transferee will acquire no rights in such shares. In addition, if any purported transfer of shares of our stock or any other event would otherwise result in any person

violating the ownership limit or an excepted holder limit established by our board of directors or in our being closely held under Section 856(h) of the Code (without regard to whether the ownership interest is held during the last half of a taxable year)) or our constructively owning 10% or more of ownership interests in a

Table of Contents

tenant (other than a taxable REIT subsidiary) of our real property or our failure to qualify as a REIT, then that number of shares (rounded up to the nearest whole share) that would cause us to violate such restrictions will be automatically transferred to, and held by, a trust for the exclusive benefit of one or more charitable organizations selected by us and the intended transferee will acquire no rights in such shares. The automatic transfer will be effective as of the close of business on the business day prior to the date of the violative transfer or other event that results in a transfer to the trust. Any dividend or other distribution paid to the prohibited owner, prior to our discovery that the shares had been automatically transferred to a trust as described above, must be repaid to the trustee upon demand for distribution to the beneficiary by the trust. If the transfer to the trust as described above is not automatically effective, for any reason, to prevent violation of the applicable ownership limit or our being closely held under Section 856(h) of the Code (without regard to whether the ownership interest is held during the last half of a taxable year) or otherwise failing to qualify as a REIT, then our charter provides that the transfer of the shares will be null and void.

Shares of stock transferred to the trustee are deemed offered for sale to us, or our designee, at a price per share equal to the lesser of (1) the price paid by the prohibited owner for the shares (or, if the event that resulted in the transfer to the trust did not involve a purchase of such shares of stock at market price, the last reported sales price on the NYSE (or other applicable exchange) on the day of the event which resulted in the transfer of such shares of stock to the trust) and (2) the market price on the date we accept, or our designee accepts, such offer. We may reduce the amount payable by the amount of any dividend or other distribution that we have paid to the prohibited owner before we discovered that the shares had been automatically transferred to the trust and that are then owed to the trustee as described above and we may pay the amount of any such reduction to the trustee for the benefit of the charitable beneficiary. We have the right to accept such offer of sale until the trustee has sold the shares of our stock held in the trust as discussed below. Upon a sale to us, the interest of the charitable beneficiary in the shares sold terminates, the trustee must distribute the net proceeds of the sale to the prohibited owner and any dividends or other distributions held by the trustee with respect to such shares of stock will be paid to the charitable beneficiary. If we do not buy the shares, the trustee must, within 20 days of receiving notice from us of the transfer of shares to the trust, sell the shares to a person or entity designated by the trustee who could own the shares without violating the ownership limit or the other restrictions on ownership and transfer of our stock. After the sale of the shares, the interest of the charitable beneficiary in the shares transferred to the trust will terminate and the trustee must distribute to the prohibited owner an amount equal to the lesser of (1) the price paid by the prohibited owner for the shares (or, if the event which resulted in the transfer to the trust did not involve a purchase of such shares at market price, the last reported sales price on the NYSE (or other applicable exchange) on the day of the event which resulted in the transfer of such shares of stock to the trust) and (2) the sales proceeds (net of commissions and other expenses of sale) received by the trust for the shares. The trustee may reduce the amount payable to the prohibited owner by the amount of any dividend or other distribution that we paid to the prohibited owner before we discovered that the shares had been automatically transferred to the trust and that are then owed to the trustee as described above. Any net sales proceeds in excess of the amount payable to the prohibited owner will be immediately paid to the beneficiary of the trust, together with any dividends or other distributions thereon. In addition, if, prior to discovery by us that shares of stock have been transferred to a trust, such shares of stock are sold by a prohibited owner, then such shares will be deemed to have been sold on behalf of the trust and to the extent that the prohibited owner received an amount for or in respect of such shares that exceeds the amount that such prohibited owner was entitled to receive, such excess amount will be paid to the trustee upon demand. The prohibited owner has no rights in the shares held by the trustee.

The trustee will be designated by us and will be unaffiliated with us and with any prohibited owner. Prior to the sale of any shares by the trust, the trustee will receive, in trust for the beneficiary of the trust, all dividends and other distributions paid by us with respect to the shares held in trust and may also exercise all voting rights with respect to the shares held in trust. These rights will be exercised for the exclusive benefit of the beneficiary of the trust. Any dividend or other distribution paid prior to our discovery that shares of stock have been transferred to the trust will be paid by the recipient to the trustee upon demand.

Table of Contents

Subject to the MGCL, effective as of the date that the shares have been transferred to the trust, the trustee will have the authority, at the trustee's sole discretion:

to rescind as void any vote cast by a prohibited owner prior to our discovery that the shares have been transferred to the trust; and

to recast the vote in accordance with the desires of the trustee acting for the benefit of the beneficiary of the trust.

However, if we have already taken irreversible corporate action, then the trustee may not rescind and recast the vote.

In addition, if our board of directors determines in good faith that a proposed transfer or other event would violate the restrictions on ownership and transfer of our stock, our board of directors may take such action as it deems advisable to refuse to give effect to or to prevent such transfer, including, but not limited to, causing us to redeem the shares of stock, refusing to give effect to the transfer on our books or instituting proceedings to enjoin the transfer.

Every owner of 5% (or such lower percentage as required by the Code or the regulations promulgated thereunder) or more of our stock, within 30 days after the end of each taxable year, must give us written notice, stating the stockholder's name and address, the number of shares of each class and series of our stock that the stockholder beneficially owns and a description of the manner in which the shares are held. Each such owner must provide to us in writing such additional information as we may request in order to determine the effect, if any, of the stockholder's beneficial ownership on our qualification as a REIT and to ensure compliance with the ownership limit. In addition, each stockholder must provide to us in writing such information as we may request in good faith in order to determine our qualification as a REIT and to comply with the requirements of any taxing authority or governmental authority or to determine such compliance.

These restrictions on ownership and transfer could delay, defer or prevent a transaction or a change in control that might involve a premium price for the common stock or otherwise be in the best interest of the stockholders.

DESCRIPTION OF DEBT SECURITIES

We may issue debt securities under one or more trust indentures to be executed by us and a specified trustee. The terms of the debt securities will include those stated in the indenture and those made a part of the indenture by reference to the Trust Indenture Act of 1939, or the Trust Indenture Act. The indentures will be qualified under the Trust Indenture Act.

The following description sets forth certain anticipated general terms and provisions of the debt securities to which an accompanying prospectus supplement may relate. The particular terms of the debt securities offered by an accompanying prospectus supplement (which terms may be different than those stated below) and the extent, if any, to which such general provisions may apply to the debt securities so offered will be described in the prospectus supplement relating to such debt securities. Accordingly, for a description of the terms of a particular issue of debt securities, investors should review both the accompanying prospectus supplement relating thereto and the following description. A form of the indenture (as discussed herein) has been filed as an exhibit to the registration statement of which this prospectus is a part.

The debt securities will be our direct obligations and may be either senior debt securities or subordinated debt securities. The indebtedness represented by subordinated securities will be subordinated in right of payment to the prior payment in full of our senior debt (as defined in the applicable indenture).

Except as set forth in the applicable indenture and described in an accompanying prospectus supplement relating thereto, the debt securities may be issued without limit as to aggregate principal amount, in one or more series, secured or unsecured, in each case as established from time to time in or pursuant to authority granted by a resolution of the board of directors or as established in the applicable indenture. All debt securities of one series need not be issued at the same time and, unless otherwise provided, a series may be reopened, without the consent of the holders of the debt securities of such series, for issuance of additional debt securities of such series.

The accompanying prospectus supplement relating to any series of debt securities being offered will contain their specific terms, including, without limitation:

their title and whether they are senior securities or subordinated securities;

their initial aggregate principal amount and any limit on their aggregate principal amount;

the percentage of the principal amount at which they will be issued and, if other than 100% of the principal amount, the portion of the principal amount payable upon declaration of acceleration of their maturity;

the terms, if any, upon which they may be convertible into shares of our common stock or preferred stock and the terms and conditions upon which a conversion will be effected, including the initial conversion price or rate and the conversion period;

if convertible, the portion of the principal amount that is convertible into common stock or preferred stock, or the method by which any portion will be determined;

if convertible, any applicable limitations on the ownership or transferability of the common stock or preferred stock into which they are convertible;

the date or dates, or the method for determining the date or dates, on which the principal will be payable;

the rate or rates (which may be fixed or variable), or the method for determining the rate or rates, at which they will bear interest, if any;

the date or dates, or the method for determining the date or dates, from which any interest will accrue, the interest payment dates on which any interest will be payable, the regular record dates for the

Table of Contents

interest payment dates, or the method by which the date will be determined, the person to whom the interest will be payable, and the basis upon which interest will be calculated if other than that of a 360-day year of twelve 30-day months;

the place or places where the principal (and premium, if any) and interest, if any, will be payable, where they may be surrendered for conversion or registration of transfer or exchange and where notices or demands to or upon us may be served;

the period or periods within which, the price or prices at which and the terms and conditions upon which they may be redeemed, as a whole or in part, at our option, if we are to have the option;

our obligation, if any, to redeem, repay or purchase them pursuant to any sinking fund or analogous provision or at the option of a holder, and the period or periods within which, the price or prices at which and the terms and conditions upon which they will be redeemed, repaid or purchased, as a whole or in part, pursuant to this obligation;

whether the payments of principal (and premium, if any) or interest, if any, may be determined with reference to an index, formula or other method (which index, formula or method may, but need not be, based upon a currency, currencies, currency unit or units or composite currencies) and the manner in which the amounts will be determined;

any additions to, modifications of or deletions from their terms with respect to the events of default or covenants set forth in the indenture;

any provisions for collateral security for their repayment;

whether they will be issued in certificated or book-entry form;

whether they will be in registered or bearer form and, if in registered form, the denominations if other than \$1,000 and any integral multiple thereof and, if in bearer form, the denominations and related terms and conditions;

the applicability, if any, of defeasance and covenant defeasance provisions of the applicable indenture;

whether and under what circumstances we will pay additional amounts as contemplated in the applicable indenture in respect of any tax, assessment or governmental charge and, if so, whether we will have the option to redeem them in lieu of making the payment; and

any other terms and any deletions from or modifications or additions to the applicable indenture.

The debt securities may provide for less than the entire principal amount thereof to be payable upon declaration of acceleration of the maturity thereof. Special federal income tax, accounting and other considerations applicable to debt securities will be described in the accompanying prospectus supplement.

The applicable indenture may contain provisions that would limit our ability to incur indebtedness or that would afford holders of debt securities protection in the event of a highly leveraged or similar transaction involving us or in the event of a change of control.

Merger, Consolidation or Sale

The applicable indenture will provide that we may consolidate with, or sell, lease or convey all or substantially all of our assets to, or merge with or into, any other corporation, provided that:

we are the continuing corporation, or the successor corporation (if other than the Company) formed by or resulting from any consolidation or merger or which has received the transfer of our assets will be organized and existing under U.S. or state law and expressly assumes payment of the principal of (and premium, if any), and interest on, all of the applicable debt securities and the due and punctual performance and observance of all of the covenants and conditions contained in the applicable indenture;

Table of Contents

immediately after giving effect to the transaction and treating any indebtedness which becomes our obligation or the obligation of any subsidiary as a result thereof as having been incurred by us or such subsidiary at the time of the transaction, no event of default under the applicable indenture, and no event which, after notice or the lapse of time, or both, would become an event of default, will have occurred and be continuing; and

an officer's certificate and legal opinion covering these conditions will be delivered to the trustee.

Covenants

The applicable indenture will contain covenants requiring us to take certain actions and prohibiting us from taking certain actions. The covenants with respect to any series of debt securities will be described in the accompanying prospectus supplement.

Events of Default, Notice and Waiver

Each indenture will describe specific events of default with respect to a series of debt securities issued under the indenture. These events of default are likely to include (with grace and cure periods):

our failure to pay any installment of interest;

our failure to pay their principal (or premium, if any) at their maturity;

our failure to make any required sinking fund payment;

our breach of any other covenant or warranty contained in the applicable indenture (other than a covenant added to the indenture solely for the benefit of a different series of debt securities); and

certain events of bankruptcy, insolvency or reorganization, or court appointment of a receiver, liquidator or trustee of us or any substantial part of our property.

If an event of default under any indenture with respect to debt securities of any series at the time outstanding occurs and is continuing, then the applicable trustee or the holders of not less than 25% of the principal amount of the outstanding debt securities of that series may declare the principal amount (or, if the debt securities of that series are original issue discount securities or indexed securities, such portion of the principal amount as may be specified in the terms thereof) of all the debt securities of that series to be due and payable immediately by written notice thereof to us (and to the applicable trustee if given by the holders). However, at any time after such a declaration of acceleration with respect to debt securities of such series (or of all debt securities then outstanding under any indenture, as the case may be) has been made, but before a judgment or decree for payment of the money due has been obtained by the applicable trustee, the holders of not less than a majority in principal amount of outstanding debt securities of such series (or of all debt securities then outstanding under the applicable indenture, as the case may be) may rescind and annul such declaration and its consequences if:

we shall have deposited with the applicable trustee all required payments of the principal of (and premium, if any) and interest on the debt securities of such series (or of all debt securities then outstanding under the applicable indenture, as the case may be), plus certain fees, expenses, disbursements and advances of the applicable trustee; and

all events of default, other than the non-payment of accelerated principal (or specified portion thereof), with respect to debt securities of such series (or of all debt securities then outstanding under the applicable indenture, as the case may be) have been cured or waived as provided in such indenture.

Each indenture also will provide that the holders of not less than a majority in principal amount of the outstanding debt securities of any series (or of all debt securities then outstanding under the applicable indenture, as the case may be) may waive any past default with respect to the series and its consequences, except:

a payment default; or

a covenant default that cannot be modified or amended without the consent of the holder of each outstanding debt security affected thereby.

Table of Contents

Each trustee will be required to give notice to the holders of debt securities within a certain number of days of a default under the applicable indenture unless the default has been cured or waived; provided, however, that the trustee may withhold notice to the holders of any series of debt securities of any default with respect to the series (except a default in the payment of the principal of (or premium, if any) or interest on any debt security of the series or in the payment of any sinking fund installment in respect of any debt security of the series) if specified responsible officers of the trustee consider withholding the notice to be in the interest of the holders.

Each indenture will prohibit the holders of debt securities of any series from instituting any proceedings, judicial or otherwise, with respect to the indenture or for any remedy thereunder, except in the case of failure of the applicable trustee, for a certain period of time after the trustee has received a written request to institute proceedings in respect of an event of default from the holders of not less than a majority in principal amount of the outstanding debt securities of such series, as well as the furnishing of indemnity reasonably satisfactory to it. This provision will not prevent any holder of debt securities from instituting a suit to enforce the payment of the principal of (and premium, if any) and interest on the debt securities at the respective due dates thereof.

Subject to the indenture, no trustee will be under any obligation to exercise any of its rights or powers under an indenture at the request or direction of any holders of any series of debt securities then outstanding, unless the holders furnish the trustee thereunder reasonable security or indemnity. The holders of not less than a majority in principal amount of the outstanding debt securities of any series (or of all debt securities then outstanding under an indenture, as the case may be) will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the applicable trustee, or of exercising any trust or power conferred upon the trustee. However, a trustee may refuse to follow any direction which is in conflict with any law or the applicable indenture, which may involve the trustee in personal liability or which may be unduly prejudicial to the holders of debt securities of such series not joining therein.

Within a certain period of time of the close of each fiscal year, we will be required to deliver to each trustee, a certificate, signed by one of several specified officers, stating whether or not the officer has knowledge of any default under the applicable indenture and, if so, specifying each default and the nature and status thereof.

Investors should review the accompanying prospectus supplement for information with respect to any deletions from, modifications of or additions to the events of default or covenants that are described herein, including any addition of a covenant or other provision providing event risk or similar protection.

Modification of the Indenture

The indenture will likely be modified or amended, with the consent of the holders of not less than a majority in principal amount of each series of the outstanding debt securities issued under the indenture affected by the modification or amendment, provided that no modification or amendment may, without the consent of each affected holder of the debt securities:

change the stated maturity date of the principal of (or premium, if any) or any installment of interest, if any, on the debt securities;

reduce the principal amount of (or premium, if any) or the interest, if any, on the debt securities or the principal amount due upon acceleration of an original issue discount security;

change the place or currency of payment of principal of (or premium, if any) or interest, if any, on the debt securities;

impair the right to institute suit for the enforcement of any payment on or with respect to the debt securities;

reduce the above-stated percentage of holders of the debt securities necessary to modify or amend the indenture; or

Table of Contents

modify the foregoing requirements or reduce the percentage of the outstanding debt securities necessary to waive compliance with certain provisions of the indenture or for waiver of certain defaults.

A record date may be set for any act of the holders with respect to consenting to any amendment.

The holders of not less than a majority in principal amount of the outstanding debt securities of each series affected thereby will have the right to waive our compliance with certain covenants in the indenture. Each indenture will contain provisions for convening meetings of the holders of debt securities of a series to take permitted action. Under certain circumstances, we and the trustee may make modifications and amendments to an indenture without the consent of any holders of outstanding debt securities.

Redemption of Debt Securities

The debt securities may be redeemed at any time at our option, in whole or in part, to protect our status as a REIT. The debt securities will also be subject to optional or mandatory redemption on terms and conditions described in the accompanying prospectus supplement.

Conversion of Debt Securities

The terms and conditions, if any, upon which any debt securities are convertible into shares of our common stock or preferred stock will be set forth in the applicable prospectus supplement relating thereto. The terms will include:

whether the debt securities are convertible into shares of our common stock or preferred stock;

the conversion price (or the manner of calculating the price);

the conversion period;

the events requiring an adjustment to the conversion price and provisions affecting conversion if the debt securities are redeemed; and

any restrictions on conversion.

Subordination

Upon any distribution to our creditors in a liquidation, dissolution or reorganization, the payment of the principal of and interest on any subordinated securities will be subordinated to the extent provided in the applicable indenture to the prior payment in full of all senior securities. No payment of principal or interest will be permitted to be made on subordinated securities at any time if any payment default or any other default which permits accelerations exists. After all senior securities are paid in full and until the subordinated securities are paid in full, holders of subordinated securities will be subrogated to the right of holders of senior securities to the extent that distributions otherwise payable to holders of subordinated securities have been applied to the payment of senior securities. By reason of any subordination, in the event of a distribution of assets upon our insolvency, some of our general creditors may recover more, ratably, than holders of subordinated securities. The accompanying prospectus supplement or the information

incorporated herein by reference will contain the approximate amount of senior securities outstanding as of the end of our most recent fiscal quarter.

Global Debt Securities

The debt securities of a series may be issued in whole or in part in global form. The global securities will be deposited with a depository, or with a nominee for a depository, identified in the accompanying prospectus supplement. In this case, one or more global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal amount of outstanding debt securities of the series to be represented by the global security or securities. Unless and until it is exchanged in whole or in part for debt securities in definitive form, a global security may not be transferred except as a whole by the depository for the global security

Table of Contents

to a nominee of the depositary or by a nominee of the depositary to the depositary or another nominee of the depositary or by the depositary or any nominee to a successor of the depositary or a nominee of the successor.

The specific material terms of the depositary arrangement with respect to any portion of a series of debt securities to be represented by a global security will be described in the accompanying prospectus supplement. We anticipate that the following provisions will apply to all depositary arrangements.

Upon the issuance of a global security, the depositary for the global security will credit, on its book-entry registration and transfer system, the respective principal amounts of the debt securities represented by the global security to the accounts of persons, or participants, that have accounts with the depositary. The accounts to be credited will be designated by any underwriters or agents participating in the distribution of the debt securities. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in the global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depositary for the global security, with respect to interests of participants, or by participants or persons that hold through participants, with respect to interests of persons other than participants. So long as the depositary for a global security, or its nominee, is the registered owner of the global security, the depositary or the nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by the global security for all purposes under the indenture; provided, however, that for purposes of obtaining any consents or directions required to be given by the holders of the debt securities, we, the trustee and our agents will treat a person as the holder of the principal amount of debt securities as specified in a written statement of the depositary. Except as set forth herein or otherwise provided in the accompanying prospectus supplement, owners of beneficial interests in a global security will not be entitled to have the debt securities represented by the global security registered in their names, will not receive physical delivery of the debt securities in definitive form and will not be considered the owners or holders thereof under the indenture.

Principal, premium, if any, and interest payments on debt securities represented by a global security registered in the name of a depositary or its nominee will be made to the depositary or its nominee, as the case may be, as the registered owner of the global security. Neither we, the trustee nor any paying agent for the debt securities, will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the global security or for maintaining, supervising or reviewing any records relating to the beneficial ownership interests.

We expect that the depositary for any debt securities represented by a global security, upon receipt of any payment of principal, premium, if any, or interest will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of the depositary. We also expect that payments by participants will be governed by standing instructions and customary practices, as is now the case with the securities held for the accounts of customers registered in street names and will be the responsibility of the participants.

If the depositary for any debt securities represented by a global security is at any time unwilling or unable to continue as depositary and a successor depositary is not appointed by us within the period of time set forth in the indenture, we will issue the debt securities in definitive form in exchange for the global security. In addition, we may at any time, and in our sole discretion, determine not to have any of the debt securities of a series represented by one or more global securities and, in that event, will issue debt securities of the series in definitive form in exchange for all of the global security or securities representing the debt securities.

The laws of some states require that certain purchasers of securities take physical delivery of the securities in definitive form. These laws may impair the ability to transfer beneficial interests in debt securities represented by

global securities.

Governing Law

The indenture for the debt securities will be governed by and construed in accordance with the laws of the State of New York.

DESCRIPTION OF DEPOSITARY SHARES

General

We may issue depositary shares, each of which will represent a fractional interest of a share of a particular class or series of our preferred stock, as specified in the accompanying prospectus supplement which will more fully describe the terms of those depositary shares. Shares of a class or series of preferred stock represented by depositary shares will be deposited under a separate deposit agreement among us, the depositary named therein and the holders from time to time of the depositary receipts issued by the preferred stock depositary which will evidence the depositary shares. Subject to the terms of the deposit agreement, each owner of a depositary receipt will be entitled, in proportion to the fractional interest of a share of a particular class or series of preferred stock represented by the depositary shares evidenced by that depositary receipt, to all the rights and preferences of the class or series of preferred stock represented by those depositary shares (including dividend, voting, conversion, redemption and liquidation rights).

The depositary shares to be issued will be evidenced by depositary receipts issued pursuant to the applicable deposit agreement. Immediately following the issuance and delivery of a class or series of preferred stock by us to the preferred stock depositary, we will cause the preferred stock depositary to issue, on our behalf, the depositary receipts. The following description of the depositary shares, and any description of the depositary shares in an accompanying prospectus supplement, may not be complete and is subject to, and qualified in its entirety by reference to, the underlying deposit agreement and the depositary receipt, which we will file with the SEC at or prior to the time of the sale of the depositary shares. You should refer to, and read this summary together with, the deposit agreement and related depositary receipt. You can obtain copies of any form of deposit agreement or other agreement pursuant to which the depositary shares are issued by following the directions described under the caption **Where You Can Find More Information** in the accompanying prospectus supplement.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of our preferred stock to the record holders of depositary shares relating to such preferred stock in proportion to the number of such depositary shares owned by such holders. The depositary shall distribute only such amount, however, as can be distributed without attributing to any holder of depositary shares a fraction of one cent, and the balance not so distributed shall be added to and treated as part of the next sum received by the depositary for distribution to record holders of depositary shares.

In the event of a distribution other than in cash, the depositary will distribute property received by it to the record holders of depositary shares entitled thereto, unless the depositary determines that it is not feasible to make such distribution, in which case the depositary may, with our approval, sell such property and distribute the net proceeds from such sale to such holders.

The deposit agreement will also contain provisions relating to the manner in which any subscription or similar rights offered by us to holders of our preferred stock shall be made available to the holders of depositary shares.

Redemption of Depositary Shares

If a class or series of preferred stock represented by depositary shares is subject to redemption, the depositary shares will be redeemed from the proceeds received by the depositary resulting from the redemption, in whole or in part, of such class or series of preferred stock held by the depositary. The redemption price per depositary share will be equal to the applicable fraction of the redemption price per share payable with respect to such class or series of preferred

stock. Whenever we redeem shares of preferred stock held by the depositary, the

Table of Contents

depository will redeem as of the same redemption date the number of depository shares representing the shares of preferred stock so redeemed. If fewer than all the depository shares are to be redeemed, the depository shares to be redeemed will be selected by lot or pro rata as may be determined by the depository.

After the date fixed for redemption, the depository shares so called for redemption will no longer be outstanding and all rights of the holders of the depository shares will cease, except the right to receive the money, securities or other property payable upon such redemption and any money, securities or other property to which the holders of such depository shares were entitled upon such redemption upon surrender to the depository of the depository receipts evidencing such depository shares.

Voting Our Preferred Stock

Upon receipt of notice of any meeting at which the holders of preferred stock are entitled to vote, the depository will mail the information contained in such notice of meeting to the record holders of the depository shares relating to such preferred stock. Each record holder of such depository shares on the record date (which will be the same date as the record date for our preferred stock) will be entitled to instruct the depository as to the exercise of the voting rights pertaining to the amount of preferred stock represented by such holder's depository shares. The depository will endeavor, insofar as practicable, to vote the amount of preferred stock represented by such depository shares in accordance with such instructions, and we will agree to take all action which may be deemed necessary by the depository in order to enable the depository to do so. The depository may abstain from voting shares of preferred stock to the extent it does not receive specific instructions from the holders of depository shares representing such preferred stock.

Amendment and Termination of the Depositary Agreement

The form of depository receipt evidencing the depository shares and any provision of the deposit agreement may at any time be amended by agreement between the depository and us. However, any amendment that materially and adversely alters the rights of the holders of depository shares will not be effective unless such amendment has been approved by the holders of at least a majority of the depository shares then outstanding. The deposit agreement may be terminated by us or the depository only if (i) all outstanding depository shares have been redeemed or (ii) there has been a final distribution in respect of our preferred stock in connection with any liquidation, dissolution or winding up of the Company and such distribution has been distributed to the holders of depository receipts.

Charges of Depositary

We will pay all transfer and other taxes and governmental charges arising solely from the existence of the depository arrangements. We will pay charges of the depository in connection with the initial deposit of our preferred stock and any redemption of our preferred stock. Holders of depository receipts will pay other transfer and other taxes and governmental charges and such other charges, including a fee for the withdrawal of shares of preferred stock upon surrender of depository receipts, as are expressly provided in the deposit agreement to be for their accounts.

Miscellaneous

The depository will forward to holders of depository receipts all reports and communications from the Company that are delivered to the depository and that we are required to furnish to holders of preferred stock.

Neither the depository nor the Company will be liable if it is prevented or delayed by law or any circumstance beyond its control in performing its obligations under the deposit agreement. The obligations of the depository and the

Company under the deposit agreement will be limited to performance in good faith of their duties thereunder and they will not be obligated to prosecute or defend any legal proceeding in respect of any

Table of Contents

depository shares or preferred stock unless satisfactory indemnity is furnished. They may rely upon written advice of counsel or accountants, or upon information provided by persons presenting preferred stock for deposit, holders of depository receipts or other persons believed to be competent and on documents believed to be genuine.

Resignation and Removal of the Depository

The depository may resign at any time by delivering to us notice of its election to do so, and we may at any time remove the depository, any such resignation or removal to take effect upon the appointment of a successor depository and its acceptance of such appointment. Such successor depository must be appointed within 60 days after delivery of the notice of resignation or removal.

Restrictions on Ownership

The deposit agreement will contain provisions restricting the ownership and transfer of depository shares. Such restrictions will be described in the accompanying prospectus supplement and will be referenced on the applicable depository receipts.

CERTAIN PROVISIONS OF MARYLAND LAW AND OF OUR CHARTER AND BYLAWS

Classification of our Board of Directors

Our board of directors is currently comprised of eight members. Our board is divided into three classes of directors. Directors of each class are elected for a three-year term and until their respective successor is duly elected and qualifies, and each year one class of directors will be elected by the stockholders. Any director elected to fill a vacancy shall serve for the remainder of the full term of the class in which the vacancy occurred and until a successor is elected and qualifies. We believe that classification of our board of directors helps to assure the continuity and stability of our business strategies and policies as determined by our directors. Holders of shares of our common stock have no right to cumulative voting in the election of directors. Consequently, at each annual meeting of stockholders, the holders of a majority of the capital stock entitled to vote are able to elect all of the successors of the class of directors whose terms expire at that meeting.

Our classified board could have the effect of making the replacement of incumbent directors more time consuming and difficult. At least two annual meetings of stockholders, instead of one, will generally be required to effect a change in a majority of our board of directors. Thus, our classified board could increase the likelihood that incumbent directors will retain their positions. The staggered terms of directors may delay, defer or prevent a tender offer or an attempt to change control of us or another transaction that might involve a premium price for our common stock that might be in the best interest of our stockholders.

Removal of Directors

Any director may be removed only for cause by the stockholders upon the affirmative vote of at least two-thirds of all the votes entitled to be cast generally in the election of directors.

Restrictions on Ownership and Transfer

To qualify and maintain status as a REIT, not more than 50% of our outstanding shares may be owned by any five or fewer individuals (including some tax-exempt entities) during the last half of each taxable year, and the outstanding shares must be owned by 100 or more persons independent of us and each other during at least 335 days of a 12-month taxable year or during a proportionate part of a shorter taxable year for which an election to be treated as a REIT is made. These requirements do not apply to us for our first taxable year for which we elect to be taxed as a REIT for federal income tax purposes. In order to assist our board of directors in becoming a REIT and preserving our status as a REIT, among other purposes, our charter contains ownership limits which prohibit any person or group of persons from acquiring, directly or indirectly, beneficial ownership of more than 3.3% in value of our outstanding shares of capital stock or more than 3.3% in value or in number of shares (whichever is more restrictive) of our outstanding shares of common stock, other than David Gladstone, who currently owns approximately 30.8% of our outstanding capital stock and the Gladstone Future Trust, that currently owns approximately 10.2% of our outstanding capital stock, and certain qualified institutional investors who may own up to 9.8%. See [Description of Our Capital Stock](#) [Restrictions on Ownership and Transfer](#) for more information.

The 3.3% ownership limit does not apply to any underwriter, placement agent or initial purchaser that participates in a public offering, a private placement or other private offering of our capital stock (or securities convertible or exchangeable for capital stock) in a public offering of our shares, only to the extent necessary to facilitate such offering.

Distributions

Distributions will be paid to investors who are stockholders as of the record date selected by our board of directors. Distributions will be paid on a monthly basis regardless of the frequency with which such distributions

Table of Contents

are declared. To qualify as a REIT, we are required to make distributions sufficient to satisfy the REIT requirements. Generally, income distributed as distributions will not be taxable to us under federal income tax laws unless we fail to comply with the REIT requirements.

Distributions will be paid at the discretion of our board of directors based on our earnings, cash flow and general financial condition. The directors' discretion will be governed, in substantial part, by their obligation to cause us to comply with the REIT requirements. Because we may receive income from interest or rents at various times during our fiscal year, distributions may not reflect our income earned in that particular distribution period but may be made in anticipation of cash flow which we expect to receive during a later month and may be made in advance of actual receipt in an attempt to make distributions relatively uniform. We may borrow to make distributions if the borrowing is necessary to maintain our REIT status, or if the borrowing is part of a liquidation strategy whereby the borrowing is done in anticipation of the sale of properties and the proceeds will be used to repay the loan.

Information Rights

Any stockholder may, during normal business hours and for any lawful and proper purpose, inspect and copy our bylaws, minutes of the proceedings of our stockholders meetings, our annual financial statements and any voting trust agreement that is on file at our principal office. In addition, one or more stockholders who together are, and for at least six months have been, record or beneficial holders of 5% of any class of our stock are entitled to inspect a copy of our stockholder list upon written request. The list will include the name and address of, and the number of shares owned by, each stockholder and will be available at our principal office within 20 days of the stockholder's request.

The rights of stockholders described above are in addition to, and do not adversely affect rights provided to investors under, Rule 14a-7 promulgated under the Exchange Act. Rule 14a-7 provides that, upon request of investors and the payment of the expenses of the distribution, we are required to distribute specific materials to stockholders in the context of the solicitation of proxies for voting on matters presented to stockholders, or, at our option, provide requesting stockholders with a copy of the list of stockholders so that the requesting stockholders may make the distribution themselves.

Business Combinations

The MGCL prohibits business combinations between a corporation and an interested stockholder or an affiliate of an interested stockholder for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations include a merger, consolidation, statutory share exchange, or, in circumstances specified in the statute, certain transfers of assets, certain stock issuances and transfers, liquidation plans and reclassifications involving interested stockholders and their affiliates. The MGCL defines an interested stockholder as:

any person who beneficially owns 10% or more of the voting power of our outstanding voting stock; or

an affiliate or associate of the corporation who, at any time within the two-year period immediately prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then-outstanding stock of the corporation.

A person is not an interested stockholder if the board of directors approves in advance the transaction by which the person otherwise would have become an interested stockholder. However, in approving the transaction, the board of

directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the board of directors.

Table of Contents

After the five-year prohibition, any business combination between a corporation and an interested stockholder generally must be recommended by the board of directors and approved by the affirmative vote of at least:

80% of the votes entitled to be cast by holders of the then outstanding shares of voting stock; and

two-thirds of the votes entitled to be cast by holders of the voting stock other than shares held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or shares held by an affiliate or associate of the interested stockholder.

These super-majority vote requirements do not apply if the common stockholders receive a minimum price, as defined under the MGCL, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares.

The statute permits various exemptions from its provisions, including business combinations that are approved by the board of directors before the time that the interested stockholder becomes an interested stockholder.

Subtitle 8

Subtitle 8 of Title 3 of the MGCL permits a Maryland corporation with a class of equity securities registered under the Exchange Act and at least three independent directors to elect to be subject, by provision in its charter or bylaws or a resolution of its board of directors and notwithstanding any contrary provision in the charter or bylaws, to any or all of five provisions:

a classified board of directors;

a two-thirds vote requirement for removing a director;

a requirement that the number of directors be fixed only by vote of the directors;

a requirement that a vacancy on the board be filled only by the remaining directors and for the remainder of the full term of the class of directors in which the vacancy occurred; and

a majority requirement for the calling by stockholders of a special meeting of stockholders.

Through provisions in our charter and bylaws unrelated to Subtitle 8, we already (a) have a classified board, (b) require a two-thirds vote for the removal of any director from the board, (c) vest in the board the exclusive power to fix the number of directorships and (d) require, unless called by our chairman, our chief executive officer, our president, a majority of our directors or a majority of our independent directors, the request of stockholders entitled to cast not less than a majority of all votes entitled to be cast to call a special meeting. We have elected that, except as may be provided by our board of directors in setting the terms of any class or series of stock, any and all vacancies on the board may be filled only by the affirmative vote of a majority of the remaining directors in office, even if the

remaining directors do not constitute a quorum, and any director elected to fill a vacancy will serve for the remainder of the full term of the class in which such vacancy occurred and until his or her successor is duly elected and qualifies.

Amendments to Our Charter and Bylaws

Except for amendments to the provisions of our charter relating to the removal of directors and the restrictions on ownership and transfer of our shares of stock and the vote required to amend these provisions (each of which must be advised by our board of directors and approved by the affirmative vote of stockholders entitled to cast not less than two-thirds of all the votes entitled to be cast on the matter), our charter generally may be amended only if approved and advised by our board of directors and approved by the affirmative vote of stockholders entitled to cast a majority of all of the votes entitled to be cast on the matter.

Table of Contents

Our board of directors has the exclusive power to adopt, alter or repeal any provision of our bylaws and to make new bylaws.

Extraordinary Transactions

Under the MGCL, a Maryland corporation generally cannot dissolve, merge, sell all or substantially all of its assets, engage in a statutory share exchange or engage in similar transactions outside the ordinary course of business unless approved by the affirmative vote of stockholders entitled to cast at least two-thirds of the votes entitled to be cast on the matter unless a lesser percentage (but not less than a majority of all of the votes entitled to be cast on the matter) is set forth in the corporation's charter. As permitted by the MGCL, our charter provides that any of these actions except for the charter amendments described above may be approved by the affirmative vote of stockholders entitled to cast a majority of all of the votes entitled to be cast on the matter.

Operations

We generally are prohibited from engaging in certain activities, including acquiring or holding property or engaging in any activity that would cause us to fail to qualify as a REIT.

Term and Termination

Our charter provides for us to have a perpetual existence. Pursuant to our charter, and subject to the provisions of any of our classes or series of stock then outstanding and the approval by a majority of the entire board of directors, our stockholders by the affirmative vote of a majority of all of the votes entitled to be cast on the matter, may approve a plan of liquidation and dissolution.

Advance Notice of Director Nominations and New Business

Our bylaws provide that, with respect to an annual meeting of stockholders, nominations of persons for election to our board of directors and the proposal of business to be considered by stockholders at the annual meeting may be made only:

pursuant to our notice of the meeting;

by or at the direction of our board of directors; or

by a stockholder who was a stockholder of record at the time of the provision of notice, who is entitled to vote at the meeting and who has complied with the advance notice procedures set forth in our bylaws.

With respect to special meetings of stockholders, only the business specified in our notice of meeting may be brought before the meeting of stockholders and nominations of persons for election to our board of directors at which directors are to be elected pursuant to our notice of the meeting may be made only:

by or at the direction of our board of directors; or

by a stockholder who was a stockholder of record at the time of the provision of notice, who is entitled to vote at the meeting and who has complied with the advance notice provisions set forth in our bylaws.

Power to Issue Additional Shares

We currently do not intend to issue any securities other than the shares described in this prospectus, although we may do so at any time, including upon the redemption of limited partnership interests that we may issue in connection with acquisitions of real property. We believe that the power to issue additional shares of stock and to classify or reclassify unissued shares of common stock or preferred stock into other classes or series of stock and thereafter to issue the classified or reclassified shares provides us with increased flexibility in

Table of Contents

structuring possible future financings and acquisitions and in meeting other needs which might arise. These actions can be taken without stockholder approval, unless stockholder approval is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. Although we have no present intention of doing so, we could issue a class or series of shares that could delay, defer or prevent a transaction or a change in control that might involve a premium price for holders of common stock or otherwise be in their best interest.

Control Share Acquisitions

The MGCL provides that a holder of control shares of a Maryland corporation acquired in a control share acquisition has no voting rights with respect to such shares except to the extent approved at a special meeting by the affirmative vote of two-thirds of the votes entitled to be cast on the matter, excluding shares of stock in a corporation in respect of which any of the following persons is entitled to exercise or direct the exercise of the voting power of shares of stock of the corporation in the election of directors: (i) a person who makes or proposes to make a control share acquisition, (ii) an officer of the corporation or (iii) an employee of the corporation who is also a director of the corporation.

Control shares are voting shares of stock which, if aggregated with all other such shares of stock previously acquired by the acquiror or in respect of which the acquiror is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquiror to exercise voting power in electing directors within one of the following ranges of voting power: (i) one-tenth or more but less than one-third, (ii) one-third or more but less than a majority, or (iii) a majority or more of all voting power. Control shares do not include shares that the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition means the acquisition of issued and outstanding control shares, subject to certain exceptions.

A person who has made or proposes to make a control share acquisition, upon satisfaction of certain conditions (including an undertaking to pay expenses and delivering an acquiring person statement), may compel our board of directors to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the shares. If no request for a meeting is made, the corporation may itself present the question at any stockholders meeting.

If voting rights are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as required by the statute, then, subject to certain conditions and limitations, the corporation may redeem any or all of the control shares (except those for which voting rights have previously been approved) for fair value determined, without regard to the absence of voting rights for the control shares, as of the date of the last control share acquisition by the acquiror or of any meeting of stockholders at which the voting rights of such shares are considered and not approved. If voting rights for control shares are approved at a stockholders meeting and the acquiror becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of such appraisal rights may not be less than the highest price per share paid by the acquiror in the control share acquisition.

The control share acquisition statute does not apply (a) to shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction or (b) to acquisitions approved or exempted by the charter or bylaws of the corporation.

Our bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions of shares of our stock by David Gladstone and any of his affiliates. There is no assurance that such provision will not be amended or eliminated at any time in the future.

Possible Anti-Takeover Effect of Certain Provisions of Maryland Law and of Our Charter and Bylaws

The business combination provisions and the control share acquisition provisions of the MGCL; the classification of our board of directors; the restrictions on the transfer and ownership of stock and the advance notice provisions of our bylaws could have the effect of delaying, deferring or preventing a transaction or a change in control that might involve a premium price for holders of common stock or otherwise be in their best interests.

MATERIAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

This section summarizes the current material federal income tax consequences generally resulting from an election by us to be taxed as a REIT and the current material federal income tax considerations relating to the ownership and disposition of our common stock, senior common stock and preferred stock. As used in this section, the terms “we” and “our” refer solely to Gladstone Land Corporation and not to our subsidiaries and affiliates.

This discussion is not exhaustive of all possible tax considerations and does not provide a detailed discussion of any state, local or foreign tax considerations. This discussion does not address all aspects of taxation that may be relevant to particular investors in light of their personal investment or tax circumstances, or to certain types of investors that are subject to special treatment under the federal income tax laws, such as insurance companies, tax-exempt organizations (except to the limited extent discussed below under “Taxation of Tax-Exempt Stockholders”), financial institutions or broker-dealers, non-U.S. individuals and foreign corporations (except to the limited extent discussed below under “Taxation of Non-U.S. Stockholders”) and other persons subject to special tax rules. Moreover, this summary assumes that our stockholders hold our stock as a capital asset for federal income tax purposes, which generally means property held for investment. The statements in this section are based on the current federal income tax laws, including the Code, the regulations promulgated by the U.S. Treasury Department, or the Treasury Regulations, rulings and other administrative interpretations and practices of the IRS, and judicial decisions, all as currently in effect, and all of which are subject to differing interpretations or change, possibly with retroactive effect. This discussion is for general purposes only and is not tax advice. We cannot assure you that new laws, interpretations of law, or court decisions, any of which may take effect retroactively, will not cause any statement in this section to be inaccurate.

As discussed below in “Taxation in Connection with Holding Securities other than our Stock,” we intend to describe in any prospectus supplement related to the offering of our debt securities, depositary shares or subscription rights, the material federal income tax considerations relating to the ownership and disposition of such securities as will be sold by us pursuant to that prospectus supplement.

We urge you to consult your own tax advisor regarding the specific tax consequences to you of acquisition, ownership and disposition of our securities and of an election by us to be taxed as a REIT. Specifically, you should consult your own tax advisor regarding the federal, state, local, foreign, and other tax consequences of such acquisition, ownership, disposition and election, and regarding potential changes in applicable tax laws.

Taxation of Our Company

We intend to elect to be taxed as a REIT under the federal income tax laws beginning with our taxable year ended December 31, 2013. We believe that, beginning with such taxable year, we have been organized and have operated in such a manner as to qualify for taxation as a REIT under the Code, and we intend to continue to operate in such a manner. No assurances can be given that our beliefs or expectations will be fulfilled, however, since qualification as a REIT depends on our ability to satisfy numerous asset, income, stock ownership and distribution tests described below, the satisfaction of which depends, in part, on our operating results.

The sections of the Code relating to qualification, operation and taxation as a REIT are highly technical and complex. The following discussion sets forth only the material aspects of those sections. This summary is qualified in its entirety by the applicable Code provisions and the related Treasury Regulations and administrative and judicial interpretations thereof.

In connection with the filing of this registration statement, Bass, Berry & Sims PLC has rendered an opinion that our organization and current and proposed method of operation will enable us to meet the requirements for

Table of Contents

qualification and taxation as a REIT for our taxable year ended December 31, 2013, or, in the event that we do not elect to be taxed as a REIT for our taxable year ended December 31, 2013, then for our taxable year ending December 31, 2014, and for subsequent taxable years. Investors should be aware that Bass, Berry & Sims PLC's opinion is based on the federal income tax laws governing qualification as a REIT as of the date of such opinion, which is subject to change, possibly on a retroactive basis, is not binding on the IRS or any court, and speaks only as of the date issued. In addition, Bass, Berry & Sims PLC's opinion is based on customary assumptions and is conditioned upon certain representations made by us as to factual matters, including representations regarding the nature of our assets and the future conduct of our business. Moreover, our qualification and taxation as a REIT depend on our ability to meet, on a continuing basis, through actual results, certain qualification tests set forth in the federal income tax laws. Those qualification tests involve the percentage of our gross income that we earn from specified sources, the percentage of our assets that falls within specified categories, the diversity of our stock ownership, and the percentage of our earnings that we distribute. Bass, Berry & Sims PLC will not review our compliance with those tests on a continuing basis. Accordingly, no assurance can be given that the actual results of our operations for any particular period will satisfy such requirements. Bass, Berry & Sims PLC's opinion does not foreclose the possibility that we may have to use one or more of the REIT savings provisions described below, which may require us to pay a material excise or penalty tax in order to maintain our REIT qualification. For a discussion of the tax consequences of our failure to maintain our qualification as a REIT, see "Failure to Qualify as a REIT" below.

If we qualify as a REIT, we generally will not be subject to federal income tax on the taxable income that we distribute to our stockholders because we will be entitled to a deduction for dividends that we pay. The benefit of that tax treatment is that it avoids the double taxation, or taxation at both the corporate and stockholder levels, that generally results from owning stock in a corporation. In general, income generated by a REIT is taxed only at the stockholder level if such income is distributed by the REIT to its stockholders. We will be subject to federal tax, however, in the following circumstances:

We are subject to the corporate federal income tax on any REIT taxable income, including net capital gain, that we do not distribute to our stockholders during, or within a specified time period after, the calendar year in which the income is earned.

We may be subject to the corporate alternative minimum tax on any items of tax preference, including any deductions of net operating losses.

We are subject to tax, at the highest corporate rate, on:

net income from the sale or other disposition of property acquired through foreclosure (foreclosure property), as described below under "Gross Income Tests - Foreclosure Property," that we hold primarily for sale to customers in the ordinary course of business, and

other non-qualifying income from foreclosure property.

We are subject to a 100% tax on net income from sales or other dispositions of property, other than foreclosure property, that we hold primarily for sale to customers in the ordinary course of business.

If we fail to satisfy one or both of the 75% gross income test or the 95% gross income test, as described below under Gross Income Tests, but nonetheless maintain our qualification as a REIT because we meet certain other requirements, we will be subject to a 100% tax on:

the greater of the amount by which we fail the 75% gross income test or the 95% gross income test, in either case, multiplied by

a fraction intended to reflect our profitability.

If we fail to distribute during a calendar year at least the sum of: (1) 85% of our REIT ordinary income for the year, (2) 95% of our REIT capital gain net income for the year, and (3) any undistributed taxable income required to be distributed from earlier periods, then we will be subject to a 4% nondeductible excise tax on the excess of the required distribution over the amount we actually distributed.

Table of Contents

If we fail any of the asset tests, other than a de minimis failure of the 5% asset test, the 10% vote test or the 10% value test, as described below under Asset Tests, as long as (1) the failure was due to reasonable cause and not to willful neglect, (2) we file a description of each asset that caused such failure with the IRS, and (3) we dispose of the assets causing the failure or otherwise comply with the asset tests within six months after the last day of the quarter in which we identify such failure, we will pay a tax equal to the greater of \$50,000 or the highest federal corporate income tax rate (currently 35%) multiplied by the net income from the nonqualifying assets during the period in which we failed to satisfy the asset tests.

If we fail to satisfy one or more requirements for REIT qualification, other than the gross income tests and the asset tests, and such failure is due to reasonable cause and not to willful neglect, we will be required to pay a penalty of \$50,000 for each such failure.

We will be subject to a 100% excise tax on transactions with a taxable REIT subsidiary that are not conducted on an arm's-length basis.

If we acquire any asset from a C corporation, or a corporation that generally is subject to full corporate-level tax, in a merger or other transaction in which we acquire a basis in the asset that is determined by reference either to the C corporation's basis in the asset or to another asset, we will pay tax at the highest corporate rate applicable if we recognize gain on the sale or disposition of the asset during the 10-year period after we acquire the asset. The amount of gain on which we will pay tax generally is the lesser of:

the amount of gain that we recognize at the time of the sale or disposition, and
