#### 4. Profit on disposal of joint venture

On 12 December 2007, the Group sold its 100% stake in BSkyB Nature Limited, the investment holding company for the Group's 50% interest in the NGC-UK Partnership. As consideration for the disposal, the Group received 21% interests in both NGC Network International LLC and NGC Network Latin America LLC (in effect, 21% of National Geographic Channel's television operations outside of the United States of America). This realised a profit on disposal of £67 million.

#### 5. Impairment of available-for-sale investment

The Group's investment in ITV is carried at fair value. The fair value of ITV is determined with reference to its equity share price at the balance sheet date. An impairment was first recorded following a review of the carrying value of the investment in ITV at 31 December 2007, due to the significant and prolonged decline in the equity share price. In accordance with International Financial Reporting Standards, the Group has continued to review that carrying value throughout fiscal 2008 and has recognised a cumulative impairment loss of £616 million in the current year. The impairment loss for the year was determined with reference to ITV's closing equity share price of 47.5 pence at 27 June 2008, the last trading day of the Group's financial year.

In accordance with IAS 39, the effect of any further decline in the value of the equity share price of ITV will be recognised in the income statement at the relevant future balance sheet date. On 30 July 2008, the equity share price of ITV was 44.5p.

#### 6. Taxation

<b>Current tax expense</b>

Taxation relates to a £179 million  
UK

corporation tax charge (2007: £240 million) and an £8 million tax charge (2007: £15 million credit) in respect of the utilisation of Luxembourg trading losses.

The tax expense for the year is higher (2007: higher) than the expense that would have been charged using the standard rate of corporation tax in the UK (29.5%) applied to profit before tax. The applicable enacted or substantially enacted rate of UK corporation tax for the year was 29.5% (2007: 30%).

## 7. Earnings per share

The weighted average number of shares for the year was:

	<b>2008</b>	2007

<b>Basic shares</b>	<b>1,748</b>	1,755

<b>Diluted shares</b>	<b>1,748</b>	1,767

The calculation of diluted (loss) earnings per share excludes 32 million share options (2007: 17 million), which could potentially dilute earnings per share in the future.

Basic and diluted (loss) earnings per share are calculated by dividing the loss or profit for the year into the weighted average number of shares for the year.

On 17 November 2006, the Group acquired 696 million shares in ITV, at a price of 135 pence per share, representing 17.9% of the issued capital of ITV, for a total consideration of £946 million including fees and taxes.

The Group's investment in ITV is carried at fair value. The fair value of ITV is determined with reference to its equity share price at the balance sheet date. An impairment was first recorded following a review of the carrying value of the investment in ITV at 31 December 2007, due to the significant and prolonged decline in the equity share price. In accordance with International Financial Reporting Standards, the Group has continued to review that carrying value throughout fiscal 2008 and has recognised a cumulative impairment loss of £616 million in the current year. The impairment loss for the year was determined with reference to ITV's closing equity share price of 47.5 pence at 27 June 2008, the last trading day of the Group's financial year.

Any disposal of the investment, assuming certain other factors remain consistent with those existing at the balance sheet date, would be exempt from tax under the provisions of the Substantial Shareholding Exemption (SSE). As such, the SSE provisions would prevent any capital loss arising for tax purposes.

The Group holds certain unquoted equity investments that are carried at cost less impairment. The fair value of these investments is not considered to differ significantly from the carrying value.
