HSBC BANK MALAYSIA BERHAD
RESULTS FOR THE NINE MONTHS ENDED
30 SEPTEMBER 2009

- Allowance for losses on loans and financing was up MYR18 million, or 9.4 per cent, for the nine months ended 30 September 2009.
- Cost efficiency ratio for the nine months ended 30 September 2009 deteriorated to 48.9 per cent from 41.2 per cent for the corresponding period in 2008.

- Core capital and total risk-weighted capital ratios (net of proposed dividends) of 10.2 per cent and 14.8 per cent at 30 September 2009 improved compared to 8.8 per cent and 13.0 per cent respectively at 31 December 2008.

Commentary

HSBC Bank Malaysia Berhad ('the Bank') posted profit before tax of MYR631 million in the first nine months of 2009, a fall of 28.3 per cent on the same period in 2008 as the effects from the global economic downturn became more apparent in 2009.

A 12.1 per cent, or MYR105 million, decline in net interest income for the nine months ended 30 September 2009 to MYR758 million (nine months ended 30 September 2008: MYR863 million) was principally driven by a reduction in balances as gross customer loans and advances declined by MYR1.7 billion, or 5.6 per cent, from 30 September 2008 to 30 September 2009, coupled with reduced interest margins as the Central Bank of Malaysia progressively lowered the Overnight Policy Rate ('OPR') by 150 basis points from November 2008. The reduction in lending rates was greater than the reduction in floor deposit rates, which are determined by the Central Bank.

Other operating income for the nine months ended 30 September 2009 decreased to MYR695 million, down 9.0 per cent or MYR69 million compared to the corresponding period in 2008. This was mainly a result of a decrease of

MYR48 million in trading profits, reflecting lower transaction volumes in the foreign exchange market and a decline of MYR34 million in gains from sales of available-for-sale securities, moderated by higher fees and commissions of MYR8 million, primarily due to a rise in commissions on cards' services.

Income from Islamic Banking operations for the first nine months of 2009 increased by MYR11 million to MYR199 million compared to the corresponding period in 2008, mainly on the growth in fixed rate Islamic personal instalment loans which were relatively unaffected by the reduction in the OPR.

Other operating expenses for the nine months ended 30 September 2009 increased by 7.9 per cent, or MYR59 million, to MYR807 million compared with the same period in 2008. This was mainly due to higher employee costs (up MYR31 million or 7.8 per cent) as provision was made for redundancy costs for employees affected by the transfer of the Bank's call centre activities to a Global Shared Service Centre.

Primarily as a result of the decline in operating income, coupled with the increase in other operating expenses, the cost efficiency ratio for the first nine months of 2009 deteriorated to 48.9 per cent from 41.2 per cent in the same period last year.

Allowance for losses on loans and financing for the nine months ended 30 September 2009 increased by MYR18 million or 9.4 per cent compared to the same period in 2008, reflecting increased provisions against loans to corporate customers impacted by the slowdown in the economy in the current year.

Total assets at 30 September 2009 fell by MYR0.8 billion, or 1.5 per cent, compared to 31 December 2008. Net loans, advances and financing, at MYR28.0 billion, saw a decrease of MYR1.7 billion, or 5.9 per cent, mainly due to lower trade financing activities. However, customer deposits of MYR42.5 billion increased by MYR1.5 billion compared to 31 December 2008 (MYR41.0 billion).

Ms Irene M Dorner, Deputy Chairman and Chief Executive Officer of HSBC Bank Malaysia Berhad, commented: "Notwithstanding the weaker results, the Malaysian economy is now showing signs of recovery. Given where the economy is, these are satisfactory results for HSBC Bank Malaysia. The implementation of economic stimulus packages by the Government has helped to create increased economic activity and, in part, has restored some investor confidence. Things are beginning to look up in the real economy as we look forward into the fourth quarter of 2009 and into 2010 and although recovery is still slow we expect to see further improvement over this period."
