**Item 2. ACQUISITION OR DISPOSITION OF ASSETS**

On July 8, 2003, Epicor Software Corporation (the Company) entered into a definitive agreement (the Merger Agreement) providing for the merger (the Merger) of Winter Acquisition Corporation, a Minnesota corporation and wholly owned subsidiary of the Company (the Merger Sub) with and into ROI Systems, Inc. (ROI), a Minnesota corporation. The Merger was effected on July 8, 2003 (the Effective Time) and ROI survived the Merger as a wholly owned subsidiary of the Company. Pursuant to the terms of the Merger Agreement, at the Effective Time, each share of ROI common stock was converted into the right to receive cash in the amount of \$183.62 per share, representing aggregate consideration of \$20.75 million for the Merger. The purchase price was paid by Epicor out of working capital and reflects a negotiated price between the parties.

The assets of ROI were used, prior to the Effective Time, to develop, market, implement and support open systems, client/server based Enterprise Resource Planning software for mid-market discrete manufacturing companies with annual revenues between \$50 and \$500 million. The Company plans to continue to develop and support ROI's existing product line and to also leverage ROI's existing market position and customer base to create new sales opportunities which complement the Company's existing market position in the discrete make-to-order manufacturing, distribution, hospitality and services-oriented industries.

A copy of the Merger Agreement is attached as Exhibit 2.1 hereto and incorporated herein by reference.

A copy of Epicor's press release dated as of July 9, 2003, announcing completion of the Merger is attached as Exhibit 99.1 hereto and incorporated herein by reference.
