**Recent Developments**

**América Móvil's Consolidated Results for the First Quarter of 2004**

*The unaudited condensed consolidated financial information presented in this document is stated in constant pesos with purchasing power as of March 31, 2004. As a result of Mexican inflation during the first three months of 2004, the purchasing power of one peso as of December 31, 2003 is equivalent to the purchasing power of 1.0156 pesos as of March 31, 2004. Accordingly, the unaudited condensed consolidated financial information presented in this document is not directly comparable to the audited consolidated financial statements included in our annual report on Form 20-F for the fiscal year ended December 31, 2003 (the 2003 20-F ), because they are stated in constant pesos as of different dates. The audited consolidated financial information presented in the 2003 20-F is presented in constant pesos as of December 31, 2003.*

In the first quarter of 2004, América Móvil, S.A. de C.V. consolidated its position as the leading wireless operator in Latin America. We added 2.9 million subscribers, including 1.13 million in Mexico, 436 thousand in Brazil and 969 thousand in our other Latin American operations. In addition, our U.S. operations gained 395 thousand subscribers during the quarter. As of March 31, 2004, América Móvil's wireless subscribers totaled 46.7 million and our fixed lines 1.7 million, for a combined figure of 48.3 million lines.

During the first quarter of 2004, América Móvil's revenues increased by 4.0% as compared to the fourth quarter of 2004 and by 55.8% as compared to the same period in 2003, to Ps. 27,917 million. Service revenues were up 7.6% as compared to the fourth quarter of 2004 and 48.3% as compared to the same period in 2003, to Ps. 23,700 million, reflecting principally subscriber growth and increase of traffic per subscriber, as well as acquisitions. During the first quarter of 2004, our financial statements include a number of companies as consolidated subsidiaries that were not consolidated during the first quarter of 2003, including BSE S.A., Compañía de Telecomunicaciones de El Salvador ( CTE ), CTI Holdings, S.A. ( CTI ) and BCP S.A. ( BCP ). We acquired these companies after the end of the first quarter of 2003.

During the first quarter of 2004, operating income increased by 36.4% as compared to the same period in 2003, to Ps. 5,277 million. As a percentage of our total revenues, operating income during the first quarter of 2004 decreased to 18.9% as compared to 21.6% during the first quarter of 2003. This reflects a number of factors, including an increase in subscriber acquisition costs resulting from very rapid subscriber growth across our various geographic segments, certain non-recurring expenses in Brazil and greater depreciation and amortization charges resulting from the consolidation of CTI, CTE and BCP late in 2003 and our strong capital expenditures program. Non-recurring costs and expenses in Brazil relate to the start-up of operations in two regions of Brazil, the rollout of GSM services and the incorporation of BCP. We began to incur these costs and expenses during the fourth quarter of 2003, and these costs and expenses are expected to decline gradually during 2004.

We recorded comprehensive financing income of Ps. 364 million during the three-month period ended March 31, 2004, as compared to Ps. 319 million during the same period in 2003. During the first quarter of 2004, foreign exchange gains and gains attributable to the effects of inflation on monetary assets and liabilities more than offset net interest expense and other financial expenses.

We had majority net income of Ps. 4,214 million during the first quarter of 2004, a 35.5% increase as compared to the Ps. 3,111 million reported during the first quarter of 2003. Basic majority net income per share was Ps. 0.33 during the first quarter of 2004, as compared to Ps. 0.24 during the first quarter of 2003.

As compared to December 31, 2003, our total debt as of March 31, 2004 increased only by 2.6% to Ps. 51,385 million and our cash and cash equivalents as of March 31, 2004 increased by 33.2% to Ps. 12,559 million. We achieved these results notwithstanding that during the first quarter of 2004 we spent approximately Ps. 2,863 million for the repurchase of our shares and U.S.\$49 million to purchase a 49% interest in ENITEL. On March 9, 2004, we issued U.S.\$500 million of 4.125% Senior Notes due 2009 and U.S.\$800 million of 5.500% Senior Notes due 2014. The senior notes are guaranteed by Telcel.

The tables below summarize our consolidated results as of and for the three-month period ended March 31, 2004:

*America Movil's Income Statement (in accordance with Mexican GAAP)*

Millions of constant pesos as of March 31, 2004.

	<b>For the three months ended,</b>		<b>% Change</b>
	<b>March 31, 2004</b>	<b>March 31, 2003</b>
