NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Accounting Policies

In the opinion of management, the accompanying Consolidated Balance Sheets and Consolidated Statements of Income, Shareholders' Equity and Cash Flows contain all adjustments, including normal recurring adjustments necessary to present fairly the financial position of the Company as of July 31, 2004, and the results of operations and changes in cash flows for the three months then ended. Because of the seasonal nature of the Company's business, revenues and earnings results for the three months ended July 31, 2004 are not necessarily indicative of what the results will be for the full year. The Consolidated Balance Sheet as of May 1, 2004 included in this Form 10-Q was derived from the audited consolidated financial statements of the Company included in the Company's 2004 Annual Report on Form 10-K filed with the Securities and Exchange Commission. Reference should be made to the Company's Form 10-K for the year ended May 1, 2004, including the discussion of the Company's critical accounting policies.

2. Restatement of Previously Issued Financial Statements

The accompanying consolidated financial statements for the three months ended August 2, 2003 have been restated to reflect certain stock option awards as variable due to their settlement arrangements, pursuant to Financial Accounting Standards Board Interpretation (FIN) No. 44, Accounting for Certain Transactions Involving Stock Compensation (an Interpretation of APB Opinion No. 25). Under variable accounting, the excess of market value over the option price of outstanding stock options is determined at each reporting period and aggregate compensation expense is adjusted and recognized over the vesting period. Compensation expense associated with vested options continues to be adjusted to the market value of the options until the options are either exercised or terminated. Previously, the Company had measured compensation expense associated with these awards at the date of grant and had not adjusted that measurement for subsequent changes in their market value (fixed accounting). As a result, the Company has restated its selling, general and administrative expenses from continuing operations, related income tax expense and unearned compensation for the three months ended August 2, 2003. The effect of this restatement is as follows (amounts in thousands):

	Three Months Ended

3. Discontinued Operations

During the second quarter of fiscal 2004, which ended November 1, 2003, the Company committed to a plan, and reached an agreement, to sell certain of its subsidiary companies (generally known as Anchor Bay Entertainment) within its North Coast Entertainment (NCE) business segment. In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the financial results of these subsidiary companies are reported separately as discontinued operations in the Company's Consolidated Statements of Income for all periods presented, since the ongoing operations and cash flows of these companies are eliminated from the ongoing operations of the Company upon completion of the sale. The Company does not have any continuing involvement in the operations of these companies after the disposal transaction. Certain requested adjustments remain unresolved and the Company believes its potential exposure is in the range of zero to \$7,000,000. However, since no assurance can be given to the resolution of these unresolved requested adjustments, as they are neither probable nor estimatable, no accrual has been recorded for these items.

Additionally, in the fourth quarter of fiscal 2004, a licensor of Anchor Bay Entertainment exercised its right to audit its royalty statements. As a result of this audit, the licensor has asserted a claim against Anchor Bay Entertainment for royalties it believes are due them, in the amount of \$5,600,000 including interest. Per the Anchor Bay Entertainment sale agreement, the Company is potentially liable for certain royalty audit claims. The Company believes its potential exposure is in the range of zero to \$5,600,000. However, since no assurance can be given to the resolution of this claim, as it is neither probable nor estimatable, no accrual has been recorded for this claim.

4. Stock Plans

The Company has stock-based compensation plans in the form of stock options, performance shares and restricted stock. Prior to fiscal 2004, and after the restatement discussed in Note 2 of Notes to Consolidated Financial Statements, the Company accounted for these plans under the recognition and measurement provisions of Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees and FIN No. 44, Accounting for Certain Transactions Involving Stock Compensation (an Interpretation of APB Opinion No. 25). As more fully described in Note 2 of Notes to Consolidated Financial Statements, during the fourth quarter of last fiscal year, the Company began to account for all stock options granted prior to fiscal 2004 under the variable accounting method. Under variable accounting, the excess of market value over the option price of outstanding stock options is determined at each reporting period and aggregate compensation expense is adjusted and recognized over the vesting period. Compensation expense associated with vested options continues to be adjusted to the market value of the options until the options are either exercised or terminated.

Effective May 4, 2003, the Company adopted the fair value recognition provisions of SFAS No. 123, Accounting for Stock-Based Compensation. The Company selected the prospective transition method, as defined in SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, an amendment to SFAS No. 123. Under the prospective method, all stock-based awards issued after May 3, 2003 are accounted for utilizing the fair value provisions of SFAS No. 123 and are expensed over the vesting period.

The pre-tax costs related to stock-based compensation included in the determination of net income for the three months ended July 31, 2004 and August 2, 2003 was \$1,172,000 and \$1,258,000, respectively. The following table illustrates the effect on net income and earnings per share if the fair value recognition provisions of SFAS No. 123 had been applied to all stock-based awards for each period presented (in thousands of dollars except per share data):

	Three Months Ended	
	July 31, 2004	August 2, 2003 (Restated)

6. Pension Plan

The Company has two defined benefit pension plans (Pension Benefits) that cover substantially all full-time U.S. and Canadian employees. In addition, the Company has one nonqualified post retirement plan, Supplemental Executive Retirement Plan (SERP), which covers select employees. The information below, for all periods presented, combines U.S. and Canadian pension plans, and discloses SERP information separately.

Components of net periodic benefit cost are as follows (in thousands of dollars):

	<u>Pension Benefits</u>		<u>SERP</u>	
	<u>Three Months Ended</u>		<u>Three Months Ended</u>	
	<u>July 31,</u> <u>2004</u>	<u>August 2,</u> <u>2003</u>	<u>July 31,</u> <u>2004</u>	<u>August 2,</u> <u>2003</u>

Net periodic benefit cost	<u>\$ 867,471</u>	<u>\$ 903,247</u>	<u>\$ 415,490</u>	<u>\$ 367,261</u>

As of July 31, 2004, fiscal 2005 contributions to the Company's defined benefit pension plans and SERP were \$2,138,000 and \$600,000, respectively. The Company presently anticipates contributing an additional \$2,882,000 to the defined benefit pension plans in fiscal 2005 for a total of \$5,020,000, and an additional \$900,000 to SERP for a total of \$1,500,000.

7. New Accounting Pronouncements

In December 2003, SFAS No. 132 (revised December 2003), *Employers' Disclosures about Pensions and Other Postretirement Benefits*, was issued by the FASB. SFAS No. 132 (revised) expands employers' disclosures related to pension plans and other postretirement benefit plans, specifically, disclosures related to the assets, obligations, cash flows and net periodic benefit costs of defined benefit pension plans. The Company adopted the revised provisions of this Statement.

8. **Segment Information**

As described in Note 3 of Notes to Consolidated Financial Statements, the Company sold certain subsidiary companies in the second quarter of fiscal 2004, all of which had previously been reported in the NCE business segment. As a result of the sale of these subsidiary companies, beginning in fiscal 2005, the Company's operations are comprised of only one business segment, Handleman Entertainment Resources (H.E.R.). H.E.R. is responsible for music category management and distribution operations.

The accounting policies of this segment are the same as those described in Note 1, Accounting Policies, contained in the Company's Form 10-K for the year ended May 1, 2004. Segment data includes a charge allocating corporate costs to the operating segment. The Company evaluates performance of its segments and allocates resources to them based on income before interest, income taxes and minority interest (segment income).

Fiscal 2004 amounts below represent all H.E.R. operations, as well as activity from remaining NCE operations other than from those companies which were sold (as those amounts are classified as discontinued operations).

The tables below present information about reported segments for the three months ended July 31, 2004 and August 2, 2003 (in thousands of dollars):

Three Months Ended July 31, 2004:	<u>H.E.R.</u>	<u>NCE</u>	<u>Total</u>

11. Contingencies

In January 2002, Kmart Corporation filed for Chapter 11 bankruptcy protection and requested that the Bankruptcy Court designate Handleman Company and several other companies' critical trade vendors. The court approved this designation, and Handleman received \$49.0 million in payment of Kmart's obligations. In April 2003, the United States District Court ruled that the Bankruptcy Court's designation regarding critical trade vendors was not appropriate under the Bankruptcy Code. The District Court's order did not require repayment of the amounts received by the critical trade vendors. Kmart immediately appealed the District Court's ruling to the United States Court of Appeals. Handleman Company subsequently was permitted to intervene and participate in that appeal. Kmart emerged from bankruptcy in May 2003. During the pendency of its appeal to the Court of Appeals, Kmart filed a complaint before the Bankruptcy Court in June 2003, asking that the \$49.0 million be reimbursed. On February 24, 2004, the Court of Appeals affirmed the District Court's order. The Company has asked the U.S. Supreme Court to grant a writ of certiorari and review this matter, on the basis that the Company was deprived of due process when it did not receive notice of the appeal of the Bankruptcy Court's critical trade vendor order to the United States District Court. The Company is in discussions with Kmart in an effort to resolve this issue without going forward with legal proceedings. The Company's position is that, as a result of being named a critical trade vendor, it granted economic concessions to Kmart, and gave up certain rights, with an aggregate economic value substantially equivalent to the \$49.0 million payment received.

There are no additional pending legal proceedings to which the Registrant or any of its subsidiaries is a party, other than routine legal matters which are incidental to the business and the ultimate outcome of which is not expected to be material to future results of consolidated operations, financial position and cash flows. The Company has provided for all claims and legal proceedings based on its best estimate of the amounts it expects to pay. See Note 3 of Notes to Consolidated Financial Statements for a discussion of contingencies related to discontinued operations.

Handleman Company
Management's Discussion and Analysis of
Financial Condition and Results of Operations

The Company had previously operated in two business segments: Handleman Entertainment Resources (H.E.R.) and North Coast Entertainment (NCE). H.E.R. consists of music category management and distribution operations principally in North America and the United Kingdom (UK). NCE encompassed the Company's proprietary operations, which included music and video product. As a result of the sale of certain subsidiary companies, as discussed below, beginning in fiscal 2005, the Company's operations are comprised only of one business segment, H.E.R. Reference should be made to Note 8 of Notes to Consolidated Financial Statements for additional information regarding segments.

During the second quarter of fiscal 2004, which ended November 1, 2003, the Company committed to a plan, and reached an agreement, to sell certain of its subsidiary companies (generally known as Anchor Bay Entertainment) within its NCE business segment. In accordance with accounting standards, the financial results of these subsidiary companies are reported separately as discontinued operations in the Company's Consolidated Statements of Income for all periods presented, since the ongoing operations and cash flows of these companies are eliminated from the ongoing operations of the Company upon completion of the sale. As a result, income from continuing operations for the first quarter of fiscal 2005, which ended July 31, 2004, substantially included only H.E.R. operations.

The Company's Consolidated Financial Statements for the three months ended August 2, 2003 have been restated to reflect certain stock option awards as variable due to their settlement arrangements and pursuant to Financial Accounting Standards Board Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation (an Interpretation of APB Opinion No. 25). Under variable accounting, the excess of market value over the option price of outstanding stock options is determined at each reporting period and aggregate compensation expense is adjusted and recognized over the vesting period. Compensation expense associated with vested options continues to be adjusted to the market value of the options until the options are either exercised or terminated. Previously, the Company had measured compensation expense associated with these awards at the date of grant and had not adjusted that measurement for subsequent changes in their market value (fixed accounting). This change increased selling, general and administrative expenses in the Company's Consolidated Statements of Income and had no effect on cash. Reference should be made to Note 2 of Notes to Consolidated Financial Statements for additional information and a summary of the results of the restated financial statements for the period ended August 2, 2003.

Overview

Net income for the first quarter of fiscal 2005 was \$0.9 million or \$.04 per diluted share, compared to \$1.3 million or \$.05 per diluted share for the first quarter of fiscal 2004. Included in net income for the first quarter of last year was \$0.9 million, or \$.04 per diluted share, from discontinued operations.

Results of Operations

Unless otherwise noted, the following discussion relates only to results from continuing operations.

Revenues for the first quarter of fiscal 2005 increased to \$232.1 million from \$205.3 million for the first quarter of fiscal 2004. Income from continuing operations for the first quarter of fiscal 2005 was \$0.9 million or \$.04 per diluted share, compared to \$0.4 million or \$.01 per diluted share for the first quarter of fiscal 2004. Revenues in fiscal 2004 include corporate rental income of \$0.2 million, which does not exist in the first quarter of fiscal 2005.

H.E.R. revenues were \$232.1 million for the first quarter of fiscal 2005, a 13% increase over revenues of \$205.1 million for the first quarter of fiscal 2004. The improvement in year-over-year H.E.R. revenues was mainly due to a \$26.1 million increase in UK revenues from the first quarter of last fiscal year. Approximately 60% of the revenue growth within the UK operation was attributable to higher sales of DVD product, with higher music revenues accounting for the balance of the improvement. Additionally, sales at H.E.R.'s Canadian operation increased \$5.4 million during the first three months of fiscal 2005 over fiscal 2004, primarily due to improving conditions in the Canadian music industry. These increases were partially offset by declines in H.E.R.'s Mexico and United States (U.S.) operations of \$2.9 million and \$1.4 million, respectively. The decline in revenues in Mexico was attributable to the cessation of operations within that country in the first quarter of this fiscal year.

Consolidated direct product costs as a percentage of revenues was 81.4% for the first quarter ended July 31, 2004, compared to 78.5% for the first quarter ended August 2, 2003. The year-over-year increase in direct product costs as a percentage of revenues was chiefly due to a change in revenue mix. Higher revenues in the UK market, which incurs higher direct product costs as a percentage of revenues than the Company as a whole, accounted for 25% of the increase, while increased sales of promotional product in the H.E.R. U.S. operation was the principal driver for the remaining increase. Direct product costs for the first three months of fiscal 2005 and 2004 included costs associated with acquiring and preparing inventory for distribution of \$2.6 million and \$2.4 million, respectively.

Consolidated selling, general and administrative (SG&A) expenses were \$42.8 million or 18.4% of revenues for the first quarter of fiscal 2005, compared to \$42.8 million or 20.9% of revenues for the first quarter of fiscal 2004. The Company attributes its lower SG&A expense as a percentage of revenues to its continued focus on improving productivity and expense control.

Income before interest and income taxes (operating income) for the first quarter of fiscal 2005 was \$0.4 million, compared to operating income of \$1.4 million for the first quarter of fiscal 2004.

H.E.R. operating income for the first quarter of this fiscal year decreased to \$0.1 million, from \$0.9 million for the first quarter of last year. The decrease was mainly due to a reduction in operating income in the U.S. of \$6.1 million, 85% of which was a result of higher direct product costs as a percentage of revenues, as previously discussed. This decrease in operating income was partially offset by increases in operating income in the UK and Canada of \$3.5 million and \$1.2 million, respectively, predominately due to the higher revenues in those markets; and the absence of Handleman Online, the Company's e-commerce subsidiary which had experienced an operating loss of \$0.5 million in the first quarter of last year and subsequently ceased operations during the fourth quarter of fiscal 2004.

Edgar Filing: HANDLEMAN CO /MI/ - Form 10-Q

Interest income, net for the first quarter of fiscal 2005 was \$0.8 million, compared to \$0.2 million for the first quarter of fiscal 2004. The increase in interest income, net over the comparable period last year was mainly due to the Company's higher cash balance this year.

Table of Contents

The effective income tax rates for the first quarters of fiscal 2005 and 2004 were 21.9% and 75.4%, respectively. The lower income tax rate this year was due to the mix of earnings within the different taxing jurisdictions in which the Company operates. The higher income tax rate last year was attributable to the Company's inability to record a tax benefit on certain operating losses; the tax benefit was realized in a subsequent quarter of last year when the operating unit became profitable.

Other

Accounts receivable at July 31, 2004 was \$174.4 million, compared to \$216.4 million at May 1, 2004. The decrease in accounts receivable was due to lower sales volume in the first quarter of fiscal 2005, compared to the fourth quarter of fiscal 2004.

Merchandise inventories at July 31, 2004 was \$127.6 million, compared to \$105.5 million at May 1, 2004. The increase in merchandise inventories was primarily due to increased inventory purchases to support the higher sales level anticipated in the second quarter of fiscal 2005 in preparation for the upcoming holiday season.

Accounts payable was \$153.7 million at July 31, 2004, compared to \$129.8 million at May 1, 2004. The increase in accounts payable was mainly a result of the higher inventory purchases as previously discussed.

Accrued and other liabilities decreased to \$28.8 million at July 31, 2004, from \$46.5 million at May 1, 2004. The decrease was primarily related to decreases in accrued compensation related items and income taxes payable of \$11.6 million and \$2.6 million, respectively.

During the first quarter of fiscal 2005, the Company repurchased 330,700 shares of its common stock at an average price of \$22.50 per share. As of July 31, 2004, the Company had repurchased 3.2 million shares, or 63% of the shares under the current 20% share repurchase program authorized by its Board of Directors.

In January 2002, Kmart Corporation filed for Chapter 11 bankruptcy protection and requested that the Bankruptcy Court designate Handleman Company and several other companies' critical trade vendors. The court approved this designation, and Handleman received \$49.0 million in payment of Kmart's obligations. In April 2003, the United States District Court ruled that the Bankruptcy Court's designation regarding critical trade vendors was not appropriate under the Bankruptcy Code. The District Court's order did not require repayment of the amounts received by the critical trade vendors. Kmart immediately appealed the District Court's ruling to the United States Court of Appeals. Handleman Company subsequently was permitted to intervene and participate in that appeal. Kmart emerged from bankruptcy in May 2003. During the pendency of its appeal to the Court of Appeals, Kmart filed a complaint before the Bankruptcy Court in June 2003, asking that the \$49.0 million be reimbursed. On February 24, 2004, the Court of Appeals affirmed the District Court's order. The Company has asked the U.S. Supreme Court to grant a writ of certiorari and review this matter, on the basis that the Company was deprived of due process when it did not receive notice of the appeal of the Bankruptcy Court's critical trade vendor order to the United States District Court. The Company is in discussions with Kmart in an effort to resolve this issue without going forward with legal proceedings. The Company's position is that, as a result of being named a critical trade vendor, it granted economic concessions to Kmart, and gave up certain rights, with an aggregate economic value substantially equivalent to the \$49.0 million payment received. There are no additional pending legal proceedings to which the Registrant or any of its subsidiaries is a party, other than routine legal matters which are incidental to the business and the ultimate outcome of which is not expected to be material to future results of consolidated operations, financial position and cash flows. The Company

has provided for all claims and legal proceedings based on its best estimate of the amounts it expects to pay.

Liquidity and Capital Resources

As of July 31, 2004, the Company had an unsecured \$170.0 million line of credit arranged with a consortium of banks which was set to expire in August 2006. In August 2004, the expiration date of this credit agreement was extended one year to August 2007 and the line of credit was reduced to \$150.0 million. Management believes that the revolving credit agreement, as amended, along with cash provided from operations, will provide sufficient liquidity to fund the Company's day-to-day operations, including seasonal increases in working capital, as well as repurchases of common stock under the Company's stock repurchase program. The Company had no borrowings against its line of credit at July 31, 2004 or May 1, 2004.

On June 8, 2004, the Company announced a quarterly cash dividend of \$0.07 per share. As a result, \$1.6 million was paid on July 9, 2004 to shareholders of record at the close of business on June 24, 2004.

Net cash provided from operating activities for the first three months of fiscal 2005 increased to \$34.6 million, compared to net cash provided from operating activities of \$3.4 million for the comparable three-month period of last year. This increase was predominately due to favorable year-over-year changes in accounts payable, accounts receivable and inventory balances of \$30.6 million, \$11.0 million and \$1.4 million, respectively, partially offset by unfavorable year-over-year changes in other operating assets and liabilities balances of \$8.4 million and a decrease of \$3.0 million in non-cash charges (principally recoupment/amortization of acquired rights) in the first quarter this year compared to the first quarter of fiscal 2004. The \$30.6 million favorable year-over-year change in accounts payable balances was principally due to the timing of vendor payments.

Net cash used by investing activities decreased to \$4.4 million for the three months ended July 31, 2004 from net cash used by investing activities of \$5.4 million for the three months ended August 2, 2003. This change was primarily a result of the absence, this year, of additions to acquired rights as a result of the sale of the Anchor Bay Entertainment business unit in the second quarter of last year. The Company incurred \$3.6 million in additions to acquired rights in the first quarter of last year. This was partially offset by a \$2.8 million increase in additions to property and equipment in the first quarter of this fiscal year over the comparable period last year, mainly due to the Company's investment in its Oracle ERP computer system.

Net cash used by financing activities decreased to \$8.7 million for the three months ended July 31, 2004 from \$13.2 million for the comparable three-month period of last year. This decrease mainly resulted from a decline in the repurchase of the Company's common stock in the amount of \$7.4 million this quarter over the comparable quarter last year, partially offset by cash dividends paid this year of \$1.6 million, and an unfavorable year-over-year change in other changes in shareholders equity, net of \$1.2 million.

Outlook

The Company expects revenues from continuing operations for fiscal 2005 to improve in the mid to high single digits, in percentage terms, over revenues from continuing operations in fiscal 2004. This estimate is based on (i) revenues generated by the Company's current customer base, and (ii) numerous other factors, including the ongoing improvement in music industry sales and the competitive nature of retail pricing. Direct product costs, as a percentage of revenues, for fiscal

Table of Contents

2005 is expected to continue to be higher than prior year levels, for the reasons described earlier. The Company also expects to continue to gain operating efficiencies through fiscal 2005, and thus, expects SG&A expenses, as a percentage of revenues, to decline from previous year levels. The Company anticipates an effective income tax rate in the range of 35-36% for fiscal 2005. Finally, the Company expects to continue to repurchase shares through its existing share repurchase program, approximating the dollar levels spent last year. As a result, the Company expects fully diluted earnings per share from continuing operations for fiscal 2005 to be in the range of \$1.52-\$1.59, compared to \$1.38 fully diluted earnings per share from continuing operations for fiscal 2004.

CONTROLS AND PROCEDURES

An evaluation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e)) of the Securities Exchange Act of 1934 (the Act) as of July 31, 2004 was carried out under the supervision and with the participation of the Company's Chief Executive Officer, Chief Financial Officer and several other members of the Company's senior management. The Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures, as currently in effect, are effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Act is (i) accumulated and communicated to the Company's management (including the Chief Executive Officer and Chief Financial Officer) in a timely manner, and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. There have been no changes in internal control over financial reporting (as defined in Rule 13a-15(f) of the Act) during the first fiscal quarter ended July 31, 2004 that have materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company intends to continually review and evaluate the design and effectiveness of its disclosure controls and procedures and to improve its controls and procedures over time and to correct any deficiencies that it may discover in the future. The goal is to ensure that senior management has timely access to all material financial and non-financial information concerning the Company's business. While the Company believes the present design of its disclosure controls and procedures is effective to achieve its goal, future events affecting its business may cause the Company to modify its disclosure controls and procedures.
