PROXY STATEMENT

ABX AIR, INC.

145 Hunter Drive, Wilmington, Ohio 45177

ANNUAL MEETING OF STOCKHOLDERS, MAY 5, 2005

Date of Mailing: On or about April 5, 2005

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors (the Board) of ABX Air, Inc., a Delaware corporation (the Company), for use at the annual meeting of stockholders to be held at the Roberts Convention Centre, 188 Roberts Road, Wilmington, Ohio, at 11:00 a.m., local time, on Thursday, May 5, 2005, and at any adjournments thereof. Proxies may be solicited in person, by telephone or mail, and the costs thereof will be borne by the Company.

At the annual meeting, the holders of shares of common stock of the Company will (1) elect two directors for terms of three years and until their successors have been elected and qualified, (2) consider and vote on a proposal to amend the Company's Amended and Restated Certificate of Incorporation (the Certificate of Incorporation) to permit the Board to remove the limitation on the maximum number of directors that can serve on the Board, (3) consider and vote on a proposal to adopt a long-term incentive plan for the directors, officers and senior management of the Company, (4) consider and vote on a proposal to ratify the appointment of Deloitte & Touche LLP as the independent registered public accounting firm for 2005, (5) consider and vote on a stockholder proposal, and (6) transact such other business as may properly come before the meeting and any adjournments thereof.

VOTING AT THE MEETING

Voting Rights and Outstanding Shares

Only holders of record as of the close of business on March 15, 2005, of shares of common stock of the Company will be entitled to notice of and to vote at the meeting and any adjournments thereof. The common stock is the only class of voting securities of the Company currently outstanding. On March 15, 2005, there were 58,270,400 shares of common stock outstanding. At the meeting, the presence in person or by proxy of a majority of the outstanding shares is required for a quorum.

Vote Required

Edgar Filing: ABX AIR INC - Form DEF 14A

Proposal 1: Election of Directors. The two nominees for director who receive the most votes of all the votes cast for directors will be elected. This means that if you do not vote for a particular nominee, or if you withhold authority to vote for a particular nominee when voting your proxy, your vote will not count for or against the nominee. If either listed nominee becomes unavailable, the persons named in the proxy may vote for any substitute designated by the Nominating and Governance Committee; however, the Board of Directors at this time has no reason to anticipate that this will occur.

Proposal 2: Amendment of Certificate of Incorporation. The affirmative vote of two-thirds of the shares entitled to vote at the annual meeting is required to approve the amendment of the Certificate of Incorporation. This means that if you abstain from voting on this proposal, it will count as a vote against the amendment.

Proposal 3: Adoption of the Company's 2005 Long-Term Incentive Plan. The affirmative vote of a majority of the votes represented at the annual meeting, either in person or by proxy, and entitled to vote on this proposal, is required to adopt the 2005 Long-Term Incentive Plan. An abstention will be treated as a vote against this proposal.

Table of Contents

Proposal 4: Ratification of Selection of Independent Registered Public Accounting Firm. The affirmative vote of a majority of the votes represented at the annual meeting, either in person or by proxy, and entitled to vote on this proposal, is required to ratify the selection of Deloitte & Touche LLP as the independent registered public accounting firm for fiscal year 2005. This means that if you abstain from voting on this proposal, it will have the same effect as if you voted against it.

Proposal 5: Stockholder Proposal. The affirmative vote of a majority of the votes represented at the annual meeting, either in person or by proxy, and entitled to vote on the proposal, is required for adoption of the stockholder proposal. If you abstain from voting on the stockholder proposal, it will have the same effect as if you voted against the proposal.

Unless a stockholder provides specific instructions to withhold votes from one or both nominees for director, the persons named in the proxy will be authorized to vote the shares represented thereby **FOR** the election of the nominees for director. To the extent specific instructions are not given with respect to the Company's Proposals 2, 3 or 4, the shares represented by the proxy will be voted **FOR** such proposal(s). To the extent specific instructions are not given with respect to the stockholder proposal, the shares represented by the proxy will be voted **AGAINST** the proposal.

Shares Registered in the Name of a Broker

Brokerage firms holding shares in street name for customers are required to vote such shares in the manner directed by their customers. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in street name, and these proxy materials are being forwarded to you by your broker or nominee which is considered, with respect to those shares, the stockholder of record. As the beneficial owner, you have the right to direct your broker how to vote and are also invited to attend the meeting. Your broker or nominee has enclosed or provided a voting instruction card for you to use in directing the broker or nominee how to vote your shares. However, since you are not the stockholder of record, you may not vote these shares in person at the meeting unless you obtain a signed proxy from the record holder giving you the right to vote these shares.

Revocability

You may revoke your proxy at any time before it has been voted by voting in person at the meeting, by giving written notice of revocation to the Secretary of the Company, or by giving a later dated proxy at any time before the voting.

Confidentiality

It is the policy of the Company that all proxy cards, ballots and vote tabulations that identify the vote of a specific stockholder on any matter submitted for a vote of stockholders be kept secret from the Company and its directors, officers and employees, except when (a) disclosure is required by applicable law or regulation, (b) a stockholder expressly requests such disclosure, or (c) in a contested proxy solicitation.

Proxy Solicitation

Edgar Filing: ABX AIR INC - Form DEF 14A

Proxies may be solicited by directors, executive officers and other employees of the Company in person or by telephone, telegraph or mail only for use at the annual meeting. The Company has retained InvestorCom, Inc., 110 Wall Street, Suite 2400, New York, New York 10005, to assist in the solicitation of proxies and will pay that firm a fee estimated not to exceed \$6,000, plus out-of-pocket expenses.

Proxy Tabulation

Proxies and ballots will be received and tabulated by an independent entity that is not affiliated with the Company. The inspectors of election will also be independent of the Company. Subject to the above exceptions

to the confidential voting policy, comments on written proxy cards will be provided to the Secretary of the Company without disclosing the vote unless the vote is necessary to understand the comment.

The Audit Committee performs its work under the guidance of a written charter that was initially approved by the Audit Committee and the Board in August 2003 and was most recently amended in February 2005. The charter of the Audit Committee is available at <http://www.abxair.com> and is also included herein as Appendix A.

The Audit Committee has furnished the following report.

Audit Committee Report

This report will not be deemed to be incorporated by reference by any general statement incorporating this Proxy Statement into any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent the Company specifically incorporates this information by reference and will not be deemed soliciting material or deemed filed under those Acts.

In the performance of its oversight function, the Audit Committee has reviewed and discussed the audited consolidated financial statements for the year ended December 31, 2004 with management and the Company's independent registered public accounting firm, Deloitte & Touche LLP. The Audit Committee has also discussed with the independent registered public accounting firm, the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as currently in effect. The Audit Committee has also discussed with Deloitte & Touche LLP matters relating to its independence and has received the written disclosures and the letter from the independent registered public accounting firm required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, as currently in effect.

Based upon the review and discussions described in this report, the Audit Committee recommended that the Board of Directors include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2004, as filed with

to the full Board regarding the Company's overall compensation policies and establishing performance based incentives that support long-term strategic goals, organizational objectives and stockholder interests. The Committee is also responsible for determining the compensation of the CEO based upon the achievement of goals and objectives that are approved by the Committee, and reviewing, evaluating and determining the compensation for the other executive officers. This includes base salaries, incentive compensation, and any other forms of remuneration. The Committee also evaluates the performance target goals for the non-executive senior officers and employees. In addition, the Committee oversees the administration of the Company's incentive compensation plans, makes recommendations to the full Board with respect to succession planning for the CEO and other officers, and sets and reviews the compensation for the Board and Committee members. The Committee met five times during 2004 and all of the members were present for every meeting.

The Compensation Committee performs its work under the guidance of a written charter that was initially approved by the Compensation Committee and the Board in August 2003 and was most recently amended in February 2005. The Committee's charter is available at <http://www.abxair.com> and is also included herein as Appendix B.

The Compensation Committee has furnished the following report on executive compensation.

Compensation Committee Report on Executive Compensation

This report will not be deemed to be incorporated by reference by any general statement incorporating this Proxy Statement into any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent the Company specifically incorporates this information by reference and will not be deemed soliciting material or deemed filed under those Acts.

General Compensation Policies for Executive Officers

Each year, the Compensation Committee reviews and approves the total compensation of the Chief Executive Officer and the other executive officers. The Compensation Committee also monitors the general compensation practices for all other non-executive officers and employees of the Company and its subsidiaries.

The Company currently compensates its Chief Executive Officer and other executive officers through a combination of base pay and annual incentive awards. The Committee reviewed the base pay levels of the executive officers during 2004 and their base salaries were increased for 2004. These pay increases were based on a peer group analysis prepared by a national compensation consulting firm, which looked at industry surveys, proprietary airline surveys, and proxy analyses of similar companies. The Summary Compensation Table contained in this Proxy Statement details the salaries paid to the named executive officers for 2004.

During 2004, the Chief Executive Officer and the other executive officers also had the potential to earn incentive compensation under the ABX Air Executive Incentive Compensation Plan (the Executive Incentive Plan). Bonus opportunities under the Executive Incentive Plan are based on the achievement of incremental markup under the ACMI and Hub and Line-Haul Services Agreements with DHL Express, Inc. (formerly, Airborne, Inc.). In addition, 25% of the incentive compensation that an executive would otherwise receive under the Executive Incentive Plan is tied to the accomplishment of individual goals. Since DHL Express, Inc. is the Company's largest customer, currently accounting for 98% of the Company's revenues, the Committee believes that at this time, it is in the Company's best interest to create a strong link between executive compensation and the Company's performance under its commercial agreements with DHL Express, Inc. The Summary Compensation Table

Edgar Filing: ABX AIR INC - Form DEF 14A

contained in the Proxy Statement details the incentive compensation paid to the named executive officers under the Executive Incentive Plan for 2004 and Airborne, Inc.'s executive incentive compensation plans for 2003 and 2002, during the period the Company was a wholly owned subsidiary of Airborne, Inc.

In early 2005, the Board engaged a national compensation consulting firm to evaluate the overall compensation structure and policies applicable to the Company's executive officers and other members of the senior management group. The consulting firm recommended that the Company supplement its executive compensation program, which now consists of base pay and annual incentive awards under the Executive

Incentive Plan, with a long-term incentive program that utilizes equity and equity-based awards. Based upon the consulting firm's recommendation, the Board is submitting to the stockholders for approval at this year's annual meeting an omnibus long-term incentive plan. See Proposal 3 Adoption of ABX Air, Inc. 2005 Long-Term Incentive Compensation Plan .

Under Federal income tax rules, the deduction for certain types of compensation paid to the Chief Executive Officer and the four other most highly compensated executive officers of publicly held companies is limited to \$1 million per employee on an annual basis. In certain circumstances, performance based compensation is exempt from the \$1 million limit. The Committee believes that substantially all of the compensation earned by Joseph C. Hete in 2004 will be deductible and that all of the compensation earned by the Company's other executive officers in 2004 will be deductible.

2004 Chief Executive Officer Compensation

The Compensation Committee annually reviews and approves the compensation of Joseph Hete, the Chief Executive Officer of the Company.

The Compensation Committee approved an increase in Mr. Hete's base salary in 2004 of 22%. In setting Mr. Hete's base salary for 2004, the Compensation Committee considered the following factors: the salaries of other CEOs in a comparison group compiled by a national compensation consulting firm, as discussed above, and Mr. Hete's past individual performance and contributions to the continuing success of the Company.

As also discussed above, the Chief Executive Officer's annual cash bonus opportunity under the Executive Incentive Plan, like that of the other executive officers, is based upon the successful attainment of specific performance measures (i.e., the achievement of incremental markups under the Company's ACMI and Hub and Line-Haul Services Agreements with DHL Express, Inc.) and the accomplishment of individual goals. 100% of the CEO's bonus opportunity is based on the achievement of incremental markup under such Agreements. In addition, 25% of the amount that the CEO would otherwise be eligible to receive is also tied to the accomplishment of individual goals. During 2004, the Company met the incremental markup goals established by the Compensation Committee at the beginning of 2004. In addition, the Compensation Committee concluded that Mr. Hete exceeded his individual goals for 2004. These achievements resulted in Mr. Hete receiving, under the terms of the Executive Incentive Plan, a bonus for 2004 that was approximately 118% of his base salary for 2004.

Compensation Committee Interlocks and Insider Participation

No interlocking relationship exists between the members of the Board or Compensation Committee and the board of directors or compensation committee of any other company, nor has any such interlocking relationship existed in the past. None of the members of the Compensation Committee are officers or employees, or former officers or employees, of the Company or any of its subsidiaries.

Nominating and Governance Committee

The Nominating and Governance Committee is currently composed of James E. Bushman, Chair, John D. Geary, and Jeffrey J. Vorholt. The Committee is generally charged with identifying individuals qualified to become members of the Board in accordance with the criteria approved by the Board; making recommendations to the full Board with respect to director nominees for each annual meeting of the stockholders; developing and recommending to the Board a set of corporate governance principles applicable to the Company; and overseeing the evaluation of the Board and management. The Committee met four times during 2004 and all of the members were present for every meeting.

Table of Contents

The Nominating and Governance Committee performs its work under the guidance of a written charter that was initially approved by the Nominating and Governance Committee and the Board in March 2004 and was most recently amended in February 2005. The Committee's Charter is available at <http://www.abxair.com> and is also included herein as Appendix C.

Consideration of Nominees for Director

Director Qualifications

The Nominating and Governance Committee is responsible for reviewing and developing the Board's criteria for evaluating and selecting new directors based on the needs of the Company from time to time. The criteria that will be used in connection with evaluating and selecting new directors will include the criteria set forth in the Company's Corporate Governance Guidelines (The Corporate Governance Guidelines are included herein as Appendix D). In addition to the criteria set forth in the Company's Corporate Governance Guidelines, the Nominating and Governance Committee will consider whether the director candidate meets the definition of independence set forth under NASDAQ rules, applicable law and the Company's Certificate of Incorporation, as well as the candidate's skills, occupation, and experience in the context of the needs of the Board. The Board will nominate new directors only from candidates identified, screened and approved by the Nominating and Governance Committee. The Nominating and Governance Committee and the Board will take into account the nature of and time involved in a director's service on other boards in evaluating the suitability of individual directors and making its recommendation to the Company's stockholders. Service on boards of other organizations must be consistent with the Company's conflict of interest policies applicable to directors as set forth in the Core Requirements of the Code of Conduct for Conducting Business of ABX Air, Inc.

Stockholder Nominees

The Bylaws permit stockholders to nominate directors for consideration at an annual stockholders' meeting. Stockholder nominations to the Board of Directors for the Annual Stockholders' Meeting for 2006 must be forwarded to the Chairman of the Nominating and Governance Committee c/o Company Secretary, ABX Air, Inc., 145 Hunter Drive, Wilmington, Ohio 45177, so as to be received not less than 90 days nor more than 120 days prior to the anniversary of the annual stockholders' meeting for 2005 (May 5, 2005); provided, however, that in the event the date of the annual stockholders' meeting for 2006 is advanced or delayed by more than 30 days from such anniversary date, notice by the stockholder to be timely must be so delivered not earlier than the 120th day prior to such annual meeting and not later than the close of business on the later of the 90th day prior to such annual meeting or the 10th day following the day on which public announcement of the date of such meeting is first made. Any nominations received after such date will be considered untimely. The written notice must satisfy certain requirements specified in the Bylaws. A copy of the Bylaws will be sent to any stockholder upon written request to the Secretary of the Company.

Evaluation of Stockholder Nominees

The policy of the Nominating and Governance Committee is to consider properly submitted stockholder recommendations of potential nominees for membership on the Board. In evaluating such nominees, the Nominating and Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board and to address the membership criteria set forth above under Director Qualifications. There are no differences in the manner in which the Committee evaluates nominees for director based on whether the nominee is recommended by a stockholder, except to the extent provided as follows: (1) such candidates must be able to meet with one or more members of the Committee and/or the Board of Directors upon request, and (2) the stockholder must provide: (a) all written materials that would be necessary for a stockholder to make a nomination pursuant to the Bylaws, which materials must be submitted no later than the time permitted for a stockholder

to make a director nomination pursuant to the Bylaws; and (b) other information requested by the Company reasonably related to the recommended individual's qualifications as a nominee.

Table of Contents**Retention Agreements**

The Company and its former parent, Airborne, Inc., had change in control agreements with the Company's executive officers, including the named executive officers, pursuant to which they were entitled to certain severance benefits if their employment was terminated without cause or with good reason, as such terms were defined under such change in control agreements, in connection with a change in control. Prior to the separation of the Company from Airborne, Inc., the Company entered into substitute retention agreements with the executives pursuant to which they will be provided with a cash retention bonus at least equal to the cash amount (not including amounts payable in respect of stock options or gross-up or tax reimbursement payments in respect of Section 4999 of the Internal Revenue Code, except as set forth below) that such executives would have been eligible to receive under their change in control agreements with the Company if they had experienced a termination of employment without cause, as defined under such change in control agreements, at the time of the separation of the Company from Airborne, Inc. Each cash retention bonus is being paid in annual equal installments on August 15th, over a period of three years beginning on August 15, 2004, subject to continued employment with the Company during that period. In addition, each cash retention bonus will be payable in full on an accelerated basis as soon as practicable following termination of the executive's employment during that period without cause or for good reason as defined in his retention agreement. Under the substitute retention agreement, each executive will also be entitled to gross-up or tax reimbursement payments in respect of Section 4999 of the Internal Revenue Code excise taxes incurred by the executive for excess parachute payments made to such executive in connection with the separation. In general, Airborne, Inc. will reimburse the Company for the cost of the retention arrangements described in this paragraph.

The following table shows information concerning the total cash retention bonuses the named executive officers of the Company are entitled to receive under their respective substitute retention agreements with the Company, subject to the conditions described above:

<u>Name</u>	<u>Total Payout</u>
Joseph C. Hete	\$ 1,883,360
Robert J. Morgenfeld	976,640
Dennis A. Manibusan	758,821
Thomas W. Poynter	611,811
John A. Jessup	652,236

The substitute retention arrangements provide that in the event any amounts become payable to the executive by the Company or its subsidiaries pursuant to the terms of any change in control, parachute or severance arrangement, or pursuant to the terms of any employment agreement as a result of the executive's termination of employment, then any amounts paid or payable under the substitute retention arrangements shall reduce and off-set any amounts otherwise payable to the executive under that change in control, parachute, severance or employment agreement or arrangement. The substitute retention arrangements further provide that, to the extent such amounts are actually paid under such other agreements contrary to the provisions of the substitute retention arrangements, amounts paid or payable under such substitute retention arrangements shall be subject to reduction, set-off, counter-claim or recoupment by the Company.

In consideration for all the benefits available under the substitute retention arrangements, each executive agreed to terminate his change in control agreement and to release Airborne, Inc. and all of Airborne's affiliates of all liabilities and obligations under such change in control agreement.

The Company subsequently entered into new change in control agreements with its executives after the separation of the Company from Airborne, Inc. The new change in control agreements are described below. The Company is responsible for all liabilities and obligations under the new change in control agreements. Neither Airborne, Inc. nor any of its affiliates has any responsibility for any liabilities or obligations to executives that may arise under such change in control agreements, unless the change in control causing such liability involves an acquisition of

control by Deutsche Post AG or any of its subsidiaries.

Table of Contents

Change of Control Agreements

Each of the named executive officers is elected annually and serves at the pleasure of the Board, subject, however, to agreements with the Company that generally assure that, in the event of a change in control of the Company, all of the officers will have the right to remain employed, at not less than their respective rates of compensation in effect as of the date of the change in control, for at least four years thereafter.

The agreements with the named executive officers generally provide that, if an officer is terminated without cause (defined as willful and continued failure to perform duties after demand from the Board, or willful or gross misconduct) within four years after a change in control, the Company must pay the officer, in addition to all accrued compensation, the equivalent of two years (three years in the case of the President and Chief Executive Officer) salary, bonus and other benefits. The Company is required to provide the same additional compensation and benefits described above in the event a named executive officer resigns due to failure of the Company, after a change in control, to provide the salary, other specific benefits and terms of employment required by the agreement.

Each of the named executive officers is also subject to a substitute retention arrangement with the Company, described in this Proxy Statement above, which provides that, in the event any amounts become payable to the executive officer under a change in control agreement, then any amounts paid or payable under such substitute retention arrangement shall reduce and off-set any amounts otherwise payable to the executive under the change in control agreement. Further, to the extent that amounts are actually paid under the change in control agreement contrary to the provisions of the substitute retention arrangement, amounts paid or payable under such substitute retention arrangement shall be subject to reduction, set-off, counter-claim or recoupment by the Company.

In return for the benefits under the agreements described above, each of the named executive officers has agreed, among other things, not to serve as an executive officer, director or consultant to any competitor of the Company for at least one year after termination of employment with the Company. While these contracts were designed to encourage these officers to stay with the Company, and not to deter changes in control, it is possible that a party wishing to obtain control of the Company with the intention of replacing incumbent management could be influenced by the additional cost that the Company would incur under these contracts.

Retirement Plans

The Company maintains two qualified retirement plans that cover the named executive officers (and all other employees other than certain employees who are covered by a collective bargaining agreement) and a non-qualified Supplemental Executive Retirement Plan (SERP) that provides for benefits in excess of statutory limits. Executive officers accrue benefits based on an age and service formula that accumulates a point value used to determine a benefit level at a particular retirement age. The normal retirement age is 62. Points are credited for each year of service and year of age up to a maximum point total of 80. Assuming the attainment of the maximum point total, the plans, in conjunction with Social Security, are designed to provide a retirement benefit equal to approximately 65% of an executive officer's final average earnings at a normal retirement date of age 62. The final average earnings are defined as the average of the highest five consecutive calendar years of compensation during an executive officer's last ten years of employment. Compensation considered in the formula includes salary and bonus paid in a calendar year without regard to Internal Revenue Service limitations.

Benefits determined through the above formula are offset by Social Security and the gross benefit amounts calculated under the Company's two qualified retirement plans. The qualified plans, a defined contribution profit sharing plan and a defined benefit plan, are used in connection with the SERP and Social Security to fund retirement benefits. The SERP is unfunded, although the Company maintains commingled investment fund assets that could be used to fund eventual benefit payments. The Company also has a voluntary 401(k) salary deferral plan.

Table of Contents

The following table sets forth the targeted annual pension benefits (calculated on the basis of a straight life annuity) payable upon normal retirement at age 62 to the Company's officers (including the named executive officers) based on specified years of service and levels of final average earnings. The amounts shown take into account Social Security offsets based on the career average Social Security wage base in effect in 2004.

PROPOSAL 2

**AMENDMENT OF THE CERTIFICATE OF INCORPORATION TO REMOVE LIMITATION
ON THE MAXIMUM NUMBER OF DIRECTORS THAT CAN SERVE ON THE BOARD**

The Board of Directors regularly reviews the Company's corporate governance policies and procedures, including, through the Nominating and Governance Committee, an evaluation of the Board's size and composition. Through this review, the Board determined that it would be in the best interests of the Company to increase the size of the Board to give the Board more flexibility to add selected talents and skills through additional members from time to time and to permit greater continuity on the Board during periods of change. As a result, on February 10, 2005, the Board of Directors adopted a resolution to amend Section (A) of Article Fourteenth of the Company's Certificate of Incorporation to remove the limit on the maximum number of directors that may serve on the Board, and recommended that the stockholders approve such amendment. Currently, the Certificate of Incorporation provides for a maximum of five directors.

The Board believes that the Company's directors should possess the breadth and depth of experience and skills necessary for proper oversight of the Company's affairs and adequate participation of unaffiliated directors in key committees of the Board, particularly those committees the composition of which are subject to applicable listing requirements or regulations or could in the future be subject to such requirements or regulations. While no individual has been formally recommended for election at this time, the proposed removal of restrictions on the maximum size of the Board will provide flexibility for future appointments of directors as and when suitable candidates are identified by the Nominating and Governance Committee. This will also facilitate the Company's ability to address evolving governance standards and facilitate compliance with any new rules, regulations or standards issued or adopted by the Securities and Exchange Commission or any applicable securities exchange.

Currently, the Board of Directors consists of three classes of directors with five members in total. Class I consists of one director and Classes II and III each consist of two directors. If this amendment to the Certificate of Incorporation is approved by the stockholders, the Board of Directors may increase the authorized number of directors in the future and will apportion the newly created vacancies among the existing three classes of directors (Class I, Class II or Class III) so as to create a number of directors in each class that is as nearly equal as possible. Upon an increase in the number of directors, the existing directors will approve the election of a director to fill the vacancy. The newly-appointed directors would serve for the unexpired term of the directors in the class to which he or she was appointed.

Section (A) of Article Fourteenth is proposed to be replaced in its entirety with the following:

(A) The number of directors of the Corporation shall be not less than three. Subject to such minimum number, the exact number of directors shall be fixed from time to time by the Board of Directors.

This proposal must be approved by two-thirds of the outstanding common stock entitled to vote at the annual meeting. If stockholders do not approve this amendment, then Article Fourteenth Section (A) as it currently exists will continue in effect and the number of directors will be fixed at a maximum of five.

PROPOSAL 3

ADOPTION OF

ABX AIR, INC. 2005 LONG-TERM INCENTIVE COMPENSATION PLAN

General

We are asking stockholders to approve the ABX Air, Inc. 2005 Long-Term Incentive Plan (the 2005 Plan). If approved by our stockholders, the 2005 Plan will become the Company s first plan for providing stock-based compensation to employees and non-employee directors. **THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE FOR APPROVAL OF THE 2005 PLAN.**

Approval of the 2005 Plan will enable the Company to achieve the following objectives:

To allow the Company to use equity compensation to attract, retain and motivate its senior management group and its non-employee directors. Under the 2005 Plan, the Company will have authority to grant stock options and stock appreciation rights and to make restricted stock and restricted stock unit grants and other stock-based awards to employees and non-employee directors of the Company and its subsidiaries.

To give the Company the ability to maintain a market competitive incentive program that offers a wide range of equity awards, including stock options, restricted stock awards, restricted stock units, stock awards, stock appreciation rights and performance-based awards payable in shares or cash and other forms of equity compensation. Currently, the Company does not have a plan that allows for the grant or award of stock option or other equity-based awards. The various types of equity awards available under the 2005 Plan will give the Company flexibility to respond to market-competitive changes in equity compensation practices.

To enhance the Company s sound corporate governance practices. The 2005 Plan contains a number of provisions that the Board believes are consistent with the interests of stockholders and sound corporate governance practices. These include:

a requirement that stock options have an exercise price equal to or greater than the fair market value of the Company s shares on the date the stock option is granted

a prohibition on the repricing of stock options without the approval of the shareholders

authorization of a fixed number of shares for issuance under the 2005 Plan, thereby requiring shareholder approval of any additional authorization of shares

Summary of the 2005 Plan

Edgar Filing: ABX AIR INC - Form DEF 14A

The principal features of the 2005 Plan are summarized below. The complete text is set forth in Appendix G to this Proxy Statement.

Plan Administration. The Compensation Committee administers all aspects of the 2005 Plan, except for awards made to non-employee directors. The amount and terms of all equity awards to non-employee directors will be determined by the full Board of Directors. When the term "Committee" is used in this discussion of the 2005 Plan in reference to grants to non-employee directors, it refers to the full Board of Directors.

The Compensation Committee is comprised of at least three directors, each of whom must qualify as a non-employee director, as defined under Rule 16b-3 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and as an "outside director" within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Tax Code").

The Committee has the authority to, among other things:

Construe and interpret the 2005 Plan

Table of Contents

Adopt rules and regulations relating to the administration of the 2005 Plan

Decide which employees and non-employee directors will be granted awards

Identify the awards to be granted to each participant

Specify the terms and conditions of each award, including the procedures for exercising an award, and

Administer any performance-based awards, including certifying that applicable performance objectives have been met

So long as permitted by law, the Committee may delegate to any individual (including employees) or entity that it deems appropriate any of its duties and authority (other than the discretionary aspects of the items just described).

Eligibility for Awards. The 2005 Plan permits the Committee to grant awards to any employee or non-employee director of the Company or any of its subsidiaries, although it is anticipated that only senior management and non-employee directors will be considered for awards. There are approximately twenty members of senior management of the Company and its subsidiaries who would be eligible for an award under the 2005 Plan and a total of four non-employee directors. The selection of participants and the nature and size of grants and awards are within the discretion of the Committee.

Awards. The 2005 Plan provides for the grant of non-qualified stock options, incentive stock options that qualify under Section 422 of the Tax Code, stock appreciation rights, restricted stock, restricted stock units, stock grants and stock units, each as defined in the 2005 Plan. Grants of restricted stock, restricted stock units and stock units may, as determined by the Committee, also be performance-based awards, as defined in the 2005 Plan.

Authorized Shares and Limitations on Grants. The 2005 Plan authorizes the issuance of 3,000,000 shares of the Company's common stock (common stock or shares).

If shares subject to an award granted under the 2005 Plan are forfeited, terminated, exchanged or otherwise settled without the issuance of shares or the payment of cash, the shares associated with that award will be available for future grants.

The maximum number of shares with respect to which awards may be issued under the 2005 Plan to any individual during any calendar year cannot exceed 150,000.

The shares of common stock issued pursuant to the 2005 Plan may consist of authorized and unissued shares or treasury shares.

Edgar Filing: ABX AIR INC - Form DEF 14A

Adjustments. If there is a corporate transaction that affects the Company's outstanding shares of common stock, such as a stock dividend, stock split, recapitalization, merger or other similar corporate change, the Committee will make such adjustments as it deems necessary or appropriate to the number of shares authorized for issuance pursuant to the 2005 Plan and to the individual limitations described in this discussion. The Committee will also make adjustments to outstanding awards previously granted under the 2005 Plan as it deems necessary or appropriate. Any such decision by the Committee will be final and binding on all participants.

Options. Options to purchase shares of common stock may be granted alone or in tandem with stock appreciation rights. An option may be granted in the form of a non-qualified stock option or an incentive stock option. Incentive stock options may only be granted to employees of the Company or a subsidiary of the Company and may not be issued to non-employee directors.

The price at which a share of common stock may be purchased under an option (the exercise price) will be determined by the Committee (the full Board in the case of an option granted to a non-employee director), but

Table of Contents

may not be less than the fair market value (as defined in the 2005 Plan) of a share of common stock on the date the option is granted (subject to later adjustment as described above under the heading "Adjustments"). The exercise price of an incentive stock option granted to a participant who owns (as defined in the Tax Code) stock of the Company possessing more than 10 percent of the voting power of the Company (a "10% holder"), determined under rules issued by the Internal Revenue Service ("IRS"), may not be less than 110 percent of the fair market value of a share of common stock on the date the option is granted.

The Committee may establish the term of each option, but no incentive stock option may be exercised after 10 years from the grant date (5 years if the participant is a 10% holder).

The number of incentive stock options that become exercisable for the first time in any year cannot relate to shares of common stock having a fair market value (determined on the date of grant) of more than \$100,000 per participant.

The Committee may develop procedures for exercise of options, including tendering shares the participant already has owned for at least 6 months as partial or full payment of the exercise price.

Stock Appreciation Rights. Stock appreciation rights ("SARs") may be granted either alone or with options. The exercise price of an SAR must be equal to or greater than the fair market value of the common stock on the date of grant (subject to later adjustment as described above under the heading "Adjustments"). A participant exercising an SAR receives an amount, payable in cash, shares or a combination of cash and shares as determined by the Committee, equal to the difference between the fair market value of a share of common stock on the exercise date and the exercise price, multiplied by the number of shares of common stock with respect to which the SAR is exercised.

The 2005 Plan provides that SARs may be granted as freestanding awards or in tandem with an option. Tandem SARs are exercisable by surrendering the right to exercise the equivalent portion of the related option. A tandem SAR is exercisable only with respect to shares of common stock for which the related option is exercisable, and expires when the related option expires or is exercised.

Restricted Stock. Restricted stock may be issued to participants as determined by the Committee. Restricted stock consists of shares of common stock that are issued to a participant but which are subject to restrictions on transfer and the risk of forfeiture if certain specified conditions are not met. Restricted stock may not be sold or otherwise transferred or hypothecated until the end of the transfer restriction period established by the Committee. During the restriction period and at the discretion of the Committee, restricted stock granted to employees will be held by the Company as escrow agent or be issued to the participant in the form of certificates bearing a legend describing the applicable restrictions. All restricted stock granted to non-employee directors will be held in escrow during the restricted period. Restricted stock will vest, with the associated restrictions on lapsing, if during the restriction period, time-based or performance-based conditions are met. Restricted stock granted to non-employee directors will be released from escrow and distributed as soon as practical after a director's retirement from the Board, if all conditions have then been met.

Restricted stock will be forfeited (or if restricted stock was issued for a cash payment, those shares will be resold to the Company for the amount originally paid), if all restrictions have not been met. If restricted stock is held in escrow, it will not be released until all restrictions have been met at the end of the applicable restriction period. Restricted stock that has been forfeited will again become available under the 2005 Plan for future awards.

Edgar Filing: ABX AIR INC - Form DEF 14A

Unless the Committee determines otherwise, a participant who has been granted restricted stock will have the right to receive dividends on such shares and will have the right to vote such shares during the restriction period.

Restricted Stock Units. Restricted stock units may be issued to participants as determined by the Committee. Restricted stock units consist of notional shares of the Company that are issued to participants but

Table of Contents

which are subject to restrictions on transfer and the risk of forfeiture if conditions are not met during the restriction period. Restricted stock units may not be sold or otherwise transferred or hypothecated until the end of the restriction period established by the Committee. During the restriction period, participants are not entitled to receive dividends or to exercise voting rights in connection with the restricted stock units.

As soon as practical after all restrictions have then been met, in the case of employees, or after retirement from the Board, in the case of non-employee directors, the restricted stock units will be settled in shares of common stock, unless the award agreement specifies another form of settlement.

If the end of the restriction period or, in the case of non-employee directors, after retirement from the Board, the Committee determines that applicable conditions have not been met, the restricted stock units will be forfeited. The conditions under which restricted stock units vest, and the associated transfer restrictions lapse, may be time-based or performance-based.

Other Stock Awards. The Committee is authorized to grant awards of common stock to any participant as an incentive, bonus or in lieu of any retainer due to a director as it determines to be in the best interest of the Company and subject to such other terms and conditions as it deems appropriate.

Stock Units. The Committee is authorized to grant stock units to participants. A stock unit is a notional account representing one share of common stock. Stock units may be issued with or without payment by the participant as required by applicable law or any other consideration specified by the Committee. The Committee will determine whether a holder of a stock unit is also entitled to a dividend equivalent right. A dividend equivalent right is a right to receive the amount of any dividend paid on the share of common stock underlying a stock unit. The dividend will be forfeited or paid in cash or in additional stock units when the associated stock unit is forfeited or settled.

Shares of common stock equal to the number of stock units to be settled will be distributed to the participant unless the Committee provides for settlement in cash or partially in cash and partially in shares. If a stock unit is settled in cash, the amount distributed will be the fair market value of the shares of common stock that otherwise would have been distributed had the stock unit been settled in common stock.

Stock units may constitute performance-based awards as discussed below.

Performance-Based Awards. Any restricted stock, restricted stock units or stock units granted under the Plan may include performance criteria that satisfy Section 162(m) of the Tax Code. To the extent that awards are intended to qualify as performance-based compensation under Section 162(m), the performance criteria will be based on one or more of the following factors:

Cash flow;

Earnings (including gross margin, earnings before interest and taxes, earnings before taxes and net earnings);

Earnings per share;

Growth in earnings or earnings per share;

Stock price;

Return on equity or average stockholders' equity;

Total stockholder return;

Return on capital;

Return on assets or net assets;

Return on investment;

Table of Contents

Revenue;

Income or net income;

Operating income or net operating income;

Operating profit or net operating profit (whether before or after taxes);

Operating margin;

Return on operating revenue;

Market share;

Contract awards or backlog;

Overhead or other expense reduction;

Growth in stockholder value relative to the moving average of the S&P 500 Index or a peer group index;

Meeting customer cost and service standards;

Strategic plan development and implementation; and

Improvement in workforce diversity.

Different performance criteria may be applied to an individual participant or to groups of participants and may be based on the results achieved separately or collectively by the Company, any Company subsidiary, or any combination of segments, products or divisions of the Company or its subsidiaries. These criteria may be applied solely with regard to the Company or any subsidiary or relatively between the Company or any Company subsidiary and one or more unrelated entities.

Performance-based awards may be paid in cash, shares or a combination of both, depending on the type of the award and the award terms. If the Committee decides to grant performance-based awards, it will establish the performance objectives to be applied, the participants or class of participants to which the performance objectives apply and the period over which their achievement will be measured. It will also decide the method for computing the award that will be issued or earned if (and to the extent that) those performance objectives are met.

Edgar Filing: ABX AIR INC - Form DEF 14A

Once performance objectives have been established, the Committee may not revise the objectives associated with a performance-based award or increase the amount of the award that may be paid or earned if those performance objectives are met. However, if provided for in the award agreement, the Committee may reduce or eliminate an award that may be paid or earned if the performance objectives are met.

Award Agreements. By accepting an award, a participant will have agreed to be bound by the terms of the 2005 Plan and the applicable award agreement between the participant and the Company that sets forth the terms and conditions of the award.

Effect of Termination of Service on Awards that are not Performance-Based

Unless the applicable award agreement provides otherwise and except in the case of a Business Combination (as discussed below), the following rules apply to all awards granted under the 2005 Plan that are not performance-based awards as described above when a participant terminates service as an employee or non-employee director, as the case may be:

Death. If a participant's employment (or, in the case of a non-employee director, his or her board service) terminates because of death:

All restricted stock, restricted stock units, freestanding SARs or stock units held by the participant at the time of termination of employment (or board service in the case of a non-employee director) will be settled as provided in the participant's award agreement, and

All options and tandem SARs (whether or not then exercisable) held by the participant at the time of termination of employment (or board service in the case of a non-employee director) will be exercisable by the participant's beneficiaries at any time before the earlier of the normal expiration date of the award or one year after the participant's death.

Table of Contents

Disability. If a participant's employment (or, in the case of a non-employee director, his or her board service) terminates because of disability (as defined in the 2005 Plan):

All restricted stock, restricted stock units, freestanding SARs or stock units (whether or not then vested) held by the participant when employment or service terminates will be settled as provided in the participant's award agreement, and

All options and tandem SARs (whether or not then exercisable) held by the participant when employment or service terminates will be exercisable by the participant (or his or her beneficiary) at any time before the earlier of the normal expiration date of the award or one year after termination of employment or board service, as the case may be.

Retirement. If a participant's employment (or, in the case of a non-employee director, his or her board service) terminates because of retirement:

All restricted stock, restricted stock units, freestanding SARs or stock units (whether or not then vested) held by the participant when employment or board service terminates will be settled as provided in the participant's award agreement, and

All options and tandem SARs (whether or not then exercisable) held by the participant when employment or board service terminates will be exercisable by the participant (or his or her beneficiary) at any time before the earlier of the normal expiration date of the award and the expiration date for retirement specified in the participant's award agreement. Any incentive stock option that is not exercised within three months of the participant's retirement will be treated as a nonqualified option.

For purposes of the 2005 Plan, retirement is defined as follows:

In the case of a non-employee director, any departure from the board for any reason other than disability or death.

In the case of employees of the Company or any of its subsidiaries, any termination of employment that meets the definition of early or normal retirement under the Company's tax-qualified defined benefit pension plan (or, if no such plan is then in effect, as defined in the tax-qualified defined benefit pension plan that the Company most recently maintained).

Voluntary Termination of Service. If a participant voluntarily terminates his or her employment:

All vested restricted stock, restricted stock units, freestanding SARs or stock units will be settled as provided in the participant's award agreement, and

All exercisable options and tandem SARs held by the participant when employment terminates will be exercisable by the participant (or his or her beneficiary) at any time before the earlier of the normal expiration date of the award or three months after termination of employment.

All awards that are not vested or exercisable on the date of termination of employment will be forfeited.

Edgar Filing: ABX AIR INC - Form DEF 14A

Involuntary Termination of Service without Cause. If the employment of a participant is terminated involuntarily without cause (as defined in the 2005 Plan),

All vested restricted stock, restricted stock units, freestanding SARs stock or stock units will be settled as provided in the participant's award agreement, and

All exercisable options and tandem SARs held by the participant when employment terminates will be exercisable by the participant (or his or her beneficiary) at any time before the earlier of the normal expiration date of the award or three months after termination of employment.

All awards that are not vested or exercisable on the date of termination of employment will be forfeited.

Table of Contents

Involuntary Termination of Service for Cause. Unless the participant's award agreement provides otherwise, all outstanding awards will be forfeited if a participant's employment is terminated for cause, as of the date of termination of service.

Effect of Termination of Service on Performance-Based Awards

Unless the applicable award agreement otherwise provides and except in the case of a Business Combination (as discussed below), the following rules apply to all awards granted pursuant to the 2005 Plan that are performance-based awards as described above when a participant terminates service as an employee or non-employee director, as the case may be:

Voluntary or Involuntary Termination of Service. Unless termination of employment results from death, disability or retirement, a participant will forfeit all performance-based awards if, before the end of the applicable performance period or periods, such participant's employment is terminated involuntarily or such participant terminates his or her employment voluntarily.

Termination of Service as a result of Death, Disability or Retirement. If, before the end of the applicable performance period or periods, a participant dies, becomes disabled or retires and the Committee determines (at the time that it makes such determination for all other participants with similar performance-based awards) that the performance objectives for that period have been satisfied, the disabled or retired participant or the beneficiary of a deceased participant will receive a partial award (payable when all other participants with similar performance-based awards are paid) equal to:

The award that would have been paid to the participant at the end of the performance period during which he or she died, became disabled or retired multiplied by

The number of whole years between the beginning of the performance period and the date the participant died, became disabled or retired, and divided by

The number of whole years included in the original performance period.

Other Events Resulting in the Forfeiture of Awards. Awards granted pursuant to the 2005 Plan will be forfeited by a participant on the occurrence of any of the following events (whether such events occur before, during or after the participant is an employee or non-employee director);

Without the consent of the Committee, the participant engages in activities described in the 2005 Plan that are in competition with the Company or its subsidiaries.

The participant refuses or fails to consult with, supply information to or otherwise cooperate with the Company or its subsidiaries after having been requested to do so.

The participant deliberately engages in conduct that the Committee concludes harms the Company or any Company subsidiary.

Edgar Filing: ABX AIR INC - Form DEF 14A

Buy Out of Awards. At any time, the Committee, in its sole discretion and without the consent of the holders, may cancel any or all outstanding stock options, SARs, restricted stock, restricted stock units and stock units by giving written notice of cancellation to the holders of the cancelled awards. If a buy out notice is given, the Company will pay to the participant the difference between the fair market value of each award to be cancelled and the exercise price of the award, if any. No payment will be made with respect to any award that is not exercisable when cancelled (or, in the case of restricted stock and restricted stock units, is subject to a restriction and not vested). Payment of the buy out price may be made in cash, shares or a combination of cash and shares as determined by the Committee in its sole discretion.

Table of Contents

Merger, Consolidation or Similar Events. If the Company undergoes a Business Combination then upon the completion of the Business Combination:

all outstanding options and SARs will become fully exercisable (whether or not otherwise exercisable by their terms and whether or not any associated performance objectives have then been met).

All remaining restrictions on outstanding restricted stock and restricted stock units will lapse as of the date of the transaction.

All restrictions and conditions imposed on stock units or performance-based awards will lapse and all performance objectives imposed on performance-based awards will be deemed to have been met.

The amount paid to settle such stock units or performance-based awards will be determined as follows:

The value of the stock units, or, in the case of a performance-based award, the target award or, if greater in amount, the award level actually achieved immediately before the effective date of the Business Combination will be multiplied by

The number of whole months between the beginning of the period over which time-based restrictions on stock units otherwise would have been measured or, in the case of performance-based awards, the beginning of the period over which performance goals were to be measured and the date of the Business Combination, and such result will be divided by

The period (expressed in months) over which time-based restrictions on stock units otherwise would have been measured or, in the case of performance-based awards, the period over which performance goals were to have been measured.

For purposes of the 2005 Plan, a Business Combination includes:

With respect to any participant, any event that is defined as a change in control (or an analogous term) under any written agreement between such participant and the Company or any Company subsidiary, but only to the extent specified in that written agreement.

A merger or consolidation of the Company or the exchange of Company stock for the securities of another entity (other than a subsidiary of the Company) that has acquired the Company's assets or which is in control (as defined in the Tax Code) of an entity that has acquired the Company's assets but only if (i) immediately after the transaction or series of related transactions the persons who owned a majority of the voting power of the Company immediately before the transaction own less than a majority of the voting power of the Company and (ii) the terms of the plan or agreement providing for the transaction or series of related transactions are binding on all holders of shares (other than dissenting stockholders).

Amendment, Modification and Termination of Plan. The 2005 Plan became effective on March 18, 2005, the date it was approved by the Company's Board of Directors. The 2005 Plan's effectiveness is subject to the approval by the affirmative vote of the holders of a majority of the outstanding shares present in person or represented by proxy at the 2005 annual meeting of shareholders. If approved by the Company's shareholders, the 2005 Plan will remain in effect until March 18, 2015.

Edgar Filing: ABX AIR INC - Form DEF 14A

The Board or the Committee may terminate, suspend or amend the 2005 Plan at any time without shareholder approval except to the extent that shareholder approval is required to satisfy applicable requirements imposed by Rule 16b-3 under the Exchange Act, or any successor rule or regulation, applicable requirements of the Tax Code or any securities exchange, market or other quotation system on which the Company's securities are listed or traded. No amendment of the 2005 Plan may (i) result in the loss of a Committee member's status as a non-employee director as defined in Rule 16b-3 under the Exchange Act or any successor rule or regulation, (ii) cause the 2005 Plan to fail to meet the requirements of Rule 16b-3 or (iii) except as otherwise provided in the 2005 Plan or in the participant's award agreement, without the consent of the participant, adversely affect any award held by such participant.

Table of Contents

Before December 31, 2005, the Company and the Committee intend to amend the 2005 Plan (and, if necessary) award agreements to incorporate rules needed to avoid excise taxes arising under Section 409A of the Tax Code. See **U.S. Tax Consequences Section 409A of the Tax Code**. The Company and the Committee believe that these amendments may be made without shareholder approval. Nothing contained in the 2005 Plan or any award agreement will restrict the ability of the Company or the Committee to make these amendments.

U.S. Tax Consequences

Non-Qualified Stock Options. A participant who has been granted a non-qualified stock option will not realize taxable income at the time of grant, and the Company will not be entitled to a tax deduction at that time. In general, when the option is exercised, the participant will realize ordinary income in an amount equal to the excess of the fair market value of the acquired shares over the exercise price for those shares, and the Company will be entitled to a corresponding tax deduction. Any gains or losses realized by the participant upon disposition of the shares will be treated as capital gains or losses, and the participant's basis in such shares will be equal to the fair market value of the shares at the time of exercise.

Incentive Stock Options. A participant who has been granted an incentive stock option will not realize taxable income at the time of grant, and the Company will not be entitled to a tax deduction at that time. The exercise of an incentive stock option will not result in taxable income to the participant provided that the participant was, without a break in service, an employee of the Company or a subsidiary during the period beginning on the date of the grant of the option and ending on the date three months prior to the date of exercise (one year prior to the date of exercise if the participant's employment is disabled or dies while employed). The excess of the fair market value of the shares at the time of the exercise of an incentive stock option over the exercise price is included in calculating the participant's alternative minimum taxable income for the tax year in which the incentive stock option is exercised unless the participant disposes of the shares in the year of exercise.

If the participant does not sell or otherwise dispose of the shares within two years from the date of the grant of the incentive stock option or within one year after the transfer of such shares to the participant, then, upon disposition of such shares, any amount realized in excess of the exercise price will be taxed to the participant as capital gain and the Company will not be entitled to a corresponding tax deduction. The participant will generally recognize a capital loss to the extent that the amount realized is less than the exercise price.

If the foregoing holding period requirements are not met, the participant will generally realize ordinary income at the time of the disposition of the shares, in an amount equal to the lesser of (i) the excess of the fair market value of the shares on the date of exercise over the exercise price, or (ii) the excess, if any, of the amount realized upon disposition of the shares over the exercise price, and the Company will be entitled to a corresponding tax deduction. Any amount realized in excess of the value of the shares on the date of exercise will be capital gain. If the amount realized is less than the exercise price, the participant will not recognize ordinary income, and the participant will generally recognize a capital loss equal to the excess of the exercise price over the amount realized upon the disposition of the shares.

Stock Appreciation Rights. A participant who has been granted an SAR will not realize taxable income at the time of the grant, and the Company will not be entitled to a tax deduction at that time. Upon the exercise of an SAR, the amount of cash or the fair market value of any shares received will be taxable to the participant as ordinary income and the Company will be entitled to a corresponding tax deduction. Any gains or losses realized by the participant upon disposition of any such shares will be treated as capital gains or losses, and the participant's basis in such shares will be equal to the fair market value of the shares at the time of exercise.

Restricted Stock. In general, a participant who has been granted a restricted stock award will not realize taxable income at the time of grant and the Company will not be entitled to a tax deduction at that time, assuming that the shares are not transferable and that the restrictions create a

Edgar Filing: ABX AIR INC - Form DEF 14A

substantial risk of forfeiture for federal income tax purposes. Upon the vesting of the shares subject to an award, the participant will realize ordinary

Table of Contents

income in an amount equal to the then fair market value of the shares, and the Company will be entitled to a corresponding tax deduction. Any gains or losses realized by the participant upon disposition of such shares will be treated as capital gains or losses, and the participant's basis in such shares will be equal to the fair market value of the shares at the time of vesting. A participant may elect pursuant to section 83(b) of the Tax Code to have income recognized at the date of grant of a restricted stock award and to have the applicable capital gain holding period commence as of that date. If a participant makes this election, the Company will be entitled to a corresponding tax deduction in the year of grant. If the participant does not make an election pursuant to Section 83(b), dividends paid to the participant during the restriction period will be treated as compensation income to the participant and the Company will be entitled to a corresponding tax deduction.

Performance-based Stock Units and Restricted Stock Units. A participant who has been granted a performance-based stock unit or a restricted stock unit will not realize taxable income at the time of grant and the Company will not be entitled to a tax deduction at that time. The participant will have compensation income at the time of distribution equal to the amount of cash received and the then fair market value of the distributed shares, and the Company will then be entitled to a corresponding tax deduction.

Section 162(m) of the Tax Code. As described above, awards granted under the 2005 Plan may qualify as performance-based compensation under Section 162(m) of the Tax Code in order to preserve federal income tax deductions by the Company with respect to annual compensation required to be taken into account under Section 162(m) that is in excess of \$1 million and paid to one of the Company's five most highly compensated executive officers. To so qualify, options and other awards must be granted under the 2005 Plan by a committee consisting solely of two or more outside directors (as defined under regulations) and satisfy the 2005 Plan's limit on the total number of shares that may be awarded to any one participant during any calendar year. In addition, for awards other than options to qualify as performance-based compensation, the issuance or vesting of the award, as the case may be, must be contingent upon satisfying one or more of the performance criteria described above, as established and certified by a committee consisting solely of two or more outside directors.

Sections 280G and 4999 of the Tax Code. Sections 280G and 4999 of the Tax Code impose penalties on persons who pay and persons who receive excess parachute payments. An parachute payment is the value of any amount that is paid to disqualified individuals (such as officers and highly paid employees of the Company or its subsidiaries) on account of a change in control. An excess parachute payment is a parachute payment that is equal to or greater than 300 percent of the participant's taxable compensation averaged over the five calendar years ending before the change in control (or over the participant's entire period of employment if that period is less than five calendar years). This average is called the Base Amount.

Some participants in the 2005 Plan may receive parachute payments in connection with a Business Combination. If this happens, the value of each participant's parachute payment from the 2005 Plan must be combined with other parachute payments the same participant is entitled to receive under other agreements or plans with the Company or any Company subsidiary, such as an employment agreement or a change in control agreement. If the combined value of all parachute payments is an excess parachute payment, the participant must pay an excise tax equal to 20 percent of the value of all parachute payments above 100 percent of the participant's Base Amount. This tax is due in addition to other federal, state and local income, wage and employment taxes. Also, neither the Company nor any Company subsidiary would be able to deduct the amount of any participant's excess parachute payment and the \$1,000,000 limit on deductible compensation under Section 162(m) of the Tax Code is reduced by the amount of the excess parachute payment.

The 2005 Plan addresses excess parachute payment penalties in two ways. Generally, if a participant in the 2005 Plan receives an excess parachute payment, the value of the payment is reduced to avoid the excess parachute penalties. However, the 2005 Plan also states that another approach will be taken if a 2005 Plan participant has another agreement with the Company or a Company subsidiary (such as an employment or a change in control agreement) that provides for a different approach.

Miscellaneous. When a participant sells shares that the participant has received under an award, the participant will generally recognize long-term capital gain or loss if, at the time of the sale, the participant has held the shares for more than one year from the date the participant acquired the shares (or, in the case of a restricted stock award, more than one year from the date the shares vested unless the participant made an election pursuant to section 83(b), described above). If the participant has held the shares for one year or less, the gain or loss will be short-term capital gain or loss.

Section 409A of the Tax Code. Some grants under the 2005 Plan may be subject to deferred compensation rules imposed under Section 409A (Section 409A) of the Tax Code. The IRS has not yet fully described the effect of Section 409A but it has issued some initial guidance that suggests that Section 409A will apply to SARs and, depending on their terms, to other forms of grants. The proceeds of any grant that is subject to Section 409A (such as a cash payment made to settle an SAR that is subject to Section 409A) will be subject to a 20 percent excise tax if those proceeds are distributed before the participant terminates employment with the Company and all Company subsidiaries or before the occurrence of other events specified in Section 409A (such as disability, death or a change in control as defined in Section 409A). Although penalties imposed under Section 409A are imposed on the participant (and not on the Company or any Company subsidiary), these penalties could reduce the value of grants subject to Section 409A and adversely affect the Company's ability to achieve the 2005 Plan's purposes.

Because the IRS has not yet issued substantive guidelines, the Company has not been able to reflect the effect of Section 409A in the 2005 Plan. However, the Company intends that the 2005 Plan will be administered to avoid (or minimize) the effect of Section 409A and also intends that the 2005 Plan will be amended before December 31, 2005 (after substantive rules have been issued). This will allow the Company to implement the 2005 Plan's objectives immediately and in a manner that will minimize the effect of Section 409A.

The following is a summary of how Section 409A may apply to various types of awards granted under the 2005 Plan:

Options. The Company believes that Section 409A will not apply to incentive stock options or to non-qualified stock options that have an exercise price at least equal to the fair market value of a share on the date the option is granted. However, if an SAR is granted in tandem with an option, both the option and the tandem SAR may be subject to Section 409A. This would mean that the proceeds from the exercise of the tandem SAR or the value of the shares acquired by exercising the related option would be subject to an additional 20 percent excise tax if those proceeds are distributed before the employee terminates employment. Unless additional guidance from the IRS changes this assessment, the Committee will not issue any tandem SARs. Also, the Committee will continue its historical practice of granting options with an exercise price at least equal to the fair market value of the shares subject to the option.

SARs. Based on initial guidance issued by the IRS, the Company believes that SARs will be affected by Code Section 409A. However, the IRS also has provided some permanent and temporary exemptions to this rule. Under these rules, SARs will not be subject to Code Section 409A if they must be exercised on a date specified when the grant is made or if they may be settled only in Company shares or they are issued in a pattern that has prevailed for a meaningful period before December 31, 2004. However, there is no exemption for tandem SARs. Unless additional guidance from the IRS changes this assessment, the Committee will not issue any tandem SARs and will not issue any stand alone SARs that do not qualify for an exemption from Section 409A.

Restricted Stock and Restricted Stock Units. Based on initial guidance from the IRS, the Company believes that Section 409A will not apply to any of these stock awards.

Stock Units. Based on initial guidance from the IRS, the Company believes that Section 409A will not apply to stock units issued under the 2005 Plan.

Performance-based Awards. Based on initial guidance from the IRS, the Company believes that Section 409A will not apply to performance-based awards issued under the 2005 Plan.

Such pre-approval may be given as part of the Audit Committee's approval of the scope of the engagement of the independent registered public accounting firm or on an individual basis. The charter of the Audit Committee authorizes the Audit Committee to delegate to one or more of its members pre-approval authority with respect to non-audit services, but the decision must be presented to the full Committee at the next regularly scheduled Committee meeting.

PROPOSAL 5

SHAREHOLDER PROPOSAL

This proposal has been submitted by Gary Watts, 7388 Upper Applegate Road, Jacksonville, Oregon. In accordance with applicable proxy regulations, the proposed resolution and supporting statement, for which the Board of the Company accepts no responsibility, are set forth below.

Elect Each Director Annually

RESOLVED: Shareholders request that our Directors take the necessary steps, in the most expeditious manner possible, to adopt and implement annual election of each director. This would include that our director elections completely convert from the current staggered system to 100% annual election of each director in one election cycle if practicable.

The Safeway Inc. 2004 definitive proxy is one example of converting from a complete staggered system to a complete annual election of each director system in one election cycle.

Gary Watts, 7388 Upper Applegate Rd., Jacksonville, Oregon 97530 submitted this proposal.

We as Airborne shareholders voted in support of this topic:

<u>Year</u>	<u>Rate of Support</u>
2002	84% (based on yes and no votes)

70% Yes-Vote

Thirty-five (35) shareholder proposals on this topic achieved an impressive 70% average yes vote in 2004. The Council of Institutional Investors www.cii.org whose members invested \$3 trillion, recommends adoption of this proposal topic.

Progress Begins with a First Step

Edgar Filing: ABX AIR INC - Form DEF 14A

The reason to take the above RESOLVED step is reinforced by viewing our overall corporate governance vulnerability. For instance in 2004 it was reported:

Shareholders were only allowed to vote on individual directors once in 3-years accountability concern.

An awesome 67% shareholder vote was required to make certain key changes such as amending our bylaws entrenchment concern.

We have no formal governance policy.

Our bylaws allow us to have as few as 3 directors 5 directors are the maximum allowed.

With a maximum of 5 directors we have one director beyond age 76 and he did not act promptly to buy any of our stock.

Our outside directors did not meet separately from management thus missing an especially important indicator of overall board independence.

We had no lead director or independent board chairman oversight concern.

Hopefully for the full year of 2004 our full board and committees will be able to report conducting more meetings than in 2003. For example in 2003 our full board met 3-times, our Audit Committee 2-times and our Compensation Committee one-time.

Table of Contents

Our directors James Bushman and James Carey each reported a business relationship with Midland Company. Some analyst might refer to this as an interlocking relationship independence concern.

The chairman of our Audit Committee was a Visiting Instructor .

The plight of our corporate governance reinforces the reason to adopt the initial RESOLVED statement. Our company now has corporate governance vulnerability to shareholders who can submit shareholder proposals on key governance topics which could obtain substantial support. (The second part of some of the bullet points highlight conclusions drawn.)

Best for the Investor

Arthur Levitt, Chairman of the Securities and Exchange Commission, 1993-2001 said:

In my view it s best for the investor if the entire board is elected once a year. Without annual election of each director shareholders have far less control over who represents them.

BOARD OF DIRECTORS RECOMMENDATION

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE
STOCKHOLDERS VOTE AGAINST PROPOSAL 5**

The Board of Directors is committed to utilizing best corporate governance practices and has adopted Corporate Governance Guidelines that emphasize this commitment. In adopting the Guidelines, the Board of Directors considered the most effective structure for the Board and determined that the current classified Board structure is in the best interest of the Company and our stockholders. As a result, we oppose the above proposal and recommend that you vote against it for the reasons outlined below.

Stability and Continuity. The staggered terms are designed to provide stability, enhance long-term planning and ensure that, at any given time, there are directors serving on the Company's Board who are familiar with the Company, its business, and its strategic goals. This continuity and experience affords a valuable resource as an experienced and knowledgeable Board is better equipped to make fundamental decisions that are best for stockholder value in the long-term.

Accountability to Stockholders. Every director is required to uphold his or her fiduciary duties to our stockholders and the Company, regardless of how often he or she stands for election. Our Directors are not less accountable to you or this Company because they are not re-elected every year.

Protection Against Takeovers. A classified Board is designed to safeguard against a third party's efforts to quickly attain control of the business and assets of a company without paying fair value for it by electing all new directors in any given year. As a result, the ability of the Board to negotiate the best results for our stockholders in such circumstances is enhanced because some director continuity may be retained. A classified Board does not prevent a takeover, but it provides a company with time to evaluate the adequacy and fairness of any takeover proposal, negotiate with the third party, and weigh alternatives to provide maximum value for all stockholders.

In addition to recommending that our stockholders vote AGAINST the proposal, we must respond to the claims and criticisms made by the Proponent regarding your Company's corporate governance practices and policies:

Claim/Criticism:	The Company has no formal corporate governance policy.
Our Response:	In fact, your Board has a standing Nominating and Governance Committee consisting solely of outside directors. The Board has written charters for its standing committees, a Code of Ethics for its senior financial officers, a Code of Conduct for Conducting Business, and an Insider Trading Policy. In addition, on February 10, 2005, the Board adopted a set of Corporate Governance Guidelines.
Claim/Criticism:	The Company's bylaws allow us to have as few as three directors five directors are the maximum allowed.
Our Response:	The limitations on the number of directors is contained in our certificate of incorporation and not our bylaws. However, the Board agrees with the Proponent that the certificate of incorporation should be amended to allow for a larger Board, and is

Edgar Filing: ABX AIR INC - Form DEF 14A

submitting to the stockholders at this Annual Meeting a proposal to allow for an expanded Board.

Claim/Criticism:

We have no lead director or independent board chairman.

Table of Contents

Our Response:	In fact, Mr. James Carey serves as the independent board chairman and has served in that capacity since May 6, 2004. The Company has had an independent board chairman since becoming publicly traded in August 2003. Further, it is the Board's current policy, as reflected in our Corporate Governance Guidelines, that the Chairman should be a non-management, independent director.
Claim/Criticism:	Our outside directors do not meet separately from management.
Our Response:	In fact, your outside directors meet regularly in executive session without members of management present, as required by our Corporate Governance Guidelines.
Claim/Criticism:	Directors James Bushman and James Carey each reported a business relationship with The Midland Company. Some analysts might refer to this as an interlocking relationship an independence concern.
Our Response:	Directors Bushman and Carey do serve as independent, outside directors of another public company, The Midland Company. The Midland Company has no affiliation or business relationship whatsoever to the Company. Two individuals serving as independent directors of two companies that have no affiliation or business relationship is not an interlocking relationship as defined by the rules of the Securities and Exchange Commission and does not, in the Board's view, present any independence issues.
Claim/Criticism:	The Chairman of the Audit Committee is a Visiting Instructor.
Our Response:	Mr. Vorholt serves his community as a full time Visiting Instructor of Accountancy at Miami University and a part time Adjunct Professor of Accountancy at Xavier University. He is an attorney and CPA. His thirty years of financial management experience include being Chief Financial Officer at three major corporations and Director of two other major corporations. The Board believes that Mr. Vorholt is well qualified to serve as Chair of the Audit Committee.
Claim/Criticism:	With a maximum of five directors, we have one director beyond age 76.
Our Response:	The Proponent apparently believes that individuals are no longer qualified to serve as directors once they reach some pre-determined age. The Nominating and Governance Committee does not subscribe to this view.
Claim/Criticism:	The Board should conduct more meetings. The Proponent points out that during 2003 the Board met three times, the Audit Committee met two times and the Compensation Committee met once.
Our Response:	The 2003 information provided by the Proponent fails to mention that it covers only the last four and one-half months of 2003, after the Company became a public company. During 2004, our first full year as a publicly traded company, the Board met ten times, the Audit Committee met thirteen times, the Compensation Committee met five times and the Nominating & Governance Committee met four times.

The Board believes that the Company has excellent corporate governance policies in place, and that the proponent's criticisms are, in almost every case, inaccurate and reflect a lack of knowledge of the facts.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT THE
STOCKHOLDERS VOTE AGAINST PROPOSAL 5.**

These are the responsibilities of management and the independent auditors.

Recommend to the Board whether the annual audited financial statements should be included in the Company's Annual Report on Form 10-K.
- (b) Quarterly Financials. This review and discussion may be delegated by the Committee to one or more of its members, but all results should be presented to the full Committee at the next meeting.

Review with management and the independent auditors material accounting principles applied in financial reporting, including any material changes from principles followed in prior years and any items required to be communicated by the independent auditors in accordance with AICPA Statement of Auditing Standards (SAS) 61.

 - [b] A Tandem SAR will expire no later than the date the related Option expires;
 - [c] The value of the payout with respect to a Tandem SAR related to an Incentive Stock Option will not be more than 100 percent of the difference between the Exercise Price of the related Option and the Fair Market Value of the shares of Stock subject to the related Option at the time the Tandem SAR is exercised; and
 - [d] A Tandem SAR related to an Incentive Stock Option may be exercised only if the Fair Market Value of the shares of Stock subject to the related Option is greater than the Option's Exercise Price.

Edgar Filing: ABX AIR INC - Form DEF 14A

- [3] Freestanding SARs will be exercisable subject to the terms the Committee specifies in the Award Agreement and to the terms of the Plan.

- [4] A Participant exercising an SAR will receive an amount equal to:
 - [a] The difference between the Fair Market Value of a share of Stock on the exercise date and the Exercise Price; multiplied by

 - [b] The number of shares of Stock with respect to which the SAR is exercised.

At the discretion of the Committee, this amount may be paid in cash, shares of Stock or any combination of both.

8.00 OTHER STOCK AWARDS TO PARTICIPANTS

The Committee may grant Awards of shares of Stock to any Participant as an incentive, bonus or in lieu of any retainer due to a Director as it determines to be in the best interests of the Company and subject to such other terms and conditions as it deems appropriate.

9.00 STOCK UNITS

9.01 Stock Unit Awards. The Committee may, in its discretion, grant Stock Units to Participants. Stock Units may be subject to any terms and conditions, including vesting that the Committee specifies in the Award Agreement and to the terms of the Plan. Stock Units may constitute Performance-Based Awards, as described in Section 10.00. The Award Agreement will state the form in which the Stock Unit is to be settled and when the Stock Unit will be settled. Shares of Stock issued through a Stock Unit Award may be issued with or without payment by the Participant as required by applicable law or any other consideration specified by the Committee. The Award Agreement will specify if the Participant granted a Stock Unit also will be entitled to a Dividend Equivalent Right.

9.02 Settling of Stock Units. One share of Stock will be issued for each Stock Unit to be settled unless the Award Agreement provides for settlement in cash or partially in cash and partially in shares of Stock. If all or part of any Stock Unit Award is to be settled in cash, the amount distributed will be the Fair Market Value of the number of shares of Stock that otherwise would have been distributed to settle the Stock Unit. However, Stock Units issued to Directors will be settled immediately after (and no earlier than) the date the Director Terminates Service.

9.03 Disposition of Dividend Equivalent Rights. The right to receive the amount of any Dividend Equivalent Right will be forfeited or paid in cash or in the form of additional Stock Units (as provided in the Award Agreement) when the associated Stock Unit is forfeited or settled.

10.00 PERFORMANCE-BASED AWARDS

10.01 Generally. Any Restricted Stock, Restricted Stock Units or Stock Units granted under the Plan may be granted in a manner that qualifies as performance-based compensation under Code §162(m). As determined by the Committee in its sole discretion, either the granting or vesting of Performance-Based Awards will be based on achieving performance objectives derived from one or more of the Business Criteria over the Performance Period established by the Committee.

10.02 Business Criteria.

[1] The Business Criteria imposed on Performance-Based Awards will be one of more of the following and may be applied solely with reference to the Company (or Subsidiary) or relatively between the Company (or Subsidiary) and one or more unrelated entities:

[a] Cash flow;

10.03 Establishment of Performance Goals. With respect to Performance-Based Awards, the Committee will establish in writing [1] the performance objectives to be applied and the Performance Period over which their achievement will be measured, [2] the method for computing the Award that will be issued or earned if (and to the extent that) those performance objectives are met and [3] the Participants or class of Participants to which the performance objectives apply. Performance objectives will be established in writing no later than 90 days after the

Edgar Filing: ABX AIR INC - Form DEF 14A

beginning of the applicable Performance Period (but in no event after 25 percent of the Performance Period has elapsed).

10.04 Certification of Performance. No Performance-Based Awards will be paid to (or vest with respect to) any Participant for any Performance Period until the Committee certifies in writing that the associated objective performance objectives (and all other material conditions) imposed as a condition of receiving that Award have been met.

10.05 Modification of Performance-Based Awards. Once established, the Committee may not revise any performance objectives associated with a Performance-Based Award or increase the amount of the Award that may be paid or earned if those performance objectives are met. However, the Committee may reduce or eliminate the Award that may be paid or earned if those performance objectives are met.

Table of Contents**11.00 TERMINATION OF SERVICE/LIMITS ON EXERCISABILITY/BUYOUTS**

11.01 Effect of Termination of Service on Awards Other than Performance-Based Awards. Unless otherwise specified in the Award Agreement and subject to Sections 11.03 and 11.04, all Awards (other than Performance-Based Awards) will be exercisable or forfeited upon a Termination of Service as provided in this section:

- [1] **Death.** If a Participant's Service Terminates because of death, [a] all outstanding Restricted Stock, Restricted Stock Units, Freestanding SARs, Stock or Stock Units (whether or not then vested) will be settled as provided in the Plan and the Award Agreement and [b] all Options and Tandem SARs (whether or not then exercisable) may be exercised by the Participant's Beneficiary anytime before the earlier of the expiration date specified in the Award Agreement or one year after the Participant's death.
- [2] **Disability.** If a Participant's Service Terminates because of Disability, [a] all outstanding Restricted Stock, Restricted Stock Units, Freestanding SARs, Stock or Stock Units (whether or not then vested) will be settled as provided in the Plan and the Award Agreement and [b] all Options and Tandem SARs (whether or not then exercisable) may be exercised by the Participant (or his or her Beneficiary) anytime before the earlier of the expiration date specified in the Award Agreement or one year after the Participant Terminates.
- [3] **Retirement.** If a Participant's Service Terminates because of Retirement, [a] all outstanding Restricted Stock, Restricted Stock Units, Freestanding SARs, Stock or Stock Units (whether or not then vested) will be settled as provided in the Plan and the Award Agreement and [b] all Options and Tandem SARs (whether or not then exercisable) may be exercised by the Participant (or the Participant's Beneficiary) anytime before the expiration date specified in the Award Agreement. However, any Incentive Stock Option that is not exercised within three months of the Participant's Retirement will be treated as a Nonqualified Stock Option.
- [4] **Voluntary Termination of Service By Participant.** If a Participant who is an Employee voluntarily Terminates Service before Retirement, [a] all vested Restricted Stock, Restricted Stock Units, Freestanding SARs, Stock or Stock Units will be settled as provided in the Plan and the Award Agreement, [b] all exercisable Options and Tandem SARs may be exercised by the Participant (or the Participant's Beneficiary) anytime before the earlier of the expiration date specified in the Award Agreement or three months after the Participant's voluntary Termination of Service and [c] all Awards that are not vested or exercisable on the date the Participant voluntarily Terminates Service will be forfeited. However, any Incentive Stock Option that is not exercised within three months of the Participant's voluntary Termination of Service will be treated as a Nonqualified Stock Option.
- [5] **Involuntary Termination of Service Without Cause.** If the Service of a Participant who is an Employee is Terminated involuntarily without Cause, [a] all vested Restricted Stock, Restricted Stock Units, Freestanding SARs, Stock or Stock Units will be settled as provided in the Plan and the Award Agreement, [b] all exercisable Options and Tandem SARs may be exercised by the Participant (or the Participant's Beneficiary) anytime before the earlier of the expiration date specified in the Award Agreement or three months after the Participant's Service is involuntarily Terminated without Cause and [c] all Awards that are not vested or exercisable on the date the Participant's Service is involuntarily Terminated without Cause will be forfeited. However, any Incentive Stock Option that is not exercised within three months of the Participant's involuntary Termination of Service without Cause will be treated as a Nonqualified Stock Option.
- [6] **Involuntary Termination of Service With Cause.** If the Service of a Participant who is an Employee is Terminated involuntarily for Cause, all outstanding Awards (whether or not then exercisable) will be forfeited.

Table of Contents

11.02 Effect of Termination of Service on Performance-Based Awards.

- [1] Unless the Committee provides otherwise in the Award Agreement or subsequently, a Participant will forfeit all Performance-Based Awards if, before the end of a Performance Period:
- [a] His or her Service is Terminated involuntarily for any reason, or
 - [b] He or she Terminates Service voluntarily.
- [2] However, if, before the end of a Performance Period, a Participant dies, becomes Disabled, or Retires and the Committee determines (under Section 10.04) that the performance objectives established for that period are met, the Disabled or Retired Participant or the Beneficiary of a deceased Participant will receive a partial award equal to:
- [a] The Awards that would have been paid to that Participant at the end of the Performance Period during which the Participant dies, becomes Disabled or Retired; multiplied by
 - [b] The number of whole years between the beginning of the Performance Period and the date the Participant dies, became Disabled or Retired; and divided by
 - [c] The number of whole years included in the Performance Period.

11.03 Other Limits on Exercisability. Regardless of any other provision of the Plan, all unexercised Awards granted to a Participant will be forfeited if that Participant, before his or her Termination of Service or after Termination of Service but while any Award remains exercisable:

- [1] Without the Committee's written consent, which may be withheld for any reason or for no reason, serves (or agrees to serve) as an officer, director or employee of any proprietorship, partnership or corporation or becomes the owner of a business or a member of a partnership that competes with any portion of the Company's (or a Subsidiary's) business or renders any service (including business consulting) to entities that compete with any portion of the Company's (or a Subsidiary's) business;
- [2] Refuses or fails to consult with, supply information to, or otherwise cooperate with, the Company after having been requested to do so; or
- [3] Deliberately engages in any action that the Committee concludes harms the Company or any Subsidiary.

11.04 Buy Out of Section 11.00 Awards. At any time, the Committee, in its sole discretion and without the consent of the Participant, may cancel any or all outstanding Options, SARs, Restricted Stock, Restricted Stock Units and Stock Units (collectively, "Section 11.00 Awards") held by that Participant by providing to that Participant written notice ("Buy Out Notice") of its intention to exercise the rights reserved in this section. If a Buy Out Notice is given, the Company also will pay to each affected Participant the difference between [1] the Fair Market Value of each (or portion of each) Section 11.00 Awards to be cancelled and [2] the Exercise Price associated with each cancelled Section 11.00 Award. However, unless otherwise specified in the Award Agreement, no payment will be made with respect to any Section 11.00 Awards that is not exercisable when cancelled under this section. The Company will complete any buy out made under this section as soon as administratively possible after the date of the Buy Out Notice. At the Committee's option, payment of the buy out amount may be made in cash, in whole shares of Stock or partly in cash and partly in shares of Stock. The number of whole shares of Stock, if any, included in the buy out amount will be

Edgar Filing: ABX AIR INC - Form DEF 14A

determined by dividing the amount of the payment to be made in shares of Stock by the Fair Market Value as of the date of the Buy Out Notice.

12.00 MERGER, CONSOLIDATION OR SIMILAR EVENT

12.01 Definition of Business Combination.

- [1] Any event that is defined as a change in control (or analogous term) under any other written agreement with the Company or any Subsidiary, but only to the extent specified in that other agreement; or
- [2] Any transaction (or series of related transactions) that result in the merger or consolidation of the Company or the exchange of Stock for the securities of another entity (other than a Subsidiary) that has acquired the Company's assets or which is in control [as defined in Code §368(c)] of an entity that has acquired the Company's assets but only if [a] immediately after the transaction (or the end of a series of related transactions) the persons who owned a majority of the voting power of the Company immediately before the transaction (or the beginning of a series of related transaction) own less than a majority of the voting power of the Company and [b] the terms of the transaction (or series of related transactions) are binding on all holders of Stock (except to the extent that dissenting shareholders are entitled to relief under applicable law).

12.02 Effect of Business Combination on Options, SAR, Restricted Stock and Restricted Stock Units. If the Company undergoes a Business Combination, [1] all Options and SARs that are then outstanding will become fully exercisable for the remainder of their term (whether or not otherwise exercisable by the terms of the Award Agreement and whether or not any associated performance objectives have then been met), and [2] all remaining restrictions on outstanding Restricted Stock and Restricted Stock Units will lapse as of the date of the Business Combination.

12.03 Effect of Business Combination on Stock Units or Performance-Based Awards. If the Company undergoes a Business Combination, all restrictions and conditions imposed on Stock Units will lapse and all performance objectives imposed on Performance-Based Awards will be deemed to have been met. The amount paid under this section will be [1] the value of affected Stock Units or, in the case of Performance-Based Awards, the target award or, if higher, the award level actually achieved immediately before the effective date of the Business Combination, multiplied [2] by the number of whole months between the beginning of the period over which time-based restrictions on Stock Units otherwise would have been measured or, in the case of Performance-Based Awards, the beginning of the period over which Performance Goals were to be measured and the date of the Business Combination and divided by [3] the period (expressed in whole months) over which time-based restrictions on Stock Units otherwise would have been measured or, in the case of Performance-Based Awards, the period (expressed in whole months) over which Performance Goals were to have been measured.

12.04 Application of Code §280G. Except as otherwise provided in the Award Agreement or any other written agreement between the Participant and the Company or any Subsidiary then in effect, if the sum (or value) due under Sections 12.02 and 12.03 that are characterizable as parachute payments, when combined with other parachute payments due on account of the same event (whether or not that event is a Business Combination), constitute excess parachute payments as defined in Code §280G(b)(1), the entity responsible for making those payments or its successor or successors (collectively, Payor) will reduce the Participant's benefits under this Plan by the smaller of [1] the value of the sum or the value of the payments due under Sections 12.02 and 12.03 or [2] the amount necessary to ensure that the Participant's total parachute payment as defined in Code §280G(b)(2)(A) under this and all other agreements will be \$1.00 less than the amount that would be an excess parachute payment. If the reduction described in the preceding sentence applies, within 10 days of the effective date of the event generating the payments, the Payor will apprise the Participant of the amount of the reduction (Notice of Reduction). Within 10 days of receiving that information, the Participant may specify how (and against which benefit or payment source, including benefits and payment sources other than this Agreement) the reduction is to be applied (Notice of Allocation). The Payor will be required to implement these directions within 10 days of receiving the Notice of Allocation. If the Payor has not received a Notice of Allocation from the Participant within 10 days of the date of the Notice of Reduction or if the allocation provided in the Notice of Allocation is not sufficient to fully implement the reduction described in this section, the Payor will apply the reduction described in this section proportionately based on the amounts

Table of Contents

otherwise payable under Sections 12.02 and 12.03 or, if a Notice of Allocation has been returned that does not sufficiently implement the reduction described in this section, on the basis of the reductions specified in the Notice of Allocation.

13.00 AMENDMENT, MODIFICATION AND TERMINATION OF PLAN

The Board or the Committee may terminate, suspend or amend the Plan at any time without shareholder approval except to the extent that shareholder approval is required to satisfy applicable requirements imposed by [1] Rule 16b-3 under the Act, or any successor rule or regulation, [2] applicable requirements of the Code or [3] any securities exchange, market or other quotation system on or through which the Company's securities are listed or traded. Also, no Plan amendment may [4] result in the loss of a Committee member's status as a non-employee director as defined in Rule 16b-3 under the Act, or any successor rule or regulation, with respect to any employee benefit plan of the Company, [5] cause the Plan to fail to meet requirements imposed by Rule 16b-3 or [6] without the consent of the affected Participant, adversely affect any Award issued before the amendment, modification or termination. However, nothing in this section, the Plan or any Award Agreement will restrict the Committee's right to exercise the discretion retained in Section 11.04 or the Committee's or the Board's right to amend the Plan and any Award Agreements without any additional consideration to affected Employees to the extent necessary to avoid penalties arising under Code §409A, even if those amendments reduce, restrict or eliminate rights granted under the Plan or Award Agreement (or both) before those amendments.

14.00 MISCELLANEOUS

14.01 Assignability. Except as provided in this section, an Award may not be transferred except by will or applicable laws of descent and distribution and, during the Participant's lifetime, may be exercised only by the Participant or the Participant's guardian or legal representative. However, with the Committee's written consent (which may be withheld for any reason or for no reason), a Participant or a specified group of Participants may transfer Awards (other than Incentive Stock Options) to a revocable inter vivos trust, of which the Participant is the settlor, or may transfer Awards (other than Incentive Stock Options) to any member of the Participant's immediate family, any trust, whether revocable or irrevocable, established solely for the benefit of the Participant's immediate family, or any partnership or limited liability company whose only partners or members are members of the Participant's immediate family (Permissible Transferees). Any Award transferred to a Permissible Transferee will continue to be subject to all of the terms and conditions that applied to the Award before the transfer and to any other rules prescribed by the Committee. A Permissible Transferee may subsequently transfer an Award but only to another Permissible Transferee and only after complying with the terms of this section as if the Permissible Transferee was a Participant.

14.02 Beneficiary Designation. Each Participant may name a Beneficiary or Beneficiaries (who may be named contingently or successively) to receive or to exercise any vested Award that is unpaid or unexercised at the Participant's death. Each designation made will revoke all earlier designations made by the same Participant, must be made on a form prescribed by the Committee and will be effective only when filed in writing with the Committee. If a Participant has not made an effective Beneficiary designation, the deceased Participant's Beneficiary will be his or her surviving spouse or, if there is no surviving spouse, the deceased Participant's estate.

14.03 No Guarantee of Employment or Participation. Nothing in the Plan may be construed as:

- [1] Interfering with or limiting the right of the Company or any Subsidiary to terminate any Participant's employment at any time;
- [2] Conferring on any Participant any right to continue as an Employee or Director;

Edgar Filing: ABX AIR INC - Form DEF 14A

- [3] Guaranteeing that any Employee will be selected to be a Participant; or

- [4] Guaranteeing that any Participant will receive any future Awards.

14.04 Tax Withholding. The Company will withhold from other amounts owed to a Participant, or require the Participant to remit to the Company, an amount sufficient to satisfy federal, state and local withholding tax requirements on any Award, exercise or cancellation of an Award or purchase of shares of Stock. If these

G-14

Table of Contents

amounts are not to be withheld from other payments due to the Participant, the Company will defer payment of cash or issuance of shares of Stock until the earlier of:

- [1] Thirty days after the settlement date; or
- [2] The date the Participant remits the required amount.

If the Participant has not remitted the required amount, the Company will permanently withhold from the value of the Awards to be distributed the minimum amount required to be withheld to comply with applicable federal, state and local income, wage and employment taxes and distribute the balance to the Participant.

In its discretion, the Committee may allow a Participant to elect, subject to conditions the Committee establishes, to reimburse the Company for this withholding obligation through one or more of the following methods:

- [3] By having shares of Stock otherwise issuable under the Plan withheld by the Company (but only to the extent of the minimum amount that must be withheld to comply with applicable state, federal and local income, employment and wage tax laws);
- [4] By delivering, including by attestation, to the Company previously acquired shares of Stock that the Participant has owned for at least six months;
- [5] By remitting cash to the Company; or
- [6] By remitting a personal check immediately payable to the Company.

14.05 Indemnification. Each individual who is or was a member of the Committee or of the Board will be indemnified and held harmless by the Company against and from any loss, cost, liability or expense that may be imposed upon or reasonably incurred by him or her in connection with or resulting from any claim, action, suit or proceeding to which he or she may be made a party or in which he or she may be involved by reason of any action taken or failure to take action under the Plan as a Committee member and against and from any and all amounts paid, with the Company's approval, by him or her in settlement of any matter related to or arising from the Plan as a Committee member; or paid by him or her in satisfaction of any judgment in any action, suit or proceeding relating to or arising from the Plan against him or her as a Committee member, but only if he or she gives the Company an opportunity, at its own expense, to handle and defend the matter before he or she undertakes to handle and defend it in his or her own behalf. The right of indemnification described in this section is not exclusive and is independent of any other rights of indemnification to which the individual may be entitled under the Company's organizational documents, by contract, as a matter of law, or otherwise.

14.06 No Limitation on Compensation. Nothing in the Plan is to be construed to limit the right of the Company to establish other plans or to pay compensation to its employees or Directors in cash or property, in a manner not expressly contemplated by the Plan.

14.07 Requirements of Law. The grant of Awards and the issuance of shares of Stock will be subject to all applicable laws, rules and regulations and to all required approvals of any governmental agencies or national securities exchange, market or other quotation system. Also,

Edgar Filing: ABX AIR INC - Form DEF 14A

no shares of Stock will be issued under the Plan unless the Company is satisfied that the issuance of those shares of Stock will comply with applicable federal and state securities laws. Certificates for shares of Stock delivered under the Plan may be subject to any stock transfer orders and other restrictions that the Committee believes to be advisable under the rules, regulations and other requirements of the Securities and Exchange Commission, any stock exchange or other recognized market or quotation system upon which the Stock is then listed or traded, or any other applicable federal or state securities law. The Committee may cause a legend or legends to be placed on any certificates issued under the Plan to make appropriate reference to restrictions within the scope of this section.

14.08 Term of Plan. The Plan will be effective upon its adoption by the Board subject to the approval by the affirmative vote of the holders of a majority of the shares of voting Stock present in person or represented by proxy at the first Annual Meeting occurring after the Board approves the Plan. Subject to Section 13.00, the Plan will continue until the tenth anniversary of the date it is adopted by the Board or approved by the Company's shareholders, whichever is earliest.

14.09 Governing Law. The Plan and all related agreements will be construed in accordance with and governed by the laws (other than laws governing conflicts of laws) of the United States and of the State of Ohio, except to the extent that the Delaware General Corporation Law is mandatorily applicable.
