Table of Contents

GULF ISLAND FABRICATION, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

FOR THE THREE MONTH AND NINE MONTH

PERIODS ENDED SEPTEMBER 30, 2006 AND 2005

NOTE 1 ORGANIZATION AND SIGNIFICANT ACCOUNTING PRINCIPLES

Gulf Island Fabrication, Inc., together with its subsidiaries, (the Company) is a leading fabricator of offshore drilling and production platforms and other specialized structures used in the development and production of offshore oil and gas reserves. Structures and equipment fabricated by the Company include jackets and deck sections of fixed production platforms; hull and/or deck sections of floating production platforms (such as TLPs, SPARs and FPSOs); piles; wellhead protectors; subsea templates; various production, compressor and utility modules; and offshore living quarters; tanks and barges. The Company, with its corporate offices and three major subsidiaries located in Houma, Louisiana, and another major subsidiary located in San Patricio County, Texas, also provides services such as offshore interconnect pipe hook-up; inshore marine construction; manufacture and repair of pressure vessels; heavy lifts such as ship integration and TLP module integration, loading and offloading jack-up drilling rigs, semi-submersible drilling rigs, TLPs, SPARs or other similar cargo; steel warehousing and sales; onshore and offshore scaffolding and piping insulation services. The Company's principal markets are concentrated in the offshore regions of the Gulf of Mexico. The consolidated financial statements include the accounts of Gulf Island Fabrication, Inc. and its subsidiaries. As discussed in Note 3, the Company acquired certain net assets of Gulf Marine Fabricators on January 31, 2006, and its results of operations have been included in the consolidated financial statements of the Company since this date. All significant inter-company balances and transactions have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month and nine-month periods ended September 30, 2006 are not necessarily indicative of the results that may be expected for the year ended December 31, 2006.

The balance sheet at December 31, 2005 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. Certain items in 2005 have been reclassified to conform to the 2006 financial statement presentation.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

NOTE 2 ACCOUNTING FOR STOCK BASED COMPENSATION

At September 30, 2006, the Company has two stock-based employee compensation plans, which are described more fully in Note 15 *Long-Term Incentive Plans* in the Notes to the Consolidated

Table of Contents

Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005. Prior to January 1, 2006, the Company accounted for those plans under the recognition and measurement provisions of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations, as permitted by the Financial Accounting Standards Board (FASB) Statement No. 123, *Accounting for Stock-Based Compensation*. No stock-based employee compensation cost was recognized in the Statements of Income for the three-month and nine-month periods ended September 30, 2005 as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant. Effective January 1, 2006, the Company adopted the fair value recognition provisions of FASB Statement No. 123(R), *Share-Based Payment*, using the modified-prospective-transition method. Under that transition method, compensation cost recognized in the three-month and nine-month periods ended September 30, 2006, includes compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123. Results for prior periods have not been restated.

As a result of adopting Statement 123(R) on January 1, 2006, the Company's income before income taxes for the three-month and nine-month periods ended September 30, 2006, is \$138,000 lower and \$427,000 lower, respectively, than if the Company had continued to account for share-based compensation under APB Opinion No. 25. Net income for the three-month and nine-month periods ending September 30, 2006 would have been \$95,000 higher and \$295,000 higher, respectively, if the Company had not adopted Statement 123(R). Basic earnings per share for the three month period ended September 30, 2006 would have been \$0.01 higher if the Company had not adopted Statement 123(R). Diluted earnings per share for the three month period ended September 30, 2006 would have remained the same if the Company had not adopted Statement 123(R). Basic and diluted earnings per share for the nine-month period ended September 30, 2006 would have been \$0.02 higher and \$0.02 higher, respectively, if the Company had not adopted Statement 123(R).

The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of Statement 123(R) to options granted under the Company's stock option plans for the three-month and nine-month periods ended September 30, 2005. For purposes of this pro forma disclosure, the value of the options is amortized to expense over the options' vesting periods, and is estimated using the Black-Scholes-Merton option-pricing formula based on (i) expected option life (in years), (ii) expected volatility, (iii) risk-free interest rate and (iv) expected dividend yield. The expected term of the options is based on evaluations of historical and future employee exercise behavior. Expected volatility is based on historical volatility of the Company's stock. The risk-free interest rate is based on a 10 year U.S. Treasury Bond and the expected dividend yield is based on dividend payments of the current year and stock price at year end.

Table of Contents

	Three Months Ended September 30, 2005	Nine Months Ended September 30, 2005
Reported net income	\$ 2,212	\$ 10,285
Add back: Stock compensation costs, net of tax included in the determination of net income reported		
Less: Stock compensation costs, net of tax, had option expense been measured at fair value applied to all awards	180	543
Pro forma net income	\$ 2,032	\$ 9,742
Weighted-average shares (basic) as reported	12,255	12,231
Adjusted weighted-average shares (diluted) as reported	12,384	12,353

Diluted earnings-per-share		
Reported net income	\$ 0.18	\$ 0.83
Pro forma net income	\$ 0.16	\$ 0.79

NOTE 3 ACQUISITION OF GULF MARINE FABRICATORS

Effective January 31, 2006, the Company acquired the facilities, machinery and equipment of Gulf Marine Fabricators (Gulf Marine) located in San Patricio County, Texas. The aggregate consideration for the acquisition (Acquisition) paid at the closing consisted of (i) \$40 million in cash (subject to certain purchase price adjustments), (ii) 1,589,067 shares of the Company's common stock, which constitute approximately 11% of the Company's outstanding common stock, and (iii) assumption of certain liabilities. The Company assumed all of Gulf Marine's uncompleted fabrication contracts, as of the date of the closing. The only significant fabrication contract assumed was a contract with Chevron USA for the construction of the 19,000 ton topsides for the deep water SPAR Concept on Chevron's Gulf of Mexico Tahiti project. The Company also assumed two significant non-fabrication contracts. One contract was for either the rental or purchase of three 600 ton crawler cranes. As of September 30, 2006, the Company had completed the purchase of the three crawler cranes for approximately \$12 million. The other contract, which terminates in 2010, is for the charter hire of a tug and barge for \$836,000 per year.

Table of Contents

The following unaudited pro forma information presents a summary of consolidated results of operations of the Company and Gulf Marine as if the acquisition had occurred on January 1, 2006 and 2005, respectively. No pro forma adjustments were necessary for the three-months ended September 30, 2006, because Gulf Marine is included for the entire quarter. Pro forma adjustments include (i) additional depreciation related to the step-up in property, plant and equipment, (ii) adjustments to record the amortization related to intangible assets, (iii) adjustments for the increase in interest expense, and (iv) the related tax effects.

	\$ 75,310

Table of Contents

NOTE 4 - LINE OF CREDIT AND NOTES PAYABLE

On January 30, 2006, the Company and its lenders, JPMorgan Chase Bank, N.A. and Whitney National Bank, amended the Company's credit facility, in part to accommodate our payment of part of the cash portion of the purchase price for the Acquisition. Pursuant to the amendment, the maximum principal amount of the aggregate borrowings available under the credit facility was increased from \$20 million to \$50 million. The amendment did not change the interest rate under the credit facility and borrowings continue to bear interest equal to, at the Company's option, the prime lending rate established by JP Morgan Chase or LIBOR plus 1.25%. On May 11, 2006, the Company and its lenders entered into the Fifth Amendment to Ninth Amended and Restated Credit Agreement, which extends the term of the credit facility from July 31, 2008 to December 31, 2008.

On January 31, 2006, the Company borrowed \$12 million against the credit facility to fund a portion of the cash purchase price of the Acquisition. At September 30, 2006, the Company had no borrowings outstanding under the credit facility, but had letters of credit outstanding totaling \$19.1 million, which reduced the unused portion of the revolver. The Company is required to maintain certain covenants, including balance sheet and cash flow ratios. At September 30, 2006, the Company was in compliance with these covenants.

NOTE 5 - CONTINGENCIES

As previously reported, in November 2004, Gulf Island, L.L.C., a wholly-owned subsidiary of Gulf Island Fabrication, Inc., filed a breach of contract suit against J. Ray McDermott for non-payment of a portion of a contract completed by Gulf Island, L.L.C. earlier in 2004. On or about September 21, 2006, the parties settled this dispute, which was dismissed by order dated September 22, 2006. As a result of this settlement, Gulf Island Fabrication, Inc. recognized a reduction in revenues of approximately \$460,000 during the third quarter of 2006.

In December 2004, the Company received notice from Louisiana Department of Environmental Quality (LDEQ) that the Corrective Action Plan submitted in October 2004 was not acceptable. The Corrective Action Plan was developed to provide remediation to several isolated areas located on property the Company sold in 2001. In mid 2005, the LDEQ approved a sampling plan with the proposed sampling to begin in September of 2005. Due to the hurricanes that struck the Louisiana coast in 2005, the scheduled sampling was cancelled. The sampling was completed on October 14, 2006, but the Company has not received the results of the new sampling. Cost of remediation based on revising the Corrective Action Plan according to LDEQ's recommendations is not expected to exceed \$150,000 and remains unchanged. The Company has included in Accrued Expenses \$150,000 which is the current estimated cost to remediate the site.

NOTE 6 - SALE OF MINDOC

Effective January 23, 2006, the Company sold its entire right, title and interest in MinDOC, L.L.C. to the other member of MinDOC, L.L.C. for \$1 million. The sales resulted in a gain of \$983,000. The Company believed that the other member, being a marine/engineering company, was better suited to market the deepwater floating, drilling and production concept to potential customers, and the Company would retain the ability to bid on the fabrication of these projects. On September 27, 2006, the Company announced that its wholly owned subsidiary, Gulf Marine, had received formal notification by a letter of intent from Bluewater Industries, Inc., who has contracted with ATP Oil & Gas Corporation (ATP), that Gulf Marine has been selected to fabricate and load-out a MinDOC 3 hull for use in an ATP deepwater development project.

Table of Contents

NOTE 7 NEW ACCOUNTING PRONOUNCEMENT

In February 2006, the FASB issued FIN 48 - Accounting for Uncertainty in Income Taxes with respect to FASB 109 Accounting for Income Taxes regarding the accounting for and disclosure of uncertain tax positions. This guidance seeks to reduce the diversity in practice associated with certain aspects of the recognition and measurement related to accounting for uncertainty in tax positions. This interpretation is effective for fiscal years beginning after December 15, 2006. The Company has not completed the evaluation of FIN 48 to determine the impact this interpretation will have on its results of operations or financial position.

Table of Contents

Report of Independent Registered

Public Accounting Firm

The Board of Directors and Shareholders

Gulf Island Fabrication, Inc.

We have reviewed the condensed consolidated balance sheet of Gulf Island Fabrication, Inc. as of September 30, 2006, and the related condensed consolidated statements of income for the three-month and nine-month periods ended September 30, 2006 and 2005, the condensed consolidated statement of changes in shareholders' equity for the nine-month period ended September 30, 2006 and the condensed consolidated statements of cash flows for the nine-month periods ended September 30, 2006 and 2005. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Gulf Island Fabrication, Inc. as of December 31, 2005, and the related consolidated statements of income, changes in shareholders' equity and cash flows for the year then ended (not presented herein) and in our report dated March 8, 2006, we expressed an unqualified opinion on those consolidated financial statements. In our opinion the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2005, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

/s/ Ernst & Young LLP

New Orleans, Louisiana

October 31, 2006

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition And Results of Operations.****Critical Accounting Policies and Estimates**

The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require the Company to make estimates and assumptions (see Note 1 to the consolidated financial statements included in the annual report on Form 10-K for the year ended December 31, 2005). The Company believes that of its significant accounting policies, the following involve a higher degree of judgement and complexity: revenue recognition and estimating the recoverability of accounts receivable. Critical accounting policies are discussed more fully in the Company's Annual Report on Form 10-K for the year ended December 31, 2005. There have been no changes in the Company's evaluation of its critical accounting policies since that date.

Introduction**Gulf Marine Fabricators**

Effective January 31, 2006, the Company acquired the facilities, machinery and equipment of Gulf Marine located in San Patricio County, Texas as further described in Note 3 to the financial statements in Item 1 and in the Forms 8-K and 8-K/A filed on February 3 and April 19, 2006, respectively. Included in our operating results are the operating results of Gulf Marine for the three-month period ended September 30, 2006 and for February through September of the nine-month period ended September 30, 2006. Those results are (in thousands):

	Three Months Ended September 30, 2006	Nine Months Ended September 30, 2006
Revenue	\$ 37,299	\$ 76,950
Cost of revenue	\$ 27,598	\$ 64,693
General and administrative expense	\$ 996	\$ 2,136

Backlog

As of September 30, 2006, the Company had a revenue backlog of \$417.3 million and a labor backlog of approximately 3.8 million man-hours remaining to work, which consists of work remaining at September 30, 2006 and commitments received through the third quarter earnings release issued November 1, 2006, compared to the revenue backlog of \$114.6 million and a labor backlog of 1.4 million man-hours reported in the Company's Form 10-K at December 31, 2005.

Of the backlog at September 30, 2006, \$395 million, or 95%, represented projects destined for deepwater locations compared to \$74.5 million, or 65%, of projects destined for deepwater locations included in the December 31, 2005 backlog. The acquisition of Gulf Marine enabled the Company to more fully participate in the market for deepwater projects, which we believe will continue to expand as a proportion of total offshore projects. These deep water projects directly contributed to the much larger backlog at September 30, 2006.

Of the backlog at September 30, 2006, the Company expects to recognize revenues of approximately \$75 million in the remainder of 2006, \$256 million in 2007 and the remainder thereafter.

Results of Operations

The Company's revenue for the three-month and nine-month periods ended September 30, 2006 was \$90.5 million and \$237.8 million respectively, an increase of 141.3% and 61.7% respectively, compared to \$37.5 million and \$147.1 million in revenue for the three-month and nine-month periods ended September 30, 2005. The majority of the increase in revenue for the three-month and nine-month periods was associated with the acquisition of Gulf Marine, which enabled the Company to more fully participate in the market for deepwater projects. Exclusive of Gulf Marine, revenue increased \$15.7 million or 41.9% for the three-month period ended September 30, 2006. For the nine-month period ended September 30, 2006, exclusive of Gulf Marine, revenue increased \$13.8 million or 9.4%.

Table of Contents

For the three-month and nine-month periods ended September 30, 2006, gross profit was \$17.6 million (19.5% of revenue) and \$32.9 million (13.9% of revenue), compared to gross profit of \$4.6 million (12.3% of revenue) and \$19.5 million (13.3% of revenue) for the three-month and nine-month periods ended September 30, 2005. Comparing the Company's gross profit and gross profit margin for the three-month and nine-month periods ended September 30, 2006 to the same periods of 2005, requires an analysis of certain items that affected 2005 and 2006. During the third quarter of 2005, two major hurricanes struck the U. S. Gulf Coast imparting extensive damage to the offshore platforms and the infrastructure along the Gulf Coast. This damage negatively impacted the Gulf Coast fabrication industry, including our Company for the third and fourth quarters of 2005. During the first quarter of 2006, the Company acquired the Gulf Marine facilities. The start up period required to bring this new facility on line negatively impacted the first quarter of 2006. Once this facility was brought on line, however, its increased capacity and deepwater capabilities had a positive effect to the Company's gross profit and gross profit margins beginning in the second quarter of 2006. The acquisition of Gulf Marine helped the Company to produce revenue, \$90.5 million, and man-hours worked, 913,000, for the three months ended September 30, 2006. This compares to \$37.5 million of revenue and 535,000 man-hours worked during the three months ended September 30, 2005. The 141% increase in revenue for the three months ended September 30, 2006 produced a higher gross profit margin because a smaller percentage of the revenue represented recovery of fixed costs. Exclusive of Gulf Marine, gross profit was \$7.9 million, or 14.9% of revenue for the three-month period ended September 30, 2006 and \$20.7 million, or 12.9% of revenue for the nine-month period ended September 30, 2006.

The Company's general and administrative expenses were \$2.6 million for the three-month period ended September 30, 2006 and \$6.8 million for the nine-month period ended September 30, 2006. This compares to \$1.5 million for the three-month period ended September 30, 2005 and \$4.4 million for the nine-month period ended September 30, 2005. As a percentage of revenue, general and administrative expenses decreased to 2.9% from 4.0%, and to 2.9% from 3.0%, of revenue for the three-month and nine-month periods ended September 30, 2006 and 2005, respectively. Exclusive of Gulf Marine, general and administrative expenses were \$1.6 million, 3.0% of revenue, for the three-month period ended September 30, 2006, and \$4.7 million, 2.9% of revenue, for the nine-month period ended September 30, 2006. Exclusive of Gulf Marine, the absolute dollar increase in general and administrative expenses represents the increases in salaries and wage related cost associated with the increase in production activities.

The Company had net interest expense of \$76,000 and \$192,000 for the three-month and nine-month periods ended September 30, 2006, respectively, compared to net interest income of \$349,000 and \$910,000 for the three-month and nine-month periods ended September 30, 2005. The change is primarily the result of borrowings incurred by the Company related to the acquisition of, and additional capital expenditures for, Gulf Marine.

The majority of the increase in income in Other in the Other Income (Expense) category is associated with the sale of the Company's interest in MinDOC, which was effective January 23, 2006, and which generated a gain of \$983,000.

The Company's effective income tax rate was 30.2% and 31.2% for the three-month and nine-month periods ended September 30, 2006, respectively, compared to 36.0% of income before income taxes for both of the comparative periods of 2005. The decrease relates primarily to the change in the apportionment of taxable state income and employment hiring credits for both state and federal taxes.

Table of Contents

Liquidity and Capital Resources

Historically the Company has funded its business activities primarily through cash generated from operations. The Company also maintains a revolving line of credit with its commercial banks. On January 30, 2006, the Company and its lenders amended the credit facility (the Revolver) to increase the maximum principal amount of the aggregate borrowings available under the credit facility from \$20 million to \$50 million. Borrowings under the Revolver continue to bear interest equal to, at the option of the Company, the prime lending rate established by JP Morgan Chase or LIBOR plus 1.25%. On January 31, 2006, the Company borrowed \$12 million against the Revolver to fund a portion of the cash purchase price of the acquisition of Gulf Marine. During the nine months ended September 30, 2006, the Company borrowed an additional \$38.5 million against the Revolver to fund capital expenditures and working capital needs, but generated enough cash from operations to make payments of \$50.5 million and eliminate the entire outstanding debt balance by September 30, 2006.

On May 11, 2006, the Company and its lenders entered into the Fifth Amendment to Ninth Amended and Restated Credit Agreement. The amendment extends the term of the credit facility from July 31, 2008 to December 31, 2008, and also facilitates certain banking services and certain guarantees. The Revolver is secured by the Company's real estate, machinery and equipment, and fixtures. The Company pays a fee on a quarterly basis of three-sixteenths of one percent per annum on the weighted-average unused portion of the Revolver. At September 30, 2006, the Company had letters of credit outstanding totaling \$19.1 million, which reduces the unused portion of the Revolver. The Company is required to maintain certain covenants, including balance sheet and cash flow ratios. At September 30, 2006 the Company was in compliance with these covenants.

At September 30, 2006, the Company's cash balance was \$6.3 million and working capital was \$50.7 million, resulting in a current ratio of 2.35 to 1. Net cash provided by operating activities was \$35.6 million for the nine-months ended September 30, 2006. Net cash used in investing activities for the nine-months ended September 30, 2006, was \$33.5 million, which includes \$41.5 million used in conjunction with the purchase of Gulf Marine, \$22.2 million related to capital expenditures for equipment and improvements to its production facilities, and proceeds of \$30.2 million from the sale of short-term investments. Net cash used in financing activities for the nine-month period ended September 30, 2006 was \$1.5 million, which consisted of \$50.5 million from the cumulative borrowings against the credit facility, cumulative principal payments of \$50.5 million on the credit facility, \$1.3 million from the exercise of stock options, \$409,000 related to the tax benefit of stock options exercised and \$3.1 million used to pay dividends on common stock.

Capital expenditures for the remaining three months of 2006 are estimated to be approximately \$5.0 million, which includes the purchase of machinery and equipment and additional yard and facility expansion improvements. Management believes that the Company's available funds, cash generated by operating activities and funds available under the bank credit facility will be sufficient to fund its capital expenditures and working capital needs through the end of 2007.

Table of Contents

Contractual Obligations

There have been no material changes from the information included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Off-Balance Sheet Arrangements

There have been no material changes from the information included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Accounting for Stock Based Compensation

Effective January 1, 2006, the Company adopted the fair value recognition provisions of FASB Statement No. 123(R), *Share-Based Payment*, using the modified-prospective-transition method. Under that transition method, compensation cost recognized in the nine-month period ended September 30, 2006, includes compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123. Results for prior periods have not been restated.

As a result of adopting Statement 123(R) on January 1, 2006, the Company's income before income taxes for the three-month and nine-month periods ended September 30, 2006, is \$138,000 lower and \$427,000 lower, respectively, than if the Company had continued to account for share-based compensation under APB Opinion No. 25. Net income for the three-month and nine-month periods ending September 30, 2006 would have been \$95,000 higher and \$295,000 higher, respectively, if the Company had not adopted Statement 123(R). Basic earnings per share for the three month period ended September 30, 2006 would have been \$0.01 higher if the Company had not adopted Statement 123(R). Diluted earnings per share for the three month period ended September 30, 2006 would have remained the same if the Company had not adopted Statement 123(R). Basic and diluted earnings per share for the nine-month period ended September 30, 2006 would have been \$0.02 higher and \$0.02 higher, respectively, if the Company had not adopted Statement 123(R).

There were no differences in valuation methodologies or assumptions. The Black-Scholes-Merton option-pricing model was used to value the options under APB Opinion No. 25 and Statement 123(R). In 2005, the Company did not grant stock options, but did award restricted stock to its employees as designated by the compensation committee. The compensation cost related to non-vested awards not yet recognized is approximately \$1.2 million and is expected to be recognized in the operating results of the Company through December 31, 2009. Thus, the adoption of Statement 123(R) will not result in significant differences between the financial statements of periods before and after the adoption.

Forward-Looking Statements

Statements under "Backlog", "Results of Operations" and "Liquidity and Capital Resources" and other statements in this report and the exhibits hereto that are not statements of historical fact are forward-looking statements. These statements are subject to certain risks and uncertainties that could cause actual results and outcomes to differ materially from the results and outcomes predicted in the statement and investors are cautioned not to place undue reliance upon them. Important factors that may cause our actual results to differ materially from expectations or

Table of Contents

projections include those described under the heading "Cautionary Statements" in Item 1A. Risk Factors included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005. Such factors include, among others, the timing and extent of changes in the prices of crude oil and natural gas; the timing of new projects and the Company's ability to obtain them; competitive factors in the heavy marine fabrication industry; the Company's ability to maintain and expand its current backlog; and the Company's ability to attract and retain qualified production employees at acceptable compensation rates.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes from the information included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Item 4. Controls and Procedures.

The Company's management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that the design and operation of our disclosure controls and procedures were effective as of such date to provide assurance that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to management as appropriate to allow timely decisions regarding disclosure.

Except for the acquisition of Gulf Marine, which was effective January 31, 2006, there have been no changes during the fiscal quarter ended September 30, 2006, in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. The Company is currently evaluating and assessing the effectiveness of the internal controls of Gulf Marine.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The Company is subject to various routine legal proceedings in the normal conduct of its business primarily involving commercial claims, workers' compensation claims, and claims for personal injury under general maritime laws of the United States and the Jones Act. While the outcome of these lawsuits, legal proceedings and claims cannot be predicted with certainty, management believes that the outcome of any such proceedings, even if determined adversely, would not have a material adverse effect on the financial position, results of operations or cash flows of the Company.

As reported in Item 3 of Part I of the Company's Annual Report on Form 10-K for the year ended December 31, 2005, in November 2004, Gulf Island, L.L.C., a wholly-owned subsidiary of Gulf Island Fabrication, Inc., filed a breach of contract suit against J. Ray McDermott for non-payment of a portion of a contract completed by Gulf Island, L.L.C. earlier in 2004. On or about September 21, 2006, the parties settled this dispute, which was dismissed by order dated September 22, 2006. As a result of this settlement, Gulf Island Fabrication, Inc. recognized a reduction in revenues of approximately \$460,000 during the third quarter of 2006.

Item 1A. Risk Factors

There have been no material changes to the Company's risk factors from the information included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

Item 6. Exhibits
