PROSPECTUS SUPPLEMENT TO PROSPECTUS DATED MAY 11, 2007

\$300,000,000

Regions Financial Corporation

7.375% Subordinated Notes due 2037

We will pay interest on the notes each June 10 and December 10. The first interest payment will be made on June 10, 2008. The notes will mature on December 10, 2037.

We may not redeem the notes prior to their maturity on December 10, 2037. There is no sinking fund for the notes.

The notes will be unsecured obligations of Regions Financial Corporation and will rank junior to our secured obligations and unsecured senior debt, equally with our other unsecured subordinated debt and senior to our junior subordinated debentures. As of September 30, 2007, we had approximately \$3.9 billion of outstanding indebtedness that would rank senior to the notes. In addition, as of that date, the aggregate amount of all debt and other liabilities of our subsidiaries, including deposits, that would effectively rank senior to the notes was approximately \$114.4 billion. The indenture pursuant to which we will issue the notes does not limit the amount of additional senior or subordinated indebtedness we may incur.

The notes cannot be accelerated except in the event of bankruptcy or the occurrence of certain other events of bankruptcy, insolvency or reorganization relating to us or Regions Bank.

The notes will be issued only in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

The notes will not be listed on any securities exchange. Currently there is no public market for the notes.

Investing in the notes involves risks. See Risk Factors beginning on page S-4 of this prospectus supplement, as well as Risk Factors beginning on page 13 of our annual report on Form 10-K for the year ended December 31, 2006.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The information included or incorporated by reference in this prospectus supplement and the accompanying prospectus may include forward-looking statements which reflect Regions' current views with respect to future events and financial performance. The Private Securities Litigation Reform Act of 1995 (the "Act") provides a safe harbor for forward-looking statements which are identified as such and are accompanied by the identification of important factors that could cause actual results to differ materially from the forward-looking statements. For these statements, Regions, together with its subsidiaries, unless the context implies otherwise, claim the protection afforded by the safe harbor in the Act. Forward-looking statements are not based on historical information, but rather are related to future operations, strategies, financial results or other developments. Forward-looking statements are based on management's expectations as well as certain assumptions and estimates made by, and information available to, management at the time the statements are made. Those statements are based on general assumptions and are subject to various risks, uncertainties and other factors that may cause actual results to differ materially from the views, beliefs and projections expressed in such statements. These risks, uncertainties and other factors include, but are not limited to, those described below:

Regions' ability to achieve the earnings expectations related to businesses that have been acquired, including its merger with AmSouth Bancorporation ("AmSouth"), or that may be acquired in the future, which in turn depends on a variety of factors, including:

Regions' ability to achieve the anticipated cost savings and revenue enhancements with respect to acquired operations, or lower than expected revenues from continuing operations;

the assimilation of the combined companies' corporate cultures;

the continued growth of the markets that the acquired entities serve, consistent with recent historical experience; and

difficulties related to the integration of the businesses, including integration of information systems and retention of key personnel.

Regions ability to expand into new markets and to maintain profit margins in the face of competitive pressures.

Regions ability to keep pace with technological changes.

Regions ability to develop competitive new products and services in a timely manner and the acceptance of such products and services by Regions customers and potential customers.

Regions ability to effectively manage interest rate risk, market risk, credit risk, operational risk, legal risk and regulatory and compliance risk.

Regions ability to manage fluctuations in the value of assets and liabilities and off-balance sheet exposure so as to maintain sufficient capital and liquidity to support Regions business.

The cost and other effects of material contingencies, including litigation contingencies.

The effects of increased competition from both banks and non-banks.

Further easing of restrictions on participants in the financial services industry, such as banks, securities brokers and dealers, investment companies and finance companies, may increase competitive pressures.

Possible changes in interest rates may increase funding costs and reduce earning asset yields, thus reducing margins.

Possible changes in general economic and business conditions in the United States in general and in the communities Regions serves in particular.

Possible changes in the creditworthiness of customers and the possible impairment of collectibility of loans.

The effects of geopolitical instability and risks such as terrorist attacks.

Possible changes in trade, monetary and fiscal policies, laws and regulations, and other activities of governments, agencies and similar organizations, including changes in accounting standards, may have an adverse effect on business.

Possible changes in consumer and business spending and saving habits could affect Regions ability to increase assets and to attract deposits.

RISK FACTORS

The following is a summary of risk factors relating to the notes that you should consider before purchasing the notes offered hereby. For a summary of risk factors relating to our business that you should consider before purchasing the notes, please see Risk Factors beginning on page 13 of our annual report on Form 10-K for the year ended December 31, 2006, which is incorporated by reference.

Holders of our senior indebtedness will get paid before you will get paid

Our obligations to you under the notes are unsecured and will be junior in right of payment to all of our future senior debt. This means that we cannot make any payments on the notes if we are in default on any of our senior debt then outstanding. Therefore, in the event of our bankruptcy, liquidation or dissolution, our assets must be used to pay off our senior obligations in full before any payments may be made on the notes.

As of September 30, 2007, we had approximately \$3.9 billion of outstanding indebtedness that would rank senior to the notes. In addition, as of that date, the aggregate amount of all debt and other liabilities of our subsidiaries, including deposits, that would effectively rank senior to the notes was approximately \$114.4 billion. The indenture does not limit the amount of additional senior or subordinated indebtedness we may incur. At September 30, 2007, Regions had \$2.1 billion of subordinated debt outstanding.

For more information, see Description of Notes Subordination.

The notes are our obligations and not obligations of our subsidiaries and will be effectively subordinated to the claims of our subsidiaries creditors

The notes are exclusively our obligations and not those of our subsidiaries. We are a holding company that conducts substantially all of our operations through our bank and non-bank subsidiaries. As a result, our ability to make payments on the notes will depend primarily upon the receipt of dividends and other distributions from our subsidiaries. If we do not receive sufficient cash dividends and other distributions from our subsidiaries, it is unlikely that we will have sufficient funds to make payments on the notes.

Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes or to provide us with funds to pay our obligations, whether by dividends, distributions, loans or other payments. In addition, any dividend payments, distributions, loans or advances to us by our subsidiaries in the future will require the generation of future earnings by our subsidiaries and may require regulatory approval. There are various regulatory restrictions on the ability of our bank subsidiary, Regions Bank, to pay dividends or make other payments to us. At September 30, 2007, Regions Bank could pay a total of approximately \$921 million in dividends to us and maintain its status as well-capitalized without prior regulatory approval.

In addition, our right to participate in any distribution of assets of any of our subsidiaries upon the subsidiary's liquidation or otherwise will generally be subject to the prior claims of creditors of that subsidiary. Your ability as a holder of the notes to benefit indirectly from that distribution also will be subject to these prior claims. The notes are not guaranteed by any of our subsidiaries. As a result, the notes will be effectively subordinated to all existing and future liabilities and obligations of our subsidiaries, including deposits. Therefore, you should look only to our assets for payments on the notes. At September 30, 2007, our subsidiaries had, in the aggregate, outstanding debt and other liabilities, including deposits, of approximately \$114.4 billion, all of which would effectively rank senior to the notes in case of liquidation or otherwise.

The notes are subject to limited rights of acceleration

Payment of principal on the notes may be accelerated only in the case of certain events of bankruptcy, insolvency or reorganization, whether voluntary or involuntary, of us or Regions Bank. Thus, you have no right

Table of Contents

to accelerate the payment of principal on the notes solely as a result of our failure to pay interest on the notes or to perform any of our other obligations under the notes or the indenture.

The notes are not insured

The notes are our unsecured obligations. The notes are not savings accounts, deposits or other obligations of any of our bank or non-bank subsidiaries and are not insured by the Federal Deposit Insurance Corporation, the Board of Governors of the Federal Reserve System or any other governmental agency or instrumentality.

You may be unable to sell the notes because there is no public trading market for the notes

The notes are a new issue of securities with no established trading market. The notes will not be listed on any securities exchange or included in any automated quotation system. Consequently, the notes will be relatively illiquid and you may be unable to sell your notes. Although the representatives of the underwriters have advised us that, following completion of the offering of the notes, one or more of the underwriters currently intend to make a secondary market in the notes, they are not obligated to do so and may discontinue any market-making activities at any time without notice. Accordingly, we cannot assure you as to the development or liquidity of any trading market for the notes.

DESCRIPTION OF NOTES

General

The notes will be a series of our subordinated debt securities. The notes will be issued under a subordinated indenture, dated as of May 15, 2002, as amended and supplemented by a supplemental indenture, to be dated as of December 10, 2007, between us and Deutsche Bank Trust Company Americas, a New York banking corporation, as trustee. Throughout this summary, we refer to both the subordinated indenture and supplemental indenture together as the indenture. The trustee's main role is to enforce your rights against us if we default. Regions may from time to time, without notice or consent of the holders of the notes, incur additional subordinated indebtedness ranking equally with the notes. The following description of the notes may not be complete and is subject to and qualified in its entirety by reference to the indenture. Wherever we refer to particular sections or defined terms of the indenture, it is our intent that those sections or defined terms will be incorporated by reference in this prospectus supplement.

The notes will be issued in fully registered book-entry form without coupons and in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. We do not intend to apply for the listing of the notes on any securities exchange.

The notes are unsecured obligations of ours and will rank junior to our secured obligations and senior debt, equally with our other unsecured subordinated debt, and senior to our junior subordinated debentures. As of September 30, 2007, we had approximately \$3.9 billion of outstanding indebtedness that would rank senior to the notes. In addition, as of that date, the aggregate amount of all debt and other liabilities of our subsidiaries, including deposits, that would effectively rank senior to the notes was approximately \$114.4 billion.

The notes will not be entitled to any sinking fund. Since we are a holding company, our rights and the rights of our creditors, including holders of the notes, to participate in the assets of any of our subsidiaries upon the liquidation or reorganization of any of our subsidiaries will be subject to prior claims of the creditors of any such subsidiary, including, in the case of Regions Bank, its depositors, except to the extent that we are a creditor of such subsidiary with recognized claims against the subsidiary. Claims on our subsidiaries by creditors other than us may include claims with respect to long-term debt and substantial obligations with respect to deposit liabilities, federal funds purchased, securities sold under repurchase agreements, other short-term borrowings and various other financial obligations.

The notes will be subject to defeasance under the conditions described below in Discharge, Defeasance and Covenant Defeasance. No additional amounts or make-whole amounts, as those terms are defined in the indenture, will be payable with respect to the notes.

The notes are not savings accounts, deposits or other obligations of any of our bank or non-bank subsidiaries and are not insured by the Federal Deposit Insurance Corporation, the Board of Governors of the Federal Reserve System or any other governmental agency or instrumentality.

The notes will initially be limited to an aggregate principal amount of \$300,000,000. We may, without the consent of the holders of the notes, increase the principal amount of the notes by issuing additional notes in the future on the same terms and conditions as the notes offered hereby, except for any differences in the issue price and interest accrued prior to the date of issuance of the additional notes and with the same CUSIP number as the notes offered by this prospectus supplement. The notes offered by this prospectus supplement and any additional notes would rank equally and ratably and would be treated as a single series for all purposes under the indenture.

The notes will mature at 100% of their principal amount on December 10, 2037 (the *maturity date*). The notes will not be subject to redemption at our option or repayment at the option of the holder at any time prior to maturity, and are not convertible or exchangeable for shares of any class of our equity securities or the equity securities of any of our subsidiaries.

Table of Contents

Payments of principal and interest to owners of the book-entry interests described below are expected to be made in accordance with the procedures of The Depository Trust Company (*DTC*) and its participants.

Interest

The notes will bear interest at a rate per annum equal to 7.375%. Interest on the notes will be payable semi-annually in arrears on June 10 and December 10 of each year (each, an *interest payment date*), beginning on June 10, 2008, to the persons in whose names notes are registered at the close of business on the preceding May 25 and November 25 of each year. Interest on the notes at the maturity date will be payable to the persons to whom principal is payable. Interest payments on the notes will be the amount of interest accrued from and including December 10, 2007 or the most recent interest payment date on which interest has been paid to but excluding the interest payment date or the maturity date, as the case may be.

When we refer to a *business day* with respect to the notes, we mean any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions in The City of New York are authorized or required by law, regulation or executive order to close.

If an interest payment date or the maturity date falls on a day that is not a business day, the related payment of interest and principal will be made on the next day that is a business day, and no interest on the notes or such payment will accrue for the period from and after such interest payment date or maturity date, as the case may be.

Subordination

The notes will be unsecured and subordinated in right of payment to all of our existing and future secured and senior debt. As a result, upon any distribution to our creditors in a liquidation, dissolution, bankruptcy, insolvency or reorganization, the payment of the principal and interest on the notes will be subordinated in right of prior payment in full of all our senior debt and our secured debt. Our obligation to make payments of the principal of and interest on the notes will not otherwise be affected. There is no limit on the amount of senior debt or other debt that we may incur under the indenture.

We may not make payments of principal or interest on the notes at any time we are in default on any payment with respect to our senior debt, or we have defaulted on any of our senior debt and such default has resulted in acceleration of the maturity of such senior debt, or if there is a judicial proceeding pending with respect to our default on our senior debt and we have received notice of the default. We may resume payments on the notes when the default is cured or waived or the subordination provisions of the indenture otherwise permit us to do so.

If payment or distribution on account of the notes of any character or security, whether in cash, securities or other property, is received by a holder of the notes, including the trustee, in contravention of any of the terms of the indenture and before all our senior debt has been paid in full, that payment or distribution or security will be received in trust for the benefit of, and must be paid over or delivered and transferred to, holders of our senior debt at the time outstanding in accordance with the priorities then existing among those holders for application to the payment of all senior debt remaining unpaid to the extent necessary to pay all senior debt in full.

Upon payment or distribution of assets to creditors upon insolvency, receivership, liquidation, reorganization, assignment for the benefit of creditors, marshalling of assets and liabilities or similar proceedings or any liquidation or winding up of or relating to our company as a whole, whether voluntary or involuntary, the holders of all senior debt securities will first be entitled to receive payment in full before holders of the notes will be entitled to receive any payment in respect of the principal of or interest on the notes.

After we have paid in full all sums we owe on our senior debt, the holders of the notes, together with the holders of our obligations ranking on parity with the notes, will be entitled to be paid from our remaining assets the amounts at the time due and owing on the notes and the other obligations.

Table of Contents

Even if the subordination provisions prevent us from making any payment when due on the notes, we will be in default on our obligations under the notes if we do not make the payment when due. This means that the trustee and the holders of notes can take certain actions against us, but they will not receive any money until the claims of the holders of senior indebtedness have been fully satisfied.

These subordination provisions mean that if we are insolvent, a direct holder of our senior debt may ultimately receive out of our assets more than a direct holder of the same amount of notes. The indenture does not limit our ability to incur senior or subordinated debt, including debt ranking on parity with the notes.

Senior debt is defined in the indenture as the principal, premium, if any, unpaid interest (including interest accruing on or after the filing of any petition in bankruptcy or for reorganization relating to us whether or not a claim for post-filing interest is allowed in such proceeding), fees, charges, expenses, reimbursement and indemnification obligations, and all other amounts payable under or in respect of the types of debt generally described below:

- (1) debt for money we have borrowed;
- (2) debt evidenced by a bond, note, debenture, or similar instrument (including purchase money obligations) whether or not given in connection with the acquisition of any business, property or assets, whether by purchase, merger, consolidation or otherwise, but not any account payable or other obligation created or assumed in the ordinary course of business in connection with the obtaining of materials or services;
- (3) debt which is a direct or indirect obligation which arises as a result of banker's acceptance or bank letters of credit issued to secure our obligations;
- (4) any debt of others described in the preceding clauses (1) through (3) which we have guaranteed or for which we are otherwise liable;
- (5) debt secured by any mortgage, pledge, lien, charge, encumbrance or any security interest existing on our property;
- (6) our obligation as lessee under any lease of property which is reflected on our balance sheet as a capitalized lease;
- (7) any deferral, amendment, renewal, extension, supplement or refunding of any liability of the kind described in any of the preceding clauses (1) through (6); and
- (8) our obligations to make payments under the terms of financial instruments such as securities contracts, foreign currency exchange contracts, derivative instruments and other similar financial instruments;

provided, however, that, in computing our debt, any particular debt will be excluded if:

upon or prior to the maturity thereof, we have deposited in trust with a depository, money (or evidence of indebtedness if permitted by the instrument creating such indebtedness) in the necessary amount to pay, redeem or satisfy that debt as it becomes due, and the amount so deposited will not be included in any computation of our assets; and

we have delivered an officers' certificate to the trustee that certifies that we have deposited in trust with the depository the sufficient amount.

For purposes of the notes, senior debt will exclude the following:

any debt referred to in paragraphs (1) through (7) above as to which, in the instrument creating or evidencing the debt or under which the debt is outstanding, it is provided that the debt is not superior in right of payment to our subordinated debt securities (including the notes), or ranks equal with our subordinated debt securities (including the notes);

our subordinated debt securities;

any debt of ours which when incurred and without respect to any election under Section 1111(b) of the United States Bankruptcy Code of 1978, as amended, was without recourse to us;

any debt of ours for wages or bank deposits payable to our executive officers and directors;

debt to any employee of ours; and

all other indebtedness of ours sold to any of our subsidiaries, including any limited liability companies, partnerships or trust established or to be established by us, in each case where the subsidiary is similar in purpose to one of the trusts.

Merger, Consolidation or Sale of Assets

We may consolidate with, or sell, lease or otherwise transfer all or substantially all of our assets to, or merge with or into, any other corporation, trust or other entity *provided* that:

we are the survivor in the merger, or the survivor, if not us, is an entity organized under the laws of the United States or a state of the United States and expressly assumes by supplemental indenture the due and punctual payment of the principal of and interest on all of the outstanding notes and the due and punctual performance and observance of all of the covenants and conditions contained in the indenture;

immediately after giving effect to the transaction and treating any indebtedness that becomes an obligation of ours or one of our subsidiaries as a result of the transaction, as having been incurred by us or the subsidiary at the time of the transaction, no event of default under the indenture, and no event which, after notice or the lapse of time, or both, would become an event of default, shall have occurred and be continuing;

if, as a result of the transaction, our property or assets would be subject to a mortgage, pledge, lien, security interest or other encumbrance that would not be permitted under the indenture, we shall take steps to secure the notes equally and ratably with all indebtedness secured in the transaction; and

certain other conditions that are described in the indenture are met.

Upon any such consolidation, merger, or sale, the successor corporation formed, or into which we are merged or to which we are sold, shall succeed to, and be substituted for, us under the indenture.

This covenant would not apply to any recapitalization transaction, change of control of us or a transaction in which we incur a large amount of additional debt unless the transactions or change of control included a merger or consolidation or transfer of substantially all of our assets. There are no covenants or other provisions in the indenture providing for a put or increased interest or that would otherwise afford holders of the notes additional protection in the event of a recapitalization transaction, a change of control of us or a transaction in which we incur or acquire a large amount of additional debt.

Events of Default, Notice and Waiver

Notwithstanding anything to the contrary in the accompanying prospectus, payment of principal of the notes can be accelerated only in the event of our bankruptcy, insolvency or reorganization or the receivership of our principal banking subsidiary, Regions Bank (each an *event of default*). There will be no right of acceleration of the payment of principal of the notes solely as a result of our failure to pay principal or interest on the

Edgar Filing: REGIONS FINANCIAL CORP - Form 424B2

notes when due, or to perform any of our covenants or agreements contained in the notes or in the indenture. However, in the event of a default in the payment of principal or interest, you will have the right to institute a suit directly against us for the collection of any overdue payment on the notes, without first instituting suit against the trustee or any other person.

S-13

Table of Contents

If an event of default with respect to the notes occurs and is continuing, either the trustee or the holders of at least 25% in aggregate principal amount of the outstanding notes may declare the principal amount of all the notes to be due and payable immediately. At any time after a declaration of acceleration with respect to the notes has been made, but before a judgment or decree based on acceleration has been obtained, the holders of a majority in aggregate principal amount of the notes may, under certain circumstances, rescind and annul such acceleration.

If a default occurs that is not also an event of default, neither the trustee nor the holders of the notes may act to accelerate the maturity of the notes. But if a default occurs that relates to our failure to make any payment of interest due and payable or that relates to our failure to make any payment of principal or premium, if any, upon maturity, and such default continues for 30 days or such default is made in the payment of the principal or any premium at its maturity, then the trustee may demand payment of the amounts then due and payable and may proceed to prosecute any failure on our part to make such payments.

Subject to provisions in the indenture relating to the trustee's duties in case of default, the trustee is not under an obligation to exercise any of its rights or powers under the indenture at the request or direction of any holders of the notes, unless the holders have offered to the trustee security or indemnity satisfactory to it. Subject to these provisions for the indemnification of the trustee, the holders of not less than a majority in principal amount of the notes will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or of exercising any trust or power conferred upon the trustee. However, the trustee may refuse to follow any direction which is in conflict with any law or the indenture, which may involve the trustee in personal liability or which may be unduly prejudicial to the holders of the notes not joining in the direction.

Within 120 days after the close of each fiscal year, we must deliver to the trustee a certificate, signed by one of several specified officers, stating such officer's knowledge of our compliance with all the conditions and covenants under the indenture and, in the event of any noncompliance, specifying such noncompliance and the nature and status of the noncompliance.

Modification of the Indenture

Modification and amendment of the indenture may be made only with the consent of the holders of not less than a majority in principal amount of the notes. However, no modification or amendment may, without the consent of all the holders of the notes, do any of the following:

change the stated maturity of the principal of or interest payable on the notes or change any place of payment where such principal and interest is payable;

reduce the principal amount of or the rate or amount of interest on the notes;

impair the right to institute suit for the enforcement of any payment on or with respect to the notes;

reduce the percentage of the holders of the notes necessary to modify or amend the indenture, to waive compliance with certain provisions thereof or certain defaults and consequences thereunder, or to reduce the quorum or voting requirements contained in the indenture; or

modify any of the foregoing provisions or any of the provisions relating to the waiver of certain past defaults or certain covenants with respect to the notes, except to increase the required percentage to effect such action or to provide that certain other provisions may not be modified or waived without the consent of the holders of the notes.

We and the trustee may modify or amend the indenture, without the consent of any holder of the notes for any of the following purposes:

to evidence the succession of another person to us as obligor under the indenture;

Table of Contents

to add to the covenants for the benefit of the holders of the notes or to surrender any right or power conferred upon us in the indenture;

to add events of default for the benefit of the holders of the notes;

to add or change any provisions of the indenture to facilitate the issuance of, or to liberalize certain terms of, notes in bearer form, or to permit or facilitate the issuance of notes in uncertificated form, *provided* that such action shall not adversely affect the interests of the holders of the notes in any material respect;

to add, change or eliminate any provisions of the indenture, provided that any such addition, change or elimination shall:

neither (a) apply to any note created prior to the execution of the supplemental indenture effectuating such addition, change or elimination and entitled to the benefit of such provision, nor (b) modify the rights of the holder of such note with respect to such provision; or

become effective only when there are no notes outstanding under the indenture;

to secure the notes;

to establish the form or terms of the notes, including the provisions and procedures, if applicable, for the conversion of notes into our common stock or other securities or property of ours;

to evidence and provide for the acceptance or appointment of a successor trustee with respect to the notes or facilitate the administration of the trusts under the indenture by more than one trustee;

to cure any ambiguity, defect or inconsistency in the indenture;

to close the indenture with respect to the authentication and delivery of additional notes or to qualify, or maintain qualification of, the indenture under the Trust Indenture Act of 1939, as amended (the *Trust Indenture Act*); and

to supplement any of the provisions of the indenture to the extent necessary to permit or facilitate defeasance and discharge of the notes.

Discharge, Defeasance and Covenant Defeasance

Under the indenture, we may discharge certain obligations to holders of the notes that have not already been delivered to the trustee for cancellation and that either have become due and payable or will become due and payable within one year. We can discharge these obligations by irrevocably depositing with the trustee funds in United States dollars in an amount sufficient to pay the entire indebtedness on the notes, including the principal of and interest payable on the notes to the date of the deposit, if the notes have become due and payable or to the maturity date, as the case may be.

We may also elect either of the following:

to be defeased and be discharged from any and all obligations with respect to the notes; except our obligations to:

register the transfer or exchange of the notes,

replace temporary or mutilated, destroyed, lost or stolen notes,

maintain an office or agency for the notes, and

to hold moneys for payment in trust; or

to be defeased and discharged from our obligations with respect to the notes and our obligations described under Merger, Consolidation or Sale of Assets or, to the extent permitted by the terms of the notes, our obligations with respect to any other covenant.

S-15

Table of Contents

If we choose to defease and discharge our obligations under the covenants with respect to the notes, any failure to comply with the obligations imposed on us by the covenants will not constitute a default or an event of default with respect to the notes. However, to make either election we must irrevocably deposit with the trustee, in trust, an amount, in United States dollars, or in United States government obligations, or both, that will provide sufficient funds to pay the principal of and interest on the notes on the relevant scheduled due dates.

We may defease and discharge our obligations as described in the preceding paragraphs only if, among other things:

we have delivered to the trustee an opinion of counsel to the effect that the holders of the notes will not recognize income, gain or loss for United States federal income tax purposes as a result of the defeasance or covenant defeasance described in the previous paragraphs and will be subject to United States federal income tax on the same amounts, in the same manner and at the same times as would have been the case if the defeasance or covenant defeasance had not occurred. In the case of defeasance the opinion of counsel must refer to and be based upon a ruling of the Internal Revenue Service or a change in applicable United States federal income tax laws occurring after the date of the indenture;

we have delivered to the trustee an opinion of counsel to the effect that the trust funds deposited with the trustee to pay the principal of and interest on the notes on the relevant scheduled due dates will not be subject to the rights of any holders of senior indebtedness, except and subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally and general principals of equity;

any defeasance does not result in, or constitute, a breach or violation of an indenture or any other material agreement which we are a party to or obligated under; and

no event of default, or event that with notice or lapse of time or both will be an event of default, has occurred and is continuing with respect to the notes.

In the event we effect covenant defeasance with respect to the notes and the notes are declared due and payable because of the occurrence of any event of default, then the amount on deposit with the trustee will still be sufficient to pay amounts due on the notes at the time of their maturity date but may not be sufficient to pay amounts due on the notes at the time of the acceleration resulting from the event of default. In this case, we would remain liable to make payment of such amounts due at the time of acceleration.

Book-Entry, Delivery and Form

The notes will be issued only in fully registered form, represented by global certificates (the *Global Securities*) that will be deposited with DTC and registered in the name of Cede & Co., as the nominee of DTC.

Investors may elect to hold beneficial interests in the Global Securities through either DTC, in the United States, or indirectly through organizations which are participants in DTC.

Upon the issuance of a Global Security, DTC will credit, on its book-entry registration and transfer system, the principal amount of notes represented by the Global Security to the accounts of institutions that have accounts with DTC, known as *participants*. Ownership of beneficial interests in the Global Security will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in a Global Security will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC or its nominee, in the case of participants, or by participants or persons that hold through participants, in the case of persons other than participants. The laws of certain jurisdictions require that certain purchasers of securities take physical delivery of their securities as certificates issued in definitive form. These laws may make it difficult to transfer beneficial interests in a Global Security.

Principal and interest payments on the notes will be made to DTC or its nominee, as the case may be, as the registered holder of a related Global Security. We have been advised that DTC or its nominee, upon receipt of

Table of Contents

any payment of principal or interest in respect of a Global Security, will immediately credit participants' accounts with payments in amounts equal to their respective beneficial interests in the principal amount of such Global Security as shown on the records of DTC or its nominee. Payments by participants, or by persons that hold interests for customers through participants, to owners of beneficial interests in such Global Security held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers registered in *street name*, and will be the responsibility of such participants, or of such persons that hold interests for customers through participants.

Each owner of a beneficial interest in a Global Security relating to the notes must ensure that the person through whom its interest is held, such as a participant or other person that holds interests through a participant, maintains accurate records of its beneficial interest in the Global Security. The interests of participants, which may be in the form of a custodial relationship, will be shown on records maintained by DTC for that Global Security. The designation of DTC or its nominee as custodian for participants and persons that hold interests through participants, either as principal, nominee or custodian, will be shown on the register maintained by the trustee.

Neither we nor the trustee will have any responsibility or liability for any aspect of the records relating to, or for payments made on account of beneficial ownership interests in, a Global Security or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

If DTC notifies us that it is unwilling or unable to continue as depository for the Global Securities relating to the notes or if at any time DTC ceases to be a clearing agency registered under the Securities Exchange Act of 1934, as amended (the *Exchange Act*), if so required by applicable law or regulation, we will appoint a successor depository. If we do not appoint such successor depository within 90 days after we receive such notice or become aware of such unwillingness, inability or ineligibility, or an event of default under the indenture with respect to the notes has occurred and is continuing and the beneficial owners representing a majority in principal amount of the notes advise DTC to cease acting as depository for the notes, we will issue notes in certificated form (the *Certificated Notes*) in exchange for that Global Security. In addition, we may at any time and in our sole discretion decide not to have the notes represented by Global Securities. In such event, we will issue Certificated Notes in exchange for all of the notes represented by Global Securities. The Certificated Notes issued in exchange for those Global Securities will be in the same minimum denominations and be of the same aggregate principal amount and tenor as the portion of each Global Security to be exchanged. Except as provided above, owners of beneficial interests in a Global Security will not be entitled to receive physical delivery of Certificated Notes and will not be considered the registered holders of the notes for any purpose, including receiving payments of principal or interest.

DTC has advised us that it is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that DTC's participants (*Direct Participants*) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (*DTCC*). DTCC, in turn, is owned by a number of Direct Participants of DTC and members of the National Securities Clearing Corporation, Fixed Income Clearing Corporation and Emerging Markets Clearing Corporation (also subsidiaries of DTCC), as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the Financial Industry Regulatory Authority (*FINRA*). Access to the depository system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or

indirectly. The DTC rules applicable to DTC's participants are on file with the SEC. More information about DTC can be found at its Internet website at <http://www.dtcc.com>. The address of DTC's Internet website is provided solely for the information of prospective investors and is not intended to be an active link.

According to DTC, the foregoing information with respect to DTC has been provided to its participants and the financial community for informational purposes only and is not intended to serve as a presentation, warranty, or contract modification of any kind.

Same-Day Settlement and Payment

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System.

Trustee

Deutsche Bank Trust Company Americas will act as trustee for the notes. From time to time, we and some of our subsidiaries may maintain deposit accounts and conduct other banking transactions, including lending transactions, with the trustee in the ordinary course of business. Additionally, we maintain banking relationships with Deutsche Bank Trust Company Americas and its affiliates in the ordinary course of business. These banking relationships include Deutsche Bank Trust Company Americas serving as trustee under the indenture involving our existing debt securities, serving as trustee in connection with trust preferred securities that were issued by our financing trusts, and providing us with general banking services. Upon the occurrence of an event of default or an event which, after notice or lapse of time or both, would become an event of default under the notes, or upon the occurrence of a default under another indenture under which Deutsche Bank Trust Company Americas serves as trustee, the trustee may be deemed to have a conflicting interest with respect to the other debt securities as to which we are not in default for purposes of the Trust Indenture Act and, accordingly, may be required to resign as trustee under the applicable indenture. In that event, we would be required to appoint a successor trustee.

Notices

Any notices required to be given to the holders of the notes will be given to DTC.

Governing Law

The indenture and the notes are governed by and will be construed in accordance with the laws of the State of New York.

ERISA CONSIDERATIONS

Each fiduciary of a pension, profit-sharing or other employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended (*ERISA*) (a *Plan*), should consider the fiduciary standards of ERISA in the context of the Plan's particular circumstances before authorizing an investment in the notes. Accordingly, among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan.

In addition, we and certain of our subsidiaries and affiliates may be each considered a party in interest within the meaning of ERISA, or a disqualified person within the meaning of the Code, with respect to many Plans, as well as many individual retirement accounts and Keogh plans (also *Plans*). Prohibited transactions within the meaning of ERISA or the Code would likely arise, for example, if the notes are acquired by or with the assets of a Plan with respect to which we or any of our subsidiaries or affiliates is a party in interest, unless the notes are acquired pursuant to an exemption from the prohibited transaction rules. A violation of these prohibited transaction rules could result in an excise tax or other liabilities under ERISA and/or Section 4975 of the Code for such persons, unless exemptive relief is available under an applicable statutory or administrative exemption.

Under ERISA and various prohibited transaction class exemptions (*PTCEs*) issued by the U.S. Department of Labor, exemptive relief may be available for direct or indirect prohibited transactions resulting from the purchase, holding or disposition of the notes. Those exemptions are PTCE 96-23 (for certain transactions directed by an in-house professional asset manager), PTCE 95-60 (for certain transactions involving insurance company general accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 90-1 (for certain transactions involving insurance company pooled separate accounts), PTCE 84-14 (for certain transactions determined by a qualified professional asset manager) and the exemption under new Section 408(b)(17) of ERISA and new Section 4975(d)(20) of the Code for certain arm's-length transactions with a person that is a party in interest solely by reason of providing services to Plans or being an affiliate of such a service provider (other than a fiduciary who has exercised or exercises any discretionary authority or control with respect to an investment of plan assets involved in the transaction or renders investment advice with respect thereto) (the *Service Provider Exemption*).

Because we may be considered a party in interest with respect to many Plans, the notes may not be purchased, held or disposed of by any Plan, any entity whose underlying assets include plan assets by reason of any Plan's investment in the entity (a *Plan Asset Entity*) or any person investing plan assets of any Plan, unless such purchase, holding or disposition is eligible for exemptive relief, including relief available under PTCE 96-23, 95-60, 91-38, 90-1 or 84-14, or the Service Provider Exemption, or such purchase, holding or disposition is otherwise not prohibited under ERISA and the Code. Any purchaser, including any fiduciary purchasing on behalf of a Plan, transferee or holder of the notes will be deemed to have represented, in its corporate and its fiduciary capacity, by its purchase and holding of the notes that either (a) it is not a Plan or a Plan Asset Entity and is not purchasing such notes on behalf of or with plan assets of any Plan or with any assets of a governmental, church or foreign plan that is subject to any federal, state, local or foreign law that is substantially similar to the provisions of Section 406 of ERISA or Section 4975 of the Code or (b) its purchase, holding and disposition are eligible for exemptive relief or such purchase, holding and disposition are not prohibited by ERISA or Section 4975 of the Code (or in the case of a governmental, church or foreign plan, any substantially similar federal, state, local or foreign law).

Under ERISA, assets of a Plan may include assets held in the general account of an insurance company which has issued an insurance policy to such plan or assets of an entity in which the Plan has invested. Accordingly, insurance company general accounts that include assets of a Plan must ensure that one of the foregoing exemptions is available.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering

purchasing the notes on behalf of or with plan assets of any Plan consult with their counsel regarding the availability of exemptive relief under PTCE 96-23, 95-60, 91-38, 90-1 or 84-14, or the Service Provider Exemption. Purchasers of the notes have exclusive responsibility for ensuring that their purchase, holding and disposition of the notes does not violate the prohibited transaction rules of ERISA or the Code or any similar regulations applicable to governmental or church plans, as described above.

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement, dated December 5, 2007 (the *underwriting agreement*), the underwriters named below (the *underwriters*), for whom Morgan Keegan & Company, Inc., Credit Suisse Securities (USA) LLC, and UBS Securities LLC are acting as representatives (the *representatives*), have severally agreed to purchase, and we have agreed to sell to them, severally, the respective principal amount of notes set forth opposite their names below:

Underwriter	Principal Amount of Notes
Credit Suisse Securities (USA) LLC	\$ 105,000,000
UBS Securities LLC	105,000,000
Morgan Keegan & Company, Inc.	57,000,000
Goldman, Sachs & Co.	15,000,000
Lehman Brothers Inc.	15,000,000
Loop Capital Markets, LLC	3,000,000
Total	\$ 300,000,000

The underwriting agreement provides that the underwriters are obligated to purchase all of the notes if any are purchased.

The underwriters propose to offer the notes initially at the public offering price on the cover page of this prospectus supplement and to selling group members at that price less a selling concession of 0.45% of the principal amount of the notes. The underwriters and the selling group members may allow a discount of 0.25% of the principal amount of the notes on sales to other brokers/dealers. After the initial offering of the notes, the price to public and other selling terms may from time to time be varied by the underwriters.

The aggregate proceeds to us are set forth on the cover page of this prospectus supplement before deducting our expenses in offering the notes. We estimate that we will spend approximately \$650,000 for expenses, excluding underwriting discounts, allocable to the offering.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments that the underwriters may be required to make in respect thereof.

The notes are new issues of securities with no established trading market. One or more underwriters intend to make a secondary market for the notes. However, they are not obligated to do so and may discontinue making a secondary market for the notes at any time without notice. No assurance can be given as to how liquid the trading market for the notes will be.

This prospectus supplement and the accompanying prospectus may be used by Morgan Keegan or our other affiliates in connection with offers and sales of the notes in market-making transactions at negotiated prices at the time of sale. Morgan Keegan or our other affiliates may act as principal or agent in such transactions.

Because Morgan Keegan, one of the underwriters in this offering, is a member of FINRA and is an affiliate of ours for the purposes of the Conduct Rules of FINRA, the offering of the notes will be conducted in accordance with the applicable sections of Rule 2720 of the Conduct Rules of FINRA. Pursuant to Rule 2720 of the Conduct Rules of FINRA, no FINRA member participating in this offering will be permitted to execute a transaction in the notes in a discretionary account without the prior written approval of such member's customer. The maximum underwriting discount or commission for this offering may not exceed 8% of the offering proceeds.

Table of Contents

In connection with the offering, the underwriters may engage in transactions that stabilize the market price of the notes. Such transactions consist of bids or purchases to peg, fix or maintain the price of the notes. If the underwriters create a short position in the notes in connection with the offering, *i.e.*, if they sell more notes than are listed on the cover page of this prospectus supplement, the underwriters may reduce that short position by purchasing notes in the open market. Purchases of a security to stabilize the price or to reduce a short position may cause the price of the security to be higher than it might be in the absence of these purchases.

Neither we nor the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the notes. In addition, neither we nor the underwriters make any representation that the underwriters will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us and our affiliates. They have received customary fees and commissions for these transactions.

The notes are offered for sale in those jurisdictions in the United States and Canada where it is legal to make such offers.
