### Letter to Shareholders

December 17, 2007

Dear Shareholder.

We present this Annual Report which covers the activities of Aberdeen Global Income Fund, Inc. (the Fund) for the year ended October 31, 2007. The Fund investment objective is to provide high current income by investing primarily in fixed income securities. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective.

#### Net Asset Value Performance

The Fund s total return based on net asset value (NAV) was 11.90% for the year ended October 31, 2007 and 8.50% per annum since inception, assuming the reinvestment of distributions.

#### Share Price Performance

The Fund s share price decreased by 0.2% over the year, from \$13.00 on October 31, 2006 to \$12.97 on October 31, 2007. The Fund s share price on October 31, 2007 represented a discount of 8.6% to the NAV per share of \$14.19 on that date, compared with a discount of 3.4% to the NAV per share of \$13.46 on October 31, 2006. At the date of this letter, the share price was \$11.97, representing a discount of 11.0% to the NAV per share of \$13.45.

#### Credit Quality: 71.5% of Securities Rated or Deemed Equivalent to A or Better

As of October 31, 2007, 71.5% of the Fund s portfolio was invested in securities where either the issue or the issuer was rated A or better, or judged by Aberdeen Asset Management Asia Limited (the Investment Manager) to be of equivalent quality.

#### Distributions

Distributions to common shareholders for the twelve months ended October 31, 2007 totaled 78 cents per share. Based on the share price of \$12.97 on October 31, 2007, the distribution rate over the twelve months then ended was 6.0%. Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit.

On December 12, 2007, the Board of Directors authorized a monthly distribution of 6.5 cents per share, payable on January 11, 2008 to common shareholders of record as of December 31, 2007.

The Board s policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in-capital. It is the Board s intention that a monthly distribution of at least 6.5 cents per share be maintained for twelve months, beginning with the July 13, 2007 distribution payment. This policy is subject to regular review at the Board s quarterly meetings, unless market conditions require an earlier evaluation. The next review is scheduled to take place in March 2008.

#### Share Repurchase Policy

The Board s policy is generally to buy back Fund shares on the open market when the Fund trades at certain discounts to NAV. The Board has decided that the Fund will implement a share buy back in early 2008 if the Fund s shares are trading at a 8% or greater discount to net asset value.

#### Portfolio Holdings Disclosure

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund s Forms N-Q are available on the SEC s website at http://www.sec.gov and may be reviewed and copied at the SEC s Public Reference Room in Washington, D.C. Information about the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330. The Fund makes the information on Form N-Q available to shareholders on the Fund s website or upon request and without charge by calling Investor Relations toll-free at 1-866-839-5233.

#### **Proxy Voting**

#### All amounts are U.S. dollars unless otherwise stated

Your Board s policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund s fiscal year, October 31. However, under the U.S. Investment Company Act of 1940, the Fund may be required to indicate the sources of

certain distributions to shareholders. This estimated

distribution composition may vary from month to month because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

The distributions for the fiscal year ended October 31, 2007 consisted entirely of net investment income.

In January 2008, a Form 1099-DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment for the 2007 calendar year.

Aberdeen Global Income Fund, Inc.

### Automatic Dividend Reinvestment and Cash Purchase Plan

Common shareholders are automatically enrolled in the Fund s Automatic Dividend Reinvestment and Cash Purchase Plan (the Plan ), which allows you to automatically reinvest your distributions in shares of the Fund s common stock at favorable commission rates, unless an election is made to receive distributions in cash. Distributions made under the Plan are taxable to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per transaction, with a maximum of \$10,000 per month, and an aggregate annual limit of \$120,000. Under this arrangement, The Bank of New York Mellon Corporation (formerly, The Bank of New York) (the Plan Agent ) will purchase shares for you on the American Stock Exchange or otherwise on the open market on or before the investment date. The investment date is the 15th day of each month, but if such date is not a business day, the preceding business day.

As a participant in the Plan you will benefit from:

**Automatic reinvestment** the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

**Lower costs** shares are purchased on your behalf under the Plan at low brokerage rates. Brokerage on share purchases is currently 2 cents per share;

**Convenience** the Plan Agent will hold your shares in non-certificated form and will provide a detailed plan account statement of your holdings at the end of each month.

To request a brochure containing information on the Plan, please contact the Plan Agent;

#### Share Price Performance

On October 31, 2007, the Fund s share price was \$12.97, which represented a discount of 8.6% to the NAV per share of \$14.19. As of December 17, 2007, the share price was \$11.97, representing a discount of 11.0% to the NAV per share of \$13.45.

#### Auction Market Preferred Stock (AMPS)

The Fund s \$30 million of AMPS continued to be well bid at the regular auctions. The average interest rate paid was 5.401% over the year ended October 31, 2007, compared with an interest rate of 5.18948% for 30-day U.S. commercial paper over the same period. The average AMPS rate for the twelve months ended October 31, 2007 was slightly higher than the average AMPS for the six months ended April 30, 2007, while the average commercial paper rate was slightly lower for the same period. The key driver of the increase in the AMPS interest rate was the impact of increased risk aversion on credit spreads, while a 0.50% easing of monetary policy by the U.S. Federal Reserve in September 2007 drove the fall in commercial paper rates.

Over the twelve months ended October 31, 2007, the impact of the AMPS on the net asset value attributable to common shareholders was positive. Bond movements made a negative contribution, as increased risk aversion placed upward pressure on non-Government yields. However, this negative effect was mitigated by the locking in of fixed rates on 64% of the AMPS, pursuant to the interest rate swap agreement referred to below. The Fund s locking in of fixed rates on a portion of the AMPS has meant that the differential between the AMPS funding rates and the yields at which the Fund invests remained positive despite the volatility in U.S. short-term interest rates. Currency movements also made a positive contribution.

The Fund has entered into interest rate swap agreements, based on an initial aggregate notional amount of \$19.2 million, which represented 64% of the total AMPS outstanding. A portion of the interest rate swaps, with a nominal value of \$7.2 million, expired on October 31, 2007. Upon expiration, the unhedged portion of the total AMPS outstanding increased from \$10.8 million to \$18 million, and the coverage of the interest rate swaps decreased from 64% to 40%. Under the terms of the agreements currently in effect, the Fund receives a floating rate of interest (one month USD-LIBOR BBA rate) and pays fixed rates of interest for the terms and based upon the notional amounts set forth below:

#### Remaining Term as of

	Amount	Fixed Rate
October 31, 2007	(in \$ million)	Payable (%)
36 months	4.8	4.055
12 months	7.2	3.540

A significant risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case the Fund would bear the risk of loss of the amount expected to be received under the swap agreements. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in place, it will be successful in hedging the Fund s interest rate risk with respect to the AMPS. The implementation of this strategy is at the discretion of the AMPS Hedging Committee of the Board of Directors.

### Notes to Financial Statements

Aberdeen Global Income Fund, Inc. (the Fund ) was incorporated in Maryland on June 28, 1991, as a closed-end, non-diversified investment company.

The Fund s principal investment objective is to provide high current income by investing primarily in fixed-income securities. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective. The Fund s investments are divided into three categories: Developed Markets, Investment Grade Developing Markets and Sub-Investment Grade Developing Markets. Developed Markets are those countries contained in the Citigroup World Government Bond Index, Luxembourg and the Hong Kong Special Administrative Region. Investment Grade Developing Markets are those countries whose sovereign debt is rated not less than Baa3 by Moody s or BBB- by S&P. Sub-Investment Grade Developing Markets are those countries that are not Developed Markets or Investment Grade Developing Markets. Under normal circumstances, at least 60% of the Fund s total assets would be invested in a portfolio of fixed income securities from issuers in Developed Markets or Investment Grade Developing Markets, whether or not denominated in the currency of such country; provided, however, that the Fund will invest at least 40% of its total assets in fixed income securities of issuers in Developed Markets. The Fund may only invest up to 40% of its total assets in fixed income securities of issuers in Sub-Investment Grade Developing Markets whether or not denominated in the currency of such country.

In order to comply with a rule adopted by the Securities and Exchange Commission under the Investment Company Act of 1940 regarding fund names, the Board of Directors has adopted an investment policy that, for as long as the name of the Fund remains Aberdeen Global Income Fund, Inc., it shall be the policy of the Fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in debt securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board of Directors upon 60 days prior written notice to shareholders. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

#### 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

#### **Basis of Presentation:**

The financial statements of the Fund are prepared in accordance with accounting principles generally accepted in the United States of America using the United States dollar as both the functional and reporting currency. However, the Australian Dollar, Canadian Dollar and British Pound are the functional currencies for Federal tax purposes (see Taxes on page 23).

#### Securities Valuation:

The Fund s Board of Directors has adopted Pricing and Valuation Procedures (the Procedures) to be used in determining the value of the assets held by the Fund. In accordance with the Procedures, investments are stated at value. Investments for which market quotations are readily available are valued at the last trade price on the date of determination as obtained from a pricing source. If no such trade price is available, such investments are valued at the quoted bid price or the mean between the quoted bid and ask price on the date of determination as obtained from a pricing source.

Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates market value.

Securities for which market quotations are not readily available (including investments which are subject to limitations as to their sale) are to be valued at fair value. As a general rule, whether or not the Fund is required to fair value price an asset is dependent on the ready availability of

Aberdeen Global Income Fund, Inc.

## Notes to Financial Statements (continued)

current market quotes or, even if readily available, the reliability of such quotes. Any assets for which market quotations are not readily available or for which available prices are not reliable, shall be determined in a manner that most fairly reflects the asset s (or group of assets) fair value (i.e., the amount that the Fund might reasonably expect to receive for the asset upon its current sale) on the valuation date, based on consideration of all available information.

The Procedures provide that in certain instances, including without limitation, if there is a stale price for a portfolio security, in an emergency situation, or if a significant event occurs after the close of trading of a portfolio security, but before the calculation of the Fund s net asset value, the security may be valued at its fair value.

#### **Repurchase Agreements:**

In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund s policy that its custodian/counterparty segregates the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

#### **Foreign Currency Translation:**

Foreign currency amounts are translated into United States dollars on the following basis:

- market value of investment securities, other assets and liabilities at the exchange rates at the end of the reporting period;
- (ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at the end of the reporting period. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the reporting period.

Net realized foreign exchange gains/(losses) includes realized foreign exchange gains/(losses) from sales and maturities of portfolio securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund s books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized foreign exchange appreciation/(depreciation) includes changes in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. Accumulated realized and unrealized foreign exchange gains/(losses) shown in the composition of

net assets represent foreign exchange gains/(losses) for book purposes that have not yet been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

#### **Securities Transactions and Investment Income:**

Securities transactions are recorded on the trade date. Realized and unrealized gains/(losses) from security and currency transactions are calculated on the identified cost basis. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are accrued on a daily basis.

Aberdeen Global Income Fund, Inc.

### Notes to Financial Statements (continued)

#### **Derivative Financial Instruments:**

The Fund is authorized to use derivatives to manage currency risk, credit risk and interest rate risk and to replicate or as a substitute for physical securities. Losses may arise due to changes in the value of the contract or if the counterparty does not perform under the contract. The use of derivative instruments involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities.

#### **Interest Rate Swaps:**

The Fund may engage in certain interest rate swap transactions to hedge the Fund s AMPS. An interest rate swap is an agreement between two parties, which involves the exchange of floating and fixed rate interest payments for a specified period of time. Interest rate swaps involve the accrual and exchange of interest payments between the parties. These payments are recorded as realized gain/(loss).

During the term of the swap, changes in the value of the swap are recognized as unrealized appreciation or depreciation by marking-to-market the fair market value of the swap. When the swap is terminated, the Fund will record a realized gain/(loss) equal to the difference, if any, between the proceeds from (or cost of) the closing transaction and the Fund s basis in the contract. The Fund is exposed to credit risk in the event of non-performance by the counter party to the swap. However, the Fund does not anticipate non-performance by any counterparty.

#### **Forward Foreign Currency Exchange Contracts:**

A forward foreign currency exchange contract ( Forward Contract ) involves an obligation to purchase and sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. The Forward Contract is marked-to-market daily and the change in market value is recorded by the Fund as unrealized appreciation or depreciation. When the Forward Contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. Risks arise from the unanticipated movements in the value of the foreign currency relative to the functional currencies and from potential inability of counterparties to meet the terms of their contracts.

#### **Futures Contracts:**

A futures contract is an agreement between two parties to buy and sell a security for a set price on a future date. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized appreciation or depreciation. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

#### **Options:**

When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the

premium paid or received). As of October 31, 2007, there were no open option contracts.

#### **Distributions:**

It is the Fund s current policy to pay distributions from net investment income supplemented by net realized foreign exchange gains, net realized short-term capital gains and return of capital distributions if necessary, on a monthly basis. The Fund will also declare and pay distributions at least annually from net realized gains on investment transactions and net realized foreign exchange gains, if any. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to preferred shareholders are accrued on a daily basis and are determined as described in Note 6.

Income distributions and capital and currency gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments for foreign currencies, loss deferrals and recognition of market discount and premium.

#### **Recent Accounting Pronouncements:**

In July 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 (FIN 48) entitled Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109. FIN 48 prescribes the minimum recognition threshold a tax position must meet in connection with accounting for uncertainties in income tax positions taken or expected to be taken by an entity including mutual funds before being measured and recognized in the financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Fund will adopt FIN 48 during the fiscal 2008 year and the impact on the Fund s financial statements, if any, is currently being assessed.

In addition, in September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The Fund will adopt SFAS 157 during the fiscal 2009 year and the impact on the Fund s financial statements, if any, is currently being assessed.

#### **Reclassification of Capital Accounts:**

For the year ended October 31, 2007, the Fund decreased distributions in excess of net investment income by \$5,263,078, increased accumulated net realized losses on investment transactions by \$3,513,628 and decreased accumulated net realized foreign exchange gains by \$1,749,450. These reclassifications are a result of permanent differences primarily attributable to foreign currency transactions, amortization methods on fixed income securities and accounting for swap agreements. Net investment income, net realized loss on investments and net assets were not affected by this change.

#### Taxes:

For Federal income and excise tax purposes, substantially all of the Fund stransactions are accounted for using the functional currencies. Accordingly, only realized currency gains/(losses) resulting from the repatriation of any of the functional currencies (Australian Dollar, Canadian Dollar or British Pound) into U.S. dollars or another functional currency and realized currency gains

and losses on non-functional currencies are recognized for U.S. tax purposes.

No provision has been made for United States of America Federal income taxes because it is the Fund s policy to meet the requirements of the United States of America Internal Revenue Code

applicable to regulated investment companies and to distribute substantially all of its taxable income to shareholders. Under the applicable foreign tax law, a withholding tax may be imposed on interest and discounts earned at various rates.

#### **Use of Estimates:**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

#### 2. Agreements

Aberdeen Asset Management Asia Limited (the Investment Manager ) serves as the investment manager to the Fund and Aberdeen Asset Management Limited (the Investment Adviser ) serves as the investment adviser to the Fund, pursuant to a management agreement and an advisory agreement, respectively. The Investment Adviser is an indirect wholly-owned subsidiary of the Investment Manager, which is a direct wholly-owned subsidiary of Aberdeen Asset Management PLC. The Investment Manager has also entered into an agreement with CIBC World Markets, Inc. (the Consultant ).

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser and the Consultant, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund.

The management agreement provides the Investment Manager with a fee, payable monthly, at the following annual rates: 0.65% of the Fund's average weekly Managed Assets up to \$200 million, 0.60% of Managed Assets between \$200 million and \$500 million, and 0.55% of Managed Assets in excess of \$500 million. Managed Assets are defined in the management agreement as net assets plus the amount of any borrowings, including AMPS, for investment purposes. The Investment Manager pays fees to the Investment Adviser and the Consultant for their services rendered. The Fund's Investment Manager informed the Fund that it paid \$390,869 to the Investment Adviser and \$5,377 to the Consultant during the year ended October 31, 2007.

Aberdeen Asset Management Inc. ( AAMI ), an affiliate of the Investment Manager and the Investment Adviser, is the Fund s Administrator, pursuant to an agreement under which AAMI receives a fee, payable monthly, at an annual rate of 0.15% of the Fund s average weekly net assets of both common and preferred shareholders. On November 1, 2007, a new fee arrangement becomes effective under which AAMI receives a fee, payable monthly, at an annual rate of 0.15% of the Fund s average weekly Managed Assets up to \$600 million and 0.125% of the Fund s average weekly Managed Assets in excess of \$600 million. Managed Assets are defined as net assets plus the amount of any borrowings, including AMPS, for investment purposes.

Under terms of an Investor Relations Services Agreement, AAMI serves as the Fund s investor relations services provider. This agreement provides AAMI with a monthly retainer of \$4,000 plus out-of-pocket expenses. During the year ended October 31, 2007, the Fund incurred fees of \$49,581 for the services of AAMI. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.
