CHOICE HOTELS INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Company Information and Significant Accounting Policies

The accompanying unaudited consolidated financial statements of Choice Hotels International, Inc. and subsidiaries (together the Company) have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, all adjustments (which include any normal recurring adjustments) considered necessary for a fair presentation have been included. Certain information and footnote disclosures normally included in financial statements presented in accordance with accounting principles generally accepted in the United States of America have been omitted. The year end condensed balance sheet information was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The Company believes the disclosures made are adequate to make the information presented not misleading. The consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2007 and notes thereto included in the Company's Form 10-K, filed with the Securities and Exchange Commission on February 29, 2008 (the 10-K). Interim results are not necessarily indicative of the entire year results because of seasonal variations. All intercompany transactions and balances between Choice Hotels International, Inc. and its subsidiaries have been eliminated in consolidation.

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications in Consolidated Financial Statements

Marketing and reservation revenues and expenses in the prior year's financial statements have been reclassified to conform to the current year presentation with no effect on previously reported net income or shareholders' deficit.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity of three months or less at the date of purchase to be cash equivalents. As of March 31, 2008 and December 31, 2007, \$14.6 million and \$12.5 million, respectively, of book overdrafts representing outstanding checks in excess of funds on deposit are included in accounts payable in the accompanying consolidated balance sheets.

The Company maintains cash balances in banks, which at times, may exceed the limits of amounts insured by the Federal Deposit Insurance Corporation; however, because deposits are maintained at high quality financial institutions, the Company does not believe that there is a significant risk of loss of uninsured amounts.

2. Marketing Fees Receivable and Cumulative Reservation Fees Collected in Excess of Expenses

The marketing fees receivable at March 31, 2008 and December 31, 2007 was \$14.5 million and \$6.8 million, respectively. As of March 31, 2008 and December 31, 2007, cumulative reservation fees collected exceeded expenses by \$8.0 million and \$11.9 million, respectively, and the excess has been reflected as a long-term liability in the accompanying consolidated balance sheets. Depreciation and amortization expense attributable to marketing and reservation activities were \$2.1 million and \$2.0 million for the three months ended March 31, 2008 and 2007, respectively. Interest expense attributable to reservation activities was \$0.1 million for both the three months ended March 31, 2008 and 2007, respectively.

3. Income Taxes

The effective income tax rate of 36.9% and 35.2% for the three months ended March 31, 2008 and March 31, 2007, respectively differs from the statutory rate due to foreign income earned, which is taxed at lower rates than statutory federal income tax rates, state income taxes and certain federal and state income tax credits.

Effective January 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

enterprise's financial statements in accordance with SFAS No. 109, Accounting for Income Taxes. FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This pronouncement also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. As a result of the implementation of FIN 48, the Company increased its existing reserves for uncertain tax positions by \$3.1 million as of January 1, 2007, with a corresponding net reduction to opening additional paid-in-capital and retained earnings.

Table of Contents

As of March 31, 2008 and December 31, 2007, the Company had \$6.8 million and \$6.7 million, respectively of total unrecognized tax benefits of which approximately \$3.5 million would affect the effective tax rate if recognized. These unrecognized tax benefits relate principally to state tax filing positions and stock-based compensation deductions. The Company believes it is reasonably possible it will recognize tax benefits of up to \$1.6 million within the next twelve months. This is due to the anticipated lapse of applicable statutes of limitations regarding state tax positions and stock-based compensation deductions.

The Company's uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2003. Substantially all material state and local and foreign income tax matters have been concluded for years through 2003. U.S. federal income tax returns for 2004 through 2006 are currently open for examination.

Estimated interest and penalties related to the uncertain tax benefits are classified as a component of income tax expense in the consolidated statements of income and totaled \$0.1 million for both the three months ended March 31, 2008 and 2007. Accrued interest and penalties were \$1.4 million and \$1.3 million as of March 31, 2008 and December 31, 2007, respectively.

We have estimated and accrued for certain tax assessments and the expected resolution of tax contingencies which arise in the course of our business. The ultimate outcome of these tax-related contingencies impact the determination of income tax expense and may not be resolved until several years after the related tax returns have been filed. Predicting the outcome of such tax assessments involves uncertainty and accordingly, actual results could differ from those estimates.

4. Comprehensive Income

The differences between net income and comprehensive income are described in the following table.

(In thousands)	Three Months Ended March 31,	
	2008	2007
Net income	\$ 18,577	\$ 16,315
Other comprehensive income, net of tax:		
Amortization of pension related costs, net of tax		
Prior service costs	7	7
Actuarial loss	17	13
Curtailement and remeasurement, net of tax		758
Foreign currency translation adjustment, net	455	72
Amortization of deferred gain on hedge, net	(17)	(17)
Other comprehensive income	462	833
Comprehensive income	\$ 19,039	\$ 17,148

5. Capital Stock*Stock Options*

The Company granted 0.3 million and 0.2 million options to certain officers of the Company during the three months ended March 31, 2008 and 2007 at a fair value of approximately \$2.6 million and \$2.1 million, respectively. The stock options granted by the Company had an exercise price equal to the market price of the Company's common stock on the date of grant. The fair value of the options granted was estimated on the grant date using the Black-Scholes option-pricing model with the following weighted average assumptions:

2008 Grants

2007 Grants

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

Risk-free interest rate	2.61%	4.88%
Expected volatility	30.19%	32.41%
Expected life of stock option	4.4 years	4.5 years
Dividend yield	2.05%	1.47%
Requisite service period	4 years	4 years
Contractual life	7 years	7 years
Weighted average fair value of options granted	\$ 7.80	\$ 12.39

Table of Contents

The expected life of the options and volatility are based on historical data and are not necessarily indicative of exercise patterns or actual volatility that may occur. The dividend yield and the risk-free rate of return are calculated on the grant date based on the then current dividend rate and the risk-free rate of return for the period corresponding to the expected life of the stock option. Compensation expense related to the fair value of these awards is recognized straight-line over the requisite service period based on those awards that ultimately vest.

The aggregate intrinsic value of the stock options outstanding and exercisable at March 31, 2008 was \$38.1 million and \$37.3 million, respectively. The total intrinsic value of options exercised during the three months ended March 31, 2008 and 2007 was \$7.2 million and \$4.8 million, respectively.

The Company received \$2.8 million and \$1.7 million in proceeds from the exercise of approximately 0.3 million and 0.2 million employee stock options during the three months ended March 31, 2008 and 2007, respectively.

Restricted Stock

The following table is a summary of activity related to restricted stock grants:

	Three Months Ended March 31,	
	2008	2007
Restricted share grants	184,997	114,423
Weighted average grant date fair value per share	\$ 33.07	\$ 41.03
Aggregate grant date fair value (\$000)	\$ 6,118	\$ 4,695
Restricted shares forfeited	12,358	18,097
Vesting service period of shares granted	3-5 years	4 years
Fair value of shares vested (\$000)	\$ 4,488	\$ 4,974

Compensation expense related to the fair value of these awards is recognized straight-line over the requisite service period on those restricted stock grants that ultimately vest. The fair value of the 2008 grants is measured by the closing price of the Company's common stock on the date of grant except for one grant in February 2008 which was measured by the average of the high and low market price of the Company's common stock on the date of the grant. The fair value of the 2007 grants was measured by the average of the high and low market price of the Company's common stock on the date of the grant. Restricted stock awards vest ratably over the service period beginning with the first anniversary of the grant date.

Performance Vested Restricted Stock Units

The Company has granted performance vested restricted stock units (PVRSU) to certain employees. The vesting of these stock awards is contingent upon the Company achieving performance targets at the end of specified performance periods and the employees' continued employment. The performance conditions affect the number of shares that will ultimately vest. The range of possible stock-based award vesting is between 50% and 200% of the initial target. Under SFAS No. 123 (Revised), Share-Based Payment (SFAS No. 123R), compensation expense related to these awards will be recognized over the requisite service period regardless of whether the performance targets have been met based on the Company's estimate of the achievement of the performance target. The Company has currently estimated that between 100% and 145% of the various award targets will be achieved. The fair value of the 2008 grant was measured by the closing price of the Company's common stock on the date of grant. Compensation expense is recognized ratably over the requisite service period based on those PVRsUs that ultimately vest.

The following table is a summary of activity related to PVRsUs grants:

	Three Months Ended March 31,	
	2007	2008
Performance vested restricted stock units granted	46,570	21,141
Weighted average grant date fair value per share	\$ 33.17	\$ 40.75
Aggregate grant date fair value (\$000)	1,545	\$ 862
Requisite service period	2-3 years	3 years

Table of Contents

A summary of stock-based award activity as of March 31, 2008, and changes during the three months ended are presented below:

	Three Months Ended March 31, 2008				Performance Vested Restricted Stock Units		
	Stock Options		Restricted Stock		Restricted Stock Units		
	Shares	Weighted Average Exercise Price	Weighted Average Contractual Term	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value
Outstanding at January 1, 2008	2,483,276	\$ 17.46		485,560	\$ 34.45	67,988	\$ 44.57
Granted	331,122	33.22		184,997	33.07	46,570	33.17
Exercised/Vested	(299,657)	9.33		(133,733)	30.66		
Forfeited/Expired	(4,235)	29.92		(12,358)	38.69		
Outstanding at March 31, 2008	2,510,506	\$ 20.48	4.5 years	524,466	\$ 34.83	114,558	\$ 39.93
Options exercisable at March 31, 2008	1,758,386	\$ 13.81	3.6 years				

The components of the Company's pretax stock-based compensation expense and associated income tax benefits are as follows for the three months ended March 31:

(in millions)	Three Months Ended March 31,	
	2008	2007
Stock options	\$ 1.3	\$ 1.6
Restricted stock	1.3	1.5
Performance vested restricted stock units	0.5	0.4
Total	\$ 3.1	\$ 3.5
Income tax benefits	\$ 1.2	\$ 1.3

Stock-based compensation expense on stock option and performance vested restricted stock units made to a retirement eligible executive officer during the three months ended March 31, 2008 and 2007 was recognized upon issuance of the grants rather than over the awards' vesting periods since the terms of these grants provide that the awards will vest upon retirement of the employee. Compensation costs for stock options and performance vested restricted stock related to vesting upon retirement eligibility totaled \$1.3 million and \$1.2 million for the three months ended March 31, 2008 and 2007, respectively.

Dividends

On February 11, 2008, the Company declared a cash dividend of \$0.17 per share (or approximately \$10.6 million in the aggregate), which was paid on April 18, 2008 to shareholders of record on April 4, 2008.

On February 12, 2007, the Company declared a cash dividend of \$0.15 per share (or approximately \$9.9 million in the aggregate), which was paid on April 20, 2007 to shareholders of record on April 5, 2007.

Stock Repurchase Program

The Company did not purchase any common stock during the three months ended March 31, 2008 under the share repurchase program. During the three months ended March 31, 2007, the Company purchased 0.5 million shares of common stock under the share repurchase program at a

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

total cost of \$17.8 million.

During the three months ended March 31, 2008 and 2007, the Company purchased 43,921 and 28,979 shares of common stock at a total cost of \$1.4 million and \$1.2 million, respectively, from employees to satisfy statutory minimum tax requirements from the vesting of restricted stock grants. These purchases were outside the share repurchase program.

Table of Contents**6. Earnings Per Share**

The following table reconciles the number of shares used in the basic and diluted earnings per share calculations.

(In thousands, except per share amounts)	Three Months Ended March 31,	
	2008	2007
Computation of Basic Earnings Per Share:		
Net income	\$ 18,577	\$ 16,315
Weighted average shares outstanding-basic	61,751	65,782
Basic earnings per share	\$ 0.30	\$ 0.25
Computation of Diluted Earnings Per Share:		
Net income for diluted earnings per share	\$ 18,577	\$ 16,315
Weighted average shares outstanding-basic	61,751	65,782
Effect of Dilutive Securities:		
Employee stock option and restricted stock plan	845	1,266
Weighted average shares outstanding-diluted	62,596	67,048
Diluted earnings per share	\$ 0.30	\$ 0.24

Basic earnings per share exclude dilution and are computed by dividing net income by the weighted-average number of common shares outstanding. Diluted earnings per share assumes dilution and is computed based on the weighted-average number of common shares outstanding after consideration of the dilutive effect of stock options and unvested restricted stock. The effect of dilutive securities is computed using the treasury stock method and average market prices during the period. However, at March 31, 2008 and 2007, PVRsUs totaling 114,558 and 70,921 were excluded from the computation since the performance conditions had not been met at the reporting date. In addition at March 31, 2008 and 2007, the Company excluded 0.7 million and 0.4 million anti-dilutive options, respectively, from the computation of diluted earnings per share.

7. Pension Plans

The Company sponsors an unfunded non-qualified defined benefit plan (SERP) for certain senior executives. No assets are held with respect to the plan, therefore benefits are funded as paid to participants. Effective December 31, 2006, the Company began accounting for the SERP in accordance with SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS No. 158). For the three months ended March 31, 2008 and 2007, the Company recorded \$0.3 million and \$0.5 million, respectively for the expenses related to the SERP which is included in selling, general and administrative expense in the accompanying consolidated statements of income. No benefit payments are anticipated over the current year.

The following table presents the components of net periodic benefit costs for the three months ended March 31, 2008 and 2007:

(In thousands)	Three Months Ended March 31,	
	2008	2007
Components of net periodic pension cost:		
Service cost	\$ 145	\$ 140
Interest cost	120	97

Loss	27	20
	302	269
Curtailement		248
Net periodic pension cost	\$ 302	\$ 517

Table of Contents

The 2008 monthly net periodic pension costs are approximately \$101,000. The components of projected pension costs for the year ended December 31, 2008 are as follows:

(in thousands)	
Components of net periodic pension cost	
Service cost	\$ 579
Interest cost	479
Amortization:	
Prior service cost	41
Loss	109
Net periodic pension cost	\$ 1,208

The following is a reconciliation of the changes in the projected benefit obligation for the three months ended March 31, 2008:

(in thousands)	
Projected benefit obligation, December 31, 2007	\$ 7,671
Service cost	145
Interest cost	120
Projected benefit obligation, March 31, 2008	\$ 7,936

The amounts in accumulated other comprehensive income that have not yet been recognized as components of net periodic benefit costs at March 31, 2008 are as follows:

(in thousands)	
Transition asset (obligation)	\$
Prior service cost	(584)
Accumulated loss	(1,576)
Total	\$ (2,160)

Curtailment

During the first quarter of 2007, the Company recognized a curtailment loss due to the termination of certain senior executive officers from the Company. The curtailment loss was equal to the unrecognized prior service costs attributed to these employees' expected aggregate future services which totaled approximately \$248,000.

8. Debt

On June 16, 2006, the Company entered into a new \$350 million senior unsecured revolving credit agreement (the "Revolver"), with a syndicate of lenders. The proceeds from the Revolver were used to refinance and terminate a previous revolving credit facility. The Revolver allows the Company to borrow, repay and reborrow revolving loans up to \$350 million (which includes swingline loans for up to \$20 million and standby letters of credit up to \$30 million) until the scheduled maturity date of June 16, 2011. The Company has the ability to request an increase in available borrowings under the Revolver by an additional amount of up to \$150 million by obtaining the agreement of the existing lenders to increase their lending commitments or by adding additional lenders. The rate of interest generally applicable for revolving loans under the Revolver are, at the Company's option, equal to either (i) the greater of the prime rate or the federal funds effective rate plus 50 basis points, or (ii) an adjusted LIBOR rate plus a margin between 22 and 70 basis points based on the Company's credit rating. The Revolver requires the Company to pay a quarterly facility fee, based upon the credit rating of the Company, at a rate between 8 and 17 1/2 basis points, on the full

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

amount of the commitment (regardless of usage). The Revolver also requires the payment of a quarterly usage fee, based upon the credit rating of the Company, at a rate between 10 and 12 ¹/₂ basis points, on the amount outstanding under the commitment, at all times when the amount borrowed under the Revolver exceeds 50% of the total commitment. The Revolver includes customary financial and other covenants that require the maintenance of certain ratios including maximum leverage and interest coverage. The Revolver also restricts the Company's ability to make certain investments, incur certain debt, and dispose of assets, among other restrictions. As of March 31, 2008, the Company had \$179.2 million of revolving loans outstanding pursuant to the Revolver and the Company was in compliance with all covenants.

In 1998, the Company completed a \$100 million senior unsecured note offering (Senior Notes) at a discount of \$0.6 million, bearing a coupon rate of 7.13% with an effective rate of 7.22%. The Senior Notes will mature on May 1, 2008, with interest on the Senior Notes paid semi-annually. The Senior Notes have been classified as a long-term liability at March 31, 2008, since the Company's intention is to repay the Senior Notes upon maturity by utilizing the available capacity of the Revolver.

Table of Contents

The Company has a line of credit with a bank providing an aggregate of \$10 million of borrowings, which is due upon demand. The line of credit ranks pari-pasu (or equally) with the Revolver. Borrowings under the line of credit bear interest rates established at the time of borrowing based on prime rate minus 175 basis points. There are no amounts outstanding under the line of credit at March 31, 2008.

As of March 31, 2008, total debt outstanding for the Company was \$279.2 million. With the exception of the Company's Senior Notes, which are scheduled to mature in May 2008, no outstanding debt amounts at March 31, 2008 were scheduled to mature in the twelve months ending March 31, 2009.

9. Condensed Consolidating Financial Statements

Effective July 14, 2006, the Company's Senior Notes are guaranteed jointly, severally, fully and unconditionally by 7 wholly-owned domestic subsidiaries. There are no legal or regulatory restrictions on the payment of dividends to Choice Hotels International, Inc. from subsidiaries that do not guarantee the Senior Notes. As a result of these guarantee arrangements, the following condensed consolidating financial statements are presented. Investments in subsidiaries are accounted for under the equity method of accounting.

Brand solution fees	3,792	1,021
Total	\$ 54,566	\$ 48,660

Table of Contents**11. Reportable Segment Information**

The Company has a single reportable segment encompassing its franchising business. Revenues from the franchising business include royalty fees, initial franchise and relicensing fees, marketing and reservation fees, brand solutions revenue and other revenue. The Company is obligated under its franchise agreements to provide marketing and reservation services appropriate for the successful operation of its systems. These services do not represent separate reportable segments as their operations are directly related to the Company's franchising business. The revenues received from franchisees that are used to pay for part of the Company's central ongoing operations are included in franchising revenues and are offset by the related expenses paid for marketing and reservation activities to calculate franchising operating income. Corporate and other revenue consists of hotel operations. Except as described in Note 2, the Company does not allocate interest income, interest expense or income taxes to its franchising segment.

The following table presents the financial information for the Company's franchising segment:

(In thousands)	Three Months Ended March 31, 2008			Three Months Ended March 31, 2007		
	Franchising	Corporate & Other	Consolidated	Franchising	Corporate & Other	Consolidated
Revenues	\$ 127,813	\$ 1,042	\$ 128,855	\$ 113,833	\$ 1,096	\$ 114,929
Operating income (loss)	\$ 43,389	\$ (9,337)	\$ 34,052	\$ 39,571	\$ (12,185)	\$ 27,386

12. Commitments and Contingencies

The Company is a defendant in a number of lawsuits arising in the ordinary course of business. In the opinion of management and the Company's legal counsel, the ultimate outcome of such litigation will not have a material adverse effect on the Company's business, financial position, results of operations or cash flows.

In April 2007, two federal securities law class actions were filed in the United States District Court for the District of Colorado on behalf of persons who purchased the Company's stock between April 25, 2006, and July 26, 2006. These substantially-similar lawsuits assert claims pursuant to Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, and Rule 10b-5 promulgated thereunder, against the Company, its current Vice Chairman and Chief Executive Officer, and its former Executive Vice President and Chief Financial Officer. These claims are related to the Company's July 25, 2006 announcement of its results of operations for the second quarter of 2006.

Since the initial filings, the Company filed a motion to transfer the litigation from Colorado to the United States District Court for the District of Maryland. Additionally, one plaintiff petitioned the Court to be named lead plaintiff in the dispute. On March 24, 2008, the United States District Court for the District of Colorado granted the Company's motion to transfer the matter to the United States District Court for the District of Maryland. The Company has not responded to the complaints filed and is not required to do so until after a lead plaintiff is appointed and a consolidated complaint is filed. The District of Maryland has not entered an order on the pending plaintiff's motion to be appointed lead plaintiff or set a schedule for the action. The Company believes that the allegations contained within these class action lawsuits are without merit and intends to vigorously defend the litigation.

In May 2007, the Company guaranteed \$1 million of a bank loan funding a franchisee's construction of a Cambria Suites in Green Bay, Wisconsin. The guaranty was scheduled to expire in August 2010. Subsequent to March 31, 2008, the Company was released from its obligations under the May 2007 guaranty, and subsequently, in April 2008, issued a new \$1 million guaranty for a bank loan funding the construction for the same franchisee's Cambria Suites in Green Bay, Wisconsin. The guaranty expires in June 2010. The Company has received personal guarantees from several of the franchisee's principal owners related to the repayment of any amounts paid by the Company under this guaranty.

In the ordinary course of business, the Company enters into numerous agreements that contain standard guarantees and indemnities whereby the Company indemnifies another party for breaches of representations and warranties. Such guarantees or indemnifications are granted under various agreements, including those governing (i) purchases or sales of assets or businesses, (ii) leases of real estate, (iii) licensing of trademarks, (iv) access to credit facilities, (v) issuances of debt or equity securities, and (vi) other operating agreements. The guarantees or indemnifications issued are for the benefit of the (i) buyers in sale agreements and sellers in purchase agreements, (ii) landlords in lease contracts, (iii) franchisees in licensing agreements, (iv) financial institutions in credit facility

Table of Contents

arrangements, (v) underwriters in debt or equity security issuances and (vi) parties under certain operating agreements. In addition, these parties are also indemnified against any third party claim resulting from the transaction that is contemplated in the underlying agreement. While some of these guarantees extend only for the duration of the underlying agreement, many survive the expiration of the term of the agreement or extend into perpetuity (unless subject to a legal statute of limitations). There are no specific limitations on the maximum potential amount of future payments that the Company could be required to make under these guarantees, nor is the Company able to develop an estimate of the maximum potential amount of future payments to be made under these guarantees as the triggering events are not subject to predictability. With respect to certain of the aforementioned guarantees, such as indemnifications of landlords against third party claims for the use of real estate property leased by the Company, the Company maintains insurance coverage that mitigates any potential payments to be made.

13. Termination Charges

During the first quarter of 2007, the Company recorded a \$3.7 million charge in selling, general and administrative expenses for employee termination benefits relating to the termination of certain executive officers. Termination benefits include salary continuation of approximately \$2.5 million, SERP curtailment expenses of \$0.2 million and \$1.0 million of accelerated share based compensation. Termination benefits payable to the executives were accounted for under SFAS No. 112 Employer's Accounting for Post-employment Benefits. At March 31, 2008, approximately \$0.5 million of termination benefits remained and are included in current liabilities in the Company's consolidated financial statements.

14. Recently Issued Accounting Standards

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurement (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements. The Company has adopted the provisions of SFAS No. 157 as of January 1, 2008, for financial instruments. Although the adoption of SFAS No. 157 did not impact the Company's financial condition, results of operations, or cash flow, the Company is now required to provide additional disclosures as part of its financial statements.

SFAS No. 157 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The Company's investments associated with its employee benefit plans consist of investments that are publicly traded and for which market prices are readily available.

	March 31, 2008	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Observable Inputs (Level 3)
Assets				
Investments, employee benefits plans, at a fair value current	\$ 233	\$ 233	\$	\$
Investments, employee benefits plans, at a fair value long-term	32,756	32,756	\$	\$
Total Assets	\$ 32,989	\$ 32,989	\$	\$

In February 2007, the FASB issued SFAS No. 159, The Fair Value for Financial Assets and Financial Liabilities (SFAS No. 159) which provides reporting entities an option to report certain financial instruments and other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective as of the beginning of a reporting entity's first fiscal year beginning after November 15, 2007. The Company has not currently elected the fair value measurement option for any financial assets or liabilities that were not previously recorded at fair value.

In December 2007, the FASB issued SFAS No. 160 (SFAS No. 160), Non-controlling Interests in Consolidated Financial Statements An Amendment of ARB No. 51. SFAS 160 establishes new accounting and reporting standards for the non-controlling interest in a subsidiary and

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

Table of Contents

In December 2007, the FASB issued SFAS No. 141 (Revised 2007) (SFAS 141R), Business Combinations (SFAS No. 141R). SFAS No. 141R will change the accounting for business combinations by requiring an acquiring entity to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R will also change the accounting treatment and disclosure for certain specific items in a business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

In June 2007, the FASB ratified EITF 06-11 Accounting for the Income Tax Benefits of Dividends on Share-Based Payment Awards (EITF No. 06-11). EITF 06-11 provides that tax benefits associated with dividends on share-based payment awards be recorded as a component of additional paid-in capital. EITF No. 06-11 is effective, on a prospective basis, for fiscal years beginning after December 15, 2007. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires entities that utilize derivative instruments to provide qualitative disclosures about their objectives and strategies for using such instruments, as well as any details of credit-risk-related contingent features contained within derivatives. SFAS No. 161 also requires entities to disclose additional information about the amounts and location of derivatives located within the financial statements, how the provisions of SFAS 133 have been applied, and the impact that hedges have on an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

15. Subsequent Event

On April 30, 2008, the Company's Board of Directors declared a quarterly cash dividend of \$0.17 per share of common stock. The dividend is payable on July 18, 2008 to shareholders of record as of July 3, 2008. Based on the Company's present share count, the total dividends to be paid is approximately \$10.6 million.

On May 1, 2008, the Company repaid the \$100 million Senior Notes upon their maturity by utilizing the available capacity of the Revolver.

On May 1, 2008, the Board of Directors granted equity-based awards to Mr. Stephen P. Joyce, President and Chief Operating Officer. The equity-based awards consist of restricted stock, stock options and performance vested restricted stock. The awards have vesting periods between four and five years. The aggregate fair value of these awards is \$7.2 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis (MD&A) is intended to help the reader understand Choice Hotels International, Inc. and subsidiaries (together the Company). MD&A is provided as a supplement to and should be read in conjunction with our consolidated financial statements and the accompanying notes.

Overview

We are a hotel franchisor with franchise agreements representing 5,620 hotels open and 1,082 hotels under development as of March 31, 2008, with 456,696 rooms and 87,597 rooms, respectively, in 49 states, the District of Columbia and 40 countries and territories outside the United States. Our brand names include Comfort Inn®, Comfort Suites®, Quality®, Clarion®, Sleep Inn®, Econo Lodge®, Rodeway Inn®, MainStay Suites®, Suburban Extended Stay Hotel®, Cambria Suites® and Flag Hotels® (collectively, the Choice brands).

The Company conducts its international franchise operations through a combination of direct franchising and master franchising arrangements which allow the use of our brands by third parties in foreign countries. The Company has made equity investments in certain non-domestic lodging franchise companies that conduct franchise operations for the Company's brands under master franchising relationships. As a result of our use of master franchising relationships and international market conditions, total revenues from international operations comprised only 9% of our total revenues for the three months ended March 31, 2008 while representing approximately 20% of hotels open at March 31, 2008.

Table of Contents

On January 31, 2008, the Company terminated the master franchise agreement with The Real Hotel Company PLC (RHC) related to RHC 's franchised hotels under the Company 's brands in the United Kingdom. In conjunction with the termination of the master franchise agreement, the Company acquired the RHC 's franchise contracts under the master franchise agreement and commenced direct franchising operations in the United Kingdom. This transaction enables the Company to continue its strategy of more closely directing the growth of our franchise operations in the United Kingdom.

The Company generates revenues, income and cash flows primarily from initial and continuing royalty fees attributable to our franchise agreements. Revenues are also generated from brand solutions endorsed vendor arrangements, hotel operations and other sources. The hotel industry is seasonal in nature. For most hotels, demand is lower in December through March than during the remainder of the year. Our principal source of revenues is franchise fees based on the gross room revenues of our franchised properties. The Company 's franchise fee revenues and operating income reflect the industry 's seasonality and historically have been lower in the first quarter than in the second, third or fourth quarters.

With a focus on hotel franchising instead of ownership, we benefit from the economies of scale inherent in the franchising business. The fee and cost structure of our business provides opportunities to improve operating results by increasing the number of franchised hotel rooms and effective royalty rates of our franchise contracts resulting in increased initial fee revenue; ongoing royalty fees and brand solutions revenues. In addition, our operating results can also be improved through our company wide efforts related to improving property level performance. At March 31, 2008, the Company estimates that based on its current domestic portfolio of hotels under franchise that a 1% change in RevPAR or rooms under franchise would increase or decrease royalty revenues by \$2.4 million and a 1 basis point change in the Company 's effective royalty rate would increase or decrease domestic royalties by \$0.5 million. In addition to these revenues, we also collect marketing and reservation fees to support centralized marketing and reservation activities for the franchise system. As a lodging franchisor, the Company has relatively low capital expenditure requirements.

The principal factors that affect the Company 's results are: the number and relative mix of franchised hotel rooms; growth in the number of hotel rooms under franchise; occupancy and room rates achieved by the hotels under franchise; the effective royalty rate achieved; and our ability to manage costs. The number of rooms at franchised properties and occupancy and room rates at those properties significantly affect the Company 's results because our fees are based upon room revenues at franchised hotels. The key industry standard for measuring hotel-operating performance is revenue per available room (RevPAR), which is calculated by multiplying the percentage of occupied rooms by the average daily room rate realized. Our variable overhead costs associated with franchise system growth have historically been less than incremental royalty fees generated from new franchises. Accordingly, continued growth of our franchise business should enable us to realize benefits from the operating leverage in place and improve operating results.

We are contractually required by our franchise agreements to use the marketing and reservation fees we collect for system-wide marketing and reservation activities. These expenditures, which include advertising costs and costs to maintain our central reservations system, help to enhance awareness and increase consumer preference for our brands. Greater awareness and preference promotes long-term growth in business delivery to our franchisees, which ultimately increases franchise fees earned by the Company.

Our Company articulates its mission as a commitment to our customers ' profitability by providing our customers with hotel franchises that generate the highest return on investment of any hotel franchise. We have developed an operating system dedicated to our franchisees ' success that focuses on delivering guests to our franchised hotels and reducing costs for our hotel owners. We strive every day to continuously improve our franchise offerings to enhance our customers ' profitability and create the highest return on investment of any hotel franchise.

We believe that executing our strategic priorities creates value. Our Company focuses on two key value drivers:

Profitable Growth. Our success is dependent on improving the performance of our hotels, increasing our system size by selling additional hotel franchises and effective royalty rate improvement. We attempt to improve our franchisees ' revenues and overall profitability by providing a variety of products and services designed to increase business delivery to and/or reduce operating and development costs for our franchisees. These products and services include national marketing campaigns, a central reservation system, property and yield management systems, quality assurance standards and endorsed vendor relationships. We believe that healthy brands, which deliver a compelling return on investment for franchisees, will enable us to sell additional hotel franchises and raise royalty rates. We have established multiple brands that meet the needs of many types of guests, and can be developed at various price points and applied to both new and existing hotels. This ensures that we have brands suitable for creating growth in a variety of market conditions. Improving the performance of the hotels under franchise, growing the system through additional franchise sales and improving franchise agreement pricing while maintaining a disciplined cost structure are the keys to profitable growth.

Maximizing Financial Returns and Creating Value for Shareholders. Our capital allocation decisions, including capital structure and uses of capital, are intended to maximize our return on invested capital and create value for our shareholders. We believe our strong and predictable cash flows create a strong financial position that provides us a competitive advantage. Currently, our business does not require significant capital to

operate and grow, therefore, we can maintain a capital structure that generates high financial returns and

Table of Contents

use our excess cash flow to increase returns to our shareholders. We have returned value to our shareholders in two primary ways: share repurchases and dividends. In 1998, we instituted a share repurchase program which has generated substantial value for our shareholders. Through March 31, 2008, we have repurchased 38.6 million shares (including 33.0 million prior to the two-for-one stock split effected in October 2005) of common stock at a total cost of \$895.9 million since the program's inception. Considering the effect of the two-for-one stock split, the Company has repurchased 71.5 million shares at an average price of \$12.52 per share through March 31, 2008. At March 31, 2008 the Company had 3.2 million shares remaining under the current stock repurchase authorization of the board of directors. The Company expects to continue to return value to its shareholders through a combination of dividends and share repurchases, subject to market and other conditions and upon completion of the current authorization our board of directors will evaluate the propriety of additional share repurchases. During the three months ended March 31, 2008, we paid cash dividends totaling approximately \$10.5 million and we presently expect to continue to pay dividends in the future. On February 11, 2008, our board of directors declared a cash dividend of \$0.17 on outstanding common shares payable on April 18, 2008 to shareholders of record on April 4, 2008. Based on our present dividend rate and outstanding share count, aggregate annual dividends for 2008 would be approximately \$42.3 million.

We believe these value drivers, when properly implemented, will enhance our profitability, maximize our financial returns and continue to generate value for our shareholders. The ultimate measure of our success will be reflected in the items below.

Results of Operation: Royalty fees, operating income, net income and diluted earnings per share (EPS) represent key measurements of these value drivers. In the three months ended March 31, 2008, royalty fees revenue totaled \$47.8 million, a 10% increase from the same period in 2007. Operating income totaled \$34.1 million for the three months ended March 31, 2008, a \$6.7 million or 24% increase from the same period in 2007. Net income and diluted earnings per share increased 14% and 25%, respectively from the same period of the prior year. First quarter 2007 results included termination benefits expense totaling \$3.7 million (approximately \$0.03 diluted EPS) resulting from previously announced separations of certain executive officers. These measurements will continue to be a key management focus in 2008 and beyond.

Refer to MD&A heading *Operations Review* for additional analysis of our results.

Liquidity and Capital Resources: The Company generates significant cash flows from operations. In the three months ended March 31, 2008 and 2007, net cash provided by operating activities was \$8.5 million and \$20.5 million, respectively. Since our business does not currently require significant reinvestment of capital, we utilize cash in ways that management believes provide the greatest returns to our shareholders, which include share repurchases and dividends. We believe the Company's cash flow from operations and available financing capacity are sufficient to meet the expected future operating, investing and financing needs of the business.

Refer to MD&A heading *Liquidity and Capital Resources* for additional analysis.

Operations Review

Comparison of Operating Results for the Three-Month Periods Ended March 31, 2008 and March 31, 2007

The Company recorded net income of \$18.6 million for the three months ended March 31, 2008, a \$2.3 million, or 14% increase from the \$16.3 million for the quarter ended March 31, 2007. The increase in net income for the three months ended March 31, 2008, is primarily attributable to a \$6.7 million or 24% increase in operating income over the same period of the prior year partially offset by a decline in the fair value of investments held in the Company's non-qualified employee benefit plans, an increase in interest expense due to higher average outstanding borrowings and an increase in the Company's effective income tax rate from 35.2% to 36.9%. Operating income increased as a result of a \$6.3 million or 12% increase in franchising revenues (total revenues excluding marketing and reservations revenues and hotel operations). Selling, general and administrative expenses declined from \$23.9 million in the three months ended March 31, 2007 to \$23.6 million for the same period of 2008 primarily due to termination benefits totaling \$3.7 million incurred during 2007 resulting from previously announced separations of certain executive officers.

Table of Contents

Summarized financial results for the three months ended March 31, 2008 and 2007 are as follows:

(in thousands, except per share amounts)	2008	2007
REVENUES:		
Royalty fees	\$ 47,780	\$ 43,328
Initial franchise and relicensing fees	6,044	4,931
Brand solutions	3,342	2,986
Marketing and reservation	68,426	60,787
Hotel operations	1,042	1,096
Other	2,221	1,801
Total revenues	128,855	114,929
OPERATING EXPENSES:		
Selling, general and administrative	23,555	23,900
Depreciation and amortization	2,057	2,115
Marketing and reservation	68,426	60,787
Hotel operations	765	741
Total operating expenses	94,803	87,543
Operating income	34,052	27,386
OTHER INCOME AND EXPENSES, NET:		
Interest expense	3,837	2,997
Interest and other investment (income) loss	1,068	(601)
Equity in net income of affiliates	(301)	(194)
Total other income and expenses, net	4,604	2,202
Income before income taxes	29,448	25,184
Income taxes	10,871	8,869
Net income	\$ 18,577	\$ 16,315
Weighted average shares outstanding diluted	62,596	67,048
Diluted earnings per share	\$ 0.30	\$ 0.24

Management analyzes its business based on franchising revenues, which is total revenues excluding marketing and reservation revenues and hotel operations, and franchise operating expenses that are reflected as selling, general and administrative expenses.

Franchising Revenues: Franchising revenues were \$59.4 million for the three months ended March 31, 2008 compared to \$53.0 million for the three months ended March 31, 2007. The growth in franchising revenues is primarily due to a 10% increase in royalty revenues, a 23% increase in initial franchise and relicensing fees and a 23% increase in other income.

Domestic royalty fees increased \$3.5 million to \$42.4 million from \$38.9 million in the three months ended March 31, 2007, an increase of 9%. The increase in royalties is attributable to a combination of factors including a 4.5% increase in the number of domestic franchised hotel rooms, a 2.7% increase in RevPAR and an increase in the effective royalty rate of the domestic hotel system from 4.14% to 4.18%. System-wide RevPAR increases resulted primarily from average daily rate (ADR) increases of 4.5% over the prior year partially offset by an 80 basis point decline in occupancy rates.

Table of Contents

A summary of the Company's domestic franchised hotels operating information is as follows:

	For the Three Months Ended March 31, 2008			For the Three Months Ended March 31, 2007			Change

International rooms on-line declined slightly to 98,354 as of March 31, 2008 from 98,481 as of March 31, 2007. The total number of international hotels on-line declined from 1,152 as of March 31, 2007 to 1,111 as of March 31, 2008.

Table of Contents

As of March 31, 2008, the Company had 986 franchised hotels with 79,276 rooms under construction, awaiting conversion or approved for development in its domestic system as compared to 833 hotels and 64,078 rooms at March 31, 2007. The number of new construction franchised hotels in the Company's domestic pipeline increased 19% to 717 at March 31, 2008 from 601 at March 31, 2007. The Company had an additional 96 franchised hotels with 8,321 rooms under development in its international system as of March 31, 2008 compared to 70 hotels and 6,463 rooms at March 31, 2007. While the Company's hotel pipeline provides a strong platform for growth, a hotel in the pipeline does not always result in an open and operating hotel due to various factors.

A summary of the domestic franchised hotels under construction, awaiting conversion or approved for development at March 31, 2008 and 2007 by brand is as follows:

	March 31, 2008			March 31, 2007			Conversion		Variance		Total

MainStay	2	45	47		30	30	2	NM	15	50%	17	57%	
Suburban	3	38	41	5	27	32	(2)	(40)%	11	41%	9	28%	
Extended Stay	5	83	88	5	57	62			26	46%	26	42%	
Cambria Suites		61	61		49	49		NM	12	24%	12	24%	
	269	717	986	232	601	833	37	16%	116	19%	153	18%	

There were 64 net domestic franchise additions during the three months ended March 31, 2008 compared to 43 net domestic franchise additions during the three months ended March 31, 2007. Gross domestic franchise additions increased from 93 for the three months ended March 31, 2007 to 110 for the same period in 2008. Net domestic franchise terminations declined to 46 for the three months ended March 31, 2008 from 50 for the same period of the prior year. The Company continues to execute its strategy to replace franchised hotels that do not meet our brand standards or are underperforming in their market. As the competition gets stronger and more focused on limited service franchising, the Company will continue to focus on improving its system hotels and utilizing the domestic hotels under development as a strong platform for continued system growth.

International royalties increased \$1.0 million or 22% from \$4.4 million in the first quarter of 2007 to \$5.4 million for the same period in 2008 primarily due to the commencement of direct franchising operations in the United Kingdom and foreign currency fluctuations.

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

New domestic franchise agreements executed in the three months ended March 31, 2008 totaled 133 representing 11,197 rooms compared to 111 agreements representing 9,100 rooms executed in the first quarter of 2007. During the first quarter of 2008, 44 of the executed agreements were for new construction hotel franchises, representing 3,173 rooms, compared to 41 contracts, representing 3,320 rooms for the same period a year ago. Conversion hotel franchise executed contracts totaled 89 representing 8,024 rooms for the three months ended March 31, 2008 compared to 70 agreements representing 5,780 rooms from the same period a year ago. Domestic initial fee revenue, included in the initial franchise and relicensing fees caption above, generated from executed franchise agreements increased 35% to \$3.7 million for the three months ended March 31, 2008 from \$2.7 million for the three months ended March 31, 2007. The increased revenues primarily reflect an increase in executed agreements and higher average initial fees than the same period of the prior year.

Table of Contents

A summary of executed domestic franchise agreements by brand for the three months ended March 31, 2008 and 2007 is as follows:

	For the Three Months Ended March 31, 2008			For the Three Months Ended March 31, 2007			% Change

Relicensing fees are charged to the new property owner of a franchised property whenever an ownership change occurs and the property remains in the franchise system. Relicensings increased 52% from 62 in the first quarter of 2007 to 94 for the three months ended March 31, 2008. The increase in relicensing contracts resulted in a 7% increase in fees to \$2.3 million for the three months ended March 31, 2008 from \$2.2 million for the three months ended March 31, 2007.

Other income increased \$0.4 million or 23% to \$2.2 million for the three months ended March 31, 2008 compared to the same period last year primarily due to higher liquidated damage collections related to the early termination of franchise agreements.

Selling General and Administrative Expenses: The cost to operate the franchising business is reflected in selling, general and administrative expenses. Selling, general and administrative (SG&A) expenses were \$23.6 million for the three months ended March 31, 2008, a \$0.3 million decline from the three months ended March 31, 2007. As a percentage of revenues, excluding marketing and reservation fees and hotel operations, total SG&A expenses were 39.7% for the March 31, 2008 compared to 45.1% for the three months ended March 31, 2007. Expenses as a percentage of franchise revenues declined primarily due to the first quarter 2007 termination benefits expense totaling \$3.7 million resulting from previously announced separations of certain executives.

Marketing and Reservations: The Company's franchise agreements require the payment of franchise fees, which include marketing and reservation fees. The fees, which are primarily based on a percentage of the franchisees' gross room revenues, are used exclusively by the Company for expenses associated with providing franchise services such as central reservation systems, national marketing and media

advertising. The Company is contractually obligated to expend the marketing and reservation fees it collects from franchisees in accordance with the franchise agreements; as such, no income or loss to the Company is generated.

Table of Contents

Total marketing and reservations revenues were \$68.4 million and \$60.8 million for the three months ended March 31, 2008 and 2007, respectively. Depreciation and amortization attributable to marketing and reservation activities were \$2.1 million for the three months ended March 31, 2008 compared to \$2.0 million for the three months ended March 31, 2007. Interest expense attributable to reservation activities was \$0.1 million for both the three month periods ended March 31, 2008 and 2007. As of March 31, 2008 and December 31, 2007, the Company's balance sheet includes a receivable of \$14.5 million and \$6.8 million, respectively resulting from the cumulative marketing expenses incurred in excess of accumulated marketing fees earned. These receivables are recorded as assets in the financial statements as the Company has the contractual authority to require that the franchisees in the system at any given point repay the Company for any deficits related to marketing and reservation activities. The Company's current franchisees are legally obligated to pay any assessment the Company imposes on its franchisees to obtain reimbursement of such deficit regardless of whether those constituents continue to generate gross room revenue. The Company has no present intention to accelerate repayment of the deficit from current franchisees. A payable has been recorded in the Company's balance sheet within other long-term liabilities related to cumulative reservation fee revenues received in excess of reservation fee expenses incurred totaling \$8.0 million and \$11.9 million at March 31, 2008 and December 31, 2007, respectively. Cumulative reservation and marketing fees not expended are recorded as a payable on the financial statements and are carried over to the next fiscal year and expended in accordance with the franchise agreements.

Other Income and Expenses, Net: Other income and expenses, net, increased \$2.4 million to an expense of \$4.6 million for the three months ended March 31, 2008 from \$2.2 million for the same period in 2007. Interest expense increased \$0.8 million from \$3.0 million for the three months ended March 31, 2007 to \$3.8 million for the same period of 2008. Interest expense increased due to higher average outstanding borrowings during the quarter. The Company's weighted average interest rate as of March 31, 2008 was 4.5% compared to 6.5% as of March 31, 2007. Interest and other investment income declined \$1.7 million primarily due to a decline in the fair value of investments held in the Company's non-qualified employee benefit plans.

Income Taxes: The Company's effective income tax provision rate was 36.9% for three months ended March 31, 2008, compared to an effective income tax provision rate of 35.2% for the three months ended March 31, 2007. The effective income tax rate for 2008 increased primarily due to a decline in the proportion of foreign income over the prior year period, which generally is taxed at lower rates than statutory US federal income tax rates. Depending on the outcome of certain income tax contingencies up to an additional \$1.6 million of additional tax benefits may be reflected in our 2008 results of operations from the resolution of tax contingency reserves.

Net income for the three months ended March 31, 2008 increased by 14% to \$18.6 million, and diluted earnings per share increased 25% to \$0.30 for the three months ended March 31, 2008 from \$0.24 reported for the three months ended March 31, 2007.

Liquidity and Capital Resources

Net cash provided by operating activities was \$8.5 million and \$20.5 million for the three months ended March 31, 2008 and 2007, respectively. The decline in cash flows from operating activities primarily reflects the timing of working capital items compared to the prior year.

Net cash advances related to marketing and reservations activities totaled \$9.5 million and \$7.1 million during the three months ended March 31, 2008 and 2007, respectively. Cash advances related primarily to the timing of advertising and promotional costs spending versus fees collected and the seasonality of the business. The Company expects marketing and reservation activities to be a source of cash between \$1 million and \$3 million in 2008.

Cash used in investing activities for the three months ended March 31, 2008 and 2007 was \$3.3 million and \$7.0 million, respectively. During the three months ended March 31, 2008 and 2007, capital expenditures totaled \$2.6 million and \$3.0 million, respectively. Capital expenditures for 2008 primarily include upgrades of system-wide property and yield management systems, improvements to Company facilities and the purchase of computer software and equipment. In addition, the Company provides financing to franchisees for property improvements, hotel development efforts and other purposes. During the three months ended March 31, 2008 and 2007, the Company advanced \$0.8 million and \$0.1 million, respectively. At March 31, 2008, the Company had commitments to extend an additional \$8.8 million providing certain conditions are met by its franchisees of which \$3.8 million is expected to be advanced in 2008.

Financing cash flows relate primarily to the Company's borrowings under its credit lines, treasury stock purchases and dividends. On June 16, 2006, the Company entered into a new \$350 million senior unsecured revolving credit agreement (the "Revolver"), with a syndicate of lenders. The Revolver allows the Company to borrow, repay and reborrow revolving loans up to \$350 million (which includes swingline loans for up to \$20 million and standby letters of credit of up to \$30 million) until the scheduled maturity date of June 16, 2011. The Company has the ability to request an increase in available borrowings under the Revolver by an additional amount of up to \$150 million by obtaining the agreement of the existing lenders to increase their lending commitments or by adding additional lenders. The rate of interest generally applicable for revolving loans under the Revolver are, at the Company's option, equal to either (i) the greater of the prime rate or the federal funds effective rate plus 50 basis points, or (ii) an adjusted LIBOR rate plus a margin between 22 and 70 basis points based on the Company's credit rating. The Revolver

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

requires the Company to pay a quarterly facility fee, based upon the credit rating of the Company, at a rate between 8 and 17 1/2 basis points, on the full amount of the

Table of Contents

commitment (regardless of usage). The Revolver also requires the payment of a quarterly usage fee, based upon the credit rating of the Company, at a rate between 10 and 12 1/2 basis points, on the amount outstanding under the commitment, at all times when the amount borrowed under the Revolver exceeds 50% of the total commitment. The Revolver includes customary financial and other covenants that require the maintenance of certain ratios including maximum leverage and interest coverage. The Revolver also restricts the Company's ability to make certain investments, incur certain debt, and dispose of assets, among other restrictions. As of March 31, 2008, the Company had \$179.2 million of revolving loans outstanding pursuant to the Revolver and was in compliance with all covenants.

The proceeds of the Revolver are used for general corporate purposes, including working capital, debt repayment, stock repurchases, dividends and investments.

In 1998, the Company completed a \$100 million senior unsecured note offering (Senior Notes) at a discount of \$0.6 million, bearing a coupon rate of 7.13% with an effective rate of 7.22%. The Senior Notes matured on May 1, 2008. The Company repaid the Senior Notes with interest by utilizing the available capacity of the Revolver. At March 31, 2008, the Senior Notes were classified as a long-term liability since the Company had not yet repaid the Senior Notes and had planned to repay the Senior Notes upon maturity by utilizing the available capacity of the Revolver.

Effective July 14, 2006, the Company's Senior Notes are guaranteed jointly, severally, fully and unconditionally by 7 wholly-owned subsidiaries. There are no legal or regulatory restrictions on the payment of dividends to Choice Hotels International, Inc. from subsidiaries that do not guarantee the Senior Notes.

The Company has a line of credit with a bank providing up to an aggregate of \$10 million of borrowings which is due upon demand. The line of credit ranks pari-pasu (or equally) with the Revolver. Borrowings under the line of credit bear interest at rates established at the time of the borrowings based on prime minus 175 basis points. As of March 31, 2008, no amounts were outstanding pursuant to this line of credit.

As of March 31, 2008, total debt outstanding for the Company was \$279.2 million. With the exception of the Company's Senior Notes, which matured on May 1, 2008, no outstanding debt amounts at March 31, 2008 were scheduled to mature in the twelve months ending March 31, 2009.

On February 19, 2008, the Company declared a cash dividend of \$0.17 per share (or approximately \$10.6 million in the aggregate), which was paid on April 16, 2008 to shareholders of record on April 4, 2008. Dividends paid in the three months ended March 31, 2008 were approximately \$10.5 million. We expect dividends paid in 2008 to be approximately \$42.3 million.

Through March 31, 2008, the Company had purchased 38.6 million shares (including 33.0 million prior to the 2 for 1 stock split effected in October 2005) of common stock under the Company's share repurchase program at a total cost of \$895.9 million. Considering the effect of the two-for-one stock split, the Company has repurchased 71.5 million shares at an average price of \$12.52 per share. During the three months ended March 31, 2008, the Company purchased no shares under its repurchase program. At March 31, 2008, the Company had approximately 62.5 million shares of common stock outstanding and had remaining under its repurchase program authorization to purchase up to 3.2 million shares.

The Company expects to continue to return value to its shareholders through a combination of dividends and share repurchases, subject to market and other conditions.

As of March 31, 2008, the Company had \$6.8 million of total unrecognized tax benefits of which approximately \$3.5 million would affect the effective tax rate if recognized. These unrecognized tax benefits relate principally to state tax filing positions and stock-based compensation deductions. The Company believes it is reasonably possible it will recognize tax benefits of up to \$1.6 million within the next twelve months. This is due to the anticipated lapse of applicable statutes of limitations regarding state tax positions and stock-based compensation deductions.

The Company believes that cash flows from operations and available financing capacity are adequate to meet expected future operating, investing and financing needs of the business.

Critical Accounting Policies

Our accounting policies comply with principles generally accepted in the United States. We have described below those policies that we believe are critical and require the use of complex judgment or significant estimates in their application. Additional discussion of these policies is included in Note 1 to our consolidated financial statements as of and for the year ended December 31, 2007 included in our Annual Report on Form 10-K.

Table of Contents

Revenue Recognition.

The Company accounts for initial, relicensing and continuing franchise fees in accordance with Statement of Financial Accounting Standards (SFAS) No. 45, Accounting for Franchise Fee Revenue. We recognize continuing franchise fees, including royalty, marketing and reservations fees, when earned and receivable from our franchisees. Franchise fees are typically based on a percentage of gross room revenues of each franchisee. Our estimate of the allowance for uncollectible royalty fees is charged to selling, general and administrative expense.

The Company may also enter into master development agreements (MDAs) with developers that grant limited exclusive development rights and preferential franchise agreement terms for one-time, non-refundable fees. When these fees are not contingent upon the number of agreements executed under the MDAs, the Company accounts for these up-front fees in accordance with Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition (SAB No. 104) and recognizes the up-front fees over the MDAs' contractual life.

Initial franchise and relicensing fees are recognized, in most instances, in the period the related franchise agreement is executed because the initial franchise and relicensing fees are non-refundable and the Company has no continuing obligations related to the franchisee. We defer the initial franchise and relicensing fee revenue related to franchise agreements which include incentives until the incentive criteria are met or the agreement is terminated, whichever occurs first.

We account for brand solutions revenues from endorsed vendors in accordance with SAB 104. SAB 104 provides guidance on the recognition, presentation and disclosure of revenue in financial statements. Pursuant to SAB 104, the Company recognizes brand solutions revenues when the services are performed or the product delivered, evidence of an arrangement exists, the fee is fixed and determinable and collectibility is probable. We defer the recognition of brand solutions revenues related to certain upfront fees and recognize them over a period corresponding to the Company's estimate of the life of the arrangement.

Marketing and Reservation Revenues and Expenses.

The Company records marketing and reservation revenues and expenses in accordance with Emerging Issues Task Force (EITF) Issue No. 99-19, Reporting Revenue Gross as a Principal versus Net as an Agent, which requires that these revenues and expenses be recorded gross. In addition, net advances to and repayments from the franchise system for marketing and reservation activities are presented as cash flows from operating activities.

Reservation fees and marketing fees not expended in the current year are carried over to the next fiscal year and expended in accordance with the franchise agreements. Shortfall amounts are similarly recovered in subsequent years. Cumulative excess or shortfall amounts from the operation of these programs are recorded as a marketing or reservation fee payable or receivable. Under the terms of the franchise agreements, the Company may advance capital as necessary for marketing and reservation activities and recover such advances through future fees. Our current assessment is that the credit risk associated with the marketing fee receivable is mitigated due to our contractual right to recover these amounts from a large geographically dispersed group of franchisees.

Choice Privileges is our frequent guest incentive marketing program. Choice Privileges enables members to earn points based on their spending levels at participating brands and, to a lesser degree, through participation in affiliated partners' programs, such as those offered by credit card companies. The points may be redeemed for free accommodations or other benefits. Points cannot be redeemed for cash.

The Company collects a percentage of program members' room revenue from participating franchises. Revenues are deferred in an amount equal to the fair value of the future redemption obligation. A third-party actuary estimates the eventual redemption rates and point values using various actuarial methods. These judgmental factors determine the required liability attributable to outstanding points. Upon redemption of the points, the Company recognizes the previously deferred revenue as well as the corresponding expense relating to the cost of the awards redeemed. Revenues in excess of the estimated future redemption obligation are recognized when earned to reimburse the Company for costs incurred to operate the program, including administrative costs, marketing, promotion and performing member services. Costs to operate the program, excluding estimated redemption values, are expensed when incurred.

Impairment Policy.

We evaluate the fair value of goodwill to assess potential impairments on an annual basis, or during the year if an event or other circumstance indicates that we may not be able to recover the carrying amount of the asset. We evaluate impairment of goodwill by comparing the fair value of our net assets with the carrying amount of goodwill. We evaluate the potential impairment of property and equipment and other long-lived assets, including franchise rights on an annual basis or whenever an event or other circumstance indicates that we may not be able to recover the carrying value of the asset. Our evaluation is based upon future cash flow projections. These projections reflect management's best assumptions

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

and estimates. Significant management judgment is involved in developing these projections, and they include inherent uncertainties. If different projections had been used in the current period, the balances for non-current assets could have been materially impacted. Furthermore, if management uses different projections or if different conditions occur in future periods, future-operating results could be materially impacted.

Table of Contents

Income Taxes.

Our income tax expense and related balance sheet amounts involve significant management estimates and judgments. Judgments regarding realization of deferred tax assets and the ultimate outcome of tax-related contingencies represent key items involved in the determination of income tax expense and related balance sheet accounts.

The Company does not provide additional United States income taxes on undistributed earnings of consolidated foreign subsidiaries included in retained earnings. Such earnings could become taxable upon the sale or liquidation of these foreign subsidiaries or upon dividend repatriation. The Company's intent is for such earnings to be reinvested by the subsidiaries.

Deferred tax assets represent items to be used as a tax deduction or credit in future tax returns for which we have already properly recorded the tax benefit in our income statement. Realization of our deferred tax assets reflects our tax planning strategies. We establish valuation allowances for deferred tax assets that we do not believe will be realized.

Tax assessments and resolution of tax contingencies may arise several years after tax returns have been filed. Predicting the outcome of such tax assessments involves uncertainty; however, we believe that recorded tax liabilities adequately account for our analysis of probable outcomes.

In June 2006, the FASB issued FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109, (FIN 48). FIN 48 clarifies FASB Statement No. 109, Accounting for Income Taxes by prescribing a recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 provides guidance on de-recognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 as of January 1, 2007, as required. The cumulative effect of adopting FIN 48 was recorded in retained earnings and other accounts as applicable. Uncertain tax benefits of \$7.1 million were recorded against tax contingencies and additional paid in capital as of January 1, 2007, which represents a \$3.1 million increase in tax contingencies recorded as of December 31, 2006. Accrued interest and penalties of \$0.1 million were recorded against retained earnings as of January 1, 2007.

Estimated interest and penalties related to the uncertain tax benefits are classified as a component of income tax expense in the consolidated statements of income and totaled \$0.1 million for both the three months ended March 31, 2008 and 2007. Accrued interest and penalties were \$1.4 million and \$1.3 million as of March 31, 2008 and December 31, 2007, respectively.

As of March 31, 2008 and December 31, 2007, the Company had \$6.8 and \$6.7 million, respectively of total unrecognized tax benefits of which approximately \$3.5 million would affect the effective tax rate if recognized. These unrecognized tax benefits relate principally to state tax filing positions and stock-based compensation deductions. The Company believes it is reasonably possible it will recognize tax benefits of up to \$1.6 million within the next twelve months. This is due to the anticipated lapse of applicable statutes of limitations regarding state tax positions and stock-based compensation deductions.

The Company's uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2003. Substantially all material state and local and foreign income tax matters have been concluded for years through 2003. U.S. federal income tax returns for 2004 through 2006 are currently open for examination.

Pension, Profit Sharing and Incentive Plans

The Company sponsors two non-qualified retirement savings and investment plans for certain employees and senior executives. Employee and Company contributions are maintained in separate irrevocable trusts. Legally, the assets of the trusts remain those of the Company; however, access to the trusts' assets is severely restricted. The trusts cannot be revoked by the Company or an acquirer, but the assets are subject to the claims of the Company's general creditors. The participants do not have the right to assign or transfer contractual rights in the trusts. The Company accounts for these plans in accordance with EITF No. 97-14, Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested (EITF 97-14). Pursuant to EITF 97-14, as of March 31, 2008 and December 31, 2007, the Company had recorded a deferred compensation liability of \$36.8 million and \$36.5 million, respectively. The change in the deferred compensation obligation related to changes in the fair value of the diversified investments held in trust and to earnings credited to participants recorded in compensation expense. The diversified investments held in the trusts were \$33.0 million and \$34.5 million as of March 31, 2008 and December 31, 2007, respectively, and are recorded at their fair value, based on quoted market prices. The change in the fair value of the diversified assets held in trust is recorded in accordance with SFAS No. 115 Accounting for Certain Investments in Debt and Equity Securities as trading security income (loss) and is included in other income and expenses, net in the accompanying statements of income.

Table of Contents

The Company sponsors an unfunded non-qualified defined benefit plan (SERP) for certain senior executives. No assets are held with respect to the plan; therefore benefits are funded as paid to participants. Effective December 31, 2006, the Company accounts for the SERP in accordance with SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* an amendment of FASB Statements No. 87, 88, 106, and 132(R) . No benefit payments are anticipated over the current year.

Stock Compensation

The Company accounts for share based payment transactions in accordance with SFAS No. 123 (Revised 2004), *Share-Based Payment* (SFAS No. 123R). SFAS No. 123R requires that the compensation cost relating to share based payment transactions be recognized in financial statements based on the fair value of the equity or liability instruments issued.

Recently Issued Accounting Standards

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157) which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. In November 2007, the FASB agreed to partially defer the effective date, for one year, of SFAS No. 157 for non-financial assets and liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company has adopted the provisions of SFAS No. 157 as of January 1, 2008, for financial instruments. Although the adoption of SFAS No. 157 did not impact the Company's financial condition, results of operations, or cash flow, the Company is now required to provide additional disclosures as part of its financial statements. The additional disclosure can be found in Note 14 of the financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value for Financial Assets and Financial Liabilities* (SFAS No. 159) which provides reporting entities an option to report certain financial instruments and other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective as of the beginning of a reporting entity's first fiscal year beginning after November 15, 2007. The Company has not currently elected the fair value measurement option for any financial assets or liabilities that were not previously recorded at fair value.

In December 2007, the FASB issued SFAS No. 160 (SFAS No. 160), *Non-controlling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51* . SFAS 160 establishes new accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007) (SFAS 141R), *Business Combinations* (SFAS No. 141R). SFAS No. 141R will change the accounting for business combinations by requiring an acquiring entity to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R will also change the accounting treatment and disclosure for certain specific items in a business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

In June 2007, the FASB ratified EITF 06-11 *Accounting for the Income Tax Benefits of Dividends on Share-Based Payment Awards* (EITF No. 06-11). EITF 06-11 provides that tax benefits associated with dividends on share-based payment awards be recorded as a component of additional paid-in capital. EITF No. 06-11 is effective, on a prospective basis, for fiscal years beginning after December 15, 2007. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires entities that utilize derivative instruments to provide qualitative disclosures about their objectives and strategies for using such instruments, as well as any details of credit-risk-related contingent features contained within derivatives. SFAS No. 161 also requires entities to disclose additional information about the amounts and location of derivatives located within the financial statements, how the provisions of SFAS 133 have been applied, and the impact that hedges have on an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

Table of Contents

FORWARD-LOOKING STATEMENTS

Certain matters discussed in this quarterly report constitute forward-looking statements within the meaning of the federal securities law. Generally, our use of words such as expect, estimate, believe, anticipate, will, forecast, plan, project, assume or similar words of statements that are forward-looking and that we intend to be included within the Safe Harbor protections provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements are based on management's current beliefs, assumptions and expectations regarding future events, which in turn are based on information currently available to management. Such statements may relate to projections for the Company's revenue, earnings and other financial and operational measures, Company debt levels, payment of stock dividends, and future operations or other matters. We caution you not to place undue reliance on any forward-looking statements, which are made as of the date of this quarterly report. Forward-looking statements do not guarantee future performance and involve known and unknown risks, uncertainties and other factors.

Several factors could cause actual results, performance or achievements of the Company to differ materially from those expressed in or contemplated by the forward-looking statements. Such risks include, but are not limited to, changes to general, domestic and foreign economic conditions; operating risks common in the lodging and franchising industries; changes to the desirability of our brands as viewed by hotel operators and customers; changes to the terms or termination of our contracts with franchisees; our ability to keep pace with improvements in technology utilized for reservations systems and other operating systems; fluctuations in the supply and demand for hotels rooms; and our ability to manage effectively our indebtedness among other factors. These and other risk factors are discussed in detail in Item 1A Risk Factors of the Company's Form 10-K for the year ended December 31, 2007, filed with the Securities and Exchange Commission on February 29, 2008. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk from changes in interest rates and the impact of fluctuations in foreign currencies on the Company's foreign investments and operations. The Company manages its exposure to these market risks through the monitoring of its available financing alternatives including in certain circumstances the use of derivative financial instruments. We are also subject to risk from changes in debt and equity prices from our non-qualified retirement savings plan investments in debt securities and common stock, which had a carrying value of \$33.0 million and \$34.5 million at March 31, 2008 and December 31, 2007, respectively, which we account for as trading securities under SFAS No. 115. The Company does not foresee any significant changes in exposure in these areas or in how such exposure is managed in the near future.

At March 31, 2008 and December 31, 2007, the Company had \$279.2 million and \$272.4 million of debt outstanding at a weighted average effective interest rate of 4.5% and 6.0%, respectively. A hypothetical change of 10% in the Company's effective interest rate from March 31, 2008 levels would increase or decrease interest expense by \$0.6 million. Prior to scheduled maturities, the Company expects to refinance its long-term debt obligations.

The Company does not presently have any derivative financial instruments.

ITEM 4. CONTROLS AND PROCEDURES

The Company formed a disclosure review committee whose membership includes the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), among others. The CEO and CFO consider the disclosure review committee's procedures in performing their evaluations of the Company's disclosure controls and procedures and in assessing the accuracy and completeness of the Company's disclosures.

An evaluation was performed under the supervision and with the participation of the Company's CEO and CFO of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of March 31, 2008.

There has been no change in the Company's internal control over financial reporting that occurred during the quarter ended March 31, 2008, that materially affected, or is reasonably likely to materially affect the Company's internal controls over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

In April 2007, two federal securities law class actions were filed in the United States District Court for the District of Colorado on behalf of persons who purchased the Company's stock between April 25, 2006, and July 26, 2006. These substantially similar lawsuits assert claims pursuant to Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, and Rule 10b-5 promulgated thereunder, against the Company, its current Vice Chairman and Chief Executive Officer, and its former Executive Vice President and Chief Financial Officer. These claims are related to the Company's July 25, 2006 announcement of its results of operations for the second quarter of 2006.

Since the initial filings, the Company filed a motion to transfer the litigation from Colorado to the United States District Court for the District of Maryland. Additionally, one plaintiff has petitioned the Court to be named lead plaintiff in the dispute. On March 24, 2008, the United States District Court for the District of Colorado granted the Company's motion to transfer the matter to the United States District Court for the District of Maryland. The Company has not responded to the complaints filed and is not required to do so until after a lead plaintiff is appointed and a consolidated complaint is filed. The District of Maryland has not entered an order on the pending plaintiff's motion to be appointed lead plaintiff or set a schedule for the action. The Company believes that the allegations contained within these class action lawsuits are without merit and intends to vigorously defend the litigation.

The Company's management does not expect that the outcome of any of its currently ongoing legal proceedings individually or collectively, will have a material adverse effect on the Company's financial condition, results of operations or cash flow.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**Issuer Purchases of Equity Securities**

The following table sets forth purchases of Choice Hotels International, Inc. common stock made by the Company during the three months ended March 31, 2008.

Month Ending	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ^{(1),(2)}	Maximum Number of Shares that may yet be Purchased Under the Plans or Programs, End of Period
January 31, 2008	9,810	\$ 30.87		3,192,377
February 29, 2008	34,111	33.51		3,192,377
March 31, 2008				3,192,377
Total	43,921	\$ 32.92		3,192,377

⁽¹⁾ The Company's share repurchase program was initially approved by the board of directors on June 25, 1998.

- (2) During the three months ended March 31, 2008, the Company purchased 43,921 shares of common stock from employees to satisfy minimum tax-withholding requirements related to the vesting of restricted stock grants. These purchases were not part of the board repurchase authorization.

(b) Reports on Form 8-K

The Company filed a report on Form 8-K, dated January 24, 2008, reporting that on January 23, 2008, the Company entered into an Amendment to the Amended and Restated Employment Agreement with Thomas Mirgon, the Company s Senior Vice President Administration.

The Company filed a report on Form 8-K, dated January 30, 2008, reporting that on January 25, 2008, the Company entered into a Non-Competition, Non-Solicitation and Severance Benefit Agreement with Bruce Haase, the Company s Senior Vice President Brand Operations and International.

The Company filed a report on Form 8-K, dated February 12, 2008, reporting a press release, dated February 12, 2008 had been issued reporting the Company s earnings for the quarter and year ended December 31, 2007.

The Company filed a report on Form 8-K, dated February 15, 2008, reporting that on February 11, 2008, the Company s Board of Directors appointed Scott A. Renschler as a Class III Director for a term expiring at the 2009 Annual Meeting of Shareholders.

The Company filed a report of Form 8-K, dated March 24, 2008, reporting that on March 21, 2008, the Company announced a management succession plan. Under this plan, effective May 1, 2008, Stephen P. Joyce, former Executive Vice President of Marriott International, Inc., will join the Company as President and Chief Operating Officer, and, effective immediately, Bruce N. Haase shall be promoted to Executive Vice President, Global Brand Operations. Charles A. Ledsinger, Jr. shall remain Chief Executive Officer until October 2008, at which time, during his term of employment, Mr. Joyce shall be nominated by the Board of Directors for election to the Board of Directors as a Class III director. The Company plans to name Mr. Joyce as President and Chief Executive Officer, with Mr. Ledsinger remaining as Vice Chairman.
