BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. Organization

Boston Properties, Inc. (the Company), a Delaware corporation, is a self-administered and self-managed real estate investment trust (REIT). The Company is the sole general partner of Boston Properties Limited Partnership (the Operating Partnership) and at September 30, 2008 owned an approximate 84.1% (84.2% at September 30, 2007) general and limited partnership interest in the Operating Partnership. Partnership interests in the Operating Partnership are denominated as common units of partnership interest (also referred to as OP Units), long term incentive units of partnership interest (also referred to as LTIP Units) or preferred units of partnership interest (also referred to as Preferred Units). In addition, in February 2008, the Company issued LTIP Units in connection with the granting to employees of 2008 outperformance awards (also referred to as 2008 OPP Units). Because the rights, preferences and privileges of 2008 OPP Units differ from other LTIP Units granted to employees as part of the annual compensation process, unless specifically noted otherwise, all references to LTIP Units exclude 2008 OPP Units. For a complete description of the terms of the 2008 OPP Units (See Note 13).

Unless specifically noted otherwise, all references to OP Units exclude units held by the Company. A holder of an OP Unit may present such OP Unit to the Operating Partnership for redemption at any time (subject to restrictions agreed upon at the time of issuance of OP Units to particular holders that may restrict such redemption right for a period of time, generally one year from issuance). Upon presentation of an OP Unit for redemption, the Operating Partnership must redeem such OP Unit for cash equal to the then value of a share of common stock of the Company (Common Stock). In lieu of a cash redemption, the Company may elect to acquire such OP Unit for one share of Common Stock. Because the number of shares of Common Stock outstanding at all times equals the number of OP Units that the Company owns, one share of Common Stock is generally the economic equivalent of one OP Unit, and the quarterly distribution that may be paid to the holder of an OP Unit equals the quarterly dividend that may be paid to the holder of a share of Common Stock. An LTIP Unit is generally the economic equivalent of a share of restricted common stock of the Company. LTIP Units, whether vested or not, will receive the same quarterly per unit distributions as OP Units, which equal per share dividends on Common Stock (See Note 13).

At September 30, 2008, there was one series of Preferred Units outstanding (i.e., Series Two Preferred Units). The Series Two Preferred Units bear a distribution that is set in accordance with an amendment to the partnership agreement of the Operating Partnership. Preferred Units may also be converted into OP Units at the election of the holder thereof or the Operating Partnership in accordance with the amendment to the partnership agreement (See Note 9).

All references herein to the Company refer to Boston Properties, Inc. and its consolidated subsidiaries, including the Operating Partnership, collectively, unless the context otherwise requires.

Properties

At September 30, 2008, the Company owned or had interests in a portfolio of 146 commercial real estate properties (compared to 139 and 138 properties at December 31, 2007 and September 30, 2007, respectively) (the Properties) aggregating approximately 48.5 million net rentable square feet (compared to approximately 43.8 million and 44.1 million net rentable square feet at December 31, 2007 and September 30, 2007, respectively), including 14 properties under construction totaling approximately 4.4 million net rentable square feet, and structured parking for approximately 32,542 vehicles containing approximately 10.3 million square feet. At September 30, 2008, the Properties consist of:

142 office properties, including 122 Class A office properties (including 14 properties under construction) and 20 Office/Technical properties;

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

one hotel; and

three retail properties.

The Company owns or controls undeveloped land parcels totaling approximately 583.0 acres. In addition, the Company has a minority interest in the Boston Properties Office Value-Added Fund, L.P. (the Value-Added Fund), which is a strategic partnership with two institutional investors through which the Company has pursued the acquisition of value-added investments in assets within its existing markets. The Company's investments through the Value-Added Fund are not included in its portfolio information or any other portfolio level statistics. At September 30, 2008, the Value-Added Fund had investments in 26 buildings comprised of an office property in Chelmsford, Massachusetts and office complexes in San Carlos, California and Mountain View, California.

The Company considers Class A office properties to be centrally located buildings that are professionally managed and maintained, that attract high-quality tenants and command upper-tier rental rates, and that are modern structures or have been modernized to compete with newer buildings. The Company considers Office/Technical properties to be properties that support office, research and development, laboratory and other technical uses.

2. Basis of Presentation and Summary of Significant Accounting Policies

Boston Properties, Inc. does not have any other significant assets, liabilities or operations, other than its investment in the Operating Partnership, nor does it have employees of its own. The Operating Partnership, not Boston Properties, Inc., executes all significant business relationships. All majority-owned subsidiaries and affiliates over which the Company has financial and operating control and variable interest entities (VIEs) in which the Company has determined it is the primary beneficiary are included in the consolidated financial statements. All significant intercompany balances and transactions have been eliminated in consolidation. The Company accounts for all other unconsolidated joint ventures using the equity method of accounting. Accordingly, the Company's share of the earnings of these joint ventures and companies is included in consolidated net income.

The accompanying interim financial statements are unaudited; however, the financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and in conjunction with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting solely of normal recurring matters) necessary for a fair statement of the financial statements for these interim periods have been included. The results of operations for the interim periods are not necessarily indicative of the results to be obtained for other interim periods or for the full fiscal year. The year end consolidated balance sheet data was derived from audited financial statements, but does not include all disclosure required by accounting principles generally accepted in the United States of America. These financial statements should be read in conjunction with the Company's financial statements and notes thereto contained in the Company's Annual Report in the Company's Form 10-K for its fiscal year ended December 31, 2007.

Contractual rental revenue is reported on a straight-line basis over the terms of the Company's respective leases. Accrued rental income, as reported on the Company's Consolidated Balance Sheets, represents rental revenue recognized in excess of rent payments earned pursuant to the terms of the individual lease agreements. For the three and nine months ended September 30, 2008, the impact of the straight-line rent adjustment was an approximately \$10.2 million decrease in rental revenue and an approximately \$13.5 million increase in rental revenue, respectively. The straight-line rent adjustment for these periods included an approximately \$21.0 million decrease due to the establishment of reserves for the full amount of the accrued straight-line rent balances associated with the Company's leases in New York City with Lehman Brothers Inc. and the law firm of Heller Ehrman LLP.

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

3. Real Estate Activity During the Nine Months Ended September 30, 2008

Acquisitions

On September 26, 2008, the Company acquired from National Public Radio (NPR) its headquarters building at 635 Massachusetts Avenue (the NPR Building) comprised of approximately 211,000 net rentable square feet located in Washington, DC for a purchase price of approximately \$119.5 million in cash. In addition, the Company and NPR have entered into a development management agreement pursuant to which the Company will act as development manager for NPR 's new headquarters building on NPR-owned land at 1111 North Capitol Street in Washington, DC. NPR and the Company have entered into a lease for the NPR Building for a five-year term at the conclusion of which NPR will occupy its new headquarters. Following the expiration of the lease with NPR, the Company expects to redevelop the NPR Building site into a Class A office property comprised of approximately 450,000 net rentable square feet.

Development

On February 5, 2008, the Company executed 60-year ground leases with The George Washington University for the redevelopment of a site at Pennsylvania Avenue and Washington Circle in the District of Columbia as a mixed-use project comprised of approximately 450,000 square feet of office space and 330,000 square feet of residential space. The Company has commenced construction on the project.

On May 12, 2008, the Company acquired the remaining development rights for its 250 West 55th Street development project located in New York City for an aggregate purchase price of approximately \$34.2 million. The acquisition was financed with approximately \$19.2 million of cash and the issuance to the selling entity of 150,000 OP Units.

During the nine months ended September 30, 2008, a consolidated joint venture in which the Company has a 50% interest placed in-service 505 9th Street, a 322,000 net rentable square foot Class A office property located in Washington, DC.

During the nine months ended September 30, 2008, the Company partially placed in-service the following development properties:

77 CityPoint, a Class A office project with approximately 210,000 net rentable square feet located in Waltham, Massachusetts;

South of Market, comprised of three Class A office properties aggregating approximately 652,000 net rentable square feet located in Reston, Virginia; and

One Preserve Parkway, a Class A office project with approximately 183,000 net rentable square feet located in Rockville, Maryland.

Dispositions

On January 7, 2008, the Company transferred at cost Mountain View Research Park and Mountain View Technology Park to its Value-Added Fund for an aggregate of approximately \$221.6 million. The Research Park properties are comprised of sixteen Class A office and office/technical properties aggregating approximately 601,000 net rentable square feet located in Mountain View, California. The Technology Park properties are comprised of seven office/technical properties aggregating approximately 135,000 net rentable square feet located in Mountain View, California. In consideration for the transfer, the Company received approximately \$98.6 million of cash and a promissory note having a principal amount of \$123.0 million. The promissory note bore interest at a fixed rate of 7% per annum and was scheduled to mature in October 2008, subject to extension

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

at the option of the Value-Added Fund until April 2009. On March 27, 2008, the Value-Added Fund repaid \$23.0 million of the financing with proceeds from third-party mortgage financing collateralized by the Mountain View Technology Park properties. On May 30, 2008, the Value-Added Fund repaid the remaining \$100.0 million of the financing with proceeds from third-party mortgage financing collateralized by the Mountain View Research Park properties.

On April 14, 2008, the Company sold a parcel of land located in Washington, DC for approximately \$33.7 million. The Company had previously entered into a development management agreement with the buyer to develop a Class A office property on the parcel totaling approximately 165,000 net rentable square feet. Due to the Company's involvement in the construction of the project, the gain on sale has been deferred and will be recognized over the project construction period generally based on the percentage of total project costs incurred to estimated total project costs. As a result, the Company recognized a gain on sale during the nine months ended September 30, 2008 of approximately \$6.8 million (net of minority interest share of approximately \$1.2 million).

During the nine months ended September 30, 2008, the Company signed a new qualifying lease for approximately 17,454 net rentable square feet of its remaining 25,409 net rentable square foot master lease obligation related to the 2006 sale of 280 Park Avenue resulting in the recognition of approximately \$20.0 million (net of minority interest share of approximately \$3.4 million) as additional gain on sale of real estate. The Company had deferred approximately \$67.3 million of the gain on sale of 280 Park Avenue, which amount represented the maximum obligation under the master lease. As of September 30, 2008, the remaining master lease obligation totaled approximately \$1.3 million.

4. Investments in Unconsolidated Joint Ventures

The investments in unconsolidated joint ventures consist of the following at September 30, 2008:

Entity	Properties	Nominal % Ownership
Square 407 Limited Partnership	Market Square North	50.0%
The Metropolitan Square Associates LLC	Metropolitan Square	51.0%(1)
BP/CRF 901 New York Avenue LLC	901 New York Avenue	25.0%(2)
WP Project Developer LLC	Wisconsin Place Land and Infrastructure	23.9%(3)(4)
Wisconsin Place Retail LLC	Wisconsin Place Retail	5.0%(3)
Eighth Avenue and 46 th Street Entities	Eighth Avenue and 46 th Street	50.0%(3)
Boston Properties Office Value-Added Fund, L.P.	300 Billerica Road, One & Two Circle Star Way and Mountain View Research and Technology Parks	36.9%(2)(5)
Annapolis Junction NFM, LLC	Annapolis Junction	50.0%(3)
767 Venture, LLC	The General Motors Building	60.0%(1)
2 GCT Venture, LLC	Two Grand Central Tower	60.0%(1)
540 Madison Venture, LLC	540 Madison Avenue	60.0%(1)
125 West 55 th Street Venture, LLC	125 West 55 th Street	60.0%(1)

- (1) The Company has determined that these entities are not VIEs and that its joint venture partners have substantive participating rights with respect to the assets and operations of the properties, pursuant to the joint venture agreements.
- (2) The Company's economic ownership can increase based on the achievement of certain return thresholds.
- (3) These properties have been partially placed in-service or are not in operation (i.e., under construction or assembled land).

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(4) Represents the Company's effective ownership interest. The Company has a 66.67%, 5% and 0% interest in the office, retail and residential joint venture entities, respectively, which each own a 33.33% interest in the entity developing and owning the land and infrastructure of the project.

(5) Represents the Company's effective ownership interest. The Company has a 25.0% interest in the 300 Billerica Road and One & Two Circle Star Way properties and a 39.5% interest in the Mountain View Research and Technology Park properties.

Certain of the Company's joint venture agreements include provisions whereby, at certain specified times, each partner has the right to initiate a purchase or sale of its interest in the joint ventures at an agreed upon fair value. Under these provisions, the Company is not compelled to purchase the interest of its outside joint venture partners.

On January 7, 2008, the Company transferred at cost Mountain View Research Park and Mountain View Technology Park to its Value-Added Fund for an aggregate of approximately \$221.6 million. The Research Park properties are comprised of sixteen Class A office and office/technical properties aggregating approximately 601,000 net rentable square feet located in Mountain View, California. The Technology Park properties are comprised of seven office/technical properties aggregating approximately 135,000 net rentable square feet located in Mountain View, California. In consideration for the transfer, the Company received approximately \$98.6 million of cash and a promissory note having a principal amount of \$123.0 million. The promissory note bore interest at a fixed rate of 7% per annum and was scheduled to mature in October 2008, subject to extension at the option of the Value-Added Fund until April 2009. In connection with the transfer of the Research Park and Technology Park properties to the Value-Added Fund, the Company and its partners agreed to certain modifications to the Value-Added Fund's original terms, including bifurcating the Value-Added Fund's promote structure such that Research Park and Technology Park will be accounted for separately from the non-Mountain View properties owned by the Value-Added Fund (i.e., Circle Star and 300 Billerica Road). As a result of the modifications, the Company's interest in the Mountain View properties is approximately 39.5% and its interest in the non-Mountain View properties is 25%. This investment completes the investment commitments for new properties from the Value-Added Fund partners.

On March 27, 2008, the Value-Added Fund obtained third-party mortgage financing totaling \$26.0 million (of which \$24.0 million has been disbursed as of September 30, 2008) collateralized by the Mountain View Technology Park properties. The third-party mortgage financing bears interest at a variable rate equal to LIBOR plus 1.50% per annum and matures on March 31, 2011 with two, one-year extension options. The proceeds of the third-party mortgage financing were used to repay \$23.0 million of the financing provided by the Company. On June 12, 2008, the Value-Added Fund entered into an interest rate swap contract related to the mortgage loan collateralized by the Mountain View Technology Park properties with a notional amount of \$24.0 million to fix the one-month LIBOR index rate at 4.085% per annum through maturity on March 31, 2011.

On May 30, 2008, the Company's Value-Added Fund obtained mortgage financing totaling \$120.0 million (of which \$103.0 million was drawn at closing, with the remaining \$17.0 million available to fund future tenant and capital costs) collateralized by the Mountain View Research Park properties. The mortgage financing bears interest at a variable rate equal to LIBOR plus 1.75% per annum and matures on May 31, 2011 with two, one-year extension options. The Value-Added Fund entered into three interest rate swap contracts with notional amounts aggregating \$103.0 million to fix the one-month LIBOR index rate at 3.63% per annum through April 1, 2011. The proceeds of the mortgage financing were used to repay the remaining \$100.0 million of financing provided by the Company. During the three months ended September 30, 2008, the Company's Value-Added Fund obtained draws aggregating approximately \$0.8 million to fund tenant and capital costs.

On January 29, 2008, the Wisconsin Place joint venture entity that owns and is developing the land and infrastructure components of the project (the Land and Infrastructure Entity) (a joint venture entity in which

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

the Company owns an effective interest of approximately 23.89%) executed a second amendment to its construction loan agreement. The construction financing consisted of a \$69.1 million commitment, bearing interest at a per annum variable rate equal to LIBOR plus 1.50% and maturing on March 11, 2009. The outstanding balance on the construction loan was approximately \$52.6 million on the \$69.1 million commitment. The amended agreement provides for a reduction in the loan commitment amount to \$36.9 million. The reduction relates to the repayment of the office portion of the outstanding balance totaling approximately \$24.9 million and an additional reduction in the borrowing capacity of approximately \$7.3 million with a corresponding release of collateral in conjunction with the Wisconsin Place joint venture entity that owns and is developing the office component of the project (a consolidated joint venture entity in which the Company owns a 66.67% interest) obtaining new construction financing for its project. On April 29, 2008, the Land and Infrastructure Entity repaid the balance of the construction loan totaling approximately \$29.4 million. The repayment relates to the repayment of the residential portion of the outstanding balance in conjunction with the Wisconsin Place joint venture entity that owns and is developing the residential component of the project (a joint venture entity in which the Company does not own an interest) obtaining new construction financing for its project.

On June 9, 2008, the Company completed the acquisition of the General Motors Building in New York City for a purchase price of approximately \$2.8 billion. The General Motors Building is an approximately 2,000,000 rentable square foot office building located at the corner of 5th Avenue and Central Park South in New York City. The acquisition was completed through a joint venture among the Company, US Real Estate Opportunities I, L.P., which is a partnership managed by Goldman Sachs, and Meraas Capital LLC, a Dubai-based private equity firm. The Company has a 60% interest in the venture and provides customary property management and leasing services for the venture. The purchase price consisted of approximately \$890 million of cash, the issuance to the selling entity of 102,883 OP Units and the assumption of approximately \$1.9 billion of secured and mezzanine loans having a weighted average fixed interest rate of 5.97% per annum, all of which mature in October 2017. In addition, the venture acquired the lenders' interest in a portion of the assumed mezzanine loans having an aggregate principal amount of \$294.0 million and a stated interest rate of 6.02% per annum for a purchase price of approximately \$263.1 million in cash. The purchase price was financed in part with loans from the venture's partners on a pro rata basis totaling \$450.0 million, which bear interest at a fixed rate of 11.0% per annum and mature on June 9, 2017. The Company's share of the partner loans totaling \$270.0 million has been reflected in Related Party Note Receivable on the Company's Consolidated Balance Sheets. The Company has eliminated interest income from its partner loan totaling approximately \$9.5 million. In connection with the closing, the Company and the joint venture entered into a tax protection agreement with the seller that restricts the joint venture's ability to sell the General Motors Building in a taxable transaction and requires the Company and the joint venture to maintain certain amounts of indebtedness associated with the property and its acquisition for a period of up to nine years.

The following table summarizes the allocation of the purchase price, in accordance with SFAS No. 141, for the General Motors Building at the date of acquisition (in thousands).

Land	\$ 1,139,394
Building and improvements	1,957,257
Tenant improvements	76,384
Tenant leasing costs	574,004
Below market assumed debt adjustment	101,395
Below market rents	(1,057,256)
Total aggregate purchase price	\$ 2,791,178
Less: Indebtedness assumed, net	(1,606,000)
Net assets acquired	\$ 1,185,178

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

On August 12, 2008, the Company completed the acquisitions of 540 Madison Avenue and Two Grand Central Tower located in New York City, New York for an aggregate purchase price of approximately \$705.0 million. 540 Madison Avenue is a 39-story building located at Madison Avenue at 55th Street that contains approximately 292,000 rentable square feet. Two Grand Central Tower is a 44-story mid-block tower that runs from 44th to 45th Street between Lexington and Third Avenue and contains approximately 664,000 rentable square feet. On August 13, 2008, the Company completed the acquisition of 125 West 55th Street also located in New York City, New York for a purchase price of approximately \$444.0 million. 125 West 55th Street is a 23-story building, spanning from 55th to 56th Street between Avenue of the Americas and Seventh Avenue, that contains approximately 591,000 rentable square feet. Each acquisition was completed through a joint venture among the Company, US Real Estate Opportunities I, L.P., which is a partnership managed by Goldman Sachs, and Meraas Capital LLC, a Dubai-based private equity firm. The Company has a 60% interest in each venture and provides customary property management and leasing services for the ventures. The acquisitions were financed with cash contributions from the ventures' partners aggregating approximately \$575.6 million and the assumption of approximately \$573.4 million of secured and mezzanine loans. The carrying value of the debt that was assumed as part of the transactions consists of the following:

540 Madison Avenue - two secured loans having an aggregate principal amount of \$119.9 million and a weighted-average fixed interest rate of 5.20% per annum, each of which matures in July 2013;

Two Grand Central Tower - a \$190.0 million secured loan having a fixed interest rate of 5.10% per annum, which matures in July 2010; and

125 West 55th Street - \$263.5 million of secured and mezzanine loans having a weighted-average fixed interest rate of 6.25% per annum, all of which mature in March 2010.

The following table summarizes the allocation of the aggregate purchase prices, in accordance with SFAS No. 141, for 540 Madison Avenue, Two Grand Central Tower and 125 West 55th Street, at the date of acquisition (in thousands).

Land	\$ 375,273
Building and improvements	760,431
Tenant improvements	24,242
Tenant leasing costs	88,940
Below market assumed debt adjustment	14,419

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****5. Mortgage Notes Payable**

On January 29, 2008, the Wisconsin Place joint venture entity that owns and is developing the office component of the project (a consolidated joint venture entity in which the Company owns a 66.67% interest) obtained construction financing totaling \$115.0 million collateralized by the office property. Wisconsin Place is a mixed-use development project consisting of office, retail and residential properties located in Chevy Chase, Maryland. The construction financing bears interest at a variable rate equal to LIBOR plus 1.25% per annum and matures on January 29, 2011 with two, one-year extension options.

On February 1, 2008, the Company used available cash to repay the mortgage loan collateralized by its Reston Corporate Center property located in Reston, Virginia totaling approximately \$20.5 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 6.56% per annum and was scheduled to mature on May 1, 2008.

On April 1, 2008, the Company used available cash to repay the mortgage loan collateralized by its Prudential Center property located in Boston, Massachusetts totaling approximately \$258.2 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 6.72% per annum and was scheduled to mature on July 1, 2008.

On June 19, 2008, the Company obtained construction financing totaling \$65.0 million collateralized by its Democracy Tower (formerly South of Market Phase II) development project located in Reston, Virginia. The Democracy Tower development project consists of a Class A office property with approximately 225,000 net rentable square feet. The construction financing bears interest at a variable rate equal to LIBOR plus 1.75% per annum and matures on December 19, 2010 with two one-year extension options.

On September 10, 2008, the Company used available cash to repay the mortgage loan collateralized by its One and Two Embarcadero Center properties located in San Francisco, California totaling approximately \$274.8 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 6.74% per annum and was scheduled to mature on December 10, 2008.

During 2007, the Company commenced an interest rate hedging program for its expected financing activity in 2008 and entered into 11 treasury locks based on a weighted-average 10-year treasury rate of 4.68% per annum on notional amounts aggregating \$375.0 million. Nine of the treasury locks with notional amounts aggregating \$325.0 million matured on April 1, 2008, at which time the Company cash-settled the contracts and made cash payments to the counterparties totaling approximately \$33.5 million. The remaining two treasury locks with notional amounts aggregating \$50.0 million matured on July 31, 2008, at which time the Company cash-settled the contracts and made cash payments to the counterparties totaling approximately \$1.3 million. In addition, the Company entered into five forward-starting interest rate swap contracts to lock the 10-year LIBOR swap rate on notional amounts aggregating \$150.0 million at a weighted-average forward-starting 10-year swap rate of 5.19% per annum. The 10-year treasury rate is a component of the 10-year swap rate and the swap contracts effectively fixed the 10-year treasury rate at a weighted-average interest rate of 4.51% per annum. The swap contracts went into effect on July 31, 2008 and were to expire on July 31, 2018. On July 31, 2008 and September 2, 2008, the Company cash-settled its forward-starting interest rate swap contracts and made aggregate cash payments to the counterparties totaling approximately \$8.6 million. Collectively, all of the foregoing contracts were intended to have effectively fixed the 10-year treasury rate at a weighted-average interest rate of 4.63% per annum on notional amounts aggregating \$525.0 million. The Company entered into the treasury locks and interest rate swap contracts designated and qualifying as cash flow hedges to reduce its exposure to the variability in future cash flows attributable to changes in the hedged rate in contemplation of obtaining ten-year fixed-rate financings in 2008. In addition, during 2007, the Company entered into an interest

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

rate swap to fix the one-month LIBOR index rate at 4.57% per annum on a notional amount of \$96.7 million. This interest rate swap went into effect on October 22, 2007 and expired on October 29, 2008.

SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* (SFAS No. 133), as amended and interpreted, establishes accounting and reporting standards for derivative instruments. The Company has formally documented all of its relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking various hedge transactions. The Company also assesses and documents, both at the hedging instrument's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows associated with the hedged items. All components of the treasury locks and forward-starting interest rate swap contracts were included in the assessment of hedge effectiveness. During the nine months ended September 30, 2008, the Company modified the estimated dates with respect to its anticipated financings under the interest rate hedging program. As a result, the Company recognized a net derivative loss of approximately \$3.2 million representing the partial ineffectiveness of the interest rate contracts. In addition, on September 9, 2008, the Company executed an interest rate lock agreement with lenders at an all-in fixed rate, inclusive of the credit spread, of 6.10% per annum for an eight-year, \$375.0 million loan collateralized by its Four Embarcadero Center property located in San Francisco, California. The Company's interest rate hedging program contemplated a financing with a ten-year term and, as a result, under SFAS No. 133, the Company recognized a net derivative loss of approximately \$6.6 million representing the partial ineffectiveness of its interest rate contracts. The Company has recorded the changes in fair value of the treasury lock and swap contracts related to the effective portion totaling approximately \$33.6 million at September 30, 2008 in Accumulated Other Comprehensive Loss within the Company's Consolidated Balance Sheets. Based on interest rates in effect as of September 30, 2008 and assuming the Company completes financing transactions in accordance with its current plans, the Company expects that within the next twelve months it will reclassify into earnings as an increase in interest expense approximately \$3.5 million of the \$33.6 million recorded within Accumulated Other Comprehensive Loss relating to the treasury locks and forward-starting interest rate swap contracts.

6. Unsecured Exchangeable Senior Notes***3.625% Exchangeable Senior Notes due 2014***

On August 19, 2008, the Company's Operating Partnership completed an offering of \$747.5 million in aggregate principal amount (including \$97.5 million as a result of the exercise by the initial purchasers of their over-allotment option) of its 3.625% exchangeable senior notes due 2014. The notes were priced at 99.0% of their face amount, resulting in aggregate net proceeds to the Company, after deducting the initial purchasers' discounts and offering expenses, of approximately \$731.6 million, resulting in an effective interest rate of approximately 4.057% per annum. The notes mature on February 15, 2014, unless earlier repurchased, exchanged or redeemed.

On and after January 1, 2014, the notes will be exchangeable at any time prior to the close of business on the second scheduled trading day immediately preceding the maturity date at the option of the holders into cash up to their principal amount and, at the Operating Partnership's option, cash or shares of the Company's common stock for the remainder, if any, of the exchange value in excess of such principal amount at the applicable exchange rate, which initially equals 8.5051 shares of the Company's common stock per \$1,000 principal amount of the notes (equivalent to an exchange price of approximately \$117.58 per share of the Company's common stock) and is subject to adjustment in certain circumstances. The initial exchange price of approximately \$117.58 per share of the Company's common stock represents an approximately 20% premium to the closing price of the Company's common stock on the New York Stock Exchange on August 13, 2008 of \$97.98 per share. Prior to the close of business on the scheduled trading day immediately preceding January 1, 2014, holders of the notes

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

may only exchange their notes at their option under the following circumstances: (1) during the five business day period after any 10 consecutive trading day period (the measurement period) in which the trading price per \$1,000 principal amount of notes for each trading day of that measurement period was less than 98% of the product of the last reported sale price of the Company's common stock and the exchange rate on each such day; (2) during any fiscal quarter beginning after the fiscal quarter ended September 30, 2008 if the last reported sale price of the Company's common stock for each of at least 20 trading days in the 30 consecutive trading days ending on, and including, the last day of the preceding fiscal quarter is more than 130% of the applicable exchange price for the notes on the last day of such preceding fiscal quarter; (3) if the Operating Partnership has called such notes for redemption to preserve the Company's status as a real estate investment trust and the redemption has not yet occurred; (4) in connection with specified corporate transactions, including a fundamental change; or (5) if the Company's common stock is delisted. The notes may be accelerated upon an event of default as described in Supplemental Indenture No. 7.

If the Company undergoes a fundamental change, holders of the notes will have the option to require the Operating Partnership to purchase all or any portion of the notes at a purchase price equal to 100% of the principal amount of the notes to be purchased plus any accrued and unpaid interest to, but excluding, the fundamental change repurchase date. The Operating Partnership will pay cash for all notes so repurchased. The holders of the notes will have the right to exchange their notes at their option in connection with a fundamental change, and, if a fundamental change occurs, the exchange rate may be increased by up to 1.7011 shares of the Company's common stock per \$1,000 principal amount of the notes, subject to adjustment in certain circumstances, for a holder who elects to exchange its notes in connection with the fundamental change. The number of additional shares by which the exchange rate will be increased will be determined by reference to a table included in Supplemental Indenture No. 7, based on the date on which the fundamental change occurs or becomes effective and the price paid per share of the Company's common stock in the transaction or event that constitutes such fundamental change. A fundamental change will be deemed to occur upon the consummation of any transaction or event (whether by means of an exchange offer, liquidation, tender offer, consolidation, merger, combination, reclassification, recapitalization or otherwise) in connection with which more than 50% of the Company's common stock is exchanged for, converted into, acquired for or constitutes solely the right to receive, consideration which is not at least 90% common stock (or American Depositary Shares representing shares of common stock) that is either (1) listed on, or immediately after consummation of such transaction or event will be listed on, a United States national securities exchange; or (2) approved, or immediately after the transaction or event will be approved, for listing or quotation on any United States system of automated dissemination of quotations of securities prices similar to a United States national securities exchange.

The notes are senior unsecured obligations of the Operating Partnership and rank equally in right of payment to all existing and future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness of the Operating Partnership. The notes effectively rank junior in right of payment to all existing and future secured indebtedness of the Operating Partnership to the extent of the value of the collateral securing such indebtedness. The notes are structurally subordinated to all liabilities of the subsidiaries of the Operating Partnership.

The Company offered and sold the notes to the initial purchasers in reliance on the exemption from registration provided by Section 4(2) of the Securities Act of 1933. The initial purchasers then sold the notes to qualified institutional buyers pursuant to the exemption from registration provided by Rule 144A under the Securities Act. The Company relied on these exemptions from registration based in part on representations made by the initial purchasers.

In connection with the closing, the Company and the Operating Partnership entered into a Registration Rights Agreement (the Registration Rights Agreement) with the initial purchasers. Under the Registration

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Rights Agreement, the Company and the Operating Partnership have agreed, for the benefit of the holders of the notes, to register the resale of the Company's common stock, if any, issued upon exchange of the notes on a shelf registration statement filed with the Securities and Exchange Commission. The Company and the Operating Partnership may be required to pay liquidated damages of up to 0.50% per annum of additional interest to the holders of the notes if the Company and the Operating Partnership fail to meet certain deadlines or take certain actions relating to the registration of the Company's common stock issuable upon exchange of the notes. Neither the Company nor the Operating Partnership will be required to pay liquidated damages with respect to any note after it has been exchanged. Additionally, pursuant to Supplemental Indenture No. 7, to the extent that any shares of the Company's common stock issued upon exchange of the notes are not covered by a resale registration statement that is effective on the date of the exchange and certain other conditions have been met, the Company must deliver 0.03 additional shares of the Company's common stock upon exchange of the notes for each of such shares.

In connection with the sale of the notes, the Operating Partnership and the Company also entered into capped call transactions (together, the Capped Call Transaction) with affiliates of certain of the initial purchasers (Bank of America, N.A., Deutsche Bank AG, JPMorgan and Morgan Stanley) (the Option Counterparties). Pursuant to the Capped Call Transaction, the Operating Partnership will have the right to cause the Option Counterparties to deliver shares of the Company's common stock to the Operating Partnership upon exchange of the notes if the value per share of the Company's common stock, as measured under the terms of the Capped Call Transaction, at the time of settlement exceeds an initial strike price of approximately \$117.58 per share, subject to certain adjustments similar to those contained in the notes. The Capped Call Transaction is intended to reduce the potential dilution upon future exchange of the notes in the event that the market value per share of the Company's common stock, as measured under the terms of the Capped Call Transaction, at the time of settlement is greater than the strike price of the Capped Call Transaction. If the market value per share of the Company's common stock, as measured under the terms of the Capped Call Transaction, at the time of settlement exceeds the cap price of the Capped Call Transaction (which is initially equal to approximately \$137.17 per share), the dilution mitigation will be limited and there would be dilution to the extent that the market value per share of the Company's common stock exceeds the cap price. The Capped Call Transaction is expected to have the effect of increasing the effective exchange price to the Operating Partnership of the notes to the cap price of the Capped Call Transaction, which represents an initial effective premium of approximately 40% over the closing price of the Company's common stock on the New York Stock Exchange on August 13, 2008 of \$97.98 per share. The Capped Call Transaction comprises separate contracts entered into by the Operating Partnership and the Company with the Option Counterparties and is not part of the terms of the notes and will not affect the holders' rights under the notes. The net cost of the Capped Call Transaction was approximately \$44.4 million, which was recorded as a reduction to stockholders' equity.

7. Unsecured Line of Credit

On June 6, 2008, the Company's Operating Partnership utilized an accordion feature under its unsecured revolving credit facility (the Unsecured Line of Credit) with a consortium of lenders to increase the current lenders' total commitment under the Unsecured Line of Credit from \$605.0 million to \$923.3 million. On July 21, 2008, the Company's Operating Partnership further increased the lenders' total commitment from \$923.3 million to \$1.0 billion. All other material terms under the facility remain unchanged. The Company's Unsecured Line of Credit bears interest at a variable interest rate equal to Eurodollar plus 0.475% per annum and matures on August 3, 2010, with a provision for a one-year extension at the option of the Company, subject to certain conditions. The Unsecured Line of Credit is a recourse obligation of the Company's Operating Partnership. Under the Unsecured Line of Credit, a facility fee equal to 0.125% per annum is payable in quarterly installments. The interest rate and facility fee are subject to adjustment in the event of a change in the Operating Partnership's unsecured debt ratings. The Unsecured Line of Credit involves a syndicate of lenders. The

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Unsecured Line of Credit contains a competitive bid option that allows banks that are part of the lender consortium to bid to make loan advances to the Company at a negotiated LIBOR-based rate. The Company had an outstanding balance on the Unsecured Line of Credit of \$319.0 million at September 30, 2008.

The terms of the Unsecured Line of Credit require that the Company maintain customary financial and other covenants on an ongoing basis, including: (1) a leverage ratio not to exceed 60%, however, the leverage ratio may increase to no greater than 65% provided that it is reduced back to 60% within 180 days, (2) a secured debt leverage ratio not to exceed 55%, (3) a fixed charge coverage ratio of at least 1.40, (4) an unsecured debt leverage ratio not to exceed 60%, however, the unsecured debt leverage ratio may increase to no greater than 65% provided that it is reduced back to 60% within 180 days, (5) a minimum net worth requirement, (6) an unsecured debt interest coverage ratio of at least 1.75 and (7) limitations on permitted investments, development, partially owned entities, business outside of commercial real estate and commercial non-office properties. At September 30, 2008, the Company was in compliance with each of these financial and other covenant requirements.

8. Commitments and Contingencies

General

In the normal course of business, the Company guarantees its performance of services or indemnifies third parties against its negligence.

The Company has letter of credit and performance obligations of approximately \$46.1 million related to lender requirements, acquisition deposits and development requirements.

Certain of the Company's joint venture agreements include provisions whereby, at certain specified times, each partner has the right to initiate a purchase or sale of its interest in the joint ventures. Under these provisions, the Company is not compelled to purchase the interest of its outside joint venture partners.

Insurance

The Company carries insurance coverage on its properties of types and in amounts and with deductibles that it believes are in line with coverage customarily obtained by owners of similar properties. In response to the uncertainty in the insurance market following the terrorist attacks of September 11, 2001, the Federal Terrorism Risk Insurance Act (as amended, TRIA) was enacted in November 2002 to require regulated insurers to make available coverage for certified acts of terrorism (as defined by the statute). The expiration date of TRIA was extended to December 31, 2014 by the Terrorism Risk Insurance Program Reauthorization Act of 2007 (TRIPRA). Prior to TRIPRA, only acts of foreign terrorism could be certified for coverage under TRIA. Under TRIPRA, acts of both foreign and domestic terrorism can be certified for coverage under TRIA. Currently, the Company's property insurance program per occurrence limits are \$1.0 billion for its portfolio insurance program, including coverage for both foreign and domestic acts of terrorism certified under TRIA. The Company currently insures certain properties, including the General Motors Building located at 767 Fifth Avenue in New York, New York (767 Fifth Avenue), in separate stand alone insurance programs. The property insurance program per occurrence limits for 767 Fifth Avenue are \$1.625 billion, including coverage for both foreign and domestic acts of terrorism certified under TRIA, with \$1.375 billion of coverage for losses in excess of \$250 million being provided by NYXP, LLC, as a direct insurer. The Company also currently carries nuclear, biological, chemical and radiological terrorism insurance coverage (NBCR Coverage) for both foreign and domestic acts of terrorism certified under TRIA, which is provided by IXP, LLC as a direct insurer, excluding the Company's Value-Added Fund properties. The per occurrence limit for NBCR Coverage is \$1.0 billion. Under TRIA, after the payment of the required deductible and coinsurance, the NBCR Coverage is

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

backstopped by the Federal Government if the aggregate industry insured losses resulting from a certified act of terrorism exceed a program trigger. The program trigger is \$100 million and the coinsurance is 10%. Under TRIPRA, if the Federal Government pays out for a loss under TRIA, it is mandatory that the Federal Government recoup the full amount of the loss from insurers offering TRIA coverage after the payment of the loss pursuant to a formula in TRIPRA. The Company may elect to terminate the NBCR Coverage if the Federal Government seeks recoupment for losses paid under TRIA, if there is a change in its portfolio or for any other reason. The Company intends to continue to monitor the scope, nature and cost of available terrorism insurance and maintain insurance in amounts and on terms that are commercially reasonable.

The Company also currently carries earthquake insurance on its properties located in areas known to be subject to earthquakes in an amount and subject to self-insurance that the Company believes are commercially reasonable. In addition, this insurance is subject to a deductible in the amount of 5% of the value of the affected property. Specifically, the Company currently carries earthquake insurance which covers its San Francisco region with a \$120 million per occurrence limit and a \$120 million annual aggregate limit, \$20 million of which is provided by IXP, LLC, as a direct insurer. The amount of the Company's earthquake insurance coverage may not be sufficient to cover losses from earthquakes. In addition, the amount of earthquake coverage could impact the Company's ability to finance properties subject to earthquake risk. The Company may discontinue earthquake insurance on some or all of its properties in the future if the premiums exceed the Company's estimation of the value of the coverage.

In January 2002, the Company formed a wholly-owned taxable REIT subsidiary, IXP, Inc., to act as a captive insurance company and be one of the elements of the Company's overall insurance program. On September 27, 2006, IXP, Inc. was merged into IXP, LLC, a wholly-owned subsidiary, and all insurance policies issued by IXP, Inc. were cancelled and reissued by IXP, LLC. The term "IXP" refers to IXP, Inc. for the period prior to September 27, 2006 and to IXP, LLC for the period on and subsequent to September 27, 2006. IXP acts as a direct insurer with respect to a portion of the Company's earthquake insurance coverage for its Greater San Francisco properties and the Company's NBCR Coverage for both foreign and domestic acts of terrorism certified under TRIA. In May 2008, the Company formed a wholly-owned subsidiary, NYXP, LLC ("NYXP"), to act as a captive insurance company and be one of the elements of the Company's insurance program for 767 Fifth Avenue. NYXP acts as a direct insurer with respect to a portion of the Company's coverage for both foreign and domestic acts of terrorism certified under TRIA for 767 Fifth Avenue. Currently, NYXP only insures losses which exceed the program trigger under TRIA and NYXP reinsures with a third-party insurance company any coinsurance payable under TRIA. Insofar as the Company owns IXP and NYXP, it is responsible for their liquidity and capital resources, and the accounts of IXP and NYXP are part of the Company's consolidated financial statements. In particular, if a loss occurs which is covered by the Company's NBCR Coverage but is less than the applicable program trigger under TRIA, IXP would be responsible for the full amount of the loss without any backstop by the Federal Government. IXP and NYXP would also be responsible for any recoupment charges by the Federal Government in the event losses are paid out and their insurance policies are maintained after the payout by the Federal Government. If the Company experiences a loss and IXP or NYXP are required to pay under their insurance policies, the Company would ultimately record the loss to the extent of the required payment. Therefore, insurance coverage provided by IXP and NYXP should not be considered as the equivalent of third-party insurance, but rather as a modified form of self-insurance.

The mortgages on the Company's properties typically contain requirements concerning the financial ratings of the insurers who provide policies covering the property. The Company provides the lenders on a regular basis with the identity of the insurance companies in the Company's insurance programs. The ratings of some of the Company's insurers are below the rating requirements in some of the Company's loan agreements and the lenders for these loans could attempt to claim an event of default has occurred under the loan. The Company believes it could obtain insurance with insurers which satisfy the rating requirements. Additionally, in the future

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

the Company's ability to obtain debt financing secured by individual properties, or the terms of such financing, may be adversely affected if lenders generally insist on ratings for insurers which are difficult to obtain or which result in a commercially unreasonable premium. There can be no assurance that a deficiency in the financial ratings of one or more of the Company's insurers will not have a material adverse effect on the Company.

The Company continues to monitor the state of the insurance market in general, and the scope and costs of coverage for acts of terrorism in particular, but the Company cannot anticipate what coverage will be available on commercially reasonable terms in future policy years. There are other types of losses, such as from wars or the presence of mold at the Company's properties, for which the Company cannot obtain insurance at all or at a reasonable cost. With respect to such losses and losses from acts of terrorism, earthquakes or other catastrophic events, if the Company experiences a loss that is uninsured or that exceeds policy limits, the Company could lose the capital invested in the damaged properties, as well as the anticipated future revenues from those properties. Depending on the specific circumstances of each affected property, it is possible that the Company could be liable for mortgage indebtedness or other obligations related to the property. Any such loss could materially and adversely affect the Company's business and financial condition and results of operations.

9. Minority Interests

Minority interests relate to the interest in the Operating Partnership not owned by the Company and interests in property partnerships not wholly-owned by the Company. As of September 30, 2008, the minority interest in the Operating Partnership consisted of 20,195,785 OP Units, 946,369 LTIP Units, 1,085,861 2008 OPP Units and 1,113,044 Series Two Preferred Units (or 1,460,688 OP Units on an as converted basis) held by parties other than the Company.

The minority interests in property partnerships consist of the outside equity interests in ventures that are consolidated with the financial results of the Company because the Company exercises control over the entities that own the properties. The equity interests in these ventures that are not owned by the Company, totaling approximately \$13.3 million at September 30, 2008, are included in Minority Interests on the accompanying Consolidated Balance Sheets.

During the nine months ended September 30, 2008, 344,582 OP Units were presented by the holders for redemption and were redeemed by the Company in exchange for an equal number of shares of Common Stock. The aggregate book value of the OP Units that were redeemed, as measured for each OP Unit on the date of its redemption, was approximately \$7.2 million. The difference between the aggregate book value and the purchase price of these OP Units was approximately \$17.6 million, which increased the recorded value of the Company's net assets.

On February 5, 2008, the Company issued 1,085,861 2008 OPP Units. Prior to the measurement date on February 5, 2011, 2008 OPP Units will be entitled to receive per unit distributions equal to one-tenth (10%) of the regular quarterly distributions payable on an OP Unit, but will not be entitled to receive any special distributions. After the measurement date, the number of 2008 OPP Units, both vested and unvested, which 2008 OPP award recipients have earned, if any, based on the establishment of an outperformance pool, will be entitled to receive distributions in an amount per unit equal to distributions, both regular and special, payable on an OP Unit. For a complete description of the terms of the 2008 OPP Units (See Note 13).

On May 12, 2008, the Operating Partnership issued 150,000 OP Units to the selling entity as partial consideration for the Company's acquisition of the remaining development rights for its 250 West 55th Street development project located in New York City.

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

On June 9, 2008, the Operating Partnership issued 102,883 OP Units to the selling entity as partial consideration for the Company's acquisition of its interest in the General Motors Building located in New York City.

The Preferred Units at September 30, 2008 consisted solely of 1,113,044 Series Two Preferred Units, which bear a preferred distribution equal to the greater of (1) the distribution which would have been paid in respect of the Series Two Preferred Unit had such Series Two Preferred Unit been converted into an OP Unit (including both regular and special distributions) or (2) an increasing rate, ranging from 5.00% to 7.00% per annum (7.00% for the nine months ended September 30, 2008 and 2007) on a liquidation preference of \$50.00 per unit, and are convertible into OP Units at a rate of \$38.10 per Preferred Unit (1.312336 OP Units for each Preferred Unit). Distributions to holders of Preferred Units are recognized on a straight-line basis that approximates the effective interest method.

On January 30, 2008, the Operating Partnership paid a distribution on the OP Units and LTIP Units in the amount of \$0.68 per unit to holders of record as of the close of business on December 31, 2007. In addition, the Operating Partnership paid a special cash distribution on the OP Units and LTIP Units in the amount of \$5.98 per unit to holders of record as of the close of business on December 31, 2007. On April 30, 2008, the Operating Partnership paid a distribution on the OP Units and LTIP Units in the amount of \$0.68 per unit and a distribution on the 2008 OPP Units in the amount of \$0.068 per unit, in each case payable to holders of record as of the close of business on March 31, 2008. On July 31, 2008, the Operating Partnership paid a distribution on the OP Units and LTIP Units in the amount of \$0.68 per unit and a distribution on the 2008 OPP Units in the amount of \$0.068 per unit, in each case payable to holders of record as of the close of business on June 30, 2008.

Holders of Series Two Preferred Units participated in the \$5.98 per unit special cash distribution on an as-converted basis in connection with their regular May 2008 distribution payment as provided for in the Operating Partnership's partnership agreement. At December 31, 2007, the Company had accrued approximately \$8.7 million related to the \$5.98 per unit special cash distribution payable to holders of the Series Two Preferred Units.

On February 15, 2008, the Operating Partnership paid a distribution on its outstanding Series Two Preferred Units of \$0.89239 per unit. On May 15, 2008, the Operating Partnership paid a distribution on its outstanding Series Two Preferred Units of \$8.7402 per unit, which amount included the impact of the special cash distribution described above. On August 15, 2008, the Operating Partnership paid a distribution on its outstanding Series Two Preferred Units of \$0.89239 per unit.

On September 17, 2008, Boston Properties, Inc., as general partner of the Operating Partnership, declared a distribution on the OP Units and LTIP Units in the amount of \$0.68 per unit and a distribution on the 2008 OPP Units in the amount of \$0.068 per unit, in each case payable on October 31, 2008 to holders of record as of the close of business on September 30, 2008.

The Series Two Preferred Units may be converted into OP Units at the election of the holder thereof at any time. A holder of an OP Unit may present such OP Unit to the Operating Partnership for redemption at any time (subject to restrictions agreed upon at the time of issuance of OP Units to particular holders that may restrict such redemption right for a period of time, generally one year from issuance). Upon presentation of an OP Unit for redemption, the Operating Partnership must redeem such OP Unit for cash equal to the then value of a share of common stock of the Company. In lieu of a cash redemption, the Company may elect to acquire such OP Unit for one share of Common Stock. The value of the OP Units (not owned by the Company and including LTIP Units assuming that all conditions have been met for the conversion thereof) and Series Two Preferred Units had such units been redeemed at September 30, 2008 was approximately \$1,980.2 million and \$136.8 million, respectively, based on the closing price of the Company's common stock of \$93.66 per share on September 30, 2008.

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

10. Stockholders Equity

As of September 30, 2008, the Company had 119,851,868 shares of Common Stock outstanding.

During the nine months ended September 30, 2008, the Company issued 344,582 shares of its Common Stock in connection with the redemption of an equal number of OP Units.

On January 30, 2008, the Company paid a dividend in the amount of \$0.68 per share of Common Stock to shareholders of record as of the close of business on December 31, 2007. In addition, the Company paid a special cash dividend of \$5.98 per share of Common Stock to shareholders of record as of the close of business on December 31, 2007. On April 30, 2008, the Company paid a dividend in the amount of \$0.68 per share of Common Stock to shareholders of record as of the close of business on March 31, 2008. On July 31, 2008, the Company paid a dividend in the amount of \$0.68 per share of Common Stock to shareholders of record as of the close of business on June 30, 2008.

On September 17, 2008, the Company's Board of Directors declared a dividend in the amount of \$0.68 per share of Common Stock payable on October 31, 2008 to shareholders of record as of the close of business on September 30, 2008.

11. Held for Sale/Discontinued Operations

The Company applies the provisions of SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS No. 144 requires that long-lived assets that are to be disposed of by sale be measured at the lesser of (1) book value or (2) fair value less cost to sell. In addition, it requires that one accounting model be used for long-lived assets to be disposed of by sale and broadens the presentation of discontinued operations to include more disposal transactions.

On January 7, 2008, the Company transferred at cost Mountain View Research Park and Mountain View Technology Park to its Value-Added Fund for an aggregate of approximately \$221.6 million (See Note 3). At December 31, 2007, the Company had categorized the properties as Held for Sale in its Consolidated Balance Sheets. Due to the Company's continuing involvement through its ownership interest in the Value-Added Fund, these properties have not been categorized as discontinued operations in the accompanying Consolidated Statements of Operations.

During the year ended December 31, 2007, the Company sold the following operating properties:

Orbital Sciences Campus and Broad Run Business Park, Building E, comprised of three Class A office properties aggregating approximately 337,000 net rentable square feet and an office/technical property totaling approximately 127,000 net rentable square feet, respectively, located in Loudon County, Virginia;

Democracy Center, a Class A office complex totaling approximately 685,000 net rentable square feet located in Bethesda, Maryland;

Newport Office Park, a Class A office property totaling approximately 172,000 net rentable square feet located in Quincy, Massachusetts;

Long Wharf Marriott, a 402-room hotel located in Boston, Massachusetts; and

Edgar Filing: BOSTON PROPERTIES INC - Form 10-Q

5 Times Square, a Class A office property totaling approximately 1,102,000 net rentable square feet located in New York City.

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Due to the Company's continuing involvement in the management, for a fee, of Democracy Center and 5 Times Square through agreements with the buyers, Democracy Center and 5 Times Square have not been categorized as discontinued operations in the accompanying Consolidated Statements of Operations. As a result, the gains on sales related to Democracy Center and 5 Times Square have been reflected under the caption

Gains on sales of real estate, net of minority interest, in the Consolidated Statements of Operations. The Company has presented the other properties listed above as discontinued operations in its Consolidated Statements of Operations for the three and nine months ended September 30, 2008 and 2007, as applicable.

The following table summarizes income from discontinued operations (net of minority interest) and the related realized gains on sales of real estate from discontinued operations (net of minority interest) for the three and nine months ended September 30, 2008 and 2007 (in thousands):

	For the three months ended		For the nine months ended	
	2008	September 30, 2007	2008	September 30, 2007
Total revenue	\$	\$ 2,923	\$	\$ 18,052
Operating expenses		634		9,074
Depreciation and amortization		700		2,714
Minority interest in Operating Partnership		232		922
Income from discontinued operations (net of minority interest)	\$	\$ 1,357	\$	\$ 5,342
Realized gains on sales of real estate	\$	\$	\$	\$ 204,623
Minority interest in Operating Partnership				(30,724)
Realized gains on sales of real estate (net of minority interest)	\$	\$	\$	\$ 173,899

The Company's application of SFAS No. 144 results in the presentation of the net operating results of those qualifying properties sold or held for sale during the applicable periods as income from discontinued operations. The application of SFAS No. 144 does not have an impact on net income available to common shareholders. SFAS No. 144 only impacts the presentation of these properties within the Consolidated Statements of Operations.

12. Earnings Per Share

Earnings per share (EPS) has been computed pursuant to the provisions of SFAS No. 128. The following table provides a reconciliation of both the net income and the number of common shares used in the computation of basic EPS, which is calculated by dividing net income available to common shareholders by the weighted-average number of common shares outstanding during the period. During 2004, the Company adopted EITF 03-6 Participating Securities and the Two-Class Method under FASB 128 (EITF 03-6), which provides further guidance on the definition of participating securities. Pursuant to EITF 03-6, the Operating Partnership's Series Two Preferred Units, which are reflected as Minority Interests in the Company's Consolidated Balance Sheets, are considered participating securities and are included in the computation of basic and diluted earnings per share of the Company if the effect of applying the if-converted method is dilutive. The terms of the Series Two Preferred Units enable the holders to obtain OP Units of the Operating Partnership, as well as Common Stock of the Company. Accordingly, for the reporting periods in which the Operating Partnership's net income is in excess of distributions paid on the OP Units, LTIP Units and Series Two Preferred Units, such income is allocated to the OP Units, LTIP Units and Series Two Preferred Units in proportion to their respective interests

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

and the impact is included in the Company's consolidated basic and diluted earnings per share computation due to its holding of the Operating Partnership's securities. There were no amounts required to be allocated to the Series Two Preferred Units for the three and nine months ended September 30, 2008. For the three and nine months ended September 30, 2007, approximately \$2.0 million and \$12.3 million, respectively, was allocated to the Series Two Preferred Units in excess of distributions paid during the reporting period and is included in the Company's computation of basic and diluted earnings per share. Because the 2008 OPP Units require the Company to outperform absolute and relative return thresholds, unless such thresholds have been met by the end of the applicable reporting period, the Company excludes all contingently issuable units from the diluted EPS calculation. Other potentially dilutive common shares, including stock options, restricted stock and other securities of the Operating Partnership that are exchangeable for the Company's Common Stock, and the related impact on earnings, are considered when calculating diluted EPS.

13. Stock Option and Incentive Plan

On January 24, 2008, the Compensation Committee (the "Committee") of the Board of Directors (the "Board") of the Company approved outperformance awards under the Second Amendment and Restatement of the Company's Stock Option and Incentive Plan (the "1997 Plan") to officers and key employees of the Company. These awards (the "2008 OPP Awards") are part of a new broad-based, long-term incentive compensation program designed to provide the Company's management team at several levels within the organization with the potential to earn equity awards subject to the Company outperforming and creating shareholder value in a pay-for-performance structure. 2008 OPP Awards utilize total return to shareholders ("TRS") over a three-year measurement period as the performance metric and include two years of time-based vesting after the end of the performance measurement period (subject to acceleration in certain events) as a retention tool. Recipients of 2008 OPP Awards will share in an outperformance pool if the Company's TRS, including both share appreciation and dividends, exceeds absolute and relative hurdles over a three-year measurement period from February 5, 2008 to February 5, 2011, based on the average closing price of a share of the Company's common stock (a REIT Share) of \$92.8240 for the five trading days prior to and including February 5, 2008. The aggregate reward that recipients of all 2008 OPP Awards can earn, as measured by the outperformance pool, is subject to a maximum cap of \$110 million, although only awards for an aggregate of up to approximately \$104.8 million have been granted to date. The balance remains available for future grants, with OPP awards exceeding a potential reward of \$1 million requiring the Committee's approval.

The outperformance pool will consist of (i) three percent (3%) of the excess total return above a cumulative absolute TRS hurdle of 30% over the full three-year measurement period (the "Absolute TRS Component") and (ii) three percent (3%) of the excess or deficient excess total return above or below a relative TRS hurdle equal to the total return of the SNL Equity REIT Index over the three-year measurement period (the "Relative TRS Component"). In the event that the Relative TRS Component is potentially positive because the Company's TRS is higher than the total return of the SNL Equity REIT Index, the actual contribution to the outperformance pool from the Relative TRS Component will be subject to a sliding scale factor as follows: (i) 100% of the potential Relative TRS Component will be earned if the Company's TRS is equal to or greater than a cumulative 30% over three years (equivalent to 10% per annum), (ii) 0% will be earned if the Company's TRS is equal to or less than a cumulative 21% over three years (equivalent to 7% per annum), and (iii) a percentage from 0% to 100%

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

calculated by linear interpolation will be earned if the Company's cumulative TRS over three years is between 21% and 30%. The potential Relative TRS Component before application of the sliding scale factor will be capped at \$110 million (or such lesser amount as corresponds to the OPP awards actually granted). In the event that the Relative TRS Component is negative because the Company's TRS is less than the total return of the SNL Equity REIT Index, any outperformance reward potentially earned under the Absolute TRS Component will be reduced dollar for dollar, provided that the potential Absolute TRS Component before reduction for any negative Relative TRS Component will be capped at \$110 million (or such lesser amount as corresponds to the OPP awards actually granted). The algebraic sum of the Absolute TRS Component and the Relative TRS Component determined as described above will never exceed \$110 million (or such lesser amount as corresponds to the OPP awards actually granted).

Each employee's 2008 OPP Award is designated as a specified percentage of the aggregate outperformance pool. Assuming the applicable absolute and/or relative TRS thresholds are achieved at the end of the measurement period, the algebraic sum of the Absolute TRS Component and the Relative TRS Component will be calculated and then allocated among the 2008 OPP Award recipients in accordance with each individual's percentage. Rewards earned with respect to 2008 OPP Awards will vest 25% on February 5, 2011, 25% on February 5, 2012, and 50% on February 5, 2013, based on continued employment. Vesting will be accelerated in the event of a change of control of the Company, termination of employment by the Company without cause or termination of employment by the award recipient for good reason, death, disability or retirement, although restrictions on transfer will continue to apply in certain of these situations. 2008 OPP Awards are in the form of LTIP units of limited partnership interest of the Operating Partnership, which are referred to herein as 2008 OPP Units. 2008 OPP Units were issued prior to the determination of the outperformance pool, but will remain subject to forfeiture depending on the extent of rewards earned with respect to 2008 OPP Awards. The number of 2008 OPP Units issued initially to recipients of the 2008 OPP Awards was an estimate of the maximum number of 2008 OPP Units that they could earn, based on certain assumptions. The number of 2008 OPP Units actually earned by each award recipient, if any, will be determined at the end of the performance measurement period by dividing his or her share of the outperformance pool by the average closing price of a REIT Share for the 15 trading days immediately preceding the measurement date. Total return for the Company and for the SNL Equity REIT Index over the three-year measurement period and other circumstances will determine how many 2008 OPP Units are earned by each recipient; if they are fewer than the number issued initially, the balance will be forfeited as of the performance measurement date.

Prior to the measurement date, 2008 OPP Units will be entitled to receive per unit distributions equal to one-tenth (10%) of the regular quarterly distributions payable on an OP Unit, but will not be entitled to receive any special distributions. After the measurement date, the number of 2008 OPP Units, both vested and unvested, which employees have earned based on the establishment of an outperformance pool, will be entitled to receive distributions in an amount per unit equal to distributions, both regular and special, payable on an OP Unit.

During the nine months ended September 30, 2008, the Company issued 4,723 shares of restricted stock, 287,855 LTIP Units and 1,085,861 2008 OPP Units under the 1997 Plan. The shares of restricted stock were valued at approximately \$0.5 million (\$96.09 per share). The 2008 OPP Units were valued at approximately \$19.7 million utilizing a Monte Carlo simulation to estimate the probability of the performance vesting conditions being satisfied. The Monte Carlo simulation used a statistical formula underlying the Black-Scholes and binomial formulas and such simulation was run approximately 100,000 times. For each simulation, the payoff is calculated at the settlement date, which is then discounted to the award date at a risk-free interest rate. The average of the values over all simulations is the expected value of the unit on the award date. Assumptions used in the valuations included (1) factors associated with the underlying performance of the Company's stock price and total shareholder return over the term of the performance awards including total stock return volatility

Table of Contents**BOSTON PROPERTIES, INC.****NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

and risk-free interest and (2) factors associated with the relative performance of the Company's stock price and total shareholder return when compared to the SNL Equity REIT Index. The valuation was performed in a risk-neutral framework, so no assumption was made with respect to an equity risk premium. The LTIP Units were valued at approximately \$25.4 million (\$88.17 per unit weighted-average fair value) using a Monte Carlo simulation method model in accordance with the provisions of SFAS No. 123R. The per unit fair value of each LTIP Unit granted was estimated on the date of grant using the following assumptions: an expected life of 5.6 years, a risk-free interest rate of 2.75% and an expected price volatility of 25.0%. An LTIP Unit is generally the economic equivalent of a share of restricted stock in the Company. The aggregate value of the LTIP Units is included in Minority Interests in the Consolidated Balance Sheets. The restricted stock and LTIP Units granted to employees between January 1, 2004 and November 2006 vest over a five-year term. Grants of restricted stock and LTIP Units made in and after November 2006 vest in four equal annual installments. Restricted stock and LTIP Units are measured at fair value on the date of grant based on the number of shares or units granted, as adjusted for forfeitures and the closing price of the Company's common stock on the date of grant as quoted on the New York Stock Exchange. Such value is recognized as an expense ratably over the corresponding employee service period. Dividends paid on both vested and unvested shares of restricted stock are charged directly to Earnings in Excess of Dividends in the Consolidated Balance Sheets. Stock-based compensation expense associated with restricted stock, LTIP Units and 2008 OPP Units was approximately \$6.2 million and \$2.8 million for the three months ended September 30, 2008 and 2007, respectively, and approximately \$16.8 million and \$8.6 million for the nine months ended September 30, 2008 and 2007, respectively. At September 30, 2008, there was \$52.0 million of unrecognized compensation cost related to unvested restricted stock, LTIP Units and 2008 OPP Units that is expected to be recognized over a weighted-average period of approximately 2.9 years.

14. Segment Information

The Company's segments are based on the Company's method of internal reporting which classifies its operations by both geographic area and property type. The Company's segments by geographic area are Greater Boston, Greater Washington, D.C., Midtown Manhattan, Greater San Francisco and New Jersey. Segments by property type include: Class A Office, Office/Technical and Hotel.

Asset information by segment is not reported because the Company does not use this measure to assess performance. Therefore, depreciation and amortization expense is not allocated among segments. Interest and other income, development and management services, general and administrative expenses, interest expense, depreciation and amortization expense, minority interests in property partnerships, income from unconsolidated joint ventures, minority interest in Operating Partnership, gains on sales of real estate (net of minority interest), income from discontinued operations (net of minority interest), gains on sales of real estate from discontinued operations (net of minority interest), net derivative losses and losses from early extinguishments of debt are not included in Net Operating Income as the internal reporting addresses these items on a corporate level.

Net Operating Income is not a measure of operating results or cash flows from operating activities as measured by accounting principles generally accepted in the United States of America, and it is not indicative of cash available to fund cash needs and should not be considered an alternative to cash flows as a measure of liquidity. All companies may not calculate Net Operating Income in the same manner. The Company considers Net Operating Income to be an appropriate supplemental measure to net income because it helps both investors and management to understand the core operations of the Company's properties.

15. Newly Issued Accounting Standards

In September 2006, the Financial Accounting Standards Board (the "FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 157, Fair Value Measurements ("SFAS No. 157"). SFAS No. 157 defines fair value and establishes a framework for measuring fair value, which includes a hierarchy based on the quality of inputs used to measure fair value. SFAS No. 157 also expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements. SFAS No. 157 requires the categorization of financial assets and liabilities, based on the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs. SFAS No. 157 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. The levels of the SFAS No. 157 fair value hierarchy are described as follows:

Level 1 Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.

Level 2 Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability.

Edgar Filing: BOSTON PROPERTIES INC - Form 10-Q

Level 3 Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

SFAS No. 157 became effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB deferred the effective date of SFAS No. 157 for one year for nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis. The FASB also removed certain leasing transactions from the scope of SFAS No. 157. On January 1, 2008, the Company adopted SFAS No. 157. The Company has financial instruments consisting of investments in securities and interest rate contracts that are required to be measured under SFAS No. 157. The Company currently does not have any non-financial assets or non-financial liabilities that are required to be measured under SFAS No. 157. The Company does not have any fair value measurements using significant unobservable inputs (Level 3) as of September 30, 2008.

The Company's investments in securities, which were valued at approximately \$16.2 million at September 30, 2008, are categorized within Level 2 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115* (SFAS No. 159). SFAS No. 159 permits entities to choose, at specified election dates, to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. Unrealized gains and losses shall be reported on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 became effective for fiscal years beginning after November 15, 2007. On January 1, 2008, the Company adopted SFAS No. 159 and has currently not elected to measure any financial instruments or other items (not currently required to be measured at fair value) at fair value.

In March 2008, the FASB issued SFAS No. 161 *Disclosures about Derivative Instruments and Hedging Activities* (SFAS No. 161). SFAS No. 161 amends and expands the disclosure requirements of SFAS No. 133 with the intent to provide users of financial statements with an enhanced understanding of how derivative instruments and hedging activities affect an entity's financial position, financial performance and cash flows. These disclosure requirements include a tabular summary of the fair values of derivative instruments and their gains and losses, disclosure of derivative features that are credit risk related to provide more information regarding an entity's liquidity and cross-referencing within footnotes to make it easier for financial statement users to locate important information about derivative instruments. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 with early application encouraged. The Company does not expect the adoption of SFAS No. 161 to have a material impact to the Company.

In May 2008, the FASB issued FASB Staff Position (FSP) No. APB 14-1 *Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)* (FSP No. APB 14-1) that requires the liability and equity components of convertible debt instruments that may be settled in cash upon conversion (including partial cash settlement) to be separately accounted for in a manner that reflects the issuer's nonconvertible debt borrowing rate. FSP No. APB 14-1 requires that the initial debt proceeds from the sale of the Operating Partnership's \$862.5 million of 2.875% exchangeable senior notes due 2037, \$450.0 million of 3.75% exchangeable senior notes due 2036 and \$747.5 million of 3.625% exchangeable senior notes due 2014 be allocated between a liability component and an equity component in a manner that reflects interest expense at the interest rate of similar nonconvertible debt. The resulting debt discount will be amortized over the period during which the debt is expected to be outstanding (i.e., through the first optional redemption dates) as additional non-cash interest expense. Based on the Company's understanding of the application of FSP No. APB 14-1, this will result in an aggregate of approximately \$0.15-\$0.16 per share (net of incremental capitalized interest) of additional non-cash interest expense for fiscal 2008. Excluding the impact of capitalized

Table of Contents

BOSTON PROPERTIES, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

interest, the additional non-cash interest expense will be approximately \$0.19 \$0.20 per share for fiscal 2008, and this amount (before netting) will increase in subsequent reporting periods through the first optional redemption dates as the debt accretes to its par value over the same period. FSP No. APB 14-1 is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is not permitted. Upon adoption, FSP No. APB 14-1 requires companies to retrospectively apply the requirements of the pronouncement to all periods presented.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162), which is intended to improve financing reporting by identifying a consistent framework or hierarchy for selecting accounting principles to be used in preparing financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). SFAS No. 162 is effective 60 days following the Securities and Exchange Commission's (SEC) approval of the Public Company Accounting Oversight Board amendment to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles*. The Company does not expect the adoption of SFAS No. 162 to have a material impact on the Company.

In June 2008, the FASB issued FSP EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities* (FSP EITF 03-06-1). FSP EITF 03-06-1 clarifies that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of EPS pursuant to the two-class method. FSP EITF 03-06-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. All prior-period EPS data presented shall be adjusted retrospectively (including interim financial statements, summaries of earnings, and selected financial data) to conform with the provisions of the FSP. Early application is not permitted. The Company is currently assessing the potential impact that the adoption of FSP EITF 03-06-1 will have on its results of operations.

16. Subsequent Events

On October 10, 2008, the Company used available cash to repay the mortgage loan collateralized by its Bedford Business Park properties located in Bedford, Massachusetts totaling approximately \$16.1 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 8.60% per annum and was scheduled to mature on December 10, 2008.

ITEM 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

As used herein, the terms we, us, our and the Company refer to Boston Properties, Inc., a Delaware corporation organized in 1997, individually or together with its subsidiaries, including Boston Properties Limited Partnership, a Delaware limited partnership, and our predecessors.

The following discussion should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this report. This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. We caution investors that any forward-looking statements presented in this report, or which management may make orally or in writing from time to time, are based on beliefs and assumptions made by, and information currently available to, management. When used, the words anticipate, believe, estimate, expect, intend, may, might, plan, project, result, should, will and similar expressions which do not relate solely to historical matters to identify forward-looking statements. Such statements are subject to risks, uncertainties and assumptions and are not guarantees of future performance, which may be affected by known and unknown risks, trends, uncertainties and factors that are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected by the forward-looking statements. We caution you that while forward-looking statements reflect our good-faith beliefs when we make them, they are not guarantees of future performance and are impacted by actual events when they occur after we make such statements. Accordingly, investors should use caution in relying on forward-looking statements, which are based on results and trends at the time they are made, to anticipate future results or trends.

Some of the risks and uncertainties that may cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include, among others, the following:

the impact of the current credit crisis and global economic slowdown, which is having and may continue to have a negative effect on the following, among other things:

the fundamentals of our business, including overall market occupancy and rental rates;

the financial condition of our tenants, many of which are financial, legal and other professional firms, our lenders, counterparties to our derivative financial instruments and institutions that hold our cash balances and short-term investments, which may expose us to increased risks of default by these parties;

our ability to obtain debt financing on attractive terms or at all, which may adversely impact our ability to pursue acquisition and development opportunities and refinance existing debt and our future interest expense; and

the value of our real estate assets, which may limit our ability dispose of assets at attractive prices or obtain or maintain debt financing secured by our properties or on an unsecured basis.

general risks affecting the real estate industry (including, without limitation, the inability to enter into or renew leases, dependence on tenants' financial condition, and competition from other developers, owners and operators of real estate);

failure to manage effectively our growth and expansion into new markets and sub-markets or to integrate acquisitions and developments successfully;

the ability of our joint venture partners to satisfy their obligations;

Edgar Filing: BOSTON PROPERTIES INC - Form 10-Q

risks and uncertainties affecting property development and construction (including, without limitation, construction delays, cost overruns, inability to obtain necessary permits and public opposition to such activities);

risks associated with the availability and terms of financing and the use of debt to fund acquisitions and developments, including the risk associated with interest rates impacting the cost and/or availability of financing;

Table of Contents

risks associated with interest rate hedging contracts and the effectiveness of such arrangements;

risks associated with downturns in the national and local economies, increases in interest rates, and volatility in the securities markets;

risks associated with actual or threatened terrorist attacks;

costs of compliance with the Americans with Disabilities Act and other similar laws;

potential liability for uninsured losses and environmental contamination;

risks associated with our potential failure to qualify as a REIT under the Internal Revenue Code of 1986, as amended;

possible adverse changes in tax and environmental laws;

the impact of newly adopted accounting principles on our accounting policies and on period-to-period comparisons of financial results;

risks associated with possible state and local tax audits;

risks associated with our dependence on key personnel whose continued service is not guaranteed; and

the other risk factors identified in our most recently filed Annual Report on Form 10-K, including those described under the caption Risk Factors.

The risks set forth above are not exhaustive. Other sections of this report may include additional factors that could adversely affect our business and financial performance. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all risk factors, nor can it assess the impact of all risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results. Investors should also refer to our most recent Annual Report on Form 10-K and our Quarterly Reports on Form 10-Q for future periods and Current Reports on Form 8-K as we file them with the SEC, and to other materials we may furnish to the public from time to time through Forms 8-K or otherwise, for a discussion of risks and uncertainties that may cause actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements. We expressly disclaim any responsibility to update any forward-looking statements to reflect changes in underlying assumptions or factors, new information, future events, or otherwise, and you should not rely upon these forward-looking statements after the date of this report.

Overview

We are a fully integrated self-administered and self-managed REIT and one of the largest owners and developers of Class A office properties in the United States. Our properties are concentrated in five markets Boston, midtown Manhattan, Washington, D.C., San Francisco and Princeton, NJ. We generate revenue and cash primarily by leasing our Class A office space to our tenants. Factors we consider when we lease space include the creditworthiness of the tenant, the length of the lease, the rental rate to be paid, the costs of tenant improvements, current and anticipated operating costs and real estate taxes, our current and anticipated vacancy, current and anticipated future demand for office space generally and general economic factors. We also generate cash through the sale of assets, which may be either non-core assets or core assets that command

premiums from real estate investors.

The impact of the current state of the economy, including rising unemployment, constrained capital and the deleveraging of the financial system, continues to have a dampening effect on the fundamentals of our business, including overall market occupancy and rental rates. Our core strategy has always been to operate in supply constrained markets with high barriers to entry and to focus on executing long-term leases with financially strong

Table of Contents

tenants. Historically, this combination has tended to reduce our exposure to down cycles, but if major tenants in our markets come under financial pressure and do not utilize all of their space it will likely lead to increased supply through subletting or tenant defaults and a corresponding reduction in market rental rates.

We are also not immune from the impact of the credit crisis and global economic slowdown on our own tenants, and this was demonstrated during the third quarter by Lehman Brothers' decision to file for bankruptcy protection and Heller Ehrman LLP's decision to dissolve. As a result, we established reserves for their related accrued straight-line rent balances of an aggregate of \$21.0 million in the third quarter and we have assumed for budgeting purposes that all of the Lehman Brothers and Heller Ehrman space is unoccupied for all of 2009. These two tenants contribute approximately \$50 million per year to our revenues. More generally, we are concerned about the financial stress that our tenants face and believe that, in general, demand for office space will decrease due to significant job losses in the financial and professional services industries and that market rents will be under pressure for the foreseeable future.

In addition to the aforementioned tenant concerns, we believe the overall lack of liquidity caused in part by the tightening credit markets presents significant challenges for owners and developers of office buildings like us. We believe office properties that are leased on a long-term basis are best suited to long-term, fixed rate financing. While we successfully completed an offering of \$747.5 million of exchangeable senior notes in August 2008, and recently utilized an accordion feature under our Unsecured Line of Credit to increase the lenders' total commitment under the facility from \$605.0 million to \$1.0 billion, many of the debt capital markets that real estate companies like us frequently access, such as the unsecured bond market and the convertible debt market, are not currently available to us on terms that we believe are economically attractive. In addition, other capital sources such as the traditional banks, pension funds and life insurance companies are lending fewer dollars, under stricter terms and at greater costs to the borrowers. In light of these constraints, and given the funding needs for our development pipeline, we are actively seeking to bolster our liquidity through additional financings. We believe the quality of our assets and our strong balance sheet align ourselves well with the lenders' current investment selectivity and should enable us to access the credit markets even in the current difficult environment.

Our focus on acquisition activity has moderated, but we continue to actively monitor the market and seek opportunities to selectively acquire high-quality real estate at attractive returns.

We currently have an active development program of approximately \$2.5 billion that is 51% pre-leased to tenants. As of September 30, 2008, we had invested approximately \$1.1 billion in these developments and, in addition to anticipated proceeds from existing construction loan facilities, we expect to make additional investments of approximately \$1.3 billion over the next four years. We expect to fund this \$1.3 billion of investments through a combination of new construction loan facilities, the incurrence of additional secured or unsecured debt, borrowings under our unsecured line of credit and available cash. We believe the successful lease-up and completion of our development pipeline will enhance our long-term return on equity and earnings growth as these developments are placed in-service in 2009, 2010 and 2011. As with all aspects of our business, however, we continue to monitor the impact of the global economic slowdown and may adjust our development plans accordingly. We do not anticipate undertaking any new development projects in the foreseeable future without significant pre-leasing commitments from creditworthy tenants.

In recent years, we have been an active seller of real estate assets, and, although we will consider additional asset sales, we do not expect our sales volume to be comparable to that of prior years and we currently do not have any assets on the market.

Transactions during the three months ended September 30, 2008 included the following:

On July 21, 2008, our Operating Partnership further increased the lenders' total commitment under the Unsecured Line of Credit from \$923.3 million to \$1.0 billion. All other material terms under the facility remain unchanged.

Table of Contents

On July 31, 2008, we cash-settled at maturity two treasury lock contracts and one forward-starting interest rate swap contract with notional amounts aggregating \$100.0 million and made aggregate cash payments to the counterparties totaling approximately \$3.9 million. On September 2, 2008, we cash-settled our remaining forward-starting interest rate swap contracts with notional amounts aggregating \$100.0 million and made aggregate cash payments to the counterparties totaling approximately \$6.0 million. On September 9, 2008, we executed an interest rate lock agreement with lenders at a fixed rate, inclusive of the credit spread, of 6.10% per annum for an eight-year, \$375.0 million loan collateralized by our Four Embarcadero Center property located in San Francisco, California. Our interest rate hedging program contemplated a financing with a ten-year term and, as a result, under SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended and interpreted, we recognized a net derivative loss of approximately \$6.3 million representing the partial ineffectiveness of our interest rate contracts. The expected financing is expected to close in the fourth quarter of 2008. There can be no assurance that the financing will close on the terms currently contemplated or at all.

On August 12, 2008, we completed the acquisitions of 540 Madison Avenue and Two Grand Central Tower located in New York City, New York for an aggregate purchase price of approximately \$705.0 million, including \$309.9 million of assumed indebtedness. On August 13, 2008, we completed the acquisition of 125 West 55th Street also located in New York City, New York for a purchase price of approximately \$444.0 million, including \$263.5 million of assumed indebtedness. Each acquisition was completed through a joint venture among us, US Real Estate Opportunities I, L.P., which is a partnership managed by Goldman Sachs, and Meraas Capital LLC, a Dubai-based private equity firm. We have a 60% interest in each venture and provide customary property management and leasing services for the ventures. The acquisitions were financed with cash contributions from the ventures' partners aggregating approximately \$575.6 million and the assumption of approximately \$573.4 million of secured and mezzanine loans. The debt that was assumed as part of the transactions consists of the following:

540 Madison Avenue two secured loans having an aggregate principal amount of \$119.9 million and a weighted-average fixed interest rate of 5.20% per annum, each of which matures in July 2013;

Two Grand Central Tower a \$190.0 million secured loan having a fixed interest rate of 5.10% per annum, which matures in July 2010; and

125 West 55th Street \$263.5 million of secured and mezzanine loans having a weighted-average fixed interest rate of 6.25% per annum, all of which mature in March 2010.

On August 19, 2008, our Operating Partnership completed an offering of \$747.5 million in aggregate principal amount (including \$97.5 million as a result of the exercise by the initial purchasers of their over-allotment option) of its 3.625% exchangeable senior notes due 2014. The notes were priced at 99.0% of their face amount, resulting in aggregate net proceeds to us, after deducting the initial purchasers' discounts and offering expenses, of approximately \$731.6 million, resulting in an effective interest rate of approximately 4.057% per annum. The notes mature on February 15, 2014, unless earlier repurchased, exchanged or redeemed. The notes may be exchanged prior to the close of business on the scheduled trading day immediately preceding January 1, 2014 into cash and, at the Operating Partnership's option, shares of our common stock at an initial exchange rate of 8.5051 shares per \$1,000 principal amount of notes (or an initial exchange price of approximately \$117.58 per share of our common stock). The notes were issued in an offering exempt from registration under the Securities Act of 1933. In addition, in connection with the offering, we entered into capped call transactions with affiliates of certain of the initial purchasers, which are intended to reduce the potential dilution upon future exchange of the Notes. The capped call transactions are expected to have the effect of increasing the effective exchange price to us of the Notes from \$117.58 to approximately \$137.17 per share, representing an overall effective premium of approximately 40% over the closing price of \$97.98 per share of our common stock on August 13, 2008. The net cost of the capped call transactions was approximately \$44.4 million. (See Note 6 to the Consolidated Financial Statements.)

Table of Contents

On September 10, 2008, we used available cash to repay the mortgage loan collateralized by our One and Two Embarcadero Center properties located in San Francisco, California totaling approximately \$274.8 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 6.74% per annum and was scheduled to mature on December 10, 2008.

On September 26, 2008, we acquired from National Public Radio (NPR) its headquarters building at 635 Massachusetts Avenue (the NPR Building) comprised of approximately 211,000 net rentable square feet located in Washington, DC for a purchase price of approximately \$119.5 million in cash. In addition, we entered into a development management agreement pursuant to which we will act as development manager for NPR 's new headquarters building on NPR-owned land at 1111 North Capitol Street in Washington, DC. We have entered into a lease for the NPR Building for a five-year term at the conclusion of which NPR will occupy its new headquarters. Following the expiration of the lease with NPR, we expect to redevelop the NPR Building site into a Class A office property comprised of approximately 450,000 net rentable square feet.

During the quarter ended September 30, 2008, we recognized reserves for the full amount of the accrued straight-line rent balances associated with our leases in New York City with Lehman Brothers Inc. and the law firm of Heller Ehrman LLP, totaling approximately \$13.2 million and \$7.8 million, respectively. For discussion of our revenue recognition policy, refer to page 39.

Transactions completed subsequent to September 30, 2008:

On October 10, 2008, we used available cash to repay the mortgage loan collateralized by our Bedford Business Park properties located in Bedford, Massachusetts totaling approximately \$16.1 million. There was no prepayment penalty associated with the repayment. The mortgage loan bore interest at a fixed rate of 8.60% per annum and was scheduled to mature on December 10, 2008.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, or GAAP, requires management to use judgment in the application of accounting policies, including making estimates and assumptions. We base our estimates on historical experience and on various other assumptions believed to be reasonable under the circumstances. These judgments affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenue and expenses during the reporting periods. If our judgment or interpretation of the facts and circumstances relating to various transactions had been different, it is possible that different accounting policies would have been applied resulting in a different presentation of our financial statements. From time to time, we evaluate our estimates and assumptions. In the event estimates or assumptions prove to be different from actual results, adjustments are made in subsequent periods to reflect more current information. Below is a discussion of accounting policies that we consider critical in that they may require complex judgment in their application or require estimates about matters that are inherently uncertain.

Real Estate

Upon acquisitions of real estate, we assess the fair value of acquired tangible and intangible assets, including land, buildings, tenant improvements, above- and below-market leases, origination costs, acquired in-place leases, other identified intangible assets and assumed liabilities in accordance with Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations and allocate the purchase price to the acquired assets and assumed liabilities, including land at appraised value and buildings at replacement cost. We assess and consider fair value based on estimated cash flow projections that utilize discount and/or capitalization rates that we deem appropriate, as well as available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known and anticipated trends, and market and economic conditions. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant. We also consider an allocation of purchase price of other acquired intangibles, including acquired in-place leases that may have a customer relationship intangible value, including (but not limited to) the nature and

Table of Contents

extent of the existing relationship with the tenants, the tenants' credit quality and expectations of lease renewals. Based on our acquisitions to date, our allocation to customer relationship intangible assets has been immaterial.

We record acquired above- and below-market leases at their fair values (using a discount rate which reflects the risks associated with the leases acquired) equal to the difference between (1) the contractual amounts to be paid pursuant to each in-place lease and (2) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the initial term plus the term of any below-market fixed rate renewal options for below-market leases. Other intangible assets acquired include amounts for in-place lease values that are based on our evaluation of the specific characteristics of each tenant's lease. Factors to be considered include estimates of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, we include real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, we consider leasing commissions, legal and other related expenses.

Real estate is stated at depreciated cost. The cost of buildings and improvements includes the purchase price of property, legal fees and other acquisition costs. Costs directly related to the development of properties are capitalized. Capitalized development costs include interest, internal wages, property taxes, insurance, and other project costs incurred during the period of development.

Management reviews its long-lived assets used in operations for impairment following the end of each quarter and when there is an event or change in circumstances that indicates an impairment in value. An impairment loss is recognized if the carrying amount of its assets is not recoverable and exceeds its fair value. If such impairment is present, an impairment loss is recognized based on the excess of the carrying amount of the asset over its fair value. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. Since cash flows on properties considered to be long-lived assets to be held and used as defined by SFAS No. 144 Accounting for the Impairment or Disposal of Long-Lived Assets, (SFAS No. 144) are considered on an undiscounted basis to determine whether an asset has been impaired, our established strategy of holding properties over the long term directly decreases the likelihood of recording an impairment loss. If our strategy changes or market conditions otherwise dictate an earlier sale date, an impairment loss may be recognized and such loss could be material. If we determine that impairment has occurred, the affected assets must be reduced to their fair value. No such impairment losses have been recognized to date.

SFAS No. 144 requires that qualifying assets and liabilities and the results of operations that have been sold, or otherwise qualify as held for sale, be presented as discontinued operations in all periods presented if the property operations are expected to be eliminated and we will not have significant continuing involvement following the sale. The components of the property's net income that is reflected as discontinued operations include the net gain (or loss) upon the disposition of the property held for sale, operating results, depreciation and interest expense (if the property is subject to a secured loan). We generally consider assets to be held for sale when the transaction has been approved by our Board of Directors, or a committee thereof, and there are no known significant contingencies relating to the sale, such that the property sale within one year is considered probable. Following the classification of a property as held for sale, no further depreciation is recorded on the assets.

A variety of costs are incurred in the acquisition, development and leasing of properties. After the determination is made to capitalize a cost, it is allocated to the specific component of a project that is benefited. Determination of when a development project commences and capitalization begins, and when a development project is substantially complete and held available for occupancy and capitalization must cease, involves a degree of judgment. Our capitalization policy on development properties is guided by SFAS No. 34 Capitalization of Interest Cost and SFAS No. 67 Accounting for Costs and the Initial Rental Operations of Real Estate Projects. The costs of land and buildings under development include specifically identifiable costs.

Table of Contents

The capitalized costs include pre-construction costs necessary to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. We begin the capitalization of costs during the pre-construction period which we define as activities that are necessary to the development of the property. We consider a construction project as substantially completed and held available for occupancy upon the completion of tenant improvements, but no later than one year from cessation of major construction activity. We cease capitalization on the portion (1) substantially completed and (2) occupied or held available for occupancy, and we capitalize only those costs associated with the portion under construction.

Investments in Unconsolidated Joint Ventures

Except for ownership interests in variable interest entities, we account for our investments in joint ventures under the equity method of accounting because we exercise significant influence over, but do not control, these entities. Our judgment with respect to our level of influence or control of an entity and whether we are the primary beneficiary of a variable interest entity involves the consideration of various factors including the form of our ownership interest, our representation in the entity's governance, the size of our investment (including loans), estimates of future cash flows, our ability to participate in policy making decisions and the rights of the other investors to participate in the decision making process and to replace us as manager and/or liquidate the venture, if applicable. Our assessment of our influence or control over an entity affects the presentation of these investments in our consolidated financial statements.

These investments are recorded initially at cost, as Investments in Unconsolidated Joint Ventures, and subsequently adjusted for equity in earnings and cash contributions and distributions. Any difference between the carrying amount of these investments on our balance sheet and the underlying equity in net assets is amortized as an adjustment to equity in earnings of unconsolidated joint ventures over the life of the related asset. Under the equity method of accounting, our net equity is reflected within the Consolidated Balance Sheets, and our share of net income or loss from the joint ventures is included within the Consolidated Statements of Operations. The joint venture agreements may designate different percentage allocations among investors for profits and losses, however, our recognition of joint venture income or loss generally follows the joint venture's distribution priorities, which may change upon the achievement of certain investment return thresholds. For ownership interests in variable interest entities, we consolidate those in which we are the primary beneficiary. Our investments in unconsolidated joint ventures are reviewed for impairment periodically and if events or circumstances change indicating that the carrying amount of our investments may not be recoverable. The ultimate realization of our investment in unconsolidated joint ventures is dependent on a number of factors, including the performance of each investment and market conditions. We will record an impairment charge if we determine that a decline in the value of an unconsolidated joint venture is other than temporary.

Revenue Recognition

Contractual rental revenue is reported on a straight-line basis over the terms of our respective leases. In accordance with SFAS No. 141, we recognize rental revenue of acquired in-place above- and below-market leases at their fair values over the terms of the respective leases. Accrued rental income as reported on the Consolidated Balance Sheets represents rental income recognized in excess of rent payments actually received pursuant to the terms of the individual lease agreements.

For the three and nine months ended September 30, 2008, we recorded \$1.5 million and \$4.1 million, respectively, of rental revenue representing the adjustments of rents from above and below market leases in accordance with SFAS No. 141. For the three and nine months ended September 30, 2008, the impact of the straight-line rent adjustment was approximately a \$10.2 million decrease in rental revenue and an approximately \$13.5 million increase in rental revenue, respectively. The straight-line adjustment for these periods included an approximately \$21.0 million decrease due to the establishment of reserves for the full amount of the accrued straight-line rent balances associated with our leases in New York City with Lehman Brothers Inc. and the law firm of Heller Ehrman LLP. Amounts exclude SFAS No. 141 and straight-line income from unconsolidated joint ventures, which is disclosed in Note 4 of the Consolidated Financial Statements.

Table of Contents

Our leasing strategy is generally to secure creditworthy tenants that meet our underwriting guidelines. Furthermore, following the initiation of a lease, we continue to actively monitor the tenant's creditworthiness to ensure that all tenant related assets are recorded at their realizable value. When assessing tenant credit quality, we:

review relevant financial information, including:

financial ratios;

net worth;

revenue;

cash flow;

leverage;

liquidity;

evaluate the depth and experience of the tenant's management team; and

assess the strength/growth of the tenant's industry.

As a result of the underwriting process, tenants are then categorized into one of three categories:

(1) low risk tenants;

(2) the tenant's credit is such that we require collateral, in which case we:

require a security deposit; and/or

reduce upfront tenant improvement investments; or

(3) the tenant's credit is below our acceptable parameters.

We consistently monitor the credit quality of our tenant base. We provide an allowance for doubtful accounts arising from estimated losses that could result from the tenant's inability to make required current rent payments and an allowance against accrued rental income for future potential losses that we deem to be unrecoverable over the term of the lease.

Tenant receivables are assigned a credit rating of 1 through 4. A rating of 1 represents the highest possible rating and no allowance is recorded. A rating of 4 represents the lowest credit rating, in which case we record a full reserve against the receivable balance. Among the factors considered in determining the credit rating include:

payment history;

credit status and change in status (credit ratings for public companies are used as a primary metric);

change in tenant space needs (i.e., expansion/downsize);

tenant financial performance;

economic conditions in a specific geographic region; and

industry specific credit considerations.

If our estimates of collectability differ from the cash received, the timing and amount of our reported revenue could be impacted. The average remaining term of our in-place tenant leases, including unconsolidated joint ventures, was approximately 7.2 years as of September 30, 2008. The credit risk is mitigated by the high quality of our existing tenant base, reviews of prospective tenants' risk profiles prior to lease execution and frequent monitoring of our portfolio to identify potential problem tenants.

Recoveries from tenants, consisting of amounts due from tenants for common area maintenance, real estate taxes and other recoverable costs, are recognized as revenue in the period during which the expenses are incurred. Tenant reimbursements are recognized and presented in accordance with Emerging Issues Task Force, or EITF, Issue 99-19 Reporting Revenue Gross as a Principal versus Net as an Agent, or Issue 99-19. Issue 99-19 requires that these reimbursements be recorded on a gross basis, as we are generally the primary obligor with respect to purchasing goods and services from third-party suppliers, have discretion in selecting the supplier and have credit risk. We also receive reimbursement of payroll and payroll related costs from third parties which we reflect on a net basis in accordance with Issue 99-19.

Table of Contents

Our hotel revenues are derived from room rentals and other sources such as charges to guests for long-distance telephone service, fax machine use, movie and vending commissions, meeting and banquet room revenue and laundry services. Hotel revenues are recognized as earned.

We receive management and development fees from third parties. Management fees are recorded and earned based on a percentage of collected rents at the properties under management, and not on a straight-line basis, because such fees are contingent upon the collection of rents. We review each development agreement and record development fees as earned depending on the risk associated with each project. Profit on development fees earned from joint venture projects is recognized as revenue to the extent of the third-party partners' ownership interest.

Gains on sales of real estate are recognized pursuant to the provisions of SFAS No. 66, Accounting for Sales of Real Estate. The specific timing of the sale is measured against various criteria in SFAS No. 66 related to the terms of the transactions and any continuing involvement in the form of management or financial assistance associated with the properties. If the sales criteria are not met, we defer gain recognition and account for the continued operations of the property by applying the finance, installment or cost recovery methods, as appropriate, until the sales criteria are met.

Depreciation and Amortization

We compute depreciation and amortization on our properties using the straight-line method based on estimated useful asset lives. In accordance with SFAS No. 141, we allocate the acquisition cost of real estate to land, building, tenant improvements, acquired above- and below-market leases, origination costs and acquired in-place leases based on an assessment of their fair value and depreciate or amortize these assets over their useful lives. The amortization of acquired above- and below-market leases and acquired in-place leases is recorded as an adjustment to revenue and depreciation and amortization, respectively, in the Consolidated Statements of Operations.

Fair Value of Financial Instruments

For purposes of disclosure, we calculate the fair value of our mortgage notes payable and unsecured senior notes. We discount the spread between the future contractual interest payments and hypothetical future interest payments on our mortgage debt and unsecured notes based on a current market rate. In determining the current market rate, we add our estimate of a market spread to the quoted yields on federal government treasury securities with similar maturity dates to our own debt. Because our valuations of our financial instruments are based on these types of estimates, the actual fair value of our financial instruments may differ materially if our estimates do not prove to be accurate.

Derivative Instruments and Hedging Activities

Derivative instruments and hedging activities require management to make judgments on the nature of its derivatives and their effectiveness as hedges. These judgments determine if the changes in fair value of the derivative instruments are reported in the consolidated statements of operations as a component of net income or as a component of comprehensive income and as a component of equity on the consolidated balance sheets. While management believes its judgments are reasonable, a change in a derivative's effectiveness as a hedge could materially affect expenses, net income and equity.

Results of Operations

The following discussion is based on our Consolidated Financial Statements for the three and nine months ended September 30, 2008 and 2007.

At September 30, 2008 and September 30, 2007, we owned or had interests in a portfolio of 146 and 138 properties, respectively (in each case, the Total Property Portfolio). As a result of changes within our Total Property Portfolio, the financial data presented below shows significant changes in revenue and expenses from

Table of Contents

period-to-period. Accordingly, we do not believe that our period-to-period financial data with respect to the Total Property Portfolio are necessarily meaningful. Therefore, the comparison of operating results for the three and nine months ended September 30, 2008 and 2007 show separately the changes attributable to the properties that were owned by us throughout each period compared (the Same Property Portfolio) and the changes attributable to the properties included in Properties Acquired, Sold, and Placed In-Service.

In our analysis of operating results, particularly to make comparisons of net operating income between periods meaningful, it is important to provide information for properties that were in-service and owned by us throughout each period presented. We refer to properties acquired or placed in-service prior to the beginning of the earliest period presented and owned by us through the end of the latest period presented as our Same Property Portfolio. The Same Property Portfolio therefore excludes properties placed in-service or acquired after the beginning of the earliest period presented or disposed of prior to the end of the latest period presented.

Net operating income, or NOI, is a non-GAAP financial measure equal to net income available to common shareholders, the most directly comparable GAAP financial measure, plus minority interest in Operating Partnership, minority interests in property partnership, losses from early extinguishment of debt, net derivative losses, depreciation and amortization, interest expense, general and administrative expense, less income from discontinued operations (net of minority interest), gains on sales of real estate (net of minority interest), gains on sales of real estate from discontinued operations (net of minority interest), income from unconsolidated joint ventures, interest and other income and development and management services revenue. We use NOI internally as a performance measure and believe NOI provides useful information to investors regarding our financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level. Therefore, we believe NOI is a useful measure for evaluating the operating performance of our real estate assets.

Our management also uses NOI to evaluate regional property level performance and to make decisions about resource allocations. Further, we believe NOI is useful to investors as a performance measure because, when compared across periods, NOI reflects the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and development activity on an unleveraged basis, providing perspective not immediately apparent from net income. NOI excludes certain components from net income in order to provide results that are more closely related to a property's results of operations. For example, interest expense is not necessarily linked to the operating performance of a real estate asset and is often incurred at the corporate level as opposed to the property level. In addition, depreciation and amortization, because of historical cost accounting and useful life estimates, may distort operating performance at the property level. NOI presented by us may not be comparable to NOI reported by other REITs that define NOI differently. We believe that in order to facilitate a clear understanding of our operating results, NOI should be examined in conjunction with net income as presented in our consolidated financial statements. NOI should not be considered as an alternative to net income as an indication of our performance or to cash flows as a measure of liquidity or ability to make distributions.

Comparison of the nine months ended September 30, 2008 to the nine months ended September 30, 2007.

The table below shows selected operating information for the Same Property Portfolio and the Total Property Portfolio. The Same Property Portfolio consists of 114 properties totaling approximately 29.1 million net rentable square feet of space. The Same Property Portfolio includes properties acquired or placed in-service on or prior to January 1, 2007 and owned through September 30, 2008. In addition, the Same Property Portfolio includes our Cambridge Center Marriott hotel property, but does not include the Long Wharf Marriott hotel property, which was sold on March 23, 2007. The Total Property Portfolio includes the effects of the other properties either placed in-service, or acquired after January 1, 2007 or disposed of on or prior to September 30, 2008. There were no properties that were repositioned after January 1, 2007. This table includes a reconciliation from the Same Property Portfolio to the Total Property Portfolio by also providing information for the nine months ended September 30, 2008 and 2007 with respect to the properties which were acquired, placed in-service or sold.

- (1) For a detailed discussion of NOI, including the reasons management believes NOI is useful to investors, see page 42. Hotel Net Operating Income for the nine months ended September 30, 2008 and 2007 are comprised of Hotel Revenue of \$24,714 and \$24,690 less Hotel Expenses of \$18,664 and \$18,706 respectively per the Consolidated Statement of Operations.

Table of Contents**Rental Revenue**

The increase of approximately \$39.8 million in the Total Property Portfolio Rental Revenue is comprised of increases and decreases within the four categories that comprise our Total Property Portfolio. Rental revenue from the Same Property Portfolio increased approximately \$25.7 million, Properties Sold decreased approximately \$21.7 million, Properties Acquired increased approximately \$5.4 million and Properties Placed In-Service increased approximately \$30.4 million.

Rental revenue from the Same Property Portfolio increased approximately \$25.7 million for the nine months ended September 30, 2008 compared to 2007. Included in same store rental revenue is an overall increase in contractual rental revenue of approximately \$37.9 million offset by a decrease of approximately \$29.3 million in straight-line rent. An aggregate of \$21.0 million of the decrease in straight-line rent is due to the establishment of reserves for the full amount of the accrued straight-line rent balances associated with our leases in New York City with Lehman Brothers, Inc. and the law firm of Heller Ehrman LLP. Approximately \$15.3 million of the increase from the Same Property Portfolio was due to an increase in recoveries from tenants which correlates with the increase in operating expenses. The remaining \$1.8 million increase relates to parking and other income. We expect rental revenue from straight-line rents to be between \$9 million and \$10 million and between \$28 million and \$30 million for 2009. We also expect to see a decrease for the remainder of 2008 in rental revenue related to Lehman Brothers, Inc. bankruptcy and the dissolution of Heller Ehrman LLP. Lehman Brothers, Inc. pays us approximately \$43 million annually and, given that they filed for bankruptcy protection, we expect that the lease will be rejected and the space will be unoccupied throughout 2009. Heller Ehrman LLP pays us approximately \$7.7 million annually and we are currently negotiating a termination agreement for this lease.

The acquisitions of Kingstowne Towne Center, North First Business Park, 103 Fourth Avenue, 6601 & 6605 Springfield Center Drive and Springfield Metro Center during 2007 and 635 Massachusetts Avenue during 2008 increased rental revenue from Properties Acquired by approximately \$5.4 million for the nine months ended September 30, 2008 as detailed below:

Property	Date Acquired	Rental Revenue for the nine months ended September 30,		
		2008	2007	Change
		(in thousands)		
Kingstowne Towne Center	March 30, 2007	\$ 10,724	\$ 7,011	\$ 3,713
North First Business Park	December 13, 2007	1,888		1,888
103 Fourth Avenue	January 29, 2007	587	528	59
6601 & 6605 Springfield Center Drive	January 18, 2007	276	570	(294)
Springfield Metro Center	April 11, 2007			
635 Massachusetts Avenue	September 26, 2008	95		95
Total		\$ 13,570	\$ 8,109	\$ 5,461

The increase in rental revenue from Properties Placed In-Service relates to fully placing in-service our 505 9th Street development project in the first quarter of 2008, partially placing in-service the 77 CityPoint and South of Market development projects during the first quarter of 2008, and partially placing in-service the One Preserve Parkway development project during the second quarter of 2008. Rental Revenue from Properties Placed In-Service increased approximately \$30.4 million, as detailed below:

Property	Date Placed In-Service	Rental Revenue for the nine months ended September 30,		
		2008	2007	Change
		(in thousands)		
505 9 th Street	First Quarter, 2008	\$ 14,769	\$	\$ 14,769

77 CityPoint	First Quarter, 2008	1,046		1,046
One Preserve Parkway	Second Quarter, 2008	705		705
Total		\$ 30,395	\$	\$ 30,395

Table of Contents

The aggregate increase in rental revenue was offset by the sales of Democracy Center in August 2007 and 5 Times Square in February 2007 and the transfer of Mountain View Research Park and Mountain View Technology Park to the Value-Added Fund in January 2008. These properties have not been classified as discontinued operations due to our continuing involvement as the property manager for each property and our continued ownership interest in Mountain View Research Park and Mountain View Technology Park. Rental Revenue from Properties Sold decreased by approximately \$21.7 million, as detailed below:

Property	Date Sold	Rental Revenue for the nine months ended September 30,		
		2008	2007	Change
		(in thousands)		
Mountain View Properties	January 7, 2008	\$ 90	\$	\$ 90
5 Times Square	February 15, 2007		9,771	(9,771)
Democracy Center	August 7, 2007		12,016	(12,016)
Total		\$ 90	\$ 21,787	\$ (21,697)

Termination Income

Termination income for the nine months ended September 30, 2008 totaled approximately \$4.7 million and was related to thirteen tenants across the Total Property Portfolio that terminated their leases. This compared to termination income of approximately \$4.1 million for the nine months ended September 30, 2007 related to thirteen tenants. We are currently negotiating a termination agreement with Heller Ehrman LLP and have assumed that we will record rental and termination income of approximately \$6 million in the fourth quarter of 2008. In addition, we currently anticipate realizing termination income of approximately \$1 million per quarter in 2009.

Real Estate Operating Expenses

The \$25.2 million increase in property operating expenses (real estate taxes, utilities, insurance, repairs and maintenance, cleaning and other property-related expenses) in the Total Property Portfolio is comprised of increases and decreases within the four categories that comprise our Total Property Portfolio. Operating expenses for the Same Property Portfolio increased approximately \$21.8 million, Properties Sold decreased approximately \$5.8 million, Properties Acquired increased approximately \$2.0 million and Properties Placed In-Serviced increased approximately \$7.2 million.

Operating expenses from the Same Property Portfolio increased approximately \$21.8 million for the nine months ended September 30, 2008 compared to 2007. Included in Same Property Portfolio operating expenses is an increase in real estate taxes of approximately \$10.9 million, or 8.0%, as well as, utility expense of approximately \$5.4 million, or 8.0%. The remaining increase of approximately \$5.5 million is related to repairs and maintenance and other property-related expenses.

Table of Contents

The acquisitions of Kingstowne Towne Center, North First Business Park, 103 Fourth Avenue, 6601 & 6605 Springfield Center Drive and Springfield Metro Center during 2007 and 635 Massachusetts Avenue during 2008 increased operating expenses from Properties Acquired by approximately \$2.0 million for the nine months ended September 30, 2008 as detailed below:

Property	Date Acquired	Real Estate Operating Expenses for the nine months ended September 30,		
		2008	2007	Change

Table of Contents

We continue to review and monitor the impact of rising insurance, labor and energy costs, as well as other factors, on our operating budgets for fiscal year 2009. Because some operating expenses are not recoverable from tenants, an increase in operating expenses due to one or more of the foregoing factors could have an adverse effect on our results of operations.

Hotel Net Operating Income

Net operating income for the Cambridge Center Marriott hotel property increased by approximately \$66,000 for the nine months ended September 30, 2008 as compared to 2007. For the nine months ended September 30, 2007, the operations of the Long Wharf Marriott have been included as part of discontinued operations due to its sale on March 23, 2007.

The following reflects our occupancy and rate information for the Cambridge Center Marriott hotel for the nine months ended September 30, 2008 and 2007.

	2008	2007	Percentage Change
Occupancy	79.1%	78.4%	0.9%
Average daily rate	\$ 209.79	\$ 202.76	3.5%
Revenue per available room, REVPAR	\$ 167.61	\$ 158.86	5.5%

Development and Management Services

Development and management services income increased approximately \$6.3 million for the nine months ended September 30, 2008 compared to 2007. The increase is primarily attributed to \$2 million of acquisition fees and approximately \$1.2 million of ongoing management fees from our joint ventures that acquired the General Motors Building, 540 Madison Avenue, Two Grand Central Tower and 125 West 55th Street in New York City, as well as higher fee income due to a leasing commission earned under our management contract with the buyer of 280 Park Avenue and greater tenant service income in New York City, higher fees related to progress at two of our joint venture development projects, construction management fees related to tenant improvements completed in the portfolio, and development fees for our 20 F Street third-party development project. We currently anticipate realizing approximately \$8.5-\$9.0 million in development and management services income for the fourth quarter 2008 and \$28 million to \$30 million in 2009.

Interest and Other Income

Interest and other income decreased approximately \$52.2 million for the nine months ended September 30, 2008 compared to 2007 as a result of lower overall interest rates and decreased average cash balances. The approximate average cash balances for the nine months ended September 30, 2008 and September 30, 2007 were \$530.0 million and \$1.7 billion, respectively. In addition, the average interest rate for the nine months ended September 30, 2008 compared to September 30, 2007 decreased by approximately 2.60%.

Other Expenses***General and Administrative***

General and administrative expenses increased approximately \$2.5 million for the nine months ended September 30, 2008 compared to 2007. During the nine months ended September 30, 2008, we recognized additional expense related to abandoned project costs of approximately \$1.4 million. The remaining increase is primarily due to compensation expense associated with the 2008 OPP Awards, which was approximately \$3.5 million, and higher legal and accounting expenses. The increase would have been greater had it not been for lower than projected payroll taxes due to reduced stock option activity. In addition, due to the negative results in the broad equity market we also experienced a reduction in value in our deferred compensation plan which

Table of Contents

reduced general and administrative expense, although such amount was offset by a corresponding equivalent reduction in interest income. We anticipate our general and administrative expenses to be approximately \$18.5 million for the remainder of 2008 and between \$74 million and \$77 million in 2009.

On January 24, 2008, our compensation committee approved outperformance awards under the 1997 Plan to our officers and employees. These awards (the 2008 OPP Awards) are part of a new broad-based long-term incentive compensation program designed to provide our management team at several levels within the organization with the potential to earn equity awards subject to outperforming and creating shareholder value in a pay-for-performance structure. 2008 OPP Awards utilize total return to shareholders (TRS) over a three-year measurement period as the performance metric and include two years of time-based vesting after the end of the performance measurement period (subject to acceleration in certain events) as a retention tool. Recipients of 2008 OPP Awards will share in an outperformance pool if our TRS, including both share appreciation and dividends, exceeds absolute and relative hurdles over a three-year measurement period from February 5, 2008 to February 5, 2011, based on the average closing price of a share of our common stock of \$92.8240 for the five trading days prior to and including February 5, 2008. The aggregate reward that recipients of all 2008 OPP Awards can earn, as measured by the outperformance pool, is subject to a maximum cap of \$110 million, although only awards for an aggregate of up to approximately \$104.8 million have been granted to date. The balance remains available for future grants. Under Statement of Financial Accounting Standards No. 123(R) Share-Based Payment, the 2008 OPP Awards have an aggregate value of approximately \$19.7 million, which amount will generally be amortized into earnings over the five-year plan period (although awards for retirement-eligible employees will be amortized over a three-year period). Because the 2008 OPP Awards require us to outperform absolute and relative return thresholds, unless such thresholds have been met by the end of the applicable reporting period, we will exclude all contingently issuable shares from the diluted EPS calculation. (See Note 12 to the Consolidated Financial Statements.) Compensation expense associated with the 2008 OPP Awards was approximately \$3.5 million for the nine months ended September 30, 2008.

Commencing in 2003, we issued restricted stock and/or LTIP Units, as opposed to granting stock options and restricted stock, under the 1997 Plan as the primary vehicle for employee equity compensation. An LTIP Unit is generally the economic equivalent of a share of our restricted stock. Employees vest in restricted stock and LTIP Units over a four- or five-year term (for awards granted between 2003 and November 2006, vesting is over a five-year term with annual vesting of 0%, 0%, 25%, 35% and 40%; and for awards granted after November 2006, vesting occurs in equal annual installments over a four-year term). Restricted stock and LTIP Units are valued based on observable market prices for similar instruments. Such value is recognized as an expense ratably over the corresponding employee service period. LTIP Units that were issued in January 2005 and any future LTIP Unit awards will be valued using an option pricing model in accordance with the provisions of SFAS No. 123R. To the extent restricted stock or LTIP Units are forfeited prior to vesting, the corresponding previously recognized expense is reversed as an offset to stock-based compensation. Stock-based compensation associated with approximately \$27.6 million of restricted stock and LTIP Units granted in February 2008 and approximately \$18.5 million of restricted stock and LTIP Units granted in January 2007 will be incurred ratably over the four-year vesting period. Stock-based compensation associated with approximately \$11.3 million of restricted stock and LTIP Units granted in April 2006 will be incurred ratably over the five-year vesting period.

Interest Expense

Interest expense for the Total Property Portfolio decreased approximately \$16.9 million for the nine months ended September 30, 2008 compared to 2007. The decrease is primarily due to (1) the repayment of outstanding mortgage debt in connection with the sale of Democracy Center in August 2007, which decreased interest expense by \$4.1 million, (2) the repayment of our mortgages for the Prudential Center, Reston Corporate Center, 504, 506, 508 and 510 Carnegie Center and Embarcadero Center One, Two and Four, which decreased interest expense by an aggregate of approximately \$19.9 million, and (3) an increase in capitalized interest costs which decreased interest expense by approximately \$9.9 million. These decreases were offset by (1) an increase of

Table of Contents

approximately \$3.5 million related to interest incurred on the \$747.5 million unsecured exchangeable senior notes issued by our Operating Partnership in the third quarter of 2008 at an effective per annum interest rate of 4.057%, (2) an increase of approximately \$2.8 million related to interest incurred on the \$862.5 million unsecured exchangeable senior notes issued by our Operating Partnership in the first quarter of 2007 at an effective per annum interest rate of 3.462%, (3) an increase of approximately \$10.6 million related to the acquisition of Kingstowne Towne Center on March 30, 2007 and the consolidation of our 505 9th Street joint venture property due to the involvement we now have because the property is operating and the partial placement in-service of our South of Market development project, (4) a net increase of approximately \$1.8 million related to the refinancing of 599 Lexington Avenue with a new mortgage of approximately \$750 million, the net proceeds from which were used to repay the \$225 million draw on our Unsecured Line of Credit and to repay the mortgage loan collateralized by Times Square Tower, and (5) an increase of approximately \$1.0 million related to the borrowings under the Unsecured Line of Credit. The remaining decrease is attributed to scheduled loan amortization on our outstanding debt.

On May 9, 2008, the FASB issued FASB Staff Position No. APB 14-1 Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement) (FSP No. APB 14-1). This pronouncement and the estimated effect that it will have on interest expense is discussed in Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Newly Issued Accounting Standards.

At September 30, 2008, our variable rate debt consisted of our construction loans at South of Market, Democracy Tower (formerly South of Market Phase II) and Wisconsin Place Office construction projects, as well as our borrowings under our Unsecured Line of Credit. The following summarizes our outstanding consolidated debt as of September 30, 2008 and September 30, 2007:

	September 30,	
	2008	2007
	<i>(dollars in thousands)</i>

Variable rate	4.80%	6.91%
Total	5.21%	5.62%

For discussion of the New York City joint venture property acquisitions and related financial information, refer to page 59 and Note 4 of the Consolidated Financial Statements.

Depreciation and Amortization

Depreciation and amortization expense for the Total Property Portfolio increased approximately \$9.8 million for the nine months ended September 30, 2008 compared to 2007. Approximately \$4.9 million related to an increase in the Same Property Portfolio and approximately \$1.4 million related to acquisition

Table of Contents

activity. An increase of approximately \$6.3 million was attributed to Properties Placed In-Service. These increases were offset by a decrease of approximately \$2.8 million due to the sale of Democracy Center in August 2007 and 5 Times Square in February 2007.

Capitalized Costs

Costs directly related to the development of rental properties are not included in our operating results. These costs are capitalized and included in real estate assets on our Consolidated Balance Sheets and amortized over their useful lives. Capitalized development costs include interest, wages, property taxes, insurance and other project costs incurred during the period of development. Capitalized wages for the nine months ended September 30, 2008 and 2007 were \$9.2 million and \$7.7 million, respectively. These costs are not included in the general and administrative expenses discussed above. We expect capitalized wages to slightly increase with our increased development activity into 2009. Interest capitalized for the nine months ended September 30, 2008 and 2007 was \$30.5 million and \$20.6 million, respectively. These costs are not included in the interest expense referenced above.

Net derivative losses

During the nine months ended September 30, 2008, we modified the estimated dates with respect to our anticipated financings under our interest rate hedging program. As a result, we recognized a net derivative loss of approximately \$3.2 million representing the partial ineffectiveness of the interest rate contracts. In addition, on September 9, 2008, we executed an interest rate lock agreement with lenders at an all-in fixed rate, inclusive of the credit spread, of 6.10% per annum for an eight-year, \$375.0 million loan collateralized by our Four Embarcadero Center property located in San Francisco, California. Our interest rate hedging program contemplated a financing with a ten-year term and, as a result, under SFAS No. 133, we recognized a net derivative loss of approximately \$6.6 million representing the partial ineffectiveness of our interest rate contracts.

Losses from early extinguishments of debt

On February 12, 2007, we refinanced the mortgage loan collateralized by 599 Lexington Avenue located in New York City. The new mortgage financing totaling \$750.0 million bears interest at a fixed interest rate of 5.57% per annum and matures on March 1, 2017. We used a portion of the net proceeds to repay the \$225.0 million draw on our Unsecured Line of Credit, which draw was collateralized by 599 Lexington Avenue. In addition, we used the net proceeds from the refinancing to repay the mortgage loan collateralized by Times Square Tower located in New York City totaling \$475.0 million. There was no prepayment penalty associated with the repayment. We recognized a loss from early extinguishment of debt totaling approximately \$0.7 million consisting of the write-off of unamortized deferred financing costs. In conjunction with the sale of Democracy Center in Bethesda, Maryland on August 7, 2007, we repaid the mortgage financing collateralized by the property totaling approximately \$94.6 million. We paid a prepayment fee of approximately \$2.6 million associated with the repayment. We recognized a loss from early extinguishment of debt totaling approximately \$2.7 million consisting of the prepayment fee and the write-off of unamortized deferred financing costs.

Minority interests in property partnerships

Minority interests in property partnerships for the nine months ended September 30, 2008 consists of the outside equity owners' interests in the income from our 505 9th Street property as well as our Wisconsin Place Office property.

Income from Unconsolidated Joint Ventures

For the nine months ended September 30, 2008, income from unconsolidated joint ventures decreased by approximately \$14.1 million compared to September 30, 2007. On June 1, 2007, the Value-Added Fund sold Worldgate Plaza located in Herndon, Virginia for approximately \$109.0 million. Worldgate Plaza is an office

Table of Contents

complex consisting of approximately 322,000 net rentable square feet. Net cash proceeds totaled approximately \$50.5 million, of which our share was approximately \$20.3 million, after the repayment of the mortgage indebtedness of \$57.0 million. Our share of the gain that is included as income in joint ventures was approximately \$15.5 million. This amount reflects the achievement of certain return thresholds as provided for in the joint venture agreement.

On June 9, 2008, we completed the acquisition of the General Motors Building for a purchase price of approximately \$2.8 billion. On August 12, 2008, we completed the acquisitions of 540 Madison Avenue and Two Grand Central Tower located in New York City, New York for an aggregate purchase price of approximately \$705.0 million. On August 13, 2008, we completed the acquisition of 125 West 55th Street located in New York City, New York for an aggregate price of \$444.0 million. Each acquisition was completed through a joint venture among us, US Real Estate Opportunities I, L.P., which is a partnership managed by Goldman Sachs, and Meraas Capital LLC, a Dubai-based private equity firm. We have a 60% interest in the venture and provide customary property management and leasing services for the venture. For discussion of the New York City joint venture property acquisitions and related financial information, refer to page 59 and Note 4 of the Consolidated Financial Statements.

Minority interest in Operating Partnership

Minority interest in Operating Partnership decreased by approximately \$5.3 million for the nine months ended September 30, 2008 compared to 2007. The decrease was primarily the result of a decrease in allocable income. The decrease was partially offset an adjustment of \$3.1 million in the 1st quarter of 2007 to the 2006 special cash distribution accrual and allocation of earnings to the Series Two Preferred Units. This adjustment was due to conversions of Series Two Preferred Units.

Gains on sales of real estate, net of minority interest

On February 15, 2007, we completed the sale of 5 Times Square resulting in a gain of \$605.2 million (net of minority interest share of approximately \$108.4 million). Due to our continuing involvement in the management, for a fee, of 5 Times Square through agreements with the buyer and other financial obligations to the buyer, 5 Times Square has not been categorized as discontinued operations in the Consolidated Statements of Operations.

Pursuant to the purchase and sale agreement related to the sale of 280 Park Avenue, we entered into a master lease agreement with the buyer at closing. Under the master lease agreement, we guaranteed that the buyer will receive at least a minimum amount of base rent from approximately 74,340 square feet of space during the ten-year period following the expiration of the leases for this space. The leases for this space expired at various times between June 2006 and October 2007. The aggregate amount of base rent we guaranteed over the entire period from 2006 to 2017 is approximately \$67.3 million. During the nine months ended September 30, 2008 and 2007, we signed new qualifying leases for approximately 17,454 and 22,250 net rentable square feet of the remaining master lease obligation, resulting in the recognition of approximately \$20.0 million (net of minority interest share of approximately \$3.4 million) and \$15.4 million (net of minority interest share of approximately \$2.6 million) of additional gain on sale of real estate, respectively. As of September 30, 2008, the remaining master lease obligation totaled approximately \$1.3 million.

On August 7, 2007, we sold Democracy Center in Bethesda, Maryland, for approximately \$280.5 million. Net cash proceeds totaled approximately \$184.5 million, after the repayment of the mortgage indebtedness of approximately \$94.6 million and closing costs of approximately \$1.4 million, resulting in a gain on sale of approximately \$168.3 million, (net of minority interest share of approximately \$29.9 million). Due to our continuing involvement through an agreement with the buyer to manage the property for a fee after the sale, this property has not been categorized as discontinued operations.

On April 14, 2008, we sold a parcel of land located in Washington, D.C. for approximately \$33.7 million. We had previously entered into a development management agreement with the buyer to develop a Class A

Table of Contents

office property on the parcel totaling approximately 165,000 net rentable square feet. Due to our involvement in the construction of the project, the gain on sale estimated to total \$23.4 million has been deferred and will be recognized over the project construction period generally based on the percentage of total project costs incurred to estimated total project costs. As a result, we recognized a gain on sale during the nine months ended September 30, 2008 of approximately \$6.8 million (net of minority interest share of approximately \$1.2 million).

Income from discontinued operations, net of minority interest

For the nine months ended September 30, 2007, Orbital Sciences Campus, Broad Run Business Park, Building E, Newport Office Park and Long Wharf Marriott were included as part of income from discontinued operations, net of minority interest.

Gains on sales of real estate from discontinued operations, net of minority interest

On March 23, 2007, we completed the sale of the Long Wharf Marriott, a 402-room hotel located in Boston, Massachusetts for a total sale price of \$231.0 million, or approximately \$575,000 per room. The net gain on sale was approximately \$162.3 million (net of minority interest of \$28.6 million). On April 5, 2007, we sold Newport Office Park, an approximately 172,000 net rentable square foot Class A office property located in Quincy, Massachusetts, for approximately \$37.0 million. Net cash proceeds totaled approximately \$33.7 million, resulting in a gain on sale of approximately \$11.5 million (net of minority interest share of approximately \$2.1 million.)

Comparison of the three months ended September 30, 2008 to the three months ended September 30, 2007.

The table below shows selected operating information for the Same Property Portfolio and the Total Property Portfolio. The Same Property Portfolio consists of 120 properties totaling approximately 29.5 million net rentable square feet of space. The Same Property Portfolio includes properties acquired or placed in-service on or prior to July 1, 2007 and owned through September 30, 2008. The Total Property Portfolio includes the effects of the other properties either placed in-service or acquired after July 1, 2007 or disposed of on or prior to September 30, 2008. There were no properties that were repositioned after July 1, 2007. This table includes a reconciliation from the Same Property Portfolio to the Total Property Portfolio by also providing information for the three months ended September 30, 2008 and 2007 with respect to the properties which were acquired, placed in-service or sold.

- (1) For a detailed discussion of NOI, including the reasons management believes NOI is useful to investors, see page 42. Hotel Net Operating Income for the three months ended September 30, 2008 and 2007 are comprised of Hotel Revenue of \$8,482 and \$8,646 less Hotel Expenses of \$6,318 and \$6,275 respectively per the Consolidated Statement of Operations.

Table of Contents**Rental Revenue**

The increase of approximately \$8.7 million in the Total Property Portfolio Rental Revenue is comprised of increases and decreases within the four categories that comprise our Total Property Portfolio. Rental revenue from the Same Property Portfolio decreased approximately \$1.8 million, Properties Sold decreased approximately \$1.9 million, Properties Acquired increased approximately \$0.7 million and Properties Placed In-Service increased approximately \$11.7 million.

Rental revenue from the Same Property Portfolio decreased approximately \$1.8 million for the three months ended September 30, 2008 compared to 2007. Included in same store rental revenue is an overall increase in contractual rental revenue of approximately \$11.4 million offset by a decrease of approximately \$22.7 million in straight-line rent. The decrease in straight-line rent is primarily due to the establishment of reserves for the full amount of the accrued straight-line rent balances associated with our leases in New York City with Lehman Brothers, Inc. and the law firm of Heller Ehrman LLP, totaling approximately \$21.0 million. Approximately \$9.4 million of the increase from the Same Property Portfolio was due to an increase in recoveries from tenants which correlates with the increase in operating expenses. The remaining \$0.1 million increase relates to parking and other income.

The acquisition of North First Business Park during 2007 and 635 Massachusetts Avenue during 2008 increased rental revenue from Properties Acquired by approximately \$0.7 million for the three months ended September 30, 2008 as detailed below:

Property	Date Acquired	Rental Revenue for the three months ended September 30,		
		2008	2007	Change
		(in thousands)		
North First Business Park	December 13, 2007	\$ 645	\$	\$ 645
635 Massachusetts Avenue	September 26, 2008	95		95
Total		\$ 740	\$	\$ 740

The increase in rental revenue from Properties Placed In-Service relates to fully placing in-service our 505 9th Street development project in the first quarter of 2008, partially placing in-service the 77 CityPoint and South of Market development projects during the first quarter of 2008, and partially placing in-service the One Preserve Parkway development project during the second quarter of 2008. Rental Revenue from Properties Placed In-Service increased approximately \$11.7 million, as detailed below:

Property	Date Placed In-Service	Rental Revenue for the three months ended September 30,		
		2008	2007	Change
		(in thousands)		
505 9 th Street	First Quarter, 2008	\$ 5,257	\$	\$ 5,257
South Of Market	First Quarter, 2008	5,685		5,685
77 CityPoint	First Quarter, 2008	417		417
One Preserve Parkway	Second Quarter, 2008	345		345
Total		\$ 11,704	\$	\$ 11,704

The aggregate increase in rental revenue was offset by the sale of Democracy Center in August 2007. This property has not been classified as discontinued operations due to our continuing involvement as the property manager. Rental Revenue from this property for the three months ended September 30, 2007 was \$1.9 million.

Table of Contents**Termination Income**

Termination income for the three months ended September 30, 2008 was related to four tenants across the Total Property Portfolio that terminated their leases and we recognized termination income totaling approximately \$1.3 million. This compared to termination income of approximately \$0.7 million for the three months ended September 30, 2007 related to six tenants.

Real Estate Operating Expenses

The \$14.2 million increase in property operating expenses (real estate taxes, utilities, insurance, repairs and maintenance, cleaning and other property-related expenses) in the Total Property Portfolio is comprised of increases and decreases within the four categories that comprise our Total Property Portfolio. Operating expenses for the Same Property Portfolio increased approximately \$11.8 million, Properties Sold decreased approximately \$0.8 million, Properties Acquired increased approximately \$0.3 million and Properties Placed In-Serviced increased approximately \$2.9 million.

Operating expenses from the Same Property Portfolio increased approximately \$11.8 million for the three months ended September 30, 2008 compared to 2007. Included in Same Property Portfolio operating expenses is an increase in real estate taxes of approximately \$4.7 million, or 11.0%, as, well as utility expense of approximately \$2.6 million, or 11.0%. The remaining increase of approximately \$4.5 million is related to repairs and maintenance and other property-related expenses.

The acquisitions of North First Business Park during 2007 and 635 Massachusetts Avenue during 2008 increased operating expenses from Properties Acquired by approximately \$0.3 million for the three months ended September 30, 2008 as detailed below:

Property	Date Acquired	Real Estate Operating Expenses for the three months ended September 30,		
		2008	2007	Change
		<i>(in thousands)</i>		
North First Business Park	December 13, 2007	\$ 251	\$	\$ 251
635 Massachusetts Avenue	September 26, 2008	30		30
Total		\$ 281	\$	\$ 281

The increase in operating expenses from Properties Placed In-Service relates to fully placing in-service our 505 9th Street development project in the first quarter of 2008, partially placing in-service the 77 CityPoint and South of Market development projects during the first quarter of 2008, and partially placing in-service the One Preserve Parkway development project during the second quarter of 2008. Operating Expenses from Properties Placed In-Service increased approximately \$2.9 million, as detailed below:

Property	Date Placed In-Service	Rental Revenue for the three months ended September 30,		
		2008	2007	Change
		<i>(in thousands)</i>		
505 9 th Street	First Quarter, 2008	\$ 1,417	\$	\$ 1,417
South Of Market	First Quarter, 2008	1,019		1,019
77 CityPoint	First Quarter, 2008	239		239
One Preserve Parkway	Second Quarter, 2008	203		203
Total		\$ 2,878	\$	\$ 2,878

A decrease of approximately \$0.8 million in the Total Property Portfolio operating expenses was due to the sale of Democracy Center in August 2007. This property has not been classified as discontinued operations due to our continuing involvement as the property manager.

Table of Contents

We continue to review and monitor the impact of rising insurance, labor and energy costs, as well as other factors, on our operating budgets for fiscal year 2009. Because some operating expenses are not recoverable from tenants, an increase in operating expenses due to one or more of the foregoing factors could have an adverse effect on our results of operations.

Hotel Net Operating Income

Net operating income for the Cambridge Center Marriott hotel property decreased by approximately \$0.2 million for the three months ended September 30, 2008 as compared to 2007.

The following reflects our occupancy and rate information for the Cambridge Center Marriott hotel for the three months ended September 30, 2008 and 2007.

	2008	2007	Percentage Change
Occupancy	85.0%	82.9%	2.5%
Average daily rate	\$ 212.19	\$ 229.81	(7.7)%
Revenue per available room, REVPAR	\$ 180.29	\$ 190.52	(5.4)%

Development and Management Services

Development and management services income increased approximately \$4.2 million for the three months ended September 30, 2008 compared to 2007. The increase is primarily attributed to \$2 million of acquisition fees and approximately \$1.2 million of ongoing management fees from our joint ventures that acquired the General Motors Building, 540 Madison Avenue, Two Grand Central Tower and 125 West 55th Street in New York City, as well as modestly higher construction management fees and tenant service income in New York.

Interest and Other Income

Interest and other income decreased approximately \$24.9 million for the three months ended September 30, 2008 compared to 2007 as a result of lower overall interest rates and decreased average cash balances. The average cash balances for the three months ended September 30, 2008 and September 30, 2007 were approximately \$103.6 million and \$1.9 billion, respectively. In addition, the average interest rate for the three months ended September 30, 2008 compared to September 30, 2007 decreased by approximately 3.10%.

Other Expenses***General and Administrative***

General and administrative expenses decreased approximately \$1.4 million for the three months ended September 30, 2008 compared to 2007. The decrease is due to lower than projected payroll taxes due to reduced stock option activity. In addition, due to the negative results in the broad equity market we also experienced a reduction in value in our deferred compensation plan which reduced general and administrative expense, although such amount was offset by a corresponding equivalent reduction in interest income. The decrease would have been greater had it not been for compensation expense associated with the 2008 OPP Awards which was approximately \$1.3 million and higher legal and accounting expenses.

On January 24, 2008, our compensation committee approved outperformance awards under the 1997 Plan to our officers and employees. These awards (the 2008 OPP Awards) are part of a new broad-based long-term incentive compensation program designed to provide our management team at several levels within the organization with the potential to earn equity awards subject to outperforming and creating shareholder value in a pay-for-performance structure. 2008 OPP Awards utilize total return to shareholders (TRS) over a three-year measurement period as the performance metric and include two years of time-based vesting after the end of the performance measurement period (subject to acceleration in certain events) as a retention tool. Recipients of

Table of Contents

2008 OPP Awards will share in an outperformance pool if our TRS, including both share appreciation and dividends, exceeds absolute and relative hurdles over a three-year measurement period from February 5, 2008 to February 5, 2011, based on the average closing price of a share of our common stock of \$92.8240 for the five trading days prior to and including February 5, 2008. The aggregate reward that recipients of all 2008 OPP Awards can earn, as measured by the outperformance pool, is subject to a maximum cap of \$110 million, although only awards for an aggregate of up to approximately \$104.8 million have been granted to date. The balance remains available for future grants. Under Statement of Financial Accounting Standards No. 123(R) Share-Based Payment, the 2008 OPP Awards have an aggregate value of approximately \$19.7 million, which amount will generally be amortized into earnings over the five-year plan period (although awards for retirement-eligible employees will be amortized over a three-year period). Because the 2008 OPP Awards require us to outperform absolute and relative return thresholds, unless such thresholds have been met by the end of the applicable reporting period, we will exclude all contingently issuable shares from the diluted EPS calculation. See Note 12 to the Consolidated Financial Statements. Compensation expense associated with the 2008 OPP Awards was approximately \$1.3 million for the three months ended September 30, 2008.

Commencing in 2003, we issued restricted stock and/or LTIP Units, as opposed to granting stock options and restricted stock, under the 1997 Plan as the primary vehicle for employee equity compensation. An LTIP Unit is generally the economic equivalent of a share of our restricted stock. Employees vest in restricted stock and LTIP Units over a four- or five-year term (for awards granted between 2003 and November 2006, vesting is over a five-year term with annual vesting of 0%, 0%, 25%, 35% and 40%; and for awards granted after November 2006, vesting occurs in equal annual installments over a four-year term). Restricted stock and LTIP Units are valued based on observable market prices for similar instruments. Such value is recognized as an expense ratably over the corresponding employee service period. LTIP Units that were issued in January 2005 and any future LTIP Unit awards will be valued using an option pricing model in accordance with the provisions of SFAS No. 123R. To the extent restricted stock or LTIP Units are forfeited prior to vesting, the corresponding previously recognized expense is reversed as an offset to stock-based compensation. Stock-based compensation associated with approximately \$27.6 million of restricted stock and LTIP Units granted in February 2008 and approximately \$18.5 million of restricted stock and LTIP Units granted in January 2007 will be incurred ratably over the four-year vesting period. Stock-based compensation associated with approximately \$11.3 million of restricted stock and LTIP Units granted in April 2006 will be incurred ratably over the five-year vesting period.

Interest Expense

Interest expense for the Total Property Portfolio decreased approximately \$1.6 million for the three months ended September 30, 2008 compared to 2007. The decrease is primarily due to (1) the repayment of our mortgages for the Prudential Center, Reston Corporate Center, 504, 506, 508 and 510 Carnegie Center and Embarcadero Center One, Two and Four, which decreased interest expense by an aggregate of approximately \$7.1 million, and (2) an increase in capitalized interest costs, which decreased interest expense by approximately \$2.9 million. These decreases were offset by (1) an increase of approximately \$3.7 million related to the consolidation of our 505 9th Street joint venture property due to the involvement we now have because the property is operating and the partial placement in-service of our South of Market development project, (2) an increase of approximately \$3.5 million related to interest paid on the \$747.5 million unsecured exchangeable senior notes issued by our Operating Partnership in the third quarter of 2008 at an effective per annum interest rate of 4.057%, and (3) an increase of approximately \$2.4 million related to the borrowings under the Unsecured Line of Credit. The remaining decrease is attributed to scheduled loan amortization on our outstanding debt.

On May 9, 2008, the FASB issued FASB Staff Position No. APB 14-1 Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement) (FSP No. APB 14-1). This pronouncement and the estimated effect that it will have on interest expense is discussed in Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Newly Issued Accounting Standards.

Table of Contents

At September 30, 2008, our variable rate debt consisted of our construction loans at South of Market, Democracy Tower (formerly South of Market Phase II) and Wisconsin Place Office construction projects, as well as our borrowings under our Unsecured Line of Credit. The following summarizes our outstanding consolidated debt as of September 30, 2008 and September 30, 2007:

	September 30,	
	2008	2007
	<i>(dollars in thousands)</i>	
Debt Summary:

Total	5.21%	5.62%

Depreciation and Amortization

Depreciation and amortization expense for the Total Property Portfolio increased approximately \$4.4 million for the three months ended September 30, 2008 compared to 2007. Approximately \$1.2 million related to an increase in the Same Property Portfolio, approximately \$0.6 million related to acquisition activity and the remaining increase of approximately \$2.6 million was attributed to Properties Placed In-Service.

Capitalized Costs

Costs directly related to the development of rental properties are not included in our operating results. These costs are capitalized and included in real estate assets on our Consolidated Balance Sheets and amortized over their useful lives. Capitalized development costs include interest, wages, property taxes, insurance and other project costs incurred during the period of development. Capitalized wages for the three months ended September 30, 2008 and 2007 were \$3.0 million and \$2.6 million, respectively. These costs are not included in the general and administrative expenses discussed above. We expect capitalized wages to slightly increase with our increased development activity into 2009. Interest capitalized for the three months ended September 30, 2008 and 2007 was \$11.3 million and \$8.4 million, respectively. These costs are not included in the interest expense referenced above.

Net derivative losses

On September 9, 2008, we executed an interest rate lock agreement with lenders at an all-in fixed rate, inclusive of the credit spread, of 6.10% per annum for an eight-year, \$375.0 million loan collateralized by our Four Embarcadero Center property located in San Francisco, California. Our interest rate hedging program contemplated a financing with a ten-year term and, as a result, under SFAS No. 133, we recognized a net derivative loss of approximately \$6.3 million representing the partial ineffectiveness of our interest rate contracts.

Losses from early extinguishments of debt

In conjunction with the sale of Democracy Center in Bethesda, Maryland on August 7, 2007, we repaid the mortgage financing collateralized by the property totaling approximately \$94.6 million. We paid a prepayment

Table of Contents

fee of approximately \$2.6 million associated with the repayment. We recognized a loss from early extinguishment of debt totaling approximately \$2.7 million consisting of the prepayment fee and the write-off of unamortized deferred financing costs.

Minority interests in property partnerships

Minority interests in property partnerships for the three months ended September 30, 2008 consists of the outside equity owners' interests in the income from our 505 9th Street property as well as our Wisconsin Place Office property.

Income from Unconsolidated Joint Ventures

For the three months ended September, 2008 compared to 2007, income from unconsolidated joint ventures increased by \$1.3 million. On June 9, 2008, we completed the acquisition of the General Motors Building for a purchase price of approximately \$2.8 billion. On August 12, 2008, we completed the acquisitions of 540 Madison Avenue and Two Grand Central Tower located in New York City, New York for an aggregate purchase price of approximately \$705.0 million. On August 13, 2008, we completed the acquisition of 125 West 55th Street located in New York City, New York for an aggregate purchase price of \$444.0 million. Each acquisition was completed through a joint venture among us, US Real Estate Opportunities I, L.P., which is a partnership managed by Goldman Sachs, and Meraas Capital LLC, a Dubai-based private equity firm. We have a 60% interest in the venture and provide customary property management and leasing services for the venture.

The following table presents actual financial information for the joint ventures for the three months and stub period ended September 30, 2008 for The General Motors Building and 540 Madison Avenue, Two Grand Central Tower and 125 West 55th Street, respectively. These acquisitions will impact our income from unconsolidated joint ventures in future periods.

	The General Motors Building Three months September 30, 2008 (in thousands)	540 Madison Avenue, Two Grand Central Tower, 125 West 55th Street For the period from August 12, 2008 September 30, 2008(1) (in thousands)

(1) Information for 125 West 55th Street is presented for the period of August 13, 2008 through September 30, 2008.

Table of Contents

Minority interest in Operating Partnership

Minority interest in Operating Partnership decreased by approximately \$4.5 million for the three months ended September 30, 2008 compared to 2007 primarily due to decrease in allocable income.

Gains on sales of real estate, net of minority interest

On August 7, 2007, we sold Democracy Center in Bethesda, Maryland for approximately \$280.5 million. Net cash proceeds totaled approximately \$184.5 million, after the repayment of the mortgage indebtedness of approximately \$94.6 million and closing costs of approximately \$1.4 million, resulting in a gain on sale of approximately \$168.3 million, (net of minority interest share of approximately \$29.9 million). Due to our continuing involvement through an agreement with the buyer to manage the property for a fee after the sale, this property has not been categorized as discontinued operations.

On April 14, 2008, we sold a parcel of land located in Washington, D.C. for approximately \$33.7 million. We had previously entered into a development management agreement with the buyer to develop a Class A office property on the parcel totaling approximately 165,000 net rentable square feet. Due to our involvement in the construction of the project, the gain on sale estimated to total \$23.4 million has been deferred and will be recognized over the project construction period generally based on the percentage of total project costs incurred to estimated total project costs. As a result, we recognized a gain on sale during the three months ended September 30, 2008 of approximately \$1.5 million (net of minority interest share of approximately \$0.3 million).

Income from discontinued operations, net of minority interest

For the three months ended September 30, 2007, Orbital Science Campus, and Broad Run Business Park, Building E, were included as part of income from discontinued operations, net of minority interest.

Liquidity and Capital Resources

General

Our principal liquidity needs for the next twelve months are to:

fund normal recurring expenses;

fund current development project costs of approximately \$312.8 million not covered under construction loans;

meet debt service and principal repayment obligations, including balloon payments on maturing debt;

fund capital expenditures, including tenant improvements and leasing costs;

fund possible property acquisitions; and

make the minimum distribution required to maintain our REIT qualification under the Internal Revenue Code of 1986, as amended. We have approximately \$245.4 million of loans that mature in 2009. The largest single maturity is a \$177.2 million loan secured by South of Market, and the Company has two, one-year extensions at LIBOR plus 1.00% per annum.

Edgar Filing: BOSTON PROPERTIES INC - Form 10-Q

On December 17, 2007, our Board of Directors declared a special cash dividend of \$5.98 per common share that was paid on January 30, 2008 to shareholders of record as of the close of business on December 31, 2007. The decision to declare a special dividend was the result of the sales of assets in 2007, including 5 Times Square, Orbital Sciences Campus, Broad Run Business Park Building E, Worldgate Plaza and Newport Office Park. The Board of Directors did not make any change in our policy with respect to regular quarterly dividends. The payment of the regular quarterly dividend of \$0.68 per share and the special dividend of \$5.98 per share resulted in a total payment of \$6.66 per share on January 30, 2008.

Table of Contents

We believe that our liquidity needs will be satisfied using our cash on hand, cash flows generated by operations, availability under our Unsecured Line of Credit and cash flows provided by other financing activities. We may also generate cash from asset sales. Contractual rental revenue, recovery income from tenants, other income from operations, available cash balances, draws on our Unsecured Line of Credit and refinancing of maturing indebtedness are our principal sources of capital used to pay operating expenses, debt service, recurring capital expenditures and the minimum distribution required to maintain our REIT qualification. We seek to increase income from our existing properties by maintaining quality standards for our properties that promote high occupancy rates and permit increases in rental rates while reducing tenant turnover and controlling operating expenses. Our sources of revenue also include third-party fees generated by our office real estate management, leasing, development and construction businesses. Consequently, we believe our revenue, together with proceeds from financing activities, will continue to provide the necessary funds for our short-term liquidity needs. However, material changes in these factors may adversely affect our net cash flows. Such changes, in turn, could adversely affect our ability to fund distributions, debt service payments, tenant improvements and leasing commissions. In addition, a material adverse change in our cash provided by operations may affect our ability to comply with the financial performance covenants under our Unsecured Line of Credit and unsecured senior notes.

Our principal liquidity needs for periods beyond twelve months are for the costs of developments, possible property acquisitions, scheduled debt maturities, major renovations, expansions and other non-recurring capital improvements. We expect to satisfy these needs using one or more of the following:

construction loans;

long-term secured and unsecured indebtedness (including unsecured exchangeable indebtedness);

income from operations;

income from joint ventures;

sales of real estate,

issuances of our equity securities and/or additional preferred or common units of partnership interest in our Operating Partnership;
and

our Unsecured Line of Credit or other short-term bridge facilities.

We draw on multiple financing sources to fund our long-term capital needs. Our Unsecured Line of Credit is utilized primarily as a bridge facility to fund acquisition opportunities, to refinance outstanding indebtedness and to meet short-term development and working capital needs. We generally fund our development projects with construction loans that may be partially guaranteed by our Operating Partnership until project completion or lease-up thresholds are achieved.

Table of Contents

The following table presents information on properties under construction for the period ended September 30, 2008:

Construction Properties	Location	# of Buildings	Square feet	Investment to Date(1)(2)	Estimated Total Investment(1)(2)	Percentage Leased(3)
77 CityPoint (formerly 77 Fourth Avenue)	Waltham, MA	1	210,000	\$ 74,037,852	\$ 79,707,173	100%
South of Market (Phase I)(4)	Reston, VA	3	652,000	189,404,025	213,800,000	84%
One Preserve Parkway	Rockville, MD	1	183,000	45,252,748	60,536,931	20%
Annapolis Junction (50% ownership)(4)	Annapolis, MD	1	117,600	24,801,585	32,600,000	0%
Wisconsin Place (66.67% ownership)(4)(5)	Chevy Chase, MD	1	290,000	65,858,280	93,500,000	55%
Democracy Tower(4)(6)	Reston, VA	1	225,000	48,941,687	87,200,000	100%
701 Carnegie Center	Princeton, NJ	1	120,000	11,032,666	34,000,000	100%
250 West 55 th Street	New York, NY	1	1,000,000	401,679,637	980,000,000	22%
280 Congress Street (Russia Wharf)(7)	Boston, MA	2	815,000	192,411,591	550,000,000	78%(9)
2200 Pennsylvania Avenue(8)	Washington, DC	2	780,000	28,784,736	380,000,000	0%
Total Properties under Construction		14	4,392,600	\$ 1,082,204,807	\$ 2,511,344,104	51%(9)

(1) Represents our share.

(2) Includes net revenue during lease up period.

(3) Represents percentage leased as of October 27, 2008.

(4) Property has a construction loan.

(5) Includes approximately \$38.3 million of land and infrastructure costs invested to date.

(6) This property was formerly South of Market Phase-II.

(7) Includes 235,000 square feet of residential space for rent or for sale and 28,000 square feet of retail space.

(8) Includes 330,000 square feet of residential space for rent or sale.

(9) Percentage Leased excludes 235,000 square feet of residential space and includes 28,000 square feet of retail space.

In total, our existing construction loans on the above projects have \$107.9 million remaining to be drawn out of a total of \$364.5 million.

To the extent that we sell assets and cannot efficiently use the proceeds for either our development activities or attractive acquisitions, we would, at the appropriate time, decide whether it is better to declare a special dividend, adopt a stock repurchase program, reduce our indebtedness or retain the cash for future investment opportunities. Such a decision will depend on many factors including, among others, the timing, availability and terms of development and acquisition opportunities, our then-current and anticipated leverage, the price of our common stock and REIT distribution requirements. At a minimum, we expect that we would distribute at least that amount of proceeds necessary for us to avoid paying corporate level tax on the applicable gains realized from any asset sales.

Cash Flow Summary

The following summary discussion of our cash flows is based on the Consolidated Statements of Cash Flows and is not meant to be an all-inclusive discussion of the changes in our cash flows for the periods presented below.

Cash and cash equivalents were approximately \$0.06 billion and \$1.9 billion at September 30, 2008 and 2007, respectively, representing a decrease of approximately \$1.8 billion. The cash and cash equivalents balance as of November 3, 2008 was approximately \$230 million. The following table sets forth increases and decreases in cash flows:

	Nine months ended September 30,		
	2008	2007 (in thousands)	Increase (Decrease)
Net cash provided by operating activities	\$ 362,959	\$ 453,123	\$ (90,164)

Edgar Filing: BOSTON PROPERTIES INC - Form 10-Q

Net cash provided (used in) by investing activities	(1,213,117)	1,053,709	(2,266,826)
Net cash used in financing activities	(601,166)	(338,422)	(262,744)

Table of Contents

Our principal source of cash flow is related to the operation of our office properties. The average term of our in-place tenant leases, including our unconsolidated joint ventures, is approximately 7.2 years with occupancy rates historically in the range of 92% to 98%. Our properties provide a relatively consistent stream of cash flow that provides us with resources to pay operating expenses, and debt service and fund quarterly dividend and distribution payment requirements. In addition, over the past two years, we have raised capital through the sale of some of our properties and raised proceeds from secured and unsecured borrowings.

In 2007, our total dividends exceeded our cash flow from operating activities due to the special dividend which was declared in December 2006 and paid to common stockholders and common unitholders of our Operating Partnership on January 30, 2007. The cash flows distributed were generated from sales of real estate assets and proceeds from the sales are included as part of cash flows from investment activities. We expect that in 2008 our total dividends will exceed our cash flow from operating activities due to the special dividend paid in January 2008. Dividends will generally exceed cash flows from operating activities during periods in which we sell significant real estate assets and distribute gains on sale that would otherwise be taxable.

Cash is used in investing activities to fund acquisitions, development and recurring and nonrecurring capital expenditures. We selectively invest in new projects that enable us to take advantage of our development, leasing, financing and property management skills and invest in existing buildings that meet our investment criteria. Cash used in investing activities for the nine months ended September 30, 2008 consisted of the following:

	Nine months ended September 30, 2008 (in thousands)
Net proceeds from the sales of properties	\$ 127,730
Proceeds from the sale/financing of real estate released from escrow	149,382
Proceeds from note receivable	123,000
Issuance of note receivable	(270,000)
Proceeds from redemptions of investment securities	12,929
Net investments in unconsolidated joint ventures	(890,593)
Acquisitions/additions to real estate	(465,565)
Net cash used in investing activities	\$ (1,213,117)

Cash used in financing activities for the nine months ended September 30, 2008 totaled approximately \$601.2 million. This consisted primarily of the payments of dividends and distributions to shareholders and the unitholders of our Operating Partnership, including the special cash dividend of \$5.98 per share paid in January 2008, borrowings under our Unsecured Line of Credit, the offering of our 3.625% exchangeable senior notes due 2014, and the net repayment of mortgage notes payable. Future debt payments are discussed below under the heading Debt Financing.

Capitalization

At September 30, 2008, our total consolidated debt was approximately \$6.1 billion. The GAAP weighted-average annual interest rate on our consolidated indebtedness was 5.21% and the weighted-average maturity was approximately 4.8 years.

Consolidated debt to total consolidated market capitalization ratio, defined as total consolidated debt as a percentage of the market value of our outstanding equity securities plus our total consolidated debt, is a measure of leverage commonly used by analysts in the REIT sector. Our total consolidated market capitalization was approximately \$19.5 billion at September 30, 2008. Total consolidated market capitalization was calculated using the September 30, 2008 closing stock price of \$93.66 per common share and the following: (1) 119,851,868 shares of our common stock, (2) 20,195,785 outstanding common units of partnership interest in Boston Properties Limited Partnership (excluding common units held by Boston Properties, Inc.), (3) an aggregate of 1,460,688 common units issuable upon conversion of all outstanding Series Two Preferred Units of partnership interest in Boston Properties Limited Partnership, (4) an aggregate of 946,369 common units issuable upon

Table of Contents

conversion of all outstanding LTIP Units, assuming all conditions have been met for the conversion of the LTIP Units, and (5) our consolidated debt totaling approximately \$6.1 billion. The calculation of total consolidated market capitalization does not include 1,085,861 2008 OPP Units because, unlike other LTIP Units, they are not earned until certain return thresholds are achieved. Our total consolidated debt, which excludes debt collateralized by our unconsolidated joint ventures, at September 30, 2008 represented approximately 31.42% of our total consolidated market capitalization. This percentage will fluctuate with changes in the market price of our common stock and does not necessarily reflect our capacity to incur additional debt to finance our activities or our ability to manage our existing debt obligations. However, for a company like ours, whose assets are primarily income-producing real estate, the consolidated debt to total consolidated market capitalization ratio may provide investors with an alternate indication of leverage, so long as it is evaluated along with other financial ratios and the various components of our outstanding indebtedness.

For a discussion of our unconsolidated joint venture indebtedness, see [Off Balance Sheet Arrangements](#) [Joint Venture Indebtedness](#).

Debt Financing

As of September 30, 2008, we had approximately \$6.1 billion of outstanding consolidated indebtedness, representing 31.42% of our total consolidated market capitalization as calculated above consisting of (1) \$1.472 billion (net of discount) in publicly traded unsecured debt having a weighted-average interest rate of 6.03% per annum and maturities in 2013 and 2015; (2) \$450 million of publicly traded exchangeable unsecured debt having an interest rate of 3.75% per annum, an initial optional redemption date in 2013 and maturity in 2036; (3) \$847.3 million (net of discount) of publicly traded exchangeable unsecured debt having an interest rate of 2.875% per annum (an effective rate of 3.462% per annum) having an initial optional redemption date in 2012 and maturing in 2037; (4) \$740.2 million (net of discount) of publicly traded exchangeable unsecured debt having an interest rate of 3.625% per annum (an effective rate of 4.057%) having an initial optional redemption and maturity in 2014; (5) \$2.3 billion of property-specific mortgage debt having a GAAP weighted-average interest rate of 6.07% per annum and weighted-average term of 5.3 years; and (6) \$319 million drawn on our Unsecured Line of Credit. The table below summarizes our mortgage notes payable, our senior unsecured notes and our Unsecured Line of Credit at September 30, 2008 and September 30, 2007:

	September 30,	
	2008	2007
	(dollars in thousands)	
Debt Summary:		
Balance		
Fixed rate mortgage notes payable	\$ 2,022,845	\$ 2,547,687
Variable rate mortgage notes payable	259,854	96,706
Unsecured senior notes, net of discount	1,472,258	1,471,801
Unsecured exchangeable senior notes, net of discount	2,037,506	1,293,074
Unsecured Line of Credit	319,000	
 Total	 \$ 6,111,463	 \$ 5,409,268
 Percent of total debt:		
Fixed rate	90.53%	98.21%
Variable rate	9.47%	1.79%
 Total	 100.00%	 100.00%
 GAAP Weighted-average interest rate at end of period:		
Fixed rate	5.26%	5.60%
Variable rate	4.80%	6.91%
 Total	 5.21%	 5.62%

The variable rate debt shown above bears interest based on various spreads over the London Interbank Offered Rate or Eurodollar rates. As of September 30, 2008, the weighted-average interest rate on our variable

Table of Contents

rate debt was LIBOR/Eurodollar plus 0.76% per annum. During 2007, we entered into an interest rate swap contract to fix the one-month LIBOR index rate at 4.57% per annum on a notional amount of \$96.7 million. The swap contract went into effect on October 22, 2007 and expired on October 29, 2008.

Unsecured Line of Credit

On June 6, 2008, our Operating Partnership utilized an accordion feature under its Unsecured Line of Credit with a consortium of lenders to increase the total commitment under the Unsecured Line of Credit from \$605.0 million to \$923.3 million. On July 21, 2008, our Operating Partnership further increased the total commitment to \$1.0 billion. All other material terms under the facility remain unchanged. Our Unsecured Line of Credit bears interest at a variable interest rate equal to Eurodollar plus 0.475% per annum and matures on August 3, 2010, with a provision for a one-year extension at our option, subject to certain conditions. The Unsecured Line of Credit is a recourse obligation of our Operating Partnership. Under the Unsecured Line of Credit, a facility fee equal to 0.125% per annum is payable in quarterly installments. The interest rate and facility fee are subject to adjustment in the event of a change in our Operating Partnership's unsecured debt ratings. The Unsecured Line of Credit involves a syndicate of lenders. The Unsecured Line of Credit contains a competitive bid option that allows banks that are part of the lender consortium to bid to make loan advances to the Company at a negotiated LIBOR-based rate. Our ability to borrow under our Unsecured Line of Credit is subject to our compliance with a number of customary financial and other covenants on an ongoing basis, including:

a leverage ratio not to exceed 60%, however the leverage ratio may increase to no greater than 65% provided that it is reduced back to 60% within 180 days;

a secured debt leverage ratio not to exceed 55%;

a fixed charge coverage ratio of at least 1.40;

an unsecured leverage ratio not to exceed 60%, however the leverage ratio may increase to no greater than 65% provided that it is reduced back to 60% within 180 days;

a minimum net worth requirement;

an unsecured debt interest coverage ratio of at least 1.75; and

limitations on permitted investments.

We believe we are in compliance with the financial and other covenants listed above.

As of September 30, 2008, we had borrowings of \$319.0 million and letters of credit totaling \$39.4 million outstanding under the Unsecured Line of Credit, with the ability to borrow \$641.6 million. As of November 3, 2008, we had borrowings of \$519.0 million outstanding under the Unsecured Line of Credit.

Unsecured Senior Notes

The following summarizes the unsecured senior notes outstanding as of September 30, 2008 (dollars in thousands):

Edgar Filing: BOSTON PROPERTIES INC - Form 10-Q

	Coupon/ Stated Rate	Effective Rate(1)	Principal Amount	Maturity Date(2)
10 Year Unsecured Senior Notes	6.250%	6.381%	\$ 750,000	January 15, 2013
10 Year Unsecured Senior Notes	6.250%	6.291%	175,000	January 15, 2013
12 Year Unsecured Senior Notes	5.625%	5.693%	300,000	April 15, 2015
12 Year Unsecured Senior Notes	5.000%	5.194%	250,000	June 1, 2015
Total principal			1,475,000	
Net discount			(2,742)	
Total			\$ 1,472,258	

- (1) Yield on issuance date including the effects of discounts on the notes.
(2) No principal amounts are due prior to maturity.

Table of Contents

Our unsecured senior notes are redeemable at our option, in whole or in part, at a redemption price equal to the greater of (i) 100% of their principal amount or (ii) the sum of the present value of the remaining scheduled payments of principal and interest discounted at a rate equal to the yield on U.S. Treasury securities with a comparable maturity plus 35 basis points (except the \$250 million 12 Year Unsecured Senior Notes that mature on June 1, 2015 are calculated at the U.S. Treasury yield plus 25 basis points), in each case plus accrued and unpaid interest to the redemption date. The indenture under which our senior unsecured notes were issued contains restrictions on incurring debt and using our assets as security in other financing transactions and other customary financial and other covenants, including (1) a leverage ratio not to exceed 60%, (2) a secured debt leverage ratio not to exceed 50%, (3) an interest coverage ratio of 1.5, and (4) unencumbered asset value to be no less than 150% of our unsecured debt. As of September 30, 2008, we were in compliance with each of these financial restrictions and requirements.

Our Operating Partnership's investment grade ratings on its senior unsecured notes are as follows:

Rating Organization	Rating
Moody's	Baa2 (stable)
Standard & Poor's	A-(stable)
Fitch Ratings	BBB (stable)

The security rating is not a recommendation to buy, sell or hold securities, as it may be subject to revision or withdrawal at any time by the rating organization. Each rating should be evaluated independently of any other rating.

Unsecured exchangeable senior notes

The following summarizes the unsecured exchangeable senior notes outstanding as of September 30, 2008 (dollars in thousands):

	Coupon/ Stated Rate	Effective Rate(1)	Exchange Rate	Principal Amount	First Optional Redemption Date by Company	Maturity Date
3.625% Unsecured Exchangeable Senior Notes	3.625%	4.057%	8.5051(2)	\$ 747,500	N/A	February 15, 2014
2.875% Unsecured Exchangeable Senior Notes	2.875%	3.462%	7.0430(3)	862,500	February 20, 2012	February 15, 2037
3.750% Unsecured Exchangeable Senior Notes	3.750%	3.787%	10.0066(4)	450,000	May 18, 2013	May 15, 2036
Total principal				2,060,000		
Net discount				(22,494)		
Total				\$ 2,037,506		

(1) Yield on issuance date including the effects of discounts on the notes.

(2) The initial exchange rate is 8.5051 shares per \$1,000 principal amount of the notes (or an initial exchange price of approximately \$117.58 per share of our common stock). In addition, we entered into capped call transactions with affiliates of certain of the initial purchasers, which are intended to reduce the potential dilution upon future exchange of the notes. The capped call transactions are expected to have the effect of increasing the effective exchange price to us of the notes from \$117.58 to approximately \$137.17 per share, representing an overall effective premium of approximately 40% over the closing price on August 13, 2008 of \$97.98 per share of our common stock. The net cost of the capped call transactions was approximately \$44.4 million.

Table of Contents

- (3) In connection with the special dividend of \$5.98 per share of common stock declared on December 17, 2007, the exchange rate was adjusted from 6.6090 to 7.0430 shares per \$1,000 principal amount of notes effective as of December 31, 2007, resulting in an exchange price of approximately \$141.98 per share of our common stock.
- (4) In connection with the special dividend of \$5.98 per share of common stock declared on December 17, 2007, the exchange rate was adjusted from 9.3900 to 10.0066 shares per \$1,000 principal amount of notes effective as of December 31, 2007, resulting in an exchange price of approximately \$99.93 per share of our common stock.

3.625% Exchangeable Senior Notes due 2014

On August 19, 2008, our Operating Partnership completed an offering of \$747.5 million in aggregate principal amount (including \$97.5 million as a result of the exercise by the initial purchasers of their over-allotment option) of its 3.625% exchangeable senior notes due 2014. The notes were priced at 99.0% of their face amount, resulting in aggregate net proceeds to us, after deducting the initial purchasers' discounts and offering expenses, of approximately \$731.6 million, resulting in an effective interest rate of approximately 4.057% per annum. The notes mature on February 15, 2014, unless earlier repurchased, exchanged or redeemed.

On and after January 1, 2014, the notes will be exchangeable at any time prior to the close of business on the second scheduled trading day immediately preceding the maturity date at the option of the holders into cash up to their principal amount and, at the Operating Partnership's option, cash or shares of our common stock for the remainder, if any, of the exchange value in excess of such principal amount at the applicable exchange rate, which initially equals 8.5051 shares of our common stock per \$1,000 principal amount of the notes (equivalent to an exchange price of approximately \$117.58 per share of our common stock) and is subject to adjustment in certain circumstances. The initial exchange price of approximately \$117.58 per share of our common stock represents an approximately 20% premium to the closing price of our common stock on the New York Stock Exchange on August 13, 2008 of \$97.98 per share. Prior to the close of business on the scheduled trading day immediately preceding January 1, 2014, holders of the notes may only exchange their notes at their option under the following circumstances: (1) during the five business day period after any 10 consecutive trading day period (the "measurement period") in which the trading price per \$1,000 principal amount of notes for each trading day of that measurement period was less than 98% of the product of the last reported sale price of our common stock and the exchange rate on each such day; (2) during any fiscal quarter beginning after the fiscal quarter ended September 30, 2008 if the last reported sale price of our common stock for each of at least 20 trading days in the 30 consecutive trading days ending on, and including, the last day of the preceding fiscal quarter is more than 130% of the applicable exchange price for the notes on the last day of such preceding fiscal quarter; (3) if the Operating Partnership has called such notes for redemption to preserve our status as a real estate investment trust and the redemption has not yet occurred; (4) in connection with specified corporate transactions, including a fundamental change; or (5) if our common stock is delisted. The notes may be accelerated upon an event of default as described in Supplemental Indenture No. 7.

If we undergo a fundamental change, holders of the notes will have the option to require the Operating Partnership to purchase all or any portion of the notes at a purchase price equal to 100% of the principal amount of the notes to be purchased plus any accrued and unpaid interest to, but excluding, the fundamental change repurchase date. The Operating Partnership will pay cash for all notes so repurchased. The holders of the notes will have the right to exchange their notes at their option in connection with a fundamental change, and, if a fundamental change occurs, the exchange rate may be increased by up to 1.7011 shares of our common stock per \$1,000 principal amount of the notes, subject to adjustment in certain circumstances, for a holder who elects to exchange its notes in connection with the fundamental change. The number of additional shares by which the exchange rate will be increased will be determined by reference to a table included in the Operating Partnership's Supplemental Indenture No. 7, based on the date on which the fundamental change occurs or becomes effective and the price paid per share of our common stock in the transaction or event that constitutes such fundamental change. A fundamental change will be deemed to occur upon the consummation of any transaction or event

Table of Contents

(whether by means of an exchange offer, liquidation, tender offer, consolidation, merger, combination, reclassification, recapitalization or otherwise) in connection with which more than 50% of our common stock is exchanged for, converted into, acquired for or constitutes solely the right to receive, consideration which is not at least 90% common stock (or American Depositary Shares representing shares of common stock) that is either (1) listed on, or immediately after consummation of such transaction or event will be listed on, a United States national securities exchange; or (2) approved, or immediately after the transaction or event will be approved, for listing or quotation on any United States system of automated dissemination of quotations of securities prices similar to a United States national securities exchange.

The notes are senior unsecured obligations of the Operating Partnership and rank equally in right of payment to all existing and future senior unsecured indebtedness and senior in right of payment to any future subordinated indebtedness of the Operating Partnership. The notes effectively rank junior in right of payment to all existing and future secured indebtedness of the Operating Partnership to the extent of the value of the collateral securing such indebtedness. The notes are structurally subordinated to all liabilities of the subsidiaries of the Operating Partnership.

The Operating Partnership offered and sold the notes to the initial purchasers in reliance on the exemption from registration provided by Section 4(2) of the Securities Act of 1933. The initial purchasers then sold the notes to qualified institutional buyers pursuant to the exemption from registration provided by Rule 144A under the Securities Act. We relied on these exemptions from registration based in part on representations made by the initial purchasers.

In connection with the closing, we and the Operating Partnership entered into a Registration Rights Agreement (the "Registration Rights Agreement") with the initial purchasers. Under the Registration Rights Agreement, we and the Operating Partnership have agreed, for the benefit of the holders of the notes, to register the resale of the Common Stock, if any, issued upon exchange of the notes on a shelf registration statement filed with the Securities and Exchange Commission. We and the Operating Partnership may be required to pay liquidated damages of up to 0.50% per annum of additional interest to the holders of the notes if we and the Operating Partnership fail to meet certain deadlines or take certain actions relating to the registration of our common stock issuable upon exchange of the notes. Neither us nor the Operating Partnership will be required to pay liquidated damages with respect to any note after it has been exchanged. Additionally, pursuant to Supplemental Indenture No. 7, to the extent that any shares of our common stock issued upon exchange of the notes are not covered by a resale registration statement that is effective on the date of the exchange and certain other conditions have been met, we must deliver 0.03 additional shares of our common stock upon exchange of the notes for each of such shares.

In connection with the sale of the notes, we and the Operating Partnership and also entered into capped call transactions (together, the "Capped Call Transaction") with affiliates of certain of the initial purchasers (Bank of America, N.A., Deutsche Bank AG, JPMorgan and Morgan Stanley) (the "Option Counterparties"). Pursuant to the Capped Call Transaction, the Operating Partnership will have the right to cause the Option Counterparties to deliver shares of our common stock to the Operating Partnership upon exchange of the notes if the value per share of the Company's common stock, as measured under the terms of the Capped Call Transaction, at the time of settlement exceeds an initial strike price of approximately \$117.58 per share, subject to certain adjustments similar to those contained in the notes. The Capped Call Transaction is intended to reduce the potential dilution upon future exchange of the notes in the event that the market value per share of our common stock, as measured under the terms of the Capped Call Transaction, at the time of settlement is greater than the strike price of the Capped Call Transaction. If the market value per share of our common stock, as measured under the terms of the Capped Call Transaction, at the time of settlement exceeds the cap price of the Capped Call Transaction (which is initially equal to approximately \$137.17 per share), the dilution mitigation will be limited and there would be dilution to the extent that the market value per share of our common stock exceeds the cap price. The Capped Call Transaction is expected to have the effect of increasing the effective exchange price to the Operating Partnership of the notes to the cap price of the Capped Call Transaction, which represents an initial effective

Table of Contents

premium of approximately 40% over the closing price of our common stock on the New York Stock Exchange on August 13, 2008 of \$97.98 per share. The Capped Call Transaction comprises separate contracts entered into by us and the Operating Partnership and with the Option Counterparties and is not part of the terms of the notes and will not affect the holders' rights under the notes. The net cost of the Capped Call Transaction was approximately \$44.4 million, which was recorded as a reduction to stockholders' equity.

Mortgage Notes Payable

The following represents the outstanding principal balances due under the mortgages notes payable at September 30, 2008:

Properties	GAAP Interest Rate(1)	Principal Amount (in thousands)	Maturity Date
599 Lexington Avenue	5.41%	\$ 750,000(2)(3)	March 1, 2017
Citigroup Center	7.24%	478,748(4)	May 11, 2011
South of Market	5.21%	177,205(3)(5)	November 21, 2009

Bedford Business Park	8.60%	16,141(16)	December 10, 2008
Total		\$ 2,282,699	

- (1) GAAP interest rate differs from the stated interest rate due to the inclusion of the amortization of financing charges and adjustments required by EITF 98-1. All adjustments related to EITF 98-1 are noted below.
- (2) On December 19, 2006, we terminated the forward-starting interest rate swap contracts related to this financing and received approximately \$10.9 million, which amount will reduce our interest expense for this mortgage over the term of the financing, resulting in an effective interest rate of 5.41% per annum for the financing. The stated interest rate is 5.57% per annum. The mortgage loan requires interest only payments with a balloon payment due at maturity.
- (3) The mortgage loan requires interest only payments with a balloon payment due at maturity.
- (4) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon redemption of the outside members' equity interest in the limited liability company that owns the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$477.1 million and the stated interest rate was 7.19% per annum.
- (5) The construction financing bears interest at a variable rate equal to LIBOR plus 1.00% per annum and matures on November 21, 2009 with two, one year extension options. In addition, we entered into an interest rate swap contract to fix the one-month LIBOR index rate at 4.57% per annum on a notional amount of

Table of Contents

- \$96.7 million. The swap contract went into effect on October 22, 2007 and expired on October 29, 2008.
- (6) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$70.1 million and the stated interest rate was 7.75% per annum.
 - (7) The construction financing bears interest at a variable rate equal to LIBOR plus 1.25% per annum and matures on January 29, 2011 with two, one-year extension options.
 - (8) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$52.2 million and the stated interest rate was 7.51% per annum.
 - (9) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$47.8 million and the stated interest rate was 7.58% per annum.
 - (10) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$48.7 million and the stated interest rate was 7.0% per annum.
 - (11) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$41.1 million and the stated interest rate was 5.99% per annum.
 - (12) Includes outstanding indebtedness secured by 91 Hartwell Avenue.
 - (13) Includes outstanding principal in the amounts of \$17.8 million, \$3.1 million and \$1.2 million which bear interest at fixed rates of 6.70%, 8.54% and 6.75% per annum, respectively.
 - (14) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$19.6 million and the stated interest rate was 5.96% per annum.
 - (15) The construction financing bears interest at a variable rate equal to LIBOR plus 1.75% per annum and matures on December 19, 2010 with two one-year extension options.
 - (16) This loan was repaid on November 10, 2008.

Table of Contents*Off Balance Sheet Arrangements- Joint Venture Indebtedness*

We have investments in twelve unconsolidated joint ventures (including our investment in the Value-Added Fund) with our effective ownership interests ranging from 5% to 60%. Eleven of these ventures have mortgage indebtedness. We exercise significant influence over, but do not control, these entities and therefore they are presently accounted for using the equity method of accounting. See also Note 4 to the Consolidated Financial Statements. At September 30, 2008, the aggregate debt, including both ours and our partners' share, incurred by these ventures was approximately \$3.183 billion. The table below summarizes the outstanding debt of these joint venture properties at September 30, 2008:

Properties	Venture Ownership %	GAAP Interest Rate	Principal Amount (in thousands)	Maturity Date
General Motors Building				
Secured 1 st Mortgage	60%	6.50%	\$ 1,245,033(1)	October 7, 2017
Mezzanine Loan	60%	8.00%	262,074(2)(3)	October 7, 2017

One & Two Circle Star Way	25%	6.57%	42,000(10)	September 1, 2013
300 Billerica Road	25%	5.69%	7,500(10)	January 1, 2016
Wisconsin Place Retail	5%	5.78%	47,286(13)	March 29, 2010
Total			\$ 3,182,917	

- (1) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$1.3 billion and the stated interest rate was 5.95% per annum.
- (2) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$306.0 million and the stated interest rate was 6.02% per annum.
- (3) Principal amount does not include the assumed mezzanine loan with an aggregate principal amount of \$294.0 million and a stated rate of 6.02% per annum, as the venture acquired the lenders' interest in this loan for a purchase price of approximately \$263.1 million in cash.
- (4) In connection with the capitalization of the joint venture, loans in an aggregate of \$450.0 million were funded by the venture's partners on a pro-rata basis. Our share of the partner loans totaling \$270.0 million has been reflected in Related Party Note Receivable on our Consolidated Balance Sheets.
- (5) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$200.0 million and the stated interest rate was 5.75% per annum.
- (6) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$63.5 million and the stated interest rate was 7.81% per annum.

Table of Contents

- (7) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$190.0 million and the stated interest rate was 5.10% per annum.
- (8) In accordance with EITF 98-1, the principal amount and interest rate shown were adjusted upon acquisition of the property to reflect the fair value of the note. The stated principal balance at September 30, 2008 was \$119.9 million and the stated interest rate was 5.20% per annum.
- (9) The financing bears interest at a variable rate equal to LIBOR plus 2.25% per annum. On May 8, 2008, the maturity date of the loan was extended to May 8, 2009.
- (10) This property is owned by the Value-Added Fund.
- (11) Mortgage financing totals \$26.0 million (of which \$24.0 million has been disbursed as of September 30, 2008) The mortgage bears interest at a variable rate of LIBOR plus 1.50% and matures on March 31, 2011 with two, one-year extension options. The Value-Added Fund has entered into an interest rate swap contract to fix the one-month LIBOR index rate at 4.085% per annum on a notional amount of \$24 million. The swap contract went into effect on June 12, 2008 and expires on March 31, 2011.
- (12) Mortgage financing totals \$120.0 million (of which \$103.0 million was drawn at closing, with the remaining \$17.0 million available to fund future tenant and capital costs). During the three months ended September 30, 2008, the Value-Added Fund obtained draws aggregating approximately \$0.8 million to fund tenant and capital costs. The mortgage bears interest at a variable rate of LIBOR plus 1.75% and matures on May 31, 2011 with two, one-year extension options. The Value-Added Fund has entered into three interest rate swap contracts to fix the one-month LIBOR index rate at 3.63% per annum on an aggregate notional amount of \$103 million. The swap contracts went into effect on June 2, 2008 and expire on April 1, 2011.
- (13) Amount represents outstanding construction financing under a \$66.0 million loan commitment collateralized by the retail entity of Wisconsin Place. Wisconsin Place is a mixed-use development project consisting of office, retail and residential properties located in Chevy Chase, Maryland. The construction financing bears interest at a variable rate equal to LIBOR plus 1.375% per annum and matures on March 29, 2010 with two, one-year extension options.

State and Local Tax Matters

Because we are organized and qualify as a REIT, we are generally not subject to federal income taxes, but subject to certain state and local taxes. In the normal course of business, certain entities through which we own real estate either have undergone, or are currently undergoing, tax audits or other inquiries. Although we believe that we have substantial arguments in favor of our positions in the ongoing audits, in some instances there is no controlling precedent or interpretive guidance on the specific point at issue. Collectively, tax deficiency notices received to date from the jurisdictions conducting the ongoing audits have not been material. However, there can be no assurance that future audits will not occur with increased frequency or that the ultimate result of such audits will not have a material adverse effect on our results of operations.

Insurance

We carry insurance coverage on our properties of types and in amounts and with deductibles that we believe are in line with coverage customarily obtained by owners of similar properties. In response to the uncertainty in the insurance market following the terrorist attacks of September 11, 2001, the Federal Terrorism Risk Insurance Act (as amended, TRIA) was enacted in November 2002 to require regulated insurers to make available coverage for certified acts of terrorism (as defined by the statute). The expiration date of TRIA was extended to December 31, 2014 by the Terrorism Risk Insurance Program Reauthorization Act of 2007 (TRIPRA). Prior to TRIPRA, only acts of foreign terrorism could be certified for coverage under TRIA. Under TRIPRA, acts of both foreign and domestic terrorism can be certified for coverage under TRIA. Currently, the Company's property insurance program per occurrence limits are \$1 billion for our portfolio insurance program, including coverage for both foreign and domestic acts of terrorism certified under TRIA. We currently insure certain properties, including the General Motors Building located at 767 Fifth Avenue in New York, New York (767 Fifth Avenue), in a separate stand alone insurance program. The property insurance program per occurrence

Table of Contents

limits for 767 Fifth Avenue are \$1.625 billion, including coverage for both foreign and domestic acts of terrorism certified under TRIA, with \$1.375 billion of coverage for losses in excess of \$250 million being provided by NYXP, LLC, as a direct insurer. We also currently carry nuclear, biological, chemical and radiological terrorism insurance coverage (NBCR Coverage) for both foreign and domestic acts of terrorism certified under TRIA, which is provided by IXP, LLC as a direct insurer, excluding our Value-Added Fund properties. The per occurrence limit for NBCR Coverage is \$1 billion. Under TRIA, after the payment of the required deductible and coinsurance, the NBCR Coverage is backstopped by the Federal Government if the aggregate industry insured losses resulting from a certified act of terrorism exceed a program trigger. The program trigger is \$100 million and the coinsurance is 10%. Under TRIPRA, if the Federal Government pays out for a loss under TRIA, it is mandatory that the Federal Government recoup the full amount of the loss from insurers offering TRIA coverage after the payment of the loss pursuant to a formula in TRIPRA. We may elect to terminate the NBCR Coverage if the Federal Government seeks recoupment for losses paid under TRIA, if there is a change in our portfolio or for any other reason. We intend to continue to monitor the scope, nature and cost of available terrorism insurance and maintain insurance in amounts and on terms that are commercially reasonable.

We also currently carry earthquake insurance on our properties located in areas known to be subject to earthquakes in an amount and subject to self-insurance that we believe are commercially reasonable. In addition, this insurance is subject to a deductible in the amount of 5% of the value of the affected property. Specifically, we currently carry earthquake insurance which covers our San Francisco region with a \$120 million per occurrence limit and a \$120 million annual aggregate limit, \$20 million of which is provided by IXP, LLC, as a direct insurer. The amount of our earthquake insurance coverage may not be sufficient to cover losses from earthquakes. In addition, the amount of earthquake coverage could impact our ability to finance properties subject to earthquake risk. We may discontinue earthquake insurance on some or all of our properties in the future if the premiums exceed our estimation of the value of the coverage.

In January 2002, we formed a wholly-owned taxable REIT subsidiary, IXP, Inc., to act as a captive insurance company and be one of the elements of our overall insurance program. On September 27, 2006, IXP, Inc. was merged into IXP, LLC, a wholly-owned subsidiary, and all insurance policies issued by IXP, Inc. were cancelled and reissued by IXP, LLC. The term IXP refers to IXP, Inc. for the period prior to September 27, 2006 and to IXP, LLC for the period on and subsequent to September 27, 2006. IXP acts as a direct insurer with respect to a portion of our earthquake insurance coverage for our Greater San Francisco properties and our NBCR Coverage for foreign and domestic acts of terrorism certified under TRIA. In May 2008, we formed a wholly-owned subsidiary, NYXP, LLC (NYXP), to act as a captive insurance company and be one of the elements of our insurance program for 767 Fifth Avenue. NYXP acts as a direct insurer with respect to a portion of our coverage for both foreign and domestic acts of terrorism certified under TRIA for 767 Fifth Avenue. Currently, NYXP only insures losses which exceed the program trigger under TRIA and NYXP reinsures with a third-party insurance company any coinsurance payable under TRIA. Insofar as we own IXP and NYXP, we are responsible for their liquidity and capital resources, and the accounts of IXP and NYXP are part of our consolidated financial statements. In particular, if a loss occurs which is covered by our NBCR Coverage but is less than the applicable program trigger under TRIA, IXP would be responsible for the full amount of the loss without any backstop by the Federal Government. IXP and NYXP would also be responsible for any recoupment charges by the Federal Government in the event losses are paid out and their insurance policies are maintained after the payout by the Federal Government. If we experience a loss and IXP or NYXP are required to pay under their insurance policies, we would ultimately record the loss to the extent of the required payment. Therefore, insurance coverage provided by IXP and NYXP should not be considered as the equivalent of third-party insurance, but rather as a modified form of self-insurance.

The mortgages on our properties typically contain requirements concerning the financial ratings of the insurers who provide policies covering the property. We provide the lenders on a regular basis with the identity of the insurance companies in our insurance programs. The ratings of some of our insurers are below the rating requirements in some of our loan agreements and the lenders for these loans could attempt to claim an event of default has occurred under the loan. We believe we could obtain insurance with insurers which satisfy the rating

Table of Contents

requirements. Additionally, in the future our ability to obtain debt financing secured by individual properties, or the terms of such financing, may be adversely affected if lenders generally insist on ratings for insurers which are difficult to obtain or which result in a commercially unreasonable premium. There can be no assurance that a deficiency in the financial ratings of one or more of our insurers will not have a material adverse effect on us.

We continue to monitor the state of the insurance market in general, and the scope and costs of coverage for acts of terrorism in particular, but we cannot anticipate what coverage will be available on commercially reasonable terms in future policy years. There are other types of losses, such as from wars or the presence of mold at our properties, for which we cannot obtain insurance at all or at a reasonable cost. With respect to such losses and losses from acts of terrorism, earthquakes or other catastrophic events, if we experience a loss that is uninsured or that exceeds policy limits, we could lose the capital invested in the damaged properties, as well as the anticipated future revenues from those properties. Depending on the specific circumstances of each affected property, it is possible that we could be liable for mortgage indebtedness or other obligations related to the property. Any such loss could materially and adversely affect our business and financial condition and results of operations.

Funds from Operations

Pursuant to the revised definition of Funds from Operations adopted by the Board of Governors of the National Association of Real Estate Investment Trusts (NAREIT), we calculate Funds from Operations, or FFO, by adjusting net income (loss) (computed in accordance with GAAP, including non-recurring items) for gains (or losses) from sales of properties, real estate related depreciation and amortization, and after adjustment for unconsolidated joint ventures and preferred distributions. FFO is a non-GAAP financial measure. The use of FFO, combined with the required primary GAAP presentations, has been fundamentally beneficial in improving the understanding of operating results of REITs among the investing public and making comparisons of REIT operating results more meaningful. Management generally considers FFO to be a useful measure for reviewing our comparative operating and financial performance because, by excluding gains and losses related to sales of previously depreciated operating real estate assets and excluding real estate asset depreciation and amortization (which can vary among owners of identical assets in similar condition based on historical cost accounting and useful life estimates), FFO can help one compare the operating performance of a company's real estate between periods or as compared to different companies. Our computation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently.

In addition to presenting FFO in accordance with the NAREIT definition, we also disclose FFO after a specific and defined supplemental adjustment to exclude losses from early extinguishments of debt associated with the sales of real estate. The adjustment to exclude losses from early extinguishments of debt results when the sale of real estate encumbered by debt requires us to pay the extinguishment costs prior to the debt's stated maturity and to write-off unamortized loan costs at the date of the extinguishment. Such costs are excluded from the gains on sales of real estate reported in accordance with GAAP. However, we view the losses from early extinguishments of debt associated with the sales of real estate as an incremental cost of the sale transactions because we extinguished the debt in connection with the consummation of the sale transactions and we had no intent to extinguish the debt absent such transactions. We believe that this supplemental adjustment more appropriately reflects the results of our operations exclusive of the impact of our sale transactions.

Although our FFO, as adjusted, clearly differs from NAREIT's definition of FFO, and may not be comparable to that of other REITs and real estate companies, we believe it provides a meaningful supplemental measure of our operating performance because we believe that, by excluding the effects of the losses from early extinguishments of debt associated with the sales of real estate, management and investors are presented with an indicator of our operating performance that more closely achieves the objectives of the real estate industry in presenting FFO.

Table of Contents

Neither FFO nor FFO, as adjusted, should be considered as an alternative to net income (determined in accordance with GAAP) as an indication of our performance. Neither FFO nor FFO, as adjusted, represent cash generated from operating activities determined in accordance with GAAP and neither is a measure of liquidity or an indicator of our ability to make cash distributions. We believe that to further understand our performance, FFO and FFO, as adjusted, should be compared with our reported net income and considered in addition to cash flows in accordance with GAAP, as presented in our Consolidated Financial Statements.

The following table presents a reconciliation of net income available to common shareholders to FFO for the three months ended September 30, 2008 and 2007:

	Three Months Ended September 30, 2008 2007	
	(in thousands)	
Net income available to common shareholders	\$ 48,506	\$ 242,370
Add:		
Minority interest in Operating Partnership	9,420	13,946
Minority interests in property partnerships	525	
Less:		
Income from unconsolidated joint ventures	2,644	1,390
Gains on sales of real estate, net of minority interest	1,497	168,495
Income from discontinued operations, net of minority interest		1,357
Income before minority interests in property partnerships, income from unconsolidated joint ventures, minority interest in Operating Partnership, gains on sales of real estate and discontinued operations	54,310	85,074
Add:		
Real estate depreciation and amortization(1)	106,475	73,195
Income from discontinued operations		1,589
Income from unconsolidated joint ventures	2,644	1,390
Less:		
Minority interests in property partnerships share of Funds from Operations	1,013	
Preferred distributions	931	1,054
Funds from Operations	\$ 161,485	\$ 160,194
Add:		
Losses from early extinguishment of debt associated with the sales of real estate		2,675
Funds from operations after a supplemental adjustment to exclude losses from early extinguishments of debt associated with the sales of real estate	161,485	162,869
Less:		
Minority interest in the Operating Partnership's share of Funds from Operations after a supplemental adjustment to exclude losses from early extinguishments of debt associated with the sales of real estate	23,540	23,815
Funds from Operations available to common shareholders after a supplemental adjustment to exclude losses from early extinguishment of debt associated with the sales of real estate	\$ 137,945	\$ 139,054
Our percentage share of Funds from Operations - basic	85.42%	85.38%
Weighted-average shares outstanding - basic	119,832	119,010

(1) Real estate depreciation and amortization consists of depreciation and amortization from the Consolidated Statements of Operations of \$75,321 and \$70,916, our share of unconsolidated joint venture real estate depreciation and amortization of \$31,669 and \$1,989 and depreciation and amortization from discontinued operations of \$0 and \$700 less corporate related depreciation and amortization of \$515 and \$410 for the three months ended September 30, 2008 and 2007, respectively.

Reconciliation to Diluted Funds from Operations:

	Three Months Ended September 30, 2008		Three Months Ended September 30, 2007	
	Income (Numerator) (in thousands)	Shares (Denominator)	Income (Numerator) (in thousands)	Shares (Denominator)
Basic FFO	\$ 161,485	140,281	\$ 162,869	139,392
Effect of Dilutive Securities				
Convertible Preferred Units	931	1,461	1,054	1,644
Stock Based Compensation		1,537		1,645
Diluted FFO	\$ 162,416	143,279	\$ 163,923	142,681
Less:				
Minority interest in Operating Partnership's share of diluted FFO	23,180	20,449	23,416	20,382
Company's share of Diluted FFO(1)	\$ 139,236	122,830	\$ 140,507	122,299

(1) Our share of diluted Funds from Operations was 85.73% and 85.72% for the quarter ended September 30, 2008 and 2007, respectively.

Contractual Obligations

We have various standing or renewable service contracts with vendors related to our property management. In addition, we have certain other utility contracts we enter into in the ordinary course of business which may extend beyond one year, which vary based on usage. These contracts include terms that provide for cancellation with insignificant or no cancellation penalties. Contract terms are generally one year or less.

On May 31, 2007 and June 15, 2007, we paid an aggregate of \$25.0 million in connection with the agreement entered into in May 2006 to redeem the outside members' equity interest in the limited liability company that owns Citigroup Center. The remaining unpaid redemption price, which was to be paid on May 31, 2008, has been extended to December 31, 2008 and is reflected in Other Liabilities in our Consolidated Balance Sheets and totaled \$25.0 million at September 30, 2008.

Newly Issued Accounting Standards

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS No. 157). SFAS No. 157 defines fair value and establishes a framework for measuring fair value, which includes a hierarchy based on the quality of inputs used to measure fair value. SFAS No. 157 also expands disclosures about fair value measurements. SFAS No. 157 does not require any new fair value measurements. SFAS No. 157 requires the categorization of financial assets and liabilities, based on the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to the quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable inputs. SFAS No. 157 requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement. The levels of the SFAS No. 157 fair value hierarchy are described as follows:

Level 1 Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Company has the ability to access.

Level 2 Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability.

Level 3 Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

Table of Contents

SFAS No. 157 became effective for fiscal years beginning after November 15, 2007. In February 2008, the FASB deferred the effective date of SFAS No. 157 for one year for nonfinancial assets and nonfinancial liabilities that are recognized or disclosed at fair value in the financial statements on a nonrecurring basis. The FASB also removed certain leasing transactions from the scope of SFAS No. 157. On January 1, 2008, we adopted SFAS No. 157. We have financial instruments consisting of investments in securities and interest rate contracts that are required to be measured under SFAS No. 157. We currently do not have any non-financial assets or non-financial liabilities that are required to be measured under SFAS No. 157. We do not have any fair value measurements using significant unobservable inputs (Level 3) as of September 30, 2008.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115* (SFAS No. 159). SFAS No. 159 permits entities to choose, at specified election dates, to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. Unrealized gains and losses shall be reported on items for which the fair value option has been elected in earnings at each subsequent reporting date. SFAS No. 159 became effective for fiscal years beginning after November 15, 2007. On January 1, 2008, we adopted SFAS No. 159 and have currently not elected to measure any financial instruments or other items (not currently required to be measured at fair value) at fair value.

In March 2008, the Financial Accounting Standards Board (FASB) issued SFAS No. 161 *Disclosures about Derivative Instruments and Hedging Activities* (SFAS No. 161). SFAS No. 161 amends and expands the disclosure requirements of SFAS No. 133 with the intent to provide users of financial statements with an enhanced understanding of how derivative instruments and hedging activities affect an entity's financial position, financial performance and cash flows. These disclosure requirements include a tabular summary of the fair values of derivative instruments and their gains and losses, disclosure of derivative features that are credit risk related to provide more information regarding an entity's liquidity and cross-referencing within footnotes to make it easier for financial statement users to locate important information about derivative instruments. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008 with early application encouraged. We do not expect the adoption of SFAS No. 161 to have a material impact to us.

Table of Contents

On May 9, 2008, the Financial Accounting Standards Board (the FASB) issued FASB Staff Position No. APB 14-1 Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement) (FSP No. APB 14-1) that requires the liability and equity components of convertible debt instruments that may be settled in cash upon conversion (including partial cash settlement) to be separately accounted for in a manner that reflects the issuer's nonconvertible debt borrowing rate. FSP No. APB 14-1 requires that the initial proceeds from the sale of Boston Properties Limited Partnership's \$862.5 million of 2.875% exchangeable senior notes due 2037, \$450.0 million of 3.75% exchangeable senior notes due 2036 and \$747.5 million of 3.625% exchangeable senior notes due 2014 be allocated between a liability component and an equity component in a manner that reflects interest expense at the interest rate of similar nonconvertible debt. The resulting debt discount will be amortized over the period during which the debt is expected to be outstanding (i.e., through the first optional redemption dates) as additional non-cash interest expense. Based on our understanding of the application of FSP No. APB 14-1, this will result in an aggregate of approximately \$0.15-\$0.16 per share (net of incremental capitalized interest) of additional non-cash interest expense for fiscal 2008 and approximately \$0.21-\$0.22 per share for fiscal 2009. Excluding the impact of capitalized interest, the additional non-cash interest expense will be approximately \$0.19-\$0.20 per share for fiscal 2008 and approximately \$0.27-\$0.28 per share for fiscal 2009. The additional non-cash interest expense (before netting) will increase in subsequent reporting periods through the first optional redemption dates as the debt accretes to its par value over the same period. FSP No. APB 14-1 is effective for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is not permitted. APB 14-1 requires companies to retrospectively apply the requirements of the pronouncement to all periods presented. Our current estimate of the incremental interest expense excluding the impact of capital interest for each reporting period is as follows:

For the year ended December 31:	Approximate Amount (in thousands)
2006	\$ 4,200
2007	19,300
2008	27,700
2009	38,600
2010	41,200
2011	43,900
2012	29,800
2013	23,000
2014	2,500

In May 2008, the FASB issued SFAS No. 162, The Hierarchy of Generally Accepted Accounting Principles (SFAS No. 162), which is intended to improve financing reporting by identifying a consistent framework or hierarchy for selecting accounting principles to be used in preparing financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). SFAS No. 162 is effective 60 days following the Securities and Exchange Commission's (SEC) approval of the Public Company Accounting Oversight Board amendment to AU Section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles. We do not expect the adoption of SFAS No. 162 to have a material impact on us.

In June 2008, the FASB issued FSP EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities (FSP EITF 03-06-1). FSP EITF 03-06-1 clarifies that unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of EPS pursuant to the two-class method. FSP EITF 03-06-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. All prior-period EPS data presented shall be adjusted retrospectively (including interim financial statements, summaries of earnings, and selected financial data) to conform with the provisions of the FSP. Early application is not permitted. We are currently assessing the potential impact that the adoption of FSP EITF 03-06-1 will have on our results of operations.

Table of Contents**ITEM 3 Quantitative and Qualitative Disclosures about Market Risk**

Approximately \$5.5 billion of our consolidated borrowings bear interest at fixed rates, and therefore the fair value of these instruments is affected by changes in the market interest rates. As of September 30, 2008, the weighted-average interest rate on our variable rate debt was LIBOR/Eurodollar plus 0.76% (4.80%) per annum. The following table presents our aggregate fixed rate debt obligations with corresponding weighted-average interest rates sorted by maturity date and our aggregate variable rate debt obligations sorted by maturity date. The table below does not include our unconsolidated joint venture debt. For a discussion concerning our unconsolidated joint venture debt, refer to Note 4 to the Consolidated Financial Statements and Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations Off Balance Sheet Arrangements Joint Venture Indebtedness.

	2008	2009	2010	2011	2012	2013+	Total	Fair Value

Variable Rate								
Total Debt	\$ 22,943	\$ 272,647	\$ 470,409	\$ 609,263	\$ 946,999	\$ 3,789,202	\$ 6,111,463	\$ 5,761,665

During 2007, we commenced an interest rate hedging program for our expected financing activity in 2008 and entered into 11 treasury locks based on a weighted-average 10-year treasury rate of 4.68% per annum on notional amounts aggregating \$375.0 million. Nine of the treasury locks with notional amounts aggregating \$325.0 million matured on April 1, 2008. The remaining two treasury locks with notional amounts aggregating \$50.0 million matured on July 31, 2008. In addition, we entered into five forward-starting interest rate swap contracts to lock the 10-year LIBOR swap rate on notional amounts aggregating \$150.0 million at a weighted-average forward-starting 10-year swap rate of 5.19% per annum. The 10-year treasury rate is a component of the 10-year swap rate and the swap contracts had effectively fixed the 10-year treasury rate at a weighted-average interest rate of 4.51% per annum. The swap contracts went into effect on July 31, 2008 and were scheduled to expire on July 31, 2018. The treasury locks and swap contracts had effectively fixed the 10-year treasury rate at a weighted-average interest rate of 4.63% per annum on notional amounts aggregating \$525.0 million. We entered into the treasury locks and interest rate swap contracts designated and qualifying as cash flow hedges to reduce our exposure to the variability in future cash flows attributable to changes in the hedged rate in contemplation of obtaining ten-year fixed-rate financings in 2008. SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS No. 133), as amended and interpreted, establishes accounting and reporting standards for derivative instruments. We have formally documented all of the relationships between hedging instruments and hedged items, as well as our risk-management objective and strategy for undertaking various hedge transactions. We also assess and document, both at the hedging instrument's inception and on an ongoing

Table of Contents

basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in cash flows associated with the hedged items. All components of the treasury locks and forward-starting interest rate swap contracts were included in the assessment of hedge effectiveness.

We had expected a financing to occur on or about April 1, 2008 in conjunction with the payoff of our mortgage loan on Prudential Center totaling \$258.2 million, but instead elected to repay the maturing loan with available cash balances temporarily due to the dislocation in the capital markets, which caused credit spreads to be unattractively wide. We still anticipate completing additional financing activity in the fourth quarter of 2008 to replace our maturing debt. As a result, during the nine months ended September 30, 2008, we recognized aggregate net derivative losses of approximately \$9.8 million representing the partial ineffectiveness of the interest rate contracts. We have recorded a reduction in fair value of the treasury lock and swap contracts related to the effective portion totaling approximately \$33.6 million in Accumulated Other Comprehensive Loss within the Consolidated Balance Sheets. On April 1, 2008, we cash-settled at maturity nine of the treasury lock contracts with notional amounts aggregating \$325.0 million and made cash payments to the counterparties totaling approximately \$33.5 million. On July 31, 2008 and September 2, 2008, we cash-settled our forward-starting interest rate swap contracts and made aggregate cash payments to the counterparties totaling approximately \$8.6 million. Based on interest rates in effect as of September 30, 2008 and assuming we complete financing transactions in accordance with our current plans, we expect that within the next twelve months we will reclassify into earnings as an increase in interest expense approximately \$3.5 million of the amounts recorded within Accumulated Other Comprehensive Loss relating to the treasury locks and forward-starting interest rate swap contracts. If the forecasted financing transactions do not occur by the anticipated date or within the additional time period permitted by SFAS No. 133, we may be required to recognize net investment gains or losses which represent the ineffective portion of our cash flow hedges, the amount of which will depend on market conditions and may be material.

On September 27, 2007, we entered into an interest rate swap contract to fix the one-month LIBOR index rate (including a 1.25% spread), at 5.82% per annum on a notional amount of \$96.7 million. The swap contract went into effect on October 22, 2007 and expired on October 29, 2008.

At September 30, 2008, our outstanding variable rate debt based on LIBOR totaled approximately \$578.9 million. Approximately \$96.7 million of this debt was effectively fixed at 5.82% through October 29, 2008 due to the interest rate swap contract we entered into in September 2007, as described above. At September 30, 2008, the interest rate on our unhedged variable rate debt was approximately 4.60%. If market interest rates on our variable rate debt had been 100 basis points greater, total interest expense would have increased approximately \$1.2 million for the three months ended September 30, 2008.

These amounts were determined solely by considering the impact of hypothetical interest rates on our financial instruments. Due to the uncertainty of specific actions we may undertake to minimize possible effects of market interest rate increases, this analysis assumes no changes in our financial structure.

ITEM 4 Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report, our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that these disclosure controls and procedures were effective as of the end of the period covered by this report.

(b) Changes in Internal Control Over Financial Reporting. No change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during the third quarter of our fiscal year ending December 31, 2008 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1 Legal Proceedings.

We are subject to legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. Management believes that the final outcome of such matters will not have a material adverse effect on our financial position, results of operations or liquidity.

ITEM 1A Risk Factors.

Except to the extent updated below or previously updated or to the extent additional factual information disclosed elsewhere in this Quarterly Report on Form 10-Q relates to such risk factors (including, without limitation, the matters discussed in Part I, Item 2-Management's Discussion and Analysis of Financial Condition and Results of Operations), there were no material changes to the risk factors disclosed in Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2007.

Adverse economic and geopolitical conditions and dislocations in the credit markets could have a material adverse effect on our results of operations, financial condition and ability to pay distributions to you.

Our business may be affected by market and economic challenges experienced by the U.S. economy or real estate industry as a whole or by the local economic conditions in the markets in which our properties are located, including the current dislocations in the credit markets and general global economic recession. These current conditions, or similar conditions existing in the future, may adversely affect our results of operations, financial condition and ability to pay distributions as a result of the following, among other potential consequences:

the financial condition of our tenants, many of which are financial, legal and other professional firms such as Lehman Brothers, which recently filed for bankruptcy protection, and Heller Ehrman LLP, which recently decided to dissolve, may be adversely affected, which may result in tenant defaults under leases due to bankruptcy, lack of liquidity, operational failures or for other reasons;

significant job losses in the financial and professional services industries may occur, which may decrease demand for our office space, causing market rental rates and property values to be negatively impacted;

our ability to borrow on terms and conditions that we find acceptable, or at all, may be limited, which could reduce our ability to pursue acquisition and development opportunities and refinance existing debt, reduce our returns from our acquisition and development activities and increase our future interest expense;

reduced values of our properties may limit our ability to dispose of assets at attractive prices or to obtain debt financing secured by our properties and may reduce the availability of unsecured loans;

the value and liquidity of our short-term investments and cash deposits could be reduced as a result of a deterioration of the financial condition of the institutions that hold our cash deposits or the institutions or assets in which we have made short-term investments, the dislocation of the markets for our short-term investments, increased volatility in market rates for such investments or other factors;

one or more lenders under our line of credit could refuse to fund their financing commitment to us or could fail and we may not be able to replace the financing commitment of any such lenders on favorable terms, or at all; and

Edgar Filing: BOSTON PROPERTIES INC - Form 10-Q

one or more counterparties to our derivative financial instruments could default on their obligations to us, including the capped call transactions we entered into in connection with our offering of our 3.625% exchangeable senior notes due 2014 and any interest hedging contracts we may enter into from time to time, or could fail, increasing the risk that we may not realize the benefits of these instruments.

Table of Contents**ITEM 2 Unregistered Sales of Equity Securities and Use of Proceeds.**

(a) During the three months ended September 30, 2008, we issued an aggregate of 88,068 common shares in exchange for 88,068 common units of limited partnership held by certain limited partners of BPLP. These shares were issued in reliance on an exemption from registration under Section 4(2) of the Securities Act of 1933, as amended. We relied on the exemption under Section 4(2) based upon factual representations received from the limited partners who received the common shares.

(b) Not applicable.

(c) Issuer Purchases of Equity Securities.

Period	(a) Total Number of Shares of Common Stock Purchased	(b) Average Price Paid per Common Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares that May Yet be Purchased Under the Plans or Programs
