Letter to Shareholders

Dear Shareholders:

I wish there were more positive highlights to report for the funds of the WisdomTree Trust for the fiscal year that ended March 31, 2009. Unfortunately, the last 12 months represented one of the worst one-year periods for equity returns since the Great Depression.

U.S. stocks, as measured by the Russell 3000 Index, declined 38.20% through March 31, 2009. Stocks in developed and developing foreign markets, as measured by the MSCI EAFE Index and the MSCI Emerging Markets Index, respectively, fell by approximately 47% over the same period. Value stocks underperformed growth stocks in the U.S. and international markets. Financial stocks represented the worst performing sector in the U.S and in the developed world.

These factors impacted the returns of many of WisdomTree's funds, both on an absolute and relative basis to comparable cap-weighted indexes. 17 of WisdomTree's 40 equity funds with at least one-year track records outperformed their comparable capitalization-weighted benchmark in the fiscal year ended March 31, 2009. Yet, despite this past year's formidable headwinds, 24 of WisdomTree's 42 equity ETFs have outperformed their comparable benchmarks since inception. WisdomTree's strongest relative showing occurred within the developing world. The WisdomTree Emerging Markets Equity Income Fund (Ticker Symbol: DEM) and the WisdomTree Emerging Markets SmallCap Dividend Fund (Ticker Symbol: DGS) outperformed their comparable cap-weighted benchmarks by 10.86 percentage points and 9.18 percentage points, respectively. WisdomTree's weakest relative performance for the period was exhibited by the WisdomTree SmallCap Dividend Fund (Ticker Symbol: DES), which underperformed the Russell 2000 Index by 7.77 percentage points.

WisdomTree also launched two innovative equity products in the past fiscal year. In July, WisdomTree introduced the WisdomTree Middle East Dividend Fund (Ticker Symbol: GULF), which gives investors exposure to eight equity markets in the Persian Gulf region. In December, WisdomTree launched the WisdomTree LargeCap Growth Fund (Ticker Symbol: ROI), the industry's first fundamentally weighted growth ETF. WisdomTree believes these funds give investors new ways to apply the fundamentally weighted concept across the full spectrum of equity investing, both domestically and internationally.

Though the challenging market environment has extended into 2009, the recent financial crisis has highlighted the potential benefits of ETFs. We believe that investors are placing ever more importance on the transparency, liquidity and tax efficiency that ETFs provide.

Thank you for your continued support.

Best regards,

Jonathan Steinberg

The Russell 3000 Index measures the performance of the 3000 largest stocks in the U.S. market by market. The MSCI Emerging Markets Index is a market cap weighted index that is designed to measure equity market performance consisting of 25 emerging market country indexes. The MSCI EAFE Index is a market capitalization-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan. The Russell 2000 Index measures the performance of the smallest 2,000 companies in the Russell 3000 Index. You cannot directly invest in an index.

The six WisdomTree Trust domestic dividend ETFs give investors access to all major market capitalization segments of the U.S. equity market. The WisdomTree dividend-based ETFs are designed to offer investors alternatives to market capitalization-weighted index funds by tracking proprietary indexes that are weighted based on the dividends companies pay.

U.S. Market Overview

The U.S. equity market, measured by the Russell 3000 Index, S&P 500 Index, and Dow Jones Industrial Average, all popular benchmarks for U.S. equity markets, declined between 36% to 38% in the 12 months that ended March 31, 2009 (the period .) The fourth quarter of 2008 marked the largest quarterly retrenchment in U.S. equity prices since the fourth quarter of 1987. The market, as measured by Russell 3000 Index, then continued to slide a further 11% in the first quarter of 2009. Stocks retracted on continued tight credit, earnings concerns within a tepid operating environment, and from broader evidence of the U.S. economy's continued faltering.

The equity markets' significant retraction was caused by various factors including the credit crisis that was sparked by the bankruptcy of the investment bank, Lehman Brothers in September 2008. Banks became afraid to lend to each other, as fears spiraled that their money was not safe at any financial institution. As a result, borrowing rates on loans rose significantly, increasing the cost of doing business for companies all across the economy. Companies reacted by decreasing spending on investments and they began trimming their workforces in response to their higher cost of capital. Consumers, in turn, became more fearful of losing their jobs. Nervous employees started saving more and spending less, creating a downward spiral and even weaker economic environment. The unemployment rate rose to 8.1% in March of 2009, its highest level since 1983. Jobless claims spiked above 670,000, marking the breadth of the U.S. recession.

Summary of Fund Performance versus Capitalization-Weighted Benchmarks for Year ended March 31, 2009

TICKER	WISDOMTREE FUND	1 YEAR	CAPITALIZATION-WEIGHTED BENCHMARK INDEX	1 YEAR	1 YEAR FUND vs INDEX
DLN	WT LargeCap Dividend Fund	(41.25)%	S&P 500 Index	(38.09)%	(3.16)%
DTD	WT Total Dividend Fund	(41.29)%	Russell 3000 Index	(38.20)%	(3.09)%

DHS	WT Equity Income Fund	(49.06)%	Russell 1000 Value Index	(42.42)%	(6.64)%

Under WisdomTree's fundamentally weighted methodology, the financial sector had an above average weight in its proprietary indexes as compared to market-capitalization weighted indexes. This is because the financial sector historically has paid above average dividends. Because of the credit crises and resulting economic downturn, the financial sector was the worst-performing sector in the period, as banks took large write-downs to their balance sheets, and many were forced to cut their dividends to preserve capital. This created greater downward pressure on their stock prices as dividends no longer enticed investors to own the stocks.

Within the WisdomTree domestic dividend fund family, the funds that had the greatest exposure to financial stocks, the WisdomTree Equity Income Fund and the WisdomTree SmallCap Dividend Fund, had the worst performance in the period.

The WisdomTree Total Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index.

The WisdomTree Total Dividend Fund (Ticker Symbol: DTD) returned (41.29)% at net asset value (NAV) for the fiscal year ended March 31, 2009 (for more complete performance information, please see below). Financials detracted the most from returns, with an average weight of 26.54% of the Fund and returns of (62.19)% over the period. The Fund's decline was least affected by Telecommunication Services which returned (23.86)%, with an average weight of 5.77% of the Fund over the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **The annual expense ratio of the Fund is 0.38%.**

The WisdomTree SmallCap Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree SmallCap Dividend Index.

The WisdomTree SmallCap Dividend Fund (Ticker Symbol: DES) returned (45.27)% at net asset value (NAV) for the fiscal year ended March 31, 2009 (for more complete performance information, please see below). Financials detracted the most from returns, with an average weight of 54.27% of the Fund and returns of (51.53)% over the period. The Fund's decline was least affected by Health Care which returned (6.95)%, with an average weight of 1.26% of the Fund over the period.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2008 to March 31, 2009.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled **Expenses Paid During Period 10/01/08 to 3/31/09** to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

- ² Based on average shares outstanding.
- ³ Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. The total return would have been lower if certain expenses had not been reimbursed/waived by the investment adviser (Note 2).
- ⁴ Annualized.
- ⁵ Portfolio turnover rate is not annualized and excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.

Notes to Financial Statements

1. ORGANIZATION

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of March 31, 2009, the Trust offered 50 investment funds (each a Fund, collectively, the Funds). The Funds, described herein, commenced operations on June 16, 2006.

These financial statements relate only to the WisdomTree Total Dividend Fund (Total Dividend Fund), WisdomTree Equity Income Fund, formerly the WisdomTree High-Yielding Equity Fund (Equity Income Fund), WisdomTree LargeCap Dividend Fund (LargeCap Dividend Fund), WisdomTree Dividend ex-Financials Fund, formerly known as the WisdomTree Dividend Top 100 Fund (Dividend ex-Financials Fund), WisdomTree MidCap Dividend Fund (MidCap Dividend Fund) and WisdomTree SmallCap Dividend Fund (SmallCap Dividend Fund), together the Domestic Dividend Funds.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (Wisdom Tree Investments). Each Fund described herein is considered to be non-diversified.

2. SIGNIFICANT ACCOUNTING POLICIES

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles (U.S. GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

Fair Value Measurement Effective April 1, 2008, the Funds adopted Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157). This standard defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosure about fair value measurements. Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security

Edgar Filing: WisdomTree Trust - Form N-CSR

whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (*e.g.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict and acts of terrorism.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

SmallCap Dividend Fund	71,936,760	4,733,245		76,670,005

Investment Transactions Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

Investment Income Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management (WTAM) has agreed to pay all expenses of the Funds, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund's average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$397,376 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the fiscal year ended March 31, 2009. Expenses in excess of 0.0044% were paid by WTAM.

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned), as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Edgar Filing: WisdomTree Trust - Form N-CSR

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are

WisdomTree Domestic Dividend Funds 51

Table of Contents**Notes to Financial Statements** (continued)

permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the year ended March 31, 2009, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Portfolios file tax returns with the U.S. Internal Revenue Service, New York, and various states. Generally, each of the tax years in the three year period ended March 31, 2009, remains subject to examination by taxing authorities.

3. ADVISER FEES

Adviser Fees As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund, WTAM agrees to pay all expenses of the Trust, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust's Chief Compliance Officer, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. The fees paid to WTAM for providing advisory services are listed below.

Fund	Fee Rate
Total Dividend Fund	0.28%
Equity Income Fund	0.38%
LargeCap Dividend Fund	0.28%
Dividend ex-Financials Fund	0.38%
MidCap Dividend Fund	0.38%
SmallCap Dividend Fund	0.38%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the fiscal year ended March 31, 2009, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2009, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding in-kind purchases and redemptions and short-term investments) for the fiscal year ended March 31, 2009 were as follows:

Capital losses incurred after October 31 (post-October capital losses) and within the taxable year are deemed to arise on the first business day of each Fund's next taxable year.

During the year ended March 31, 2009, the following Funds incurred and will elect to defer net post-October losses as follows:

Fund	Post-October Capital Losses
Total Dividend Fund	\$ 10,272,186
Equity Income Fund	36,177,120
LargeCap Dividend Fund	33,223,859
Dividend ex-Financials Fund	40,138,458
MidCap Dividend Fund	15,664,681
SmallCap Dividend Fund	28,691,297

At March 31, 2009, the effect of permanent book/tax reclassifications resulted in increases (decreases) to the components of net assets as follows:

Fund	Undistributed Net Investment Income/(Loss)	Accumulated Net Realized Gain/(Loss)	Paid-in Capital
Total Dividend Fund	\$ (704)	\$ (99,009)	\$ 99,713
Equity Income Fund	(2,135)	1,209,937	(1,207,802)
LargeCap Dividend Fund	5,572	2,428,768	(2,434,340)
Dividend ex-Financials Fund		2,957,324	(2,957,324)
MidCap Dividend Fund		823,493	(823,493)
SmallCap Dividend Fund	(13,192)	11,332	1,860

These differences are primarily due to redemptions-in-kind and the tax treatment of income earned from investments in partnerships.

7. NEW ACCOUNTING PRONOUNCEMENT

On March 19, 2008, the FASB released Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 161 and its impact on the financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund (six of the investment funds constituting the WisdomTree Trust (the "Trust")) as of March 31, 2009, and the related statements of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2009, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the

financial position of WisdomTree Total Dividend Fund, WisdomTree Equity Income Fund, WisdomTree LargeCap Dividend Fund, WisdomTree Dividend ex-Financials Fund, WisdomTree MidCap Dividend Fund and WisdomTree SmallCap Dividend Fund of WisdomTree Trust at March 31, 2009, the results of their operations for the year then ended, the changes in their net assets for each of the two years in the period then ended, and the financial highlights for each of the indicated periods, in conformity with U.S. generally accepted accounting principles.

Approval of Investment Advisory and Sub-Advisory Agreement (unaudited)

The Board of Trustees of the Trust, including a majority of the Independent Trustees, has the responsibility under the 1940 Act to approve each Fund's Investment Advisory Agreement and Sub-Advisory Agreement (collectively, the Investment Advisory Agreements). In addition, the Trust's Board of Trustees will receive, review and evaluate information concerning the services and personnel of WTAM (the Investment Adviser) and Mellon Capital Management Corporation (the Sub-Adviser) at each quarterly meeting of the Board of Trustees. While particular emphasis will be placed on information concerning profitability, comparability of fees and total expenses, and the Trust's investment performance at any future meeting at which a renewal of the Investment Advisory Agreements is considered, the process of evaluating the Investment Adviser and the Sub-Adviser and the Trust's investment arrangements is an ongoing one. In this regard, the Board's consideration of the nature, extent and quality of the services to be provided by the Investment Adviser and the Sub-Adviser under the Investment Advisory Agreements will include deliberations at future quarterly meetings.

Approval of Investment Advisory Agreement. The Trust and the Investment Adviser have entered into an Investment Advisory Agreement covering each Fund discussed herein. At a meeting held on March 2, 2009, the Board of Trustees reapproved the Investment Advisory Agreement for the Funds. The Board reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality and extent of the services to be provided to the Funds by WTAM; (ii) the investment performance of the Funds; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationship with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; (v) whether the fee levels reflect these economies of scale for the benefit of investors; and (vi) the fees charged by the Investment Adviser for non-registered funds.

The Board also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM's operational capabilities and resources. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds' Sub-Adviser and oversight of the Sub-Advisers' compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board gave substantial consideration to the fees payable under the Advisory Agreement. In this connection, the Board evaluated WTAM's anticipated costs and profitability in serving as investment adviser to the Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable.

The Board also approved the Sub-Advisory Agreement with the Sub-Adviser to the Funds, Mellon Capital Management Corporation (MCM), using essentially the same criteria it used for WTAM. The Board considered MCM's operational capabilities and resources and MCM's experience in serving as an adviser to ETFs, noting that MCM currently provides investment advisory and management services to other ETFs. The Board considered the investment performance of the Funds, and the expertise and performance of the MCM personnel. The Board also noted that Bank of New York Mellon Corporation (BNYM), an affiliate of MCM, serves as the Funds' administrator, accountant, custodian and transfer agent and receives compensation for acting in these capacities and is responsible for, among other things, coordinating the Funds' audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodying Fund assets. As such, the Board concluded that the benefits accruing to MCM and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board determined that the approval of the Advisory Agreement and the Sub-Advisory Agreement was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreement and Sub-Advisory Agreement.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value (NAV) of each Fund and the market trading price of shares of each Fund. For these purposes, the market price is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term premium is sometimes used to describe a market price in excess of NAV and the term discount is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund s per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Funds' prospectus for specific details regarding each Fund's risk profile. Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Letter to Shareholders

Dear Shareholders:

I wish there were more positive highlights to report for the funds of the WisdomTree Trust for the fiscal year that ended March 31, 2009. Unfortunately, the last 12 months represented one of the worst one-year periods for equity returns since the Great Depression.

U.S. stocks, as measured by the Russell 3000 Index, declined 38.20% through March 31, 2009. Stocks in developed and developing foreign markets, as measured by the MSCI EAFE Index and the MSCI Emerging Markets Index, respectively, fell by approximately 47% over the same period. Value stocks underperformed growth stocks in the U.S. and international markets. Financial stocks represented the worst performing sector in the U.S and in the developed world.

These factors impacted the returns of many of WisdomTree's funds, both on an absolute and relative basis to comparable cap-weighted indexes. 17 of WisdomTree's 40 equity funds with at least one-year track records outperformed their comparable capitalization-weighted benchmark in the fiscal year ended March 31, 2009. Yet, despite this past year's formidable headwinds, 24 of WisdomTree's 42 equity ETFs have outperformed their comparable benchmarks since inception. WisdomTree's strongest relative showing occurred within the developing world. The WisdomTree Emerging Markets Equity Income Fund (Ticker Symbol: DEM) and the WisdomTree Emerging Markets SmallCap Dividend Fund (Ticker Symbol: DGS) outperformed their comparable cap-weighted benchmarks by 10.86 percentage points and 9.18 percentage points, respectively. WisdomTree's weakest relative performance for the period was exhibited by the WisdomTree SmallCap Dividend Fund (Ticker Symbol: DES), which underperformed the Russell 2000 Index by 7.77 percentage points.

WisdomTree also launched two innovative equity products in the past fiscal year. In July, WisdomTree introduced the WisdomTree Middle East Dividend Fund (Ticker Symbol: GULF), which gives investors exposure to eight equity markets in the Persian Gulf region. In December, WisdomTree launched the WisdomTree LargeCap Growth Fund (Ticker Symbol: ROI), the industry's first fundamentally weighted growth ETF. WisdomTree believes these funds give investors new ways to apply the fundamentally weighted concept across the full spectrum of equity investing, both domestically and internationally.

Though the challenging market environment has extended into 2009, the recent financial crisis has highlighted the potential benefits of ETFs. We believe that investors are placing ever more importance on the transparency, liquidity and tax efficiency that ETFs provide.

Thank you for your continued support.

Best regards,

Jonathan Steinberg

The Russell 3000 Index measures the performance of the 3000 largest stocks in the U.S. market by market value. The MSCI Emerging Markets Index is a market cap weighted index that is designed to measure equity market performance consisting of 25 emerging market country indexes. The MSCI EAFE Index is a market capitalization-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan. The Russell 2000 Index measures the performance of the smallest 2,000 companies in the Russell 3000 Index. You cannot invest directly in an index.

Table of Contents**Management's Discussion of Funds Performance**

The WisdomTree Trust earnings-based ETFs give investors access to all major market capitalization segments of the U.S. equity market and access to India. The WisdomTree earnings-based ETFs are designed to offer investors alternatives to market capitalization-weighted index funds by tracking proprietary indexes that are weighted based on the earnings companies generate.

The U.S. equity market, measured by the Russell 3000 Index, S&P 500 Index, and Dow Jones Industrial Average, all popular benchmarks for U.S. equity markets, declined between 36% to 38% in the 12 months that ended March 31, 2009 (the period). The fourth quarter of 2008 marked the largest quarterly retrenchment in U.S. equity prices since the fourth quarter of 1987. The market, as measured by the Russell 3000 Index, then continued to slide a further 11%, in the first quarter of 2009. Stocks retracted on continued tight credit, earnings concerns within a tepid operating environment, and from broader evidence of the U.S. economy's continued faltering.

The equity market's significant retraction was caused by various factors including the credit crisis that was sparked by the bankruptcy of the investment bank, Lehman Brothers in September 2008. Banks became afraid to lend to each other, as fears spiraled that their money was not safe at any financial institution. As a result, borrowing rates on loans rose significantly, increasing the cost of doing business for companies all across the economy. Companies reacted by pulling back spending on investments and they began trimming their workforces in response to their higher cost of capital. Consumers, in turn, became more fearful of losing their jobs. Nervous employees started saving more and spending less, creating a downward spiral and even weaker economic environment. The unemployment rate rose to 8.1% in March of 2009, its highest level since 1983. Jobless claims spiked above 670,000, marking the breadth of the U.S. recession.

* Information is not presented for the WisdomTree LargeCap Growth Fund as this Fund commenced operations on December 4, 2008 and therefore does not have a full reporting year's worth of performance.

Within the domestic earnings funds, the two funds that declined the most were the WisdomTree Low P/E Fund and the WisdomTree Earnings Top 100 Fund. The WisdomTree Low P/E Fund had the greatest exposure to the financial sector. Historically, the financial sector had low P/E ratios and high profits and therefore under WisdomTree's earnings-weighted methodology, financial company stocks had an above average weight. Because of the credit crises and resulting economic downturn, the financial sector was the worst-performing sector in the period.

The two funds that declined the least were the WisdomTree MidCap Earnings Fund and the WisdomTree Earnings 500 Fund. The WisdomTree Earnings 500 Fund was aided by

having exposure to the Energy sector, which performed well in the period due to record profits at some of the largest Energy companies. The WisdomTree MidCap Earnings Fund was helped by relatively less exposure to the financial sector.

Internationally, the only region of the world where WisdomTree sets portfolio weights based on earnings is in India. In February of 2008, the Trust launched the WisdomTree India Earnings Fund which was the first ETF to offer investor access to India. Because of its fundamentally weighted methodology, the WisdomTree India Earnings Fund outperformed the MSCI India Index by 1.39 percentage points during the period.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses. In comparison, the Funds' performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month end performance information visit www.wisdomtree.com.

The Russell 3000 Index measures the performance of the 3,000 largest stocks in the U.S. market by market value; the Russell 2000 Index measures the performance of the smallest 2,000 companies in the Russell 3000 Index; the Russell 2000 Growth Index is a capitalization weighted index that measures the small-cap growth segment of the U.S. equity universe, selecting from the Russell 2000 Index.; the Russell 1000 Value Index measures the performance of Russell 1000 companies with lower price to book ratios and lower forecasted growth values; the S&P 500 Index is the Standard & Poor's composite index of 500 stocks; the S&P MidCap 400 Index is a group of 400 domestic stocks chosen for market size, liquidity and industry group representation; the MSCI India Index is a free float-adjusted market capitalization index that is designed to measure the performance of stocks in India. Index performance information assumes the reinvestment of gross dividends and excludes management fees, transaction costs and expenses. Performance information for the MSCI India Index assumes reinvestment of net dividends and excludes management fees, transaction costs and expenses. You cannot directly invest in an index.

The WisdomTree Total Earnings Fund (Ticker Symbol: EXT) returned (37.86)% at net asset value (NAV) for the fiscal year ending March 31, 2009 (for more complete performance information, please see below). Financials detracted the most from returns, with an average weight of 19.98% of the Fund and returns of (56.46)% over the period. The Fund's decline was least affected by Telecommunication Services which returned (23.85)% , with an average weight of 2.39% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2008 to March 31, 2009 for all Funds except the WisdomTree LargeCap Growth Fund whose period was December 4, 2008 (commencement of investment operations) through March 31, 2009.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled *Expenses Paid During Period 10/01/08 to 3/31/09* to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

78 WisdomTree Domestic and International Earnings Funds

Table of Contents**Notes to Financial Statements****1. ORGANIZATION**

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of March 31, 2009, the Trust offered 50 investment funds (each a Fund, collectively, the Funds). The Funds described herein commenced operations on February 23, 2007, with the exception of the WisdomTree India Earnings Fund and the WisdomTree LargeCap Growth Fund which commenced operations on February 22, 2008 and December 4, 2008, respectively.

These financial statements relate only to the WisdomTree Total Earnings Fund (Total Earnings Fund), WisdomTree Earnings 500 Fund (Earnings 500 Fund), WisdomTree MidCap Earnings Fund (MidCap Earnings Fund), WisdomTree SmallCap Earnings Fund (SmallCap Earnings Fund), WisdomTree Earnings Top 100 Fund (Earnings Top 100 Fund), WisdomTree Low P/E Fund (Low P/E Fund), WisdomTree India Earnings Fund (India Earnings Fund) and WisdomTree LargeCap Growth Fund (LargeCap Growth Fund), together the Domestic and International Earnings Funds. The India Earnings Fund makes its investments through the WisdomTree India Investment Portfolio, Inc. (the Portfolio), a wholly owned subsidiary organized in the Republic of Mauritius. The Portfolio is advised by WisdomTree Asset Management and is sub-advised by Mellon Capital Management Corporation, Inc. This structure should permit the India Earnings Fund to benefit from a tax treaty between India and Mauritius. Recently, the Supreme Court of India upheld the validity of this tax treaty in response to a lower court challenge contesting the treaty's applicability to entities such as WisdomTree India Earnings Fund. No assurance can be given that the terms of the treaty will not be subject to re-negotiation in the future or subject to a different interpretation. Any change in the provision of this treaty or in its applicability to WisdomTree India Earnings Fund could result in the imposition of withholding and other taxes on the India Earnings Fund by tax authorities in India. This would reduce the return to the India Earnings Fund on its investments and the return received by India Earnings Fund shareholders. References to investments by the India Earnings Fund herein should be understood to refer to investments by the Portfolio.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments). Each Fund described herein is considered to be non-diversified. The securities in each Index are weighted based on earnings or earnings yield.

2. SIGNIFICANT ACCOUNTING POLICIES

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles (U.S. GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Funds may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

Fair Value Measurement Effective April 1, 2008, the Funds adopted Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157). This standard defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosure about fair value measurements. Various inputs are used in determining the

Edgar Filing: WisdomTree Trust - Form N-CSR

value of the Funds' investments. These inputs are summarized in the three broad levels listed below.

WisdomTree Domestic and International Earnings Funds 79

Table of Contents

Notes to Financial Statements (continued)

Various inputs are used in determining the value of the Portfolio's investments. These inputs are summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumption in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (*e.g.*, one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (*e.g.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict and acts of terrorism.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

The following is a summary of the inputs used as of March 31, 2009 in valuing each Fund's assets carried at fair value:

Fund	Level 1 Quoted Prices Valuation Inputs	Level 2 Other Significant Observable Inputs	Level 3 Significant Unobservable Inputs	Total
Total Earnings Fund	\$ 16,392,378	\$ 255,184	\$	\$ 16,647,562
Earnings 500 Fund	59,116,479	1,069,080		60,185,559
MidCap Earnings Fund	14,328,464	591,530		14,919,994
SmallCap Earnings Fund	13,907,437	603,426		14,510,863

LargeCap Growth Fund	9,119,341			9,119,341
India Earnings Fund	169,039,888			169,039,888

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	Investments in Securities
India Earnings Fund	
Balance as of April 1, 2008	\$ 357,147
Realized gain (loss)	(114,700)
Change in unrealized appreciation (depreciation)	(99,443)
Net purchases (sales)	(47,806)
Transfers in/out	(95,199)
Balance as of March 31, 2009	\$

Investment Transactions Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser. Realized and unrealized foreign exchange gains or losses on investments are included as a component of net realized and unrealized gain or loss on foreign currency transactions in the Statements of Operations. Certain foreign exchange gains and

Edgar Filing: WisdomTree Trust - Form N-CSR

losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Investment Income Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management (WTAM) has agreed to pay all expenses of the Funds (other than the India Earnings Fund), except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the

execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds (other than the India Earnings Fund), and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund's average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$397,376 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the period ended March 31, 2009. Expense in excess of 0.0044% were paid by WTAM. WTAM has agreed to limit the total expenses of the India Earnings Fund to 0.88% through March 31, 2009 and waived \$80,959 for the same period.

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned), as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital. The India Earnings Fund has filed an election to treat the WisdomTree India Investment Portfolio, Inc. as a pass-through entity for tax purposes.

Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the year ended March 31, 2009, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other

expenses on the Statements of Operations. The Portfolios file tax returns with U.S. Internal Revenue Service, New York, and various states. Generally, each of the tax years in the three year period ended March 31, 2009, remains subject to examination by taxing authorities.

Adviser Fees As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund (other than the India Earnings Fund), WTAM agrees to pay all expenses of the Trust, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust's Chief Compliance Officer, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund (other than the India Earnings Fund), and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. WTAM has agreed to limit total expenses for the India Earnings Fund to 0.88% through March 31, 2009. The fees paid to WTAM for providing advisory services are listed below.

Fund	Fee Rate
Total Earnings Fund	0.28%
Earnings 500 Fund	0.28%
MidCap Earnings Fund	0.38%
SmallCap Earnings Fund	0.38%
Earnings Top 100 Fund	0.38%
Low P/E Fund	0.38%
LargeCap Growth Fund	0.38%
India Earnings Fund	0.68%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the period ended March 31, 2009, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2009, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. The WisdomTree India Earnings Fund issues and redeems shares on a cash basis only. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Capital and currency losses incurred after October 31 (post-October capital losses) and within the taxable year are deemed to arise on the first business day of each Fund s next taxable year.

During the fiscal year ended March 31, 2009, the following Funds incurred and will elect to defer net post-October capital and currency losses as follows:

Fund	Post-October Capital Losses	Post-October Currency Losses
Total Earnings Fund	\$ 3,371,568	\$
Earnings 500 Fund	10,310,989	
MidCap Earnings Fund	6,363,231	
SmallCap Earnings Fund	4,743,834	
Earnings Top 100 Fund	4,994,200	
Low P/E Fund	9,335,891	
LargeCap Growth Fund	15,810	
India Earnings Fund	14,323,797	119,736

At March 31, 2009, the effect of permanent book/tax reclassifications resulted in increases (decreases) to the components of net assets as follows:

Fund	Undistributed Net Investment Income/(Loss)	Accumulated Net Realized Gain/(Loss)	Paid-in Capital
Total Earnings Fund	\$ (266)	\$ 266	\$
Earnings 500 Fund		1,968,243	(1,968,243)
MidCap Earnings Fund	(5,112)	1,952,702	(1,947,590)
SmallCap Earnings Fund	798	436,611	(437,409)
Earnings Top 100 Fund		1,041,512	(1,041,512)
Low P/E Fund	(368)	(309,473)	309,841
LargeCap Growth Fund	143	(237,891)	237,748
India Earnings Fund	8,997	(3,746)	(5,251)

These differences are primarily due to redemptions-in-kind and the tax treatment of income earned from investments in partnerships and/or foreign currency transactions.

7. NEW ACCOUNTING PRONOUNCEMENT

Edgar Filing: WisdomTree Trust - Form N-CSR

On March 19, 2008, the FASB released Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 161 and its impact on the financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree Total Earnings Fund, WisdomTree Earnings 500 Fund, WisdomTree MidCap Earnings Fund, WisdomTree SmallCap Earnings Fund, WisdomTree Earnings Top 100 Fund, WisdomTree Low P/E Fund, WisdomTree LargeCap Growth Fund, and WisdomTree India Earnings Fund (eight of the investment funds constituting the WisdomTree Trust (the "Trust")) as of March 31, 2009, and the related statements of operations, the statements of changes in net assets and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2009, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree Total Earnings Fund, WisdomTree Earnings 500 Fund, WisdomTree MidCap Earnings Fund, WisdomTree SmallCap Earnings Fund, WisdomTree Earnings Top 100 Fund, WisdomTree Low P/E Fund, WisdomTree LargeCap Growth Fund, and WisdomTree India Earnings Fund of WisdomTree Trust at March 31, 2009, the results of their operations, the changes in their net assets and the financial highlights for each of the indicated periods, in conformity with U.S. generally accepted accounting principles.

Table of Contents**Approval of Investment Advisory and Sub-Advisory Agreement** (unaudited)

The Board of Trustees of the Trust, including a majority of the Independent Trustees, has the responsibility under the 1940 Act to approve each Fund's Investment Advisory Agreement and Sub-Advisory Agreement (collectively, the Investment Advisory Agreements). In addition, the Trust's Board of Trustees will receive, review and evaluate information concerning the services and personnel of WTAM (the Investment Adviser) and Mellon Capital Management Corporation (the Sub-Adviser) at each quarterly meeting of the Board of Trustees. While particular emphasis will be placed on information concerning profitability, comparability of fees and total expenses, and the Trust's investment performance at any future meeting at which a renewal of the Investment Advisory Agreements is considered, the process of evaluating the Investment Adviser and the Sub-Adviser and the Trust's investment arrangements is an ongoing one. In this regard, the Board's consideration of the nature, extent and quality of the services to be provided by the Investment Adviser and the Sub-Adviser under the Investment Advisory Agreements will include deliberations at future quarterly meetings.

Approval of Investment Advisory Agreement. The Trust and the Investment Adviser have entered into an investment advisory agreement covering each Fund discussed herein. At a meeting held on March 2, 2009, the Board of Trustees reapproved the Investment Advisory Agreement for the Funds (other than the India Earnings Fund). At the same meeting, the Board approved the Investment Advisory Agreement for the India Earnings Fund. The Board reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality and extent of the services to be provided to the Funds by WTAM; (ii) the performance of the Funds; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationship with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; (v) whether the fee levels reflect these economies of scale for the benefit of investors; and (vi) the fees charged by the Investment Adviser for non-registered funds.

The Board also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM's operational capabilities and resources. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds' Sub-Adviser and oversight of the Sub-Adviser's compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board gave substantial consideration to the fees payable under the Advisory Agreement. In this connection, the Board evaluated WTAM's anticipated costs and profitability in serving as investment adviser to the Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable.

The Board also approved the Sub-Advisory Agreement with the Sub-Adviser to the Funds, Mellon Capital Management Corporation (MCM), using essentially the same criteria it used for WTAM. The Board considered MCM's operational capabilities and resources and MCM's experience in serving as an adviser to ETFs, noting that MCM currently provides investment advisory and management services to other ETFs. The Board considered the investment performance of the Funds, and the expertise and performance of the MCM personnel. The Board also noted that Bank of New York Mellon Corporation (BNYM), an affiliate of MCM, serves as the Funds' administrator, accountant, custodian and transfer agent and receives compensation for acting in these capacities and is responsible for, among other things, coordinating the Funds' audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodying Fund assets. As such, the Board concluded that the benefits accruing to MCM and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services. The Board noted that WTAM, not the Funds, pays the fees to MCM under the Sub-Advisory Agreement.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board determined that the approval of the Advisory Agreement and the Sub-Advisory Agreement was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreement and Sub-Advisory Agreement.

Table of Contents**Frequency Distribution of Discounts & Premiums** (unaudited)

The chart below presents information about differences between the per share net asset value (NAV) of each Fund and the market trading price of shares of each Fund. For these purposes, the market price is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term premium is sometimes used to describe a market price in excess of NAV and the term discount is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund s per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

Differences between the closing times of U.S. and non-U.S. markets may contribute to differences between the NAV and market price of Fund shares. Many non-U.S. markets close prior to the close of the U.S. securities exchanges. Developments after the close of such markets as a result of ongoing price discovery may be reflected in a Fund s market price but not in its NAV (or vice versa).

Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Funds prospectus for specific details regarding each Fund s risk profile. Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Letter to Shareholders

Dear Shareholders:

I wish there were more positive highlights to report for the funds of the WisdomTree Trust for the fiscal year that ended March 31, 2009. Unfortunately, the last 12 months represented one of the worst one-year periods for equity returns since the Great Depression.

U.S. stocks, as measured by the Russell 3000 Index, declined 38.20% through March 31, 2009. Stocks in developed and developing markets, as measured by the MSCI EAFE Index and the MSCI Emerging Markets Index, respectively, fell by approximately 47% over the same period. Value stocks underperformed growth stocks in the U.S. and international markets. Financial stocks represented the worst performing sector in the U.S. and in the developed world.

These factors impacted the returns of many of WisdomTree's funds, both on an absolute and relative basis to comparable cap-weighted indexes. 17 of WisdomTree's 40 equity funds with at least one-year track records outperformed their comparable capitalization-weighted benchmark in the fiscal year ended March 31, 2009. Yet, despite this past year's formidable headwinds, 24 of WisdomTree's 42 equity ETFs have outperformed their comparable benchmarks since inception. WisdomTree's strongest relative showing occurred within the developing world. The WisdomTree Emerging Markets Equity Income Fund (Ticker Symbol: DEM) and the WisdomTree Emerging Markets SmallCap Dividend Fund (Ticker Symbol: DGS) outperformed their comparable cap-weighted benchmarks by 10.86 percentage points and 9.18 percentage points, respectively. WisdomTree's weakest relative performance for the period was exhibited by the WisdomTree SmallCap Dividend Fund (Ticker Symbol: DES), which underperformed the Russell 2000 Index by 7.77 percentage points.

WisdomTree also launched two innovative equity products in the past fiscal year. In July, WisdomTree introduced the WisdomTree Middle East Dividend Fund (Ticker Symbol: GULF), which gives investors exposure to eight equity markets in the Persian Gulf region. In December, WisdomTree launched the WisdomTree LargeCap Growth Fund (Ticker Symbol: ROI), the industry's first fundamentally weighted growth ETF. WisdomTree believes these funds give investors new ways to apply the fundamentally weighted concept across the full spectrum of equity investing, both domestically and internationally.

Though the challenging market environment has extended into 2009, the recent financial crisis has highlighted the potential benefits of ETFs. We believe that investors are placing ever more importance on the transparency, liquidity and tax efficiency that ETFs provide.

Thank you for your continued support.

Best regards,

Jonathan Steinberg

The Russell 3000 Index measures the performance of the 3000 largest stocks in the U.S. market by market value. The MSCI Emerging Markets index is a market cap weighted index that is designed to measure equity market performance consisting of 25 emerging market country indexes. The MSCI EAFE Index is a market capitalization-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan. The Russell 2000 Index measures the performance of the smallest 2,000 companies in the Russell 3000 Index. You cannot directly invest in an index.

The 17 WisdomTree Trust international dividend ETFs give investors access to major market capitalization segments of the international equity markets and various regions of the world. The WisdomTree international ETFs are designed to offer investors alternatives to market capitalization-weighted index equity funds, by tracking its proprietary indexes that are weighted based on dividends companies pay or the earnings they generate.

International Market Overview

The international equity markets, measured by the MSCI EAFE Index, a broad measure of equity performance for the developed world outside of the U.S and Canada, declined 46.51% in the 12 months that ended March 31, 2009 (the period). Tight credit, a weakening global economy and earnings concerns within a tepid operating environment pushed stock prices lower across the developed and developing world. During the last global recession in 2001 and 2002, real Gross Domestic Product (GDP) growth for the Eurozone was close to zero but never declined. Illustrating the depth of the 2008-2009 global recession, real GDP growth in the Eurozone economies contracted year-over-year, as of March 2009.

International equity markets witnessed a more vicious decline than the U.S. markets. This difference in international and U.S. returns was driven largely by currency movements. The U.S. Dollar was the primary beneficiary of the flock to safe assets, as investors viewed the U.S. Dollar as a safe haven. This, in turn, caused currencies like the Euro, British Pound, and Australian Dollar to decline in value. Measured against the U.S. Dollar, the Euro fell 16%, the British Pound fell 28% and the Australian Dollar fell 24%. These currency movements magnified the declines of the local equities for the U.S. investor because currency gains or losses compound the returns of international equity investments. The only two currencies in the developed world to maintain their value were the Japanese Yen and Hong Kong Dollar. Whereas the Hong Kong Dollar is pegged to the U.S. Dollar, the Japanese Yen benefited from heightened risk aversion and emerged as a safe haven currency that investors flocked to as they exited riskier positions.

2 WisdomTree International Dividend Funds

Table of Contents

Management's Discussion of Funds Performance

In all, 11 of WisdomTree's 16 international funds outperformed their comparable market capitalization-weighted benchmarks for the period.

Fueled by gains in the Japanese Yen relative to the other international currencies, WisdomTree's Japan Funds were the WisdomTree Trust's best-performing international equity funds on an absolute return basis for the period. Conversely, two of WisdomTree's three European funds were among the Trust's worst absolute performing funds. This underperformance can be attributed to losses in the Euro and British Pound versus the U.S. Dollar. The Europe SmallCap Dividend Fund was the Trust's worst performing fund, hurt both by the fall in the Euro, as well as greater exposure to the Consumer Discretionary sector. Due to the weak economy and from fears of losing jobs, consumers were hesitant to make large purchases and stocks for that sector underperformed the broader markets.

The WisdomTree Emerging Markets Funds performed significantly better than their capitalization-weighted benchmarks for the period. Because of its fundamentally weighted methodology, the WisdomTree Funds had less exposure to the BRIC region (known as Brazil, Russia, India, and China), which experienced more significant declines than other markets. BRIC regions sold at higher valuation multiples at the beginning of the period and fell further during the bear market. The Funds had greater exposure to Taiwan and other countries that experienced less significant declines.

The Pacific ex-Japan Funds benefited from its significant exposure to the Australian markets and in particular Australian banks. Australian banks generally performed better than international banks from other countries. The largest Australian banks typically had less exposure to the sub-prime loans from the U.S. and other deteriorating assets that caused balance sheet write-downs at banks across the world. The Funds also benefited from the stability in the Hong Kong Dollar. The WisdomTree Europe Equity Income Fund, the WisdomTree DEFA Equity Income Fund, and the WisdomTree International Dividend Top 100 Fund are each focused on high dividend-yielding securities and therefore had significant exposure to the financial sector, which has historically paid above average dividends. However, the financial sector's overall problems discussed above had a significant adverse impact on the performance of those Funds for the period.

The views expressed in this report reflect those of WisdomTree Asset Management only through the end of the period of the report as stated on the cover. The portfolio managers' views are subject to change at any time based on market and other conditions and should not be construed as a recommendation. Past performance is no guarantee of future results.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses. In comparison, the Funds' performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. The WisdomTree Dividend Index of Europe, Far East Asia and Australasia (DEFA) Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Dividend Index of Europe, Far East Asia and Australasia Index (WisdomTree DEFA Index). Beginning on or about June 30, 2009, the WisdomTree DEFA Fund intends to begin operating as a fund of funds. Thereafter, the Fund will attempt to achieve its investment objective by investing primarily in other WisdomTree exchange traded funds (ETFs). Instead of investing in several hundred securities, the Fund will now invest in only a few WisdomTree ETFs that, in turn, seek to track subsets of the WisdomTree DEFA Index. The Fund currently intends to invest in the WisdomTree Europe Total Dividend, Japan Total Dividend and Pacific ex-Japan Total Dividend Funds. By investing in these ETFs the Fund will achieve exposure to the securities in the DEFA Index. This change is intended to increase the efficiency of the Fund's operations and facilitate trading in Fund shares.

The WisdomTree DEFA Fund (Ticker Symbol: DWM) returned (46.61)% at net asset value (NAV) for the fiscal year ended March 31, 2009 (for more complete performance information, please see below). United Kingdom detracted the most from returns, with an average weight of 20.97% of the Fund and returns of (46.40)% over the period. The Fund's decline was least affected by New Zealand which returned (41.10)%, with an average weight of 0.40% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **The annual expense ratio of the Fund is 0.48%.**

The WisdomTree Europe Equity Income Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Europe Equity Income Index. Beginning on or after June 19, 2009, the WisdomTree Europe Equity Income Fund will change its investment objective and be renamed the WisdomTree Global Equity Income Fund. The Fund will become a global fund that invests in securities listed in the U.S., developed markets and emerging markets. The Fund will no longer focus its investments on European equity securities (though European securities will continue to be heavily represented in the Fund). The Fund's investment objective will be to seek to track the price and yield performance, before fees and expenses, of the WisdomTree Global High-Yielding Equity Index. The Global High-Yielding Equity Index is a fundamentally weighted index that measures the performance of high dividend-yielding companies in the U.S., developed and emerging markets. In addition, beginning on or after June 19, 2009, the Fund will seek to achieve its investment objective by investing primarily in other WisdomTree exchange traded funds (ETFs). Instead of investing in several hundred securities, the Fund will now invest in only a few WisdomTree ETFs that, in turn, seek to track subsets of the WisdomTree Global High-Yielding Equity Index. The Fund intends to invest primarily in the WisdomTree Equity Income Fund, DEFA Equity Income Fund and Emerging Markets Equity Income Fund. By investing in these ETFs the Fund will achieve exposure to the securities in the Index. This change is intended to increase the efficiency of the Fund's operations and facilitate trading in Fund shares.

The WisdomTree Japan Equity Income Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Japan Equity Income Index. Beginning on or after June 19, 2009, the WisdomTree Japan Equity Income Fund will change its investment objective and be renamed the WisdomTree World ex-US Growth Fund. The Fund will change its investment objective so that it seeks to track the performance of the WisdomTree World ex-US Growth Index. This Index is a fundamentally weighted index that measures the performance of growth companies in the developed and emerging markets outside of the United States. The Index consists of dividend paying companies that pass WisdomTree's market capitalization, liquidity, and other requirements. The change is not expected to generate any significant tax consequences for Fund investors. The Fund's expense ratio will not change. The Fund will invest in developed and emerging market securities. Emerging market securities are subject to additional risks not associated with investing in U.S. securities or securities from more developed markets. These risks include greater price volatility, lower trading volume and liquidity and greater social, political and economic uncertainty.

The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. The WisdomTree Emerging Markets SmallCap Dividend Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree Emerging Markets SmallCap Dividend Index.

The WisdomTree Emerging Markets SmallCap Dividend Fund (Ticker Symbol: DGS) returned (40.81)% for the fiscal year ended March 31, 2009 (for more complete performance information, please see below). Taiwan detracted the most from returns, with an average weight of 28.14% of the Fund and returns of (45.02)% over the period. The Fund's decline was least affected by Indonesia which returned (40.55)%, with an average weight of 1.45% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value (NAV) is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **The annual expense ratio of the Fund is 0.63%.**

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2008 to March 31, 2009 for all Funds.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled *Expenses Paid During Period 10/01/08 to 3/31/09* to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Table of Contents**Financial Highlights** (concluded)**WisdomTree International Dividend Funds**

March 31, 2009

Selected data for a share of beneficial interest outstanding throughout the period is presented below:

	For the Period July 16, 2008¹ through March 31, 2009
WisdomTree Middle East Dividend Fund	
Net asset value, beginning of period	\$ 24.59
Investment operations:	
Net investment income ²	0.32
Net realized and unrealized loss	(12.78)
Total from investment operations	(12.46)
Net asset value, end of period	\$ 12.13
TOTAL RETURN³	(50.67)%
RATIOS/SUPPLEMENTAL DATA:	
Net assets, end of period (000 s omitted)	\$ 7,279
Ratio to average net assets of:	
Expenses, net of expense reimbursements/waivers	0.88% ⁴
Expenses, prior to expense reimbursements/waivers	1.49% ⁴
Net investment income	2.86% ⁴
Portfolio turnover rate ⁵	26%

¹ Commencement of investment operations.

² Based on average shares outstanding.

³ Total return is calculated assuming an initial investment made at the net asset value at the beginning of the period, reinvestment of all dividends and distributions at net asset value during the period and redemption on the last day of the period. Total return calculated for a period of less than one year is not annualized. The total return would have been lower if certain expenses had not be reimbursed/waived by the investment adviser (Note 2).

⁴ Annualized.

⁵ Portfolio turnover rate is not annualized and excludes the value of portfolio securities received or delivered as a result of in-kind creations or redemptions of the Fund's capital shares.

Table of Contents**Notes to Financial Statements****1. ORGANIZATION**

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of March 31, 2009, the Trust offered 50 investment funds (each a Fund, collectively, the Funds). The Funds described herein, commenced operations on June 16, 2006, with the exception of WisdomTree Emerging Markets Equity Income Fund, WisdomTree Emerging Markets SmallCap Dividend Fund and WisdomTree Middle East Dividend Fund which commenced operations on July 13, 2007, October 30, 2007 and July 16, 2008, respectively.

These financial statements relate only to the WisdomTree DEFA Fund (DEFA Fund), WisdomTree DEFA Equity Income Fund, formerly WisdomTree DEFA High-Yielding Equity Fund (DEFA Equity Income Fund), WisdomTree Europe Total Dividend Fund (Europe Total Dividend Fund), WisdomTree Europe Equity Income Fund, formerly WisdomTree Europe High-Yielding Equity Fund (Europe Equity Income Fund), WisdomTree Europe SmallCap Dividend Fund (Europe SmallCap Dividend Fund), WisdomTree Japan Total Dividend Fund (Japan Total Dividend Fund), WisdomTree Japan Equity Income Fund, formerly WisdomTree Japan High-Yielding Equity Fund (Japan Equity Income Fund), WisdomTree Japan SmallCap Dividend Fund (Japan SmallCap Dividend Fund), WisdomTree Pacific ex-Japan Total Dividend Fund (Pacific ex-Japan Total Dividend Fund), WisdomTree Pacific ex-Japan Equity Income Fund, formerly WisdomTree Pacific ex-Japan High-Yielding Equity Fund (Pacific ex-Japan Equity Income Fund), WisdomTree International LargeCap Dividend Fund (International LargeCap Dividend Fund), WisdomTree International Dividend ex-Financials Fund, formerly the WisdomTree International Dividend Top 100 Fund (International Dividend ex-Financials Fund), WisdomTree International MidCap Dividend Fund (International MidCap Dividend Fund), WisdomTree International SmallCap Dividend Fund (International SmallCap Dividend Fund), WisdomTree Emerging Markets Equity Income Fund, formerly WisdomTree Emerging Markets High-Yielding Equity Fund (Emerging Markets Equity Income Fund), WisdomTree Emerging Markets SmallCap Dividend Fund (Emerging Markets SmallCap Dividend Fund), and WisdomTree Middle East Dividend Fund (Middle East Dividend Fund), together the International Dividend Funds.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (WisdomTree Investments). Each Fund described herein is considered to be non-diversified.

2. SIGNIFICANT ACCOUNTING POLICIES

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles (U.S. GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

Edgar Filing: WisdomTree Trust - Form N-CSR

Fair Value Measurement Effective April 1, 2008, the Funds adopted Financial Accounting (FAS 157), Standards Board (FASB) Statement of Financial Accounting Standards No. 157 *Fair Value Measurements*. This standard defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosure about fair value measurements. Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical securities

120 WisdomTree International Dividend Funds

Table of Contents

Notes to Financial Statements (continued)

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumption in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (*e.g.*, one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (*e.g.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict and acts of terrorism.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

The following is a summary of the inputs used as of March 31, 2009 in valuing each Fund's assets carried at fair value:

Investment Transactions Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser. Realized and unrealized foreign exchange gains or losses on investments are included as a component of net realized and unrealized gain or loss on foreign currency transactions in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of ordinary income in accordance with U.S. Federal income tax regulations.

Investment Income Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management, Inc. (WTAM) has agreed to pay all expenses of the Funds (other than the Middle East Dividend Fund), except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each

Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds (other than the Middle East Dividend Fund), and is liable and responsible for, and administers, payments to the CCO, the

Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund, of up to 0.0044% of each Fund's average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$397,376 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the year ended March 31, 2009. Expenses in excess of 0.0044% were paid by WTAM. WTAM has agreed to limit the total expenses of the Middle East Dividend Fund to 0.88% through March 31, 2009 and waived \$49,990 for the same period.

Currency Transactions The Funds may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure in connection with distributions to shareholders. The Funds do not expect to engage in currency transactions for the purpose of hedging against declines in the value of a Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Transactions A forward foreign currency exchange contract (forward contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A forward contract generally has no margin deposit requirement, and no commissions are charged at any stage for trades.

Risks may arise upon entering into forward contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. Dollar or each other.

Fluctuations in the value of open forward contracts are recorded for book purposes as unrealized gains or losses on forward foreign currency contracts by the Funds. Realized gains and losses on forward foreign currency contracts include net gains or losses recognized by the Funds on contracts which have matured.

The following forward currency exchange contracts were open at March 31, 2009:

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned), as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Edgar Filing: WisdomTree Trust - Form N-CSR

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their Federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the year ended March 31, 2009, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Portfolios file tax returns with the U.S. Internal Revenue Service, New York, and various states. Generally, each of the tax years in the three year period ended March 31, 2009, remains subject to examination by taxing authorities.

3. ADVISER FEES

Adviser Fees As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund (other than the Middle East Dividend Fund), WTAM agrees to pay all expenses of the Trust, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust's Chief Compliance Officer, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. Pursuant to a separate contractual arrangement, WTAM arranges for the provision of CCO services with respect to each Fund (other than the Middle East Dividend Fund), and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. The fees paid to WTAM for providing advisory services are listed below.

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the year ended March 31, 2009, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2009, there were an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consist of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. The Middle East Dividend Fund issues and redeems shares on a cash basis only. Investors purchasing and redeeming Creation Units may be charged a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and

redemption of Creation Units.

7. NEW ACCOUNTING PRONOUNCEMENT

On March 19, 2008, the FASB released Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within

Edgar Filing: WisdomTree Trust - Form N-CSR

those fiscal years. At this time, management is evaluating the implications of FAS 161 and its impact on the financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree DEFA Fund, WisdomTree DEFA Equity Income Fund, WisdomTree Europe Total Dividend Fund, WisdomTree Europe Equity Income Fund, WisdomTree Europe SmallCap Dividend Fund, WisdomTree Japan Total Dividend Fund, WisdomTree Japan Equity Income Fund, WisdomTree Japan SmallCap Dividend Fund, WisdomTree Pacific ex-Japan Total Dividend Fund, WisdomTree Pacific ex-Japan Equity Income Fund, WisdomTree International LargeCap Dividend Fund, WisdomTree International Dividend ex-Financials Fund, WisdomTree International MidCap Dividend Fund, WisdomTree International SmallCap Dividend Fund, WisdomTree Emerging Markets Equity Income Fund, WisdomTree Emerging Markets SmallCap Dividend Fund, and WisdomTree Middle East Dividend Fund (seventeen of the investment funds constituting the WisdomTree Trust (the Trust)) as of March 31, 2009, and the related statements of operations, the statements of changes in net assets and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2009, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree DEFA Fund, WisdomTree DEFA Equity Income Fund, WisdomTree Europe Total Dividend Fund, WisdomTree Europe Equity Income Fund, WisdomTree Europe SmallCap Dividend Fund, WisdomTree Japan Total Dividend Fund, WisdomTree Japan Equity Income Fund, WisdomTree Japan SmallCap Dividend Fund, WisdomTree Pacific ex-Japan Total Dividend Fund, WisdomTree Pacific ex-Japan Equity Income Fund, WisdomTree International LargeCap Dividend Fund, WisdomTree International Dividend ex-Financials Fund, WisdomTree International MidCap Dividend Fund and WisdomTree International SmallCap Dividend Fund, WisdomTree Emerging Markets Equity Income Fund, WisdomTree Emerging Markets SmallCap Dividend Fund, and WisdomTree Middle East Dividend Fund of WisdomTree Trust at March 31, 2009, the results of their operations, the changes in their net assets and the financial highlights for each of the indicated periods, in conformity with U.S. generally accepted accounting principles.

Table of Contents**Approval of Investment Advisory Agreement and Sub-Advisory Agreement** (unaudited)

The Board of Trustees of the Trust, including a majority of the Independent Trustees, has the responsibility under the 1940 Act to approve each Fund's Investment Advisory Agreement and Sub-Advisory Agreement (collectively, the Investment Advisory Agreements). In addition, the Trust's Board of Trustees will receive, review and evaluate information concerning the services and personnel of WTAM (the Investment Adviser) and Mellon Capital Management Corporation (the Sub-Adviser) at each quarterly meeting of the Board of Trustees. While particular emphasis will be placed on information concerning profitability, comparability of fees and total expenses, and the Trust's investment performance at any future meeting at which a renewal of the Investment Advisory Agreements is considered, the process of evaluating the Investment Adviser and the Sub-Adviser and the Trust's investment arrangements is an ongoing one. In this regard, the Board's consideration of the nature, extent and quality of the services to be provided by the Investment Adviser and the Sub-Adviser under the Investment Advisory Agreements will include deliberations at future quarterly meetings.

Approval of Investment Advisory Agreement. The Trust and the Investment Adviser have entered into an investment advisory agreement covering each Fund discussed herein. At a meeting held on March 2, 2009, the Board of Trustees reapproved the Investment Advisory Agreement for the Funds. The Board reviewed and analyzed the factors it deemed relevant, including; (i) the nature, quality and extent of the services to be provided to the Funds by WTAM; (ii) the investment performance of the Funds; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationship with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; (v) whether the fee levels reflect these economies of scale for the benefit of investors; and (vi) the fees charged by the Investment Adviser for non-registered funds.

The Board also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM's operational capabilities and resources. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Funds' Sub-Adviser and oversight of the Sub-Adviser's compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board gave substantial consideration to the fees payable under the Advisory Agreement. In this connection, the Board evaluated WTAM's anticipated costs and profitability in serving as investment adviser to the Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable.

The Board also approved the Sub-Advisory Agreement with the Sub-Adviser to the Funds, Mellon Capital Management Corporation (MCM), using essentially the same criteria it used for WTAM. The Board considered MCM's operational capabilities and resources and MCM's experience in serving as an adviser to ETFs, noting that MCM currently provides investment advisory and management services to other ETFs. The Board considered the investment performance of the Funds, and the expertise and performance of the MCM personnel. The Board also noted that Bank of New York Mellon Corporation (BNYM), an affiliate of MCM, serves as the Funds' administrator, accountant, custodian and transfer agent and receives compensation for acting in these capacities and is responsible for, among other things, coordinating the Funds' audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodial Fund assets. As such, the Board concluded that the benefits accruing to MCM and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services. The Board noted that WTAM, not the Funds, pays the fees to MCM under the Sub-Advisory Agreement.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board determined that the approval of the Advisory Agreement and the Sub-Advisory Agreement was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreement and Sub-Advisory Agreement.

Table of Contents**Frequency Distribution of Discounts & Premiums** (unaudited)

The chart below presents information about differences between the per share net asset value (NAV) of each Fund and the market trading price of shares of each Fund. For these purposes, the market price is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term premium is sometimes used to describe a market price in excess of NAV and the term discount is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund's per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

Differences between the closing times of U.S. and non-U.S. markets may contribute to differences between the NAV and market price of Fund shares. Many non-U.S. markets close prior to the close of the U.S. securities exchanges. Developments after the close of such markets as a result of ongoing price discovery may be reflected in a Fund's market price but not in its NAV (*or vice versa*).

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Funds' prospectus for specific details regarding each Fund's risk profile. Transactions in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Letter to Shareholders

Dear Shareholders:

I wish there were more positive highlights to report for the funds of the WisdomTree Trust for the fiscal year that ended March 31, 2009. Unfortunately, the last 12 months represented one of the worst one-year periods for equity returns since the Great Depression.

U.S. stocks, as measured by the Russell 3000 Index, declined 38.20% through March 31, 2009. Stocks in developed and developing markets, as measured by the MSCI EAFE Index and the MSCI Emerging Markets Index, respectively, fell by approximately 47% over the same period. Value stocks underperformed growth stocks in the U.S. and international markets. Financial stocks represented the worst performing sector in the U.S. and in the developed world.

These factors impacted the returns of many of WisdomTree's funds, both on an absolute and relative basis to comparable cap-weighted indexes. 17 of WisdomTree's 40 equity funds with at least one-year track records outperformed their comparable capitalization-weighted benchmark in the fiscal year ended March 31, 2009. Yet, despite this past year's formidable headwinds, 24 of WisdomTree's 42 equity ETFs have outperformed their comparable benchmarks since inception. WisdomTree's strongest relative showing occurred within the developing world. The WisdomTree Emerging Markets Equity Income Fund (Ticker Symbol: DEM) and the WisdomTree Emerging Markets SmallCap Dividend Fund (Ticker Symbol: DGS) outperformed their comparable cap-weighted benchmarks by 10.86 percentage points and 9.18 percentage points, respectively. WisdomTree's weakest relative performance for the period was exhibited by the WisdomTree SmallCap Dividend Fund (Ticker Symbol: DES), which underperformed the Russell 2000 Index by 7.77 percentage points.

WisdomTree also launched two innovative equity products in the past fiscal year. In July, WisdomTree introduced the WisdomTree Middle East Dividend Fund (Ticker Symbol: GULF), which gives investors exposure to eight equity markets in the Persian Gulf region. In December, WisdomTree launched the WisdomTree LargeCap Growth Fund (Ticker Symbol: ROI), the industry's first fundamentally weighted growth ETF. WisdomTree believes these funds give investors new ways to apply the fundamentally weighted concept across the full spectrum of equity investing, both domestically and internationally.

Though the challenging market environment has extended into 2009, the recent financial crisis has highlighted the potential benefits of ETFs. We believe that investors are placing ever more importance on the transparency, liquidity and tax efficiency that ETFs provide.

Thank you for your continued support.

Best regards,

Jonathan Steinberg

The Russell 3000 Index measures the performance of the 3000 largest stocks in the U.S. market by market value. The MSCI Emerging Markets Index is a market cap weighted index that is designed to measure equity market performance consisting of 25 emerging market country indexes. The MSCI EAFE Index is a market capitalization-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan. The Russell 2000 Index measures the performance of the smallest 2,000 companies in the Russell 3000 Index. MSCI Index performance information assumes the reinvestment of net dividends and excludes management fees, transaction costs and expenses. You cannot invest directly in an index.

The 11 WisdomTree Trust international sector ETFs give investors access to major economic sectors of the developed world outside of the U.S. and Canada. The WisdomTree international sector ETFs are designed to offer investors alternatives to market capitalization-weighted index equity funds, by tracking proprietary indexes that are weighted based on the dividends companies pay.

International Market Overview

The international equity markets, measured by the MSCI EAFE Index, a broad measure of equity performance for the developed world outside of the U.S. and Canada, declined 46.51% in the 12 months that ended March 31, 2009 (the period). Tight credit, a weakening global economy and earnings concerns within a tepid operating environment pushed stock prices lower across the developed world. During the last global recession in 2001 and 2002, real Gross Domestic Product (GDP) growth for the Eurozone was close to zero, but never declined. Illustrating the depth of the 2008-2009 global recession, real GDP growth in the Eurozone economies contracted year-over-year, as of March 2009.

Most developed markets outside of the U.S. and Canada witnessed a more vicious decline than U.S. markets as measured in U.S. Dollars. This difference in returns was driven largely by currency movements. The U.S. Dollar was the primary beneficiary of the move to safe assets, as investors viewed the U.S. Dollar as a safe haven. This, in turn, caused currencies like the Euro, British Pound, and Australian Dollar to decline in value. Measured against the U.S. Dollar, the Euro fell 16%, the British Pound fell 28% and the Australian Dollar fell 24%. These currency movements magnified the declines of the local equities for the U.S. investor because currency gains or losses compound the returns of international equity investments. The only two currencies in the developed world to maintain value relative to the U.S. Dollar during the period were the Japanese Yen and Hong Kong Dollar. Whereas the Hong Kong Dollar is pegged to the U.S. Dollar, the Japanese Yen benefited from heightened risk aversion and emerged as a safe haven currency that investors flocked to as they exited riskier positions.

Management's Discussion of Funds Performance

(concluded)

None of the 11 WisdomTree International Sector Funds had a positive return for the period and the losses ranged from (27.3)% to (58.3)%. The largest declines were seen in the Financial and Real Estate sectors, as the credit crisis sparked by the bankruptcy of Lehman Brothers in September 2008 spread across the developed world in late 2008 and early 2009. Banks were afraid to lend to each other, and credit spreads increased significantly. With credit virtually unavailable, business costs rose and investment decisions were put on hold. Real estate companies, which are heavily reliant on the debt markets, were especially hurt, but the implications of the credit crisis were felt through the entire economy and across all 11 international sector funds.

Sectors traditionally viewed as defensive, that is sectors whose earnings tend to be relatively less impacted by downturns in the economy, fared better than broader international market averages during the period. For example, the WisdomTree International Health Care Sector Fund and the WisdomTree International Communications Sector Fund had the smallest declines of the WisdomTree International Sector family.

Sectors that were more cyclically tied to the performance of the economy fared worse than the overall market averages. These sectors most cyclically tied to the performance in the economy included: Consumer Discretionary, Industrials, and Basic Materials. With the drop in demand from the slowdown in the global economy, prices of raw materials and commodities started crashing in mid 2008, hurting the International Basic Materials sector. With unemployment rising and consumer spending decreasing, the International Industrial and International Consumer Discretionary sectors fell more than the broader market averages.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses. In comparison, the Funds' performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. The WisdomTree International Basic Materials Sector Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree International Basic Materials Sector Index.

The WisdomTree International Basic Materials Sector Fund (Ticker Symbol: DBN) returned (52.10)% at net asset value (NAV) for the fiscal year ended March 31, 2009 (for more complete performance information, please see below). Australia detracted the most from returns, with an average weight of 18.63% of the Fund and returns of (55.24)% over the period. The Fund's decline was least affected by Norway which returned (61.99)%, with an average weight of 0.57% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

The WisdomTree International Consumer Staples Sector Fund seeks investment results that closely correspond to the price and yield performance, before fees and expenses, of the WisdomTree International Consumer Staples Sector Index.

The WisdomTree International Consumer Staples Sector Fund (Ticker Symbol: DPN) returned (37.75)% at net asset value (NAV) for the fiscal year ended March 31, 2009 (for more complete performance information, please see below). United Kingdom detracted the most from returns, with an average weight of 35.39% of the Fund and returns of (35.32)% over the period. The Fund's decline was least affected by Hong Kong which returned (18.09)%, with an average weight of 0.28% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share NAV is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **The annual expense ratio of the Fund is 0.58%.**

The WisdomTree International Real Estate Fund Ticker Symbol: (DRW) returned (57.85)% for the fiscal year ended March 31, 2009 (for more complete performance information, please see below). Australia detracted the most from returns, with an average weight of 23.46% of the Fund and returns of (69.23)% over the period. The Fund's decline was least affected by Denmark which returned (77.01)%, with an average weight of 0.06% of the Fund.

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value (NAV) is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. As with other ETFs, NAV returns and market price returns may differ because of factors such as the supply and demand for Fund shares and investors assessments of the underlying value of a Fund's portfolio securities.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions. **The annual expense ratio of the Fund is 0.58%.**

¹ Total returns are calculated based on the commencement of trading on the AMEX on June 5, 2007.

Performance quoted represents past performance and past performance does not guarantee future results. Current performance may be higher or lower than the performance quoted. For the most recent month-end performance information visit www.wisdomtree.com. Investment in the Fund poses investment risk including the possible loss of principal. The investment return and principal value of an investment will fluctuate, so that shares, when sold or redeemed, may be worth more or less than their original cost. The returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemption of Fund shares. Total returns for a period less than one year have not been annualized. Index returns do not reflect expenses paid by the Fund.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2008 to March 31, 2009.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled **Expenses Paid During Period 10/01/08 to 3/31/09** to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Table of Contents**Notes to Financial Statements****1. ORGANIZATION**

WisdomTree Trust (the Trust) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of March 31, 2009, the Trust offered 50 investment funds (each a Fund, collectively, the Funds). The Funds described herein, commenced operations on October 13, 2006 with the exception of the WisdomTree International Real Estate Fund which commenced operations on June 5, 2007.

These financial statements relate only to the WisdomTree International Basic Materials Sector Fund (International Basic Materials Sector Fund), WisdomTree International Communications Sector Fund (International Communications Sector Fund), WisdomTree International Consumer Discretionary Sector Fund (International Consumer Discretionary Sector Fund), WisdomTree International Consumer Staples Sector Fund (International Consumer Staples Sector Fund), WisdomTree International Energy Sector Fund (International Energy Sector Fund), WisdomTree International Financial Sector Fund (International Financial Sector Fund), WisdomTree International Health Care Sector Fund (International Health Care Sector Fund), WisdomTree International Industrial Sector Fund (International Industrial Sector Fund), WisdomTree International Technology Sector Fund (International Technology Sector Fund) and WisdomTree International Utilities Sector Fund (International Utilities Sector Fund), WisdomTree International Real Estate Fund (International Real Estate Fund), together the International Dividend Sector Funds.

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index (Index) developed by WisdomTree Investments, Inc. (Wisdom Tree Investments). Each Fund described here in is considered to be non-diversified.

2. SIGNIFICANT ACCOUNTING POLICIES

Guarantees In the normal course of business the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and expect the risk of loss to be remote.

Use of Estimates The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles (U.S. GAAP) requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

Investment Valuation The Net Asset Value (NAV) of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time. NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates fair value.

Fair Value Measurement Effective April 1, 2008, the Funds adopted Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (FAS 157). This standard defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosure about fair value measurements. Various inputs are used in determining the value of the Funds' investments. These inputs are summarized in the three broad levels listed below.

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Edgar Filing: WisdomTree Trust - Form N-CSR

Level 3 significant unobservable inputs (including each Fund's assumption in determining the fair value of investments)

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (*e.g.*, one that may not be publicly sold without registration under the Securities Act of 1933, as

60 WisdomTree International Dividend Sector Funds

Table of Contents

Notes to Financial Statements (continued)

amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (*e.g.*, an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's net asset value is computed and that may materially affect the value of the Fund's investments). Examples of events that may be significant events are government actions, natural disasters, armed conflict and acts of terrorism.

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

The following is a summary of the inputs used as of March 31, 2009 in valuing each Fund's assets carried at fair value:

Fund	Level 1 - Quoted Prices Valuation Inputs	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total

Notes to Financial Statements (continued)

Investment Transactions Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

Foreign Currency Translation The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser. Realized and unrealized foreign exchange gains or losses on investments are included as a component of net realized and unrealized gain or loss on foreign currency transactions in the Statements of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in, or are a reduction of, ordinary income in accordance with U.S. Federal income tax regulations.

Investment Income Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

Expenses/Reimbursements WisdomTree Asset Management (WTAM) has agreed to pay all expenses of the Funds, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees; (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTAM.

Pursuant to a separate contractual arrangement, WTAM has arranged for the provision of chief compliance officer (CCO) services to the Funds and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees, in exchange for a service fee paid by each Fund of up to 0.0044% of each Fund's average daily net assets. Trustees fees, which are included in Service Fees on the Statements of Operations, of \$397,376 have been paid on behalf of the Funds of the Trust to the Independent Trustees for the year ended March 31, 2009. Expenses in excess of 0.0044% were paid by WTAM.

Currency Transactions The Funds may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure in connection with distributions to shareholders. The Funds do not expect to engage in currency transactions for the purpose of hedging against declines in the value of a Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Transactions A forward foreign currency exchange contract (forward contract) involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A forward contract generally has no margin deposit requirement, and no commissions are charged at any stage for trades.

Risks may arise upon entering into forward contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. Dollar or each other.

Table of Contents**Notes to Financial Statements** (continued)

Fluctuations in the value of open forward contracts are recorded for book purposes as unrealized gains or losses on forward foreign currency contracts by the Funds. Realized gains and losses on forward foreign currency contracts include net gains or losses recognized by the Funds on contracts which have matured.

The following forward currency exchange contracts were open at March 31, 2009:

Security Lending Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned), as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as

Edgar Filing: WisdomTree Trust - Form N-CSR

collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

Short-Term Investments Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Bankers' acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

Tax Information and Dividends and Distributions to Shareholders It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended (the Code). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company (RIC) under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any,

are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48) prescribes a minimum threshold for financial statement recognition of the benefit of a tax position taken or expected to be taken in a tax return. Foreign taxes are provided for based on each Fund's understanding of the tax rules and rates that exist in the foreign markets in which it invests. Taxes are accrued and applied to net investment income, net realized capital gains and net unrealized appreciation, as applicable, as the income is earned or capital gains are recorded. As of and during the year ended March 31, 2009, the Funds did not have any liabilities for unrecognized tax benefits. If applicable, the Funds will recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in Other expenses on the Statements of Operations. The Portfolios file tax returns with the U.S. Internal Revenue Service, New York, and various states. Generally, each of the tax years in the three year period ended March 31, 2009, remains subject to examination by taxing authorities.

3. ADVISER FEES AND TRANSACTIONS

As investment adviser, WTAM has overall responsibility for the general management and administration of the Trust. WTAM provides an investment program for each Fund. WTAM also arranges for sub-advisory, transfer agency, custody, fund administration, and all other non-distribution related services necessary for the Funds to operate. Under the Investment Advisory Agreement for each Fund, WTAM agrees to pay all expenses of the Trust, except compensation and expenses of the Independent Trustees, counsel to the Independent Trustees and the Trust's Chief Compliance Officer, interest expenses and taxes, brokerage expenses, and other expenses connected with the execution of portfolio transactions, any distribution fees or expenses, legal fees or expenses and extraordinary expenses. Pursuant to a separate contractual arrangement, WTAM arranges for the provision of chief compliance officer (CCO) services with respect to each Fund and is liable and responsible for, and administers, payments to the CCO, the Independent Trustees and counsel to the Independent Trustees in exchange for a fee of up to 0.0044%. The fees paid to WTAM for providing advisory services are listed below.

Fund	Fee Rate
International Basic Materials Sector Fund	0.58%
International Communications Sector Fund	0.58%
International Consumer Discretionary Sector Fund	0.58%
International Consumer Staples Sector Fund	0.58%

International Health Care Sector Fund	0.58%
International Industrial Sector Fund	0.58%
International Technology Sector Fund	0.58%
International Utilities Sector Fund	0.58%
International Real Estate Fund	0.58%

Each Fund may purchase shares of an affiliated exchange traded fund(s) in secondary market transactions. For the year ended March 31, 2009, there were no transactions in affiliated ETFs.

4. CAPITAL SHARE TRANSACTIONS

As of March 31, 2009, there was an unlimited number of \$0.001 par value shares of beneficial interest authorized by the Trust. Shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the

International Real Estate Fund	223,955	12,907,559	(13,131,514)

These differences are primarily due to redemptions-in-kind, currency gains/loss and passive foreign investment companies (PFIC s).

7. NEW ACCOUNTING PRONOUNCEMENT

On March 19, 2008, the FASB released Statement of Financial Accounting Standards No. 161, *Disclosures about Derivative Instruments and Hedging Activities* (FAS 161). FAS 161 requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The application of FAS 161 is required for fiscal years beginning after November 15, 2008 and interim periods within those fiscal years. At this time, management is evaluating the implications of FAS 161 and its impact on the financial statements.

Report of Independent Registered Public Accounting Firm

The Board of Trustees and Shareholders of WisdomTree Trust:

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of WisdomTree International Basic Materials Sector Fund, WisdomTree International Communications Sector Fund, WisdomTree International Consumer Discretionary Sector Fund, WisdomTree International Consumer Staples Sector Fund, WisdomTree International Energy Sector Fund, WisdomTree International Financial Sector Fund, WisdomTree International Health Care Sector Fund, WisdomTree International Industrial Sector Fund, WisdomTree International Technology Sector Fund, WisdomTree International Utilities Sector Fund and WisdomTree International Real Estate Fund (eleven of the investment funds constituting the WisdomTree Trust (the Trust)) as of March 31, 2009, and the related statements of operations for the year then ended, the statements of changes in net assets and financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Trust's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of March 31, 2009, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of WisdomTree International Basic Materials Sector Fund, WisdomTree International Communications Sector Fund, WisdomTree International Consumer Discretionary Sector Fund, WisdomTree International Consumer Staples Sector Fund, WisdomTree International Energy Sector Fund, WisdomTree International Financial Sector Fund, WisdomTree International Health Care Sector Fund, WisdomTree International Industrial Sector Fund, WisdomTree International Technology Sector Fund, WisdomTree International Utilities Sector Fund and WisdomTree International Real Estate Fund of WisdomTree Trust at March 31, 2009, the results of their operations for the year then ended, the changes in their net assets and the financial highlights for each of the indicated periods, in conformity with U.S. generally accepted accounting principles.

Approval of Investment Advisory and Sub-Advisory Agreement (unaudited)

The Board of Trustees of the Trust, including a majority of the Independent Trustees, has the responsibility under the 1940 Act to approve each Fund's Investment Advisory Agreement and Sub-Advisory Agreement (collectively, the Investment Advisory Agreements). In addition, the Trust's Board of Trustees will receive, review and evaluate information concerning the services and personnel of WTAM (the Investment Adviser) and Mellon Capital Management Corporation (the Sub-Adviser) at each quarterly meeting of the Board of Trustees. While particular emphasis will be placed on information concerning profitability, comparability of fees and total expenses, and the Trust's investment performance at any future meeting at which a renewal of the Investment Advisory Agreements is considered, the process of evaluating the Investment Adviser and the Sub-Adviser and the Trust's investment arrangements is an ongoing one. In this regard, the Board's consideration of the nature, extent and quality of the services to be provided by the Investment Adviser and the Sub-Adviser under the Investment Advisory Agreements will include deliberations at future quarterly meetings.

Approval of Investment Advisory Agreement. The Trust and the Investment Adviser have entered into an investment advisory agreement covering each Fund discussed herein. At a meeting held on March 2, 2009, the Board of Trustees reapproved the Investment Advisory Agreement for the Funds. The Board reviewed and analyzed the factors it deemed relevant, including: (i) the nature, quality and extent of the services to be provided to the Funds by WTAM; (ii) the investment performance of the Funds; (iii) the costs of services to be provided and the profits to be realized by WTAM from its relationship with the Funds; (iv) the extent to which economies of scale would be realized as the Funds grow; (v) whether the fee levels reflect these economies of scale for the benefit of investors; and (vi) the fees charged by the Investment Adviser for non-registered funds.

The Board also considered the nature and quality of the services to be provided by WTAM to the Funds, recognizing WTAM's operational capabilities and resources. The Board also noted the extensive responsibilities that WTAM has as investment adviser to the Funds, including the selection of the Fund's Sub-Adviser and oversight of the Sub-Adviser's compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds.

The Board gave substantial consideration to the fees payable under the Advisory Agreement. In this connection, the Board evaluated WTAM's anticipated costs and profitability in serving as investment adviser to the Funds, including the costs associated with the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the Sub-Adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTAM, the Board concluded that the level of the fees paid to WTAM with respect to each Fund is fair and reasonable.

The Board also approved the Sub-Advisory Agreement with the Sub-Adviser to the Funds, Mellon Capital Management Corporation (MCM), using essentially the same criteria it used for WTAM. The Board considered MCM's operational capabilities and resources and MCM's experience in serving as an adviser to ETFs, noting that MCM currently provides investment advisory and management services to other ETFs. The Board considered the investment performance of the Funds, and the expertise and performance of the MCM personnel. The Board also noted that Bank of New York Mellon Corporation (BNYM), an affiliate of MCM, serves as the Funds' administrator, accountant, custodian and transfer agent and receives compensation for acting in these capacities and is responsible for, among other things, coordinating the Funds' audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodying Fund assets. As such, the Board concluded that the benefits accruing to MCM and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services. The Board noted that WTAM, not the Funds, pays the fees to MCM under the Sub-Advisory Agreement.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTAM and MCM, the Board determined that the approval of the Advisory Agreement and the Sub-Advisory Agreement was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreement and Sub-Advisory Agreement.

Table of Contents**Frequency Distribution of Discounts & Premiums** (unaudited)

The chart below presents information about differences between the per share net asset value (NAV) of each Fund and the market trading price of shares of each Fund. For these purposes, the market price is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading on the exchange where Fund shares are listed. The term premium is sometimes used to describe a market price in excess of NAV and the term discount is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. As with other exchange traded funds, the market price of Fund shares is typically slightly higher or lower than the Fund s per share NAV. Factors that contribute to the differences between market price and NAV include the supply and demand for Fund shares and investors assessments of the underlying value of a Fund s portfolio securities.

Differences between the closing times of U.S. and non-U.S. markets may contribute to differences between the NAV and market price of Fund shares. Many non-U.S. markets close prior to the close of the U.S. securities exchanges. Developments after the close of such markets as a result of ongoing price discovery may be reflected in a Fund s market price but not in its NAV (or vice versa).

The WisdomTree Funds are exchange traded funds (ETFs) registered with the United States Securities and Exchange Commission (SEC) as series of WisdomTree Trust (Trust). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the WisdomTree Trust. None of the WisdomTree entities are affiliated with ALPS Distributors, Inc., the Funds' distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, or delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. A prospectus, containing this and other information, is available at www.wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

There are risks associated with investing including possible loss of principal. In addition to the normal risks of investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Investments in real estate involve additional special risks, such as credit risk, interest rate fluctuations and the effect of varied economic conditions. Funds that focus their investments in one country increase the impact of events and developments associated with the region which can adversely affect performance. Funds focusing on a single country, sector and/or smaller companies generally experience greater price volatility. Investments in emerging or frontier markets are generally less liquid and less efficient than developed markets. Investments in currency involve additional special risks, such as credit risk, interest rate fluctuations, derivative investment risk and the effect of varied economic conditions. Derivatives can be volatile and may be less liquid than other securities. As these Funds can have a high concentration in some issuers the Funds can be adversely impacted by changes affecting issuers. Unlike typical exchange-traded funds, there are no indexes that the currency funds attempt to track or replicate. Thus, the ability of the currency Funds to achieve their objectives will depend on the effectiveness of the portfolio manager. Please read the Funds' prospectus for specific details regarding each Fund's risk profile. Transaction in Fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the Funds only in large amounts of 50,000 shares or more.

Item 2. Code of Ethics.

The Registrant has adopted a code of ethics (the Code of Ethics) that applies to persons appointed by the Registrant's Board of Trustees as the President and Chief Executive Officer, Chief Financial Officer, Treasurer and/or Chief Accounting Officer, and any persons performing similar functions. For the fiscal year ended March 31, 2009, there were no amendments to any provision of the Code of Ethics. A copy of this code is filed with this Form N-CSR under Item 12(a) (1)

- (b) Not applicable.
- (c) The Trust has not amended its Code of Ethics during the period covered by the shareholder report presented in Item 1 hereto.
- (d) The Trust has not granted a waiver or an implicit waiver from a provision of its Code of Ethics.
- (e) Not applicable.
- (f) The Trust's Code of Ethics is attached hereto as an exhibit.

Item 3. Audit Committee Financial Expert.

The Registrant's Board of Trustees has determined that the Registrant has one audit committee financial expert, as that term is defined under Item 3(b) and 3(c), serving on its audit committee. The audit committee financial expert serving on the Registrant's audit committee is Greg Barton, who is an independent Trustee of the Trust, as that term is defined under Item 3(a) (2).

Item 4. Principal Accountant Fees and Services.

The principal accountant fees disclosed in item 4(a), 4(b), 4(c), 4(d) and 4(g) are for the forty-two funds of the Registrant for which the fiscal year-end is March 31, 2009 and whose annual financial statements are reported in Item 1.

(a) Audit Fees. The aggregate fees billed from the Trust's fiscal year ended March 31, 2009 for professional services rendered by the principal accountant for the audit of the Trust's annual financial statements or services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements are as follows:

2009: \$849,500

2008: \$789,600

Table of Contents

(b) Audit-Related Fees. The aggregate fees billed from the Trust's fiscal year ended March 31, 2009 for professional services rendered for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the Trust's financial statements and are not reported above in Item 4(a) are as follows:

2009: \$0

2008: \$0

(c) Tax Fees. The aggregate fees billed from the Trust's fiscal year ended March 31, 2009 for professional services rendered by the principal accountant for tax compliance, tax advice and tax planning are as follows:

2009: \$323,598

2008: \$280,425

(d) All Other Fees. The aggregate fees billed from the Trust's fiscal year ended March 31, 2009 for products and services provided by the principal accountant, other than the services reported above in Items 4(a) through (c) are as follows:

2009: \$123,090

2008: \$118,840

(e) Audit Committee Pre-Approval Policies and Procedures.

(i) Per Rule 2-01(c) (7) (A), the Registrant's audit committee charter provides that the audit committee shall select and approve in advance the retention of independent accountants to annually audit and provide their opinion on the Registrant's financial statements. The audit committee must also approve prior to appointment the engagement of the principal accountant to provide other audit services to the Registrant or to provide non-audit services to the Registrant, its investment adviser, or any entity controlling, controlled by, or under common control with its investment adviser (adviser/affiliate) that provides ongoing services to the Registrant, if the engagement by the investment adviser or adviser affiliate relates directly to the operations and financial reporting of the Registrant. The audit committee must also, prior to appointment of the engagement of the principal accountant, review and approve the fees proposed to be charged to the Registrant by the auditors for each audit and non-audit service. The audit committee must also consider whether non-audit services provided by the Registrant's principal accountant to the Registrant's investment adviser, or adviser/affiliate that provides ongoing services to the Trust are compatible with maintaining the auditor's independence.

(ii) The Registrant's Audit Committee has approved 100% of services described in each of Items 4(b) through (d) pursuant to paragraph (c) (7) (A) of Rule 2-01 of Regulation S-X.

(f) The percentage of hours expended on the principal accountant's engagement to audit the Trust's financial statements for the most recent fiscal year attributable to work performed by persons other than the principal accountant's full-time, permanent employees was 0%.

Table of Contents

(g) The aggregate non-audit fees billed by the Trust's accountant for services rendered to the Trust, the Advisor or any entity controlling, controlled by, or under common control with the Advisor that provides ongoing services to the Trust (except for any sub-advisor whose role is primarily portfolio management and is sub-contracted with or overseen by another investment advisor) that for the fiscal year ended March 31, 2009 are as follows:

2009: \$446,688

2008: \$399,265
