Announcement Regarding Primary Offering of New Shares

TOKYO, Japan July 2, 2009 ORIX Corporation (TSE, OSE: 8591, NYSE: IX, hereinafter "ORIX"), a leading integrated financial services group, today made a public announcement that the issuance of new shares has been resolved in accordance with the approval by the Board of Directors on June 23, 2009 and by the Representative Executive Officer on July 2, 2009. The details are as follows.

In response to uncertainty in the global economy and the tightening of credit, the ORIX group implemented strategies focused on the fortification of its financial position and reduced balance sheet risk, resulting in the group being positioned for the next growth cycle. To be able to further expand on existing measures and executed initiatives, the rationale behind the capital raising is consolidation and completion of crisis response measures, reinforcement of the group's competitive advantages and enhancement of debt finance capacity and flexibility.

Capitalizing on the group's business strengths and client base, management perceives future potential in three core areas: the SME (small and medium enterprises) market, real estate and the Asia region. The SME market, ORIX's core client base, plays an important role in Japan's economy, offering the group unique opportunities to capitalize on its successful diversification into numerous business sectors by providing integrated solutions as a one-stop financial services provider. In a similar manner, the group's extensive expertise in real estate, and the resulting full-line value chain of services presents opportunities to pioneer yet untapped markets. And finally, active in the region since 1971, the group's depth and breadth of experience in Asia, in addition to its long-term alliances with local partners and strong brand recognition, offers opportunities to export specific expertise cultivated in Japan to under-developed markets and sectors in Asian markets.

This press release does not constitute any part of an offer of any securities for sale. Investors should carefully review a prospectus and any amendment thereto (if any) concerning the issuance of new shares prepared by ORIX prior to making any investment decision.
