Telecom Argentina S.A. announces

consolidated first quarter results for fiscal year 2010

('1Q10')*

Consolidated Net Revenues amounted to P\$3,249 million (+15% vs. 1Q09); **Internet +34% vs. 1Q09; Mobile business in Argentina +17% vs. 1Q09.**

Mobile subscribers: 16.8 million (+12% vs. 1Q09); Broadband subscribers: 1.2 million (+16% vs. 1Q09); Fixed lines in service: 4.4 million (+1% vs. 1Q09).

Operating Profit Before Depreciation and Amortization (OPBDA) reached P\$1,064 million (+16% vs. 1Q09), 33% of Net Revenues. Growth was mainly fueled by broadband and mobile services in Argentina.

Operating Profit amounted to P\$763 million (+16% vs. 1Q09), 23% of Net Revenues.

Net Income reached P\$411 million (+17% vs. 1Q09).

Investments (excluding materials) totaled P\$343 million.

Net Financial Position active: P\$860 million, an increase of P\$1,422 million vs. 1Q09 due to the strong cash flow generation.

A cash dividend distribution was approved in the amount of P\$1,053 million to be paid in two installments: May 5, 2010, for the amount of P\$689 million and December 20, 2010, for the balance of P\$364 million.

OPBDA *	33%	32%		
Operating Profit *	23%	23%		
Net Income*	13%	12%		

*As a percentage of Net Revenues

During 1Q10, Consolidated Net Revenues increased by 15% (+P\$420 million vs. 1Q09) to P\$3,249 million, mainly fueled by the Mobile and Broadband businesses. Moreover, Operating Profit increased by 16% (+P\$104 million vs. 1Q09) to P\$763 million.

Consolidated Operating Revenues

Fixed Telephony (Voice, Data Transmission & Internet)

During 1Q10, revenues generated by these services amounted to P\$1,082 million, +11% vs. 1Q09; in relative terms, Internet revenues were the most dynamic (+34% vs. 1Q09).

Voice

Total Revenues for this service reached P\$692 million in 1Q10 (+1% vs. 1Q09). The results of this line of business are still affected by frozen tariffs of regulated services.

Monthly Charges and Supplementary Services increased by P\$9 million, or 4% vs. 1Q09, to P\$216 million, as a consequence of a higher number of lines in service (+1%), which reached more than 4.4 million and a 16% of increase in supplementary services.

Revenues generated by traffic (Local Measured Service, Domestic Long Distance and International Telephony) totaled P\$316 million, an increase of 3% vs. 1Q09. In relative terms, revenues from local traffic increased the most with 9% vs. 1Q09 due to the incorporation of flat rate packs for calls while local long distance traffic revenues increased +3% vs. 1Q09. Otherwise, revenues from international traffic slightly decreased 7% vs. 1Q09, influenced by a lower demand in Wholesale clients.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Interconnection revenues amounted to P\$99 million (-9% vs. 1Q09), mainly due to the incorporation of new interconnection points between mobile operators that impacted negatively these revenues. Finally, other revenues reached P\$61 million, similar levels as those obtained in 1Q09.

Table of Contents

Among the innovative services launched by Telecom Argentina, it is notable SMS on the fixed line network that reached 1 million messages per month. Additionally, other mobile operators were incorporated to the interoperability agreement, where a higher increase in revenues for this year is also expected.

Data Transmission and Internet

Data transmission revenues amounted to P\$74 million (+23% vs. 1Q09), where the focus was to strengthen Telecom's position as an integrated ICT provider for wholesale and government segments. During the quarter, Telecom continued enhancing virtualization solutions such as Virtual Hosting and Virtual Desktop.

Some of the advantages of virtualization solutions are the efficiencies in technology resources, the reduction in electricity consumption of approximately 70%, the safety of information and an increase in the availability of the service.

Revenues related to Internet reached P\$316 million (+P\$81 million or 34% vs. 1Q09), mainly due to the substantial expansion of the broadband services.

As of March 31, 2010, Telecom reached 1.2 million ADSL customers (+16% vs. 1Q09). These connections represent approximately 28% of Telecom's fixed lines in service. In addition, ADSL ARPU reached P\$73 in 1Q10, +18% when compared to 1Q09.

Data Transmission and Internet both have significantly increased their contribution to net consolidated revenues, reaching 12% of participation and representing 36% of fixed telephony segment revenues.

Net adds increased around 35% of the ADSL Arnet Biz service (an integrated solution of services for enterprise segments) when compared to 1Q09. In 1Q10, ArnetBIZ Plus (an offer that includes additional VAS) revenues increased by 80% vs. 1Q09.

In the Enterprise segment, Data services increased by 120% vs. 1Q09. During 1Q10, Hosting Virtual for Enterprises and Wholesale were launched.

Mobile Services

Clients have significantly increased in the quarter, reaching 16.8 million as of the end of March 2010, representing an increase of 0.5 million since December, 31, 2009 and 1.8 million since March 31, 2009.

The activities developed to stimulate the usage of the VAS and to retain high valuable segments, allowed Personal to increase consolidated net revenues to P\$2,167 million (+17% vs. 1Q09), improving its profitability.

Telecom Personal in Argentina

As of the end of March 2010, Personal almost reached 15 million subscribers in Argentina (+13% or 1.8 million vs. 1Q09), which allowed the Company to enhance its market position. It is worth noting that 473 thousand subscribers were incorporated during 1Q10. Approximately 30% of the overall subscriber

Table of Contents

base is postpaid (including Cuentas claras plans and 3G modems) and 70% is prepaid.

Net Revenues reached P\$2,061 million (+P\$304 million or 17% vs. 1Q09), supported by the increase in overall voice traffic minutes (+16% vs. 1Q09) and in VAS revenues (+28% vs. 1Q09).

Service revenues (excluding handset sales) reached P\$1,875 million (+18% vs. 1Q09) with 34% corresponding to VAS revenues. Also noteworthy is SMS traffic performance, which climbed from a monthly average of 2,047 million messages in 1Q09 to 4,258 million in 1Q10 (+108% vs. 1Q09), maintaining service quality levels. Average Monthly Revenue per User (ARPU) increased to approximately P\$41 during 1Q10.

Initiatives

During the first quarter of 2010, Personal enhanced its leadership in smartphones, launching Personal Black, the first commercial platform that offers services to premium clients. It is a strategy to capture and gain loyalty of high-value clients from a concept that includes intelligent smartphones at competitive prices, combined with flat rate for Internet fee, customized attention, and special benefits.

Meanwhile, Personal launched an integrated campaign to promote the access to social networks. During three months, clients could activate Pack 2.0 free of charge that allows the access to Facebook, MSN, Yahoo Movil!, Fotolog, My Space and Hotmail through Personal's portal. Since the launch, more than 60,000 clients have activated the Pack 2.0. In this campaign, the first mobile on Android's platform with an excellent social functionality was launched, simplifying the usage of mobile networks.

Another notable event was the official sponsorship of Rally Dakar Argentina-Chile 2010, where for the first time; an Argentine company was an official sponsor for this international competition.

Telecom Personal in Paraguay

By the end of March 2010, Nucleo's subscriber base maintained nearly 1.8 million clients (including Internet clients). Prepaid and Postpaid customers represented 88% and 12%, respectively.

Personal's controlled subsidiary in Paraguay generated revenues equivalent to P\$106 million during 1Q10 (+14% vs. 1Q09).

Consolidated Operating Costs

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

The Cost of Services Provided, Administrative Expenses and Selling Expenses totaled P\$2,486 million in 1Q10, an increase of P\$316 million, or +15%, vs. 1Q09. The increase in costs is a consequence of a higher volume of revenues, inflationary effects on the cost structure, and greater expenses related to competition in mobile and internet businesses.

Table of Contents

The cost breakdown is as follows:

- Salaries and Social Security Contributions totaled P\$404 million (+27% vs. 1Q09), affected by increases in salaries. Regarding personnel, the decrease in headcount in fixed segment (-77 employees vs. 1Q09) was partially compensated by the incorporation of 171 employees in the same period in the mobile business. The total headcount remained stable achieving efficiencies in lines in service per employee.

- Taxes reached P\$273 million (+18% vs. 1Q09), influenced mainly by a higher volume of revenues but also impacted by higher rates in turnover taxes and rates and fees pay to the regulatory entity.

- Network access costs (includes TLRD, Roaming, Interconnection, international settlement charges and lease of circuits) amounted to P\$351 million (-1% vs. 1Q09). This cost reduction was due to savings from stimulating on-net traffic between clients and more investment in the network that allows a reduction in the expense of national roaming.

- Agents, prepaid card commissions and other commissions were P\$275 million (+15% vs. 1Q09), mainly due to the increase in commissions paid to commercial agents associated to higher revenues because of major acquisition and retention costs, higher cards sales, and prepaid recharges.

- Advertising amounted to P\$79 million (+1% vs. 1Q09) oriented towards supporting the commercial activity in mobile services and Internet, and to strengthening the brand position of the Telecom Group.

- Cost of handsets sold totaled P\$298 million (+13% vs. 1Q09) due to a change in the handsets mix sold, increasing high-end handsets sales and the average costs of them. There was also a higher upgrade of handsets to boost VAS usage and the increase in Internal Tax, better known as the Technological Tax.

- Fees for services amounted to \$134 million (+26% vs. 1Q09) as a consequence principally due to higher costs from the Call Centers and more service requirements.

- Depreciation of Fixed and Intangible Assets reached P\$301 million (+17% vs. 1Q09). Fixed-line telephony totaled P\$168 million (+6% vs. 1Q09) and mobile services totaled P\$133 million (+34% vs. 1Q09) due to higher investment in fixed assets.

- Others Costs totaled P\$371 million (+16% vs. 1Q09). This increase was mainly due to general increases in services such as freight, transportation, maintenance, and in materials. The decrease in bad debt expenses by 26% vs. 1Q09 is notable.

Table of Contents

Consolidated Financial and Holding Results

Financial and Holding Results resulted in a loss of P\$57 million, a decrease of P\$37 million vs. 1Q09. This was mainly due to lower losses for FX results by P\$59 million in 1Q10 (vs. P\$93 million in 1Q09); a gain in net financial interest of P\$14 million in 1Q10 (vs. -P\$14 million in 1Q09), partially compensated by higher results on holding on inventories by -P\$8 million in 1Q10 (vs. P\$12 million in 1Q09).

Consolidated Net Financial Position

As of March 31, 2010, Net Financial Position (Loans minus Cash, Cash Equivalents and current Investments) totaled P\$860 million in financial assets, an increase of P\$1,422 million vs. 1Q09 due to the strong cash flow generation.

During 1Q10, Personal purchased a nominal amount of US\$ 5.85 million Series 3 Notes due 2010. These operations were made through open market purchases and with liquid funds from the Company. The Notes acquired were cancelled according to the terms and conditions of the Indenture.

Consolidated Capital Expenditures

During 1Q10, the Company invested P\$343 million (excluding materials). This amount was allocated to Voice, Data and Internet businesses (P\$110 million) and mobile services (P\$233 million). In relative terms, capex reached 11% of revenues.

Main capex projects are related to the expansion of broadband services to improve transmission and speed to the clients; deployment of 3G services to maintain the growth of mobile broadband together with the launch of innovative VAS and the expansion of transmission networks and transport to meet the growing demand of our fixed and mobile clients.

Recent Relevant Matters

On April, 20, 2010, the Ordinary Shareholders Meeting of Telecom Personal approved, a cash dividend payment of P\$575 million to its Shareholders (mainly, Telecom Argentina) that should be available on May, 5, 2010.

Meanwhile, the Annual General Ordinary and Extraordinary Shareholders Meeting held on April 28, 2010 approved a cash dividend distribution in the amount of P\$1,053 million to be paid in two installments on the following dates and amounts: May 5, 2010, for the amount of P\$689 million and December 20, 2010, for the balance of P\$364 million.

Disclaimer

This document may contain statements that could constitute forward-looking statements, including, but not limited to, the Company's expectations for its future performance, revenues, income, earnings per share, capital expenditures, dividends, liquidity and capital structure; the effects of its debt restructuring process; the

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

impact of emergency laws enacted by the Argentine Government; and the impact of rate changes and competition on the Company's future financial performance. Forward-looking statements may be identified by words such as believes, expects, anticipates, projects, intends, should, seeks, estimates, future expressions. Forward-looking statements involve risks and uncertainties that could significantly affect the Company's expected results. The risks and uncertainties include, but are not limited to, the impact of emergency laws enacted by the Argentine government that have resulted in the repeal of Argentina's Convertibility law, devaluation of the peso, various changes in restrictions on the ability to exchange pesos into foreign currencies, and currency transfer policy generally, the pesification of tariffs charged for public services, the elimination of indexes to adjust rates charged for public services and the Executive branch announcement to renegotiate the terms of the concessions granted to public service providers, including Telecom. Due to extensive changes in laws and economic and business conditions in Argentina, it is difficult to predict the impact of these changes on the Company's financial condition. Other factors may include, but are not limited to, the evolution of the economy in Argentina, growing inflationary pressure and evolution in consumer spending and the outcome of certain legal proceedings. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as the date of this document. The Company undertakes no obligation to release publicly the results of any revisions to forward-looking statements which may be made to reflect events and circumstances after the date of this press release, including, without limitation, changes in the Company's business or to reflect the occurrence of unanticipated events. Readers are encouraged to consult the Company's Annual Report on Form 20-F, as well as periodic filings made on Form 6-K, which are filed with or furnished to the United States Securities and Exchange Commission for further information concerning risks and uncertainties faced by Telecom.
