**Item 2.02. Results of Operations and Financial Condition.**

The information in this Item 2.02, and the Exhibit attached to this Report, are furnished pursuant to Item 2.02 of Form 8-K. Consequently, such items are not deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934, or otherwise subject to the liabilities of that section. Such items may only be incorporated by reference in another filing under the Exchange Act or Securities Act of 1933 if such subsequent filing specifically references this Form 8-K.

On October 29, 2010, Newell Rubbermaid Inc. (the Company) reported its results for the fiscal quarter ended September 30, 2010. The Company's press release, dated October 29, 2010, and Additional Financial Information, is attached as Exhibit 99.1.

The press release and Additional Financial Information contain non-GAAP financial measures. For purposes of Securities and Exchange Commission Regulation G, a non-GAAP financial measure is a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. Operating and statistical measures and certain ratios and other statistical measures are not non-GAAP financial measures. For purposes of the definition, GAAP refers to generally accepted accounting principles in the United States. Pursuant to the requirements of Regulation G, the Company has provided, as a part of the press release and Additional Financial Information, a reconciliation of each of the non-GAAP financial measures to the most directly comparable GAAP financial measure.

The Company has used certain financial measures that are included in the press release and Additional Financial Information both in presenting its results to stockholders and the investment community and in its internal evaluation and management of its businesses. The Company's management believes that these measures including those that are non-GAAP financial measures and the information they provide are useful to investors since these measures:

enable investors and analysts to compare the current non-GAAP measures with the corresponding non-GAAP measures used in the past, and

permit investors to view the Company's performance using the same tools that Company management uses to evaluate the Company's past performance, reportable business segments and prospects for future performance and to gauge the Company's progress in achieving its stated goals.

The Company's management believes that operating income, excluding charges, as well as Normalized earnings are also useful because they provide investors with a meaningful perspective on the current underlying performance of the Company's continuing operations. The Company's management believes that free cash flow, defined by the Company as cash generated from operations less capital expenditures, is useful to investors because it is an indication of amounts of cash flow that may be available for dividends, repayment of debt and further investment in future growth initiatives. The Company's management believes that adjusted sales, as reflected in the Currency Analysis included in Exhibit 99.1, is useful to investors

**Table of Contents**

because it demonstrates the effect of foreign currency translation on reported sales. The Company's management believes that Normalized earnings per share, which excludes restructuring charges and one-time events such as losses related to the extinguishments of debt, tax benefits and certain other items, is useful to investors because it permits investors to better understand year-over-year changes in underlying operating performance. Another purpose for which the Company uses Normalized earnings per share and free cash flow is as performance goals that help determine the amount, if any, of cash bonuses for corporate management and other employees under the Company's management cash bonus plan.

While the Company believes that these non-GAAP financial measures are useful in evaluating the Company's performance, this information should be considered as supplemental in nature and not as a substitute for or superior to the related financial information prepared in accordance with GAAP. Additionally, these non-GAAP financial measures may differ from similar measures presented by other companies.

**Item 7.01. Regulation FD Disclosure.**

The information set forth under Item 2.02 above and in Exhibit 99.1 to this Report is also intended to be furnished under this Item 7.01 and is hereby incorporated by reference.

**Item 9.01. Financial Statements and Exhibits.**

(c) Exhibits.
