1. Qualitative Information related to Financial Statements

(Please refer to Summary Results for the Third Quarter of Fiscal 2010 on page 2-1 for more information.)

(1) Qualitative Information related to Consolidated Results of Operations

Reviewing the economic environment over the past nine months ended December 31, 2010, there are indications of regional variations in the speed of the continuing gradual recovery in the global economy which has been led by newly developing countries, and in Europe and the United States the risk remains of a slackening in the economy as global fiscal tightening makes its impact.

In the United States, there is movement towards recovery on the basis of steady exports and capital investment together with positive trends in consumer spending, but with rising unemployment and so on there is a risk of a stalling in economic growth. In Europe, overall economic growth is stagnant, and there is a growing gap between the richer and the poorer countries, while the effect of the fiscal problems experienced by certain countries on the financial markets and the real economy and so on means a continuing lack of visibility regarding the future of the global economy. In Asia, the increase in demand in the Chinese market has a knock-on effect in inducing an increase in exports and production activity in neighboring economies, and while the pace of growth is slowing, the region continues to maintain strong economic growth, although there are increasing concerns about inflation.

In Japan, although positive growth is being maintained as corporate profits improve among other factors, in addition to the various stimulus programs losing their effectiveness, with the continuing appreciation of the value of the yen against other currencies and the mild deflationary situation and so on, the current improvements in the economy are coming to a standstill. There are several causes for concern over the future direction of the economy, such as a slowing in economies abroad and a worsening in the employment situation, combining with the fluctuations in exchange rates, and the risk remains of these factors serving as a drag on economic growth.

In light of this economic environment, we will aim to enhance further our corporate value through the steady implementation of our Transformation Program, which consists of the three pillars of the program for improving profitability, the program for enhancing financial base and the program for strengthening front-line business capabilities.

Under the foregoing business environment, we recorded Net Income of ¥422.0 billion for the third quarter of the fiscal year ending March 31, 2011.

(2) Qualitative Information related to Consolidated Financial Conditions

Consolidated total assets as of December 31, 2010 amounted to ¥154,051.5 billion, decreasing by ¥2,202.0 billion from the end of the previous fiscal year.

Net Assets amounted to ¥6,734.1 billion, increasing by ¥897.1 billion from the end of the previous fiscal year. Shareholders' Equity amounted to ¥4,256.9 billion, Valuation and Translation Adjustments amounted to ¥170.8 billion, and Minority Interests amounted to ¥2,303.6 billion.

In Assets, the balance of Loans and Bills Discounted amounted to ¥61,645.7 billion, decreasing by ¥518.8 billion from the end of the previous fiscal year while Securities were ¥41,842.1 billion, decreasing by ¥1,254.3 billion from the end of the previous fiscal year. In Liabilities, Deposits amounted to ¥74,875.4 billion, decreasing by ¥1,464.3 billion from the end of the previous fiscal year.

(3) Qualitative Information related to Consolidated Earnings Estimates

Based on the financial results for the third quarter of fiscal 2010, MHFG has not changed its consolidated earnings estimates for fiscal 2010, which were announced on November 12, 2010, and estimates Net Income of ¥500.0 billion for fiscal 2010.

The above estimates constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Please see the forward-looking statements legend for a description of the factors that could affect our ability to meet these estimates.

[Specified Accounting Methods]

There is no applicable information.

(3) Changes of Accounting Methods and Presentation

[Changes in Accounting Methods]

(Accounting Standard for Equity Method of Accounting for Investments and Practical Solution on Unification of Accounting Policies Applied to Associates Accounted for Using the Equity Method)

Mizuho Financial Group has applied Accounting Standard for Equity Method of Accounting for Investments (ASBJ Statement No. 16, March 10, 2008) and Practical Solution on Unification of Accounting Policies Applied to Associates Accounted for Using the Equity Method (PITF No. 24, March 10, 2008) beginning with the first quarter of fiscal 2010.

This application does not affect the financial statements.

(Adoption of Accounting Standard for Asset Retirement Obligations)

Mizuho Financial Group has applied Accounting Standard for Asset Retirement Obligations (ASBJ Statement No. 18, March 31, 2008) and Guidance on Accounting Standard for Asset Retirement Obligations (ASBJ Guidance No. 21, March 31, 2008) beginning with the first quarter of fiscal 2010.

Edgar Filing: MIZUHO FINANCIAL GROUP INC - Form 6-K

As a result, Income before Income Taxes and Minority Interests decreased by ¥3,482 million. The change in Asset Retirement Obligations (which is in Other Liabilities) due to commencement of application of the accounting standards is ¥7,454 million.

[Additional Information]

(Issuance of New Shares by the Spread Method)

The spread method is adopted for the issuance of new shares (5,609,000 thousand shares) with a payment date of July 21, 2010. This is a method where the new shares are underwritten and purchased by the initial purchasers at the amount to be paid to MHFG (¥125.27 per share), and sold by the underwriters to the investors at an issue price (¥130.00 per share) different from the amount to be paid to MHFG.

Using the spread method, the aggregate amount of the difference between (a) the issue price and (b) the amount to be paid to MHFG is retained by the initial purchasers, and allocated to each of the underwriters as underwriting fees. Accordingly, Other Ordinary Expenses does not include the amount equivalent to such underwriting fees of ¥26,530 million related to the issuance.

The amount equivalent to such underwriting fees of ¥9,734 million, recognized as profit by consolidated subsidiaries, is eliminated and recorded as an increase in Capital Surplus.

Summary Results for the Third Quarter of Fiscal 2010

(Nine months ended December 31, 2010)

I. Summary of Income Analysis

Ø Consolidated Net Business Profits

Consolidated Gross Profits for the nine months ended December 31, 2010 increased by JPY 73.9 billion on a year-on-year basis to JPY 1,567.2 billion.

Gross Profits of the banking subsidiaries increased by JPY 36.2 billion on a year-on-year basis (increased by JPY 113.8 billion after the adjustment of the impact for fiscal 2009 of a change in the recipients of dividend payments under our schemes for capital raising through issuance of preferred debt securities by SPCs). This is due to an increase in income from the Trading segment derived from flexible and timely operations properly interpreting market trends, in addition to a year-on-year increase in income from Customer Groups (JPY 24.6 billion), both domestically and overseas, arising mainly from non-interest income.

G&A expenses of the banking subsidiaries decreased by JPY 18.9 billion on a year-on-year basis mainly due to continued overall cost reduction efforts running through the first half of fiscal 2010.

Aggregated consolidated Gross Profits (Net Operating Revenues) of our two securities subsidiaries (Mizuho Securities and Mizuho Investors Securities) decreased by JPY 23.2 billion on a year-on-year basis.

As a result, Consolidated Net Business Profits amounted to JPY 610.8 billion, a year-on-year increase of JPY 83.2 billion.

Ø Consolidated Net Income

Credit-related Costs of the 3 Banks recorded a reversal, as in the first half of fiscal 2010, which amounted to JPY 21.8 billion. This was an improvement of JPY 186.9 billion on a year-on-year basis, primarily due to improved obligor classifications through our business revitalization support to corporate customers and other factors. Consolidated Credit-related Costs also amounted to a reversal of JPY 0.1 billion, an improvement of JPY 216.5 billion on a year-on-year basis.

Net Losses related to Stocks of the 3 Banks amounted to JPY 14.2 billion. This is mainly as a consequence of recording devaluation losses for certain stocks after a decline in stock prices.

As a result, Consolidated Net Income for the nine months ended December 31, 2010 increased by JPY 295.7 billion on a year-on-year basis to JPY 422.0 billion.

* The results of 3Q of FY2009 included the impact on banking subsidiaries (JPY 77.5 billion, eliminated on a consolidated basis) of a change in the recipients of dividend payments under our schemes for capital raising through issuance of preferred debt securities by SPCs. After adjustment for this impact, the change from 3Q of FY2009 for Gross Profits is JPY 113.8 billion, and that for Net Business Profits is JPY 132.7 billion, respectively

Ø **Net Interest Income**

The average loan balance for the three-month period from October to December 2010 decreased by JPY 0.8 trillion from the first half of fiscal 2010. This is due to a decrease in domestic loans mainly to large corporate customers and overseas loans including the foreign exchange translation impact. Meanwhile, the loan balance as of December 31, 2010 was JPY 61.1 trillion, almost unchanged compared with that as of the end of the first half of fiscal 2010 (September 30, 2010). While loans to Deposit Insurance Corporation of Japan and the Japanese Government decreased by JPY 0.4 trillion, the remainder of the total loan balance increased.

The domestic loan-and-deposit rate margin for the three-month period from October to December 2010 was 1.35%, the same level as for the three-month period from July to September 2010.

Ø **Non-Interest Income**

Non-interest income from Customer Groups of the 3 Banks on a managerial accounting basis for the nine months ended December 31, 2010 increased by JPY 37.0 billion on a year-on-year basis.

As well as income associated with investment trusts and individual annuities from individual customers substantially increasing on a year-on-year basis, income associated with foreign exchanges business, overseas business, trust and asset management business of Mizuho Trust & Banking and other factors also increased.

During the three-month period from October to December 2010, non-interest income from Customer Groups of the 3 Banks increased on a year-on-year basis.

II. Financial Soundness

The balance of Disclosed Claims under the Financial Reconstruction Law (3 Banks) amounted to JPY 1,227.5 billion, a decrease of JPY 74.5 billion, and NPL Ratio was 1.79%, an improvement of 0.11%, from those as of September 30, 2010, respectively.

Unrealized Gains on Other Securities amounted to JPY 87.8 billion, a decrease of JPY 14.5 billion from that as of September 30, 2010. This is because, while Unrealized Gains on Japanese Stocks increased, Unrealized Gains on Japanese Bonds and Other decreased associated with increases in interest rates both domestically and overseas.

We will announce our Consolidated Capital Adequacy Ratio as of December 31, 2010 at a later date.

| Unrealized Gains (Losses) on Other Securities (Consolidated) * | 87.8 | -14.5 |

* The base amount to be recorded directly to Net Assets after tax and other necessary adjustments

III. Disciplined Capital Management

It has become increasingly important for financial institutions to strengthen capital base amid the ongoing global discussions on the revision of capital regulations. Therefore, as our medium-term target, we aim to increase our consolidated Tier 1 capital ratio to 12% level and our prime capital* ratio to 8% or above.

* Prime Capital = Tier 1 capital - preferred debt securities - preferred stock (excluding mandatory convertible preferred stock)

We announced Mizuho's Transformation Program in May 2010, and are addressing the issues for improving profitability and enhancing financial base. We will strive to further strengthen our financial base mainly by accumulating retained earnings and improving asset efficiency through the steady implementation of the Program. Accordingly, we believe we will be able to sufficiently meet new capital regulations.

In this fiscal year, we have strengthened our capital base mainly as a result of earning JPY 422 billion of Consolidated Net Income for the nine months ended December 31 and through issuing common stock in the first half of fiscal 2010. We continue to pursue disciplined capital management policy, optimally balancing strengthening of stable capital base and steady returns to shareholders in accordance with changes in the business environment, our financial condition or other factors.

(Note) The outstanding balance of Eleventh Series Class XI Preferred Stock as of December 31, 2010 (excluding treasury stock) was JPY 473.0 billion (49.8% out of JPY 943.7 billion of the initial amount issued had been already converted into common stock).
