Income Tax Information:

Net unrealized appreciation/depreciation of investments based on federal tax costs were as follows:

As of January 31, 2011

Gross appreciation (excess of value over tax cost)	\$105,595,773
Gross depreciation (excess of tax cost over value)	(26,198,334)
Net unrealized appreciation	79,397,439
Cost of investments for income tax purposes	\$674,333,145

Notes to Quarterly Statement of Investments

January 31, 2011 (unaudited)

1. Significant Accounting and Operating Policies

Reaves Utility Income Fund (the Fund) is a closed-end management investment company that was organized under the laws of the state of Delaware by an Agreement and Declaration of Trust dated September 15, 2003. The Fund is a non-diversified fund with an investment objective to provide a high level of after-tax income and total return consisting primarily of tax-advantaged dividend income and capital appreciation. The Declaration of Trust provides that the Trustees may authorize separate classes of shares of beneficial interest. The Fund commenced operations on February 24, 2004. The Fund's common shares are listed on the New York Stock Exchange Amex (Exchange) and trade under the ticker symbol UTG.

The Fund may have elements of risk, including the risk of loss of equity. There is no assurance that the investment process will consistently lead to successful results. An investment concentrated in sectors and industries may involve greater risk and volatility than a more diversified investment.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The preparation of financial statements is in accordance with generally accepted accounting principles in the United States of America (GAAP), which requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Security Valuation: The net asset value per common share (NAV) of the Fund is determined no less frequently than daily, on each day that the Exchange is open for trading, as of the close of regular trading on the Exchange (normally 4:00 p.m. New York time). Securities held by the Fund for which exchange quotations are readily available are valued at the last sale price, or if no sale price or if traded on the over-the-counter market, at the evaluated bid prices on such day, as provided by the Fund's primary pricing service. Debt securities for which the over-the-counter market is the primary market are normally valued on the basis of prices furnished by one or more pricing services at the mean between the latest available bid and asked prices. As authorized by the Trustees, debt securities (other than short-term obligations) may be valued on the basis of valuations furnished by a pricing service which determines valuations based upon market transactions for normal, institutional-size trading units of securities. Short-term obligations maturing within 60 days are valued at amortized cost which approximates market value. Shares of other mutual funds are valued based upon their reported NAVs. Securities for which market quotations or valuations are not available are valued at fair value in good faith by or at the direction of the Trustees. Various factors may be reviewed in order to make a good faith determination of a security's fair value. These factors may include, but are not limited to, the type and cost of the security; the fundamental analytical data relating to the investment; an evaluation of the forces which influence the market in which the security is sold, including the liquidity and depth of the market; information as to any transactions or offers with respect to the security; price, yield and the extent of public or private trading in similar securities of the issuer or comparable companies.

Various inputs are used to determine the value of the Fund's investments. Observable inputs are inputs that reflect the assumptions market participants would use based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions based on the best information available in the circumstances. These inputs are summarized in the three broad levels listed below.

- i Level 1 Unadjusted quoted prices in active markets for identical investments

- i Level 2 Significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

- i Level 3 Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

Edgar Filing: REAVES UTILITY INCOME FUND - Form N-Q

The following is a summary of the inputs used to value the Fund's investments as of January 31, 2011:

Investments in Securities at Value*	Level 1 - Quoted Prices	Level 2 - Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Total
Common Stocks	\$684,439,756	\$-	\$-	\$684,439,756
Preferred Stocks	3,056,414	1,768,422	-	4,824,836
<i>Electric Utilities</i>	<i>775,929</i>	<i>1,768,422</i>	-	
<i>Independent Power Producers & Energy Trades</i>	<i>1,074,113</i>	-	-	
<i>Multi-Utilities</i>	<i>1,206,372</i>	-	-	
Limited Partnerships	45,308,730	-	-	45,308,730
Corporate Bonds	-	8,616,250	-	8,616,250
Mutual Funds	4,178,701	-	-	4,178,701
Short Term Investments	6,362,311	-	-	6,362,311
Total	\$743,345,912	\$10,384,672	\$-	\$753,730,584

* For detailed description of industry and or geography classifications, see the accompanying quarterly Statement of Investments.

For the three months ended January 31, 2011, the Fund did not have significant unobservable inputs (Level 3) used in determining fair value. The Fund uses the value of investment securities, as of the end of each reporting period, in determining transfers in/out of Levels 1, 2 or 3.

Foreign Securities: The Fund may invest a portion of its assets in foreign securities. In the event that the Fund executes a foreign security transaction, the Fund will generally enter into a forward foreign currency contract to settle the foreign security transaction. Foreign securities may carry more risk than U.S. securities, such as political, market and currency risks.

The accounting records of the Fund are maintained in U.S. dollars. Prices of securities denominated in foreign currencies are translated into U.S. dollars at the closing rates of exchange at period end. Amounts related to the purchase and sale of foreign securities and investment income are translated at the rates of exchange prevailing on the respective dates of such transactions.

Securities Transactions and Investment Income: Investment security transactions are accounted for as of trade date. Dividend income is recorded on the ex-dividend date. Interest income, which includes amortization of premium and accretion of discount, is accrued as earned. Realized gains and losses from securities transactions and unrealized appreciation and depreciation of securities are determined using the First In First Out basis for both financial reporting and income tax purposes.

2. Recently Issued Accounting Pronouncement

In January 2010, the FASB issued Accounting Standards Update Improving Disclosures about Fair Value Measurements (ASU). The ASU requires enhanced disclosures about a) transfers into and out of Levels 1 and 2, and b) purchases, sales, issuances, and settlements on a gross basis relating to Level 3 measurements. The first disclosure is effective for the first reporting period beginning after December 15, 2009, and for interim periods within those fiscal years. There were no significant transfers in to and out of Levels 1 and 2 during the current period presented.

The second disclosure will become effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. Management is currently evaluating the impact this disclosure may have on the Fund's financial statements.

Item 2. Controls and Procedures.

- (a) The Registrant's principal executive officer and principal financial officer have evaluated the Registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the 1940 Act) (17 CFR 270.30a-3(c))) within 90 days of the filing date of this report and have concluded that the Registrant's disclosure controls and procedures were effective as of that date.

- (b) There were no changes in the Registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the Registrant's last fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3. Exhibits.

Separate certifications for the Registrant's principal executive officer and principal financial officer, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and Rule 30a-2(a) under the 1940 Act, are attached as Exhibit 99.Cert.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
