All financial and other numeric measures of High Trust and One Georgia as described in this Amendment are based upon information as of July 15, 2011 and may be subject to change. In addition, the fair values of acquired loans and other real estate remains subject to finalization and revision by the Bank in accordance with accounting guidance on business acquisitions.

Item 2.01 Completion of Acquisition or Disposition of Assets.

High Trust Acquisition

On July 15, 2011 (the *Closing Date*), the Bank entered into a Purchase and Assumption Agreement (the *High Trust Agreement*) with the FDIC and with the FDIC, as Receiver, pursuant to which the Bank acquired certain assets, and assumed substantially all of the deposits and certain liabilities, of High Trust (the *High Trust Acquisition*).

Under the terms of the High Trust Agreement, the Bank acquired approximately \$179.0 million in assets, including approximately \$133.5 million in loans, and also assumed approximately \$176.3 million in liabilities, including approximately \$175.9 million in customer deposits. The above figures reflect the book value of the assets and liabilities of the High Trust Acquisition. The deposits were acquired with no premium, and the assets were acquired at a discount of \$33.5 million. To settle the transaction, the FDIC made a cash payment to the Bank totaling \$30.2 million, based on the differential between liabilities assumed and assets acquired, taking into account the asset discount.

Edgar Filing: Ameris Bancorp - Form 8-K/A

The estimated fair values of the assets acquired and liabilities assumed in conjunction with the High Trust Acquisition as of the Closing Date are detailed in the following table (dollars in thousands):

In connection with the High Trust Acquisition, the Bank entered into shared-loss agreements with the FDIC that collectively cover approximately \$8.7 million of single family residential mortgage loans, approximately \$23.3 million of other real estate owned, approximately \$30.7 million of commercial real estate loans and approximately \$93.7 million of construction loans, other commercial loans and other commercial assets (collectively, High Trust Covered Assets). Under these shared-loss agreements, the FDIC will reimburse the Bank for 80% of losses on High Trust Covered Assets, beginning with the first dollar of loss incurred. The Bank will reimburse the FDIC for recoveries with respect to losses for which the FDIC paid the Bank under the shared-loss agreements. The shared-loss agreement applicable to single family residential mortgage loans provides for FDIC loss sharing and reimbursement by the Bank to the FDIC, in each case as described above, for ten years. The shared-loss agreement applicable to commercial loans and securities provides for FDIC loss sharing for five years and reimbursement by the Bank to the FDIC for eight years, in each case as described above.

Edgar Filing: Ameris Bancorp - Form 8-K/A

The following table summarizes the assets covered by the shared-loss agreements, the amount covered by the FDIC and the estimated fair values (dollars in thousands):

Assets Subject to Loss Sharing:	Amounts Covered	Estimated Fair Value	Single Family Certificate (10 years for losses)	Commercial Certificate (5 years for losses)

The Bank also has agreed to pay to the FDIC, 45 days after July 31, 2021 (or, if later, the time of disposition of all acquired assets pursuant to the shared-loss agreements) (the *True-Up Date*), the excess, if any, of (i) 20% of the intrinsic loss estimate of approximately \$51 million less (ii) the sum of (A) 20% of the cumulative shared-loss payments (defined as the aggregate of all shared-loss payments made by the FDIC to the Bank under the High Trust shared-loss agreements minus the aggregate of all reimbursement payments made by the Bank to the FDIC under such agreements), plus (B) 25% of the asset discount of total High Trust Covered Assets at the inception of the related shared-loss agreement, plus (C) servicing amounts equal to 3.5% of total High Trust Covered Assets at the inception of the related shared-loss agreement.

The terms of the High Trust Agreement provide for the FDIC to indemnify the Bank against certain claims, including, but not limited to, claims with respect to liabilities and assets of High Trust or any of their affiliates not assumed or otherwise purchased by the Bank, with respect to claims made by shareholders of High Trust and with respect to claims based on any action by High Trust's directors, officers and other employees.

The foregoing summary of the High Trust Agreement, including the related shared-loss agreements, is not complete and is qualified in its entirety by reference to the full text of the High Trust Agreement, which is attached as Exhibit 2.1 to this Current Report and incorporated herein by reference.

One Georgia Acquisition

Also on the Closing Date, the Bank entered into a Purchase and Assumption Agreement (the *One Georgia Agreement*) with the FDIC and with the FDIC, as Receiver, pursuant to which the Bank acquired certain assets, and assumed substantially all of the deposits and certain liabilities, of One Georgia (the *One Georgia Acquisition* and, together with the High Trust Acquisition, the *Acquisitions*).

Under the terms of the One Georgia Agreement, the Bank acquired approximately \$184.2 million in assets, including approximately \$120.8 million in loans. The Bank also assumed approximately \$156.1 million in liabilities, including approximately \$136.1 million in customer deposits. The above figures reflect the book value of the assets and liabilities of the One Georgia Acquisition. The deposits were acquired with no premium, and the assets were acquired at a discount of \$22.5 million. To settle the transaction, the Bank made a cash payment to the FDIC totaling \$5.7 million, based on the differential between liabilities assumed and assets acquired, taking into account the asset discount.

The estimated fair values of the assets acquired and liabilities assumed in conjunction with the One Georgia Acquisition as of the Closing Date are detailed in the following table (dollars in thousands):

In connection with the One Georgia Acquisition, the Bank entered into shared-loss agreements with the FDIC that collectively cover approximately \$13.8 million of single family residential mortgage loans, approximately \$19.2 million of other real estate owned, approximately \$53.5 million of commercial real estate loans and approximately \$56.6 million of construction loans, other commercial loans and other commercial assets (collectively, One Georgia Covered Assets). Under these shared-loss agreements, the FDIC will reimburse the Bank for 80% of losses on One Georgia Covered Assets, beginning with the first dollar of loss incurred. The Bank will reimburse the FDIC for recoveries with respect to losses for which the FDIC paid the Bank under the shared-loss agreements. The shared-loss agreement applicable to single family residential mortgage loans provides for FDIC loss sharing and reimbursement by the Bank to the FDIC, in each case as described above, for ten years. Item 9.01 Financial Statements and Exhibits.

(a) Financial Statements of Businesses Acquired.

Discussion

As set forth in Item 2.01 above, on the Closing Date, the Bank acquired certain assets, and assumed substantially all of the deposits and certain liabilities, of each of High Trust and One Georgia pursuant to the High Trust Agreement and the One Georgia Agreement, respectively. A narrative description of the anticipated effects of the Acquisitions on the Company's financial condition, liquidity, capital resources and operating results is presented below. This discussion should be read in conjunction with the historical financial statements and the related notes of the Company, which have been filed with the Securities and Exchange Commission, and the Audited Statement, which is attached hereto as Exhibit 99.2.

The High Trust Acquisition increased the Company's total assets, total loans and total deposits by approximately 6.91%, 4.59% and 7.00%, respectively, as compared to balances at June 30, 2011. The One Georgia Acquisition increased the Company's total assets, total loans and total deposits by approximately 5.81%, 4.05% and 5.42%, respectively, as compared to balances at June 30, 2011. The Company expects the Acquisitions to positively affect the Company's operating results for the following reasons:

- (i) The Company believes that the additional branch footprint in Stockbridge, Leary and Midtown Atlanta, Georgia will provide increased opportunities for growth and complement the Bank's existing footprint.
- (ii) The Company believes that as the operations of High Trust and One Georgia are deleveraged and consolidated with those of the Bank, additional gains in the Company's consolidated efficiency ratio will be realized.

The Acquisitions were accounted for under the purchase method of accounting in accordance with generally accepted accounting principles regarding business combinations. The amount that the Company realizes on these assets could differ materially from the fair value reflected in the attached Audited Statement primarily as a result of changes in the timing and amount of collections on the acquired loans in future periods. Because of the shared-loss agreements with the FDIC on these assets, as described in Item 2.01 above, the Company does not expect to incur significant losses. To the extent the actual values realized for acquired loans differ from the estimated amounts, the indemnification asset will generally be impacted in an offsetting manner due to the loss-sharing support from the FDIC.

Financial Condition

In connection with the High Trust Acquisition, the Bank purchased loans with a contractual principal balance of \$133.5 million, the fair value of which was estimated to be \$84.7 million. The fair value of the loans acquired represented 4.59% of the Company's gross outstanding loans as compared to balances reported at June 30, 2011.

In connection with the One Georgia Acquisition, the Bank purchased loans with a contractual principal balance of \$120.8 million, the fair value of which was estimated to be \$74.8 million. The fair value of the loans acquired represented 4.05% of the Company's gross outstanding loans as compared to balances reported at June 30, 2011.

Short-term Assets

Initially, the Acquisitions increased the Company's levels of liquidity by a net amount of \$43.0 million. The Company acquired \$18.5 million in total cash and due from banks before receiving a \$30.2 million payment from the FDIC to settle the High Trust Acquisition and making a payment of \$5.7 million to the FDIC to settle the One Georgia Acquisition.

Total	\$ 28,891	2.50%	3.48

The High Trust and One Georgia acquired portfolios increased the Company's investment securities by approximately 4.42% and 8.64%, respectively, when compared to balances reported at June 30, 2011.

Loans

The estimated fair value of loans acquired in the High Trust Acquisition and the One Georgia Acquisition amounted to approximately 4.59% and 4.05%, respectively, of the Company's gross loans reported at June 30, 2011. The following table presents information regarding the loan portfolios acquired on the Closing Date at estimated fair value (dollars in thousands):

	Loans with deterioration of credit quality	Loans without a deterioration of credit quality	Total loans, at fair value
High Trust:

The acquired portfolios contained both fixed and variable rate loans. The following table provides information about the portfolios according to loan rate type and at fair value as of the Closing Date (dollars in thousands):

	Fair Value	Effective Yield	Maturity (years)	Fair Value amounts with:

	\$ 74,843	6.11%	6.37	\$ 48,198	\$ 26,645

Because a significant percentage of the acquired portfolios shows some deterioration of credit quality, management does not believe that the average contractual maturity or average contractual rate are reliable measures with respect to gauging the performance on the acquired loan portfolios. It is likely that many of the acquired loans will reach a resolution before their contractual maturity and may cease paying interest in the periods preceding such resolution.

Other Real Estate Owned

The Company acquired \$10.3 million and \$7.2 million of foreclosed property in connection with the High Trust Acquisition and the One Georgia Acquisition, respectively. This represented 8.2% and 5.8%, respectively, of the Company's balance of foreclosed property at June 30, 2011. The Company was able to determine the fair value of the property acquired through the use of appraisals and/or review of the comparable sales data available at the time of purchase. Losses on foreclosed property are covered by the Company's shared-loss agreements with the FDIC. The following table summarizes foreclosed property by type as of the Closing Date (at fair value and in thousands):

	High Trust	One Georgia	Total
Real estate residential	\$ 832	\$ 1,279	\$ 2,111
Real estate commercial & farmland	4,490	3,917	8,407
Real estate construction & development	4,950	2,046	6,996
Total	\$ 10,272	\$ 7,242	\$ 17,514

Deposits

In the High Trust Acquisition and the One Georgia Acquisition, the Bank assumed approximately \$175.9 million and \$136.1 million, respectively, in deposits based on estimated fair values. These amounts represented approximately 7.00% and 5.42%, respectively, of the Bank's total deposits of \$2.51 billion at June 30, 2011.

The various types of deposit accounts assumed as of the Closing Date are summarized below (dollars in thousands):

As of the Closing Date, the scheduled maturities of time deposits with balances of more than \$100,000 were as follows (in thousands):

Over 1 Year	25,583	13,051	38,634
Total	\$ 116,387	\$ 44,102	\$ 160,489

A majority of the acquired time deposits were concentrated in national or out-of-market deposit accounts that had no identifiable relationship with the Bank. In accordance with certain guidelines, the Company adjusted the contractual rates of the out-of-market time deposits to levels deemed to be market level rates. Customers whose rates were adjusted had the right to redeem their time deposits without a penalty for early withdrawal. Through August 31, 2011, approximately 74.6% of the repriced deposit accounts had been redeemed without penalty. The following table summarizes information about the acquired time deposits (dollars in thousands):

Accrued Interest Payable and Other Liabilities

In the High Trust Acquisition and the One Georgia Acquisition, the Company acquired approximately \$437,000 and \$125,000, respectively, of accrued interest payable and other liabilities. The book value of these liabilities approximated their fair value.

Operating Results and Cash Flows

The Company from time to time becomes aware of acquisition opportunities and performs various types of reviews and analyses to determine their impact on the Company's operating results, cash flows and risk profile. The Acquisitions were attractive to the Company for a variety of reasons, including the following:

Attractiveness in the pricing of the acquired loan portfolios including the indemnification assets;

The ability to utilize the Company's relatively inexpensive funding sources to replace lost liquidity at High Trust and One Georgia in connection with the planned run-off of out-of-market deposits;

The ability to quickly reduce redundancies and gain additional efficiencies related to the Company's corporate functions;

The reduction of credit risk through FDIC shared-loss agreements; and

The relatively small size of High Trust and One Georgia (based on the number of accounts and total assets) provided less operational risk and less potential for the Company's management to be materially distracted from existing day-to-day challenges.

The Acquisitions had an immediate accretive impact on the Company's financial results as the Company recognized an after-tax gain of approximately \$17.5 million in connection with the Acquisitions. The gain resulted from the Company's determination that the fair value of the assets acquired exceeded the fair value of the liabilities assumed.

The Company's bid to acquire the assets of High Trust included a discount of approximately \$33.5 million, and the Company received a \$30.2 million cash payment from the FDIC to settle the High Trust Acquisition. The Company's bid to acquire the assets of One Georgia included a discount of approximately \$22.5 million, and the Company paid the FDIC \$5.7 million in cash to settle the One Georgia Acquisition.

The extent to which the Bank's operating results may be adversely affected by the acquired loans is largely offset by the shared-loss agreements and the related discounts reflected in the estimated fair value of these assets as of the Closing Date. In accordance with the provisions of accounting for loans with evidence of credit deterioration, the fair values of the acquired loans reflect an estimate of expected credit losses related to these assets. As a result, the Company's operating results would only be adversely affected by loan losses to the extent that such losses exceed the expected credit losses reflected in the fair value of these assets as of the Closing Date. In addition, to the extent that the stated interest rate on acquired loans was not considered a market rate of interest as of the Closing Date, appropriate adjustments to the fair values as of the Closing Date will be recorded. These adjustments mitigate the risk associated with the acquisition of loans earning a below-market rate of return.

The accounting guidance for loans with evidence of deterioration of credit quality since origination applies to a loan, for which it is probable at acquisition, that the investor will be unable to collect all contractually-required payments receivable. This accounting guidance prohibits carrying over or creating an allowance for loan losses upon initial recognition for loans that fall under its scope. The Company also has elected to recognize income on loans without evidence of deterioration of credit quality in the same manner as loans with credit quality deterioration. As of the Closing Date, the preliminary estimate of the contractual receivable amounts was \$241.8 million with non-accretable differences of \$95.1 million, and the estimated fair value of the loans was \$124.1 million, net of accretable yield adjustments totaling \$22.6 million. These amounts were determined based upon the estimated prepayments, expected credit losses and market liquidity and interest rates.

The shared-loss agreements will likely have a material impact on the cash flows and operating results of the Company in both the short-term and the long-term. In the short-term, as stated above, it is likely that there will be a significant amount of the covered assets that will experience deterioration in payment performance or will be determined to have inadequate collateral values to repay the loans. In such instances, the Company will likely no longer receive payments from the borrowers, which will impact cash flows. The shared-loss agreements will not fully offset the financial effects of such a situation. However, if a loan is subsequently charged off or charged down after the Company exhausts its best efforts at collection, the shared-loss agreements will cover a substantial portion of the loss associated with the covered assets.

The long-term effects that the Company may experience will depend primarily on the ability of the borrowers under the various loans covered by the shared-loss agreements to make payments over time. As the shared-loss agreements cover up to a ten-year period (five years for commercial loans and other assets), changing economic conditions will likely impact the timing of future charge-offs and the resulting reimbursements from the FDIC. The Company believes that any recapture of interest income and recognition of cash flows from the borrowers or received from the FDIC (as part of the FDIC indemnification asset) may be recognized unevenly over this period. In addition, the Company recorded substantial discounts related to the purchase of these covered assets. A portion of these discounts will be accretable to income over the economic life of the loans and will be dependent upon the timing and success of the Company's collection efforts on the covered assets.

Liquidity

Initially, the Acquisitions increased the Company's liquidity reserves because of the net cash payment received on the Closing Date totaling \$24.5 million. In addition, the acquisition of cash, due from banks and short term assets acquired in the Acquisitions totaled \$18.5 million. The Company believes that the average life of the indemnification asset representing the FDIC's protection from planned losses is approximately 24 months. As this receivable is collected over the coming periods, the Company believes the liquidity impact of High Trust and One Georgia to be negligible.

Financial Statements

Attached hereto as Exhibit 99.2 and incorporated by reference into this Item 9.01(a) is an Audited Statement of Assets Acquired and Liabilities Assumed by the Bank, a wholly-owned subsidiary of the Company, related to its acquisition of High Trust and One Georgia at July 15, 2011 and the accompanying notes thereto.

Report of Independent Registered Public Accounting Firm

Statement of Assets Acquired and Liabilities Assumed at July 15, 2011

Notes to Statement of Assets Acquired and Liabilities Assumed

The Company has omitted certain financial information of High Trust and One Georgia required by Rule 3-05 of Regulation S-X and the related pro forma financial information under Article 11 of Regulation S-X in accordance with the guidance provided in Staff Accounting Bulletin 1:K, *Financial Statements of Acquired Troubled Financial Institutions* (SAB:1K). SAB 1:K provides relief from the requirements of Rule 3-05 in certain instances, such as the Acquisitions, where a registrant engages in an acquisition of a significant amount of assets of a troubled financial institution that involves pervasive federal assistance, audited financial statements of the troubled financial institution are not reasonably available and the total acquired assets did not exceed 20% of the Registrant's assets.

(b) Pro Forma Financial Information.

In connection with the Acquisitions, the Bank entered into shared-loss agreements with the FDIC. Pursuant to the terms of the shared-loss agreements, the FDIC's obligation to reimburse the Bank for losses with respect to covered assets begins with the first dollar of loss incurred. The FDIC will reimburse the Bank for 80% of all covered losses. The Bank will reimburse the FDIC for its share of recoveries with respect to losses for which the FDIC paid the Bank a reimbursement under the shared-loss agreements.

The shared-loss agreements applicable to single-family residential mortgage loans provide for FDIC loss-sharing and Bank reimbursement to the FDIC for recoveries for ten years. The shared-loss agreements applicable to commercial loans and other covered assets provide for FDIC loss-sharing for five years and Bank reimbursement to the FDIC for recoveries for eight years.

Based on the above, the Company believes that each of the Acquisitions is a significant acquisition in connection with which federal financial assistance or guarantees are an essential part of the transaction or the nature and magnitude of federal assistance is so pervasive as to substantially reduce the relevance of historical information to an assessment of future operations.

Because the Company believes that the continuity of High Trust's and One Georgia's operations are substantially lacking after the High Trust Acquisition and the One Georgia Acquisition, respectively, for the reasons stated above, no additional information regarding High Trust or One Georgia is being provided under this Item 9.01(b).
