## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements
(Unaudited)

## (1) Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q, do not include all of the information and disclosures required by generally accepted accounting principles for complete financial statements and should be read in conjunction with the consolidated financial statements and related notes filed in our Company s Annual Report on Form 10-K for the year ended December 31, 2010.

The accompanying unaudited consolidated financial statements include all adjustments that, in the opinion of management, are necessary in order to make those statements not misleading. Management is required to make estimates and assumptions, including the determination of the allowance for loan losses, real estate acquired in connection with foreclosure or in satisfaction of loans, and fair values of investment securities available-for-sale that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Our Company s management has evaluated and did not identify any subsequent events or transactions requiring recognition or disclosure in the consolidated financial statements.

On July 1, 2011, our Company paid a special stock dividend of four percent to common shareholders of record at the close of business on May 12, 2011. For all periods presented, share information, including basic and diluted earnings per share have been adjusted retroactively to reflect this change.

The significant accounting policies followed in the preparation of the quarterly financial statements are disclosed in the 2010 Annual Report on form $10-\mathrm{K}$.

| Total loans | $\$ 849,801,000$ | $\$ 898,472,463$ |

The Bank grants real estate, commercial, installment, and other consumer loans to customers located within the communities of and surrounding Jefferson City, Clinton, Warsaw, Springfield, Branson and Lee s Summit, Missouri. As such, the Bank is susceptible to changes in the economic environment in these communities. The Bank does not have a concentration of credit in any one economic sector. Installment and other consumer loans consist primarily of the financing of vehicles.

At September 30, 2011, loans with a carrying value of $\$ 440,525,000$ were pledged at the Federal Home Loan Bank as collateral for borrowings and letters of credit.

## Allowance for loan losses

The following table provides the balance in the allowance for loan losses at September 30, 2011 and December 31, 2010, and the related loan balance by impairment methodology. Loans evaluated under ASC 310-10-35 include loans on non-accrual status, which are individually evaluated for impairment, troubled debt restructurings, and other impaired loans deemed to have similar risk characteristics. All other loans are collectively evaluated for impairment under ASC 450-20. Although the allowance for loan losses is comprised of specific and general allocations, the entire allowance is available to absorb credit losses.

Loans, or portions of loans, are charged off to the extent deemed uncollectible. Loan charge-offs reduce the allowance for loan losses, and recoveries of loans previously charged off are added back to the allowance. Once the fair value for a collateral dependent loan has been determined, any impaired amount is typically charged off unless the loan has other income streams to support repayment. For impaired loans which have other income streams to support repayment, a specific reserve is established for the amount determined to be impaired.

## Impaired loans

Impaired loans totaled $\$ 53,683,301$ and $\$ 56,270,543$ at September 30, 2011 and December 31, 2010 respectively, and are comprised of loans on non-accrual status and loans which have been classified as troubled debt restructurings.

The categories of impaired loans at September 30, 2011 and December 31, 2010 are as follows:

|  | September 30, <br> $\mathbf{2 0 1 1}$ | December 31, <br> $\mathbf{2 0 1 0}$ |
| :--- | ---: | ---: |
| Non-accrual loans | $\$ 46,661,244$ | $\$ 50,586,887$ |
| Troubled debt restructurings continuing to accrue interest | $7,022,057$ | $5,683,656$ |
| Total impaired loans | $\$ 53,683,301$ | $\$ 56,270,543$ |

At September 30, 2011, loans classified as troubled debt restructurings (TDRs) totaled $\$ 33,694,501$, of which $\$ 26,672,444$ were on non-accrual status and $\$ 7,022,057$ were on accrual status. At December 31, 2010, loans classified as TDRs totaled $\$ 22,080,431$, of which $\$ 16,396,775$ were on non-accrual status and $\$ 5,683,656$ was on accrual status. When an individual loan is determined to be a TDR, the amount of impairment is based upon the present value of expected future cash flows discounted at

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements
(Unaudited)
the loan seffective interest rate or the fair value of the underlying collateral less applicable selling costs. Accordingly, specific reserves of $\$ 2,281,000$ and $\$ 1,359,000$ were allocated to the allowance for loan losses at September 30, 2011 and December 31, 2010, respectively. As a result of adopting the amendments in Accounting Standards Update (ASU) No. 2011-02 Receivables (ASC Topic 310) A Creditor s Determination of Whether a restructuring Is a Troubled Debt Restructuring, our Company reassessed all restructurings that occurred on or after January 1, 2011 for identification as TDRs.

The following table summarizes loans that were modified as TDRs during the three and nine months ended September 30, 2011:

|  | Three Months Ended September 30, 2011 Recorded Investment (1) |  |  | Nine Months Ended <br> September 30, 2011 <br> Recorded Investment (1) |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Number of Contracts | Pre- <br> Modification | Post- <br> Modification | Number of Contracts | Pre- <br> Modification | Post- <br> Modification |
| Troubled Debt Restructurings |  |  |  |  |  |  |
| Commercial, financial and agricultural | 1 | \$ 1,196,080 | \$ 1,196,080 | 8 | \$ 3,200,191 | \$ 3,199,086 |
| Real estate construction - commercial | 5 | 5,934,672 | 5,547,861 | 5 | 5,934,672 | 5,547,861 |
| Real estate mortgage- residential | 1 | 202,185 | 202,185 | 5 | 954,603 | 933,304 |
| Real estate mortgage - commercial | 7 | 5,412,927 | 5,146,928 | 9 | 7,539,214 | 7,273,215 |
| Total | 14 | \$ 12,745,864 | \$ 12,093,054 | 27 | \$ 17,628,680 | \$ 16,953,466 |

(1) The amounts reported post-modification are inclusive of all partial pay-downs and charge-offs, and no portion of the debt was forgiven. Loans modified as a TDR that were fully paid down, charged-off or foreclosed upon during the period ended are not reported.
According to guidance provided in ASC subtopic 310-40, Troubled Debt Restructurings by Creditors, a loan restructuring or modification of terms is a TDR if the creditor for economic or legal reasons related to the borrowers financial difficulties grants a concession to the borrower that it would not otherwise consider. Our Company s portfolio of loans classified as TDRs include concessions such as interest rates below the current market rate, deferring principal payments, and extending maturity dates. Once a loan becomes a TDR, it will continue to be reported as a TDR until it is ultimately repaid in full, charged-off, or foreclosed and sold. Our Company considers a loan in TDR status in default when the borrowers payment according to the modified terms is at least 90 days past due or has defaulted due to expiration of the loans maturity date. During the nine months ended September 30, 2011, twenty-seven loans were modified meeting the criteria for troubled debt restructurings. During this time period none of these twenty-seven 2011 TDRs have subsequently defaulted.

Interest income recognized on loans in non-accrual status and contractual interest that would be recorded had the loans performed in accordance with their original contractual terms is as follows:

|  | Three Months Ended |  | Nine Months Ended <br> September 30, |  |
| :--- | :---: | :---: | :---: | :---: |
|  | September 30, |  | $\mathbf{2 0 1 0}$ | $\mathbf{2 0 1 1}$ |
| Contractual interest due on non-accrual loans | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 0}$ | $\mathbf{2 0 1 0}$ |  |
| Interest income recognized on loans in non-accrual status | $\$ 572,643$ | $\$ 606,927$ | $\$ 1,791,551$ | $\$ 1,885,164$ |
|  | 7,705 | 6,513 | 40,545 | 10,733 |

| Net reduction in interest income | $\$ 564,938 \quad \$ 600,414 \quad \$ 1,751,006 \quad \$ 1,874,431$ |
| :--- | :--- | :--- | :--- |

The specific reserve component of our Company s allowance for loan losses at September 30, 2011 and December 31, 2010 was determined by using fair values of the underlying collateral obtained through independent appraisals and internal evaluations, or by discounting the total expected future cash flows. The recorded investment varies from the unpaid principal balance primarily due to partial charge-offs taken resulting from current appraisals received. The amount recognized as interest income on impaired loans continuing to accrue interest, primarily related to troubled debt restructurings, was $\$ 149,981$ and $\$ 480,950$ for the nine months ended September 30, 2011 and September 30, 2010, respectively. Average recorded investment in impaired loans is calculated on a monthly basis during the period.

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements
(Unaudited)

It is our Company spolicy to discontinue the accrual of interest income on loans when management believes that the borrower s financial condition, after consideration of business conditions and collection efforts, is such that the collection of interest is doubtful, or upon which principal or interest has been in default for a period of 90 days or more and the asset is not both well secured and in the process of collection. Subsequent interest payments received on such loans are applied to principal if any doubt exists as to the collectability of such principal; otherwise, such receipts are recorded as interest income on a cash basis.

Age Analysis of Past Due and Non-Accrual Loans

|  | Current or <br> Less Than <br> 30 Days <br> Past Due | 30 - 89 Days <br> Past Due | 90 Days <br> Past Due <br> And Still <br> Accruing | Non-Accrual | Total |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |

The following table provides information about the credit quality of the loan portfolio using our Company s internal rating system reflecting management s risk assessment. Loans are placed on watch status when (1) one or more weaknesses which could jeopardize timely liquidation exits; or (2) the margin or liquidity of an asset is sufficiently tenuous that adverse trends could result in a collection problem. Loans classified as substandard are inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified may have a well defined weakness or weaknesses that jeopardize the repayment of the debt. Such loans are characterized by the distinct possibility that our Company may sustain some loss if the deficiencies are not corrected. Loans are placed on non-accrual status when (1) deterioration in the financial condition of the borrower exists such that payment of full principal and interest is not expected, or (2) payment of principal or interest has been in default for a period of 90 days or more and the asset is not both well secured and in the process of collection.

## (4) Investment Securities

A summary of investment securities by major category, at fair value, consisted of the following at September 30, 2011 and December 31, 2010.

|  | September 30, | December 31, <br> $\mathbf{2 0 1 0}$ |
| :--- | ---: | ---: |
| U.S. treasury | $\mathbf{2 0 1 1}$ | $\$, 057,657$ |
| Government sponsored enterprises | $56,173,402$ | $1,027,891$ |
| Asset-backed securities | $115,235,218$ | $90,341,551$ |
| Obligations of states and political subdivisions | $31,980,177$ | $34,431,867$ |
|  |  |  |
| Total available for sale securities | $\$ 205,446,454$ | $\$ 178,977,550$ |

All of our Company s investment securities are classified as available for sale, as discussed in more detail below. Asset backed securities include agency mortgage-backed securities, which are guaranteed by government sponsored entities and government agencies such as the FHLMC, FNMA and GNMA.

Investment securities which are classified as restricted equity securities primarily consist of Federal Home Loan Bank Stock and our Company s interest in statutory trusts. These securities are reported at cost in other assets in the amount of $\$ 4,388,950$ and $\$ 6,141,950$, as of September 30, 2011 and December 31, 2010, respectively.

The amortized cost and fair value of debt securities classified as available-for-sale at September 30, 2011 and December 31, 2010 are as follows:

|  | Amortized cost | Gross unrealized gains |  | Gross realized losses |  | Fair value |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| September 30, 2011 |  |  |  |  |  |  |

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

## (Unaudited)

The amortized cost and fair value of debt securities classified as available-for-sale at September 30, 2011, by contractual maturity are shown below. Expected maturities may differ from contractual maturities because borrowers have the right to call or prepay obligations with or without prepayment penalties.

|  | Amortized <br> cost | Fair <br> value |
| :--- | ---: | ---: |
| Due in one year or less | $2,573,320$ | $\$ 2,596,977$ |
| Due after one year through five years | $65,424,714$ | $66,494,907$ |
| Due after five years through ten years | $17,783,892$ | $18,495,325$ |
| Due after ten years | $2,504,122$ | $2,624,027$ |
|  |  |  |
| Asset-backed securities | $88,286,048$ | $90,211,236$ |
| Total | $111,149,446$ | $115,235,218$ |

Debt securities with carrying values aggregating approximately $\$ 160,007,000$ and $\$ 148,099,000$ at September 30, 2011 and December 31, 2010, respectively, were pledged to secure public fund deposits, federal funds purchased lines, securities sold under agreements to repurchase, borrowing capacity at the Federal Reserve, and for other purposes as required or permitted by law.

Gross unrealized losses on debt securities and the fair value of the related securities, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at September 30, 2011 and December 31, 2010, were as follows:
$\left.\begin{array}{lccccccccc} & \text { Less than } \mathbf{1 2} \text { months } & & \text { 12 months or more } \\ \text { Number } \\ \text { of }\end{array}\right)$

# Edgar Filing: HAWTHORN BANCSHARES, INC. - Form 10-Q 

$\$ 49,721,265 \quad \$(1,136,096) \quad \$ \quad \$ \quad 68 \quad \$ 49,721,265 \quad \$(1,136,096)$

Our Company s available for sale portfolio consisted of approximately 349 securities at September 30, 2011. None of these securities had been in the loss position for 12 months or longer. The $\$ 24,000$ unrealized loss included in other comprehensive income at September 30, 2011 was caused by interest rate fluctuations. At September 30, 2011, our Company did not have the intent to sell any of its securities in an unrealized loss position and believed that it is more likely than not that our Company will not have to sell any such securities before a full recovery of the amortized cost. Because the decline in fair value is attributable to changes in interest rates and not credit quality these investments were not considered other-than-temporarily impaired.

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

## (Unaudited)

Our Company s available for sale portfolio consisted of approximately 333 securities at December 31, 2010. None of these securities had been in the loss position for 12 months or longer. The $\$ 1,136,000$ unrealized loss included in other comprehensive income at December 31, 2010 was caused by interest rate fluctuations. Because the decline in fair value is attributable to changes in interest rates and not credit quality these investments were not considered other-than-temporarily impaired.

During the nine months ended September 30, 2011 and 2010, there were no proceeds from sales of securities and no components of investment securities gains and losses which have been recognized in earnings.

## (5) Intangible Assets

A summary of other intangible assets at September 30, 2011 and December 31, 2010, respectively is as follows:

|  | Gross <br> Carrying <br> Amount | September 30, 2011 <br> Accumulated <br> Amortization | Net <br> Amount | Gross <br> Carrying <br> Amount | December 31, 2010 <br> Accumulated <br> Amortization | Net <br> Amount |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: | ---: |
| Amortizable intangible assets: | $\$ 4,795,224$ | $\$(4,148,453)$ | $\$ 264,771$ | $\$ 7,060,224$ | $\$(6,082,715)$ | $\$$ | 977,509 |
| Core deposit intangible | $3,113,828$ | $(847,719)$ | $2,266,109$ | $3,067,368$ | $(711,378)$ | $2,355,990$ |  |
| Mortgage servicing rights | $\$ 7,909,052$ | $\$(4,996,172)$ | $\$ 2,912,880$ | $\$ 10,127,592$ | $\$(6,794,093)$ | $\$ 3,333,499$ |  |
| Total intangible assets |  |  |  |  |  |  |  |

Changes in the net carrying amount of other intangible assets for the nine months ended September 30, 2011 are as follows:

|  | Core Deposit <br> Intangible <br> Asset | Mortgage <br> Servicing <br> Rights |  |
| :--- | :---: | :---: | :---: |
| Balance at December 31, 2010 | $\$$ | $\mathbf{9 7 7 , 5 0 9}$ | $\mathbf{\$ 2 , 3 5 5 , 9 9 0}$ |
| Additions | $(330,738)$ | 436,074 |  |
| Amortization |  | $(525,955)$ |  |
| Balance at September 30, 2011 | $\$ \mathbf{6 4 6 , 7 7 1}$ | $\mathbf{\$ 2 , 2 6 6 , 1 0 9}$ |  |

Mortgage servicing rights (MSRs) are amortized over the shorter of 7 years or the life of the loan. They are periodically reviewed for impairment and if impairment is indicated, recorded at fair value. At September 30, 2011 and December 31, 2010, no temporary impairment was recognized. The fair value of MSRs is based on the present value of expected cash flows, as further discussed in Fair Value of Financial Instruments. Mortgage loans serviced for others totaled approximately $\$ 301,999,000$ and $\$ 298,325,000$ at September 30, 2011 and December 31, 2010, respectively. Included in other noninterest income were real estate servicing fees for the three months ended September 30, 2011 and 2010 of $\$ 237,000$, and $\$ 286,000$, respectively, and for the nine months ended September 30, 2011 and 2010 of $\$ 630,000$ and $\$ 682,000$, respectively.

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements
(Unaudited)

The aggregate amortization expense of intangible assets subject to amortization for the three and nine months ended September 30, 2011 and 2010 is as follows:

|  | For the Three Months Ended September 30, |  |  |  | For the Nine Months Ended September 30, |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Aggregate amortization expense |  | 2011 |  | 2010 | 2011 |  | 2010 |
| Core deposit intangible asset | \$ | 104,025 | \$ | 118,026 | \$ 330,738 |  | 408,451 |
| Mortgage servicing rights |  | 221,326 |  | 307,981 | 525,955 |  | 594,957 |

Our Company s amortization expense on intangible assets in any given period may be different from the estimated amounts depending upon the acquisition of intangible assets, changes in mortgage interest rates, prepayment rates and other market conditions. The following table shows the estimated future amortization expense based on existing asset balances and the interest rate environment as of September 30, 2011 for the next five years:

|  | Core Deposit <br> Intangible <br> Asset | Mortgage <br> Servicing <br> Rights |
| :--- | :---: | :---: |
| 2011 | $\$ 104,025$ | $\$ 195,000$ |
| 2012 | 408,062 | 435,000 |
| 2013 | 134,684 | 354,000 |
| 2014 |  |  |
| 2015 |  | 288,000 |
| 2016 |  |  |

## (6) Income Taxes

Our Company follows ASC Topic 740, Income Taxes, which addresses the accounting for uncertain tax positions. At September 30, 2011 and December 31, 2010, our Company had $\$ 221,000$ of gross unrecognized tax benefits that if recognized would affect the effective tax rate. Our Company believes that during 2011 it is reasonably possible that there would be a reduction of $\$ 221,000$ in gross unrecognized tax benefits as a result of the lapse of statute of limitations for the 2007 tax year. At September 30, 2011, total interest accrued on unrecognized tax benefits was approximately $\$ 40,000$. As of September 30, 2011, there were no federal or state income tax examinations in process.

The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not our Company will realize the benefits of these temporary differences at September 30, 2011 and, therefore, has not established a valuation reserve.

Income taxes as a percentage of earnings before income taxes as reported in the consolidated financial statements were $31.9 \%$ and $27.2 \%$ for the three months ended September 30, 2011 and 2010, and $32.0 \%$ and $27.6 \%$ for the nine months ended September 30, 2011 and 2010, respectively. The increase in the effective tax rate for the three and nine months ended September 30, 2011 reflects a decrease in tax-exempt income as a percentage of total taxable income.

## (7) Employee Benefit Plans

Employee benefits charged to operating expenses are summarized in the table below.

|  | For the Three Months Ended September 30, |  |  | For the Nine Months Ended September 30, |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | 2011 | 2010 | 2011 | 2010 |
| Payroll taxes | \$ | 263,999 | \$ 257,947 | \$ 842,878 | \$ 863,587 |
| Medical plans |  | 400,995 | 372,789 | 1,277,784 | 1,171,144 |
| 401k match |  | 79,028 | 84,300 | 214,041 | 238,088 |
| Pension plan |  | 227,593 | 216,298 | 682,778 | 648,895 |
| Profit-sharing |  | 62,000 | $(72,468)$ | 101,000 | 2 |
| Other |  | 37,198 | 28,288 | 137,166 | 102,304 |
| Total employee benefits |  | ,070,813 | \$ 887,154 | \$ 3,255,647 | \$ 3,024,020 |

Our Company s profit-sharing plan includes a matching 401 k portion, in which our Company matches the first $3 \%$ of eligible employee contributions. Our Company made annual contributions in an amount up to $6 \%$ of income before income taxes and before contributions to the profit-sharing and pension plans for all participants, limited to the maximum amount deductible for Federal income tax purposes, for each of the years shown. In addition, employees were able to make additional tax-deferred contributions.

## Pension

Our Company also provides a noncontributory defined benefit pension plan for all full-time employees. An employer is required to recognize the funded status of a defined benefit postretirement plan as an asset or liability in its balance sheet and to recognize changes in that funded status in the year in which the changes occur through comprehensive income. Under our Company s funding policy for the defined benefit pension plan, contributions are made to a trust as necessary to provide for current service and for any unfunded accrued actuarial liabilities over a reasonable period. To the extent that these requirements are fully covered by assets in the trust, a contribution might not be made in a particular year. Our Company made a $\$ 554,000$ contribution to the defined benefit plan in 2010, and the minimum required contribution for the 2011 plan year is estimated to be $\$ 997,000$. Our Company has contributed $\$ 1,005,000$ to the plan during 2011 of which $\$ 310,000$ relates to the 2010 plan year and $\$ 695,000$ relates to the 2011 plan year.

The following items are components of net pension cost for the periods indicated:

|  | Estimated | Actual |
| :--- | :---: | :---: |
| 2010 |  |  |
| Service cost benefits earned during the year | $\$ 930,691$ | $\$ 844,178$ |
| Interest costs on projected benefit obligations | 603,903 | 556,047 |
| Expected return on plan assets | $(702,852)$ | $(613,982)$ |
| Amortization of prior service cost | 78,628 | 78,628 |
| Net periodic pension expense | $\$ 910,370$ | $\$ 864,871$ |
| Pension expense - three months ended September 30, (actual) | $\$ 227,593$ | $\$ 216,298$ |

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

## (Unaudited)

## (8) Stock Compensation

Our Company s stock option plan provides for the grant of options to purchase up to 506,188 shares of our Company s common stock to officers and other key employees of our Company and its subsidiaries. All options have been granted at exercise prices equal to fair value and vest over periods ranging from four to five years, except options issued in 2008 to acquire 10,705 shares that vested immediately.

The following table summarizes our Company s stock option activity:

|  | Number of Shares | Weighted Average Exercise Price | Weighted Average Contractual Term (in years) | Aggregate <br> Intrinsic <br> Value <br> (000) |
| :---: | :---: | :---: | :---: | :---: |
| Outstanding at January 1, 2011 * | 260,466 | \$ 24.44 |  |  |
| Granted |  |  |  |  |
| Exercised |  |  |  |  |
| Forfeited |  |  |  |  |
| Expired |  |  |  |  |
| Outstanding at September 30, 2011 | 260,466 | \$ 24.44 | 3.8 | \$ |
| Exercisable at September 30, 2011 | 233,706 | \$ 24.53 | 3.5 | \$ |

* Options have been adjusted to reflect a $4 \%$ stock dividend paid on July 1, 2011.

Total stock-based compensation expense for the three months ended September 30, 2011 and 2010, was $\$ 12,000$ and $\$ 19,000$, respectively, and for the nine months ended September 30, 2011 and 2010 was $\$ 46,000$ and $\$ 68,000$, respectively. As of September 30, 2011, the total unrecognized compensation expense related to non-vested stock awards was $\$ 110,000$ and the related weighted average period over which it is expected to be recognized is approximately three years.

## (9) Comprehensive Income

Activity in other comprehensive income for the nine months ended September 30, 2011 and 2010 is shown in the Consolidated Statements of Stockholders Equity and Comprehensive Income. The first component of other comprehensive income is the unrealized holding gains and losses on available for sale securities. Our Company did not have any other-than temporary impairment (OTTI) as required to be reported under current accounting guidance for OTTI on debt securities during the periods reported. Under this guidance, credit-related losses on debt securities with OTTI are recorded in current earnings, while the noncredit- related portion of the overall gain or loss in fair value is recorded in other comprehensive income, if certain criteria are not met. The second component of other comprehensive income is pension gains and losses that arise during the period but are not recognized as components of net periodic benefit cost, and corresponding adjustments when these gains and losses are subsequently amortized to net periodic benefit cost.

## (10) Preferred Stock

On December 19, 2008, our Company announced its participation in the U.S. Treasury Department s Capital Purchase Program (CPP), a voluntary program that provides capital to financially healthy banks. This program is designed to attract broad participation by banking institutions to help stabilize the financial system by encouraging lending. Our Company has used the funds received, as discussed below, to continue to provide loans to its customers and to look for ways to deploy additional funds to benefit the communities in our Company s market area.

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements
(Unaudited)

Participation in this program included our Company s issuance of 30,255 shares of senior preferred stock (with a par value of $\$ 1,000$ per share) and a ten year warrant to purchase approximately 276,090 shares of common stock (see below for additional information) to the U.S. Department of Treasury in exchange for $\$ 30,255,000$. The proceeds received were allocated between the preferred stock and the common stock warrant based upon their relative fair values. This resulted in the recording of a discount on the preferred stock upon issuance that reflects the value allocated to the warrant. The discount on the preferred stock will be accreted over five years, consistent with managements estimate of the life of the preferred stock. Such accretion will be treated as additional dividends on the preferred stock. The allocated carrying values of the senior preferred stock and common stock warrant at September 30, 2011 were $\$ 29,199,000$ and $\$ 2,382,000$, respectively.

The preferred shares carry a $5 \%$ cumulative dividend for the first five years and $9 \%$ thereafter if not redeemed. The preferred shares are redeemable after three years at par plus accrued dividends, or before three years if our Company raises Tier 1 capital in an amount equal to the preferred stock issued. The preferred stock generally does not have any voting rights, subject to an exception in the event our Company fails to pay dividends on the preferred stock for nine or more quarterly periods, whether or not consecutive. Under such circumstances, the Treasury Department will be entitled to vote to elect two directors to the board until all unpaid dividends have been paid or declared and set apart for payment. Our Company is prohibited from paying any dividends with respect to shares of common stock unless all accrued and unpaid dividends are paid in full on the senior preferred stock for all past dividend periods. The Treasury Department may also transfer the senior preferred stock to a third party at any time.

The common stock warrant is exercisable immediately with a ten year term, in whole or in part, at an exercise price of $\$ 16.44$ per share. The preferred stock and warrant are classified as stockholders equity in the consolidated balance sheet and qualify, for regulatory capital purposes, as Tier I capital. For the nine months ended September 30, 2011, our Company had declared and paid $\$ 1,134,000$ of dividends and amortized $\$ 357,000$ of accretion of the discount on preferred stock.

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

## (Unaudited)

## (11) Earnings per Share

Basic earnings per share is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding during the year. Diluted earnings per share gives effect to all dilutive potential common shares that were outstanding during the year. The calculations of basic and diluted earnings per share are as follows:

|  | For the Three Months Ended September 30, |  | For the Nine Months Ended September 30, |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 2011 | 2010 | 2011 | 2010 |
| Basic earnings per common share: |  |  |  |  |
| Net income | \$ 1,515,639 | \$ 1,422,202 | \$ 3,877,750 | \$ 2,698,436 |
| Less: |  |  |  |  |
| Preferred stock dividends | 378,187 | 378,187 | 1,130,360 | 1,130,360 |
| Accretion of discount on preferred stock | 119,119 | 119,119 | 357,356 | 357,356 |
| Net income available to common shareholders | \$ 1,018,333 | \$ 924,896 | \$ 2,390,034 | \$ 1,210,720 |
| Basic earnings per share | \$ 0.22 | 0.20 | \$ 0.51 | \$ 0.26 |
| Diluted earnings per common share: |  |  |  |  |
| Net income | \$ 1,515,639 | \$ 1,422,202 | \$ 3,877,750 | \$ 2,698,436 |
| Less: |  |  |  |  |
| Preferred stock dividends | 378,187 | 378,187 | 1,130,360 | 1,130,360 |
| Accretion of discount on preferred stock | 119,119 | 119,119 | 357,356 | 357,356 |
| Net income available to common shareholders | \$ 1,018,333 | \$ 924,896 | \$ 2,390,034 | \$ 1,210,720 |
| Average shares outstanding | 4,652,994 | 4,652,994 | 4,652,994 | 4,652,994 |
| Effect of dilutive stock options |  |  |  |  |
| Average shares outstanding including dilutive stock options | 4,652,994 | 4,652,994 | 4,652,994 | 4,652,994 |
| Diluted earnings per share | \$ 0.22 | \$ 0.20 | \$ 0.51 | \$ 0.26 |

Under the treasury stock method, outstanding stock options are dilutive when the average market price of our Company s common stock, when combined with the effect of any unamortized compensation expense, exceeds the option price during the period, except when our Company has a loss from continuing operations available to common shareholders. In addition, proceeds from the assumed exercise of dilutive options along with the related tax benefit are assumed to be used to repurchase common shares at the average market price of such stock during the period.

The following options to purchase shares during the three and nine months ended September 30, 2011 and 2010, respectively, were not included in the respective computations of diluted earnings per share because the exercise price of the option, when combined with the effect of the unamortized compensation expense, was greater than the average market price of the common shares and were considered anti-dilutive.

|  | Three Months Ended <br> September 30, | Nine Months Ended <br> September 30, |  |  |
| :--- | :---: | :---: | :---: | :---: |
|  | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 0}$ | $\mathbf{2 0 1 1}$ | $\mathbf{2 0 1 0}$ |
| Anti-dilutive shares - option shares | 260,466 | 298,382 | 260,466 | $\mathbf{2 9 8 , 3 8 2}$ |
| Anti-dilutive shares - warrant shares | 276,090 | 276,090 | 276,090 | 276,090 |

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements
(Unaudited)

## (12) Fair Value Measurements

Our Company uses fair value measurements to record fair value adjustments to certain financial and nonfinancial assets and liabilities. The FASB ASC Topic 820, Fair Value Measurements and Disclosures, defines fair value, establishes a framework for the measurement of fair value, and enhances disclosures about fair value measurements. The standard applies whenever other standards require (permit) assets or liabilities to be measured at fair value but does not expand the use of fair value in any new circumstances. In this standard, FASB clarified the principle that fair value should be based on the assumptions market participants would use when pricing the asset or liability. In support of this principle, the standard establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. As of the nine months ended September 30, 2011 and 2010, there were no transfers into or out of Level 2.

The fair value hierarchy is as follows:

Level 1 Inputs are unadjusted quoted prices for identical assets or liabilities in active markets.
Level 2 Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These might include quoted prices for similar assets and liabilities in active markets, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 Inputs are unobservable inputs for the asset or liability and significant to the fair value. These may be internally developed using our Company $s$ best information and assumptions that a market participant would consider.

ASC Topic 820 also provides guidance on determining fair value when the volume and level of activity for the asset or liability has significantly decreased and on identifying circumstances when a transaction may not be considered orderly.

Our Company is required to disclose assets and liabilities measured at fair value on a recurring basis separate from those measured at fair value on a nonrecurring basis. Nonfinancial assets measured at fair value on a nonrecurring basis would include foreclosed real estate, long-lived assets, and core deposit intangible assets, which are reviewed when circumstances or other events indicate that impairment may have occurred.

## Valuation methods for instruments measured at fair value on a recurring basis

Following is a description of our Company s valuation methodologies used for assets and liabilities recorded at fair value on a recurring basis:

## Available-for-sale securities

Available-for-sale securities are recorded at fair value on a recurring basis. Available-for-sale securities is the only balance sheet category our Company is required, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), to carry at fair value on a recurring basis. Securities classified as available for sale are reported at fair value utilizing Level 2 inputs. For these securities, our Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayment speeds, credit information and the bond s terms and conditions, among other things.

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

## (Unaudited)

$\left.\begin{array}{llllll} & & \begin{array}{c}\text { Fair Value Measurements Using } \\ \text { Quoted Prices } \\ \text { in } \\ \text { Active } \\ \text { Markets } \\ \text { for }\end{array} & & \\ \text { Identical }\end{array}\right)$

## Valuation methods for instruments measured at fair value on a nonrecurring basis

Following is a description of our Company s valuation methodologies used for assets and liabilities recorded at fair value on a nonrecurring basis:

## Impaired Loans

Our Company does not record loans at fair value on a recurring basis other than loans that are considered impaired. The net carrying value of impaired loans is generally based on fair values of the underlying collateral obtained through independent appraisals or internal evaluations, or by discounting the total expected future cash flows. Once the fair value of the collateral has been determined and any impairment amount calculated, a specific reserve allocation is made. Because many of these inputs are not observable, the measurements are classified as Level 3. As of September 30, 2011, our Company identified $\$ 26.1$ million in impaired loans that had specific allowances for losses aggregating $\$ 3.9$ million. Related to these loans, there was $\$ 6.5$ million in charge-offs recorded during 2011.

## Other Real Estate Owned and Repossessed Assets

Other real estate owned and repossessed assets consist of loan collateral which has been repossessed through foreclosure. This collateral is comprised of commercial and residential real estate and other non-real estate property, including autos, manufactured homes, and construction equipment. Other real estate owned assets are recorded as held for sale initially at the lower of the loan balance or fair value of the collateral less estimated selling costs. Our Company relies on external appraisals and assessment of property values by our internal staff. In the case of non-real estate collateral, reliance is placed on a variety of sources, including external estimates of value and judgment based on experience and expertise of internal specialists. Subsequent to foreclosure, valuations are updated periodically, and the assets may be written down to reflect a new cost

[^0]
## (13) Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate such value:

## Loans

## Edgar Filing: HAWTHORN BANCSHARES, INC. - Form 10-Q

The fair value of loans is estimated based on the discounted value of contractual cash flows. The discount rate is estimated using current offering rates applicable to each category of such financial instruments. The net carrying amount of impaired loans is generally based on the fair values of collateral obtained through independent appraisals or internal evaluations, or by discounting the total expected future cash flows. This method of estimating fair value does not incorporate the exit-price concept of fair value prescribed by ASC Topic 820 .

## Investment Securities

A detailed description of the fair value measurement of the debt instruments in the available for sale sections of the investment security portfolio is provided in the Fair Value Measurement section above. A schedule of investment securities by category and maturity is provided in the notes on Investment Securities.

## Federal Funds Sold, Cash, and Due from Banks

For federal funds sold, cash, and due from banks, the carrying amount is a reasonable estimate of fair value, as such instruments reprice in a short time period.

# HAWTHORN BANCSHARES, INC. 

AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

## (Unaudited)

## Mortgage Servicing Rights

The fair value of mortgage servicing rights is based on the discounted value of contractual cash flows utilizing servicing rate, constant prepayment rate, servicing cost, and discount rate factors.

## Accrued Interest Receivable and Payable

For accrued interest receivable and payable, the carrying amount is a reasonable estimate of fair value because of the short maturity for these financial instruments.

## Deposits

The fair value of deposits with no stated maturity, such as noninterest-bearing demand, NOW accounts, savings, and money market, is equal to the amount payable on demand. The fair value of time deposits is based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently offered for deposits of similar remaining maturities.

## Securities Sold under Agreements to Repurchase and Interest-bearing Demand Notes to U.S. Treasury

For securities sold under agreements to repurchase and interest-bearing demand notes to U.S. Treasury, the carrying amount is a reasonable estimate of fair value, as such instruments reprice in a short time period.

## Other Borrowings

The fair value of subordinated notes and other borrowings, Federal Home Loan Bank borrowings, is based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently offered for other borrowed money of similar remaining maturities.

## Off-Balance Sheet Financial Instruments

The fair value of commitments to extend credit and standby letters of credit are estimated using the fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements, the likelihood of the counterparties drawing on such financial instruments, and the present creditworthiness of such counterparties. Our Company believes such commitments have been made on terms which are competitive in the markets in which it operates.

## Limitations

The fair value estimates provided are made at a point in time based on market information and information about the financial instruments. Because no market exists for a portion of our Company s financial instruments, fair value estimates are based on judgments regarding future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the fair value estimates.

## HAWTHORN BANCSHARES, INC.

## AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

## (Unaudited)

## (14) Pending Litigation

Our Company and its subsidiaries are defendants in various legal actions incidental to our Company s past and current business activities. At September 30, 2011 and December 31, 2010, our Company s consolidated balance sheets included liabilities for these legal actions of $\$ 183,000$ and $\$ 275,000$, respectively. Based on our Company s analysis, and considering the inherent uncertainties associated with litigation, we do not believe that it is reasonably possible that these legal actions will materially adversely affect our Company s consolidated financial statements or results of operations in the near term.

On November 18, 2010, a suit was filed against Hawthorn Bank in the Circuit Court of Jackson County for the Eastern Division of Missouri by a customer alleging that the fees associated with the Bank s automated overdraft program in connection with its debit card and ATM cards constitute unlawful interest in violation of Missouri s usury laws. The suit seeks class-action status for Bank customers who have paid overdraft fees on their checking accounts. The Bank has filed for a motion to dismiss the suit. At this early stage of the litigation, it is not possible for management of the Bank to determine the probability of a material adverse outcome or reasonably estimate the amount of any potential loss.

On December 17, 2009, a suit was filed against Hawthorn Bank in Circuit Court of Jackson County for the Eastern Division of Missouri state court by a customer alleging that the Bank had not followed through on its commitment to fund a loan request. A jury found in favor of the customer and as of September 30, 2011 our Company was carrying a liability of $\$ 183,000$ representing the balance of its estimated obligation. Our Company is currently in the early stages of the appeals process and the probable outcome is presently not determinable.

## Item 2 Management s Discussion and Analysis of Financial Condition

## And Results of Operations

## Forward-Looking Statements

This report contains certain forward-looking statements with respect to the financial condition, results of operations, plans, objectives, future performance and business of our Company and its subsidiaries, including, without limitation:
statements that are not historical in nature, and
statements preceded by, followed by or that include the words believes, expects, may, will, should, could, anticipates, estimates, intends or similar expressions.
Forward-looking statements are not guarantees of future performance or results. They involve risks, uncertainties and assumptions. Actual results may differ materially from those contemplated by the forward-looking statements due to, among others, the following factors:
competitive pressures among financial services companies may increase significantly,
changes in the interest rate environment may reduce interest margins,
general economic conditions, either nationally or in Missouri, may be less favorable than expected and may adversely affect the quality of our loans and other assets,
increases in non-performing assets in our loan portfolios and adverse economic conditions may necessitate increases to our provisions for loan losses,
costs or difficulties related to the integration of the business of our Company and its acquisition targets may be greater than expected,
legislative or regulatory changes may adversely affect the business in which our Company and its subsidiaries are engaged, including those discussed below in the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, and
changes may occur in the securities markets.
The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, was enacted on July 21, 2010. Provisions of the Act address many issues including, but not limited to, capital, interchange fees, compliance and risk management, debit card overdraft fees, the establishment of a new consumer regulator, healthcare, incentive compensation, expanded disclosures and corporate governance. While many of the new regulations under the Act are expected to primarily impact financial institutions with assets greater than $\$ 10$ billion, our Company expects these new regulations could reduce our revenues and increase our expenses in the future. Management is currently assessing the impact of the Act and of the regulations anticipated to be promulgated under the Act.

We have described under the caption Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2010 and in other reports that we file with the SEC from time to time, additional factors that could cause actual results to be materially different from those described in the forward-looking statements. Other factors that we have not identified in this report could also have this effect. You are cautioned not to put undue reliance on any forward-looking statement, which speak only as of the date they were made.

## Edgar Filing: HAWTHORN BANCSHARES, INC. - Form 10-Q

## Overview

Our Company, Hawthorn Bancshares, Inc., is a community-based, financial institution bank holding company headquartered in Lee s Summit, Missouri. Our Company was incorporated under the laws of the State of Missouri on October 23, 1992 as Exchange National Bancshares, Inc. and changed its name to Hawthorn Bancshares, Inc. in August 2007. Our Company owns all of the issued and outstanding capital stock of Union State Bancshares, Inc., which in turn owns all of the issued and outstanding capital stock of Hawthorn Bank. Our Company conducts operations primarily through our Bank. Our Bank, a state charted bank, had $\$ 1.20$ billion in assets at September 30, 2011, and 24 full-service banking offices, including its principal office in Jefferson City, Missouri. Our Bank is committed to providing the most up-to-date financial products and services and delivering these products and services to our market area with superior customer service.

Through our branch network, our Bank provides a broad range of commercial and personal banking services, including certificates of deposit, individual retirement and other time deposit accounts, checking and other demand deposit accounts, interest checking accounts, savings accounts, and money market accounts. We also provide a wide range of lending services, including real estate, commercial, installment, and other consumer loans. Other financial services that we provide include automatic teller machines, trust services, credit related insurance, and safe deposit boxes. The geographic areas in which we provide our products and services include the communities in and surrounding Jefferson City, Clinton, Warsaw, Springfield, Branson and Lee s Summit, Missouri. The products and services are offered to customers primarily within these geographical areas.

Our Company s primary source of revenue is net interest income derived primarily from lending and deposit taking activities. A secondary source of revenue is investment income. Our Company also derives income from trust, brokerage, credit card and mortgage banking activities and service charge income.

## CRITICAL ACCOUNTING POLICIES

The following accounting policies are considered most critical to the understanding of our Company s financial condition and results of operations. These critical accounting policies require management s most difficult, subjective and complex judgments about matters that are inherently uncertain. Because these estimates and judgments are based on current circumstances, they may change over time or prove to be inaccurate based on actual experiences. In the event that different assumptions or conditions were to prevail, and depending upon the severity of such changes, the possibility of a materially different financial condition and/or results of operations could reasonably be expected. The impact and any associated risks related to our critical accounting policies on our business operations is discussed throughout Management siscussion and Analysis of Financial Condition and Results of Operations, where such polices affect our reported and expected financial results.

## Allowance for Loan Losses

We have identified the accounting policy related to the allowance for loan losses as critical to the understanding of our Company s results of operations, since the application of this policy requires significant management assumptions and estimates that could result in materially different amounts to be reported if conditions or underlying circumstances were to change. Further discussion of the methodology used in establishing the allowance and the impact of any associated risks related to these policies on our business operations is discussed in the Lending and Credit Management section below. Many of the loans are deemed collateral dependent for purposes of the measurement of the impairment loss, thus the fair value of the underlying collateral and sensitivity of such fair values due to changing market conditions, supply and demand, condition of the collateral and other factors can be volatile over periods of time. Such volatility can have an impact on the financial performance of our Company.

## Other Real Estate Owned and Repossessed Assets

Other real estate owned and repossessed assets consist of loan collateral which has been repossessed through foreclosure. This collateral is comprised of commercial and residential real estate and other non-real estate property, including autos, manufactured homes, and construction equipment. Other real estate owned assets are initially recorded as held for sale at the lower of the loan balance or fair value of the collateral less estimated selling costs. Any adjustment is recorded as a charge-off against the allowance for loan losses. Our Company relies on external appraisals and assessment of property values by internal staff. In the case of non-real estate collateral, reliance is placed on a variety of sources, including external estimates of value and judgment based on experience and expertise of internal specialists. Subsequent to foreclosure, valuations are updated periodically, and the assets may be written down to reflect a new cost basis. The write-downs are recorded as other real estate expense. Our Company establishes a valuation allowance related to other real estate owned on an asset-by-asset basis. The valuation allowance is created during the holding period when the fair value less cost to sell is lower than the cost of a parcel of other real estate.

## Valuation of Investment Securities

At the time of purchase, debt securities are classified into one of two categories: available-for-sale or held-to-maturity. Held-to-maturity securities are those securities which our Company has the positive intent and ability to hold until maturity. All debt securities not classified as held-to-maturity are classified as available-for-sale. Our Company s securities are classified as available-for-sale and are carried at fair value. Changes in fair value, excluding certain losses associated with other-than-temporary impairment, are reported in other comprehensive income, net of taxes, a component of stockholders equity. Securities are periodically evaluated for other-than-temporary impairment in accordance with guidance
provided in the FASB ASC Topic 320, Investments Debt and Equity Securities. For those securities with other-than-temporary impairment, the entire loss in fair value is required to be recognized in current earnings if our Company intends to sell the securities or believes it more likely than not that it will be required to sell the security before the anticipated recovery. If neither condition is met, but our Company does not expect to recover the amortized cost basis, our Company determines whether a credit loss has occurred, which is then recognized in current earnings. The amount of the total other-than-temporary impairment related to all other factors is recognized in other comprehensive income.

Premiums and discounts are amortized using the interest method over the lives of the respective securities, with consideration of historical and estimated prepayment rates for mortgage-backed securities, as an adjustment to yield. Dividend and interest income are recognized when earned. Realized gains and losses for securities classified as available-for-sale are included in earnings based on the specific identification method for determining the cost of securities sold.

## Income Taxes

Income taxes are accounted for under the asset / liability method by recognizing the amount of taxes payable or refundable for the current period and deferred tax assets and liabilities for future tax consequences of events that have been recognized in an entity s financial statements or tax returns. Judgment is required in addressing our Company $s$ future tax consequences of events that have been recognized in our consolidated financial statements or tax returns such as realization of the effects of temporary differences, net operating loss carry forward, and changes in tax laws or interpretations thereof. A valuation allowance is established when in the judgment of management, it is more likely than not that such deferred tax assets will not become realizable. In this case, our Company would adjust the recorded value of our deferred tax asset, which would result in a direct charge to income tax expense in the period that the determination was made. Given the sensitivity of our Company s financial performance to changes in net interest margins and increasing reserves associated with loan losses and other real estate owned, sustained negative financial performance could provide sufficient negative evidence to necessitate a deferred tax asset valuation allowance. In addition, our Company is subject to the continuous examination of our tax returns by the Internal Revenue Service and other taxing authorities. Our Company accrues for interest related to income taxes in income tax expense. Total interest expense (benefit) recognized was $\$ 12,000$ and $\$(35,000)$ as of September 30, 2011 and 2010, respectively. As of September 30, 2011 and December 31, 2010, total accrued interest was $\$ 43,000$ and $\$ 31,000$, respectively.

## SELECTED CONSOLIDATED FINANCIAL DATA

The following table presents selected consolidated financial information for our Company as of and for each of the three and nine months ended September 30, 2011 and 2010, respectively. The selected consolidated financial data should be read in conjunction with the Consolidated Financial Statements of our Company, including the accompanying notes, presented elsewhere herein.

## Selected Financial Data

| Period-end stockholders equity to period-end assets |  |  | 9.09\% | 9.05\% |
| Total risk-based capital ratio |  |  | 18.02 | 17.47 |
| Tier 1 risk-based capital ratio |  |  | 15.24 | 14.94 |
| Leverage ratio |  |  | 11.60 | 11.61 |

(1) Efficiency ratio is calculated as non-interest expense as a percent of revenue. Total revenue includes net interest and non-interest income.

## RESULTS OF OPERATIONS ANALYSIS

Our Company has prepared all of the consolidated financial information in this report in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). In preparing the consolidated financial statements in accordance with U.S. GAAP, our Company makes estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. There can be no assurances that actual results will not differ from those estimates.

Our Company s consolidated net income of $\$ 1,515,000$ for the three months ended September 30, 2011 increased $\$ 93,000$ compared to net income of $\$ 1,422,000$ for the three months ended September 30, 2010. Our Company recorded preferred stock dividends and accretion on preferred stock of $\$ 497,000$ for the three months ended September 30, 2011, resulting in $\$ 1,018,000$ of net income available for common shareholders compared to net income of $\$ 925,000$ for the three months ended September 30, 2010. Diluted earnings per share increased from $\$ 0.20$ per common share to $\$ 0.22$ per common share. The provision for loan losses decreased $\$ 440,000$, or $18.0 \%$, from September 30, 2010 to September 30, 2011 and noninterest expense decreased $\$ 441,000$, or $4.7 \%$. Other real estate expenses and impairment losses incurred on foreclosed properties decreased from $\$ 882,000$ for the three months ended September 30, 2010 to $\$ 524,000$ for the three months ended September 30, 2011. Our Company s net interest income, on a tax equivalent basis, decreased $\$ 66,000$, or $0.60 \%$, to $\$ 10,953,000$ for the three months ended September 30, 2011 compared to $\$ 11,019,000$ for the three months ended September 30, 2010 primarily due to a $\$ 54,582,000$ decrease in average earning assets. The annualized return on average assets was $0.51 \%$, the annualized return on average common stockholders equity was $5.29 \%$, and the efficiency ratio was $67.8 \%$ for the three months ended September 30, 2011. Net interest margin increased from $3.81 \%$ to $3.98 \%$.

Our Company s consolidated net income of $\$ 3,878,000$ for the nine months ended September 30, 2011 increased $\$ 1,179,000$ compared to net income of $\$ 2,699,000$ for the nine months ended September 30, 2010. Our Company recorded preferred stock dividends and accretion on preferred stock of $\$ 1,488,000$ for the nine months ended September 30, 2011, resulting in $\$ 2,390,000$ of net income available for common shareholders compared to net income of $\$ 1,211,000$ for the nine months ended September 30, 2010. Diluted earnings per share increased from $\$ 0.26$ per common share to $\$ 0.51$ per common share. Our Company s earnings positively reflected a $\$ 1,331,000$ decrease in other real estate expenses and impairment loses incurred on foreclosed properties from $\$ 2,895,000$ for the nine months ended September 30, 2010 compared to $\$ 1,564,000$ for the nine months ended September 30, 2011. Although the provision for loan losses decreased $\$ 1,462,000$, or $20.6 \%$, from September 30, 2010 to September 30, 2011, net income continued to be negatively impacted by the higher provisions experienced by our Company during this current economy. Our Company s net interest income, on a tax equivalent basis, decreased $\$ 263,000$, or $0.80 \%$, to $\$ 32,528,000$ for the nine months ended September 30, 2011 compared to $\$ 32,791,000$ for the nine months ended September 30, 2010 primarily due to a $\$ 55,668,000$ decrease in average earning assets. The annualized return on average assets was $0.43 \%$, the annualized return on average common stockholders equity was $4.28 \%$, and the efficiency ratio was $70.7 \%$ for the nine months ended September 30, 2011. Net interest margin increased from $3.77 \%$ to $3.92 \%$.

Total assets at September 30, 2011 were $\$ 1,169,516,000$ compared to $\$ 1,200,172,000$ at December 31, 2010, a decrease of $\$ 30,656,000$, or $2.6 \%$. On July 1, 2011, our Company distributed a four percent stock dividend for the second consecutive year to common shareholders of

## Edgar Filing: HAWTHORN BANCSHARES, INC. - Form 10-Q

record at the close of business May 12, 2011. For all periods presented, share information, including basic and diluted earnings per share, have been adjusted retroactively to reflect the stock dividend.

## Average Balance Sheets

The following tables present average balance sheets, net interest income, average yields of earning assets, average costs of interest bearing liabilities, net interest spread and net interest margin on a fully taxable equivalent basis for each of the three and nine month periods ended September 30, 2011 and September 30, 2010.

(1) Interest income and yields are presented on a fully taxable equivalent basis using the Federal statutory income tax rate of 35\%, net of nondeductible interest expense. Such adjustments totaled $\$ 149,000$ and $\$ 161,000$ for the three months ended September 30, 2011and 2010, respectively.
(2) Non-accruing loans are included in the average amounts outstanding.
(3) Average balances based on amortized cost.
(4) Fees and costs on loans are included in interest income.

| Total liabilities and stockholders equity | $\$ 1,193,812$ |  |  |
| :--- | :---: | :---: | :---: | :---: |
| Net interest income (FTE) | $\$ 1,244,793$ |  |  |
|  | $\$ 32,528$ |  | $\$ 32,791$ |
| Net interest spread |  | $3.74 \%$ |  |
| Net interest margin | $3.92 \%$ | $3.53 \%$ |  |

(1) Interest income and yields are presented on a fully taxable equivalent basis using the Federal statutory income tax rate of $35 \%$, net of nondeductible interest expense. Such adjustments totaled $\$ 461,000$ and $\$ 507,000$ for the nine months ended September 30, 2011 and 2010, respectively.
(2) Non-accruing loans are included in the average amounts outstanding.
(3) Average balances based on amortized cost.
(4) Fees and costs on loans are included in interest income.

Comparison of the three and nine months ended September 30, 2011 and 2010, respectively.
Financial results for the three and nine months ended September 30, 2011 compared to the three and nine months ended September 30, 2010 included a decrease in net interest income, on a tax equivalent basis, of $\$ 66,000$, or $0.60 \%$, and $\$ 263,000$, or $0.80 \%$, respectively. Average interest-earning assets decreased $\$ 54,582,000$, or $4.7 \%$ to $\$ 1,092,373,000$ for the three months ended September 30, 2011 compared to $\$ 1,146,955,000$ for the three months ended September 30, 2010 and average interest bearing liabilities decreased $\$ 59,937,000$, or $6.1 \%$, to $\$ 918,056,000$ for the three months ended September 30, 2011 compared to $\$ 977,993,000$ for the three months ended September 30, 2010. Average interest-earning assets decreased $\$ 55,668,000$, or $4.8 \%$ to $\$ 1,108,422,000$ for the nine months ended September 30, 2011 compared to $\$ 1,164,090,000$ for the nine months ended September 30, 2010 and average interest bearing liabilities decreased $\$ 57,262,000$, or $5.7 \%$, to $\$ 943,247,000$ for the nine months ended September 30, 2011 compared to $\$ 1,000,509,000$ for the nine months ended September 30, 2010.

Average loans outstanding decreased $\$ 80,155,000$ or $8.5 \%$ to $\$ 858,806,000$ for the three months ended September 30, 2011 compared to $\$ 938,961,000$ for the three months ended September 30, 2010. Average loans outstanding decreased $\$ 88,302,000$ or $9.2 \%$ to $\$ 872,063,000$ for the nine months ended September 30, 2011 compared to $\$ 960,365,000$ for the nine months ended September 30, 2010. See the Lending and Credit Management section of this discussion for further discussion of changes in the composition of our lending portfolio. Average investment securities and federal funds sold increased $\$ 48,320,000$ or $29.2 \%$ to $\$ 213,781,000$ for the three months ended September 30, 2011 compared to $\$ 165,461,000$ for the three months ended September 30, 2010. Average investment securities and federal funds sold increased $\$ 47,355,000$ or $29.0 \%$ to $\$ 210,287,000$ for the nine months ended September 30, 2011 compared to $\$ 162,932,000$ for the nine months ended September 30, 2010. Average interest bearing deposits in other financial institutions decreased $\$ 21,336,000$ to $\$ 14,887,000$ for the three months ended September 30, 2011 compared to $\$ 36,223,000$ for the three months ended September 30, 2010. Average interest bearing deposits in other financial institutions decreased $\$ 13,622,000$ to $\$ 20,744,000$ for the nine months ended September 30, 2011 compared to $\$ 34,366,000$ for the nine months ended September 30, 2010.

Average time deposits decreased $\$ 20,938,000$ to $\$ 806,776,000$ for the three months ended September 30, 2011 compared to $\$ 827,714,000$ for the three months ended September 30, 2010. Average time deposits decreased $\$ 27,379,000$ to $\$ 819,095,000$ for the nine months ended September 30, 2011 compared to $\$ 846,474,000$ for the nine months ended September 30, 2010. Average borrowings decreased $\$ 32,711,000$ to $\$ 38,933,000$ for the three months ended September 30, 2011 compared to $\$ 68,644,000$ for the three months ended September 30, 2010. Average borrowings decreased $\$ 24,714,000$ to $\$ 46,872,000$ for the nine months ended September 30, 2011 compared to $\$ 71,586,000$ for the nine months ended September 30, 2010. The decrease in average other borrowed money during 2011 compared to 2010 reflects a net decrease in Federal Home Loan Bank advances. See the Liquidity Management section below for further discussion.

## Rate and volume analysis

The following table summarizes the changes in net interest income on a fully taxable equivalent basis, by major category of interest earning assets and interest bearing liabilities, indentifying changes related to volumes and rates for the three and nine months ended September 30, 2011 compared to the three and nine months ended September 30, 2010. The change in interest due to the combined rate/volume variance has been allocated to rate and volume changes in proportion to the absolute dollar amounts of change in each.

(1) Interest income and yields are presented on a fully taxable equivalent basis using the Federal statutory income tax rate of $35 \%$, net of nondeductible interest expense. Such adjustments totaled $\$ 149,000$ and $\$ 161,000$ for the three months ended September 30, 2011 and 2010, respectively, and $\$ 461,000$ and $\$ 507,000$ for the nine months ended September 30, 2011 and 2010, respectively.
(2) Non-accruing loans are included in the average amounts outstanding.
(3) Fees and costs on loans are included in interest income.

Net interest income on a fully taxable equivalent basis decreased $\$ 66,000$, or $0.6 \%$, and 263,000 , or $0.8 \%$, to $\$ 10,953,000$ and $\$ 32,528,000$ for the three and nine months ended September 30, 2011, respectively, compared to $\$ 11,019,000$ and $\$ 32,791,000$ for the three and nine months ended September 30, 2010, respectively. Measured as a percentage of average earning assets, the net interest margin (expressed on a fully taxable equivalent basis) increased from $3.81 \%$ for the three months ended September 30,2010 to $3.98 \%$ for the three months ended September 30, 2011 and increased from $3.77 \%$ to $3.92 \%$ for the nine months ended September 30, 2010 compared to the nine months ended September 30, 2011, respectively. Our Company s net interest spread increased to $3.80 \%$ for the three months ended September 30, 2011 from $3.58 \%$ for the three months ended September 30, 2010 and increased to $3.74 \%$ for the nine months ended September 30, 2011 compared to $3.53 \%$ for the nine months ended September 30, 2010.

While our Company was able to decrease the rate paid on interest bearing liabilities to $1.12 \%$ and $1.21 \%$ for the three and nine months ended September 30, 2011, respectively, from $1.53 \%$ and $1.65 \%$ for the three and nine months ended September 30, 2010, respectively, these decreases were partially offset by the decrease in the rates earned on interest bearing assets from $5.11 \%$ and $5.18 \%$ for the three and nine months ended September 30, 2010, respectively, to $4.92 \%$ and $4.95 \%$ for the three and nine months ended September 30, 2011, respectively.

## Non-interest Income and Expense

Non-interest income for the three and nine months ended September 30, 2011 and 2010 were as follows:

| (Dollars in thousands) | Three Months Ended September 30, |  |  |  | Nine Months Ended September 30, |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2011 | 2010 | \$ Change | \% Change |  | 2010 | \$ <br> Change | \% Change |
| Non-interest Income |  |  |  |  |  |  |  |  |
| Service charges on deposit accounts | \$ 1,446 | \$ 1,427 | \$ 19 | 1.3\% | \$ 4,176 | \$ 4,150 | \$ 26 | 0.6\% |
| Trust department income | 209 | 187 | 22 | 11.8 | 633 | 567 | 66 | 11.6 |
| Gain on sales of mortgage loans, net | 431 | 1,011 | (580) | (57.4) | 894 | 1,533 | (639) | (41.7) |
| Other | 271 | 285 | (14) | (4.9) | 885 | 1,116 | (231) | (20.7) |
| Total non-interest income | \$ 2,357 | \$ 2,910 | \$ (553) | (19.0)\% | \$ 6,588 | \$7,366 | \$ (778) | (10.6)\% |
| Non-interest income as a \% of total revenue * | 17.9\% | 21.1\% |  |  | 17.0\% | 18.6\% |  |  |
| Total revenue per full time equivalent employee | \$ 39.6 | \$ 40.1 |  |  | \$ 116.4 | \$ 115.6 |  |  |

* Total revenue is calculated as net interest income plus non-interest income

Noninterest income decreased $\$ 553,000$ or $19.0 \%$ to $\$ 2,357,000$ for the three months ended September 30, 2011 compared to $\$ 2,910,000$ for the three months ended September 30, 2010. The decrease was primarily the result of a $\$ 580,000$ decrease in the gains on sales of mortgage loans. Our Company s loans sold decreased from $\$ 47,409,000$ during the three months ended September 30, 2010 to $\$ 22,543,000$ during the three months ended September 30, 2011. A decrease in refinancing activity impacted both the volume of loans sold and gains recognized.

Noninterest income decreased $\$ 778,000$ or $10.6 \%$ to $\$ 6,588,000$ for the nine months ended September 30, 2011 compared to $\$ 7,366,000$ for the nine months ended September 30, 2010. The decrease was primarily the result of a $\$ 639,000$ decrease in the gains on sales of mortgage loans, and a $\$ 231,000$ decrease in other income. Refinancing activity began to decline during the second quarter of 2011 and then slightly recovered during the third quarter of 2011 due to attractive rates. Our Company s loans sold decreased from $\$ 69,280,000$ during the nine months ended September 30, 2010 to $\$ 43,785,000$ during the nine months ended September 30, 2011. As mentioned above, this decrease in 2011 refinancing activity in comparison to 2010 impacted both the volume of loans sold and gains recognized. Other income decreased primarily due to a $\$ 60,000$ decrease in rents received from foreclosed properties and a $\$ 167,000$ non-material correction to credit card income during the nine months ended September 30, 2010.

Our Company was servicing \$301,999,000 of mortgage loans at September 30, 2011 compared to $\$ 298,325,000$ at December 31, 2010, and $\$ 285,887,000$ at September 30, 2010. Our Company had no sales of debt securities during the three and nine months ended September 30, 2011 and 2010.

Non-interest expense for the three and nine months ended September 30, 2011 and 2010 were as follows:

| (Dollars in thousands) | Three Months Ended September 30, |  |  |  | Nine Months Ended September 30, |  |  |  |  |

| Number of full-time equivalent employees | 332 | 343 |  |  | 332 | 343 |  |  |

Noninterest expense decreased $\$ 441,000$, or $4.7 \%$, to $\$ 8,925,000$ for the three months ended September 30,2011 compared to $\$ 9,336,000$ for the three months ended September 30, 2010. The decrease primarily resulted from a $\$ 358,000$, or $40.6 \%$, decrease in other real estate expenses, and an $\$ 189,000$, or $42.7 \%$, decrease in FDIC insurance assessment, partially offset by an $\$ 184,000$, or $20.7 \%$, increase in employee benefit expenses for the three months ended September 30, 2011. Our Company recorded $\$ 360,000$ in impairment losses on foreclosed property included in other real estate expenses during the three months ended September 30, 2010. In December of 2010, our company established an allowance for other real estate owned for estimated impaired losses on foreclosed properties. A $\$ 220,000$ provision for other real estate owned, included in other real estate expense, was recorded for these estimated impaired losses during the three months ended September 30, 2011. Our Company recognized $\$ 40,000$ in gains on the sales of foreclosed properties during the three months ended September 30, 2011 in comparison to $\$ 283,000$ in losses during the three months ended September 30, 2010. Other expenses on foreclosed properties also increased from $\$ 177,000$ during the three months ended September 30, 2010 compared to $\$ 316,000$ during the three months ended September 30, 2011. The decrease in FDIC assessments was due to amendments made by the FDIC to implement revisions to the Federal Deposit Insurance Act made by the Dodd
Frank Wall Street Reform and Consumer Protection Act. The three months ended September 30, 2011 reflect a new assessment base (using assets and tier one capital in the assessment calculation) effective on our Company s June assessment paid in September. The increase in employee benefits was primarily due to a $\$ 28,000$ increase in medical insurance expenses and a $\$ 134,000$ increase in the estimated profit-sharing contribution.

Noninterest expense decreased $\$ 1,505,000$, or $5.2 \%$, to $\$ 27,311,000$ for the nine months ended September 30, 2011 compared to $\$ 28,816,000$ for the nine months ended September 30, 2010. The decrease primarily resulted from a $\$ 1,331,000$, or $46.0 \%$, decrease in other real estate expenses, a $\$ 158,000$, or $12.3 \%$, decrease in FDIC insurance assessment and an $\$ 180,000$, or $1.7 \%$, decrease in salary expense. This decrease was partially offset by a $\$ 232,000$, or $7.7 \%$, increase in employee benefits expenses and a $\$ 151,000$, or $16.2 \%$ increase in legal, examination, and professional expenses. Our Company recorded $\$ 1,595,000$ in impairment losses on foreclosed property during the nine months ended September 30, 2010 in comparison to a $\$ 661,000$ provision for other real estate owned, included in other real estate expense, for estimated impaired losses on foreclosed properties during the nine months ended September 30, 2011. Our Company recognized $\$ 29,000$ in losses on the sales of foreclosed properties during the nine months ended September 30, 2011 in comparison to $\$ 347,000$ in losses during the nine months ended September 30, 2010. Other expenses on foreclosed properties also decreased from $\$ 888,000$ during the nine months ended September 30, 2010 compared to $\$ 773,000$ during the nine months ended September 30, 2011. A decrease in the number of employees during the nine months ended September 30, 2011 resulted in a decrease in overall salary expense compared to the nine months ended September 30, 2010. Stock option compensation expense, included in salary expense, also decreased $\$ 22,000$ to $\$ 46,000$ during the nine months ended September 30, 2011 compared to $\$ 68,000$ during the nine months ended September 30, 2010. As mentioned above, the decrease in FDIC assessments was due to amendments made by the FDIC to implement revisions to the Federal Deposit Insurance Act made by the Dodd Frank Wall Street Reform and Consumer Protection Act. The nine months ended September 30, 2011 reflect a new assessment base (using assets and tier one capital in the assessment calculation) effective on our Company s June assessment paid in September. The increase in employee benefits was primarily due to a $\$ 107,000$ increase in medical insurance expenses and a $\$ 100,000$ increase in the estimated profit-sharing contribution. The increase in legal, examination, and professional fees was primarily due to a $\$ 221,000$ increase in consulting fees due to a human resource best practices and profitability consulting project.

## Income taxes

Income taxes as a percentage of earnings before income taxes as reported in the consolidated financial statements were $32.7 \%$ and $32.3 \%$ for the three and nine months ended September 30, 2011 compared to $27.2 \%$ and $27.6 \%$ for the three and nine months ended September 30, 2010, respectively. The higher effective tax rate for the three and nine months ended September 30, 2011 reflects a decrease in tax-exempt income as a percentage of total taxable income.

## Lending and Credit Management

Interest earned on the loan portfolio is a primary source of interest income for our Company. Net loans represented $71.6 \%$ of total assets as of September 30, 2011 compared to $73.7 \%$ as of December 31, 2010.

Lending activities are conducted pursuant to an established loan policy approved by our Bank s Board of Directors. The Bank scredit review process is comprised of a regional loan committee with an established approval limit. In addition, a senior loan committee reviews all credit relationships in aggregate over an established dollar amount. The senior loan committee meets weekly and is comprised of senior managers of the Bank.

A summary of loans, by major class within our Company s loan portfolio as of the dates indicated are as follows:

| (In thousands) | September 30, 2011 |  | $\begin{gathered} \text { December 31, } \\ 2010 \end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: |
|  | Amount | \% | Amount | \% |
| Commercial, financial, and agricultural | \$ 126,065 | 14.8\% | \$ 131,382 | 14.6\% |
| Real estate construction - residential | 29,130 | 3.4 | 31,834 | 3.5 |
| Real estate construction - commercial | 46,039 | 5.4 | 56,053 | 6.2 |
| Real estate mortgage - residential | 204,667 | 24.1 | 207,835 | 23.1 |
| Real estate mortgage - commercial | 413,682 | 48.7 | 439,069 | 48.9 |
| Installment loans to individuals | 30,038 | 3.5 | 32,132 | 3.6 |
| Deferred fees and costs, net | 180 |  | 167 |  |
| Total loans | \$ 849,801 | 100.0\% | \$ 898,472 | 100\% |

Our Company s loan portfolio decreased $\$ 48,671,000$, or $5.4 \%$ from December 31, 2010 to September 30, 2011, primarily due to repayments, charge-offs and transfers to other real estate owned. Due to reduced loan demand during the first nine months of 2011 loan repayments exceeded new originations. This decrease was seen throughout our Company s loan portfolio. Gross loans charged-off of $\$ 8,268,000$ and $\$ 9,996,000$ of assets transferred from loans to other real estate owned and repossessed assets contributed to this decline.

During the current down-turn in the economy, management continues to focus on the improvement of asset quality. Management has tightened underwriting standards and is focused on lending to credit worthy borrowers with the capacity to service the debts. Where appropriate, management actively works with existing borrowers to modify loan terms and conditions in order to assist the borrowers in servicing their debt obligations to our Company. The decrease in lending activities in the real estate construction market also reflects the slowdown in the housing industry and residential construction industry as well as foreclosures on various residential construction properties. Construction lending will continue to be closely monitored.

Our Company does not participate in extending credit to sub-prime residential real estate markets. Our Company extends credit to its local community market through traditional real estate mortgage products.

Our Company does not lend funds for the type of transactions defined as highly leveraged by bank regulatory authorities or for foreign loans. Additionally, our Company does not have any concentrations of loans exceeding $10 \%$ of total loans which are not otherwise disclosed in the loan portfolio composition table. Our Company does not have any interest-earning assets which would have been included in nonaccrual, past due, or restructured loans if such assets were loans.

Our Company generally does not retain long-term fixed rate residential mortgage loans in its portfolio. Fixed rate loans conforming to standards required by the secondary market are offered to qualified borrowers, but are not funded until our Company has a non-recourse purchase commitment from the secondary market at a predetermined price. During the first nine months of 2011 our Company sold $\$ 22,543,000$ of loans to investors. At September 30, 2011 our Company was servicing approximately $\$ 301,999,000$ of loans sold to the secondary market.

Real estate mortgage loans retained in our Company s portfolio generally include provisions for rate adjustments at one to three year intervals. Commercial loans and real estate construction loans generally have maturities of less than one year. Installment loans to individuals are primarily fixed rate loans with maturities from one to five years.

Management along with senior loan committee, and internal loan review, formally review all loans in excess of certain dollar amounts (periodically established) at least annually. Currently, loans in excess of $\$ 2,000,000$ in aggregate and all adversely classified credits identified by management as containing more than usual risk are reviewed. In addition, loans below the above scope are reviewed on a sample basis. On a monthly basis, the senior loan committee reviews and reports to the Board of Directors past due, classified, and watch list loans in order to classify or reclassify loans as loans requiring attention, substandard, doubtful, or loss. During this review, management also determines which loans should be considered impaired. Management follows the guidance provided in the FASB s ASC Topic 310, Accounting by Creditors for Impairment of a Loan, in identifying and measuring loan impairment. If management determines that it is probable that all amounts due on a loan will not be collected under the original terms of the loan agreement, the loan is considered to be impaired. These loans are evaluated individually for impairment, and in conjunction with current economic conditions and loss experience, allowances are estimated based on the fair value as further discussed below. Loans not individually evaluated are aggregated and reserves are recorded using a consistent methodology that considers historical loan loss experience by loan
type, delinquencies, current economic conditions, loan risk ratings and industry concentration. Management believes, but there can be no assurance, that these procedures keep management informed of potential problem loans. Based upon these procedures, both the allowance and provision for loan losses are adjusted to maintain the allowance at a level considered adequate by management for probable losses inherent in the loan portfolio.

## Provision and Allowance for Loan Losses

The provision for loan losses decreased $\$ 440,000$ or $18.0 \%$ to $\$ 2,010,000$ for the three months ended September 30, 2011 compared to $\$ 2,450,000$ for the three months ended September 30, 2010 and decreased $\$ 1,461,000$ or $20.6 \%$ to $\$ 5,643,000$ for the nine months ended September 30, 2011 compared to $\$ 7,105,000$ for the nine months ended September 30, 2010.

The current economy has contributed to the deterioration of collateral values. The economic downturn and elevated unemployment rates in our market area have impaired the ability for certain of our customers to make payments on our loans in accordance with contractual terms.

Our Company has taken an active approach to obtain current appraisals and has adjusted the provision to reflect the amounts management determined necessary to maintain the allowance for loan losses at a level adequate to cover probable losses in the loan portfolio. The allowance for loan losses decreased to $\$ 12,690,000$ or $1.5 \%$ of loans outstanding at September 30, 2011 compared to $\$ 14,565,000$ or $1.6 \%$ of loans outstanding at December 31, 2010. Charge offs taken during the first nine months of 2011 and 2010 contributed to the decrease in the allowance for loan losses without being fully offset by new provisions as our Company works through its problem loans.

The following table summarizes loan loss experience for the years indicated:

| (Dollars in thousands) | Three Months Ended September 30, |  | Nine Months Ended September 30, |  |
| :---: | :---: | :---: | :---: | :---: |
|  | 2011 | 2010 | 2011 | 2010 |
| Analysis of allowance for loan losses: |  |  |  |  |
| Balance beginning of year | \$ 13,863 | \$ 12,231 | \$ 14,565 | \$ 14,797 |
| Net loan charge-offs: |  |  |  |  |
| Commercial, financial, and agricultural | 1,273 | 333 | 2,077 | 1,437 |
| Real estate construction - residential | 309 | (1) | 1,794 | 259 |
| Real estate construction - commercial | 512 |  | 262 | 101 |
| Real estate mortgage - residential | 192 | 306 | 1,657 | 3,625 |
| Real estate mortgage - commercial | 844 | 37 | 1,556 | 2,374 |
| Installment loans to individuals | 53 | 53 | 172 | 153 |
| Total net charge-offs | 3,183 | 728 | 7,518 | 7,949 |
| Provision for loan losses | 2,010 | 2,450 | 5,643 | 7,105 |
| Balance at September 30, | \$ 12,690 | \$ 13,953 | \$ 12,690 | \$ 13,953 |

As shown in the table above, our Company experienced net loan charge-offs of $\$ 3,183,000$ for the three months ended September 30, 2011 compared to $\$ 728,000$ for the three months ended September 30, 2010. The $\$ 2,455,000$ net increase was primarily due to a $\$ 940,000$ increase in net charge offs on commercial, financial, and agricultural loans, a $\$ 310,000$ increase in net charge offs on real estate construction residential properties, a $\$ 512,000$ increase in net charge offs on real estate construction commercial properties, and a $\$ 807,000$ increase in real estate mortgage commercial properties from September 30, 2010 to September 30, 2011, respectively. The increase in net charge-offs for the three months ended September 30, 2011 was primarily due to eight significant charge-offs, totaling $\$ 3,091,000$, taken during the three months ended September 30, 2011 to reflect current collateral values.

As shown in the table above, our Company experienced net loan charge-offs of $\$ 7,518,000$ for the nine months ended September 30, 2011 compared to $\$ 7,949,000$ for the nine months ended September 30, 2010. The $\$ 431,000$ net decrease was primarily due to a $\$ 1,968,000$ decrease in net charge offs on real estate mortgage residential properties, and a $\$ 818,000$ decrease in real estate mortgage commercial properties, partially offset by a $\$ 1,535,000$ increase in net charge offs on real estate construction residential properties from September 30, 2010 to September 30, 2011, respectively. Net charge-offs for the nine months ended September 30, 2011 continue to include significant write-downs taken on foreclosed properties to reflect current collateral values as compared to the nine months ended September 30, 2010. The decrease in real estate mortgage charge-offs related to two significant loan relationships collateralized by section eight properties. The increase in real estate construction residential net charge-offs for the nine months ended September 30, 2011 was primarily due to charge offs taken on two credits that management had specifically reserved $\$ 2,000,000$ as of December 31, 2010. Since these two credits were fully reserved as of December 31, 2010, no additional provision for these credits was required during the first nine months of 2011, and as a result, total net charge-offs exceeded the provision for loan losses during the nine months ended September 30, 2011. The ratio of annualized total net loan charge-offs to total average loans was $0.86 \%$ at September 30, 2011 compared to $1.63 \%$ at December 31, 2010.

Nonperforming loans, defined as loans on nonaccrual status, loans 90 days or more past due and still accruing, and restructured loans totaled $\$ 53,860,000$ or $6.34 \%$ of total loans at September 30, 2011 compared to $\$ 56,303,000$ or $6.27 \%$ of total loans at December 31, 2010.

The following table summarizes our Company s nonperforming assets at the dates indicated:

| (Dollars in thousands) | September 30, <br> $\mathbf{2 0 1 1}$ | December 31, <br> $\mathbf{2 0 1 0}$ |
| :--- | ---: | ---: |
| Nonaccrual loans: | $\mathbf{2 , 9 0 5}$ | $\$$ |
| Commercial, financial, and agricultural | 650 | 3,532 |
| Real estate construction - residential | 7,232 | 3,586 |
| Real estate construction - commercial | 3,857 | 10,067 |
| Real estate mortgage - residential | 32,849 | 5,672 |
| Real estate mortgage - commercial | 168 | 27,604 |
| Installment loans to individuals | 46,661 | 126 |
| Total nonaccrual loans |  | 50,587 |
|  |  |  |
| Loans contractually past - due 90 days or more and still accruing: | 3 |  |

| Real estate mortgage - residential | 142 |  |
| Real estate mortgage - commercial | 9 | 3 |
| Installment loans to individuals |  |  |

| loans contractually pas |  | 177 |  | 33 |
| :---: | :---: | :---: | :---: | :---: |
| Troubled debt restructurings - accruing |  | 7,022 |  | 5,683 |
| Total nonperforming loans |  | 53,860 |  | 56,303 |
| Other real estate |  | 17,746 |  | 13,393 |
| Repossessions |  | 321 |  | 616 |
| Total nonperforming assets | \$ | 71,927 | \$ | 70,312 |
| Loans | \$ | 849,801 | \$ | 898,472 |
| Allowance for loan losses to loans |  | 1.49\% |  | 1.62 |
| Nonperforming loans to loans |  | 6.34\% |  | 6.27 |
| Allowance for loan losses to nonperforming loans |  | 23.56\% |  | 25.87 |
| Nonperforming assets to loans and foreclosed assets |  | 8.29\% |  | 7.71 |

It is our Company s policy to discontinue the accrual of interest income on loans when management believes that the borrower s financial condition, after consideration of business conditions and collection efforts, is such that the collection of interest is doubtful, or upon which principal or interest has been in default for a period of 90 days or more and the asset is not both well secured and in the process of collection. Subsequent interest payments received on such loans are applied to principal if any doubt exists as to the collectability of such principal; otherwise, such receipts are recorded as interest income on a cash basis. Interest on non-accrual loans, which would have been recorded under the original terms of the loans, was approximately $\$ 1,751,000$ and $\$ 1,874,000$ for the nine months ended September 30, 2011 and 2010, respectively. Approximately $\$ 40,000$ and $\$ 11,000$ was actually recorded as interest income on such loans for the nine months ended September 30, 2011 and 2010, respectively.

Total non-accrual loans at September 30, 2011 decreased $\$ 3,926,000$ from December 31, 2010. The overall decrease from December 31, 2010 consisted of a $\$ 1,627,000$ decrease in the commercial, financial, and agricultural non-accrual loans, a $\$ 2,936,000$ decrease in real estate construction residential non-accrual loans, a $\$ 2,835,000$ decrease in real estate construction commercial non-accrual loans, a $\$ 1,815,000$ decrease in real estate mortgage residential non-accrual loans, and was partially offset by a $\$ 5,245,000$ increase in real estate mortgage commercial non-accrual loans. The decreases primarily resulted from the foreclosure of several loans totaling $\$ 10,945,000$ in non-accrual status. Loan charge-offs resulted in an additional decline of approximately $\$ 6,543,000$. The increase in real estate mortgage commercial non-accrual loans resulted primarily from five significant loan relationships totaling $\$ 9,323,000$ which were put on non-accrual status during 2011. At September 30, 2011, real estate mortgage commercial non-accrual loans made up $70 \%$ of total non-accrual loans.

Loans past due 90 days and still accruing interest increased $\$ 144,000$ from $\$ 33,000$ at December 31, 2010 to $\$ 177,000$ at September 30, 2011. Foreclosed real estate and other repossessions increased $\$ 4,488,000$ from $\$ 14,009,000$ at December 31, 2010 to $\$ 18,497,000$ at September 30, 2011 primarily due to construction and land real estate foreclosures and real estate mortgage commercial foreclosures as mentioned above.

At September 30, 2011, loans classified as troubled debt restructurings (TDRs) totaled $\$ 33,694,000$, of which $\$ 26,672,000$ was on non-accrual status and $\$ 7,022,000$ was on accrual status. At December 31, 2010, loans classified as TDR totaled $\$ 22,080,000$, of which $\$ 16,397,000$ was on non-accrual status and $\$ 5,683,000$ was on accrual status. Current economic conditions continue to negatively impact our borrowers ability to keep their debt payments current.

The following table summarizes our Company s TDR s at the dates indicated:

| (Dollars in thousands) | September 30, 2011 |  |  |  |  | December 31, 2010 |  |  |  |  |

| Total TDRs | 63 | \$ | 33,694 |  | 2,281 | 46 |  | 22,080 | \$ | 1,359 |

The allowance for loan losses is available to absorb probable loan losses regardless of the category of loans to be charged off. The allowance for loan losses consists of asset-specific reserves, and general reserves based on expected loss estimates and unallocated reserves.

The asset-specific component applies to loans evaluated individually for impairment and is based on management s best estimate of proceeds from liquidating collateral. The majority of our nonperforming loans are secured by real estate collateral. The actual timing and amount of repayments and the ultimate realizable value of the collateral may differ from management $s$ estimate.

The expected loss component is determined by applying percentages to pools of loans by asset type. These percentages are determined by using historical loss percentages. These expected loss estimates are sensitive to changes in delinquency status, realizable value of collateral, and other risk factors.

The unallocated portion of the allowance is based on management $s$ evaluation of conditions that are not directly reflected in the determination of the asset-specific component and the expected loss component discussed above. The evaluation of inherent loss with respect to these qualitative conditions is subject to a higher degree of uncertainty because they may not be identified with specific problem credits or portfolio segments. Conditions evaluated in connection with the unallocated portion of the allowance include general economic and business conditions affecting our key lending areas, credit quality trends (including trends in substandard loans expected to result from existing conditions), collateral values, specific industry conditions within portfolio segments, bank regulatory examination results, and findings of our internal loan review department. Management believes that based on detailed analysis of each credit risk inherent to our loan portfolio and the value of any associated collateral, that the allowance for loan losses at September 30, 2011 is adequate to cover probable losses.

The underlying assumptions, estimates and assessments used by management to determine these components are continually evaluated and updated to reflect management s current view of overall economic conditions and relevant factors impacting credit quality and inherent losses. Changes in such estimates could significantly impact the allowance and provision for credit losses. Our Company could experience credit losses that are different from the current estimates made by management.

The following table is a summary of the allocation of the allowance for loan losses as of the dates indicated:

| (Dollars in thousands) | September 30, <br> $\mathbf{2 0 1 1}$ | December 31, <br> $\mathbf{2 0 1 0}$ |  |
| :--- | ---: | ---: | ---: |
| Allocation of allowance for loan losses at end of period: | $\$$ | 1,822 | $\$$ |
| Commercial, financial, and agricultural | 9,931 |  |  |
| Real estate construction - residential | 1,308 | 2,067 |  |
| Real estate construction - commercial | 2,789 | 1,339 |  |
| Real estate mortgage - residential | 5,543 | 3,922 |  |
| Real estate mortgage - commercial | 265 | 3,458 |  |
| Installment loans to individuals | 2 | 231 |  |
| Unallocated | $\$$ | 12,690 | $\$$ |
|  |  | 14,565 |  |

Our Company s allowance for loan losses decreased $\$ 1,875,000$ from December 31, 2010 to September 30, 2011. The overall decline of the allowance for loan losses primarily consisted of a $\$ 1,109,000$ decrease in the allocation for commercial, financial, and agricultural loans, a $\$ 1,106,000$ decrease in the allocation of real estate construction residential loans, a $\$ 1,133,000$ decrease in the allocation for real estate mortgage residential loans, and was partially offset by a $\$ 2,085,000$ increase in the allocation for real estate mortgage commercial loans. The increase in the levels of charge offs has contributed to the decrease in the ratio of allowance for loan losses to nonperforming loans from $25.87 \%$ at December 31, 2010 to $23.56 \%$ at September 30, 2011. As mentioned above, management charged off approximately $\$ 2,000,000$ of loans during the first quarter of 2011 that were fully reserved as of December 31, 2010. As a result, the allowance for loan losses to loans outstanding declined from 1.62\% at December 31, 2010 to $1.49 \%$ at September 30, 2011.

At September 30, 2011, management determined that $\$ 12,688,000$ of the $\$ 12,690,000$ total allowance for loan comprised of the asset-specific and expected loss components and $\$ 2,000$ was unallocated. This is compared to $\$ 13,948,000$ of the $\$ 14,565,000$ total allowance for loan losses allocated to the asset-specific and expected loss components and $\$ 617,000$ that was unallocated at December 31, 2010. The increase in the portion of the allowance for loan losses related to non asset-specific reserves is the result of management analyzing and assessing this portion of the allowance for loan losses on a detailed level by homogeneous loan categories for loans not considered impaired. Such analysis measured reserve requirements based on historical loss experiences of loans in those individual categories. Such reserve methodology considers the loss experience for certain types of loans and loan grades for the past thirteen quarters.

The following table is a summary of the general and specific allocations within the allowance for loan losses:

| (Dollars in thousands) | $\begin{gathered} \text { September 30, } \\ 2011 \end{gathered}$ |  | $\begin{gathered} \text { December 31, } \\ 2010 \end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: |
| Allocation of allowance for loan losses: |  |  |  |  |
| Specific reserve allocation for impaired loans | \$ | 3,933 | \$ | 6,376 |
| General reserve allocation for all other non-impaired loans |  | 8,757 |  | 8,189 |
| Total | \$ | 12,690 | \$ | 14,565 |

Management has established procedures that result in specific allowance allocations for any estimated incurred probable loss. For loans not considered impaired, a general allowance allocation is computed using factors developed over time based on actual loss experience. The specific and general allocations represent management s best estimate of probable losses contained in the loan portfolio at the evaluation date. Although the allowance for loan losses is comprised of specific and general allocations, the entire allowance is available to absorb any credit losses.

The asset-specific reserve component of our allowance for loan losses at September 30, 2011 was determined by using fair values of the underlying collateral through independent appraisals or internal evaluations, or by discounting the total expected future cash flows. The expected loss component of our allowance for loan losses at September 30, 2011 was determined by calculating historical loss percentages for various loan categories over the previous thirteen quarters. Management determined that the previous thirteen quarters were reflective of the loss characteristics of our Company s loan portfolio during the recent economic downturn. Management realizes there are inherent weaknesses in relying solely on historical loss percentages and also considers qualitative factors in determining the allowance for loan losses. Prior to

September 30, 2011, qualitative factors, internally and externally not directly related to the asset-specific component and the expected loss component, were considered within the unallocated portion of the reserve. Internal factors management considers consist of underwriting standards, nature and volume of loans, lending staff experience, volume and severity of delinquencies and classified loans, loan review quality, value of underlying collateral, and concentrations of credit. Management also considers external factors such as economic conditions, market segments, regulatory and legal considerations, and competition. Beginning with the September 30, 2011 analysis, management elected to further refine the methodology by distributing the previous quarter s unallocated reserve throughout the call report classes of loans by adding qualitative adjustments in addition to the historical loss rate applied to determine the expected probable loss requirement for the current portfolio.

At September 30, 2011, the asset-specific reserve component decreased $\$ 2,443,000$ due to a comparable decrease in the volume of impaired loans as well as the charge-off of two credits during the first quarter of 2011 that management had specifically reserved approximately $\$ 2,000,000$ as of December 31, 2010. During the same period, the general reserve component increased from $\$ 8,189,000$ at December 31, 2010 to $\$ 8,757,000$ at September 30, 2011 due to usage of a historical loss experience and qualitative measures reflective of our Company s loss characteristics.

The net carrying value of impaired loans is generally based on the fair values of collateral obtained through independent appraisals or internal evaluations, or by discounting the total expected future cash flows. Once the impairment amount is calculated, a specific reserve allocation is recorded. At September 30, 2011, $\$ 3,933,000$ of our Company s allowance for loan losses was allocated to impaired loans totaling approximately $\$ 53,683,000$ compared to $\$ 6,376,000$ of our Company s allowance for loan losses allocated to impaired loans totaling approximately $\$ 56,271,000$ at December 31, 2010. Based upon detailed analysis of all impaired loans, management has determined that $\$ 27,508,000$, or $51 \%$, of impaired loans require no reserve allocation at September 30, 2011 compared to $\$ 26,038,000$, or $46 \%$, at December 31, 2010.

As of September 30, 2011 and December 31, 2010 approximately $\$ 14,233,000$ and $\$ 19,239,000$, respectively, of loans not included in the nonaccrual table above or identified by management as being impaired were classified by management as potential problem loans having more than normal risk which raised doubts as to the ability of the borrower to comply with present loan repayment terms. The $\$ 5,006,000$ decrease in classified loans primarily resulted from five significant loan relationships totaling $\$ 9,300,000$ that are now included in the impaired totals. Several borrowers are continuing to experience cash flow problems and as well as some deterioration in collateral value. Management believes the general allowance was sufficient to cover the risks and probable losses related to such loans at September 30, 2011 and December 31, 2010.

## Liquidity and Capital Resources

## Liquidity Management

The role of liquidity management is to ensure funds are available to meet depositors withdrawal and borrowers credit demands while at the same time maximizing profitability. This is accomplished by balancing changes in demand for funds with changes in the supply of those funds. Liquidity to meet the demands is provided by maturing assets, short-term liquid assets that can be converted to cash and the ability to attract funds from external sources, principally depositors. Due to the nature of services offered by our Company, management prefers to focus on transaction accounts and full service relationships with customers. Management believes it has the ability to increase deposits at any time by offering rates slightly higher than the market rate.

Our Company s Asset/Liability Committee (ALCO), primarily made up of senior management, has direct oversight responsibility for our Company s liquidity position and profile. A combination of daily, weekly and monthly reports provided to management detail the following: internal liquidity metrics, composition and level of the liquid asset portfolio, timing differences in short-term cash flow obligations, available pricing and market access to the financial markets for capital and exposure to contingent draws on our Company s liquidity.

Our Company has a number of sources of funds to meet liquidity needs on a daily basis. Our Company s most liquid assets are comprised of available for sale investment securities, federal funds sold, and securities purchased under agreements to resell, and excess reserves held at the Federal Reserve as follows:

| (dollars in thousands) | September 30, 2011 |  | $\begin{gathered} \text { December 31, } \\ 2010 \end{gathered}$ |  |
| :---: | :---: | :---: | :---: | :---: |
| Federal funds sold | \$ | 75 | \$ | 126 |
| Federal Reserve - excess reserves |  | 21,101 |  | 29,286 |
| Available for sale investments securities |  | 205,446 |  | 178,978 |
| Total | \$ | 226,622 | \$ | 208,390 |

Federal funds sold and resale agreements normally have overnight maturities and are used for general daily liquidity purposes. The fair value of the available for sale investment portfolio was $\$ 205,446,000$ at September 30, 2011 and included an unrealized net gain of $\$ 6,011,000$. The portfolio includes maturities of approximately $\$ 7,360,000$ over the next twelve months, which offer resources to meet either new loan demand or reductions in our Company s deposit base.

Our Company pledges portions of its investment securities portfolio to secure public fund deposits, federal funds purchased lines, securities sold under agreements to repurchase, borrowing capacity at the Federal Reserve Bank, and for other purposes as required or permitted by law.

At September 30, 2011 and December 31, 2010, total investment securities pledged for these purposes were as follows:

| $($ dollars in thousands) | September 30, <br> $\mathbf{2 0 1 1}$ | December 31, <br> $\mathbf{2 0 1 0}$ |  |
| :--- | ---: | ---: | ---: |
| Investment securities pledged for the purpose of securing: | $\$$ | 1,828 | $\$$ |
| Federal Reserve Bank borrowings | 54,239 | 3,262 |  |
| Federal funds purchased and repurchase agreements | 103,940 | 45,929 |  |
| Other deposits | $\$$ | 160,007 | $\$ 808$ |
| Total pledged, at fair value |  | 148,099 |  |

At September 30, 2011 and December 31, 2010, our Company s unpledged securities in the available for sale portfolio totaled approximately $\$ 45,439,000$ and $\$ 30,879,000$, respectively.

Liquidity is also available from our Company s base of core customer deposits, defined as demand, interest, checking, savings, and money market deposit accounts. At September 30, 2011, such deposits totaled $\$ 532,829,000$ and represented $55.9 \%$ of our Company s total deposits. These core deposits are normally less volatile and are often tied to other products of our Company through long lasting relationships. Time deposits and certificates of deposit of $\$ 100,000$ and over totaled $\$ 420,120,000$ at September 30, 2011. These accounts are normally considered more volatile and higher costing representing $44.1 \%$ of total deposits at September 30, 2011.

| (dollars in thousands) | September 30, <br> $\mathbf{2 0 1 1}$ | December 31, <br> $\mathbf{2 0 1 0}$ |  |
| :--- | ---: | ---: | ---: |
| Core deposit base: | $\$$ | 157,184 | $\$ 137,750$ |
| Non-interest bearing demand | 160,293 | 160,225 |  |
| Interest checking | 215,352 | 218,912 |  |
| Savings and money market | $\$$ | 532,829 | $\$$ |
| Total |  | 516,887 |  |

Other components of liquidity are the level of borrowings from third party sources and the availability of future credit. Our Company s outside borrowings are comprised of securities sold under agreements to repurchase, FHLB advances, and subordinated notes as follows:

| (dollars in thousands) | September 30, <br> $\mathbf{2 0 1 1}$ | December 31, <br> $\mathbf{2 0 1 0}$ |  |
| :--- | :---: | :---: | :---: |
| Borrowings: | $\$$ | 26,197 | $\$$ |
| Securities sold under agreements to repurchase | 20,492 | 66,986 |  |
| FHLB advances | 49,486 | 49,486 |  |
| Subordinated notes | $\$$ | 104,175 | $\$$ |
| Total |  | 146,540 |  |

Federal funds purchased are overnight borrowings obtained mainly from upstream correspondent banks with which our Company maintains approved credit lines. As of September 30, 2011, under agreements with these unaffiliated banks, the Bank may borrow up to $\$ 15,000,000$ in federal funds on an unsecured basis and $\$ 21,251,000$ on a secured basis. There were no federal funds purchased outstanding at September 30, 2011. Securities sold under agreements to repurchase are generally borrowed overnight and are secured by a portion of our Company s investment portfolio. At September 30, 2011 there was $\$ 26,197,000$ in repurchase agreements. Our Company may periodically borrow additional short-term funds from the Federal Reserve Bank through the discount window; although no such borrowings were outstanding at September 30, 2011. The Bank is a member of the Federal Home Loan Bank of Des Moines (FHLB). As a member of the FHLB, the Bank has access to credit products of the FHLB. As of September 30, 2011, the Bank had $\$ 28,492,000$ in outstanding borrowings with the FHLB. In addition, our Company has $\$ 49,486,000$ in outstanding subordinated notes issued to wholly-owned grantor trusts, funded by preferred securities issued by the trusts.

Our Company pledges certain assets, including loans and investment securities to the Federal Reserve Bank, FHLB, and other correspondent banks as security to establish lines of credit and borrow from these entities. Based on the type and value of collateral pledged, our Company may draw advances against this collateral. The following table reflects the advance equivalent of the assets pledged, borrowings, and letters of credit outstanding, in addition to the estimated future funding capacity available to our Company at September 30, 2011:

| (dollars in thousands) | FHLB | Federal <br> Reserve Bank | Federal Funds Purchased Lines |
| :---: | :---: | :---: | :---: |
| Advance equivalent | \$ 263,042 | \$ 1,791 | \$ 34,460 |
| Advances outstanding | $(28,491)$ |  |  |
| Letters of credit issued | (206) |  |  |
| Total available borrowing lines | \$ 234,345 | \$ 1,791 | \$ 34,460 |

At September 30, 2011, loans with a market value of $\$ 434,324,000$ were pledged at the Federal Home Loan Bank as collateral for borrowings and letters of credit. At September 30, 2011, investments with a market value of $\$ 26,352,000$ were pledged to secure federal funds purchased lines and borrowing capacity at the Federal Reserve Bank.

## Sources and Uses of Funds

As our Company sees loan demand decline and overnight borrowing rates remain at historic lows, management has expanded the investment portfolio to keep excess cash minimized. A deposit reclassification program was implemented in January of 2011 that lowered the Federal Reserve account requirement, improving liquidity, and enabling our Company to lower cash balances maintained at the Federal Reserve and invest in higher yielding securities.

Cash and cash equivalents were $\$ 41,381,000$ at September 30, 2011 compared to $\$ 50,980,000$ at December 31, 2010. The $\$ 9,598,000$ decrease resulted from changes in the various cash flows produced by operating, investing, and financing activities of our Company, as shown in the accompanying consolidated statement of cash flows for the nine months ended September 30, 2011. Cash flow provided from operating activities consists mainly of net income adjusted for certain non-cash items. Operating activities provided cash flow of $\$ 13,993,000$ for the nine months ended September 30, 2011.

Investing activities consisting mainly of purchases, sales and maturities of available for sale securities, and changes in the level of the loan portfolio provided total cash of $\$ 14,294,000$. The cash inflow primarily consisted of $\$ 32,623,000$ decrease in the loan portfolio, $\$ 70,314,000$ in proceeds from maturities, calls, and pay-downs of investment securities, and $\$ 5,058,000$ in proceeds from sales of other real estate owned and repossessions, partially offset by $\$ 93,071,000$ of purchases of investment securities.

Financing activities used total cash of $\$ 37,885,000$, resulting primarily from $\$ 38,494,000$ of repayments of FHLB advances, a decrease of $\$ 3,871,000$ of federal funds purchased and securities sold under agreements to repurchase, and a $\$ 13,148,000$ decrease in time deposits and interest-bearing transaction account, partially offset by a net $\$ 19,434,000$ increase in demand deposits and interest-bearing transaction accounts. Future short-term liquidity needs arising from daily operations are not expected to vary significantly during 2011.

In the normal course of business, our Company enters into certain forms of off-balance sheet transactions, including unfunded loan commitments and letters of credit. These transactions are managed through our Company s various risk management processes. Management considers both on-balance sheet and off-balance sheet transactions in its evaluation of our Company s liquidity. Our Company had $\$ 162,024,000$ in unused loan commitments and standby letters of credit as of September 30, 2011. While this commitment level would be difficult to fund given our Company s current liquidity resources, we know that the nature of these commitments are such that the likelihood of such a funding demand is very low.

Our Company is a legal entity, separate and distinct from the Bank, which must provide its own liquidity to meet its operating needs. Our Company s ongoing liquidity needs primarily include funding its operating expenses and paying cash dividends to its common and preferred shareholders. During the nine months ended September 30, 2011 and 2010, respectively, our Company paid cash dividends to its common and preferred shareholders totaling $\$ 1,806,000$ and $\$ 2,296,000$. A large portion of our Company s liquidity is obtained from the Bank in the form of dividends. For the nine months ended September 30, 2011 the Bank declared and paid $\$ 3,000,000$ to our Company. For the nine months ended September 30, 2010, the Bank did not declare or pay dividends. At September 30, 2011 and December 31, 2010, our Company had cash and cash equivalents totaling $\$ 13,750,000$ and $\$ 12,449,000$, respectively.

## Capital Management

Our Company and our Bank are subject to various regulatory capital requirements administered by federal and state banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary, actions by regulators that, if undertaken, could have a direct material effect on our Company s consolidated financial statements. Under capital adequacy guidelines, our Company and our Bank must meet specific capital guidelines that involve quantitative measures of assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The capital amounts and classification of our Company and our Bank are subject to qualitative judgments by the regulators about components, risk-weightings, and other factors.

Quantitative measures established by regulations to ensure capital adequacy require our Company and our Bank to maintain minimum amounts and ratios (set forth in the following table) of total and Tier I capital to risk-weighted assets, and of Tier I capital to adjusted-average assets. Management believes, as of September 30, 2011 and December 31, 2010, our Company and our Bank each met all capital adequacy requirements to which they were subject.

|  | Actual |  | Minimum Capital requirements |  | Well-Capitalized Capital Requirements Amount Ratio |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Amount | Ratio | Amount | Ratio |  |  |
| September 30, 2011 |  |  |  |  |  |  |
| Total capital (to risk-weighted assets): |  |  |  |  |  |  |
| Company | \$ 161,432 | 18.02\% | \$71,658 | 8.00\% |  |  |
| Hawthorn Bank | 132,884 | 15.11 | 70,377 | 8.00 | \$ 87,972 | 10.00\% |
| Tier I capital (to risk-weighted assets): |  |  |  |  |  |  |
| Company | \$ 136,493 | 15.24 | \$ 35,829 | 4.00\% |  |  |
| Hawthorn Bank | 121,872 | 13.85 | 35,189 | 4.00 | \$ 52,783 | 6.00\% |
| Tier I capital (to adjusted average assets): |  |  |  |  |  |  |
| Company | \$ 136,493 | 11.60 | \$ 35,304 | 3.00\% |  |  |
| Hawthorn Bank | 121,872 | 10.56 | 34,631 | 3.00 | \$ 57,718 | 5.00\% |
| December 31, 2010 |  |  |  |  |  |  |
| Total capital (to risk-weighted assets): |  |  |  |  |  |  |
| Company | \$ 159,510 | 17.05\% | \$ 74,863 | 8.00\% |  |  |
| Hawthorn Bank | 130,361 | 14.18 | 73,548 | 8.00 | \$ 91,834 | 10.00\% |
| Tier I capital (to risk-weighted assets): |  |  |  |  |  |  |
| Company | \$ 133,349 | 14.25 | \$ 37,431 | 4.00\% |  |  |
| Hawthorn Bank | 118,837 | 12.93 | 36,774 | 4.00 | \$ 55,161 | 6.00\% |
| Tier I capital (to adjusted average assets): |  |  |  |  |  |  |
| Company | \$ 133,349 | 11.00 | \$ 36,360 | 3.00\% |  |  |
| Hawthorn Bank | 118,837 | 9.99 | 35,685 | 3.00 | \$ 59,475 | 5.00\% |

## Item 3. Quantitative and Qualitative Disclosures about Market Risk

## Interest Sensitivity

Market risk arises from exposure to changes in interest rates and other relevant market rate or price risk. Our Company faces market risk in the form of interest rate risk through transactions other than trading activities. Our Company uses financial modeling techniques to measure interest rate risk. These techniques measure the sensitivity of future earnings due to changing interest rate environments. Guidelines established by our Company s Asset/Liability Committee and approved by the Board of Directors are used to monitor exposure of earnings at risk. General interest rate movements are used to develop sensitivity as our Company feels it has no primary exposure to specific points on the yield curve. For the nine months ended September 30, 2011 our Company utilized a 400 basis point immediate and gradual move in interest rates (both upward and downward) applied to both a parallel and proportional yield curve.

The following table represents estimated interest rate sensitivity and periodic and cumulative gap positions calculated as of September 30, 2011:

| (Dollars in thousands) | Year 1 |  | Year 2 | Year 3 |  | Year 4 | Year 5 |  | Over <br> 5 years or no stated Maturity |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| ASSETS |  |  |  |  |  |  |  |  |  |  |  |  |
| Investment securities | \$ 48,687 |  | \$ 20,508 | \$ | 47,384 | \$ 21,015 | \$ | 25,357 | \$ | 42,495 | \$ | 205,446 |

| Cumulative GAP | 0.92 |  | 1.05 |  | 1.04 | 1.08 |  | 1.13 |  | 1.20 |  | 1.20 |

## Effects of Inflation

The effects of inflation on financial institutions are different from the effects on other commercial enterprises since financial institutions make few significant capital or inventory expenditures which are directly affected by changing prices. Because bank assets and liabilities are virtually all monetary in nature, inflation does not affect a financial institution as much as do changes in interest rates. The general level of inflation does underlie the general level of most interest rates, but interest rates do not increase at the rate of inflation as do prices of goods and services. Rather, interest rates react more to changes in the expected rate of inflation and to changes in monetary and fiscal policy.

Inflation does have an impact on the growth of total assets in the banking industry, often resulting in a need to increase capital at higher than normal rates to maintain an appropriate capital to asset ratio. In the opinion of management, inflation did not have a significant effect on our Company s operations for the period ended September 30, 2011.

## Item 4. Controls and Procedures

Our Company s management has evaluated, with the participation of our principal executive and principal financial officers, the effectiveness of our disclosure controls and procedures as defined in Rules 13a $15(\mathrm{e})$ or 15d $\quad$ 15(e) of the Securities Exchange Act of 1934 as of September 30, 2011. Based upon and as of the date of that evaluation, our principal executive and principal financial officers concluded that our disclosure controls and procedures were effective to ensure that information required to be disclosed in the reports we file and submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported as and when required. It should be noted that any system of disclosure controls and procedures, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any system of disclosure controls and procedures is based in part upon assumptions about the likelihood of future events. Because of these and other inherent limitations of any such system, there can be no assurance that any design will always succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

There has been no change in our Company s internal control over financial reporting that occurred during the period ended September 30, 2011 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## Impact of New Accounting Standards

In September 2011, the FASB issued Accounting Standards Update (ASU) No. 2011-05, Presentation of Comprehensive Income, which revises the manner in which entities present comprehensive income in their financial statements. The new guidance removes the presentation options in ASC 220 and requires entities to report components of comprehensive income in either a continuous statement of comprehensive income or two separate but consecutive statements. ASU 2011-05 does not change the items that must be reported in other comprehensive income. The amendments of ASU 2011-05 are effective for fiscal years and interim periods within those years, beginning after December 15, 2011, with early adoption permitted. The adoption of ASU 2011-05 is not expected to have a material impact on our Company s consolidated financial statements.

In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSS, to substantially converge the guidance in U.S. GAAP and IFRS on fair value measurements and disclosures. The amended guidance changes several aspects of the fair value measurement guidance ASC 820, Fair Value Measurement, and includes several new fair value disclosure requirements. ASU 2011-04 is effective for interim and annual periods beginning after December 15, 2011. The adoption of ASU 2011-04 is not expected to have a material impact on our Company s consolidated financial statements.

In April 2011, the FASB issued ASU 2011-03, Consideration of Effective Control on Repurchase Agreements, which deals with the accounting for repurchase agreements and other agreements that both entitle and obligate a transferor to repurchase or redeem financial assets before their maturity. ASU 2011-03 changes the rules for determining when these transactions should be accounted for as financings, as opposed to sales. The guidance in ASU 2011-03 is effective for the first interim or annual period beginning on or after December 15, 2011.The guidance should be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date. Early adoption is not permitted. The adoption of ASU 2011-03 is not expected to have a material impact on our Company s consolidated financial statements.

In April 2011, the FASB issued ASU No. 2011-02, A Creditor s Determination of Whether a Restructuring is a Troubled Debt Restructuring. The provisions of ASU No. 2011-02 provide a creditor additional guidance in determining whether a restructuring constitutes a troubled debt restructuring by concluding that both the following conditions exist (1) a creditor has granted a concession, and (2) the borrower is experiencing financial difficulties. A provision in ASU No. 2011-02 also ends the FASB s deferral of the additional disclosures about troubled debt restructurings as required by ASU No. 2010-20. The provisions of ASU No. 2011-02 is for our Company s reporting period ending September 30, 2011 and requires retrospective application to all restructurings occurring during 2011 along with additional required disclosures. The interim disclosures required by this update are reported in the notes to our Company s consolidated financial statements.

In July 2010, the FASB issued ASU No. 2010-20 Receivables (ASC Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses. This ASU requires expanded credit risk disclosures intended to provide investors with greater transparency regarding the allowance for credit losses and the credit quality of financing receivables. Under this ASU, companies are required to provide more information about the credit quality of their financing receivables in the disclosures to financial statements, such as aging information, credit quality indicators, changes in the allowance for credit losses, and the nature and extent of troubled debt restructurings and their effect on the allowance for credit losses. Both new and existing disclosures must be disaggregated by portfolio segment or class based on the level of
disaggregation that management uses when assessing its allowance for credit losses and managing its credit exposure. The disclosures as of the end of a reporting period are effective for annual periods ending on or after December 15, 2010. The disclosures about activity that occur during a reporting period are effective for annual reporting periods beginning on or after December 15, 2010. The interim disclosures required by this update are reported in the notes to our Company s consolidated financial statements.

## PART II - OTHER INFORMATION

| Item 1. | Legal Proceedings |
| :---: | :---: |
|  | The information required by this Item is set forth in Note 14, Pending Litigation, in our Company s Notes to Consolidated Financial Statements (unaudited). |
