PROXY STATEMENT

APRIL 25, 2012

GENERAL INFORMATION

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Newpark Resources, Inc. for the Annual Meeting of Stockholders (the Annual Meeting) to be held at The Marriott Woodlands Waterway Hotel & Convention Center, 1601 Lake Robbins Drive, The Woodlands, Texas 77380 on Thursday, June 7, 2012, at 10:00 a.m., Central Daylight Time, and any postponements or adjournments of the Annual Meeting.

Record Date and Outstanding Shares

Only stockholders of record at the close of business on April 12, 2012 are entitled to receive notice of and to vote at the Annual Meeting. On that date, we had outstanding 91,762,309 shares of common stock, each of which is entitled to one vote upon each proposal presented at the Annual Meeting.

Notice Regarding the Availability of Proxy Materials

In accordance with rules adopted by the Securities and Exchange Commission (the SEC), we are making this Proxy Statement and related materials available over the internet under the notice and access delivery model. The notice and access rule removes the requirement for public companies to automatically send their stockholders a printed set of proxy materials and allows them instead to deliver to their stockholders a Notice Regarding the Availability of Proxy Materials and to provide access to the documents over the internet. A Notice Regarding the Availability of Proxy Materials was first mailed to all stockholders of record on or about April 25, 2012. The notice is not a form for voting, and presents an overview of the more complete proxy materials which contain important information and are available on the internet and by mail. Stockholders are encouraged to access and review the proxy materials before voting.

This Proxy Statement, the form of proxy and voting instructions are being made available on or about April 25, 2012 at www.proxyvote.com. You may also request a printed copy of this Proxy Statement and the form of proxy by telephone at 1-800-579-1639, via the internet at www.proxyvote.com or by email in accordance with the instructions given on the Notice Regarding the Availability of Proxy Materials. Our Annual Report to Stockholders, including financial statements, for the fiscal year ended December 31, 2011, is being made available at the same time and by the same method described above. The Annual Report to Stockholders is not to be considered as part of the proxy solicitation material or as having been incorporated by reference.

Any stockholder may request to receive proxy materials in printed form by mail or electronically by email on an ongoing basis by making such request via the internet, email or by telephone. A request to receive proxy materials in printed form or electronically by email will remain in effect until the request is terminated by the stockholder.

Voting Information

Edgar Filing: NEWPARK RESOURCES INC - Form DEF 14A

Stockholders of record may vote in person at the Annual Meeting or by proxy. If you do not wish to vote in person or if you will not be attending the Annual Meeting, you may vote by proxy. You may vote by internet or by following the instructions in the Notice Regarding the Availability of Proxy Materials or, if you requested printed copies of the proxy materials, you can vote by internet, by telephone or by delivering your proxy through

Table of Contents

the mail. We recommend that you vote by proxy even if you plan to attend the Annual Meeting. If your shares are held in the name of a bank, broker or other holder of record, you will receive instructions from the holder of record for you to follow in order to vote your shares.

Revocation of Proxies

Any stockholder giving a proxy may revoke the proxy before it is voted by notifying our Secretary in writing before or at the Annual Meeting, by providing a proxy bearing a later date to our Secretary, by voting again via the internet or telephone, or by attending the Annual Meeting and expressing a desire to vote in person. If you are a beneficial owner and wish to change your vote, you must contact the bank, broker or other holder of record that holds your shares prior to the Annual Meeting to assist you with this process. Subject to this revocation, all proxies will be voted as directed by the stockholder on the proxy card. **If no choice is specified, proxies will be voted:**

FOR the election of the directors nominated by the Board of Directors;

FOR the approval of the compensation of our named executed officers as disclosed in this proxy statement; and

FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for the fiscal year 2012.

The proxy confers discretionary authority to the persons named in the proxy authorizing those persons to vote, in their discretion, on any other matters properly presented at the Annual Meeting. Management is not currently aware of, nor does it intend to present at the Annual Meeting, any such other matters.

Your cooperation in promptly voting your shares via internet or telephone or, if you received this Proxy Statement by mail, by returning the enclosed proxy, will reduce our expenses and enable our management and employees to continue their normal duties for your benefit with minimum interruption for follow-up proxy solicitation.

Quorum

The presence at the Annual Meeting, either in person or by proxy, of the holders of a majority of the shares of common stock outstanding on the record date is necessary to constitute a quorum for the transaction of business. Abstentions and broker non-votes are counted for purposes of determining the presence of a quorum.

Beneficial Ownership

A broker non-vote occurs on an item of business at a meeting of stockholders when shares held by a nominee for a beneficial owner are present or represented at the meeting, but the nominee does not have voting power for that particular item of business and has not received instructions from the beneficial owner. Your nominee does not have authority to vote your shares with respect to the election of directors and the advisory vote to approve executive compensation at the Annual Meeting unless the nominee has received explicit instructions from you.

Therefore, if the nominee does not receive voting instructions from you with respect to such items, the nominee will not be able to vote your shares on those items, and, consequently, your shares will be considered a broker non-vote with respect to those proposals. However, a nominee who holds your shares in its name is permitted to vote your shares on the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm even if the nominee does not receive voting instructions from you.

Table of Contents

Election of Directors

A plurality vote is required for the election of directors. The plurality standard means the nominees who receive the largest number of for votes cast are elected as directors. Thus, the number of shares not voted for the election of a nominee (and the number of withheld votes cast with respect to that nominee) will not affect the determination of whether that nominee has received the necessary votes for election. Brokers who have not received voting instructions from the beneficial owner do not have the discretionary authority to vote on the election of directors. Therefore, broker non-votes will not be considered in the vote totals and will have no effect on the election of the directors. However, as described in greater detail in the **Corporate Governance** section of this proxy under the heading **Corporate Governance Guidelines and Code of Ethics**, our Board of Directors has adopted a majority vote policy which applies to the election of directors. Under this policy, in an uncontested election (*i.e.*, an election where the number of nominees is not greater than the number of directors to be elected), any nominee who receives a greater number of withheld votes from his election than votes for his election is required to tender his resignation to the Chairman of the Board. Consequently, the number of withheld votes with respect to a nominee will affect whether or not our majority vote policy will apply to that individual.

Approval of Other Matters

Each matter submitted to a vote of the stockholders, other than the election of directors, requires the affirmative vote of a majority of the shares having voting power on such matter present or represented at the Annual Meeting. Abstentions will be considered as present at the Annual Meeting and included in the vote totals on these other proposals presented to the stockholders and will have the same legal effect as a vote against a particular proposal. Broker non-votes, if any, will not be considered in the tabulation of votes.

Solicitation of Proxies

The cost of preparing, printing and delivering this Proxy Statement, the Notice of Annual Meeting and the form of proxy, as well as the cost of soliciting proxies relating to the Annual Meeting, will be borne by us. In addition to this distribution, officers and other regular employees of ours may solicit proxies personally, electronically or by telephone, but no additional compensation will be paid to these individuals on account of these activities. We will reimburse banks, brokerage houses and other custodians, nominees and fiduciaries for their reasonable expenses in forwarding proxy materials to the beneficial owners of the shares held by them of record.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

Nominees and Voting

Six directors are to be elected at the Annual Meeting, each to hold office until the next Annual Meeting and until his successor has been elected. The Board of Directors has nominated for election as directors the six persons named below based on the recommendation of the Nominating and Corporate Governance Committee. All nominees are incumbent directors.

The Board of Directors recommends that the stockholders vote **FOR** the election of these nominees. Unless directed otherwise, the persons named in the enclosed proxy intend to vote the shares of common stock represented by the proxies in favor of the election of these nominees. All of the Board's nominees have indicated that they are able and willing to serve as directors. If for any reason one or more of these nominees are unable to serve, the persons named in the enclosed proxy will vote instead for another person or persons that the Board of Directors may recommend, or the number of directors may be reduced.

Table of Contents

Please note that the rules regarding how brokers may vote your shares have changed. Brokers may no longer vote your shares on the election of directors in the absence of your specific instructions as to how to vote. We encourage you to provide instructions to your broker regarding the voting of your shares.

CORPORATE GOVERNANCE

General

Under Delaware law, our business and affairs are managed under the direction of the Board of Directors. The Board of Directors establishes broad corporate policies, has responsibility for our overall performance and direction and authorizes various types of transactions but is not involved in the details of day-to-day operations. Members of the Board of Directors keep informed of our business by participating in Board and committee meetings, by reviewing reports and other materials provided to them and through discussions with the Chief Executive Officer and other officers. All members of the Board of Directors, other than our President and Chief Executive Officer, Mr. Howes, satisfy the independence requirements of the NYSE.

Each director is elected to a one-year term. Our Board of Directors held 13 meetings during 2011. Each director attended at least 75% of the meetings of the Board of Directors held while serving as a member of the Board of Directors and of each committee of which he was a member that was held during the time he was a member.

In March 2005, the Board of Directors chose to separate the roles of Chairman of the Board and Chief Executive Officer. In June 2007, the Board of Directors elected Mr. Box as non-executive Chairman of the Board of Directors. The principal responsibilities of the non-executive Chairman of the Board are:

To manage the organization, functioning and affairs of the Board of Directors, in order to enable it to meet its obligations and responsibilities;

To facilitate the functioning of the Board of Directors independently of management and maintain and enhance the governance quality of the company and the Board;

To interact regularly with the Chief Executive Officer and his staff on major strategy issues, handling of major business issues and opportunities, matters of corporate governance and performance issues, including providing feedback of other Board members and acting as a sounding board for the Chief Executive Officer;

Together with the Chair of the Compensation Committee, to conduct a formal evaluation of the Chief Executive Officer's performance at least annually; and

To lead the Board of Directors in the execution of its responsibilities to the stockholders.

Given the substantial overlap of the duties of a non-executive Chairman of the Board and a lead independent director, the Board of Directors determined there is no need at this time to designate a lead independent director. A complete description of the responsibilities of the non-executive Chairman of the Board is set forth in a charter adopted by the Board of Directors, a copy of which is available in the Governance Documents section under Corporate Governance on our website at www.newpark.com. A description of the powers and duties of the Chairman of the Board also is set forth in our Amended and Restated Bylaws.

Corporate Governance Guidelines and Code of Ethics

Corporate Governance Guidelines

We are committed to adhering to sound principles of corporate governance and have adopted Corporate Governance Guidelines that the Board of Directors believes promote the effective functioning of the Board of Directors, its committees and our company. The Corporate Governance Guidelines conform to the NYSE corporate governance listing standards and SEC rules and address, among other matters, director qualifications, independence and responsibilities, majority vote principles, Board committees, Board access to senior management, the independent accountants and other independent advisors, compensation of directors and assessments of committee performance. The Corporate

Governance Guidelines are available in the [Governance](#)

Table of Contents

Documents section under Corporate Governance on our website at www.newpark.com and are also available, without charge, upon request to our Corporate Secretary at Newpark Resources, Inc., 2700 Research Forest Drive, Suite 100, The Woodlands, Texas 77381.

Majority Vote Policy

Our Corporate Governance Guidelines provide for a majority vote principle in connection with the election of our directors. Under our Corporate Governance Guidelines, in an uncontested election (*i.e.*, an election where the number of nominees is not greater than the number of directors to be elected), any nominee who receives a greater number of votes withheld from his election than votes for his election must promptly tender his resignation to the Chairman of the Board unless he has previously submitted an irrevocable resignation in accordance with our Corporate Governance Guidelines. The Corporate Governance Guidelines also provide that the Board of Directors may require, in order for any incumbent director to become a nominee for further service on the Board of Directors, that the incumbent director submit to the Board of Directors an irrevocable resignation. The irrevocable resignation will be conditioned upon, and shall not become effective until there has been (i) a failure by that nominee to receive more votes for his election than votes withheld from his election in any uncontested election of directors and (ii) acceptance of the resignation by the Board of Directors. In the event a director receives a greater number of votes withheld from his election than for his election, the Nominating and Corporate Governance Committee will make a recommendation to the Board of Directors regarding the action to be taken with respect to the tendered resignation. A director whose resignation is being considered will not participate in any committee or Board of Directors meetings where the consideration is his resignation. The Board of Directors will act on the Nominating and Corporate Governance Committee's recommendation within 90 days following the certification of the stockholder vote, and the Board of Directors will promptly and publicly disclose its decision. Each of the nominees for election to the Board of Directors has submitted an irrevocable resignation in accordance with our Corporate Governance Guidelines.

Stock Ownership Guidelines

To encourage our non-employee directors to achieve and maintain an appropriate ownership interest in our company, the Board of Directors approved stock ownership guidelines. Section 8 of the Corporate Governance Guidelines requires each of our non-employee directors to own shares of our common stock valued at five times his annual cash retainer. Non-employee directors who were serving on our Board of Directors on March 7, 2007 had five years from that date to obtain the required level of stock ownership. Non-employee directors elected to the Board of Directors after March 7, 2007 have five years from the date of election to reach the required level of stock ownership. In the event of an increase in the annual cash retainer or an increase in the ownership guidelines (such as occurred in 2011, increasing the ownership requirement from three times to five times the annual cash retainer), the non-employee directors will have five years from the effective date of the increase to acquire any additional shares needed to meet the stock ownership guidelines. As of December 31, 2011, each of our non-employee directors satisfied the ownership guidelines, as shown in the table below:

	Stock Ownership Value Required at 5x Annual Cash Retainer	Stock Ownership Value at December 31, 2011(1)
David C. Anderson	\$ 225,000	\$ 855,272
Jerry W. Box	\$ 625,000	\$ 990,930
G. Stephen Finley	\$ 225,000	\$ 679,098
James W. McFarland, PhD	\$ 225,000	\$ 1,086,648
Gary L. Warren	\$ 225,000	\$ 786,348

- (1) Stock ownership value is calculated based on the number of shares owned by the director or members of his or her immediate family residing in the same household and time-based restricted stock held by the director, multiplied by the average closing price of a share of our common stock over the three-months prior to December 31, 2011, as reported by the New York Stock Exchange.

Code of Ethics

The Board of Directors also has adopted a Code of Ethics for Senior Officers and Directors that applies to all of our directors, our principal executive officer, principal financial officer, principal accounting officer or controller, and other senior officers. The Code of Ethics contains policies and procedures applicable to our directors and supplements our Corporate Compliance and Business Ethics Manual which is applicable to all of our employees including our principal executive officer, principal financial officer, principal accounting officer and other senior officers. The purposes of the Code of Ethics, among other matters, are to deter wrongdoing and to promote honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships. The Code of Ethics promotes full, fair, accurate, timely and understandable disclosure in reports and other documents that we file with, or submit to, the SEC and in other public communications. The Code of Ethics also requires compliance with applicable governmental laws, rules and regulations including, without limitation, insider trading laws. The Code of Ethics further requires the prompt internal reporting of violations of the Code of Ethics to an appropriate person or persons and accountability for adherence to the Code of Ethics.

Any amendments to, or waivers of, the Code of Ethics with respect to our principal executive officer, principal financial officer or principal accounting officer or controller, or persons performing similar functions, will be disclosed in a Current Report on Form 8-K, which will be available on our website promptly following the date of the amendment or waiver.

Copies of our Code of Ethics for Senior Officers and Directors and our Corporate Compliance and Business Ethics Manual are available in the Governance Documents section under Corporate Governance on our website at www.newpark.com and are also available in print upon request from our Corporate Secretary.

Related Person Transactions and Procedure

In 2011, the Board of Directors adopted the Policy Regarding Covered Transactions with Related Persons which requires the approval or ratification by the Audit Committee of any Covered Transaction (as defined in the Policy Regarding Covered Transactions with Related Persons). A Covered Transaction includes, but is not limited to, any financial transaction, arrangement or relationship or any series of similar transactions, arrangements or relationships including indebtedness and guarantees of indebtedness in which (a) the aggregate amount involved will or may be expected to exceed \$100,000 in any calendar year, (b) we are a participant and (c) any related person has or will have a direct or indirect interest (other than solely as a result of being a director or a less than 10% beneficial owner of another entity). The policy provides that any director, director nominee or executive officer must provide to the Chief Administrative Officer and Chair of the Audit Committee prior notification of all proposed terms of any Covered Transaction (other than related party transactions involving compensation matters and certain ordinary course transactions). The Audit Committee must review the relevant facts and circumstances of the Covered Transaction, including if the terms and conditions of the transaction are generally available to third parties under similar terms or conditions, take into account the level of interest or relationship to the related person and the impact on a director's independence, and either approve or disapprove the Covered Transaction. If the Audit Committee (or the Chairman of the Audit Committee pursuant to his delegated authority) is unable to provide advance approval of a Covered Transaction, the transaction will be considered at the next regularly scheduled meeting of the Audit Committee. At the next meeting, the Audit Committee will evaluate all options including, but not limited to, ratification, amendment or termination of the Covered Transaction. No director may participate in approval of a Covered Transaction for which he or she is a related party.

Director Independence

The Board of Directors has determined that Messrs. Anderson, Box, Finley, Warren and Dr. McFarland are independent directors as that term is defined in the listing standards of the NYSE. In making these determinations regarding independence, the Board of Directors evaluated commercial, consulting, charitable,

Table of Contents

familial, and other relationships with each of its directors and entities of which he is an executive officer, partner, member, and/or significant stockholder. As part of this evaluation, the Board of Directors noted that none of the directors received any consulting, advisory, or other compensatory fees from us (other than for services as a director) or is a partner, member, or principal of an entity that provided accounting, consulting, legal, investment banking, financial, or other advisory services to our company, and none of the express disqualifications contained in the NYSE rules apply to any of them. Based on this independence review and evaluation, and on other facts and circumstances the Board of Directors deemed relevant, the Board of Directors, in its business judgment, determined that all of our directors and nominees are independent, with the exception of Mr. Howes who is our President and Chief Executive Officer.

Executive Sessions of Non-Management Directors

Our Corporate Governance Guidelines require the non-management directors to meet at least twice each year in executive session, without management present. However, management employees may be invited to attend portions of these meetings if deemed appropriate by the non-management directors to provide information necessary for the meetings. Executive sessions were held as part of every regularly scheduled Board meeting in 2011 and were presided over by Mr. Box as our non-executive Chairman of the Board.

Interested parties may direct their concerns to the Chairman of the Board or to any other non-management director or directors by following the procedures set forth in the section below entitled **Stockholder Communication with Board Members**.

Board Leadership and Risk Management

The Board evaluates its leadership structure and role in risk oversight on an ongoing basis. The decision on whether to combine or separate the Chairman and Chief Executive Officer (CEO) role is determined on the basis of what the Board considers to be best for our company. Our current Board leadership structure separates the role of Chairman and CEO. The Board believes that part of an effective Board leadership structure is to have either an independent director as the Chairman or to designate a Lead Director. The Nominating and Corporate Governance Committee and the Board currently believe that the separation of the role of CEO and Chairman (who is an independent director) is appropriate because it provides, among other things, sufficient independence between the Board and management, Board member leadership by an independent director, and facilitates our Board's ability to carry out its roles and responsibilities on behalf of our stockholders. The Board has appointed Mr. Box, an independent director, as the Chairman and therefore does not believe it is necessary to appoint a Lead Director. The independent directors meet regularly in executive sessions at which time only independent directors are present, and the Chairman of the Board chairs those sessions.

The Board, as a whole and through its committees, retains responsibility for overseeing our company's processes for assessing and managing risk, although it is management's responsibility to manage risk on a day-to-day basis. The Board discharges its responsibility, in part, through regular inquiries from the Chairman of the Board to management, periodic communications from management to the Board of Directors of particular risks and events, and discussions during Board meetings with and without management of general and specific risks to the company. The Board also delegates the oversight of certain specific risks to Committees of the Board. For example, the Board delegates to the Compensation Committee the assessment of our company's compensation plans with regard to whether such plans encourage the taking of inappropriate risks, and delegates to the Audit Committee oversight of the risk assessment undertaken by management to develop the scope and coverage of reviews conducted by our internal audit function. Further discussion of the risk assessment is contained in the **Executive Compensation** section of this proxy under the heading **Risk Assessment of Compensation Programs**.

As of April 12, 2012, the members of the Audit Committee were G. Stephen Finley (Chairman), David C. Anderson, James W. McFarland, PhD and Gary L. Warren. The Board of Directors has determined that each of the members of the Audit Committee is independent and financially literate under applicable SEC rules and NYSE listing rules and is an independent director under applicable NYSE listing rules and a non-employee director as defined in Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act). The Board of Directors also has determined that Mr. Finley and Dr. McFarland are audit committee financial experts as defined by applicable SEC rules. The Audit Committee met seven (7) times during 2011 and did not take any action by unanimous written consent.

The Audit Committee is responsible for the selection, evaluation, compensation and, when necessary, replacement of the independent registered public accounting firm. The Audit Committee also has responsibility for providing independent review and oversight of the integrity of our financial statements, the financial reporting process, our systems of internal accounting and financial controls, the performance of our internal audit function and the independent auditors, the independent auditors' qualifications and independence, our compliance with ethics policies and legal and regulatory requirements and to prepare the Audit Committee Report and disclosure required by the Audit Committee for inclusion in this proxy statement. The independent auditors report directly to the Audit Committee.

The specific responsibilities of the Audit Committee are set forth in the Committee's charter, a copy of which is available in the Board Committees & Charters section under Corporate Governance on our website at www.newpark.com and is also available in print upon request from our Corporate Secretary.

Compensation Committee

As of April 12, 2012, the members of the Compensation Committee were David C. Anderson (Chairman), G. Stephen Finley, James W. McFarland, PhD and Gary L. Warren. The Board of Directors has determined that each member of the Compensation Committee is an independent director under applicable NYSE listing rules, a non-employee director as defined in Rule 16b-3 promulgated under the Exchange Act, and an outside director as defined under regulations promulgated under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Internal Revenue Code). The Compensation Committee met eleven (11) times during 2011 and did not take any action by unanimous written consent.

The Compensation Committee has responsibility for establishing, evaluating and administering our compensation arrangements, plans, policies and programs for our Chief Executive Officer and other executive

officers and for administering our equity incentive plans. The Compensation Committee also has responsibility for making recommendations to the Board of Directors with respect to the adoption, approval and amendment of all broadly based, cash-based and equity-based incentive compensation plans.

The Compensation Committee has the authority to retain compensation consultants to assist it in evaluating the compensation paid to our Chief Executive Officer and other executive officers. As noted in the **Compensation Discussion and Analysis** section of this proxy, for the 2011 fiscal year, the Compensation Committee retained two compensation consultants, Frost HR Consulting (formerly Stone Partners) and Pearl Meyer & Partners to provide the Committee with advice and recommendations on the amount and form of executive and director compensation. In 2011, Frost HR Consulting provided guidance to management regarding compensation for non-executives, but only with the consent of the Chairman of the Committee as to scope of such services. Pearl Meyer did not advise management or provide any non-executive consulting services to the company other than its work on behalf of the Compensation Committee, and it maintained no other economic relationship with the company.

The specific responsibilities of the Compensation Committee are set forth in the Committee's charter, a copy of which is available in the Board Committees & Charters section under Corporate Governance on our website at www.newpark.com and is also available in print upon request from our Corporate Secretary.

Nominating and Corporate Governance Committee

As of April 12, 2012, the members of the Nominating and Corporate Governance Committee were Gary L. Warren (Chairman), David C. Anderson, G. Stephen Finley and James W. McFarland, PhD. The Board of Directors has determined that each of the members of the Nominating and Corporate Governance Committee is an independent director under applicable NYSE listing rules and a non-employee director as defined in Rule 16b-3 promulgated under the Exchange Act. The Nominating and Corporate Governance Committee met four (4) times during 2011 and did not take any action by unanimous written consent.

The Nominating and Corporate Governance Committee assists and advises the Board of Directors with respect to the size, composition and functions of the Board of Directors, identifies potential candidates for the Board of Directors and recommends to the Board of Directors a slate of qualified nominees for election as directors at each annual meeting, oversees the annual evaluation of the Board of Directors as a whole and the committees of the Board of Directors, and develops and advises the Board of Directors with respect to corporate governance principles, policies and practices. The Nominating and Corporate Governance Committee also serves as the Qualified Legal Compliance Committee for purposes of Section 307 of the Sarbanes-Oxley Act and ensures compliance with the standards of the SEC for professional conduct for attorneys appearing and practicing before the SEC in the representation of our company.

The specific responsibilities of the Nominating and Corporate Governance Committee are set forth in the Committee's charter, a copy of which is available in the Board Committees & Charters section under Corporate Governance on our website at www.newpark.com and is also available in print upon request from our Corporate Secretary.

Director Nominations

The Nominating and Corporate Governance Committee is responsible for periodically evaluating and making recommendations to the Board of Directors with respect to the size and composition of the Board of Directors. Although we have not adopted a formal policy with regard to the consideration of diversity when evaluating candidates for election to the board, the charter of our Nominating and Corporate Governance Committee and our Corporate Governance Guidelines provide that diversity shall be one of the criteria considered for candidates. The Committee considers the term diversity to include a diversity of viewpoints, expertise and experience as well as gender, ethnicity and background. When analyzing director nominations and

Table of Contents

director vacancies, the Nominating and Corporate Governance Committee strives to recommend candidates for director positions who will create a Board that reflects diversity, including but not limited to background, experience, gender, ethnicity, and country of citizenship. The Nominating and Corporate Governance Committee seeks to identify prospective directors who will strengthen the Board of Directors and evaluates prospective directors, including incumbent directors, in accordance with the criteria set forth in our Corporate Governance Guidelines and other criteria as may be set by the Board of Directors or the Committee. Some of the principal criteria include whether the candidate (i) is of the highest integrity and character; (ii) has familiarity with our business and industry; (iii) has independence of thought and financial literacy; (iv) is willing and able to devote sufficient time to effectively carry out the duties and responsibilities of a director; and (v) has the objectivity, ability and desire to represent the interests of the stockholders as a whole, free from any conflict of interest. Our Corporate Governance Guidelines include a director retirement age policy. Under that policy, any person who is 75 years of age or more shall not be eligible to be elected as a director, although any director reaching the age of 75 while in office may serve the remainder of his or her term until the next annual stockholders meeting.

The stockholder making the recommendation also should submit information demonstrating the number of shares he or she owns. COMPENSATION DISCUSSION AND ANALYSIS

Introduction

Edgar Filing: NEWPARK RESOURCES INC - Form DEF 14A

This Compensation Discussion and Analysis describes the compensation provided to our named executive officers and other members of senior management, including the principles and processes used in determining their compensation.

This Compensation Discussion and Analysis addresses the following topics:

First, it includes an Executive Summary of our compensation practices and factors relating to our 2011 compensation;

Second, it discusses our executive compensation philosophy and how that philosophy is reflected in the key components of our executive compensation program, including an analysis of realized pay compared to the compensation reflected in the Summary Compensation Table;

Third, it reviews the results of the Say on Pay vote from the 2011 Annual Meeting and discusses how the Compensation Committee responded to the vote of our stockholders;

Table of Contents

Fourth, it discusses how we implement our executive compensation programs and the roles of our Compensation Committee, members of management, and the Compensation Committee's independent consultants in establishing executive compensation;

Fifth, it discusses the key elements of our executive compensation program and how our compensation was determined for 2011 for our Chief Executive Officer and our other named executive officers; and

Finally, it discusses the employment agreements with our executive officers and other significant policies and matters related to executive compensation.

Executive Summary

Our performance for 2011. We achieved strong financial performance in 2011, and we believe our executive officers were instrumental in helping us achieve those results. Key highlights for 2011 include:

We grew our company with revenues up 34% over 2010. Revenues for 2011 were \$958 million, an increase of 34% over 2010. This growth was achieved through a combination of market share growth, increases in industry activity levels and a strategic acquisition.

Our growth was profitable with operating income up 70% over 2010. Operating income reached \$133 million which translated into \$0.80 per diluted share, representing increases of 70% and 74% respectively over 2010.

We earned a return in excess of our cost of capital. For 2011, return on net capital employed was 13.50% compared with an average cost of capital for the year of 13.00%.

We continued to invest in the future. In our Drilling Fluids business, we supported the expansion of the award winning water-based drilling fluid, EVOLUTION®, with revenues from this system increasing to \$67 million in 2011 from \$27 million in 2010. We also acquired and successfully integrated the drilling fluids business of Rheochem (Australia, New Zealand and India), giving us a presence in the growing Asia Pacific region.

Our efforts to improve governance and risk management. In the last several years we have undertaken a number of changes in an effort to improve compensation governance, including:

Increased stock ownership guidelines for officers and directors.

- For our CEO, to **five** times his base salary

- For our Directors, to **five** times their annual cash retainers

Continued to utilize two independent compensation consultants (Frost HR Consulting and Pearl Meyer & Partners) to assist the Compensation Committee with assessing executive compensation.

Undertook an annual review and assessment of compensation-related risks (assisted by the compensation consultants). In this past year, the results from this assessment noted that we have:

- An effective balance between cash and equity compensation

- An appropriate balance between short-term and long-term compensation

- Incentive structures that encourage achievement, but mitigate risk by requiring deferral of a portion of annual incentives above certain levels of performance

Compensation-related Highlights for 2011. Compensation decisions made by the Compensation Committee during 2011 were made in the context of a continuously firming oilfield services labor market due to expanding exploration and production of oil and gas through all of 2011. Following are some of the key compensation-related decisions for 2011, all of which are discussed in greater detail in the remainder of the Compensation Discussion and Analysis:

We held our first advisory vote on our executive compensation program (Say on Pay) and received 96% support from stockholders. We also decided to hold future advisory votes on an annual basis.

Table of Contents

Named executive officer (NEO) base salaries were increased by an average of 8%, bringing their compensation to or near the market medians (*i.e.*, within the market 50th percentile range) for their positions. In approving the increases, the Compensation Committee also considered the fact that, prior to 2011, the NEO s base salaries had not been increased since 2008.

The Compensation Committee approved bonuses for our NEOs under our annual incentive plan that averaged 2.2x target. Under our annual incentive plan, any amounts above 2x (over-achievement) are deferred for the next two years.

Our Compensation Committee approved equity awards at each NEO s target award level, with 50% of the total value provided in the form of time-based stock options and 50% in the form of time-based restricted stock. For 2011, the Compensation Committee concluded that this mix provides an appropriate balance of market competitiveness, long-term performance incentive, and alignment of long-term compensation for the NEO s with the interests of our stockholders.

Our Compensation Committee also approved supplemental equity awards in the form of time-based restricted stock to our NEO s (excluding the CEO) to address competitive pressure exacerbated by the departure of our Chief Financial Officer in the fourth quarter of 2011. The Compensation Committee felt that it was important for the company and for our stockholders to maintain stability among the core management team who have been instrumental in driving our positive performance, and to provide them additional forward-looking incentives to maintain that performance into the future.

Our NEOs achieved total direct compensation (defined as salary plus actual annual incentive earned plus grant date long-term incentive value) at 166% of target opportunity.

Executive Compensation Philosophy and Objectives

We design the executive compensation program to attract, motivate and retain the executive talent that we need in order to implement our business strategy and to improve our long-term profitability and stockholder value. To this end, our executive compensation program is characterized by the following principal objectives:

Competitiveness: providing compensation programs and pay *opportunities* that are competitive with market practice;

Pay-for-performance: tying a majority of pay opportunities to achievement of short-term and long-term performance criteria;

Stockholder alignment: structuring pay programs to ensure that executive rewards are aligned with stockholder interests; and

Compensation governance and risk assessment: consistently review (and address, as appropriate) potential areas for compensation-related risk and ensure governance mechanisms and controls are appropriate.

Competitiveness. The Compensation Committee believes that the total compensation of our NEOs should be competitive with the market in order to ensure that we are able to attract and retain the right caliber of executive talent. The Compensation Committee considers the oilfield services industry to be the market in which we compete for executive talent and we use a combination of peer group and oilfield services data in order to assess the competitiveness of our compensation programs within that market. The Compensation Committee generally targets NEO compensation at the market median in the oilfield services market, with opportunities to earn above or below the market median in return for performance. However, target levels of individual pay are not based on a strict adherence to the market median but may vary from median levels based on a variety of considerations, including internal equity, individual performance, time in position, and availability of comparable market data.

Table of Contents

Some of the challenges that we face in recruiting and retaining talented executive and senior managers, when compared with other companies in the oilfield services industry (including our peers and competitors), include:

The increase in activity levels in the oil and gas industry, and particularly in the United States as the result of the development of shale areas (such as the Bakken, Eagle Ford and Marcellus formations), has significantly increased competition for talented and experienced executives in this industry. The competition for talent is not limited to our direct peers or competitors, but spans the entire upstream and midstream oil and gas marketplace and includes companies both smaller and significantly larger than us.

Our success in 2010 and 2011 has made our executives targets for energy-related companies (oilfield services and otherwise) looking to fill open positions. As an example, our former Chief Financial Officer (CFO) was targeted by a privately-held oilfield equipment company and he departed our company in October of 2011, receiving a significant increase in his compensation package. While we had an internal candidate capable of assuming the CFO role, the loss of a senior executive can be very disruptive to the organization. Attracting and then retaining high performing individuals is critical to our success and under these market conditions we need to be creative in our approach to salaries, incentive targets and retention tools. For example, following the departure of our CFO, the Compensation Committee authorized grants of additional time-based restricted stock awards to key executives, including certain NEO s, in part to address this competitive pressure.

We are more vulnerable to slow-downs in North American drilling activity levels than our larger competitors (as evidenced by our results from 2009). While each of our larger competitors has significant exposure to the North American market, they also have a greater percentage of their revenues originating from international markets and offer a wider scope of products and services, some of which are not as dependent on drilling rig activity as either our Fluids Systems and Engineering segment or our Mats and Integrated Services business. We are consequently at a disadvantage when compared to our competition and this requires that we be creative in the compensation plans we adopt to recruit and retain key personnel.

Table of Contents

The charts below provide a summary of how 2011 target and actual total direct compensation for our NEOs compared to the market data presented to the Compensation Committee.

The primary difference between the competitive position of CEO actual TDC and actual TDC for our other NEOs is the fact that our CEO declined participation in the special equity grants approved by the Compensation Committee in late 2011.

Pay-for-Performance. In determining targeted compensation levels, the Compensation Committee places a significant portion of each executive officer's compensation at risk through the use of performance-based pay. Performance-based pay generally includes non-equity (cash) incentives for achievement of specified performance objectives and equity incentive compensation whose long-term value depends upon our stock price (stock options, in particular).

Table of Contents

The table below summarizes the principal components of our pay-for-performance approach to our executive officer compensation:

Table of Contents

The Compensation Committee typically sets 60-90% of the executive officer's target compensation as contingent, performance-based pay (both short-term and long-term performance). By placing particular emphasis on performance-based variable pay, we ensure that outstanding individual and corporate achievements are required for an executive's compensation to significantly exceed the median compensation levels (based on benchmarks discussed above). During 2011, over 80% of actual compensation for our NEOs was delivered in the form of variable pay.

NEO Target Total Direct Compensation Opportunity 2011

NEO Actual Total Direct Compensation 2011

Summary of Realized Pay for 2011. We believe it is important to keep in mind that, unlike short-term cash incentive compensation (which awards executives for profitable performance in the previous year), we view equity incentive compensation as a forward-looking incentive. We grant these awards not to recognize past performance, but to align the long-term interests of our executives with those of our stockholders and to provide an incentive which rewards executives over time for helping to drive future growth in stockholder value. In particular, we view stock option grants as performance-based compensation because they only have value to the extent that our stock price appreciates after the date of grant.

Table of Contents

Further to this view of equity incentive compensation, we have summarized below the realized compensation for our officers during 2011 in contrast to the compensation numbers presented in the Summary Compensation Table. The following table represents supplemental information and is not intended to be a substitute for the information provided in the Summary Compensation Table on page 48, which has been prepared in accordance with the SEC's disclosure rules. In the table below we have included two measures of NEO total direct compensation for 2011. Each measure includes 2011 actual cash compensation (2011 salary plus annual incentive earned for 2011 performance), but differs in how we include the equity component:

Table of Contents

As shown in the table above, despite meaningful grants of equity incentives during 2011, the actual compensation realized by our executives during 2011 averaged 52% of the components of their total direct compensation identified on the prior page and as reflected in the Summary Compensation Table for 2011.

In June of 2011, the Compensation Committee, requested Pearl Meyer & Partners to review the relationship between total CEO realizable compensation and our performance against our compensation peer group for the three fiscal years ended December 31, 2010. This review was conducted to understand the degree of alignment between total compensation delivered to our CEO during the period and our performance relative to our peers. Company performance was defined as relative Total Shareholder Return (TSR) for the three year period. CEO compensation was measured in terms of the following components of realizable pay over the same three year time frame (as compared to CEOs in our peer group who have at least three years of tenure at the end of 2010):

Salary, plus

Bonuses earned, plus

The value realized from stock option exercises, stock vesting, and performance-based long-term incentive plan payouts, plus

The change in year-end value of unexercised time-based stock options and unvested time-based restricted shares held at the beginning and end of the 3-year period.

The results of this analysis are shown in the chart below, revealing that our percentile ranking for performance (45th percentile) was well above our ranking for CEO realizable pay over the period (9th percentile).

This outcome (*i.e.*, realizable pay at a lower level than would be indicated by our relative TSR performance) was due in part to several tranches of performance-based long-term incentive awards granted from 2007 through 2009,

Table of Contents

which required achievement of multi-year absolute (*i.e.*, not relative to peers) EPS performance goals. The minimum criteria for achievement were not reached to trigger the vesting of the awards for any of these tranches as a result of very difficult market conditions during 2009. These awards have not been a part of our ongoing executive compensation program since 2009.

After reviewing this analysis and the strong level of shareholder support expressed in our 2011 advisory vote on executive compensation, the Compensation Committee felt confident that the guiding principles and core components of our program remained appropriate for 2011 subject to the potential for adjustment of salaries and incentive opportunities for 2012 following review of competitive market data later in 2011.

Stockholder Alignment. We believe that the interests of our stockholders and executives should be aligned by ensuring that a portion of our executive s compensation is directly determined by:

Earnings per share growth through annual incentive opportunities; and

Appreciation in our stock price through long-term (equity) incentive awards.

With realizable value tied to increase stockholder value, long-term (equity) incentives provide our executives with an opportunity to share in the value they create, which is consistent with our pay-for-performance philosophy. During 2011, the Compensation Committee awarded equity incentives in the form of time-based restricted stock and time-based stock options. The grant date value of equity incentive awards can vary from year to year based upon considerations such as competitive market data, prior grants made to individuals, share availability and shareholder dilution. Time-based awards typically vest over a three-year period.

In support of our goal of stockholder alignment, the Compensation Committee implemented stock ownership guidelines for directors and executives in 2007. During 2011, in order to further enhance alignment, the Compensation Committee approved increases to our guideline levels of ownership as shown below:

Title	Original Ownership Target	Revised Ownership Target
Chief Executive Officer	3x salary	5x salary
Chief Legal Officer and Chief Financial Officer	2x salary	3x salary
President of Drilling Fluids and Engineering Division	1x salary	3x salary
Other Division Presidents	1x salary	2x salary
Other Designated Officers/Executives	1x salary	1x salary
Nonemployee Directors	3x retainer	5x retainer

Unvested time-based restricted shares are counted toward the satisfaction of these guidelines. However, unexercised stock options and unearned performance shares do not count toward satisfaction of these guidelines. In the event of an increase in the annual cash retainer or an increase in the ownership requirement (such as occurred in 2011), the executives will have five years from the effective date of the increase to acquire any additional shares needed to meet the stock ownership guidelines.

Compensation governance and risk assessment. A risk assessment of the executive compensation plans is undertaken as part of the annual procedures for the Compensation Committee. That process includes assessing:

Each aspect of the various components of direct compensation (salary, annual cash incentives, and equity plans); and

Metrics used for any performance-based plans.

The risks are assessed for each component and metric, along with consideration being given to alternative compensation approaches. To the extent that risks are identified, the Compensation Committee also considers whether the risks have or can be mitigated through various features of the compensation plans. Further discussion of the risk assessment is contained in the **Executive Compensation** section in this proxy under the

heading **Risk Assessment of Compensation Programs** .

Consideration of Advisory Say on Pay Voting Results

In compliance with Section 14A of the Securities Exchange Act, the Company asks the stockholders to approve, on an advisory basis, the compensation of our NEOs as disclosed in the Company's Proxy Statement (commonly known as the Say on Pay advisory votes). While the Say on Pay votes are advisory votes and are not binding on the company, the Compensation Committee strongly values the opinions of the stockholders as expressed in the Say on Pay votes. On an ongoing basis, the Compensation Committee:

Monitors the performance of the company and its Senior Executives;

Makes business determinations concerning what performance goals the Compensation Committee believes are appropriate;

Determines what financial incentives are appropriate to incentivize the achievement of these goals; and

Designs and modifies the company's executive compensation programs as it deems appropriate and consistent with these determinations. In making its determinations, the Compensation Committee is guided by its obligations to the company's stockholders and its business judgment concerning what is in the best interest of the stockholders.

The Compensation Committee carefully considered the company stockholders' 2011 advisory Say on Pay voting results to ascertain whether there was a general level of support that was meaningful. In 2011, the company's stockholders voted 96% in favor (excluding abstentions and broker non-votes) of the company's executive compensation practices as disclosed in the company's Proxy Statement, a level of support that the Compensation Committee considers to be meaningful. Following reflection on the stockholders' vote, as well as the Committee's own review of the current program, the Compensation Committee did not implement changes to the core components of our executive compensation program or philosophy for 2012. We have committed, however, to conducting annual Say on Pay votes, consistent with the vote of a majority of our stockholders at the 2011 Annual Meeting.

The Process of Implementing and Managing our Executive Compensation Programs

Role of Compensation Committee. The Compensation Committee of the Board of Directors currently consists of four independent non-employee directors, David C. Anderson (Chairman), G. Stephen Finley, James W. McFarland, PhD and Gary L. Warren. The non-executive Chairman of the Board, Jerry W. Box, attends the meetings of this Committee, but does not vote.

The Compensation Committee operates under a written charter adopted by the Board of Directors on June 11, 2003, and was last revised on December 8, 2011. The Compensation Committee charter is available in the Board Committees & Charters section under Corporate Governance on our website at www.newpark.com and is also available in print upon request from our Corporate Secretary. In addition to the more specific responsibilities set forth in its charter, the Compensation Committee:

Discharges the Board of Directors' responsibilities with respect to all forms of compensation of our executive officers (although decisions regarding the compensation of the Chief Executive Officer require the participation of all of the independent directors of the Board);

Administers our equity incentive plans; and

Produces an annual compensation committee report for our proxy statement.

As part of its authority and responsibilities, our Compensation Committee establishes our overall compensation philosophy and reviews and approves our compensation programs. As further explained below, our Compensation Committee approves the specific compensation of our

CEO (with the participation of all

Table of Contents

independent directors of the Board of Directors) and each of our other NEOs. The Compensation Committee reviews the Compensation Committee charter annually to determine if there are any additional compensation or benefits issues it may need to address and to verify that the Compensation Committee has met all its assigned responsibilities for the year. The Committee also undertakes a self-evaluation of its performance on an annual basis. This self-evaluation allows the committee members to assess areas for improvement in the compensation program and processes. The Compensation Committee establishes a calendar annually for specific compensation actions to address throughout the year.

The Compensation Committee has the authority to retain special counsel and other experts, including compensation consultants. These consultants and advisors report directly to the Compensation Committee.

For 2011, the Compensation Committee utilized Frost HR Consulting, an independent compensation consulting firm, to assist the Committee in determining executive compensation and related programs. During 2011, Frost HR Consulting reported to, and acted at the direction of, the Compensation Committee. In addition, Frost HR Consulting provides information to the Compensation Committee about best practices in executive compensation and supports the Compensation Committee by preparing reports for its review and approval. Frost HR Consulting also provided consulting services to our management in 2011 for compensation matters relative to non-executive officers, each time as approved by the Chairman of the Compensation Committee. Frost HR Consulting provides no other services to the company.

In 2011, the Compensation Committee also retained Pearl Meyer to provide consulting services to the Committee. The role of Pearl Meyer is to provide additional independent oversight and review of the executive compensation structure and plans. More information regarding the compensation paid to the consultants is provided in the **Committees of the Board of Directors** section of this proxy under the heading *Compensation Committee*.

Role of executive officers and consultants in compensation decisions. While the Compensation Committee determines our overall compensation philosophy and sets the compensation of our CEO and other executive officers, it looks to its compensation consultants, our CEO as well as our CFO, and Chief Administrative Officer to make recommendations with respect to specific compensation decisions. Beginning in 2012, our Vice President, Human Resources (a newly created position) will also provide input to this process. Our Compensation Committee, without management present, regularly meets in executive session and with its compensation consultants to review executive compensation matters including market and survey data as well as peer group information.

The CEO's role in establishing compensation includes making recommendations to the Compensation Committee on performance evaluation, base salary, and both equity and non-equity incentive compensation for executive officers and senior management (other than the CEO). The CEO, CFO, Chief Administrative Officer, and Vice President, Human Resources, as invited guests, also participate in Compensation Committee meetings, from time to time, to provide information regarding our strategic objectives, financial performance, and recommendations regarding compensation plans. Management or the compensation consultants may be asked to prepare information for any Compensation Committee meeting. Depending on the agenda for a particular meeting, these materials may include:

Reports on our strategic objectives;

Financial reports;

Reports on achievement of individual and corporate performance objectives;

Information regarding compensation programs and compensation levels for executive officers, directors and other employees at peer companies;

Table of Contents

Information on the total compensation of the executive officers, including base salary, cash incentives, equity awards, perquisites and other compensation, and any amounts payable to the executive officers upon voluntary or involuntary termination, early or normal retirement, or following a severance with or without a change in control; and

Information regarding all non-equity and equity incentive, health, welfare and retirement plans.

Compensation benchmarking relative to market. The Compensation Committee believes that pay practices at other companies provide useful information in establishing compensation levels and recognizes that our compensation practices must be competitive in the marketplace in order to attract, retain and motivate key executive personnel. Benchmarking and aligning base salaries become critical to a competitive compensation scheme because other elements of compensation are affected by changes in base salary.

Accordingly, the Compensation Committee compares compensation levels for the executive officers with compensation levels at companies in an industry peer group. For 2011, the compensation consultants analyzed the executive compensation data in proxy statements of a peer group consisting of publicly traded oilfield services companies comparable in size to us in annual revenues, market capitalization, enterprise value, and corporate assets. The following companies were included in the peer group:

Allis Chalmers Energy Inc
Cal Dive International, Inc
Complete Production Services, Inc
Dril-Quip, Inc.
Helix Energy Solutions Group
RPC, Inc.
Tesco Corp.

Basic Energy Services Inc.
Carbo Ceramics, Inc
Core Laboratories NV
Flotek, Inc.
Oil States International, Inc.
Superior Energy Services, Inc.
TETRA Technologies, Inc.

We review the peer group periodically so that the composition of the peer group continues to include companies whose size and business models are more comparable to ours and who are more likely to compete with us for executive talent. Allis Chalmers and Complete Productions Services will be removed from the peer group beginning in 2012 due to their acquisition by Seawell/Archer and Superior Energy Services, respectively.

The compensation consultants assisted the Compensation Committee in reviewing the compensation paid to executive officers of the peer group of companies. The compensation consultants also provided the Compensation Committee with information regarding compensation programs and compensation levels for companies in the 25th, 50th and 75th percentiles of the compensation reflected in recent national salary survey data from:

Towers Watson's Top Management Compensation Survey;

Stone Partner's Oilfield Services and Manufacturing Industry Executive Compensation Survey; and

William M. Mercer's Energy Compensation Survey.

Where possible, survey results are adjusted to reflect our size, based on annual revenue, and industry. The peer group and survey data collectively will be referred to as market data throughout this document. The compensation consultant also provides advice on compensation trends and types of awards being used for equity incentive compensation.

The Compensation Committee generally targets the market median for NEO target total direct compensation (*i.e.*, compensation achievable upon attainment of target objectives). However, when determining individual pay levels, the Compensation Committee also considers individual factors, including historical compensation levels, results achieved, experience, potential future contribution, roles and responsibilities. In addition, the Compensation Committee reviews other factors, including competitive pay practices, the relative compensation

Table of Contents

levels among our executive officers, industry conditions, corporate performance, stockholder input, and the overall effectiveness of the compensation program in achieving desired performance levels. Consequently, individual pay opportunities may vary from the targeted (*i.e.*, market median) level.

Timing and process of compensation decisions. During the first quarter of each year, many compensation decisions are made, but the process of establishing compensation continues throughout the year. After considering the recommendations of our CEO and other members of management, the market data, surveys and analysis provided by its compensation consultants and external market conditions in the first quarter of each year, the Compensation Committee generally adheres to the schedule below:

First Quarter	<p>Consider changes to the executive base compensation for the current year;</p> <p>Review actual performance compared to goals established for cash incentive compensation in the previous year and approve any payments thereunder;</p> <p>Review performance relative to the targets for our equity incentive awards, if any, and approve any awards that may be issued;</p> <p>Set individual and company performance goals for cash incentive compensation for the current year;</p> <p>Consider preliminary plans for equity incentive grants for the current year; and</p> <p>Evaluate the performance of executive officers and begin preparation of this analysis for the stockholders (<i>i.e.</i>, for the Compensation Discussion and Analysis).</p>
Second Quarter	<p>Consider and approve equity grants of options and restricted stock (performance-based or otherwise);</p> <p>Establish corporate performance objectives, if any, for executive officers under our equity incentive plans (may also be established in the first quarter); and</p>
Third Quarter	<p>Report its decisions and recommendations to the Board.</p> <p>No regularly-scheduled tasks.</p>
Fourth Quarter	<p>Consider and address any compensation related issues that may arise.</p> <p>Review and approve the total compensation strategy to assure alignment with business strategy;</p>

Review the next year's salary merit increase budget for all employees (final approval occurs as part of the Board's budget approval process in the first quarter of the next year);

Review the Compensation Committee's performance and charter;

Review tally sheets (summarizing the compensation for each executive) as part of the process for assessing executive compensation for compensation decisions;

Review the composition of the peer group; and

Engage in a risk assessment of our compensation plans, a process which is led by the compensation consultants.

On an as-needed basis, the Compensation Committee reviews and revises the compensation plans, including cash incentive, equity incentive, special benefit and incentive plans, and provisions of employment and change in control agreements for executives. The Compensation Committee proposes any revisions of the plans to the Board of Directors, which then considers the changes and approves them before the revisions take place (subject to stockholder approval, as applicable). In addition, the Compensation Committee reviews employee health, welfare and retirement plans for design, funding and fiduciary responsibilities on a periodic basis.

Base Salary. We provide executive officers with a base salary to compensate them fairly for the services they render throughout the year. As with total compensation, base salaries of executive officers are designed to be generally competitive with executive salary levels at our peer group companies. The Compensation Committee considers comparable salary information from the market data that is provided by the compensation consultants as well as recommendations made by our CEO for our other executive officers. In addition, the Compensation Committee, in determining the base pay for our executive officers, considers each individual executive's performance over time, experience, potential future contribution, role and responsibilities. Consequently, executive officers with higher levels of sustained performance over time and/or executive officers assuming greater responsibilities are paid correspondingly higher salaries.

We generally establish base salary compensation for our executive officers near the market median of the compensation reflected in the market data collected for executive officers having similar responsibilities. The actual percentiles of individual base salary for the NEOs for 2011 were between 92% and 111% of the market median for both the peer group data and the general market data.

Base salaries of executive officers for 2011 and 2012 were reviewed in March 2011 and February 2012 by the Compensation Committee with approved increases typically effective April 1 of each year. The Compensation Committee evaluated the performance of our company, the CEO (this evaluation was performed jointly with the independent directors) and the recommendations of the CEO regarding the other executive officers in addition to considering the individual factors listed above. The Compensation Committee also considered the conditions of the general economy and the energy services markets in particular. On the basis of its review in February 2012, the Compensation Committee (along with the independent directors in the case of the CEO) approved the following changes to the base salaries of the NEOs for 2012. Based upon the market data supplied, the Compensation Committee approved an increase of 7.5% for the CEO, effective April 1, 2012. With this increase, the CEO's base salary remains in the median of the market data. The Compensation Committee also approved increases in the base salary of the other named executives of between 4% and 5.35% (with the exception of Mr. Piontek, who had recently assumed a new role).

Non-Equity (cash) Incentive Compensation. Under our Annual Cash Incentive Plan, executive officers are eligible to receive annual cash bonuses based on achieving corporate and business unit financial goals and individual objectives, consistent with our pay for performance philosophy. The specific performance measures are determined annually by the Compensation Committee. We intend for the plan to:

Create stockholder value;

Provide a financial incentive to focus on specific performance targets;

Reward employees based on individual and company/business unit performance; and

Encourage employees to continually improve our performance.

Annual incentives are designed to be earned in the range of the market median when individual and corporate objectives are achieved at target and between the market median (*i.e.*, within the market 50th percentile range) and the 75th percentiles when individual and corporate objectives are exceeded. Similarly, the annual incentives are designed to earn below the market median (or even \$0) when individual and corporate objectives are not achieved.

Target total cash opportunities (base salaries plus target annual incentive opportunities) for the NEOs at the beginning of 2011 were between 89% and 103% of the market median.

Actual total cash (salary plus actual annual incentive earned) for the NEOs was between 104% and 151% of the market median when taking into account awards earned for performance during 2011 at overachievement.

Note that when comparing the annual incentives for 2011, the market data available assumes performance at the target level and does not include estimates of what is actually anticipated to be paid for 2011 performance among the peer group. Annual cash incentive awards are linked to the achievement of company-wide and business unit quantitative performance goals and can include individual objectives and are designed to place a significant portion (50% – 80%) of total compensation at risk.

Table of Contents

The annual cash incentive opportunity (expressed as a percentage of base salary) for each participant is based on his potential to affect operations and/or profitability. In 2011, the threshold, target and over-achievement cash incentive opportunities for the named executive officers, expressed as a percentage of base salary are summarized in the table below (along with target award opportunities as approved by the Compensation Committee):

Name/Title	Incentive Opportunity as a Percent of Salary		
	Threshold	Target	Over-Achievement
Paul L. Howes President and Chief Executive Officer	27.0%	90.0%	180.0%
Gregg S. Piontek Vice President, Chief Financial Officer and Chief Accounting Officer	14.0%	46.7%	93.5%(1)

Jeffery L. Juergens Vice President of Newpark and President, Mats and Integrated Services and Environmental Services	15.0%	50.0%	100.0%

(1) Mr. Piontek's target bonus opportunity was prorated between his target percentage while in his previous position as Vice President, Controller and Chief Accounting Officer (45%) and his new position effective November 1, 2011 as Vice President, Chief Financial Officer and Chief Accounting Officer (55%), based on the number of months in each position.

(2) Mr. Braun resigned from his position effective October 31, 2011 and as result was not eligible to receive a payment under the Annual Cash Incentive Plan for 2011.

Target performance for 2011 was set at the Board of Director approved budgeted financial objectives for the year. The Board then established several benchmark levels of performance in the plan to help guide determination of actual awards:

We included a super over-achievement opportunity in our cash incentive plan for 2011 in order to insure continued incentives to perform in the event that the over-achievement level was attained during the year. However, **any bonus attributable to performance at the super over-achievement level is subject to deferral over the following two years.**

Total bonuses under this plan are also capped at \$3 million per participant per year. Super over-achievement awards were calculated by extrapolating the incentive calculation using the slope of the curve between the target level and the over-achievement level.

As part of the process of establishing the slope between target and over-achievement (equally applicable to the super over-achievement level), a sensitivity analyses was utilized by the compensation consultants to confirm that an appropriate percentage of the total and incremental profits generated from performance at the super over-achievement level were allocated to the stockholders (approximately 93%).

The diagram below presents this concept graphically.

2011 Annual Incentive Performance Payout Range. The Compensation Committee looks at the current and prior year's achievements prior to setting new performance targets each year. The Compensation Committee intends to set financial performance targets at levels which will challenge the executive officers to achieve. The performance, both financial and discretionary, criteria for 2011 for corporate executive officers (Messrs. Howes, Braun, Piontek and Airola) were:

Total company earnings per share (weight 65%);

Return on Net Capital Employed (weight 25%); and

Discretionary (weight 10%);

The performance criteria for 2011 for Mr. Smith as the business unit executive for Fluids Systems and Engineering were:

Total company earnings per share (weight 20%);

Business unit earnings before interest and taxes, or EBIT (weight 50%), after application of a capital charge (the capital charge is calculated by multiplying the net capital employed at the business unit by the estimated cost of capital for the company, established at 12% at the inception of 2011);

Revenue from the EVOLUTION high-performance water-based drilling fluid system (weight 20%); and

Table of Contents

Discretionary (weight 10%).

The performance measures for 2011 for Mr. Juergens as the business unit executive for both Mats and Integrated Services and Environmental Services were:

Total company earnings per share (weight 20%);

Business unit earnings before interest and taxes, or EBIT (weight 70%), after application of a capital charge (the capital charge is calculated by multiplying the net capital employed at the business unit by the estimated cost of capital for the company, established at 12% at the inception of 2011); and

Discretionary (weight 10%).

2011 Results. The final earnings per share achieved for 2011 was \$0.80 as compared to the target of \$0.50. This level of performance came in above the over-achievement level. No adjustments were made to earnings for 2011, although both the costs and earnings associated with the acquisition of the Rheochem business in April of 2011 were excluded for the purpose of calculating incentive achievement. Inclusion of these costs and earnings would not have had a material impact on the calculations in any event. Also, for purposes of calculating the achievement levels, the full cost of the 2011 cash incentives were included, notwithstanding that the portion of these incentive awards attributable to the super over-achievement level will be deferred for two years and is subject to forfeiture during the deferral period. Return on net capital employed for the company as a whole was 13.50% for 2011 as compared to a target of 9.00%, which was above the over-achievement performance level.

Earnings for the Fluids Systems and Engineering segment were \$35,719,000 of EBIT after applying a capital charge, versus a target of \$22,399,000, representing a performance between target and overachievement. Revenue on the recently introduced EVOLUTION high performance water-based fluid system was \$67 million for 2011, compared to the target of \$50 million, producing a performance level between target and over-achievement.

Table of Contents

Earnings for the combined Mats and Integrated Services and Environmental Services segments were \$47,193,000 of EBIT after applying a capital charge, versus a target of \$22,523,000, which was at a super over-achievement performance level.

In addition for 2011, 10% of the bonus opportunity was allocated to discretionary factors, and the Compensation Committee assessed the executives' performance at slightly above target for the metrics described in the table above.

For 2012, the following incentive plan targets and metrics apply:

Equity Incentive Compensation. We provide long-term incentive awards through regular grants of stock options and restricted stock to executive officers, senior managers and other key employees. Consistent with our compensation philosophy, stock option and restricted stock awards provide these key employees with additional incentives to maximize stockholder value and provide a link between their interests and the interests of our stockholders.

Stock options have historically been granted each year as a component of long-term compensation with the size of the grants based on the executive officer's responsibility level, base salary and performance. Our 2006 Equity Incentive Plan (As Amended and Restated Effective June 10, 2009) (As Amended) (the 2006 Plan) provides for stock options to be issued with an exercise price equal to the market value of our common stock on the date of grant, **so that optionees will benefit only if the price of our stock appreciates.** These awards have been structured to be earned, or vest, over a three-year period.

Restricted shares have been granted to NEOs since 2003 to further align the interests of executive officers and stockholders. The Compensation Committee decides each year whether to include performance objectives in the awards and, if so, the appropriate targets. Restricted stock grants are used because the Compensation Committee believes these awards provide value to an executive officer during periods of stock market volatility (encouraging executive retention), and because they facilitate most directly long-term share ownership by our NEOs. These awards have been structured to be earned, or vest, over a three-year period.

Edgar Filing: NEWPARK RESOURCES INC - Form DEF 14A

Our practice of regular annual grants provides for multi-year, overlapping grant periods, enhancing alignment with stockholders and encouraging stability and retention of our core executive team.

Table of Contents

In determining appropriate awards, the Compensation Committee periodically reviews competitive market data, each executive's past performance, ability to contribute to our future success and growth and time in the current job. The Compensation Committee also considers recommendations of the compensation consultants and CEO. The Compensation Committee also takes into account the risk of losing the executive to other employment opportunities. The Compensation Committee considers the foregoing factors together and makes a subjective determination with respect to awarding equity compensation to our executive officers. The Compensation Committee believes that market competitive grants, along with three-year vesting requirements, are the most effective method of reinforcing the long-term nature of the incentive. The Compensation Committee considers the value of previous awards and grants (whether vested or not) as well as the likelihood of achieving performance goals in previous awards and grants in determining the current year's awards and grants.

For 2011, the Compensation Committee chose to allocate 50% of the target long-term incentive valuation for the executive officers to time-based restricted stock with the remaining 50% allocated to stock options. The Committee considered the following in reaching this conclusion:

Developing three year performance goals for the purposes of a performance-based equity incentive program was particularly difficult in 2011 given both oil and gas market uncertainty, and instability of the U.S. and world economies in general.

The loss (negative earnings per share) suffered by us in 2009 had made it virtually impossible for the attainment of even the entry level for the performance-based shares awarded in 2008 and 2009, and any incentive or retention value associated with those grants was lost.

Stock options, by their nature, are performance-based and aligned with our stockholders' interests, requiring an increase in the stock price from the date of the grant before any value is received by the executive. Moreover, the three year vesting period insures that the compensation opportunity for the executive is aligned with our stockholders' interests on a long-term basis, and not focused on just one year of results.

Individual equity incentives (as a multiple of base salary) are generally based on a range around the median of the equity incentives reflected in the market data. The individual total direct compensation (target total cash, plus all long-term incentive awards) for the current NEOs for 2011 were between 82% and 178% of the median for the compensation reflected in the combined market data for all named executives and the peer group. As noted in the **Executive Compensation Philosophy and Objectives** section of this proxy under the heading *Competitiveness*, late in 2011, the Compensation Committee authorized a supplemental grant of equity to several key executives, including NEOs, to enhance retention following the departure of our former CFO. These supplemental grants expanded the upper end of the range of equity incentives beyond the typical target.

Equity Incentive Compensation Decisions. The following grants of time-based restricted stock were made on June 9, 2011 and vest at a rate of one-third of the shares on each anniversary of the date of grant:

Executive	June 2011	June 2011
	Annual Restricted Stock	Annual Stock Option
	Grant	Grant
	(# of shares)	(# of options)
Paul L. Howes	76,318	139,225
Gregg Piontek	10,550	19,246
James E. Braun*	20,498	37,395
Mark J. Airola	20,183	36,820
Bruce C. Smith	25,802	47,071
Jeffery L. Juergens	17,660	32,217

* Mr. Braun forfeited all of the equity incentive compensation granted to him in 2011 as a result of his resignation effective October 31, 2011.

Table of Contents

Mr. Piontek also received an award of 20,000 shares of time-based restricted stock on October 17, 2011 upon his appointment of Chief Financial Officer. The award vests at a rate of one-third of the shares on each anniversary of the date of grant.

The following additional grants of time-based restricted stock were made on December 21, 2011, following the resignation of Mr. Braun. These awards vest at the rate of 50% on the second anniversary of the grants, with the balance vesting on the fourth anniversary of the grants:

Gregg Piontek 20,000 shares

Mark J. Airola 74,000 shares;

Bruce C. Smith 74,000 shares; and

Jeffery L. Juergens 50,000 shares.

The Compensation Committee determined that the executive officers did not earn their performance restricted stock units granted in June of 2009 (for the performance period 2009 to 2011) because they did not meet the threshold or entry level of achievement. For that reason, all of the performance restricted stock units granted in 2009 were forfeited.

In administering the long-term incentive plan, the Compensation Committee is sensitive to the potential for dilution of future earnings per share. In 2011, 782,003 restricted stock awards and units were granted to 159 executive officers and employees, or about 8.1% of total employees. The awards were approximately 0.86% of our outstanding shares as at the time of grant. For further information regarding the awards to the named executive officers, see the 2011 Grants of Plan-Based Awards Table.

As a general proposition, the higher-level positions have greater emphasis on longer-term incentives. The size of long-term incentive awards will vary from year to year to reflect current year performance of our company and/or the individual and current market trends. The Compensation Committee determines the award level for executive officers, if any, on an annual basis usually in the first or second quarter each year.

All equity awards to our employees, including executive officers, that have been granted, are reflected in our consolidated financial statements at fair market value on the grant date in compliance with Accounting Standards Codification (ASC) Topic 718, Stock Compensation, which we refer to as ASC Topic 718.

Indirect Compensation

Employee benefits are designed to be competitive and to attract and retain employees. From time to time, the Compensation Committee reviews our benefit plans and recommends that the Board implement certain changes to existing plans or adopt new benefit plans.

Health and Welfare Benefits. We offer a standard range of health and welfare benefits to all employees, including executive officers. These benefit plans provide the same terms to all similarly situated employees. These benefits include: medical, prescription drug, vision and dental coverage, life, accidental death and dismemberment and travel accident insurance, short and long-term disability insurance, an employee assistance plan, health savings accounts, flexible spending accounts, and long-term care insurance. In addition, we pay the cost of an annual physical for each executive officer and executive officers have excess life insurance for which we pay the premiums. These costs are disclosed in the Summary Compensation Table.

Employee Stock Purchase Plan. We offer an employee stock purchase plan allowing employees to purchase our common stock through payroll deductions under the 2008 Employee Stock Purchase Plan. Employees, including executive officers, can set aside up to 10% of their annual salary to purchase stock at 95% of the fair market value of the stock on the first or last day of the six month offering period, whichever is lower. Executive officers may not set aside more than \$25,000 of their salary to purchase shares under this plan in any year.

Table of Contents

401(k) Plan. We offer a defined contribution 401(k) plan to our employees, including executive officers. The plan helps employees save for retirement, reduce current income taxes and defer income taxes on savings and investment income until retirement. The participants may contribute from 1% up to 50% of their base and cash incentive compensation. Our 401(k) plan allows us to make matching contributions and we made matching contributions under this plan of 100% on the first 3% of the employee's compensation and 50% of the next 3% of the participant's compensation. Employees are fully vested in employer contributions immediately. During 2011, an employee could contribute up to \$16,500, and employees age 50 or older were allowed to make additional catch-up contributions to the plan up to \$5,500.

Other Perquisites and Personal Benefits. We do not offer any perquisites or other personal benefits with a value over \$10,000 beyond those outlined below to any NEO. As an inducement to accept his employment offer, Paul L. Howes was granted an annual stipend of \$20,000 for club dues and/or car expenses. Mark J. Airola was eligible for reimbursement of 50% of the initiation fee for country club membership up to a maximum of \$30,000. As an inducement to accept their respective offers of employment, James E. Braun, Mark J. Airola and Jeffery L. Juergens all receive a car allowance and in connection with his promotion to CFO, Gregg S. Piontek also received an increase in his car allowance. These figures are included under the header "All Other Compensation" of the Summary Compensation Table. Mr. Smith is provided a company vehicle, the personal use portion of which is included in this same table.

Employment Agreements for Named Executive Officers

Each NEO's employment agreement was amended on two occasions in 2009. The first amendment reflected the reduction of the executive's base salary by 10% effective April 1, 2009 and the second amendment extended the effective period of the reduction to March 31, 2010.

Employment Agreement with Paul L. Howes. On March 22, 2006, Mr. Howes entered into an employment agreement with us under which he serves as Chief Executive Officer. Tax and Accounting Implications

Accounting. We account for equity compensation expenses for our employees under the rules of ASC Topic 718 which requires us to estimate and record an expense for each award of long-term incentive compensation over the life of its vesting period.

Table of Contents

Tax Deductibility of Pay. In conducting the compensation programs applicable to our executive officers, the Compensation Committee considers the effects of Section 162(m) of the Internal Revenue Code, which denies publicly held companies a tax deduction for annual compensation in excess of \$1 million paid to their chief executive officer or generally their three other most highly compensated corporate officers who are employed on the last day of a given year, unless that compensation is based on performance criteria that are established by a committee of outside directors and approved, as to their material terms, by that company's stockholders.

Based on current interpretive authority, our ability to deduct compensation expense generated in connection with the exercise of options granted under our stock incentive plan should qualify as performance-based compensation and should not be limited by Section 162(m). Our time-based restricted stock awards would not qualify as performance-based compensation under Section 162(m) and, therefore, will be subject to the deduction limit. To the extent the total of salary and other compensation for any of our applicable executive officers exceeds one million dollars in any year and does not qualify as performance-based compensation, the limitation on deductibility under Section 162(m) will apply. As a result, we have in the past and may from time to time in the future, pay compensation amounts to our executive officers that are not deductible.

Section 280G of the Internal Revenue Code disallows the deduction of any excess parachute payment paid in connection with certain change in control events. Section 4999 imposes a nondeductible excise tax on the recipient of any excess parachute payment. The Compensation Committee is aware of the possibility of a lost deduction in connection with any such payments and intends to take such actions as it deems reasonable and appropriate to preserve the deductibility of the full severance payment amounts that may become payable to the executive officers. There may be circumstances, however, in which excess parachute payments will be paid and will not be deductible by virtue of Section 280G.

Other Tax Implications

Section 409A of the Internal Revenue Code governs the taxation of certain types of nonqualified deferred compensation. Failure to comply with the requirements of Section 409A can result in adverse income tax consequences to our executives, including the accelerated income taxation of noncompliant compensation, the imposition of an additional 20% tax on such noncompliant compensation, and the imposition of interest on those taxes. We have taken precautions in the design of our employment agreements (including the severance and change in control provisions), as well as our 2006 Plan and 2003 Executive Incentive Compensation Plan and all equity and incentive award agreements, to help ensure compliance with Section 409A and the regulations thereunder.

- (1) Dollar amount reported reflects the aggregate fair value determined as of the date of award or grant, in each case calculated in accordance with ASC Topic 718. See Note 11, Stock Based Compensation and Other Benefit Plans, in the Notes to Consolidated Financial Statements included in the Annual Report on Form 10-K for the fiscal year ended 2011, for the relevant assumptions used in the calculation of these amounts. Restricted stock awards for 2009 are subject to performance conditions and the amounts listed reflect the probable outcome of the conditions determined as of the date of the award. The 2009 awards were subsequently forfeited due to the performance conditions not being met. See the discussion of the forfeitures in the **Elements of Executive Compensation** section of the Compensation Discussion and Analysis under the heading *Equity Incentive Compensation Decisions*. The amount listed for the performance-based awards is the value of the target award, which is consistent with our estimate of the aggregate compensation cost that would be recognized over the applicable service period, excluding forfeitures, under ASC Topic 718. The maximum values of such awards at the grant date, assuming achievement of the highest level of performance, are as follows:

- (1) Dollar values are calculated by determining the difference between the market price of the underlying shares at the date of exercise and the exercise price of the options.
- (2) Dollar values are calculated by multiplying the market price of our common stock on the vesting date by the number of shares vested and does not necessarily reflect the proceeds actually received by the NEO.

Risk Assessment of Compensation Programs

The Compensation Committee considers, in establishing and reviewing the employee compensation programs, whether the programs encourage unnecessary or excessive risk taking. As discussed in the Compensation Discussion and Analysis of this proxy, the Compensation Committee, with the assistance of its consultant, undertook a risk assessment of our compensation programs in 2011. After reviewing and discussing the compensation programs with the Compensation Committee and reviewing the results of those discussions with the Audit Committee of the Board, we believe that the programs are balanced and do not motivate or encourage unnecessary or excessive risk taking. While some performance-based awards focus on achievement of short-term or annual goals, and short-term goals may encourage the taking of short-term risks at the expense of long-term results, these award programs represent a modest percentage of the executive employees' total compensation opportunities and are balanced by other long-term incentives. We believe that these programs appropriately balance risk and the desire to focus employees on specific short-term goals important to our success, and that it does not encourage unnecessary or excessive risk taking.

A significant part of the compensation provided to employees is in the form of long-term equity awards that are important to help further align employees' interests with those of our stockholders. We do not believe that these awards encourage unnecessary or excessive risk taking since the ultimate value of the awards is tied to our stock price, and since awards are staggered and subject to long-term vesting schedules to help ensure that executives have significant value tied to long-term stock price performance.

Employment Agreements and Change in Control Agreements

We have entered into employment agreements with each of our NEOs. See **Employment Agreements for Named Executive Officers** within the Compensation Discussion and Analysis for a summary of these employment agreements and descriptions of compensation elements pursuant to which the amounts listed under the Summary Compensation Table and Grants of Plan-Based Awards in 2011 were paid or awarded and the criteria for such payment, including targets for payments of annual incentives, as well as performance criteria on which such payments were based. We have also adopted a change in control benefits policy applicable to our NEOs and have entered into change in control agreements with our NEOs other than Mr. Howes, who receives his benefits under his employment agreement. See **Potential Payments upon Change in Control** below for a summary of these benefits and agreements.

Potential Payments upon Change in Control

On March 7, 2007, the Board, upon recommendation of the Compensation Committee, approved a change in control benefits policy applicable to all of our NEOs and other key executives and employees not to exceed a total of 30. The executive officers receiving change in control benefits are the following executive officers of our company: Paul L. Howes, Gregg S. Piontek, Mark J. Airola, Bruce C. Smith, and Jeffery L. Juergens. The change in control benefits require a change in control of our company and the termination of employment under certain circumstances described below to trigger the benefits to the executives and employees (often referred to as a double-trigger). Benefits to the executives and other employees under the policy are described below:

Payment of accrued but unpaid salary and a prorated annual bonus (at the target level) through the date of termination.

A lump sum payment in an amount equal to a multiple of that executive's (i) base salary, plus (ii) a target bonus which will equal the higher of the bonus to which the executive would be entitled under our 2003 Executive Incentive Compensation Plan (or the 2010 Annual Cash Incentive Plan which replaced the 2003 Plan) for the fiscal year preceding the termination or the highest bonus received by the executive under the incentive plan in the two years immediately preceding the change of control event. The multiples established under the policy are: three times for the chief executive officer (which has subsequently been modified to 2.99 times in the Amended and Restated Employment Agreement of Mr. Howes), two times for the other executive officers and divisional presidents (a total of six individuals), and one time for the remaining designated key executives and employees.

Full vesting of all options, restricted stock (whether time or performance-based), and deferred compensation.

Payment of outplacement fees up to \$20,000 for the chief executive officer; \$10,000 for the other executive officers and divisional presidents; and \$5,000 for the remaining employees.

Continuation of life insurance, medical and dental health benefits, and disability benefits for a period ranging from one year to three years.

A change in control will be deemed to occur if:

there is a merger or consolidation of our company with, or an acquisition of our company or all or substantially all of our assets by, any other entity other than any transaction in which members of our Board immediately prior to the transaction constitute a majority of the board of the resulting entity for a period of twelve months following the transaction;

any person or group becomes the direct or indirect beneficial owner of 30% or more of our outstanding voting securities;

Table of Contents

any election of directors occurs and a majority of the directors elected are individuals who were not nominated by a vote of two-thirds of the members of the Board or the Nominating and Corporate Governance Committee; or

we effect a complete liquidation of our company.

Under the policy, an executive or employee shall not be entitled to those benefits unless his employment is terminated, during the period commencing upon the date when we first have knowledge that any person or group has become a beneficial owner of 30% or more of our voting securities or the date we execute an agreement contemplating a change in control and ending two years after the change in control, for any reason other than:

death;

disability;

cause; or

resignation without good reason.

We have entered into change in control agreements with the designated executive officers and employees other than Paul L. Howes (his change in control benefits are included in his employment agreement). The tables below also reflect potential payments to the named executive officers upon the termination of their employment under their respective employment agreements. Effective April 23, 2008, the Compensation Committee approved the amendment to the change in control agreements previously issued to the named executive officers to provide that we are required to pay the executive the excise tax and a gross-up payment for excise taxes imposed under Section 4999 of the Internal Revenue Code. This amendment was approved to insure that the executive receives the total benefit intended by the change in control agreement, but includes a sunset provision, such that the gross-up payment provision will terminate in five years. This amendment was incorporated into the change in control provision of Mr. Howes Amended and Restated Employment Agreement, inclusive of the sunset provision. Mr. Juergens change in control agreement does not include a gross-up for excise taxes under Section 4999.

The tables below reflect the amount of compensation to each of the NEOs, other than Mr. Braun, in the event of a change in control and termination of that executive's employment under the terms of the above-described policy or, with respect to Mr. Howes, under his employment agreement. Mr. Braun's resignation in October 2011 did not result in any payment under the above described change in control agreements. The amount of compensation payable to each NEO upon voluntary termination, voluntary termination for good reason or involuntary not-for-cause termination, termination following a change in control, for cause termination, and termination in the event of death or disability of the executive is shown below. The amounts shown assume that the termination was effective on December 31, 2011 and thus includes amounts earned through that time and are estimates of the amounts which would have been paid out to the executives upon their termination on such date. The value of the equity compensation awards was based on the closing price of our common stock of \$9.50 on December 30, 2011. The actual amounts to be paid out can only be determined at the time of the executive's separation from us. In the event of death or disability before the annual cash (short-term incentive) is paid, the Compensation Committee has the authority to pay (in full or on a prorated basis) the amount the employee would have received. We have assumed that the Compensation Committee would have authorized the payment of the full award for purposes of the tables below. As of December 31, 2011, none of the executives were eligible for retirement.

Retirement, Disability and Death

An executive officer who retires will be entitled to pay through the last day worked and 401(k) distributions. An executive officer who becomes disabled will be entitled to pay through the last day worked, disability benefits, 401(k) distributions and accidental dismemberment benefits, if applicable. The beneficiary of an executive officer who dies will be entitled to pay through the executive's last day worked, 401(k) distributions and life insurance proceeds.

The impact of an employee's retirement, disability or death on outstanding options can vary depending on the stock option plan under which the grants were made. Under our 2006 Plan, upon termination of employment by reason of death or permanent disability, all vested options outstanding may be exercised in full at any time during the period of one year following termination of employment. Upon termination of employment by reason of retirement, all vested options may be exercised in full at any time during the period of 90 days following termination of employment. Under our 1995 Incentive Stock Option Plan, upon retirement, disability or death, all vested options may be exercised any time during the term of the option.

Table of Contents

Forfeiture restrictions on any outstanding restricted stock awards will lapse if the employee's employment is terminated due to death or a disability that entitles employee to receive benefits under our long term disability plan. Retirement is defined as the termination of employment for reasons other than cause on or after the attainment of age 65.

DIRECTOR COMPENSATION

The Compensation Committee regularly reviews the compensation of non-employee directors. The compensation consultant provides the Compensation Committee with industry trends in board compensation and recommends retainers and/or fees based on the peer company proxy information as well as national board market data. The Compensation Committee then makes recommendations to the Board of Directors on the setting of Board compensation.

The following table describes the current compensation arrangements with our non-employee directors:

Annual Cash Retainer Fee (Chairman of the Board)	\$ 125,000
Annual Cash Retainer Fee (other than the Chairman of the Board)	\$ 45,000
Additional Annual Cash Retainer Fee for Audit Committee Chair	\$ 25,000
Additional Annual Cash Retainer Fee for Audit Committee Members	\$ 12,500
Additional Annual Cash Retainer Fee for Other Committee Chairs	\$ 20,000
Additional Annual Cash Retainer Fee for Other Committee Members	\$ 10,000

The fees payable to our non-employee directors are for the fiscal year ending December 31, 2011. All of the non-employee directors' fees are paid on a quarterly basis (excluding the Chairman of the Board), and all directors (including the Chairman of the Board) are reimbursed for travel expenses incurred in attending Board and committee meetings. Employee directors receive no additional consideration for serving as directors or committee members.

Option Grants under Non-Employee Directors Restricted Stock Plan

Under the Non-Employee Directors Restricted Stock Plan (previously known as the 2004 Non-Employee Directors Stock Option Plan), which we refer to as the 2004 Plan, each non-employee director was automatically granted an option to purchase 10,000 shares of common stock upon his or her initial election to the Board of Directors (whether elected by the stockholders or the Board of Directors) and each time the non-employee director was re-elected to the Board of Directors. Each option granted under the 2004 Plan had an exercise price equal to the fair market value of those shares on the date of grant, which was equal to the closing price of the common stock for the day on which the option was granted (or, if the date of grant was not a trading day, on the trading day immediately preceding that date).

In June of 2007, the stockholders approved an amendment to the 2004 Plan. As amended, the 2004 Plan authorizes grants of restricted stock to non-employee directors instead of stock options. Each of the non-employee directors was granted 10,000 shares of restricted stock on June 13, 2007. The vesting period for the restricted stock is one year (consistent with the terms of service for the directors).

In September of 2008, the Board of Directors approved an amendment to the 2004 Plan which provides that the number of shares granted upon initial and annual election to the Board shall be based on a fixed dollar value rather than a fixed number of shares. Therefore, in June 2010, the number of restricted shares granted was equal to the number of restricted shares having a fair market value (as defined in the 2004 Plan) on the date of grant equal to \$125,000. The vesting of the restricted stock remains at one year.

PROPOSAL NO. 2

ADVISORY VOTE ON EXECUTIVE COMPENSATION

The recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Dodd-Frank Act) allows our stockholders to vote to approve, on an advisory or non-binding basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with SEC rules. Based on the stockholder advisory vote on the frequency of conducting an advisory vote on the compensation of our named executive officers that took place at our 2011 Annual Meeting, the Board determined to hold the advisory vote on the compensation of our named executive officers annually until the next stockholder vote on the frequency of such advisory vote. Thus, our stockholder advisory vote to approve the compensation of our named executive officers occurs annually.

As discussed in the Compensation Discussion and Analysis, our compensation philosophy and objectives are designed to attract, motivate and retain key executives needed to implement business strategy. We believe that aligning the company's short-term and long-term performance with executive compensation is crucial to the company's long-term success. We encourage you to read the Compensation Discussion and Analysis, along with the compensation tables and related narrative discussion contained in this proxy statement. The Compensation Discussion and Analysis discusses our executive compensation philosophy and programs and explains the compensation decisions relating to the named executive officers.

In particular, stockholders should note the following:

Our compensation program places a significant portion of each named executive officer's compensation at risk through the use of performance-based pay;

The Compensation Committee established stock ownership guidelines for named executive officers in order to link the interests of management and our stockholders; and

We have further aligned the interests of our stockholders and named executive officers by providing a significant portion of their compensation in the form of equity awards thereby ensuring that a portion of our executive compensation is directly determined by appreciation in our stock price and earnings per share growth.

The Compensation Committee and the Board of Directors believe that the policies and programs are effective in implementing our compensation philosophy and are commensurate with the performance and strategic position of the company. This advisory vote is not intended to address any specific element of compensation but rather relates to the overall compensation of our named executive officers, as described in this proxy statement. Although this vote is advisory and therefore the outcome of this vote is non-binding on the company or the Board of Directors, the Compensation Committee of the Board of Directors will consider your decision when setting future compensation for our named executive officers.

This advisory stockholder vote, commonly known as say-on-pay, gives our stockholders the opportunity to approve or not approve our compensation policies and programs for our named executive officers through the following resolution:

RESOLVED, that the stockholders of Newpark Resources, Inc. APPROVE, on an advisory basis, the compensation of the named executive officers as disclosed in the proxy statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the compensation tables and related narrative discussions.

The Board of Directors unanimously recommends a vote FOR approving the executive officer compensation, as disclosed in this proxy statement.

PROPOSAL NO. 3**RATIFICATION OF APPOINTMENT OF****INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee has selected the accounting firm of Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu Limited and their respective affiliates (collectively, the Deloitte Entities) to serve as our independent registered public accounting firm for the fiscal year ending December 31, 2011. One or more representatives of the Deloitte Entities are expected to be present at the Annual Meeting and will have the opportunity to make a statement if they desire to do so and to respond to appropriate questions from the stockholders.

The Audit Committee is directly responsible for selecting and retaining our independent registered public accounting firm. Although action by the stockholders is not required for the appointment, given the critical role played by the independent registered public accounting firm, we are providing stockholders the opportunity to express their views on this matter. If the stockholders fail to ratify the appointment of the Deloitte Entities, the Audit Committee will reconsider the appointment, but the Audit Committee may elect to retain the firm. Even if the appointment is ratified, the Audit Committee in its discretion may appoint a different independent auditing firm at any time during the year if the Audit Committee determines that a change in auditors would be in the best interests of our company and our stockholders.

The Board of Directors recommends that the stockholders vote FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2012.

Pre-Approval Policies Regarding Audit and Non-Audit Fees

The Audit Committee's policy is to pre-approve all audit and non-audit services provided by the independent registered public accounting firm. These services may include audit services, audit-related services, tax services and other services.

Prior to performing any audit services, the independent registered public accounting firm will provide the Audit Committee with an engagement letter outlining the scope of the audit services proposed to be performed during the fiscal year and the expected fees for those services. If the engagement letter is approved, the Audit Committee will engage the independent registered public accounting firm to perform the audit.

For non-audit services, our management will submit to the Audit Committee for approval the list of non-audit services recommended by management which the Audit Committee should engage the independent registered public accounting firm to provide for the fiscal year. Prior to the performance of any of these services, our management and the independent registered public accounting firm each will confirm to the Audit Committee that each non-audit service on the list is permissible under all applicable legal requirements. Pre-approval generally is provided for up to one year and any pre-approval is detailed as to the particular service or category of service and generally is subject to a specific budget. The Audit Committee also may pre-approve particular services on a case-by-case basis. The independent registered public accounting firm and management are required to periodically report to the Audit Committee regarding the extent of services provided by the independent registered public accounting firm in accordance with this pre-approval process and the fees for services performed to date.

As permitted by statute, the Audit Committee has delegated pre-approval authority to the Chairman of the Audit Committee to ensure prompt handling of unexpected matters. The Chairman will report any action taken pursuant to this delegated authority to the Audit Committee at or before the next Audit Committee meeting.

All services performed by our independent registered public accounting firm in 2010 and 2011 were approved in accordance with the Audit Committee's pre-approval policies.

AUDIT COMMITTEE REPORT

This report is submitted by the Audit Committee of the Board of Directors. The Audit Committee is composed of four independent directors who satisfy the requirements of independence established by NYSE listing standards and the SEC. The Board of Directors has determined that all of the members of the Audit Committee are financially literate under applicable SEC rules and NYSE listing rules, and that each of Mr. Finley and Dr. McFarland is an audit committee financial expert as defined by applicable SEC rules.

The Audit Committee operates under a written charter adopted by the Board of Directors, a copy of which is available in the Board Committees & Charters section under Corporate Governance on our website at www.newpark.com and is also available in print upon request from our Corporate Secretary.

Management has primary responsibility for our financial statements and financial reporting processes and for the maintenance of internal controls and procedures designed to ensure compliance with applicable accounting standards, laws and regulations and ethical business standards. Our independent registered public accounting firm, the Deloitte Entities, is responsible for expressing an opinion on whether the company's consolidated financial statements present fairly, in all material respects, the financial position of the company in accordance with accounting principles generally accepted in the United States. Additionally, the Deloitte Entities are responsible for expressing an opinion regarding the effectiveness of the company's internal controls over financial reporting. The Audit Committee's responsibility is to monitor and oversee these processes on behalf of the Board of Directors. The Audit Committee also is responsible for the engagement, compensation and oversight of the independent registered public accounting firm.

Table of Contents

In keeping with that responsibility, the Audit Committee meets regularly with management and the independent registered public accounting firm. Meetings with the independent registered public accounting firm are held both with and without management present, and the independent registered public accounting firm have direct access to the Audit Committee to discuss the scope and results of their work and their comments on the adequacy of internal controls and the quality of financial reporting. The Audit Committee met seven times during the year ended December 31, 2011.

The Audit Committee has reviewed and discussed the company's audited financials as of and for the year ended December 31, 2011 with management.

The Audit Committee reviewed, with the independent registered public accounting firm, the overall scope and plans for their audits. The Audit Committee has also reviewed and discussed the audited consolidated financial statements and internal controls over financial reporting with management and the independent registered public accounting firm. The Audit Committee also has discussed with the independent registered public accounting firm the matters required to be discussed in accordance with professional standards.

In addition, the Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm pursuant to the applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the Audit Committee concerning independence, and has discussed with the independent registered public accounting firm their independence from our company and our management. The Audit Committee also reviewed the non-audit services provided by independent registered public accounting firm and concluded that the provision of those services is compatible with their independence.

We filed our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, which we refer to as the 2011 Annual Report, in a timely fashion with the SEC in 2012. Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the 2011 Annual Report. The Audit Committee also engaged the Deloitte Entities as our independent registered public accounting firm for the 2012 fiscal year.
