STARBUCKS CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Note 1: Summary of Significant Accounting Policies

Financial Statement Preparation

The unaudited condensed consolidated financial statements as of April 1, 2012, and for the quarter and two quarters ended April 1, 2012 and April 3, 2011, have been prepared by Starbucks Corporation under the rules and regulations of the Securities and Exchange Commission (SEC). In the opinion of management, the financial information for the quarter and two quarters ended April 1, 2012 and April 3, 2011 reflects all adjustments and accruals, which are of a normal recurring nature, necessary for a fair presentation of the financial position, results of operations and cash flows for the interim periods. In this Quarterly Report on Form 10-Q (10-Q) Starbucks Corporation is referred to as Starbucks, the Company, we, us or our .

The financial information as of October 2, 2011 is derived from our audited consolidated financial statements and notes for the fiscal year ended October 2, 2011 (fiscal 2011), included in Item 8 in the Fiscal 2011 Annual Report on Form 10-K (the 10-K). The information included in this 10-Q should be read in conjunction with the footnotes and management s discussion and analysis of the financial statements in the 10-K.

In the second quarter of fiscal 2012, we renamed our Global Consumer Products Group (CPG) segment Channel Development.

The results of operations for the quarter and two quarters ended April 1, 2012 are not necessarily indicative of the results of operations that may be achieved for the entire fiscal year ending September 30, 2012 (fiscal 2012).

Recent Accounting Pronouncements

In September 2011, the Financial Accounting Standards Board (FASB) issued guidance that revises the requirements around how entities test goodwill for impairment. The guidance allows companies to perform a qualitative assessment before calculating the fair value of the reporting unit. If entities determine, on the basis of qualitative factors, that the fair value of the reporting unit is more likely than not greater than the carrying amount, a quantitative calculation would not be needed. We plan to early adopt this guidance effective for our fiscal 2012 annual goodwill impairment test. The adoption of this guidance will result in a change in how we perform our goodwill impairment assessment; however, it will not have a material impact on our financial statements.

In June 2011, the FASB issued guidance that revises the manner in which entities present comprehensive income in their financial statements. The guidance requires entities to report the components of comprehensive income in either a single, continuous statement or two separate but consecutive statements. The guidance will become effective for us at the beginning of our first quarter of fiscal 2013. The adoption of this new guidance will result in a change in how we present the components of comprehensive income, which is currently presented within our consolidated statements of equity.

In May 2011, the FASB issued guidance to amend the fair value measurement and disclosure requirements. The guidance requires the disclosure of quantitative information about unobservable inputs used, a description of the valuation processes used, and a qualitative discussion around the sensitivity of the measurements. The guidance became effective for us at the beginning of our second quarter of fiscal 2012. The adoption of this new guidance did not have a material impact on our financial statements.

Reclassifications

Change in shared service allocations

Effective at the beginning of fiscal 2012, we implemented the previously announced strategic realignment of our organizational structure designed to accelerate our global growth strategy. A president for each region, reporting directly to our chief executive officer, now oversees the company-operated retail business working closely with both the licensed and joint-venture business partners in each market. The regional presidents also work closely with our Channel Development team to continue building out our brands and channels in each region.

Table of Contents

In connection with the changes to our organizational structure and reporting, we have changed the accountability for, and reporting of, certain indirect overhead costs. Certain indirect merchandising, manufacturing costs and back-office shared service costs, which were previously allocated to segment level costs of sales and operating expenses, are now managed at a corporate level and will be reported within unallocated corporate expenses. These expenses have therefore been removed from the segment level financial results. In order to conform prior period classifications with the new alignment, the historical consolidated financial statements have been recast with the following adjustments to previously reported amounts:

	Quarter Ended Apr 3, 2011			Two Quarters Ended Apr 3, 2011		
	As Filed	Reclass	As Adjusted	As Filed	Reclass	As Adjusted
Total net revenues	\$ 2,785.7	\$ 0.0	\$ 2,785.7	\$ 5,736.5	\$ 0.0	\$ 5,736.5
Cost of sales including occupancy costs	1,180.1	(8.9)	1,171.2	2,380.9	(17.4)	2,363.5
Store operating expenses	885.4	(18.2)	867.2	1,791.0	(35.8)	1,755.2
Other operating expenses	101.1	(2.2)	98.9	193.7	(4.7)	189.0
Depreciation and amortization expenses	129.0	0.0	129.0	256.7	0.0	256.7
General and administrative expenses	152.3	29.3	181.6	308.9	57.9	366.8
Total operating expenses	2,447.9	0.0	2,447.9	4,931.2	0.0	4,931.2
Income from equity investees	38.3	0.0	38.3	72.7	0.0	72.7
Operating income	\$ 376.1	\$ 0.0	\$ 376.1	\$ 878.0	\$ 0.0	\$ 878.0

There was no impact to consolidated net revenues, total operating expenses, operating income, or net earnings as a result of this change. Additional discussion regarding the change in our organizational structure and segment results is included at Note 12.

Note 2: Acquisition

On November 10, 2011, we acquired the outstanding shares of Evolution Fresh, Inc., a super-premium juice company, to expand our portfolio of product offerings and enter into the super-premium juice market. We acquired Evolution Fresh for a purchase price of \$30 million in cash. The fair value of the net assets acquired on the acquisition date included \$18 million of goodwill.

Evolution Fresh is its own operating segment and is reported in Other along with our Seattle's Best Coffee operating segment, our Digital Ventures business, and unallocated corporate expenses.

Note 3: Derivative Financial Instruments**Cash Flow Hedges**

Net derivative losses of \$23.1 million and \$11.1 million, net of taxes, were included in accumulated other comprehensive income as of April 1, 2012 and October 2, 2011, respectively, related to cash flow hedges. Included in the net derivative losses for the quarter was the impact of cash flow derivative instruments entered into during the period to hedge portions of our future coffee purchases. Of the net derivative losses accumulated as of April 1, 2012, \$5.7 million pertains to hedging instruments that will be dedesignated within 12 months and will also continue to experience fair value changes before affecting earnings. Ineffectiveness from hedges during the year-to-date periods in fiscal 2012 and 2011 was not material. Outstanding contracts will expire within 18 months.

Net Investment Hedges

Net derivative losses of \$27.8 million and \$34.2 million, net of taxes, were included in accumulated other comprehensive income as of April 1, 2012 and October 2, 2011, respectively, related to investment derivative hedges. Outstanding contracts will expire within 36 months.

Other Derivatives

To mitigate the translation risk of certain balance sheet items, we enter into foreign currency forward contracts that are not designated as hedging instruments. These contracts are recorded at fair value, with the changes in fair value recognized in net interest income and other on the consolidated statements of earnings. Gains and losses from these instruments are largely offset by the financial impact of translating foreign

Edgar Filing: STARBUCKS CORP - Form 10-Q

currency denominated payables and receivables, which is also recognized in net interest income and other.

We also enter into swap and futures contracts that are not designated as hedging instruments, to mitigate the price uncertainty of a portion of our future purchases of dairy products and diesel fuel. These contracts are recorded at fair value, with the changes in fair value recognized in net interest income and other on the consolidated statements of earnings.

Table of Contents

The following table presents the pretax effect of derivative instruments on earnings and other comprehensive income for the quarter and two quarters ended (in millions):

	Cash Flow Hedges		Net Investment Hedges		Other Derivatives	
	Apr 1, 2012	Apr 3, 2011	Apr 1, 2012	Apr 3, 2011	Apr 1, 2012	Apr 3, 2011
<i>Quarter Ended:</i>						
Gain/(Loss) recognized in earnings	\$ (2.8)	\$ (3.3)	\$ 0.0	\$ 0.0	\$ (5.7)	\$ (1.2)
Gain/(Loss) recognized in OCI	\$ (15.2)	\$ 0.2	\$ 10.3	\$ 3.7		

	Cash Flow Hedges		Net Investment Hedges		Other Derivatives	
	Apr 1, 2012	Apr 3, 2011	Apr 1, 2012	Apr 3, 2011	Apr 1, 2012	Apr 3, 2011
<i>Two Quarters Ended:</i>						
Gain/(Loss) recognized in earnings	\$ (5.9)	\$ (6.2)	\$ 0.0	\$ 0.0	\$ 4.0	\$ 0.5
Gain/(Loss) recognized in OCI	\$ (16.5)	\$ (8.1)	\$ 10.3	\$ 0.1		

The amounts shown as recognized in earnings for cash flow and net investment hedges represent the realized gains/(losses) transferred out of other comprehensive income (OCI) to earnings during the year. The amounts shown as recognized in OCI are prior to these transfers of realized gains/(losses) to earnings.

Notional amounts of outstanding derivative contracts as of April 1, 2012:

\$416 million in foreign exchange contracts

\$200 million in coffee contracts

\$31 million in dairy contracts

\$16 million in diesel contracts

Note 4: Fair Value Measurements

Liabilities:

Derivatives	\$ 31.5	\$ 0.0	\$ 31.5	\$ 0.0
-------------	---------	--------	---------	--------

Gross unrealized holding gains and losses were not material as of April 1, 2012 and October 2, 2011.

Changes in Level 3 Instruments Measured at Fair Value on a Recurring Basis

Financial instruments measured using Level 3 inputs described above are comprised entirely of our auction rate securities (ARS). No transfers among the levels within the fair value hierarchy occurred during the second quarter of fiscal 2012.

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

Assets and liabilities recognized or disclosed at fair value in the financial statements on a nonrecurring basis include items such as property, plant and equipment, goodwill and other intangible assets, equity and cost method investments, and other assets. These assets are measured at fair value if determined to be impaired.

Table of Contents

During the quarter and two quarters ended April 1, 2012 and April 3, 2011, we recognized fair market value adjustments with a charge to earnings for these assets as follows (*in millions*):

	Quarter Ended Apr 1, 2012			Two Quarters Ended Apr 1, 2012		
	Carrying Value before adjustment	Fair value adjustment	Carrying value after adjustment	Carrying Value before adjustment	Fair value adjustment	Carrying value after adjustment
Property, plant and equipment (1)	\$ 2.8	(\$ 1.7)	\$ 1.1	\$ 3.3	(\$ 2.0)	\$ 1.3

	Quarter Ended Apr 3, 2011			Two Quarters Ended Apr 3, 2011		
	Carrying Value before adjustment	Fair value adjustment	Carrying value after adjustment	Carrying Value before adjustment	Fair value adjustment	Carrying value after adjustment
Property, plant and equipment (1)	\$ 0.0	\$ 0.0	\$ 0.0	\$ 1.1	(\$ 0.9)	\$ 0.2
Other assets (2)	\$ 10.2	(\$ 6.5)	\$ 3.7	\$ 24.2	(\$ 20.5)	\$ 3.7

- (1) These assets primarily consist of leasehold improvements in underperforming stores. The fair value was determined using a discounted cash flow model based on expected future store revenues and operating costs, using internal projections. The resulting impairment charge was included in store operating expenses.
- (2) The fair value was determined using a discounted cash flow model based on future expected revenues and operating costs, using internal projections. The resulting impairment charge was included in other operating expenses.

Fair Value of Other Financial Instruments

The estimated fair value of the \$550 million of 6.25% Senior Notes based on the quoted market price (Level 2) was approximately \$654 million and \$648 million as of April 1, 2012 and October 2, 2011, respectively.

Note 5: Inventories (*in millions*)

	Apr 1, 2012	Oct 2, 2011	Apr 3, 2011
Coffee:			
Unroasted	\$ 708.1	\$ 431.3	\$ 409.0
Roasted	234.7	246.5	144.2
Other merchandise held for sale	131.3	150.8	99.4
Packaging and other supplies	130.9	137.2	119.8
Total	\$ 1,205.0	\$ 965.8	\$ 772.4

Inventory levels vary due to seasonality driven primarily by the holiday season, commodity market supply and price variations, and changes in our use of fixed-price and price-to-be-fixed coffee contracts. Also contributing to the increase in inventory over the prior year period was the growth of our CPG business.

As of April 1, 2012, we had committed to purchasing green coffee totaling \$615 million under fixed-price contracts and an estimated \$319 million under price-to-be-fixed contracts. Depending on market conditions, we also enter into futures contracts to mitigate the price uncertainty of a portion of the price-to-be-fixed contracts. As of April 1, 2012, approximately \$200 million of our price-to-be-fixed contracts were effectively fixed through the use of these hedging instruments. Price-to-be-fixed contracts are purchase commitments whereby the quality, quantity, delivery period, and other negotiated terms are agreed upon, but the date at which the base C coffee commodity price component will be fixed has not yet been established. For these types of contracts, either Starbucks or the seller has the option to fix the base C coffee commodity price prior to the delivery date. Until prices are fixed, we estimate the total cost of these purchase commitments. We believe, based on relationships established with our suppliers in the past, the risk of non-delivery on these purchase commitments is remote.

Total cost of acquired shares	\$ 15.7	\$ 60.5

As of April 1, 2012, 24.0 million shares remained available for repurchase under the current authorization.

Table of Contents

During the second quarter of fiscal 2012, Starbucks Board of Directors declared a quarterly cash dividend to shareholders of \$0.17 per share to be paid on May 25, 2012 to shareholders of record as of the close of business on May 9, 2012.

Note 9: Employee Stock Plans

As of April 1, 2012, there were 31.8 million shares of common stock available for issuance pursuant to future equity-based compensation awards and employee stock purchase plans (ESPP).

Stock-based compensation expense recognized in the consolidated statement of earnings (*in millions*):

	Quarter Ended		Two Quarters Ended	
	Apr 1, 2012	Apr 3, 2011	Apr 1, 2012	Apr 3, 2011
Options	\$ 10.1	\$ 14.6	\$ 24.2	\$ 32.5
Restricted Stock Units (RSUs)	26.1	20.1	51.8	38.7
Total stock-based compensation	\$ 36.2	\$ 34.7	\$ 76.0	\$ 71.2

Value of awards granted and exercised during the period:

	Quarter Ended		Two Quarters Ended	
	Apr 1, 2012	Apr 3, 2011	Apr 1, 2012	Apr 3, 2011
Estimated fair value per option granted	\$ 13.15	\$ 10.01	\$ 12.75	\$ 9.50
Weighted average option grant price	\$ 49.94	\$ 33.96	\$ 43.81	\$ 30.93
Weighted average price per option exercised	\$ 15.36	\$ 12.99	\$ 15.69	\$ 13.32
Weighted average RSU grant price	\$ 50.34	\$ 34.21	\$ 43.83	\$ 30.87

Stock option and RSU transactions from October 2, 2011 through April 1, 2012 (*in millions*):

	Stock Option	RSUs
Options outstanding/Nonvested RSUs, October 2, 2011	45.3	8.3
Granted	3.2	4.0
Options exercised/RSUs vested	(10.7)	(3.9)
Forfeited/expired	(1.4)	(0.6)
Options outstanding/Nonvested RSUs, April 1, 2012	36.4	7.8

Total unrecognized stock-based compensation expense, net of estimated forfeitures, as of April 1, 2012

	\$ 53.6	\$ 129.9
--	---------	----------

Note 10: Earnings Per Share

Calculation of net earnings per common share (EPS) basic and diluted (*in millions, except EPS*):

	Quarter Ended		Two Quarters Ended	
	Apr 1, 2012	Apr 3, 2011	Apr 1, 2012	Apr 3, 2011
Net earnings attributable to Starbucks	\$ 309.9	\$ 261.6	\$ 691.9	\$ 608.1
Weighted average common shares and common stock units outstanding (for basic calculation)	754.6	750.3	751.3	748.0
Dilutive effect of outstanding common stock options and RSUs	18.7	21.5	19.6	21.3

Edgar Filing: STARBUCKS CORP - Form 10-Q

Weighted average common and common equivalent shares outstanding (for diluted calculation)	773.3	771.8	770.9	769.3
EPS basic	\$ 0.41	\$ 0.35	\$ 0.92	\$ 0.81
EPS diluted	\$ 0.40	\$ 0.34	\$ 0.90	\$ 0.79

Potential dilutive shares consist of the incremental common shares issuable upon the exercise of outstanding stock options (both vested and non-vested) and unvested RSUs, calculated using the treasury stock method. The calculation of dilutive shares outstanding excludes out-of-the-money stock options (i.e., such options exercise prices were greater than the average market price of our common shares for the period) because their inclusion would have been antidilutive. Out-of-the-money stock options totaled less than 0.1 million as of April 1, 2012 and 2.2 million as of April 3, 2011, respectively.

Table of Contents

Note 11: Commitments and Contingencies

Legal Proceedings

In the first quarter of fiscal 2011, Starbucks notified Kraft Foods Global, Inc. (Kraft) that we were discontinuing our distribution arrangement with Kraft on March 1, 2011 due to material breaches by Kraft of its obligations under the Supply and License Agreement between the Company and Kraft, dated March 29, 2004 (the Agreement), which defined the main distribution arrangement between the parties. Through our arrangement with Kraft, Starbucks sold a selection of Starbucks and Seattle s Best Coffee branded packaged coffees in grocery and warehouse club stores throughout the US, and to grocery stores in Canada, the UK and other European countries. Kraft managed the distribution, marketing, advertising and promotion of these products.

Kraft denies it has materially breached the Agreement. On November 29, 2010, Starbucks received a notice of arbitration from Kraft putting the commercial dispute between the parties into binding arbitration pursuant to the terms of the Agreement. In addition to denying it materially breached the Agreement, Kraft further alleges that if Starbucks wished to terminate the Agreement it must compensate Kraft as provided in the Agreement in an amount equal to the fair value of the Agreement, with an additional premium of up to 35% under certain circumstances.

On December 6, 2010, Kraft commenced a federal court action against Starbucks, entitled *Kraft Foods Global, Inc. v. Starbucks Corporation*, in the U.S. District Court for the Southern District of New York (the District Court) seeking injunctive relief to prevent Starbucks from terminating the distribution arrangement until the parties dispute is resolved through the arbitration proceeding. On January 28, 2011, the District Court denied Kraft s request for injunctive relief. Kraft appealed the District Court s decision to the Second Circuit Court of Appeals. On February 25, 2011, the Second Circuit Court of Appeals affirmed the District Court s decision. As a result, Starbucks is in full control of our packaged coffee business as of March 1, 2011.

While Starbucks believes we have valid claims of material breach by Kraft under the Agreement that allowed us to terminate the Agreement and certain other relationships with Kraft without compensation to Kraft, there exists the possibility of material adverse outcomes to Starbucks in the arbitration or to resolve the matter. Although Kraft disclosed to the press and in federal court filings a \$750 million offer Starbucks made to Kraft in August 2010 to avoid litigation and ensure a smooth transition of the business, the figure is not a proper basis upon which to estimate a possible outcome of the arbitration but was based upon facts and circumstances at the time. Kraft rejected the offer immediately and did not provide a counter-offer, effectively ending the discussions between the parties with regard to any payment. Moreover, the offer was made prior to our investigation of Kraft s breaches and without consideration of Kraft s continuing failure to comply with material terms of the agreements.

On April 2, 2012, Starbucks and Kraft exchanged expert reports regarding alleged damages on their affirmative claims. Starbucks claims damages of up to \$62.9 million from the loss of sales resulting from Kraft s failure to use commercially reasonable efforts to market Starbucks coffee, plus attorney fees. Kraft s expert opined that the fair market value of the Agreement was \$1.9 billion. After applying a 35% premium and 9% interest, Kraft claims damages of up to \$2.9 billion, plus attorney fees. The arbitration is currently set for July 11 through July 31, 2012. Starbucks anticipates a decision by the arbitrator within 30 days thereafter.

At this time, Starbucks believes an unfavorable outcome with respect to the arbitration is not probable, but as noted above is reasonably possible. As also noted above, Starbucks believes we have valid claims of material breach by Kraft under the Agreement that allowed us to terminate the Agreement without compensation to Kraft. In addition, Starbucks believes Kraft s damage estimates are highly inflated and based upon faulty analysis. As a result, we cannot reasonably estimate the possible loss. Accordingly, no loss contingency has been recorded for this matter.

Starbucks is party to various other legal proceedings arising in the ordinary course of business, including certain employment litigation cases that have been certified as class or collective actions, but, except as noted above, is not currently a party to any legal proceeding that management believes could have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Note 12: Segment Reporting

Segment information is prepared on the same basis that our management reviews financial information for operational decision-making purposes. Beginning with the first quarter of fiscal 2012, we redefined our reportable operating segments to align with the three-region leadership and organizational structure of our retail business that took effect at the beginning of fiscal 2012.

The three-region structure includes: 1) Americas, inclusive of the US, Canada, and Latin America; 2) China/Asia Pacific (CAP); and 3) Europe, Middle East, and Africa, collectively referred to as the EMEA region. Our ceo, who is our chief operating decision maker (CODM) manages these businesses, evaluates financial results, and makes key operating decisions based on the new organizational structure. Accordingly,

Edgar Filing: STARBUCKS CORP - Form 10-Q

beginning with the first quarter of fiscal 2012, we revised our reportable operating segments from 1) US, 2) International, and 3) Global Consumer Products Group to 1) Americas, 2) CAP, 3) EMEA, and 4) Global Consumer Products Group. In the second quarter of fiscal 2012, we renamed our Global Consumer Products Group segment Channel Development. Segment revenues as a percentage of total net revenues for the first two quarters of fiscal 2012 were as follows: Americas (75%), EMEA (9%), China / Asia Pacific (5%), and Channel Development (10%).

Concurrent with the change in reportable operating segments, we revised our prior period financial information to reflect comparable financial information for the new segment structure. Historical financial information presented herein reflects this change.

Table of Contents

Americas

Americas operations sell coffee and other beverages, complementary food, whole bean coffees, and a focused selection of merchandise through company-operated stores and licensed stores. The Americas segment is our most mature business and has achieved significant scale.

Europe, Middle East, and Africa

EMEA operations sell coffee and other beverages, complementary food, whole bean coffees, and a focused selection of merchandise through company-operated stores and licensed stores. Certain markets within EMEA operations are in the early stages of development and require a more extensive support organization, relative to the current levels of revenue and operating income, than Americas.

China / Asia Pacific

China /Asia Pacific operations sell coffee and other beverages, complementary food, whole bean coffees, and a focused selection of merchandise through company-operated stores and licensed stores. Certain markets within China / Asia Pacific operations are in the early stages of development and require a more extensive support organization, relative to the current levels of revenue and operating income, than Americas.

Channel Development

Channel Development operations sell a selection of whole bean and ground coffees as well as a selection of premium Tazo® teas globally. Channel Development operations also produce and sell a variety of ready-to-drink beverages, Starbucks VIA® Ready Brew, Starbucks® coffee K-Cup® packs, and Starbucks® super-premium ice creams. The US foodservice business, which is included in the Channel Development segment, sells coffee and other related products to institutional foodservice companies.

Other

Other includes Seattle's Best Coffee, Evolution Fresh, Digital Ventures, and unallocated corporate expenses that pertain to corporate administrative functions that support the operating segments but are not specifically attributable to or managed by any segment, and are not included in the reported financial results of the operating segments.

Table of Contents

The table below presents financial information for our reportable operating segments and Other for the quarter and two quarters ended April 1, 2012 and April 3, 2011, including the reclassifications discussed in Note 1 (*in millions*):

Quarter Ended

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
CAUTIONARY STATEMENT PURSUANT TO THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Certain statements herein, including statements regarding trends in or expectations relating to the expected effects of our initiatives and plans, as well as trends in or expectations regarding earnings per share, revenues, operating income, operating margins, comparable store sales, sales leverage, expenses, dividends, share repurchases, other financial results, capital expenditures, scaling and expansion of international operations, including China, profitable growth opportunities, strategic acquisitions, changes to the organizational and leadership structures, commodity costs and our mitigation strategies, the transition from our distribution arrangement with Kraft to a direct distribution model, liquidity, cash flow from operations, anticipated store openings and closings, the health and growth of our business overall and of specific businesses or markets, benefits of recent initiatives, increased traffic to our stores, operational efficiencies, product innovation and distribution,

Edgar Filing: STARBUCKS CORP - Form 10-Q

tax rates, and economic conditions in the US and other international markets all constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are based on currently available operating, financial and competitive information and are subject to various risks and uncertainties. Actual future results and trends may differ materially depending on a variety of factors, including, but not limited to, coffee, dairy and other raw materials prices and availability, successful execution of our initiatives, successful execution of internal plans, fluctuations in US and international economies and currencies, the impact of competitors initiatives, the effect of legal proceedings, and other risks detailed in our filings with the SEC, including in Part I Item IA Risk Factors in the 10-K.

Table of Contents

A forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. You should not place undue reliance on the forward-looking statements, which speak only as of the date of this report. We are under no obligation to update or alter any forward-looking statements, whether as a result of new information, future events or otherwise.

This information should be read in conjunction with the condensed consolidated financial statements and the notes included in Item 1 of Part I of this 10-Q and the audited consolidated financial statements and notes, and Management's Discussion and Analysis of Financial Condition and Results of Operations, contained in the 10-K.

General

Our fiscal year ends on the Sunday closest to September 30. All references to store counts, including data for new store openings, are reported net of store closures, unless otherwise noted.

Overview

Starbucks results for the second quarter of fiscal 2012 demonstrate the combined strength of our business and the power of the Starbucks brand. Total net revenues increased 15% to \$3.2 billion driven by global comparable store sales growth of 7%, comprised of a 6% increase in traffic and a 1% increase in average ticket. Also contributing to the revenue growth was an increase in revenues from our Channel Development segment (formerly Consumer Products Group segment) of 57%, driven by the launch of Starbucks- and Tazo-branded K-Cup[®]s and the impact of the transition of packaged coffee to the direct distribution model in the second quarter of fiscal 2011. Diluted earnings per share increased 18% to \$0.40, despite continued pressure from commodity costs, which negatively impacted operating income and operating margin by approximately \$64 million and 200 basis points, respectively.

The Americas segment performed well for the second quarter with a 10% increase in revenues over the prior year, primarily due to strong comparable store sales growth of 8%, driven almost entirely by an increase in traffic of 7%. This growth in traffic demonstrates our continued focus on operational excellence, the continued success of our warming program, and the accelerating benefit of the My Starbucks Rewards[™] program. This sales growth generated increased sales leverage, which helped to offset higher commodity costs. Looking forward, we expect to continue driving sales growth and profitability through continued store efficiency efforts, expanding our pipeline of new product offerings, accelerating new store development, and finding opportunities to increase revenues throughout all dayparts.

EMEA segment results reflect both the investments we have begun making as part of our transformation plan for the region, as well as the macro-economic headwinds we, and others, face there. This resulted in negative 1% comparable store sales and an operating loss of \$5.5 million for the quarter. We expect these investments will result in improved operating performance as we progress on our plan towards mid-teens operating margin; however, this turnaround will take time to gain traction.

Table of Contents

CAP segment revenues increased 32%, driven by new store growth and comparable store sales growth of 18%. China continues to be the primary driver of the increase in revenues in the region and saw a 22% increase in comparable store sales for the quarter. This revenue growth contributed to operating income improvement of 59%. China continues to be a significant growth opportunity for Starbucks as we remain on track for our goal of 1,500 stores by 2015.

Our Channel Development segment represents another important, profitable growth opportunity for us. Channel Development results continued to be a solid contributor to overall revenue growth with a 57% increase in revenues largely resulting from sales of Starbucks- and Tazo-branded K-Cup® packs and our transition to a direct distribution model for packaged coffee, which occurred during the second quarter of fiscal 2011. High commodity costs continued to be a significant drag on operating margin; however, despite these higher costs, operating income increased \$15 million to \$82 million for the second quarter of fiscal 2012. We expect continued innovation and new product offerings such as Evolution Fresh juices, the Verismo® system by Starbucks, and Starbucks Refreshers™ beverages, will drive further growth and profitability within this segment.

Comparable Store Sales

Comparable store sales for the second quarter and the first two quarters of fiscal 2012 are as follows:

	Quarter Ended Apr 1, 2012			Two Quarters Ended Apr 1, 2012		
	Sales Growth	Change in Transactions	Change in Ticket	Sales Growth	Change in Transactions	Change in Ticket
Consolidated	7%	6%	1%	8%	7%	1%
Americas	8%	7%	1%	8%	7%	1%
EMEA	(1%)	0%	0%	1%	1%	0%
China / Asia Pacific	18%	14%	4%	19%	14%	4%

Our comparable store sales represent the growth in revenue from company-operated stores open 13 months or longer. Comparable store sales exclude the effect of fluctuations in foreign currency exchange rates.

Fiscal 2012 Financial Outlook for the Year

For fiscal year 2012, we expect revenue growth driven by mid-single-digit comparable store sales growth, net new store openings and strong growth in the Channel Development business. Licensed stores will comprise between one-half and two-thirds of new store openings in the Americas, EMEA and China / Asia Pacific regions.

We expect modest consolidated operating margin and EPS improvement compared to fiscal 2011, given our current revenue expectations, along with ongoing spend related to our expanding CPG in-house direct distribution model and higher commodity costs.

We expect increased capital expenditures in fiscal 2012 compared to fiscal 2011, reflecting additional investments in store renovations and in manufacturing capacity.

Results of Operations (in millions)

Revenues

	Quarter Ended			Two Quarters Ended		
	Apr 1, 2012	Apr 3, 2011	% Change	Apr 1, 2012	Apr 3, 2011	% Change
Company-operated stores	\$ 2,521.2	\$ 2,293.5	9.9%	\$ 5,253.0	\$ 4,744.8	10.7%
Licensed stores	290.3	237.8	22.1	596.9	491.9	21.3
CPG, foodservice and other	384.4	254.4	51.1	781.9	499.8	56.4

Edgar Filing: STARBUCKS CORP - Form 10-Q

Total net revenues	\$ 3,195.9	\$ 2,785.7	14.7%	\$ 6,631.8	\$ 5,736.5	15.6%
---------------------------	-------------------	-------------------	--------------	-------------------	-------------------	--------------

Total net revenues for the second quarter and the first two quarters of fiscal 2012 increased \$410 million and \$895 million, respectively, primarily driven by increased revenues from company-operated stores (contributing approximately \$228 million and \$508 million, respectively). An increase in comparable store sales was the primary driver of the increase in company-operated store revenues for both periods (approximately 7%, or \$167 million, for the second quarter and approximately 8%, or \$383 million, for the first two quarters).

Table of Contents

Also contributing to the increase in total net revenues was higher revenues from licensed stores of \$53 million and \$105 million, for the second quarter and first two quarters of fiscal 2012, respectively. These increases were primarily due to higher royalty revenues from and product sales to our licensees, resulting from improved comparable store sales and the opening of 359 net new licensed stores over the last 12 months.

CPG, foodservice and other revenue increased \$130 million and \$282 million, for the second quarter and first two quarters of fiscal 2012, respectively. These increases were primarily due to sales of Starbucks- and Tazo-branded K-Cup® packs launched in the CPG channel on November 1, 2012 (approximately \$65 million for the second quarter and approximately \$120 million for the first two quarters) and the impact of recognizing full revenue from packaged coffee and tea sales under the direct distribution model (approximately \$30 million for the second quarter and approximately \$76 million for the first two quarters).

Depreciation and amortization expenses	137.1	129.0	4.3	4.6	271.9	256.7	4.1	4.5
General and administrative expenses	206.9	181.6	6.5	6.5	398.4	366.8	6.0	6.4
Total operating expenses	2,817.7	2,447.9	88.2	87.9	5,742.5	4,931.2	86.6	86.0
Income from equity investees	52.2	38.3	1.6	1.4	97.1	72.7	1.5	1.3
Operating income	\$ 430.4	\$ 376.1	13.5%	13.5%	\$ 986.4	\$ 878.0	14.9%	15.3%
Store operating expenses as a % of related revenues			37.9%	37.8%			37.2%	37.0%

Cost of sales including occupancy costs as a percentage of total net revenues increased 220 basis points and 260 basis points for the second quarter and first two quarters of fiscal 2012, respectively, primarily due to increased commodity costs (approximately 200 basis points for the second quarter and approximately 250 basis points for the first two quarters), mainly driven by higher coffee costs.

Store operating expenses as a percentage of total net revenues decreased 120 basis points for the second quarter and first two quarters of fiscal 2012, primarily due to increased Channel Development revenues and licensed stores revenues. Store operating expenses as a percentage of company-operated store revenues increased 10 basis points for the second quarter and 20 basis points for the first two quarters, primarily due to higher debit card transaction fees (approximately 20 basis points for both periods), offset by increased sales leverage.

Table of Contents

Other operating expenses as a percentage of total net revenues decreased 30 basis points for the second quarter and 10 basis points for the first two quarters of fiscal 2012, primarily driven by the absence of charges in fiscal 2012 related to the Seattle s Best Coffee store closures in Borders bookstores (approximately 40 basis points for both periods).

Income from equity investees increased \$14 million for the second quarter and \$24 million for the first two quarters of fiscal 2012, primarily due to improved performance from our joint venture operations.

Partially offsetting the decrease in operating margin from the other line items mentioned above was sales leverage resulting in lower depreciation and amortization expenses as a percentage of total revenues for both periods and lower general and administrative expenses as a percentage of total revenues for the first two quarters. The combination of these changes resulted in no change to operating margin for the second quarter and a decrease of 40 basis points for the first two quarters of fiscal 2012.

Effective tax rate including noncontrolling interest			32.1%	32.5%			32.6%	32.0%

For the second quarter and first two quarters of fiscal 2012, net interest income and other increased \$15 million and \$24 million, respectively. These increases were primarily driven by the recognition of income associated with unredeemed gifts cards due to a recent court ruling relating to state unclaimed property laws (approximately \$29 million).

The effective tax rate for the quarter ended April 1, 2012 was 32.1% as compared to 32.5% for the same quarter in fiscal 2011. The decrease in the rate was primarily driven by increased income in certain foreign jurisdictions that have lower tax rates. The effective tax rate for the first two quarters ended April 1, 2012 was 32.6% as compared to 32.0% for the same period in fiscal 2011. The increase in the rate was due to a benefit recognized in fiscal 2011 from releasing certain tax reserves, partially offset by increased income in certain foreign jurisdictions with lower tax rates in fiscal 2012.

Operating income	\$ 463.0	\$ 419.9	19.5%	19.4%	\$ 1,026.0	\$ 946.9	20.7%	21.1%
Store operating expenses as a % of related revenues			38.6%	38.5%			37.8%	37.7%

Americas total net revenues for the second quarter and first two quarters of fiscal 2012 increased \$210 million and \$461 million, respectively, representing an increase of 10% over the same periods of fiscal 2011. These increases were primarily driven by increased revenues from company-operated stores (contributing approximately \$167 million for the second quarter and \$376 million for the first two quarters) and licensed stores (contributing approximately \$42 million for the second quarter and \$85 million for the first two quarters).

An increase in comparable store sales was the primary driver of the increase in company-operated store revenues for both periods (approximately 8%, or \$152 million, for the second quarter and approximately 8%, or \$347, million for the first two quarters). The increase in licensed store revenues was primarily due to increased royalty revenues from and product sales to licensees (approximately \$35 million for the second quarter and \$75 million for the first two quarters), resulting from improved comparable store sales and net new store openings.

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues increased 60 basis points and 100 basis points for the second quarter and first two quarters of fiscal 2012, respectively. These increases were primarily due to higher commodity costs (approximately 150 basis points for the second quarter and approximately 190 basis points for the first two quarters), mainly driven by higher coffee costs, partially offset by increased sales leverage on occupancy costs (approximately 90 basis points for the second quarter and approximately 80 basis points for the first two quarters).

Store operating expenses as a percentage of total net revenues decreased 30 basis points for the second quarter and 20 basis points for the first two quarters of fiscal 2012, primarily due to increased licensed stores revenues. Store operating expenses as a percentage of company-operated store revenues increased 10 basis points for the second quarter and first two quarters of fiscal 2012. These increases were primarily due to higher debit card transaction fees (approximately 20 basis points for both periods) and increased advertising and marketing expenses (approximately 20 basis points for both periods), partially offset by increased sales leverage.

Offsetting the decrease in operating margin from the other line items mentioned above was increased sales leverage on depreciation and amortization (approximately 40 basis points for the second quarter and approximately 50 basis points for the first two quarters). The combination of these changes contributed to an overall increase in operating margin of 10 basis points for the second quarter and a decrease of

40 basis points for the first two quarters of fiscal 2012.

Operating income	(\$ 5.5)	\$ 7.7	(2.0%)	3.2%	\$ 14.4	\$ 32.9	2.5%	6.6%
Store operating expenses as a % of related revenues			39.4%	37.2%			37.3%	35.6%

EMEA total net revenues for the second quarter and first two quarters of fiscal 2012 increased 14%, or \$33 million, and 15%, or \$77 million, respectively, primarily driven by increased revenues from company-operated stores (contributing approximately \$25 million for the second quarter and approximately \$65 million for the first two quarters). The increase in company-operated store revenues was primarily due to the acquisition of the remaining interest in our previous joint venture operations in Switzerland and Austria in the fourth quarter of fiscal 2011 (approximately \$26 million for the second quarter and approximately \$55 million for the first two quarters).

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues increased 210 basis points for the second quarter and first two quarters of fiscal 2012. These increases were primarily driven by higher distribution costs related to the transition to a consolidated distribution center in the UK (approximately 220 basis points for the second quarter and approximately 180 basis points for the first two quarters) and higher commodity costs (approximately 40 basis points for the second quarter and approximately 50 basis points for the first two quarters).

Store operating expenses as a percentage of total net revenues increased 140 basis points for the second quarter and first two quarters of fiscal 2012. These increases were primarily driven by the loss of sales leverage and investments to support the new regional strategic initiatives.

Income from equity investees declined to \$0 for the second quarter and \$0.3 million for the first two quarters of fiscal 2012, due to the acquisition of the remaining interest in our previous joint venture operations in Switzerland and Austria.

The above changes contributed to an overall decrease in operating margin of 520 basis points for the second quarter and a decrease of 410 basis points for the first two quarters of fiscal 2012.

Revenues

China / Asia Pacific total net revenues for the second quarter and first two quarters of fiscal 2012 increased 32%, or \$43 million, and 35%, or \$89 million, respectively, primarily driven by increased revenues from company-operated stores (contributing approximately \$35 million for the second quarter and \$68 million for the first two quarters). Also contributing to the increase in revenues was an increase in licensed store revenues, driven by increased royalty revenues from and product sales to licensees (approximately \$7 million for the second quarter and approximately \$17 million for the first two quarters).

The increase in company-operated store revenues was primarily due to the opening of 98 net new stores in the past 12 months (approximately \$17 million for the second quarter and approximately \$33 million for the first two quarters) and higher comparable store sales (approximately 18%, or \$16 million, for the second quarter and approximately 19%, or \$31 million, for the first two quarters).

Operating Expenses

Cost of sales including occupancy costs as a percentage of total net revenues decreased 240 basis points for the second quarter and 80 basis points for the first two quarters of fiscal 2012. These decreases were primarily due to increased sales leverage partially offset by higher commodity costs (approximately 140 basis points for the second quarter and approximately 170 basis points for the first two quarters), driven by increased coffee costs.

Store operating expenses increased 70 basis points as a percentage of total net revenues due to a shift to more company-operated stores in the region. Store operating expenses decreased 80 basis points as a percentage of company-operated stores revenues for the second quarter of fiscal 2012, due primarily to increased sales leverage. Store operating expenses for the first two quarters of fiscal 2012 increased 190 basis points as a percentage of total net revenues and increased 170 basis points as a percentage of company-operated stores revenues. These increases were driven by increased costs associated with the expansion efforts of company-operated stores in mainland China.

The changes in the above line items combined with increased sales leverage on general and administrative expenses (approximately 80 basis points for the second quarter and approximately 10 basis points for the first two quarters) and depreciation and amortization (approximately 20 basis points for the second quarter and approximately 30 basis points for the first two quarters), contributed to an overall increase in operating margin of 660 basis points for the second quarter and an increase of 180 basis points for the first two quarters of fiscal 2012. Also contributing to the overall change was increased income from equity investees.

Operating income	\$ 81.7	\$ 67.2	25.4%	32.8%	\$ 161.3	\$ 138.2	24.5%	34.6%

Revenues

Total Channel Development net revenues for the second quarter and the first two quarters of fiscal 2012 increased 57%, or \$117 million, and 64%, or \$257 million, respectively, primarily due to sales of Starbucks- and Tazo-branded K-Cup® packs (contributing approximately \$65 million for the second quarter and approximately \$120 million for the first two quarters), and the benefit of recognizing full revenue from packaged coffee sales under the direct distribution model (approximately \$23 million for the second quarter and approximately \$68 million for the first two quarters).

Operating Expenses

Cost of sales as a percentage of total net revenues increased 820 basis points for the second quarter and 970 for the first two quarters of fiscal 2012, respectively. These increases were primarily due to higher commodity costs (approximately 620 basis points for the second quarter and approximately 790 basis points for the first two quarters).

Other operating expenses as a percentage of total net revenues decreased 260 basis points for the second quarter and 160 basis points for the first two quarters of fiscal 2012. These decreases were primarily due to increased sales leverage largely related to increased revenues from the addition of Starbucks- and Tazo-branded K-Cup® packs.

The above changes contributed to an overall decrease in operating margin of 740 basis points for the second quarter and 1,010 basis points for the first two quarters of fiscal 2012.

Other includes operating results from Seattle's Best Coffee, Evolution Fresh, Digital Ventures, and expenses pertaining to corporate administrative functions that support our operating segments but are not specifically attributable to, or managed by, any segment and are not included in the reported financial results of the operating segments.

Total Other net revenues for the second quarter and the first two quarters of fiscal 2012 increased \$8 million and \$12 million, respectively, due to the addition of the operating results from Evolution Fresh, which was acquired during the first quarter of fiscal 2012.

General and administrative expenses increased \$13 million for the second quarter and the first two quarters of fiscal 2012, representing a 9% and 4% increase, respectively, relative to the prior year. These increases were largely due to increased support expenses such as information technology, marketing, finance, partner resources, and other global functions. This quarter also included investment to launch our Evolution Fresh brand.

Total operating expenses increased \$25 million and \$26 million for the second quarter and the first two quarters of fiscal 2012, respectively. The increase in expenses is primarily due to increased commodity costs, primarily coffee, and general and administrative expenses to support the growth of the business.

Financial Condition, Liquidity and Capital Resources**Investment Overview**

Starbucks cash and short-term investments totaled \$2.2 billion and \$2.1 billion as of April 1, 2012 and October 2, 2011, respectively. As of April 1, 2012, approximately \$623.7 million of cash was held in foreign subsidiaries. Of our cash held in foreign subsidiaries, \$316.1 million is denominated in the US dollar. We actively manage our cash and short-term investments in order to internally fund operating needs, make scheduled interest and principal payments on our borrowings, and return cash to shareholders through common stock cash dividend payments and share repurchases. Our short-term investments consist predominantly of US Treasury securities, commercial paper, corporate bonds, US Agency securities, and certificates of deposit.

Our portfolio of long-term available for sale securities consists predominantly of high investment-grade corporate bonds, diversified among industries and individual issuers, as well as certificates of deposits. We also have investments in auction rate securities (ARS), all of which are classified as long-term. ARS totaling \$28.3 million and \$28.0 million were outstanding as of April 1, 2012 and October 2, 2011, respectively.

Borrowing Capacity

Starbucks \$500 million unsecured credit facility is available for working capital, capital expenditures and other corporate purposes, including acquisitions and share repurchases. The credit facility contains provisions requiring us to maintain compliance with certain covenants, including

Edgar Filing: STARBUCKS CORP - Form 10-Q

a minimum fixed charge coverage ratio, which measures our ability to cover financing expenses. As of April 1, 2012 and October 2, 2011, we were in compliance with each of these covenants. The \$550 million of 10-year 6.25% Senior Notes also require us to maintain compliance with certain covenants, including limits on future liens and sale and leaseback transactions on certain material properties. As of April 1, 2012 and October 2, 2011, we were in compliance with each of these covenants.

Use of Cash

We expect to use our cash and short-term investments, including any potential future borrowings under the credit facility and our commercial paper program, to invest in our core businesses, including product innovations and related marketing support, and other new business opportunities related to our core businesses. We believe that future cash flows generated from operations and existing cash and short-term investments both domestically and internationally will be sufficient to finance capital requirements for our core businesses in those respective markets as well as shareholder distributions for the foreseeable future. However, in the event that we need to repatriate all or a portion of our international cash to the US we would be subject to additional US income taxes.

Table of Contents

We may use our available cash resources to make proportionate capital contributions to our equity method and cost method investees. We may also seek strategic acquisitions to leverage existing capabilities and further build our business in support of our growth agenda. Acquisitions may include increasing our ownership interests in our equity method and cost method investees. Any decisions to increase such ownership interests will be driven by valuation and fit with our ownership strategy. Significant new joint ventures, acquisitions and/or other new business opportunities may require additional outside funding.

As discussed further in Note 11, we are in arbitration with Kraft Foods Global, Inc. (Kraft) for a commercial dispute relating to a distribution agreement we previously held with Kraft. As a part of those proceedings Kraft has claimed damages inclusive of a premium and interest for terminating the arrangement. We believe we have valid claims of material breach by Kraft under the Agreement. We also believe Kraft's claim is highly inflated and based upon faulty analysis. However, should the arbitration result in an unfavorable outcome, we believe we have adequate liquidity.

Other than normal operating expenses, cash requirements for the remainder of fiscal 2012 are expected to consist primarily of capital expenditures for remodeling and refurbishment of, and equipment upgrades for, existing company-operated stores; systems and technology investments in the stores and in the support infrastructure; new company-operated stores; and additional investments in manufacturing capacity. Total capital expenditures for fiscal 2012 are expected to be approximately \$900 million.

During the second quarter of fiscal 2012, Starbucks declared a \$0.17 per share cash dividend to shareholders of record as of May 9, 2012, which will be paid on May 25, 2012. Starbucks repurchased 0.4 million shares of common stock (\$15.7 million) during the first two quarters of fiscal 2012 under share repurchase authorizations. The number of remaining shares authorized for repurchase as of April 1, 2012 totaled 24.0 million.

Cash Flows

Cash provided by operating activities was \$575.6 million for the first two quarters of fiscal 2012, compared to \$669.5 million for the same period in fiscal 2011. The decrease was primarily due to increased payments of our accounts payable, partially offset by higher net earnings for the period.

Cash used by investing activities for the first two quarters of fiscal 2012 totaled \$287.0 million, compared to \$139.1 million for the same period in fiscal 2011. The increase was primarily due to an increase in capital expenditures, primarily for remodeling and renovating existing company-operated stores and opening new retail stores, and cash paid to acquire Evolution Fresh. Also contributing was the reinvestment of cash into new investment securities, partially offset by increased inflows from maturing investments.

Cash used by financing activities for the first two quarters of fiscal 2012 totaled \$11.9 million, compared to \$61.3 million for the same period in fiscal 2011. The decrease was primarily due to an increase in the excess tax benefit from exercise of stock options, as a result of more option exercises during the period, and a decrease in common share repurchases in the first two quarters of fiscal 2012. The overall decrease was partially offset by an increase in cash returned to shareholders through higher dividend payments.

Contractual Obligations

There have been no material changes during the period covered by this 10-Q, outside of the ordinary course of our business, to the contractual obligations specified in the table of contractual obligations included in Management's Discussion and Analysis of Financial Condition and Results of Operations included in the 10-K.

Off-Balance Sheet Arrangements

We have no material off-balance sheet arrangements.

Commodity Prices, Availability and General Risk Conditions

Commodity price risk represents our primary market risk, generated by our purchases of green coffee and dairy products, among other items. We purchase, roast and sell high quality whole bean *arabica* coffee and related products and risk arises from the price volatility of green coffee. In addition to coffee, we also purchase significant amounts of dairy products to support the needs of our company-operated stores. The price and availability of these commodities directly impact our results of operations and we expect commodity prices, particularly coffee, to impact future results of operations. For additional details see Product Supply in Item 1 of the 10-K, as well as Risk Factors in Item 1A of the 10-K.

Seasonality and Quarterly Results

Our business is subject to seasonal fluctuations, including fluctuations resulting from the holiday season. Our cash flows from operations are considerably higher in the first fiscal quarter than the remainder of the year. This is largely driven by cash received as Starbucks Cards are purchased and loaded during the holiday season. Since revenues from the Starbucks Card are recognized upon

Table of Contents

redemption and not when purchased, seasonal fluctuations on the consolidated statements of earnings are much less pronounced. Quarterly results are affected by the timing of the opening of new stores and the closing of existing stores. For these reasons, results for any quarter are not necessarily indicative of the results that may be achieved for the full fiscal year.

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 1 in this 10-Q.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk*

There has been no material change in the commodity price risk, foreign currency exchange risk, equity security price risk, or interest rate risk discussed in Item 7A of the 10-K.

Item 4. *Controls and Procedures*

We maintain disclosure controls and procedures that are designed to ensure that material information required to be disclosed in our periodic reports filed or submitted under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Our disclosure controls and procedures are also designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive officer and principal financial officer as appropriate, to allow timely decisions regarding required disclosure.

During the second quarter of fiscal 2012, we carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, of the effectiveness of the design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based upon that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective, as of the end of the period covered by this report (April 1, 2012).

During the first two quarters of fiscal 2012, we implemented Hyperion, a suite of financial applications involving: (1) Hyperion Financial Management for financial consolidations and the system of record for external reporting; (2) Hyperion Planning for planning and forecasting; and (3) Essbase for management reporting. This update has resulted in changes to our business processes and related internal controls over financial reporting. Management has taken the necessary steps to update the design and documentation of internal control processes and procedures relating to the system update to supplement and complement existing internal controls. Management will continue to monitor, evaluate and update the related processes and internal controls as necessary during the post-implementation period to ensure adequate internal control over financial reporting.

Other than as described above, there were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during our most recently completed fiscal quarter that materially affected or are reasonably likely to materially affect internal control over financial reporting.

The certifications required by Section 302 of the Sarbanes-Oxley Act of 2002 are filed as exhibits 31.1 and 31.2, respectively, to this 10-Q.

PART II OTHER INFORMATION

Item 1. *Legal Proceedings*

In the first quarter of fiscal 2011, Starbucks notified Kraft Foods Global, Inc. (Kraft) that we were discontinuing our distribution arrangement with Kraft on March 1, 2011 due to material breaches by Kraft of its obligations under the Supply and License Agreement between the Company and Kraft, dated March 29, 2004 (the Agreement), which defined the main distribution arrangement between the parties. Through our arrangement with Kraft, Starbucks sold a selection of Starbucks and Seattle's Best Coffee branded packaged coffees in grocery and warehouse club stores throughout the US, and to grocery stores in Canada, the UK and other European countries. Kraft managed the distribution, marketing, advertising and promotion of these products.

Edgar Filing: STARBUCKS CORP - Form 10-Q

Kraft denies it has materially breached the Agreement. On November 29, 2010, Starbucks received a notice of arbitration from Kraft putting the commercial dispute between the parties into binding arbitration pursuant to the terms of the Agreement. In addition to denying it materially breached the Agreement, Kraft further alleges that if Starbucks wished to terminate the Agreement it must compensate Kraft as provided in the Agreement in an amount equal to the fair value of the Agreement, with an additional premium of up to 35% under certain circumstances.

Table of Contents

On December 6, 2010, Kraft commenced a federal court action against Starbucks, entitled *Kraft Foods Global, Inc. v. Starbucks Corporation*, in the U.S. District Court for the Southern District of New York (the District Court) seeking injunctive relief to prevent Starbucks from terminating the distribution arrangement until the parties' dispute is resolved through the arbitration proceeding. On January 28, 2011, the District Court denied Kraft's request for injunctive relief. Kraft appealed the District Court's decision to the Second Circuit Court of Appeals. On February 25, 2011, the Second Circuit Court of Appeals affirmed the District Court's decision. As a result, Starbucks is in full control of our packaged coffee business as of March 1, 2011.

While Starbucks believes we have valid claims of material breach by Kraft under the Agreement that allowed us to terminate the Agreement and certain other relationships with Kraft without compensation to Kraft, there exists the possibility of material adverse outcomes to Starbucks in the arbitration or to resolve the matter. Although Kraft disclosed to the press and in federal court filings a \$750 million offer Starbucks made to Kraft in August 2010 to avoid litigation and ensure a smooth transition of the business, the figure is not a proper basis upon which to estimate a possible outcome of the arbitration but was based upon facts and circumstances at the time. Kraft rejected the offer immediately and did not provide a counter-offer, effectively ending the discussions between the parties with regard to any payment. Moreover, the offer was made prior to our investigation of Kraft's breaches and without consideration of Kraft's continuing failure to comply with material terms of the agreements.

On April 2, 2012, Starbucks and Kraft exchanged expert reports regarding alleged damages on their affirmative claims. Starbucks claims damages of up to \$62.9 million from the loss of sales resulting from Kraft's failure to use commercially reasonable efforts to market Starbucks coffee, plus attorney fees. Kraft's expert opined that the fair market value of the Agreement was \$1.9 billion. After applying a 35% premium and 9% interest, Kraft claims damages of up to \$2.9 billion, plus attorney fees. The arbitration is currently set for July 11 through July 31, 2012. Starbucks anticipates a decision by the arbitrator within 30 days thereafter.

At this time, Starbucks believes an unfavorable outcome with respect to the arbitration is not probable, but as noted above is reasonably possible. As also noted above, Starbucks believes we have valid claims of material breach by Kraft under the Agreement that allowed us to terminate the Agreement without compensation to Kraft. In addition, Starbucks believes Kraft's damage estimates are highly inflated and based upon faulty analysis. As a result, we cannot reasonably estimate the possible loss. Accordingly, no loss contingency has been recorded for this matter.

Starbucks is party to various other legal proceedings arising in the ordinary course of business, including certain employment litigation cases that have been certified as class or collective actions, but, except as noted above, is not currently a party to any legal proceeding that management believes could have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Item 1A. Risk Factors

There have been no material changes to the risk factors previously disclosed in the 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Starbucks did not repurchase any shares during the second quarter of fiscal 2012. As of the end of the quarter, the maximum number of shares that may yet be purchased under our stock repurchase plans was 24,015,356 shares. The share repurchase program is

Table of Contents

conducted under authorizations made from time to time by our Board of Directors. On March 24, 2010 we publicly announced the authorization of up to an additional 15 million shares; on November 15, 2010 we publicly announced the authorization of up to an additional 10 million shares; and on November 3, 2011 we publicly announced the authorization of up to an additional 20 million shares. These authorizations have no expiration date.
