**Siemens to acquire Invensys Rail and to divest of baggage handling, postal and parcel sorting activities**

Today, the Supervisory Board of Siemens AG approved the decision of the Managing Board to enter into an agreement to acquire Invensys Rail, the rail automation business of Invensys for approx. 2.2 billion (£1.742 billion). Invensys Rail with currently around 3,200 employees and revenues of £775 million in its last financial year ending March 2012 shall be integrated into Siemens Rail Automation Business Unit headquartered in Berlin, Germany, as part of the Mobility and Logistics Division in the Infrastructure & Cities Sector. The transaction is subject to Invensys shareholder approval which is expected to be voted on at a General Meeting planned for December 2012. Furthermore, Invensys lenders, the UK pension regulator and anti-trust authorities need to consent to the transaction. Overall Siemens will not take on any significant pension liabilities with the transaction. Siemens expects the transaction to close in the second quarter of calendar year 2013.

At the same time, the Supervisory Board approved the decision of the Managing Board to divest its baggage handling, postal and parcel sorting activities to further focus the activities of the Siemens Infrastructure & Cities Sector. In FY 2012, the business generated revenue of approximately 900 million, a mid-single digit profit margin and had around 3,600 employees as of Sept 30, 2012.
