Publicly-Held Company

Dear Shareholders,

The management of Gafisa S.A. ("**Company**" or "**Gafisa**"), at the request submitted by the shareholders GWI Classic Fundo de Investimento em Ações, GWI High Value Fundo de Investimento em Ações, GWI Pipes Fundo de Investimento em Ações, GWI Small e Mid Caps Fundos de Investimento em Ações, GWI Leverage Fundo de Investimento em Ações – GWI Leverage FIA, GWI Asset Management S.A., GWI Real Estate Fundo de Investimento em Ações Investimento do Exterior S.A. and GWI Brazil and Latin America Master Fund (hereinafter referred to as "**GWIF**"), based on Article 123, Sole Paragraph, Item "c" of Law 6404/76, submits to the shareholders the following proposal ("**Proposal of Shareholders**") regarding the matter included in the agenda of the extraordinary shareholders' meeting of the Company to be held, on first call, on January 12, 2018, at 10 a.m. ("**Meeting**").

I. Proposal of the Shareholders - Amend Article 53 of the Company's Bylaws

GWIF proposes the approval of the amendment of Article 53, head, of the Company's Bylaws, to increase from 30% to 50% the total number of shares issued by the Company, the percentage set forth in items (a) and (b) of the said Article, which, if reached, binds the shareholder to carry out a public offering for the acquisition of the shares of the remaining shareholders of the Company.

A copy of the Bylaws including the amendments proposed by GWIF highlighted, pursuant to Article 11, II of CVM Instruction 481/2009 ("**CVMI 481**"), is included in Attachment I of this proposal.

Concerning the origin and reasoning of the proposed amendments and the analysis of their legal and economic effects, pursuant to Article 11, II of CVM Instruction 481/2009, in a letter of December 7, 197, GWIF stated the following:

"Regarding item II, the Shareholders hereby state the following.

"After the Extraordinary Shareholders' Meeting, held on December 11, 2017, with the purpose of increasing the share capital up to three hundred million reais (R\$300,000,000.00) at a price per share of fifteen reais (R\$15.00), and, if approved in first or second call, there will be the dilution of the holders of program of ADSs, considering that the said shareholders will not be able to exercise the preemptive right, as stated in the Management's Proposal, Item 5, letter 'o'.

"Therefore, considering that the aforementioned shareholders, representing 26.7% of the Company's total capital, may dispose of their preemptive right, given that they cannot exercise it, and especially considering that there is a mandatory minimum subscription of two hundred million reais (R\$200,000,000.00) by a sole shareholder, according to the information of the Management's Proposal, representing 47.5% of the Company's interest, this situation may trigger the current provision of Article 53 of the Company's Bylaws.

“Furthermore, since the subscription, as proposed by the Management, has as purpose to foment the Company’s business, with its consequent appreciation, we understand that this is not the most favorable moment for the said transaction, since the Company tends to gain too much value”.

II. Management’s Considerations on the Proposal of the Shareholders

Regarding the reasoning presented by GWI, Gafisa’s management brings to the consideration of the shareholders the following aspects:

(i) the Proposal of the Shareholders presumes that the subscription of the Company’s capital increase, if not followed by the remaining shareholders, could lead to a shareholder reaching the limit of 30% of the share capital, as provided for in the current wording of Article 53 of the Bylaws. This, according to GWI, could lead to the mandatory public offering referred to in Item (ii) of the said Article 53;

(ii) concerning this, it should be noted that Article 57, item (c.ii) of the Bylaws establishes that *“the mandatory public offering set forth by Article 53 does not apply... if the 30% shareholding is reached by the Relevant Shareholder... by subscription of shares in a primary offer, since the amount was not fully subscribed by those who had a preemptive right or that did not have enough interested parties in the respective public distribution...”*

(iii) despite the interpretation of GWI, as described above, and without this paragraph being construed as a guarantee by the Company and/or its management on how the matter may be interpreted in the future by the regulatory body or by an arbitration or judicial court, it would seem more logical and reasonable to presume that the abovementioned statutory exception to the mandatory public offering, applicable on a possible increase of the relative shareholding due to the subscription of shares (including due to preemptive rights not being exercised by its original holders), excludes the possibility raised by GWI of triggering the mandatory public offering;

(iv) it is also necessary to clarify that the obligation of the investors, mentioned in the Material Fact of November 9, 2017, to subscribe shares and any shares remaining unsubscribed, within the capital increase waiting for a resolution, to guarantee the subscription of the minimum amount of R\$200,000,000.00, is conditioned to the non-exercise of the preemptive right by the remaining shareholders; and

(v) additionally, in the case of Gafisa, a company with diffused capital, where the attendance at the shareholders’ meetings corresponds on average to 50.4% of the voting capital, an increase in the limit set for 50% of the share capital would make more viable the concentration of power in the hands of a shareholder or group of shareholders, without carrying out a mandatory public offering (this, of course, in the cases in which the bylaws really makes it mandatory, which - again - does not seem the case in the situation figured by GWI).

4

1 Average attendance of the last three years.

For these reasons, the management believes that the adoption of the Proposal of the Shareholders is not timely.
