Table of Contents**Domino s Pizza, Inc. and Subsidiaries****Notes to Condensed Consolidated Financial Statements****(Unaudited; tabular amounts in thousands, except percentages, share and per share amounts)****March 24, 2013**

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. For further information, refer to the consolidated financial statements and footnotes for the fiscal year ended December 30, 2012 included in our annual report on Form 10-K.

In the opinion of the Company, all adjustments, consisting of normal recurring items, considered necessary for a fair statement have been included. Operating results for the fiscal quarter ended March 24, 2013 are not necessarily indicative of the results that may be expected for the fiscal year ending December 29, 2013.

2. Segment Information

The following table summarizes revenues, income from operations and earnings before interest, taxes, depreciation, amortization and other, which is the measure by which the Company allocates resources to its segments and which we refer to as Segment Income, for each of our reportable segments.

	Fiscal Quarters Ended March 24, 2013 and March 25, 2012					Total
	Domestic Stores	Domestic Supply Chain	International	Intersegment Revenues	Other	
Revenues						
2013	\$ 132,412	\$ 254,745	\$ 53,674	\$ (23,214)	\$	\$ 417,617
2012	122,811	235,556	47,646	(21,426)		384,587
Income from operations						
2013	\$ 43,835	\$ 20,537	\$ 27,052	N/A	\$ (15,899)	\$ 75,525
2012	41,252	17,119	24,252	N/A	(15,728)	66,895
Segment Income						
2013	\$ 45,302	\$ 22,367	\$ 27,124	N/A	\$ (8,109)	\$ 86,684
2012	42,684	18,833	23,757	N/A	(8,658)	76,616

The following table reconciles Total Segment Income to consolidated income before provision for income taxes.

	Fiscal Quarter Ended	
	March 24, 2013	March 25, 2012
Total Segment Income	\$ 86,684	\$ 76,616
Depreciation and amortization	(5,631)	(5,216)
Gains on sale/disposal of assets	88	37
Non-cash compensation expense	(5,616)	(4,290)
2012 recapitalization-related expenses		(252)
Income from operations	75,525	66,895
Interest income	42	154

Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

Interest expense	(20,945)	(32,250)
Income before provision for income taxes	\$ 54,622	\$ 34,799

Table of Contents

3. Earnings Per Share

	Fiscal Quarter Ended	
	March 24, 2013	March 25, 2012
Net income available to common stockholders basic and diluted	\$ 34,420	\$ 20,742
Basic weighted average number of shares	55,746,790	56,957,875
Earnings per share basic	\$ 0.62	\$ 0.36
Diluted weighted average number of shares	58,224,408	59,660,962
Earnings per share diluted	\$ 0.59	\$ 0.35

The denominator used in calculating diluted earnings per share for the first quarter of 2013 does not include 466,920 options to purchase common stock and the denominator used in calculating diluted earnings per share for the first quarter of 2012 does not include 170,330 options to purchase common stock, as the effect of including these options would have been anti-dilutive.

4. Stockholders' Deficit

The following table summarizes changes in Stockholders' Deficit for the first quarter of 2013.

	Common Stock		Additional Paid-in Capital	Retained Deficit	Accumulated Other Comprehensive Loss
	Shares	Amount			
Balance at December 30, 2012	56,313,249	\$ 563	\$ 1,664	\$ (1,335,364)	\$ (2,386)
Net income				34,420	
Common stock dividends				(11,263)	
Issuance of common stock, net	220,570	2			
Common stock effectively repurchased for required employee tax withholdings	(55,990)	(1)	(2,655)		
Purchases of common stock	(362,899)	(3)	(8,725)	(9,291)	
Exercise of stock options	153,290	2	1,526		
Tax impact from equity-based compensation			2,574		
Non-cash compensation expense			5,616		
Currency translation adjustment, net of tax					(51)
Balance at March 24, 2013	56,268,220	\$ 563	\$	\$ (1,321,498)	\$ (2,437)

5. Accumulated Other Comprehensive Loss

In 2013, the Company adopted Accounting Standards Update 2013-02, *Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*, which requires an entity to present either on the face of the statement where net income is presented or in the notes to the financial statements, significant amounts reclassified out of accumulated other comprehensive income (loss) by the respective line items of net income.

The approximately \$2.4 million of accumulated other comprehensive loss at both March 24, 2013 and December 30, 2012 represents currency translation adjustments, net of tax. During the first quarter of 2012, we reclassified \$0.8 million of losses related to a derivative instrument from accumulated other comprehensive loss to interest expense within the consolidated statement of income. The related income tax effect of \$0.3 million was classified to income tax expense in the consolidated statement of income. There were no reclassifications out of accumulated other comprehensive loss to net income in the first quarter of 2013.

6. Open Market Share Repurchase Program

Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

During the first quarter of 2013, the Company repurchased and retired 362,899 shares of common stock for a total of approximately \$18.0 million. As of March 24, 2013, the Company had approximately \$134.4 million remaining for future share repurchases under its Board of Directors approved \$200.0 million open market share repurchase program. Subsequent to the first quarter of 2013, the Company repurchased and retired an additional 32,205 shares of common stock for a total cost of approximately \$1.6 million. The Company did not repurchase any of its common stock in the first quarter of 2012.

Table of Contents

7. Fair Value Measurements

Fair value measurements enable the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The Company classifies and discloses assets and liabilities carried at fair value in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

The fair values of the Company's cash equivalents and investments in marketable securities are based on quoted prices in active markets for identical assets. The following tables summarize the carrying amounts and fair values of certain assets at March 24, 2013 and December 30, 2012:

	Carrying Amount	At March 24, 2013		
		Fair Value Estimated Using		
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Cash equivalents	\$ 62,473	\$ 62,473	\$	\$
Restricted cash equivalents	51,331	51,331		
Investments in marketable securities	2,329	2,329		

	Carrying Amount	At December 30, 2012		
		Fair Value Estimated Using		
		Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Cash equivalents	\$ 44,531	\$ 44,531	\$	\$
Restricted cash equivalents	50,591	50,591		
Investments in marketable securities	2,097	2,097		

At March 24, 2013, the Company estimates that the \$1.55 billion in principal amount of outstanding fixed rate notes had a fair value of approximately \$1.75 billion, and at December 30, 2012 the \$1.56 billion in principal amount of outstanding fixed rate notes had a fair value of approximately \$1.73 billion. The fixed rate notes are classified as a Level 2 measurement, as the Company estimated the fair value amount by using available market information. The Company obtained broker quotes from two separate brokerage firms that are knowledgeable about the Company's fixed rate notes and, at times, trade these notes. Further, the Company performs its own internal analysis based on the information it gathers from public markets, including information on notes that are similar to that of the Company. However, considerable judgment is required in interpreting market data to develop estimates of fair value. Accordingly, the fair value estimates presented here are not necessarily indicative of the amount that the Company or the debtholders could realize in a current market exchange. The use of different assumptions and/or estimation methodologies may have a material effect on the estimated fair value.

8. Dividends

During the first quarter of 2013, the Company's Board of Directors initiated a \$0.20 per share regular quarterly dividend on its outstanding common stock. The Company recorded \$11.1 million of dividends payable during the first quarter of 2013, which was subsequently paid on March 29, 2013. Additionally, during the first quarter of 2013, the Company recorded an estimated \$0.2 million of dividends payable for payments to be made as certain performance-based restricted stock grants vest in the future.

On April 23, 2013, the Company's Board of Directors declared a \$0.20 per share quarterly dividend on its outstanding common stock for shareholders of record as of June 14, 2013 to be paid on June 28, 2013.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.****(Unaudited; tabular amounts in millions, except percentages and store data)**

The 2013 and 2012 first quarters referenced herein represent the twelve-week periods ended March 24, 2013 and March 25, 2012, respectively.

Overview

We are the number one pizza delivery company in the United States based on reported consumer spending, and the second largest pizza company in the world based on number of units. We operate through a primarily franchised network of stores, located in all 50 states and in more than 70 international markets, as well as Company-owned stores, all of which are in the United States. In addition, we operate regional dough manufacturing and supply chain centers in the United States and Canada.

Our financial results are driven largely by retail sales at our franchise and Company-owned stores. Changes in retail sales are driven by changes in same store sales and store counts. We monitor both of these metrics very closely, as they directly impact our revenues and profits, and strive to consistently increase both metrics. Retail sales drive royalty payments from franchisees as well as Company-owned store and supply chain revenues. Retail sales are primarily impacted by the strength of the Domino's Pizza® brand, the results of our marketing promotions, our ability to execute our store operating model, the overall global economic environment and the success of our business strategies.

	First Quarter of 2013		First Quarter of 2012	
Global retail sales growth	9.4%		6.1%	
Same store sales growth:				
Domestic Company-owned stores	5.0%		1.6%	
Domestic franchise stores	6.3%		2.1%	
Domestic stores	6.2%		2.0%	
International stores	6.5%		4.7%	
Store counts (at end of period):				
Domestic Company-owned stores	388		387	
Domestic franchise stores	4,535		4,511	
Domestic stores	4,923		4,898	
International stores	5,407		4,912	
Total stores	10,330		9,810	
Income statement data:				
Total revenues	\$417.6	100.0%	\$ 384.6	100.0%
Cost of sales	287.8	68.9%	269.9	70.2%
General and administrative	54.3	13.0%	47.8	12.4%
Income from operations	75.5	18.1%	66.9	17.4%
Interest expense, net	(20.9)	(5.0)%	(32.1)	(8.4)%
Income before provision for income taxes	54.6	13.1%	34.8	9.0%
Provision for income taxes	20.2	4.9%	14.1	3.6%
Net income	\$ 34.4	8.2%	\$ 20.7	5.4%

During the first quarter of 2013, domestic same store sales increases were driven by our continued consumer offerings of higher quality food at value pricing, increased advertising to support our first quarter promotions that had high advertising scores, and incremental sales from New Year's Eve and New Year's Day that fell within the quarter this year. Internationally, we continued to have robust same store sales, which

Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

benefited from the inclusion of New Year's Eve and New Year's Day in the current year quarter, and store growth, as we opened a net 80 stores during the quarter. We believe that our strong global brand, quality and affordable food offerings, combined with our operators and innovative technology all contributed to our results during the first quarter of 2013. We intend to further grow our business by continuing to focus on operational excellence, effective promotions, industry-leading technology platforms and delivering high quality food and service to our customers.

Table of Contents

Global retail sales, which are total retail sales at franchise and Company-owned stores worldwide, increased 9.4% in the first quarter of 2013. This increase was driven primarily by domestic and international same store sales growth, as well as an increase in our worldwide franchise store counts during the trailing four quarters. This was offset, in part, by the negative impact of foreign currency exchange rates. Domestic same store sales growth reflected the sustained positive sales trends and the continued success of our products and promotions. International same store sales growth reflected continued strong performance in the markets where we compete. Additionally, the Company estimates that the same store sales increases for its domestic and international stores were each positively impacted by approximately 1% from having New Year's Eve and New Year's Day in its first quarter 2013 results. Fiscal 2012 began on January 2, 2012 and, therefore, did not include sales from these days in the same store sales results in the first quarter of 2012.

Revenues increased \$33.0 million, up 8.6% in the first quarter of 2013. This increase was due primarily to higher domestic supply chain revenues attributable to higher volumes from increased order counts, combined with higher cheese and other commodity prices, higher domestic franchise and Company-owned store revenues, and higher international revenues attributable to same store sales and store count growth. These increases were offset in part by the negative impact on international revenues of changes in foreign currency exchange rates. These changes in revenues are described in more detail below.

Income from operations increased \$8.6 million, up 12.9% in the first quarter of 2013. This increase was driven primarily by higher royalty revenues from both domestic and international franchise stores, higher supply chain margins and higher domestic Company-owned store margins. These increases were offset, in part, by the negative impact of the changes in foreign currency exchange rates and higher general and administrative expenses.

Net income increased \$13.7 million, up 65.9% in the first quarter of 2013. The increase was driven in part by domestic and international same store sales growth, international store count growth, higher supply chain margins and higher domestic Company-owned store margins and was offset in part by changes in foreign currency exchange rates. Additionally, during the first quarter of 2012, the Company incurred approximately \$6.5 million of net after-tax expenses in connection with the 2012 recapitalization and recorded a valuation allowance on a deferred tax asset of approximately \$0.9 million.

Revenues

	First Quarter of 2013		First Quarter of 2012	
Domestic Company-owned stores	\$ 81.1	19.4%	\$ 77.6	20.2%
Domestic franchise	51.3	12.3%	45.2	11.7%
Domestic supply chain	231.5	55.4%	214.1	55.7%
International	53.7	12.9%	47.6	12.4%
Total revenues	\$ 417.6	100.0%	\$ 384.6	100.0%

Revenues primarily consist of retail sales from our Company-owned stores, royalties from our domestic and international franchise stores and sales of food, equipment and supplies from our supply chain centers to substantially all of our domestic franchise stores and certain international franchise stores. Company-owned store and franchise store revenues may vary significantly from period to period due to changes in store count mix, while supply chain revenues may vary significantly as a result of fluctuations in commodity prices, primarily cheese and meats.

Domestic Stores Revenues

	First Quarter of 2013		First Quarter of 2012	
Domestic Company-owned stores	\$ 81.1	61.2%	\$ 77.6	63.2%
Domestic franchise	51.3	38.8%	45.2	36.8%
Domestic stores	\$ 132.4	100.0%	\$ 122.8	100.0%

Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

Domestic stores revenues increased \$9.6 million, up 7.8% in the first quarter of 2013. This increase was due primarily to higher domestic Company-owned same store sales and royalty revenues earned on higher franchise same store sales. These changes in domestic stores revenues are more fully described below.

Table of Contents**Domestic Company-Owned Stores Revenues**

Revenues from domestic Company-owned store operations increased \$3.5 million, up 4.5% in the first quarter of 2013. This increase was due primarily to higher same store sales during the first quarter of 2013. Domestic Company-owned same store sales increased 5.0% in the first quarter of 2013, compared to an increase of 1.6% in the first quarter of 2012.

Domestic Franchise Revenues

Revenues from domestic franchise operations increased \$6.1 million, up 13.5% in the first quarter of 2013. This increase was due primarily to higher domestic franchise same store sales and to a lesser extent, an increase in the average number of domestic franchise stores open during 2013. Domestic franchise same store sales increased 6.3% in the first quarter of 2013, compared to an increase of 2.1% in the first quarter of 2012. Additionally, during the first quarter of 2013, we contracted with a third party to manage our gift card program. In connection with this program change, we refined our assessment of our gift card liability and recorded approximately \$2.6 million of domestic franchise revenue and reimbursed approximately \$1.8 million to our national advertising fund, as discussed further below in general and administrative expenses.

Domestic Supply Chain Revenues

Revenues from domestic supply chain operations increased \$17.4 million, up 8.1% in the first quarter of 2013. This increase was due primarily to higher volumes as a result of increased order counts at the store level, higher overall commodity prices, including cheese, and a change in the mix of products sold. The published cheese block price-per-pound averaged \$1.67 in the first quarter of 2013, up from \$1.52 in the comparable period in 2012. We estimate that the higher cheese block price resulted in an approximate \$3.0 million increase in domestic supply chain revenues during the quarter.

International Revenues

	First Quarter of 2013		First Quarter of 2012	
International royalty and other	\$ 29.9	55.7%	\$ 26.0	54.7%
International supply chain	23.8	44.3%	21.6	45.3%
International	\$ 53.7	100.0%	\$ 47.6	100.0%

International revenues primarily consist of royalties from our international franchise stores and international supply chain sales. Revenues from international operations increased \$6.1 million, up 12.7% in the first quarter of 2013. These increases were due primarily to higher international royalty and other revenues as well as higher international supply chain revenues, offset in part by the negative impact of changes in foreign currency exchange rates, as discussed below.

Revenues from international royalties and other revenues increased \$3.9 million, up 14.7% in the first quarter of 2013. This increase was due primarily to higher same store sales and more international stores being open during 2013, offset in part by the negative impact of changes in foreign currency exchange rates of approximately \$0.5 million. On a constant dollar basis (which excludes the impact of foreign currency exchange rates), same store sales increased 6.5% in the first quarter of 2013, compared to an increase of 4.7% in the first quarter of 2012. On a historical dollar basis (which includes the impact of foreign currency exchange rate changes), same store sales increased 4.5% in the first quarter of 2013, compared to an increase of 2.9% in the first quarter of 2012. The variance in our same store sales on a constant dollar basis versus a historical dollar basis in 2013 was caused by the stronger dollar when compared to the currencies in the international markets in which we compete.

Revenues from international supply chain operations increased \$2.2 million, up 10.3% in the first quarter of 2013 due primarily to higher volumes.

Cost of Sales / Operating Margin

Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

	First Quarter of 2013		First Quarter of 2012	
Total revenues	\$ 417.6	100.0%	\$ 384.6	100.0%
Total cost of sales	287.8	68.9%	269.9	70.2%
Operating margin	\$ 129.8	31.1%	\$ 114.6	29.8%

Table of Contents

Total cost of sales consists primarily of domestic Company-owned store and domestic supply chain costs incurred to generate related revenues. Components of total cost of sales primarily include food, labor and occupancy costs.

The operating margin, which we define as total revenues less total cost of sales, increased \$15.2 million, up 13.2% in the first quarter of 2013. This increase in the operating margin was due primarily to higher domestic and international franchise revenues, higher supply chain margins and higher margins at our Company-owned stores. Franchise revenues do not have a cost of sales component and, as such, changes in franchise revenues have a disproportionate effect on the operating margin.

As a percentage of revenues, the operating margin increased 1.3 percentage points in the first quarter of 2013. This increase was due primarily to a change in our mix of revenues, higher supply chain margins and higher Company-owned stores operating margins, offset in part by higher overall commodity prices, including cheese.

As indicated above, the operating margin as a percentage of total revenues was negatively impacted by higher cheese costs. Cheese price changes are a pass-through in domestic supply chain revenues and cost of sales and, as such, have no impact on the related operating margin as measured in dollars. However, cheese price changes do impact operating margin when measured as a percentage of revenues. For example, if the 2013 average cheese prices had been in effect during 2012, the impact on supply chain margins would have caused the operating margin for the first quarter of 2012 to be approximately 29.6% of total revenues versus the reported 29.8%. However, the dollar margins for those same periods would have been unaffected.

Domestic Company-Owned Stores Operating Margin

	First Quarter of 2013		First Quarter of 2012	
Domestic Company-Owned Stores				
Revenues	\$ 81.1	100.0%	\$ 77.6	100.0%
Cost of sales	61.3	75.6%	59.3	76.4%
Store operating margin	\$ 19.8	24.4%	\$ 18.3	23.6%

The domestic Company-owned store operating margin, which does not include certain store-level costs such as royalties and advertising, increased \$1.5 million, up 8.1% in the first quarter of 2013. This increase was due primarily to higher same store sales.

As a percentage of store revenues, the store operating margin increased 0.8 percentage points in the first quarter of 2013. Labor and related costs decreased 0.6 percentage points to 28.1% in the first quarter of 2013 due primarily to leveraging the higher sales per store. Occupancy costs (which include rent, telephone, utilities and depreciation) decreased 0.5 percentage points to 8.7% in the first quarter of 2013 due primarily to the positive impact of higher sales per store during the first quarter of 2013, and to a lesser extent, lower utilities and depreciation costs per store. Insurance costs decreased 0.4 percentage points to 2.9% in the first quarter of 2013 due to better experience. Food costs increased 1.0 percentage point to 27.7% in the first quarter of 2013 due primarily to higher cheese and other commodity prices. The cheese block price per pound averaged \$1.67 in the first quarter of 2013 compared to \$1.52 in the first quarter of 2012.

Domestic Supply Chain Operating Margin

	First Quarter of 2013		First Quarter of 2012	
Domestic Supply Chain				
Revenues	\$ 231.5	100.0%	\$ 214.1	100.0%
Cost of sales	205.4	88.7%	191.5	89.4%
Supply Chain operating margin	\$ 26.1	11.3%	\$ 22.6	10.6%

The domestic supply chain operating margin increased \$3.5 million, up 15.6% in the first quarter of 2013, due primarily to higher volumes resulting from higher order counts at the store level and a change in the mix of the products sold.

Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

As a percentage of supply chain revenues, the supply chain operating margin increased 0.7 percentage points in the first quarter of 2013, due primarily to the positive impact of product mix and higher volumes, offset in part by higher commodity costs. Increases in certain food prices have a negative effect on the domestic supply chain operating margin percent due to the fixed dollar margin earned by domestic supply chain on certain food items. Had the 2013 cheese prices been in effect during 2012, the domestic supply chain operating margin as a percentage of domestic supply chain revenues would have been approximately 10.4% for the first quarter of 2012 versus the reported 10.6%. However, the dollar margins for those same periods would have been unaffected.

Table of Contents**General and Administrative Expenses**

General and administrative expenses increased \$6.5 million, up 13.7% in the first quarter of 2013. General and administrative expenses include a reimbursement of approximately \$1.8 million during the first quarter of 2013 to our national advertising fund related to their historical costs to support the Company's gift card program, as discussed above in domestic franchise revenues, as well as an increase in non-cash compensation expense of \$1.3 million and an increase in variable performance-based compensation expenses of approximately \$1.2 million. Additionally, we continued our investments in technology and international initiatives, which also increased general and administrative expenses during the quarter compared to the prior year quarter.

Interest Expense

Interest expense decreased \$11.3 million to \$20.9 million in the first quarter of 2013. This decrease was due primarily to approximately \$10.2 million of additional interest expense incurred in the first quarter of 2012 related to the 2012 recapitalization, primarily the write-off of deferred financing fees in connection with the retirement of our previous debt facility.

The Company's cash borrowing rate was 5.3% during the first quarter of 2013, 0.7 percentage points lower than the first quarter in 2012, due primarily to the completion of the 2012 recapitalization during the first quarter of 2012. The Company's average outstanding debt balance, excluding capital lease obligations, decreased slightly to \$1.55 billion in the first quarter of 2013 compared to \$1.60 billion in the first quarter of 2012.

Provision for Income Taxes

Provision for income taxes increased \$6.1 million to \$20.2 million in the first quarter of 2013, due primarily to higher pre-tax income. The effective tax rate decreased 3.4 percentage points to 37.0% during the first quarter of 2013, from 40.4% in the comparable period in 2012. The 40.4% effective rate in the first quarter of 2012 was due primarily to a valuation allowance recorded on a deferred tax asset of approximately \$0.9 million.

Summary of Recapitalization Expenses

The following table presents total recapitalization-related expenses incurred during the first quarter of 2012. These pre-tax expenses affect comparability between the periods presented for 2013 and 2012.

<i>(in millions)</i>	First Quarter of 2012
2012 recapitalization expenses:	
General and administrative expenses (1)	\$ 0.3
Additional interest expense (2)	10.2
Total of 2012 recapitalization expenses (pre-tax)	\$ 10.5
Total of 2012 recapitalization expenses (after-tax)	\$ 6.5

- (1) Primarily includes stock compensation expenses, payroll taxes related to the payments made to certain stock option holders, legal and professional fees incurred in connection with the recapitalization.
- (2) Primarily includes the write-off of deferred financing fees. Additionally, we incurred \$2.1 million of interest expense on the 2007 borrowings subsequent to the closing of the 2012 recapitalization but prior to the repayment of the 2007 borrowings, essentially paying interest on both the 2007 and 2012 facilities for a period of time.

Liquidity and Capital Resources

Edgar Filing: DOMINOS PIZZA INC - Form 10-Q

As of March 24, 2013, we had working capital of \$23.6 million, excluding restricted cash and cash equivalents of \$61.4 million, and including unrestricted cash and cash equivalents of \$75.1 million. Historically, we have operated with minimal positive working capital, or negative working capital, primarily because our receivable collection periods and inventory turn rates are faster than the normal payment terms on our current liabilities. We generally collect our receivables within three weeks from the date of the related sale, and we generally experience 30 to 40 inventory turns per year. In addition, our sales are not typically seasonal, which further limits our working capital requirements. These factors, coupled with servicing our debt obligations, investing in our business and repurchasing our common stock, all of which are generally funded by ongoing cash flows from operations, also reduce our working capital amounts. As of March 24, 2013, we had approximately \$39.8 million of restricted cash held for future principal and interest payments, \$21.3 million of restricted cash held in a three month interest reserve as required by the related debt agreements and \$0.3 million of other restricted cash, for a total of \$61.4 million of restricted cash and cash equivalents.

Table of Contents

As of March 24, 2013, we had approximately \$1.55 billion of long-term debt, of which \$24.2 million was classified as a current liability. Additionally, as of March 24, 2013, we had \$37.8 million of outstanding letters of credit and \$62.2 million of available capacity under our \$100.0 million variable funding notes. The letters of credit are primarily related to our casualty insurance programs and supply chain center leases. Borrowings under the variable funding notes are available to fund our working capital requirements, capital expenditures and other general corporate purposes. Our primary source of liquidity is cash flows from operations and availability of borrowings under our variable funding notes.

The Company used cash of approximately \$18.0 million during the first quarter of 2013 for the repurchase and retirement of 362,899 shares of common stock. As of March 24, 2013, we had approximately \$134.4 million remaining for future share repurchases under the current Board of Directors approved \$200.0 million open market share repurchase program. Subsequent to the first quarter of 2013, the Company repurchased and retired an additional 32,205 shares of common stock for a total of approximately \$1.6 million. We continue to maintain our flexibility to use ongoing excess cash flow generation and (subject to certain restrictions in the documents governing the variable funding notes) availability under the variable funding notes for, among other things, the repurchase of shares under the current authorized program, the payment of dividends and other corporate uses.

During the first quarter of 2013, the Company's Board of Directors initiated a \$0.20 per share regular quarterly dividend on its outstanding common stock. The Company recorded \$11.1 million of dividends payable during the first quarter of 2013, which was subsequently paid on March 29, 2013. Additionally, during the first quarter of 2013, the Company recorded an estimated \$0.2 million of dividends payable for payments to be made as certain performance-based restricted stock grants vest in the future. On April 23, 2013, the Company's Board of Directors declared a \$0.20 per share quarterly dividend for shareholders of record as of June 14, 2013 to be paid on June 28, 2013.

During the first quarter of 2013, we experienced strong increases in both domestic and international same store sales versus the comparable periods in the prior year. Additionally, our international business continued to grow store counts in the first quarter of 2013. Both domestic supply chain and Company-owned stores produced higher margins versus the first quarter of 2012. These factors have contributed to our continued ability to generate positive operating cash flows. We expect to use our unrestricted cash and cash equivalents, ongoing cash flows from operations and available borrowings under the variable funding notes to, among other things, fund working capital requirements, invest in our core business, service our indebtedness, pay dividends and repurchase our common stock. We have historically funded our working capital requirements, capital expenditures, debt repayments and repurchases of common stock primarily from our cash flows from operations and, when necessary, our available borrowings under variable funding note facilities. The Company believes its current unrestricted cash and cash equivalents balance and its expected ongoing cash flows from operations will be sufficient to fund operations for at least the next twelve months. We did not have any material commitments for capital expenditures as of March 24, 2013.

Cash provided by operating activities was \$47.6 million in the first quarter of 2013 and \$20.2 million in the first quarter of 2012. The \$27.4 million increase was due primarily to a \$17.5 million net change in operating assets and liabilities, due primarily to the timing of payments of current operating liabilities. Cash provided by operating activities was also positively impacted by a \$9.9 million increase in net income, excluding non-cash adjustments versus the prior year period, resulting primarily from our improved operating performance.

Cash used in investing activities was \$4.3 million in the first quarter of 2013 and cash provided by investing activities was \$42.5 million in the first quarter of 2012. The \$46.8 million change was due primarily to a \$46.7 million change in restricted cash and cash equivalents driven by lower restricted cash reserve requirements as a result of the 2012 recapitalization.

Cash used in financing activities was \$23.1 million in the first quarter of 2013 and cash provided by financing activities was \$102.6 million in the first quarter of 2012. The \$125.7 million change was due primarily to \$1.6 billion of proceeds from issuance of the 2012 debt facility offset by \$1.4 billion of repayments of the 2007 debt facilities and \$31.2 million of cash paid for financing costs, all of which resulted from our 2012 recapitalization. During the first quarter of 2013, \$18.0 million of cash was used to repurchase shares of the Company's common stock and no repurchases were made during the first quarter of 2012.

Table of Contents

Based upon the current level of operations and anticipated growth, we believe that the cash generated from operations, our current unrestricted cash and cash equivalents and amounts available under our variable funding notes will be more than adequate to meet our anticipated debt service requirements, capital expenditures and working capital needs for at least the next twelve months. Our ability to continue to fund these items and continue to reduce debt could be adversely affected by the occurrence of any of the events described under Risk Factors in our filings with the Securities and Exchange Commission. There can be no assurance, however, that our business will generate sufficient cash flows from operations or that future borrowings will be available under the variable funding notes or otherwise to enable us to service our indebtedness, or to make anticipated capital expenditures. Our future operating performance and our ability to service, extend or refinance the fixed rate notes and to service, extend or refinance the variable funding notes will be subject to future economic conditions and to financial, business and other factors, many of which are beyond our control.

Forward-Looking Statements

This filing contains forward-looking statements. You can identify forward-looking statements because they contain words such as believes, expects, may, will, should, seeks, approximately, intends, plans, estimates, or anticipates or similar expressions that concern our future or intentions. Forward-looking statements relating to our anticipated profitability, estimates in same store sales growth, the growth of our international business, ability to service our indebtedness, our operating performance, trends in our business and other descriptions of future events reflect the Company's expectations based upon currently available information and data. However, actual results are subject to future risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such forward-looking statements. The risks and uncertainties that could cause actual results to differ materially include: the level of and our ability to refinance our long-term and other indebtedness; the uncertainties relating to litigation; consumer preferences, spending patterns and demographic trends; the effectiveness of our advertising, operations and promotional initiatives; the strength of our brand in the markets in which we compete; our ability to retain key personnel; new product and concept developments by us, and other food-industry competitors; the ongoing level of profitability of our franchisees; our ability and that of our franchisees to open new restaurants and keep existing restaurants in operation; changes in food prices, particularly cheese, labor, utilities, insurance, employee benefits and other operating costs; the impact that widespread illness or general health concerns may have on our business and the economy of the countries where we operate; severe weather conditions and natural disasters; changes in our effective tax rate; changes in government legislation and regulations; adequacy of our insurance coverage; costs related to future financings; our ability and that of our franchisees to successfully operate in the current credit environment; changes in the level of consumer spending given the general economic conditions including interest rates, energy prices and weak consumer confidence; availability of borrowings under our variable funding notes and our letters of credit; and changes in accounting policies. Important factors that could cause actual results to differ materially from our expectations are more fully described in our other filings with the Securities and Exchange Commission, including under the section headed Risk Factors in our annual report on Form 10-K. Except as required by applicable securities law, we do not undertake to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Market Risk

The Company is exposed to market risk from interest rate changes on our variable rate debt, which consists of variable funding note borrowings that are outstanding from time to time. The Company actively monitors this exposure when present. As of March 24, 2013, we had no outstanding variable funding note borrowings and \$62.2 million available for borrowing, which is net of letters of credit of \$37.8 million. Our outstanding fixed rate notes, which comprise substantially all of our outstanding borrowings, contain fixed interest rates until January 2019. We do not engage in speculative transactions nor do we hold or issue financial instruments for trading purposes.

The Company is exposed to market risk from changes in commodity prices. During the normal course of business, we purchase cheese and certain other food products that are affected by changes in commodity prices and, as a result, we are subject to volatility in our food costs. We may periodically enter into financial instruments to manage this risk. We do not engage in speculative transactions nor do we hold or issue financial instruments for trading purposes. In instances where we use fixed pricing agreements with our suppliers, we use these agreements to cover our physical commodity needs; the agreements are not net-settled and are accounted for as normal purchases.

The Company is exposed to various foreign currency exchange rate fluctuations for revenues generated by operations outside the United States, which can adversely impact net income and cash flows. Total revenues of approximately 12.9% in the first quarter of 2013 and 12.4% in the first quarter of 2012 were derived from sales to customers and royalties from franchisees outside the contiguous United States. This business is conducted in the local currency but royalty payments are generally remitted to us in U.S. dollars. We do not enter into financial instruments to manage this foreign currency exchange risk. A hypothetical 10% adverse change in the foreign currency rates in each of our top ten international markets, based on store count, would have resulted in a negative impact on royalty revenues of approximately \$2.2 million in the first quarter of 2013.

Item 4. Controls and Procedures.

Management, with the participation of the Company's President and Chief Executive Officer, J. Patrick Doyle, and Executive Vice President and Chief Financial Officer, Michael T. Lawton, performed an evaluation of the effectiveness of the Company's disclosure controls and procedures (as that term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based on that evaluation, Mr. Doyle and Mr. Lawton concluded that the Company's disclosure controls and procedures were effective.

During the quarterly period ended March 24, 2013, there were no changes in the Company's internal controls over financial reporting that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings.**

We are a party to lawsuits, revenue agent reviews by taxing authorities and administrative proceedings in the ordinary course of business which include, without limitation, workers' compensation, general liability, automobile and franchisee claims. We are also subject to suits related to employment practices.

While we may occasionally be party to large claims, including class action suits, we do not believe that these matters, individually or in the aggregate, will materially affect our financial position, results of operations or cash flows.

Item 1A. Risk Factors.

There have been no material changes in the risk factors previously disclosed in the Company's Form 10-K for the fiscal year ended December 30, 2012.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

c. Purchases of Equity Securities by the Issuer and Affiliated Purchasers.

Period	(a) Total Number of Shares Purchased (1)	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Program (2)	(d) Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program
Period #1 (December 31, 2012 to January 27, 2013)	1,492	\$ 43.55		\$ 152,378,451
Period #2 (January 28, 2013 to February 24, 2013)	7,315	46.58		152,378,451
Period #3 (February 25, 2013 to March 24, 2013)	365,404	49.64	362,899	134,360,169
Total	374,211	\$ 49.55	362,899	\$ 134,360,169

(1) Includes 11,312 shares purchased as part of the Company's employee stock purchase discount plan. During the first quarter, the shares were purchased at an average price of \$46.41. All of the remaining shares presented were purchased pursuant to the publicly announced program.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.
