Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, or the Exchange Act, requires our officers and directors and persons who beneficially own more than 10% of our outstanding shares of common stock or Series B preferred stock to file reports of ownership and changes in ownership with the Securities and Exchange Commission and the New York Stock Exchange. Such persons are required by applicable regulations to furnish us with copies of all reports filed pursuant to Section 16(a).

To our knowledge, based solely on a review of the copies of such reports received by us and certain written representations that no other reports were required, we believe that for the fiscal year ended December 31, 2012, all of our officers, directors and 10% beneficial owners complied with the requirements of Section 16(a).

ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This Compensation Discussion and Analysis discusses the compensation paid to our named executive officers. Based on 2012 total compensation, our named executive officers are:

Ron Zwanziger, Chief Executive Officer, or our CEO;

Dave Teitel, Chief Financial Officer, Vice President and Treasurer, or our CFO;

Namal Nawana, Chief Operating Officer, or our COO;

David Scott, Ph.D., our Chief Scientific Officer; and

Jerry McAleer, Ph.D., our Senior Vice President, Research and Development.

For purposes of this Compensation Discussion and Analysis, we refer to Mr. Zwanziger, Dr. Scott and Dr. McAleer as our key executives.

Philosophy and Objectives

The objective of our executive compensation program for 2012 was to attract, retain and motivate the talented and dedicated executives who were critical to our goals of continued growth, innovation, increasing profitability and, ultimately, maximizing stockholder value. Specifically, we sought to attract and reward executives who displayed certain fundamental leadership characteristics that we had identified as consistent with our corporate goals and culture. We provided these executives with what we believed to be a competitive total compensation package, consisting primarily of base cash compensation, performance-based incentive compensation packages, including both equity and cash components, and a broad-based benefits program. Our 2012 compensation program was designed to reward each executive's individual performance by considering generally their past and potential contributions to our achievement of key strategic goals, such as revenue generation, margin improvement and the establishment and maintenance of key strategic relationships. These performance factors were used to determine whether the

Edgar Filing: ALERE INC. - Form 10-K/A

performance-based incentive compensation awards would be granted to each executive. Our 2012 executive compensation program aimed to provide a risk-balanced compensation package which was competitive in our market sector and, more importantly, relevant to the individual executive. In addition, in accordance with the Dodd-Frank Wall Street Reform and Consumer Protection Act, at our 2012 annual meeting of stockholders, we submitted a non-binding, advisory proposal to our stockholders to approve the compensation paid to our named executive officers. Ninety-nine percent of our stockholders who cast votes with respect to that proposal supported our executive compensation practices, as set forth in our 2012 proxy statement. Our Compensation Committee interpreted the results of this advisory vote as a strong affirmation of our executive compensation practices. Given that our Compensation Committee implemented our executive compensation program for 2012 before the date of our 2012 annual meeting of stockholders, the Compensation Committee could not have considered the results of this advisory vote in establishing our executive compensation program for 2012. However, the Compensation Committee was aware of the results of the advisory vote at the time it assessed achievement of the performance goals established as part of our 2012 executive compensation program, which are described in more detail below.

Table of Contents

Our policy for allocating between base cash compensation and incentive compensation for 2012 was to ensure adequate base compensation to attract and retain personnel, while providing incentives to maximize value for our company and our stockholders. For 2012, we provided (i) base cash compensation to meet competitive cash compensation norms and (ii) performance-based compensation that included the potential for the executives to earn cash-based and stock-based awards to reward superior performance against annual strategic targets and long-term stock price appreciation. Our Compensation Committee believed that this compensation structure would appropriately focus our executives' attention on both current-year performance targets, which are critical to achievement of our stated corporate objectives, and long-term stock price appreciation.

Executive Compensation Process

The compensation of our named executive officers, as well as our other executive officers, has been reviewed by our Compensation Committee at least annually for consistency with our compensation philosophy and objectives. Our management, including our CEO, has participated in this review by making its own recommendations as to the base cash compensation and performance-based compensation of our executive officers to the Compensation Committee. The Compensation Committee has considered the recommendations of management in assessing executive compensation, but from time to time it has also gathered and relied on other data and resources, and from time to time has utilized the services of a compensation consultant in reviewing and determining executive compensation.

In reviewing executive compensation during 2012, the Compensation Committee and management considered the practices of companies of similar size, geographic location and market focus. For this purpose, management and the Compensation Committee utilized the 2011 Radford Global Life Sciences Survey, or the 2011 Radford Survey, which provided comprehensive baseline compensation data on positions at the executive, management and professional levels, including base cash compensation, total cash compensation, options and other equity compensation, for 600 multinational life sciences companies. Our management and Compensation Committee also collected and analyzed other publicly-available compensation data and subscription compensation survey data and used this information in determining executive compensation. While benchmarking may not always be appropriate as a stand-alone tool for setting compensation due to the aspects of our business and objectives that may be unique to us, we generally believe that gathering this compensation information is an important part of our compensation-related decision-making process.

During 2012, the Compensation Committee also engaged a compensation consultant, Aon Consulting's Radford Surveys + Consulting, or Radford, to assist the committee in assessing total compensation of our key executives. As part of its engagement, Radford assisted the Compensation Committee in reviewing the peer group of companies used by our Compensation Committee in assessing the competitiveness of the compensation of our key executives. The peer group selected by the Compensation Committee for purposes of evaluating compensation of the key executives consisted of twenty publicly-traded companies in a similar industry space and with similar revenues and market capitalizations. Our peer group did not change from 2011 to 2012. Of the peer group companies, 26% were health management companies and 74% were diagnostics/medical equipment companies. Specifically, the peer group consisted of the following companies:

Beckman Coulter, Inc.

Becton Dickinson and Company

Bio-Rad Laboratories, Inc.

Catalyst Health Solutions, Inc.

C.R. Bard, Inc.

Edwards Lifesciences LLC

Gen-Probe Incorporated

Healthways, Inc.

In connection with its engagement, Radford provided a detailed report, the Radford Report, which included summary observations and considerations regarding our compensation philosophy and methodology, as well as detailed competitive assessments of the cash and equity compensation of the key executives.

In 2012, pursuant to our Annual Executive Incentive Compensation Process, or the Annual Incentive Process, we offered annual performance-based incentive compensation packages under which a broad group of executives and managers worldwide, including Mr. Teitel, were eligible to receive stock-based awards, consisting of performance options, and cash awards based on the achievement of stated performance conditions. The performance options have an exercise price of \$25.43 per share representing the closing price for the Company's common stock on the date of grant, February 29, 2012. The performance options will vest over 4 years in equal annual installments commencing one year from the grant date, subject to satisfaction of a number of corporate and, in some cases, business-level performance criteria applicable to calendar year 2012 performance. The performance criteria for the performance options were consistent with the definition of performance criteria set forth in the 2010 Plan and included an earnings per share target, an organic growth target and, in the case of certain executive officers, a return on investment capital target, as well as other performance criteria which vary from individual to individual. In the case of performance options for which some, but not all, of the performance criteria were satisfied, the Compensation Committee retained the discretion to permit a reduced number of the options to vest. The performance options have a term of ten years from the date of grant. The Compensation Committee also granted a contingent, performance-based cash award, or a Cash Award, to each executive and manager who received a performance option. Each Cash Award, if earned, would have entitled the recipient to receive a cash payment equal to the appreciation, if any, of our stock price during 2012 multiplied by the number of shares subject to the performance options granted to that person and would have been payable in 2 equal annual installments commencing one year from the grant date.

Adoption of the Annual Incentive Process was not intended to preclude the Compensation Committee from making equity or other awards outside of this process in appropriate circumstances, and the process is expected to evolve from year to year. In addition, the Compensation Committee expects to continue to make grants under our stockholder-approved stock option and incentive plans, or our Option Plans, outside of the Annual Incentive Process in connection with changes in responsibility, significant accomplishments, new hires and in other appropriate circumstances.

In determining each component of an executive's compensation under our processes, numerous factors particular to the executive were considered, including:

The executive's particular background, including prior relevant work experience;

The demand for individuals with the executive's specific expertise and experience;

The executive's role with us and the compensation paid to similar persons determined through benchmark studies, such as the Radford Report;

The executive's performance and contribution to our achievement of corporate goals and objectives; and

Comparison to our other executives.

Elements of Compensation

For 2012, executive compensation consisted of the following elements:

Base Cash Compensation. Base cash compensation was established based on the factors discussed above. We sought to ensure that the base cash compensation of our executives would be competitive by targeting annual base salary for a particular individual near the average of the range of annual cash compensation (base cash compensation plus annual non-equity incentive compensation) for executives in similar positions with similar responsibilities at comparable companies. Other elements of compensation, including past and present grants of stock-based awards, were also considered. The salary and sign-on bonus to Mr. Nawana were considered and approved as appropriate incentives to entice Mr. Nawana to leave his prior employment. The Compensation Committee believed that competitive base cash compensation was necessary

Table of Contents

to attract and retain a management team with the requisite skills to lead our company. In 2012, based on its analysis of our salary objectives, the various factors discussed above, and the 2011 Radford Survey, and considering the total compensation of our named executive officers, the annual base salary paid to Mr. Teitel was increased from \$375,000 to \$400,000. In approving the base salary increase for Mr. Teitel, the Compensation Committee considered an analysis of total compensation for comparable executives as well as his background, expertise and experience, and individual performance and past contributions to our overall goals and objectives. While many of these factors are subjective measures, and are not based on any stated quantified objectives, they played an important role in the Compensation Committee's decision-making process. These subjective factors were considered in the aggregate and, accordingly, no specific factor played a greater role in determining the increase in Mr. Teitel's base salary. The Compensation Committee did not adjust the base salaries of the other named executive officers during 2012.

Stock Options and Stock-based Awards. For 2012, our Compensation Committee believed that the use of stock options and other stock-based awards would continue to offer the best approach to achieving our long-term compensation goals. Consistent with this belief, our Option Plans were established to provide certain of our employees, including our executive officers, with incentives to help align those employees' interests with the interests of stockholders and with our long-term success. While our Option Plans allow our Compensation Committee to grant a number of different types of stock-based awards, we have relied exclusively on stock options to provide equity incentive compensation to our executive officers, other than one restricted stock grant made to Mr. Zwanziger in 2001 and one restricted stock grant made to Mr. Nawana at the time of his hiring in December 2012, which is more fully described below. Stock options granted to our executive officers have historically had an exercise price equal to the fair market value of our common stock on the grant date, except for certain grants of options to our key executives in July 2008, February 2010 and July 2012 that had exercise prices above the fair market value of our common stock on the grant date. Our stock options have typically vested 25% per annum based upon continued employment over a four-year period, and generally have had terms expiring ten years after the date of grant. Stock option grants to our executive officers have been made in connection with the commencement of employment, in conjunction with an annual review of total compensation and, occasionally, following a significant change in job responsibilities or to meet other special retention or performance objectives. While our Compensation Committee expects to continue to grant stock options on an ad hoc basis as circumstances warrant (consistent with the granting policy described below), in the future we expect that stock option awards will primarily be granted to our named executive officers as part of the Annual Incentive Process. Proposals to grant stock options to our executive officers in 2012, including those made in connection with the Annual Incentive Process, were made by our CEO to the Compensation Committee. With respect to proposals for grants made to our executive officers in 2012, the Compensation Committee reviewed consultant reports, as discussed above, individual performance, the executive's existing compensation and other retention considerations. The Compensation Committee considered the estimated Black-Scholes valuation of each proposed stock option grant in determining the number of options subject to each grant in 2012. Generally, 2012 stock option grants for each named executive officer were based on the factors discussed above and were intended to be valued near the average of the range of the value of long-term incentive awards for executives in similar positions with similar responsibilities at comparable companies, although other elements of compensation, including salary, were also considered.

Generally, stock option grants to executive officers have been made in conjunction with meetings of the Board of Directors. In 2012, grants were made in accordance with the Board's previously adopted stock option granting policy, which includes the following elements:

Options to purchase shares of our common stock shall be granted effective as of the last calendar day of the following months: February, April, June, August, October and December (each such date, a "Grant Date");

For each employee (or prospective employee) that is not (or, upon hire, will not be) subject to Section 16 of the Exchange Act, the CEO shall have the authority to grant, in his sole discretion, an option or options to purchase up to an aggregate of 5,000 shares of common stock (on an annual basis); provided, however, that the total number of shares of common stock underlying such option grants shall not exceed 150,000 per calendar year.

Grants of options to existing employees, shall be effective as of, and the grant date thereof shall for all purposes be deemed to be, the Grant Date following the date of approval (except that any grants subject to stockholder approval shall be effective as of the date of stockholder approval).

Options approved for new hires, including those hired through acquisitions, shall be effective as of, and the grant date thereof shall for all purposes be deemed to be, the Grant Date following the later of (i) the date of such approval or (ii) the date on which the new hire's employment commences.

We have not adopted stock ownership guidelines for our executive officers.

Table of Contents

For 2012, Mr. Teitel participated in the Annual Incentive Process and was awarded a performance-based compensation package based upon 7,500 shares of our common stock, consisting of stock options and a Cash Award. There were numerous performance conditions applicable to the awards to Mr. Teitel, all of which had to be satisfied in order for the awards to vest in full. These performance conditions included an earnings per share target of \$2.56, an organic growth target of 4% and ensuring accurate, timely and proper financial reporting related to company performance. The first two performance goals were not fully met, and as a result, Mr. Teitel's performance-based option vested only as to 375 shares of our common stock. Because our stock price declined during 2012, the accompanying Cash Award had no value.

For 2012, our Compensation Committee decided that our key executives should receive stock options only if the grant of those options were specifically approved by our stockholders. At our annual meeting of stockholders in July 2012, our stockholders approved the grant to Mr. Zwanziger, Dr. Scott and Dr. McAleer of options to purchase 490,000, 175,000 and 150,000 shares, respectively. While the closing price of our common stock on the date of grant was \$19.00, these options were granted with a premium exercise price of \$50.00. Due to the premium exercise price and the fact that the price of our common stock would need to increase almost 165% in order for these option grants to be in the money, the Board and Compensation Committee considered these grants to be stronger incentives for the generation and maintenance of long-term appreciation of our stock price than standard options grants and in the best interest of our stockholders. More than 93% of our stockholders who cast votes with respect to this proposal in 2012 supported these option grants.

On December 30, 2012, in connection with his appointment as our Chief Operating Officer, Mr. Nawana was granted 110,000 restricted stock units, or RSUs, as follows: 5,000 RSUs to vest one year after the grant date, 5,000 RSUs to vest two years after the grant date, and 100,000 RSUs to vest three years after the grant date. If Mr. Nawana's employment is involuntarily terminated without cause within three years, his RSUs will accelerate and fully vest. The RSUs will also accelerate and fully vest if Mr. Nawana terminates his employment voluntarily after one year, other than in the presence of facts or circumstances which would constitute cause for termination by us. On that date, Mr. Nawana was also granted, effective December 31, 2012, an option to purchase 200,000 shares of our common stock at an exercise price of \$18.50, the closing price of our common stock on December 31, 2012. The Compensation Committee considered these grants to be appropriate incentives to entice Mr. Nawana to leave his prior employment employer and accept our offer to serve as our Chief Operating Officer. The Compensation Committee also considered an analysis of total compensation for comparable executives based on Mr. Nawana's expected role, in which he would be responsible for all of our world-wide commercial, research and development, and operational functions, the estimated Black-Scholes valuation of the RSU and stock option grants, as well as information available to the Compensation Committee regarding Mr. Nawana's background, expertise, experience and performance in other companies. While many of these factors are subjective measures, and are not based on any stated quantified objectives, they played an important role in the Compensation Committee's decision-making process. These subjective factors were considered in the aggregate and, accordingly, no specific factor played a greater role in determining the grants.

Bonuses. Cash bonuses and other non-equity incentive compensation have not historically been a regular or important element of our executive compensation strategy; instead, our Compensation Committee has focused on stock-based awards designed to reward long-term performance. While the Compensation Committee generally remains committed to this strategy, the Annual Incentive Process established during 2012 did provide for cash awards, vesting over two years, if performance targets were met during the target year. The primary purpose of the Cash Awards was to further incent executives to achieve shorter-term results based upon the price appreciation of our common stock during the performance period. Because our stock price declined during 2012, the Cash Awards had no value.

Other Compensation. None of our named executive officers is entitled to receive any payment upon a change in control of our company or a termination of his employment with us, except as described above with respect to the RSUs granted to Mr. Nawana. Our named executive officers' service with our company is at will. The named executive officers were not eligible to participate in, and did not have any accrued benefits under, any company-sponsored defined benefit pension plan in 2012. They were eligible to, and in some case did, participate in defined contribution plans, such as a 401(k) plan, on the same terms as other employees. The terms of these defined contribution plans varied depending on the jurisdiction of employment of the executive. In addition, consistent with our compensation philosophy, the Compensation Committee maintained in 2012 generally the same benefits and perquisites for our executive officers as in prior years, which consisted of certain matching contributions under our defined benefit plans and payment of life insurance premiums. The Compensation Committee believes that the benefits and perquisites provided to our executive officers in 2012 were lower than median competitive levels for comparable companies. Finally, all of our executives were eligible to participate in our other employee benefit plans, including medical, dental, life and disability insurance.

Tax Implications

Section 162(m) of the Internal Revenue Code of 1986, as amended, limits the deductibility on our tax return of compensation over \$1,000,000 to certain of the named executive officers unless, in general, the compensation is paid

Table of Contents

pursuant to a plan which is performance-related, non-discretionary and has been approved by our stockholders. We have periodically reviewed the potential consequences of Section 162(m) and on occasion have sought to structure the performance-based portion of our executive compensation to comply with the exemptions available under Section 162(m). We believe that options granted in 2012 under our Option Plans generally qualify as performance-based compensation under Section 162(m). However, we reserve the right to use our judgment to authorize compensation payments that do not comply with these exemptions when we believe that such payments are appropriate and in the best interest of the stockholders, after taking into consideration changing business conditions or the applicable officer's performance. For example, we do not believe that the RSUs granted to Mr. Nawana will qualify as performance-based compensation and, accordingly, we may be unable to deduct some or all of the compensation expense associated with any RSUs that vest.

Compensation Committee Report

We, the Compensation Committee, have reviewed and discussed the Compensation Discussion and Analysis beginning on page 9 of this annual report with management.

Under this policy, grants of options approved by the Compensation Committee for existing employees shall be effective as of the next applicable Grant Date (except that any grants subject to stockholder approval shall be effective as of the date of stockholder approval). Under this policy, Grant Date means the last day of the following months: February, April, June, August, October and December. In the case of grants to Mr. Zwanziger, Mr. McAleer and Mr. Scott, the date of grant is the date of the Annual Meeting of Stockholders of July 11, 2012, at which the grants of these options were approved by the Company's stockholders.

- (2) Amounts in these columns represent grants to Mr. Teitel under our Annual Incentive Process of a Cash Award, which was subject to performance conditions, and stock options, the vesting of which was subject to performance conditions. Under the terms of the awards, Mr. Teitel would have been eligible to receive, subject to the satisfaction of applicable performance conditions and subject to certification by the Compensation Committee, (i) a Cash Award equal to the appreciation in the price of one share of our common stock during 2012 times the number of shares set forth in the table and (ii) vesting of options to purchase the number of shares set forth in the table. Because our stock price declined during 2012, the Cash Award had no value. On February 7, 2013, the Compensation Committee certified that the performance conditions for the stock option granted to Mr. Teitel had been partially satisfied and determined that stock options to purchase 375 shares of our common stock would vest. These options will vest in four equal annual installments beginning on February 28, 2013, subject to Mr. Teitel's continued employment with us. For more information regarding our Annual Incentive Process, including the performance-based conditions, see Compensation Discussion and Analysis beginning on page 9.
- (3) The award in this column represents a Restricted Stock Unit, or RSU, granted as an employment inducement award outside our current stockholder-approved stock option and incentive plans pursuant to NYSE Rule 303A.08. The vesting of the RSU is as follows: 5,000 RSUs will vest one year after the grant date, 5,000 RSUs will vest two years after the grant date, and 100,000 RSUs will vest three years after the grant date. If Mr. Nawana's employment is involuntarily terminated, without cause, within three years, his RSUs would accelerate and fully vest. The RSUs will also accelerate and fully vest if Mr. Nawana terminates his employment voluntarily after one year, other than in presence of facts or circumstances which would constitute cause for termination by us.
- (4) All stock option awards were made under our 2010 Stock Option and Incentive Plan.
- (5) The terms of these options provide for vesting in four equal annual installments, commencing on the first anniversary of the date of grant and conditioned upon the recipient's continued employment with the Company on the applicable vesting date. The options will expire on the tenth anniversary of the grant date or, if earlier, three months after the recipient's employment terminates.
- (6) These amounts represent the aggregate grant date fair value of restricted stock units awards and stock option awards made during 2012, calculated in accordance with FASB ASC Topic 718, excluding estimated forfeitures. See Note 14 of the notes to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2012, for a discussion of the relevant assumptions used in calculating these amounts.
- (7) The exercise price of the stock option awards to the named executive officers is equal to the greater of \$50.00 and the fair market value of our common stock on the effective date of grant; the closing price of our common stock on July 11, 2012, the date of grant, was \$19.00 and accordingly, the exercise price per share of the options is \$50.00.
- (8) The exercise price of the stock option awards to the named executive officers is equal to the closing price of our common stock on the applicable Grant Date.

- (4) The vesting of this award is subject to satisfaction of performance conditions; options for which the performance conditions are satisfied will become exercisable in four equal installments beginning on the first anniversary date of grant. On February 7, 2013, the Compensation Committee certified that the performance conditions for the stock option granted to Mr. Teitel had been partially satisfied and determined that stock options to purchase 375 shares of our common stock would vest.
- (5) The award in this column represents a RSU granted on December 30, 2012 as an employment inducement award outside of our stockholder-approved stock option and incentive plans pursuant to NYSE Rule 303A.08. Non-qualified Deferred Compensation Plans. During 2012, our named executive officers did not participate in any non-qualified defined contribution or other non-qualified deferred compensation plans.

Table of Contents

Pension Benefits. During 2012, our named executive officers did not participate in any plan that provides for specified retirement benefits, or payments and benefits that will be provided primarily following retirement, other than defined contribution plans, such as our 401(k) savings plan.

Employment Agreement and Potential Payments upon Termination or Change-in-Control. Effective December 30, 2012, we entered into a Restricted Stock Unit Agreement with Mr. Nawana in connection with his appointment as our Chief Operating Officer, pursuant to which we granted to Mr. Nawana 110,000 RSUs, which vest over a period of three years as described above. Under the terms of the Restricted Stock Unit Agreement, if Mr. Nawana's employment is involuntarily terminated, without cause, within three years of the date of grant, his RSUs will accelerate and fully vest. The RSUs will also accelerate and fully vest if Mr. Nawana terminates his employment voluntarily after one year, other than in the presence of facts or circumstances which would constitute cause for termination by us. The Restricted Stock Unit Agreement further provides that all of the RSUs will immediately vest upon a change of control of the Company, as that term is defined in the Restricted Stock Unit Agreement. Our named executive officers are employees-at-will and do not have employment or severance contracts with us. Other than provisions in our Option Plans that provide for all stock options to automatically become fully exercisable, RSUs to become fully vested and any stock awards to become vested and non-forfeitable in the event of a change of control as defined in the plans, there are no other contracts, agreements, plans or arrangements that provide for payments to our named executive officers at, following, or in connection with any termination of employment, change in control of the Company or a change in a named executive officer's responsibilities. All of the outstanding stock options held by our named executive officers reported above under Outstanding Equity Awards at Fiscal Year-End were issued under our Option Plans and are subject to accelerated exercisability upon a change of control. The table below sets forth the value attributable to such an acceleration of exercisability of options and an acceleration of vesting of RSUs under the Restricted Stock Unit Agreement.

| Name | Value Attributable to Acceleration of Exercisability of Stock Options and Vesting of RSUs Upon a Change of Control(1) |
|----------------------|---|
| Ron Zwanziger | \$ |
| David Teitel | \$ |
| Namal Nawana | \$ 2,035,000 |
| David Scott, Ph.D. | \$ |
| Jerry McAleer, Ph.D. | \$ |

- (1) Assumes the occurrence of a change of control of the Company on December 31, 2012. The value attributable to the acceleration of in-the-money stock options equals the difference between the applicable option exercise prices and the closing sale price of our common stock as reported by the New York Stock Exchange on December 31, 2012, which was \$18.50, multiplied by the number of shares underlying the options. At December 31, 2012, none of the stock options held by our named executive officers was in the money. The value attributable to the acceleration of vesting of RSUs equals the closing sale price of our common stock as reported by the New York Stock Exchange on December 31, 2012, which was \$18.50, multiplied by the number of units underlying the award.

Risk Related to Compensation Policies

Our compensation policies and practices for our employees, including our executive compensation program described in our Compensation Discussion and Analysis, aim to provide a risk-balanced compensation package which is competitive in our market sectors and relevant to the individual executive. In 2011, the Compensation Committee established an annual process pursuant to which we expect to continue to award to certain executives and managers, upon satisfaction of applicable performance conditions and subject to future approval and grant by the Compensation Committee, option and cash awards. Because both the option and cash awards contemplated under this process would vest over several years, we believe that the process discourages short-term risk taking and to align the interest of our executives and managers with those of our stockholders. We do not believe that risks arising from these practices, or our compensation policies and practices considered as a whole, are reasonably likely to have a material adverse effect on us.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE**Director Independence**

The Board of Directors has determined that the following directors are independent under the rules of the New York Stock Exchange: Dr. Adashi, Ms. Goldberg, Mr. Khederian, Mr. Levy, Dr. Quelch, Mr. Roosevelt and Mr. Townsend. The Board has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee, each composed solely of directors who satisfy the applicable independence requirements of the New York Stock Exchange's listing standards for such committees.

Policies and Procedures with Respect to Related Party Transactions

Our Audit Committee Charter requires that the Audit Committee, which is composed solely of independent directors, conduct an appropriate review of, and be responsible for the oversight of, all related party transactions on an ongoing basis. We do not have written policies or procedures governing the Audit Committee's review of related party transactions but rely on the Audit Committee's exercise of business judgment in reviewing such transactions.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Our Audit Committee engaged PricewaterhouseCoopers LLP, or PwC, to serve as our independent registered public accounting firm for the fiscal year ending December 31, 2012. Pre-approval Policies and Procedures

The Audit Committee pre-approves all audit and non-audit services provided by the independent registered public accounting firm other than permitted non-audit services estimated in good faith by the independent registered public accounting firm and management to entail fees payable of \$25,000 or less on a project-by-project basis and which would also qualify for exemption from the pre-approval requirements of the Securities Exchange Act of 1934, as amended. No services were provided for 2012 or 2011 in reliance on this exemption. The authority to pre-approve non-audit services may be delegated to one or more members of the Audit Committee, who shall present any services so pre-approved to the full Audit Committee at its next meeting
