NOAH HOLDINGS LIMITED ANNOUNCES UNAUDITED FINANCIAL RESULTS

FOR THE SECOND QUARTER OF 2013 AND APPOINTS NEW CHIEF FINANCIAL OFFICER

SHANGHAI, CHINA August 21, 2013 Noah Holdings Limited (Noah or the Company) (NYSE: NOAH), a leading wealth management service provider focusing on distributing wealth management products to the high net worth population in China, today announced its unaudited financial results for the second quarter of 2013 and appointed new Chief Financial Officer.

SECOND QUARTER 2013 FINANCIAL HIGHLIGHTS

Net revenues in the second quarter of 2013 were US\$44.3 million, a 132.1% increase from the corresponding period in 2012.

Income from operations in the second quarter of 2013 was US\$18.4 million, a 156.3% increase from the corresponding period in 2012.

Net income attributable to Noah shareholders in the second quarter of 2013 was US\$14.4 million, a 133.1% increase from the corresponding period in 2012. **Non-GAAP¹ net income attributable to Noah shareholders** in the second quarter of 2013 was US\$16.1 million, a 128.5% increase from the corresponding period in 2012.

Net income per basic and diluted ADS in the second quarter of 2013 were both US\$0.26. **Non-GAAP net income per diluted ADS** in the second quarter of 2013 was US\$0.29.

SECOND QUARTER 2013 OPERATIONAL HIGHLIGHTS

Total number of registered clients as of June 30, 2013 increased by 35.1% year-over-year to 45,839; this figure includes 43,966 registered individual clients, 1,756 registered enterprise clients and 117 wholesale clients that have entered into cooperation agreements with the Company.

Active clients² during the second quarter of 2013 were 2,602, a 76.4% increase from the corresponding period in 2012. **The aggregate value of wealth management products distributed by the Company** during the second quarter of 2013 was RMB12.4 billion (approximately US\$2.0 billion)³, a 101.9% increase from the corresponding period in 2012. Of this aggregate value, fixed income products accounted for 85.6%, private equity fund products accounted for 9.1%, and other products, including mutual fund products, private securities investment funds and investment-linked insurance products, accounted for 5.3%. **The average transaction value per client⁴** in the second quarter of 2013 was RMB4.8 million (approximately US\$0.8 million), a 14.4% increase from the corresponding period in 2012, primarily due to an increase in transaction value from enterprise clients as a percentage of aggregate transaction value as their investment amounts tend to be higher than individual clients.

Coverage network as of June 30, 2013 included 56 branches, the same as March 31, 2013 and down from 60 branches as of June 30, 2012. **The number of relationship managers** was 525 as of June 30, 2013, up from 452 as of March 31, 2013 and down from 550 as of June 30, 2012. The increase in relationship managers is primarily due to the Company's strategy to reposition certain branch managers, previously in sales support role, to assume direct client facing responsibilities, and thus reclassified as relationship managers.

¹ Noah's Non-GAAP financial measures are its corresponding GAAP financial measures as adjusted by excluding the effects of all forms of share-based compensation.

² Active clients refers to those registered clients who purchased wealth management products distributed by Noah during any given period.

³

Edgar Filing: Noah Holdings Ltd - Form 6-K

The amount in RMB was translated into U.S. dollars using the average rate for the period as set forth in the H.10 statistical release of the Federal Reserve Board.

⁴ Average transaction value per client refers to the average value of wealth management products distributed by Noah that are purchased by active clients during a given period.

APPOINTMENT OF NEW CHIEF FINANCIAL OFFICER

The Company appointed Dr. Theresa Teng as its Chief Financial Officer replacing Mr. Tao Thomas Wu, effective August 21, 2013. Mr. Wu will continue his service for the Company and will help the Company explore new business initiatives. Dr. Teng has more than 15-year investment and finance management experience. Prior to joining the Company, she served as the Chief Financial Officer of PPS.TV, one of the leading internet TV players in China, the head of finance of Semiconductor Manufacturing International Corp. (NYSE:SMI, HKSE:0981), and the director of D.B. Zwirn & Co., a New York based alternative investment fund. In addition, Dr. Teng taught Finance at Ming Chuan University in Taiwan for seven years.

Ms. Jingbo Wang, Co-founder, Chairwoman of the Board of Directors and Chief Executive Officer, commented, "We are pleased to welcome Dr. Teng to our senior management team. We look forward to drawing upon Dr. Teng's extensive experience as our business continues to grow."

"We thank Mr. Wu for his leadership and dedication for his tenure as Chief Financial Officer. Since joining us in March 2010, Mr. Wu has made significant contributions to Noah both in risk management and financial control," Ms. Wang continued. "Mr. Wu will continue to work with us and explore new business initiatives for Noah. Despite of the change in management, our business strategy remains unchanged."

Ms. Wang commented, "I am pleased that our second quarter results exceeded our expectations, and we have updated our 2013 full year forecast accordingly. We believe that the significant growth in our business was driven by overall structural improvements, including enhancement in product development, client servicing and operating capabilities. These improvements will continue to drive future growth."

SECOND QUARTER 2013 FINANCIAL RESULTS

Net Revenues

Net revenues for the second quarter of 2013 were US\$44.3 million, a 132.1% increase from the corresponding period in 2012, due to increases in both one-time commission revenues and recurring service fees for the second quarter of 2013.

Net revenues from one-time commissions for the second quarter of 2013 were US\$22.8 million, a 122.8% increase from the corresponding period in 2012. The year-over-year increase for the second quarter of 2013 was mainly due to an increase in transaction value and, to a lesser extent, an increase in average commission rate.

Net revenues from recurring service fees for the second quarter of 2013 were US\$20.3 million, a 133.6% increase from the corresponding period in 2012. The year-over-year increase was mainly due to the cumulative effect of private equity funds previously distributed by the Company and an increase in assets under management by the Company since the second half of 2012.

Operating Margin

Operating margin for the second quarter of 2013 was 41.6%, as compared to 37.7% for the corresponding period in 2012. The year-over-year increase for the second quarter of 2013 was driven by growth of net revenues exceeding those in operating cost and expenses.

Operating cost and expenses for the second quarter of 2013, including cost of revenues, selling expenses, G&A expenses and other operating income, were US\$25.9 million, a 117.4% increase from the corresponding period in 2012.

Cost of revenues for the second quarter of 2013 totaled US\$9.2 million, a 118.6% increase from the corresponding period in 2012. The year-over-year increase for the second quarter of 2013 was primarily due to an increase in compensation paid to relationship managers as a result of the increase in transaction value, and incremental costs from aforementioned repositioning of certain branch managers, whose compensations in their client facing roles are now accounted for in cost of revenues, instead of selling expenses.

Selling expenses for the second quarter of 2013 were US\$8.9 million, a 40.1% increase from the corresponding period in 2012. Selling expenses as a percentage of net revenues for the second quarter of 2013 was 20.1%, as compared to 33.3% for the corresponding period in 2012. The year-over-year increases for the second quarter of 2013 was primarily due to increases in employee compensations, share-based compensations and client service fees as the Company strengthened its selling and marketing functions.

G&A expenses for the second quarter of 2013 were US\$8.9 million, a 112.1% increase from the corresponding period in 2012. G&A expenses as a percentage of net revenues for the second quarter of 2013 was 20.2%, as compared to 22.1% for the corresponding period in 2012. The year-over-year increases for the second quarter of 2013 was primarily due to increases in personnel expenses, professional consulting fees and rental expenses.

Other operating income for the second quarter of 2013 was US\$1.2 million, as compared to US\$2.9 million for the corresponding period in 2012. Other operating income is government subsidies received in the PRC from local governments for general corporate purposes.

Income Tax Expenses

Income tax expenses for the second quarter of 2013 were US\$5.4 million, a 139.6% increase from the corresponding period in 2012. The year-over-year increase for the second quarter of 2013 was due to an increase in taxable income.

Net Income

Net income for the second quarter of 2013 was US\$14.7 million, a 137.7% increase from the corresponding period in 2012. **Net margin** for the second quarter of 2013 was 33.3%, as compared to 32.5% for the corresponding period in 2012.

Non-GAAP net income for the second quarter of 2013 was US\$16.4 million, a 132.6% increase from the corresponding period in 2012.

Non-GAAP net margin for the second quarter of 2013 was 37.1%, as compared to 37.0% for the corresponding period in 2012.

Net income attributable to Noah shareholders for the second quarter of 2013 was US\$14.4 million, a 133.1% increase from the corresponding period in 2012. **Net income per basic and diluted ADS** for the second quarter of 2013 were both US\$0.26, as compared to US\$0.11 for the corresponding period in 2012.

Non-GAAP net income attributable to Noah shareholders for the second quarter of 2013 was US\$16.1 million, a 128.5% increase from the corresponding period in 2012. **Non-GAAP net income per diluted ADS** for the second quarter of 2013 was US\$0.29, as compared to US\$0.12 for the corresponding period in 2012.

Balance Sheet and Cash Flow

As of June 30, 2013, the Company had US\$165.3 million in cash and cash equivalents, an increase of US\$44.5 million from US\$120.8 million as of March 31, 2013. In the second quarter of 2013, the Company generated US\$28.9 million in its operating activities, received a net US\$21.2 million from investing activities, mostly from maturing of fixed income products previously invested, and used US\$7.7 million for dividend distribution.

On May 22, 2013, the Company's Board of Directors authorized a new share repurchase program of up to US\$30 million worth of its issued and outstanding ADSs over the course of one year. As of June 30, 2013, the Company has repurchased 30,821 ADSs for approximately US\$0.3 million, inclusive of transaction charges, which has not been settled as of June 30, 2013.

2013 FORECAST

The Company estimates that non-GAAP net income attributable to Noah shareholders for the full year 2013 is expected to be in a range of US\$50.0 million and US\$55.0 million, representing a year-over-year increase in the range of 86.4% and 105.0%. This estimate reflects management's current assessment and is subject to change.

DISCUSSION OF NON-GAAP FINANCIAL MEASURES:

In addition to disclosing financial results prepared in accordance with U.S. GAAP, the Company's earnings release contains non-GAAP financial measures that exclude the effects of all forms of share-based compensation. The reconciliation of these non-GAAP financial measures to the nearest GAAP measures is set forth in the table captioned "Reconciliation of GAAP to Non-GAAP Results" below.

The non-GAAP financial measures disclosed by the Company should not be considered a substitute for financial measures prepared in accordance with U.S. GAAP. The financial results reported in accordance with U.S. GAAP and reconciliation of GAAP to non-GAAP results should be carefully evaluated. The non-GAAP financial measure used by the Company may be prepared differently from and, therefore, may not be comparable to similarly titled measures used by other companies.

When evaluating the Company's operating performance in the periods presented, management reviewed non-GAAP net income results reflecting adjustments to exclude the impacts of share-based compensation to supplement U.S. GAAP financial data. As such, the Company believes that the presentation of the non-GAAP net income, non-GAAP income per diluted ADS and non-GAAP net margin provides important supplemental information to investors regarding financial and business trends relating to the Company's financial condition and results of operations in a manner consistent with that used by management. Pursuant to U.S. GAAP, the Company recognized significant amounts of expenses for the restricted shares and share options in the periods presented. To make financial results comparable period by period, the Company utilized the non-GAAP financial results to better understand its historical business operations.
