Enbridge Gas Distribution Applies to Adjust Prices

TORONTO, ONTARIO (September 12, 2014) Enbridge Gas Distribution Inc. (Enbridge), a regulated natural gas distribution utility, has applied to the Ontario Energy Board (OEB) to decrease its rates effective October 1, 2014. Enbridge is sharing this information at the time of its application to the OEB as part of its ongoing commitment to update customers.

If approved, typical residential customers* who buy their gas supply and transportation from Enbridge will see their total annual bill decrease from about \$1,238 to \$1,173, a savings of \$65 a year. The total effect on a customer's bill depends on how much gas a customer uses. There are two different components to this decrease – \$18 a year reflects lower natural gas prices in North America and changes to Enbridge's 2014 rates which were approved by the OEB in July while \$47 a year is a refund approved in the OEB's 2014 rate decision.

Our customers are benefitting from the fact that the price of natural gas is cheaper today than it was 10 years ago, says Jamie LeBlanc, Director, Enbridge Gas Distribution. Natural gas remains less than half the cost of electricity and oil for home and water heating.**

As the colder weather approaches, Enbridge reminds customers there are a number of options to help manage bills:
