Overview

Marcus & Millichap, Inc. is a leading national brokerage firm specializing in commercial real estate investment sales, financing, research and advisory services. We have been the top broker in the United States based on the number of investment transactions over the last 10 years. As of December 31, 2014, we had nearly 1,500 investment sales and financing professionals in 78 offices in the United States and Canada that provide investment brokerage and financing services to sellers and buyers of commercial real estate. We also offer market research, consulting and advisory services to developers, lenders, owners and investors. In 2014, we closed more than 7,600 sales, financing and other transactions with total volume of approximately \$33.1 billion.

We divide the commercial real estate market into three major segments by investment size:

Private client segment: properties with prices under \$10 million;

Hybrid segment: properties with prices equal to or greater than \$10 million and less than \$20 million; and

Institutional segment: properties with prices of \$20 million and above.

We focus primarily on the private client segment, which consistently comprises over 80% of the total number of property transactions in the commercial real estate market.

We were founded in 1971 and are committed to building the leading national investment brokerage business. To achieve that goal, we underwrite, market and sell commercial real estate properties for our private clients in a manner that maximizes value for sellers and provides buyers with the largest and most diverse inventory of commercial properties. Our business model is based on several key attributes: a focus on investment brokerage services, a critical mass of sales professionals providing consistent services and exclusive client representation, a national platform based on information sharing and powered by proprietary technology, a management team with investment brokerage experience, a financing team that is integrated with our investment sales force and research and advisory services tailored for our clients.

We devote our expertise and focus to the investment brokerage and financing business as opposed to other businesses, such as leasing or property management. Accordingly, our business model is unique from our national competitors, who focus primarily on the institutional real estate segment, and from our local and regional competitors, who lack a broad national platform. As the leading investment sales and financing

Edgar Filing: Marcus & Millichap, Inc. - Form 424B5

firm in our segment, we believe we are ideally positioned to capture significant growth opportunities in our market.

Our sales professionals are specialized by property type and by local market area, as we believe a focused expertise brings value to our clients. Our model and footprint provide an unparalleled level of connectivity to the marketplace. We operate 78 offices in the United States and Canada. We have 61 offices concentrated in 48 major markets consisting of metropolitan areas with a population of at least one million and 17 offices in 17 mid-market locations consisting of metropolitan areas with a population of less than one million. Our broad geographic coverage, property expertise, and significant relationships with both buyers and sellers provide connectivity and increase liquidity in the markets we serve. By closing more transactions annually than any other

firm (based on data from CoStar Group, Inc. and Real Capital Analytics that includes apartment, retail, office, and industrial sales), our sales professionals are able to provide clients with a broad and deep perspective on the investment real estate market locally, regionally and nationally.

We generate revenues by collecting commissions upon the sale and financing of commercial properties. These fees consist of commissions collected upon the sale of an asset, based upon the sales price of the property, and fees collected by our financing subsidiary from the placement of loans. In 2014, approximately 92% of our revenues were generated from real estate brokerage commissions, 6% from financing fees and 2% from other revenues, including consulting and advisory services.

Competitive Strengths

We believe the following strengths provide us with a competitive advantage and opportunities for success:

National Platform Focused on Investment Brokerage. We are committed to building the leading national investment brokerage business. To achieve our goal, we focus on investment brokerage as opposed to other businesses such as leasing or property management. We combine proprietary technology and processes to market investment real estate with highly qualified sales professionals in 78 offices across the United States and Canada. Our commitment to specialization is also reflected in how we organize our sales professionals by property type and market area, which enhances our skills, relationships and market knowledge required for achieving the best results for our clients.

S-2

Table of Contents

Market Leader in the Private Client Segment. We are the leading commercial real estate investment broker in the United States based on the number of transactions. We focus primarily on the private client segment of the market, consisting of transactions with prices under \$10 million, which accounted for over 90% of the number of our transactions in 2014. This segment represents the vast majority of the number of commercial properties in the United States and is characterized by high asset turnover rates due to personal circumstances and business reasons, such as death, divorce and changes in partnership and other personal or financial circumstances. The private client brokerage industry is highly fragmented and characterized by high barriers to entry. These barriers include the need for a large, specialized sales force prospecting private clients, the difficulty in identifying and establishing relationships with such investors and the challenge of serving their needs locally, regionally and nationally. For transactions in the \$1 million to \$10 million range nationally, the top 10 brokerage firms represented just 21.1% (includes apartment, retail, office, and industrial sales) of commercial property sales in 2013. We believe our core business is the least covered segment by national firms, and is significantly underserved by local and regional firms that lack a multi-market platform.

Platform Built for Maximizing Investor Value. We have built our business to maximize value for real estate investors through an integrated set of services geared toward our clients' needs. Within investment sales, we are committed to an investment brokerage specialization, providing the largest sales force in the industry, fostering a culture and policy of information sharing on each asset we represent and using proprietary technology that facilitates real-time buyer-seller matching. Our investment sales organization underwrites, positions and markets investment real estate to the largest pool of qualified buyers. We coordinate proactive marketing campaigns that access the investor relationships and resources of the entire firm, far beyond the capabilities of an individual listing agent. These efforts produce wide exposure to investors who we identify as high-probability bidders for each asset.

We have one of the largest teams of financing professionals in the investment brokerage industry through our subsidiary, Marcus & Millichap Capital Corporation (MMCC). MMCC provides financing expertise and access to debt capital by securing competitive loan pricing and terms for our clients. In 2014, MMCC closed more than 1,300 financings with an aggregate loan value of approximately \$3.8 billion, making us a leading mortgage broker in the industry. Finally, our market research analyzes the latest local and national economic and real estate trends, enabling our clients to make informed investment and financing decisions. These integrated services enable us to facilitate transactions for our clients across different property types and markets.

Management with Significant Investment Brokerage Experience. The majority of our regional managers are former senior sales professionals of the firm who now focus on management and do not compete with our sales force. As executives of the firm dedicated to hiring, training, developing and supporting our sales professionals, their investment brokerage background is extremely valuable. Our top sales professionals are trained, developed and supported by our regional managers. Our comprehensive training and development programs rely greatly on the regional managers' personal involvement. Their past experience as senior sales professionals plays a key role in helping our junior professionals establish technical and client service skills. Our regional managers also coach our sales professionals in setting up, developing and growing their relationships with clients. We believe this management structure has helped the firm create a competitive advantage and achieve better results for our clients.

Growth Strategy

We have a long track record of successful growth in our core business driven by opening new offices and by hiring, training and developing new sales and financing professionals. Since the implementation of our long-term growth plan in 1995, our revenue has increased sevenfold and we have grown from approximately 416 sales professionals in 22 offices to nearly 1,500 sales and financing professionals in 78 offices in the United States and

Table of Contents

Canada. To drive our future growth, we continually seek to expand our national footprint and optimize the size, product segmentation and specialization of our team of sales and financing professionals. The key strategies of our growth plan include:

Increase Market Share in Our Core Business. Our core business is focused on the highly fragmented private client segment. The top 10 brokerage firms accounted for only 21.1% (includes apartment, retail, office, and industrial sales) of 2013 sales in the \$1 million to \$10 million range. Our industry leading market share of 7.4% in this segment creates significant opportunity for us to expand our market presence and bring our unique client service offerings to a larger portion of the segment. We leverage our existing platform, relationships and brand recognition among private clients to grow through expanded marketing and coverage. Our growth plan includes the following components:

Grow in Targeted Locations. Our plan targets specific markets and calls for both expansion of existing offices and opening additional offices. We have assigned key executives and managers to these markets and our recruiters have begun to hire additional experienced sales professionals. We have targeted markets based on population, employment, commercial real estate sales, inventory and competitive landscape. In addition, we have developed optimal office plans to capitalize on these factors by tailoring sales force size, coverage and composition by office and business activity. We expect this intensified focus on target markets, coupled with new marketing campaigns, reassigned geographic boundaries and team development, to result in significant growth.

Grow in Specialty Property Types. We believe that specialty property types, including hospitality, multifamily tax credit and affordable housing, student housing, manufactured housing, seniors housing and self-storage, offer significant room for growth. To take advantage of these opportunities, we are increasing our property type expertise by continuing to add regional directors who can bring added management capacity, business development and sales professional support. These executives will work with our regional and group managers to increase sales professional hiring, training, development and redeployment, and to execute various branding and marketing campaigns to expand our presence in key property types.

Increase Sales Professional Hiring. We grow our business by hiring, training and developing sales professionals. Recently, we increased our focus on hiring experienced sales professional through our recruiting department, specialty directors and regional managers. Our new sales professionals are trained in all aspects of real estate fundamentals and client service through formal training and apprenticeship programs. As these sales professionals mature, we continue to provide best practices and specialty training. When hiring more experienced sales professionals, we have focused on cultural fit. We believe this model creates a high level of teamwork, as well as operational and client service consistency.

Grow Financing Services. We are focused on growing our financing services provided through MMCC. We are taking steps that we believe will substantially increase our internal loan business capture rate. We intend to execute our growth strategy by expanding financing services in markets currently served by us and by increasing the capacity of financing professionals in offices we currently serve and in offices that do not have an MMCC presence or an MMCC presence is underutilized. In addition, in order to continue to increase our internal loan capture rate we are enhancing our cross-selling training, education and internal branding. We also plan to enhance MMCC's service platform and explore expanding our revenue sources by developing other services such as mezzanine financing, HUD products, equity placement and conduit financing.

Expand Our Market Share of Larger Transactions. Our extensive relationships with private clients have enabled us to capture a greater portion of commercial real estate transactions in excess of \$10 million and bridge the private and institutional capital markets in recent years. Our ability to connect private capital with institutional assets plays a major role in differentiating our services. In 2011, we introduced a division dedicated

Table of Contents

to serving major investors branded as Institutional Property Advisors, in the multifamily sector. This strategy has met with great success and market acceptance and provides a vehicle for growth by delivering our unique service platform within the hybrid and institutional multifamily, institutional retail and office sectors.

Market and Industry

Overview of the Commercial Real Estate Investment Industry

We estimate the total value of U.S. commercial real estate assets to be \$12.4 trillion at the end of 2014 based on data provided by CoStar Group, Inc. and Real Capital Analytics. Property sales in the commercial real estate sector for the four major categories of multifamily, retail, office and industrial properties priced at \$1 million and above reached nearly \$370 billion, or approximately 44,500 transactions, in 2014. This was a 14.3% increase in dollar volume and 11.6% increase in the number of transactions over 2013, following a 15.0% increase in dollar volume and a 13.5% increase in the number of transactions over 2012. The following graphs show the total number of transactions and dollar volume of transactions in the commercial real estate industry from 2003 to 2014:

We divide the commercial real estate market into three major segments by investment size:

Private client segment: properties with prices under \$10 million;

Hybrid segment: properties with prices equal to or greater than \$10 million and less than \$20 million; and

Institutional segment: properties with prices of \$20 million and above.

Private client segment transactions generally involve high net worth individuals, partnerships and private funds. Hybrid segment transactions primarily involve larger private investors. Institutional segment transactions tend to be dominated by pension funds, insurance companies, private equity firms, endowments and real estate investment trusts.

The table below shows the number and volume of transactions by property price segment as well as the estimated commission pool for each segment.

Commercial Real Estate Transaction Breakdown, 2014*

Segment	Transactions	Percentage of Transactions	Volume (Billions)	Percentage of Volume	Estimated Commission Pool (Billions)	Estimated Percentage of Commission Pool
Private Client	37,166	83.6%	\$ 111	30.2%	\$ 4.1	60.4%
Hybrid	3,792	8.5%	\$ 53	14.4%	\$ 1.1	15.6%
Institutional	3,520	7.9%	\$ 204	55.4%	\$ 1.6	24.0%
Total	44,478	100.0%	\$ 368	100.0%	\$ 6.8	100.0%

* Sources (other than commissions): CoStar Group, Inc. and Real Capital Analytics. Commission data is based on our estimate of average industry commission rates as follows: Private client segment 3.7%; Hybrid segment 2.0%; Institutional segment 0.8%. Commission rates are typically inversely correlated with property value and subject to individual negotiation with clients. Private client segment data does not include transactions of \$1 million or less.

Table of Contents

The commercial real estate market experienced a significant downturn from the 2007 peak to a trough in 2009, representing the most severe downturn in property sales since at least 1990, the earliest period for which data is available. Since 2009, commercial property sales have increased by 146% and dollar volume has increased by 305%. This cyclical upturn has been, and we believe will continue to be supported by attractive yields and improving property fundamentals, based on data from CoStar Group, Inc., Real Capital Analytics and MPF Research.

Growth in the Commercial Real Estate Industry

Historically, the U.S. commercial real estate industry has tended to be cyclical and closely correlated with the flow of capital into the sector, the condition of the economy as a whole, the perceptions and confidence of market participants as to the economic outlook, supply/demand balance, changes to tax laws and regulatory factors. Employment growth or contraction in particular exhibits a strong correlation with demand for various types of commercial space, and vacancy rates tend to move up and down with a natural lag behind employment and construction cycles. Changes in interest rates, credit and liquidity issues and disruptions in capital markets are all factors that may also affect the industry.

Attractive Yields. According to Real Capital Analytics, average commercial real estate yields (capitalization rates) by the four major property types currently range from 6.1% to 7.0%, which compare favorably to alternative investments such as stocks and bonds, as shown below. We believe these attractive yields are a key driver of improving capital inflows for commercial real estate investments.

Average Yields *

* Average real estate yields are for transactions of \$2.5 million and above during the fourth quarter of 2014. All other yields as of December 31, 2014. Sources: Real Capital Analytics and Bloomberg.

The average Commercial Real Estate Capitalization Rate and average Ten Year Treasury Rate during the period presented were 7.4% and 3.6%, respectively. Sources: Real Capital Analytics and Bloomberg.

Improving Property Fundamentals. We believe property fundamentals have improved since 2009, with each of the four major property sectors demonstrating continued improvement in occupancy rates. This improvement is supported, in part, by a favorable supply/demand balance as new construction deliveries have represented a steady, modest percent of existing inventory.

Property Type	Occupancy Rates

See Note 11 Income Taxes of our Notes to Consolidated Financial Statements set forth in Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2014.
- (3) Earnings per share information has not been presented for periods prior to the IPO as amounts were not meaningful. See Note 13 Earnings Per Share of our Notes to Consolidated Financial Statements set forth in Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2014 for additional information on earnings per share.
- (4) 2014 and 2013 includes Stock Appreciation Rights (SARs) liability and notes payable to former stockholders incurred in connection with the IPO. See Note 4 Selected Balance Sheet Data and Note 6 Notes Payable to Former Stockholders of our Notes to Consolidated Financial Statements set forth in Item 8 of our Annual Report on Form 10-K for the year ended December 31, 2014.
- (5) We define Adjusted EBITDA as net income before (i) interest income/expense, (ii) income tax expense, (iii) depreciation and amortization and (iv) stock-based compensation expense. We use Adjusted EBITDA in our business operations to, among other things, evaluate the performance of our business, develop budgets and measure our performance against those budgets. We also believe that analysts and investors use Adjusted EBITDA as supplemental measures to evaluate our overall operating performance. However, Adjusted EBITDA has material limitations as an analytical tool and should not be considered in isolation, or as a substitute for analysis of our results as reported under generally accepted accounting principles in the United States (U.S. GAAP). We find Adjusted EBITDA as a useful tool to assist in evaluating performance because it eliminates items related to capital structure and taxes and non-cash stock-based compensation charges. In light of the foregoing limitations, we do not rely solely on Adjusted EBITDA as a performance measure and also consider our U.S. GAAP results. Because Adjusted EBITDA is not calculated in the same manner by all companies, it may not be comparable to other similarly titled measures used by other companies.

A reconciliation of the most directly comparable U.S. GAAP financial measure, net income, to Adjusted EBITDA is as follows (in thousands):

	Year Ended December 31,		
	2012	2013	2014
Net income	\$ 27,934	\$ 8,206	\$ 49,531
Adjustments:			
Interest income and other(a)	(166)	356	(50)
Interest expense	4	105	1,651
Provision for income taxes	21,507	13,735	33,452

Stock-based compensation(b)	7,448	35,841	5,034
Adjusted EBITDA	\$ 59,708	\$ 61,286	\$ 92,824

- (a) The year ended December 31, 2013 includes employer taxes related to DSUs and restricted stock in connection with the IPO.
- (b) The year ended December 31, 2013 includes non-cash stock-based compensation charges of \$30.9 million in connection with the IPO.

RISK FACTORS

Investing in our common stock involves risks. You should carefully consider the risks and uncertainties described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2014, which is incorporated by reference herein. You should also carefully consider the other information contained or incorporated by reference in this prospectus supplement and in the accompanying prospectus before acquiring any shares of our common stock. These risks could materially affect our business, results of operations or financial condition and cause the value of our common stock to decline. You could lose all or part of your investment.

FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference include forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends affecting the financial condition of our business. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the time those statements are made and/or management's good faith belief as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to:

market trends in the commercial real estate market or the general economy;

our ability to attract and retain qualified managers, sales and financing professionals;

the effects of increased competition on our business;

our ability to successfully enter new markets or increase our market share;

our ability to successfully expand our services and businesses and to manage any such expansions;

our ability to retain existing clients and develop new clients;

our ability to keep pace with changes in technology;

any business interruption or technology failure and any related impact on our reputation;

changes in tax laws, employment laws or other government regulation affecting our business; and

other risk factors included under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014.

Edgar Filing: Marcus & Millichap, Inc. - Form 424B5

In addition, in this prospectus supplement, the words believe, may, will, estimate, continue, anticipate, intend, expect, predict, similar expressions, as they relate to our company, our business and our management, are intended to identify forward-looking statements. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this prospectus supplement may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements.

Forward-looking statements speak only as of the date of this prospectus supplement. You should not put undue reliance on any forward-looking statements. We assume no obligation to update forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

Table of Contents**UNDERWRITING**

Citigroup Global Markets Inc., Barclays Capital Inc. and Wells Fargo Securities, LLC are acting as joint book-running managers of the offering and as representatives of the underwriters named below. Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, each underwriter named below has severally agreed to purchase, and the selling stockholders have agreed to sell to that underwriter, the number of shares set forth opposite the underwriter's name.

Underwriter	Number of Shares
Citigroup Global Markets Inc.	1,560,000
Barclays Capital Inc.	960,000
Wells Fargo Securities, LLC	760,000
William Blair & Company, L.L.C.	360,000
JMP Securities LLC	360,000
Total	4,000,000

The underwriting agreement provides that the obligations of the underwriters to purchase the shares included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the shares (other than those covered by the underwriters' option to purchase additional shares described below) if they purchase any of the shares.

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount from the public offering price not to exceed \$0.9045 per share. If all the shares are not sold at the offering price, the underwriters may change the offering price and the other selling terms.

One of the selling stockholders, Phoenix, has granted to the underwriters an option, exercisable for 30 days from the date of this prospectus supplement, to purchase up to 600,000 additional shares at the public offering price less the underwriting discount. To the extent the option is exercised, each underwriter must purchase a number of additional shares approximately proportionate to that underwriter's initial purchase commitment. Any shares issued or sold under the option will be issued and sold on the same terms and conditions as the other shares that are the subject of this offering.

We, our officers and directors and the selling stockholders have agreed, subject to certain exceptions, that, for a period of 60 days, or in the case of the selling stockholders, 90 days, from the date of this prospectus supplement, we and they will not, without the prior written consent of Citigroup Global Markets Inc., dispose of or hedge any shares or any securities convertible into or exchangeable for our common stock. Citigroup Global Markets Inc. in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice. These lock-up agreements do not prohibit the sale of up to 127,500 shares of our common stock by certain of our executive officers pursuant to trading plans established pursuant to Rule 10b5-1 under the Securities Exchange Act of 1934, as amended (the Exchange Act) or to the sale of up to 21,640 shares of our common stock by one of our other officers.

The shares are listed on the New York Stock Exchange under the symbol MMI.

Edgar Filing: Marcus & Millichap, Inc. - Form 424B5

The following table shows the underwriting discounts and commissions that the selling stockholders are to pay to the underwriters in connection with this offering. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares.

	No Exercise	Full Exercise
Per share	\$ 1.5075	\$ 1.5075
Total	\$ 6,030,000	\$ 6,934,500

Table of Contents

The selling stockholders will pay all of their and our third party expenses in connection with this offering, which are estimated to be approximately \$450,000. The selling stockholders have also agreed to reimburse the underwriters for certain of their expenses in an amount up to \$15,000.

In connection with the offering, the underwriters may purchase and sell shares in the open market. Purchases and sales in the open market may include short sales, purchases to cover short positions, which may include purchases pursuant to the underwriters' option to purchase additional shares, and stabilizing purchases.

Short sales involve secondary market sales by the underwriters of a greater number of shares than they are required to purchase in the offering.

Covered short sales are sales of shares in an amount up to the number of shares represented by the underwriters' option to purchase additional shares.

Naked short sales are sales of shares in an amount in excess of the number of shares represented by the underwriters' option to purchase additional shares.

Covering transactions involve purchases of shares either pursuant to the underwriters' option to purchase additional shares or in the open market in order to cover short positions.

To close a naked short position, the underwriters must purchase shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

To close a covered short position, the underwriters must purchase shares in the open market or must exercise the option to purchase additional shares. In determining the source of shares to close the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the underwriters' option to purchase additional shares.

Stabilizing transactions involve bids to purchase shares so long as the stabilizing bids do not exceed a specified maximum.

Purchases to cover short positions and stabilizing purchases, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the shares. They may also cause the price of the shares to be higher than the price that would otherwise exist in the open market in the absence of these transactions. The underwriters may conduct these transactions on the New York Stock Exchange, in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

Conflicts of Interest

The underwriters are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, principal investment, hedging, financing and brokerage activities. The

underwriters and their respective affiliates have in the past performed commercial banking, investment banking and advisory services for us from time to time for which they have received customary fees and reimbursement of expenses and may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business for which they may receive customary fees and reimbursement of expenses. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (which may include bank loans and/or credit default swaps) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. In addition, an affiliate of Wells Fargo Securities,

LLC is the sole lender under our credit facility. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

We and the selling stockholders have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

Notice to Prospective Investors in the European Economic Area

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a relevant member state), with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the relevant implementation date), an offer of shares described in this prospectus supplement may not be made to the public in that relevant member state other than:

to any legal entity which is a qualified investor as defined in the Prospectus Directive;

to fewer than 100 or, if the relevant member state has implemented the relevant provision of the 2010 PD Amending Directive, 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by us for any such offer; or

in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of shares shall require us or any underwriter to publish a prospectus pursuant to Article 3 of the Prospectus Directive.

For purposes of this provision, the expression an offer of securities to the public in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe for the shares, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression Prospectus Directive means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the relevant member state) and includes any relevant implementing measure in the relevant member state. The expression 2010 PD Amending Directive means Directive 2010/73/EU.

The sellers of the shares have not authorized and do not authorize the making of any offer of shares through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the shares as contemplated in this prospectus supplement. Accordingly, no purchaser of the shares, other than the underwriters, is authorized to make any further offer of the shares on behalf of the sellers or the underwriters.

Notice to Prospective Investors in the United Kingdom

This prospectus supplement and the accompanying prospectus are only being distributed to, and are only directed at, persons in the United Kingdom that are qualified investors within the meaning of Article 2(1)(e) of the Prospectus Directive that are also (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the Order) or (ii) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (each such person being referred to as a relevant person). This prospectus supplement and its contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other persons in the United Kingdom. Any person in the United Kingdom that is not a relevant person should not act or rely on this document or any of its contents.

PROSPECTUS

4,600,000 Shares

Common Stock

Phoenix Investments Holdings LLC (Phoenix Investments) and George M. Marcus, our Co-Chairman (together with Phoenix Investments, the selling stockholders) may offer and sell up to 4,600,000 shares of our common stock from time to time, in amounts, at prices and on terms that will be determined at the time these shares of common stock are offered. We are not selling any shares of common stock under this prospectus and will not receive any proceeds from the sale of shares by the selling stockholders.

We will provide more specific terms regarding any offering of the shares of common stock in supplements to this prospectus or in one or more documents incorporated by reference into this prospectus. The prospectus supplements and documents incorporated by reference into this prospectus may also add, update or change information contained in this prospectus. You should read this prospectus, including any documents incorporated by reference into this prospectus, and the applicable prospectus supplement carefully before you invest.

The selling stockholders may sell all or a portion of the shares directly to purchasers or through underwriters, brokers-dealers or agents, who may receive compensation in the form of discounts, concessions or commissions. These sales may occur at fixed prices, at market prices prevailing at the time of sale, at prices related to prevailing market price, at varying prices determined at the time of sale or at negotiated prices. See the section titled Plan of Distribution in this prospectus for a more complete description of the ways in which the shares may be sold.

Our common stock is listed on the New York Stock Exchange (the NYSE) under the symbol MMI. On February 5, 2015, the last reported sale price of our common stock on the NYSE was \$36.66 per share.

Investing in our common stock involves risks. You should carefully consider the risk factors set forth in the applicable supplement to this prospectus, and under similar headings in the other documents that are incorporated by reference into this prospectus or any prospectus supplement before investing in any common stock that may be offered. See Risk Factors on page 1.

Neither the Securities and Exchange Commission (the SEC) nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or the accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is February 25, 2015

MARCUS & MILLICHAP, INC.

Marcus & Millichap is a leading national brokerage firm specializing in commercial real estate investment sales, financing, research and advisory services. We have been the top broker in the United States based on the number of investment transactions over the last 10 years. As of December 31, 2014, we had nearly 1,500 investment sales and financing professionals in 78 offices that provide investment brokerage and financing services to sellers and buyers of commercial real estate. We also offer market research, consulting and advisory services to developers, lenders, owners and investors.

We were formed as a sole proprietorship in 1971, incorporated in California on August 26, 1976 as G. M. Marcus & Company, and we were renamed as Marcus & Millichap, Inc. in August 1978, Marcus & Millichap Real Estate Investment Brokerage Company in September 1985, and Marcus & Millichap Real Estate Investment Services, Inc. (MMREIS) in February 2007. Prior to the completion of our initial public offering (IPO), MMREIS was majority-owned by Marcus & Millichap Company (MMC) and all of MMREIS preferred and common stock outstanding was held by MMC and its affiliates or officers and employees of MMREIS. In June 2013, in preparation for the spin-off of its real estate investment services business (the Spin-Off), MMC formed a holding company called Marcus & Millichap, Inc. in Delaware. Prior to the completion of our IPO, the shareholders of MMREIS contributed the shares of MMREIS to Marcus & Millichap, Inc. in exchange for common stock of Marcus & Millichap, Inc., and MMREIS became a wholly owned subsidiary of Marcus & Millichap, Inc.

Our principal executive offices are located at 23975 Park Sorrento, Suite 400, Calabasas, California 91302. Our telephone number at this location is (818) 212-2250. Our website address is www.marcusmillichap.com. The information on our website is not part of, and is not incorporated into, this prospectus or any prospectus supplement.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement on Form S-3 that we filed with the SEC using a shelf registration process. Under this shelf registration process, the selling stockholders may, from time to time, offer and sell up to 4,600,000 shares of our common stock in one or more offerings or resales. This prospectus provides you with a general description of the shares of our common stock such stockholders may sell. Each time the selling stockholders sell shares under this prospectus, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in or incorporated by reference into this prospectus. If so, the information in the prospectus supplement should be read as superseding the information in this prospectus. Additionally, information that we file later with the SEC will automatically update and supersede this information. You should carefully read this prospectus, the applicable prospectus supplement, and the additional information described below under the headings **Where You Can Find More Information** and **Certain Documents Incorporated By Reference**.

In this prospectus we use the terms **Marcus & Millichap**, **we**, **us**, **our**, and **our company** and similar phrases to refer to Marcus & Millichap, Inc., a Delaware corporation, and its consolidated subsidiaries, unless otherwise specified.

RISK FACTORS

Investing in the common stock to be offered pursuant to this prospectus may involve a high degree of risk. These risks will be set forth in a prospectus supplement relating to the common stock to be offered by that prospectus supplement. You should carefully consider the important factors set forth under the heading **Risk Factors** in the applicable supplement to this prospectus before investing in any common stock that may be offered.

FORWARD-LOOKING STATEMENTS

This prospectus includes forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends affecting the financial condition of our business. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the time those statements are made and/or management's good faith belief as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to:

market trends in the commercial real estate market or the general economy;

our ability to attract and retain qualified managers, sales and financing professionals;

the effects of increased competition on our business;

our ability to successfully enter new markets or increase our market share;

our ability to successfully expand our services and businesses and to manage any such expansions;

our ability to retain existing clients and develop new clients;

our ability to keep pace with changes in technology;

any business interruption or technology failure and any related impact on our reputation;

changes in tax laws, employment laws or other government regulation affecting our business; and

other risk factors included under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013.

In addition, in this prospectus, the words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "expect," "potential" and similar expressions, as they relate to our company, our business and our management, are intended to identify forward-looking statements. In light of these risks and uncertainties, the forward-looking events and circumstances discussed in this prospectus may not occur and actual results could differ materially from those anticipated or implied in the forward-looking statements.

Forward-looking statements speak only as of the date of this prospectus. You should not put undue reliance on any forward-looking statements. We assume no obligation to update forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

USE OF PROCEEDS

This prospectus relates to shares of our common stock that may be offered and sold from time to time by the selling stockholders. We will receive no proceeds from the sale of common stock by the selling stockholders. The selling stockholders will pay all third party expenses relating to any offering.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

As of the date of this prospectus, our authorized capital stock consists of 175,000,000 shares, of which 150,000,000 shares, par value \$0.0001 per share, are designated as common stock, and 25,000,000 shares, par value \$0.0001 per share, are designated as preferred stock. As of December 31, 2014, there were 36,918,442 shares of common stock outstanding, and there were approximately 21 holders of record of our common stock. No shares of preferred stock are currently outstanding.

The following description of our capital stock does not purport to be complete and is subject to and is qualified in its entirety by the description of our capital stock contained in our amended and restated certificate of incorporation, a copy of which is filed as an exhibit to the registration statement of which this prospectus is a part. Reference is made to such exhibit for a detailed description of the provisions thereof summarized below.

Common Stock

The holders of our common stock are entitled to one vote for each share held of record on all matters submitted to a vote of the stockholders. Subject to preferences that may be applicable to any then outstanding preferred stock, holders of common stock are entitled to receive ratably such dividends, if any, as may be declared by the board of directors out of funds legally available for that purpose. In the event of liquidation, dissolution or winding up of the company, the holders of common stock will be entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all of our debts and other liabilities of our company, subject to the prior distribution rights of any preferred stock then outstanding. Holders of common stock have no preemptive or conversion rights or other subscription rights. All outstanding shares of common stock, including the shares of common stock to be issued pursuant to this prospectus, are fully paid and non-assessable.

Certain Effects of Authorized but Unissued Stock

We have shares of common stock and preferred stock available for future issuance without stockholder approval. These additional shares may be used for a variety of corporate purposes, including future public offerings to raise additional capital, to facilitate corporate acquisitions or to pay as a dividend on the capital stock.

The existence of unissued and unreserved common stock and preferred stock may enable our board of directors to issue shares to persons friendly to current management or to issue preferred stock with terms that could render more difficult or discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise, thereby protecting the continuity of our management. In addition, the issuance of preferred stock could adversely affect the voting power of holders of common stock and the likelihood that such holders would receive dividend payments and payments upon liquidation.

Anti-Takeover Effects of Delaware Law and Our Certificate of Incorporation and Bylaws

Our amended and restated certificate of incorporation and our amended and restated bylaws contain certain provisions that could have the effect of delaying, deterring or preventing another party from acquiring control of us. These provisions and certain provisions of the General Corporation Law of the State of Delaware (the "DGCL"), which are summarized below, are expected to discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed, in part, to encourage persons seeking to acquire control of us to negotiate first with our board of directors. We believe that the benefits of increased protection of our potential ability to negotiate more favorable terms with an unfriendly or unsolicited acquirer outweigh the disadvantages of discouraging a proposal to acquire us.

Table of Contents

Undesignated Preferred Stock

Our board of directors has the ability to issue preferred stock with voting or other rights or preferences that could impede the success of any attempt to change control of us. These and other provisions may have the effect of deterring hostile takeovers or delaying changes in control or management of our company.

Limits on Ability of Stockholders to Act by Written Consent or Call a Special Meeting

Our amended and restated certificate of incorporation provides that our stockholders may not act by written consent, which may lengthen the amount of time required to take stockholder actions. As a result, a holder controlling a majority of our capital stock would not be able to amend our bylaws or remove directors without holding a meeting of our stockholders called in accordance with our bylaws.

In addition, our amended and restated bylaws provide that special meetings of the stockholders may be called only by the chairperson of the board, the Chief Executive Officer or our board of directors. Stockholders may not call a special meeting, which may delay the ability of our stockholders to force consideration of a proposal or for holders controlling a majority of our capital stock to take any action, including the removal of directors.

Requirements for Advance Notification of Stockholder Nominations and Proposals

Our amended and restated bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our board of directors or a committee of our board of directors. These provisions may have the effect of precluding the conduct of certain business at a meeting if the proper procedures are not followed. These provisions may also discourage or deter a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to obtain control of our company.

Board Classification

Our board of directors is divided into three classes, one class of which is elected each year by our stockholders. The directors in each class serve three-year terms. A third party may be discouraged from making a tender offer or otherwise attempting to obtain control of us as it is more difficult and time-consuming for stockholders to replace a majority of the directors on a classified board.

No Cumulative Voting

Our amended and restated certificate of incorporation and amended and restated bylaws do not permit cumulative voting in the election of directors. Cumulative voting allows a stockholder to vote a portion or all of its shares for one or more candidates for seats on the board of directors. Without cumulative voting, a minority stockholder may not be able to gain as many seats on our board of directors as the stockholder would be able to gain if cumulative voting were permitted. The absence of cumulative voting makes it more difficult for a minority stockholder to gain a seat on our board of directors to influence our board's decision regarding a takeover.

Amendment of Charter and Bylaws Provisions

The amendment of the above provisions of our amended and restated certificate of incorporation requires the approval by holders of at least two thirds of our outstanding capital stock entitled to vote generally in the election of directors. The amendment of our bylaws requires approval by the holders of at least two thirds of our outstanding capital stock

entitled to vote generally in the election of directors.

Table of Contents

Delaware Anti-Takeover Statute

We are subject to Section 203 of the DGCL regulating corporate takeovers. In general, Section 203 prohibits a publicly held Delaware corporation from engaging, under certain circumstances, in a business combination with an interested stockholder for a period of three years following the date the person became an interested stockholder unless:

prior to the date of the transaction, our board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

upon completion of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, calculated as provided under Section 203; or

at or subsequent to the date of the transaction, the business combination is approved by our board of directors and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least two-thirds of the outstanding voting stock which is not owned by the interested stockholder.

Generally, a business combination includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. An interested stockholder is a person who, together with affiliates and associates, owns or, within three years prior to the determination of interested stockholder status, did own 15% or more of a corporation's outstanding voting stock. We expect the existence of this provision to have an anti-takeover effect with respect to transactions our board of directors does not approve in advance. We anticipate that Section 203 may also discourage attempts that might result in a premium over the market price for the shares of common stock held by stockholders.

The provisions of the DGCL and the provisions of our amended and restated certificate of incorporation and amended and restated bylaws could have the effect of discouraging others from attempting hostile takeovers and, as a consequence, they might also inhibit temporary fluctuations in the market price of our common stock that often result from actual or rumored hostile takeover attempts. These provisions might also have the effect of preventing changes in our management. It is possible that these provisions could make it more difficult to accomplish transactions that stockholders might otherwise deem to be in their best interests.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company, LLC, 6201 15th Avenue, Brooklyn, NY 11219. Its phone number is (800) 937-5449.

Listing

Our common stock is listed on the New York Stock Exchange under the symbol MMI.

SELLING STOCKHOLDERS

This prospectus relates to the resale or other disposition by Phoenix Investments and George M. Marcus of up to 4,600,000 shares of our common stock. In connection with our IPO in 2013, MMC contributed its shares of MMREIS to Marcus & Millichap in exchange for common stock of Marcus & Millichap, and MMREIS became a wholly owned subsidiary of Marcus & Millichap. MMC subsequently distributed its shares in Marcus & Millichap to its shareholders, including Mr. Marcus, who then contributed those shares to Phoenix Investments. In February 2015, Phoenix Investments made a pro rata distribution to its members of a portion of its shares of Marcus & Millichap, pursuant to which Mr. Marcus received 800,000 shares of Marcus & Millichap being registered hereunder.

Table of Contents

Information about the selling stockholders, where applicable, including the amount of shares of common stock owned by each selling stockholder prior to the offering, the number of shares of our common stock to be offered by each selling stockholder and the amount of common stock to be owned by each selling stockholder after completion of the offering, will be set forth in an applicable prospectus supplement, documents incorporated by reference or in a free writing prospectus we file with the SEC. The applicable prospectus supplement will also disclose whether any of the selling stockholders has held any position or office with, has been employed by or otherwise has had a material relationship with us during the three years prior to the date of the prospectus supplement.

The selling stockholders may transfer the shares of common stock in other circumstances, including, but not limited to, transfers by Mr. Marcus to his family charitable foundation, The Marcus Family Foundation, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus and may sell the shares from time to time under this prospectus after we have filed an update to this prospectus under Rule 424(b) or other applicable provision of the Securities Act of 1933, as amended (the Securities Act) amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer and donate the shares in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

Table of Contents

PLAN OF DISTRIBUTION

The selling stockholders, including any transferees, donees, pledgees, assignees and successors-in-interest, may, from time to time, sell, transfer or otherwise dispose of the shares:

through underwriters or dealers;

through agents; or

directly to purchasers.

We will describe in a prospectus supplement, the particular terms of the offering of the shares, including the following:

the names of any underwriters, dealers or agents;

the purchase price and the proceeds the selling stockholders will receive from the sale;

any underwriting discounts and other items constituting underwriters' compensation;

any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers;

any securities exchanges on which the shares may be listed; and

any other information we think is important.

If the selling stockholders use underwriters in the sale, such underwriters will acquire the shares for their own account. The underwriters may resell the shares in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale.

The shares may be either offered to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. The obligations of the underwriters to purchase the shares will be subject to certain conditions. The underwriters will be obligated to purchase all the shares of the series offered if any of the shares are purchased. The underwriters may change from time to time the offering price and any discounts or concessions allowed or reallocated or paid to dealers.

The selling stockholders may sell offered shares through agents designated by the selling stockholders. Any agent involved in the offer or sale of the shares for which this prospectus is delivered will be named, and any commissions payable by the selling stockholders to that agent will be set forth, in the prospectus supplement. Unless indicated in

the prospectus supplement, the agents have agreed to use their reasonable best efforts to solicit purchases for the period of their appointment.

The selling stockholders also may sell offered shares directly. In this case, no underwriters or agents would be involved.

Underwriters, dealers and agents that participate in the distribution of the offered shares may be underwriters as defined in the Securities Act, and any discounts or commissions received by them from the selling stockholders and any profit on the resale of the offered shares by them may be treated as underwriting discounts and commissions under the Securities Act. We will identify any underwriters or agents, and describe their compensation, in a prospectus supplement.

Certain of any such underwriters and agents, including their associates, may be customers of, engage in transactions with and perform services for us and our subsidiaries in the ordinary course of business. One or more of our affiliates may from time to time act as an agent or underwriter in connection with the sale of the shares to the extent permitted by applicable law. The participation of any such affiliate in the offer and sale of the shares will comply with Rule 5110(h) of the Corporate Financing Rule of the Financial Industry Regulatory Authority regarding the offer and sale of securities of an affiliate.

Table of Contents

The selling stockholders may have agreements with the underwriters, dealers and agents to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments which the underwriters, dealers or agents may be required to make. Underwriters, dealers and agents may engage in transactions with, or perform services for, us or our subsidiaries in the ordinary course of their businesses.

The selling stockholders may authorize agents or underwriters to solicit offers by certain types of institutions to purchase shares from them at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts. These contracts will provide for payment and delivery on a specified date in the future. The conditions to these contracts and the commissions payable for solicitation of such contracts will be set forth in the applicable prospectus supplement.

In order to facilitate the offering of the shares, any underwriters or agents, as the case may be, involved in the offering of such shares may engage in transactions that stabilize, maintain or otherwise affect the price of such shares or any other securities the prices of which may be used to determine payments on such securities. Specifically, the underwriters or agents, as the case may be, may overallocate in connection with the offering, creating a short position in such securities for their own account. In addition, to cover overallocations or to stabilize the price of such securities or any such other securities, the underwriters or agents, as the case may be, may bid for, and purchase, such securities or any such other securities in the open market. Finally, in any offering of such securities through a syndicate of underwriters, the underwriting syndicate may reclaim selling concessions allotted to an underwriter or a dealer for distributing such securities in the offering if the syndicate repurchases previously distributed securities in transactions to cover syndicate short positions, in stabilization transaction or otherwise. Any of these activities may stabilize or maintain the market price of the securities above independent market levels. The underwriters or agents, as the case may be, are not required to engage in these activities, and may end any of these activities at any time.

The selling stockholders also may transfer the shares of common stock in other circumstances, including, but not limited to, transfers by George M. Marcus to his family charitable foundation, The Marcus Family Foundation, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus and may sell the shares from time to time under this prospectus after we have filed an update to this prospectus under Rule 424(b) or other applicable provisions of the Securities Act amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus. The selling stockholders also may transfer and donate the shares in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.
