**Filed Pursuant To Rule 433**

**Registration No. 333-209025**

**GLOBAL WATER RESOURCES, INC.**

*We are providing the following disclosure to update the risk factor contained in the Prospectus titled *The Reorganization Transaction occurring concurrently with this offering may give rise to both U.S. and Canadian tax liability for us.**

As identified in the Prospectus, we included estimates of aggregate U.S. and Canadian tax liabilities using the trading price of our shares of common stock as a rough approximation for the fair market value of the shares of our common stock held by GWRC. Specifically, we estimate that a trading price at the time of the closing of the Reorganization Transaction of \$6.00 per share would result in aggregate U.S. and Canadian tax liabilities to us of approximately \$160,000, and a trading price of \$6.50 per share would result in aggregate U.S. and Canadian tax liabilities to us of approximately \$1,900,000. In light of the recent increase in the trading price of GWRC's stock on the Toronto Stock Exchange, which closed on April 26, 2016 at CAD\$8.45 per share (approximately US\$6.70 per share), we are providing estimates of our tax liability based upon higher trading prices than previously reflected in the Prospectus. As before, the estimates below use the trading price of our shares of common stock as a rough approximation of the fair market value of the shares of our common stock held by GWRC. For example, we estimate that a trading price at the time of the closing of the Reorganization Transaction of \$7.00 per share would result in aggregate U.S. and Canadian tax liabilities to us of approximately \$3,500,000, and a trading price of \$7.50 per share would result in aggregate U.S. and Canadian tax liabilities to us of approximately \$5,800,000. We do not believe that tax liabilities at the levels described above would result in a material adverse effect to us.
