November 10, 2016

Dear Shareholders:

You are invited to attend a special meeting (the **Enbridge Special Meeting**) of the holders (**Enbridge Shareholders**) of common shares (**Enbridge Common Shares**) of Enbridge Inc. (**Enbridge**) to be held at the Calgary Marriott Downtown Hotel, Kensington Room, 110 9th Avenue SE, Calgary, Alberta at 1:00 p.m. on December 15, 2016 for the purpose of considering, and if deemed advisable, approving, the issuance of Enbridge Common Shares (the **Enbridge Common Share Issuance**) and an amendment to the by-laws of Enbridge (the **By-law Amendment**), each in connection with the Agreement and Plan of Merger dated as of September 5, 2016 (the **Merger Agreement**) among Enbridge, Sand Merger Sub, Inc., a direct wholly-owned subsidiary of Enbridge, and Spectra Energy Corp (**Spectra Energy**). The Merger Agreement provides for the combination of Enbridge and Spectra Energy through a share-for-share merger, after which Spectra Energy will become a direct wholly-owned subsidiary of Enbridge (the **Merger**).

If the Merger is completed, Spectra Energy stockholders will receive 0.984 of an Enbridge Common Share for each share of Spectra Energy common stock that they own (the **Merger Consideration**). This exchange ratio is fixed and will not be adjusted to reflect changes in the prices of Spectra Energy common stock or Enbridge Common Shares prior to the completion of the Merger. The Enbridge Common Shares issued in connection with the Merger will be listed on the New York Stock Exchange (the **NYSE**) and the Toronto Stock Exchange.

The value of the Merger Consideration will fluctuate with the market price of Enbridge Common Shares. Based on the closing price of Enbridge Common Shares on the NYSE of US\$40.99 on September 2, 2016, the last trading day before the public announcement of the Merger Agreement on September 6, 2016, the exchange ratio represented approximately US\$40.33 in Enbridge Common Shares for each share of Spectra Energy common stock. Based on the closing price of Enbridge Common Shares on the NYSE of US\$42.07 on November 10, 2016, the exchange ratio represented approximately US\$41.40 in Enbridge Common Shares for each share of Spectra Energy common stock.

Please refer to the accompanying management information circular (the **Management Information Circular**) for a more detailed description of the Merger, including information about Spectra Energy, the terms and conditions of the Merger Agreement, the opinions of Enbridge's financial advisors, the Enbridge Common Share Issuance, the By-law Amendment and the risk factors relating to the completion of the Merger. Please give the Management Information Circular your careful consideration and, if you require assistance, consult your financial, tax or other professional advisors.

The board of directors of Enbridge recommends that Enbridge Shareholders vote FOR the Enbridge Common Share Issuance and FOR the By-law Amendment.

Your vote is very important regardless of the number of Enbridge Common Shares you own. The Merger cannot be completed without Enbridge Shareholders approving the Enbridge Common Share Issuance and the By-law Amendment. Enclosed with this letter is the Notice of Special Meeting and Management Information Circular and a form of proxy or voting instruction form. Please complete and deliver your proxy or voting instruction form prior to 6:00 p.m. (Calgary time) on December 13, 2016, to ensure your representation at the Enbridge Special Meeting.

Yours truly,

Cautionary Statement regarding Forward-Looking Statements

Certain information provided in this Management Information Circular, including documents incorporated by reference herein, constitutes forward-looking statements or information (collectively, **forward-looking statements**). This information has been included to provide readers with information about the Merger and Enbridge and Spectra Energy and their respective subsidiaries, including management's assessment of Enbridge's and its subsidiaries' future plans and operations. This information may not be appropriate for other purposes. Forward-looking statements are typically identified by words such as anticipate, expect, project, estimate, forecast, plan, intend, target and similar words suggesting future outcomes or statements regarding an outlook. Forward-looking statements included or incorporated by reference in this Management Information Circular include, but are not limited to, statements with respect to the following:

Table of Contents

expectations regarding whether the transactions contemplated by the Merger Agreement, including the Merger, the issuance of Enbridge Common Shares and the By-law Amendment, will be completed, including whether conditions to the completion of such transactions will be satisfied, or the timing for completing such transactions; future composition of the Enbridge board of directors and senior management of Enbridge; expectations for the effects of the transactions or the ability of the combined company to successfully achieve strategic objectives, including integrating the respective businesses of Enbridge and Spectra Energy, or the effects of unexpected costs, liabilities or delays; anticipated impact of the Merger on Enbridge, future growth opportunities, business prospects, natural gas and crude oil supply and demand dynamics, regulatory proceedings, receipt of regulatory approvals, transaction synergies and other perceived benefits of the Merger; expected EBIT, expected earnings/(loss), expected earnings/(loss) per share, expected ACFFO and expected ACFFO per share; expected costs related to proposed projects and projects under construction; expected in-service dates for proposed projects and projects under construction; expected capital expenditures; future financing requirements and plans and expected future sources of financing; estimated future dividends and expectations regarding the impact of the dividend payout policy and dividend payout expectation; expected future actions of regulators; expected costs related to leak remediation and potential insurance recoveries; operations, maintenance and replacement timing and costs; and expectations regarding commodity prices and supply forecasts.

Although Enbridge believes these forward-looking statements are reasonable based on the information available on the date such statements are made and processes used to prepare the information, such statements are not guarantees of future performance and readers are cautioned against placing undue reliance on forward-looking statements. By their nature, these statements involve a variety of assumptions, known and unknown risks and uncertainties and other factors, which may cause actual results, levels of activity and achievements to differ materially from those expressed or implied by such statements. Material assumptions include assumptions about the following: expected timing and terms of the Merger; anticipated completion of the Merger; timely receipt of required regulatory, TSX, NYSE and shareholder/stockholder consents and approvals with respect to the Merger; the ability of the parties to the Merger to satisfy, in a timely manner, the other conditions to the closing; impact of the Merger; debt and equity market conditions; the expected supply of and demand for crude oil, natural gas, NGL and renewable energy; prices of crude oil, natural gas, NGL and renewable energy; exchange rates; inflation; interest rates; availability and price of labour and construction materials; operational reliability; customer and regulatory approvals; maintenance of support and regulatory approvals for proposed projects and projects under construction; anticipated in-service dates; weather; future cash flows; credit ratings; capital project funding; expected EBIT; expected earnings/(loss), expected earnings/(loss) per share, expected ACFFO; expected ACFFO per share; and estimated future dividends.

Assumptions regarding the expected supply of and demand for crude oil, natural gas, NGL and renewable energy, and the prices of these commodities, are material to and underlie all forward-looking statements. These factors are relevant to all forward-looking statements as they may impact current and future levels of demand for Enbridge's services. Similarly, exchange rates, inflation and interest rates impact the economies and business environments in which Enbridge operates and may impact levels of demand for Enbridge's services and cost of inputs, and are therefore inherent in all forward-looking statements. Due to the interdependencies and correlation of these macroeconomic factors, the impact of any one assumption on a forward-looking statement cannot be determined with certainty, particularly with respect to expected EBIT, earnings/(loss) and ACFFO and associated per share amounts, or estimated future dividends. The most relevant assumptions associated with forward-looking statements on proposed projects and projects under construction, including estimated completion dates and expected capital expenditures, include the following: the availability and price of labour and construction materials; the effects of inflation and foreign exchange rates on labour and material costs; the effects of interest rates on borrowing costs; the impact of weather; and customer and regulatory approvals on construction and in-service schedules.

Forward-looking statements of Enbridge are subject to risks and uncertainties pertaining to the possibility that the Merger does not close when expected or at all because required regulatory, shareholder/stockholder or other approvals are not received or other conditions to the closing are not satisfied on a timely basis or at all; that Enbridge and Spectra Energy may be required to modify the terms and conditions of the Merger Agreement to

Table of Contents

achieve regulatory or shareholder/stockholder approval, or that the anticipated benefits of the Merger are not realized as a result of such things as the strength or weakness of the economy and competitive factors in the areas where Enbridge and Spectra Energy do business; general business and economic conditions in Canada, the United States and other countries in which Enbridge or Spectra Energy conduct business; the impact of the movement of the Canadian dollar relative to other currencies, particularly the U.S. dollar; the effects of competition in the markets in which Enbridge or Spectra Energy operate; the impact of changes in the laws and regulations regulating the oil and gas industries or affecting domestic and foreign operations; judicial or regulatory judgments and legal proceedings; ability to successfully integrate the two companies; success in retaining the services of executives, key personnel and other employees that the combined company needs in order to realize all of the anticipated benefits of the Merger; the risk that expected synergies and benefits of the Merger will not be realized within the expected time frame or at all; reputational risks; the outcome of various litigation and proceedings in which Enbridge or Spectra Energy are involved and the adequacy of reserves maintained therefor; and other factors that may affect future results of Enbridge or Spectra Energy, including changes in trade policies, timely development and introduction of new products and services, changes in tax laws, technological and regulatory changes, and adverse developments in general market, business, economic, labor, regulatory and political conditions. The impact of any one risk, uncertainty or factor on a particular forward-looking statement is not determinable with certainty as these are interdependent and Enbridge's future courses of action depend on management's assessment of all information available at the relevant time.

Readers should be cautioned that there is no assurance that the Merger will be completed in the manner contemplated, or at all, or that the current market conditions and the assumptions and forecasts based on such market conditions will not materially change.

Non-GAAP Measures

This Management Information Circular contains references to adjusted EBIT, adjusted earnings/(loss) and ACFFO. Adjusted EBIT represents EBIT adjusted for unusual, non-recurring or non-operating factors on both a consolidated and segmented basis. Adjusted earnings/(loss) represent earnings or loss attributable to Enbridge Shareholders adjusted for unusual, non-recurring or non-operating factors included in adjusted EBIT, as well as adjustments for unusual, non-recurring or non-operating factors in respect of interest expense, income taxes, noncontrolling interests and redeemable noncontrolling interests on a consolidated basis. These factors, referred to as adjusting items, are reconciled and discussed in the financial results sections for the affected business segments.

ACFFO is defined as cash flow provided by operating activities before changes in operating assets and liabilities (including changes in environmental liabilities) less distributions to noncontrolling interests and redeemable noncontrolling interests, preference share dividends and maintenance capital expenditures, and further adjusted for unusual, non-recurring or non-operating factors.

Management of Enbridge believes the presentation of adjusted EBIT, adjusted earnings/(loss) and ACFFO gives useful information to investors and shareholders as they provide increased transparency and insight into the performance of Enbridge. Management of Enbridge uses adjusted EBIT and adjusted earnings/(loss) to set targets and to assess the performance of Enbridge. Management of Enbridge also uses ACFFO to assess the performance of Enbridge and to set its dividend payout target. Adjusted EBIT, adjusted EBIT for each segment, adjusted earnings/(loss) and ACFFO are not measures that have standardized meaning prescribed by U.S. GAAP and are not U.S. GAAP measures. Therefore, these measures may not be comparable with similar measures presented by other issuers.

For a reconciliation of EBIT to earnings see Note 4 of the notes to Enbridge's amended consolidated financial statements filed on SEDAR for the fiscal year ended December 31, 2015 and Note 3 of the notes to Enbridge's

unaudited interim condensed consolidated financial statements filed on SEDAR for the nine months ended September 30, 2016, both of which are incorporated by reference into this Management Information Circular. For a reconciliation of ACFFO to cash provided by operating activities (a U.S. GAAP measure) see *Non-GAAP Reconciliation ACFFO* in Enbridge's management discussion and analysis of financial condition and results

Notes:

- (1) Enbridge reports EBIT as an alternative performance measure. EBIT is a non-GAAP measure. Management of Enbridge believes the presentation of EBIT gives useful information to investors as it provides consistency, facilitates period to period comparisons and insight into the performance of Enbridge. While EBIT is frequently used by investors and securities analysts in their evaluations of companies, EBIT and similar non-GAAP measures have limitations as analytical tools and investors should not consider them in isolation or as a substitute for an analysis of Enbridge's results of operations as reported under U.S. GAAP. For a reconciliation of EBIT to earnings see Note 4 of the notes to Enbridge's amended consolidated financial statements filed on SEDAR for the fiscal year ended December 31, 2015 and Note 3 of the notes to Enbridge's unaudited interim condensed consolidated financial statements filed on SEDAR for the nine months ended September 30, 2016, both of which are incorporated by reference into this Management Information Circular.

Table of Contents**RISK FACTORS**

*In addition to the other information contained in or incorporated by reference into this Management Information Circular, including the matters addressed in the section entitled **Cautionary Statement Regarding Forward-Looking Statements**, Enbridge Shareholders should carefully consider the following risks in deciding whether to vote for the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution. In addition, you should read and consider the risks associated with each of the businesses of Enbridge and Spectra Energy because these risks will relate to the combined company following the completion of the Merger. Descriptions of some of these risks can be found in (i) the section entitled **Risk Factors** in the annual information form of Enbridge dated February 19, 2016 for the year ended December 31, 2015 and (ii) the section entitled **Risk Factors** in the Annual Report of Spectra Energy on Form 10-K for the year ended December 31, 2015, as filed February 25, 2016. See **Information Contained in Management Information Circular – Information Incorporated by Reference and Additional Information**.*

Risks Relating to the Merger

The Exchange Ratio is fixed and will not be adjusted in the event of any change in the price of either Enbridge Common Shares or shares of Spectra Energy common stock.

As Merger Consideration, Spectra Energy stockholders will receive a fixed number of Enbridge Common Shares, not a number of shares that will be determined based on a fixed market value. The market value of Enbridge Common Shares and the market value of Spectra Energy common stock at the Effective Time may vary significantly from their respective values on the date that the Merger Agreement was executed or at other dates, such as the date of this Management Information Circular or the date of the Enbridge Special Meeting. Stock price changes may result from a variety of factors, including changes in Enbridge's or Spectra Energy's respective businesses, operations or prospects, regulatory considerations and general business, market, industry or economic conditions. The Exchange Ratio will not be adjusted to reflect any changes in the market value of Enbridge Common Shares, the comparative value of the Canadian dollar and U.S. dollar or market value of the Spectra Energy common stock. Therefore, the aggregate market value of the Enbridge Common Shares that a Spectra Energy stockholder is entitled to receive at the time that the Merger is completed could vary significantly from the value of such shares on the date of this Management Information Circular, the date of the Enbridge Special Meeting or the date on which Enbridge Common Shares are actually issued to Spectra Energy stockholders.

The market price for Enbridge Common Shares following the completion of the Merger may be affected by factors different from those that historically have affected Enbridge Common Shares.

Enbridge's businesses differ from those of Spectra Energy, and accordingly, the results of operations of Enbridge will be affected by some factors that are different from those currently affecting the results of operations of Enbridge.

There is no assurance when or if the Merger will be completed.

The completion of the Merger is subject to the satisfaction or waiver of a number of conditions as set forth in the Merger Agreement, including, among others, (i) the adoption of the Merger Agreement by an affirmative vote of the holders of a majority of all of the outstanding shares of Spectra Energy common stock entitled to vote at the Spectra Energy Special Meeting, (ii) the approval of each of the issuance of Enbridge Common Shares in connection with the Merger and the By-law Amendment by a majority of the votes cast in respect of such matters by holders of Enbridge Common Shares present in person or represented by proxy at the Enbridge Special Meeting, (iii) the approval for listing on the NYSE and the TSX of the Enbridge Common Shares to be issued to Spectra Energy stockholders in

connection with the Merger, subject to official notice of issuance, (iv) the expiration or early termination of the applicable waiting period under the HSR Act, (v) receipt of the Competition Act (Canada) Clearance, (vi) receipt of the Canada Transportation Act Approval, (vii) approval by

Table of Contents

CFIUS, (viii) the absence of any law, injunction or other order that prohibits the completion of the Merger, (ix) the absence of proceedings by certain governmental antitrust entities relating to the Merger or the other transactions contemplated by the Merger Agreement that could subject Enbridge or Spectra Energy or any of their respective subsidiaries, directors, officers or employees to criminal or quasi-criminal penalties or material monetary sanctions, (x) the Enbridge U.S. registration statement on Form F-4 having been declared effective by the SEC and (xi) other customary closing conditions, including the accuracy of each party's representations and warranties (subject to specified materiality qualifiers), and each party's material compliance with its covenants and agreements contained in the Merger Agreement. There can be no assurance as to when these conditions will be satisfied or waived, if at all, or that other events will not intervene to delay or result in the failure to complete the Merger.

Enbridge and Spectra Energy have made various filings and submissions and are pursuing all required consents, orders and approvals in accordance with the Merger Agreement. No assurance can be given that the required consents, orders and approvals will be obtained or that the required conditions to the completion of the Merger will be satisfied. Even if all such consents, orders and approvals are obtained and such conditions are satisfied, no assurance can be given as to the terms, conditions and timing of such consents, orders and approvals. For example, these consents, orders and approvals may impose conditions on or require divestitures relating to the divisions, operations or assets of Enbridge and Spectra Energy or may impose requirements, limitations or costs or place restrictions on the conduct of Enbridge's or Spectra Energy's business, and if such consents, orders and approvals require an extended period of time to be obtained, such extended period of time could increase the chance that an adverse event occurs with respect to Enbridge or Spectra Energy. Such extended period of time also may increase the chance that other adverse effects with respect to Enbridge or Spectra Energy could occur, such as the loss of key personnel. Each party's obligation to complete the Merger is also subject to the accuracy of the representations and warranties of the other party (subject to certain qualifications and exceptions) and the performance in all material respects of the other party's covenants under the Merger Agreement. As a result of these conditions, Enbridge cannot provide assurance that the Merger will be completed on the terms or timeline currently contemplated, or at all. For more information, see the sections entitled *The Merger - Regulatory Approvals Required for the Merger* and *The Merger Agreement - Conditions that Must Be Satisfied or Waived for the Merger to Occur*.

The Enbridge Special Meeting may take place before all of the required regulatory approvals have been obtained and before all conditions to such approvals, if any, are known. Notwithstanding the foregoing, if the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution are approved by Enbridge Shareholders, Enbridge would not be required to seek further approval of Enbridge Shareholders, even if the conditions imposed in obtaining required regulatory approvals could have an adverse effect on Enbridge either before or after completing the Merger.

The combined company may not realize all of the anticipated benefits of the Merger.

Enbridge believes that the Merger will provide benefits to the combined company as described elsewhere in this Management Information Circular. However, there is a risk that some or all of the expected benefits of the Merger may fail to materialize, or may not occur within the time periods anticipated by Enbridge. The realization of such benefits may be affected by a number of factors, including regulatory considerations and decisions, many of which are beyond the control of Enbridge. The challenge of coordinating previously independent businesses makes evaluating the business and future financial prospects of the combined company following the Merger difficult. Enbridge and Spectra Energy have operated and, until completion of the Merger, will continue to operate, independently. The success of the Merger, including anticipated benefits and cost savings, will depend, in part, on the ability to successfully integrate the operations of both companies in a manner that results in various benefits, including, among other things, an increase in the dividend, an expanded market reach and operating efficiencies, and that does not materially disrupt existing client relationships nor result in decreased revenues or dividends due to the full or partial loss of clients. The past financial performance of each of Enbridge and Spectra Energy may not be indicative of their

future financial performance. Realization of the anticipated benefits in the Merger will depend, in part, on the combined company's ability to successfully integrate

Table of Contents

Enbridge's and Spectra Energy's businesses. The combined company will be required to devote significant management attention and resources to integrating its business practices and support functions. The diversion of management's attention and any delays or difficulties encountered in connection with the Merger and the coordination of the two companies' operations could have an adverse effect on the business, financial results, financial condition or the share price of the combined company following the Merger. The coordination process may also result in additional and unforeseen expenses.

Failure to realize all of the anticipated benefits of the Merger may impact the financial performance of the combined company, the price of the combined company's common shares and the ability of the combined company to continue paying dividends on its common shares at rates consistent with current dividend guidance or at all. The declaration of dividends by the combined company will be at the discretion of its board of directors, which may determine at any time to cease paying dividends, lower the dividend rate or not increase the dividend rate.

Enbridge may not have discovered undisclosed liabilities of Spectra Energy, if any.

In the course of the due diligence review of Spectra Energy that Enbridge conducted prior to the execution of the Merger Agreement, Enbridge may not have discovered, or may have been unable to quantify, undisclosed liabilities of Spectra Energy and its subsidiaries, if any, and Enbridge will not be indemnified for any of these liabilities. If Spectra Energy has undisclosed liabilities, Enbridge, as a successor owner, may be responsible for such undisclosed liabilities. Such undisclosed liabilities could have an adverse effect on the business, results of operations, financial condition and cash flows of Enbridge and on the value of the Enbridge Common Shares after the completion of the Merger.

The announcement and pendency of the Merger could adversely affect Enbridge's business, results of operations and financial condition.

The announcement and pendency of the Merger could cause disruptions in and create uncertainty surrounding Enbridge's businesses, including affecting Enbridge's relationships with its existing and future customers, suppliers and employees, which could have an adverse effect on Enbridge's business, results of operations and financial condition, regardless of whether the Merger is completed. In particular, Enbridge could potentially lose important personnel as a result of the departure of employees who decide to pursue other opportunities in light of the Merger. Enbridge could also potentially lose customers or suppliers, and new customer or supplier contracts could be delayed or decreased. In addition, Enbridge has expended, and continues to expend, significant management resources in an effort to complete the Merger, which resources are being diverted from Enbridge's day-to-day operations.

If the Merger is not completed, the price of Enbridge Common Shares may fall to the extent that the current price of Enbridge Common Shares reflects a market assumption that the Merger will be completed. In addition, the failure to complete the Merger may result in negative publicity or a negative impression of Enbridge in the investment community and may affect Enbridge's relationships with employees, customers, suppliers and other partners in the business community.

Enbridge and Spectra Energy will incur substantial transaction fees and costs in connection with the Merger.

Enbridge and Spectra Energy have incurred and expect to incur additional material non-recurring expenses in connection with the Merger and completion of the transactions contemplated by the Merger Agreement, including costs relating to obtaining required approvals and compensation change in control payments. Enbridge and Spectra Energy have incurred significant legal, advisory and financial services fees in connection with the process of negotiating and evaluating the terms of the Merger. Additional significant unanticipated costs may be incurred in the course of coordinating the businesses of Enbridge and Spectra Energy after completion of the Merger. Even if the

Merger is not completed, Enbridge and Spectra Energy will need to pay certain costs relating to the Merger incurred prior to the date the Merger was abandoned, such as legal, accounting, financial advisory,

Table of Contents

filing and printing fees. Such costs may be significant and could have an adverse effect on the parties' future results of operations, cash flows and financial condition. In addition to its own fees and expenses, each of Enbridge and Spectra Energy may be required to reimburse the other party for its reasonable out-of-pocket expenses incurred in connection with the Merger Agreement, subject to a cap of US\$100 million, in the event the Enbridge Shareholders or Spectra Energy stockholders, respectively, do not approve the matters required to be voted upon by Enbridge Shareholders or Spectra Energy stockholders, respectively, and the Merger Agreement is terminated.

Significant demands will be placed on Enbridge as a result of the Merger.

As a result of the pursuit and completion of the Merger, significant demands will be placed on the managerial, operational and financial personnel and systems of Enbridge. Enbridge cannot assure you that its systems, procedures and controls will be adequate to support the expansion of operations following and resulting from the Merger. The future operating results of the combined company will be affected by the ability of its officers and key employees to manage changing business conditions and to implement and expand its operational and financial controls and reporting systems in response to the Merger.

Additional capital requirements.

Following completion of the Merger, the combined company will require significant ongoing capital expenditures and, although Enbridge anticipates that the combined company will be able to fund these expenditures through usage of the combined company's lines of credit and subsequent debt, equity or hybrid offerings, there can be no assurances that the combined company will be able to obtain financing on acceptable terms.

The credit rating of the combined company will be subject to ongoing evaluation.

The terms of the combined company's financing will, in part, be dependent on the credit ratings assigned to its securities by independent credit rating agencies. The combined company's ratings upon completion of the Merger will reflect each rating organization's opinion of the combined company's financial strength, operating performance and ability to meet the obligations associated with its securities. The credit rating of the combined company will be subject to ongoing evaluation by credit rating agencies, and there can be no assurances that such ratings will be maintained in the future. Downgrades in the combined company's ratings could adversely affect the combined company's business, cash flows, financial condition, operating results and share and debt prices.

The unaudited pro forma condensed consolidated financial information of Enbridge and Spectra Energy is presented for illustrative purposes only and may not be indicative of the results of operations or financial condition of the combined company following the Merger.

The unaudited *pro forma* condensed consolidated financial information included in this Management Information Circular has been prepared using the consolidated historical financial statements of Enbridge and Spectra Energy, is presented for illustrative purposes only and should not be considered to be an indication of the results of operations or financial condition of the combined company following the Merger. In addition, the *pro forma* combined financial information included in this Management Information Circular is based in part on certain assumptions regarding the Merger. These assumptions may not prove to be accurate, and other factors may affect the combined company's results of operations or financial condition following the Merger. Accordingly, the historical and *pro forma* financial information included in this Management Information Circular does not necessarily represent the combined company's results of operations and financial condition had Enbridge and Spectra Energy operated as a combined entity during the periods presented, or of the combined company's results of operations and financial condition following completion of the Merger. The combined company's potential for future business success and operating profitability

must be considered in light of the risks, uncertainties, expenses and difficulties typically encountered by recently combined companies.

Table of Contents

In preparing the *pro forma* financial information contained in this Management Information Circular, Enbridge has given effect to, among other items, the completion of the Merger, the payment of the Merger Consideration and the indebtedness of Enbridge on a consolidated basis after giving effect to the Merger, including the indebtedness of Spectra Energy. The unaudited *pro forma* financial information does not reflect all of the costs that are expected to be incurred by Enbridge and Spectra Energy in connection with the Merger. For more information, see the section entitled *Unaudited Pro Forma Condensed Consolidated Financial Statements*, including the notes thereto.

While the Merger Agreement is in effect, Enbridge, Spectra Energy and their respective subsidiaries businesses are subject to restrictions on their business activities.

Under the Merger Agreement, Enbridge, Spectra Energy and their respective subsidiaries are subject to certain restrictions on the conduct of their respective businesses and generally must operate their respective businesses in the ordinary course prior to completing the Merger (unless Enbridge or Spectra Energy obtains the other's consent, as applicable, which is not to be unreasonably withheld, conditioned or delayed), which may restrict Enbridge's and Spectra Energy's ability to exercise certain of their respective business strategies. These restrictions may prevent Enbridge and Spectra Energy from pursuing otherwise attractive business opportunities, making certain investments or acquisitions, selling assets, engaging in capital expenditures in excess of certain agreed limits, incurring indebtedness or making changes to Enbridge's and Spectra Energy's respective businesses prior to the completion of the Merger or termination of the Merger Agreement, as applicable. These restrictions could have an adverse effect on Enbridge's and Spectra Energy's respective businesses, financial results, financial condition or stock price.

In addition, the Merger Agreement prohibits Enbridge and Spectra Energy from (i) initiating, soliciting, proposing, knowingly encouraging or taking any action to knowingly facilitate, subject to certain exceptions set forth in the Merger Agreement, any inquiry or the making of any proposal or offer that constitutes, or would reasonably be expected to lead to, an acquisition proposal, (ii) engaging in, continuing or otherwise participating in any discussions with or negotiations relating to any acquisition proposal or any inquiry, proposal or offer that would reasonably be expected to lead to an acquisition proposal or (iii) providing any non-public information to any person in connection with any acquisition proposal or any proposal or offer that would reasonably be expected to lead to an acquisition proposal. Enbridge may be required to pay Spectra Energy a termination fee of \$1.75 billion if the Merger Agreement is terminated under the circumstances specified in the Merger Agreement. Spectra Energy may be required to pay Enbridge a termination fee of US\$1.0 billion if the Merger Agreement is terminated under the circumstances specified in the Merger Agreement.

The termination of the Merger Agreement could negatively impact Enbridge.

If the Merger is not completed for any reason, including in the event the Enbridge Shareholders or Spectra Energy stockholders, respectively, do not approve the matters required to be voted upon by Enbridge Shareholders or Spectra Energy stockholders, respectively, the ongoing business of Enbridge may be adversely affected and, without realizing any of the anticipated benefits of having completed the Merger, Enbridge would be subject to a number of risks, including the following:

Enbridge may experience negative reactions from the financial markets, including a decline of its share price (which may reflect a market assumption that the Merger will be completed);

Edgar Filing: ENBRIDGE INC - Form 6-K

Enbridge may experience negative reactions from the investment community, its customers, regulators and employees and other partners in the business community;

Enbridge may be required to pay certain costs relating to the Merger, whether or not the Merger is completed; and

Table of Contents

matters relating to the Merger will have required substantial commitments of time and resources by Enbridge management, which would otherwise have been devoted to day-to-day operations and other opportunities that may have been beneficial to Enbridge had the Merger not been contemplated.

If the Merger Agreement is terminated under the circumstances specified in the Merger Agreement, Enbridge may be required to pay Spectra Energy a termination fee of \$1.75 billion or reimburse Spectra Energy for its reasonable and documented out-of-pocket expenses incurred in connection with the Merger Agreement subject to a cap of US\$100 million, depending on the circumstances surrounding the termination. If the Merger Agreement is terminated under the circumstances specified in the Merger Agreement, Spectra Energy may be required to pay Enbridge a termination fee of US\$1.0 billion or reimburse Enbridge for its reasonable and documented out-of-pocket expenses incurred in connection with the Merger Agreement subject to a cap of US\$100 million, depending on the circumstances surrounding the termination. If an expense reimbursement is paid by Enbridge or Spectra Energy and the Enbridge termination fee or Spectra Energy termination fee subsequently becomes due, then the amount of the Enbridge termination fee or Spectra Energy termination fee, as applicable, will be reduced by the amount of reimbursement expenses previously paid.

See the section entitled *The Merger Agreement - Termination of the Merger Agreement* for a more complete discussion of the circumstances under which the Merger Agreement could be terminated and when the termination fee and expense reimbursement may be payable by Enbridge or Spectra Energy, as applicable.

Except in specified circumstances, if the Merger is not completed by 5:00 p.m. Eastern Time on March 31, 2017, subject to extension in specified circumstances by either Enbridge or Spectra Energy to December 29, 2017, either Enbridge or Spectra Energy may choose not to proceed with the Merger.

Either Enbridge or Spectra Energy may terminate the Merger Agreement if the Merger has not been completed by 5:00 p.m. Eastern Time on March 31, 2017. However, this right to terminate the Merger Agreement will not be available to Enbridge or Spectra Energy if the failure of such party to perform any of its obligations under the Merger Agreement has been the principal cause of or resulted in the failure of the Merger to be completed on or before such time. The March 31, 2017 deadline is subject to extensions in intervals of three months by Enbridge or Spectra Energy to December 29, 2017 if all the conditions to closing (other than the conditions relating to the expiration or termination of the waiting period under the HSR Act, the receipt of the Competition Act (Canada) Clearance, Canada Transportation Act Approval and CFIUS Clearance, and absence of legal restraints) have been satisfied or are capable of being satisfied at the time of extension. For more information, see the section entitled *The Merger Agreement - Termination of the Merger Agreement* .

Future changes to Canadian, U.S. and foreign tax laws could adversely affect the combined company.

The Canadian House of Commons, the U.S. Congress, the Organization for Economic Co-operation and Development, and other government agencies in jurisdictions where Enbridge and its affiliates do business have been focused on issues related to the taxation of multinational corporations. Specific attention has been paid to base erosion and profit shifting, where payments are made between affiliates from a jurisdiction with high tax rates to a jurisdiction with lower tax rates. As a result, the tax laws in Canada, the United States and other countries in which Enbridge and its affiliates do business could change on a prospective or retroactive basis, and any such change could adversely affect the combined company.

Enbridge expects to maintain its status as a foreign private issuer in the United States effectively until January 1, 2018 and thus will be exempt from a number of rules under the U.S. Exchange Act. On January 1, 2018, Enbridge expects to lose its status as a foreign private issuer in the United States, assuming that the Merger closes in the first quarter of 2017, which could result in additional costs and expenses.

As a foreign private issuer, Enbridge is exempt from rules under the U.S. Exchange Act that impose disclosure requirements, as well as procedural requirements, for proxy solicitations under Section 14 of the U.S. Exchange

Table of Contents

Act. Enbridge's officers, directors and principal shareholders are also exempt from the reporting and short-swing profit recovery provisions of Section 16 of the U.S. Exchange Act. In addition, Enbridge is permitted, under a multi-jurisdictional disclosure system adopted by the United States and Canada, to prepare its disclosure documents filed under the U.S. Exchange Act in accordance with Canadian disclosure requirements.

Once Enbridge loses its status as a foreign private issuer, it will be required to file annual, quarterly and current reports on Forms 10-K, 10-Q, and 8-K within the time periods required by the U.S. Exchange Act, which are significantly shorter than the time periods required of foreign private issuers for the less extensive periodic reporting required of them, and will have to mandatorily comply with U.S. federal proxy requirements. Enbridge would also become subject to Regulation FD of the U.S. Exchange Act, regulating the selective disclosure of non-public information, and Enbridge's directors, senior management and affiliates would be subject to the disclosure and other requirements of Section 16 of the U.S. Exchange Act in respect of their ownership of and transactions in Enbridge securities. As a result, the regulatory and compliance costs to Enbridge under U.S. securities laws as a U.S. domestic issuer may be higher than those of a Canadian foreign private issuer eligible to use the multi-jurisdictional disclosure system.

Resales of Enbridge Common Shares following the Merger may cause the market value of Enbridge Common Shares to decline.

Based on the number of shares of Spectra Energy common stock, stock options, phantom units, performance stock units and certain other equity-based awards outstanding as of October 31, 2016, Enbridge will issue approximately 694,771,332 Enbridge Common Shares in connection with the Merger. The issuance of these new shares and the sale of additional shares that may become eligible for sale in the public market from time to time could have the effect of depressing the market value for Enbridge Common Shares. The increase in the number of Enbridge Common Shares may lead to sales of such Enbridge Common Shares or the perception that such sales may occur, either of which may adversely affect the market for, and the market value of, Enbridge Common Shares.

The market value of Enbridge Common Shares may decline as a result of the Merger.

The market value of Enbridge Common Shares may decline as a result of the Merger if, among other things, the combined company is unable to achieve the expected growth in earnings, or if the operational cost savings estimates in connection with the integration of Enbridge's and Spectra Energy's businesses are not realized or if the transaction costs related to the Merger are greater than expected. The market value also may decline if the combined company does not achieve the perceived benefits of the Merger as rapidly or to the extent anticipated by the market or if the effect of the Merger on the combined company's financial position, results of operations or cash flows is not consistent with the expectations of financial or industry analysts.

Enbridge and Spectra Energy may be targets of securities class action and derivative lawsuits which could result in substantial costs and may delay or prevent the Merger from being completed.

Securities class action lawsuits and derivative lawsuits are often brought against companies that have entered into merger agreements. Even if the lawsuits are without merit, defending against these claims can result in substantial costs and divert management time and resources. Additionally, if a plaintiff is successful in obtaining an injunction prohibiting consummation of the Merger, then that injunction may delay or prevent the Merger from being completed. Following announcement of the Merger, six putative class actions were filed by purported shareholders of Spectra Energy challenging the Merger. The lawsuits include *Paul Parshall v. Spectra Energy Corp, et al.*, 12809-CB, filed in the Court of Chancery for the State of Delaware, and *Mary Lincoln v. Spectra Energy Corp, et al.*, 16-cv-03019, *Joseph Koller v. Spectra Energy Corp, et al.*, 16-cv-03059, *Joseph Costner v. Spectra Energy Corp et al.*,

16-cv-03065, *John L. Williams v. Spectra Energy Corp et al.*, 16-cv-03069 and *Joseph McMillan v. Spectra Energy Corp et al.*, 16-cv-03130, all filed in the United States District Court for the Southern District of Texas. For information regarding these class actions, see the section entitled *The Merger Litigation Relating to the Merger* .

GENERAL INFORMATION FOR THE MEETING

Date, Time and Place of the Meeting

The Enbridge Special Meeting will be held on December 15, 2016 at 1:00 p.m. (Calgary time) at the Calgary Marriott Downtown Hotel, Kensington Room, 110 9th Avenue SE, Calgary, Alberta.

Purpose of the Meeting

At the Enbridge Special Meeting, Enbridge Shareholders will be asked to consider, and if deemed advisable, pass with or without variation, the following ordinary resolutions:

1. **Enbridge Common Share Issuance Resolution:** authorizing and approving the issuance by Enbridge of such number of common shares in the capital of Enbridge as shall be necessary pursuant to the terms of the Merger Agreement; and
2. **By-law Amendment Resolution:** ratifying, confirming and approving certain amendments to General By-law No. 1 of Enbridge, which amendments are conditional upon the completion of the Merger pursuant to the terms of the Merger Agreement.

The Merger cannot be completed without Enbridge Shareholders approving both the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution.

Enbridge Common Share Issuance Resolution

Pursuant to Section 611(c) of the TSX Company Manual, security holder approval is required if the number of securities issued or issuable by a listed issuer in payment of the purchase price for an acquisition, exceeds 25% of the number of securities of the listed issuer which are outstanding, on a pre-acquisition, non-diluted basis. Pursuant to the terms of the Merger Agreement, Enbridge has agreed to issue 0.984 of an Enbridge Common Share in exchange for each share of Spectra Energy common stock issued and outstanding immediately prior to the Effective Time. Issuances by Spectra Energy of shares of Spectra Energy common stock are restricted pursuant to the terms of the Merger Agreement, subject to certain limited exceptions or the prior written consent of Enbridge. As a result, the actual number of Enbridge Common Shares that will be issued at the Effective Time will depend on the number of shares of Spectra Energy common stock outstanding at such time. For information regarding restrictions on issuances of Spectra Energy common stock, see the section entitled *The Merger – Covenants Regarding Conduct of Business by Enbridge, Merger Sub and Spectra Energy Pending the Merger*.

At the close of business on October 31, 2016, there were approximately 701,518,044 shares of Spectra Energy common stock outstanding, an aggregate of 4,550,383 shares of Spectra Energy common stock issuable in connection with outstanding Spectra Energy options, Spectra Energy phantom units, Spectra Energy performance stock units and certain other equity-based awards of Spectra Energy, and an additional 10,101,287 shares of Spectra Energy common stock reserved and available for issuance in connection with future benefits and awards under certain equity-based compensation plans of Spectra Energy. On this basis, at least 694,771,332 Enbridge Common Shares would be issued or reserved for issuance in connection with the Merger to holders of shares of Spectra Energy common stock and holders of Spectra Energy options, Spectra Energy phantom units, Spectra Energy performance stock units and certain other equity-based compensation awards of Spectra Energy. This would represent approximately 74.02% of the issued

and outstanding Enbridge Common Shares as of October 31, 2016. Immediately following completion of the Merger, former holders of Spectra Energy common stock would own approximately 42.54% of the outstanding Enbridge Common Shares, on a fully diluted basis (42.38% on a basic basis).

14,651,670 shares of Spectra Energy common stock (inclusive of the 4,550,383 shares already issuable to the holders of Spectra Energy options, Spectra Energy phantom units, Spectra Energy performance stock units and certain other equity-based awards of Spectra Energy) are reserved and available for issuance in connection with certain equity-based compensation plans of Spectra Energy as at October 31, 2016. If all of these shares of Spectra Energy common stock become issuable prior to the Effective Time, then Enbridge would be required to

Table of Contents

issue an additional 14,417,234 Enbridge Common Shares to the holders of Spectra Energy options, Spectra Energy phantom units, Spectra Energy performance stock units and certain other equity-based awards of Spectra Energy in connection with the Merger. Such Enbridge Common Shares would be in addition to the 694,771,332 Enbridge Common Shares issuable to the holders of Spectra Energy common stock at the Effective Time. Accordingly, if the Merger is completed, 704,710,998 Enbridge Common Shares could be issued or reserved for issuance in connection with the Merger to the holders of Spectra Energy common stock, Spectra Energy options, Spectra Energy phantom units, Spectra Energy performance stock units and certain other equity-based awards of Spectra Energy. This would represent approximately 75.08% of the issued and outstanding Enbridge Common Shares as of October 31, 2016. Immediately following completion of the Merger, former holders of Spectra Energy common stock would own approximately 42.88% of the outstanding Enbridge Common Shares, on a fully diluted basis (42.38% on a basic basis).

The following table, included at the request of the TSX, illustrates the calculation of the number of Enbridge Common Shares that may be issued at the Effective Time pursuant to the Merger Agreement. Included in this table are hypothetical situations to illustrate the number of Enbridge Common Shares and the impact on the percentage of Enbridge Common Shares owned by former holders of Spectra Energy common stock in such situations. These are hypothetical situations for illustrative purposes only and do not represent the number of shares of Spectra Energy common stock that are expected to be issued and outstanding at the Effective Time nor the number of Enbridge Common Shares that are expected to be issued pursuant to the terms of the Merger Agreement. Any issuances by Spectra Energy of shares of Spectra Energy common stock are restricted pursuant to the terms of the Merger Agreement and require the prior written consent of Enbridge.

(5) Based on 938,633,994 Enbridge Common Shares outstanding as of October 31, 2016. The fully-diluted pro forma ownership interest of former holders of Spectra Energy common stock is the percentage obtained as a result of dividing the total number of Enbridge Common Shares issuable to holders of Spectra Energy common stock by the sum of this number and the number of Enbridge Common Shares outstanding as of October 31, 2016.

The actual number of Enbridge Common Shares to be issued or reserved for issuance pursuant to the Merger Agreement will be determined immediately prior to the Effective Time based on the Exchange Ratio, the number of shares of Spectra Energy common stock outstanding at such time and the number of Spectra Energy options, Spectra Energy phantom units, Spectra Energy performance stock units and certain other equity-based awards of Spectra Energy outstanding at such time.

At the Enbridge Special Meeting, Enbridge Shareholders will be asked to consider, and if deemed advisable, pass with or without variation, the Enbridge Common Share Issuance Resolution, the text of which is set out below, approving the issuance of Enbridge Common Shares to Spectra Energy stockholders and the holders of Spectra Energy options, Spectra Energy phantom units, Spectra Energy performance stock units and certain other equity-based awards of Spectra Energy in connection with the Merger.

In accordance with the terms of the Merger Agreement, it is a condition to the completion of the Merger that the Enbridge Common Share Issuance Resolution be approved by the Enbridge Shareholders.

Recommendation of the Enbridge Board of Directors

At its meeting held on September 5, 2016, having undertaken a review of, and carefully considered, information concerning Spectra Energy, the proposed Merger and alternatives, including in-depth consultation with Enbridge's management and Enbridge's legal and financial advisors (including, among other things, a review and consideration of the opinion of Credit Suisse and the opinion of RBC), and consideration of such other matters as the board of directors of Enbridge considered relevant, the Enbridge board of directors unanimously determined, by all directors present, that the Merger is in the best interests of Enbridge and resolved to recommend that Enbridge Shareholders vote in favour of the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution. ***Accordingly, the board of directors of Enbridge recommends that Enbridge Shareholders vote FOR the Enbridge Common Share Issuance Resolution and FOR the By-law Amendment Resolution.***

For further information regarding Enbridge's reasons for the Merger, see the section entitled *The Merger – Enbridge's Reasons for the Merger*.

Record Date and Enbridge Shareholders Entitled to Vote

The directors of Enbridge have fixed November 7, 2016 as the record date. Enbridge Shareholders of record at the close of business on November 7, 2016 are entitled to notice of the Enbridge Special Meeting and to vote thereat or at any adjournment or postponement thereof.

As of the close of business on November 7, 2016, there were issued and outstanding a total of 938,681,216 Enbridge Common Shares. Each issued and outstanding Enbridge Common Share on the record date is entitled to one vote on each of the resolutions to be considered and voted on at the Enbridge Special Meeting. As of the date of this Management Information Circular, there are also 18 series of preference shares issued and outstanding. The issued and outstanding preference shares do not have voting rights and none will be voting at the Enbridge Special Meeting.

Quorum

At least three persons holding, or representing by proxy, at least 25% of the issued and outstanding Enbridge Common Shares entitled to vote at the Enbridge Special Meeting must be present at the Enbridge Special Meeting in order to constitute a quorum. If you submit a properly executed form of proxy or vote by telephone or the Internet, you will be considered part of the quorum.

Abstentions will be deemed present and entitled to vote at the Enbridge Special Meeting for the purpose of determining the presence of a quorum. Enbridge Common Shares held through a broker or other intermediary with respect to which the Beneficial Shareholder fails to give voting instructions to the broker or other intermediary, and Enbridge Common Shares with respect to which the Beneficial Shareholder otherwise fails to vote, will not be considered present for the purpose of determining the presence of a quorum.

If a quorum is not present or if there are not sufficient votes for the approval of the Enbridge Common Share Issuance Resolution or the By-law Amendment Resolution, Enbridge expects that the Enbridge Special Meeting will be adjourned or postponed to solicit additional proxies. At any subsequent reconvening of the Enbridge Special Meeting, all proxies will be voted in the same manner as the manner in which such proxies would have been voted at the original convening of the Enbridge Special Meeting, except for any proxies that have been validly revoked or withdrawn prior to the subsequent meeting. See the section entitled *General Information for the Meeting Adjournment*.

Required Vote

The Merger cannot be completed without Enbridge Shareholders approving the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution. Approval of each of the Enbridge Common Share

Table of Contents

Issuance Resolution and the By-law Amendment Resolution requires the affirmative vote of a majority of the votes cast in respect of the respective resolutions by holders of Enbridge Common Shares present in person or represented by proxy at the Enbridge Special Meeting. Therefore, if you abstain from voting or submit an instruction to your broker or other intermediary that fails to vote **FOR** the Enbridge Common Share Issuance Resolution or the By-law Amendment Resolution, it will have the same effect as a vote **AGAINST** the Enbridge Common Share Issuance Resolution or the By-law Amendment Resolution, respectively. If you fail to submit any instruction to your broker or other intermediary, your Enbridge Common Shares not be counted as present for purposes of a quorum, and it will have no effect on either the Enbridge Common Share Issuance Resolution or the By-law Amendment Resolution, assuming that a quorum is otherwise present at the Enbridge Special Meeting.

Voting by Directors and Executive Officers

As of the record date for the Enbridge Special Meeting, the Enbridge directors and executive officers had the right to vote approximately 1,524,040 Enbridge Common Shares, representing approximately 0.16% of the Enbridge Common Shares then outstanding and entitled to vote at the Enbridge Special Meeting. It is expected that the Enbridge directors and executive officers who are Enbridge Shareholders will vote **FOR** the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution, although none of them has entered into any agreement requiring them to do so.

Adjournment

In accordance with By-law No. 1, the chair of the Enbridge Special Meeting may, with the consent of the meeting, and subject to such conditions as the meeting may decide, adjourn the Enbridge Special Meeting from time to time and from place to place. If the Enbridge Special Meeting is adjourned for less than 30 days it shall not be necessary to give notice of the adjourned meeting, other than by announcement at the Enbridge Special Meeting that it is adjourned.

In addition, the Merger Agreement provides that, if, on a date that is one business day prior to the scheduled date of the Enbridge Special Meeting, Enbridge has not received proxies that are necessary to approve both the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution, whether or not a quorum is present, Enbridge is required to make one or more successive postponements or adjournments of the Enbridge Special Meeting as long as the date of the Enbridge Special Meeting is not postponed or adjourned more than 10 days in connection with any one postponement or adjournment or more than an aggregate of 20 days from the original date of the Enbridge Special Meeting.

At any subsequent reconvening of the Enbridge Special Meeting, all proxies will be voted in the same manner as the manner in which such proxies would have been voted at the original convening of the Enbridge Special Meeting, except for any proxies that have been validly revoked or withdrawn prior to the subsequent meeting. See the section entitled *General Information for the Meeting Appointment and Revocation of Proxies* .

Solicitation of Proxies

This Management Information Circular is furnished in connection with the solicitation of proxies by or on behalf of the Enbridge board of directors and management of Enbridge for use at the Enbridge Special Meeting, and at any adjournment or postponement thereof, for the purposes set forth in the Notice of Special Meeting. The Enbridge board of directors and management of Enbridge are soliciting proxies of all registered Enbridge Shareholders and Beneficial Shareholders primarily by mail and electronic means, supplemented by telephone or other contact by employees of Enbridge (who will receive no additional compensation) and all such costs will be borne by Enbridge. Enbridge has engaged Kingsdale Shareholder Services as strategic advisor and proxy solicitation agent for Canada and outside of

North America and will pay fees of approximately \$500,000 to Kingsdale Shareholder Services, a portion of which is conditional on certain events, for the proxy solicitation service in addition to certain out-of-pocket expenses. Enbridge has engaged MacKenzie Partners, Inc. as proxy

solicitation agent for the United States and has agreed to pay MacKenzie Partners, Inc. fees of approximately US\$50,000, in addition to reimbursement for certain out-of-pocket expenses. Enbridge may also reimburse brokers and other persons holding Enbridge Common Shares in their name or in the name of nominees for their costs incurred in sending proxy material to their principals in order to obtain their proxies.

Additionally, Enbridge may use Broadridge's QuickVote service to assist Beneficial Shareholders with voting their Enbridge Common Shares. Beneficial Shareholders may be contacted by Kingsdale Shareholder Services and MacKenzie Partners Inc., Enbridge's strategic advisor and proxy solicitation agents, to conveniently obtain a vote directly over the telephone. Broadridge then tabulates the results of all instructions received and provides the appropriate instructions with respect to the Enbridge Common Shares to be represented at the Enbridge Special Meeting.

If you have any questions about the Merger, the other transactions contemplated by the Merger Agreement, including the Enbridge Common Share Issuance Resolution or the By-law Amendment, the Enbridge Special Meeting or the proxy materials or if you need assistance submitting your proxy or voting your Enbridge Common Shares or need additional copies of this document or the enclosed form of proxy, you should contact Enbridge's strategic advisors and proxy solicitation and information agents:

Appointment and Revocation of Proxies

Each of the persons named in the accompanying form of proxy or voting instruction form is a director or an executive officer of Enbridge. **An Enbridge Shareholder who wishes to appoint some other person (who is not required to be an Enbridge Shareholder) as his or her representative at the Enbridge Special Meeting may do so either by inserting such person's name in the blank space provided in the form of proxy and deleting the names printed thereon or by completing a proper proxy.** Such Enbridge Shareholder should notify the nominee of his or her appointment and instruct the nominee on how the Enbridge Common Shares are to be voted.

A proxy will not be valid for the Enbridge Special Meeting or any adjournment or postponement thereof unless it is signed by the Enbridge Shareholder or by the Enbridge Shareholder's attorney authorized in writing or, if the Enbridge Shareholder is a corporation, it must be executed under corporate seal or by a duly authorized officer or attorney of the corporation and delivered to Enbridge, c/o CST Trust Company, the Registrar and Transfer Agent of Enbridge, at P.O. Box 721, Agincourt, Ontario, M1S 0A1, Attention: Proxy Department or by fax: 1-866-781-3111 (toll-free in North America; outside of North America: 1-416-368-2502), not later than 6:00 p.m. (Calgary time) on December 13, 2016, or if the Enbridge Special Meeting is adjourned or postponed, not later than 6:00 p.m. (Calgary time) on the day that is two business days before the Enbridge Special Meeting is reconvened. Late proxies may be accepted or rejected by

the Chairman at his discretion and the Chairman is under no obligation to accept or reject any particular late proxy. The time limit for the deposit of proxies may be waived or extended by the Chairman at his discretion without notice.

Enbridge Shareholders whose Enbridge Common Shares are registered in their names may also vote their Enbridge Common Shares using a touch-tone telephone by calling 1-888-489-7352 (toll-free) or through the internet at <http://www.cstvotemyproxy.com>. If voting by phone or on the internet, please follow the instructions

carefully and ensure that you have your proxy in hand as you will be required to enter the control number located on the proxy. Your vote must be received not later than 6:00 p.m. (Calgary time) on December 13, 2016, or if the Enbridge Special Meeting is adjourned or postponed, not later than 6:00 p.m. (Calgary time) on the day that is two business days before the Enbridge Special Meeting is reconvened. If you wish to attend the Enbridge Special Meeting in person or appoint someone else to attend on your behalf, you must do so either by the internet, mail or fax. The telephone voting service is not available for this purpose.

An Enbridge Shareholder may change a vote made by proxy by voting again on the internet or by telephone, or completing a new form of proxy that is dated later than the form of proxy previously submitted and mailing it or faxing it to CST Trust Company. The new instructions will revoke the earlier instructions. CST Trust Company must receive the new instructions by 6:00 p.m. (Calgary time) on December 13, 2016 regardless of the voting method chosen. If the Enbridge Special Meeting is adjourned or postponed, CST Trust Company must receive the new instructions by 6:00 p.m. (Calgary time) two business days before the Enbridge Special Meeting is reconvened.

An Enbridge Shareholder may revoke a vote made by proxy by: (i) sending CST Trust Company, at the address or fax number specified above, notice in writing (from the Enbridge Shareholder or a person authorized to sign on your behalf) by 6:00 p.m. (Calgary time) on December 14, 2016, or by 6:00 p.m. (Calgary time) on the business day before the meeting is reconvened if it was adjourned or postponed; (ii) giving the notice to the Chair of the Enbridge Special Meeting before the start of the meeting (if you give the Chair of the Enbridge Special Meeting the notice after the meeting has started, the revocation will apply only to the items of business that have not already been voted on); or (iii) in any other manner permitted by law. If the Enbridge Common Shares are owned by a corporation, the notice must be executed under corporate seal or by a duly authorized officer or attorney of the corporation.

Advice to Beneficial Holders of Enbridge Common Shares

The information set forth in this section is of significant importance to many Enbridge Shareholders, as a substantial number of Enbridge Shareholders do not hold Enbridge Common Shares in their own name. Beneficial Shareholders should note that only proxies deposited by Enbridge Shareholders whose names appear on the records of Enbridge as the registered holder of Enbridge Common Shares can be recognized and acted upon at the Enbridge Special Meeting. If Enbridge Common Shares are listed in an account statement provided to a Beneficial Shareholder by a broker, then in almost all cases those Enbridge Common Shares will not be registered in the Enbridge Shareholder's name on the records of Enbridge. Such Enbridge Common Shares will more likely be registered under the name of the Enbridge Shareholder's broker or an agent of that broker. In Canada, the majority of Enbridge Common Shares are registered under the name of CDS & Co. (the registration name for CDS Clearing and Depository Services Inc., which acts as nominee for many Canadian brokerage firms). In the United States, the majority of Enbridge Common Shares are registered under the name Cede & Co. (the registration name for Cede and Company, which acts as nominee for many U.S. brokerage firms). Enbridge Common Shares held by brokers or their agents or nominees can only be voted upon the instructions of the Beneficial Shareholder. Without specific instructions, brokers and other intermediaries are prohibited from voting Enbridge Common Shares for their clients. **Therefore, Beneficial Shareholders should ensure that the instructions regarding the voting of their Enbridge Common Shares are communicated to the appropriate person on a timely basis.**

Applicable regulatory policy in Canada and the United States requires brokers and other intermediaries to seek voting instructions from Beneficial Shareholders in advance of shareholder meetings. Each broker or other intermediary has its own mailing procedures and provides its own return instructions to clients, which should be carefully followed by Beneficial Shareholders in order to ensure that their Enbridge Common Shares are voted at the Enbridge Special Meeting. In some cases, the voting instruction form provided to Beneficial Shareholders by their broker or other intermediary is very similar, even identical, to the form of proxy provided to registered Enbridge

Shareholders. However, its purpose is limited to instructing the registered Enbridge Shareholder (the broker or other intermediary, or an agent thereof) on how to vote on behalf of the Beneficial Shareholder. Most

Table of Contents

brokers now delegate responsibility for obtaining voting instructions from clients to Broadridge. Broadridge typically prepares a machine readable voting instruction form which is mailed to Beneficial Shareholders with a request that Beneficial Shareholders return the forms to Broadridge or follow specified telephone or internet based voting procedures. Broadridge then tabulates the results of the voting instructions received and provides appropriate instructions regarding the voting of Enbridge Common Shares to be represented at the Enbridge Special Meeting. **A Beneficial Shareholder receiving a voting instruction form from Broadridge cannot use that form to vote Enbridge Common Shares directly at the Enbridge Special Meeting. The voting instruction form must be returned to Broadridge or voting instructions communicated to Broadridge well in advance of the Enbridge Special Meeting in order to have such Enbridge Common Shares voted at the Enbridge Special Meeting.**

Although a Beneficial Shareholder may not be recognized directly at the Enbridge Special Meeting for the purposes of voting Enbridge Common Shares registered in the name of his or her broker or other intermediary, a Beneficial Shareholder may attend the Enbridge Special Meeting as proxyholder for the registered Enbridge Shareholder and vote the Enbridge Common Shares in that capacity. **Beneficial Shareholders who wish to attend the Enbridge Special Meeting and indirectly vote their Enbridge Common Shares must do so as proxyholder for the registered Enbridge Shareholder. They should contact their broker, agent or other intermediary well in advance of the Enbridge Special Meeting.**

Voting of Proxies

All Enbridge Common Shares represented at the Enbridge Special Meeting by a properly executed proxy will be voted on any ballot that may be called for, and where a choice with respect to any matter to be acted upon has been specified in the proxy, the Enbridge Common Shares represented by the proxy will be voted or withheld from voting in accordance with such specification. **In the absence of any such specification or instruction, the persons whose names appear on the form of proxy, if named as proxies, will vote in favour of both the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution.**

The enclosed form of proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the Notice of Special Meeting and any other matters which may properly come before the Enbridge Special Meeting. As of the date hereof, management of Enbridge is not aware of any amendments, variations or other matters to be presented for action at the Enbridge Special Meeting. If, however, amendments, variations or other matters properly come before the Enbridge Special Meeting, the persons designated in the form of proxy will vote thereon in accordance with their judgment pursuant to the discretionary authority conferred by such proxy with respect to such matters.

Voting Shares and Principal Holders

The directors of Enbridge have fixed November 7, 2016 as the record date. Enbridge Shareholders of record at the close of business on November 7, 2016 are entitled to notice of the Enbridge Special Meeting and to vote thereat or at any adjournment or postponement thereof.

The issued and outstanding preference shares do not have voting rights and none will be voting at the Enbridge Special Meeting.

Transaction Structure

The Merger Agreement provides that, subject to the terms and conditions of the Merger Agreement, at the Effective Time, Merger Sub, a direct wholly-owned subsidiary of Enbridge, will merge with and into Spectra Energy. As a result, Spectra Energy will survive the Merger as a direct wholly-owned subsidiary of Enbridge. The terms and conditions of the Merger are contained in the Merger Agreement, which is described in this Management Information Circular and attached to this Management Information Circular as Appendix A Merger Agreement. You are encouraged to read the Merger Agreement carefully, as it is the legal document that governs the Merger. All descriptions in this summary and elsewhere in this Management Information Circular of the terms and conditions of the Merger are qualified by reference to the Merger Agreement.

Merger Consideration

Upon the completion of the Merger, each share of Spectra Energy common stock issued and outstanding immediately prior to the Effective Time (other than Spectra Energy common stock owned directly by Enbridge, Merger Sub or Spectra Energy, and in each case not held on behalf of third parties) will be automatically converted into the right to receive 0.984 of a validly issued, fully paid and non-assessable Enbridge Common Share (i.e. the Merger Consideration).

The actual number of Enbridge Common Shares to be issued pursuant to the Merger Agreement will be determined at the Effective Time based on the Exchange Ratio, the number of shares of Spectra Energy common stock outstanding at such time and the number of Spectra Energy stock options, phantom units, performance stock units and certain other equity-based awards outstanding at such time.

Pursuant to the terms of the Merger Agreement, which restricts stock issuances by Spectra Energy (subject to certain limited exceptions or the prior written consent of Enbridge or Spectra Energy, as applicable), at least 701,518,044 shares of Spectra Energy common stock are expected to be outstanding and at least 4,550,383 shares of Spectra Energy common stock are expected to be issuable to the holders of Spectra Energy options, Spectra Energy phantom units, Spectra Energy performance stock units and certain other equity-based awards of Spectra Energy immediately prior to the Effective Time. On this basis, at least 694,771,332 Enbridge Common Shares would be issued or reserved for issuance in connection with the Merger. Immediately following completion of the Merger, former holders of Spectra Energy common stock would own approximately 42.54% of the outstanding Enbridge Common Shares, on a fully diluted basis (42.38% on a basic basis), based on the number of securities of Enbridge and Spectra Energy outstanding as of October 31, 2016. The actual percentage of Enbridge Common Shares held by the former holders of Spectra Energy common stock at the Effective Time will be determined based on the number of shares of Spectra Energy common stock, Spectra Energy stock options, phantom units, performance stock units and certain other

equity-based awards outstanding immediately prior to such time.

Based on the closing price of Enbridge Common Shares on the NYSE on September 2, 2016, the last full trading day before the announcement of the Merger Agreement, the per share value of Spectra Energy common stock implied by the Merger Consideration was US\$40.33. Based on the closing price of Enbridge Common Shares on

Table of Contents

the NYSE on November 10, 2016, the per share value of Spectra Energy common stock implied by the Merger Consideration was US\$41.40. The implied value of the Merger Consideration will fluctuate, however, as the market price of Enbridge Common Shares fluctuates, because the Merger Consideration that is payable per share of Spectra Energy common stock is a fixed fraction of an Enbridge Common Share. As a result, the value of the Merger Consideration that Spectra Energy stockholders will receive upon the completion of the Merger could be greater than, less than or the same as the value of the Merger Consideration on the date of this Management Information Circular or at the time of the Enbridge Special Meeting. Accordingly, you are encouraged to obtain current stock price quotations for Spectra Energy common stock and Enbridge Common Shares before deciding how to vote with respect to the approval of Enbridge Common Share Issuance and the By-law Amendment. Spectra Energy common stock trades on the NYSE under the ticker symbol SE and Enbridge Common Shares trade on the NYSE and the TSX under the ticker symbol ENB. The price of Enbridge Common Shares on the NYSE is reported in U.S. dollars, while the price of Enbridge Common Shares on the TSX is reported in Canadian dollars.

Background of the Merger

Each of the Enbridge board of directors and the Spectra Energy board of directors, each with their respective senior management, and with the assistance of their respective financial and legal advisors, from time to time have separately and independently reviewed and considered various potential strategic opportunities and alternatives in light of industry, regulatory and economic trends and developments.

As part of these reviews, both Enbridge and Spectra Energy have evaluated potential transactions to advance their respective strategic objectives of enhancing shareholder and stockholder value, supporting dividend growth and better serving customers and employees. In furtherance of these objectives, in recent years, Enbridge senior management and Spectra Energy senior management have from time to time met with various industry executives, including each other, to discuss possible strategic transactions and have discussed sporadically with each other the idea of a possible business combination between the two companies. As part of each company's strategic planning process, and in some instances based on these discussions, each of the Enbridge board of directors and the Spectra Energy board of directors had preliminarily considered possible transaction alternatives with other third parties. During 2015 and 2016, the Spectra Energy board of directors considered, and in some cases Spectra Energy management engaged in negotiations regarding, several potential strategic acquisitions/business combination transactions with third parties. These transactions were not pursued by the Spectra Energy board of directors for various reasons, including failure to reach an acceptable agreement with the potential counterparties. During 2015, the Enbridge board of directors considered potential strategic acquisitions/business combination transactions with third parties, however, the Enbridge board did not pursue any alternative transaction as the transactions considered did not fully meet Enbridge's investment criteria including fit with strategy, industry fundamentals, and financial risk and reward considerations in a manner that would create shareholder value.

Enbridge's senior management has considered or discussed the possibility of a business combination transaction between Enbridge and Spectra Energy periodically for at least the last 18 months. During this period, Enbridge's senior management has continued to monitor and evaluate Spectra Energy and since November 2015, has provided periodic updates to the Enbridge board of directors, including presenting to the board on the possibility of a business combination transaction with Spectra Energy at Enbridge's regularly scheduled board meetings in November and December 2015, as well as at the board meeting held in February 2016. Gov. James J. Blanchard disclosed that his law firm does work for Spectra Energy and he has participated in representing Spectra Energy. As a result of this conflict, Gov. Blanchard did not participate in these discussions or in any future meetings or discussions relating to a possible transaction with Spectra Energy.

On May 10 and 11, 2016, the Enbridge board of directors held a regularly scheduled meeting, which was also attended by certain of Enbridge's senior management. During the meeting, the Enbridge board of directors and members of senior management reviewed the possibility of a business combination transaction between Enbridge and Spectra Energy, including the strong strategic fit, long term growth platform, short and long term financial

Table of Contents

benefits, cultural fit and view of the strategic strengths of Spectra Energy's asset base. The Enbridge board of directors determined that Enbridge senior management should continue to analyze a potential business combination transaction with Spectra Energy and initiate discussions with Spectra Energy's senior management about such a transaction.

On May 20, 2016, Mr. Al Monaco, the Chief Executive Officer of Enbridge, called Mr. Gregory L. Ebel, the Chairman and Chief Executive Officer of Spectra Energy, to inform Mr. Ebel that the Enbridge board of directors recently had discussed the possibility of combining Enbridge with Spectra Energy and the board's view, which Mr. Monaco shared, that it was an appropriate time for both companies to consider a possible transaction. During the call, Mr. Monaco and Mr. Ebel discussed the strategic rationale for a possible transaction and agreed that their respective senior management teams would coordinate to schedule a meeting during the first week of June, at which Enbridge's senior management would present preliminary parameters under which a possible transaction might occur. During the conversation, Mr. Ebel informed Mr. Monaco that the strategic rationale for a possible transaction was consistent with the discussions that the Spectra Energy board of directors also had on this topic from time to time. On May 27, 2016, Mr. Ebel informed the Spectra Energy directors of his discussion with Mr. Monaco and the upcoming meeting with Enbridge senior management.

On June 1, 2016, Mr. Monaco and Mr. Ebel, accompanied by each company's Chief Financial Officer and Chief Development Officer, met in Denver, Colorado to further discuss a possible transaction. At the meeting, Enbridge senior management presented its view regarding the strategic rationale for a transaction between the two companies, including the potential synergies, value drivers and dividend payout assumptions for the combined company. Enbridge senior management also presented its preliminary proposal on the financial parameters of a possible transaction, which included a premium of approximately 10% to the NYSE trading price of Spectra Energy common stock, with approximately 90% of the consideration consisting of Enbridge Common Shares and the remainder of the consideration consisting of cash. Also during the meeting, Mr. Monaco and Mr. Ebel discussed governance matters for the combined company. Mr. Monaco indicated that Enbridge's preliminary view was that Mr. Ebel would become non-executive Chairman of the board of directors of the combined company, Mr. Monaco would serve as the Chief Executive Officer of the combined company, that there would be proportionate director representation (based on approximate relative share ownership) on the board of the combined company and that the combined company's management team would be selected with the objective of building the strongest possible management team. Mr. Ebel told Mr. Monaco that he would discuss Enbridge's preliminary proposal and the strategic rationale for a potential transaction with the Spectra Energy board of directors. Following the meeting, Mr. Ebel informed the Spectra Energy board of directors that discussions with Enbridge were constructive, there appeared to be significant value that could be created by combining the two companies and he would provide a detailed update during the next Spectra Energy board meeting.

On June 13 and 14, 2016, the Spectra Energy board of directors held a regularly scheduled meeting, which was also attended on June 14 by Spectra Energy management and representatives of certain of Spectra Energy's financial advisors and Wachtell Lipton, Spectra Energy's outside counsel. During the meeting, Spectra Energy management and representatives of certain of Spectra Energy's financial advisors provided a summary of the preliminary discussions between Enbridge and Spectra Energy senior management and the preliminary terms that Enbridge had proposed for a possible combination of the two companies, including the financial parameters of a possible transaction, the combined company's potential dividend policy and the possible composition of the combined company's board and management. Representatives of certain of Spectra Energy's financial advisors reviewed Spectra Energy's and Enbridge's recent stock performance and discussed preliminary financial matters regarding the proposed transaction, including with respect to each company on a standalone and combined basis. Also at this meeting, representatives of Wachtell Lipton reviewed with the Spectra Energy directors their fiduciary duties in connection with considering a possible business combination involving the two companies. Following discussion regarding these topics, the consensus of the Spectra Energy board of directors was that management and Spectra Energy's advisors should continue to engage in

discussions with representatives of Enbridge regarding a possible business combination and should report to the board with updates regarding these discussions.

Table of Contents

On June 16, 2016, Mr. Ebel informed Mr. Monaco that the Spectra Energy board of directors had authorized further discussions regarding a possible combination of Enbridge and Spectra Energy. Mr. Ebel informed Mr. Monaco that the Spectra Energy board was of the view that the premium and share/cash consideration mix for Spectra Energy stockholders, dividend growth commitments and the governance structure of the combined company were important open points requiring further discussion.

On June 17, 2016, Enbridge and Spectra Energy entered into the Confidentiality Agreement, which included reciprocal standstill restrictions. Each of Enbridge and Spectra Energy subsequently provided the other party and certain of their respective representatives with due diligence information, including with respect to the long term growth prospects of each company and the specific opportunities that underpinned these prospects, assumptions related to the potential synergies available in a business combination transaction between Enbridge and Spectra Energy and the potential credit profile of the combined company. For the remainder of June and throughout July and August, representatives of Enbridge and Spectra Energy engaged in mutual due diligence investigations on these and other topics, which included meetings, conference calls and review of materials in electronic data rooms.

On June 28 and 29, 2016, the Enbridge board of directors held a regularly scheduled meeting, which was also attended by certain of Enbridge's senior management. Mr. Monaco updated the Enbridge board of directors on the initial discussions with Spectra Energy senior management and the strategic rationale for the transaction, including Spectra Energy's competitive position and long term growth outlook, the dividend growth assumptions for the combined company and the positive impact on access to equity capital and share price. Enbridge management also discussed the potential credit rating impact of the proposed transaction. Enbridge management then discussed the initial results of their due diligence review of Spectra Energy and potential next steps. The Enbridge board of directors and members of management present agreed that Mr. Monaco and other senior management should continue to explore a potential business combination with representatives of Spectra Energy and conduct further due diligence investigations. The Enbridge board of directors directed management to provide an update on these matters at the next board meeting.

On June 30, 2016, Mr. Monaco called Mr. Ebel and advised him that the Enbridge board of directors supported the strategic rationale for combining Enbridge and Spectra Energy. Mr. Monaco also indicated that the Enbridge board of directors was scheduled to meet again at the end of July, at which time he wished to update the Enbridge board on various transaction matters, including rating agency and regulatory considerations.

Between June 30, 2016 and July 29, 2016, the respective Enbridge and Spectra Energy management teams and advisors continued to have meetings and conference calls regarding due diligence, regulatory and other matters. On July 21, 2016, Mr. Monaco called Mr. Ebel to discuss the upcoming meeting of the Enbridge board of directors on July 26 and 27, 2016 and reaffirmed Enbridge's continued interest in assessing a combination of the two companies.

On July 26 and 27, 2016, the Enbridge board of directors held a regularly scheduled meeting, which was also attended by certain of Enbridge's senior management. During the meeting, Mr. Monaco updated the Enbridge board of directors on his conversations with Mr. Ebel regarding a possible transaction and Spectra Energy's willingness to explore a potential combination of the two companies. Enbridge expects that the Merger and resulting growth profile will support future available cash flow from operations growth beyond 2019;

Enbridge expects that the Merger and resulting available cash flow from operations per share will support annual dividend growth of 15% in 2017 and extends its year-over-year dividend growth outlook of 10% to 12% from 2018 through 2024;

Enbridge expects that, following completion of the Merger, it will maintain a low risk commercial portfolio to support resilience in various market cycles;

Enbridge expects that the scale, quality and investor value proposition of Enbridge following completion of the Merger will attract additional investor interest;

Enbridge expects that, following completion of the Merger, it will have enhanced access to equity and debt capital;

Enbridge expects that the Merger will enhance the strength of its investment grade balance sheet;

the favorable feedback received from independent credit rating agencies with respect to the potential impact of the proposed transaction on Enbridge's credit ratings;

Enbridge expects to realize operating and financial annual run-rate cost synergies of \$540 million (US\$415 million) based on the combined company's reduction in its general operations, administrative and other costs and increased purchasing power (excluding tax synergies in 2019);

In connection with its deliberations relating to the Merger, the Enbridge board of directors also considered potential risks and negative factors concerning the Merger and the other transactions contemplated by the Merger Agreement, including the following:

the risk that the Merger might not be completed in a timely manner or at all;

the effect that the length of time from announcement until closing could have on the market price of Enbridge Common Shares, Enbridge's operating results (particularly in light of the significant costs incurred in connection with the Merger) and the relationships with Enbridge's employees, Enbridge Shareholders, customers, suppliers, regulators, partners and others that do business with Enbridge;

the risk that the anticipated benefits of the Merger will not be realized in full or in part, including the risk that expected synergies will not be achieved or not achieved in the expected time frame;

the risk that the regulatory approval process could result in undesirable conditions, impose burdensome terms or result in increased pre-tax transaction costs;

the risk of diverting the attention of Enbridge's senior management from other strategic priorities to implement the Merger and make arrangements for integration of Enbridge's and Spectra Energy's operations and infrastructure following the Merger;

certain restrictions on the conduct of Enbridge's business during the pendency of the Merger, including restrictions on Enbridge's ability to solicit alternative business combination transactions, although the Enbridge board of directors believed that such restrictions were reasonable;

the inability of Enbridge to terminate the Merger Agreement to enter into an agreement for a superior proposal prior to the completion of the Enbridge Special Meeting to vote on the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution;

the potential impact on the market price of Enbridge Common Shares as a result of the issuance of the Merger Consideration to Spectra Energy stockholders; and

the risks described in the section entitled *Risk Factors* .

After consideration of these factors, the Enbridge board of directors determined that, overall, the potential benefits of the Merger outweighed the potential risks.

The foregoing discussion of factors considered by the Enbridge board of directors is not intended to be exhaustive and may not include all the factors considered by the Enbridge board of directors. In view of the wide variety of factors considered in connection with its evaluation of the Merger and the complexity of these matters, the Enbridge board of directors did not attempt to quantify, rank or otherwise assign any relative or specific weights to the factors that it considered in reaching its determination to approve the Merger and the Merger Agreement. In addition, individual members of the Enbridge board of directors may have given differing weights to different factors. The Enbridge board of directors conducted an overall review of the factors described above and other material factors, including through discussions with, and inquiry of, Enbridge's management and outside legal and financial advisors.

The foregoing description of Enbridge's consideration of the factors supporting the Merger is forward-looking in nature. This information should be read in light of the factors discussed in the section entitled *Cautionary Statement Regarding Forward-Looking Statements*.

counsel and financial advisors (including, among other things, a review and consideration of the opinion of Credit Suisse and the opinion of RBC) and consideration of such other matters as the board of directors of Enbridge considered relevant, the Enbridge board of directors unanimously determined, by all directors present, that the Merger is in the best interests of Enbridge and resolved to recommend that Enbridge Shareholders vote in favour of the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution. ***Accordingly, the board of directors of Enbridge recommends that Enbridge Shareholders vote FOR the Enbridge Common Share Issuance Resolution and FOR the By-law Amendment Resolution.***

Opinions of Enbridge's Financial Advisors***Opinion of Credit Suisse***

On September 5, 2016, Credit Suisse rendered to the Enbridge board of directors its oral opinion, subsequently confirmed by delivery of a written opinion dated September 5, 2016, to the effect that, as of such date, and based upon and subject to the procedures followed and the assumptions, qualifications, limitations and other matters considered in connection with the preparation of such opinion, the Exchange Ratio in the Canadian Exchange Offer and in the Merger pursuant to the Merger Agreement was fair, from a financial point of view, to Enbridge. Credit Suisse's opinion was only one of many factors considered by the Enbridge board of directors in evaluating the Merger and was not determinative of the views of the Enbridge board of directors with respect to the Merger or the Exchange Ratio set forth in the Merger Agreement.

Credit Suisse's opinion was directed to the Enbridge board of directors and addressed only the fairness, from a financial point of view, to Enbridge, of the Exchange Ratio in the Canadian Exchange Offer and in the Merger pursuant to in the Merger Agreement and did not address any other aspect or implication of the Merger or any related matter. The summary of Credit Suisse's opinion in this Management Information Circular is qualified in its entirety by reference to the full text of Credit Suisse's opinion, which is included as *Appendix C Opinion of Credit Suisse Securities (Canada), Inc.* to this Management Information Circular and sets forth the procedures followed and the assumptions, qualifications, limitations and other matters considered by Credit Suisse in connection with the preparation of its opinion. Credit Suisse's opinion was furnished for the use of the Enbridge board of directors (solely in its capacity as such) in connection with its evaluation of the Merger, and the opinion is subject to the limitations and qualifications contained therein. Credit Suisse's opinion does not constitute a recommendation to the Enbridge board of directors or any other person as to how to act or vote with respect to the Merger, the Enbridge Common Share Issuance Resolution or any related matter.

Enbridge engaged Credit Suisse as one of its financial advisors in connection with the Merger effective July 26, 2016. Pursuant to the terms of Credit Suisse's engagement by Enbridge, Enbridge is obligated to pay Credit Suisse certain fees for its services, consisting of an announcement fee which became payable to Credit Suisse upon the rendering of its opinion (regardless of the conclusion reached therein), an approval fee payable to Credit Suisse upon the approval of the Merger by Enbridge Shareholders and Spectra Energy stockholders, and a transaction fee payable to Credit Suisse which is contingent upon the consummation of the Merger (and accounts for a substantial portion of the overall fees paid or payable to Credit Suisse). In addition, Enbridge has agreed to reimburse Credit Suisse for certain of its expenses and to indemnify Credit Suisse and certain related parties for certain liabilities and other items arising out of or related to Credit Suisse's engagement.

Opinion of RBC

The Enbridge board of directors engaged RBC as one of its financial advisors to provide advice and assistance in evaluating the Merger. In connection with this engagement, on September 5, 2016, RBC rendered to the Enbridge

board of directors its oral opinion, subsequently confirmed by delivery of a written opinion dated September 5, 2016, to the effect that, as of such date, and subject to the assumptions made, procedures followed, matters considered and limitations and qualifications on the review undertaken in connection with the rendering of such opinion, the Exchange Ratio was fair, from a financial point of view, to Enbridge. RBC's opinion was

only one of many factors considered by the Enbridge board of directors in evaluating the Merger and was not determinative of the views of the Enbridge board of directors with respect to the Merger or the Exchange Ratio set forth in the Merger Agreement.

The full text of the written opinion of RBC dated September 5, 2016, which sets forth, among other things, the assumptions made, procedures followed, matters considered and limitations and qualifications on the review undertaken in connection with the rendering of such opinion, is attached as *Appendix D Opinion of RBC Dominion Securities Inc.* to this Management Information Circular and should be read carefully and in its entirety. RBC provided its opinion for the use of the Enbridge board of directors in connection with its consideration of the Merger and the opinion is subject to the limitations and qualifications contained therein. The opinion of RBC does not constitute a recommendation to any Enbridge Shareholder as to how such shareholder should vote with respect to the Enbridge Common Share Issuance Resolution or any other matter.

RBC was engaged by Enbridge as a financial advisor effective July 28, 2016 to provide the Enbridge board of directors with financial advisory services. Pursuant to the terms of its engagement agreement with Enbridge, RBC has been, or is to be, paid fees for its services as a financial advisor, including: (i) a fee for the delivery of its fairness opinion, which was not contingent upon the conclusion reached therein; (ii) a fee that is contingent upon approval of the Merger by Enbridge Shareholders and Spectra Energy stockholders; and (iii) a fee that is contingent upon completion of the Merger. Enbridge has also agreed to reimburse RBC for its reasonable out-of-pocket expenses and to indemnify RBC against certain liabilities.

Impact on Credit Ratings

In connection with its evaluation of the Merger, Enbridge considered the potential impact of the Merger on its credit ratings. As part of this consideration, the respective senior management of Enbridge and Spectra Energy, including Mr. Monaco and Mr. Ebel, and each company's Chief Financial Officer, participated in meetings with credit rating agencies, during which they discussed the proposed transaction, *pro forma* corporate, financial and governance structure and strengths of the combined company. Prior to the execution of the Merger Agreement, Enbridge management received and shared with Spectra Energy management favorable feedback from the credit rating agencies regarding their view of Enbridge's credit rating upon the closing of the proposed transaction.

On September 6, 2016, following the announcement of the Merger, S&P affirmed its BBB+ long-term corporate credit and senior unsecured debt ratings on Enbridge and confirmed that the outlook was stable.

On September 8, 2016, DBRS confirmed that it would maintain its existing ratings in respect of Enbridge and maintain Enbridge's credit ratings as Under Review with Developing Implications. DBRS has indicated that it expects to confirm Enbridge's ratings with stable trends in the event that the Merger is completed as contemplated.

On September 6, 2016, following the announcement of the Merger, Moody's affirmed the Baa2 senior unsecured rating for Enbridge and indicated that the rating outlook for Enbridge remained negative. Moody's indicated that it is maintaining a negative rating outlook for Enbridge until Enbridge executes the Merger, its capital program in 2017 and certain deleveraging plans.

Interests of Enbridge's Directors and Executive Officers in the Merger

Gov. James J. Blanchard, a director of Enbridge, disclosed that his law firm does work for Spectra Energy and he has participated in representing Spectra Energy. As a result of this conflict, Gov. Blanchard did not participate in discussions or meetings of the Enbridge board of directors relating to a possible transaction with Spectra Energy. See *The Merger - Background of the Merger* .

Pursuant to the terms of the Merger Agreement, Enbridge has agreed to, prior to the Closing Date, take all actions necessary to (i) cause the Enbridge board of directors to consist of 13 directors at the Effective Time, (ii) secure the resignations of such number of Enbridge directors as is necessary for the Enbridge board of directors, immediately following the Effective Time, to consist of 13 directors following the appointment of each of the Spectra Energy Designees, which resignations will be effective at or prior to the Effective Time and (iii) cause the Spectra Energy Designees to be appointed to the Enbridge board of directors as of the Effective Time. In order to give effect to the foregoing, Enbridge anticipates that four of the existing Enbridge directors will need to resign. It has not yet been determined which of the existing Enbridge directors will resign. In connection with his or her resignation, each resigning director will receive the cash amount such resigning director is entitled to receive with respect to the redemption of the Enbridge DSUs held by him or her. The cash entitlement per Enbridge DSU is calculated using the weighted average of the closing price of the Enbridge Common Shares on the TSX for the last five trading days before the redemption date, multiplied by the number of Enbridge DSUs the resigning director holds. For additional information regarding the governance of Enbridge after completion of the Merger, see the section entitled *The Merger - Board of Directors and Management of Enbridge after the Merger* .

The Spectra Energy Special Meeting and Stockholder Approval

The Spectra Energy Special Meeting will be held on December 15, 2016 at 2:00 p.m. (Central time) at 5400 Westheimer Court, Houston, Texas 77056. At the Spectra Energy Special Meeting, Spectra Energy stockholders will be asked to consider and vote on the following proposals:

Table of Contents

2. **Advisory Compensation Proposal:** to approve, on an advisory (non-binding) basis certain specified compensation that will or may be paid by Spectra Energy to its named executive officers that is based on or otherwise relates to the Merger.

A majority of the shares entitled to vote must be present in person or by proxy at the Spectra Energy Special Meeting in order to constitute a quorum.

Approval of the Merger Proposal requires the affirmative vote of holders of a majority of the outstanding shares of Spectra Energy common stock. The approval of the Merger Proposal is a condition to the obligations of Enbridge and Spectra Energy to complete the Merger.

Approval, on an advisory (non-binding) basis, of the Advisory Compensation Proposal requires the affirmative vote of holders of a majority of the shares of Spectra Energy common stock that are present at the Spectra Energy Special Meeting in person or by proxy and are entitled to vote on the Advisory Compensation Proposal. The approval of the Advisory Compensation Proposal is not a condition to the obligations of Enbridge or Spectra Energy to complete the Merger and is not binding on Enbridge or Spectra Energy following the Merger.

The Spectra Energy board of directors unanimously determined that the Merger Agreement and the transactions contemplated thereby, including the Merger, are fair to, and in the best interests of, Spectra Energy and its stockholders, and has approved and declared advisable the Merger Agreement and the transactions contemplated thereby, including the Merger. Accordingly, the Spectra Energy board of directors recommended that Spectra Energy stockholders vote for the approval of both the Merger Proposal and the Advisory Compensation Proposal.

In connection with the Merger and the Spectra Energy Special Meeting, Enbridge and Spectra Energy have filed with the SEC the proxy statement/prospectus.

Accounting Treatment of the Merger

In accordance with U.S. GAAP, the Merger will be accounted for as a business combination applying the acquisition method of accounting. Accordingly, the aggregate fair value of the Merger Consideration paid by Enbridge in connection with the Merger will be allocated to Spectra Energy's net assets based on their fair values as of the completion of the transaction. The excess of the total purchase consideration over the fair value of the identifiable assets acquired, liabilities assumed and any noncontrolling interest in Spectra Energy will be allocated to goodwill. The results of operations of Spectra Energy will be included in Enbridge's consolidated results of operations only for periods subsequent to the completion of the Merger.

Regulatory Approvals Required for the Merger

To complete the Merger and the other transactions contemplated by the Merger Agreement, Enbridge and Spectra Energy must make and deliver certain filings, submissions and notices to obtain required authorizations, approvals, consents or expiration of waiting periods from Canadian and U.S. governmental and regulatory bodies, antitrust and other regulatory authorities. Enbridge and Spectra Energy have each agreed to use their reasonable best efforts to obtain clearance under the HSR Act and their best efforts to obtain and maintain all other regulatory approvals necessary to complete the Merger and the other transactions contemplated by the Merger Agreement. Enbridge is not currently aware of any material governmental filings, authorizations, approvals or consents that are required prior to the completion of the Merger other than those described in this Management Information Circular. There can be no assurance, however, if and when any of the approvals required to be obtained for the Merger and the other transactions contemplated by the Merger Agreement will be obtained or as to the conditions or limitations that such approvals may contain or impose.

HSR Act

The Merger is subject to the requirements of the HSR Act, which prevents Enbridge and Spectra Energy from completing the Merger until required information and materials are furnished to the FTC and the DOJ and

Table of Contents

specified waiting period requirements have been satisfied. On October 3, 2016, each of Enbridge and Spectra Energy filed a Pre-merger Notification and Report Form pursuant to the HSR Act with the DOJ and FTC. On November 2, 2016, Spectra Energy and Enbridge received a Second Request from the FTC in connection with the FTC's review of the Merger. The Second Request was issued under the notification requirements of the HSR Act. The effect of the Second Request is to extend the waiting period under the HSR Act until thirty days after Spectra Energy and Enbridge have substantially complied with the Second Request, unless that period is terminated earlier by the FTC. Spectra Energy and Enbridge are continuing to work closely and cooperatively with the FTC in its review of the merger.

The FTC, the DOJ, state attorneys general, and others may challenge the Merger on antitrust grounds either before or after the expiration or termination of the applicable waiting period. Accordingly, at any time before or after completion of the Merger, any of the FTC, the DOJ, or others could take action under the antitrust laws, including without limitation seeking to enjoin the completion of the Merger or permitting completion subject to regulatory concessions or conditions. Enbridge does not believe that the Merger violates federal or state antitrust laws, but there can be no assurance that a challenge to the Merger on antitrust grounds will not be made or, if such a challenge is made, that it would not be successful.

Canadian Approvals

Under the Competition Act (Canada), and the regulations promulgated thereunder, the Merger cannot be completed until, among other things, notifications have been given and certain information has been provided to the Canadian Competition Bureau, all applicable waiting periods have expired or been terminated and the Canadian Competition Bureau has provided the Competition Act (Canada) Clearance.

Each of Enbridge and Spectra Energy filed a Pre-Merger Notification on October 3, 2016 and Enbridge filed a request for an advance ruling certificate pursuant to the Competition Act (Canada) with the Canadian Competition Bureau on October 3, 2016. On November 2, 2016, Spectra Energy and Enbridge received a Supplementary Information Request from the Canadian Competition Bureau in connection with the Canadian Competition Bureau's review of the Merger. The Supplementary Information Request was issued under the Competition Act (Canada). The effect of the Supplementary Information Request is to extend the waiting period under the Competition Act (Canada) until thirty days after Spectra Energy and Enbridge have substantially complied with the Supplementary Information Request, unless that period is terminated earlier by the Canadian Competition Bureau, Spectra Energy and Enbridge are continuing to work closely and cooperatively with the Canadian Competition Bureau in its review of the merger. The expiration of any Competition Act (Canada) waiting period would not preclude the Canadian Competition Bureau from challenging the Merger on antitrust grounds or from seeking to preliminarily or permanently enjoin the Merger.

Enbridge filed a notification with the Minister of Transport under the Canada Transportation Act on October 7, 2016. Written confirmation from the Minister of Transport is required to complete the Merger.

CFIUS

Section 721 of the DPA, as well as related Executive Orders and regulations, authorize the President or CFIUS to review transactions which could result in control of a U.S. business by a foreign person. Under the DPA and Executive Order 13456, the Secretary of the Treasury acts through CFIUS to coordinate review of certain covered transactions that are voluntarily submitted to CFIUS or that are unilaterally reviewed by CFIUS. In general, CFIUS review of a covered transaction occurs in an initial 30 day review period that may be extended by CFIUS for an additional 45 day investigation period. At the close of its review or investigation, CFIUS may decline to take any action relative to the covered transaction; may impose mitigation terms to resolve any national security concerns with the covered transaction; or may send a report to the President recommending that the transaction be suspended or

prohibited, or providing notice to the President that CFIUS cannot agree on a recommendation relative to the covered transaction. The President has 15 days under the DPA to act on the Committee's report.

Table of Contents

If CFIUS determines that a transaction presents national security concerns, it can impose measures to mitigate such concerns or recommend that the President of the United States block or unwind a transaction. Parties to transactions subject to CFIUS' jurisdiction may voluntarily notify CFIUS of their proposed transactions in order to obtain CFIUS approval. CFIUS may also initiate a review of any transaction within its jurisdiction. Under the terms of the Merger Agreement, Enbridge and Spectra Energy are required to submit a joint voluntary notice of the Merger to CFIUS within certain time frames set forth in the Merger Agreement (the **CFIUS Notice**). On October 11, 2016, Enbridge and Spectra Energy submitted a draft joint voluntary notice with CFIUS. On November 2, 2016, Enbridge and Spectra Energy submitted the final joint voluntary notice with CFIUS. Completion of the Merger is conditioned on one of (a) the 30 day review period under the DPA commencing on the date that the CFIUS Notice is accepted by CFIUS has expired and the parties to the Merger Agreement have received written notice from CFIUS that such review has been concluded and that either the transactions contemplated by the Merger Agreement do not constitute a covered transaction under the DPA or there are no unresolved national security concerns; (b) an investigation has been commenced after such 30 day review period and CFIUS has determined to conclude all deliberative action under the DPA without sending a report to the President of the United States, and the parties to the Merger Agreement have received written notice from CFIUS that either the transactions contemplated by the Merger Agreement do not constitute a covered transaction under the DPA or there are no unresolved national security concerns, and all action under the DPA has concluded with respect to the transactions contemplated by the Merger Agreement; or (c) CFIUS has sent a report to the President of the United States requesting the President's decision and either (i) the period under the DPA during which the President may announce his decision to take action to suspend, prohibit or place any limitations on the transactions contemplated by the Merger Agreement has expired without any such action being threatened, announced or taken or (ii) the President has announced a decision not to take any action to suspend, prohibit or place any limitations on the transactions contemplated by the Merger Agreement.

Litigation Relating to the Merger

Spectra Energy and its board of directors are named as defendants in six putative class action lawsuits filed by purported stockholders of Spectra Energy that challenge the Merger. The lawsuits include *Paul Parshall v. Spectra Energy Corp, et al.*, 12809-CB, filed in the Court of Chancery for the State of Delaware, and *Mary Lincoln v. Spectra Energy Corp, et al.*, 16-cv-03019, *Joseph Koller v. Spectra Energy Corp, et al.*, 16-cv-03059, *Joseph Costner v. Spectra Energy Corp et al.*, 16-cv-03065, *John L. Williams v. Spectra Energy Corp et al.*, 16-cv-03069 and *Joseph McMillan v. Spectra Energy Corp et al.*, 16-cv-03130, all filed in the United States District Court for the Southern District of Texas. The complaints allege, among other things, that Spectra Energy and its board of directors breached the board's fiduciary duties (in the Delaware lawsuit) and violated Sections 14(a) and 20(a) of the Exchange Act and Rule 14a-9 promulgated thereunder (in the Southern District of Texas lawsuits), as applicable, by issuing or causing to be issued an allegedly materially misleading and incomplete preliminary proxy statement in connection with the Merger. Enbridge and Merger Sub are also named as defendants in the Delaware lawsuit, and the Delaware complaint alleges, among other things, that Enbridge and Merger Sub aided and abetted Spectra Energy's board of directors breach of fiduciary duties. Plaintiffs seek as relief, among other things, an injunction against the Merger, rescission of the Merger to the extent it is already implemented, declaratory relief, costs and attorneys' fees, and/or damages. Enbridge and Spectra Energy believe the actions are without merit and intend to vigorously defend against them.

Table of Contents**THE MERGER AGREEMENT**

The summary of the material provisions of the Merger Agreement below and elsewhere in this Management Information Circular is qualified in its entirety by reference to the Merger Agreement, a copy of which is attached to this Management Information Circular as Appendix A Merger Agreement and is incorporated by reference into this Management Information Circular. This summary does not purport to be complete and may not provide all of the information about the Merger Agreement that might be important to you. You are urged to read the Merger Agreement carefully and in its entirety because it is the legal document that governs the Merger.

Explanatory Note Regarding the Merger Agreement

The Merger Agreement and this summary are included solely to provide you with information regarding its terms. The representations, warranties and covenants made in the Merger Agreement by Enbridge, Spectra Energy and Merger Sub were made solely for the purposes of the Merger Agreement as of specific dates and were qualified and subject to important limitations agreed to by Enbridge, Spectra Energy and Merger Sub in connection with negotiating the terms of the Merger Agreement. In particular, in your review of the representations and warranties contained in the Merger Agreement and described in this summary, it is important to bear in mind that the representations and warranties were negotiated with the principal purposes of establishing the circumstances in which a party to the Merger Agreement may have the right to not complete the Merger if the representations and warranties of the other party prove to be untrue, and allocating risk between the parties to the Merger Agreement, rather than establishing matters as facts. The representations and warranties may also be subject to a contractual standard of materiality different from those generally applicable to shareholders and reports and documents filed on SEDAR or with the SEC, are qualified by certain matters contained in certain reports publicly filed on SEDAR or with the SEC, and in some cases were qualified by the matters contained in the respective confidential disclosure letters that Enbridge and Spectra Energy delivered to each other in connection with the Merger Agreement, which disclosures were not included in the Merger Agreement attached to this Management Information Circular as *Appendix A Merger Agreement*. Moreover, information concerning the subject matter of the representations and warranties, which do not purport to be accurate as of the date of this Management Information Circular, may have changed since the date of the Merger Agreement. Accordingly, the representations and warranties and other provisions of the Merger Agreement should not be read alone, but instead should be read together with the information provided elsewhere in this Management Information Circular, the documents incorporated by reference into this Management Information Circular, and reports, statements and filings that Enbridge and Spectra Energy file on SEDAR and with the SEC from time to time. For more information, see the sections entitled *Information Contained in Management Information Circular Information Incorporated by Reference* and *Additional Information*.

No Fractional Shares

No fractional Enbridge Common Shares will be issued upon the conversion of Spectra Energy common stock or in the Canadian Exchange Offer. All fractional Enbridge Common Shares that a Spectra Energy stockholder would be otherwise entitled to receive pursuant to the Merger Agreement or the Canadian Exchange Offer will be aggregated and rounded to three decimal places. Any holder otherwise entitled to receive a fractional Enbridge Common Share will be entitled to receive a cash payment, without interest, in lieu of any fractional share, which payment will be calculated by the Exchange Agent and will represent such holder's proportionate interest in an Enbridge Common Share based on the average (rounded to the nearest thousandth) of the closing trading prices of Enbridge Common Shares on the NYSE, as reported by the NYSE for the 10 trading days ending on, and including, the trading day that is three trading days prior to the Closing Date of the Merger. No holder will be entitled by virtue of the right to receive cash in lieu of fractional Enbridge Common Shares to any dividends, voting rights or any other rights in respect of any fractional Enbridge Common Share. The payment of cash in lieu of fractional Enbridge Common Shares is not a separately bargained-for consideration and solely represents a mechanical rounding-off of the fractions in the exchange.

Surrender of Spectra Energy Common Stock

Prior to the Effective Time, Enbridge will deposit or cause to be deposited with the Exchange Agent for the benefit of the holders of Eligible Shares and Spectra Energy common stock tendered in the Canadian Exchange Offer, (i) Enbridge Common Shares to be issued in uncertificated form or book-entry form as Merger Consideration and

pursuant to the Canadian Exchange Offer, and (ii) cash comprising approximately the amount required to pay cash in lieu of any fractional shares. After the Effective Time, Enbridge will deposit or cause to be deposited with the Exchange Agent, any dividends or other distributions, if any, to which the holders of Eligible Shares may be entitled with both a record and payment date after the Effective Time and prior to the surrender of such Eligible Shares.

Table of Contents

Promptly after the Effective Time (and in any event within three business days after the Effective Time), the Surviving Corporation will cause the Exchange Agent to mail to each holder of record of Eligible Shares a letter of transmittal and instructions for use in effecting the surrender of book-entry shares or certificates (or affidavits of loss in lieu of the certificates) to the Exchange Agent.

Upon surrender to the Exchange Agent of Eligible Shares that are certificates, by physical surrender of such certificate (or affidavit of loss in lieu of a certificate) or that are book-entry shares, by book-receipt of an agent's message by the Exchange Agent in connection with the transfer of book-entry shares, in accordance with the terms of the letter of transmittal and accompanying instructions or, with respect to book-entry shares, in accordance with customary procedures and such other procedures as agreed to by Enbridge, Spectra Energy and the Exchange Agent, the holder of such certificate or book-entry share will be entitled to receive (i) the Merger Consideration and (ii) an amount (if any) in immediately available funds (or, if no wire transfer instructions are provided, a check, and in each case, after giving effect to any required tax withholdings) of (A) any cash in lieu of fractional shares plus (B) any unpaid non-stock dividends and any other dividends or other distributions, in each case, that such holder has the right to receive pursuant to the Merger Agreement.

No interest will be paid or accrued on any amount payable upon due surrender of Eligible Shares.

In the event any certificate representing Eligible Shares will have been lost, stolen or destroyed, upon the making of an affidavit of that fact by the person claiming such certificate to be lost, stolen or destroyed and, if required by Enbridge, the posting by such person of a bond in customary amount and upon such terms as may be reasonably required by Enbridge as indemnity against any claim that may be made against it with respect to such certificate, the Exchange Agent will issue in exchange for such lost, stolen or destroyed certificate the Enbridge Common Shares, cash (in the case of fractional Enbridge Common Share entitlements) and any unpaid dividends or other distributions that would be payable or deliverable in respect thereof pursuant to the Merger Agreement had such lost, stolen or destroyed certificate been surrendered.

Withholding

Each of Enbridge, Spectra Energy, the Exchange Agent and the Surviving Corporation will be entitled to deduct and withhold from the consideration otherwise payable pursuant to the Merger Agreement such amounts as it is required to deduct and withhold with respect to the making of such payment under the Code or any other applicable tax law. To the extent that amounts are so withheld by Enbridge, Spectra Energy, the Exchange Agent or the Surviving Corporation, such withheld amounts (a) will be timely remitted to the applicable governmental entity, and (b) will be treated for all purposes of the Merger Agreement as having been paid to the person in respect of which such deduction and withholding was made to the extent such withheld amounts are remitted to the appropriate governmental entity.

Table of Contents

Each of Enbridge's and Spectra Energy's obligations to take or not take these prohibited actions with respect to any entities (and their respective subsidiaries) which are controlled by such party or in which such party has a voting interest, but that are not directly or indirectly wholly-owned by it or that have public equity holders, only applies to the extent permitted by the organizational documents and governance arrangements of such entity and its subsidiaries, to the extent that Enbridge or Spectra Energy, as applicable, is authorized and empowered to bind such entity and its subsidiaries and to the extent permitted by the party's or its subsidiaries' duties (fiduciary or otherwise) to such entity and its subsidiaries or any of its equity holders.

For purposes of the Merger Agreement, Enbridge and Spectra Energy have agreed that certain joint ventures of Enbridge and Spectra Energy (including DCP Midstream, LLC) (and the respective direct or indirect subsidiaries of any such joint venture), as applicable, are not considered a subsidiary of Enbridge or Spectra Energy, as applicable, and the restrictions described above do not apply to such entities.

Nothing contained in the Merger Agreement gives Enbridge or Spectra Energy, directly or indirectly, the right to control or direct the other party's operations prior to the Effective Time. Prior to the Effective Time, each party will exercise, consistent with the terms and conditions of the Merger Agreement, complete control and supervision over its and its subsidiaries' respective operations. Nothing in the Merger Agreement, including any of the actions, rights or restrictions set forth in the Merger Agreement, will be interpreted in such a way as to require compliance by any party if such compliance would result in the violation of any rule, regulation or policy of any governmental antitrust entity or applicable law.

No Solicitation

Enbridge and Spectra Energy have agreed they each will not, and none of their respective subsidiaries nor any of their respective directors and officers will, and will each instruct their and their subsidiaries' investment bankers, attorneys, accountants and other advisors or representatives (collectively referred to herein as **representatives**), not to, directly or indirectly:

initiate, solicit, propose, knowingly encourage or take any action to knowingly facilitate any inquiry or the making of any proposal or offer that constitutes, or would reasonably be expected to lead to, an acquisition proposal;

engage in, continue or otherwise participate in any discussions with or negotiations relating to any acquisition proposal or any inquiry, proposal or offer that would reasonably be expected to lead to an acquisition proposal (other than to state that the terms of the Merger Agreement prohibit such discussions); or

provide any non-public information to any person in connection with any acquisition proposal or any proposal or offer that would reasonably be expected to lead to an acquisition proposal.

Prior to the time, but not after, in the case of Enbridge, the requisite Enbridge Shareholder vote is obtained, or in the case of Spectra Energy, the requisite Spectra Energy stockholder vote is obtained, in response to an unsolicited, *bona fide* written acquisition proposal (that did not result from such party's breach of the above provisions in any material respect), Enbridge or Spectra Energy, as applicable, may (including through a subsidiary or its directors, officers or representatives):

contact such person or group of persons solely to clarify the terms and conditions of the acquisition proposal;

provide information in response to a general or specific request therefor (including non-public information regarding it or any of its subsidiaries) to the person who made such acquisition proposal, as long as such non-public information has previously been made available to, or is made available to, Enbridge or Spectra Energy by the other, as applicable, prior to or concurrently with

Table of Contents

the time such non-public information is made available to such person and that, prior to furnishing any such non-public information, Enbridge or Spectra Energy, as applicable, receives from the person making such acquisition proposal an executed confidentiality agreement with terms not less restrictive in the aggregate to the other party than the terms in the Confidentiality Agreement (such confidentiality agreement does need not to prohibit the making or amending of an acquisition proposal); and

engage or participate in any discussions or negotiations with any such person regarding such acquisition proposal;

only if, prior to taking any action described above, the Enbridge board of directors or the Spectra Energy board of directors, as applicable, determines in good faith after consultation with outside legal counsel that (i) based on the information then available and after consultation with its financial advisor, that such acquisition proposal either constitutes a superior proposal or could reasonably be expected to result in a superior proposal and (ii) the failure to take such action could be inconsistent with the directors' fiduciary duties under applicable law.

Enbridge and Spectra Energy are each required to promptly (and, in any event, within 24 hours) give notice to the other party if they receive (i) any inquiries, proposals or offers constituting an acquisition proposal, (ii) any initial request for information in connection with any acquisition proposal, or (iii) any initial request for discussions or negotiations with respect to an acquisition proposal. Such notice is required to include the name of the proponent and the material terms and conditions of any proposals or offers (including, if applicable, complete copies of any written requests, proposals or offers, including proposed agreements). Enbridge or Spectra Energy, as applicable, will be required to thereafter keep the other party reasonably informed, on a reasonably current basis of the status and material terms of any such proposals or offers (including any amendments) and the status of any such discussions or negotiations, including any material change in its intentions as previously notified.

For the purposes of the Merger Agreement, the term **acquisition proposal** refers to (i) any proposal, offer, inquiry or indication of interest relating to a merger, joint venture, partnership, consolidation, dissolution, liquidation, tender offer, recapitalization, reorganization, spin-off, share exchange, business combination or similar transaction involving Enbridge or Spectra Energy, as applicable, or any of their respective subsidiaries or (ii) any acquisition by any person or group resulting in, or any proposal, offer, inquiry or indication of interest that, in the case of (i) or (ii), if completed would result in, any person or group becoming the beneficial owner of, directly or indirectly, in one or a series of related transactions, 15% or more of the total voting power or of any class of equity securities of Enbridge or Spectra Energy, as applicable, or 15% or more of the consolidated net revenues, net income or total assets (it being understood that assets include, without limitation, equity securities of subsidiaries) of Enbridge or Spectra Energy, as applicable, in each case other than the transactions contemplated by the Merger Agreement.

For the purposes of the Merger Agreement, the term **superior proposal** refers to an unsolicited, *bona fide* written acquisition proposal made after the date of the Merger Agreement that would result in a person or group becoming the beneficial owner of, directly or indirectly, all of the total voting power of the equity securities of Enbridge or Spectra Energy, as applicable, or all or substantially all of the consolidated net revenues, net income or total assets (including, without limitation, equity securities of its subsidiaries), of Enbridge or Spectra Energy, as applicable, that the Enbridge board of directors or Spectra Energy board of directors, as applicable, has determined in good faith, after consultation with outside legal counsel and its financial advisor, taking into account all financial, financing and regulatory aspects of the proposal and such other matters as the Enbridge board of directors or Spectra Energy board of directors, as applicable, deems appropriate, that, if completed, would result in a transaction more favorable to Enbridge Shareholders or Spectra Energy stockholders, as applicable, than the transactions contemplated by the Merger Agreement.

Except as permitted by the Merger Agreement, the Enbridge board of directors (including any committee thereof) or Spectra Energy board of directors (including any committee thereof), as applicable, will not:

withhold, withdraw, qualify or modify (or publicly propose or resolve to withhold, withdraw, qualify or modify) the recommendation to the Enbridge Shareholders of approval of the Enbridge Common Share Issuance in connection with the Merger and the By-law Amendment or the recommendation to the Spectra Energy stockholders of adoption of the Merger Agreement, the Merger and the other transactions contemplated by the Merger Agreement, as applicable, in a manner adverse to Enbridge or Spectra Energy, as applicable; or

approve, adopt or recommend, or publicly declare advisable or publicly propose to enter into, any letter of intent, memorandum of understanding, agreement in principle, acquisition agreement, merger agreement, option agreement, joint venture agreement, partnership agreement or other agreement (other than a confidentiality agreement referred to above and entered into in compliance with the above) relating to any acquisition proposal (an **alternative acquisition agreement**).

The taking of any of the actions set forth above will constitute a **change of recommendation**.

Prior to the time, in the case of Enbridge, the requisite Enbridge Shareholder vote is obtained or, in the case of Spectra Energy, the requisite Spectra Energy stockholder vote is obtained, the board of directors of Enbridge or the board of directors of Spectra Energy, as applicable, may effect a change of recommendation if the Enbridge board of directors or the Spectra Energy board of directors, as applicable, determines in good faith, after consultation with outside counsel and its financial advisors and in compliance with the Merger Agreement, that, as a result of a superior proposal or an intervening event, failure to take such action could be inconsistent with the directors' fiduciary duties under applicable law; however, a change of recommendation in response to a superior proposal or intervening event, as applicable, may not be made unless and until Enbridge or Spectra Energy, as applicable, has given Spectra Energy or Enbridge, as applicable, written notice of such action four business days in advance, such notice to comply in form, substance and delivery with the Merger Agreement, setting forth in writing that the Enbridge board of directors or the Spectra Energy board of directors, as applicable, intends to consider whether to take such action and the basis for such action. After giving such notice and prior to effecting such change of recommendation in connection with a superior proposal or intervening event, as applicable, Enbridge or Spectra Energy, as applicable, will afford the other party the opportunity to negotiate during such four business day period with Enbridge or Spectra Energy, as applicable (to the extent Spectra Energy or Enbridge, as applicable, wishes to negotiate) to enable such party to propose revisions to the terms of the Merger Agreement as would permit the Enbridge board of directors or the Spectra Energy board of directors, as applicable, not to effect a change of recommendation in connection with a superior proposal or intervening event, as applicable. At the end of such four business day period, prior to taking action to effect a change of recommendation in response to a superior proposal or an intervening event, as applicable, the Enbridge board of directors or the Spectra Energy board of directors, as applicable, will take into account any changes to the terms of the Merger Agreement proposed by Spectra Energy or Enbridge, as applicable, in writing in response to such notice, and will have determined in good faith, after consultation with its outside legal counsel, that the superior proposal or intervening event, as applicable, would continue to constitute a superior proposal or intervening event, as applicable, if the changes to the terms of the Merger Agreement offered in writing (if any) were to be given effect and that the failure to take such action could be inconsistent with the directors' fiduciary duties under applicable law. Any material amendment to any acquisition proposal (including any change in the amount or form of consideration) will be deemed

to be a new acquisition proposal, except that references to four business days will be deemed to be references to three business days.

As further described in the section below entitled *The Merger Agreement - Termination of the Merger Agreement* , if (i) the Spectra Energy board of directors makes a change of recommendation and Enbridge terminates the Merger Agreement, Spectra Energy will be required to pay a termination fee of US\$1.0 billion,

and (ii) if the Enbridge board of directors makes a change of recommendation and Spectra Energy terminates the Merger Agreement, Enbridge will be required to pay a termination fee of \$1.75 billion.

The Merger Agreement will not prohibit Enbridge or Spectra Energy, or any of their respective subsidiaries or representatives, from complying with their respective disclosure obligations under applicable law. However, if such disclosure has the substantive effect of withdrawing or adversely modifying the Enbridge board recommendation or the Spectra Energy board recommendation, as applicable, such disclosure will be deemed to be a change of recommendation for the purposes of the Merger Agreement. In such circumstances, Spectra Energy or Enbridge, as applicable, will have the option to terminate the Merger Agreement. A stop, look and listen or similar communication of the type contemplated by Rule 14d-9(f) under the U.S. Exchange Act or any statement that Spectra Energy has received a proposal and is considering such proposal will not be deemed to be a change of recommendation for the purposes of the Merger Agreement.

For the purposes of the Merger Agreement, the term **intervening event** refers to an event, fact, occurrence, development or circumstance that was not known to or reasonably foreseeable by the Enbridge board of directors or the Spectra Energy board of directors, as applicable, as of the date of the Merger Agreement (or if known, the consequences of which were not known to the Enbridge board of directors or the Spectra Energy board of directors, as applicable, as of the date of the Merger Agreement). However, the Merger Agreement provides that in no event will any of the following constitute or be deemed to be an intervening event: (i) the receipt, existence or terms of an acquisition proposal or any matter relating to such acquisition proposal or consequences of such acquisition proposal, (ii) any action taken by either party pursuant to and in compliance with the covenants and agreements set forth in the Merger Agreement, and the consequences of any such action, (iii) changes in the industry in which Enbridge or Spectra Energy, as applicable, operates, (iv) the fact that, in and of itself, Enbridge or Spectra Energy, as applicable, exceeds internal or published projections, or (v) changes, in and of themselves, in the share price of Enbridge or the stock price of Spectra Energy, as applicable.

Efforts to Obtain Required Stockholder/Shareholder Votes

The Merger Agreement requires Spectra Energy to take, in accordance with applicable law and its governing documents, all action necessary to convene the Spectra Energy Special Meeting as promptly as practicable (and in any event within 35 days) after the Enbridge U.S. registration statement on Form F-4, of which the proxy statement/prospectus forms a part, is declared effective by the SEC to consider and vote upon the adoption of the Merger Agreement and to cause such vote to be taken.

The Merger Agreement requires Enbridge to take, in accordance with applicable law and its governing documents, all action necessary to convene the Enbridge Special Meeting as promptly as practicable (and in any event within 35 days) after the Enbridge U.S. registration statement on Form F-4, of which the proxy statement/prospectus forms a part, is declared effective by the SEC to consider and vote upon the approval of the Enbridge Common Share Issuance Resolution and the By-law Amendment Resolution and to cause such vote to be taken.

Enbridge and Spectra Energy have agreed to cooperate to schedule and convene their respective shareholder/stockholder meetings on the same date and time.

The obligations of Enbridge and Spectra Energy to hold the Enbridge Special Meeting and Spectra Energy Special Meeting pursuant to the Merger Agreement will not be affected by the making of a change of recommendation by the Enbridge board of directors or Spectra Energy board of directors and the obligations of each party will not be affected by the commencement of or announcement or disclosure of or communication to Enbridge or Spectra Energy, as applicable, of any acquisition proposal or the occurrence or disclosure of an intervening event.

Spectra Energy, in reasonable consultation with Enbridge, may adjourn or postpone the Spectra Energy Special meeting to a later date to the extent Spectra Energy believes in good faith that such adjournment or postponement

is reasonably necessary (i) to ensure that any required supplement or amendment to the proxy statement/prospectus is provided to the Spectra Energy stockholders within a reasonable amount of time in advance of the Spectra Energy Special Meeting, (ii) to allow reasonable additional time to solicit additional proxies necessary to obtain the requisite Spectra Energy stockholder vote, (iii) to ensure that there are sufficient shares of Spectra Energy common stock represented (either in person or by proxy) and voting to constitute a quorum necessary to conduct the business of the Spectra Energy Special Meeting or (iv) to otherwise comply with applicable law.

Enbridge, in reasonable consultation with Spectra Energy, may adjourn or postpone the Enbridge Special Meeting to a later date to the extent Enbridge believes in good faith that such adjournment or postponement is reasonably necessary (i) to ensure that any required supplement or amendment to this Management Information Circular is provided to Enbridge Shareholders within a reasonable amount of time in advance of the Enbridge Special Meeting, (ii) to allow reasonable additional time to solicit additional proxies necessary to obtain the requisite Enbridge Shareholder vote, (iii) to ensure that there are sufficient Enbridge Common Shares represented (either in person or by proxy) and voting to constitute a quorum necessary to conduct the business of the Enbridge Special Meeting or (iv) to otherwise comply with applicable law.

If, on a date that is one business day prior to the date of the Spectra Energy Special Meeting or the Enbridge Special Meeting, as applicable, is scheduled (referred to herein as the **original date**), (i) Spectra Energy or Enbridge, as applicable, has not received proxies representing the requisite Spectra Energy stockholder vote or the requisite Enbridge Shareholder vote, as applicable, whether or not a quorum is present or (ii) it is necessary to ensure that any supplement or amendment to the proxy statement/prospectus or this Management Information Circular is required to be delivered, Spectra Energy and Enbridge, as applicable, will, postpone or adjourn, or make one or more successive postponements or adjournments of, the Spectra Energy Special Meeting or the Enbridge Special Meeting, as applicable, as long as the date of the Spectra Energy Special Meeting or the Enbridge Special Meeting, as applicable, is not postponed or adjourned more than 10 days in connection with any one postponement or adjournment or more than an aggregate of 20 days from the original date for these purposes.

Employee Benefits

Enbridge has agreed, following the Effective Time, to cause the Surviving Corporation to honor all benefit plans of Spectra Energy and its subsidiaries in accordance with their terms as in effect immediately before the Effective Time. Enbridge has also agreed that each employee of Spectra Energy and its subsidiaries at the Effective Time who continues to remain employed with Spectra Energy or its subsidiaries following the Effective Time and throughout the periods noted below (collectively, the **continuing employees**) will:

during the period commencing at the Effective Time and ending on the first anniversary of the Effective Time, be provided with base salary or base wage, as applicable, no less favorable than the base salary or base wage provided by Spectra Energy and its subsidiaries to such employee immediately prior to the Effective Time;

during the period commencing at the Effective Time and ending on December 31, 2017, be provided with target annual cash bonus opportunities and pension and welfare benefits that are, in each case, no less favorable than those provided by Spectra Energy and its subsidiaries to such employee immediately prior to the Effective Time;

during the period commencing on January 1, 2018 and ending on the first anniversary of the Effective Time, be provided with target annual cash bonus opportunities, and pension and welfare benefits that are no less favorable in the aggregate than those provided by Spectra Energy and its subsidiaries to such employee immediately prior to the Effective Time; and

solely to the extent that the Effective Time occurs prior to Spectra Energy's ordinary course grant of equity awards in 2017, be provided with a grant of Enbridge equity or equity-based awards in 2017 having a long-term incentive award target value that is substantially comparable to that of the

Table of Contents

awards granted by Spectra Energy to such employee in 2016 (however, the form or forms of equity and equity-based awards provided to each such employee will be the same form or forms of the awards and in the same proportion provided to similarly situated employees of Enbridge (other than the continuing employees)).

In addition, Enbridge has agreed to cause the Surviving Corporation to provide each continuing employee who is on Canadian payroll and who experiences a qualifying termination within 18 months of the Effective Time with severance benefits at least equal to the severance benefits for which such continuing employee would have been eligible under Spectra Energy's severance practices in effect as of the effective date, as disclosed to Enbridge as of September 5, 2016.

Enbridge has agreed to use commercially reasonable efforts to (i) cause any pre-existing conditions or limitations and eligibility waiting periods under any group health and welfare insurance plans of Enbridge or its affiliates to be waived with respect to the continuing employees and their eligible dependents, (ii) give each continuing employee credit for the plan year in which the Effective Time occurs towards applicable deductibles and annual out-of-pocket limits for medical expenses incurred during such plan year prior to the Effective Time for which payment has been made and (iii) give each continuing employee service credit for such continuing employee's employment with Spectra Energy and its subsidiaries (and any predecessor entities) for purposes of (A) vesting, (B) benefit accrual, (C) pay credit level in any cash balance or similar plan, (D) level of subsidy by Enbridge or its subsidiary for any health or welfare plan, and (E) eligibility to participate, in each case, under each applicable Enbridge benefit plan, as if such service had been performed with Enbridge, except to the extent it would result in a duplication of benefits or in the treatment of a continuing employee under such Enbridge benefit plan that is more favorable than the treatment of a similarly situated employee of Enbridge of the same age and with the same number of years of service.

Enbridge has acknowledged that a "change in control" (or similar phrase) within the meaning of the benefit plans of Spectra Energy and its subsidiaries will occur at or prior to the Effective Time, as applicable.

Under the Merger Agreement, Spectra Energy is permitted to determine the amount of the pre-closing bonus entitlement for each continuing employee who participates in a Spectra Energy annual bonus plan in an amount equal to the employee's full-year bonus entitlement under all such annual bonus plans for 2017, based on the greater of (i) deemed performance at target levels and (ii) actual performance through the latest practicable date prior to the Effective Time, extrapolated through the end of 2017, prorated for the number of days that have elapsed during 2017 through the Effective Time. Enbridge has agreed to cause the Surviving Corporation or its affiliates to (A) provide each continuing employee an annual cash bonus opportunity under an Enbridge annual bonus plan for the balance of 2017 and (B) at the time annual cash bonuses for 2017 are paid to similarly situated employees of Enbridge (other than continuing employees), pay to each continuing employee the sum of (1) his or her pre-closing bonus amount and (2) the amount of such employee's bonus entitlement in respect of the portion of 2017 following the Effective Time. Enbridge and Spectra Energy have also agreed that the annual cash bonus payment in respect of the 2017 calendar year will, to the extent the recipient is a participant therein, be eligible for a matching contribution under, and will be counted towards pensionable earnings under, the applicable benefit plans of Spectra Energy under which such payment would have been taken into account as of the effective date of the Merger Agreement.

With respect to those individuals who as of immediately prior to the Effective Time are receiving benefits under the Spectra Energy Retiree Medical Plan, Enbridge has agreed to continue or cause the Surviving Corporation to continue that plan through the first anniversary of the Effective Time, on terms and conditions no less favorable than those in effect as of the Effective Time. In addition, prior to the Effective Time, Spectra Energy may amend the plan to provide that, among other things, any continuing employee of Spectra Energy and its subsidiaries who experiences a qualifying termination during the one-year period following the Effective Time will be provided with an additional two years of age and service credit for purposes of determining eligibility under the plan (without regard to whether

such employee would be eligible for early retirement under a tax-qualified plan sponsored by Spectra Energy).

Table of Contents**Director & Officer Indemnification and Insurance**

After the Effective Time, Enbridge and the Surviving Corporation will indemnify and hold harmless to the fullest extent Spectra Energy would be permitted to under applicable law (and Enbridge and the Surviving Corporation will also advance expenses as incurred, to the fullest extent that Spectra Energy would have been permitted under Delaware law and Spectra Energy's certificate of incorporation as of the date of the Merger Agreement, to) each present and former director and officer of Spectra Energy and its subsidiaries (collectively referred to in this section as **indemnified parties** and each as an **indemnified party**) against any costs or expenses (including reasonable attorneys fees), judgments, fines, losses, claims, damages or liabilities incurred in connection with any claim, action, suit, proceeding or investigation, whether civil, criminal, administrative or investigative, arising out of or related to such indemnified parties' service as a director or officer of Spectra Energy or its subsidiaries or services performed by such indemnified party at the request of Spectra Energy at or prior to the Effective Time, whether asserted or claimed prior to, at or after the Effective Time, including in connection with (i) the transactions contemplated by the Merger Agreement and (ii) actions to enforce the indemnification or directors' and officers' indemnification and insurance provisions of the Merger Agreement or any other indemnification or advancement right of any indemnified party. However, any indemnified party to whom expenses are advanced must provide an undertaking to repay such advances if it is ultimately determined by final adjudication that such person is not entitled to indemnification.

Prior to the Effective Time, Spectra Energy will and, if Spectra Energy is unable to, Enbridge will cause the Surviving Corporation as of the Effective Time to, obtain and fully pay the premium for tail insurance policies for the extension of (i) the directors' and officers' liability coverage of Spectra Energy's existing directors' and officers' insurance policies, and (ii) Spectra Energy's existing fiduciary liability insurance policies, in each case for a claims reporting or discovery period of six years from and after the Effective Time (the **tail period**) from one or more insurance carriers with the same or better credit rating as Spectra Energy's insurance carrier as of September 5, 2016 with respect to directors' and officers' liability insurance and fiduciary liability insurance (collectively referred to herein as **D&O insurance**) with terms, conditions, retentions and limits of liability that are at least as favorable to the insureds as Spectra Energy's existing policies with respect to matters existing or occurring at or prior to the Effective Time (including in connection with the Merger Agreement or the transactions or actions contemplated thereby). If Spectra Energy and the surviving corporation for any reason fail to obtain such tail insurance policies as of the Effective Time, the Surviving Corporation will, and Enbridge will cause the Surviving Corporation to, continue to maintain in effect for the tail period the D&O insurance in place as of September 5, 2016 with terms, conditions, retentions and limits of liability that are at least as favorable to the insureds as provided in Spectra Energy's policies as of September 5, 2016, or the Surviving Corporation will, and Enbridge will cause the Surviving Corporation to, purchase comparable D&O insurance for the tail period with terms, conditions, retentions and limits of liability that are at least as favorable as provided in Spectra Energy's existing policies as of September 5, 2016. However, the Merger Agreement provides that in no event will the aggregate cost of the D&O insurance exceed during the tail period 300% of the current aggregate annual premium paid by Spectra Energy for such purpose, and if the cost of such insurance coverage exceeds such amount, the Surviving Corporation will obtain a policy with the greatest coverage available for a cost not exceeding such amount.

If Enbridge or the Surviving Corporation or any of their respective successors or assigns (i) consolidates with or merges into any other corporation or entity and will not be the continuing or surviving corporation or entity of such consolidation or merger or (ii) transfers all or substantially all of its properties and assets to any individual, corporation or other entity, then, and in each such case, proper provisions will be made so that the successors and assigns of Enbridge or the Surviving Corporation will assume all of the indemnification and directors' and officers' insurance obligations under the Merger Agreement.

The rights of the indemnified parties under the Merger Agreement are in addition to any rights such indemnified parties may have under the certificate of incorporation, by-laws or comparable governing documents of Spectra Energy or any of its subsidiaries, or under any applicable contracts or laws. All rights to indemnification and

exculpation from liabilities for acts or omissions occurring at or prior to the Effective Time and rights to advancement of expenses relating thereto now existing in favor of any indemnified party as provided in the certificate of incorporation, by-laws or comparable governing documents of Spectra Energy and its subsidiaries or any indemnification agreement between such indemnified party and Spectra Energy or any of its subsidiaries, in each case, as in effect on September 5, 2016, will survive the Merger and the other transactions contemplated by the Merger Agreement unchanged and will not be amended, repealed or otherwise modified in any manner that would adversely affect any right thereunder of any such indemnified party.

Each of the indemnified parties will have the right to enforce the provisions of the Merger Agreement relating to their indemnification as third party beneficiaries of such provisions.

Other Covenants and Agreements

Enbridge and Spectra Energy have agreed in the Merger Agreement to various other covenants and agreements regarding various matters, including:

cooperation between Enbridge and Spectra Energy in the preparation and filing of the proxy statement/prospectus and this Management Information Circular and coordination of the Enbridge Special Meeting and the Spectra Energy Special Meeting;

the use of reasonable best efforts by Spectra Energy to commence consent solicitations to the holders of certain outstanding indebtedness to waive any applicable change in control provisions, defaults or other covenants that would apply in connection with, or otherwise restrict the ability of the parties to complete, the Merger, or make offers to purchase or redeem to satisfy and discharge such outstanding indebtedness on the terms and conditions specified by Enbridge;

access by each party to certain information about the other party during the period prior to the Effective Time and agreement to keep information exchanged confidential;

the use of best efforts by Enbridge to cause the Enbridge Common Shares that are to be issued in the Merger to be listed on the NYSE and the TSX, subject to official notice of issuance;

taking reasonably necessary or advisable steps to cause any dispositions of Enbridge and Spectra Energy equity securities, and acquisitions of Enbridge equity securities, pursuant to the transactions contemplated by the Merger Agreement by each individual who is subject to the reporting requirements of Section 16(a) of the U.S. Exchange Act to be exempt under Rule 16b-3 promulgated under the U.S. Exchange Act;

Spectra Energy giving Enbridge the opportunity to participate in the defense or settlement of any shareholder litigation brought against Spectra Energy or the Spectra Energy board of directors relating to the Merger or the transactions contemplated by the Merger Agreement;

Enbridge taking all actions necessary to cause Gregory L. Ebel (or, to the extent Gregory L. Ebel is no longer available to serve as non-executive Chairman of the Enbridge board of directors, such other designee as selected by Spectra Energy and approved by Enbridge to serve as non-executive Chairman of the Enbridge board of directors) to become the non-executive Chairman of the Enbridge board of directors effective as of the Effective Time and to hold such position until the termination of the 2020 annual Enbridge Shareholders meeting;

Enbridge taking all actions necessary to amend and restate, in accordance with the Canada Corporations Act, the by-laws of Enbridge as set forth in Exhibit A to the Merger Agreement and submit the By-law Amendment Resolution to the Enbridge Shareholders at the Enbridge Special Meeting for approval in accordance with the Canada Corporations Act, with such By-law Amendment to be effective as of the Effective Time;

General Obligations

As a general matter, each of Enbridge and Spectra Energy has agreed to cooperate with the other and use (and to cause its subsidiaries to use) its reasonable best efforts to:

take or cause to be taken all actions, and do or cause to be done all things, necessary, proper or advisable to cause the conditions to the completion of the Merger to be satisfied as promptly as reasonably practicable (and in any event no later than 5:00 p.m. Eastern Time on March 31, 2017 (subject to

extension by either party to December 29, 2017 in specified circumstances)) and to complete and make effective the Merger and the other transactions contemplated by the Merger Agreement as soon as reasonably practicable;

if agreed to by Enbridge and Spectra Energy, acting jointly and in good faith, obtain all necessary consents, approvals or waivers from third parties.

Further, each of Enbridge and Spectra Energy has agreed to use (and to cause its respective subsidiaries to use) its best efforts to (i) cooperate in all respects with each other in connection with any filing or submission with a governmental entity in connection with the Merger and the other transactions contemplated by the Merger Agreement and in connection with any investigation or other inquiry by or before a governmental entity relating to the Merger or the other transactions contemplated by the Merger Agreement, including any proceeding initiated by a private party, (ii) promptly inform the other parties of (and supply to the other parties) any communication received by such party from, or given by such party to, the FTC, the DOJ, the Canadian Competition Bureau, or any other governmental entity and of any material communication received or given in connection with any proceeding by a private party, in each case regarding the Merger or any of the other transactions contemplated by the Merger Agreement, (iii) permit the other party to review in advance and give reasonable consideration to the other party's comments in any communication to be given by it to any governmental entity with respect to obtaining any clearances required under any antitrust law in connection with the Merger or the other transactions contemplated by the Merger Agreement and (iv) consult with the other party in advance of any meeting or teleconference with any governmental entity or, in connection with any proceeding by a private party, with any other person, and, to the extent not prohibited by the governmental entity or other person, give the other party the opportunity to attend and participate in such meetings and teleconferences. Enbridge will have the right to devise and implement the strategy and timing for obtaining any clearances required under any antitrust law and to take the lead in all meetings and communications with any governmental entity in connection with obtaining such clearances, and in doing so, Enbridge is required to consult in advance with Spectra Energy and in good faith take Spectra Energy's views into account regarding the overall strategy and timing.

Antitrust Approvals

In furtherance of the efforts described above, Enbridge and Spectra Energy have agreed to make appropriate submissions and filings of notification and report forms pursuant to the HSR Act and the Competition Act (Canada) with respect to the Merger as promptly as practicable and in any event within 25 business days of the date of the Merger Agreement, unless otherwise agreed in writing. Enbridge and Spectra Energy have further agreed to supply as promptly as practicable any additional information and documentary material that may be requested by any governmental entity pursuant to the HSR Act, the Competition Act (Canada), or any other antitrust law and to use its best efforts to take, or cause to be taken (including by their respective subsidiaries), all other actions consistent with their obligations under the Merger Agreement necessary to cause the expiration or termination of the applicable waiting periods under the HSR Act and to obtain clearance under the Competition Act (Canada) as soon as reasonably practicable (and in any event no later than March 31, 2017 (subject to extension by either party to December 29, 2017 in specified circumstances)).

Enbridge (including on behalf of its subsidiaries) has agreed to take any and all steps and to make any and all undertakings necessary to resolve objections, if any, that a governmental entity may assert under any antitrust law with respect to the Merger or the other transactions contemplated by the Merger Agreement, and to avoid or eliminate each and every impediment under any antitrust law that may be asserted by any governmental entity with respect to the Merger or the other transactions contemplated by the Merger Agreement, in each case, so as to enable the completion of the Merger to occur as promptly as reasonably practicable (and in any event no later than March 31, 2017 (subject to extension by either party to December 29, 2017 in specified circumstances)) including, without limitation:

proposing, negotiating, committing to and effecting, by consent decree, consent agreement, hold separate order or otherwise, the sale, divestiture or disposition of any businesses, assets, equity interests, product lines or properties of Enbridge or Spectra Energy or any of their respective subsidiaries or any equity interest in any joint venture held by Enbridge or Spectra Energy or any of their respective subsidiaries;

Table of Contents

creating, terminating, or divesting relationships, ventures, contractual rights or obligations of Enbridge or Spectra Energy or any of their respective subsidiaries; and

otherwise taking or committing to take any action that would limit Enbridge's freedom of action with respect to, or its ability to retain or hold, directly or indirectly, any businesses, assets, equity interests, product lines or properties of Spectra Energy or Enbridge or any of their respective subsidiaries or any equity interest in any joint venture held by Spectra Energy or Enbridge or any of their respective subsidiaries,

in each case as may be required in order to obtain all approvals, consents, clearances, expirations or terminations of waiting periods, registrations, permits, authorizations and other confirmations required directly or indirectly under any antitrust law or to avoid the commencement of any action to prohibit the Merger or the other transactions contemplated by the Merger Agreement under any antitrust law or to avoid the entry of, or to effect the dissolution of, any injunction, temporary restraining order or other order in any action or proceeding seeking to prohibit the Merger or the other transactions contemplated by the Merger Agreement or delay the closing beyond March 31, 2017 (subject to extension by either party to December 29, 2017 in specified circumstances).

To assist Enbridge in complying with the above obligations, Spectra Energy has agreed to, and to cause its subsidiaries to, enter into one or more agreements (a **divestiture agreement**) requested by Enbridge to be entered into by any of them prior to the Effective Time with respect to any transaction to divest, hold separate or otherwise take any action that limits Spectra Energy's or its subsidiaries' freedom of action, ownership or control with respect to, or their ability to retain or hold, directly or indirectly, any of the businesses, assets, equity interests, product lines or properties of Spectra Energy or any of its subsidiaries or any equity interest in any joint venture held by Spectra Energy or any of its subsidiaries.

Certain Limitations on Spectra Energy's and Enbridge's Obligations to Obtain Antitrust Approvals

Nothing contained in the Merger Agreement will be deemed to require Spectra Energy to divest, hold separate or otherwise take any action (a **divestiture action**) that limits Spectra Energy's or its subsidiaries' freedom of action, ownership or control with respect to, or their ability to retain or hold, directly or indirectly, any of the businesses, assets, equity interests, product lines or properties of Spectra Energy or any of its subsidiaries or any equity interest in any joint venture held by Spectra Energy or any of its subsidiaries unless (i) the completion of such transactions provided for in any such divestiture agreement is conditioned upon the closing or satisfaction of all of the conditions to closing in a case where the closing will occur immediately following such divestiture action (and where Enbridge has irrevocably committed to effect the closing immediately following such divestiture action) and (ii) Enbridge will indemnify and hold Spectra Energy and its subsidiaries harmless from all costs, expenses and liabilities incurred by Spectra Energy or its subsidiaries arising from or relating to such divestiture agreement (other than any of the foregoing arising from the breach by Spectra Energy or any applicable subsidiary of such divestiture agreement).

Further, nothing contained in the Merger Agreement requires Enbridge or Spectra Energy to take, or cause to be taken, and neither Enbridge nor Spectra Energy will be required to take, or cause to be taken, any divestiture action with respect to all or part of the Enbridge Canadian Mainline System, the Enbridge U.S. Mainline System or the Texas Eastern Transmission pipeline, respectively.

CFIUS Clearance

CFIUS Clearance means that any of the following will have occurred: (i) the 30 day review period under the DPA commencing on the date that the CFIUS Notice is accepted by CFIUS has expired and the parties to the Merger

Agreement have received written notice from CFIUS that such review has been concluded and that either the transactions contemplated by the Merger Agreement do not constitute a covered transaction under the DPA or there are no unresolved national security concerns; (ii) an investigation has been commenced after such 30 day review period and CFIUS has determined to conclude all deliberative action under the DPA without sending a

report to the President of the United States, and the parties to the Merger Agreement have received written notice from CFIUS that either the transactions contemplated by the Merger Agreement do not constitute a covered transaction under the DPA or there are no unresolved national security concerns, and all action under the DPA has concluded with respect to the transactions contemplated by the Merger Agreement; or (iii) CFIUS has sent a report to the President of the United States requesting the President's decision and either (A) the period under the DPA during which the President may announce his decision to take action to suspend, prohibit or place any limitations on the transactions contemplated by the Merger Agreement has expired without any such action being threatened, announced or taken or (B) the President has announced a decision not to take any action to suspend, prohibit or place any limitations on the transactions contemplated by the Merger Agreement.

Enbridge and Spectra Energy have also agreed to use reasonable best efforts to obtain the CFIUS Clearance. Such reasonable best efforts include (i) submitting the draft and final joint voluntary notice with CFIUS in accordance with the requirements of the DPA and within the time limits agreed among the parties, (ii) providing any information requested by CFIUS or any other agency or branch of the U.S. government in connection with the CFIUS review in accordance with the time periods required by applicable law without the need to request an extension of time, (iii) cooperating in all respects and consulting with each other in connection with the CFIUS Notice, (iv) promptly informing each other of any communication received from or given to CFIUS and providing copies, (v) permitting each other to review in advance any communication to be given to CFIUS and (vi) allowing each other to participate in telephone calls and meetings with CFIUS, in each case, subject to certain confidentiality exceptions as required by law. Neither Enbridge nor Spectra Energy will take or permit any of its subsidiaries or affiliates to take any action that would reasonably be expected to prevent, materially delay or materially impede the receipt of the CFIUS Clearance.

that the right to terminate the Merger Agreement due to a failure to complete the Merger by the outside date will not be available to any party if the failure of such party (and in the case of Enbridge, Merger Sub) to perform any of its obligations under the Merger Agreement has been a principal cause of or resulted in the failure of the Merger to be completed on or before such date;

if (i) the requisite Spectra Energy stockholder vote is not obtained at the Spectra Energy Special Meeting or at any adjournment or postponement thereof in accordance with the Merger Agreement, or (ii) the requisite Enbridge Shareholder vote is not obtained at the Enbridge Special Meeting or at any adjournment or postponement thereof in accordance with the Merger Agreement; or

Enbridge or Merger Sub has become untrue, in each case such that the conditions to the obligations of Spectra Energy to complete the Merger would not be satisfied as a result of such breach or failure to be true and correct (and such breach or failure to be true and correct is not curable prior to the outside date, or if curable prior to the outside date, has not been cured within the earlier of (x) 60 days after the giving of notice thereof by Spectra Energy to the breaching party or (y) the outside date); however, the right to terminate the Merger Agreement due to such a breach will not be available to Spectra Energy if the occurrence of the failure of a condition to the completion of the Merger resulted from a material breach of the Merger Agreement by Spectra Energy; or

Effect of Termination

Except as described in the below section entitled *The Merger Agreement - Termination of the Merger Agreement - Termination Fees*, if the Merger Agreement is terminated in accordance with its terms, there will be no liability on the part of Enbridge, Spectra Energy or Merger Sub, except (i) certain provisions of the Merger Agreement will survive such termination, including those relating to fees associated with consent solicitations and debt offers by Spectra Energy in connection with the Merger, expenses, the effect of termination of the Merger Agreement, the Confidentiality Agreement and miscellaneous provisions relating to amendments, governing law, waiver of jury trial, specific performance, etc., and (ii) in the case of an intentional and willful material breach of the Merger Agreement.

Termination Fees

Spectra Energy has agreed to pay a termination fee of US\$1.0 billion (the **Spectra Energy termination fee**) to Enbridge if:

all of the following occur: (i) the Merger Agreement is terminated by Spectra Energy or Enbridge because the requisite Spectra Energy stockholder vote is not obtained at the Spectra Energy Special Meeting or at any adjournment or postponement thereof in accordance with the Merger Agreement, (ii) a *bona fide* acquisition proposal involving Spectra Energy has been publicly announced (and such acquisition proposal has not been publicly withdrawn) after the date of the Merger Agreement and prior to the date of the Spectra Energy Special Meeting and (iii) within 12 months after such termination,

(1) Spectra Energy or any of its subsidiaries enters into an alternative acquisition agreement to complete an acquisition proposal, and such acquisition proposal is thereafter completed, or (2) an acquisition proposal is otherwise completed with respect to Spectra Energy or any of its subsidiaries within 12 months of such termination (for these purposes, 50% being substituted in lieu of 15% in each instance in the definition of acquisition proposal and the definition of acquisition proposal also including specified acquisitions by Spectra Energy or any of its subsidiaries in which Spectra Energy stockholders immediately prior to the completion of such transaction own (beneficially or of record), in the aggregate, less than 65% of the common equity of Spectra Energy or the ultimate parent company resulting from such transaction); or

the Merger Agreement is terminated by Enbridge because the Spectra Energy board of directors failed to include the Spectra Energy board recommendation in the proxy statement/prospectus that is filed and mailed by Spectra Energy to Spectra Energy stockholders, made a change of recommendation or failed to recommend, within 10 business days after the commencement of a tender or exchange offer for outstanding shares of Spectra Energy common stock (other than by Enbridge or an affiliate of Enbridge), against acceptance of such tender offer or exchange offer by its stockholders.

Spectra Energy has agreed to reimburse Enbridge for reasonable and documented out-of-pocket expenses of Enbridge and Merger Sub in connection with the Merger Agreement subject to a cap of US\$100 million if the Merger Agreement is terminated by Spectra Energy or Enbridge because the requisite Spectra Energy stockholder vote is not obtained at the Spectra Energy Special Meeting or at any adjournment or postponement thereof in accordance with the Merger Agreement. If an expense reimbursement is paid by Spectra Energy and the Spectra Energy termination fee subsequently becomes due, then the amount of the Spectra Energy termination fee will be reduced by the amount of the expense reimbursement Spectra Energy previously paid to Enbridge.

Enbridge has agreed to pay a termination fee of \$1.75 billion (the **Enbridge termination fee**) to Spectra Energy if:

all of the following occur (i) the Merger Agreement is terminated by Spectra Energy or Enbridge because the requisite Enbridge Shareholder vote is not obtained at the Enbridge Special Meeting or at any adjournment or postponement thereof in accordance with the Merger Agreement, (ii) a *bona fide* acquisition proposal involving Enbridge has been publicly announced (and such acquisition proposal has not been publicly withdrawn) after the date of the Merger Agreement and prior to the date of the Enbridge Special Meeting, and (iii) within 12 months after such termination, (1) Enbridge or any of its subsidiaries will have entered into an alternative acquisition agreement to complete an acquisition proposal, and such acquisition proposal is thereafter completed, or (2) an acquisition proposal is otherwise completed with respect to Enbridge or any of its subsidiaries within 12 months of such termination (for these purposes, 50% being substituted in lieu of 15% in each instance in the definition of acquisition proposal and the definition of acquisition proposal also including specified acquisitions by Enbridge or any of its subsidiaries in which the shareholders of Enbridge immediately prior to the completion of such transaction own (beneficially or of record), in the aggregate, less than 65% of the common equity of Enbridge or the ultimate parent company resulting from such transaction); or

the Merger Agreement is terminated by Spectra Energy because the Enbridge board of directors failed to include the Enbridge board recommendation in this Management Information Circular that is filed and mailed by Enbridge to Enbridge Shareholders, made a change of recommendation or failed to recommend, within 10 business days after the commencement of a tender or exchange offer pursuant to Rule 14d-2 under the U.S. Exchange Act or applicable Canadian securities laws for outstanding Enbridge Common Shares, against acceptance of such tender offer or exchange offer by its shareholders.

Enbridge has agreed to reimburse Spectra Energy for reasonable and documented out-of-pocket expenses of Spectra Energy in connection with the Merger Agreement subject to a cap of US\$100 million if the Merger Agreement is terminated by Spectra Energy or Enbridge because the requisite Enbridge Shareholder vote is not obtained at the Enbridge Special Meeting or at any adjournment or postponement thereof in accordance with the Merger Agreement. If an expense reimbursement is paid by Enbridge and the Enbridge termination fee subsequently becomes due, then the amount of the Enbridge termination fee will be reduced by the amount of the expense reimbursement Enbridge previously paid to Spectra Energy.

Modification, Amendment or Waiver

At any time prior to the Effective Time, subject to specified provisions relating to indemnification of directors and officers, the Merger Agreement may be amended, modified or waived if, and only if, such amendment, modification or waiver is in writing and signed, in the case of an amendment or modification, by Enbridge, Merger Sub and Spectra Energy, or in the case of a waiver, by the party against whom the waiver is to be effective.

Specific Performance; Remedies

If for any reason any of the provisions of the Merger Agreement are not performed in accordance with their specific terms or are otherwise breached, Spectra Energy, Enbridge and Merger Sub have agreed, pursuant to the terms of the Merger Agreement, that, in addition to any other available remedies in equity or at law, each party to the Merger Agreement will be entitled to enforce specifically the terms and provisions of the Merger Agreement and to obtain an injunction restraining any breach or violation or threatened breach or violation of the provisions of the Merger Agreement in the Court of Chancery of the State of Delaware without necessity of posting a bond or other form of security. In the event that any action or proceeding is brought in equity to enforce the provisions of the Merger Agreement, Spectra Energy, Enbridge and Merger Sub have agreed, pursuant to the terms of the Merger Agreement, that they will not allege, and that they have waived the defense, that there is an adequate remedy at law.

Governing Law

The Merger Agreement is governed by the law of the State of Delaware without regard to the conflict of law principles thereof to the extent that such principles would direct a matter to another jurisdiction.

Pursuant to the Merger Agreement, Enbridge agreed to combine with Spectra Energy through a merger of Merger Sub with and into Spectra Energy. Based on the consideration calculation prescribed in the Merger Agreement, the estimated price for the acquisition of Spectra Energy is approximately \$38.3 billion based on the closing price of the Enbridge Common Shares on November 4, 2016. Notes to the *Pro Forma* Condensed Consolidated Financial Statements (unaudited)

1. Basis of Presentation

The accompanying unaudited *pro forma* condensed consolidated financial statements give effect to the Merger using the acquisition method of accounting, with Enbridge as the acquirer and Spectra Energy as the acquiree. These unaudited *pro forma* condensed consolidated financial statements have been prepared by Enbridge's management and are derived from the following (each of which is either incorporated by reference into this Management Information Circular or attached as Schedule A and Schedule B to *Appendix F Information Concerning Spectra Energy Corp*):

the audited amended consolidated financial statements of Enbridge for the year ended December 31, 2015;

the audited consolidated financial statements of Spectra Energy for the year ended December 31, 2015;

the unaudited interim consolidated financial statements of Enbridge for the nine months ended September 30, 2016; and

the unaudited condensed consolidated financial statements of Spectra Energy for the nine months ended September 30, 2016.

The unaudited *pro forma* condensed consolidated financial statements utilize accounting policies that are consistent with those disclosed in Enbridge's amended audited financial statements for the year ended December 31, 2015 which were prepared in accordance with U.S. GAAP. Amounts in these notes to the *pro forma* condensed consolidated financial statements are stated in Canadian dollars, unless otherwise indicated. References to U.S. dollars and US\$ are to lawful currency of the U.S.

Based on the consideration calculation prescribed in the Merger Agreement, the estimated price for acquisition of Spectra Energy is approximately \$38.3 billion (Note 3(a)) based on the closing price of the Enbridge Common Shares on November 4, 2016.

The unaudited *pro forma* condensed statement of financial position has been prepared to give effect to the Merger as if it occurred on September 30, 2016. The unaudited *pro forma* condensed consolidated statements of earnings for the year ended December 31, 2015 and for the nine months ended September 30, 2016 have been prepared to give effect to the Merger as if it occurred on January 1, 2015.

The unaudited *pro forma* condensed consolidated financial statements should be read in conjunction with the description of the Merger contained in this Management Information Circular; the audited amended consolidated financial statements of Enbridge for the year ended December 31, 2015, including the notes thereto, and the unaudited interim consolidated financial statements of Enbridge for the nine months ended September 30, 2016 both incorporated by reference in this Management Information Circular; and the audited consolidated financial statements of Spectra Energy for the year ended December 31, 2015, including the notes thereto, and the unaudited condensed consolidated financial statements of Spectra Energy for the nine months ended September 30, 2016 attached as

Schedule A and Schedule B to *Appendix F Information Concerning Spectra Energy Corp* . The underlying assumptions for the *pro forma* adjustments provide a reasonable basis for presenting the significant financial effects directly attributable to the Merger.

These *pro forma* adjustments are preliminary and are based on currently available financial information and certain estimates and assumptions. The actual adjustments to the consolidated financial statements will depend on a number of factors. Therefore, it is expected that the actual adjustments will differ from the *pro forma* adjustments, and the differences may be material. The accompanying unaudited *pro forma* condensed consolidated financial statements may not be indicative of the results that would have been achieved if the transactions reflected therein had been completed on the dates indicated or the results which may be obtained in

Table of Contents

the future. For instance, the actual purchase price equation will reflect the fair value, at the purchase date, of consideration transferred and the assets acquired and liabilities assumed based upon Enbridge's evaluation of such assets and liabilities following the completion of the Merger. Accordingly, the final purchase price equation, as it relates principally to goodwill, may differ materially from the preliminary purchase price equation reflected herein.

2. Description of the Transaction

Pursuant to the Merger Agreement, Spectra Energy will become a direct wholly owned subsidiary of Enbridge, through a merger of Merger Sub with and into Spectra Energy. Completion of the Merger is subject to the conditions contained in the Merger Agreement and described in this Management Information Circular. Enbridge expects the Merger to close in the first quarter of 2017; however, due to many factors, the expected closing date is subject to change.

The estimated purchase price, including the total estimated fair value of Spectra Energy's outstanding earned stock compensation awards, but excluding estimated acquisition costs, and based on the closing price of the Enbridge Common Shares on November 4, 2016 will be approximately \$38.3 billion (Note 3(a)). The unaudited *pro forma* condensed consolidated financial statements assume that, at closing, the Merger and related expenses will be financed through the issuance of Enbridge Common Shares with a value of \$38.1 billion (Note 3(c)) and existing cash on hand or other sources available to Enbridge, if needed. These funding sources will ensure sufficient liquidity to complete the Merger. Enbridge also estimates that there will be no material costs incurred in connection with issuing the Enbridge Common Shares.

3. Pro Forma Assumptions and Adjustments**(a) Purchase Price and Financing Structure**

The following is the estimated purchase price, estimated funding requirements and assumed financing structure for the Merger. These estimates have been reflected in the accompanying unaudited *pro forma* condensed consolidated financial statements.

The final purchase price and resulting goodwill may also vary based on the market price of the Enbridge Common Shares at the time the Merger is completed. In preparing the unaudited *pro forma* condensed consolidated financial statements, Enbridge estimated the purchase price associated with the Enbridge Common Share consideration based on Spectra Energy's outstanding 701.1 million shares of common stock exchangeable for the Enbridge Common Shares in connection with the Merger at an Exchange Ratio of 0.984, using the closing price of the Enbridge Common Shares on the NYSE on November 4, 2016 of U.S.\$41.18 and the foreign exchange rate of \$1.341 which was in effect on that date, yielding a price of \$55.22 per Enbridge Common Share.

Table of Contents

Enbridge believes that a 10% fluctuation in such market price provides a reasonable basis of illustrating the potential impact on the estimated purchase price and goodwill, as follows:

<i>(unaudited; millions of Canadian dollars)</i>	Estimated Purchase Price	Estimated Goodwill
As presented in Note 3(b)	38,252	33,798
10% increase in Enbridge common share price	42,066	37,612
10% decrease in Enbridge common share price	34,441	29,987

(b) Estimated Purchase Price Equation

The estimated purchase price equation is comprised of the estimated fair values of Spectra Energy's net assets acquired and liabilities assumed as at September 30, 2016 in accordance with the acquisition method, as follows:

<i>(unaudited; millions of Canadian dollars, unless otherwise noted)</i>	Spectra Energy US\$	Spectra Energy Note 3(h)	Purchase Price Adjustment	Estimated Fair Value

Net assets	7,468	9,795	(5,341)	4,454
Estimated Purchase Price				38,252
Goodwill				33,798

Under the acquisition method, the acquired tangible and intangible assets and assumed liabilities of the acquiree are primarily measured at their estimated fair value at the date of acquisition. The excess of the purchase price over the

preliminary estimated fair value of net assets acquired is classified as goodwill on the accompanying unaudited *pro forma* condensed consolidated statement of financial position. Such goodwill will not be amortized but will be evaluated for impairment on, at least, an annual basis. Factors that contributed to the goodwill include the opportunity to expand Enbridge's natural gas pipelines segment, the potential for cost and supply chain optimization synergies, existing assembled assets and work force that cannot be duplicated at the same cost by a new entrant, franchise rights and other intangibles not separately identifiable because they are inextricably linked to the provision of regulated utility service and the enhanced scale and geographic diversity which provides greater optionality and platforms for future growth.

The estimated fair values and useful lives of assets acquired and liabilities assumed are based on preliminary management estimates and are subject to final valuation adjustments which may cause some of the amounts ultimately recorded as goodwill to be materially different from those shown on the unaudited *pro forma* condensed consolidated statement of financial position. The acquisition accounting is dependent upon certain valuations and other studies that have yet to progress to a stage where there is sufficient information for definitive measurement. Enbridge intends to complete the valuations and other studies upon the completion of the combination as soon as practicable within the measurement period in accordance with Accounting Standards Codification 805, *Business Combinations*, and no later than one year following the Closing Date.

Table of Contents

Approximately 85% of Spectra Energy's assets are in rate-regulated entities located within the United States, Ontario, Canada, and Western Canada. A general description of such assets is provided in *Appendix F Information Concerning Spectra Energy Corp.* The U.S. regulated entities provide natural gas transportation and storage services that are subject to regulation by the FERC. Spectra Energy provides natural gas storage transmission and distribution services in Ontario, Canada through its subsidiary, Union Gas. Union Gas is subject to regulation by the OEB. Additionally, Spectra Energy's Western Canada regulated entities provide natural gas transmission and processing services that are subject to regulation by the NEB. The determination of revenues and earnings for Spectra Energy's regulated entities is based on regulated rates of return that are applied to historic values. Therefore, no fair value adjustments to Spectra Energy's property, plant and equipment and intangible assets have been recognized because all of the economic benefits and obligations associated with regulated assets beyond regulated thresholds accrue to Spectra Energy's customers. Consequently, it is Enbridge's best estimate that the fair value of Spectra Energy's property, plant and equipment and intangible assets in rate-regulated entities is their carrying amount. To illustrate the sensitivity of any increases in the fair value of the property, plant and equipment, Enbridge has determined that an increase in the fair value of property, plant and equipment of \$500 million with an annual depreciation rate ranging from 2% to 5% will increase the annual depreciation expense in a range of \$10 million to \$25 million (\$6 million to \$15 million after-tax).

Long-term debt (excluding the current portion) has an estimated fair value of \$19,102 million, or an increase of \$1,927 million over historic values. This fair value adjustment reflects the current underlying Government of Canada and United States Treasury interest rates on the corresponding bonds, as well as an implied credit spread based on current market conditions. Enbridge has recorded a regulatory offset of \$868 million recorded in deferred amounts and other assets for the portion of the fair value adjustment to long-term debt held within regulated operations. Enbridge views the regulatory offset upon consummation of the acquisition as a proxy for the regulatory asset that would be recorded in the event such debt was extinguished at an amount higher than the carrying value. Enbridge considered the authorized rate structure, for the rate treatment of debt and interest costs by the FERC, the OEB and the NEB which are based on the actual cost of the regulated entities borrowings in computing the overall rate of return to support that the premium paid upon extinguishment is probable of recovery and therefore giving rise to the regulatory offset. These fair value adjustments to long-term debt and regulatory offset would result in a net corresponding deferred income tax asset of approximately \$362 million based on Enbridge's statutory income tax rates as discussed in Note 3(e). The amortization of these fair value adjustments over the term of the long-term debt of approximately 10 years would result in an annual reduction of interest expense of \$106 million (\$72 million after-tax). For the nine month period ended September 30, 2016, the interest expense would reduce by \$80 million (\$54 million after-tax).

The fair value of Spectra Energy's noncontrolling interests of \$4,123 million is based on the approximately 74 million SEP common units outstanding to the public and valued at SEP's November 4, 2016 closing price of U.S.\$41.48 per common unit. The final fair value of noncontrolling interests will be based on the number of SEP's common units outstanding and the price of SEP common units as of the closing date.

The preliminary estimates used to prepare the *pro forma* information presented will be updated after the closing of the Merger, based upon management's final analysis.

(c) Issuance of Share Capital

As a consideration for the Merger, Enbridge will issue Enbridge Common Shares with a value of \$38.1 billion as of November 4, 2016, comprising approximately 690 million Enbridge Common Shares at \$55.22 per common share based on the Exchange Ratio. No adjustment has been made for any dividend equivalent payments that may be made in accordance with the Merger Agreement given such amounts will depend on the number and amount of any such

payments.

(d) Merger Costs

Merger costs are estimated at approximately \$254 million (\$220 million after-tax). Merger costs are composed of estimated investment banking, accounting, legal and other costs associated with the completion of the Merger. These costs have been included as a *pro forma* adjustment to retained earnings on the unaudited

Table of Contents

pro forma condensed consolidated statement of financial position as opposed to being reflected in the unaudited *pro forma* condensed consolidated statements of earnings on the basis that these expenses are directly attributable to the acquisition of Spectra Energy and are non-recurring in nature. Merger costs of \$27 million (\$23 million after tax) were incurred during the nine month period ended September 30, 2016, and have therefore been excluded from the unaudited *pro forma* condensed consolidated statements of earnings for that period.

(e) Income Taxes

For the purpose of the accompanying unaudited *pro forma* condensed consolidated financial statements including *pro forma* adjustments, average statutory Canadian and U.S. income tax rates of 27% and 39%, respectively, have been applied. The deferred income tax asset and liability is the cumulative amount of tax applicable to temporary differences between the accounting and tax values of assets and liabilities. Deferred income tax assets and liabilities are measured at the tax rates expected to apply when these differences reverse.

(f) Spectra Energy's Historical Equity

The historical equity of Spectra Energy, which includes common shares, additional paid-in capital, retained earnings and accumulated other comprehensive income has been eliminated.

(g) Earnings Per Common Share

Earnings per common share is calculated by dividing earnings attributable to common shareholders by the weighted average number of common shares outstanding. The calculation of the *pro forma* earnings per common share for the year ended December 31, 2015 and for the nine months ended September 30, 2016 reflects the assumed issuance of approximately 690 million Enbridge Common Shares, as if the issuance had taken place on January 1, 2015 to finance the acquisition. The weighted average number of common shares outstanding has been reduced by Enbridge's *pro-rata* weighted average interest in its own common shares of 12 million for the year ended December 31, 2015 and 13 million for the nine months ended September 30, 2016, resulting from Enbridge's reciprocal investment in Noverco Inc.

The basic and diluted weighted average number of common shares outstanding for each of the *pro forma* reporting periods is as follows:

<i>(unaudited; Canadian dollars; number of shares in millions)</i>	For the year ended December 31, 2015	For the nine months ended September 30, 2016
Earnings per common share	0.19	1.41
Diluted earnings per common share	0.18	1.40
Shares outstanding		
Weighted average shares outstanding	847	905
Assumed issuance of common shares	690	690

<i>Pro forma</i> weighted average shares outstanding	1,537	1,595
Effect of dilutive options	11	8
<i>Pro forma</i> diluted weighted average shares outstanding	1,548	1,603

(h) Foreign Exchange Translation

The assets and liabilities of Spectra Energy, which has a US\$ reporting and functional currency, are translated at the exchange rate of \$1.312 which was in effect as at September 30, 2016. Revenues and expenses in Spectra Energy's statements of earnings are translated to Canadian dollars at the average exchange rates of \$1.279 for the year ended December 31, 2015 and \$1.322 for the nine months ended September 30, 2016.

1.8. Canadian Offer.

(a) Parent shall, concurrently with the mailing of the Proxy/Prospectus, make an offer (the **Parent Canadian Offer**) to each holder of one or more shares of Company Common Stock who is:

(i) a resident of Canada for the purposes of the *Income Tax Act (Canada)* (the **ITA**); or

(ii) a partnership at least one partner of which is a resident of Canada for the purposes of the ITA;

(each a **Canadian Company Shareholder**) to purchase, subject to the consummation of the Merger, all of such shares held by each Canadian Company Shareholder in consideration for the Merger Consideration, determined in accordance with Article II assuming such shares of Company Common Stock had been owned by the Canadian Company Shareholder at the Effective Time. Subject to satisfaction or waiver of all conditions (other than those relating to the Parent Canadian Offer and those that by their nature are to be satisfied at the Closing, but subject to the satisfaction or waiver of those conditions) pursuant to this Agreement, each purchase of shares of Company Common Stock from a Canadian Company Shareholder who validly tenders his, her or its shares of Company Common Stock to Parent pursuant to the Parent Canadian Offer will be completed immediately prior to the Effective Time.

(b) Any Canadian Company Shareholder who accepts the Parent Canadian Offer not later than three Business Days prior to the Closing Date in accordance with its terms and conditions shall be entitled to make an income tax election, pursuant to subsection 85(1) or 85(2) of the ITA, as applicable (and the analogous provisions of provincial or territorial income tax law) with respect to the transfer by the Canadian Company Shareholder of shares of Company Common Stock to Parent if such Canadian Company Shareholder delivers to Parent, in accordance with instructions to be set out on Parent's website not later than the date of the Company Stockholders Meeting, duly completed election forms required by the Canadian Company Shareholder to make the joint election pursuant to subsection 85(1) or 85(2) of the ITA, as applicable (and the analogous provisions of provincial or territorial income tax law) complete with the details of the number of shares of Company Common Stock transferred and the applicable agreed amount or amounts for the purposes of such election or elections. Parent will not execute or file any election that is received by Parent more than 60 days after the Closing Date. If Parent receives a properly completed election within 60 days of the Closing Date, Parent will sign and forward such election to the Canada Revenue Agency and any applicable provincial or territorial taxation authority on or before the date that is 90 days following the Closing Date. Parent, the Company or any nominee thereof will not be responsible for the proper completion of any election, except for the obligation of Parent to sign and forward to the Canada Revenue Agency (and any applicable provincial or territorial taxation authority) a duly completed election that is received by Parent within 60 days of the Closing Date. Parent, the Company or any nominee thereof will not be responsible or liable for taxes, interest, penalties, damages or expenses resulting from the failure by anyone to properly complete any election.

(c) The Proxy/Prospectus shall include instructions detailing how Canadian Company Shareholders can accept the Parent Canadian Offer and the terms and conditions of the Parent Canadian Offer. Parent and the Company shall, in good faith, jointly prepare such instructions and terms and conditions (which terms and conditions shall be customary for a transaction such as the Parent Canadian Offer).

ARTICLE II

Merger Consideration: Effect of the Merger on Capital Stock

2.1. **Merger Consideration: Conversion of Shares of Company Common Stock**. At the Effective Time, as a result of the Merger and without any action on the part of the Parties or any holder of any capital stock of the Company, each share of Company Common Stock issued and outstanding immediately prior to the Effective Time other than Excluded Shares (such shares of Company Common Stock, the **Eligible Shares**) shall automatically be converted into, and become exchangeable for, 0.984 (the **Exchange Ratio**) of a validly issued, fully paid and non-assessable share of Parent Common Stock (the **Merger Consideration**).

2.2. **Conversion of Shares of Company Common Stock**. As a result of the Merger and without any action on the part of the Parties or any holder of any capital stock of the Company, as of the Effective Time, all of the Eligible Shares shall represent the right to receive the Merger Consideration pursuant to this Article II shall cease to be outstanding, shall be cancelled and shall cease to exist, and each certificate formerly representing any of the Eligible Shares (each, a **Certificate**) and each book-entry account formerly representing any non-certificated Eligible Shares (each, a **Book-Entry Share**) shall thereafter represent only the right to receive the Merger Consideration and the right, if any, to receive pursuant to Section 3.5 cash in lieu of fractional shares into which such Eligible Shares have been converted pursuant to Section 2.1 and any dividends or other distributions pursuant to Section 3.3.

2.3. **Cancellation of Excluded Shares**. Each Excluded Share (other than Excluded Shares held by Parent) shall, as a result of the Merger and without any action on the part of the holder of such Excluded Share, as of the Effective Time, cease to be outstanding, be cancelled without payment of any consideration therefor and shall cease to exist. Each Excluded Share held by Parent shall, as a result of the Merger, become and be converted into one share of common stock, par value \$0.001 per share, of the Surviving Corporation.

2.4. **Merger Sub: Surviving Corporation**.

(a) At the Effective Time, the shares of common stock, par value \$0.001 per share, of Merger Sub issued and outstanding immediately prior to the Effective Time shall be converted into shares of preferred stock, par value \$0.001 per share, of the Surviving Corporation having an aggregate redemption amount and fair market value equal to the aggregate fair market value of the converted Merger Sub shares.

(b) In consideration for the issuance by Parent of the Merger Consideration, the Surviving Corporation shall, at the Effective Time, issue to Parent that number of shares of common stock, par value \$0.001 per share, of the Surviving Corporation equal to the number of shares of Company Common Stock converted into the right to receive the Merger Consideration pursuant to Section 2.2.

(c) Parent and Merger Sub shall take all actions necessary so that, prior to the Effective Time, the authorized share capital of Merger Sub shall consist of 1,000,000,000 shares of common stock, par value \$0.001 per share, and 1,000 shares of preferred stock, par value \$0.001 per share.

2.5. **Treatment of Stock Plans**.

(a) **Treatment of Options**. At the Effective Time, each outstanding option to purchase shares of Company Common Stock (a **Company Option**) under the Stock Plans of the Company, whether vested or unvested, shall, automatically and without any action on the part of the holder thereof, cease to represent an option to purchase shares of Company Common Stock and shall be converted into an option to purchase a number of shares of Parent Common Stock (a

Parent Option) equal to the product (rounded down to the nearest whole number) of (i) the number of shares of Company Common Stock subject to such Company Option immediately prior to the Effective Time and (ii) the Exchange Ratio, at an exercise price per share (rounded up to the nearest

whole cent) equal to (A) the exercise price per share of Company Common Stock of such Company Option immediately prior to the Effective Time divided by (B) the Exchange Ratio; provided, however, that the exercise price and the number of shares of Parent Common Stock purchasable pursuant to the Company Options shall be determined in a manner consistent with the requirements of Section 409A of the Code; and provided, further, that in the case of any Company Option to which Section 422 of the Code applies, the exercise price and the number of shares of Parent Common Stock purchasable pursuant to such option shall be determined in accordance with the foregoing, subject to such adjustments as are necessary in order to satisfy the requirements of Section 424(a) of the Code, and, in the case of a Company Option that is held by a person who is subject to section 7 of the ITA in respect of the Company Option, the exercise price of a Parent Option shall be further adjusted in such manner so as to meet the requirements necessary to qualify for a tax-deferred exchange of Company Options pursuant to subsection 7(1.4) of the ITA. Except as specifically provided above, following the Effective Time, each Company Option that has converted into a Parent Option shall continue to be governed by the same terms and conditions (including vesting and exercisability terms) as were applicable to such Company Option immediately prior to the Effective Time.

(b) Company Phantom Units. At the Effective Time, each outstanding phantom unit denominated in shares of Company Common Stock (a Company Phantom Unit) under the Stock Plans of the Company, whether vested or unvested, shall, automatically and without any action on the part of the holder thereof, cease to represent a phantom unit denominated in shares of Company Common Stock and shall be adjusted to represent a phantom unit denominated in shares of Parent Common Stock (a Parent Phantom Unit). The number of shares of Parent Common Stock subject to each such Parent Phantom Unit shall be equal to the product (rounded down to the nearest whole number) of (i) the number of shares of Company Common Stock subject to such Company Phantom Unit immediately prior to the Effective Time multiplied by (ii) the Exchange Ratio. Except as specifically provided above, following the Effective Time, each such Parent Phantom Unit shall continue to be governed by the same terms and conditions (including vesting terms) as were applicable to the applicable Company Phantom Unit immediately prior to the Effective Time.

(c) Company PSUs.

(i) At the Effective Time, each outstanding performance stock unit denominated in shares of Company Common Stock (a Company PSU) under the Stock Plans of the Company granted after December 31, 2015, shall, automatically and without any action on the part of the holder thereof, cease to represent a performance stock unit denominated in shares of Company Common Stock and shall be adjusted to represent a service-based stock unit denominated in shares of Parent Common Stock (a Parent Stock-Based RSU). The number of shares of Parent Common Stock subject to each such Parent Stock-Based RSU shall be equal to the product (rounded down to the nearest whole number) of (A) the number of shares of Company Common Stock subject to such Company PSU immediately prior to the Effective Time (with any performance-based vesting conditions deemed satisfied based on actual performance through the Effective Time as provided in the applicable award agreement) multiplied by (B) the Exchange Ratio. Except as specifically provided above, following the Effective Time, each such Parent Stock-Based RSU shall continue to be governed by the same terms and conditions (including service vesting terms, but excluding any performance vesting terms) as were applicable to the applicable Company PSU immediately prior to the Effective Time.

(ii) At the Effective Time, each outstanding Company PSU under the Stock Plans of the Company granted in 2014 or 2015, shall, automatically and without any action on the part of the holder thereof, be cancelled and converted into the right to receive a number of shares of Parent Common Stock equal to the product (rounded down to the nearest whole number) of (A) the number of shares of Company Common Stock subject to such Company PSU immediately prior to the Effective Time determined in accordance with the immediately following sentence multiplied by (B) the Exchange Ratio, together with a cash payment equal to the amount of any dividend equivalents accrued with respect to such

Company PSU. For purposes of the immediately preceding sentence, the number of shares of Company Common Stock subject to such Company PSU shall be determined, (1) for any Company PSU granted in 2014, assuming a vesting percentage of 100%, and (2) for any Company

PSU granted in 2015, with the vesting percentage determined as set forth in Section 2(a) of the applicable award agreement (except that performance shall be based upon the Company's total shareholder return relative to the total shareholder return of the peer group for the period beginning on January 1, 2015, and ending on the date on which the Effective Time occurs as required by Section 2(c) of the applicable award agreement). Parent shall provide the consideration described in this Section 2.5(c)(ii) within ten Business Days following the Closing Date, less applicable withholdings.

(d) **Company Other Awards**. At the Effective Time, each right of any kind, contingent or accrued, to acquire or receive shares of Company Common Stock or benefits measured by the value of shares of Company Common Stock, and each award of any kind consisting of shares of Company Common Stock that may be held, awarded, outstanding, payable or reserved for issuance under the Stock Plans of the Company and any other Benefit Plans of the Company, other than Company Options, Company Phantom Units and Company PSUs (a **Company Other Award**), shall, automatically and without any action on the part of the holder thereof, be deemed to be adjusted to represent the right to acquire or receive benefits measured by the value of (as applicable) the number of shares of Parent Common Stock equal to the product (rounded down to the nearest whole number) of (i) the number of shares of Company Common Stock subject to the Company Other Award immediately prior to the Effective Time and (ii) the Exchange Ratio, and to the extent such Company Other Award provides for payments to the extent the value of the shares of Company Common Stock exceed a specified reference price, at a reference price per share (rounded to the nearest whole cent) equal to (A) the reference price per share of Company Common Stock of such Company Other Award immediately prior to the Effective Time divided by (B) the Exchange Ratio. Except as specifically provided above, following the Effective Time, each such right shall continue to be governed by the same terms and conditions (including, as applicable, vesting and exercisability terms) as were applicable to the rights under the relevant Stock Plan or other Benefit Plan of the Company immediately prior to the Effective Time.

(e) **Company Actions**. At or prior to the Effective Time, the Company and the Company Board (and/or the Compensation Committee thereof), as applicable, shall adopt any resolutions and take any actions that are necessary to effectuate the treatment of the Company Options, Company Phantom Units, Company PSUs and Company Other Awards (the **Company Equity Awards**) pursuant to Sections 2.5(a) through 2.5(d).

(f) **Parent Actions**. Parent shall take all actions that are necessary for the assumption of the Company Equity Awards pursuant to Sections 2.5(a), (b), (c) and (d) including the reservation, issuance (subject to Section 2.5(e)) and listing of Parent Common Stock as necessary to effect the transactions contemplated by this Section 2.5. If registration of any plan interests in the Stock Plans or other Benefit Plans of the Company or the shares of Parent Common Stock issuable thereunder is required under the Securities Act of 1933, as amended (the **Securities Act**), Parent shall file with the U.S. Securities and Exchange Commission (the **SEC**) on the Closing Date a registration statement on Form S-8 (or such other appropriate form) with respect to such interests or Parent Common Stock, and shall use its reasonable best efforts to maintain the effectiveness of such registration statement (and maintain the current status of the prospectus or prospectuses contained therein) for so long as the relevant Stock Plans or other Benefit Plans of the Company, as applicable, remain in effect and such registration of interests therein or the shares of Parent Common Stock issuable thereunder continues to be required. As soon as reasonably practicable after the registration of such interests or shares, as applicable, appropriate notices shall be given to the holders of Company Equity Awards setting forth such holders' rights pursuant to the respective Stock Plans, other Benefit Plans and agreements evidencing the grants of such Company Equity Awards, and stating that such Company Equity Awards and agreements have been assumed by Parent and shall continue in effect on the same terms and conditions (subject to the adjustments required by this Section 2.5 after giving effect to the Merger and the terms of the Stock Plans).

2.6. **Tax Consequences of the Merger**. It is intended that, for U.S. federal income tax purposes, the Merger shall (i) qualify as a reorganization within the meaning of Section 368(a) of the Code, and (ii) not result in gain being

recognized pursuant to Section 367(a)(1) of the Code by Persons who are stockholders of the Company immediately prior to the Effective Time (other than any such stockholder that would be a five-percent transferee

shareholder (within the meaning of Treasury Regulations Section 1.367(a)-3(c)(5)(ii)) of Parent following the Merger that does not enter into a five-year gain recognition agreement in the form provided in Treasury Regulations Section 1.367(a)-8), and that this Agreement is intended to be and is adopted as a plan of reorganization for the purposes of Sections 354 and 361 of the Code.

ARTICLE III

Delivery of Merger Consideration: Procedures for Surrender

3.1. **Exchange Agent**. Prior to the Effective Time, Parent shall deposit or cause to be deposited with a nationally recognized financial institution or trust company selected by Parent with the Company's prior approval (which approval shall not be unreasonably withheld, conditioned or delayed) to serve as the exchange agent (the **Exchange Agent**), for the benefit of the holders of shares of Company Common Stock tendered in the Canadian Offer and Eligible Shares, (a) an aggregate number of shares of Parent Common Stock to be issued in uncertificated form or book-entry form comprising the amounts required to be delivered in respect of shares of Company Common Stock pursuant to Section 1.8 and Section 2.1, and (b) an aggregate amount of cash comprising approximately the amount required to be delivered pursuant to Section 3.5. In addition, Parent shall deposit or cause to be deposited with the Exchange Agent, as necessary from time to time after the Effective Time, any dividends or other distributions, if any, to which the holders of Eligible Shares may be entitled pursuant to Section 3.3 with both a record and payment date after the Effective Time and prior to the surrender of such Eligible Shares. Such shares of Parent Common Stock, cash in lieu of any fractional shares payable pursuant to Section 3.5 and the amount of any dividends or other distributions deposited with the Exchange Agent pursuant to this Section 3.1 are referred to collectively in this Agreement as the **Exchange Fund**. The Exchange Fund shall not be used for any purpose other than for the purpose expressly provided for in this Agreement. The cash portion of the Exchange Fund shall be invested by the Exchange Agent as reasonably directed by Parent. Any interest and other income resulting from such investment shall become a part of the Exchange Fund, and any amounts in excess of the amounts payable pursuant to this Agreement shall be promptly returned to Parent. To the extent there are losses with respect to such investments, or the Exchange Fund diminishes for other reasons below the level required to fully satisfy all of the payment obligations to be made in cash by the Exchange Agent hereunder, Parent shall promptly replace or restore the cash in the Exchange Fund so that the Exchange Fund is at all times maintained at a level sufficient for the Exchange Agent to fully satisfy such cash payment obligations. No investment losses resulting from investment of the Exchange Fund shall diminish the rights of any former holder of Eligible Shares to receive the Merger Consideration as provided in this Agreement.

3.2. **Procedures for Surrender**.

(a) Promptly after the Effective Time (and in any event within three Business Days thereafter), the Surviving Corporation shall cause the Exchange Agent to mail to each holder of record of Eligible Shares that are (i) Certificates or (ii) Book-Entry Shares notice advising such holders of the effectiveness of the Merger, including (A) appropriate transmittal materials specifying that delivery shall be effected, and risk of loss and title to the Certificates or Book-Entry Shares shall pass only upon delivery of the Certificates (or affidavits of loss in lieu of the Certificates, as provided in Section 3.7) or transfer of the Book-Entry Shares to the Exchange Agent (including customary provisions with respect to delivery of an agent's message with respect to Book-Entry Shares), such materials to be in such form and have such other provisions as Parent desires with approval of the Company (such approval not to be unreasonably withheld, conditioned or delayed) (the **Letter of Transmittal**), and (B) instructions for surrendering the Certificates (or affidavits of loss in lieu of the Certificates, as provided in Section 3.7) or transferring the Book-Entry Shares to the Exchange Agent in exchange for the Merger Consideration, cash in lieu of fractional shares of Parent Common Stock, if any, to be issued or paid in consideration therefor, and any dividends or distributions, in each case, to which such holders are entitled pursuant to the terms of this Agreement. With respect to Book-Entry Shares, Parent and the

Company

shall cooperate to establish procedures with the Exchange Agent and the holders of Book-Entry Shares to ensure that the Exchange Agent will transmit to such holder or its nominees on the Closing Date (or if the Closing occurs after 11:30 a.m. (New York time) on the Closing Date, on the first Business Day after the Closing Date), upon surrender of Eligible Shares held of record by such holder or its nominees in accordance with customary surrender procedures, the Merger Consideration, cash in lieu of fractional shares of Parent Common Stock, if any, to be issued or paid in consideration therefor, and any dividends or distributions, in each case, to which the beneficial owners thereof are entitled pursuant to the terms of this Agreement.

(b) Upon surrender to the Exchange Agent of Eligible Shares that are Certificates, by physical surrender of such Certificate (or affidavit of loss in lieu of a Certificate, as provided in Section 3.7) or that are Book-Entry Shares, by book-receipt of an agent's message by the Exchange Agent in connection with the transfer of Book-Entry Shares, in accordance with the terms of the Letter of Transmittal and accompanying instructions or, with respect to Book-Entry Shares, in accordance with customary procedures and such other procedures as agreed by the Company, Parent, and the Exchange Agent, the holder of such Certificate or Book-Entry Share shall be entitled to receive in exchange therefor (i) that number of whole shares of Parent Common Stock that such holder is entitled to receive pursuant to Section 2.1 and (ii) an amount (if any) in immediately available funds (or, if no wire transfer instructions are provided, a check, and in each case, after giving effect to any required Tax withholdings as provided in Section 3.8) of (A) any cash in lieu of fractional shares payable pursuant to Section 3.5 *plus* (B) any unpaid non-stock dividends and any other dividends or other distributions that such holder has the right to receive pursuant to the provisions of this Article III.

(c) No interest will be paid or accrued on any amount payable upon due surrender of Eligible Shares, and any Certificate or ledger entry relating to Book-Entry Shares formerly representing shares of Company Common Stock that have been so surrendered shall be cancelled by the Exchange Agent.

(d) In the event of a transfer of ownership of certificated Eligible Shares that is not registered in the transfer records of the Company, the proper number of shares of Parent Common Stock, together with an amount (if any) in immediately available funds (or, if no wire transfer instructions are provided, a check, and in each case, after giving effect to any required Tax withholdings as provided in Section 3.8) of cash to be paid upon due surrender of the Certificate and any dividends or distributions in respect thereof, may be issued or paid to such a transferee if the Certificate formerly representing such Eligible Shares is presented to the Exchange Agent, accompanied by all documents required to evidence and effect such transfer and to evidence that any applicable stock transfer Taxes have been paid or are not applicable, in each case, in form and substance, reasonably satisfactory to the Exchange Agent. Payment of the applicable Merger Consideration with respect to Book-Entry Shares shall only be made to the Person in whose name such Book-Entry Shares are registered in the stock transfer books of the Company. Until surrendered as contemplated by this Section 3.2, each Certificate and Book-Entry Share shall be deemed at any time after the Effective Time to represent only the right to receive the Merger Consideration in accordance with this Article III, including any amount payable in lieu of fractional shares in accordance with Section 3.5, and any dividends or other distributions on Parent Common Stock in accordance with Section 3.3, in each case without interest.

3.3. Distributions with Respect to Unexchanged Shares of Company Common Stock; Voting. All shares of Parent Common Stock to be issued pursuant to the Merger shall be deemed issued and outstanding as of the Effective Time and whenever a dividend or other distribution is declared by Parent in respect of the Parent Common Stock, the record date for which is at or after the Effective Time, that declaration shall include dividends or other distributions in respect of all shares issuable pursuant to this Agreement. No dividends or other distributions in respect of the Parent Common Stock shall be paid to any holder of any unsurrendered Eligible Share until the Certificate (or affidavit of loss in lieu of the Certificate as provided in Section 3.7) or Book-Entry Share is surrendered for exchange in accordance with this Article III. Subject to the effect of applicable Laws, following such surrender, there shall be issued or paid to the holder of record of the whole shares of Parent Common Stock issued in exchange for Eligible Shares in accordance

with this Article III, without interest, (a) at the time of such surrender, the dividends or other distributions with a record date after the

A-8

Effective Time theretofore payable with respect to such whole shares of Parent Common Stock and not paid and (b) at the appropriate payment date, the dividends or other distributions payable with respect to such whole shares of Parent Common Stock with a record date after the Effective Time but with a payment date subsequent to surrender.

3.4. **Transfers.** From and after the Effective Time, there shall be no transfers on the stock transfer books of the Company of the shares of Company Common Stock that were outstanding immediately prior to the Effective Time. From and after the Effective Time, the holders of Certificates or Book-Entry Shares outstanding immediately prior to the Effective Time shall cease to have any rights with respect to such shares of Company Common Stock except as otherwise provided in this Agreement or by applicable Law. If, after the Effective Time, Certificates or Book-Entry Shares are presented to the Surviving Corporation for any reason, they shall be cancelled and exchanged as provided in this Agreement.

3.5. **Fractional Shares.** Notwithstanding any other provision of this Agreement, no fractional shares of Parent Common Stock will be issued upon the conversion of shares of Company Common Stock pursuant to Section 2.1. All fractional shares of Parent Common Stock that a holder of Eligible Shares would be otherwise entitled to receive pursuant to Section 2.1 shall be aggregated and rounded to three decimal places. Any holder of Eligible Shares otherwise entitled to receive a fractional share of Parent Common Stock but for this Section 3.5 shall be entitled to receive a cash payment, without interest, in lieu of any fractional share, which payment shall be calculated by the Exchange Agent and shall represent such holder's proportionate interest in a share of Parent Common Stock based on the Average Parent Stock Price. No holder of Eligible Shares shall be entitled by virtue of the right to receive cash in lieu of fractional shares of Parent Common Stock described in this Section 3.5 to any dividends, voting rights or any other rights in respect of any fractional share of Parent Common Stock. The payment of cash in lieu of fractional shares of Parent Common Stock is not a separately bargained-for consideration and solely represents a mechanical rounding-off of the fractions in the exchange.

3.6. **Termination of Exchange Fund.** Any portion of the Exchange Fund (including the proceeds of any investments of the Exchange Fund and any shares of Parent Common Stock) that remains unclaimed by one year after the Effective Time shall be delivered to Parent. Any holder of Eligible Shares who has not theretofore complied with this Article III shall thereafter look only to Parent for delivery of any shares of Parent Common Stock of such stockholders and any payment of cash and any dividends and other distributions in respect thereof payable or issuable pursuant to Section 2.1, Section 3.3 and Section 3.5, in each case, without any interest thereon. Notwithstanding the foregoing, none of the Surviving Corporation, Parent, the Exchange Agent or any other Person shall be liable to any former holder of shares of Company Common Stock for any amount properly delivered to a public official pursuant to applicable abandoned property, escheat or similar Laws. Any portion of the Exchange Fund which remains undistributed to the holders of Eligible Shares immediately prior to the time at which the Exchange Fund would otherwise escheat to, or become property of, any Governmental Entity, shall, to the extent permitted by Law, become the property of Parent, free and clear of all claims or interest of any Person previously entitled thereto.

(c) Notwithstanding anything to the contrary in this Agreement, a Party's obligations under Section 6.1(a) to take an action or not to take an action, or to cause its Subsidiaries to take an action or not to take an action, shall, with respect to any entities (and their respective subsidiaries) controlled by such Party, or in which such Party otherwise has a voting interest, but that are not wholly owned Subsidiaries of such Party or have public equity holders, only apply (i) to the extent permitted by the organizational documents and governance arrangements of such entity and its subsidiaries, (ii) to the extent a Party is authorized and empowered to bind such entity and its subsidiaries and (iii) to the extent permitted by the Party's or its Subsidiaries' duties (fiduciary or otherwise) to such entity and its subsidiaries or any of its equity holders.

(d) Nothing contained in this Agreement shall give Parent or the Company, directly or indirectly, the right to control or direct the other Party's operations prior to the Effective Time. Prior to the Effective Time, each Party will exercise, consistent with the terms and conditions of this Agreement, complete control and supervision over its and its Subsidiaries' respective operations. Nothing in this Agreement, including any of the actions, rights or restrictions set forth in this Agreement, will be interpreted in such a way as to require compliance by any Party if such compliance would result in the violation of any rule, regulation or policy of any federal, state, provincial, local or foreign court or Governmental Entity with jurisdiction over enforcement of any Antitrust Laws (any such Governmental Entity, a **Governmental Antitrust Entity**) or applicable Law.

6.2. Acquisition Proposals; Change of Recommendation.

(a) At all times during the period commencing with the execution and delivery of this Agreement and continuing until the earlier to occur of the termination of this Agreement pursuant to Article VIII and the Effective Time, except as expressly permitted by this Section 6.2, the Company and Parent each shall not, and none of its respective Subsidiaries nor any of its respective directors and officers shall, and the Company and Parent shall each instruct its and its Subsidiaries' investment bankers, attorneys, accountants and other advisors or representatives (such directors, officers, employees, investment bankers, attorneys, accountants and other advisors or representatives, collectively, **Representatives**) not to, directly or indirectly:

(ii) engage in, continue or otherwise participate in any discussions with or negotiations relating to any Acquisition Proposal or any inquiry, proposal or offer that would reasonably be expected to lead to an Acquisition Proposal (other than to state that the terms of this provision prohibit such discussions); or

(iii) provide any non-public information to any Person in connection with any Acquisition Proposal or any proposal or offer that would reasonably be expected to lead to an Acquisition Proposal.

(b) Notwithstanding anything to the contrary in Section 6.2(a) or Section 6.2(g), prior to the time, but not after, in the case of the Company, the Requisite Company Vote is obtained or, in the case of Parent, the Requisite Parent Vote is obtained, in response to an unsolicited, *bona fide* written Acquisition Proposal (that did not result from such Party's breach of Section 6.2(a) in any material respect), the Company (including its Subsidiaries and their respective directors, officers and Representatives) or Parent (including its Subsidiaries and their respective directors, officers and Representatives), as applicable, may:

(i) contact such Person or group of Persons solely to clarify the terms and conditions thereof;

(ii) provide information in response to a general or specific request therefor (including non-public information regarding it or any of its Subsidiaries) to the Person who made such Acquisition Proposal, provided that such non-public information has previously been made available to, or is made available to, Parent or the Company, as applicable, prior to or concurrently with the time such non-public information is made available to such Person and that, prior to furnishing any such non-public information, the Company or Parent, as applicable, receives from the Person making such Acquisition Proposal an executed confidentiality agreement with terms not less restrictive in the aggregate to the other Party than the terms in the Confidentiality Agreement are on Parent or the Company, as applicable (it being understood that such confidentiality agreement need not prohibit the making or amending of an Acquisition Proposal); and

(iii) engage or participate in any discussions or negotiations with any such Person regarding such Acquisition Proposal;

only if, prior to taking any action described in clause (ii) or (iii) above, the Company Board or the Parent Board, as applicable, determines in good faith after consultation with outside legal counsel that (A) based on the information then available and after consultation with its financial advisor, that such Acquisition Proposal either constitutes a Superior Proposal or could reasonably be expected to result in a Superior Proposal and (B) the failure to take such action could be inconsistent with the directors' fiduciary duties under applicable Law.

(c) The Company and Parent each shall promptly (and, in any event, within 24 hours) give notice to the other Party if (i) any inquiries, proposals or offers constituting an Acquisition Proposal are received by the Company or Parent (as applicable), (ii) any initial request for information in connection with any Acquisition Proposal received by the Company or Parent (as applicable), or (iii) any initial request for discussions or negotiations with respect to an Acquisition Proposal is received by the Company or Parent, as applicable, setting forth in such notice the name of such Person and the material terms and conditions of any proposals or offers (including, if applicable, complete copies of any written requests, proposals or offers, including proposed agreements), and thereafter shall keep the other Party reasonably informed, on a reasonably current basis of the status and material terms of any such proposals or offers (including any amendments thereto) and the status of any such discussions or negotiations, including any material change in its intentions as previously notified.

(d) Except as permitted by Section 6.2(e) and Section 6.2(f), the Parent Board (including any committee thereof) or the Company Board (including any committee thereof), as applicable, shall not:

(i) withhold, withdraw, qualify or modify (or publicly propose or resolve to withhold, withdraw, qualify or modify) the Company Recommendation or the Parent Recommendation, as applicable, with respect to the Merger in a manner adverse to Parent or the Company, as applicable; or

(ii) approve, adopt or recommend, or publicly declare advisable or publicly propose to enter into, any letter of intent, memorandum of understanding, agreement in principle, acquisition agreement, merger agreement, option agreement, joint venture agreement, partnership agreement or other agreement (other than a confidentiality agreement referred to in Section 6.2(b) entered into in compliance with Section 6.2(b)) relating to any Acquisition Proposal (an **Alternative Acquisition Agreement**), and any of the actions set forth in the foregoing clause (i) and this clause (ii), a **Change of Recommendation**).

(e) Notwithstanding anything to the contrary set forth in this Agreement, prior to the time, in the case of the Company, the Requisite Company Vote is obtained or, in the case of Parent, the Requisite Parent Vote is obtained, the Company Board or the Parent Board, as applicable, may effect a Change of Recommendation if the Company Board or the Parent Board, as applicable, determines in good faith, after consultation with outside counsel and its financial advisor and in compliance with this Section 6.2, that, as a result of a Superior Proposal or an Intervening Event, failure to take such action could be inconsistent with the directors' fiduciary duties under applicable Law; **provided, however**, that a Change of Recommendation in response to a Superior Proposal or Intervening Event, as applicable, may not be made unless and until the Company or Parent, as applicable, has given Parent or the Company, as applicable, written notice of such action four Business Days in advance, such notice to comply in form, substance and delivery with the provisions of Section 6.2(c) and Section 9.6 of this Agreement, setting forth in writing that the Company Board or the Parent Board, as applicable, intends to consider whether to take such action and the basis therefor. After giving such notice and prior to effecting such Change of Recommendation in connection with a Superior Proposal or Intervening Event, as applicable, the Company or Parent, as applicable, shall afford the other Party the opportunity to negotiate during such four Business Day period with Parent or the Company, as applicable (to the extent Parent or the Company, as applicable, wishes to negotiate) to enable such Party to propose revisions to the terms of this Agreement as would permit the Company Board or the Parent Board, as applicable, not to effect a Change of Recommendation in connection with a Superior Proposal or Intervening Event, as applicable. At the end of such four Business Day period, prior to taking action to effect a Change of Recommendation in response to a Superior Proposal or an Intervening Event, as applicable, the Company Board or Parent Board, as applicable, shall take into account any changes to the terms of this Agreement proposed by Parent or the Company, as applicable, in writing in response to such notice, and shall have determined in good faith, after consultation with its outside legal counsel, that the Superior Proposal or Intervening Event, as applicable, would continue to constitute a Superior Proposal or Intervening Event, as applicable, if the changes to the terms of this Agreement offered in writing (if any) were to be given effect and that the failure to take such action could be inconsistent with the directors' fiduciary duties under applicable Law. Any material amendment to any Acquisition Proposal (including any change in the amount or form of consideration) will be deemed to be a new Acquisition Proposal for purposes of Section 6.2(c) and this Section 6.2(e), except that references to four Business Days shall be deemed to be references to three Business Days (**provided** that the initial notice period provided for above shall not be less than four Business Days).

(f) Nothing contained in this Section 6.2 shall prohibit the Company or Parent, or any of their respective Subsidiaries or Representatives, from complying with their respective disclosure obligations under applicable Law; **provided, however**, that if such disclosure has the substantive effect of withdrawing or adversely modifying the Company Recommendation or the Parent Recommendation, as applicable, such disclosure shall be deemed to be a Change of Recommendation and Parent or the Company, as applicable, shall have the option to terminate this Agreement as set forth in Section 8.1(f) or Section 8.1(g), as applicable; it being understood that a "stop, look and listen" or similar communication of the type contemplated by Rule 14d-9(f) under the Exchange Act or any statement that the Company has received a proposal and is considering such proposal shall not be deemed to be a Change of Recommendation.

(g) Further to Section 6.2(a), the Company and Parent shall each promptly end any existing discussions and negotiations conducted heretofore with any Person with respect to any Acquisition Proposal, or proposal or transaction that would reasonably be expected to lead to an Acquisition Proposal. Further, the Company and Parent

shall each promptly terminate any physical and electronic data access previously granted to such Persons

and request that any such Persons promptly return or destroy all confidential information concerning the Company and its Subsidiaries or Parent and its Subsidiaries, as applicable.

(h) During the period commencing with the execution and delivery of this Agreement and continuing until the earlier to occur of the termination of this Agreement pursuant to Article VIII and the Effective Time, each of the Company and Parent shall not terminate, amend, modify or waive any provision of any confidentiality, standstill or similar agreement to which it or any of its Subsidiaries is a party and shall enforce, to the fullest extent permitted under applicable Law, the provisions of any such agreement, including by obtaining injunctions to prevent any breaches of such agreements and to enforce specifically the terms and provisions thereof; provided that if the Company Board or Parent Board determines in good faith, after consultation with its outside legal counsel that the failure to take such action would reasonably be likely to be inconsistent with the Company Board's or Parent Board's, as applicable, fiduciary duties under applicable Law, the Company or Parent, as applicable, may waive any such standstill provision solely to the extent necessary to permit a third party to make, on a confidential basis to the Company Board or Parent Board, as applicable, an Acquisition Proposal; provided that the waiving Party promptly advises the other Party that it is taking such action. Each Party represents and warrants to the other Parties that it has not taken any action that (i) would be prohibited by this Section 6.2(h) or (ii) but for the ability to take actions to avoid a potential breach of the Company Board's or Parent Board's, as applicable, fiduciary duties would have been prohibited by this Section 6.2(h), during the 60 days prior to the date of this Agreement.

6.3. Proxy/Prospectus Filing; Management Information Circular; Information Supplied.

(a) Parent and the Company shall promptly jointly prepare and file with the SEC a proxy statement relating to the Company Stockholders Meeting and a prospectus that Parent will use in the United States to offer the shares of Parent Common Stock to be issued in connection with the Merger (such proxy statement and prospectus, together with all amendments and supplements thereto, the **Proxy/Prospectus**), and Parent shall prepare and file with the SEC a registration statement on Form F-4 pursuant to which the offer and sale of shares of Parent Common Stock to be issued in connection with the Merger will be registered pursuant to the Securities Act and which will include the Proxy/Prospectus as a part thereof (such registration statement, together with all amendments and supplements thereto, the **Registration Statement**) as promptly as practicable and in no event later than 20 Business Days after the date hereof (provided, that no Party shall be in breach of this timing obligation to the extent the delay is the result of an inability, after reasonable best efforts, to prepare required pro forma financial statements). Parent and the Company each shall use its reasonable best efforts to respond promptly to comments from the SEC and have the Registration Statement declared effective under the Securities Act as promptly as practicable after such filing, to maintain such effectiveness for as long as necessary to consummate the Merger and the other transactions contemplated by this Agreement, and to promptly thereafter mail the Proxy/Prospectus to the stockholders of the Company. Parent shall also use its reasonable best efforts to satisfy, prior to the effective date of the Registration Statement, all necessary state securities Law or blue sky notice requirements in connection with the Merger and to consummate the other transactions contemplated by this Agreement.

(b) Parent shall prepare and, concurrently with the mailing of the Proxy/Prospectus to the stockholders of the Company, Parent shall (i) file with the Canadian Securities Regulators a management information circular for the purpose of seeking the approval of its shareholders of the issuance of shares of Parent Common Stock in connection with the Merger and the Bylaw Amendment (with, subject to applicable Law, the information contained therein being consistent in all material respects with substantive information contained in the Proxy Statement/Prospectus) (the **Management Information Circular**) and (ii) mail the Management Information Circular to the shareholders of Parent.

(c) Each of the Company and Parent shall promptly notify the other of the receipt of all comments from the SEC and of any request by the SEC for any amendment or supplement to the Registration Statement or the Proxy/Prospectus or for additional information and shall promptly provide to the other copies of all

correspondence between it and/or any of its Representatives and the SEC with respect to the Registration Statement or Proxy/Prospectus.

(d) The Company and Parent will cause the Proxy/Prospectus and Registration Statement to comply as to form in all material respects with the applicable provisions of the Securities Act and the rules and regulations thereunder. Parent will cause the Management Information Circular to comply as to form in all material respects with applicable Law (including Securities Laws).

(e) Each of Parent and the Company will provide their respective legal counsel with a reasonable opportunity to review and comment on drafts of the Proxy/Prospectus, the Management Information Circular, the Registration Statement and other documents related to the Company Stockholders Meeting, the Parent Shareholders Meeting, the issuance of the shares of Parent Common Stock in connection with the Merger and the Bylaw Amendment, prior to filing such documents with the applicable Governmental Entity and mailing such documents to the Company's and Parent's stockholders/shareholders, as applicable. Each Party will include in the Proxy/Prospectus, the Management Information Circular, the Registration Statement and such other documents related to the Company Stockholders Meeting, the Parent Shareholders Meeting or the issuance of the shares of Parent Common Stock in respect of the Merger all comments reasonably and promptly proposed by the other Party or its legal counsel and each agrees that all information relating to Parent and its Subsidiaries included in the Proxy/Prospectus, the Management Information Circular and the Registration Statement shall be in form and content satisfactory to Parent, acting reasonably, and all information relating to the Company and its Subsidiaries included in the Proxy/Prospectus, the Management Information Circular and the Registration Statement shall be in form and content satisfactory to the Company, acting reasonably.

6.4. Stockholders/Shareholders Meetings.

(a) The Company will take, in accordance with applicable Law and its certificate of incorporation and bylaws, all action necessary to convene the Company Stockholders Meeting as promptly as practicable after the Registration Statement is declared effective (and in any event within 35 days thereof), to consider and vote upon the adoption of this Agreement and to cause such vote to be taken; provided that the Company, in reasonable consultation with Parent, may adjourn or postpone the Company Stockholders Meeting to a later date to the extent the Company believes in good faith that such adjournment or postponement is reasonably necessary (i) to ensure that any required supplement or amendment to the Proxy/Prospectus is provided to the holders of Company Common Stock within a reasonable amount of time in advance of the Company Stockholders Meeting, (ii) to allow reasonable additional time to solicit additional proxies necessary to obtain the Requisite Company Vote, (iii) to ensure that there are sufficient shares of Company Common Stock represented (either in person or by proxy) and voting to constitute a quorum necessary to conduct the business of the Company Stockholders Meeting or (iv) to otherwise comply with applicable Law.

(b) Parent will take, in accordance with applicable Law and its articles of incorporation and bylaws, all action necessary to convene the Parent Shareholders Meeting as promptly as practicable after the Registration Statement is declared effective and the Management Information Circular is filed with the Canadian Securities Regulators (and in any event within 35 days thereof) to consider and vote upon the approval of the issuance of shares of Parent Common Stock in connection with the Merger and the Bylaw Amendment and to cause such vote to be taken; provided that Parent, in reasonable consultation with the Company, may adjourn or postpone the Parent Shareholders Meeting to a later date to the extent Parent believes in good faith that such adjournment or postponement is reasonably necessary (i) to ensure that any required supplement or amendment to the Management Information Circular is provided to the holders of Parent Common Stock within a reasonable amount of time in advance of the Parent Shareholders Meeting, (ii) to allow reasonable additional time to solicit additional proxies necessary to obtain the Requisite Parent Vote, (iii) to ensure that there are sufficient shares of Parent Common Stock represented (either in person or by proxy) and

voting to constitute a quorum necessary to conduct the business of the Parent Shareholders Meeting or (iv) to otherwise comply with applicable Law.

Each of the Company and Parent shall take all lawful action to solicit proxies to obtain the Requisite Company Vote and the Requisite Parent Vote. The Company and Parent shall cooperate to schedule and convene such meetings on the same date and time. The Company and Parent each agrees (i) to provide the other reasonably detailed periodic updates concerning proxy solicitation results on a timely basis (including, if requested, promptly providing periodic voting reports) and (ii) to give written notice to the other Party one day prior to the Company Stockholders Meeting or the Parent Shareholders Meeting, as applicable, and on the day of, but prior to the Company Stockholders Meeting or the Parent Shareholders Meeting, as applicable, indicating whether as of such date sufficient proxies representing the Requisite Company Vote or the Requisite Parent Vote, as applicable, appear to have been obtained. Notwithstanding the foregoing, if, on a date that is one Business Day prior to the date the Company Stockholders Meeting or the Parent Shareholders Meeting, as applicable, is scheduled (in either case, the **Original Date**), (A) the Company or Parent, as applicable has not received proxies representing the Requisite Company Vote or the Requisite Parent Vote, as applicable, whether or not a quorum is present or (B) it is necessary to ensure that any supplement or amendment to the Proxy/Prospectus or the Management Information Circular is required to be delivered, Parent and the Company, as applicable, shall, postpone or adjourn, or make one or more successive postponements or adjournments of, the Company Stockholders Meeting or the Parent Shareholders Meeting, as applicable as long as the date of the Company Stockholders Meeting or the Parent Shareholders Meeting, as applicable is not postponed or adjourned more than ten days in connection with any one postponement or adjournment or more than an aggregate of twenty days from the Original Date in reliance on the preceding sentence.

(d) Without limiting the generality of the foregoing, each of the Company and Parent agrees that its obligations to hold the Company Stockholders Meeting and the Parent Shareholders Meeting, as applicable, pursuant to this Section 6.4 shall not be affected by the making of a Change of Recommendation by the Company Board or Parent Board, as applicable, and its obligations pursuant to this Section 6.4 shall not be affected by the commencement of or announcement or disclosure of or communication to the Company or Parent, as applicable, of any Acquisition Proposal or the occurrence or disclosure of an Intervening Event as to the Company or Parent, as applicable, and further, that it shall not take action to terminate this Agreement on the grounds that such Acquisition Proposal is a Superior Proposal or with regards to such Intervening Event until such time as either the Company or Parent, as applicable, may terminate this Agreement pursuant to and in accordance with Section 8.1.

6.5. Approval of Sole Stockholder of Merger Sub. Immediately after the execution of this Agreement, Parent shall execute and deliver, in accordance with applicable Law and its articles of incorporation and bylaws, in its capacity as sole stockholder of Merger Sub, a written consent adopting this Agreement. Such consent shall not be modified or rescinded and Parent shall deliver such consent to the Company promptly upon the execution thereof.

6.6. Cooperation; Efforts to Consummate.

(a) Subject to the terms and conditions of this Agreement (including this Section 6.6), the Company and Parent shall cooperate with each other and use (and shall cause their respective Subsidiaries to use) their respective reasonable best efforts to (i) take or cause to be taken all actions, and do or cause to be done all things, necessary, proper or advisable to cause the conditions to Closing to be satisfied as promptly as reasonably practicable (and in any event no later than the Outside Date) and to consummate and make effective the Merger and the other transactions contemplated by this Agreement as soon as reasonably practicable, including preparing and filing promptly all documentation to effect all necessary notices, notifications, petitions, applications, reports and other filings (including any required or recommended filings under applicable Antitrust Laws), (ii) obtain as promptly as reasonably practicable (and in any event no later than the Outside Date) all consents, clearances, registrations, approvals, expirations or terminations of waiting periods, permits and authorizations necessary or advisable to be obtained from any third party and/or any

Governmental Entity in order to consummate the

Merger or any of the other transactions contemplated by this Agreement, (iii) defend any lawsuits or other legal proceedings, whether judicial or administrative, challenging this Agreement or the consummation of the Merger or any of the other transactions contemplated by this Agreement and (iv) if agreed to by Parent and the Company, acting jointly and in good faith, obtain all necessary consents, approvals or waivers from third parties.

(b) In furtherance and not in limitation of the foregoing, each Party (including on behalf of their respective Subsidiaries) agrees (i) to make appropriate submissions and filings of notification and report forms pursuant to the HSR Act and the Competition Act (Canada) with respect to the Merger as promptly as practicable and in any event within twenty-five (25) Business Days of the date of this Agreement, unless the Parties agree in writing otherwise, and (ii) to supply as promptly as practicable any additional information and documentary material that may be requested by any Governmental Entity pursuant to the HSR Act, the Competition Act (Canada), or any other Antitrust Law and use its best efforts to take, or cause to be taken (including by their respective Subsidiaries), all other actions consistent with this Section 6.6 necessary to cause the expiration or termination of the applicable waiting periods under the HSR Act and to obtain the Competition Act (Canada) Clearance as soon as reasonably practicable (and in any event no later than the Outside Date).

(c) Each Party shall use (and shall cause their respective Subsidiaries to use) its best efforts to (i) cooperate in all respects with each other in connection with any filing or submission with a Governmental Entity in connection with the Merger and the other transactions contemplated by this Agreement and in connection with any investigation or other inquiry by or before a Governmental Entity relating to the Merger or the other transactions contemplated by this Agreement, including any proceeding initiated by a private party, (ii) promptly inform the other Parties of (and supply to the other Parties) any communication received by such Party from, or given by such party to, the Federal Trade Commission, the Antitrust Division of the Department of Justice, the Canadian Competition Bureau, or any other Governmental Entity and of any material communication received or given in connection with any proceeding by a private party, in each case regarding the Merger or any of the other transactions contemplated by this Agreement, (iii) permit the other Party to review in advance and give reasonable consideration to the other Party's comments in any communication to be given by it to any Governmental Entity with respect to obtaining any clearances required under any Antitrust Law in connection with the Merger or the other transactions contemplated by this Agreement and (iv) consult with the other Party in advance of any meeting or teleconference with any Governmental Entity or, in connection with any proceeding by a private party, with any other Person, and, to the extent not prohibited by the Governmental Entity or other Person, give the other Party the opportunity to attend and participate in such meetings and teleconferences. Subject to the obligations in this Section 6.6, Parent shall have the right to devise and implement the strategy and timing for obtaining any clearances required under any Antitrust Law in connection with the Merger or the other transactions contemplated by this Agreement and shall take the lead in all meetings and communications with any Governmental Authority in connection with obtaining such clearances; provided, however, that Parent shall consult in advance with the Company and in good faith take the Company's views into account regarding the overall strategy and timing. The Parties shall take reasonable efforts to share information protected from disclosure under the attorney-client privilege, work product doctrine, joint defense privilege or any other privilege pursuant to this Section 6.6 in a manner so as to preserve the applicable privilege.

(d) Parent (including on behalf of its Subsidiaries) agrees to take, or cause to be taken (including by its Subsidiaries), any and all steps and to make, or cause to be made (including by its Subsidiaries), any and all undertakings necessary to resolve such objections, if any, that a Governmental Entity may assert under any Antitrust Law with respect to the Merger or the other transactions contemplated by this Agreement, and to avoid or eliminate each and every impediment under any Antitrust Law that may be asserted by any Governmental Entity with respect to the Merger or the other transactions contemplated by this Agreement, in each case, so as to enable the Closing to occur as promptly as reasonably practicable and in any event no later than the Outside Date, including, without limitation, (x) proposing, negotiating, committing to and effecting, by consent decree, consent agreement, hold separate order, or otherwise, the

sale, divestiture or disposition of any businesses, assets, equity interests, product lines or properties of Parent or the Company (or any of their respective Subsidiaries) or any equity interest in any joint venture held by Parent or the Company (or any of their respective Subsidiaries),

(y) creating, terminating, or divesting relationships, ventures, contractual rights or obligations of the Company or Parent or their respective Subsidiaries and (z) otherwise taking or committing to take any action that would limit Parent's freedom of action with respect to, or its ability to retain or hold, directly or indirectly, any businesses, assets, equity interests, product lines or properties of Parent or the Company (including any of their respective Subsidiaries) or any equity interest in any joint venture held by Parent or the Company (or any of their respective Subsidiaries), in each case as may be required in order to obtain all approvals, consents, clearances, expirations or terminations of waiting periods, registrations, permits, authorizations and other confirmations required directly or indirectly under any Antitrust Law or to avoid the commencement of any action to prohibit the Merger or the other transactions contemplated by this Agreement under any Antitrust Law, or in the alternative, to avoid the entry of, or to effect the dissolution of, any injunction, temporary restraining order or other order in any action or proceeding seeking to prohibit the Merger or the other transactions contemplated by this Agreement or delay the Closing beyond the Outside Date. To assist Parent in complying with its obligations set forth in this Section 6.6, the Company shall, and shall cause its Subsidiaries to, enter into one or more agreements requested by Parent to be entered into by any of them prior to the Closing with respect to any transaction to divest, hold separate or otherwise take any action that limits the Company's or its Subsidiaries' freedom of action, ownership or control with respect to, or their ability to retain or hold, directly or indirectly, any of the businesses, assets, equity interests, product lines or properties of the Company or any of its Subsidiaries or any equity interest in any joint venture held by the Company or any of its Subsidiaries (each, a **Divestiture Action**); provided, however, that (i) the consummation of the transactions provided for in any such agreement for a Divestiture Action (a **Divestiture Agreement**) shall be conditioned upon the Closing or satisfaction of all of the conditions to Closing in a case where the Closing will occur immediately following such Divestiture Action (and where Parent has irrevocably committed to effect the Closing immediately following such Divestiture Action) and (ii) Parent shall indemnify for and hold the Company and its Subsidiaries harmless from all costs, expenses and liabilities incurred by the Company or its Subsidiaries arising from or relating to such Divestiture Agreement (other than any of the foregoing arising from the breach by the Company or any applicable Subsidiary of such Divestiture Agreement). Notwithstanding anything to the contrary in this Section 6.6, nothing contained in this Agreement requires the Company or Parent to take, or cause to be taken, and neither the Company nor Parent shall be required to take, or cause to be taken, any Divestiture Action with respect to all or part of the Texas Eastern Transmission pipeline, the Enbridge Canadian Mainline System or the Enbridge U.S. Mainline System.

(e) In furtherance and not in limitation of the covenants of the Parties contained in this Section 6.6, if any administrative or judicial action or proceeding, including any proceeding by a private party, is instituted (or threatened or recommended to be instituted) challenging any transaction contemplated by this Agreement as violative of any Antitrust Law, each of the Company and Parent shall use its best efforts to contest and resist any such action or proceeding (or such threat or recommendation) and to have vacated, lifted, reversed or overturned any decree, judgment, injunction or other order, whether temporary, preliminary or permanent, that is in effect and that prohibits, prevents or restricts consummation of the Merger or the other transactions contemplated by this Agreement.

(f) Subject to the terms and conditions set forth in this Agreement, without limiting the generality of the undertakings pursuant to this Section 6.6, each of the Company and Parent agree to use their reasonable best efforts to obtain the CFIUS Clearance. Such reasonable best efforts shall include, promptly after the date hereof, making or causing to be made any draft and final CFIUS Notices required in accordance with 31 C.F.R. Part 800 and the other requirements of the DPA, and after prompt resolution of all questions and comments received from CFIUS on such draft, shall prepare and submit the final CFIUS Notice, which shall in any event be made promptly after the date all questions and comments received from CFIUS on such draft have been resolved or after CFIUS staff shall have indicated to the Parties that it has no questions or comments. Such reasonable best efforts shall also include providing any information requested by CFIUS or any other agency or branch of the U.S. government in connection with the CFIUS review or investigation of the transactions contemplated by this Agreement, within the time periods specified by 31 C.F.R. §800.403(a)(3), or otherwise specified by the CFIUS staff, without the need to request an extension of time. Each of

Parent and the Company shall, in connection with the efforts to obtain the CFIUS Clearance, (i) cooperate in all respects and consult with each other in connection

with the CFIUS Notice, including by allowing the other Party to have a reasonable opportunity to review in advance and comment on drafts of filings and submissions; (ii) promptly inform the other Party of any communication received by such Party from, or given by such Party to, CFIUS, by promptly providing copies to the other Party of any such written communications, except for any exhibits to such communications providing the personal identifying information required by 31 C.F.R. §800.402(c)(6)(vi); and (iii) permit the other Party to review in advance any communication that it gives to, and consult with each other in advance of any meeting, telephone call or conference with CFIUS, and to the extent not prohibited by CFIUS, give the other Party the opportunity to attend and participate in any telephonic conferences or in-person meetings with CFIUS, in each of clauses (i), (ii) and (iii) of this Section 6.6(e), subject to confidentiality considerations contemplated by the DPA or required by CFIUS. Such reasonable best efforts shall also include agreeing to any action, condition or restriction required by CFIUS in connection with the CFIUS Clearance (including entering into any mitigation agreement with CFIUS as may be required) in order to receive the CFIUS Clearance as promptly as reasonably practicable and in any event prior to the sixth Business Day prior to the Outside Date, unless the Company, Parent and Merger Sub have irrevocably waived the condition set forth in Section 7.1(e) [*CFIUS Clearance*] prior to such date. Neither Parent nor the Company shall take or permit any of its Subsidiaries or Affiliates to take any action that would reasonably be expected to prevent, materially delay or materially impede the receipt of the CFIUS Clearance. Notwithstanding the foregoing or anything to the contrary contained in this Agreement, the covenants and agreements set forth in Section 6.6(a) [*Efforts*] and this Section 6.6(e) constitute the sole obligations of the Parties with respect to the efforts required to obtain the CFIUS Clearance.

6.7. Status. Subject to applicable Law and as otherwise required by any Governmental Entity, the Company and Parent each shall keep the other apprised of the status of matters relating to completion of the transactions contemplated by this Agreement, including promptly furnishing the other with copies of notices or other communications received by Parent or the Company, as applicable, or any of its Subsidiaries, from any third party and/or any Governmental Entity with respect to the transactions contemplated by this Agreement.

6.8. Indebtedness.

(a) The Company shall, and shall cause its applicable Subsidiaries to, use reasonable best efforts to commence, as soon as reasonably practical following the receipt of a written request of Parent, (a) one or more consent solicitations to the holders of outstanding loans, capital markets debt securities or other indebtedness identified in Schedule 6.8(c) to the Parent Disclosure Letter (collectively, the Specified Indebtedness), to waive any applicable change of control provisions, defaults or other covenants that would apply in connection with, or otherwise restrict the ability of the parties to consummate, the Merger as contemplated in this Agreement (the Consent Solicitations) and/or (b) an offer to purchase any such Specified Indebtedness (the Debt Offers) or as determined by Parent in its discretion, in lieu of conducting a Debt Offer, if permitted by the terms of such Specified Indebtedness, to issue a notice of optional redemption to redeem such Specified Indebtedness pursuant to the terms thereof or to take such other actions as may be permitted by the terms of such Specified Indebtedness to satisfy and discharge such Specified Indebtedness (the Debt Redemptions and with the Consent Solicitations and Debt Offers, the Debt Transactions), in each case on the terms and conditions specified by the Parent; provided that the Company shall not be required to commence any Debt Transaction until Parent shall have provided the Company with the necessary consent solicitation statement, offer to purchase, related letter of transmittal, supplemental indenture, redemption notice and other related documents in connection therewith; provided, further, that the Parent shall consult with the Company regarding the timing of any Debt Transaction in light of the regular financial reporting schedule of the Company and the requirements of applicable Law. Parent shall afford the Company a reasonable opportunity to review the material terms and conditions of any Debt Transaction (which shall be reasonably acceptable to the Company). Subject to the foregoing, the Company shall, and shall cause its applicable Subsidiaries to, provide such cooperation as reasonably requested by Parent in connection with any Debt Transaction. Parent shall cause its counsel to furnish any legal opinions required

in connection with any Debt Transaction other than those opinions relating to corporate matters with respect to the Company and its Subsidiaries and authorization, execution and delivery of

the applicable documents by the Company and its Subsidiaries, which opinions the Company shall use reasonable best efforts to cause its counsel to provide.

(b) The provisions of Section 6.8(a) or any other provision of this Agreement to the contrary notwithstanding, nothing in the foregoing Section 6.8(a) will require the Company, its Subsidiaries or any of their respective Representatives to (i) waive or amend any terms of this Agreement or agree to pay any fees or reimburse any expenses prior to the Effective Time for which it has not received prior reimbursement or is not otherwise indemnified by or on behalf of Parent, (ii) take any action or provide any information that will conflict with or violate its organizational documents or any applicable Laws, including SEC rules and regulations, or would result in a violation or breach of, or default under, any Contract to which the Company or any of its Subsidiaries is a party or otherwise bound, or would result in the waiver of any legal privilege, (iii) give indemnities that are effective prior to the Effective Time for which it is not simultaneously indemnified by Parent, (iv) pass resolutions or consents to approve or authorize the execution of any Debt Transaction or any definitive agreements with respect thereto that are effective prior to the Effective Time, (v) deliver any certificate or take any other action pursuant to this Section 6.8 or any other provision of this Agreement that would reasonably be expected to result in personal liability to a director, officer or other personnel or (vi) except as otherwise provided in the final sentence of Section 6.8(a), deliver any legal opinion. In addition, no action, liability or obligation of the Company, any of its Subsidiaries or any of their respective Representatives pursuant to any certificate, agreement, arrangement, document or relating to any Debt Transaction will be required to be effective until the Effective Time.

(c) Parent shall promptly, upon request by the Company, reimburse the Company for all reasonable costs and expenses incurred by the Company or any of its Subsidiaries or their respective Representatives in connection with any Debt Transaction, including the cooperation of the Company and its Subsidiaries and Representatives contemplated by Section 6.8(a). Parent indemnifies and holds harmless the Company, its Subsidiaries and their respective Representatives from and against any and all losses, damages, claims, costs or expenses suffered or incurred by any of them in connection with any Debt Transaction, any information used in connection therewith or any assistance or activities in connection therewith, except with respect to any fraud or intentional misrepresentation or willful misconduct by any such persons. The provisions of this Section 6.8(c) survive the termination of this Agreement.

6.9. Information; Access and Reports.

(a) Subject to applicable Law and the other provisions of this Section 6.9, the Company and Parent each shall (and shall cause its Subsidiaries to), upon reasonable request by the other, furnish the other with all information concerning itself, its Subsidiaries, directors, officers and stockholders/shareholders and such other matters as may be reasonably necessary or advisable in connection with the Proxy/Prospectus, the Management Information Circular, the Registration Statement or any other statement, filing, notice or application made by or on behalf of Parent, the Company or any of their respective Subsidiaries to any third party and/or any Governmental Entity in connection with the Merger and the transactions contemplated by this Agreement, and shall (and shall cause its Subsidiaries to), upon giving of reasonable notice by the other Party, afford the other's officers and other authorized Representatives reasonable access, during normal business hours following reasonable advance notice throughout the period prior to the Effective Time, to its officers, employees, agents, contracts, books and records (including the work papers of such Party's independent accountants upon receipt of any required consents from such accountants), as well as properties, offices and other facilities, and, during such period, each shall (and shall cause its Subsidiaries to) furnish promptly to the other all information concerning its business, properties and personnel as may reasonably be requested. Notwithstanding the foregoing, nothing in this Section 6.9 shall require or be construed to require either the Company or Parent to allow the other Party or its representatives to perform any on-site procedures (including an on-site study) with respect to any property of the Company or Parent (as applicable) or their respective Subsidiaries.

(b) The foregoing provisions of this Section 6.9 and 6.21(b) shall not require and shall not be construed to require either the Company or Parent to permit any access to any of its (or any of its Subsidiaries) officers, employees, agents, contracts, books or records, or its (or any of its Subsidiaries) properties, offices or other facilities, or to permit any inspection, review, sampling or audit, or to disclose or otherwise make available any information that in the reasonable judgment of the Company or Parent (as applicable) would (i) unreasonably disrupt the operations of such Party or any of its Subsidiaries, (ii) result in the disclosure of any trade secrets of any third parties or violate the terms of any confidentiality provisions in any agreement with a third party entered into prior to the date of this Agreement, (iii) result in a violation of applicable Laws, including any fiduciary duty, (iv) waive the protection of any attorney-client or similar privilege or (v) result in the disclosure of any personal information that would expose the Company or Parent to the risk of liability. In the event that Parent or the Company objects to any request submitted pursuant to and in accordance with this Section 6.9 and Section 6.21(b) and withholds information on the basis of the foregoing clauses (i) through (v), the Company or the Parent, as applicable, shall inform the other Party as to the general nature of what is being withheld and the Company and Parent shall use reasonable best efforts to make appropriate substitute arrangements to permit reasonable disclosure that does not suffer from any of the foregoing impediments, including through the use of reasonable best efforts to (A) obtain the required consent or waiver of any third party required to provide such information and (B) implement appropriate and mutually agreeable measures to permit the disclosure of such information in a manner to remove the basis for the objection, including by arrangement of appropriate clean room procedures, redaction or entry into a customary joint defense agreement with respect to any information to be so provided, if the Parties determine that doing so would reasonably permit the disclosure of such information without violating applicable Law or confidentiality restriction or jeopardizing such privilege. Each of Parent and the Company, as it deems advisable and necessary, may reasonably designate competitively sensitive material provided to the other as Outside Counsel Only Material or with similar restrictions. Such materials and the information contained therein shall be given only to the outside counsel of the recipient or otherwise as the restriction indicates, and be subject to any additional confidentiality or joint defense agreement executed by the Company and Parent. All requests for information made pursuant to this Section 6.9 shall be directed to the executive officer or other Person designated by the Company or Parent. All information exchanged or made available shall be governed by the terms of the Confidentiality Agreement.

(c) No exchange of information or investigation by Parent or its representatives shall affect or be deemed to affect, modify or waive the representations and warranties of the Company set forth in this Agreement, and no investigation by the Company or its representatives shall affect or be deemed to affect, modify or waive the representations and warranties of Parent or Merger Sub set forth in this Agreement.

(d) To the extent that any of the information or material furnished pursuant to this Section 6.9 or otherwise in accordance with the terms of this Agreement may include material subject to the attorney-client privilege, work product doctrine or any other applicable privilege concerning pending or threatened legal proceedings or governmental investigations, the Parties understand and agree that they have a commonality of interest with respect to such matters and it is their desire, intention and mutual understanding that the sharing of such material is not intended to, and shall not, waive or diminish in any way the confidentiality of such material or its continued protection under the attorney-client privilege, work product doctrine or other applicable privilege. All such information that is entitled to protection under the attorney-client privilege, work product doctrine or other applicable privilege shall remain entitled to such protection under these privileges, this Agreement and under the joint defense doctrine.

6.10. Stock Exchange Listing and Delisting. Prior to the Closing Date, Parent shall use its best efforts to cause the shares of Parent Common Stock to be issued in connection with the Merger to be approved for listing on the NYSE and the TSX, subject to official notice of issuance. To the extent requested by Parent, prior to the Closing Date, the Company shall cooperate with Parent and use reasonable best efforts to take, or cause to be taken, all actions, and do or cause to be done all things, reasonably necessary, proper or advisable on its part under applicable Laws and rules

and policies of the NYSE to enable the delisting by the Surviving Corporation of the shares of Company Common Stock from the NYSE and the deregistration of the shares of Company

Common Stock under the Exchange Act as promptly as practicable after the Effective Time, and in any event no more than ten days after the Effective Time.

6.11. **Publicity**. Except (a) communications consistent with the final form of joint press release announcing the Merger and the investor presentation given to investors on the morning of announcement of the Merger, (b) as may be required by applicable Law or by obligations pursuant to any listing agreement with or rules of any national securities exchange or (c) pursuant to the Company's or Parent's rights pursuant to Section 6.2, the Company and Parent shall consult with each other, and provide meaningful opportunity for review and give due consideration to reasonable comment by the other Party, prior to issuing any press releases or other public written communications or otherwise making planned public statements with respect to the Merger and the other transactions contemplated by this Agreement and prior to making any filings with any third party and/or any Governmental Entity (including the NYSE or the TSX) with respect thereto.

6.12. **Employee Benefits**.

(a) From and after the Effective Time, the Company shall, and Parent shall cause the Company to, honor all Benefit Plans of the Company and its Subsidiaries in accordance with their terms as in effect immediately before the Effective Time. Parent agrees that each employee of the Company and its Subsidiaries at the Effective Time who continues to remain employed with the Company or its Subsidiaries (collectively, the **Continuing Employees**) shall:

(i) during the period commencing at the Effective Time and ending on the first anniversary of the Effective Time, be provided with base salary or base wage, as applicable, no less favorable than the base salary or base wage provided by the Company and its Subsidiaries to such employee immediately prior to the Effective Time,

(ii) during the period commencing at the Effective Time and ending on December 31, 2017, be provided with target annual cash bonus opportunities and pension and welfare benefits that are, in each case, no less favorable than those provided by the Company and its Subsidiaries to such employee immediately prior to the Effective Time,

(iii) during the period commencing on January 1, 2018 and ending on the first anniversary of the Effective Time, be provided with target annual cash bonus opportunities, and pension and welfare benefits that are no less favorable in the aggregate than those provided by the Company and its Subsidiaries to such employee immediately prior to the Effective Time, and

(iv) solely to the extent that the Effective Time occurs prior to the Company's ordinary course grant of equity awards in 2017, be provided with a grant of Parent equity or equity-based awards in 2017 having a long-term incentive award target value that is substantially comparable to that of the awards granted by the Company to such employee in 2016; **provided** that the form or forms of equity and equity-based awards provided to each such employee shall be the same form or forms of the awards and in the same proportion provided to similarly situated employees of Parent (other than the Continuing Employees).

Notwithstanding the foregoing, the requirements of the immediately preceding sentence shall not limit any compensation or benefits required to be provided to Continuing Employees (A) by applicable Law or (B) who are covered by a collective bargaining agreement pursuant to such agreement. Without limiting the two immediately preceding sentences, Parent shall, and Parent shall cause the Company to, provide to each Continuing Employee who is on Canadian payroll and whose employment terminates during the 18-month period following the Closing Date with severance benefits at least equal to the severance benefits for which such Continuing Employee would have been eligible under the Company's severance practices, as set forth in Section 6.12(a) of the Company Disclosure Letter, determined (1) without taking into account any reduction after the Closing in compensation paid to such Continuing

Employee and (2) taking into account each Continuing Employee's service with the Company and its Subsidiaries (and any predecessor entities) and, after the Closing, Parent and its Subsidiaries.

(b) Parent shall use commercially reasonable efforts to (i) cause any pre-existing conditions or limitations and eligibility waiting periods under any group health and welfare insurance plans of Parent or its Affiliates to be waived with respect to the Continuing Employees and their eligible dependents, (ii) give each Continuing Employee credit for the plan year in which the Effective Time occurs towards applicable deductibles and annual out-of-pocket limits for medical expenses incurred during such plan year prior to the Effective Time for which payment has been made and (iii) give each Continuing Employee service credit for such Continuing Employee's employment with the Company and its Subsidiaries (and any predecessor entities) for purposes of (A) vesting, (B) benefit accrual, (C) pay credit level in any cash balance or similar plan, (D) level of subsidy by Parent or any Subsidiary of Parent for any health or welfare plan, and (E) eligibility to participate, in each case, under each applicable Parent Benefit Plan, as if such service had been performed with Parent, except to the extent it would result in a duplication of benefits or in the treatment of a Continuing Employee under such Parent Benefit Plan that is more favorable than the treatment of a similarly situated employee of Parent of the same age and with the same years of service.

(c) Prior to the Effective Time, if requested by Parent in writing at least ten Business Days prior to the Effective Time, to the extent permitted by applicable Law and the terms of the applicable plan or arrangement, the Company shall (i) cause to be amended the employee benefit plans and arrangements of it and its Subsidiaries to the extent necessary to provide that no employees of Parent and its Subsidiaries shall commence participation therein following the Effective Time unless the Surviving Corporation or such Subsidiary explicitly authorizes such participation and (ii) subject to the last sentence of this Section 6.12(c), cause the Spectra Energy Retirement Savings Plan (the **Company 401(k) Plan**) to be terminated effective immediately prior to the Effective Time. In the event that Parent requests that the Company 401(k) Plan be terminated, (A) the Company shall provide Parent with evidence that such plan has been terminated not later than the day immediately preceding the Effective Time and (B) the Continuing Employees shall be eligible to participate, effective as of the Effective Time, in a 401(k) plan sponsored or maintained by Parent or one of its Subsidiaries (a **Parent 401(k) Plan**). Parent and the Company shall use commercially reasonable efforts to take such actions as may be required, including amendments to the Company 401(k) Plan and/or Parent 401(k) Plan, to permit the Continuing Employees who are then actively employed to make rollover contributions to the Parent 401(k) Plan of eligible rollover distributions (within the meaning of Section 401(a)(31) of the Code) in the form of cash, notes (in the case of loans), Parent Common Stock or a combination thereof in an amount equal to the full account balance distributed to such Continuing Employee from a Company 401(k) Plan. Notwithstanding the first sentence of this Section 6.12(c), if Parent is not able to cause the Parent 401(k) Plan to accept rollover contributions in the form of notes (in the case of loans) as described in the immediately preceding sentence, then the Company shall not be required to terminate the Company 401(k) Plan pursuant to this Section 6.12(c).

(d) Parent hereby acknowledges that a change in control (or similar phrase) within the meaning of the Benefit Plans of the Company and its Subsidiaries will occur at or prior to the Effective Time, as applicable.

(e) Immediately prior to the Effective Time, the Company may, with respect to each employee of the Company or any of its Subsidiaries actively employed as of immediately prior to the Effective Time and then participating in any Benefit Plan that is an annual bonus plan (an **Annual Bonus Plan**), upon notice to and in consultation with Parent, determine the amount of each employee's pre-Closing bonus entitlement, which shall equal the product obtained by multiplying (i) the employee's full-year bonus entitlement under all such Annual Bonus Plans for the calendar year in which the Effective Time occurs, based on the greater of (A) deemed performance at target levels and (B) actual performance through the latest practicable date prior to the Effective Time, extrapolated through the end of such fiscal year, and (ii) a fraction the numerator of which equals the number of days that have elapsed during such fiscal year through the Effective Time and the denominator of which equals 365 (each, a **Pre-Closing Bonus Amount**). Parent shall, or shall cause the Surviving Corporation or its Affiliates to (1) provide each Continuing Employee an annual cash bonus opportunity under a Benefit Plan that is an Annual Bonus Plan maintained by Parent or one of its Affiliates

for the balance of the 2017 calendar year in accordance with Section 6.12(a)(ii) and (2) at the time annual cash bonuses for the 2017 calendar year are paid to similarly situated employees of Parent (other than the Continuing Employees), pay to each Continuing

(a) Except to the extent provided in Section 8.2(b) and Section 8.2(c), in the event of termination of this Agreement and the abandonment of the Merger pursuant to this Article VIII, this Agreement shall become void and of no effect with no liability to any Person on the part of any Party (or any of its Representatives or Affiliates); provided, however, and notwithstanding anything to the contrary in this Agreement, (i) no such termination shall relieve any Party of any liability or damages to the other Parties resulting from any Willful Breach of this Agreement prior to such termination and (ii) the provisions set forth in this Section 8.2 and the second sentence of Section 9.1 shall survive the termination of this Agreement.

(b) In the event that this Agreement is terminated:

(i) by either the Company or Parent pursuant to Section 8.1(c)(i) [*Requisite Company Vote Not Obtained*], and,

(A) a *bona fide* Acquisition Proposal involving the Company shall have been publicly announced (and such Acquisition Proposal shall not have been publicly withdrawn) after the date of this Agreement and prior to the date of the Company Stockholders Meeting, and

Furthermore the Company shall indemnify and hold harmless Parent from the full amount of any Taxes imposed on Parent under Section 881(a) of the Code (together with any interest and penalties and expenses paid or payable by Parent with respect thereto) with respect to the receipt of a Company Payment other than Taxes in respect of which amounts have been fully deducted and remitted and Company Additional Amounts have been paid. Parent shall use commercially reasonable efforts to obtain a refund from the applicable U.S. Governmental Entity of any Taxes in respect of which the Company has paid a Company Additional Amount or indemnified Parent (or, if such refund cannot be obtained, to claim a credit for such Taxes). Parent shall promptly pay the amount of any such refund or credit obtained to the Company, net of any costs, Taxes and expenses borne by Parent with respect to such refund or credit. The Company agrees to pay the amount of any expenses incurred by Parent in the process of applying for and obtaining such refund or credit. The obligations described in the foregoing will survive any termination, defeasance or discharge of this Agreement.

(ii) by the Company pursuant to Section 8.1(g)(A) [*Failure to Include Parent Recommendation*], Section 8.1(g)(B) [*Change of Recommendation*], or Section 8.1(g)(C) [*Failure to Recommend Against Tender or Exchange Offer*], then promptly, but in no event later than two Business Days after the date of such termination, or

of record), in the aggregate, less than 65% of the common equity of Parent or the Person that is the ultimate parent company resulting from such transaction. Parent shall pay the Parent Termination Fee and any expense reimbursement (collectively, the **Parent Payments**) to the Company free and clear and without withholding or deduction for Taxes unless such withholding or deduction is required by Law. If Parent is required to withhold or deduct any amount for or on account of Taxes from a Parent Payment, Parent will remit the full amount so withheld and deducted to the applicable Governmental Entity and Parent will be required to pay additional amounts to the Company (the **Parent Additional Amounts**) as may be necessary so that the net amount received by the Company (including the Parent Additional Amounts) after such withholding or deduction is not less than the amount the Company would have received if the Taxes had not been so withheld or deducted. Furthermore Parent shall indemnify and hold harmless the Company from the full amount of any Taxes imposed on the Company under Part XIII of the ITA (together with any interest and penalties and expenses paid or payable by the Company with respect thereto) with respect to the receipt of a Parent Payment other than Taxes in respect of which amounts have been fully deducted and remitted and Parent Additional Amounts have been paid. The Company shall use commercially reasonable efforts to obtain a refund from the applicable Canadian Governmental Entity of any Taxes in respect of which Parent has paid a Parent Additional Amount or indemnified the Company (or, if such refund cannot be obtained, to claim a credit for such Taxes). The Company shall promptly pay the amount of any such refund or credit obtained to Parent, net of any costs, Taxes and expenses borne by the Company with respect to such refund or credit. Parent agrees to pay the amount of any expenses incurred by the Company in the process of applying for and obtaining such refund or credit. The obligations described in the foregoing will survive any termination, defeasance or discharge of this Agreement.

The Parties acknowledge that the agreements contained in this Section 8.2 are an integral part of the transactions contemplated by this Agreement, and that, without these agreements, the other Parties would not enter into this Agreement; accordingly, if the Company or Parent, as applicable, fails to promptly pay the amount due pursuant to this Section 8.2, and, in order to obtain such payment, the other Party commences a suit that results in a judgment against the Company or Parent, as applicable for the amount due pursuant to this Section 8.2 or any portion of such amount due, the paying Party shall pay to the other Party its costs and expenses (including attorneys' fees) in connection with such suit, together with interest on the amount of such fee at the prime rate as published by *The Wall Street Journal* (in effect on the date such payment was required to be made) from the date such payment was required to be made through the date of payment. Notwithstanding anything to the contrary in this Agreement, the Parties hereby acknowledge that in the event that the Company Termination Fee or Parent Termination Fee becomes payable by, and is paid by, the Company, or becomes payable by, and is paid by, Parent, such fee shall be the receiving Party's and its Subsidiaries' and Affiliates' sole and exclusive remedy for any loss, cost, liability or expense relating to or arising out of this Agreement and the transactions contemplated by this Agreement; **provided, however**, no such payment shall relieve any Party of any liability or damages to the other Parties resulting from any Willful Breach by such Party of this Agreement.

9.2. Amendment; Waiver. Subject to the provisions of applicable Laws and the provisions of Section 6.15 [*Indemnification; Directors and Officers Insurance*], at any time prior to the Effective Time, this Agreement may be amended, modified or waived if, and only if, such amendment, modification or waiver is in writing and signed, in the case of an amendment, modification or waiver, by Parent, Merger Sub and the Company, or in the case of a waiver, by the Party against whom the waiver is to be effective. The conditions to each of the respective parties obligations to consummate the Merger and the other transactions contemplated by this Agreement are for the sole benefit of such Party and may be waived by such Party in whole or in part to the extent permitted by applicable Law. No failure or delay by any Party in exercising any right, power or privilege hereunder shall operate as a waiver thereof nor shall any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

9.3. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be an original, with the same effect as if the signatures thereto and hereto were upon the same instrument, and shall become effective when one or more counterparts have been signed by each of the parties and delivered (by telecopy, electronic delivery or otherwise) to the other parties. 9.4. Governing Law and Venue; Submission to Jurisdiction; Selection of Forum; Waiver of Trial by Jury.

(a) THIS AGREEMENT SHALL BE DEEMED TO BE MADE IN AND IN ALL RESPECTS SHALL BE INTERPRETED, CONSTRUED AND GOVERNED BY AND IN ACCORDANCE WITH THE LAW OF THE STATE OF DELAWARE WITHOUT REGARD TO THE CONFLICT OF LAW PRINCIPLES THEREOF TO THE EXTENT THAT SUCH PRINCIPLES WOULD DIRECT A MATTER TO ANOTHER JURISDICTION.

(b) Each of the Parties agrees that it shall bring any action or proceeding in respect of any claim arising under or relating to this Agreement or the transactions contemplated by this Agreement exclusively in the Court of Chancery of the State of Delaware (or if such court declines to accept jurisdiction over a particular matter, any state or Federal court located within the State of Delaware) (the Chosen Courts) and, solely in connection with such claims, (i) irrevocably submits to the exclusive jurisdiction of the Chosen Courts, (ii) waives any objection to the laying of venue in any such action or proceeding in the Chosen Courts, (iii) waives any objection that the Chosen Courts are an inconvenient forum or do not have jurisdiction over any Party and (iv) agrees that mailing of process or other papers in connection with any such action or proceeding in the manner provided in Section 9.6 or in such other manner as may be permitted by Law shall be valid and sufficient service thereof.

(c) EACH PARTY ACKNOWLEDGES AND AGREES THAT ANY CONTROVERSY WHICH MAY ARISE UNDER THIS AGREEMENT IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES, AND THEREFORE EACH PARTY HERETO IRREVOCABLY AND UNCONDITIONALLY WAIVES TO THE FULLEST EXTENT PERMITTED BY LAW ANY RIGHT IT MAY HAVE TO A TRIAL BY JURY WITH RESPECT TO ANY ACTION OR PROCEEDING DIRECTLY OR INDIRECTLY ARISING UNDER OR RELATING TO THIS AGREEMENT OR THE TRANSACTIONS CONTEMPLATED BY THIS AGREEMENT. EACH PARTY HEREBY ACKNOWLEDGES AND CERTIFIES (I) THAT NO REPRESENTATIVE, AGENT OR ATTORNEY OF THE OTHER PARTY HAS REPRESENTED, EXPRESSLY OR OTHERWISE, THAT SUCH OTHER PARTY WOULD NOT, IN THE EVENT OF ANY ACTION OR PROCEEDING, SEEK TO ENFORCE THE FOREGOING WAIVER, (II) IT UNDERSTANDS AND HAS CONSIDERED THE IMPLICATIONS OF THIS WAIVER, (III) IT MAKES THIS WAIVER VOLUNTARILY AND (IV) IT HAS BEEN INDUCED TO ENTER INTO THIS AGREEMENT AND THE TRANSACTIONS

CONTEMPLATED BY THIS AGREEMENT BY, AMONG OTHER THINGS, THE MUTUAL WAIVERS AND CERTIFICATIONS CONTAINED IN THIS SECTION 9.4(c).

Accordingly, each Party agrees that, in addition to any other available remedies a Party may have in equity or at law, each Party shall be entitled to enforce specifically the terms and provisions of this Agreement and to obtain an injunction restraining any breach or violation or threatened breach or violation of the provisions of this Agreement in the Court of Chancery of the State of Delaware without necessity of posting a bond or other form of security. In the event that any action or proceeding should be brought in equity to enforce the provisions of this Agreement, no Party shall allege, and each Party hereby waives the defense, that there is an adequate remedy at law.

9.6. Notices. All notices, requests, instructions or other communications or documents to be given or made hereunder by any Party to the other Parties shall be in writing and deemed given when (a) served by personal delivery upon the Party for whom it is intended, (b) sent by an internationally recognized overnight courier service upon the Party for whom it is intended, or (c) sent by email, provided that the transmission of the email is promptly confirmed by telephone:

Attention: Board of Directors

Members of the Board:

You have asked us to advise you in your capacity as the Board of Directors of Enbridge Inc. (Parent) with respect to the fairness, from a financial point of view, to Parent of the Exchange Ratio (as defined below) in the Merger (as defined below) pursuant to the Agreement and Plan of Merger (the Agreement) to be entered into among Spectra Energy Corp (the Company), Parent and Sand Merger Sub, Inc., a wholly owned subsidiary of Parent (Merger Sub). We understand that, among other things, pursuant to the Agreement, Merger Sub will merge with the Company (the Merger), the Company will become a wholly owned subsidiary of Parent, and each outstanding share of common stock, par value US\$0.001 per share (Company Common Stock), of the Company will be converted into the right to receive 0.984 of a share (the Exchange Ratio) of common stock, no par value per share (Parent Common Stock), of Parent. We further understand that, pursuant to the Agreement, Parent shall make an offer (the Canadian Offer and, together with the Merger, the Transaction) to each holder of shares of Company Common Stock who is (i) a resident of Canada for purposes of the Income Tax Act (Canada) (the ITA) or (ii) a partnership at least one partner of which is a resident of Canada for purposes of the ITA (each a Canadian Company Shareholder) to purchase, subject to the consummation of the Merger, all of such shares of Company Common Stock held by each Canadian Company Shareholder in exchange for a number of shares of Parent Common Stock per share of Company Common Stock equal to the Exchange Ratio. Subject to the satisfaction or waiver of all conditions (other than those relating to the Canadian Offer and those that by their nature are to be satisfied at the closing of the Merger, but subject to the satisfaction or waiver of those conditions) pursuant to the Agreement, each purchase of shares of Company Common Stock from a Canadian Company Shareholder who validly tenders his, her or its shares of Company Common Stock to Parent pursuant to the Canadian Offer will be completed immediately prior to the effective time of the Merger.

In arriving at our opinion, we have reviewed a draft, dated September 5, 2016, of the Agreement and certain publicly available business and financial information relating to the Company and Parent. We have also reviewed certain other information relating to the Company and Parent, including financial forecasts relating to the Company for the fiscal years ending December 31, 2016 through December 31, 2019 prepared by and provided to us by the management of the Company (the Company Projections) as adjusted by the management of Parent (the Parent Projections for the Company) and financial forecasts relating to Parent for the fiscal years ending December 31, 2016 through December 31, 2019 prepared by and provided to us by the management of Parent (the Parent Projections for Parent). We have also reviewed certain estimates provided to us by the management of Parent with respect to the cost savings and synergies anticipated by management of Parent to result from the Transaction (the Synergies). We have also spoken with the managements of the Company and Parent and certain of their representatives regarding the business and prospects of the Company and Parent, respectively, including, without limitation, currently contemplated projects anticipated to result in the future growth of each

company which are not reflected in the Company Projections, the Parent Projections for the Company, the Parent Projections for Parent or the Synergies and have relied upon such managements' assessments of the future growth implications of such projects. We have also considered certain financial and stock market data of the Company and Parent, and we have compared that data with similar data for other companies with publicly traded equity securities in businesses we deemed similar to those of the Company and Parent, respectively, and we have considered, to the extent publicly available, the financial terms of certain other business combinations and other transactions which have been effected or announced. We also considered such other information, financial studies, analyses and investigations and financial, economic and market criteria which we deemed relevant.

In connection with our review, we have not independently verified any of the foregoing information, and we have assumed and relied upon such information being complete and accurate in all respects material to our analyses and this opinion. With respect to the Company Projections, management of the Company has advised us and we have assumed that such financial forecasts have been reasonably prepared in good faith on bases reflecting the best currently available estimates and judgments of the management of the Company as to the future financial performance of the Company. With respect to the Parent Projections for the Company, management of Parent has advised us and we have assumed that such financial forecasts have been reasonably prepared in good faith based on the Company Projections and reflect the best currently available estimates and judgments of the management of Parent as to the future financial performance of the Company. With respect to the Parent Projections for Parent, management of Parent has advised us and we have assumed that such financial forecasts have been reasonably prepared in good faith on bases reflecting the best currently available estimates and judgments of the management of Parent as to the future financial performance of Parent. With respect to the Synergies, we have been advised by the management of Parent and we have assumed that such forecasts have been reasonably prepared in good faith on bases reflecting the best currently available estimates and judgments of the management of Parent as to such cost savings and synergies and we have assumed that, except as would not be material to our analyses or this opinion, such Synergies will be realized in the amounts and at the times indicated thereby. We express no view or opinion with respect to the Company Projections, the Parent Projections for the Company, the Parent Projections for Parent, the Synergies or the assumptions upon which they are based and, at the direction of management of Parent, we have assumed that the Parent Projections for the Company, the Parent Projections for Parent and the Synergies are a reasonable basis on which to evaluate the Company, Parent and the Transaction and have used and relied upon such information for purposes of our analyses and this opinion.

We understand that, for U.S. federal income tax purposes, the Merger is intended to qualify as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended, and for purposes of our analyses and this opinion we have at your direction assumed that, except as would not be material to our analyses or this opinion, the failure of the Merger to so qualify will not have any adverse tax consequences on Parent, Merger Sub or the Company. We also have assumed, with your consent, that, in the course of obtaining any regulatory or third party consents, approvals or agreements in connection with the Transaction, no delay, limitation, restriction or condition will be imposed that would have an adverse effect on the Company, Parent or the contemplated benefits of the Transaction except as would not be material to our analyses or this opinion, that the Transaction will be consummated in accordance with all applicable foreign, United States and Canadian federal, state, provincial, and local laws, and that the Transaction will be consummated in accordance with the terms of the Agreement, without waiver, modification or amendment of any term, condition or agreement thereof that is material to our analyses or this opinion. In addition, we have not been requested to make, and have not made, an independent evaluation or appraisal of the assets or liabilities (contingent or otherwise) of the Company or Parent, nor have we been furnished with any such evaluations or appraisals. With your consent we have also assumed that the final form of the Agreement, when

executed by the parties thereto, will conform to the draft reviewed by us in all respects material to our analyses.

Our opinion addresses only the fairness, from a financial point of view, to Parent of the Exchange Ratio in the Transaction pursuant to the Agreement and does not address any other aspect or implication of the Transaction or any agreement, arrangement or understanding entered into in connection therewith or otherwise, including, without limitation, the fairness of the amount or nature of, or any other aspect relating to, any compensation or consideration to be received or otherwise payable to any officers, directors, employees, securityholders or affiliates of any party to the Transaction, or class of such persons, relative to the Exchange Ratio or otherwise. Furthermore, we are not expressing any advice or opinion regarding matters that require legal, regulatory, accounting, insurance, tax, environmental, executive compensation or other similar professional advice. We have assumed that Parent has or will obtain such advice or opinions from the appropriate professional sources. The issuance of this opinion was approved by our authorized internal committee.

Our opinion is necessarily based upon information made available to us as of the date hereof and financial, economic, market and other conditions as they exist and can be evaluated on the date hereof. We have not undertaken, and are under no obligation, to update, revise, reaffirm or withdraw this opinion, or otherwise comment on or consider events occurring or coming to our attention after the date hereof. In addition, as you are aware, the financial projections and estimates that we have reviewed relating to the future financial performance of the Company and Parent reflect certain assumptions regarding the oil and gas industry and future commodity prices associated with that industry that are subject to significant uncertainty and volatility and that, if different than assumed, could have a material impact on our analyses and this opinion. In addition, the U.S./Canadian dollar foreign exchange rate is subject to significant uncertainty and volatility and, if different than assumed, could have a material impact on our analyses and this opinion. We have not investigated or otherwise evaluated, and our opinion does not address, the potential effects of any sales or transfers of any assets or securities of the Company, Parent or their respective affiliates, whether in connection with the Transaction or otherwise. Our opinion does not address the relative merits of the Transaction as compared to alternative transactions or strategies that might be available to Parent, nor does it address the underlying business decision of the Board of Directors of Parent (the Board) or Parent to proceed with or effect the Transaction. We are not expressing any opinion as to what the value of shares of Parent Common Stock actually will be when issued pursuant to the Transaction or the prices or ranges of prices at which Company Common Stock or Parent Common Stock may be purchased or sold at any time.

We have acted as financial advisor to Parent in connection with the Transaction and will receive a fee for our services, a portion of which became payable to us upon the rendering of our opinion, a portion of which is contingent upon the approval of the Merger by the shareholders of the Company and Parent, and a significant portion of which is contingent upon the consummation of the Transaction. In addition, Parent has agreed to reimburse us for certain of our expenses and to indemnify us and certain related parties for certain liabilities and other items arising out of or related to our engagement. We and our affiliates have provided other financial advice and services, and may in the future provide financial advice and services, to the Company, Parent and their respective affiliates for which we and our affiliates have received, and would expect to receive, compensation including, during the past two years (i) with respect to Parent, having acted as joint bookrunning lead managing underwriter in connection with offerings of equity securities by Parent in February 2016 and June 2014, having acted as co-managing underwriter in connection with an offering of equity securities by an affiliate of Parent in November 2015 and having acted as bookrunning lead managing underwriter in connection with the initial public offering of equity securities by an affiliate of Parent in February 2014, and (ii) with respect to the Company, having acted as a sales agent in connection with the sale of equity securities by affiliates of the Company in 2014. In addition, Credit Suisse or certain of its affiliates are participants in the credit facilities of and lenders to Parent and certain of its affiliates and are also participants in the credit facilities of and lenders to the Company and certain of its affiliates and Credit Suisse is a party to equity

distribution agreements with the Company and an affiliate of the Company pursuant to which Credit Suisse may act as a sales agent for sales of

shares of Company Common Stock by the Company and sales of equity securities by such affiliate but, as Parent is aware, Credit Suisse has not sold any such securities as agent in 2016. We are a full service securities firm engaged in securities trading and brokerage activities as well as providing investment banking and other financial services. In the ordinary course of business, we and our affiliates may acquire, hold or sell, for our and our affiliates own accounts and the accounts of customers, any currency or commodity that may be involved in the Transaction and equity, debt and other securities and financial instruments (including bank loans and other obligations) of the Company, Parent and any other company that may be involved in the Transaction, as well as provide investment banking and other financial services to such companies and their affiliates.

It is understood that this letter is for the information of the Board in connection with its consideration of the Transaction. This letter does not constitute a recommendation to the Board with respect to the proposed Transaction or advice or a recommendation to any holder of Parent Common Stock as to how such holder should vote or act on any matter relating to the proposed Transaction.

Based upon and subject to the foregoing, it is our opinion that, as of the date hereof, the Exchange Ratio in the Transaction pursuant to the Agreement is fair, from a financial point of view, to Parent.

Very truly yours,

RBC has not, to the best of its knowledge, been denied access by Enbridge to any information requested by RBC. RBC requested a certificate of representation from Spectra, however Spectra declined to provide such a certificate.

Assumptions and Limitations

With the Board's approval and as provided for in the Engagement Agreement, RBC has relied upon the completeness, accuracy and fair presentation of all of the financial (including, without limitation, the financial statements of Enbridge and Spectra) and other information, data, advice, opinions or representations obtained by it from public sources, senior management of Enbridge and Spectra, and their respective consultants and advisors (collectively, the Enbridge Information as it relates to Enbridge and its associates and affiliates and the Spectra Information as it relates to Spectra and its associates and affiliates). The Fairness Opinion is conditional upon such completeness, accuracy and fair presentation of such Enbridge Information and Spectra Information. Subject to the exercise of professional judgment and except as expressly described herein, we have not attempted to verify independently the completeness, accuracy or fair presentation of any of the Enbridge Information or Spectra Information.

Senior officers of Enbridge have represented to RBC in a certificate delivered as of the date hereof, among other things, that (i) the Enbridge Information (as defined above) provided orally by, or in the presence of, an officer or employee of Enbridge or in writing by Enbridge or any of its subsidiaries or their respective agents to RBC for the purpose of preparing the Fairness Opinion was, at the date the Enbridge Information was provided to RBC, and is at the date hereof complete, true and correct in all material respects, and did not and does not contain any untrue statement of a material fact in respect of Enbridge, its subsidiaries or the Merger and did not and does not omit to state a material fact in respect of Enbridge, its subsidiaries or the Merger necessary to make the Enbridge Information or any statement contained therein not misleading in light of the circumstances under which the Enbridge Information was provided or any statement was made, except in all cases for Enbridge Information that has been superseded by Enbridge Information that was subsequently provided to RBC; and that (ii) since the dates on which the Enbridge Information was provided to RBC, except as publicly disclosed by Enbridge or disclosed orally or in writing to RBC, there has been no material change, financial or otherwise, in the financial condition, assets, liabilities (contingent or otherwise), business, operations or prospects of Enbridge or any of its subsidiaries and no material change has occurred in the Enbridge Information or any part thereof which would have or which would reasonably be expected to have a material effect on the Fairness Opinion.

In preparing the Fairness Opinion, RBC has made several assumptions, including that all of the conditions required to implement the Merger will be met.

The Fairness Opinion is rendered on the basis of securities markets, economic, financial and general business conditions prevailing as at the date hereof and the condition and prospects, financial and otherwise, of Enbridge, Spectra and their respective associates and affiliates, as they were reflected in the Enbridge Information and the Spectra Information and as they have been represented to RBC in discussions with management of Enbridge. In its analyses and in preparing the Fairness Opinion, RBC made numerous assumptions with respect to industry performance, general business and economic conditions and other matters, many of which are beyond the control of

RBC or any party involved in the Merger.

The Fairness Opinion has been provided for the use of the Board and may not be used by any other person or relied upon by any other person other than the Board without the express prior written consent of RBC. The

D-4

Table of Contents

Fairness Opinion is given as of the date hereof and RBC disclaims any undertaking or obligation to advise any person of any change in any fact or matter affecting the Fairness Opinion which may come or be brought to RBC's attention after the date hereof. Without limiting the foregoing, in the event that there is any material change in any fact or matter affecting the Fairness Opinion after the date hereof, RBC reserves the right to change, modify or withdraw the Fairness Opinion.

RBC believes that its analyses must be considered as a whole and that selecting portions of the analyses or the factors considered by it, without considering all factors and analyses together, could create a misleading view of the process underlying the Fairness Opinion. The preparation of a fairness opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Any attempt to do so could lead to undue emphasis on any particular factor or analysis. The Fairness Opinion is not to be construed as a recommendation to any holder of Enbridge Common Shares as to whether to vote in favour of the issuance of Enbridge Common Shares in connection with the Merger.

Fairness Analysis

Approach to Fairness

In considering the fairness of the Exchange Ratio from a financial point of view to Enbridge, RBC principally considered and relied upon the following approaches: (i) a comparison of the value of the Enbridge Common Shares to be issued to holders of Spectra Common Stock under the Merger (the Merger Consideration) to a discounted cash flow analysis of Spectra (the Spectra DCF Analysis), each on a per share basis; (ii) a comparison of the value of the Merger Consideration to a sum-of-the-parts analysis of Spectra's businesses, each on a per share basis; (iii) a comparison of selected financial multiples, to the extent publicly available, of selected precedent transactions to the multiples implied by the Merger Consideration; (iv) a comparison of the Exchange Ratio to the exchange ratios implied by dividing the values per share implied by the Spectra DCF Analysis by the values per share implied by a discounted cash flow analysis of Enbridge; and (v) an analysis of the pro forma impact of the Merger on Enbridge.

Fairness Conclusion

Based upon and subject to the foregoing, RBC is of the opinion that, as of the date hereof, the Exchange Ratio is fair from a financial point of view to Enbridge.

Yours very truly,

RBC DOMINION SECURITIES INC.

BUSINESS OF SPECTRA ENERGY

Spectra Energy, through its subsidiaries and equity affiliates, owns and operates a large and diversified portfolio of complementary natural gas-related energy assets and is one of North America's leading natural gas infrastructure companies. We also own and operate a crude oil pipeline system that connects Canadian and U.S. producers to refineries in the U.S. Rocky Mountain and Midwest regions. For over a century, we and our predecessor companies have developed critically important pipelines and related energy infrastructure connecting natural gas supply sources to premium markets. We currently operate in three key areas of the natural gas industry: gathering and processing, transmission and storage, and distribution. We provide transmission and storage of natural gas to customers in various regions of the northeastern and southeastern U.S., the Maritime provinces in Canada, the Pacific Northwest in the U.S. and Canada, and in the Province of Ontario, Canada. We also provide natural gas sales and distribution services to retail customers in Ontario, and natural gas gathering and processing services to customers in western Canada. We also own a 50% interest in DCP Midstream, LLC

(**DCP Midstream**), based in Denver, Colorado, one of the leading natural gas gatherers in the U.S., and one of the largest U.S. producers and marketers of natural gas liquids (**NGLs**).

Our natural gas pipeline systems consist of approximately 21,000 miles of transmission pipelines. Our storage facilities provide approximately 300 billion cubic feet (**Bcf**) of net storage capacity in the U.S. and Canada. Our crude oil pipeline system, Express-Platte, consists of over 1,700 miles of transmission pipeline comprised of the Express pipeline and the Platte pipeline systems.

Our Spectra Energy Partners business primarily provides transmission, storage and gathering of natural gas, as well as the transportation and storage of crude oil through interstate pipeline systems for customers in various regions of the midwestern, northeastern and southern U.S. and Canada. SEP's pipeline systems consist of approximately 15,400 miles of transmission and transportation pipelines. The pipeline systems in our Spectra Energy Partners business receive natural gas and crude oil from major North American producing regions for delivery to their respective markets. A majority of contracted transportation volumes are under long-term firm service agreements where customers reserve capacity in the pipeline. Interruptible services, where customers can use capacity if it is available at the time of the request, are provided on a short-term or seasonal basis. Demand on the natural gas pipeline and storage systems is seasonal, with the highest throughput occurring during colder periods in the first and fourth quarters, and storage injections occurring primarily during the summer periods.

Most of Spectra Energy Partners' pipeline and storage operations are regulated by the FERC and are subject to the jurisdiction of various federal, state and local environmental agencies. FERC is the U.S. agency that regulates the transportation of natural gas and crude oil in interstate commerce. The NEB is the Canadian agency that regulates the transportation of crude oil in Canada.

Customers and Contracts

In general, Spectra Energy Partners' natural gas pipelines provide transmission and storage services for local distribution companies (LDCs), companies that obtain a major portion of their revenues from retail distribution

Table of Contents

systems for the delivery of natural gas for ultimate consumption), electric power generators, exploration and production companies, and industrial and commercial customers, as well as energy marketers. Transmission and storage services are generally provided under firm agreements where customers reserve capacity in pipelines and storage facilities. The vast majority of these agreements provide for fixed reservation charges that are paid monthly regardless of the actual volumes transported on the pipelines or injected or withdrawn from our storage facilities, plus a small variable component that is based on volumes transported, injected or withdrawn, which is intended to recover variable costs.

Spectra Energy Partners also provides interruptible transmission and storage services where customers can use capacity if it is available at the time of the request. Interruptible revenues depend on the amount of volumes transported or stored and the associated rates for this interruptible service. New projects placed into service may initially have higher levels of interruptible services at inception. Storage operations also provide a variety of other value-added services including natural gas parking, loaning and balancing services to meet our customers' needs.

Customers on the Express-Platte system are primarily refineries located in the Rocky Mountain and Midwestern states of the U.S. Other customers include oil producers and marketing entities. Express capacity is typically contracted under long-term committed contracts where customers reserve capacity and pay commitment charges based on a contracted volume even if they do not ship. A small amount of Express capacity and all Platte capacity is used by uncommitted shippers who only pay for the pipeline capacity that is actually used in a given month.

Distribution

Table of Contents

We provide distribution services in Canada through our subsidiary, Union Gas Limited (**Union Gas**). Union Gas is a major Canadian natural gas storage, transmission and distribution company based in Ontario with over 100 years of operations and service to customers. The distribution business serves approximately 1.4 million residential, commercial and industrial customers in more than 400 communities across northern, southwestern and eastern Ontario. Union Gas storage and transmission business offers storage and transmission services to customers at the Dawn Hub, the largest integrated underground storage facility in Canada and one of the largest in North America. It offers customers an important link in the movement of natural gas from western Canada and U.S. supply basins to markets in central Canada and the northeast U.S.

Union Gas distribution system consists of approximately 40,000 miles of main and service pipelines. Distribution pipelines carry natural gas from the point of local supply to customers. Union Gas underground natural gas storage facilities have a working capacity of approximately 163 Bcf in 25 underground facilities located in depleted gas fields. Its transmission system consists of approximately 3,000 miles of high-pressure pipeline and associated mainline compressor stations.

Customers and Contracts

Most of Union Gas power generation customers, industrial and large commercial customers, and a portion of residential customers, purchase their natural gas directly from suppliers or marketers. Because Union Gas earns income from the distribution of natural gas and not from the sale of the natural gas commodity, gas distribution margins are not affected by either the source of customers gas supply or its price, except to the extent that prices affect actual customer usage.

Union Gas provides its in-franchise customers with regulated distribution, transmission and storage services. Union Gas also provides unregulated natural gas storage and regulated transmission services for other utilities and energy market participants, including large natural gas transmission and distribution companies. A substantial amount of Union Gas annual transportation and storage revenue is generated by fixed demand charges.

Western Canada Transmission & Processing

Our Western Canada Transmission & Processing business is comprised of the BC Pipeline, BC Field Services, Canadian Midstream and M&N Canada.

Table of Contents

BC Pipeline and BC Field Services provide fee-based natural gas transmission and gas gathering and processing services. BC Pipeline is regulated by the NEB under full cost-of-service regulation. BC Pipeline transports processed natural gas from facilities located primarily in northeast British Columbia to markets in British Columbia, Alberta and the U.S. Pacific Northwest. BC Pipeline has approximately 1,750 miles of transmission pipeline in British Columbia and Alberta, as well as associated mainline compressor stations.

The BC Field Services business, which is regulated by the NEB under a light-handed regulatory model, consists of raw gas gathering pipelines and gas processing facilities, primarily in northeast British Columbia. These facilities provide services to natural gas producers to remove impurities from the raw gas stream including water, carbon dioxide, hydrogen sulfide and other substances. Where required, these facilities also remove various NGLs for subsequent sale by the producers. NGLs are liquid hydrocarbons extracted during the processing of natural gas. Principal commercial NGLs include butanes, propane, natural gasoline and ethane. The BC Field Services business includes eight gas processing plants located in British Columbia, associated field compressor stations and approximately 1,400 miles of gathering pipelines.

The Canadian Midstream business provides similar gas gathering and processing services in British Columbia and Alberta and consists of 11 natural gas processing plants and approximately 800 miles of gathering pipelines. This business is primarily regulated by the province where the assets are located, either British Columbia or Alberta.

On August 4, 2016, Spectra Energy completed the sale of its ownership interest in the Empress NGL operations (**Empress**) to Plains Midstream Canada ULC.

As of September 30, 2016, we own approximately 78% of M&N Canada, with affiliates of Emera, Inc. and Exxon Mobil Corporation directly owning the remaining 13% and 9% interests, respectively. M&N Canada is an approximately 550-mile mainline interprovincial natural gas transmission system which extends from Goldboro, Nova Scotia to the U.S. border near Baileyville, Maine. M&N Canada is connected to the U.S. portion of the Maritimes & Northeast Pipeline system, M&N U.S., which is directly owned by SEP (part of our Spectra Energy Partners segment) and affiliates of Emera, Inc. and Exxon Mobil Corporation. M&N Canada facilities include associated compressor stations and have a market delivery capability of approximately 0.6 Bcf/d of natural gas. The pipeline's location and key interconnects with Spectra Energy's transmission system link regional natural gas supplies to the northeast U.S. and Atlantic Canadian markets.

Customers & Contracts

BC Pipeline provides: (i) transmission services from the outlet of natural gas processing plants primarily in northeast British Columbia to LDCs, end-use industrial and commercial customers, marketers, and exploration and production companies requiring transmission services to the nearest natural gas trading hub; and (ii) transmission services primarily to downstream markets in the Pacific Northwest (both in the U.S. and Canada) using the southern portion of the transmission pipeline and markets in Alberta through pipeline interconnects in northern British Columbia with Nova Gas Transmission Ltd. The majority of transportation services are provided under firm agreements, which provide for fixed reservation charges that are paid monthly regardless of actual volumes transported on the pipeline, plus a small variable component that is based on volumes transported to recover variable costs. BC Pipeline also provides interruptible transmission services where customers can use capacity if it is available at the time of request. Payments under these services are based on volumes transported.

The BC Field Services and Canadian Midstream operations in western Canada provide raw natural gas gathering and processing services to exploration and production companies under agreements which are fee-for-service contracts which do not expose us to direct commodity-price risk. However, a sustained decline in natural gas prices has

impacted our ability to negotiate and renew expiring service contracts with customers in certain areas of our operations. The BC Field Services and Canadian Midstream operations provide both firm and interruptible services.

Field Services

Field Services consists of our 50% investment in DCP Midstream, which is accounted for as an equity investment. DCP Midstream gathers, compresses, treats, processes, transports, stores and sells natural gas. In addition, this segment produces, fractionates, transports, stores and sells NGLs, recovers and sells condensate, and trades and markets natural gas and NGLs. Phillips 66 owns the other 50% interest in DCP Midstream. DCP Midstream currently owns an approximate 21% interest in DCP Midstream Partners, LP (**DCP Partners**), a publicly traded master limited partnership which trades on the NYSE under the symbol DPM. As its general partner, DCP Midstream accounts for its investment in DCP Partners as a consolidated subsidiary.

On October 30, 2015, Spectra Energy contributed our 33.3% interests in Sand Hills and Southern Hills NGL pipelines to DCP Midstream. See Spectra Energy's audited consolidated financial statements for the year ended December 31, 2015 attached as Schedule A to this Appendix F, including Note 3 of Notes to Consolidated Financial Statements, for further discussion of this transaction.

DCP Midstream owns or operates assets in 17 states in the U.S. DCP Midstream's gathering systems include connections to several interstate and intrastate natural gas and NGL pipeline systems, one natural gas storage facility and one NGL storage facility. DCP Midstream operates in a diverse number of regions, including the Permian Basin, Eagle Ford, Niobrara/DJ Basin and Midcontinent. DCP Midstream owns or operates approximately 67,000 miles of gathering and transmission pipeline.

As of September 30, 2016, DCP Midstream owned or operated 61 natural gas processing plants, which separate raw natural gas that has been gathered on DCP Midstream's and third-party systems into condensate, NGLs and residue gas.

Table of Contents

The NGLs separated from the raw natural gas are either sold and transported as NGL raw mix or further separated through a fractionation process into their individual components (ethane, propane, butane and natural gasoline) and then sold as components. As of September 30, 2016, DCP Midstream owned or operated 12 fractionators. In addition, DCP Midstream operates a propane wholesale marketing business and a eight million barrel propane and butane storage facility in the northeastern U.S.

The residue natural gas (gas that has had associated NGLs removed) separated from the raw natural gas is sold at market-based prices to marketers and end-users, including large industrial customers and natural gas and electric utilities serving individual consumers. DCP Midstream also stores residue natural gas at its 12 Bcf Southeast Texas natural gas storage facility located near Beaumont, Texas.

DCP Midstream uses NGL trading and storage at its Mont Belvieu, Texas and Conway, Kansas NGL market centers to manage price risk and to provide additional services to its customers. Asset-based gas trading and marketing activities are supported by ownership of the Southeast Texas storage facility and various intrastate pipelines which provide access to market centers/hubs such as Katy, Texas and the Houston Ship Channel.

DCP Midstream's operating results are significantly affected by changes in average NGL, natural gas and crude oil prices, which have declined substantially since the last half of 2014. DCP Midstream closely monitors the risks associated with these price changes. See Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations – Quantitative and Qualitative Disclosures About Market Risk in Spectra Energy's Annual Report on Form 10-K for the year ended December 31, 2015 for a discussion of DCP Midstream's exposure to changes in commodity prices.

Customers and Contracts

DCP Midstream sells a portion of its NGLs to Phillips 66 and Chevron Phillips Chemical Company LLC (**CPChem**). In addition, DCP Midstream purchases NGLs from CPChem. Prior to December 31, 2014 approximately 35% of DCP Midstream's NGL production was committed to Phillips 66 and CPChem under 15-year contracts, the primary production commitment of which began a ratable wind down period in December 2014 and expires in January 2019. Approximately 27% of DCP Midstream's NGL production was committed to Phillips 66 and CPChem as of September 30, 2016. DCP Midstream anticipates continuing to purchase and sell commodities with Phillips 66 and CPChem, in the ordinary course of business.

The residual natural gas, primarily methane, which results from processing raw natural gas is sold at market-based prices to marketers and end-users, including large industrial companies, natural gas distribution companies and electric utilities. DCP Midstream purchases or takes custody of substantially all of its raw natural gas from producers, principally under the following types of contractual arrangements described below. More than 75% of the volumes of gas that are gathered and processed are under percentage-of-proceeds contracts.

Percentage-of-proceeds/index arrangements. In general, DCP Midstream purchases natural gas from producers at the wellhead or other receipt points, gathers the wellhead natural gas through its gathering system, treats and processes it, and then sells the residue natural gas and NGLs based on index prices from published index market prices. DCP Midstream remits to the producers either an agreed-upon percentage of the actual proceeds received by DCP Midstream from the sale of the residue natural gas, NGLs and condensate, or an agreed-upon percentage of the proceeds based on index-related prices or contractual recoveries for the natural gas, NGLs and condensate, regardless of the actual amount of sales proceeds which

DCP Midstream receives. DCP Midstream keeps the difference between the proceeds received and the amount remitted back to the producer. Under percentage-of-liquids arrangements, DCP Midstream does not keep any amounts related to the residue natural gas proceeds and only keeps amounts related to the difference between the proceeds received and the amount remitted back to the producer related to NGLs and condensate. Certain of these arrangements may also result in the producer retaining title to all or a portion of the residue natural gas and/or the NGLs in lieu

F-20

Table of Contents

of DCP Midstream returning sales proceeds to the producer. Additionally, these arrangements may include fee-based components. DCP Midstream's revenues from percentage-of-proceeds/index arrangements are directly related to the prices of natural gas, NGLs or condensate. DCP Midstream's revenues under percentage-of-liquids arrangements are directly related to the price of NGLs and condensate.

Fee-based arrangements. DCP Midstream receives a fee or fees for one or more of the following services: gathering, compressing, treating, processing, transporting or storing natural gas, and fractionating, storing and transporting NGLs. Fee-based arrangements include natural gas arrangements pursuant to which DCP Midstream obtains natural gas at the wellhead or other receipt points at an index-related price at the delivery point less a specified amount, generally the same as the transportation fees it would otherwise charge for transportation of the natural gas from the wellhead location to the delivery point. The revenue DCP Midstream earns from these arrangements is directly related to the volume of natural gas or NGLs that flows through its systems and is not dependent on commodity prices. However, to the extent that a sustained decline in commodity prices results in a decline in volumes, DCP Midstream's revenues from these arrangements would be reduced.

Keep-whole and wellhead purchase arrangements. DCP Midstream gathers raw natural gas from producers for processing, the NGLs and condensate are sold and the residue natural gas is returned to the producer with a British thermal unit (**Btu**) content equivalent to the Btu content of the natural gas gathered. This arrangement keeps the producer whole to the thermal value of the natural gas received. Under the terms of a wellhead purchase contract, DCP Midstream purchases natural gas from the producer at the wellhead or defined receipt point for processing and markets the resulting NGLs and residue natural gas at market prices. Under these types of contracts, DCP Midstream is exposed to the difference between the value of the NGLs extracted from processing and the value of the Btu-equivalent of the residue natural gas, or frac spread. DCP Midstream benefits in periods when NGL prices are higher relative to natural gas prices, where that frac spread exceeds our cost.

Pursuant to the above arrangements, DCP Midstream also sells condensate, which is generally similar to crude oil and is produced in association with natural gas gathering and processing. The revenues that DCP Midstream earns from the sale of condensate correlate directly with crude oil prices.

History of the Business

Our strategy has been to create superior and sustainable value for our investors, customers, employees and communities by delivering natural gas, liquids and crude oil infrastructure to premium markets. We have grown our business organically and through greenfield expansions and strategic acquisitions, with a steadfast focus on safety, reliability, customer responsiveness and profitability. We have accomplished this by:

Building off the strength of our asset base.

Maximizing that base through sector leading operations and service.

Effectively executing the projects we have secured.

Securing new growth opportunities that add value for our investors within each of our business segments.

Expanding our value chain participation into complementary infrastructure assets.

Natural gas supply dynamics continue to change rapidly, and there is general recognition that natural gas can be an effective solution for meeting the energy needs of North America and beyond. This causes us to be optimistic about future growth opportunities. Identified opportunities include growth in gas-fired power generation and industrial markets, LNG exports from North America, growth related to moving new sources of gas supplies to markets (including exports) and significant new liquids pipeline infrastructure. With our advantage of providing

F-21

Table of Contents

continuous access from leading supply regions through to the last mile of pipe in growing natural gas, NGL and crude oil markets, we expect to continue expanding our assets and operations to meet the evolving needs of our customers.

Crude oil supply dynamics also continue to evolve as North American production moves from growth to decline. Growing North American crude oil production had in recent years displaced imports from overseas and was driving increased demand for crude oil transportation and logistics. Although depressed global crude oil prices have resulted in declining North American oil production, we remain confident about long-term growth in North American oil production and our ability to capture future opportunities to grow our crude oil pipeline business.

Successful execution of our strategy will depend on maintaining our leadership as a safe and reliable operator and the successful execution of our capital projects. Continued growth and new opportunities will be determined by key factors, such as the continued production and the consumption of natural gas, NGLs and crude oil within North America, and our ability to provide creative solutions to meet the markets' evolving energy needs in both North America and beyond.

We continue to be actively engaged in the national discussions in both the U.S. and Canada regarding energy policy and have taken a lead role in shaping policy as it relates to pipeline safety and operations.

The following outlines the significant developments for Spectra Energy over the course of the last three years for each of our reportable segments: Spectra Energy Partners, Distribution, Western Canada Transmission & Processing and Field Services.

Spectra Energy Partners

Completed Projects

During the fourth quarter of 2013, SEP placed in-service the New Jersey-New York Expansion, an 800 million cubic feet per day (**MMcf/d**) expansion of the Texas Eastern pipeline system consisting of a new 16-mile pipeline extension into lower Manhattan, New York and other associated facility upgrades. The project is designed to transport gas produced in the U.S. Gulf Coast, Mid-Continent, Rockies and Marcellus Shale regions into New York City.

SEP completed and placed in-service during the third quarter of 2014 the Buffalo Terminal Expansion. The Buffalo expansion consists of two additional 150,000 barrels (**Bbl**) above ground storage tanks along with delivery pump and piping facilities to supply crude oil to the Cenex Harvest States Front Range pipeline.

During the fourth quarter of 2014, SEP placed in-service two main projects: TEAM 2014 and Kingsport. TEAM 2014 is a 600 MMcf/d expansion of the Texas Eastern pipeline system consisting of new pipeline construction and is designed to transport gas produced in the Marcellus Shale to U.S. markets in the Northeast, Midwest and Gulf Coast. Kingsport is an additional 61 MMcf/d on the East Tennessee system that supports a customer's multi-year project to convert five coal-fired power plant boilers to natural gas.

Ohio Pipeline Energy Network (**OPEN**), a 550 MMcf/d expansion of the Texas Eastern pipeline system, was placed in-service during the second half of 2015. The OPEN pipeline system consists of new pipeline, a new compressor station and other facility upgrades designed to transport gas produced in the Utica Shale and Marcellus Shale to U.S. markets in the Midwest, Southeast and Gulf Coast.

Uniontown to Gas City provides shippers with 425 MMcf/d of firm transportation service from the supply-rich area west of Uniontown, Pennsylvania to a new delivery meter with Panhandle Eastern Pipe Line near Gas City, Indiana

for further redelivery to markets in the Midwest. Five shippers combine to contract for the full 425 MMcf/d of the capacity under the project. This project was placed in-service during the third quarter of 2015.

During the fourth quarter of 2015, SEP placed into service two projects: SESH Dentville and Bobcat Storage Expansion. The SESH Dentville project includes the installation of a single compressor located near the SESH/Texas Eastern Interconnect to maintain deliveries from Texas Eastern into SESH with changing pressure profile on Texas Eastern due to mainline expansion projects. SESH Dentville provides an additional capacity of up to 474 MMcf/d. The Bobcat Storage Expansion is designed to expand the storage capacity and capabilities of the Bobcat facility.

Expansion Projects in Execution

The Algonquin Incremental Market (**AIM**) project is a 342 MMcf/d expansion of the Algonquin system consisting of replacement pipeline, new pipeline, new and modified meter station facilities and additional compression at existing stations. The project is designed to transport gas from existing interconnects in New Jersey and New York to LDC markets in the northeast. We plan to invest approximately US\$1.1 billion to complete the project, which is expected to be placed in-service during the second half of 2016.

The Ozark Conversion project includes abandonment of portions of the Ozark Gas Transmission system from natural gas service and leasing of the abandoned lines to Magellan Midstream Partners, L.P. to transport approximately 75,000 barrels per day (**Bbls/d**) of refined products. Completion of SEP's scope of work occurred during the third quarter of 2015. The system was placed in-service during the first half of 2016.

Gulf Market Expansion, a Texas Eastern system expansion project, connects growth markets (Gulf Coast LNG and industrials) with diverse, growing shale supply. The project consists of installing reverse-compression capability at six compressor stations to provide up to 650 MMcf/d. The project will be executed in two phases. Phase 1, due to go in-service in the second half of 2016, will provide north to south compression at five stations. Phase 2, due to go in-service in the second half of 2017, will provide north to south compression at one station and new compression at one existing compressor station and one new compressor stations. The Gulf Market Expansion project is expected to cost approximately US\$150 million.

The Loudon Expansion project will provide a customer with 40,000 dekatherms per day of incremental capacity. The project is expected to be in-service during the second half of 2016 and to cost approximately US\$50 million.

Sabal Trail is 1,100 MMcf/d of new capacity to access onshore shale gas supplies. Facilities include a new 465-mile pipeline, laterals and various compressor stations. This project is expected to cost approximately US\$1.6 billion and to be in-service by the first half of 2017.

Salem Lateral, an expansion of the Algonquin system, will provide for delivery of 115 MMcf/d of natural gas to the Footprint Salem Harbor Power Station in Salem, Massachusetts. In-service is scheduled for the second half of 2016 with the total project expected to cost approximately US\$70 million.

The Express Enhancement project will increase system capacity by 21,000 Bbls/d. Facilities include the addition of tank storage at Hardisty, Alberta and Buffalo, Montana and additional pumps at Buffalo, Montana. The project is expected to cost approximately US\$135 million and to be in-service during the second half of 2016.

Distribution

In October 2013, the Ontario Energy Board (the **OEB**) approved a five-year incentive regulation framework for Union Gas, which Union Gas used to determine the rates it charged customers for natural gas delivery services beginning January 1, 2014. The parameters of the new framework were determined through a settlement process and negotiated agreement with the key stakeholders who regularly participate in Union Gas rates applications and who represent the

interests of Union Gas customers. The new incentive regulation framework establishes new rates at the beginning of each year through the use of a pricing formula rather than through the examination of revenue and cost forecasts.

F-23

Table of Contents

In September 2015, Union Gas filed an application with the OEB for new rates effective January 1, 2016 pursuant to its incentive regulation framework. In December 2015, the OEB approved the application with an implementation date of January 1, 2016. The impact on a typical residential customer ranges from a decrease of C\$3.00 to C\$10.00 annually depending on the customer's location within Union Gas's service territory.

Annual Deferral Account Disposition

In November 2012, the OEB determined that revenues derived from the optimization of Union Gas's upstream transportation contracts in 2011 would be treated as a reduction to gas costs rather than being treated as optimization revenues and included in utility earnings. In May 2014, Union Gas filed a notice of appeal to the Ontario Court of Appeal and a hearing was held in December 2014. The appeal was dismissed in June 2015 and no further appeals will be filed.

In March 2014, the OEB approved Union Gas's application for the annual disposition of the 2012 deferral account balances, resulting in a net benefit of US\$10 million to earnings. The OEB determined, among other things, that revenues derived from the optimization of Union Gas's upstream transportation contracts in 2012 will be treated as optimization revenues and included in utility earnings rather than a reduction to gas costs. As a result, Union Gas recognized revenue, net of earnings sharing, of US\$17 million in its Consolidated Statement of Operations in the first quarter of 2014.

In May 2014, Union Gas filed an application with the OEB for the annual disposition of the 2013 deferral account balances, except for the Demand Side Management (DSM) deferral accounts. The combined impact of the 2013 deferral account balances is a payable to customers of approximately US\$19 million which was primarily reflected as Current Liabilities - Other on its Consolidated Balance Sheets at December 31, 2014 and 2013. In October 2014, the OEB approved the balances with no significant impact to the amounts filed. The net payable to customers was refunded over a six month period that began January 1, 2015.

In April 2016, Union Gas filed an application with the OEB for the annual disposition of the 2015 deferral account balances. As a result, Union Gas has a net receivable from customers of approximately \$18 million as of September 30, 2016 and December 31, 2015, which is primarily reflected as Current Assets - Other on its Consolidated Balance Sheets. Union Gas filed a Settlement Proposal with the OEB in July 2016 reflecting a full settlement on all issues in the proceeding. Union Gas is proposing to implement the disposition of the balances as of October 1, 2016. A decision from the OEB is expected later this year.

Demand Side Management

In December 2014, Union Gas filed an application with the OEB for the disposition of the 2013 demand side management (**DSM**) deferral and variance account balances. In June 2015, the OEB approved recovery from ratepayers of approximately US\$9 million effective July 1, 2015.

In December 2014, the OEB issued guidelines for the next multi-year DSM framework for natural gas utilities. The term of this new framework is six years, from January 1, 2015 to December 31, 2020. Union Gas's 2015-2020 DSM plan represents an increased commitment and enhanced focus on promoting energy efficiency to create a culture of conservation in Ontario. The DSM plan was designed in accordance with the OEB guidelines and introduces some changes to the program portfolio. In January 2016, the OEB issued its decision on Union Gas's 2015-2020 DSM plan. The decision approved Union Gas's 2015 budget as filed and found that Union Gas had appropriately applied the DSM framework's C\$2 per month bill impact guidance as part of its 2016-2020 DSM budgets. The approved DSM budget is C\$57 million for 2016 and will increase up to C\$64 million by 2020. Under the OEB guidelines, Union Gas's maximum

shareholder incentive is approximately C\$10 million annually for 2016-2020. A mid-term review is to be completed by June 1, 2018 to assess the natural gas utilities performance and the appropriateness of the long-term DSM targets.

In December 2015, Union Gas filed an application with the OEB for the disposition of the 2014 DSM deferral and variance account balances. As a result of this application, Union Gas had a receivable from customers of

Table of Contents

approximately US\$8 million and US\$9 million, which were reflected as Receivables on the Consolidated Balance Sheets at December 31, 2015 and December 31, 2014, respectively. In June 2016, the OEB approved Union Gas application as filed and Union Gas has begun to recover the receivable from ratepayers effective October 1, 2016.

In March 2016, Union Gas filed a Draft Rate Order with the OEB for rates effective January 1, 2016 based on the OEB's February 24, 2016 updated Decision and Order on the 2015-2020 DSM Plan. In May 2016, a decision from the OEB was received approving recovery from ratepayers of approximately US\$19 million effective January 1, 2016 with an implementation date of July 1, 2016.

Parkway Projects

In early 2013, Union Gas applied for OEB approval to construct two compressors and related facilities at and near Union Gas' existing Parkway compressor station (**Parkway**) site, as well as to construct natural gas pipelines and ancillary facilities from the Brantford Valve site (**Brantford**) to the Kirkwall Custody Transfer Station (**Kirkwall**).

The purpose of the new Parkway compression facilities is to provide increased service reliability to shippers and additional capacity to meet new incremental demand growth. The purpose of the Brantford to Kirkwall pipeline and ancillary facilities is to meet the increase in demands on Union Gas' Dawn to Parkway transmission system, supporting competitive gas supply options as well as supply diversification associated with declining supplies from Alberta and increasing supplies in the Marcellus and Utica basins.

In January 2014, the OEB issued decisions approving the construction and rate recovery for these new facilities. The Parkway West site development commenced in October 2013 with service to customers commencing in the fall of 2015. In the case of the Brantford to Kirkwall pipeline and ancillary facilities, the OEB approval was conditional on the NEB's approval of TransCanada Pipelines Limited's (**TransCanada**) Kings North Project, as well as a written commitment from TransCanada to construct the Kings North Project. In June 2015, the NEB approved this project and the written commitment from TransCanada was received. The Brantford-Kirkwall project construction commenced in July 2015, and was brought into service in November 2015.

In September 2014, Union Gas applied for OEB approval for construction, and related rate recovery, of the Dawn to Parkway 2016 Expansion Project. This project involves the installation of a new compressor at the existing Lobo compressor station (**Lobo**), modifications to existing facilities at Lobo and construction of a pipeline from the Hamilton Valve Site to the Milton Valve Site. These facilities will provide incremental capacity on Union Gas' Dawn to Parkway transmission system and are supported by signed contracts with transmission customers. The total capital cost of the facilities is projected to be approximately C\$400 million. In April 2015, the OEB approved the construction and related rate recovery of the Dawn to Parkway 2016 Expansion Project. The Lobo compressor station construction commenced in May 2015 and the construction of the pipeline from the Hamilton Valve Site to the Milton Valve Site commenced in May 2016. The Lobo compressor station construction and the construction of the pipeline from the Hamilton Valve Site to the Milton Valve Site was completed during the fourth quarter of 2016.

In December 2015, the OEB approved the rate recovery of the Dawn to Parkway 2017 Expansion Project. This project involves the installation of a new compressor and associated facilities at Union Gas' Dawn, Lobo and Bright Compressor Stations to provide incremental capacity on Dawn to Parkway transmission system and is supported by signed contracts with its customers. The total capital cost of the facilities is expected to be approximately C\$623 million with partial in-service achieved during the fourth quarter of 2016 and final in-service during the fourth quarter of 2017. The construction of the three new compressors commenced in January 2016.

Burlington-Oakville Pipeline

In December 2014, Union Gas applied for OEB approval for construction and related rate recovery of a new transmission pipeline to serve the growing demands in the Burlington-Oakville area. The total capital cost of the

Table of Contents

pipeline is expected to be approximately C\$120 million with service to customers expected in the fall of 2016. In December 2015, the OEB approved the construction and rate recovery of the new transmission pipeline. The construction of the new transmission pipeline commenced in the first quarter of 2016 and was placed in-service during the second half of 2016.

Upstream Regulation TransCanada

In December 2013, TransCanada filed an application with the NEB for approval of tolls and services for 2015-2020 as provided for in a Settlement Agreement that had been reached by Union Gas, Gaz Métro Limited Partnership and Enbridge, collectively referred to as Market Area Shippers (**MAS**) and TransCanada. The Settlement Agreement provides for market access to supplies at Dawn and Niagara, provides long-term market and toll certainty, supports future growth and expansion of Union Gas transmission system and eliminates all prior regulatory and legal challenges.

In September 2014, MAS actively participated in an oral hearing to support the approval of the TransCanada application and represent the interests of eastern Canadian natural gas users. In November 2014, the NEB approved the application with implementation of the tolls effective January 1, 2015.

In October 2014, TransCanada filed an application with the NEB for the conversion of one of its mainline gas pipelines to transport oil (**Energy East Project**) and construction of a new natural gas pipeline to replace required capacity in eastern Ontario and Quebec resulting from the conversion of existing assets to oil service (**Eastern Mainline Project**).

Ontario's Minister of Energy directed the OEB to undertake a consultation process related to the Energy East Project. The purpose of the consultation is to inform the Ministry of Energy of the impacts the Energy East Project will have on Ontario natural gas consumers and to inform any involvement by the Ministry of Energy in future NEB proceedings related to the project. The OEB issued its report in August 2015 with one of the six main recommendations focused on natural gas consumers and markets.

Union Gas, along with other eastern Canadian local distribution companies, was active during the consultation process raising issues with respect to the impact on natural gas consumers and markets. In October 2015, TransCanada and MAS executed a settlement agreement that resolved Union Gas concerns and protects the interests of natural gas customers and markets in Québec and Ontario. During the fourth quarter of 2015, TransCanada amended its application for the Energy East Project and Eastern Mainline Project to reflect the content of the agreement.

Community Expansion

In response to a request from the Ontario Minister of Energy, the OEB invited all parties with the financial and technical expertise interested in distributing natural gas to unserved rural and remote communities in Ontario to submit an application for consideration pertaining to expansion portfolios and specific projects. In July 2015, Union Gas submitted its community expansion application which outlines a proposal for regulatory flexibility regarding project economics, a temporary expansion surcharge for new customers, an incremental tax equivalent contribution from municipalities and a capital pass-through mechanism that would allow Union Gas to expand its systems to serve over 30 communities that would otherwise not have access to natural gas.

In January 2016, the OEB issued a notice that Union Gas application would be put on hold pending a generic proceeding on the distribution of natural gas to unserved rural and remote communities in Ontario. The generic proceeding will consider possible alternative ratemaking frameworks to provide natural gas service to these

communities. In May 2016, the OEB held an oral hearing in its Community Expansion generic proceeding. In July 2016, Union Gas filed its final submissions in the proceeding. An OEB decision is expected later this year. At this time, it is too early to assess any potential impacts as a result of this proceeding.

Western Canada Transmission & Processing

Completed Projects

The 250 MMcf/d Fort Nelson North processing facility, which was the final phase and most significant capital outlay of our Fort Nelson expansion program, was placed into service in the first quarter of 2013. The Fort Nelson area's processing facilities have over 1.5 Bcf/d of raw gas processing nameplate capacity and associated raw gas gathering pipelines which extend more than 1,100 kilometers (**km**).

Increased producer interest in the Montney tight gas formation north of Fort St. John, British Columbia, enabled 151 MMcf/d of firm, incremental gathering and processing service agreements to be signed with a customer in 2011 for service at the Jedney, Highway and Aitken Creek facilities. The capital expansions required to accommodate this new production, collectively the North Montney Project, included minor modifications at the Jedney and Highway facilities, which were completed in 2012/2013, and the reactivation of the 100 MMcf/d Aitken Creek plant, which was completed in the second quarter of 2014.

In 2014, customers signed agreements supporting work required to increase NGL processing and handling capabilities at the Jedney plant, enabling an incremental 70 MMcf/d of liquids rich natural gas to be processed at the facility. The Jedney Debottleneck project was completed in November 2015 and is backed by firm service, take-or-pay contracts.

At Dawson, a 40 MMcf/d de-bottleneck project, backed by firm service take-or-pay contracts, was completed in November 2015.

We now operate 2.4 Bcf/d of processing facilities in the Peace River Arch, Fort St. John and Grizzly Valley areas of northeastern British Columbia and northwestern Alberta with associated raw gas gathering systems which extend approximately 2,400 km.

Expansion Projects in Execution

In 2014, BC Pipeline fully contracted the southern segment of its pipeline system on a firm annual basis for the first time in 15 years. This additional contracting was driven by demand pull end-users such as incremental industrial projects, electric power generation and small-scale liquefied natural gas. We will invest over C\$450 million in the Reliability and Maintainability project which involves upgrading of the southern segment of the pipeline system with three compressor replacements and preparing the pipeline system to run at a much higher load factor, particularly in the summer, when there will be higher utilization rates caused by the new incremental year-round loads. The project is expected to be phased into service through 2018.

We plan to invest C\$225 million on the northern segment of the BC Pipeline system in the Jackfish Lake supply push project projected to be placed into service in 2017. The expansion service agreements supporting the project were signed in 2014. This project involves looping two pipeline sections and compressor modifications and will provide an additional 140 MMcf/d of capacity to facilitate producer access to downstream markets.

In addition, the High Pine project on the BC Pipeline's Fort Nelson Mainline, to be comprised of two pipeline loops, a compressor addition and additional modifications to existing compressors, will provide 240 MMcf/d of incremental capacity to producers in the Montney area of the northeast British Columbia. This project is expected to cost C\$350 million and to be in-service by the end of 2016.

In 2012, Westcoast and BG International Limited (**BG** , acquired by Royal Dutch Shell plc in 2016) announced the signing of a Project Development Agreement to develop a new natural gas transmission system from northeast British Columbia to serve BG 's proposed LNG export facility in Prince Rupert on British Columbia 's northwest coast. In November 2014, the Province of British Columbia issued an environmental assessment certificate in respect of the project.

Negotiated Toll Settlements

M&N Canada negotiated a three-year toll settlement covering 2014-2016, which received unopposed approval from M&N Canada's shippers in March 2014 and was approved by the NEB in April 2014. The settlement has not had a material effect on our future consolidated results of operations, financial position or cash flows.

Hedging Program

Effective January 2014, Spectra Energy implemented a commodity hedging program at Empress in order to manage risks associated with commodity price fluctuations. The commodity hedging program helped manage the fluctuations in the Conway/Mont Belvieu index prices. However, the commodity hedging program did not manage potential fluctuations in pricing differentials between the Empress market and index prices. In April 2016, Spectra Energy entered into a definitive agreement to sell its ownership interest in Empress and, as a result, ceased entering into new contracts under the hedging program at Empress. On August 4, 2016, Spectra Energy completed the sale of its ownership interest in Empress to Plains Midstream Canada ULC.

Field Services

In November 2012, Spectra Energy acquired direct one-third ownership interests in Sand Hills and DCP Southern. DCP Midstream and Phillips 66 also each own a direct one-third interest in the two pipelines. With our direct ownership interests and our 50% ownership interest of DCP Midstream, we had 50% effective ownership interests in Sand Hills and Southern Hills at the time of acquisition in 2012.

Sand Hills is 720 miles of NGL pipeline, constructed by DCP Midstream, with an initial capacity of 200,000 Bbls/d. Sand Hills provides NGL transportation from the Permian Basin and Eagle Ford shale region to the premium NGL markets on the Gulf Coast and was placed into service during the second quarter of 2013. Southern Hills is 800 miles of NGL pipeline, also constructed by DCP Midstream, with an initial capacity of 150,000 Bbls/d. Southern Hills connects several DCP Midstream processing plants providing NGL transportation from the Mid-Continent to Mont Belvieu and was placed in-service during the second quarter of 2013.

On October 30, 2015, Spectra Energy contributed an additional 33.3% interest in Sand Hills and Southern Hills NGL pipelines previously held in our SEP segment to DCP Midstream.

Supplies and Raw Materials

We purchase a variety of manufactured equipment and materials for use in operations and expansion projects. The primary equipment and materials utilized in operations and project execution processes are steel pipe, compression engines, pumps, valves, fittings, polyethylene plastic pipe, gas meters and other consumables.

We operate a North American supply chain management network with employees dedicated to this function in the U.S. and Canada. Our supply chain management group uses economies-of-scale to maximize the efficiency of supply networks where applicable. The price of equipment and materials may vary however, perhaps substantially, from year to year. DCP Midstream performs its own supply chain management function.

Regulations

Most of our U.S. gas transmission, crude oil pipeline and storage operations are regulated by the FERC. The FERC regulates natural gas transmission in U.S. interstate commerce including the establishment of rates for services. The

FERC also regulates the construction of U.S. interstate natural gas pipelines and storage facilities, including the extension, enlargement and abandonment of facilities. In addition, certain operations are subject to oversight by state regulatory commissions. 1978, they are subject to FERC regulations. The FERC may propose and implement new rules and regulations affecting interstate natural gas transmission and storage companies, which remain subject to the FERC's jurisdiction. These initiatives may also affect certain transmission of gas by intrastate pipelines.

The operations of Spectra Energy Partners and DCP Midstream are subject to the jurisdiction of the Environmental Protection Agency (**EPA**) and various other federal, state and local environmental agencies. See *Environmental Matters* below for a discussion of environmental regulation. Our U.S. interstate natural gas pipelines and certain of DCP Midstream's gathering and transmission pipelines are also subject to the regulations of the U.S. Department of Transportation (**DOT**) concerning pipeline safety.

Express-Platte pipeline system rates and tariffs are subject to regulation by the NEB in Canada and the FERC in the U.S. In addition, the Platte pipeline also operates as an intrastate pipeline in Wyoming and is subject to jurisdiction by the Wyoming Public Service Commission.

The intrastate natural gas and NGL pipelines owned by us and DCP Midstream are subject to state regulation. To the extent that the natural gas intrastate pipelines that transport natural gas in interstate commerce provide services under Section 311 of the Natural Gas Policy Act of 1978, they are subject to FERC regulation. DCP Midstream's interstate natural gas pipeline operations are also subject to regulation by the FERC. The natural gas gathering and processing activities of DCP Midstream are not subject to FERC regulation.

Our Canadian operations are governed by various federal and provincial agencies with respect to pipeline safety, including the NEB and the Transportation Safety Board, the British Columbia Oil and Gas Commission, the Alberta Energy Regulator and the Ontario Technical Standards and Safety Authority.

Our Canadian natural gas transmission and distribution operations and approximately two-thirds of the storage operations in Canada are subject to regulation by the NEB or the provincial agencies in Canada, such as the OEB. These agencies have jurisdiction similar to the FERC for regulating rates, the terms and conditions of service, the construction of additional facilities and acquisitions. Our BC Field Services and Services business in western Canada is regulated by the NEB pursuant to a framework for light-handed regulation under which the NEB acts on a complaints-basis for rates associated with that business. Similarly, the rates charged by our Canadian Midstream operations for gathering and processing services in western Canada are regulated on a complaints-basis by applicable provincial regulators.

Environmental Matters

We are subject to various U.S. federal, state and local laws and regulations, as well as Canadian federal and provincial regulations, regarding air and water quality, hazardous and solid waste disposal and other environmental matters.

Environmental laws and regulations affecting our U.S.-based operations include, but are not limited to:

The Clean Air Act (**CAA**) and the 1990 amendments to the CAA, as well as state laws and regulations affecting air emissions (including State Implementation Plans related to existing and new national ambient air quality standards), which may limit new sources of air emissions. Our natural gas processing, transmission and storage assets are considered sources of air emissions and are thereby subject to the CAA. Owners and/or operators of air emission sources, like us, are responsible for obtaining permits for existing and new sources of air emissions and for annual compliance and reporting.

The Federal Water Pollution Control Act (**Clean Water Act**), which requires permits for facilities that discharge wastewaters into the environment. The Oil Pollution Act (**OPA**) amended parts of the Clean Water Act and other statutes as they pertain to the prevention of and response to oil spills. The OPA imposes certain spill prevention, control and countermeasure requirements. Although we are primarily a natural gas business, the OPA affects our business primarily because of the presence of liquid hydrocarbons (condensate) in our offshore pipelines.

The Comprehensive Environmental Response, Compensation and Liability Act (**CERCLA**), which imposes liability for remediation costs associated with environmentally contaminated sites. Under CERCLA, any individual or entity that currently owns or in the past owned or operated a disposal site can be held liable and required to share in remediation costs, as well as transporters or generators of hazardous substances sent to a disposal site. Because of the geographical extent of our operations, we have disposed of waste at many different sites and therefore have CERCLA liabilities.

The Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, which requires certain solid wastes, including hazardous wastes, to be managed pursuant to a comprehensive regulatory regime. As part of our business, we generate solid waste within the scope of these regulations and therefore must comply with such regulations.

The Toxic Substances Control Act, which requires that polychlorinated biphenyl (**PCB**) contaminated materials be managed in accordance with a comprehensive regulatory regime. Because of the historical use of lubricating oils containing PCBs, the internal surfaces of some of our pipeline systems are contaminated with PCBs, and liquids and other materials removed from these pipelines must be managed in compliance with such regulations.

The National Environmental Policy Act, which requires federal agencies to consider potential environmental effects in their decisions, including site approvals. Many of our capital projects require federal agency review, and therefore the environmental effects of proposed projects are a factor in determining whether we will be permitted to complete proposed projects.

Environmental laws and regulations affecting our Canadian-based operations include, but are not limited to:

The Fisheries Act (Canada), which regulates activities near any body of water in Canada.

The Environmental Management Act (British Columbia), the Environmental Protection and Enhancement Act (Alberta) and the Environmental Protection Act (Ontario) are provincial laws governing various aspects, including permitting and site remediation obligations, of our facilities and operations in those provinces.

The Canadian Environmental Protection Act, which, among other things, requires the reporting of greenhouse gas (**GHG**) emissions from our operations in Canada. Additional regulations to be promulgated under this Act may require the reduction of GHGs, nitrogen oxides, sulphur oxides, volatile organic compounds and particulate matter.

The Alberta Climate Change and Emissions Management Act (the **Act**) which, as of 2007, required certain facilities to meet reductions in emission intensity. The Act was applicable to our Empress facility in Alberta beginning in 2008.

The Canadian Environmental Assessment Act, 2012 (**CEAA 2012**) requires the NEB to consider potential environmental effects in their decisions for designated projects. The NEB under its enabling statute also conducts environmental assessments for projects that are not specifically designated under CEEA 2012. In either case, prior to receiving an approval to construct or operate a federally-regulated pipeline or facility, the NEB must consider a series of environmental factors, in particular whether the project has the potential to have adverse environmental effects. These types of assessments occur in relation to both maintenance and capital projects.

LEGAL PROCEEDINGS AND REGULATORY ACTIONS

Other than as disclosed herein, we have no material pending legal proceedings that are required to be disclosed hereunder. See Note 19 of Notes to Consolidated Financial Statements in Spectra Energy's audited consolidated financial statements for the year ended December 31, 2015 attached as Schedule A to this Appendix F for discussions of other legal proceedings.

Spectra Energy and its board of directors are named as defendants in six putative class action lawsuits filed by purported stockholders of Spectra Energy that challenge the Merger. The lawsuits include *Paul Parshall v. Spectra Energy Corp, et al.*, 12809-CB, filed in the Court of Chancery for the State of Delaware, and *Mary Lincoln v. Spectra Energy Corp, et al.*, 16-cv-03019, *Joseph Koller v. Spectra Energy Corp, et al.*, 16-cv-03059, *Joseph Costner v. Spectra Energy Corp et al.*, 16-cv-03065, *John L. Williams v. Spectra Energy Corp et al.*, 16-cv-03069 and *Joseph McMillan v. Spectra Energy Corp et al.*, 16-cv-03130, all filed in the United States District Court for the Southern District of Texas. The complaints allege, among other things, that Spectra Energy and its board of directors breached the board's fiduciary duties (in the Delaware lawsuit) and violated Sections 14(a) and 20(a) of the Exchange Act and Rule 14a-9 promulgated thereunder (in the Southern District of Texas lawsuits), as applicable, by issuing or causing to be issued an allegedly materially misleading and incomplete preliminary proxy statement in connection with the Merger. Enbridge and Merger Sub are also named as defendants in the Delaware lawsuit, and the Delaware complaint alleges, among other things, that Enbridge and Merger Sub aided and abetted Spectra Energy's board of directors breach of fiduciary duties. Plaintiffs seek as relief, among other things, an injunction against the Merger, rescission of the Merger to the extent it is already implemented, declaratory relief, costs and attorneys' fees, and/or damages. Spectra Energy and Enbridge believe the actions are without merit and intend to vigorously defend against them.

Table of Contents**INTEREST OF MANAGEMENT AND OTHERS IN MATERIAL TRANSACTIONS**

You should be aware that aside from their interests as Spectra Energy stockholders, Spectra Energy's directors and executive officers have interests in the Merger that are different from, or in addition to, those of Spectra Energy stockholders generally. Members of the Spectra Energy board of directors were aware of and considered these interests, among other matters, in evaluating and negotiating the Merger Agreement and the Merger, and in recommending to Spectra Energy stockholders that the Merger Agreement be adopted. For more information see the section entitled *The Merger Background of the Merger* in the Management Information Circular. These interests are described in more detail below, and certain of them are quantified in the narrative and the table below.

Treatment of Spectra Energy Equity Awards

Options. At the effective time, each outstanding option to purchase Spectra Energy common stock, which we refer to as a Spectra Energy option, whether vested or unvested, will automatically be converted into an option to purchase, on the same terms and conditions as were applicable immediately prior to the effective time, the number of Enbridge common shares equal to the product (rounded down to the nearest whole number) of (i) the number of shares of Spectra Energy common stock subject to such option immediately prior to the effective time and (ii) the exchange ratio, at an exercise price per share (rounded up to the nearest whole cent) equal to (A) the exercise price per share of Spectra Energy common stock of such Spectra Energy option immediately prior to the effective time divided by (B) the exchange ratio.

Phantom Units. At the effective time, each outstanding phantom unit denominated in Spectra Energy common stock, which we refer to as a Spectra Energy phantom unit, whether vested or unvested, will automatically be adjusted to represent a phantom unit, on the same terms and conditions as were applicable immediately prior to the effective time, denominated in a number of Enbridge common shares equal to the product (rounded down to the nearest whole number) of (i) the number of shares of Spectra Energy common stock subject to such Spectra Energy phantom unit immediately prior to the effective time and (ii) the exchange ratio.

Post-2015 Performance Stock Units. At the effective time, each outstanding Spectra Energy performance stock unit granted after December 31, 2015, which we refer to as a Post-2015 Spectra Energy PSU, will automatically be adjusted to represent a service-based stock unit, on the same terms and conditions (including service vesting terms, but excluding any performance vesting terms) as were applicable immediately prior to the effective time, denominated in Enbridge common shares, which we refer to as an Enbridge Stock-Based RSU. The number of Enbridge common shares subject to each such Enbridge Stock-Based RSU will be equal to the product (rounded down to the nearest whole number) of (i) the number of shares of Spectra Energy common stock subject to such Post-2015 Spectra Energy PSU immediately prior to the effective time (with any performance-based vesting conditions deemed satisfied based on actual performance through the effective time, in the case of performance stock units granted in 2016, and based on target, in the case of performance stock units granted in 2017, if any) multiplied by (ii) the exchange ratio.

2014 and 2015 Performance Stock Units. At the effective time, each outstanding Spectra Energy performance stock unit granted in the 2014 or 2015 calendar years, which we refer to respectively as a 2014 Spectra Energy PSU or 2015 Spectra Energy PSU, respectively, will automatically be cancelled and converted into the right to receive a number of Enbridge common shares equal to the product (rounded down to the nearest whole number) of (i) the number of shares of Spectra Energy common stock subject to such 2014 Spectra Energy PSU or 2015 Spectra Energy PSU immediately prior to the effective time determined in accordance with the immediately following sentence multiplied by (ii) the exchange ratio, together with a cash payment equal to the amount of any dividend equivalents accrued with respect to such 2014 Spectra Energy PSU or 2015 Spectra Energy PSU. The number of shares of Spectra Energy common stock subject to such 2014 Spectra Energy PSU or 2015 Spectra Energy PSU will be determined, (A) for any 2014 Spectra

Energy PSU, assuming a vesting

percentage of 100%, and (B) for any 2015 Spectra Energy PSU, assuming a vesting percentage determined as set forth in the applicable award agreement (i.e., based upon Spectra Energy's total stockholder return relative to the total stockholder return of the peer group for the period beginning on January 1, 2015, and ending on the date on which the effective time occurs).

Other Awards. At the effective time, each right of any kind, contingent or accrued, to acquire or receive Spectra Energy common stock or benefits measured by the value of Spectra Energy common stock, and each award of any kind consisting of Spectra Energy common stock that may be held, awarded, outstanding, payable or reserved for issuance under Spectra Energy's benefit plans other than Spectra Energy options, Spectra Energy phantom units, and Spectra Energy performance stock units, will automatically be adjusted to represent a right to acquire or receive benefits, on the same terms and conditions as were applicable immediately prior to the effective time, measured by the value of Enbridge common shares equal to the product (rounded down to the nearest whole number) of (i) the number of shares of Spectra Energy common stock subject to such award immediately prior to the effective time and (ii) the exchange ratio, and to the extent such award provides for payments to the extent the value of the Spectra Energy common stock exceeds a specified reference price, at a reference price per share (rounded to the nearest whole cent) equal to (A) the reference price per share of Spectra Energy common stock of such award immediately prior to the effective time divided by (B) the exchange ratio.

Quantification of Payments. Under the Spectra Energy Corp 2007 Long-Term Incentive Plan (which we refer to as the Spectra Energy equity plan), Spectra Energy awards assumed by Enbridge will vest in the event that, within 24 months following a change in control, the executive officer's employment is terminated by Spectra Energy without cause or by the executive officer with good reason (each of which we refer to as a **qualifying termination**). The Merger will constitute a change in control for purposes of the Spectra Energy equity plan.

For an estimate of the amounts that would be payable to each of Spectra Energy's named executive officers on settlement of their unvested Spectra Energy equity awards, see the section entitled *Quantification of Payments and Benefits to Spectra Energy's Named Executive Officers* below.

Change in Control Agreements with Executive Officers

Each of Spectra Energy's executive officers has entered into a change in control agreement with Spectra Energy, which provides for enhanced severance benefits in the event that, within 24 months following a change in control, the executive officer experiences a qualifying termination. The Merger will constitute a change in control for purposes of the change in control agreements.

Each change in control agreement provides that, in the event of a qualifying termination, the executive officer will be entitled to:

- a pro rata portion of the executive officer's target cash incentive compensation for the year of termination, payable in a cash lump sum;

- an amount equal to two times (three times, in the case of Gregory L. Ebel, Spectra Energy's Chairman, Chief Executive Officer, and President) the sum of the executive officer's annual base salary and target annual cash incentive opportunity, in each case, in effect immediately prior to the qualifying termination (or, if higher, as in effect immediately prior to the occurrence of an event constituting good reason), payable in a cash lump

sum;

either (i) continued welfare benefits for a period of two years following the executive officer's qualifying termination, in the case of executive officers located in the United States or (ii) a payment equal to the premium cost to Spectra Energy of maintaining welfare benefits for the executive officer for a period of two years, payable in a cash lump sum, in the case of executive officers located in Canada, in each case, subject to certain limitations;

(i) the amounts Spectra Energy would have allocated or contributed to the executive officer's tax qualified and nonqualified defined benefit pension plan and defined contribution savings plan accounts

during the two years following the date of termination, plus (ii) the unvested portion (if any) of the executive officer's accounts under such plans as of the date of termination that would have vested during such two-year period, plus (iii) in the case of executive officers located in Canada, an amount equal to two times the amount of the matching contributions that would have been made by Spectra Energy with respect to certain Canadian savings and stock purchase plans, in each case, payable in a cash lump sum;

a lump sum payment of US\$30,000 for outplacement assistance purposes; and

reimbursement of up to US\$100,000 for the cost of certain legal fees incurred in connection with claims under the agreements.

Payments under the change in control agreement are conditioned upon the executive officer executing a general release in favor of Spectra Energy. In addition, pursuant to the change in control agreements, any payments or benefits payable to the executive officer will be reduced to the extent that such payments or benefits would result in the imposition of excise taxes under Section 4999 of the Code, unless the executive officer would be better off on an after-tax basis receiving all such payments or benefits. The change in control agreements also contain (i) a confidentiality covenant and (ii) one-year post-termination noncompetition and nonsolicitation covenants in favor of Spectra Energy that apply if the executive officer incurs a qualifying termination.

For an estimate of the value of the payments and benefits described above that would be payable to Spectra Energy's named executive officers under their change in control agreement upon a qualifying termination in connection with the Merger, see the section entitled *Quantification of Payments and Benefits to Spectra Energy's Named Executive Officers* below.

2017 Annual Bonus

Under the Merger Agreement, Spectra Energy is permitted, in consultation with Enbridge, to determine the amount of the pre-closing bonus entitlement for each continuing employee who participates in a Spectra Energy annual bonus plan in an amount equal to the employee's full-year bonus entitlement under all such annual bonus plans for 2017, based on the greater of (i) deemed performance at target levels and (ii) actual performance through the latest practicable date prior to the effective time, extrapolated through the end of 2017, and prorated for the number of days that have elapsed during 2017 through the effective time. Enbridge has agreed to cause the surviving corporation or its affiliates to (A) provide each continuing employee an annual cash bonus opportunity under an Enbridge annual bonus plan for the balance of 2017 and (B) at the time annual cash bonuses for 2017 are paid to similarly situated employees of Enbridge (other than continuing employees), pay to each continuing employee the sum of (1) his or her pre-closing bonus amount and (2) the amount of such employee's bonus entitlement in respect of the portion of 2017 following the effective time. Enbridge and Spectra Energy have also agreed that the annual cash bonus payment in respect of the 2017 calendar year will, to the extent the recipient is a participant therein, be eligible for a matching contribution under, and will be counted towards pensionable earnings under, the applicable benefit plans of Spectra Energy under which such payment would have been taken into account as of the effective date of the Merger Agreement. For more information, see the section entitled *The Merger Agreement Employee Benefits* in the Management Information Circular.

No pro rata bonuses for 2017 would be determinable for or payable to Spectra Energy's executive officers if the effective time were to occur on October 20, 2016.

Spectra Energy Retiree Medical Plan

Under the Merger Agreement, Enbridge has agreed to continue or cause the surviving corporation to continue the Spectra Energy Retiree Medical Plan through the first anniversary of the effective time, on terms and conditions no less favorable than those in effect as of the effective time, with respect to those individuals who as of immediately prior to the effective time are receiving benefits under that plan. In addition, prior to the effective

time, Spectra Energy may amend the plan to provide that, among other things, any continuing employee of Spectra Energy and its subsidiaries who experiences a qualifying termination during the one-year period following the effective time will be provided with an additional two years of age and service credit for purposes of determining eligibility under the plan (without regard to whether such employee would be eligible for early retirement under a tax-qualified plan sponsored by Spectra Energy). For more information, see the section entitled *The Merger Agreement Employee Benefits* in the Management Information Circular.

For an estimate of the present value of the retiree medical coverage that will be provided to Spectra Energy's named executive officers under the Spectra Energy Retiree Medical Plan upon a qualifying termination, see the section entitled *Quantification of Payments and Benefits to Spectra Energy's Named Executive Officers* below.

Spectra Energy Supplemental Executive Retirement Plan

Westcoast Energy Inc., a subsidiary of Spectra Energy, maintains the Spectra Energy Supplemental Executive Retirement Plan (which we refer to as the **Spectra Energy SERP**) for the benefit of certain senior employees based in Canada. Mr. Ebel is a participant in the Spectra Energy SERP as a result of his having resided in Canada prior to 2007. One executive officer who is not a named executive officer and who resides in Canada is also a participant in the Spectra Energy SERP and the corresponding tax-qualified plan. In connection with Spectra Energy's entry into the Merger Agreement, Westcoast Energy Inc. amended the Spectra Energy SERP to provide that continuous service under the Spectra Energy SERP will be deemed to include any time period of salary continuance or time period represented by any equivalent payment or payments to a Spectra Energy SERP participant on account of earnings following termination of a participant's employment.

For an estimate of the value of the benefits that will become payable to Mr. Ebel under the Spectra Energy SERP upon a qualifying termination, see the section entitled *Quantification of Payments and Benefits to Spectra Energy's Named Executive Officers* below.

Retention Program

Under the Merger Agreement, Spectra Energy may establish a cash-based retention program for Spectra Energy employees identified by the chief executive officer of Spectra Energy (or his designee) that is designed to promote retention and reward extraordinary effort. Awards under the program are payable no earlier than the earlier of (i) immediately prior to the effective time and (ii) a qualifying termination occurring prior to the effective time.

As of the date of the Management Information Circular, no executive officer had been allocated an award under the retention program.

Other Compensation Matters

In addition to the payments and benefits above, under the terms of the Merger Agreement, Spectra Energy may take certain compensation actions prior to the completion of the Merger that will affect Spectra Energy's directors and executive officers, although determinations related to such actions have not been made as of the date of the Management Information Circular and the impact of such actions is not reflected in the amounts estimated above and in the section entitled *Quantification of Payments and Benefits to Spectra Energy's Named Executive Officers* below. Among other actions, Spectra Energy may pay directors fees and other compensation and benefits in the ordinary course of business. Spectra Energy may also determine and pay annual bonuses in respect of the 2016 fiscal year based on actual performance if the effective time has not occurred by the time such bonuses would be paid in the ordinary course of business, and make grants of annual 2017 equity awards to directors and executive officers in the

ordinary course of business, consistent with past practice, subject to certain limitations.

F-40

Table of Contents

In addition, Spectra Energy may, in consultation with Enbridge, accelerate the vesting and payment of certain compensatory amounts so that they are paid in 2016 for tax planning purposes with respect to Sections 280G and 4999 of the Code, including accelerating the vesting of Spectra Energy equity awards that would have otherwise vested after December 31, 2016 so that they vest in 2016 and determining and paying bonuses in respect of the 2016 fiscal year on or prior to December 31, 2016.

New Employment Arrangements with Spectra Energy Executive Officers

After the Merger Agreement was signed, there have been discussions between Enbridge and certain of the Spectra Energy executive officers regarding post-closing roles for such executive officers within the Enbridge organization. In connection with these discussions and in furtherance of Enbridge's desire to retain those executive officers, new employment agreements may be entered into with those individuals. There is no assurance that those discussions will result in any new employment agreements or, if so, what the terms and conditions of any such agreements would be. Spectra Energy expects to reimburse its executive officers for any legal fees incurred in connection with the negotiation of any such employment agreement.

Indemnification and Insurance

Pursuant to the terms of the Merger Agreement, Spectra Energy's directors and executive officers will be entitled to certain ongoing indemnification and coverage for a period of six years following the effective time under directors' and officers' liability insurance policies from the surviving corporation. This indemnification and insurance coverage is further described in the section entitled *The Merger Agreement - Director & Officer Indemnification and Insurance* in the Management Information Circular.

Enbridge Board of Directors Following the Merger

Pursuant to the Merger Agreement, Enbridge has agreed to cause the number of directors that will comprise the Enbridge board of directors at the effective time to be equal to 13 individuals and to appoint five members of the Spectra Energy board of directors designated by Spectra Energy. In addition, Enbridge has agreed to cause Mr. Ebel to become non-executive Chairman of the Enbridge board of directors as of the effective time. From the effective time until the first meeting of the Enbridge board of directors following the 2020 annual shareholders meeting of Enbridge, Enbridge will provide, without charge, to the non-executive Chairman of the Enbridge board of directors (i) use of Enbridge's aircraft for business flights to board meetings and for other business conducted on behalf of Enbridge, (ii) information technology support, and (iii) administrative support. Enbridge will also secure office space in the Houston area on behalf of the non-executive Chairman of the Enbridge board of directors and will reimburse the non-executive Chairman for expenses incurred for tax return preparation services (in an aggregate amount not to exceed \$100,000 per year for such office and tax return preparation services).

Quantification of Payments and Benefits to Spectra Energy's Named Executive Officers

The table below sets forth the amount of payments and benefits that each of Spectra Energy's named executive officers would receive in connection with the Merger, assuming that the Merger was consummated and each such executive officer experienced a qualifying termination on October 20, 2016. The amounts below are determined using a per share price of Spectra Energy common stock of US\$42.62, the average closing price per share of Spectra Energy common stock over the first five business days following the announcement of the Merger Agreement, and are based on multiple assumptions that may or may not actually occur or be accurate on the relevant date, including the assumptions described in the footnotes to the table. As a result of the foregoing assumptions, the actual amounts, if any, to be received by a named executive officer may materially differ from the amounts set forth below.

All such payments are double-trigger (i.e., payable upon a qualifying termination following the occurrence of a change in control). Set forth below are the values of each type of unvested equity-based award including any tandem dividend equivalents subject thereto that would vest and become payable assuming that the Merger was consummated and each named executive officer experienced a qualifying termination on October 20, 2016. Such values are based on a price per share of Spectra Energy common stock of US\$42.62, the average closing price per share of Spectra Energy common stock over the first five business days following the announcement of the Merger Agreement, and less the applicable exercise price in the case of unvested Spectra Energy options. In accordance with the terms of the applicable award agreements, 2014 Spectra Energy PSUs are presented assuming target performance and 2015 Spectra Energy PSUs and Post-2015 Spectra Energy PSUs are presented based on an estimate of actual performance through October 20, 2016 (i.e., 200% of target

performance). Note that unvested equity-based awards held by the named executive officers as of October 20, 2016 will continue to vest in the ordinary course, and any such awards that vest prior to the consummation of the Merger would not be payable in connection with the Merger or a qualifying termination.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Spectra Energy Corp

We have audited the accompanying consolidated balance sheets of Spectra Energy Corp and subsidiaries (the Company) as of December 31, 2015 and 2014, and the related consolidated statements of operations, comprehensive income, cash flows and equity for each of the three years in the period ended December 31, 2015. Our audits also included the financial statement schedule listed in the index at Item 15. We also have audited the Company's internal control over financial reporting as of December 31, 2015, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission. The Company's management is responsible for these financial statements and financial statement schedule, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on these financial statements and financial statement schedule and an opinion on the Company's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed by, or under the supervision of, the company's principal executive and principal financial officers, or persons performing similar functions, and effected by the company's board of directors, management, and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of the inherent limitations of internal control over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may not be prevented or detected on a timely basis. Also, projections of any evaluation of the effectiveness of the internal control over financial reporting to future periods are subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Spectra Energy Corp and subsidiaries as of December 31, 2015 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2015, in

conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein. Also, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2015, based on the criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

1. Summary of Operations and Significant Accounting Policies	

The terms we, our, us and Spectra Energy as used in this report refer collectively to Spectra Energy Corp and its subsidiaries unless the context suggests otherwise. These terms are used for convenience only and are not intended as a precise description of any separate legal entity within Spectra Energy. The term Spectra Energy Partners refers to our Spectra Energy Partners operating segment. The term SEP refers to Spectra Energy Partners, LP, our master limited partnership.

Nature of Operations. Spectra Energy Corp, through its subsidiaries and equity affiliates, owns and operates a large and diversified portfolio of complementary natural gas-related energy assets, and owns and operates a crude oil pipeline system that connects Canadian and U.S. producers to refineries in the U.S. Rocky Mountain and Midwest regions. We currently operate in three key areas of the natural gas industry: gathering and processing, transmission and storage, and distribution. We provide transmission and storage of natural gas to customers in various regions of the northeastern and southeastern U.S., the Maritime Provinces in Canada, the

F-A-11

Table of Contents

Pacific Northwest in the U.S. and Canada, and in the province of Ontario, Canada. We also provide natural gas sales and distribution services to retail customers in Ontario, and natural gas gathering and processing services to customers in western Canada. We also own a 50% interest in DCP Midstream, LLC (DCP Midstream), based in Denver, Colorado, one of the leading natural gas gatherers in the U.S. and one of the largest U.S. producers and marketers of natural gas liquids (NGLs).

Basis of Presentation. The accompanying Consolidated Financial Statements include our accounts and the accounts of our majority-owned subsidiaries, after eliminating intercompany transactions and balances.

Use of Estimates. To conform with generally accepted accounting principles (GAAP) in the U.S., we make estimates and assumptions that affect the amounts reported in the Consolidated Financial Statements and Notes to Consolidated Financial Statements. Although these estimates are based on our best available knowledge at the time, actual results could differ.

Fair Value Measurements. We measure the fair value of financial assets and liabilities by maximizing the use of observable inputs and minimizing the use of unobservable inputs. Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

Cost-Based Regulation. The economic effects of regulation can result in a regulated company recording assets for costs that have been or are expected to be approved for recovery from customers or recording liabilities for amounts that are expected to be returned to customers or for instances where the regulator provides current rates that are intended to recover costs that are expected to be incurred in the future. Accordingly, we record assets and liabilities that result from the regulated ratemaking process that may not be recorded under GAAP for non-regulated entities. We continually assess whether regulatory assets are probable of future recovery by considering factors such as applicable regulatory changes and recent rate orders to other regulated entities. Based on this assessment, we believe our existing regulatory assets are probable of recovery. These regulatory assets and liabilities are mostly classified in the Consolidated Balance Sheets as Regulatory Assets and Deferred Debits, and Deferred Credits and Other Liabilities Regulatory and Other. We evaluate our regulated assets, and consider factors such as regulatory changes and the effect of competition. If cost-based regulation ends or competition increases, we may have to reduce our asset balances to reflect a market basis less than cost and write-off the associated regulatory assets and liabilities. See Note 5 for further discussion.

Foreign Currency Translation. The Canadian dollar has been determined to be the functional currency of our Canadian operations based on an assessment of the economic circumstances of those operations. Assets and liabilities of our Canadian operations are translated into U.S. dollars at current exchange rates. Translation adjustments resulting from fluctuations in exchange rates are included as a separate component of Other Comprehensive Income on the Consolidated Statements of Comprehensive Income. Revenue and expense accounts of these operations are translated at average monthly exchange rates prevailing during the periods. Gains and losses arising from transactions denominated in currencies other than the functional currency are included in the results of operations of the period in which they occur. Foreign currency transaction losses totaled \$6 million in 2015, and gains totaled \$3 million in 2014 and \$1 million in 2013, and are included in Other Income and Expenses, Net on the Consolidated Statements of Operations. Deferred U.S. taxes related to translation gains and losses have not been provided on those Canadian operations where we expect the earnings to be indefinitely reinvested.

Revenue Recognition. Revenues from the transmission, storage, processing, distribution and sales of natural gas, from the sales of NGLs and from the transportation and storage of crude oil are generally recognized when either the service is provided or the product is delivered. Revenues related to these services provided or products delivered but

not yet billed are estimated each month. These estimates are generally based on contract data, regulatory information, estimated distribution usage based on historical data adjusted for heating degree days, commodity prices and preliminary throughput and allocation measurements. Final bills for the current month are billed and collected in the following month. Differences between actual and estimated unbilled revenues are immaterial. There were no customers accounting for 10% or more of consolidated revenues during

F-A-12

Table of Contents

2015, 2014 or 2013. We also have certain customer contracts with billed amounts that decline annually over the terms of the contracts. Differences between the amounts billed and recognized are deferred on the Consolidated Balance Sheets.

Stock-Based Compensation. For employee awards, equity-classified and liability-classified stock-based compensation cost is measured at the grant date based on the fair value of the award. Liability-classified stock-based compensation cost is remeasured at each reporting period until settlement. Related compensation expense is recognized over the requisite service period, which generally begins on the date the award is granted through the earlier of the date the award vests, the date the employee becomes retirement-eligible or the date the market or performance condition of the award is met. Awards, including stock options, granted to employees that are retirement-eligible are deemed to have vested immediately upon issuance, and therefore, compensation cost for those awards is recognized on the date such awards are granted. See Note 22 for further discussion.

Pension and Other Post-Retirement Benefits. We fully recognize the overfunded or underfunded status of our consolidating subsidiaries' pension and other post-retirement benefit plans as Investments and Other Assets, Other, Current Liabilities, Other or Deferred Credits and Other Liabilities, Regulatory and Other in the Consolidated Balance Sheets, as appropriate. A plan's funded status is the difference between the fair value of plan assets and the plan's projected benefit obligation. We record deferred plan costs and income (unrecognized losses and gains, and unrecognized prior service costs and credits) in Accumulated Other Comprehensive Income (AOCI) on the Consolidated Statements of Equity, until they are amortized and recognized as a component of benefit expense within Operating, Maintenance and Other in the Consolidated Statements of Operations. See Note 23 for further discussion.

Allowance for Funds Used During Construction (AFUDC). AFUDC, which represents the estimated debt and equity costs of capital funds necessary to finance the construction of certain new regulated facilities, consists of two components, an equity component and an interest expense component. The equity component is a non-cash item. After construction is completed, we are permitted to recover these costs through inclusion in the rate base and in the depreciation provision. AFUDC is capitalized as a component of Property, Plant and Equipment Cost in the Consolidated Balance Sheets, with offsetting credits to the Consolidated Statements of Operations through Other Income and Expenses, Net for the equity component and Interest Expense for the interest expense component. The total amount of AFUDC included in the Consolidated Statements of Operations was \$143 million in 2015 (an equity component of \$111 million and an interest expense component of \$32 million), \$72 million in 2014 (an equity component of \$53 million and an interest expense component of \$19 million) and \$155 million in 2013 (an equity component of \$105 million and an interest expense component of \$50 million).

Income Taxes. Deferred income taxes are recognized for differences between the financial reporting and tax bases of assets and liabilities at enacted statutory tax rates in effect for the years in which the differences are expected to reverse. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date. Actual income taxes could vary from these estimates due to future changes in income tax law or results from the final review of tax returns by federal, state or foreign tax authorities.

Financial statement effects on tax positions are recognized in the period in which it is more likely than not that the position will be sustained upon examination, the position is effectively settled or when the statute of limitations to challenge the position has expired. Interest and penalties related to unrecognized tax benefits are recorded as interest expense and other expense, respectively.

Cash and Cash Equivalents. Highly liquid investments with original maturities of three months or less at the date of acquisition are considered cash equivalents, except for the investments that were pledged as collateral against long-term debt as discussed in Note 15 and any investments that are considered restricted funds.

Inventory. Inventory consists of natural gas and NGLs held in storage for transmission and processing, and also includes materials and supplies. Natural gas inventories primarily relate to the Distribution segment in Canada and are valued at costs approved by the regulator, the Ontario Energy Board (OEB). The difference

F-A-13

Table of Contents

between the approved price and the actual cost of gas purchased is recorded in either Fuel Tracker or Other Current Liabilities, as appropriate, for future disposition with customers, subject to approval by the OEB. The remaining inventory is recorded at the lower of cost or market, primarily using average cost.

Natural Gas Imbalances. The Consolidated Balance Sheets include in-kind balances as a result of differences in gas volumes received and delivered for customers. Since settlement of certain imbalances is in-kind, changes in their balances do not have an effect on our Consolidated Statements of Cash Flows. Receivables include \$291 million and \$642 million as of December 31, 2015 and December 31, 2014, respectively, and Other Current Liabilities include \$287 million and \$634 million as of December 31, 2015 and December 31, 2014, respectively, related to gas imbalances. Most natural gas volumes owed to or by us are valued at natural gas market index prices as of the balance sheet dates.

Risk Management and Hedging Activities and Financial Instruments. Currently, our use of derivative instruments is primarily limited to interest rate positions and commodity pricing. All derivative instruments that do not qualify for the normal purchases and normal sales exception are recorded on the Consolidated Balance Sheets at fair value. Cash inflows and outflows related to derivative instruments are a component of Cash Flows From Operating Activities in the accompanying Consolidated Statements of Cash Flows.

Cash Flow and Fair Value Hedges. Qualifying energy commodity and other derivatives may be designated as either a hedge of a forecasted transaction (cash flow hedge) or a hedge of a recognized asset, liability or firm commitment (fair value hedge). For all hedge contracts, we prepare documentation of the hedge in accordance with accounting standards and assess whether the hedge contract is highly effective using regression analysis, both at inception and on a quarterly basis, in offsetting changes in cash flows or fair values of hedged items. We document hedging activity by instrument type (futures or swaps) and risk management strategy (commodity price risk or interest rate risk).

For derivatives designated as fair value hedges, we recognize the gain or loss on the derivative instrument, as well as the offsetting gain or loss on the hedged item in earnings, to the extent effective, in the current period. In the event the hedge is not effective, there is no offsetting gain or loss recognized in earnings for the hedged item. All derivatives designated and accounted for as hedges are classified in the same category as the item being hedged in the Consolidated Statements of Cash Flows. All components of each derivative gain or loss are included in the assessment of hedge effectiveness.

Investments. We may actively invest a portion of our available cash and restricted funds balances in various financial instruments, including taxable or tax-exempt debt securities. In addition, we invest in short-term money market securities, some of which are restricted due to debt collateral or insurance requirements. Investments in available-for-sale (AFS) securities are carried at fair value and investments in held-to-maturity (HTM) securities are carried at cost. Investments in money market securities are also accounted for at fair value. Realized gains and losses, and dividend and interest income related to these securities, including any amortization of discounts or premiums arising at acquisition, are included in earnings. The costs of securities sold are determined using the specific identification method. Purchases and sales of AFS and HTM securities are presented on a gross basis within Cash Flows From Investing Activities in the accompanying Consolidated Statements of Cash Flows.

Goodwill. We perform our goodwill impairment test annually and evaluate goodwill when events or changes in circumstances indicate that its carrying value may not be recoverable. In 2015 we recorded a goodwill impairment charge of \$270 million for British Columbia (BC) Field Services and \$63 million for Empress NGL operations associated with the Westcoast Energy, Inc. (Westcoast) acquisition in 2002. No impairments of goodwill were recorded in 2014 or 2013. See Note 11 for further discussion.

We perform our annual review for goodwill impairment at the reporting unit level, which is identified by assessing whether the components of our operating segments constitute businesses for which discrete financial information is available, whether segment management regularly reviews the operating results of those components and whether the economic and regulatory characteristics are similar. We determined that our

F-A-14

Table of Contents

reporting units are equivalent to our reportable segments, except for the reporting units of our Western Canada Transmission & Processing and Spectra Energy Partners reportable segments, which are one level below.

As permitted under accounting guidance on testing goodwill for impairment, we perform either a qualitative assessment or a quantitative assessment of each of our reporting units based on management's judgment. With respect to our qualitative assessments, we consider events and circumstances specific to us, such as macroeconomic conditions, industry and market considerations, cost factors and overall financial performance, when evaluating whether it is more likely than not that the fair values of our reporting units are less than their respective carrying amounts.

In connection with our quantitative assessments, we primarily use a discounted cash flow analysis to determine the fair values of those reporting units. Key assumptions in the determination of fair value included the use of an appropriate discount rate and estimated future cash flows. In estimating cash flows, we incorporate expected long-term growth rates in key markets served by our operations, regulatory stability, the ability to renew contracts, commodity prices (where appropriate) and foreign currency exchange rates, as well as other factors that affect our reporting units' revenue, expense and capital expenditure projections. If the carrying amount of the reporting unit exceeds its fair value, a comparison of the fair value and carrying value of the goodwill of that reporting unit needs to be performed. If the carrying value of the goodwill of a reporting unit exceeds the implied fair value of that goodwill, an impairment loss is recognized in an amount equal to the excess. Additional impairment tests are performed between the annual reviews if events or changes in circumstances make it more likely than not that the fair value of a reporting unit is below its carrying amount.

Property, Plant and Equipment. Property, plant and equipment is stated at historical cost less accumulated depreciation. We capitalize all construction-related direct labor and material costs, as well as indirect construction costs. Indirect costs include general engineering, taxes and the cost of funds used during construction. The costs of renewals and betterments that extend the useful life or increase the expected output of property, plant and equipment are also capitalized. The costs of repairs, replacements and major maintenance projects that do not extend the useful life or increase the expected output of property, plant and equipment are expensed as incurred. Depreciation is generally computed over the asset's estimated useful life using the straight-line method.

When we retire regulated property, plant and equipment, we charge the original cost plus the cost of retirement, less salvage value, to accumulated depreciation and amortization. When we sell entire regulated operating units or retire non-regulated properties, the cost is removed from the property account and the related accumulated depreciation and amortization accounts are reduced. Any gain or loss is recorded in earnings, unless otherwise required by the applicable regulatory body.

Preliminary Project Costs. Project development costs, including expenditures for preliminary surveys, plans, investigations, environmental studies, regulatory applications and other costs incurred for the purpose of determining the feasibility of capital expansion projects, are capitalized for rate-regulated enterprises when it is determined that recovery of such costs through regulated revenues of the completed project is probable. Any inception-to-date costs of the project that were initially expensed are reversed and capitalized as Property, Plant and Equipment.

Long-Lived Asset Impairments. We evaluate whether long-lived assets, excluding goodwill, have been impaired when circumstances indicate the carrying value of those assets may not be recoverable. For such long-lived assets, an impairment exists when its carrying value exceeds the sum of estimates of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. When alternative courses of action to recover the carrying amount of a long-lived asset are under consideration, a probability-weighted approach is used in developing estimates of future undiscounted cash flows. If the carrying value of the long-lived asset is not recoverable based on these

estimated future undiscounted cash flows, an impairment loss is measured as the excess of the asset's carrying value over its fair value, such that the asset's carrying value is adjusted to its estimated fair value.

F-A-15

Table of Contents

We assess the fair value of long-lived assets using commonly accepted techniques and may use more than one source. Sources to determine fair value include, but are not limited to, recent third-party comparable sales, internally developed discounted cash flow analyses and analyses from outside advisors. Significant changes in market conditions resulting from events such as changes in natural gas available to our systems, the condition of an asset, a change in our intent to utilize the asset or a significant change in contracted revenues or regulatory recoveries would generally require us to reassess the cash flows related to the long-lived assets.

Asset Retirement Obligations. We recognize asset retirement obligations (AROs) for legal commitments associated with the retirement of long-lived assets that result from the acquisition, construction, development and/or normal use of the asset and conditional AROs in which the timing or method of settlement are conditional on a future event that may or may not be within our control. The fair value of a liability for an ARO is recognized in the period in which it is incurred if a reasonable estimate of fair value can be made and is added to the carrying amount of the associated asset. This additional carrying amount is depreciated over the estimated useful life of the asset.

Unamortized Debt Premium, Discount and Expense. Premiums, discounts and expenses incurred with the issuance of outstanding long-term debt are amortized over the terms of the debt issues. Any call premiums or unamortized expenses associated with refinancing higher-cost debt obligations to finance regulated assets and operations are amortized consistent with regulatory treatment of those items, where appropriate.

Environmental Expenditures. We expense environmental expenditures related to conditions caused by past operations that do not generate current or future revenues. Environmental expenditures related to operations that generate current or future revenues are expensed or capitalized, as appropriate. Undiscounted liabilities are recorded when the necessity for environmental remediation becomes probable and the costs can be reasonably estimated, or when other potential environmental liabilities are reasonably estimable and probable.

Captive Insurance Reserves. We have captive insurance subsidiaries which provide insurance coverage to our consolidated subsidiaries as well as certain equity affiliates, on a limited basis, for various business risks and losses, such as workers compensation, property, business interruption and general liability. Liabilities include provisions for estimated losses incurred but not yet reported, as well as provisions for known claims which have been estimated on a claims-incurred basis. Incurred but not yet reported reserve estimates involve the use of assumptions and are based upon historical loss experience, industry data and other actuarial assumptions. Reserve estimates are adjusted in future periods as actual losses differ from historical experience.

Guarantees. Upon issuance or material modification of a guarantee made by us, we recognize a liability for the estimated fair value of the obligation we assume under that guarantee, if any. Fair value is estimated using a probability-weighted approach. We reduce the obligation over the term of the guarantee or related contract in a systematic and rational method as risk is reduced under the obligation.

Accounting For Sales of Stock by a Subsidiary. Sales of stock by a consolidated subsidiary are accounted for as equity transactions in those instances where a change in control does not take place.

Segment Reporting. Operating segments are components of an enterprise for which separate financial information is available and evaluated regularly by the chief operating decision maker (CODM) in deciding how to allocate resources and evaluate performance. Two or more operating segments may be aggregated into a single reportable segment provided certain criteria are met. There is no such aggregation within our defined business segments. A description of our reportable segments, consistent with how business results are reported internally to management, and the disclosure of segment information is presented in Note 4.

Consolidated Statements of Cash Flows. Cash flows from discontinued operations are combined with cash flows from continuing operations within operating, investing and financing cash flows. Cash received from insurance proceeds are classified depending on the activity that resulted in the insurance proceeds. For example, business interruption insurance proceeds are included as a component of operating activities while insurance

F-A-16

Table of Contents

proceeds from damaged property are included as a component of investing activities. With respect to cash overdrafts, book overdrafts are included within operating cash flows while bank overdrafts, if any, are included within financing cash flows.

Distributions from Equity Investments. We consider distributions received from equity investments which do not exceed cumulative equity in earnings subsequent to the date of investment to be a return on investment and classify these amounts as Cash Flows From Operating Activities within the accompanying Consolidated Statements of Cash Flows. Cumulative distributions received in excess of cumulative equity in earnings subsequent to the date of investment are considered to be a return of investment and are classified as Cash Flows From Investing Activities.

New Accounting Pronouncements. The following new Accounting Standards Updates (ASUs) were adopted during 2015 and the effect of such adoption has been presented in the accompanying Consolidated Financial Statements:

In April 2014, the Financial Accounting Standards Board (FASB) issued ASU No. 2014-08, *Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity*. This ASU revises the definition of discontinued operations by limiting discontinued operations reporting to disposals of components of an entity that represent strategic shifts that have or will have a major effect on an entity's operations and financial results, removing the lack of continuing involvement criteria and requiring discontinued operations reporting for the disposal of an equity method investment that meets the definition of discontinued operations. The update also requires expanded disclosures for discontinued operations, and disclosure of pretax profit or loss of certain individually significant components of an entity that do not qualify for discontinued operations reporting. This ASU was effective for us on January 1, 2015 and did not have a material impact on our consolidated results of operations, financial position or cash flows.

In April 2015, the FASB issued ASU No. 2015-03, *Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*, which requires that debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of the related debt liability, rather than as a deferred charge asset. We adopted this standard on December 31, 2015. The adoption of this ASU resulted in the retrospective adjustment of the December 31, 2014 Consolidated Balance Sheet, which resulted in the presentation of \$42 million of debt issuance costs previously reported in Regulatory Assets and Deferred Debits as a reduction of Long-term Debt on our Consolidated Balance Sheet. In addition, \$46 million of debt issuance costs are presented as a reduction of Long-term Debt on our December 31, 2015 Consolidated Balance Sheet.

In November 2015, the FASB issued ASU No. 2015-17, *Accounting for Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes*. This ASU simplifies the balance sheet presentation of deferred income taxes by requiring deferred tax liabilities and assets be classified as noncurrent in a classified balance sheet. We adopted this standard on December 31, 2015 and applied it prospectively. The adoption of this ASU did not have a material impact on our consolidated results of operations, financial position, or cash flow.

Pending. The following new accounting pronouncements have been issued but not yet adopted:

In February 2015, the FASB issued ASU No. 2015-02, *Consolidation (Topic 810): Amendments to the Consolidation Analysis*, which makes changes to both the variable interest model and the voting model. These changes will require re-evaluation of certain entities for consolidation and will require us to revise our documentation regarding the consolidation or deconsolidation of such entities. This ASU is effective for us on January 1, 2016 and is not expected to have a material impact on our consolidated results of operations, financial position or cash flow.

In July 2015, the FASB issued ASU No. 2015-11, *Inventory (Topic 330): Simplifying the Measurement of Inventory*, which simplifies the subsequent measurement of inventory by requiring inventory to be measured at the lower of cost and net realizable value. This ASU is effective for us January 1, 2016 and is not expected to have a material impact on our consolidated results of operations, financial position or cash flow.

F-A-17

Table of Contents

In July 2015, the FASB decided to defer the effective date of the revenue standard ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, for one year and to permit entities to early adopt the standard as of the original effective date. ASU No. 2014-09 supersedes the revenue recognition requirements of *Revenue Recognition (Topic 605)* and clarifies the principles of recognizing revenue. This ASU is effective for us January 1, 2018. We are currently evaluating this ASU and its potential impact on us.

In September 2015, the FASB issued ASU No. 2015-16, *Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments*, to simplify accounting for adjustments made to provisional amounts recognized in a business combination and to eliminate the retrospective accounting for those adjustments. This ASU is effective for us January 1, 2016 and is not expected to have a material impact on our consolidated results of operations, financial position or cash flow.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, which amends the classification and measurement of financial instruments. Changes primarily affect the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. This ASU is effective for us beginning after December 15, 2017. Early adoption is not permitted. We are currently evaluating this ASU and its potential impact on us.

2014. There were no significant accounting pronouncements issued during 2014 that had a material impact on our consolidated results of operations, financial position or cash flows.

2013. There were no significant accounting pronouncements issued during 2013 that had a material impact on our consolidated results of operations, financial position or cash flows.

2. Spectra Energy Partners, LP

SEP is our natural gas infrastructure and crude oil pipeline master limited partnership. As of December 31, 2015, Spectra Energy owned 78% of SEP, including a 2% general partner interest.

Sand Hills and Southern Hills. On October 30, 2015, Spectra Energy acquired SEP's 33.3% ownership interests in DCP Sand Hills Pipeline, LLC (Sand Hills) and DCP Southern Hills Pipeline, LLC (Southern Hills). In consideration for this transaction, SEP retired 21,560,000 of our limited partner units and 440,000 of our general partner units in SEP. This will result in the reduction of any associated distribution payable to Spectra Energy, beginning in 2016. There will also be a reduction in the aggregate quarterly distributions, if any, to Spectra Energy (as holder of incentive distribution rights), by \$4 million per quarter for a period of 12 consecutive quarters, which commenced with the quarter ending on December 31, 2015 and will end with the quarter ending on September 30, 2018.

U.S. Assets Dropdown. In 2013, Spectra Energy entered into a contribution agreement with SEP (the Contribution Agreement), pursuant to which Spectra Energy agreed to contribute to SEP substantially all of Spectra Energy's interests in its subsidiaries that own U.S. transmission and storage and liquids assets, including its remaining 60% interest in the U.S. portion of Express-Platte, and to assign to SEP its interests in certain related contracts (collectively, the U.S. Assets Dropdown).

In 2013, Spectra Energy completed the closing of substantially all of the U.S. Assets Dropdown. This first of three planned transactions consisted of all the contributed entities contemplated in the Contribution Agreement, excluding a 25.05% ownership interest in Southeast Supply Header, LLC (SESH) and a 1% ownership interest in Steckman Ridge, LP (Steckman Ridge). Consideration to Spectra Energy for the 2013 closing included \$2.3 billion in cash, assumption

by SEP (indirectly by acquisition of the contributed entities) of approximately \$2.4 billion of third-party indebtedness of the contributed entities, 167.6 million newly issued SEP limited partner units and 3.4 million newly issued general partner units. This transfer of assets between entities under common control resulted in a decrease to Additional Paid-in Capital of \$733 million (\$458 million net of tax) and an increase to Equity Noncontrolling Interests of \$733 million on the Consolidated Balance Sheet in

F-A-18

Table of Contents

2013. The change in Equity Noncontrolling Interests primarily represents the public unitholders' share of the increase in SEP's equity as a result of the issuance of additional units to Spectra Energy, less the effects of the resulting decrease in the public unitholders' ownership percentage of SEP. Spectra Energy's ownership in SEP increased as a result of the transaction.

In November 2014, Spectra Energy completed the second of three planned transactions related to the U.S. Assets Dropdown. This transaction consisted of contributing an additional 24.95% ownership interest in SESH and the remaining 1% interest in Steckman Ridge to SEP. Consideration to Spectra Energy was approximately 4.3 million newly issued SEP common units. Also, in connection with this transaction, SEP issued approximately 86,000 of newly issued general partner units to Spectra Energy in exchange for the same amount of common units in order to maintain Spectra Energy's 2% general partner interest in SEP. This transfer of assets between entities under common control resulted in a decrease to Additional Paid-in Capital of \$29 million (\$16 million net of tax) and an increase to Equity Noncontrolling Interests of \$29 million on the Consolidated Balance Sheet in 2014. The change in Equity Noncontrolling Interests primarily represents the public unitholders' share of the increase in SEP's equity as a result of the issuance of additional units to Spectra Energy, less the effects of the resulting decrease in the public unitholders' ownership percentage of SEP. Spectra Energy's ownership in SEP increased as a result of the transaction.

On November 4, 2015, the third, and final, transaction related to the U.S. Assets Dropdown occurred. Spectra Energy contributed the remaining 0.1% interest in SESH to SEP. Total consideration to Spectra Energy was 17,114 newly issued SEP common units. Also, in connection with this third transaction, SEP issued 342 general partner units to Spectra Energy in exchange for the same amount of common units in order to maintain Spectra Energy's 2% general partner interest in SEP.

The contributed assets provide transportation and storage of natural gas, crude oil, and natural gas liquids for customers in various regions of the U.S. and in Alberta, Canada. The contributed assets included after all stages of the U.S. Assets Dropdown consisted of:

- a 100% ownership interest in Texas Eastern Transmission, LP (Texas Eastern)
- a 100% ownership interest in Algonquin Gas Transmission, LLC (Algonquin)
- Spectra Energy's remaining 60% ownership interest in the U.S. portion of Express-Platte
- Spectra Energy's remaining 38.77% ownership interest in Maritimes & Northeast Pipeline, L.L.C.
- a 33.3% ownership interest in Sand Hills
- a 33.3% ownership interest in Southern Hills
- Spectra Energy's remaining 1% ownership interest in Gulfstream Natural Gas System, LLC (Gulfstream)
- a 50% ownership interest in SESH
- a 100% ownership interest in Bobcat Gas Storage
- Spectra Energy's remaining 50% of Market Hub Partners Holding
- a 50% ownership interest in Steckman Ridge
- Texas Eastern's and Express-Platte's storage facilities

Express-Platte. In August 2013, Spectra Energy contributed a 40% interest in the U.S. portion of Express-Platte and sold a 100% ownership interest in the Canadian portion to SEP. Aggregate consideration for the transactions consisted of \$410 million in cash and 7.2 million of newly issued SEP partnership units. This transfer of assets between entities, under common control, resulted in a decrease to Additional Paid-in Capital of \$84 million (\$53 million net of tax) and an increase to Equity Noncontrolling Interest of \$84 million. The change in Equity Noncontrolling Interests primarily represents the public unitholders' share of the increase in SEP equity as a result of the issuance of additional units to Spectra Energy, less the effects of the resulting decrease in the public unitholders' ownership percentage.

Sales of SEP Common Units. SEP has entered into equity distribution agreements for its at-the-market offering program, pursuant to which SEP may offer and sell, through sales agents, common units representing

F-A-19

Table of Contents

limited partner interests at prices it deems appropriate having aggregate offering prices ranging from \$400 million to up to \$1 billion. Sales of common units, if any, will be made by means of ordinary brokers' transactions on the New York Stock Exchange, in block transactions, or as otherwise agreed to between SEP and the sales agent. SEP intends to use the net proceeds from sales under the program for general partnership purposes, which may include debt repayment, future acquisitions and capital expenditures. Under this program SEP issued 12.0 million, 6.4 million and 0.6 million common units to the public in 2015, 2014 and 2013, respectively, for total net proceeds of \$546 million, \$327 million and \$24 million, respectively. In 2015 and 2014, SEP also issued 245,000 and 132,000 general partner units, respectively, to Spectra Energy.

In 2013, SEP issued 5.2 million common units to the public, representing limited partner interests, and 0.1 million general partner units to Spectra Energy. Total net proceeds to SEP were \$193 million (net proceeds to Spectra Energy were \$190 million). Net proceeds to SEP were temporarily invested in restricted available-for-sale securities until the U.S. Assets Dropdown, at which time the funds were used to pay for a portion of the dropdown transaction. In connection with the sale of the units, a \$61 million gain (\$38 million net of tax) to Additional Paid-in Capital and a \$128 million increase in Equity Noncontrolling Interests were recorded in 2013.

3. Acquisitions and Dispositions

Acquisitions. We consolidate assets and liabilities from acquisitions as of the purchase date and include earnings from acquisitions in consolidated earnings after the purchase date. Assets acquired and liabilities assumed are recorded at estimated fair values on the date of acquisition. The purchase price less the estimated fair value of the acquired assets and liabilities meeting the definition of a business is recorded as goodwill. The allocation of the purchase price may be adjusted if additional information is received during the allocation period, which generally does not exceed one year from the consummation date.

Sand Hills and Southern Hills. On October 30, 2015 Spectra Energy acquired SEP's 33.3% ownership interests in Sand Hills and Southern Hills. In consideration for this transaction, SEP retired 21,560,000 of our limited partner units and 440,000 of our general partner units in SEP. See Note 2 for further discussion. This transfer of assets between entities under common control resulted in an increase to Additional Paid-in Capital of \$166 million and a decrease to Equity-Noncontrolling Interests of \$166 million on the Consolidated Balance Sheet in 2015. The change in Equity-Noncontrolling Interests primarily represents the public unitholders' share of the decrease in SEP's equity as a result of the retirement of units previously held by us, less the effects of the resulting increase in the public unitholders' ownership percentage of SEP. Spectra Energy's ownership in SEP decreased as a result of the transaction.

In 2013, subsidiaries of Spectra Energy contributed their 33.3% direct interests in Sand Hills and Southern Hills to SEP in connection with the U.S. Assets Dropdown. At the time of this contribution, DCP Midstream Partners, LP (DCP Partners), DCP Midstream's master limited partnership, and Phillips 66 also each owned direct one-third ownership interests in the two pipelines. The Sand Hills pipeline provides NGL transportation from the Permian and Eagle Ford basins to the premium NGL markets on the Gulf Coast. The Southern Hills pipeline provides NGL transportation from the Midcontinent to Mont Belvieu, Texas. See Note 2 for further discussion.

Express-Platte. In March 2013, we acquired 100% of the ownership interests in the Express-Platte crude oil pipeline system for \$1.5 billion, consisting of \$1.25 billion in cash and \$260 million of acquired debt, before working capital adjustments. The Express-Platte pipeline system, which begins in Hardisty, Alberta, and terminates in Wood River, Illinois, is comprised of both the Express and Platte crude oil pipelines. The Express pipeline carries crude oil to U.S. refining markets in the Rockies area, including Montana, Wyoming, Colorado and Utah. The Platte pipeline, which interconnects with Express pipeline in Casper, Wyoming, transports crude oil predominantly from the Bakken shale and western Canada to refineries in the Midwest. In 2013, subsidiaries of Spectra Energy contributed a 100% interest

in the U.S. portion of Express-Platte and sold a 100% ownership interest in the Canadian portion to SEP. See Note 2 for further discussion.

F-A-20

Table of Contents

The following table summarizes the fair values of the assets and liabilities acquired as of the date of the acquisition:

	Purchase Price Allocation (in millions)
Cash purchase price	\$ 1,250
Working capital and other purchase adjustments	71
Total	1,321
Cash	67
Receivables	25
Other current assets	9
Property, plant and equipment	1,251
Accounts payable	(18)
Other current liabilities	(17)
Deferred credits and other liabilities	(259)
Long-term debt, including current portion	(260)
 Total assets acquired/liabilities assumed	 798
 Goodwill	 \$ 523

The purchase price is greater than the sum of fair values of the net assets acquired, resulting in goodwill as noted above. The goodwill reflects the value of the strategic location of the pipeline and the opportunity to grow the business. Goodwill related to the acquisition of Express-Platte is not deductible for income tax purposes.

The allocation of the fair values of assets and liabilities acquired related to the acquisition of Express-Platte was finalized in the first quarter of 2014, resulting in the following adjustments to amounts reported as of December 31, 2013: a \$60 million decrease in Property, Plant and Equipment, a \$1 million decrease in Other Current Assets and a \$24 million decrease in Deferred Credits and Other Liabilities, resulting in a \$37 million increase in Goodwill.

Dispositions. As discussed above, on October 30, 2015 we acquired SEP's 33.3% ownership interests in Sand Hills and Southern Hills. We immediately contributed our 33.3% interests in Sand Hills and Southern Hills to DCP Midstream. The contribution is reflected as a non-cash transaction in the statement of cash flows. After this contribution, DCP Midstream and DCP Partners each hold a direct one-third ownership interest in the two pipelines. The remaining one-third direct ownership interest continues to be held by Phillips 66. In consideration for this transaction, we increased our basis in the net equity of DCP Midstream and retained our 50% ownership interest.

4. Business Segments

We manage our business in four reportable segments: Spectra Energy Partners, Distribution, Western Canada Transmission & Processing and Field Services. The remainder of our business operations is presented as Other, and consists of unallocated corporate costs and employee benefit plan assets and liabilities, 100%-owned captive insurance subsidiaries and other miscellaneous activities.

Our CODM regularly reviews financial information about each of these segments in deciding how to allocate resources and evaluate performance. There is no aggregation within our reportable business segments.

Spectra Energy's presentation of its Spectra Energy Partners segment is reflective of the parent-level focus by our CODM, considering the resource allocation and governance provisions associated with SEP's master

limited partnership structure. SEP maintains a capital and cash management structure that is separate from Spectra Energy's, is self-funding and maintains its own lines of bank credit and cash management accounts. From a Spectra Energy perspective, our CODM evaluates the Spectra Energy Partners segment as a whole, without regard to any of SEP's individual businesses.

Spectra Energy Partners provides transmission, storage and gathering of natural gas, as well as the transportation of crude oil and NGLs through interstate pipeline systems for customers in various regions of the midwestern, northeastern and southern U.S. and Canada. The natural gas transmission and storage operations are primarily subject to the rules and regulations of the Federal Energy Regulatory Commission (FERC). The crude oil transportation operations are primarily subject to regulation by the FERC in the U.S. and the National Energy Board (NEB) in Canada. Our Spectra Energy Partners segment is composed of the operations of SEP, less governance costs, which are included in Other.

Distribution provides retail natural gas distribution service in Ontario, Canada, as well as natural gas transmission and storage services to other utilities and energy market participants. These services are provided by Union Gas Limited (Union Gas), and are primarily subject to the rules and regulations of the OEB.

Western Canada Transmission & Processing provides transmission of natural gas, natural gas gathering and processing services, and NGL extraction, fractionation, transportation, storage and marketing to customers in western Canada, the northern tier of the U.S. and the Maritime Provinces in Canada. This segment conducts business mostly through BC Pipeline, BC Field Services, Empress NGL operations, Canadian Midstream, and Maritimes & Northeast Pipeline Limited Partnership (M&N Canada). BC Pipeline, BC Field Services and M&N Canada operations are primarily subject to the rules and regulations of the NEB.

Field Services gathers, compresses, treats, processes, transports, stores and sells natural gas, produces, fractionates, transports, stores and sells NGLs, recovers and sells condensate, and trades and markets natural gas and NGLs. It conducts operations through DCP Midstream, which is owned 50% by us and 50% by Phillips 66. DCP Midstream gathers raw natural gas through gathering systems connecting to several interstate and intrastate natural gas and NGL pipeline systems, one natural gas storage facility and one NGL storage facility. DCP Midstream operates in a diverse number of regions, including the Permian Basin, Eagle Ford, Niobrara/DJ Basin and the Midcontinent. DCP Partners is a publicly traded master limited partnership, of which DCP Midstream acts as general partner. As of December 31, 2015, DCP Midstream had an approximate 21% ownership interest in DCP Partners, including DCP Midstream's limited partner and general partner interests.

Our reportable segments offer different products and services and are managed separately as business units. Management evaluates segment performance based on earnings before interest, taxes, depreciation and amortization (EBITDA). Cash, cash equivalents and short-term investments are managed at the parent-company levels, so the associated gains and losses from foreign currency transactions and interest and dividend income are excluded from the segments' EBITDA. Our segment EBITDA may not be comparable to similarly titled measures of other companies because other companies may not calculate EBITDA in the same manner. Transactions between reportable segments are accounted for on the same basis as transactions with unaffiliated third parties.

Union Gas. Union Gas has regulatory assets of \$291 million as of December 31, 2015 and \$303 million as of December 31, 2014 related to deferred income tax liabilities. Under the current OEB-authorized rate structure,

F-A-25

Table of Contents

income tax costs are recovered in rates based on the current income tax payable and do not include accruals for deferred income tax. However, as income taxes become payable as a result of the reversal of timing differences that created the deferred income taxes, it is expected that rates will be adjusted to recover these taxes. Since substantially all of these timing differences are related to property, plant and equipment costs, recovery of these regulatory assets is expected to occur over the life of those assets.

Union Gas has regulatory liabilities associated with plant removal costs of \$258 million as of December 31, 2015 and \$322 million as of December 31, 2014. These regulatory liabilities represent collections from customers under approved rates for future asset removal activities that are expected to occur associated with its regulated facilities.

In addition, Union Gas has regulatory liabilities of \$48 million as of December 31, 2015 and regulatory assets of \$57 million as of December 31, 2014 representing gas cost collections from customers under approved rates that vary from actual cost of gas for the associated periods. Union Gas files an application quarterly with the OEB to ensure that customers' rates are updated to reflect published forward-market prices. The difference between the approved and the actual cost of gas is deferred for future repayment to or refund from customers.

BC Pipeline and BC Field Services. The BC Pipeline and BC Field Services businesses in western Canada have regulatory assets of \$727 million as of December 31, 2015 and \$795 million as of December 31, 2014 related to deferred income tax liabilities. Under the current NEB-authorized rate structure, income tax costs are recovered in tolls based on the current income tax payable and do not include accruals for deferred income tax. However, as income taxes become payable as a result of the reversal of timing differences that created the deferred income taxes, it is expected that transportation and field services tolls will be adjusted to recover these taxes. Since most of these timing differences are related to property, plant and equipment costs, this recovery is expected to occur over the life of those assets.

When evaluating the recoverability of the BC Pipelines' and BC Field Services' regulatory assets, we take into consideration the NEB regulatory environment, natural gas reserve estimates for reserves located or expected to be located near these assets, the ability to remain competitive in the markets served and projected demand growth estimates for the areas served by the BC Pipeline and BC Field Services businesses. Based on current evaluation of these factors, we believe that recovery of these tax costs is probable over the periods described above.

Rate Related Information

Union Gas. In December 2015, Union Gas filed an application with the OEB for the disposition of the 2014 energy conservation deferral and variance account balances. As a result of this application, Union Gas has a receivable from customers of approximately \$8 million as of December 31, 2015 and \$9 million as of December 31, 2014, which is reflected as Current Assets - Other on the Consolidated Balance Sheets. A hearing and decision from the OEB is expected in 2016.

At December 31, 2015, we had a federal net operating loss carryforward, net of unrecognized tax benefits, of \$726 million that expires at various times beginning in 2021. The deferred tax asset attributable to the federal net operating losses, net of unrecognized tax benefits, is \$254 million. At December 31, 2015 we also had a state net operating loss carryforward of approximately \$381 million that expires at various times beginning in 2016. The deferred tax asset attributable to the state net operating loss carryovers is \$20 million, net of federal impacts and unrecognized tax benefits, at December 31, 2015. We had valuation allowances of \$9 million at both December 31, 2015 and 2014 against the deferred tax asset related to the federal net operating loss carryforward. We had valuation allowances of \$1 million and less than \$1 million at December 31, 2015 and 2014, respectively, against the deferred tax asset related to the state net operating loss carryforward and other state tax credits.

At December 31, 2015, we had a foreign net operating loss carryforward of \$80 million that expires at various times beginning in 2026. The deferred tax asset attributable to the foreign net operating loss is \$21 million. We had valuation allowances of \$1 million and less than \$1 million at December 31, 2015 and 2014, respectively, against the deferred tax asset related to the foreign net operating loss carryforward and property, plant and equipment. At December 31, 2015, we also had a foreign capital loss carryforward of \$124 million with an indefinite expiration period. The deferred tax asset attributable to the foreign capital loss carryforward is \$16 million. We had valuation allowances of \$16 million and \$20 million at December 31, 2015 and 2014, respectively, against the deferred tax asset related to the foreign capital loss carryforward.

Unrecognized tax benefits totaled \$82 million at December 31, 2015. Of this, \$39 million would reduce the annual effective tax rate if recognized on or after January 1, 2016. We recorded a net increase of \$32 million in gross unrecognized tax benefits during 2015. This was a result of \$22 million attributable to deferred tax liabilities, foreign currency exchange rate fluctuations and a \$10 million increase in income tax expense.

We recognize potential accrued interest and penalties related to unrecognized tax benefits as interest expense and as other expense, respectively. We recognized interest expense of \$2 million in 2015 and interest income of \$2 million in 2014 related to unrecognized tax benefits. Accrued interest and penalties totaled \$21 million at December 31, 2015 and \$19 million at December 31, 2014.

Although uncertain, we believe it is reasonably possible that the total amount of unrecognized tax benefits could decrease by \$30 million to \$40 million prior to December 31, 2016.

We remain subject to examination for Canada income tax return filings for years 2009 through 2014 and U.S. federal income tax return filings for years 2011 through 2014. A limited number of state tax return filings remain subject to examination for years 2007 through 2014.

We have foreign subsidiaries undistributed earnings of approximately \$1.5 billion at December 31, 2015 that are indefinitely invested outside the U.S. and, accordingly, no U.S. federal or state income taxes have been provided on those earnings. Upon distribution of those earnings, we may be subject to both foreign withholding taxes and U.S. income taxes, net of allowable foreign tax credits. The amount of such additional taxes would be dependent on several factors, including the size and timing of the distribution and the availability of foreign tax credits. As a result, the determination of the potential amount of unrecognized withholding and deferred income taxes is not practicable.

7. Earnings per Common Share

Basic earnings per common share (EPS) is computed by dividing net income from controlling interests by the weighted-average number of common shares outstanding during the period. Diluted EPS is computed by dividing net income from controlling interests by the diluted weighted-average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that could occur if securities or other agreements to issue common stock, such as stock options, stock-based performance unit awards and phantom stock awards, were exercised, settled or converted into common stock.

Weighted-average shares used to calculate diluted EPS includes the effect of certain options and restricted stock awards. In 2015, 2014 and 2013, there were no options or stock awards that were not included in the calculation of diluted EPS.

10. Investments in and Loans to Unconsolidated Affiliates and Related Party Transactions

Investments in affiliates for which we are not the primary beneficiary, but over which we have significant influence, are accounted for using the equity method. As of December 31, 2015 and 2014, the carrying amounts

F-A-30

Table of Contents

of investments in affiliates approximated the amounts of underlying equity in net assets, with the exception of DCP Midstream in 2015, which relates to a contribution of assets recorded at carrying value. We received distributions from our equity investments of \$612 million in 2015, \$646 million in 2014 and \$411 million in 2013. Cumulative undistributed earnings of unconsolidated affiliates totaled \$28 million at December 31, 2015 and \$482 million at December 31, 2014.

Spectra Energy Partners. As of December 31, 2015, our Spectra Energy Partners segment investments were mostly comprised of a 39% effective interest in Gulfstream, a 39% effective interest in SESH, and a 39% effective interest in Steckman Ridge. On November 4, 2015, we contributed our remaining 0.1% interest in SESH to SEP. Total consideration to Spectra Energy was 17,114 newly issued SEP common units. This was the last of three planned transactions related to the U.S. Assets Dropdown. Also, in connection with this transaction, SEP issued 342 general partner units to Spectra Energy in exchange for the same amount of common units in order to maintain Spectra Energy's 2% general partner interest in SEP.

We have a loan outstanding to Steckman Ridge in connection with the construction of its storage facilities. The loan carries market-based interest rates and is due the earlier of October 1, 2023 or coincident with the closing of any long-term financings by Steckman Ridge. The loan receivable from Steckman Ridge, including accrued interest, totaled \$71 million at December 31, 2015 and 2014. We recorded interest income on the Steckman Ridge loan of \$1 million in 2015, 2014 and 2013.

On October 30, 2015, Spectra Energy acquired SEP's 33.3% ownership interests in Sand Hills and Southern Hills. In consideration for this transaction, SEP retired 21,560,000 of our limited partner units and 440,000 of our general partner units in SEP. This resulted in the reduction of any associated distribution payable to us, beginning in 2016. There will also be a reduction in the aggregate quarterly distributions, if any, to us (as holder of incentive distribution rights), by \$4 million per quarter for a period of 12 consecutive quarters, which commenced with the quarter ending on December 31, 2015 and will end with the quarter ending on September 30, 2018.

Field Services. Our most significant investment in unconsolidated affiliates is our 50% investment in DCP Midstream, which is accounted for under the equity method of accounting. DCP Midstream is a limited liability company which is a pass-through entity for U.S. income tax purposes. DCP Midstream also owns an entity which files its own federal, foreign and state income tax returns. Income tax expense related to that entity is included in the income tax expense of DCP Midstream. Therefore, DCP Midstream's net income attributable to members' interests does not include income taxes for earnings which are passed through to the members based upon their ownership percentage. We recognize the tax effects of our share of DCP Midstream's pass-through earnings in Income Tax Expense in the Consolidated Statements of Operations.

DCP Partners issues, from time to time, limited partner units to the public, which are recorded by DCP Midstream directly to its equity. Our proportionate 50% share of gains from those issuances, totaling \$2 million in 2015, \$73 million in 2014 and \$98 million in 2013, are reflected in Earnings (Loss) from Equity Investments in the Consolidated Statements of Operations.

Due to the significant downturn in commodity prices, DCP Midstream performed a goodwill impairment test and other asset impairment tests in 2015. The impairment tests were based on internal discounted cash flow models taking into account various observable and unobservable factors, such as prices, volumes, expenses and discount rate. The impairment tests resulted in DCP Midstream's recognition of a \$460 million goodwill impairment and \$342 million in other asset impairments, net of tax, which reduced our equity earnings from DCP Midstream by \$231 million after-tax for 2015. Due to the impairments recognized by DCP Midstream, we assessed our equity investment in DCP Midstream and determined that our equity investment in DCP Midstream was not impaired.

As previously discussed, on October 30, 2015, we contributed our 33.3% interests in Sand Hills and Southern Hills acquired from SEP to DCP Midstream. In consideration for this transaction, we increased our basis in the net equity of DCP Midstream and retained our 50% ownership interest.

Due to the sustained downturn in commodity prices, we performed a goodwill impairment test for BC Field Services and Empress in the fourth quarter of 2015. The impairment test was based on a combination of an income approach and a market approach for which the inputs are classified as Level 3. The impairment test resulted in recognition of a \$270 million goodwill impairment for BC Field Services and a \$63 million goodwill impairment for Empress which resulted in a total goodwill impairment of \$333 million.

No triggering events occurred during the period from April 1, 2015 through December 31, 2015 that warranted re-testing for goodwill impairment except for the BC Field Services reporting unit and Empress reporting unit.

See Note 10 for discussion related to the partial impairment of goodwill recognized by DCP Midstream.

12. Marketable Securities and Restricted Funds

We routinely invest excess cash and various restricted balances in securities such as commercial paper, bankers acceptances, corporate debt securities, treasury bills and money market funds in the U.S. and Canada. We do not purchase marketable securities for speculative purposes; therefore we do not have any securities classified as trading securities. While we do not routinely sell marketable securities prior to their scheduled maturity dates, some of our investments may be held and restricted for insurance purposes and capital expenditures, so these investments are classified as AFS marketable securities as they may occasionally be sold prior to their scheduled maturity dates due to the unexpected timing of cash needs. Initial investments in securities are classified as purchases of the respective type of securities (AFS marketable securities or HTM marketable securities). Maturities of securities are classified within proceeds from sales and maturities of securities in the Consolidated Statements of Cash Flows.

14. Asset Retirement Obligations

Our AROs relate mostly to the retirement of certain gathering pipelines and processing facilities, obligations related to right-of-way agreements and contractual leases for land use. However, we have determined that a significant portion of our assets have an indeterminate life, and as such, the fair values of those associated retirement obligations are not reasonably estimable. These assets include onshore and some offshore pipelines, and certain processing plants and distribution facilities, whose retirement dates will depend mostly on the various natural gas supply sources that connect to our systems and the ongoing demand for natural gas usage in the markets we serve. We expect these supply sources and market demands to continue for the foreseeable future, therefore we are unable to estimate retirement dates that would result in asset retirement obligations.

ARO are adjusted each period for liabilities incurred or settled during the period, accretion expense, any revisions made to the estimated cash flows and dispositions of businesses. In 2015, SEP revised the estimated future cash flow assumptions for its ARO liabilities due to a reduction in the remaining estimated life of certain Texas Eastern offshore facilities which resulted in an increase to ARO liabilities of \$32 million. In 2014, Western Canada Transmission & Processing revised the estimated future cash flow assumptions relating to asbestos abatement at its processing plants which resulted in an increase to ARO liabilities of \$44 million.

- (b) Revolving credit facility contains a covenant that requires SEP to maintain a ratio of total Consolidated Indebtedness-to- Consolidated EBITDA, as defined in the agreement, of 5.0 to 1 or less. As of December 31, 2015, this ratio was 3.6 to 1.
- (c) U.S. dollar equivalent at December 31, 2015. The revolving credit facility is 400 million Canadian dollars and contains a covenant that requires the Westcoast non-consolidated debt-to-total capitalization ratio to not exceed 75%. The ratio was 35.4% at December 31, 2015.
- (d) U.S. dollar equivalent at December 31, 2015. The revolving credit facility is 500 million Canadian dollars and contains a covenant that requires the Union Gas debt-to-total capitalization ratio to not exceed 75% and a provision which requires Union Gas to repay all borrowings under the facility for a period of two days during the second quarter of each year. The ratio was 67.8% at December 31, 2015.

The issuances of commercial paper, letters of credit and revolving borrowings reduce the amounts available under the credit facilities. As of December 31, 2015, there were no letters of credit issued or revolving borrowings outstanding under the credit facilities.

Our credit agreements contain various covenants, including the maintenance of certain financial ratios. Failure to meet those covenants beyond applicable grace periods could result in accelerated due dates and/or termination of the agreements. As of December 31, 2015, we were in compliance with those covenants. In addition, our credit agreements allow for acceleration of payments or termination of the agreements due to nonpayment, or in some cases, due to the acceleration of other significant indebtedness of the borrower or some of its subsidiaries. Our debt and credit agreements do not contain provisions that trigger an acceleration of indebtedness based solely on the occurrence of a material adverse change in our financial condition or results of operations.

As noted above, the terms of our Spectra Capital, LLC (Spectra Capital) credit agreements require our consolidated debt-to-total capitalization ratio, as defined in the agreement, to be 65% or lower. Per the terms of the agreements, collateralized debt is excluded from the calculation of the ratio. This ratio was 59.6% at December 31, 2015. Approximately \$7.9 billion of our equity (net assets) was considered restricted at December 31, 2015, representing the minimum amount of equity required to maintain the 65% consolidated debt-to-total capitalization ratio.

Westcoast and Union Gas have outstanding preferred shares owned by third parties that are generally not redeemable prior to specified redemption dates. On or after those dates, the shares may be redeemed, in whole or in part, for cash at the option of Westcoast and Union Gas, as applicable. The shares are not subject to any sinking fund or mandatory redemption and are not convertible into common shares. As redemption of the shares is not solely within our control, we have classified the preferred stock of subsidiaries as temporary equity on our Consolidated Balance Sheets. Dividends are cumulative and payable quarterly, and are included in Net Income Noncontrolling Interests in the Consolidated Statements of Operations. Approximately 78% of the outstanding preferred shares are redeemable at the option of Westcoast and Union Gas, as applicable.

On December 15, 2015, Westcoast issued 4.6 million Cumulative 5-Year Minimum Rate Reset Redeemable First Preferred Shares, Series 10 for an aggregate principle amount of 115 million Canadian dollars (approximately \$84 million as of the issuance date). Net proceeds from the issuance were used to fund capital expenditures, to refinance maturing debt obligations and for other corporate purposes.

Level 1 valuations represent quoted unadjusted prices for identical instruments in active markets.

F-A-42

Table of Contents**Level 2 Valuation Techniques**

Fair values of our financial instruments that are actively traded in the secondary market, including our long-term debt, are determined based on market-based prices. These valuations may include inputs such as quoted market prices of the exact or similar instruments, broker or dealer quotations, or alternative pricing sources that may include models or matrix pricing tools, with reasonable levels of price transparency.

For interest rate swaps, we utilize data obtained from a third-party source for the determination of fair value. Both the future cash flows for the fixed-leg and floating-leg of our swaps are discounted to present value. In addition, credit default swap rates are used to develop the adjustment for credit risk embedded in our positions. We believe that since some of the inputs and assumptions for the calculations of fair value are derived from observable market data, a Level 2 classification is appropriate.

Level 3 Valuation Techniques

Level 3 valuation techniques include the use of pricing models, discounted cash flow methodologies or similar techniques where at least one significant model assumption or input is unobservable. Level 3 financial instruments also include those for which the determination of fair value requires significant management judgment or estimation.

The derivative financial instruments reported in Level 3 at December 31, 2015 consist of NGL revenue swap contracts related to the Empress assets in Western Canada Transmission & Processing. As of December 31, 2015, we reported certain of our NGL basis swaps at fair value using Level 3 inputs due to such derivatives not having observable market prices for substantially the full term of the derivative asset or liability. For valuations that include both observable and unobservable inputs, if the unobservable input is determined to be significant to the overall inputs, the entire valuation is categorized in Level 3. This includes derivatives valued using indicative price quotations whose contract length extends into unobservable periods.

The fair value of these NGL basis swaps is determined using a discounted cash flow valuation technique based on a forward commodity basis curve. For these derivatives, the primary input to the valuation model is the forward commodity basis curve, which is based on observable or public data sources and extrapolated when observable prices are not available.

The significant unobservable inputs used in the fair value measurements of our Level 3 derivatives are the forward natural gas basis curves, for which a significant portion of the derivative's term is beyond available forward pricing. At December 31, 2015, a 10¢ per gallon movement in underlying forward NGL prices would affect the estimated fair value of our NGL derivatives by \$15 million. This calculated amount does not take into account any other changes to the fair value measurement calculation.

Financial Instruments

The fair values of financial instruments that are recorded and carried at book value are summarized in the following table. Judgment is required in interpreting market data to develop the estimates of fair value. These estimates are not necessarily indicative of the amounts we could have realized in current markets.

F-A-43

Table of Contents

The fair value of our long-term debt is determined based on market-based prices as described in the Level 2 valuation technique described above and is classified as Level 2.

The fair values of cash and cash equivalents, restricted cash, short-term investments, accounts receivable, notes receivable noncurrent, accounts payable and commercial paper are not materially different from their carrying amounts because of the short-term nature of these instruments or because the stated rates approximate market rates.

During the fourth quarter of 2015, we recorded goodwill impairment charges on BC Field Services and Empress reporting units of \$270 million and \$63 million, respectively. See Note 11 for further discussion. There were no material adjustments to assets and liabilities measured at fair value on a nonrecurring basis in 2014.

18. Risk Management and Hedging Activities

We are exposed to the impact of market fluctuations in the prices of NGLs and natural gas purchased as a result of our investment in DCP Midstream, the ownership of the NGL marketing operations in western Canada and processing operations associated with our U.S. pipeline assets. Exposure to interest rate risk exists as a result of the issuance of variable and fixed-rate debt and commercial paper. We are exposed to foreign currency risk from our Canadian operations. We employ established policies and procedures to manage our risks associated with these market fluctuations, which may include the use of derivatives, mostly around interest rate and commodity exposures.

DCP Midstream manages their direct exposure to market prices separate from Spectra Energy, and utilizes various risk management strategies, including the use of commodity derivatives.

Other than the commodity derivatives and interest rate swaps as described below, we did not have any significant derivatives outstanding during the year ended December 31, 2015.

See Note 17 for information regarding the presentation of these derivative positions on our Consolidated Balance Sheets.

Commodity Derivatives. Our NGL marketing operations are exposed to market fluctuations in the prices of natural gas and NGLs related to natural gas processing and marketing activities. We closely monitor the

F-A-44

Table of Contents

potential effects of commodity price changes and may choose to enter into contracts to protect margins for a portion of future sales and fuel expenses by using financial commodity instruments, such as swaps, forward contracts and options.

Effective January 2014, we implemented a commodity price risk management program at Western Canada Transmission & Processing's Empress NGL business and elected to not apply cash flow hedge accounting.

At December 31, 2015, we had commodity mark-to-market derivatives outstanding with a total notional amount of 152 million gallons. The longest dated commodity derivative contract we currently have expires in 2018.

Information about our commodity derivatives that had netting or rights of offset arrangements are as follows:

	Gross Amounts	Gross Amounts Offset (in millions)	Net Amount Presented in the Consolidated Balance Sheets
Assets	\$ 104	\$ 63	\$ 41
Liabilities	63	63	

Substantially all of our commodity derivative agreements outstanding at December 31, 2015 have provisions that require collateral to be posted in the amount of the net liability position if one of our credit ratings falls below investment grade.

Information regarding the impacts of commodity derivatives on our Consolidated Statements of Operations is as follows:

Derivatives	Consolidated Statements of Operations Caption	2015			2014			2013

Commodity derivatives	Sales of natural gas liquids	\$ 40	\$ 93	\$						

Interest Rate Swaps. Changes in interest rates expose us to risk as a result of our issuance of variable and fixed-rate debt and commercial paper. We manage our interest rate exposure by limiting our variable-rate exposures to percentages of total debt and by monitoring the effects of market changes in interest rates. We also enter into financial derivative instruments, including, but not limited to, interest rate swaps and rate lock agreements to manage and mitigate interest rate risk exposure.

For interest rate derivative instruments that are designated and qualify as fair value hedges, the gain or loss on the derivative as well as the offsetting loss or gain on the hedged item attributable to the hedged risk is included in Interest Expense on the Consolidated Statements of Operations. There were no significant amounts of gains or losses, either effective or ineffective, recognized in net income or other comprehensive income in 2015, 2014 or 2013.

At December 31, 2015, we had pay floating receive fixed interest rate swaps outstanding with a total notional amount of \$2,000 million to hedge against changes in the fair value of our fixed-rate debt that arise as a result of changes in market interest rates. These swaps also allow us to transform a portion of the underlying interest payments related to our long-term fixed-rate debt securities into variable-rate interest payments in order to achieve our desired mix of fixed and variable-rate debt.

Foreign Currency Risk. We are exposed to foreign currency risk from investments and operations in Canada. To mitigate risks associated with foreign currency fluctuations, contracts may be denominated in or indexed to the U.S. dollar and/ or local inflation rates, or investments may be naturally hedged through debt denominated or issued in the foreign currency. To monitor our currency exchange rate risks, we use sensitivity analysis, which measures the effect of devaluation of the Canadian dollar.

Credit Risk. Our principal customers for natural gas transmission and crude oil transportation, storage and gathering and processing services are industrial end-users, marketers, exploration and production companies, local distribution companies and utilities located throughout the U.S. and Canada. We have concentrations of receivables from natural gas utilities and their affiliates, industrial customers and marketers throughout these regions, as well as retail distribution customers in Canada. These concentrations of customers may affect our overall credit risk in that risk factors can negatively affect the credit quality of the entire sector. Where exposed to credit risk, we analyze the customers' financial condition prior to entering into an agreement, establish credit limits and monitor the appropriateness of those limits on an ongoing basis. We also obtain parental guarantees, cash deposits or letters of credit from customers to provide credit support, where appropriate, based on our financial analysis of the customer and the regulatory or contractual terms and conditions applicable to each contract.

19. Commitments and Contingencies

General Insurance

We carry, either directly or through our captive insurance companies, insurance coverages consistent with companies engaged in similar commercial operations with similar type properties. Our insurance program includes (1) commercial general and excess liability insurance for liabilities to third parties for bodily injury and property damage resulting from our operations; (2) workers' compensation liability coverage to required statutory limits; (3) automobile liability insurance for all owned, non-owned and hired vehicles covering liabilities to third parties for bodily injury and property damage; (4) insurance policies in support of the indemnification provisions of our by-laws; and (5) property insurance, including machinery breakdown, on an all-risk-replacement valued basis, onshore business interruption and extra expense. All coverages are subject to certain deductibles, terms and conditions common for companies with similar types of operations.

Environmental

We are subject to various U.S. federal, state and local laws and regulations, as well as Canadian federal and provincial laws, regarding air and water quality, hazardous and solid waste disposal and other environmental matters. These laws

and regulations can change from time to time, imposing new obligations on us.

Like others in the energy industry, we and our affiliates are responsible for environmental remediation at various contaminated sites. These include some properties that are part of our ongoing operations, sites formerly owned or used by us, and sites owned by third parties. Remediation typically involves management of contaminated soils and may involve groundwater remediation. Managed in conjunction with relevant federal, state/provincial and local agencies, activities vary with site conditions and locations, remedial requirements, complexity and sharing of responsibility. If remediation activities involve statutory joint and several liability provisions, strict liability, or cost recovery or contribution actions, we or our affiliates could potentially be held

F-A-46

Table of Contents

responsible for contamination caused by other parties. In some instances, we may share liability associated with contamination with other potentially responsible parties, and may also benefit from contractual indemnities that cover some or all cleanup costs. All of these sites generally are managed in the normal course of business or affiliated operations. We believe that there are no matters outstanding that upon resolution will have a material effect on our consolidated results of operations, financial position or cash flows.

Included in Deferred Credits and Other Liabilities Regulatory and Other on the Consolidated Balance Sheets are undiscounted liabilities related to extended environmental-related activities totaling \$8 million as of December 31, 2015 and \$10 million as of December 31, 2014. These liabilities represent provisions for costs associated with remediation activities at some of our current and former sites, as well as other environmental contingent liabilities.

Litigation

Litigation and Legal Proceedings. We are involved in legal, tax and regulatory proceedings in various forums arising in the ordinary course of business, including matters regarding contract and payment claims, some of which involve substantial monetary amounts. We have insurance coverage for certain of these losses should they be incurred. We believe that the final disposition of these proceedings will not have a material effect on our consolidated results of operations, financial position or cash flows.

Legal costs related to the defense of loss contingencies are expensed as incurred. We had no material reserves for legal matters recorded as of December 31, 2015 or 2014 related to litigation.

Other Commitments and Contingencies

See Note 20 for a discussion of guarantees and indemnifications.

Operating Lease Commitments

We lease assets in various areas of our operations. Consolidated rental expense for operating leases classified in Operating Income was \$47 million in 2015 and \$38 million for both 2014 and 2013, which is included in Operating, Maintenance and Other on the Consolidated Statements of Operations. The following is a summary of future minimum lease payments under operating leases which at inception had noncancellable terms of more than one year. We had no material capital lease commitments as of December 31, 2015 or 2014.

	Long-term Operating Leases (in millions)
2016	\$ 49
2017	41
2018	39

2020	31

20. Guarantees and Indemnifications

We have various financial guarantees and indemnifications which are issued in the normal course of business. As discussed below, these contracts include financial guarantees, stand-by letters of credit, debt guarantees, surety bonds and indemnifications. We enter into these arrangements to facilitate a commercial transaction with a third party by enhancing the value of the transaction to the third party. To varying degrees,

F-A-47

Table of Contents

these guarantees involve elements of performance and credit risk, which are not included on our Consolidated Balance Sheets. The possibility of having to perform under these guarantees and indemnifications is largely dependent upon future operations of various subsidiaries, investees and other third parties, or the occurrence of certain future events.

We have issued performance guarantees to customers and other third parties that guarantee the payment and performance of other parties, including certain non-100%-owned entities. In connection with our spin-off from Duke Energy Corporation (Duke Energy) in 2007, certain guarantees that were previously issued by us were assigned to, or replaced by, Duke Energy as guarantor in 2006. For any remaining guarantees of other Duke Energy obligations, Duke Energy has indemnified us against any losses incurred under these guarantee arrangements. The maximum potential amount of future payments we could have been required to make under these performance guarantees as of December 31, 2015 was approximately \$406 million, which has been indemnified by Duke Energy as discussed above. One of these outstanding performance guarantees, which has a maximum potential amount of future payment of \$201 million, expires in 2028. The remaining guarantees have no contractual expirations.

We have also issued joint and several guarantees to some of the Duke/Fluor Daniel (D/FD) project owners, guaranteeing the performance of D/FD under its engineering, procurement and construction contracts and other contractual commitments in place at the time of our spin-off from Duke Energy. D/FD is one of the entities transferred to Duke Energy in connection with our spin-off. Substantially all of these guarantees have no contractual expiration and no stated maximum amount of future payments that we could be required to make. Fluor Enterprises Inc., as 50% owner in D/FD, issued similar joint and several guarantees to the same D/FD project owners.

Westcoast, a 100%-owned subsidiary, has issued performance guarantees to third parties guaranteeing the performance of unconsolidated entities, such as equity method investments, and of entities previously sold by Westcoast to third parties. Those guarantees require Westcoast to make payment to the guaranteed third party upon the failure of such unconsolidated or sold entity to make payment under some of its contractual obligations, such as debt agreements, purchase contracts and leases. Certain guarantees that were previously issued by Westcoast for obligations of entities that remained a part of Duke Energy are considered guarantees of third party performance; however, Duke Energy has indemnified us against any losses incurred under these guarantee arrangements.

We have entered into various indemnification agreements related to purchase and sale agreements and other types of contractual agreements with vendors and other third parties. These agreements typically cover environmental, litigation and other matters, as well as breaches of representations, warranties and covenants. Typically, claims may be made by third parties for various periods of time, depending on the nature of the claim. Our potential exposure under these indemnification agreements can range from a specified amount, such as the purchase price, to an unlimited dollar amount, depending on the nature of the claim and the particular transaction. We are unable to estimate the total potential amount of future payments under these indemnification agreements due to several factors, such as the unlimited exposure under certain guarantees.

As of December 31, 2015, the amounts recorded for the guarantees and indemnifications described above are not material, both individually and in the aggregate.

Table of Contents**21. Effects of Changes in Noncontrolling Interests Ownership**

The following table presents the effects of changes in our ownership interests in non-100%-owned consolidated subsidiaries:

Total net income controlling interests and changes in equity controlling interests	\$ 91	\$ 1,131	\$ 1,080

(a) See Note 2 for further discussion.

22. Stock-Based Compensation

The Spectra Energy Corp 2007 Long-Term Incentive Plan (the 2007 LTIP), as amended and restated, provides for the granting of stock options, restricted and unrestricted stock awards and units, and other equity-based awards, to employees and other key individuals who perform services for us. A maximum of 40 million shares of common stock may be awarded under the 2007 LTIP.

Restricted, performance and phantom awards granted under the 2007 LTIP typically become 100% vested on the three-year anniversary of the grant date. Equity-classified and liability-classified stock-based compensation cost is measured at the grant date based on the fair value of the award. Liability-classified stock-based compensation cost is re-measured at each reporting period until settlement. Related compensation expense is recognized over the requisite service period, which generally begins on the date the award is granted through the earlier of the date the award becomes vested, the date the employee becomes retirement-eligible, or the date the market or performance condition is met.

Options granted under the 2007 LTIP are issued with exercise prices equal to the fair market value of our common stock on the grant date, have ten-year terms and generally vest over a three-year term. Compensation expense related to stock options is recognized over the requisite service period. The requisite service period for stock options is the same as the vesting period, with the exception of retirement eligible employees, who have shorter requisite service periods ending when the employees become retirement eligible. We issue new shares upon exercising or vesting of share-based awards. The Black-Scholes option-pricing model is used to estimate the fair value of options at grant date. All outstanding stock options are fully vested, and as a result, we do not expect to recognize future compensation costs related to these stock options.

We recorded pre-tax stock-based compensation expense as follows, the components of which are described further below:

	2015	2014	2013
		(in millions)	
Phantom awards	\$ 11	\$ 14	\$ 13
Performance awards	18	13	33
Total	\$ 29	\$ 27	\$ 46

The tax benefit in Net Income associated with the recorded stock-based compensation expense was \$7 million in both 2015 and 2014, and \$8 million 2013. We recognized tax benefits from stock-based compensation cost of approximately \$1 million in 2015, \$3 million in 2014 and \$5 million in 2013 in Additional Paid-in Capital.

Performance Awards

Under the 2007 LTIP, we can also grant stock-based performance awards. The performance awards generally vest over three years at the earliest, if performance metrics are met. The liability-classified awards will be settled in cash at vesting. We granted 564,300 equity-classified awards during 2015, 557,100 during 2014 and 356,600 during 2013, with fair values of \$27 million in 2015, \$26 million in 2014 and \$13 million in 2013. We did not grant liability-classified awards during 2015 or 2014; however, we granted 343,700 during 2013, with a fair value of \$13 million. Of the unvested and outstanding performance awards granted, 1,689,640 awards contain market conditions based on the total shareholder return of Spectra Energy common stock relative to a pre-defined peer group, and 12,900 awards contain performance conditions based on EBITDA performance of one subsidiary company. The equity-classified and liability-classified awards with market conditions are valued using the Monte Carlo valuation method. The liability-classified awards are remeasured at each reporting period until settlement.

Expected volatility peer group	13%-27%	14% 32%	13% 33%
Market index (a)	N/A	N/A	16%

- (a) Beginning in 2014, the valuation model was refined to use an alternate analytical approach to project future stock prices in order to improve consistency and efficiency. The improved approach does not require the use of a market index assumption to determine the future stock price used in the valuation model. As such, the

volatility of the market index assumption will not be presented going forward. Based on our assessment, it was determined that this refinement did not have a significant impact on the fair value of the shares for all periods presented.

The risk-free rate of return was determined based on a yield of three-year U.S. Treasury bonds on the grant date. The expected volatility was established based on historical volatility over three years using daily stock price observations. Because the award payout includes dividend equivalents, no dividend yield assumption is required.

The total fair value of the shares vested was less than \$1 million in 2015, \$20 million in 2014 and \$19 million in 2013. As of December 31, 2015, we expect to recognize \$26 million of future compensation cost related to outstanding performance awards over a weighted-average period of less than one year.

F-A-50

Table of Contents**Phantom Awards**

Under the 2007 LTIP, we can also grant stock-based phantom awards. The phantom awards generally vest over three years. The liability-classified awards will be settled in cash at vesting. We awarded 39,200 equity-classified awards to our employees in 2015, 101,500 in 2014 and 474,500 in 2013, with fair values of \$1 million, \$4 million and \$14 million, respectively. We awarded 356,100 liability-classified awards to our employees in 2015 and 353,000 in 2014, with fair values of \$13 million for both 2015 and 2014. The liability-classified awards are remeasured at each reporting period until settlement.

The total fair value of the shares vested was \$13 million in 2015, \$11 million in 2014 and \$14 million in 2013. As of December 31, 2015, we expect to recognize \$12 million of future compensation cost related to phantom awards over a weighted-average period of less than two years.

We did not award any non-qualified stock options to employees during 2015, 2014 or 2013.

The total intrinsic value of options exercised was \$1 million in 2015, \$6 million in 2014 and \$21 million in 2013. Cash received by us from options exercised was \$3 million in 2015, \$11 million in 2014 and \$43 million in 2013. All stock options are fully vested, and as a result, we do not expect to recognize future compensation costs related to these stock options.

23. Employee Benefit Plans

Retirement Plans. We have a qualified non-contributory defined benefit (DB) retirement plan for U.S. employees (U.S. Qualified Pension Plan). This plan covers U.S. employees using a cash balance formula. Under a cash balance formula, a plan participant accumulates a retirement benefit consisting of pay credits that are based upon a percentage (which may vary with age and years of service) of current eligible earnings and current interest credits.

We also maintain non-qualified, non-contributory, unfunded defined benefit plans (U.S. Non-Qualified Pension Plans) which cover certain current and former U.S. executives. The U.S. Non-Qualified Pension Plans have no plan assets. There are other non-qualified plans such as savings and deferred compensation plans which cover certain current and

former U.S. executives. Pursuant to trust agreements, Spectra Energy has set aside funds for certain of the above non-qualified plans in several trusts. Although these funds are restrictive in nature, they remain a component of our general assets and are subject to the claims of creditors. These trust funds totaling \$18 million as of December 31, 2015 and \$17 million as of December 31, 2014, invested in money market funds and valued using a Level 1 hierarchy level, are considered AFS securities and are classified as Investments and Other Assets Other on the Consolidated Balance Sheets.

In addition, our Westcoast subsidiary maintains qualified and non-qualified, contributory and non-contributory DB (Canadian Qualified Pension Plan and Canadian Non-Qualified Pension Plan, respectively) and defined contribution (Canadian DC) retirement plans covering substantially all employees of our Canadian

F-A-51

Table of Contents

operations. The DB plans provide retirement benefits based on each plan participant's years of service and final average earnings. Under the Canadian DC plan, company contributions are determined according to the terms of the plan and based on each plan participant's age, years of service and current eligible earnings. We also provide non-qualified DB supplemental pensions to all employees who retire under a DB qualified pension plan and whose pension is limited by the maximum pension limits under the Income Tax Act (Canada). We report our Canadian benefit plans separate from the U.S. plans due to differences in actuarial assumptions.

Our policy is to fund our retirement plans, where applicable, on an actuarial basis to provide assets sufficient to meet benefits to be paid to plan participants or as required by legislation or plan terms. We made contributions to our U.S. Qualified and Non-Qualified Pension Plans of \$22 million in 2015, \$21 million in 2014 and \$22 million in 2013. We made total contributions to our Canadian Qualified and Non-Qualified Pension Plans of \$22 million in 2015, \$36 million in 2014 and \$80 million in 2013. Contributions of \$8 million in 2015 and \$9 million in both 2014 and 2013 were made to our Canadian DC plan. We anticipate that in 2016 we will make total contributions of approximately \$22 million to the U.S. Qualified and Non-Qualified Pension Plans, approximately \$16 million to the Canadian Qualified and Non-Qualified Pension Plans and approximately \$8 million to the Canadian DC Plan.

Actuarial gains and losses are amortized over the average remaining service period of active employees. The average remaining service period of active employees covered by the U.S. Qualified and Non-Qualified Pension Plans is 11 years. The average remaining service periods of active employees covered by the Canadian Qualified and Non-Qualified Pension Plans is 11 years. We determine the market-related value of plan assets using a calculated value that recognizes changes in fair value of the plan assets over five years for the U.S. plans and over three years for the Canadian plans.

The discount rates used to determine the benefit obligations are the rates at which the benefit obligations could be effectively settled. The discount rates for our U.S. and Canadian plans are developed from yields on available high-quality bonds in each country and reflect each plan's expected cash flows.

The long-term rates of return for the U.S. and Canadian plan assets as of December 31, 2015 were developed using weighted-average calculations of expected returns based primarily on future expected returns across classes considering the use of active asset managers applied against the U.S. and Canadian plans' respective targeted asset mix.

Pension plan assets are maintained in master trusts in both the U.S. and Canada. The investment objective of the master trusts is to achieve reasonable returns on trust assets, subject to a prudent level of portfolio risk, for the purpose of enhancing the security of benefits for plan participants. The asset allocation targets were set after considering the investment objective and the risk profile with respect to the trusts. Equities are held for their high expected return. Other equity and fixed income securities are held for diversification. Investments within asset classes are diversified to achieve broad market participation and reduce the effects of individual managers or investments. We regularly review our actual asset allocation and periodically rebalance our investments to the targeted allocation when considered appropriate.

Other Post-Retirement Benefit Plans

U.S. Other Post-Retirement Benefits. We provide certain health care and life insurance benefits for retired employees on a contributory and non-contributory basis. Employees are eligible for these benefits if they have met age and service requirements at retirement, as defined in the plans.

These benefit costs are accrued over an employee's active service period to the date of full benefits eligibility. Actuarial gains and losses are amortized over the average remaining service period of the active employees of 14 years. We determine the market-related value of the plan assets using a calculated value that recognizes changes in fair value of the plan assets over five years for the U.S. plans.

We provide health care and life insurance benefits for retired employees on a non-contributory basis for our Canadian operations predominantly under defined contribution plans. Employees are eligible for these benefits if they have met age and service requirements at retirement, as defined in the plans. The Canadian plans are not funded.

We expect to make future benefit payments, which reflect expected future service, as appropriate. As our plans provide benefits that are actuarially equivalent to the benefits received by Medicare recipients, we expect to receive future subsidies under Medicare Part D. Employees may participate in a matching contribution where we match a certain percentage of before-tax employee contributions of up to 6% of eligible pay per pay period for U.S. employees and up to 5% of eligible pay per pay period for Canadian employees. We expensed pre-tax employer matching contributions of \$15 million in 2015 and 2014, and \$14 million in 2013 for U.S. employees, and \$13 million in 2015, 2014 and 2013 for Canadian employees.

Unusual or Infrequent Items

Due to the significant downturn in commodity prices, DCP Midstream performed a goodwill impairment test and other asset impairment tests in 2015. The impairment tests resulted in DCP Midstream's recognition of a \$460 million goodwill impairment and \$342 million in other asset impairments, net of tax, which reduced our equity earnings from DCP Midstream by \$231 million after-tax for 2015. Due to the asset impairment recognized by DCP Midstream, we assessed our equity investment in DCP Midstream and determined that our equity investment in DCP Midstream was not impaired.

During the fourth quarter of 2015, we recorded goodwill impairments associated with the acquisition of Westcoast in 2002 for BC Field Services and the Empress NGL Operations, which impacted net income by \$270 million and \$63 million, respectively. The impairments are included in Impairment of Goodwill and Other on the Consolidated Statement of Operations. See Note 11 for further discussion.

Table of Contents**SPECTRA ENERGY CORP****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(Unaudited)****1. General**

The terms we, our, us and Spectra Energy as used in this report refer collectively to Spectra Energy Corp and its subsidiaries unless the context suggests otherwise. These terms are used for convenience only and are not intended as a precise description of any separate legal entity within Spectra Energy. The term Spectra Energy Partners refers to our Spectra Energy Partners operating segment. The term SEP refers to Spectra Energy Partners, LP, our master limited partnership.

On September 6, 2016, we announced that we entered into a definitive merger agreement with Enbridge Inc. (Enbridge) under which Enbridge and Spectra Energy will combine in a stock-for-stock merger transaction, which values Spectra Energy's stock at approximately \$28 billion, based on the closing price of Enbridge's common shares as of September 2, 2016. This transaction was unanimously approved by the boards of directors of both Spectra Energy and Enbridge and is expected to close in the first quarter of 2017, subject to shareholder and certain regulatory approvals and other customary conditions.

Upon completion of the proposed merger, Spectra Energy shareholders will receive 0.984 Enbridge common shares for each share of Spectra Energy stock they own. The consideration to be received by Spectra Energy shareholders is valued at \$40.33 per Spectra Energy share, based on the closing price of Enbridge common shares as of September 2, 2016, representing an approximate 11.5% premium to the closing price of Spectra Energy stock as of September 2, 2016. Upon completion of the merger, Enbridge shareholders are expected to own approximately 57% of the combined company and Spectra Energy shareholders are expected to own approximately 43%.

Nature of Operations. Spectra Energy Corp, through its subsidiaries and equity affiliates, owns and operates a large and diversified portfolio of complementary natural gas-related energy assets, and owns and operates a crude oil pipeline system that connects Canadian and United States (U.S.) producers to refineries in the U.S. Rocky Mountain and Midwest regions. We currently operate in three key areas of the natural gas industry: gathering and processing, transmission and storage, and distribution. We provide transmission and storage of natural gas to customers in various regions of the northeastern and southeastern U.S., the Maritime Provinces in Canada, the Pacific Northwest in the U.S. and Canada, and in the province of Ontario, Canada. We also provide natural gas sales and distribution services to retail customers in Ontario, and natural gas gathering and processing services to customers in western Canada. We also own a 50% interest in DCP Midstream, LLC (DCP Midstream), based in Denver, Colorado, one of the leading natural gas gatherers in the U.S. and one of the largest U.S. producers and marketers of natural gas liquids (NGLs).

Basis of Presentation. The accompanying Condensed Consolidated Financial Statements include our accounts and the accounts of our majority-owned subsidiaries, after eliminating intercompany transactions and balances. These interim financial statements should be read in conjunction with the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2015, and reflect all normal recurring adjustments that are, in our opinion, necessary to fairly present our results of operations and financial position. Amounts reported in the Condensed Consolidated Statements of Operations are not necessarily indicative of amounts expected for the respective annual periods due to the effects of seasonal temperature variations on energy consumption, primarily in our gas distribution operations, as well as changing commodity prices on certain of our processing operations and other factors.

Use of Estimates. To conform with generally accepted accounting principles (GAAP) in the U.S., we make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements and Notes to Condensed Consolidated Financial Statements. Although these estimates are based on our best available knowledge at the time, actual results could differ.

Table of Contents**2. Disposition**

On August 4, 2016, Westcoast Energy Inc. (Westcoast) completed the sale of its ownership interests in the Empress NGL operations (Empress) to Plains Midstream Canada ULC. Consideration received by Westcoast in this transaction was approximately \$204 million in cash, including approximately \$51 million for inventory and working capital. The total consideration is subject to final working capital adjustments, which are expected to be completed in the fourth quarter of 2016. The sale resulted in a pre-tax loss of less than \$1 million and a tax benefit of \$27 million, which are reflected in Operating, Maintenance and Other and Income Tax Expense, respectively, on our Condensed Consolidated Statements of Operations for the three and nine months ended September 30, 2016.

3. Business Segments

We manage our business in four reportable segments: Spectra Energy Partners, Distribution, Western Canada Transmission & Processing and Field Services. The remainder of our business operations is presented as Other, and consists of unallocated corporate costs and employee benefit plan assets and liabilities, 100%-owned captive insurance subsidiaries and other miscellaneous activities.

Our chief operating decision maker (CODM) regularly reviews financial information about each of these segments in deciding how to allocate resources and evaluate performance. There is no aggregation within our reportable business segments.

Spectra Energy's presentation of its Spectra Energy Partners segment is reflective of the parent-level focus by our CODM, considering the resource allocation and governance provisions associated with SEP's master limited partnership structure. SEP maintains a capital and cash management structure that is separate from Spectra Energy's, is self-funding and maintains its own lines of bank credit and cash management accounts. From a Spectra Energy perspective, our CODM evaluates the Spectra Energy Partners segment as a whole, without regard to any of SEP's individual businesses.

Spectra Energy Partners provides transmission, storage and gathering of natural gas, as well as the transportation of crude oil through interstate pipeline systems for customers in various regions of the midwestern, northeastern and southern U.S. and Canada. The natural gas transmission and storage operations are primarily subject to the rules and regulations of the Federal Energy Regulatory Commission (FERC). The crude oil transportation operations are primarily subject to regulation by the FERC in the U.S. and the National Energy Board (NEB) in Canada. Our Spectra Energy Partners segment is composed of the operations of SEP, less governance costs, which are included in Other.

Distribution provides retail natural gas distribution service in Ontario, Canada, as well as natural gas transmission and storage services to other utilities and energy market participants. These services are provided by Union Gas Limited (Union Gas), and are primarily subject to the rules and regulations of the Ontario Energy Board (OEB).

Western Canada Transmission & Processing provides transmission of natural gas and natural gas gathering and processing services to customers in western Canada, the northern tier of the U.S. and the Maritime Provinces in Canada. This segment conducts business mostly through BC Pipeline, BC Field Services, Canadian Midstream and Maritimes & Northeast Pipeline Limited Partnership (M&N Canada). BC Pipeline, BC Field Services and M&N Canada operations are primarily subject to the rules and regulations of the NEB. See Note 2 for discussion related to the sale of Empress on August 4, 2016.

Field Services gathers, compresses, treats, processes, transports, stores and sells natural gas, produces, fractionates, transports, stores and sells NGLs, recovers and sells condensate, and trades and markets natural gas and NGLs. It

conducts operations through DCP Midstream, which is owned 50% by us and 50% by Phillips 66.

F-B-10

Table of Contents

DCP Midstream gathers raw natural gas through gathering systems connecting to several interstate and intrastate natural gas and NGL pipeline systems, one natural gas storage facility and one NGL storage facility. DCP Midstream operates in a diverse number of regions, including the Permian Basin, Eagle Ford, Niobrara/DJ Basin and the Midcontinent. DCP Midstream Partners, LP (DCP Partners) is a publicly traded master limited partnership, of which DCP Midstream acts as general partner. As of September 30, 2016, DCP Midstream had an approximate 21% ownership interest in DCP Partners, including DCP Midstream's limited partner and general partner interests.

Our reportable segments offer different products and services and are managed separately as business units. Management evaluates segment performance based on earnings before interest, taxes and depreciation and amortization (EBITDA). Cash, cash equivalents and short-term investments are managed at the parent-company levels, so the associated gains and losses from foreign currency transactions and interest and dividend income are excluded from the segments' EBITDA. Our segment EBITDA may not be comparable to similarly titled measures of other companies because other companies may not calculate EBITDA in the same manner. Transactions between reportable segments are accounted for on the same basis as transactions with unaffiliated third parties.

Table of Contents**4. Regulatory Matters**

Union Gas. In December 2015, Union Gas filed an application with the OEB for the disposition of the 2014 demand side management (DSM) deferral and variance account balances. As a result of this application, Union Gas has a receivable from customers of approximately \$9 million as of September 30, 2016 and \$8 million as of December 31, 2015, which is reflected as Current Assets Other on the Condensed Consolidated Balance Sheets. In June 2016, the OEB approved Union Gas' application as filed and Union Gas has begun to recover the receivable from ratepayers effective October 1, 2016.

In March 2016, Union Gas filed a Draft Rate Order with the OEB for rates effective January 1, 2016 based on the OEB's February 24, 2016 updated Decision and Order on the 2015-2020 DSM Plan. In May 2016, a decision from the OEB was received approving recovery from ratepayers of approximately \$19 million effective January 1, 2016 with an implementation date of July 1, 2016.

In April 2016, Union Gas filed an application with the OEB for the annual disposition of the 2015 deferral account balances. As a result, Union Gas has a net receivable from customers of approximately \$18 million as of September 30, 2016 and December 31, 2015, which is primarily reflected as Current Assets Other on the Condensed Consolidated Balance Sheets. Union Gas filed a Settlement Proposal with the OEB in July 2016 reflecting a full settlement on all issues in the proceeding. In August 2016, the OEB approved the Settlement Proposal as filed. Union Gas has begun to implement the disposition of the balances effective October 1, 2016.

5. Income Taxes

Income tax expense was \$10 million for the three months ended September 30, 2016, compared to \$70 million for the same period in 2015. Income tax expense was \$160 million for the nine months ended September 30, 2016, compared to \$164 million for the same period in 2015. The lower tax expense for the three-month period was primarily due to the sale of Empress on August 4, 2016 and the release of tax reserves. The nine-month periods include the \$74 million tax impact of the loss on investment due to the impairment of goodwill at DCP Midstream in 2015, partially offset by tax rate changes in 2016.

The effective income tax rate was 3% for the three months ended September 30, 2016, compared to 22% for the same period in 2015. The effective income tax rate was 16% for the nine months ended September 30, 2016, compared to 20% for the same period in 2015. The lower effective income tax rate for the three-month period was primarily due to the sale of Empress on August 4, 2016 and the release of tax reserves. The nine-month periods include the \$74 million tax impact of the loss on investment due to the impairment of goodwill at DCP Midstream in 2015, partially offset by tax rate changes in 2016.

There was an \$8 million decrease in unrecognized tax benefits recorded during the nine months ended September 30, 2016. Although uncertain, we believe it is reasonably possible that the total amount of unrecognized tax benefits could decrease by approximately \$20 million to \$25 million prior to September 30, 2017 due to audit settlements and statute of limitations expirations.

6. Earnings per Common Share

Basic earnings per common share (EPS) is computed by dividing net income from controlling interests by the weighted-average number of common shares outstanding during the period. Diluted EPS is computed by dividing net income from controlling interests by the diluted weighted-average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that could occur if securities or other agreements to issue common

stock, such as stock options, stock-based performance unit awards and phantom stock awards, were exercised, settled or converted into common stock.

Table of Contents

The following table presents our basic and diluted EPS calculations:
