Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

## **Explanatory note**

This Report on Form 6-K contains the following exhibit. This Report on Form 6-K and the exhibit hereto are hereby incorporated by reference into Registration Statements Nos. 333-206013 and 333-218897 of Deutsche Bank AG.

Exhibit 99.1: Pages regarding Deutsche Bank AG's Total Loss Absorbing Capacity (TLAC) from presentation entitled "Q3 2017 Fixed Income Investor Conference Call", delivered by James von Moltke, Chief Financial Officer of Deutsche Bank AG, and Dixit Joshi, Group Treasurer of Deutsche Bank AG, on November 2, 2017.

## **Forward-looking statements contain risks**

This report contains forward-looking statements. Forward-looking statements are statements that are not historical facts; they include statements about our beliefs and expectations. Any statement in this report that states our intentions, beliefs, expectations or predictions (and the assumptions underlying them) is a forward-looking statement. These statements are based on plans, estimates and projections as they are currently available to the management of Deutsche Bank. Forward-looking statements therefore speak only as of the date they are made, and we undertake no obligation to update publicly any of them in light of new information or future events.

By their very nature, forward-looking statements involve risks and uncertainties. A number of important factors could therefore cause actual results to differ materially from those contained in any forward-looking statement. Such factors include the conditions in the financial markets in Germany, in Europe, in the United States and elsewhere from which we derive a substantial portion of our trading revenues, potential defaults of borrowers or trading counterparties, the implementation of our strategic initiatives, the reliability of our risk management policies, procedures and methods, and other risks referenced in our filings with the U.S. Securities and Exchange Commission. Such factors are described in detail in our 2016 Annual Report on Form 20-F, which was filed with the SEC on March 20, 2017, on pages 14 through 47 under the heading "Risk Factors." Copies of this document are readily available upon request or can be downloaded from [www.deutsche-bank.com/ir](http://www.deutsche-bank.com/ir).

## **CRR/CRD 4 Solvency Measures**

Since January 1, 2014, our regulatory assets, exposures, risk-weighted assets, capital and ratios thereof are calculated for regulatory purposes under the regulation on prudential requirements for credit institutions and investment firms (CRR) and the Capital Requirements Directive 4 (CRD 4) implementing Basel 3, which were published on June 27, 2013. CRR/CRD 4 provides for transitional (or phase-in) rules, under which capital instruments that are no longer eligible under the new rules are permitted to be phased out as the new rules on regulatory adjustments are phased in, as well as regarding the risk weighting of certain categories of assets. Unless otherwise noted, our CRR/CRD 4 solvency measures set forth in this document reflect these transitional rules.

We also set forth in this report and other documents such CRR/CRD 4 measures on a fully loaded basis, reflecting full application of the final CRR/CRD 4 framework without consideration of the transitional provisions under CRR/CRD 4, except with respect to a

limited set of equity investments. As the final implementation of CRR/CRD 4 may differ from our expectations, and our competitors' assumptions and estimates regarding such implementation may vary, our fully loaded CRR/CRD 4 measures may not be comparable with similarly labeled measures used by our competitors. We believe that these fully loaded CRR/CRD 4 calculations provide useful information to investors as they reflect our progress against the new regulatory capital standards and as many of our competitors have been describing CRR/CRD 4 calculations on a fully loaded basis.

For descriptions of these fully loaded CRR/CRD 4 measures and the differences from the most directly comparable measures under the CRR/CRD 4 transitional rules, please refer to (i) the subsections Management Report: Risk Report: Risk and Capital Performance: Regulatory Capital, Management Report: Risk Report: Leverage Ratio and Other Information (unaudited): Non-GAAP Financial Measures of Exhibit 99.1 to Deutsche Bank AG's Report on Form 6-K, dated October 26, 2017, and (ii) Management Report: Risk Report: Risk and Capital Performance: Capital and Leverage Ratio on pages 136 through 152 of the Annual Report 2016, in particular the subsections thereof entitled Development of regulatory capital, Development of risk-weighted assets and Leverage Ratio, and, with respect to the effect of the grandfathering rule on our fully loaded CRR/CRD 4 measures, to Supplementary Information: Non-GAAP Financial Measures: Fully loaded CRR/CRD 4 Measures on pages 471 and 472 of the Annual Report 2016, which Annual Report 2016 constitutes a part of our 2016 Annual Report on Form 20-F.

When used with respect to future periods, our fully loaded CRR/CRD 4 measures are also forward-looking statements. We cannot predict or quantify the levels of the most directly comparable transitional CRR/CRD 4 measures that would correspond to these fully loaded CRR/CRD 4 measures for future periods. In managing our business with the aim of achieving targets based on fully loaded CRR/CRD 4 measures, the relation between the fully loaded and transitional measures will depend upon, among other things, management action taken in light of future business, economic and other conditions.

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
