Item 2.05 Costs Associated with Exit or Disposal Activities

On December 31, 2017, the Board of Directors of Heidrick & Struggles International, Inc. (the Company) approved a restructuring plan, pursuant to which the Company will reduce overall costs and improve efficiencies in the Company's operations (the Restructuring) over the next several months. The primary components of the Restructuring include a reduction in the Company's workforce to better align the Company's organizational structure and recognize synergies with the combination of Leadership Consulting and Culture Shaping; reducing the Company's real estate expenses and support costs by consolidating or closing three of the Company's locations across its global footprint; and accelerating future expenses under certain contractual obligations. The expected annual cost savings from the Restructuring range from \$11 million to \$13 million.

In connection with the foregoing, the Company currently expects to incur pre-tax charges of approximately \$15 million to \$18 million, which include (i) approximately \$12 million to \$14 million for severance and related costs; (ii) approximately \$1 million for real estate closures and operations outsourcing; and (iii) approximately \$2 million of other exit costs. The Company plans to recognize these charges in the fourth quarter of 2017. Substantially all of these charges will result in future cash expenditures.

Included in these charges are expenses that the Company has already incurred related to the closing of the Knowledge Management Center (KMC) in India. The closure of KMC and the transition to a new service delivery model to align more closely with the Company's business model resulted in a headcount reduction of approximately 175 employees.

In connection with the Restructuring, on January 5, 2018, the Company also announced a series of changes within its senior management team that are described in detail in Item 5.02 below.

The exact timing of the restructuring charges and cash outflows, as well as the estimated cost ranges by category type, has not been finalized. The information regarding the charges is preliminary and unaudited. It will be subject to the finalization of timetables for implementation of the plan, and in the case of the contemplated workforce reductions, consultation with employees and their representatives as well as the statutory severance requirements of the particular legal jurisdictions impacted. Hence, the amount and timing of the actual charges may vary due to a variety of factors.

To the extent required by applicable rules, the Company will amend this Current Report on Form 8-K as details of the restructuring plan are refined and estimates of related costs and charges are finalized.

On January 5, 2018 the Company issued a press release detailing the Restructuring and other matters. A copy of the press release is included as Exhibit 99.1 to this Current Report on Form 8-K.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

Cautions about Forward-Looking Statements

This document contains forward-looking statements. The forward-looking statements relate to our planned restructuring activities and include our current estimates of the scope, timing and cost of those activities, as well as the expected expense savings resulting from the Restructuring and other activities. These forward-looking statements involve risks and uncertainties that could cause our results to differ materially from management's current expectations. Such risks and uncertainties include, but are not limited to, the risk of additional costs and delays associated with compliance with U.S. and foreign labor and other laws, the risk that a decline in general economic conditions and/or unforeseen changes in the strength of our clients' businesses and demand for services will require changes to the planned Restructuring, and the risk that we are not able to realize the savings expected from the restructuring activities. In addition, other risks that we face in running our operations include the ability to execute successfully through business cycles while we continue to implement cost reductions; the ability to meet and achieve the benefits of our cost-reduction goals and otherwise successfully adapt our cost structures to continuing changes in business conditions; the risk that our cost-cutting initiatives will impair our ability to attract and retain qualified consultants; and other risks detailed in our filings with the Securities and Exchange Commission.
