Brookfield Global Listed Infrastructure Income Fund Inc.

IN PROFILE

Brookfield Investment Management (the “Firm”) is an SEC-registered investment adviser and represents the Public Securities platform of Brookfield Asset Management. The Firm provides global listed real assets strategies including real estate equities, infrastructure equities, real asset debt and diversified real assets. With more than \$16 billion of assets under management as of December 31, 2017, the Firm manages separate accounts, registered funds and opportunistic strategies for institutional and individual clients, including financial institutions, public and private pension plans, insurance companies, endowments and foundations, sovereign wealth funds and high net worth investors. The Firm is a wholly owned subsidiary of Brookfield Asset Management, a leading global alternative asset manager with approximately \$285 billion of assets under management as of December 31, 2017. For more information, go to www.brookfield.com.

Brookfield Global Listed Infrastructure Income Fund Inc. is managed by Brookfield Investment Management. The Fund uses its website as a channel of distribution of material company information. Financial and other material information regarding the Fund is routinely posted on and accessible at www.brookfield.com.

Letter to Stockholders

Dear Stockholders,

We are pleased to provide the Annual Report for Brookfield Global Listed Infrastructure Income Fund Inc. (the "Fund") for the year ended December 31, 2017.

The MSCI World¹ and S&P 500 Total Return² Indexes reached record highs in 2017 amid accelerating economic growth, strong corporate earnings and investor optimism. For the year, the MSCI World and the S&P 500 Total Return Indexes returned 23.1% and 21.8%, respectively. It was the first time in the history of both indexes (going back to 1970 for the MSCI World and 1928 for the S&P 500) where total returns were positive in every calendar month over the course of a year.

Global economic expansion continued in 2017 and was remarkably synchronized across the globe. In fact, it was the first year since 2007 that no Organization for Economic Cooperation and Development economy showed signs of contraction. Across developed market economies, the European recovery witnessed the strongest acceleration in recent quarters, with economic and policy surprise indexes in Europe generally outpacing those in Asia and the Americas over the last 12 months. Adding to this global optimism, the U.S. Tax Cuts and Jobs Act of 2017—which lowers federal tax rates for U.S. companies and individuals—was signed into law in the final days of December. The Federal Open Market Committee ("FOMC") increased the federal funds rate by 25 basis points on three occasions in 2017 (in March, June and December), to a target range from 1.25% to 1.5% at the end of the year. The FOMC also began to reduce the size of its \$4.4 trillion balance sheet.

The spot price of West Texas Intermediate Crude Oil rose 12.5% during the year, closing at \$60.46 per barrel. In November, the Organization of the Petroleum Exporting Countries ("OPEC") and Russia agreed to extend oil production cuts until the end of 2018. OPEC members Libya and Nigeria, which were exempt from the initial deal in 2016 to curb output, agreed not to increase their production in 2018 above current levels.

Overall, global listed infrastructure assets performed well in 2017. With the exception of Master Limited Partnerships, all sectors within the investment universe delivered positive performance during the year.

In addition to performance information, this report provides the Fund's audited financial statements as of December 31, 2017.

We welcome your questions and comments, and encourage you to contact our Investor Relations team at (855) 777-8001 or visit us at www.brookfieldim.com for more information. Thank you for your support.

Sincerely,

Brian F. Hurley

President

Letter to Stockholders (continued)

¹ The MSCI World Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets.

² The S&P 500 Total Return Index is the total return version of S&P 500 Index. Dividends are reinvested on a daily basis and the base date for the index is January 1, 1988. All regular cash dividends are assumed reinvested in the S&P 500 Index on the ex-date. Special cash dividends trigger a price adjustment in the price return index.

Indices are not managed and an investor cannot invest directly in an index.

Past performance is no guarantee of future results.

2Brookfield Investment Management Inc.

Table of Contents

Brookfield Global Listed Infrastructure Income Fund Inc.

OBJECTIVE AND STRATEGY

The Fund's investment objective is to provide a high level of total return, with an emphasis on income. The Fund seeks to achieve its investment objective by investing primarily in securities of publicly traded infrastructure companies.

Investment Risks: All investment strategies and the investments made pursuant to such strategies involve the risk of loss, including the potential loss of the entire investment. The investment performance and the success of any investment strategy or particular investment can never be predicted or guaranteed, and the value of an investment will fluctuate due to market conditions and other factors. The Fund is a non-diversified, closed-end management investment company. Shares of closed-end management investment companies frequently trade at a discount to their net asset value, and the Fund's common shares may likewise trade at a discount to their net asset value.

Investing in the Fund will be subject to risks incidental to the ownership and operation of infrastructure assets. Such risks include risks associated with general economic climates; fluctuations in interest rates and currency; availability and attractiveness of secured and unsecured financing; compliance with relevant government regulations; environmental liabilities; various uninsured or uninsurable unforeseen events; infrastructure development and construction and the ability of the relevant operating company to manage the relevant infrastructure business. These risks, either individually or in combination, may cause, among other things, a reduction in income, an increase in operating costs and an increase in costs associated with investments in infrastructure assets, which may materially affect the financial position and returns of specific investments generally. For additional information about the risks associated with investing in the Fund, investors should review the Fund's Prospectus and Statement of Additional Information.

Management Discussion of Fund Performance

For the year ended December 31, 2017, Brookfield Global Listed Infrastructure Income Fund Inc. (NYSE: INF) had a total return based on net asset value of 13.73% and a total return based on market price of 8.92%, which assumes the reinvestment of dividends and is exclusive of brokerage commissions. Based on the NYSE closing price of \$12.93 on December 31, 2017, the Fund's shares had a distribution rate of 7.58%. The distribution rate is calculated as the annualized amount of the reporting period's most recently declared monthly distribution paid divided by the stated stock price.

Eight of ten sectors contributed positively to performance during the year.¹ The Fund's allocations to Toll Roads, Communications and the Renewables/Electric Generation sectors were the largest contributors to performance. The MLP and Electricity Transmission & Distribution sectors detracted from performance during the year.

The Fund's allocation to Continental Europe was the largest contributor to performance by region, followed by the U.S. The U.K. was the only regional detractor from performance during the period.

By security, American Tower Corporation (AMT, Communications, U.S.) was the leading contributor during the year. Tower assets performed well amid positive trends for data usage, deployment of new technologies and the pending rollout of The First Responder Network Authority (FirstNet). Vinci SA (DG.FP, Toll Roads, Continental Europe) and Flughafen Zurich AG (FHZN.SW, Airports, Continental Europe) were also leading contributors. European transports benefitted from an expanding economy, as well as capital flows into the region.

Conversely, Energy Transfer Partners, L.P. (ETP, MLP, U.S.) and Enbridge Energy Partners, L.P. (EEP, MLP, U.S.) were among the leading detractors as the MLP sector underperformed in 2017. PG&E Corporation (PCG, Electricity Transmission & Distribution, U.S.) also detracted. The stock declined meaningfully on potential liabilities related to the northern California wildfires in October.

¹ Contribution reflects returns in local currencies.

Table of Contents

Brookfield Global Listed Infrastructure Income Fund Inc.

INFRASTRUCTURE MARKET OVERVIEW

Listed infrastructure returns were positive in 2017, with the Dow Jones Brookfield Global Infrastructure Composite Index posting a gain of 12.7%.² Regional returns were particularly strong in Europe, where listed infrastructure stocks rose 27.2%. The Asia Pacific and Americas regions of the Dow Jones Brookfield Global Infrastructure Composite Index returned 24.0% and 10.0%, respectively. By sector, Toll Roads gained 43.1%, followed by Airports (39.5%), Diversified (36.8%), Communications (33.9%), Water (20.0%), Ports (7.7%), Oil & Gas Storage & Transportation (6.4%) and Electricity Transmission & Distribution (4.4%). Conversely, the Alerian MLP Index declined 6.5%.³

U.S. communication tower stocks performed very well in 2017. Again, positive demand drivers including increased data usage, deployment of new technologies and the pending rollout of FirstNet provided tailwinds for the sector during the year. Transport stocks also performed well in 2017. Notably, European airports and toll roads benefitted from an expanding economy, as well as capital flows into the region following the outcome of regional elections in which several populist candidates were defeated.

Performance among utilities was mixed in 2017. U.K. water and electric utilities underperformed amid uncertainties related to Brexit, currency and in some cases possible nationalization of assets if the labor party gains control of the government. Gas utilities in China/Hong Kong performed well as regulation around their allowed returns became more transparent. And in the U.S., while some transmission & distribution operators produced double-digit returns, wildfires in California had a significantly negative impact on two public utilities in the state.

Lastly, energy infrastructure lagged the broader asset class in 2017 as investor sentiment failed to keep pace with positive fundamentals. However, that trend began to reverse in the final weeks of the year, with Master Limited Partnerships ("MLPs") outperforming broader listed infrastructure in December.

² The Dow Jones Brookfield Global Infrastructure Composite Index is calculated and maintained by S&P Dow Jones Indices and comprises infrastructure companies with at least 70% of its annual cash flows derived from owning and operating infrastructure assets, including MLPs).

³ The Alerian MLP Index is a composite of the 50 most prominent energy MLPs calculated by Standard & Poor's using a float-adjusted market-capitalization methodology. The index is disseminated by the New York Stock Exchange real-time on a price return basis (NYSE: AMZ) and on a total-return basis (NYSE: AMZX).

Indices are not managed and an investor cannot invest directly in an index.

OUTLOOK

In our view, the fundamental picture for the North American energy infrastructure sector continues to be strong. Monthly crude oil production in the U.S. recently hit its highest level since 1971, and U.S. natural gas gross monthly withdrawals are at record highs. Additionally, we believe the widening spread between West Texas Intermediate and Brent Crude oil could be a positive sign for exports of U.S. oil, which could boost midstream throughput volumes further. The recent cooperation between OPEC and Russia to extend production cuts through 2018 may further support balanced markets. We are encouraged by the recent change in market sentiment for midstream energy infrastructure and believe there is more room for investor sentiment to catch up with fundamentals; we therefore remain overweight.

Fundamentally, we believe that transmission and distribution utility companies in North America and Europe are performing well amid low financing costs and (generally) healthy growth rates. However, valuations appear to be elevated and investors are having to pay very high multiples for exposure to these businesses. We maintain our preference for utilities exposed to low-cost renewables generation. California—a market where we previously saw regulatory support—is now contending with the potential liabilities from widespread fires, making the region less attractive for investors. Underperformance among U.K. utilities amid uncertainties related to Brexit, currency and regulations created more attractive valuations. Recently we added exposure opportunistically but will continue to monitor the risks—particularly those regarding regulations.

Traffic and cash flow growth has been positive for toll roads globally. We continue to prefer companies with

Table of Contents

Brookfield Global Listed Infrastructure Income Fund Inc.

European exposure, where growth has been steady. However, we are monitoring the political environment as some risks have re-emerged in the region. We remain optimistic for the prospect of passenger traffic in certain markets within Latin America, particularly Mexican toll road operators. The political situation in Mexico, specifically as it pertains to the North American Free Trade Agreement (“NAFTA”) negotiations, continues to be a risk factor we are considering.

Our outlook for the communications sector is unchanged as we continue to see long-term growth prospects. However, amid very strong performance for U.S. tower companies this year we have decreased our exposure recently.

If infrastructure stocks trade more in-line with our estimation of appropriate risk-adjusted cost of capital (which varies by sector), we see the potential for double-digit upside in some groups. However, we also see equal downside risk among sectors most exposed to certain factors, notably rising interest rates or adverse regulatory changes. We are being particularly selective within rate-sensitive sectors, as we do not believe the prospect for higher interest rates is appropriately discounted at current levels.

Forward-Looking Information

This management discussion contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.

Forward-looking statements that are based on various assumptions (some of which are beyond our control) may be identified by reference to a future period or periods or by the use of forward-looking terminology, such as “may,” “will,” “believe,” “expect,” “anticipate,” “continue,” “should,” “intend,” or similar terms or variations on those terms or the negative of those terms. Although we believe that the expectations contained in any forward-looking statement are based on reasonable assumptions, we can give no assurance that our expectations will be attained. We do not undertake, and specifically disclaim any obligation, to publicly release any update or supplement to any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements.

¹ The distribution rate referenced above is calculated as the annualized amount of the most recent monthly distribution declared divided by December 31, 2017 stock price. This calculation does not include any non-income items such as loan proceeds or borrowings. The Fund estimates that it has distributed more than its net investment income and net realized capital gains; therefore, a portion of your distribution may be a return of capital. Year-to-date through December 31, 2017, the Fund estimates approximately 74% of its distributions is a return of capital.

---	----------	----------	----------	----------	----------

Total investment return based on net asset value (“NAV”) is the combination of changes in NAV, reinvested dividend income at NAV and reinvested capital gains distributions at NAV, if any. The actual reinvest price for the last dividend declared in the period may often be based on the Fund’s market price (and not its NAV), and therefore may be different from the price used in the calculation. Total investment return excludes the effects of sales charges or contingent deferred sales charges, if applicable.

Total investment return based on market price is the combination of changes in the New York Stock Exchange market price per share and the effect of reinvested dividend income and reinvested capital gains distributions, if any, at the average price paid per share at the time of reinvestment. The actual reinvestment for the last dividend declared in the period may take place over several days as described in the Fund’s dividend reinvestment plan, and in some instances may not be based on the market price, so the actual reinvestment price may be different from the price used in the calculation. Total investment return excludes the effect of broker commissions.

¹ Per share amounts presented are based on average shares outstanding throughout the period indicated.

Effective as of the close of business on September 19, 2013, the Fund issued transferrable rights to its stockholders to subscribe for up to 2,590,000 shares of common stock at a rate of one share for every 3 rights held. The subscription price was initially set at 90% of the average closing price for the last 5 trading days of the offering period. However as the subscription price was less than 80% of the Net Asset Value (“NAV”) of the Fund’s common shares at the close of trading on the New York Stock Exchange (“NYSE”) on the expiration date, the subscription price was 80% of the Fund’s NAV at the close of trading on that day. The shares were subscribed at a price of \$19.29 which was less than the October 18, 2013 NAV of \$24.11 thus creating a dilutive effect on the NAV.

² Effective as of the close of business on April 21, 2015, the Fund issued transferrable rights to its stockholders to subscribe for up to 3,454,000 shares of common stock at a rate of one share for every 3 rights held. The subscription price was initially set at 90% of the average closing price for the last 5 trading days of the offering period. However as the subscription price was less than 78% of the NAV of the Fund’s common shares at the close of trading on the NYSE on the expiration date, the subscription price was 78% of the Fund’s NAV at the close of trading on that day. The shares were subscribed at a price of \$17.20 which was less than the May 22, 2015 NAV of \$22.05 thus creating a dilutive effect on the NAV.

³ Calculated by subtracting the Fund’s total liabilities (not including borrowings) from the Fund’s total assets and dividing by the total number of senior indebtedness units, where one unit equals \$1,000 of senior indebtedness.

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Notes to Financial Statements

December 31, 2017

1. Organization

Brookfield Global Listed Infrastructure Income Fund Inc. (the “Fund”) was incorporated under the laws of the State of Maryland on June 8, 2011. The Fund is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as a non-diversified, closed-end management investment company, which invests primarily in publicly traded infrastructure companies. The Fund commenced operations on August 26, 2011.

Brookfield Investment Management Inc. (“BIM” or “Adviser”), a wholly-owned subsidiary of Brookfield Asset Management Inc., is registered as an investment adviser under the Investment Advisers Act of 1940, as amended, and serves as investment adviser to the Fund.

The investment objective of the Fund is to provide a high level of total return, with an emphasis on income. The investment objective is not fundamental and may be changed by the Fund's Board of Directors (the “Board”) without stockholder approval, upon not less than 60 days prior written notice to stockholders. No assurance can be given that the Fund's investment objective will be achieved.

2. Significant Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. The Fund is an investment company within the scope of Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2013-08 and follows accounting and reporting guidance under FASB Accounting Standards Codification (“ASC”) Topic 946 Financial Services-Investment Companies.

Valuation of Investments: The Board has adopted procedures for the valuation of the Fund's securities. The Adviser oversees the day to day responsibilities for valuation determinations under these procedures. The Board regularly reviews the application of these procedures to the securities in the Fund's portfolio. The Adviser's Valuation Committee is comprised of senior members of the Adviser's management team. There can be no assurance that the Fund could purchase or sell a portfolio security at the price used to calculate the Fund's NAV.

Debt securities, including U.S. government securities, listed corporate bonds, other fixed income and asset-backed securities, and unlisted securities and private placement securities, are generally valued at the bid prices furnished by an independent pricing service or, if not valued by an independent pricing service, using bid prices obtained from active and reliable market makers in any such security or a broker-dealer. The broker-dealers or pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the broker-dealers or pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the broker-dealers or pricing services may also utilize proprietary valuation models which may consider market transactions in comparable securities and the various relationships between securities in determining fair value and/or market characteristics such as benchmark yield curves, option-adjusted spreads, credit spreads, estimated default rates, coupon-rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair values. Short-term debt securities with remaining maturities of sixty days or less are valued at amortized cost of discount or premium to maturity, unless such valuation, in the judgment of the Adviser's Valuation Committee, does not represent fair value. Investments in equity securities listed or traded on any securities exchange or traded in the over-the-counter market are valued at the last trade price as of the close of business on the valuation date. Prices of foreign equities that are principally traded on certain foreign markets will generally be adjusted daily pursuant to a fair value pricing service approved by the Board in order to reflect an adjustment for the factors occurring after the

Table of Contents

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Notes to Financial Statements (continued)

December 31, 2017

close of certain foreign markets but before the NYSE Close. When fair value pricing is employed, the value of the portfolio securities used to calculate the Fund's net asset values may differ from quoted or official closing prices. Investments in open-end registered investment companies, if any, are valued at the net asset value ("NAV") as reported by those investment companies.

Securities for which market prices are not readily available or which cannot be valued using the sources described above will be valued using an internal proprietary fair value methodology. For any security warranting such fair value measurement, a memorandum, including the specific methodology and supporting information, will be provided to the Valuation Committee by a portfolio manager or analyst looking to fair value a particular security utilizing the internal proprietary fair value methodology. A portfolio manager or analyst shall use their best efforts to maximize the use of relevant observable inputs and minimize the use of unobservable inputs within their valuation technique. The Valuation Committee shall review the memorandum and supporting information provided by a portfolio manager or analyst and consider all relevant factors as it deems appropriate before approving the fair value recommendation. The Fund may use the fair value of a security to calculate its NAV when, for example, (1) a portfolio security is not traded in a public market or the principal market in which the security trades is closed, (2) trading in a portfolio security is suspended and not resumed prior to the normal market close, (3) a portfolio security is not traded in significant volume for a substantial period, or (4) the Adviser determines that the quotation or price for a portfolio security provided by a broker-dealer or an independent pricing service is inaccurate.

The fair value of securities may be difficult to determine and thus judgment plays a greater role in the valuation process. The fair valuation methodology may include or consider the following guidelines, as appropriate: (1) evaluation of all relevant factors, including but not limited to, pricing history, current market level, supply and demand of the respective security; (2) comparison to the values and current pricing of securities that have comparable characteristics; (3) knowledge of historical market information with respect to the security; (4) other factors relevant to the security which would include, but not be limited to, duration, yield, fundamental analytical data, the Treasury yield curve, and credit quality.

The values assigned to fair valued investments are based on available information and do not necessarily represent amounts that might ultimately be realized, since such amounts depend on future developments inherent in investments. Changes in the fair valuation of portfolio securities may be less frequent and of greater magnitude than changes in the price of portfolio securities valued at their last sale price, by an independent pricing service, or based on market quotations. Imprecision in estimating fair value can also impact the amount of unrealized appreciation or depreciation recorded for a particular portfolio security and differences in the assumptions used could result in a different determination of fair value, and those differences could be material.

The Fund has established methods of fair value measurements in accordance with GAAP. Fair value denotes the price that the Fund would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. A three-tier hierarchy has been established to maximize the use of observable market data and minimize the use of unobservable inputs and to establish classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including such a pricing model and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

16 Brookfield Investment Management Inc.

Table of Contents

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Notes to Financial Statements (continued)

December 31, 2017

Level 1	quoted prices in active markets for identical assets or liabilities
-	
Level 2	quoted prices in markets that are not active or other significant observable inputs (including, but not limited to: quoted prices for similar assets or liabilities, quoted prices based on recently executed transactions, interest rates, credit risk, etc.)
-	
Level 3	significant unobservable inputs (including the Fund's own assumptions in determining the fair value of assets or liabilities)
-	

The Adviser's valuation policy, as previously stated, establishes parameters for the sources and types of valuation analysis, as well as, the methodologies and inputs the Valuation Committee uses in determining fair value. If the Valuation Committee determines that additional techniques, sources or inputs are appropriate or necessary in a given situation, such additional work will be undertaken.

Significant increases or decreases in any of the unobservable inputs in isolation may result in a lower or higher fair value measurement.

To assess the continuing appropriateness of security valuations, the Adviser (or its third party service provider, who is subject to oversight by the Adviser), regularly compares its prior day prices, prices on comparable securities and sale prices to the current day prices and challenges those prices that exceed certain tolerance levels with the third party pricing service or broker source. For those securities valued by fair valuations, the Adviser's Valuation Committee reviews and affirms the reasonableness of the valuations based on such methodologies and fair valuation determinations on a regular basis after considering all relevant information that is reasonably available.

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those securities.

The following table summarizes the Fund's investments valuation inputs categorized in the disclosure hierarchy as of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Common Stocks:				
Australia	\$ —	\$ 8,376,704	\$ —	\$ 8,376,704

⁽¹⁾ Delivered through corporate action.

The fair value of the Fund's credit facility, which qualifies as a financial instrument under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 Disclosures about Fair Values of Financial Instruments, approximates the carrying amounts presented in the Statement of Assets and Liabilities. As of December 31, 2017, this financial instrument is categorized as a Level 2 within the disclosure hierarchy.

During the year ended December 31, 2017, there were transfers from Level 1 to Level 2 of \$2,684,651 which represent securities that were previously priced using market close prices and are currently priced using the factor adjusted prices. There were also transfers from Level 2 to Level 1 of \$7,169,063 which represent common stocks that were previously priced using the factor adjusted prices and currently priced using the market close prices. The basis for recognizing and valuing transfers is as of the end of the period in which transfers occur.

Investment Transactions and Investment Income: Securities transactions are recorded on the trade date. Realized gains and losses from securities transactions are calculated on the identified cost basis. Interest income is recorded on the accrual basis. Discounts and premiums on securities are accreted and amortized, respectively, on a daily basis, using the effective yield to maturity method adjusted based on management's assessment of the collectability of such interest. Dividend income is recorded on the ex-dividend date. Net realized gain (loss) on the Statement Of Operations may also include realized gain distributions received from real estate investment trusts ("REITs"). Distributions of net realized gains are recorded on the REIT's ex-dividend date.

Foreign Currency Transactions: Securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund isolates the portion of realized gains or losses resulting from changes in foreign exchange rates

on securities from the fluctuations arising from changes in market prices of securities held. The Fund does not isolate the portion of unrealized gains or losses resulting from changes in foreign exchange rates on securities from the fluctuations arising from changes in market prices of securities held.

Reported net realized foreign exchange gains or losses arise from sales of securities, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid.

Taxes: The Fund intends to continue to meet the requirements of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies and to distribute substantially all of its taxable income to its stockholders. Therefore, no federal income or excise tax provision is required. The Fund may incur an excise tax to the extent it has not distributed all of its taxable income on a calendar year basis.

18Brookfield Investment Management Inc.

Table of Contents

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Notes to Financial Statements (continued)

December 31, 2017

GAAP provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. An evaluation of tax positions taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the taxing authority is required. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be booked as a tax expense in the current year and recognized as: a liability for unrecognized tax benefits; a reduction of an income tax refund receivable; a reduction of a deferred tax asset; an increase in a deferred tax liability; or a combination thereof. As of December 31, 2017, the Fund has determined that there are no uncertain tax positions or tax liabilities required to be accrued.

The Fund has reviewed all taxable years that are open for examination (i.e., not barred by the applicable statute of limitations) by taxing authorities of all major jurisdictions, including the Internal Revenue Service. As of December 31, 2017, open taxable years consisted of the taxable years ended December 31, 2015 through December 31, 2017. No examination of the Fund's tax returns is currently in progress.

Expenses: Expenses directly attributable to the Fund are charged directly to the Fund, while expenses which are attributable to the Fund and other investment companies advised by the Adviser are allocated among the respective investment companies, including the Fund, based upon relative average net assets, evenly or a combination of average net assets and evenly.

Distributions: The Fund declares and pays dividends monthly from net investment income. To the extent these distributions exceed net investment income, they may be classified as return of capital. The Fund also pays distributions at least annually from its net realized capital gains, if any. Dividends and distributions are recorded on the ex-dividend date. All common shares have equal dividend and other distribution rights. A notice disclosing the source(s) of a distribution is provided after a payment is made from any source other than net investment income. Any such notice is provided only for informational purposes in order to comply with the requirements of Section 19(a) of the 1940 Act and not for tax reporting purposes. The tax composition of the Fund's distributions for each calendar year is reported on IRS Form 1099-DIV.

Dividends from net investment income and distributions from realized gains from investment transactions have been determined in accordance with federal income tax regulations and may differ from net investment income and realized gains recorded by the Fund for financial reporting purposes. These differences which could be temporary or permanent in nature, may result in reclassification of distributions; however, net investment income, net realized gains and losses and net assets are not affected.

New Accounting Pronouncements: In August 2016, the FASB issued ASU 2016-15 Classification of Certain Cash Receipts and Cash Payments which amends ASC 230 Statement of Cash Flows to clarify guidance on the classification of certain cash receipts and cash payments in the Statement Of Cash Flows. The ASU is effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods. Management is currently evaluating the impact, if any, of these changes on the financial statements.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230), Restricted Cash. ASU 2016-18 requires that a Statement of Cash Flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the Statement of Cash Flows. The amendments in ASU 2016-18 do not provide a definition of restricted cash or restricted cash equivalents. ASU 2016-18 is effective for interim and annual reporting periods beginning after December 15, 2017. Management is currently evaluating the impact, if any, of applying this provision.

In March 2017, the FASB issued ASU 2017-08, Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. The amendments in the ASU shorten the amortization

period for certain callable debt securities, held at a premium, to be amortized to the earliest call date. The ASU does not require an accounting change for securities held at a discount; which continues to be amortized

2017 Annual Report19

Notes to Financial Statements (continued)

December 31, 2017

to maturity. The ASU is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2018. Management is currently evaluating the impact, if any, of applying this provision.

3. Derivative Financial Instruments

Forward Currency Contracts

A forward currency contract (“forward contract”) is an agreement between two parties to buy or sell a currency at an agreed upon price for settlement at a future date. During the period the forward contract is in existence, changes in the value of the forward contract will fluctuate with changes in the currency exchange rates. The forward contract is marked to market daily and these changes are recorded as an unrealized gain or loss. Gain or loss on the purchase or sale of a forward contract is realized on the settlement date.

The Fund invests in forward contracts to hedge against fluctuations in the value of foreign currencies caused by changes in the prevailing currency exchange rates. The use of forward contracts involves the risk that the counterparties may be unable to meet the terms of their contracts and may be negatively impacted from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

The Fund did not have any forward contracts outstanding during the year ended December 31, 2017.

Equity Option Contracts

When the Fund purchases a put or call option, an amount equal to the premium paid by the Fund is recorded as an investment and is subsequently adjusted to the current fair value of the option purchased, which is based on the last quoted sales price, or if no sale occurred, the last quoted mean price on the reporting date. Premiums paid for purchasing options that expire unexercised are treated by the Fund on the expiration date as realized losses from investments. The difference between the premium and the amount received on writing an option to effect a closing transaction, including brokerage commissions, is also treated as a realized loss or, if the premium is less than the amount received from the closing transaction, as a realized gain. If a call option is exercised, the premium is added to the cost of the purchase of the underlying security in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the proceeds of the securities sold by the Fund.

When the Fund writes a put or call option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current fair value of the option written which is based on the last quoted price, or if no transaction occurred, the last quoted mean price on the reporting date. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gains from investments. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund.

In the normal course of its business, the Fund buys and sells financial instruments, including equity options, subscription rights, forward currency contracts, and warrants. Generally, these financial instruments represent future commitments to purchase or sell other financial instruments at specific terms at future dates. The derivative financial instruments may be traded on an exchange or negotiated between contracting parties over-the-counter (or “OTC”).

The Fund did not have any written option contracts outstanding as of December 31, 2017.

The monthly average notional value of written option contracts outstanding during the year ended December 31, 2017 was \$1,345,731.

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Notes to Financial Statements (continued)

December 31, 2017

The following table sets forth the effect of derivative instruments on the Statement of Operations for the year ended December 31, 2017:

Derivatives	Location of Gains (Losses) on Derivatives Recognized in Income	Net Realized Gain	Net Change in Unrealized Depreciation
Equity option contracts	Written option contracts	\$128,660	\$(25,940)

4. Investment Advisory Agreement and Transactions with Related Parties

The Fund has entered into an investment advisory agreement (the "Advisory Agreement") with the Adviser under which the Adviser is responsible for the management of the Fund's portfolio and provides the necessary personnel, facilities, equipment and certain other services necessary to the operation of the Fund. The Advisory Agreement provides that the Fund shall pay the Adviser a fee, computed daily and payable monthly, at an annual rate of 1.00% of the Fund's average daily net assets plus the amount of borrowing for investment purposes ("Managed Assets"). Pursuant to the Advisory Agreement, the Adviser may delegate any or all of its responsibilities to one or more investment sub-advisers, which may be affiliates of the Adviser, subject to the approval of the Board and stockholders of the Fund.

The Fund has entered into an Administration Agreement with the Adviser and the Adviser has entered into a sub-administration agreement with U.S. Bancorp Fund Services, LLC (the "Sub-Administrator"). The Adviser and Sub-Administrator perform administrative services necessary for the operation of the Fund, including maintaining certain books and records of the Fund and preparing reports and other documents required by federal, state, and other applicable laws and regulations, and providing the Fund with administrative office facilities. For these services, the Fund pays to the Adviser a monthly fee at an annual rate of 0.15% of the Fund's average daily Managed Assets. The Adviser is responsible for any fees due to the Sub-Administrator.

Certain officers and/or directors of the Fund are officers and/or employees of the Adviser.

5. Purchases and Sales of Investments

For the year ended December 31, 2017, purchases and sales of investments, excluding short-term securities, the credit facility and U.S. Government securities, were \$194,075,744 and \$205,059,602, respectively.

The Fund did not have any purchases or sales of U.S. Government securities for the year ended December 31, 2017.

6. Borrowings

Credit facility: The Fund has established a line of credit with BNP Paribas for investment purposes subject to the limitations of the 1940 Act for borrowings by registered investment companies. The Fund pays interest in the amount of 0.70% plus the 3-month London Interbank Offered Rate on the amount outstanding and 0.70% on the line of credit that is unused. For the year ended December 31, 2017, the average interest rate paid on the line of credit was 1.88% of the average total line of credit amount available to the Fund.

Total line of credit amount available	\$82,000,000
Line of credit outstanding at December 31, 2017	78,000,000
Line of credit amount unused at December 31, 2017	4,000,000
Average balance outstanding during the year	78,000,000
Interest expense incurred on line of credit during the year	1,607,185

As of February 3, 2017, the total line of credit amount available was reduced from \$120,000,000 to \$82,000,000.
2017 Annual Report21

Table of Contents

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Notes to Financial Statements (continued)

December 31, 2017

7. Capital Stock

The Fund has 1,000,000,000 shares of \$0.001 par value common stock authorized. Of the 13,799,240 shares outstanding at December 31, 2017 for the Fund, the Adviser owns 149,460 shares. The Fund's Board is authorized to classify and reclassify any unissued shares of capital stock into other classes or series of stock and authorize the issuance of shares of stock without obtaining stockholder approval. The Board, without any action by the stockholders, may amend the charter from time to time to increase or decrease the aggregate number of shares of stock or the number of shares of stock of any class or series that the Fund has authority to issue.

The common shares have no preemptive, conversion, exchange or redemption rights. All shares of the Fund's common stock have equal voting, dividend, distribution and liquidation rights. The common shares are fully paid and non-assessable. Common stockholders are entitled to one vote per share and all voting rights for the election of directors are non-cumulative.

The Board approved a share repurchase plan. Under the current share repurchase plan, the Fund may purchase in the open market up to 10% of its outstanding common shares as of December 31, 2017. The current share repurchase plan will remain in effect between December 5, 2017 and December 5, 2018. The amount and timing of the repurchases will be at the discretion of the Fund's management, subject to market conditions and investment considerations. There is no assurance that the Fund will purchase shares at any particular discount level or in any particular amounts. The Board authorized the share repurchase program as a result of its review of the options available to enhance stockholder value and reduce any potential discount between the market price of the Fund's shares and the net asset value per share.

8. Federal Income Tax Information

Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The tax character of the distributions paid for the years ended were as follows:

	December 31, 2017	December 31, 2016
Ordinary income (including short-term capital gains)	\$ 3,778,211	\$ —
Return of capital	10,716,511	19,324,456
Total	\$14,494,722	\$19,324,456

At December 31, 2017, the Fund's most recently completed tax year-end, the components of distributable earnings on a tax basis were as follows:

Capital loss carryforward ⁽¹⁾	\$(25,166,985)
Post October loss	(989,304)
Other accumulated losses	(4,479,323)
Total tax basis unrealized appreciation on investments and foreign currency	35,352,910
Total tax basis accumulated gains	\$ 4,717,298

⁽¹⁾ To the extent that future capital gains are offset by capital loss carryforwards, such gains will not be distributed. As of December 31, 2017, the Fund's capital loss carryforwards were \$23,032,150 from short-term capital gains and \$2,134,835 from long-term capital gains which will not expire.

Federal Income Tax Basis: The federal income tax basis of the Fund's investments, not including foreign currency translations, at December 31, 2017 was as follows:

22 Brookfield Investment Management Inc.

Table of Contents

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Notes to Financial Statements (continued)

December 31, 2017

Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
\$241,172,086	\$47,935,978	\$(12,583,293)	\$35,352,685

Capital Account Reclassifications: Because federal income tax regulations differ in certain respects from GAAP, income and capital gain distributions, if any, determined in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. These differences are primarily due to differing treatments for wash sales and return of capital. Permanent book and tax differences, if any, relating to stockholder distributions will result in reclassifications to paid-in-capital or to undistributed capital gains. These reclassifications have no effect on net assets or net asset value per share.

At December 31, 2017, the Fund's most recently completed tax year-end, the Fund's components of net assets were increased or (decreased) by the amounts shown in the table below:

Additional paid-in capital	Distributions in excess of net investment income	Accumulated net realized gain
\$(1,515,611)	\$(2,851,197)	4,366,808

9. Indemnification

Under the Fund's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts with its vendors and others that provide for indemnification. The Fund's maximum exposure under these arrangements is unknown, since this would involve the resolution of certain claims, as well as future claims that may be made, against the Fund. Thus, an estimate of the financial impact, if any, of these arrangements cannot be made at this time. However, based on experience, the Fund expects the risk of loss due to these warranties and indemnities to be unlikely.

10. Subsequent Events

GAAP requires recognition in the financial statements of the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the Statement of Assets and Liabilities. For non-recognized subsequent events that must be disclosed to keep the financial statements from being misleading, the Fund is required to disclose the nature of the event as well as an estimate of its financial effect, or a statement that such an estimate cannot be made.

Dividends: The Fund's Board declared the following monthly dividends:

Dividend Per Share	Record Date	Payable Date
\$0.0817	January 17, 2018	January 25, 2018
\$0.0817	February 14, 2018	February 22, 2018

Management has evaluated subsequent events in the preparation of the Fund's financial statements and has determined that other than the items listed herein, there are no events that require recognition or disclosure in the financial statements.

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Report of Independent Registered Public Accounting Firm

December 31, 2017

To the Stockholders and Board of Directors of
Brookfield Global Listed Infrastructure Income Fund Inc.

Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying statement of assets and liabilities of Brookfield Global Listed Infrastructure Income Fund Inc. (the "Fund"), including the schedule of investments, as of December 31, 2017, the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended, and the related notes. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of December 31, 2017, and the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of December 31, 2017, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

DELOITTE & TOUCHE LLP

Chicago, Illinois

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Tax Information (Unaudited)

December 31, 2017

The Fund is required by subchapter M of the Internal Revenue Code of 1986, as amended, to advise you within 60 days of the Fund's year end (December 31, 2017) as to the federal tax status of distributions received by stockholders during such year. Accordingly, we are advising you that 73.93% of the distributions paid from net investment income for the Fund was reclassified as return of capital and is reflected as such in the Fund's Statements of Changes in Net Assets and Financial Highlights.

For the year ended December 31, 2017, certain dividends paid by the Fund may be subject to a maximum tax rate of 15%, as provided for by the Jobs and Growth Tax Relief Reconciliation Act of 2003. The percentage of dividends declared from ordinary income designated as qualified dividend income was 100.00%.

For corporate stockholders, the percent of ordinary income distributions qualifying for the corporate dividends received deduction for the year ended December 31, 2017 was 77.30%.

The percentage of taxable ordinary income distributions that are designated as short-term capital gain distributions under Internal Revenue Section 871(k)(2)(C) was 0.00%.

Compliance Certification (Unaudited)

December 31, 2017

On May 25, 2017, the Fund submitted a CEO annual certification to the New York Stock Exchange (“NYSE”) on which the Fund’s principal executive officer certified that he was not aware, as of that date, of any violation by the Fund of the NYSE’s Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund’s principal executive and principal financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q relating to, among other things, the Fund’s disclosure controls and procedures and internal control over financial reporting, as applicable.

Table of Contents

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Dividend Reinvestment Plan (Unaudited)

A Dividend Reinvestment Plan (the “Plan”) is available to stockholders of the Fund pursuant to which they may elect to have all distributions of dividends and capital gains automatically reinvested by American Stock Transfer & Trust Company (the “Plan Agent”) in additional Fund shares. Stockholders who do not participate in the Plan will receive all distributions in cash paid by check mailed directly to the stockholder of record (or if the shares are held in street or other nominee name, then to the nominee) by the Fund’s Custodian, as Dividend Disbursing Agent.

The Plan Agent serves as agent for the stockholders in administering the Plan. After the Fund declares a dividend or determines to make a capital gain distribution, payable in cash, if (1) the market price is lower than the net asset value, the participants in the Plan will receive the equivalent in Fund shares valued at the market price determined as of the time of purchase (generally, the payment date of the dividend or distribution); or if (2) the market price of the shares on the payment date of the dividend or distribution is equal to or exceeds their net asset value, participants will be issued Fund shares at the higher of net asset value or 95% of the market price. This discount reflects savings in underwriting and other costs that the Fund otherwise will be required to incur to raise additional capital. If the net asset value exceeds the market price of the Fund shares on the payment date or the Fund declares a dividend or other distribution payable only in cash (i.e., if the Board of Directors precludes reinvestment in Fund shares for that purpose), the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Fund shares in the open market, on the New York Stock Exchange or elsewhere, for the participants’ accounts. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value of the Fund’s shares, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Fund’s shares, resulting in the acquisition of fewer shares than if the dividend or distribution had been paid in shares issued by the Fund. The Fund will not issue shares under the Plan below net asset value.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent. When a participant withdraws from the Plan or upon termination of the Plan by the Fund, certificates for whole shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a share credited to such account.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent’s fees for handling the reinvestment of dividends and distributions are paid by the Fund. There are no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent’s open market purchases in connection with the reinvestment of dividends and distributions.

The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

A brochure describing the Plan is available from the Plan Agent, by calling 1-800-937-5449.

If you wish to participate in the Plan and your shares are held in your name, you may simply complete and mail the enrollment form in the brochure. If your shares are held in the name of your brokerage firm, bank or other nominee, you should ask them whether or how you can participate in the Plan. Stockholders whose shares are held in the name of a brokerage firm, bank or other nominee and are participating in the Plan may not be able to continue participating in the Plan if they transfer their shares to a different brokerage firm, bank or other nominee, since such stockholders may participate only if permitted by the brokerage firm, bank or other nominee to which their shares are transferred.

BROOKFIELD GLOBAL LISTED INFRASTRUCTURE INCOME FUND INC.

Joint Notice of Privacy Policy (Unaudited)

Brookfield Investment Management Inc. (“BIM”), on its own behalf and on behalf of the funds managed by BIM and its affiliates, recognizes and appreciates the importance of respecting the privacy of our clients and shareholders. Our relationships are based on integrity and trust and we maintain high standards to safeguard your non-public personal information (“Personal Information”) at all times. This privacy policy (“Policy”) describes the types of Personal Information we collect about you, the steps we take to safeguard that information and the circumstances in which it may be disclosed.

If you hold shares of a Fund through a financial intermediary, such as a broker, investment adviser, bank or trust company, the privacy policy of your financial intermediary will also govern how your Personal Information will be shared with other parties.

WHAT INFORMATION DO WE COLLECT?

We collect the following Personal Information about you:

- Information we receive from you in applications or other forms, correspondence or conversations, including but not limited to name, address, phone number, social security number, assets, income and date of birth.
- Information about transactions with us, our affiliates, or others, including but not limited to account number, balance and payment history, parties to transactions, cost basis information, and other financial information.
- Information we may receive from our due diligence, such as your creditworthiness and your credit history.

WHAT IS OUR PRIVACY POLICY?

We may share your Personal Information with our affiliates in order to provide products or services to you or to support our business needs. We will not disclose your Personal Information to nonaffiliated third parties unless 1) we have received proper consent from you; 2) we are legally permitted to do so; or 3) we reasonably believe, in good faith, that we are legally required to do so. For example, we may disclose your Personal Information with the following in order to assist us with various aspects of conducting our business, to comply with laws or industry regulations, and/or to effect any transaction on your behalf;

- Unaffiliated service providers (e.g. transfer agents, securities broker-dealers, administrators, investment advisors or other firms that assist us in maintaining and supporting financial products and services provided to you);
- Government agencies, other regulatory bodies and law enforcement officials (e.g. for reporting suspicious transactions);
- Other organizations, with your consent or as directed by you; and
- Other organizations, as permitted or required by law (e.g. for fraud protection)

When we share your Personal Information, the information is made available for limited purposes and under controlled circumstances designed to protect your privacy. We require third parties to comply with our standards for security and confidentiality.

HOW DO WE PROTECT CLIENT INFORMATION?

We restrict access to your Personal Information to those persons who require such information to assist us with providing products or services to you. It is our practice to maintain and monitor physical, electronic, and procedural safeguards that comply with federal standards to guard client nonpublic personal information. We regularly train our employees on privacy and information security and on their obligations to protect client information.

Item 2. Code of Ethics.

As of the end of the period covered by this report, the Registrant had adopted a Code of Ethics for Principal Executive and Principal Financial Officers (the Code). There were no amendments to or waivers from the Code during the period covered by this report. A copy of the Registrant's Code will be provided upon request to any person without charge by contacting Investor Relations at (855) 777-8001 or by writing to Secretary, Brookfield Global Listed Infrastructure Income Fund Inc., Brookfield Place, 250 Vesey Street, 15th Floor, New York, NY 10281-1023.

Item 3. Audit Committee Financial Expert.

The Registrant's Board of Directors has determined that Stuart A. McFarland, Edward A. Kuczmariski, and Louis P. Salvatore each qualify as audit committee financial experts, as defined in Item 3(b) of Form N-CSR. Messrs. McFarland, Kuczmariski and Salvatore are considered independent for purposes of Item 3(a)(2) of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

(a) Audit Fees

The aggregate fees billed by the Fund's independent registered public accounting firm, Deloitte & Touche LLP (Deloitte), to the Fund for the Fund's two most recent fiscal years for professional services rendered for the audit of the Registrant's annual financial statements and the review of financial statements that are included in the Registrant's annual and semi-annual reports to shareholders (Audit Fees) were \$42,500 and \$41,500 for the fiscal years ended December 31, 2017 and December 31, 2016, respectively.

(b) Audit-Related Fees

There were no fees billed by Deloitte to the Fund in its two recent fiscal years for services rendered for assurance and related services that are reasonably related to the performance of the audit or review of the Fund's financial statements but are not reported as Audit Fees (Audit-Related Fees).

For the Fund's two most recent fiscal years, there were no Audit-Related Fees billed by Deloitte for engagements related directly to the operations and financial reporting of one or more Funds by a Fund Service Provider. A Fund Service Provider is (a) any investment adviser to the Fund (not including any Subadviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) or (b) any entity that provides ongoing services to the Fund and is controlling, controlled by or under common control with a Fund investment adviser described in (a).

(c) Tax Fees

For the fiscal years ended December 31, 2017 and December 31, 2016, Deloitte billed the Registrant aggregate fees of \$9,600 and \$9,600, respectively. Each bill is for professional services rendered for tax compliance, tax advice and tax planning. The nature of the services comprising the Tax Fees was the review of the Registrant's income tax returns and tax distribution requirements.

For the Fund's two most recent fiscal years, Tax Fees billed by Deloitte for engagements by Fund Service Providers that related directly to the operations and financial reporting of the Fund were \$0 for the fiscal year ended December 31, 2017 and \$0 for the fiscal year ended December 31, 2016, respectively.

The services for which Tax Fees were charged comprise all services performed by professional staff in Deloitte's tax division except those services related to the audit. Typically, this category would include fees for tax compliance, tax planning, and tax advice. Tax compliance, tax advice, and tax planning services include preparation of original and amended tax returns, claims for refund and tax payment-planning services, assistance with tax audits and appeals, tax advice related to mergers and acquisitions and requests for rulings or technical advice from taxing authorities.

(d) All Other Fees

For the fiscal years ended December 31, 2017 and December 31, 2016, Deloitte billed the Registrant aggregate fees of \$76,777 and \$0, respectively, for all other non-audit services (Other Fees), including tax reclaim services. During the same period, there were no Other Fees billed by Deloitte for engagements by Fund Service Providers that related directly to the operations and financial reporting of the Fund.

(e) (1) According to policies adopted by the Audit Committee, services provided by Deloitte to the Funds must be pre-approved by the Audit Committee. On an annual basis, the Audit Committee reviews and pre-approves various types of services that Deloitte may perform for the Funds without specific approval of each engagement, subject to specified budget limitations. As contemplated by the Sarbanes-Oxley Act of 2002 and related SEC rules, the Audit Committee also pre-approves non-audit services provided by Deloitte to any Fund Service Provider for any engagement that relates directly to the operations and financial reporting of the Funds. Any engagement that is not already pre-approved or that will exceed a pre-approved budget must be submitted to the Audit Committee for pre-approval.

(e) (2) None.

(f) Not applicable.

(g) The aggregate fees billed by Deloitte for the fiscal years ended December 31, 2017 and December 31, 2016, for non-audit services rendered to the Fund and Fund Service Providers were \$241,377 and \$154,600, respectively. For the fiscal years ended December 31, 2017 and December 31, 2016, this amount reflects the amounts disclosed above in Item 4(b),(c),(d), plus \$155,000 and \$145,000, respectively, in fees billed to the Fund Service Providers for non-audit services that did not relate directly to the operations and financial reporting of the Funds, including fees billed by Deloitte to Brookfield Investment Management Inc. that were associated with Deloitte's SSAE 16 Review (formerly, SAS No. 70).

(h) The Fund's Audit Committee has considered whether the provision of non-audit services by registrant's independent registered public accounting firm to the registrant's investment advisor, and any entity controlling, controlled, or under common control with the investment advisor that provided ongoing services to the registrant that were not pre-approved by the Committee (because such services did not relate directly to the operations and financial reporting of the registrant) was compatible with maintaining the independence of the independent registered public accounting firm.

Item 5. Audit Committee of Listed Registrants.

The Registrant has a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The Registrant's Audit Committee members include Stuart A. McFarland, Edward A. Kuczmariski, Louis P. Salvatore and Heather S. Goldman.

Item 6. Investments.

Schedule of Investments is included as part of the report to stockholders filed under Item 1 of this Form.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The Portfolio Proxy Voting Policies and Procedures (the Policies and Procedures) set forth the proxy voting policies, procedures and guidelines to be followed by Brookfield Investment Management Inc. and its subsidiaries and affiliates (collectively, BIM) in voting portfolio proxies relating to securities that are held in the portfolios of the investment companies or other clients (Clients) for which BIM has been delegated such proxy voting authority.

A. Proxy Voting Committee

BIM s internal proxy voting committee (the Committee) is responsible for overseeing the proxy voting process and ensuring that BIM meets its regulatory and corporate governance obligations in voting of portfolio proxies.

The Committee shall oversee the proxy voting agent s compliance with these Policies and Procedures, including any deviations by the proxy voting agent from the proxy voting guidelines (Guidelines).

B. Administration and Voting of Portfolio Proxies

1. Fiduciary Duty and Objective

As an investment adviser that has been granted the authority to vote on portfolio proxies, BIM owes a fiduciary duty to its Clients to monitor corporate events and to vote portfolio proxies consistent with the best interests of its Clients. In this regard, BIM seeks to ensure that all votes are free from unwarranted and inappropriate influences. Accordingly, BIM generally votes portfolio proxies in a uniform manner for its Clients and in accordance with these Policies and Procedures and the Guidelines.

In meeting its fiduciary duty, BIM generally view proxy voting as a way to enhance the value of the company s stock held by the Clients. Similarly, when voting on matters for which the Guidelines dictate a vote be decided on a case-by-case basis, BIM s primary consideration is the economic interests of its Clients.

2. Proxy Voting Agent

BIM may retain an independent third party proxy voting agent to assist BIM in its proxy voting responsibilities in accordance with these Policies and Procedures and in particular, with the Guidelines. As discussed above, the Committee is responsible for monitoring the proxy voting agent.

In general, BIM may consider the proxy voting agent s research and analysis as part of BIM s own review of a proxy proposal in which the Guidelines recommend that the vote be considered on a case-by-case basis. BIM bears ultimate responsibility for how portfolio proxies are voted. Unless instructed otherwise by BIM, the proxy voting agent, when retained, will vote each portfolio proxy in accordance with the Guidelines. The proxy voting agent also will assist BIM in maintaining records of BIM s portfolio proxy votes, including the appropriate records necessary for registered investment companies to meet their regulatory obligations regarding the annual filing of proxy voting records on Form N-PX with the Securities and Exchange Commission (SEC).

3. Material Conflicts of Interest

BIM votes portfolio proxies without regard to any other business relationship between BIM and the company to which the portfolio proxy relates. To this end, BIM must identify material conflicts of interest that may arise between a Client and BIM, such as the following relationships:

BIM provides significant investment advisory or other services to a portfolio company or its affiliates (the Company) whose management is soliciting proxies or BIM is seeking to provide such services; BIM serves as an investment adviser to the pension or other investment account of the Company or BIM is seeking to serve in that capacity; or BIM and the Company have a lending or other financial-related relationship.

In each of these situations, voting against the Company management's recommendation may cause BIM a loss of revenue or other benefit.

BIM generally seeks to avoid such material conflicts of interest by maintaining separate investment decision-making and proxy voting decision-making processes. To further minimize possible conflicts of interest, BIM and the Committee employ the following procedures, as long as BIM determines that the course of action is consistent with the best interests of the Clients:

If the proposal that gives rise to a material conflict is specifically addressed in the Guidelines, BIM will vote the portfolio proxy in accordance with the Guidelines, provided that the Guidelines do not provide discretion to BIM on how to vote on the matter (*i.e.*, case-by-case); or

If the previous procedure does not provide an appropriate voting recommendation, BIM may retain an independent fiduciary for advice on how to vote the proposal or the Committee may direct BIM to abstain from voting because voting on the particular proposal is impracticable and/or is outweighed by the cost of voting.

4. Certain Foreign Securities

Portfolio proxies relating to foreign securities held by Clients are subject to these Policies and Procedures. In certain foreign jurisdictions, however, the voting of portfolio proxies can result in additional restrictions that have an economic impact to the security, such as share-blocking. If BIM votes on the portfolio proxy, share-blocking may prevent BIM from selling the shares of the foreign security for a period of time. In determining whether to vote portfolio proxies subject to such restrictions, BIM, in consultation with the Committee, considers whether the vote, either in itself or together with the votes of other shareholders, is expected to affect the value of the security that outweighs the cost of voting. If BIM votes on a portfolio proxy and during the share-blocking period, BIM would like to sell the affected foreign security, BIM, in consultation with the Committee, will attempt to recall the shares (as allowable within the market time-frame and practices).

C. Fund Board Reporting and Recordkeeping

BIM will prepare periodic reports for submission to the Boards of Directors of its affiliated funds (the Funds) describing:

any issues arising under these Policies and Procedures since the last report to the Funds' Boards of Directors/Trustees and the resolution of such issues, including but not limited to, information about conflicts of interest not addressed in the Policies and Procedures; and
any proxy votes taken by BIM on behalf of the Funds since the last report to such Funds' Boards of Directors/Trustees that deviated from these Policies and Procedures, with reasons for any such deviations.

In addition, no less frequently than annually, BIM will provide the Boards of Directors/Trustees of the Funds with a written report of any recommended changes based upon BIM's experience under these Policies and Procedures, evolving industry practices and developments in the applicable laws or regulations.

BIM will maintain all records that are required under, and in accordance with, all applicable regulations, including the Investment Company Act of 1940, as amended, and the Investment Advisers Act of 1940, which include, but not limited to:

- these Policies and Procedures, as amended from time to time;
- records of votes cast with respect to portfolio proxies, reflecting the information required to be included in Form N-PX, as applicable;
- records of written client requests for proxy voting information and any written responses of BIM to such requests; and
- any written materials prepared by BIM that were material to making a decision in how to vote, or that memorialized the basis for the decision.

D. Amendments to these Procedures

The Committee shall periodically review and update these Policies and Procedures as necessary. Any amendments to these Procedures and Policies (including the Guidelines) shall be provided to the Board of Directors of BIM and to the Boards of Directors of the Funds for review and approval.

E. Proxy Voting Guidelines

Guidelines are available upon request.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

Craig Noble, CFA – CEO, Chief Investment Officer and Portfolio Manager

Craig Noble has 19 years of industry experience and is Chief Executive Officer and Chief Investment Officer for the Public Securities Group as well as Portfolio Manager on the global infrastructure team and a Senior Managing Partner of Brookfield Asset Management. Over the last 12 years, he has held multiple positions within Brookfield, including significant roles within capital markets and direct infrastructure investment. He transitioned to the Public Securities Group in 2008 to help launch the firm's listed infrastructure business and became the CEO in 2013. Prior to Brookfield, he spent five years with the Bank of Montreal, focused on credit analysis, corporate lending and corporate finance. Craig holds the Chartered Financial Analyst® designation. He earned a Master of Business Administration degree from York University and a Bachelor of Commerce degree from Mount Allison University.

Leonardo Anguiano – Managing Director, Portfolio Manager

Leonardo Anguiano has 19 years of experience and is a Portfolio Manager on the global infrastructure team. He also is responsible for covering European infrastructure securities focusing on the Water, Transportation and Energy Infrastructure sectors. His past experience includes both direct and listed infrastructure investing and he has spent the majority of his career in London. Prior to joining the firm in 2015, Leonardo worked for Santander in Madrid where he was in specialty sales covering infrastructure and utilities. Prior to Santander, Leonardo worked at Arcus Infrastructure Partners and Babcock & Brown focusing on direct infrastructure investing. Leonardo started his career at JP Morgan Cazenove on the sell side. He earned a Master of Philosophy degree from Cambridge University and a Bachelor of Science degree from the London School of Economics.

Andrew Alexander Director, Portfolio Manager

Andrew Alexander has 13 years of experience and is a Vice President on the global infrastructure team. He is responsible for covering Energy Infrastructure as well as infrastructure securities focusing on the Water and Transportation sectors in Europe and Australia/New Zealand. Prior to joining the firm in 2008, Andrew was with SNL Financial where he specialized in the Energy sector, which encompassed power, natural gas and coal, and he launched a full analysis of Master Limited Partnerships. Andrew earned a Masters in Corporate Finance degree from the SDA Bocconi School of Management in Milan, Italy and a Bachelor of Arts degree from the University of Virginia.

Tom Miller, CFA Vice President, Portfolio Manager

Tom Miller has seven years of experience and is a Vice President on the Firm's global infrastructure equities team. He is responsible for covering North American infrastructure securities focusing on MLPs and the Energy Infrastructure sector. Prior to joining the Firm in 2013, he worked at FactSet. Tom holds the Chartered Financial Analyst® designation. He earned a Bachelor of Science degree from Indiana University.

Management of Other Accounts

Mr. Noble manages other investment companies and/or investment vehicles and accounts in addition to the Registrant. The tables below show the number of other accounts managed by Mr. Noble as of January 31, 2018 and the total assets in each of the following categories: (a) registered investment companies; (b) other pooled investment vehicles; and (c) other accounts. For each category, the table also shows the number of accounts and the total assets in the accounts with respect to which the advisory fee is based on account performance.

Name of Portfolio Manager	Type of Accounts	Total # of Accounts Managed as of January 31, 2018	Total Assets in USD Millions as of January 31, 2018	# of Accounts Managed with Advisory Fee Based on Performance	Total Assets with Advisory Fee Based on Performance

Share Ownership

Edgar Filing: Brookfield Global Listed Infrastructure Income Fund Inc. - Form N-CSR

The following table indicates the dollar range of securities of the Registrant owned by the Registrant's portfolio managers as of January 31, 2018.

	<u>Dollar Range of Securities Owned</u>
Craig Noble, CFA	\$10,001 - \$50,000
Leonardo Anguiano	None
Andrew Alexander	None
Tom Miller, CFA	None

Potential Conflicts of Interest

Actual or apparent conflicts of interest may arise when the Portfolio Managers also have day-to-day management responsibilities with respect to one or more other accounts. The Fund's investment adviser, Brookfield Investment Management Inc. (the Adviser), has adopted policies and procedures that are reasonably designed to identify and minimize the effects of these potential conflicts, however, there can be no guarantee that these policies and procedures will be effective in detecting potential conflicts, or in eliminating the effects of any such conflicts. These potential conflicts include:

Allocation of Limited Time and Attention. As indicated in the tables above, the Portfolio Managers manage multiple accounts. As a result, the Portfolio Managers will not be able to devote all of their time to management of the Fund. The Portfolio Managers, therefore, may not be able to formulate as complete a strategy or identify equally attractive investment opportunities for each of those accounts as might be the case if he were to devote all of his attention to the management of only the Fund.

Allocation of Limited Investment Opportunities. As indicated above, the Portfolio Managers manage accounts with investment strategies and/or policies that are similar to the Fund. If the Portfolio Managers identify an investment opportunity that may be suitable for multiple accounts, the Fund may not be able to take full advantage of that opportunity because the opportunity may be allocated among these accounts or other accounts managed primarily by other Portfolio Managers of the Adviser and its affiliates. In addition, in the event a Portfolio Manager determines to purchase a security for more than one account in an aggregate amount that may influence the market price of the security, accounts that purchased or sold the security first may receive a more favorable price than accounts that made subsequent transactions.

Pursuit of Differing Strategies. At times, a Portfolio Manager may determine that an investment opportunity may be appropriate for only some of the accounts for which the Portfolio Manager exercises investment responsibility, or may decide that certain of these funds or accounts should take differing positions with respect to a particular security. In these cases, the Portfolio Manager may execute differing or opposite transactions for one or more accounts which may affect the market price of the security or the execution of the transaction, or both, to the detriment of one or more other accounts. For example, the sale of a long position or establishment of a short position by an account may impair the price of the same security sold short by (and therefore benefit) the Adviser, its affiliates, or other accounts, and the purchase of a security or covering of a short position in a security by an account may increase the price of the same security held by (and therefore benefit) the Adviser, its affiliates, or other accounts.

Selection of Broker/Dealers. A Portfolio Manager may be able to select or influence the selection of the brokers and dealers that are used to execute securities transactions for the Fund or accounts that he supervises. In addition to providing execution of trades, some brokers and dealers provide portfolio managers with brokerage and research services which may result in the payment of higher brokerage fees than might otherwise be available. These services may be more beneficial to certain funds or accounts of the Adviser and its affiliates than to others. Although the payment of brokerage commissions is subject to the requirement that the Adviser determines in good faith that the commissions are reasonable in relation to the value of the brokerage and research services provided to the Fund, a Portfolio Manager's decision as to the selection of brokers and dealers could yield disproportionate costs and benefits among the funds or other accounts that the Adviser and its affiliates manage. In addition, with respect to certain types of accounts (such as pooled investment vehicles and other accounts managed for organizations and individuals) the Adviser may be limited by the client concerning the selection of brokers or may be instructed to direct trades to particular brokers. In these cases, the Adviser or its affiliates may place separate, non-simultaneous transactions in the same security for the Fund and another account that may temporarily affect the market price of the security or the execution of the transaction, or both, to the detriment of the Fund or the other accounts.

Variation in Compensation. A conflict of interest may arise where the financial or other benefits available to a Portfolio Manager differ among the accounts that he manages. If the structure of the Adviser's management fee or the Portfolio Manager's compensation differs among accounts (such as where certain accounts pay higher management fees or performance-based management fees), the Portfolio Managers may be motivated to favor certain accounts over others. The Portfolio Managers also may be motivated to favor accounts in which they have investment interests, or in which the Adviser or its affiliates have investment interests. Similarly, the desire to maintain assets under management or to enhance a Portfolio Manager's performance record or to derive other rewards, financial or otherwise, could influence the Portfolio Manager in affording preferential treatment to those accounts that could most significantly benefit the Portfolio Manager. For example, as reflected above, if a Portfolio Manager manages accounts which have performance fee arrangements, certain portions of his/her compensation will depend on the achievement of performance milestones on those accounts. The Portfolio Manager could be incented to afford preferential treatment to those accounts and thereby be subject to a potential conflict of interest.

The Adviser and the Fund have adopted compliance policies and procedures that are reasonably designed to address the various conflicts of interest that may arise for the Adviser and its staff members. However, there is no guarantee that such policies and procedures will be able to detect and prevent every situation in which an actual or potential conflict may arise.

Portfolio Manager Compensation

The Portfolio Managers are compensated based on the scale and complexity of their portfolio responsibilities, the total return performance of funds and accounts managed by the Portfolio Manager on an absolute basis and when compared to appropriate peer groups of similar size and strategy, as well as the management skills displayed in managing their portfolio teams and the teamwork displayed in working with other members of the firm. Since the Portfolio Managers are responsible for multiple funds and accounts, investment performance is evaluated on an aggregate basis almost equally weighted among performance, management and teamwork. Base compensation for the Portfolio Managers varies in line with a Portfolio Manager's seniority and position. The compensation of Portfolio Managers with other job responsibilities (such as acting as an executive officer of their firm or supervising various departments) includes consideration of the scope of such responsibilities and the Portfolio Manager's performance in meeting them. The Adviser seeks to compensate Portfolio Managers commensurate with their responsibilities and performance, and in a manner that is competitive with other firms within the investment management industry. Salaries, bonuses and stock-based compensation in the industry also are influenced by the operating performance of their respective firms and their parent companies. While the salaries of the Portfolio Managers are comparatively fixed, cash bonuses and stock-based compensation may fluctuate significantly from year to year. Bonuses are determined on a discretionary basis by the senior executives of the firm and measured by individual and team-oriented performance guidelines. Awards under the Long Term Incentive Plan (LTIP) are approved annually and there is a rolling vesting schedule to aid in retention of key people. A key component of this program is achievement of client objectives in order to properly align interests with our clients. Further, the incentive compensation of all investment personnel who work on each strategy is directly tied to the relative performance of the strategy and its clients.

The compensation structure of the Portfolio Managers and other investment professionals has four primary components:

A base salary;

An annual cash bonus;

If applicable, long-term compensation consisting of restricted stock or stock options of the Adviser's ultimate parent company, Brookfield Asset Management Inc.; and

If applicable, long-term compensation consisting generally of restricted share units tied to the performance of funds managed by the Adviser.

The Portfolio Managers also receive certain retirement, insurance and other benefits that are broadly available to all employees. Compensation of the Portfolio Managers is reviewed on an annual basis by senior management.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

None.

Item 10. Submission of Matters to a Vote of Security Holders.

There were no material changes to the procedures by which stockholders may recommend nominees to the Registrant's Board of Directors that were implemented after the Registrant last provided disclosure in response to the requirements of Item 407(c)(2)(iv) of Regulation S-K (17 CFR 229.407) (as required by 22(b)(16)) of Schedule 14A (17 CFR 240.14a-101), or this Item 10.

Item 11. Controls and Procedures.

(a) The Registrant's principal executive officer and principal financial officer have concluded that the Registrant's Disclosure Controls and Procedures are effective, based on their evaluation of such Disclosure Controls and Procedures as of a date within 90 days of the filing of this report on Form N-CSR.

(b) As of the date of filing this Form N-CSR, the Registrant's principal executive officer and principal financial officer are aware of no changes in the Registrant's internal control over financial reporting that occurred during the Registrant's second fiscal quarter of the period covered by this report that has materially affected or is reasonably likely to materially affect the Registrant's internal control over financial reporting.

Item 12. Disclosure of Securities Lending Activities for Closed-End Management Investment Companies

Not applicable.

Item 13. Exhibits.

(a)(1) None.

(2) A separate certification for each principal executive officer and principal financial officer of the Registrant as required by Rule 30a-2(a) under the Investment Company Act of 1940 is attached as an exhibit to this Form N-CSR.

(3) None.

- (b) A separate certification for each principal executive officer and principal financial officer of the Registrant as required by Rule 30a-2(b) under the Investment Company Act of 1940 is attached as an exhibit to this Form N-CSR.
- (4) Not applicable.
