Sometimes an idea comes along that just makes a lot of sense. Take South Carolina Electric & Gas combining with Dominion Energy. With this combination, the average SCE&G electric customer will get \$1000 cash back right away. On top of that we'll save \$120 a year in lower electric rates and \$1.7 billion in debt from the failed V.C. Summer Nuclear Plant will be paid off. But the State Senate is offering a different plan a temporary fix. A 13% rate reduction for 6 months and then the rates go right back up. And we'll still be paying off the debt on the failed nuclear project for 60 more years.

So Dominion Energy's plan: an immediate \$1000 cash back and \$1.7 billion of nuclear debt paid off. Or the State Senate plan: A 13% rate reduction for just 6 months and then 60 more years of paying the nuclear debt. I like the Dominion Energy plan better.
