### Oil and natural gas production in July

Rio de Janeiro, September 4, 2018 Petróleo Brasileiro S.A. Petrobras informs that in July its total production of oil and gas, including natural gas liquids (NGL), was 2.60 million barrels of oil equivalent per day (boed), with 2.50 million boed produced in Brazil and 102 thousand boed produced abroad.

Total production operated by the company (Petrobras and partners share) was 3.30 million boed, with 3.17 million boed in Brazil.

Compared to the previous month, there was a reduction, mainly due to the sale of 25% stake of Roncador field to Equinor, on June 14, and the stoppage of the Mexilhão platform for security inspections and infrastructure improvement for gas offloading in the pre-salt.

The tables below detail production values.

<b>Petrobras Total Production Brazil + Abroad (millions boed)</b>
