DEAR SHAREHOLDER

We thank you for your investment in the Advent Claymore Convertible Securities and Income Fund II (the “Fund”). This report covers the Fund’s performance for the 12 months ended October 31, 2014.

Advent Capital Management, LLC (“Advent” or the “Investment Manager”) serves as the Fund’s Investment Manager. Based in New York, New York, with additional investment personnel in London, England, Advent is a credit-oriented firm specializing in the management of global convertible, high-yield and equity securities across three lines of business—long-only strategies, hedge funds and closed-end funds. As of October 31, 2014, Advent managed approximately \$8.2 billion in assets.

Guggenheim Funds Investment Advisors, LLC (the “Investment Adviser”) serves as the Investment Adviser to the Fund. The Investment Adviser is an affiliate of Guggenheim Partners, LLC, a global diversified financial services firm.

The Fund’s investment objective is to provide total return through a combination of capital appreciation and current income. Under normal market conditions, the Fund will invest at least 50% of its managed assets in convertible securities. The Fund may invest up to 40% of its managed assets in non-convertible income securities. The Fund may invest without limitation in foreign securities. The Board of Trustees approved changes to the Fund’s non-fundamental investment policies that will become effective in January 2015. Please see the question-and-answer section following for more information.

All Fund returns cited—whether based on net asset value (“NAV”) or market price—assume the reinvestment of all distributions. For the 12-month period ended October 31, 2014, the Fund generated a total return based on market price of 0.60% and a total return of -0.08% based on NAV. As of October 31, 2014, the Fund’s market price of \$6.66 represented a discount of 12.71% to NAV of \$7.63.

Past performance is not a guarantee of future results. The Fund’s NAV performance data reflects fees and expenses of the Fund. The market price of the Fund’s shares fluctuates from time to time, and it may be higher or lower than the Fund’s NAV.

In each month from November 2013 through October 2014, the Fund paid a monthly distribution of \$0.047 per share. The current monthly distribution represents an annualized distribution rate of 8.47% based upon the last closing market price of \$6.66 as of October 31, 2014. There is no guarantee of any future distributions or that the current returns and distribution rate will be maintained.

We encourage shareholders to consider the opportunity to reinvest their distributions from the Fund through the Dividend Reinvestment Plan (“DRIP”), which is described in detail on page 37 of this report. When shares trade at a discount to NAV, the DRIP takes advantage of the discount by reinvesting the monthly dividend distribution in common shares of the Fund purchased in the market at a price less than NAV. Conversely, when the market price of the Fund’s common shares is at a premium above NAV, the DRIP reinvests participants’ dividends in newly-issued common shares at the greater of NAV per share or 95% of the market price per share. The DRIP provides a cost-effective means to accumulate additional shares and enjoy the benefits of compounding returns over time.

The Fund is managed by a team of experienced and seasoned professionals led by myself in my capacity as Chief Investment Officer (as well as President and Founder) of Advent Capital Management, LLC. We encourage you to read the following Questions & Answers section, which provides additional information regarding the factors that influenced the Fund's performance.
