PROVIDER TALKING POINTS

Today, we announced that WellCare has agreed to combine with Centene and I'd like to tell you why we think this combination will bring significant benefits to providers.

First, we want to assure you that nothing changes with regards to our partnership with you and it is business as usual at WellCare. The transaction will create a diversified, nationwide competitor with enhanced scale and resources to provide fully integrated, high quality, cost-effective services.

We remain committed to improving your patient's health and well-being. Combining with Centene will allow us to deliver fully integrated care options focused on results for your patients, which, in turn, helps us understand how to better meet their health care needs.

Your relationship and communications with your patients will not be impacted. Our members are encouraged to call member services any time they have questions regarding our plans.

Like us, Centene is committed to a locally focused philosophy. As a combined company, we will preserve this approach, including building and maintaining deep relationships with all of our providers. You can expect the same high level of provider service.

With this news, we wanted to assure you that nothing changes with our partnership with you today and it's business as usual at WellCare.

Until the transaction closes, which we expect to be in the first half of 2020, we will continue to operate as two separate companies.

As the process progresses, we will keep you informed of any changes you should be aware of.

We are committed to maintaining a strong network and preserving provider relationships. As always, your patients can check our directories and online look-up tools or call member services with any questions.

Again, thank you for your partnership. We look forward to continuing to work together in the future.
