A Summary From Your Fund's Portfolio Managers

We are pleased to provide you with this shareholder report for MLP & Strategic Equity Fund Inc. The Fund is advised by IQ Investment Advisors LLC and sub-advised by Fiduciary Asset Management.

The investment objective of MLP & Strategic Equity Fund Inc. (the Fund) is to provide a high level of after-tax total return by investing substantially all of its net assets in a portfolio of publicly traded master limited partnerships (MLPs) operating in the energy infrastructure sector of the market. To enhance its returns, when market conditions are favorable, the Fund will enter into variable prepaid forward contracts (Forward Contracts), with terms of approximately one year, to sell particular equity securities that the Fund will strategically purchase with the proceeds of the Forward Contracts. At the maturity of the most recent contracts in 2008, market conditions were unfavorable and the Fund did not re-enter into the Forward Contracts.

For the annual period ended October 31, 2008, the Common Stock of the Fund had a total investment return as set forth in the table below, based on the change per share in net asset value from \$18.06 to \$11.70. For the same period, the Fund's most commonly referenced index of publicly-traded MLP securities had a total investment return as shown below. All of the Fund and index information presented includes the reinvestment of any dividends or distributions. Distribution information may be found in the Notes to Financial Statements, Note 6.

Period	Fund*	Commonly Referenced Index**	Difference
Fiscal year ended			
October 31, 2008	(29.45%)	(23.65%)	(5.80%)
Year to Date	(25.25%)	(20.98%)	(4.27%)
Inception through			
October 31, 2008	(32.11%)	(26.27%)	(5.84%)

* Fund performance is net of expenses.

** No expenses are associated with performance.

Despite relatively strong fundamentals, MLP valuations decoupled from business performance during the period, reflecting investor uncertainty in regards to the broader markets and the economy as a whole.

For more detail with regard to the Fund's total investment return based on a change in the per share market value of the Fund's Common Stock (as measured by the trading price of the Fund's shares on the New York Stock Exchange), please refer to the Financial Highlights section of this report.

In a press release dated September 29, 2008, the Fund indicated that due primarily to market conditions preventing the effective use of the Fund's Forward Contracts, the Fund no longer qualifies as a regulated investment company pursuant to Subchapter M of the Internal Revenue Code for the taxable year ended October 31, 2008. We do not believe that this event had any detrimental effect on the performance of the Fund this year.

As a closed-end fund, the Fund's shares may trade in the secondary market at a premium or discount to the Fund's net asset value. As a result, total investment returns based on changes in the market value of the Fund's Common Stock can vary significantly from total investment returns based on changes in the Fund's net asset value.

Notes to Financial Statements

1. Significant Accounting Policies:

MLP & Strategic Equity Fund Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended, as a diversified, closed-end management investment company. The Fund pursues its investment objective by investing substantially all of its net assets in publicly traded master limited partnerships (MLPs). To enhance its returns, the Fund normally enters into variable prepaid forward contracts (Forward Contracts) with terms of approximately one year, to sell particular equity securities that the Fund will strategically purchase with the proceeds of the Forward Contracts. Due to the market conditions, the Fund did not replace the expiring Forward Contracts during the current fiscal year ended October 31, 2008. Please see Note 1(e) for additional information. The Fund's financial statements are prepared in conformity with U.S. generally accepted accounting principles, which may require the use of management accruals and estimates. Actual results may differ from these estimates. All cash balances are invested on a daily basis in a money market fund. The Fund determines and makes available for publication the net asset value of its Common Stock on a daily basis. The Fund's Common Stock shares are listed on the New York Stock Exchange (NYSE) under the symbol MTP. The following is a summary of significant accounting policies followed by the Fund:

(a) Valuation of investments Portfolio securities that are held by the Fund that are traded on stock exchanges or the NASDAQ Global Market are valued at the last sale price or official close price on the exchange, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available bid price for long positions, and at the last available asked price for short positions. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by or under the authority of the Board of Directors of the Fund. Long positions traded in the over-the-counter (OTC) market, NASDAQ Capital Market or Bulletin Board are valued at the last available bid price or yield equivalent obtained from one or more dealers or pricing services approved by the Board of Directors of the Fund. Short positions traded in the OTC market are valued at the last available asked price. Portfolio securities that are traded both in the OTC market and on an exchange are valued according to the broadest and most representative market. Other investments are valued at market value.

Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the option market. Options traded in the OTC market are valued at the last asked price (options written) or the last bid price (options purchased). Swap agreements and variable prepaid forward contracts are valued based upon quoted fair valuations received daily by the Fund from a pricing service or counter-party. Financial futures contracts and options thereon, which are traded on exchanges, are valued at their last sale price as of the close of such exchanges. Valuation of short-term investment vehicles is generally based on the net asset value of the underlying investment vehicle or amortized cost.

The Fund may employ pricing services to provide certain securities prices for the Fund. Securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including valuations furnished by the pricing services retained by the Fund, which may use a matrix system for valuations. The procedures of a pricing service and its valuations are reviewed by the officers of the Fund under the general supervision of the Fund's Board of Directors. Such valuations and procedures will be reviewed periodically by the Board of Directors of the Fund.

Generally, trading in foreign securities, as well as U.S. government securities, money market instruments and certain fixed-income securities is substantially completed each day at various times prior to the close of business on the NYSE. The values of such securities used in computing the net asset value of the Fund's shares are determined as of such times. Foreign currency exchange rates will generally be determined as of the close of business on the NYSE. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NYSE that may not be reflected in the computation of the Fund's net asset value. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities will be valued at their fair value as determined in good faith by the Fund's Board of Directors or by the investment adviser using a pricing service and/or procedures approved by the Fund's Board of Directors.

(b) Master Limited Partnerships The Fund will purchase both domestic and international MLPs. The Fund's investment in MLPs may include ownership of MLP common units and MLP subordinated units. The Fund also may purchase MLP I-Shares (together with the MLPs, the MLP Entities). MLP I-Shares are pay-in-kind securities created as a means to facilitate institutional ownership of MLPs by simplifying the tax and administrative implications of the MLP structure.

Notes to Financial Statements (continued)

Generally, when an MLP pays its quarterly cash distribution to unitholders, holders of I-Shares do not receive a cash distribution; rather, they receive a dividend of additional I-Shares from the MLP of comparable value to the cash distribution paid to each unitholder. The Fund may purchase interests in MLP Entities on an exchange or may utilize non-public market transactions to obtain its holdings, including but not limited to privately negotiated purchases of securities from the issuers themselves, broker-dealers, or other qualified institutional buyers.

(c) Foreign currency transactions Transactions denominated in foreign currencies are recorded at the exchange rate prevailing when recognized. Assets and liabilities denominated in foreign currencies are valued at the exchange rate at the end of the period. Foreign currency transactions are the result of settling (realized) or valuing (unrealized) assets or liabilities expressed in foreign currencies into U.S. dollars. Realized and unrealized gains or losses from investments include the effects of foreign exchange rates on investments. The Fund may invest in foreign securities, which may involve a number of risk factors and special considerations not present with investments in securities of U.S. entities.

(d) Derivative financial instruments The Fund may engage in various portfolio investment strategies to increase the return of the Fund. Losses may arise due to changes in the value of the contract due to an unfavorable change in the price of the underlying security, or index, or if the counterparty does not perform under the contract. The counter-party for certain instruments may pledge cash or securities as collateral.

- Variable prepaid forward contracts The Fund may enter into Forward Contracts with terms of approximately one year to sell particular equity securities that the Fund will strategically purchase with the proceeds of the Forward Contracts. The strategic equity securities that are the subject of the Forward Contracts (the Contract Securities) may be the subject of a Forward Contract individually, or grouped together as a basket of multiple Contract Securities. In a Forward Contract, the amount of shares (or their cash equivalent) that the seller is required to deliver at maturity varies as a function of the performance of the Contract Security. The Forward Contracts will be prepaid by the counterparties to these transactions and as a result, the Fund will not be exposed to any risk that counterparties to these transactions will be unable to meet their obligations under the arrangements. The equity securities may serve as collateral for the Fund's obligation under the Forward Contracts. The proceeds of the Forward Contracts are reflected as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the Forward Contracts.
- Options The Fund may purchase and write call and put options. When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received). Written and purchased options are non-income producing investments.
- Financial futures contracts The Fund may purchase or sell financial futures contracts and options on such financial futures contracts. Financial futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

(e) Income Taxation Due primarily to market conditions preventing the effective use of the Fund's Forward Contracts, for the taxable year ended October 31, 2008, the Fund did not qualify as a regulated investment company pursuant to Subchapter M of the Internal Revenue Code and will be taxed as a corporation. If the Forward Contracts are again implemented, the Fund in the future may be eligible to re-qualify to be taxed pursuant to Subchapter M.

Notes to Financial Statements (continued)

As a corporation, the Fund is obligated to pay federal, state and local income tax on its taxable income. Currently, the maximum marginal regular federal income tax rate for a corporation is 35 percent. The Fund may be subject to a 20 percent federal alternative minimum tax on its federal alternative minimum taxable income to the extent that its alternative minimum tax exceeds its regular federal income tax. For the year ended October 31, 2008, the Fund had no tax liability.

The Fund invests its assets primarily in MLPs, which generally are treated as partnerships for federal income tax purposes. As a limited partner in the MLPs, the Fund reports its allocable share of the MLP's taxable income in computing its own taxable income. The Fund's tax expense or benefit is included in the Statement of Operations based on the component of income or gains (losses) to which such expense or benefit relates. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred tax assets and liabilities are measured using effective tax rates expected to apply to taxable income in the years such temporary differences are realized or otherwise settled. A valuation allowance is recognized if, based on the weight of available evidence, it is more likely than not that some portion or all of the deferred income tax asset will not be realized. At the current time management has offset all potential deferred tax benefits pursuant to the valuation allowance principles.

(f) Security transactions and investment income Security transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual basis. Initially a significant portion of any distributions the Fund receives from the MLP entities will be deferred from taxation until the Fund sells its interest in such MLP entities. Distributions received from the Fund's investments in MLP are not recorded as dividends.

For financial statement purposes, the Fund only records income from MLPs when it receives an estimate of allocable income from the MLP. These estimates may subsequently be revised based on information received from MLPs after their tax reporting periods are concluded, as the actual character of these distributions is not known until after the fiscal year-end of the Fund. Dividends, as reflected in the Statement of Operations, are net of any tax deferred distributions from the MLP entities. For the current fiscal year, 100% of the MLP distributions, \$14,242,300, were tax deferred.

(g) Distributions Distributions paid by the Fund will be paid on a monthly basis. The Fund expects that its distributions primarily will consist of a return of capital.

(h) Offering expenses Direct expenses relating to the public offering of the Fund's Common Stock were charged to capital at the time of issuance of the shares.

(i) Recent accounting pronouncements For financial statement reporting purposes, the Fund has adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) beginning with its initial registration. FIN 48 requires an analysis of tax positions taken or to be taken on a tax return and whether such positions are more likely than not to be sustained upon examination based on their technical merit. To the extent they would not be sustained, tax expense (and related interest and penalties) would be recognized for financial statement reporting purposes.

In March 2008, Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133 (FAS 161), was issued. FAS 161 is intended to improve financial reporting for derivative instruments by requiring enhanced disclosure that enables investors to understand how and why an entity uses derivatives, how derivatives are accounted for, and how derivative instruments affect an entity's results of operations and financial position. In September 2008, FASB Staff Position No. 133-1 and FASB Interpretation No. 45-4 (the FSP), Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161 was issued and is effective for fiscal years and interim periods ending after November 15, 2008. The FSP amends FASB Statement No. 133 (FAS 133), Accounting for Derivative Instruments and Hedging Activities, to require disclosures by sellers of credit derivatives, including credit derivatives embedded in hybrid instruments. The FSP also clarifies the effective date of FAS 161, whereby disclosures required by FAS 161 are effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The impact on the Fund's financial statement disclosures, if any, is currently being assessed.

Notes to Financial Statements (continued)

In addition, in September 2006, Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The impact on the Fund's financial statement disclosures, is currently being assessed.

(j) Reclassification Accounting principles generally accepted in the United States of America require that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. Accordingly, during the current year, \$1,081,589 has been reclassified between accumulated distributions in excess of net investment income and accumulated net realized capital losses as a result of permanent differences attributable to accounting for partnerships. This reclassification has no effect on net assets or net asset value per share.

2. Investment Advisory and Management Agreement and Transactions with Affiliates:

The Fund has entered into an Investment Advisory and Management Agreement with IQ Investment Advisors LLC (IQ Advisors), an indirect, wholly owned subsidiary of Merrill Lynch & Co., Inc. (ML & Co.). IQ Advisors is responsible for the investment advisory, management and administrative services to the Fund. In addition, IQ Advisors provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of the Fund. For such services, the Fund pays a monthly fee at an annual rate equal to 1.12% of the average daily value of the Fund's net assets. In addition, IQ Advisors has entered into a Subadvisory Agreement with Fiduciary Asset Management, LLC (FAMCO). Pursuant to the agreement, FAMCO provides certain investment advisory services to IQ Advisors with respect to the Fund. For such services, IQ Advisors pays FAMCO a monthly fee at an annual rate equal to .50% of the average daily value of the Fund's net assets. There is no increase in aggregate fees paid by the Fund for these services.

IQ Advisors has entered into an Administration Agreement with Princeton Administrators, LLC (the Administrator). The Administration Agreement provides that IQ Advisors pays the Administrator a fee from its investment advisory fee at an annual rate equal to .12% of the average daily value of the Fund's net assets for the performance of administrative and other services necessary for the operation of the Fund. There is no increase in the aggregate fees paid by the Fund for these services. The Administrator is an indirect, wholly owned subsidiary of BlackRock, Inc. (BlackRock). ML & Co. is a principal owner of BlackRock.

In addition, Merrill Lynch, Pierce, Fenner & Smith Incorporated, an affiliate of IQ Advisors, received \$26,299 in commissions on the execution of portfolio security transactions on an agency basis for the Fund for the year ended October 31, 2008.

Certain officers of the Fund are officers and/or directors of IQ Advisors, ML & Co., and/or BlackRock or their affiliates.

3. Investments:

Purchases and sales of investments, excluding short-term securities, for the year ended October 31, 2008, were \$41,397,582 and \$776,971,605, respectively.

Sales of investments include securities delivered to settle the matured variable prepaid forward contracts.

4. Common Stock Transactions:

The Fund is authorized to issue 100,000,000 shares of stock, all of which are initially classified as Common Stock, par value \$.001. The Board of Directors is authorized, however, to classify and reclassify any unissued shares of Common Stock without approval of the holders of Common Stock.

Shares issued and outstanding for the year ended October 31, 2008 increased by 30,024 as a result of dividend reinvestments and for the period June 29, 2007 to October 31, 2007 increased by 14,500,500 from shares sold and 31,902 from dividend reinvestments.

5. Income Taxes:

Edgar Filing: MLP & Strategic Equity Fund Inc. - Form N-CSR

As discussed in Note 1(e) the income tax status of the Fund changed retroactively to the first day of the current year to that of a C Corporation, subject to Federal as well as State and local taxes.

State and local income tax expense is recognized as paid. In the current year, the total state and local income tax expense totaled \$3,570 representing required state minimums and franchise tax expense.

No federal income tax expense has been recorded in the current year as the Fund experienced a net operating loss and a net capital loss in the current year. For the previous year, its initial year, the Fund elected to be taxed pursuant to Subchapter M of the Internal Revenue Code and no income tax provision was required.

Notes to Financial Statements (concluded)

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax purposes. Components of the Fund's deferred tax assets as of October 31, 2008, are as follows:

Deferred tax assets computed at effective rate of 38.5%:

Current year net operating loss	\$	2,814,012
Current year net realized loss		11,909,929
Current year net unrealized loss		18,281,882
Prior year capital loss carryforward		40,195
Total deferred tax assets before valuation allowance		33,046,018
Less: Valuation allowance		33,046,018
Net deferred tax assets	\$	

As of October 31, 2008 the Fund has filed its initial tax return as a Subchapter M corporation for the year ended October 31, 2007. For the year ended October 31, 2008 the Fund will file as a C Corporation. While the Fund is subject to FIN 48, there has been no change in the uncertain tax benefits as a result of its treatment as a C Corporation. Thus, the Fund has recorded no uncertain tax liabilities. To the best of the Fund's knowledge, the initial return is not under examination at this time.

6. Distributions to Shareholders:

The tax character of distributions paid during the fiscal year ended October 31, 2008 and the period June 29, 2007 through October 31, 2007 were as follows:

	10/31/2008	10/31/2007
Distributions paid from:		
Ordinary income		\$ 611,182
Tax return of capital	\$ 17,445,166	3,746,919
Total distributions	\$ 17,445,166	\$ 4,358,101

As of October 31, 2008, the components of accumulated losses on a tax basis were as follows:

Undistributed ordinary income net	\$ (7,309,121)
Undistributed long-term capital gains net	
Total undistributed earnings net	(7,309,121)
Capital loss carryforward	(31,039,282)*
Unrealized losses net	(47,485,407)**
Total accumulated losses net	\$ (85,833,810)

* On October 31, 2008, the Fund had a net capital loss carryforward of \$31,039,282 of which \$104,402 expires in 2012 and \$30,934,880 expires in 2013. The net operating loss carryforward of \$7,309,121 expires in 2028.

** The difference between book-basis and tax-basis unrealized losses is attributable to the timing of the income recognition on partnership interests.

7. Subsequent Events:

The Fund paid a distribution to holders of Common Stock in the amount of \$0.100000 per share on November 28, 2008 to shareholders of record on November 20, 2008.

Edgar Filing: MLP & Strategic Equity Fund Inc. - Form N-CSR

The Fund is registered with the Securities and Exchange Commission as a diversified company and, as such, is subject to the diversification requirements of Section 5(b) of the Investment Company Act of 1940, as amended (the 1940 Act). Beginning October 7, 2008, as the Fund adjusted its portfolio of MLP securities, it inadvertently did not meet applicable diversification requirements. The Fund took corrective action upon discovery of the matter and was again in compliance with its diversification requirements as of November 18, 2008.

On September 15, 2008, ML & Co. and Bank of America Corporation (Bank of America) entered into a merger agreement. This agreement provides that ML & Co. will become a wholly owned subsidiary of Bank of America. The transaction has been approved by the board of directors and shareholders of each company and is expected to close on or after January 1, 2009, subject to customary closing conditions and standard regulatory approvals.

Although ML & Co. has informed the Board of Directors of the Fund that it does not believe the transaction will result in an assignment of the Fund's current investment advisory and management agreement and current investment subadvisory agreement (together, the Current Agreements) under the 1940 Act, it is possible that the transaction could be determined to result in such an assignment, which would cause the automatic termination of each Current Agreement. To address this uncertainty and to prevent any potential disruption in IQ Advisors' and the subadviser's ability to continue to provide services to the Fund after completion of the transaction, the Fund has submitted to its stockholders for approval a new investment advisory and management agreement and investment subadvisory agreement.

The stockholder meeting to approve the new agreements, scheduled for December 19, 2008 has been adjourned as a quorum was not achieved and has been rescheduled for January 23, 2009.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of MLP & Strategic Equity Fund Inc.:

We have audited the accompanying statement of assets, liabilities and capital of MLP & Strategic Equity Fund Inc. (the Fund), including the schedule of investments, as of October 31, 2008, and the related statements of operations and cash flows for the year then ended, and the statements of changes in net assets and the financial highlights for the year then ended and for the period June 29, 2007 (commencement of operations) through October 31, 2007. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2008, by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of MLP & Strategic Equity Fund Inc. as of October 31, 2008, the results of its operations and cash flows for the year then ended, and the changes in its net assets and its financial highlights for the year then ended and for the period June 29, 2007 through October 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

Automatic Dividend Reinvestment Plan

How the Plan Works The Fund offers a Dividend Reinvestment Plan (the Plan) under which distributions paid by the Fund are automatically reinvested in additional shares of Common Stock of the Fund. The Plan is administered on behalf of the shareholders by BNY Mellon Share-owner Services (the Plan Agent). Under the Plan, whenever the Fund declares a distribution, participants in the Plan will receive the equivalent in shares of Common Stock of the Fund. The Plan Agent will acquire the shares for the participant's account either (i) through receipt of additional unissued but authorized shares of the Fund (newly issued shares) or (ii) by purchase of outstanding shares of Common Stock on the open market on the New York Stock Exchange or elsewhere. If, on the distribution payment date, the Fund's net asset value per share is equal to or less than the market price per share plus estimated brokerage commissions (a condition often referred to as a market premium), the Plan Agent will invest the distribution amount in newly issued shares. If the Fund's net asset value per share is greater than the market price per share (a condition often referred to as a market discount), the Plan Agent will invest the distribution amount by purchasing on the open market additional shares. If the Plan Agent is unable to invest the full distribution amount in open market purchases, or if the market discount shifts to a market premium during the purchase period, the Plan Agent will invest any uninvested portion in newly issued shares. The shares acquired are credited to each shareholder's account. The amount credited is determined by dividing the dollar amount of the distribution by either (i) when the shares are newly issued, the net asset value per share on the date the shares are issued or (ii) when shares are purchased in the open market, the average purchase price per share.

Participation in the Plan Participation in the Plan is automatic, that is, a shareholder is automatically enrolled in the Plan when he or she purchases shares of Common Stock of the Fund unless the shareholder specifically elects not to participate in the Plan. Shareholders who elect not to participate will receive all distributions in cash. Shareholders who do not wish to participate in the Plan, must advise the Plan Agent in writing (at the address set forth below) that they elect not to participate in the Plan. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by writing to the Plan Agent.

Benefits of the Plan The Plan provides an easy, convenient way for shareholders to make additional, regular investments in the Fund. The Plan promotes a long-term strategy of investing at a lower cost. All shares acquired pursuant to the Plan receive voting rights. In addition, if the market price plus commissions of the Fund's shares is above the net asset value, participants in the Plan will receive shares of the Fund for less than they could otherwise purchase them and with a cash value greater than the value of any cash distribution they would have received. However, there may not be enough shares available in the market to make distributions in shares at prices below the net asset value. Also, since the Fund does not redeem shares, the price on resale may be more or less than the net asset value.

Plan Fees There are no enrollment fees or brokerage fees for participating in the Plan. The Plan Agent's service fees for handling the reinvestment of distributions are paid for by the Fund. However, brokerage commissions may be incurred when the Fund purchases shares on the open market and shareholders will pay a pro rata share of any such commissions.

Tax Implications The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such distributions. Therefore, income may still be realized even though shareholders do not receive cash. If, when the Fund's shares are trading at a market premium, the Fund issues shares pursuant to the Plan that have a greater fair market value than the amount of cash reinvested, it is possible that all or a portion of the discount from the market value (which may not exceed 5% of the fair market value of the Fund's shares) could be viewed as a taxable distribution. If the discount is viewed as a taxable distribution, it is also possible that the taxable character of this discount would be allocable to all the shareholders, including shareholders who do not participate in the Plan. Thus, shareholders who do not participate in the Plan might be required to report as ordinary income a portion of their distributions equal to their allocable share of the discount.

Contact Information All correspondence concerning the Plan, including any questions about the Plan, should be directed to the Plan Agent at BNY Mellon Shareowner Services, P.O. Box 358035, Pittsburgh, PA 15252-8035, Telephone: 877-296-3711.

Quinn T. Kiley	0 \$0	1 \$2.9 Million	123 \$439 Million	0 \$0	0 \$0	0 \$0

(iv) Conflicts of Interest

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one fund or other account. More specifically, portfolio managers who manage multiple funds and /or other accounts may be presented with one or more of the following potential conflicts:

The management of multiple funds and/or other accounts may result in a portfolio manager devoting unequal time and attention to the management of each fund and/or other account. The Subadviser seeks to manage such competing interests for the time and attention of a portfolio manager by having the portfolio manager focus on a particular investment discipline. Most other accounts managed by a portfolio manager are managed using the same investment models that are used in connection with the management of the Fund.

If a portfolio manager identifies a limited investment opportunity which may be suitable for more than one fund or other account, a fund may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible funds and other accounts. To deal with these situations, the Subadviser has adopted procedures for allocating portfolio transactions across multiple accounts. With respect to securities transactions for the Fund, the Subadviser determines which broker to use to execute each order, consistent with its duty to seek best execution of the transaction. However, with respect to certain other accounts (such as pooled investment vehicles that are not registered mutual funds, and other accounts managed for organizations and individuals), the Subadviser may be limited by the client with respect to the selection of brokers or may be instructed to direct trades through a particular broker. In these cases, trades for a fund in a particular security may be placed separately from, rather than aggregated with, such other accounts. Having separate transactions with respect to a security may temporarily affect the market price of the security or the execution of the transaction, or both, to the possible detriment of a fund or other account(s) involved.

The Subadviser has adopted certain compliance procedures which are designed to address these types of conflicts. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.

(a)(3) As of October 31, 2008:
