ALASKA POWER & TELEPHONE CO

Form U-3A-2

April 30, 2004

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, DC 20549

FORM U-3A2

December 31, 2003

Statement by Holding Company Claiming Exemption under Rule U-3a-2 from the provisions of the Public Utility Holding Company Act of 1935

ALASKA POWER & TELEPHONE COMPANY

(Name of Company)

hereby files with the Securities Exchange Commission, pursuant to Rule 2, its statement claiming exemption as a holding company from the provisions of the Public Utility Holding Company Act of 1935, and submits the following information:

1. Name, State of organization, location and nature of business of claimant and every subsidiary thereof, other than any exempt wholesale generator (EWG) or foreign utility company in which claimant directly or indirectly holds an interest.
2. A brief description of the properties of claimant and each of its subsidiary public utility companies used for the generation, transmission, and distribution of electric energy for sale, or for the production, transmission and distribution of natural or manufactured gas, indicating the location of principal generating plants, transmission lines, producing fields, gas manufacturing plants, and electric and gas distribution facilities, including all such properties which are outside the State in which claimant and its subsidiaries are organized and all transmission or pipelines which deliver or receive electric energy or gas at the borders of such State.
3. The following information for the last calendar year with respect to claimant and each of its subsidiary public utility companies:
 - (a) Number of kWh. Of electric energy sold (at retail or wholesale) and Mcf. Of natural or manufactured gas distributed at retail.
 - (b) Number of kWh. of electric energy and Mfc. Of natural or manufactured gas distributed at retail outside the State in which each company is organized.
 - (c) Number of kWh. Of electric energy and MCF. OF NATURAL OR MANUFACTURED AS SOLD AT WHOLESALE OUTSIDE THE State in which each such company is organized, or at the State line.
 - (d) Number of kWh. Of electric energy and Mcf. Of natural or manufactured gas purchased outside the State in which each such company is organized or at the State line.
4. The following information for the reporting period with respect to claimant and each interest it holds directly or indirectly in an EWG or a foreign utility company, stating monetary amounts in United States dollars:

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

- (a) Name, location, business address and description of the facilities used by the EWG or foreign utility company for the generation, transmission and distribution of electric energy for sale or for the distribution at retail of natural or manufactured gas.
- (b) Name of each system company that holds an interest in such EWG or foreign utility company; and description of the interest held.
- (c) Type and amount of capital invested, directly or indirectly, by the holding company claiming exemption; any direct or indirect guarantee of the security of the EWG or foreign utility company by the holding company claiming exemption; and any debt or other financial obligation for which there is recourse, directly or indirectly, to the holding company claiming exemption or another system company, other than the EWG or foreign utility company.

Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB control number. SEC 1834 (2-97)

- (d) Capitalization and earnings of the EWG or foreign utility company during the reporting period.
- (e) Identify any service, sales or construction contract(s) between the EWG or foreign utility company and a system company, and describe the services to be rendered or goods sold and fees or revenues under such agreement(s).

REPORT OF INDEPENDENT AUDITORS

The Board of Directors Alaska Power & Telephone Company

We have audited the accompanying consolidated balance sheets of Alaska Power & Telephone Company and its subsidiaries as of December 31, 2003 and 2002, and the related consolidated statements of operations, stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Alaska Power & Telephone Company and its subsidiaries at December 31, 2003 and 2002, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - THE COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Alaska Power & Telephone Company and subsidiaries (AP&T) supplies electric and telephone service to several communities in the state of Alaska. AP&T is subject to regulation by the Regulatory Commission of Alaska (RCA), the Federal Communications Commission, and the Federal Energy Regulatory Commission (the

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

Commissions) with respect to rates for service and maintenance of its accounting records. AP&T's accounting policies conform to generally accepted accounting principles as applied to regulated public utilities and are in accordance with the accounting requirements and rate-making practices of the Commissions.

CONSOLIDATION

The accompanying consolidated financial statements include the accounts of AP&T and its wholly owned energy subsidiaries, Alaska Power Company, BBL Hydro, Inc., and Goat Lake Hydro, Inc.; its wholly owned telecommunications subsidiaries, Alaska Telephone Company, AP&T Long Distance, Inc., AP&T Wireless, Inc., Bettles Telephone, Inc. and North Country Telephone, Inc.; and its wholly owned subsidiary HydroWest International, a Cayman Island Limited Company. All material intercompany balances have been eliminated in consolidation.

CASH EQUIVALENTS

All highly liquid investments with original maturities of 90 days or less are carried at cost plus accrued interest, which approximates fair value, and are considered to be cash equivalents. All other investments not considered to be cash equivalents are separately categorized as investments.

CONCENTRATION OF CREDIT RISK

At various times throughout the year, the cash balances deposited in local institutions exceed federally insured limits. A possible loss exists for those amounts in excess of \$100,000. AP&T minimizes this risk by utilizing numerous financial institutions for deposits of cash funds.

VALUATION OF ACCOUNTS RECEIVABLE

Accounts receivable are stated at the amount management expects to collect on outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable.

9

ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - THE COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

PROPERTY, PLANT, EQUIPMENT, AND DEPRECIATION

The cost of additions to and replacements of plant and equipment are capitalized. Cost includes direct material, labor, and similar items and charges for such indirect costs as engineering, supervision, payroll taxes, and pension benefits. AP&T capitalizes, as an additional cost of electric utility plant, an

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

allowance for funds used during construction (AFUDC), which represents the allowed cost of capital used to finance a portion of construction work in progress for projects of more than one year in duration. AFUDC consists of debt and equity components that, when capitalized, are credited as noncash items to other income and interest charges. Capitalized AFUDC was \$50,430 and \$63,287 for 2003 and 2002, respectively. The cost of current repairs and maintenance is charged to expense, while the cost of betterment is capitalized. The original cost of property and plant together with removal cost, less salvage, is charged to accumulated depreciation at such times as assets are retired and removed from service. For financial statement purposes, depreciation is computed on the straight-line method using rates based on average service lives. For income tax purposes, AP&T computes depreciation using accelerated methods where permitted.

GOODWILL

On January 1, 2002, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 142, Goodwill and Other Intangible Assets. Under the new rules, goodwill is no longer amortized but is subject to annual impairment tests in accordance with the Statement. At December 31, 2003 and 2002, respectively, the Company had no other intangible assets.

In 1999, the Company purchased certain properties of GTE Alaska. The excess of the purchase price over the assets acquired has been recorded as goodwill. Prior to adopting SFAS No. 142, the goodwill was amortized to expense on a straight-line basis over 40 years. In accordance with SFAS No. 142, goodwill was tested for impairment by comparing the fair value of the reporting unit to the carrying value. The fair value of AP&T's goodwill exceeded its carrying value and no impairment loss was recorded.

PRELIMINARY SURVEY AND INVESTIGATION COSTS

AP&T defers costs incurred for the preliminary survey and investigation of proposed construction projects in accordance with the rules of the Commissions. These deferred costs are capitalized into utility plant when the preliminary survey and investigation projects are completed or are charged to expense in the period that a proposed project is abandoned. These projects are in various stages of licensing and development. During 2002, management's evaluation of these projects resulted in an amount of \$268,265 being charged to expense and believes that as of December 31, 2003, no further impairment exists.

FUEL, SUPPLIES, AND OTHER INVENTORY

are valued at the lower of cost or market on a first-in, first-out basis. The supplies and other inventory are primarily held for use in construction projects including repairs and maintenance of the Company's delivery systems.

10

ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - THE COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CUSTOMER ADVANCES FOR CONSTRUCTION

Customer advances for construction of additions to the electric distribution systems are deferred and amortized through discounted service billings to the customer over a 60-month period. At the end of the amortization period, any remaining balance is recorded as a reduction of the respective utility plant accounts. Deferred customer advances for construction were \$285,625 and \$244,177

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

at December 31, 2003 and 2002, respectively.

INCOME TAXES

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets relate primarily to net operating loss carry-forwards and asset impairment deductions on the books. Deferred tax liabilities relate primarily to survey and investigation costs and depreciation expense. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

STOCK-BASED COMPENSATION

The Company adopted the disclosure-only provisions of FASB Statement No. 123, Accounting for Stock-Based Compensation, and applied Accounting Principles Board Opinion No. 25 and related interpretations in accounting for its employee stock option plans. Accordingly, the Company's stock-based compensation expense is recognized based on the intrinsic value of the option on the date of grant. The employee stock option plan expired in 2001. Disclosure in accordance with Statement No. 123 is provided in Note 11.

EARNINGS PER SHARE

The Company has calculated its basic earnings per share data according to the method prescribed in Financial Accounting Standards Board SFAS Statement No. 128, Earnings Per Share. Under this Statement, basic earnings per share are based on the weighted-average number of shares of common stock outstanding, excluding any potential dilution that could occur if any outstanding options were exercised. Diluted earnings per share reflect the impact of the dilution caused by outstanding stock options using the treasury stock method. There was no dilutive effect of the outstanding stock options in 2003 and 2002. Weighted-average shares outstanding for purposes of calculating basic and diluted earnings per share were 1,229,940 in 2003 and 1,231,341 in 2002.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include depreciation, interstate access revenue settlements, and deferred income taxes. Actual results could differ from those estimates.

11

ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - THE COMPANY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

FOREIGN CURRENCY TRANSLATION

The financial statements of Hydro West de Guatemala are prepared in quetzales and consolidated into the financial statements of Hydro West International. Income statement amounts are translated at average exchange rates for the year and assets and liabilities are translated at year-end exchange rates. Translation adjustments are not material for inclusion as a component of stockholder's equity.

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

RECLASSIFICATIONS

Certain accounts have been classified differently than as originally reported on the 2002 financial statements. These reclassifications made to conform to 2003 classifications have no effect on previously reported net loss or equity.

NOTE 2 - PROCEEDINGS UNDER CHAPTER 11

On December 18, 2002, Alaska Power & Telephone Company filed a petition for relief under Chapter 11 of the federal bankruptcy laws in the United States Bankruptcy Court for the Western District of Washington in Seattle. The wholly-owned subsidiaries of AP&T were excluded from the Chapter 11 filings.

The Chapter 11 case was commenced by AP&T primarily because of the failure of its investment in Summit Alaska, Inc. (Summit). Summit was a diversified civil construction contractor located in Anchorage, Alaska, and was engaged in the manufacture of aggregate, asphalt and other gravel-based construction products. On December 13, 2002, Summit filed a petition of liquidation under Chapter 7 of the federal bankruptcy laws in the United States Bankruptcy Court for the District of Alaska in Anchorage. AP&T acquired a 39% interest in Summit in March, 2001 and accounted for its investment using the equity method. Due to recurring operating losses, the Company advanced in excess of \$10 million to Summit and guaranteed virtually all debt obligations incurred by Summit. Total losses to AP&T related to its investment in Summit amounted to approximately \$27 million.

From December 18, 2002, until August 18, 2003, the Company operated and managed its business as a debtor-in-possession pursuant to Sections 1107 and 1108 of the Bankruptcy Code and concentrated its efforts on emerging from Chapter 11 as quickly as possible. The proposed Plan of Reorganization was filed on June 9, 2003, and was confirmed and became effective on the closing date of August 18, 2003. As described below, the losses related to Summit Alaska and the gain from extinguishment of debt, as determined by the confirmed Plan of Reorganization were reported in 2002. Liabilities at December 31, 2002, reflected the amounts as restructured by the bankruptcy court. Each existing holder of common stock retained ownership equal to 100% of the shares, which they previously held, and no additional shares were issued.

On March 31, 2004, the United States Bankruptcy Court Western District of Washington issued an order effectively closing the Chapter 11 case.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - PROCEEDINGS UNDER CHAPTER 11 (CONTINUED)

While in Chapter 11 under the U.S. Bankruptcy Code, the Company applied the provisions of SOP 90-7, Financial Reporting by Entities in Reorganization Under the Bankruptcy Code, which does not significantly change the application of accounting principles generally accepted in the United States of America, however, it does require that the financial statements for periods including and subsequent to the Chapter 11 bankruptcy distinguish transactions and events that are directly associated with the reorganization from those that result from ongoing operations of the business. In accordance with SOP 90-7, the Company had

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

classified \$32,289,607 of liabilities incurred pre-petition as liabilities subject to compromise. Upon confirmation of the Plan of Reorganization, liabilities subject to compromise were restated at the present values of amounts expected to be paid pursuant to the confirmed plan. The restated amount of liabilities subject to compromise net of a gain relating to the early extinguishment of debt was \$16,637,634 as of December 31, 2002. The following summarizes the restated obligations resulting from the confirmed Plan of Reorganization:

Discontinued unsecured debt	\$	14,551,023
Reclassified long-term debt		1,599,514
Priority claims		487,097
Gain on extinguishment of debt		15,651,973

	\$	32,289,607
		=====

In accordance with SOP 90-7, the Company has segregated various reorganization items representing amounts incurred as a result of the Chapter 11 proceedings. The following table summarizes the reorganization charges recorded by the Company during the years ended December 31:

	2003		2002
	-----		-----
Summit Alaska obligations guaranteed by Alaska Power & Telephone Co.			
Unsecured nonpriority claim - National Cooperative Bank	\$	-	\$
Unsecured nonpriority claim - Wells Fargo Bank		-	
Unsecured nonpriority claim - Travelers Casualty & Surety		-	
Unsecured nonpriority claim - General Electric Capital Corp		-	
Investment in Summit Alaska		-	
Receivable due from Summit Alaska		-	
		-----	-----
Total losses related to Summit Alaska		-	
Legal, consulting, and other reorganization expense		1,818,822	
		-----	-----
	\$	1,818,822	\$
		-----	-----

ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - NEW ACCOUNTING POLICIES

Effective January 1, 2003, the Company adopted SFAS No. 143, Accounting for Asset Retirement Obligations. SFAS No. 143 addresses financial accounting and reporting obligations associated with the retirement of long-lived assets. SFAS No. 143 requires that companies recognize the fair value of a liability for asset retirement obligations in the period in which the obligations are incurred

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

and capitalize that amount as part of the book value of the long-lived asset. The Company has assessed its asset retirement obligations and concluded the adoption of SFAS No. 143 has no material effect on its financial statements.

SFAS No. 143 also precludes companies from accruing removal costs that exceed gross salvage in their depreciation rates and accumulated depreciation balances if there is no legal obligation to remove the long-lived assets. The Company has no material cost of removal amounts included in depreciation rates or accumulated depreciation balances.

NOTE 4 - RATE STABILIZATION ASSET

The Company is subject to the provisions of SFAS No. 71, Accounting for the Effects of Certain Types of Regulation. SFAS No. 71 allows the establishment of regulatory assets for the allowable revenue requirement or the capitalization of costs if those items are expected to be recovered in future rates. The Company has a regulatory asset of \$2,437,300 and \$1,666,127 in 2003 and 2002, respectively. The Company continues to meet the requirements of SFAS 71 since the Company's rates are intended to recover the cost of service plus a rate of return on the Company's investment, as well as providing specific recovery of deferred items in prior periods.

NOTE 5 - OPERATING LEASE AGREEMENTS

AP&T leases a portion of its office space and a portion of its utility plant under noncancellable leases expiring through 2011. Rent expense was \$313,421 and \$487,236 for 2003 and 2002, respectively. Certain leases include renewal provisions at AP&T's option. Minimum rental commitments under noncancellable operating leases, excluding hydroelectric operations, are \$27,242. Minimum annual rental commitments are \$3,205 in each of the next five years. Additional cancelable lease agreements have been secured for the use of the land for hydroelectric operations. The term of the agreements extend for the life of the hydroelectric license of 50 years. Rent expense for hydroelectric operations was \$212,381 in 2003 and \$180,845 in 2002.

15

ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7 - INVESTMENTS

The Company's investments consist of the following at December 31:

	2003	2002
	-----	-----
Investment in CoBank	\$ 2,059,770	\$ 1,731,874
Investment in Ketchikan Electric Company, LLC	750,000	1,000,000

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

Investments of Hydro West International	4,157,750	2,787,328
	-----	-----
	\$ 6,967,520	\$ 5,519,202
	-----	-----

COBANK

CoBank is organized similar to a cooperative and is owned by the customers it serves. As such, a portion of CoBank's earnings is returned to its customers based on their patronage with the bank. Investment income was reported in the amount of \$327,896 and \$295,248 for 2003 and 2002, respectively.

KETCHIKAN ELECTRIC COMPANY

The Company owns a 50% share of Ketchikan Electric Company LLC (KEC). The principal purpose and business of KEC is to construct, own, operate and manage a hydroelectric power system in the Ketchikan Gateway Borough. The investment represents capital contributions to KEC, as the company is still in the development stage. There was no activity in 2002 or 2003. In 2002, management felt that changes in circumstances indicated that the carrying value of its investment was not recoverable in full and at December 31, 2002, an impairment loss was recorded in income from continuing operations in the amount of \$670,418 and receivables due from KEC in the amount of \$215,555 were written off. Management estimated the fair value of this investment to be \$1,000,000. In 2003, management has reviewed events and circumstances that could indicate additional other than temporary impairment on its investment in KEC and determined a fair value of \$750,000 to be appropriate. An impairment loss of \$250,000 was recorded in other income. At December 31, 2003, KEC owed the Company \$468,500 as payment on a contract receivable. Ultimate collection of the full amount of the receivable is unlikely and management has written off \$234,250 related to this contract.

HYDRO WEST INTERNATIONAL

On September 7, 2000, AP&T entered into an agreement to purchase 100% of the members' equity in Hydro West Group LLC (HWG), a subsidiary of Puget Sound Energy, Inc. (PSE). The total purchase price of \$2.3 million was allocated to the assets. PSE provided \$1,725,000 of the financing requirement for the purchase. The principal assets of HWG were a 100% share of HydroWest International (HWI), a Cayman Island Limited Company, a 25% investment in the capital stock of Inversiones Pasabien, S.A., and a 32.4% investment in the capital stock of Hydro Honduras.

16

ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 7 - INVESTMENTS (CONTINUED)

In 2001, the Company transferred the minority investments of HWG to HWI and in 2002 discontinued the operations of HWG. At December 31, 2002, a loss in the amount of \$663,008 related to HWG was recorded as discontinued operations. HWI accounts for its investments in Inversiones Pasabien and Hydro Honduras using the equity method. The accounts and financial results of HWI are included in the consolidated financial statements of AP&T.

HWI's equity method investments increased by \$1,370,422 during 2003. The

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

increase consisted of an exchange of accounts receivable and preliminary survey costs in the amount of \$1,256,776 for investment equity, plus \$113,646 in investment income. Investment earnings for 2002 were \$186,069. At December 31, 2002, management determined that the fair value of its HWI investments was less than its carrying value and recorded an impairment loss of \$868,531. At December 31, 2003, management reassessed the carrying value of its HWI investments and determined that no additional impairment exists. The investments consist of the following:

Inversiones Pasabien S.A.: This company owns a 12.5 MW hydroelectric plant in Guatemala, Central America.

Hydro Honduras: This company was formed to construct a 50 MW hydroelectric project in Honduras Central America. Hydro Honduras has completed the licensing and environmental study requirements but the project is currently inactive.

Hydro West de Guatemala (HGU): A 100% owned subsidiary providing management and consulting services to hydroelectric facilities in Guatemala. Currently, HGU manages the Inversiones Pasabien project. In 2003, the accounts and financial results of HGU are included in the consolidated financial statements of HWI. In 2002, HGU was reported as an equity method investment, not a consolidated subsidiary of HWI.

Rio Hondo Holding Co. (RHH): During 2002, HWI made an investment in 50% of the stock RHH, a Cayman Island Limited Company, which owns 100% of S.D. Rio Hondo Ltda., whose principal purpose is to construct the Rio Hondo II project, a 32 MW hydroelectric plant in Guatemala, Central America. The project company has completed the design, licensing, and environmental studies, and is in negotiations to obtain project financing.

During 2003, HWI restructured its investment in RHH in order to obtain additional equity participation in the Rio Hondo II project by Ghella S.p.A., an Italian corporation. At December 31, 2003, HWI owned 100% of RHH, which owns 50% of S.D. Rio Hondo, Ltda. S.D. (restructured to become Hidroelectrica Rio Hondo, a Guatemalan corporation). The accounts and financial results of RHH are included in the consolidated financial statements of HWI. RHH accounts for its investment in Hidroelectrica Rio Hondo using the equity method.

18

ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 - LONG-TERM DEBT (CONTINUED)

Annual maturities for the five years beginning January 1, 2004, are \$3,697,543, \$4,084,411, \$4,011,860, \$4,458,952, and \$4,982,256, respectively, and \$74,075,803 thereafter.

The note payable by GLH to secure the Power Revenue Bonds series 1997 is the result of the issuance on December 31, 1997, of a series of tax-exempt bonds by the Alaska Industrial Development and Export Authority (AIDEA). The proceeds are restricted in use for the purpose of financing the acquisition, purchase, construction, improvement, and equipment of the project known as the Upper Lynn Canal Regional Power Supply System. Of these restricted funds, \$2 million is

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

required to remain in reserve for the term of the bonds. To secure payment of bond principal and interest, AIDEA has assigned to U.S. Bank Trust National Association all rights and interests in the note. The note is secured by all assets and revenues of GLH and a Power Sales Agreement (PSA) between GLH and Alaska Power Co. (APC), both wholly-owned subsidiaries of AP&T. The Regulatory Commission of Alaska has approved the PSA for the life of the GLH note. This approval allows APC to charge its customers the entire annual costs as defined in the PSA, i.e., principal and interest due on the bonds, all operating costs (excluding depreciation), general and administrative costs, and the return on equity permitted by the Commission. A portion of these annual costs is charged to the rate stabilization asset (see Note 6), representing the amounts to be collected from customers in future years. The PSA requires all GLH's production and sales of electricity be sold to and purchased by APC for the life of the agreement.

A single note payable to CoBank which is secured by all assets and equity of AP&T and all of its wholly-owned subsidiaries replaced the previous eight obligations outstanding to CoBank and was an integral component of the Plan of Reorganization. Based on the plan, the principal balance owing to CoBank as of August 18, 2003 (the closing date), was \$55,769,128, which included accrued interest of \$299,259 and a broken funding surcharge of \$1,750,000. The loan agreement contains provisions and restrictions pertaining to, among other things, annual cash flow, debt service coverage, equity capitalization, and minimum cash balances.

The Plan of Reorganization outlines how payments are to be made to the Unsecured Class 8 claimants. In 2003 and 2004, the Company owes fixed payments of \$1,065,000 and \$1,285,000, respectively, to Class 8 claimants. Beginning in 2005, the Company shall make quarterly payments on the discounted Tranche A amount from 65.7% of the "cash available for sharing" as defined in the plan, through 2013 or until the amount is fully satisfied. The Company is not required to make installment payments on Tranche B amounts, but is required to make payments upon the sale, refinance or monetization of any of the "Excluded Assets" as defined in the plan. The payments shall be made on a Pro Rata basis to the Class 8 claimants who have an approved claim by the U.S. Bankruptcy court.

On February 13, 2004, the Company paid \$1,632,000 to Class 8 claimants. Included in this amount was the scheduled 2003 payment to Tranche A claimants and a \$568,500 payment to Tranche B claimants resulting from the sale of certain excluded assets. On April 8, 2004, the remaining balance of Tranche B was repaid in full.

Deferred tax liabilities	10,306,167	9,581,287
	-----	-----
	\$ 3,970,185	\$ 2,318,010
	=====	=====

20

 ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 9 - INCOME TAXES (CONTINUED)

There were no federal or state income taxes paid in 2003 and 2002. Income tax recoverable reported as a current asset in the amount of \$924,562 and \$521,727 for the years ended December 31, 2003 and 2002, respectively, relate to net operating loss carryback claims from 2002 and 2001 tax losses.

Management anticipates generating enough taxable income in future years to utilize all of the deferred tax assets, which consist primarily of net operating loss carryforwards, and therefore has not recorded a valuation allowance to offset the deferred tax asset.

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

At December 31, 2003, the Company had unused federal net operating loss carryforwards of approximately \$7,250,000 and state net operating carryforwards of approximately \$6,200,000, which expire in 2022.

NOTE 10 - EMPLOYEE STOCK OWNERSHIP PLAN

AP&T maintains an employee stock ownership plan. All employees who have completed one year of full-time service (1,000 hours) and have attained the age of 21 are eligible to participate in the plan. Participants may elect to contribute from 1% to 13.5% of their wages to the plan, which can be invested in the common stock of AP&T or into other investment accounts. Until March 2003, employer contributions matched the participant's contributions up to the first 3% of the participant's wages in Company stock.

Prior to reorganization, additional employer contributions were made annually at 8% of the eligible employees' gross wages. These additional employer contributions totaled \$487,097 in 2002. Employer contributions are allocated to all plan participants as of December 31, the end of the plan year. The plan provides that participants' interests in employer-funded contributions become fully vested after three years of full-time employment. ESOP shares outstanding are included in the earnings per share calculations.

As part of the Plan of Reorganization, the ESOP was modified to replace the 8% contribution with a defined contribution of 4% (3% in 2004 and thereafter) that will be made to each eligible participants account annually. Additionally a matching contribution will be made at the discretion of the employer in an amount up to 5% of participant's wages. Employer matching contributions and defined contributions totaled \$-0- and \$253,955, respectively, in 2003.

NOTE 11 - STOCK OPTIONS

In 1991, AP&T established a stock option plan. The plan provided for the grant of incentive stock options for a period of ten years. Stockholders approved a total of 310,000 shares to be reserved for the plan from the authorized and unissued common stock. The options vest and are exercisable five years after the grant date and expire ten years after the grant date. In accordance with the plan provisions, the stock option plan expired in 2001 and no options have been granted or exercised since that time. Management believes it is unlikely that remaining options will be exercised as they will expire before the stock price exceeds the exercise price.

21

ALASKA POWER & TELEPHONE COMPANY AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 11 - STOCK OPTIONS (CONTINUED)

In the event of employee termination, any unexercised options are canceled as of the employee's termination date. Options canceled in 2003 and 2002, amounted to 44,200 and zero, respectively due to employee terminations.

The effect on net income and earnings per share of the fair value approach under FASB Statement No. 123 is not materially different from those amounts recorded under APB 25.

The following summarizes options outstanding at December 31:

Edgar Filing: ALASKA POWER & TELEPHONE CO - Form U-3A-2

Range of Exercise Price	Options Outstanding	Weighted-Average Contractual Life	Options Exercisable	Weighted Average Exercise Price
\$17.40 - \$26.00	171,800	6.09	58,800	\$ 23.34

NOTE 12 - BUSINESS SEGMENT INFORMATION

The Company's electric segment provides retail and wholesale electric service including both hydro electric and diesel generation facilities in rural portions of Alaska. The Company's telecommunications segment provides local telephone service also in rural areas of Alaska. The Company's reportable segments are strategic business units managed separately due to their different operating and regulatory environments. The "All other" category includes the parent company and segments below the quantitative threshold for separate disclosure.

NOTE 13 - DISPOSITION OF SUBSIDIARY BUSINESSES

In December 2002, Alaska Power & Telephone's Board of Directors approved a new strategic direction that included the disposition of several businesses. These businesses include AP&T Construction L.L.C., AP&T Solutions L.L.C., Hydro West Group L.L.C., and Treeline Electric L.L.C. The results of operations of these businesses are included in AP&T's consolidated statements of income Loss from discontinued operations.

In December 2002, AP&T Construction, L.L.C. ceased all activities associated with this "start up" business. AP&T Construction concluded its activities with an operating loss of \$293,912 for the year then ended. All assets of AP&T Construction were absorbed by the parent company.

In December 2002, AP&T Solutions, L.L.C. ceased all activities associated with this "start up" business. AP&T Solutions concluded its activities with an operating loss of \$106,587 for the year then ended. All assets of AP&T Solutions were absorbed by the parent company.

In December 2002, Hydro West Group L.L.C. ceased all operations. An operating loss of \$404,308 and a loss of \$258,701 from disposition of assets was recorded for the year then ended.

In December 2002, Treeline Electric L.L.C. was sold for \$50,000 resulting in a loss on disposition of assets of \$606,840. Operations of Treeline Electric for the year then ended resulted in a loss of \$542,514.

Income tax benefit	873,703

LOSS FROM DISCONTINUED OPERATIONS	\$ (1,339,157)
	=====

NOTE 14 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of a financial instrument represents the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. Significant differences can arise between the fair value and carrying amount of financial instruments that are recognized at historical cost amounts.

The following methods and assumptions were used by AP&T in estimating fair value disclosures for financial instruments:

CASH, ACCOUNTS RECEIVABLE, ACCOUNTS PAYABLE AND ACCRUED LIABILITIES, CUSTOMER DEPOSITS, AND ACCRUED EMPLOYEE BENEFITS The carrying amounts at December 31, 2003, approximate the fair values due to the short maturity of these instruments.

LONG-TERM DEBT

The fair value of AP&T's long-term debt is estimated by discounting the future cash flows of the various instruments at rates currently available to the Company for similar debt instruments of comparable maturities.

The carrying amount of long-term debt approximates the estimated fair value at December 31, 2003, due to the low interest rate environment and the current rates for the Company's long-term debt obligations.
