Approximate date of commencement of proposed sale to the public: From time to time after this Registration Statement becomes effective.

If the only securities being registered on this form are being offered pursuant to dividend or interest reinvestment plans, please check the following box. ☐

If any of the securities being registered on this form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, other than securities offered only in connection with dividend or interest reinvestment plans, check the following box. ☐

If this form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

If this form is a post-effective amendment for an offering pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering. ☐

If this form is a registration statement pursuant to General Instruction I.D. or a post-effective amendment thereto that shall become effective upon filing with the Commission pursuant to Rule 462(e) under the Securities Act, check the following box. ☐

If this form is a post-effective amendment to a registration statement filed pursuant to General Instruction I.D. filed to register additional securities or additional classes of securities pursuant to Rule 413(b) under the Securities Act, check the following box. ☐

Indicate by check mark whether the registrant is a large accelerated filer, and accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

CALCULATION OF REGISTRATION FEE

<i>Title of each class of securities to be registered</i>	<i>Amount to be Registered (1)(2)(3)</i>	<i>Proposed Maximum Offering Price Per Unit</i>	<i>Proposed Maximum Aggregate Offering Price (1)(2)(3)</i>	<i>Amount of Registration Fee (4)</i>
Common Stock, par value \$0.001 par share				
Preferred Stock, par value \$0.001 par share				
Debt Securities				
Warrants				

Units		
Total	\$125,000,000	\$4,913

- (1) There are being registered hereunder such indeterminate number of shares of common stock and preferred stock, such indeterminate principal amount of debt securities, such indeterminate number of warrants to purchase common stock, preferred stock and/or debt securities, and such indeterminate number of units as may be sold by the registrant from time to time, which together shall have an aggregate initial offering price not to exceed \$125,000,000 or its equivalent in any other currency, currency units, or composite currency or currencies. If any debt securities are issued at an original issue discount, then the offering price of such debt securities shall be in such greater principal amount at maturity as shall result in an aggregate offering price not to exceed \$125,000,000, less the aggregate dollar amount of all securities previously issued hereunder. Any securities registered hereunder may be sold separately or as units with the other securities registered hereunder. The proposed maximum offering price per unit will be determined, from time to time, by the registrant in connection with the issuance by the registrant of the securities registered hereunder.
- (2) Not specified with respect to each class of securities to be registered pursuant to General Instruction II.D. of Form S-3 under the Securities Act.
- (3) Subject to footnote (1), there are also being registered hereunder an indeterminate principal amount or number of shares of debt securities, preferred stock or common stock that may be issued upon conversion of, or in exchange for, debt securities or preferred stock registered hereunder or upon exercise of warrants registered hereunder, as the case may be.
- (4) Calculated pursuant to Rule 457(o) under the Securities Act, which permits the registration fee to be calculated on the basis of the maximum aggregate offering price of all securities listed. Pursuant to Rule 429 under the Securities Act of 1933, the prospectus contained herein relates to \$125,000,000 aggregate principal amount of securities being registered hereby and \$125,000,000 aggregate principal amount of unsold securities that were previously registered under the registrant's registration statement on Form S-3 (No. 333-155030). The registration fee of \$4,913 has been previously paid in connection with the registration statement on Form S-3 (No. 333-155030).

Pursuant to Rule 429 under the Securities Act of 1933, the prospectus included herein is a combined prospectus that relates to the Registration Statement on Form S-3 (File No. 333-155030) previously filed by the Registrant on November 4, 2008, under which \$125,000,000 of our securities currently remain unsold and is being carried forward.

If any such previously registered securities are offered prior to the effective date of this Registration Statement, they will not be included in any prospectus hereunder. The \$125,000,000 aggregate principal amount of securities registered hereunder (which includes the securities that are being carried forward from the Company's Registration Statement on Form S-3 (File No. 333-155030)) represents the maximum amount of securities that are expected to be offered for sale. The registration fee of \$4,913 has been previously paid in connection with the registration statement on Form S-3 (No. 333-155030).

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act or until this registration statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not

PROSPECTUS

We may offer, issue and sell from time to time our common stock, preferred stock, debt securities, warrants or units up to \$125,000,000 or its equivalent in any other currency, currency units, or composite currency or currencies in one or more issuances. This prospectus provides a general description of offerings of these securities that we may undertake.

Each time we sell our securities pursuant to this prospectus, we will provide the specific terms of such offering in a supplement to this prospectus. The prospectus supplement may also add, update, or change information contained in this prospectus. You should read this prospectus and the accompanying prospectus supplement, together with additional information described under the heading **Where You Can Find More Information** and **Information Incorporated by Reference**, before you make your investment decision.

This prospectus may not be used to offer or sell our securities unless accompanied by a prospectus supplement. The information contained or incorporated in this prospectus or in any prospectus supplement is accurate only as of the date of this prospectus, or such prospectus supplement, as applicable, regardless of the time of delivery of this prospectus or any sale of our securities.

Our common stock is listed on the New York Stock Exchange and the Dubai International Financial Exchange under the symbol CSR. On February 19, 2009, the last reported per share sale price of our common stock was \$3.97.

We may offer securities through underwriting syndicates managed or co-managed by one or more underwriters, through agents, or directly to purchasers. The prospectus supplement for each offering of securities will describe the plan of distribution for that offering. For general information about the distribution of securities offered, please see Plan of Distribution in this prospectus.

You should carefully consider the risk factors beginning on page 4 of this prospectus and set forth in the documents incorporated by reference herein before making any decision to invest in our securities.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus or any prospectus supplement is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is _____, 2009

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission, or SEC, using a shelf registration process. Under this shelf registration process, we may sell our securities described in this prospectus in one or more offerings up to a total dollar amount of \$125,000,000. Each time we offer our securities, we will provide you with a supplement to this prospectus that will describe the specific amounts, prices and terms of the securities we offer. The prospectus supplement may also add, update or change information contained in this prospectus. This prospectus, together with applicable prospectus supplements and the documents incorporated by reference in this prospectus and any prospectus supplements, includes all material information relating to this offering. Please read carefully both this prospectus and any prospectus supplement together with additional information described below under **Where You Can Find More Information** and **Information Incorporated by Reference**.

You should rely only on the information contained in or incorporated by reference in this prospectus and any applicable prospectus supplement. We have not authorized anyone to provide you with different or additional information. If anyone provides you with different or inconsistent information, you should not rely on it. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or any sale of securities described in this prospectus. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any jurisdiction where the offer or sale is not permitted. You should assume that the information appearing in this prospectus or any prospectus supplement, as well as information we have previously filed with the SEC and incorporated by reference, is accurate as of the date on the front of those documents only. Our business, financial condition, results of operations and prospects may have changed since those dates. **This prospectus may not be used to consummate a sale of our securities unless it is accompanied by a prospectus supplement .**

OUR COMPANY

We are a Delaware holding company whose China-based operating subsidiaries are primarily engaged in manufacturing, distributing, installing and servicing security and surveillance products and systems and developing security and surveillance related software in China. We are headquartered in Shenzhen, China. Our customers are primarily comprised of (1) governmental entities, such as customs agencies, courts, public security bureaus and prisons, (2) non-profit organizations, including schools, museums, sports arenas and libraries and (3) commercial entities, such as airports, hotels, real estate, banks, mines, railways, supermarkets and entertainment venues. These categories of customers accounted for approximately 39.96%, 0.49% and 59.55% of our revenues for the year ended December 31, 2007, and approximately 49%, 1% and 50% of our revenues for the three months ended September 30, 2008, respectively.

We generate revenues from three primary operating segments: our systems installation business, our security and safety products manufacturing business and our distribution business. Because a majority of our revenues are derived from system installations, a substantial portion of our revenues are generally non-recurring. Our revenues are not concentrated within any one customer or group of related customers.

Our sales network covers most of China's populated areas and we do not rely on any particular region for our business. Our subsidiaries collectively have more than 150 branch offices and distribution points.

We were incorporated in the BVI on April 8, 2002 under the name Apex Wealth Enterprises Limited as a corporation under the International Business Companies Ordinance of 1984. In November 2006, we changed our domicile from the BVI to Delaware by merging the BVI corporation into a newly incorporated Delaware corporation named China Security & Surveillance Technology, Inc. Prior to our reverse acquisition of Safetech in September 2005, we were a development stage enterprise and had not yet generated any revenues. From and after the reverse acquisition, our business became the business of our indirect, wholly owned subsidiary, Golden and the newly acquired subsidiaries Cheng Feng, Hongtianshi, HiEasy, Minking, Tsingvision, Stonesonic, Longhorn, Guanling, Jin Lin, DIT and Coson. Below is a brief summary of our recent acquisitions and the principal businesses of our main operating subsidiaries.

- Golden is a corporation incorporated in the PRC which is engaged in the business of manufacturing, distributing, installing and maintaining security and surveillance systems. Golden was organized in the PRC in January 1995 and we acquired it in 2005.

- In 2006, we acquired Cheng Feng, which is engaged in the business of manufacturing, marketing and sales of security and surveillance related hardware as well as the development and integration of related software.

- On April 2, 2007, we acquired 100% of the equity of Chain Star Investments Limited, a Hong Kong corporation and the holding company of Hongtianshi, a manufacturer of digital cameras.

•
On May 11, 2007, we acquired 100% of the equity of Link Billion Investment Limited, a Hong Kong corporation and the holding company of HiEasy, a software developer.

•
On June 4, 2007, we acquired 100% of the equity of Allied Rich Limited, a Hong Kong corporation and the holding company of Minking, a manufacturer of high speed dome cameras.

•
On July 2, 2007, we acquired 100% the equity of Ocean Pacific Technology Limited, a Hong Kong corporation and the holding company of Tsingvision which is engaged in the business of researching, developing, manufacturing and selling computer software and digital audio and video products.

•
On April 2, 2008, we purchased 100% ownership of Kit Grant Limited, a Hong Kong corporation and the holding company of Stonesonic which is a monitoring equipment solutions provider in China that manufactures large flat panel display equipment.

•
On April 2, 2008, we acquired 100% ownership of Sincere On Limited, a Hong Kong corporation and the holding company of Longhorn which specializes in the manufacture and installation of security alarm systems in China.

•
On April 21, 2008, we acquired 100% ownership of Sharp Eagle (HK) Limited, a Hong Kong corporation and the holding company of Guanling which is the appointed sales agent of Panasonic, Axis Communications and Samsung in China, for closed-circuit surveillance systems, public broadcasting equipments and plasma TV.

•
On July 7, 2008, we acquired 100% ownership of Long Top Limited, a Hong Kong corporation and the holding company of Jin Lin which is engaged in professional intelligent security monitoring systems and intelligent transportation system product development.

•
On November 11, 2008, we acquired 100% ownership of DIT which has an international distribution network of security products covering the U.S., Japan and Europe.

•
On January 12, 2009, we acquired 100% ownership of Multiwin International Holdings Limited, a Hong Kong corporation and the holding company of Coson which is an intelligent access control solution provider.

Our corporate headquarters are located at 13/F, Shenzhen Special Zone Press Tower, Shennan Road, Futian District, Shenzhen, China, 518034. Our telephone number is (86) 755-8351-0888. We maintain a website at www.csst.com that contains information about our Company, but that information is not a part of this prospectus.

RISK FACTORS

You should carefully consider the following factors in addition to the other information contained in this prospectus and the documents incorporated by reference in this prospectus before you invest in our securities. The risks described below are material risks of which we are currently aware; however, they may not be the only material risks we face. Additional risks and uncertainties not currently known to us or that we currently view as immaterial may also impair our business operations. Any of these risks could materially and adversely affect our business, financial condition, results of operations and cash flows. In that case, you may lose all or part of your investment.

RISKS RELATED TO OUR BUSINESS

Due to the nature of our business, we do not have significant amounts of recurring revenues from our existing customers and we are highly dependent on new business development.

Most of our revenues derive from the installation of security and surveillance systems and result in a generally non-recurring revenue stream. Our customers are primarily governmental entities, non-profit organizations and commercial entities, such as airports, customs agencies, hotels, real estate developments, banks, mines, railways, supermarkets, and entertainment enterprises. We manufacture and install security systems for these customers and generate revenues from the sale of these systems to our customers and, to a lesser extent, from maintenance of these systems for our customers. After we have manufactured and installed a system at any particular customer site, we have generated the majority of revenues from that particular client. We would not expect to generate significant revenues from any existing client in future years unless that client has additional installation sites for which our services might be required. Therefore, in order to maintain a level of revenues each year that is at or in excess of the level of revenues we generated in prior years, we must identify and be retained by new clients. If our business development, marketing and sales techniques do not result in an equal or greater number of projects of at least comparable size and value for us in a given year compared to the prior year, then we may be unable to increase our revenues and earnings or even sustain current levels in the future.

In order to grow at the pace expected by management, we will require additional capital to support our long-term business plan. If we are unable to obtain additional capital in future years, we may be unable to proceed with our long-term business plan and our operations and financial condition could be materially adversely affected.

We will require additional working capital to support our long-term business plan, which includes identifying suitable targets for horizontal or vertical mergers or acquisitions, so as to enhance the overall productivity and benefit from economies of scale. Our working capital requirements and the cash flow provided by future operating activities, if any, may vary greatly from quarter to quarter, depending on the volume of business during the period and payment terms with our customers. We may not be able to obtain adequate levels of additional financing, whether through equity financing, debt financing or other sources. Additional financings could result in significant dilution to our earnings per share or the issuance of securities with rights superior to our current outstanding securities. In addition,

we may grant registration rights to investors purchasing our equity or debt securities in the future. If we are unable to raise additional financing, we may be unable to implement our long-term business plan, develop or enhance our products and services, take advantage of future opportunities or respond to competitive pressures on a timely basis, if at all. In addition, a lack of additional financing could force us to substantially curtail our operations.

We sometimes extend credit to our customers and our failure to collect the trade receivables or untimely collection could affect our liquidity.

We extend credit to a large number of our customers while generally requiring no collateral. Generally, our customers pay in installments, with a portion of the payment upfront, a portion of the payment upon receipt of our products by our customers and before the installation, and a portion of the payment after the installation of our products and upon satisfaction of our customer. Sometimes, a small portion of the payment will not be paid until after a certain period following the installation. We perform ongoing credit evaluations of our customers' financial condition and generally have no difficulties in collecting our payments. However, if we encounter future problems in collecting amounts due from our clients or if we experience delays in the collection of amounts due from our clients, our liquidity could be negatively affected.

If our subcontractors fail to perform their contractual obligations, our ability to provide services and products to our customers, as well as our ability to obtain future business, may be harmed.

Many of our contracts involve subcontracts with other companies upon which we rely to perform a portion of the services that we must provide to our customers. There is a risk that we may have disputes with our subcontractors, including disputes regarding the quality and timeliness of work performed by those subcontractors. A failure by one or more of our subcontractors to satisfactorily perform the agreed-upon services may materially and adversely impact our ability to perform our obligations to our customers, could expose us to liability and could have a material adverse effect on our ability to compete for future contracts and orders.

If we are unable to attract and retain senior management and qualified technical and sales personnel, our operations, financial condition and prospects could be materially adversely affected.

Our future success depends in part on the contributions of our management team and key technical and sales personnel and our ability to attract and retain qualified new personnel. In particular, our success depends on the continuing employment of our CEO, Mr. Guoshen Tu, our CFO, Mr. Terence Yap and our Chief Strategy Officer, Mr. Daiyou Qian. There is significant competition in our industry for qualified managerial, technical and sales personnel and we cannot assure you that we will be able to retain our key senior managerial, technical and sales personnel or that we will be able to attract, integrate and retain other such personnel that we may require in the future. If we are unable to attract and retain key personnel in the future, our business, operations, financial condition, results of operations and prospects could be materially adversely affected.

Our growth strategy includes making acquisitions, which could subject us to significant risks, any of which could harm our business.

Our growth strategy includes identifying and acquiring or investing in suitable candidates on acceptable terms. During 2007 and 2008, we acquired a 100% ownership interest in Hongtianshi, HiEasy, Minking, Tsingvision, Stonesonic, Longhorn, Guanling, Jin Lin and DIT. In January 2009, we acquired a 100% ownership interest in Coson. In addition, we established an exclusive cooperation relationship with Chuang Guan and DM. We have also entered into letters of intent to acquire or enter into exclusive cooperation relationship with several other companies.

Over time, we may acquire or make investments in other providers of products that complement our business and other companies in the security industry. The successful integration of these companies and any other acquired businesses require us to:

-

integrate and retain key management, sales, research and development, production and other personnel;

-

incorporate the acquired products or capabilities into our offerings from an engineering, sales and marketing perspective;

-

coordinate research and development efforts;

-

integrate and support pre-existing supplier, distribution and customer relationships; and

-

consolidate duplicate facilities and functions and combine back office accounting, order processing and support functions.

Our operating philosophy is to let the acquired businesses operate in autonomous manner subject to corporate oversight but integrating and rationalizing duplicative functions to achieve revenue and cost synergies. Acquisitions involve a number of risks and present financial, managerial and operational challenges, including:

-

exposure to unknown liabilities of acquired companies and assets;

-

higher than anticipated acquisition costs and expenses;

-

potential conflicts between business cultures;

-

adverse changes in business focus perceived by third-party constituencies;

- assumption of ongoing litigation matters that may be highly complex and involve significant time, cost and expenses;
- loss of key employees and/or diversion of management's attention from running our existing business;
- increased expenses, including travel, legal, administrative and compensation expenses resulting from newly hired employees;
- increased costs to integrate personnel, customer base and business practices of the acquired company with our own;
- adverse effects on our reported operating results due to possible write-down of goodwill associated with acquisitions;
- potential disputes with sellers of acquired businesses, technologies, services, products and potential liabilities; and
- dilution to our earnings per share if we issue common stock in any acquisition.

Moreover, performance problems with an acquired business, technology, product or service could also have a material adverse impact on our reputation as a whole. Any acquired business, technology, product or service could significantly under-perform relative to our expectations, and we may not achieve the benefits we expect from our acquisitions. Geographic distance between business operations, the compatibility of the technologies and operations being integrated and the disparate corporate cultures being combined also presents significant challenges. Acquired businesses are likely to have different standards, controls, contracts, procedures and policies, making it more difficult to implement and harmonize company-wide financial, accounting, billing, information and other systems. If we cannot overcome these challenges, we may not realize actual benefits from past and future acquisitions, which will impair our overall business results.

Our acquisition strategy also depends on our ability to obtain necessary government approvals, as described under **Risks Related to Doing Business in China** we may be unable to complete a business combination transaction efficiently or on favorable terms due to complicated merger and acquisition regulations which became effective on September 8, 2006.

Due to our rapid growth in recent years, our past results may not be indicative of our future performance so evaluating our business and prospects may be difficult.

Our business has grown and evolved rapidly in recent years as demonstrated by our growth in sales revenue from approximately \$32.7 million in 2005 to \$107.0 million in 2006, and \$240.2 million in 2007. We may not be able to achieve similar growth in future periods, and our historical operating results may not provide a meaningful basis for evaluating our business, financial performance and prospects. Therefore, you should not rely on our past results or our historical rate of growth as an indication of our future performance.

Our limited ability to protect our intellectual property may adversely affect our ability to compete.

We rely on a combination of trademarks, copyrights, trade secret laws, confidentiality procedures and licensing arrangements to protect our intellectual property rights. A successful challenge to the ownership of our technology could materially damage our business prospects. Our competitors may assert that our technologies or products infringe on their patents or proprietary rights. We may be required to obtain from others licenses that may not be available on commercially reasonable terms, if at all. Problems with intellectual property rights could increase the cost of our products or delay or preclude our new product development and commercialization. If infringement claims against us are deemed valid, we may not be able to obtain appropriate licenses on acceptable terms or at all. Litigation could be costly and time-consuming but may be necessary to protect our technology license positions or to defend against infringement claims.

We may be exposed to liabilities under the Foreign Corrupt Practices Act, and any determination that we violated the Foreign Corrupt Practices Act could have a material adverse effect on our business.

We are subject to the Foreign Corrupt Practices Act, or FCPA, and other laws that prohibit improper payments or offers of payments to foreign governments and their officials and political parties by U.S. persons and issuers as defined by the statute for the purpose of obtaining or retaining business. We have operations, agreements with third parties and make sales in China, which may experience corruption. Our activities in China create the risk of unauthorized payments or offers of payments by one of the employees, consultants, sales agents or distributors of our Company, even though these parties are not always subject to our control. It is our policy to implement safeguards to discourage these practices by our employees. However, our existing safeguards and any future improvements may prove to be less than effective, and the employees, consultants, sales agents or distributors of our Company may engage in conduct for which we might be held responsible. Violations of the FCPA may result in severe criminal or civil sanctions, and we may be subject to other liabilities, which could negatively affect our business, operating results and financial condition. In addition, the government may seek to hold our Company liable for successor liability FCPA violations committed by companies in which we invest or that we acquire.

Safetech is a BVI company, and our other subsidiaries are Hong Kong corporations and PRC corporations, and all of our officers and directors reside outside the United States. Therefore, certain judgments obtained against our Company by our shareholders may not be enforceable in the BVI, Hong Kong or China.

Safetech is a BVI company and our other subsidiaries are Hong Kong corporations and PRC corporations. Except for Robert Shiver, all of our officers and directors reside outside of the United States. All or substantially all of our assets and the assets of these persons are located outside of the United States. As a result, it may not be possible for investors to effect service of process within the United States upon our Company or such persons or to enforce against it or these persons the United States federal securities laws, or to enforce judgments obtained in the United States courts predicated upon the civil liability provisions of the federal securities laws of the United States, including the Securities Act and the Exchange Act.

RISKS RELATED TO OUR INDUSTRY

Seasonality affects our operating results.

Our sales are affected by seasonality. Our revenues are usually higher in the second half of the year than in the first half of the year because fewer projects are undertaken during and around the Chinese spring festival.

Our success relies on our management's ability to understand the highly evolving surveillance and security industry.

The Chinese surveillance and security industry is nascent and rapidly evolving. Therefore, it is critical that our management is able to understand industry trends and make good strategic business decisions. If our management is unable to identify industry trends and act in response to such trends in a way that is beneficial to us, our business will suffer.

If we are unable to respond to the rapid changes in our industry and changes in our customer's requirements and preferences, our business, financial condition and results of operations could be adversely affected.

If we are unable, for technological, legal, financial or other reasons, to adapt in a timely manner to changing market conditions or customer requirements, we could lose customers and market share. The electronic security systems

industry is characterized by rapid technological change. Sudden changes in customer requirements and preferences, the frequent introduction of new products and services embodying new technologies and the emergence of new industry standards and practices could render our existing products, services and systems obsolete. The emerging nature of products and services in the electronic security systems industry and their rapid evolution will require that we continually improve the performance, features and reliability of our products and services. Our success will depend, in part, on our ability to:

-

enhance our existing products and services;

-

anticipate changing customer requirements by designing, developing, and launching new products and services that address the increasingly sophisticated and varied needs of our current and prospective customers; and

-

respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis.

The development of additional products and services involves significant technological and business risks and requires substantial expenditures and lead time. If we fail to introduce products with new technologies in a timely manner, or adapt our products to these new technologies, our business, financial condition and results of operations could be adversely affected. We cannot assure you that even if we are able to introduce new products or adapt our products to new technologies that our products will gain acceptance among our customers. In addition, from time to time, we or our competitors may announce new products, product enhancements or technological innovations that have the potential to replace or shorten the life cycles of our existing products and that may cause customers to refrain from purchasing our existing products, resulting in inventory obsolescence.

We may not be able to maintain or improve our competitive position of strong competition in the security and surveillance industry, and we expect this competition to continue to intensify.

The Chinese security and surveillance industry is highly competitive. There are about 15,000 companies in China that engage in the business of manufacturing, designing and building surveillance and security products. In addition, since China joined the World Trade Organization, or WTO, we also face competition from international competitors. Some of our international competitors are larger than us and possess greater name recognition, assets, personnel, sales and financial resources. These entities may be able to respond more quickly to changing market conditions by developing new products and services that meet customer requirements or are otherwise superior to our products and services and may be able to more effectively market their products than we can because they have significantly greater financial, technical and marketing resources than we do. They may also be able to devote greater resources than we can to the development, promotion and sale of their products. Increased competition could require us to reduce our prices, result in our receiving fewer customer orders, and result in our loss of market share. We cannot assure you that we will be able to distinguish ourselves in a competitive market. To the extent that we are unable to successfully compete against existing and future competitors, our business, operating results and financial condition could be materially adversely affected.

Our business and reputation as a manufacturer of high quality security and surveillance products may be adversely affected by product defects or performance.

We believe that we offer high quality products that are reliable and competitively priced. If our products do not perform to specifications, we might be required to redesign or recall those products or pay substantial damages. Such an event could result in significant expenses, disrupt sales and affect our reputation and that of our products. In addition, product defects could result in substantial product liability. We do not have product liability insurance. If we face significant liability claims, our business, financial condition, and results of operations would be adversely affected.

Our product offerings involve a lengthy sales cycle and we may not anticipate sales levels appropriately, which could impair our profitability.

Some of our products and services are designed for medium to large commercial, industrial and government facilities desiring to protect valuable assets and/or prevent intrusion into high security facilities in China. Given the nature of our products and the customers that purchase them, sales cycles can be lengthy as customers conduct intensive investigations and deliberate between competing technologies and providers. For these and other reasons, the sales cycle associated with some of our products and services is typically lengthy and subject to a number of significant risks over which we have little or no control. If sales in any period fall significantly below anticipated levels, our financial condition and results of operations could suffer.

RISKS RELATED TO DOING BUSINESS IN CHINA

Adverse changes in political and economic policies of the PRC government could impede the overall economic growth of China, which could reduce the demand for our products and damage our business.

We conduct substantially all of our operations and generate most of our revenue in China. Accordingly, our business, financial condition, results of operations and prospects are affected significantly by economic, political and legal developments in China. The PRC economy differs from the economies of most developed countries in many respects, including:

- the higher level of government involvement;
- the early stage of development of the market-oriented sector of the economy;
- the rapid growth rate;
- the higher level of control over foreign exchange; and
- the allocation of resources.

As the PRC economy has been transitioning from a planned economy to a more market-oriented economy, the PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. While these measures may benefit the overall PRC economy, they may also have a negative effect on us.

Although the PRC government has in recent years implemented measures emphasizing the utilization of market forces for economic reform, the PRC government continues to exercise significant control over economic growth in China through the allocation of resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and imposing policies that impact particular industries or companies in different ways.

Any adverse change in the economic conditions or government policies in China could have a material adverse effect on the overall economic growth and the level of security and surveillance investments and expenditures in China, which in turn could lead to a reduction in demand for our products and consequently have a material adverse effect on our business and prospects.

Uncertainties with respect to the PRC legal system could limit the legal protections available to you and us.

We conduct substantially all of our business through our operating subsidiaries in China. Our operating subsidiaries are generally subject to laws and regulations applicable to foreign investments in China and, in particular, laws applicable to foreign-invested enterprises. The PRC legal system is based on written statutes, and prior court decisions

may be cited for reference, but have limited precedential value. Since 1979, a series of new PRC laws and regulations have significantly enhanced the protections afforded to various forms of foreign investments in China. However, since the PRC legal system continues to rapidly evolve, the interpretations of many laws, regulations and rules are not always uniform and enforcement of these laws, regulations and rules involve uncertainties, which may limit legal protections available to you and us. In addition, any litigation in China may be protracted and result in substantial costs and diversion of resources and management attention. In addition, all of our executive officers and all but one of our directors are residents of China and not of the United States, and substantially all the assets of these persons are located outside the United States. As a result, it could be difficult for investors to effect service of process in the United States or to enforce a judgment obtained in the United States against our Chinese officers, directors and subsidiaries.

The PRC government exerts substantial influence over the manner in which we conduct our business activities.

The PRC government has exercised and continues to exercise substantial control over virtually every sector of the Chinese economy through regulation and state ownership. Our ability to operate in China may be harmed by changes in its laws and regulations, including those relating to taxation, import and export tariffs, environmental regulations, land use rights, property and other matters. We believe that our operations in China are in material compliance with all applicable legal and regulatory requirements. However, the central or local governments of the jurisdictions in which we operate may impose new, stricter regulations or interpretations of existing regulations that would require additional expenditures and efforts on our part to ensure our compliance with such regulations or interpretations.

Accordingly, government actions in the future, including any decision not to continue to support recent economic reforms and to return to a more centrally planned economy or regional or local variations in the implementation of economic policies, could have a significant effect on economic conditions in China or particular regions thereof and could require us to divest ourselves of any interest we then hold in Chinese properties or joint ventures.

Restrictions on currency exchange may limit our ability to receive and use our sales revenue effectively.

Most of our sales revenue and expenses are denominated in Renminbi. Under PRC law, the Renminbi is currently convertible under the "current account," which includes dividends and trade and service-related foreign exchange transactions, but not under the capital account, which includes foreign direct investment and loans. Currently, our PRC operating subsidiaries may purchase foreign currencies for settlement of current account transactions, including payments of dividends to us, without the approval of the State Administration of Foreign Exchange, or SAFE, by complying with certain procedural requirements. However, the relevant PRC government authorities may limit or eliminate our ability to purchase foreign currencies in the future. Since a significant amount of our future revenue will be denominated in Renminbi, any existing and future restrictions on currency exchange may limit our ability to utilize revenue generated in Renminbi to fund our business activities outside China that are denominated in foreign currencies.

Foreign exchange transactions by PRC operating subsidiaries under the capital account continue to be subject to significant foreign exchange controls and require the approval of or need to register with PRC government authorities, including SAFE. In particular, if our PRC operating subsidiaries borrow foreign currency through loans from us or other foreign lenders, these loans must be registered with SAFE, and if we finance the subsidiaries by means of additional capital contributions, these capital contributions must be approved by certain government authorities, including the Ministry of Commerce, or their respective local counterparts. These limitations could affect our PRC operating subsidiaries' ability to obtain foreign exchange through debt or equity financing.

Failure to comply with PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident stockholders to personal liability, limit our ability to acquire PRC companies or to inject capital into our PRC subsidiaries, limit our PRC subsidiaries' ability to distribute profits to us or otherwise materially adversely affect us.

In October 2005, SAFE issued a public notice, the Notice on Relevant Issues in the Foreign Exchange Control over Financing and Return Investment Through Special Purpose Companies by Residents Inside China, or the SAFE Notice, which requires PRC residents to register with the competent local SAFE branch before using onshore assets or equity interests held by them to establish offshore special purpose companies, or SPVs, for the purpose of overseas equity financing. Under the SAFE Notice, such PRC residents must also file amendments to their registration in connection with any increase or decrease of capital, transfer of shares, mergers and acquisitions, equity investment or creation of any security interest in any assets located in China to guarantee offshore obligations. Moreover, if the SPVs were established and owned the onshore assets or equity interests before the implementation date of the SAFE Notice, a retroactive SAFE registration is required to have been completed before March 31, 2006. If any PRC resident stockholder of any SPV fails to make the required SAFE registration and amended registration, the PRC subsidiaries of that SPV may be prohibited from distributing their profits and the proceeds from any reduction in capital, share transfer or liquidation to the SPV. Failure to comply with the SAFE registration and amendment requirements described above could also result in liability under PRC laws for evasion of applicable foreign exchange restrictions.

Because of uncertainty over how the SAFE Notice will be interpreted and implemented, and how or whether SAFE will apply it to us, we cannot predict how it will affect our business operations or future strategies. For example, our present and prospective PRC subsidiaries' ability to conduct foreign exchange activities, such as the remittance of dividends and foreign currency-denominated borrowings, may be subject to compliance with the SAFE Notice by our PRC resident beneficial holders. In addition, such PRC residents may not always be able to complete the necessary registration procedures required by the SAFE Notice. We also have little control over either our present or prospective direct or indirect stockholders or the outcome of such registration procedures. A failure by our PRC resident beneficial holders or future PRC resident stockholders to comply with the SAFE Notice, if SAFE requires it, could subject these PRC resident beneficial holders to fines or legal sanctions, restrict our overseas or cross-border investment activities, limit our subsidiaries' ability to make distributions or pay dividends or affect our ownership structure, which could adversely affect our business and prospects.

We may be unable to complete a business combination transaction efficiently or on favorable terms due to complicated merger and acquisition regulations which became effective on September 8, 2006.

On August 8, 2006, six PRC regulatory agencies, including the China Securities Regulatory Commission or CSRC, promulgated the Regulation on Mergers and Acquisitions of Domestic Companies by Foreign Investors, which became effective on September 8, 2006. This new regulation, among other things, governs the approval process by which a PRC company may participate in an acquisition of assets or equity interests. Depending on the structure of the transaction, the new regulation will require the PRC parties to make a series of applications and supplemental applications to the government agencies. In some instances, the application process may require the presentation of economic data concerning a transaction, including appraisals of the target business and evaluations of the acquirer, which are designed to allow the government to assess the transaction. Government approvals will have expiration dates by which a transaction must be completed and reported to the government agencies. Compliance with the new regulations is likely to be more time consuming and expensive than in the past and the government can now exert more control over the combination of two businesses. Accordingly, due to the new regulation, our ability to engage in business combination transactions has become significantly more complicated, time consuming and expensive, and we may not be able to negotiate a transaction that is acceptable to our stockholders or sufficiently protect their interests in a transaction.

The new regulation allows PRC government agencies to assess the economic terms of a business combination transaction. Parties to a business combination transaction may have to submit to the Ministry of Commerce and other relevant government agencies an appraisal report, an evaluation report and the acquisition agreement, all of which form part of the application for approval, depending on the structure of the transaction. The regulations also prohibit a transaction at an acquisition price obviously lower than the appraised value of the PRC business or assets and in certain transaction structures, require that consideration must be paid within defined periods, generally not in excess of a year. The regulation also limits our ability to negotiate various terms of the acquisition, including aspects of the initial consideration, contingent consideration, holdback provisions, indemnification provisions and provisions relating to the assumption and allocation of assets and liabilities. Transaction structures involving trusts, nominees and similar entities are prohibited. Therefore, such regulation may impede our ability to negotiate and complete a business combination transaction on financial terms that satisfy our investors and protect our stockholders' economic interests.

In addition to the above risks, in many instances, we will seek to structure transactions in a manner that avoids the need to make applications or a series of applications with Chinese regulatory authorities under these new M&A regulations. If we fail to effectively structure an acquisition in a manner that avoids the need for such applications or if the Chinese government interprets the requirements of the new M&A regulations in a manner different from our understanding of such regulations, then acquisitions that we have effected may be unwound or subject to rescission. Also, if the Chinese government determines that our structure of any of our acquisitions does not comply with these new regulations, then we may also be subject to fines and penalties.

Under the New EIT Law, we may be classified as a resident enterprise of China. Such classification will likely result in unfavorable tax consequences to us and our non-PRC stockholders.

China passed a new Enterprise Income Tax Law, or the New EIT Law, and its implementing rules, both of which became effective on January 1, 2008. Under the New EIT Law, an enterprise established outside of China with de facto management bodies within China is considered a resident enterprise, meaning that it can be treated in a manner similar to a Chinese enterprise for enterprise income tax purposes. The implementing rules of the New EIT Law define de facto management as substantial and overall management and control over the production and operations, personnel, accounting, and properties of the enterprise. Because the New EIT Law and its implementing rules are new, no official interpretation or application of this new resident enterprise classification is available. Therefore, it is unclear how tax authorities will determine tax residency based on the facts of each case.

If the PRC tax authorities determine that China Security & Surveillance Technology, Inc. is a resident enterprise for PRC enterprise income tax purposes, a number of unfavorable PRC tax consequences could follow. First, we may be subject to the enterprise income tax at a rate of 25% on our worldwide taxable income as well as PRC enterprise income tax reporting obligations. In our case, this would mean that income such as interest on offering proceeds and non-China source income would be subject to PRC enterprise income tax at a rate of 25%. Second, although under the New EIT Law and its implementing rules dividends paid to us from our PRC subsidiaries would qualify as tax-exempt income, we cannot guarantee that such dividends will not be subject to a 10% withholding tax, as the PRC foreign exchange control authorities, which enforce the withholding tax, have not yet issued guidance with respect to the processing of outbound remittances to entities that are treated as resident enterprises for PRC enterprise income tax

purposes. Finally, it is possible that future guidance issued with respect to the new resident enterprise classification could result in a situation in which a 10% withholding tax is imposed on dividends we pay to our non-PRC stockholders and with respect to gains derived by our non-PRC stockholders from transferring our shares. We are actively monitoring the possibility of resident enterprise treatment for the 2008 tax year and are evaluating appropriate organizational changes to avoid this treatment, to the extent possible.

If we were treated as a resident enterprise by PRC tax authorities, we would be subject to taxation in both the U.S. and China, and our PRC tax may not be creditable against our U.S. tax.

Fluctuations in exchange rates could adversely affect our business and the value of our securities.

The value of our securities will be indirectly affected by the foreign exchange rate between U.S. dollars and the Renminbi and between those currencies and other currencies in which our sales may be denominated. Because substantially all of our earnings and cash assets are denominated in Renminbi and the net proceeds from the offering of the securities covered by this registration statement will be denominated in U.S. dollars, fluctuations in the exchange rate between the U.S. dollar and the Renminbi will affect the relative purchasing power of these proceeds, our balance sheet and our earnings per share in U.S. dollars following the offerings of the securities. In addition, appreciation or depreciation in the value of the Renminbi relative to the U.S. dollar would affect our financial results reported in U.S. dollar terms without giving effect to any underlying change in our business or results of operations. Fluctuations in the exchange rate will also affect the relative value of any dividend we issue after the offerings of the securities covered by this registration statement that will be exchanged into U.S. dollars and earnings from, and the value of, any U.S. dollar-denominated investments we make in the future.

Since July 2005, the Renminbi has no longer been pegged to the U.S. dollar. Although the People's Bank of China regularly intervenes in the foreign exchange market to prevent significant short-term fluctuations in the exchange rate, the Renminbi may appreciate or depreciate significantly in value against the U.S. dollar in the medium to long term. Moreover, it is possible that in the future the PRC authorities may lift restrictions on fluctuations in the Renminbi exchange rate and lessen intervention in the foreign exchange market.

Very limited hedging transactions are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may enter into hedging transactions in the future, the availability and effectiveness of these transactions may be limited, and we may not be able to successfully hedge our exposure at all. In addition, our foreign currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert Renminbi into foreign currencies.

Currently, some of our raw materials, components and major equipment are imported. In the event that the U.S. dollars appreciate against Renminbi, our costs will increase. If we cannot pass the resulting cost increases on to our customers, our profitability and operating results will suffer. In addition, since our sales to international customers are growing rapidly, we are increasingly subject to the risk of foreign currency depreciation.

RISKS RELATED TO OUR SECURITIES

Although publicly traded, the trading market in our common stock has been substantially less liquid than the average trading market for a stock quoted on the New York Stock Exchange and this low trading volume may adversely affect the price of our common stock.

Our common stock started trading on the New York Stock Exchange under the symbol **CSR** on October 29, 2007. The trading market in our common stock has been substantially less liquid than the average trading market for companies quoted on the New York Stock Exchange. Reported average daily trading volume in our common stock for the three months ended February 19, 2009, was approximately 505,890 shares. Limited trading volume will subject our shares of common stock to greater price volatility and may make it difficult for you to sell your shares of common stock at a price that is attractive to you.

Provisions in our certificate of incorporation and bylaws or Delaware law might discourage, delay or prevent a change of control of us or changes in our management and, therefore depress the trading price of the securities.

Delaware corporate law and our certificate of incorporation and bylaws contain provisions that could discourage, delay or prevent a change in control of our Company or changes in its management that our stockholders may deem advantageous. These provisions:

-

deny holders of our common stock cumulative voting rights in the election of directors, meaning that stockholders owning a majority of our outstanding shares of common stock will be able to elect all of our directors;

-

any stockholder wishing to properly bring a matter before a meeting of stockholders must comply with specified procedural and advance notice requirements; and

-

any vacancy on the board of directors, however the vacancy occurs, may only be filled by the directors.

In addition, Section 203 of the Delaware General Corporation Law generally limits our ability to engage in any business combination with certain persons who own 15% or more of our outstanding voting stock or any of our associates or affiliates who at any time in the past three years have owned 15% or more of our outstanding voting stock. These provisions may have the effect of entrenching our management team and may deprive you of the opportunity to sell your shares to potential acquirers at a premium over prevailing prices. This potential inability to obtain a control premium could reduce the price of our common stock.

The market price of our common stock is volatile, leading to the possibility of its value being depressed at a time when you want to sell your holdings.

The market price of our common stock is volatile, and this volatility may continue. For instance, between January 1, 2008 and December 31, 2008, the closing bid price of our common stock, as reported on the markets on which our securities have traded, ranged between \$4.38 and \$21.85. Numerous factors, many of which are beyond our control, may cause the market price of our common stock to fluctuate significantly. These factors include:

-

our earnings releases, actual or anticipated changes in our earnings, fluctuations in our operating results or our failure to meet the expectations of financial market analysts and investors;

-

changes in financial estimates by us or by any securities analysts who might cover our stock;

-

speculation about our business in the press or the investment community;

-

significant developments relating to our relationships with our customers or suppliers;

-

stock market price and volume fluctuations of other publicly traded companies and, in particular, those that are in the security and surveillance parts or security and surveillance industries;

-

customer demand for our products;

-

investor perceptions of the security and surveillance parts and security and surveillance industries in general and our company in particular;

-

the operating and stock performance of comparable companies;

-

general economic conditions and trends;

-

major catastrophic events;

-

announcements by us or our competitors of new products, significant acquisitions, strategic partnerships or divestitures;

-

changes in accounting standards, policies, guidance, interpretation or principles;

-

loss of external funding sources;

-

sales of our common stock, including sales by our directors, officers or significant stockholders; and

-

additions or departures of key personnel.

Securities class action litigation is often instituted against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs to us and divert our management's attention and resources. Moreover, securities markets may from time to time experience significant price and volume fluctuations for reasons unrelated to operating performance of particular companies. These market fluctuations may adversely affect the price of our common stock and other interests in our company at a time when you want to sell your interest in us.

We do not intend to pay dividends for the foreseeable future.

For the foreseeable future, we intend to retain any earnings to finance the development and expansion of our business, and we do not anticipate paying any cash dividends on our securities. Accordingly, investors must be prepared to rely on sales of their securities after price appreciation to earn an investment return, which may never occur. Investors seeking cash dividends should not purchase our securities. Any determination to pay dividends in the future will be made at the discretion of our board of directors and will depend on our results of operations, financial condition, contractual restrictions, restrictions imposed by applicable law and other factors our board deems relevant.

RISKS RELATED TO OUR RECENT HIGH YIELD AND CONVERTIBLE NOTES

Covenants in our debt instruments restrict or prohibit our ability to engage in or enter into a variety of transactions.

On February 16, 2007, we entered into a notes purchase agreement with Citadel Equity Fund Ltd., or Citadel, as well as indentures and an investor rights agreement, relating to the purchase and sale of \$60 million Guaranteed Senior Unsecured Notes Due 2012. On April 24, 2007, we entered into another notes purchase agreement with Citadel, as well as indentures and an amended and restated investor rights agreement, relating to the purchase and sale of \$50 million Guaranteed Senior Unsecured Notes Due 2012. The two convertible notes are referred herein as the Notes.

The two indentures governing the Notes contain various covenants that may limit our discretion in operating our business. In particular, we are limited in our ability to merge, consolidate or transfer substantially all of our assets, issue stock of subsidiaries, incur additional debts and create liens on our assets to secure debt. In addition, if there is default, and we do not maintain certain financial covenants or we do not maintain borrowing availability in excess of certain pre-determined levels, we may be unable to incur additional indebtedness, make restricted payments (including paying cash dividends on our capital stock) or redeem or repurchase our capital stock.

The indentures governing the Notes require us to maintain certain financial ratios and limit our ability to make capital expenditures. These covenants and ratios could have an adverse effect on our business by limiting our ability to take advantage of financing, merger and acquisition or other corporate opportunities and to fund our operations. Any future debt could also contain financial and other covenants more restrictive than those imposed under the indenture governing the Notes.

The Notes and their corresponding debt could have significant consequences to investors. For example, they could:

- limit our ability to obtain additional financing for working capital, capital expenditures, and other general corporate requirements;
- increase our vulnerability to general adverse economic and industry conditions;
- require us to sell assets to reduce indebtedness or influence our decisions about whether to do so;
- restrict us from making strategic acquisitions or pursuing business opportunities;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- limit, along with the financial and other restrictive covenants in our indebtedness, among other things, our ability to borrow additional funds; and
- place us at a competitive disadvantage compared to competitors that may have proportionately less debt.

Under the indentures, if the Notes are not converted before their respective maturities, the Notes will be redeemed by us on the maturity date at a redemption price equal to 100% of the principal amount of the notes then outstanding plus an additional amount such that the total amount represents to the holders thereof a gross yield (including the paid or any accrued and unpaid interest) of 15.0% per annum, calculated on a quarterly compounded basis, plus any accrued and unpaid interest. If Citadel chooses not to convert the notes or is not forced to convert the notes under the mandatory conversion provisions as contained in the indentures, then we will incur significant debt obligations.

In addition, our ability to make scheduled payments or refinance our obligations depends on our successful financial and operating performance, cash flows, and capital resources, which in turn depend upon prevailing economic conditions and certain financial, business, and other factors, many of which are beyond our control. If our cash flows and capital resources are insufficient to fund our debt obligations, we may be forced to reduce or delay capital expenditures, sell material assets or operations, obtain additional capital, restructure our debt, or declare bankruptcy. In the event that we are required to dispose of material assets or operations to meet our debt service and other obligations, the value realized on such assets or operations will depend on market conditions and the availability of buyers. Accordingly, we may be forced to sell at an unfavorable price.

A covenant in our indentures with Citadel may obligate us to repurchase the Notes from the holders of such notes, though at such time we may not possess sufficient liquidity to satisfy such obligations.

Pursuant to the indentures with Citadel, if our chairman and chief executive officer, Mr. Guoshen Tu, ceases to be the beneficial owner of at least twenty percent of our outstanding capital stock, we will be obligated to submit an offer to the holders of the Notes to repurchase the Notes within in 30 days, in whole or in part at the discretion of the individual note holders, at a price determined by the terms of the indentures.

On January 11, 2008, Whitehorse Technology Limited, or Whitehorse, a company organized in the British Virgin Islands and which is wholly owned by Mr. Tu, issued and sold \$50,000,000 in aggregate principal amount of Exchangeable Senior Notes due 2012, or the Whitehorse Notes, to third party investors, or the Investors, not affiliated with us. In connection with this transaction, Whitehorse and Mr. Tu pledged shares of our common stock that are directly and indirectly beneficially owned by Whitehorse and Mr. Tu, respectively, to secure the Whitehorse Notes.

We are not a party to any of the Whitehorse Note agreements and did not make any representations, warranties or covenants in connection with the Whitehorse Notes. However, Whitehorse and Mr. Tu agreed to pledge their shares of our common stock to secure their obligations under the Whitehorse Notes. In addition, pursuant to the Whitehorse Notes, if the market price of the shares pledged by Whitehorse and Mr. Tu falls below \$150,000,000, Whitehorse and Mr. Tu are obligated to pledge such number of additional shares in order to increase the aggregate value of all of the pledged shares to \$150,000,000. Whitehorse and Mr. Tu have pledged approximately 14.7 million shares of our common stock and the value of such shares is currently under \$150,000,000. We have been informed by Whitehorse and Mr. Tu that Whitehorse and Mr. Tu have entered into a side letter with the Investors in November 2008, or the Side Letter, under which the Investors agreed to forbear from declaring an event of default with respect to the Whitehorse Note solely as a result of Whitehorse and Mr. Tu's failure to pledge additional shares as long as Whitehorse and Mr. Tu make timely payment according to the amortization schedule as set forth in such Side Letter. Whitehorse and Mr. Tu have informed us that no event of default has been declared as of the date of this registration statement.

Failure on the part of Whitehorse and Mr. Tu to meet their obligations under the Whitehorse Notes agreements and/or the Side Letter may trigger a default under the Whitehorse Notes and would permit the Investor to accelerate the Whitehorse Notes and foreclose on the shares of our common stock that were pledged by Whitehorse and Mr. Tu. Since our financing arrangement with Citadel provides for an acceleration of the amounts owed by us to Citadel if Mr. Tu does not, directly or indirectly through Whitehorse, maintain a specified ownership percentage in our outstanding capital stock, such a foreclosure by the Investor could potentially trigger the acceleration of our payment of the Citadel loan. If that occurs, our liquidity, financial condition, and results of operations would be adversely affected.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-3 under the Securities Act with respect to the securities offered in this offering. This prospectus does not contain all of the information set forth in the registration statement. For further information with respect to us and the securities offered in this offering, we refer you to the registration statement and to the attached exhibits. With respect to each such document filed as an exhibit to the registration statement, we refer you to the exhibit for a more complete description of the matters involved.

You may inspect our registration statement and the attached exhibits and schedules without charge at the public reference facilities maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. You may obtain copies of all or any part of our registration statement from the SEC upon payment of prescribed fees. You may obtain information on the operation of the public reference room by calling the SEC at 1-800-SEC-0330.

Our SEC filings, including the registration statement and the exhibits filed with the registration statement, are also available from the SEC's website at www.sec.gov, which contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC.

INCORPORATION OF CERTAIN INFORMATION BY REFERENCE

The SEC allows us to incorporate by reference in this prospectus certain of the information we file with the SEC. This means we can disclose important information to you by referring you to another document that has been filed separately with the SEC. The information incorporated by reference is considered to be part of this prospectus, and will modify and supersede the information included in this prospectus to the extent that the information included as incorporated by reference modifies or supersedes the existing information. Any statement so modified or superseded will not be deemed, except as so modified or superseded, to constitute a part of this prospectus. We incorporate by reference the documents listed below and all additional documents that we file with the SEC under the terms of Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, that are made after the initial filing date of the registration statement of which this prospectus is a part and before the termination of any offering of securities offered by this prospectus.

The description of our common stock, \$0.0001 par value per share, contained in our Registration Statement on Form 8-A, filed on October 26, 2007 pursuant to Section 12(b) of the Securities and Exchange Act of 1934, as amended.

Any statement made in this prospectus concerning the contents of any contract, agreement or other document is only a summary of the actual document. You may obtain a copy of any document summarized in this prospectus and any or all of the information that has been incorporated by reference in this prospectus at no cost by writing or calling us at our mailing address and telephone number: Samuel Lo, China Security & Surveillance Technology, Inc., 13/F, Shenzhen Special Zone Press Tower Shennan Road, Futian District, Shenzhen, China 518034, telephone: (86) 755-8351-0888. Each statement regarding a contract, agreement or other document is qualified in its entirety by reference to the actual document.

You may read and copy all materials that we have filed with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. Additionally, all reports and documents that we have filed with the SEC can be obtained from the SEC's Internet Site at <http://www.sec.gov>, or by visiting the Investor Relations section of our website at www.csst.com.

FORWARD-LOOKING STATEMENTS

This prospectus contains or incorporates forward-looking statements within the meaning of section 27A of the Securities Act and section 21E of the Exchange Act. These forward-looking statements are management's beliefs and assumptions. In addition, other written or oral statements that constitute forward-looking statements are based on current expectations, estimates and projections about the industry and markets in which we operate and statements may be made by or on our behalf. Words such as should, could, may, expect, anticipate, intend, plan, estimate, variations of such words and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict. There are a number of important factors that could cause our actual results to differ materially from those indicated by such forward-looking statements.

We describe material risks, uncertainties and assumptions that could affect our business, including our financial condition and results of operations, under Risk Factors and may update our descriptions of such risks, uncertainties and assumptions in any prospectus supplement. We base our forward-looking statements on our management's beliefs and assumptions based on information available to our management at the time the statements are made. We caution you that actual outcomes and results may differ materially from what is expressed, implied or forecast by our forward-looking statements. Accordingly, you should be careful about relying on any forward-looking statements. Reference is made in particular to forward-looking statements regarding growth strategies, financial results, product development, competitive strengths, intellectual property rights, litigation, mergers and acquisitions, market

acceptance or continued acceptance of our products, accounting estimates, financing activities, ongoing contractual obligations and sales efforts. Except as required under the federal securities laws and the rules and regulations of the SEC, we do not have any intention or obligation to update publicly any forward-looking statements after the distribution of this prospectus, whether as a result of new information, future events, changes in assumptions, or otherwise.

USE OF PROCEEDS

Unless specified otherwise in the applicable prospectus supplement, we expect to use the net proceeds we receive from the sale of the securities offered by this prospectus and the accompanying prospectus supplement for general corporate purposes, which may include, among other things:

-

repayment of debt;

-

acquisitions;

-

working capital;

-
- capital expenditures;
-
- research and development expenditures; and
-
- investments.

The precise amount and timing of the application of such proceeds will depend upon our funding requirements and the availability and cost of other capital. Pending any specific application, we may initially invest funds in short-term marketable securities or apply them to the reduction of short-term indebtedness. Additional information on the use of net proceeds from the sale of securities covered by this prospectus may be set forth in the prospectus supplement relating to the specific offering.

RATIOS OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratios of consolidated earnings to fixed charges for the periods indicated:

	Nine-Months Ended September 30,		Year Ended December 31,			
	2008	2007	2006	2005 (1)	2004 (1)	2003 (1)
Ratio of earnings to fixed charges and preferred stock dividends:	2.70	3.97	249.33	-	-	-
Excluding interest on deposits	2.70	3.97	249.33	-	-	-
Including interest on deposits	2.70	3.97	249.33	-	-	-

(1)

During the years ended December 31, 2005, 2004 and 2003, we did not incur any interest expense, other fixed charges or preferred dividends. Therefore, a ratio of earnings to combined fixed charges is not applicable for these periods.

For purposes of computing the above ratios, earnings represent net income from continuing operations before income tax provision. Fixed charges, excluding interest on deposits, include interest on short-term borrowings and long-term debt, amortization of debt expense. Fixed charges, including interest on deposits, include all of the items listed above plus interest on deposits. We do not have any preferred stock issued and outstanding.

DESCRIPTION OF CAPITAL STOCK

Our Certificate of Incorporation authorizes us to issue 290,000,000 shares of common stock, \$.0001 par value per share, and 10,000,000 shares of preferred stock, \$.0001 par value per share. As of February 19, 2009, there were 49,142,592 shares of common stock, and no shares of preferred stock, outstanding.

Common Stock. All outstanding common stock is, and any stock issued under this prospectus will be, fully paid and nonassessable. Subject to the rights of the holders of our outstanding preferred stock, holders of common stock:

-

are entitled to any dividends validly declared;

-

will share ratably in our net assets in the event of a liquidation; and

-

are entitled to one vote per share.

The common stock has no conversion rights. Holders of common stock have no preemption, subscription, redemption, or call rights related to those shares.

Preferred Stock. The Board of Directors has the authority, without further action by the shareholders, to issue shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions thereof, including dividend rights, conversion rights, voting rights, terms of redemption, liquidation preferences and the number of shares constituting any series or the designation of such series, without any further vote or action by the shareholders. The issuance of preferred stock could adversely affect the voting power of holders of our common stock and the likelihood that such holders will receive dividend payments and payments upon liquidation may have the effect of delaying, deferring or preventing a change in control of the Company, which could depress the market price of our common stock. We currently have no shares of preferred stock outstanding. If we offer preferred stock, the terms of that series of preferred stock will be set forth in the prospectus supplement relating to that series.

Anti-Takeover Provisions of Delaware Law and Charter Provisions

We are subject to Section 203 of the Delaware General Corporation Law, which prohibits a publicly-held Delaware corporation from engaging in a business combination, except under certain circumstances, with an interested stockholder for a period of three years following the date such person became an interested stockholder unless:

-

before such person became an interested stockholder, the board of directors of the corporation approved either the business combination or the transaction that resulted in the interested stockholder becoming an interested stockholder;

-

upon the consummation of the transaction that resulted in the interested stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding shares held by directors who also are officers of the corporation and shares held by employee stock plans; or

-

at or following the time such person became an interested stockholder, the business combination is approved by the board of directors of the corporation and authorized at a meeting of stockholders by the affirmative vote of the holders of 66 2/3% of the outstanding voting stock of the corporation which is not owned by the interested stockholder.

The term interested stockholder generally is defined as a person who, together with affiliates and associates, owns, or, within the three years prior to the determination of interested stockholder status, owned, 15% or more of a corporation's outstanding voting stock. The term business combination includes mergers, asset or stock sales and other similar transactions resulting in a financial benefit to an interested stockholder. Section 203 makes it more difficult for an interested stockholder to effect various business combinations with a corporation for a three-year period. The existence of this provision would be expected to have an anti-takeover effect with respect to transactions not approved in advance by our board of directors, including discouraging attempts that might result in a premium over the market price for the shares of common stock held by stockholders.

The ability of the board of directors to issue shares of preferred stock and to set the voting rights, preferences and other terms thereof, without further stockholder action, may be deemed to have anti-takeover effect and may discourage takeover attempts not first approved by the board of directors, including takeovers which stockholders may deem to be in their best interests. If takeover attempts are discouraged, temporary fluctuations in the market price of our common stock, which may result from actual or rumored takeover attempts, may be inhibited. These provisions, together with the ability of our board of directors to issue preferred stock without further stockholder action, including adoption of a stockholders rights plan using preferred stock rights, could also delay or frustrate the removal of incumbent directors or the assumption of control by stockholders, even if the removal or assumption would be beneficial to our stockholders. These provisions could also discourage or inhibit a merger, tender offer or proxy contests, even if favorable to the interests of stockholders, and could depress the market price of our common stock. In addition, our bylaws provide that our board of directors is divided into three classes, a separate class to be elected each year, making it more difficult to replace the entire board of directors or remove individual directors. In addition, our bylaws may be amended by action of the board of directors. Certain provisions under consideration for amendment are notice requirements and other procedures with respect to special meetings called by stockholders, stockholder action by written consent and director nominations by stockholders.

Limitation of Liability and Indemnification

Article VIII of our articles of incorporation and Article VII of our bylaws provide for indemnification of our directors, officers, employees and other agents to the fullest extent permitted by law. We also has have entered into indemnification agreements with our independent directors and provide indemnity insurance pursuant to which directors and officers are indemnified against liability or loss under certain circumstances which may include liability or related loss under the Securities Act and the Exchange Act.

Transfer Agent

The transfer agent and registrar for our common stock is American Stock Transfer & Trust Company.

DESCRIPTION OF WARRANTS

We may issue warrants for the purchase of common stock, preferred stock and/or debt securities in one or more series. We may issue warrants independently or together with common stock, preferred stock and/or debt securities, and the warrants may be attached to or traded separate and apart from these securities. Each series of warrants will be issued under a warrant agreement all as set forth in the prospectus supplement. A copy of the form of warrant agreement, including any form of warrant certificates representing the warrants, reflecting the provisions to be included in the warrant agreements and/or warrant certificates that will be entered into with respect to particular offerings of warrants, will be filed as an exhibit to a Form 8-K to be incorporated into the registration statement of which this prospectus constitutes a part prior to the issuance of any warrants.

The applicable prospectus supplement or term sheet will describe the terms of the warrants offered thereby, any warrant agreement relating to such warrants and the warrant certificates, including but not limited to the following:

-

the offering price or prices;

-

the aggregate amount of securities that may be purchased upon exercise of such warrants and minimum number of warrants that are exercisable;

-

the currency or currency units in which the offering price, if any, and the exercise price are payable;

•

the number of securities, if any, with which such warrants are being offered and the number of such warrants being offered with each security;

•

the date on and after which such warrants and the related securities, if any, will be transferable separately;

•

the amount of securities purchasable upon exercise of each warrant and the price at which the securities may be purchased upon such exercise, and events or conditions under which the amount of securities may be subject to adjustment;

•

the date on which the right to exercise such warrants shall commence and the date on which such right shall expire;

•

the circumstances, if any, which will cause the warrants to be deemed to be automatically exercised;

•

any material risk factors, if any, relating to such warrants;

•

the identity of any warrant agent; and

•

any other terms of such warrants (which shall not be inconsistent with the provisions of the warrant agreement).

Prior to the exercise of any warrants, holders of such warrants will not have any rights of holders of the securities purchasable upon such exercise, including the right to receive payments of dividends, if any, on the securities purchasable upon such exercise, statutory appraisal rights or the right to vote such underlying securities.

Prospective purchasers of warrants should be aware that material U.S. federal income tax, accounting and other considerations may be applicable to instruments such as warrants.

DESCRIPTION OF DEBT SECURITIES

The following is a summary of the general terms of the debt securities that we may issue. We will file a prospectus supplement that may contain additional terms when we issue debt securities. The terms presented here, together with the terms in a related prospectus supplement, will be a description of the material terms of the debt securities. You should also read the indenture under which the debt securities are to be issued. We have filed a form of indenture governing different types of debt securities with the SEC as an exhibit to the registration statement of which this prospectus is a part. All capitalized terms have the meanings specified in the indenture.

We may issue, from time to time, debt securities, in one or more series, that will consist of senior debt, senior subordinated debt or subordinated debt. We refer to the subordinated debt securities and the senior subordinated debt securities together as the subordinated securities. The debt securities that we may offer will be issued under an indenture between us and an entity, identified in the applicable prospectus supplement, as trustee. Debt securities, whether senior, senior subordinated or subordinated, may be issued as convertible debt securities or exchangeable debt securities. The following is a summary of the material provisions of the indenture filed as an exhibit to the registration statement of which this prospectus is a part.

As you read this section, please remember that for each series of debt securities, the specific terms of your debt security as described in the applicable prospectus supplement will supplement and, if applicable, may modify or replace the general terms described in the summary below. The statement we make in this section may not apply to your debt security.

General Terms of the Indenture

The indenture does not limit the amount of debt securities that we may issue. It provides that we may issue debt securities up to the principal amount that we may authorize and may be in any currency or currency unit that we may designate. We may, without the consent of the holders of any series, increase the principal amount of securities in that series in the future, on the same terms and conditions and with the same CUSIP numbers as that series. Except for the limitations on consolidation, merger and sale of all or substantially all of our assets contained in the indenture, the terms of the indenture do not contain any covenants or other provisions designed to give holders of any debt securities protection against changes in our operations, financial condition or transactions involving us.

We may issue the debt securities issued under the indenture as discount securities, which means they may be sold at a discount below their stated principal amount. These debt securities, as well as other debt securities that are not issued at a discount, may be issued with original issue discount, or OID, for U.S. federal income tax purposes because of interest payment and other characteristics. Material U.S. federal income tax considerations applicable to debt securities issued with original issue discount will be described in more detail in any applicable prospectus supplement.

The applicable prospectus supplement for a series of debt securities that we issue will describe, among other things, the following terms of the offered debt securities:

-

the title and authorized denominations of the series of debt securities;

-

any limit on the aggregate principal amount of the series of debt securities;

-

whether such debt securities will be issued in fully registered form without coupons or in a form registered as to principal only with coupons or in bearer form with coupons;

-

whether issued in the form of one or more global securities and whether all or a portion of the principal amount of the debt securities is represented thereby;

-

the price or prices at which the debt securities will be issued;

-

the date or dates on which principal is payable;

-

the place or places where and the manner in which principal, premium or interest, if any, will be payable and the place or places where the debt securities may be presented for transfer and, if applicable, conversion or exchange;

-

interest rates, and the dates from which interest, if any, will accrue, and the dates when interest is payable and the maturity;

-

the right, if any, to extend the interest payment periods and the duration of the extensions;

-

our rights or obligations to redeem or purchase the debt securities;

-

any sinking fund or other provisions that would obligate us to repurchase or otherwise redeem some or all of the debt securities;

-

conversion or exchange provisions, if any, including conversion or exchange prices or rates and adjustments thereto;

-

the currency or currencies of payment of principal or interest;

-

the terms applicable to any debt securities issued at a discount from their stated principal amount;

-

the terms, if any, under which any debt securities will rank junior to any of our other debt;

-

whether and upon what terms the debt securities may be defeased, if different from the provisions set forth in the indenture;

-

if the amount of payments of principal or interest is to be determined by reference to an index or formula, or based on a coin or currency other than that in which the debt securities are stated to be payable, the manner in which these amounts are determined and the calculation agent, if any, with respect thereto;

-

the provisions, if any, relating to any collateral provided for the debt securities;

-

if other than the entire principal amount of the debt securities when issued, the portion of the principal amount payable upon acceleration of maturity as a result of a default on our obligations;

-

the events of default and covenants relating to the debt securities that are in addition to, modify or delete those described in this prospectus;

-

the nature and terms of any security for any secured debt securities; and

-

any other specific terms of any debt securities.

The applicable prospectus supplement will present material U.S. federal income tax considerations for holders of any debt securities and the securities exchange or quotation system on which any debt securities are to be listed or quoted.

Senior Debt Securities

Payment of the principal of, premium and interest, if any, on senior debt securities will rank on a parity with all of our other secured/unsecured and unsubordinated debt.

Senior Subordinated Debt Securities

Payment of the principal of, premium and interest, if any, on senior subordinated debt securities will be junior in right of payment to the prior payment in full of all of our unsubordinated debt, including senior debt securities and any credit facility. We will state in the applicable prospectus supplement relating to any senior subordinated debt securities the subordination terms of the securities as well as the aggregate amount of outstanding debt, as of the most recent practicable date, that by its terms would be senior to the senior subordinated debt securities. We will also state in such prospectus supplement limitations, if any, on issuance of additional senior debt.

Subordinated Debt Securities

Payment of the principal of, premium and interest, if any, on subordinated debt securities will be subordinated and junior in right of payment to the prior payment in full of all of our senior debt, including our senior debt securities and senior subordinated debt securities. We will state in the applicable prospectus supplement relating to any subordinated debt securities the subordination terms of the securities as well as the aggregate amount of outstanding indebtedness, as of the most recent practicable date, that by its terms would be senior to the subordinated debt securities. We will also state in such prospectus supplement limitations, if any, on issuance of additional senior indebtedness.

Conversion or Exchange Rights

Debt securities may be convertible into or exchangeable for other securities, including, for example, shares of our equity securities. The terms and conditions of conversion or exchange will be stated in the applicable prospectus supplement. The terms will include, among others, the following:

- the conversion or exchange price;
- the conversion or exchange period;
- provisions regarding the ability of us or the holder to convert or exchange the debt securities;
- events requiring adjustment to the conversion or exchange price; and
- provisions affecting conversion or exchange in the event of our redemption of the debt securities.

Consolidation, Merger or Sale

We cannot consolidate or merge with or into, or transfer or lease all or substantially all of our assets to, any person, and we cannot permit any other person to consolidate with or merge into us, unless (1) we will be the continuing

corporation or (2) the successor corporation or person to which our assets are transferred or leased is a corporation organized under the laws of the United States, any state of the United States or the District of Columbia and it expressly assumes our obligations under the debt securities and the indenture. In addition, we cannot complete such a transaction unless immediately after completing the transaction, no event of default under the indenture, and no event which, after notice or lapse of time or both, would become an event of default under the indenture, shall have occurred and be continuing. When the person to whom our assets are transferred or leased has assumed our obligations under the debt securities and the indenture, we shall be discharged from all our obligations under the debt securities and the indenture except in limited circumstances.

This covenant would not apply to any recapitalization transaction, a change of control of us or a highly leveraged transaction, unless the transaction or change of control were structured to include a merger or consolidation or transfer or lease of all or substantially all of our assets.

Events of Default

The term "Event of Default," when used in the indenture, unless otherwise indicated, means any of the following:

- failure to pay interest for 30 days after the date payment is due and payable;
- failure to pay principal or premium, if any, on any debt security when due, either at maturity, upon any redemption, by declaration or otherwise;
- failure to make sinking fund payments when due;
- failure to perform other covenants for 60 days after notice that performance was required;
- events in bankruptcy, insolvency or reorganization relating to us; or
- any other Event of Default provided in the applicable officer's certificate, resolution of our board of directors or the supplemental indenture under which we issue a series of debt securities.

An Event of Default for a particular series of debt securities does not necessarily constitute an Event of Default for any other series of debt securities issued under the indenture.

If an Event of Default with respect to any series of senior debt securities occurs and is continuing, then either the trustee for such series or the holders of a majority in aggregate principal amount of the outstanding debt securities of such series, by notice in writing, may declare the principal amount of and interest on all of the debt securities of such series to be due and payable immediately; provided, however, unless otherwise provided in the applicable prospectus supplement, if such an Event of Default occurs and is continuing with respect to more than one series of senior debt securities under the indenture, the trustee for such series or the holders of a majority in aggregate principal amount of the outstanding debt securities of all such series of senior debt securities of equal ranking (or, if any of such senior debt securities are discount securities, such portion of the principal amount as may be specified in the terms of that series), voting as one class, may make such declaration of acceleration as to all series of such equal ranking and not the holders of the debt securities of any one of such series of senior debt securities.

If an Event of Default with respect to any series of subordinated securities occurs and is continuing, then either the trustee for such series or the holders of a majority in aggregate principal amount of the outstanding debt securities of such series, by notice in writing, may declare the principal amount of and interest on all of the debt securities of such series to be due and payable immediately; provided, however, unless otherwise provided in the applicable prospectus supplement, if such an Event of Default occurs and is continuing with respect to more than one series of subordinated securities under the indenture, the trustee for such series or the holders of a majority in aggregate principal amount of the outstanding debt securities of all such series of subordinated securities of equal ranking (or, if any of such subordinated securities are discount securities, such portion of the principal amount as may be specified in the terms of that series), voting as one class, may make such declaration of acceleration as to all series of equal ranking and not the holders of the debt securities of any one of such series of subordinated securities.

The holders of not less than a majority in aggregate principal amount of the debt securities of all affected series of equal ranking may, after satisfying certain conditions, rescind and annul any of the above-described declarations and consequences involving such series.

If an Event of Default relating to events in bankruptcy, insolvency or reorganization of us occurs and is continuing, then the principal amount of all of the debt securities outstanding, and any accrued interest, will automatically become due and payable immediately, without any declaration or other act by the trustee or any holder.

The indenture imposes limitations on suits brought by holders of debt securities against us. Except for actions for payment of overdue principal or interest, no holder of debt securities of any series may institute any action against us under the indenture unless:

-

the holder has previously given to the trustee written notice of default and continuance of such default;

-

Edgar Filing: CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. - Form S-3/A

the holders of not less than a majority in principal amount of the outstanding debt securities of the affected series of equal ranking have requested that the trustee institute the action;

-

the requesting holders have offered the trustee reasonable indemnity for expenses and liabilities that may be incurred by bringing the action;

-

the trustee has not instituted the action within 60 days of the request; and

-

the trustee has not received inconsistent direction by the holders of a majority in principal amount of the outstanding debt securities of the affected series of equal ranking.

We will be required to file annually with the trustee a certificate, signed by one of our officers, stating whether or not the officer knows of any default by us in the performance, observance or fulfillment of any condition or covenant of the indenture.

Registered Global Securities and Book Entry System

The debt securities of a series may be issued in whole or in part in book-entry form and may be represented by one or more fully registered global securities or in unregistered form with or without coupons. We will deposit any registered global securities with a depositary or with a nominee for a depositary identified in the applicable prospectus supplement and registered in the name of such depositary or nominee. In such case, we will issue one or more registered global securities denominated in an amount equal to the aggregate principal amount of all of the debt securities of the series to be issued and represented by such registered global security or securities. This means that we will not issue certificates to each holder.

Unless and until it is exchanged in whole or in part for debt securities in definitive registered form, a registered global security may not be transferred except as a whole:

-

by the depositary for such registered global security to its nominee;

-

by a nominee of the depositary to the depositary or another nominee of the depositary; or

-

by the depositary or its nominee to a successor of the depositary or a nominee of the successor.

The prospectus supplement relating to a series of debt securities will describe the specific terms of the depositary arrangement involving any portion of the series represented by a registered global security. We anticipate that the following provisions will apply to all depositary arrangements for registered debt securities:

-

ownership of beneficial interests in a registered global security will be limited to persons that have accounts with the depositary for such registered global security, these persons being referred to as participants, or persons that may hold interests through participants;

-

Edgar Filing: CHINA SECURITY & SURVEILLANCE TECHNOLOGY, INC. - Form S-3/A

upon the issuance of a registered global security, the depositary for the registered global security will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal amounts of the debt securities represented by the registered global security beneficially owned by the participants;

-

any dealers, underwriters, or agents participating in the distribution of the debt securities represented by a registered global security will designate the accounts to be credited; and

-

ownership of beneficial interest in such registered global security will be shown on, and the transfer of such ownership interest will be effected only through, records maintained by the depositary for such registered global security for interests of participants, and on the records of participants for interests of persons holding through participants.

The laws of some states may require that specified purchasers of securities take physical delivery of the securities in definitive form. These laws may limit the ability of those persons to own, transfer or pledge beneficial interests in registered global securities.

So long as the depositary for a registered global security, or its nominee, is the registered owner of such registered global security, the depositary or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by the registered global security for all purposes under the indenture. Except as stated below, owners of beneficial interests in a registered global security:

-

will not be entitled to have the debt securities represented by a registered global security registered in their names;

-

will not receive or be entitled to receive physical delivery of the debt securities in the definitive form; and

-

will not be considered the owners or holders of the debt securities under the relevant indenture.

Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the depositary for the registered global security and, if the person is not a participant, on the procedures of a participant through which the person owns its interest, to exercise any rights of a holder under the indenture.

We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global security desires to give or take any action that a holder is entitled to give or take under the indenture, the depositary for the registered global security would authorize the participants holding the relevant beneficial interests to give or take the action, and the participants would authorize beneficial owners owning through the participants to give or take the action or would otherwise act upon the instructions of beneficial owners holding through them.

We will make payments of principal and premium, if any, and interest, if any, on debt securities represented by a registered global security registered in the name of a depositary or its nominee to the depositary or its nominee, as the case may be, as the registered owners of the registered global security. None of us, the trustee or any other agent of ours or the trustee will be responsible or liable for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the registered global security or for maintaining, supervising or reviewing any records relating to the beneficial ownership interests.

We expect that the depositary for any debt securities represented by a registered global security, upon receipt of any payments of principal and premium, if any, and interest, if any, in respect of the registered global security, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the registered global security as shown on the records of the depositary. We also expect that standing customer instructions and customary practices will govern payments by participants to owners of beneficial interests in the registered global security held through the participants, as is now the case with the securities held for the accounts of customers in bearer form or registered in street name. We also expect that any of these payments will be the responsibility of the participants.

If the depositary for any debt securities represented by a registered global security is at any time unwilling or unable to continue as depositary or stops being a clearing agency registered under the Exchange Act, we will appoint an eligible successor depositary. If we fail to appoint an eligible successor depositary within 90 days, we will issue the debt securities in definitive form in exchange for the registered global security. In addition, we may at any time and in our sole discretion decide not to have any of the debt securities of a series represented by one or more registered global securities. In that event, we will issue debt securities of the series in a definitive form in exchange for all of the registered global securities representing the debt securities. The trustee will register any debt securities issued in definitive form in exchange for a registered global security in the name or names as the depositary, based upon instructions from its participants, shall instruct the trustee.

We may also issue bearer debt securities of a series in the form of one or more global securities, referred to as bearer global securities. The prospectus supplement relating to a series of debt securities represented by a bearer global security will describe the applicable terms and procedures. These will include the specific terms of the depositary arrangement and any specific procedures for the issuance of debt securities in definitive form in exchange for a bearer global security, in proportion to the series represented by a bearer global security.

Discharge, Defeasance and Covenant Defeasance

We can discharge or decrease our obligations under the indenture as stated below.

We may discharge obligations to holders of any series of debt securities that have not already been delivered to the trustee for cancellation and that have either become due and payable or are by their terms to become due and payable, or are scheduled for redemption, within sixty (60) days. We may effect a discharge by irrevocably depositing with the trustee cash or U.S. government obligations, as trust funds, in an amount certified to be enough to pay when due, whether at maturity, upon redemption or otherwise, the principal of, premium and interest, if any, on the debt securities and any mandatory sinking fund payments.

Unless otherwise provided in the applicable prospectus supplement, we may also discharge any and all of our obligations to holders of any series of debt securities at any time, which we refer to as defeasance. We may also be released from the obligations imposed by any covenants of any outstanding series of debt securities and provisions of the indenture, and we may omit to comply with those covenants without creating an event of default under the trust declaration, which we refer to as covenant defeasance. We may effect defeasance and covenant defeasance only if, among other things:

-

we irrevocably deposit with the trustee cash or U.S. government obligations, as trust funds, in an amount certified to be enough to pay at maturity, or upon redemption, the principal, premium and interest, if any, on all outstanding debt securities of the series;

-

we deliver to the trustee an opinion of counsel from a nationally recognized law firm to the effect that the holders of the series of debt securities will not recognize income, gain or loss for U.S. federal income tax purposes as a result of the defeasance or covenant defeasance and that defeasance or covenant defeasance will not otherwise alter the holders' U.S. federal income tax treatment of principal, premium and interest, if any, payments on the series of debt securities; and

-

in the case of subordinated debt securities, no event or condition shall exist that, based on the subordination provisions applicable to the series, would prevent us from making payments of principal of, premium and interest, if any, on any of the applicable subordinated debt securities at the date of the irrevocable deposit referred to above or at any time during the period ending on the 91st day after the deposit date.

In the case of a defeasance by us, the opinion we deliver must be based on a ruling of the Internal Revenue Service issued, or a change in U.S. federal income tax law occurring, after the date of the indenture, since such a result would not occur under the U.S. federal income tax laws in effect on such date.

Although we may discharge or decrease our obligations under the indenture as described in the two preceding paragraphs, we may not avoid, among other things, our duty to register the transfer or exchange of any series of debt securities, to replace any temporary, mutilated, destroyed, lost or stolen series of debt securities or to maintain an office or agency in respect of any series of debt securities.

Modification of the Indenture

The indenture provides that we and the trustee may enter into supplemental indentures without the consent of the holders of debt securities to:

-

secure any debt securities and provide the terms and conditions for the release or substitution of the security;

-

evidence the assumption by a successor corporation of our obligations;

-

add covenants for the protection of the holders of debt securities;

-

add any additional events of default;

-

cure any ambiguity or correct any inconsistency or defect in the indenture;

-

add to, change or eliminate any of the provisions of the indenture in a manner that will become effective only when there is no outstanding debt security which is entitled to the benefit of the provision as to which the modification would apply;

-

establish the forms or terms of debt securities of any series;

-

eliminate any conflict between the terms of the indenture and the Trust Indenture Act of 1939;

-

evidence and provide for the acceptance of appointment by a successor trustee and add to or change any of the provisions of the indenture as is necessary for the administration of the trusts by more than one trustee; and

-

make any other provisions with respect to matters or questions arising under the indenture that will not be inconsistent with any provision of the indenture as long as the new provisions do not adversely affect the interests of the holders of any outstanding debt securities of any series created prior to the modification.

The indenture also provides that we and the trustee may, with the consent of the holders of not less than a majority in aggregate principal amount of debt securities of all series of senior debt securities or of Subordinated Securities of equal ranking, as the case may be, then outstanding and affected, voting as one class, add any provisions to, or change in any manner, eliminate or modify in any way the provisions of, the indenture or modify in any manner the rights of the holders of the debt securities. We and the trustee may not, however, without the consent of the holder of each outstanding debt security affected thereby:

- extend the final maturity of any debt security;
- reduce the principal amount or premium, if any;
- reduce the rate or extend the time of payment of interest;
- reduce any amount payable on redemption or impair or affect any right of redemption at the option of the holder of the debt security;
- change the currency in which the principal, premium or interest, if any, is payable;
- reduce the amount of the principal of any debt security issued with an original issue discount that is payable upon acceleration or provable in bankruptcy;
- alter provisions of the relevant indenture relating to the debt securities not denominated in U.S. dollars;
- impair the right to institute suit for the enforcement of any payment on any debt security when due;
- if applicable, adversely affect the right of a holder to convert or exchange a debt security; or
- reduce the percentage of holders of debt securities of any series whose consent is required for any modification of the indenture.

The indenture provides that the holders of not less than a majority in aggregate principal amount of the then outstanding debt securities of any and all affected series of equal ranking, by notice to the relevant trustee, may on behalf of the holders of the debt securities of any and all such series of equal ranking waive any default and its consequences under the indenture except:

-

a continuing default in the payment of interest on, premium, if any, or principal of, any such debt security held by a nonconsenting holder; or

-

a default in respect of a covenant or provision of the indenture that cannot be modified or amended without the consent of the holder of each outstanding debt security of each series affected.

Concerning the Trustee

The indenture provides that there may be more than one trustee under the indenture, each for one or more series of debt securities. If there are different trustees for different series of debt securities, each trustee will be a trustee of a trust under the indenture separate and apart from the trust administered by any other trustee under that indenture.

Except as otherwise indicated in this prospectus or any prospectus supplement, any action permitted to be taken by a trustee may be taken by such trustee only on the one or more series of debt securities for which it is the trustee under the indenture. Any trustee under the indenture may resign or be removed from one or more series of debt securities. All payments of principal of, premium and interest, if any, on, and all registration, transfer, exchange, authentication and delivery of, the debt securities of a series will be effected by the trustee for that series at an office designated by the trustee.

If the trustee becomes a creditor of ours, the indenture places limitations on the right of the trustee to obtain payment of claims or to realize on property received in respect of any such claim as security or otherwise. The trustee may engage in other transactions. If it acquires any conflicting interest relating to any duties concerning the debt securities, however, it must eliminate the conflict or resign as trustee.

The holders of a majority in aggregate principal amount of any and all affected series of debt securities of equal ranking then outstanding will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee concerning the applicable series of debt securities, provided that the direction:

-

would not conflict with any rule of law or with the relevant indenture;

-

would not be unduly prejudicial to the rights of another holder of the debt securities;

-

and would not involve any trustee in personal liability.

The indenture provides that in case an Event of Default shall occur, not be cured and be known to any trustee, the trustee must use the same degree of care as a prudent person would use in the conduct of his or her own affairs in the exercise of the trustee's power. The trustee will be under no obligation to exercise any of its rights or powers under the indenture at the request of any of the holders of the debt securities, unless they shall have offered to the trustee security and indemnity satisfactory to the trustee.

No Individual Liability of Incorporators, Stockholders, Officers or Directors

The indenture provides that no incorporator and no past, present or future stockholder, officer or director of ours or any successor corporation in their capacity as such shall have any individual liability for any of our obligations, covenants or agreements under the debt securities or the indenture.

Governing Law

The indenture and the debt securities will be governed by, and construed in accordance with, the laws of the State of New York.

DESCRIPTION OF UNITS

We may issue units comprised of one or more of the other securities described in this prospectus in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or at any time before a specified date.

The applicable prospectus supplement may describe:

-

the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;

-

any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units; and

-

any additional terms of the governing unit agreement.

The applicable prospectus supplement will describe the terms of any units. The preceding description and any description of units in the applicable prospectus supplement does not purport to be complete and is subject to and is qualified in its entirety by reference to the unit agreement and, if applicable, collateral arrangements and depositary arrangements relating to such units.

PLAN OF DISTRIBUTION

We may sell the securities offered by this prospectus in any one or more of the following ways from time to time:

- directly to investors, including through a specific bidding, auction or other process;
- to investors through agents;
- directly to agents;
- to or through brokers or dealers;
- to the public through underwriting syndicates led by one or more managing underwriters;
- to one or more underwriters acting alone for resale to investors or to the public; and
- through a combination of any such methods of sale.

We may also sell the securities offered by this prospectus in at the market offerings within the meaning of Rule 415(a)(4) of the Securities Act, to or through a market maker or into an existing trading market, on an exchange or otherwise;

The accompanying prospectus supplement will set forth the terms of the offering and the method of distribution and will identify any firms acting as underwriters, dealers or agents in connection with the offering, including:

-

the name or names of any underwriters, dealers or agents;

-

the purchase price of the securities and the proceeds to us from the sale;

-

any over-allotment options under which underwriters may purchase additional securities from us;

-

any underwriting discounts and other items constituting compensation to underwriters, dealers or agents;

-

any public offering price;

-

any discounts or concessions allowed or reallocated or paid to dealers; and

-

any securities exchange or market on which the securities offered in the prospectus supplement may be listed.

Only those underwriters identified in such prospectus supplement are deemed to be underwriters in connection with the securities offered in the prospectus supplement. Any underwritten offering may be on a best efforts or a firm commitment basis.

The distribution of the securities may be effected from time to time in one or more transactions at a fixed price or prices, which may be changed, at varying prices determined at the time of sale, or at prices determined as the applicable prospectus supplement specifies. The securities may be sold through a rights offering, forward contracts or similar arrangements. In any distribution of subscription rights to stockholders, if all of the underlying securities are not subscribed for, we may then sell the unsubscribed securities directly to third parties or may engage the services of one or more underwriters, dealers or agents, including standby underwriters, to sell the unsubscribed securities to third parties.

In connection with the sale of the securities, underwriters, dealers or agents may be deemed to have received compensation from us in the form of underwriting discounts or commissions and also may receive commissions from securities purchasers for whom they may act as agent. Underwriters may sell the securities to or through dealers, and the dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agent.

We will provide in the applicable prospectus supplement information regarding any underwriting discounts or other compensation that we pay to underwriters or agents in connection with the securities offering, and any discounts, concessions or commissions which underwriters allow to dealers. Underwriters, dealers and agents participating in the securities distribution may be deemed to be underwriters, and any discounts and commissions they receive and any profit they realize on the resale of the securities may be deemed to be underwriting discounts and commissions under the Securities Act of 1933. Underwriters and their controlling persons, dealers and agents may be entitled, under agreements entered into with us, to indemnification against and contribution toward specific civil liabilities, including liabilities under the Securities Act.

Unless otherwise specified in the related prospectus supplement, each series of securities will be a new issue with no established trading market, other than shares of common stock, which are listed on the NYSE and DIFX. Any common stock sold pursuant to a prospectus supplement will be listed on the NYSE, subject to official notice of issuance. We may elect to list any series of debt securities or preferred stock, on an exchange, but we are not obligated to do so. It is possible that one or more underwriters may make a market in the securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. No assurance can be given as to the liquidity of, or the trading market for, any offered securities.

In connection with an offering, the underwriters may purchase and sell securities in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of securities than they are required to purchase in an offering. Stabilizing transactions consist of bids or purchases made for the purpose of preventing or retarding a decline in the market price of the securities while an offering is in progress. The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriters have repurchased securities sold by or for the account of that underwriter in stabilizing or short-covering transactions. These activities by the underwriters may stabilize, maintain or otherwise affect the market price of the securities. As a result, the price of the securities may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time. Underwriters may engage in overallotment. If any underwriters create a short position in the securities in an offering in which they sell more securities than are set forth on the cover page of the applicable prospectus supplement, the underwriters may reduce that short position by purchasing the securities in the open market.

Underwriters, dealers or agents that participate in the offer of securities, or their affiliates or associates, may have engaged or engage in transactions with and perform services for, us or our affiliates in the ordinary course of business for which they may have received or receive customary fees and reimbursement of expenses.

LEGAL MATTERS

The validity of the securities offered by this prospectus will be passed upon for us by Pillsbury Winthrop Shaw Pittman LLP, Washington, D.C.

EXPERTS

The consolidated financial statements of the Company for the years ended December 31, 2007, 2006 and 2005 incorporated in this prospectus by reference have been audited by the accounting firm of GHP Horwath, P.C., independent registered public accounting firm, and are incorporated in reliance upon their report dated March 10, 2008, given upon such firm's authority as experts in auditing and accounting.

PART II

INFORMATION NOT REQUIRED IN THE PROSPECTUS

Item 14. Other Expenses of Issuance and Distribution.

The following is a statement of estimated expenses, to be paid solely by us, in connection with the issuance and distribution of the securities being registered hereby:

	Amount to be Paid*
SEC Registration Fee (1)	\$4,913
Printing Fees and Expenses	\$5,000
Legal Fees and Expenses	\$10,000
Accounting Fees and Expenses	\$10,000
Miscellaneous	\$2,000
Total	\$31,913

* All amount shown herein, except the SEC registration fee, are estimated and may vary based upon, among other things, the number of issuances and amount of securities offered. We will pay all of these expenses.

(1) Represents \$4,913 previously paid in connection with Registration Statement No. 333-155030.

Item 15. Indemnification of Directors and Officers.

Section 145(a) of the Delaware General Corporation Law provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation), because he or she is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding, if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

Section 145(b) of the Delaware General Corporation Law provides, in general, that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor because the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer,

employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if he or she acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification shall be made with respect to any claim, issue or matter as to which he or she shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or other adjudicating court determines that, despite the adjudication of liability but in view of all of the circumstances of the case, he or she is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or other adjudicating court shall deem proper.

Section 145(g) of the Delaware General Corporation Law provides, in general, that a corporation may purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of his or her status as such, whether or not the corporation would have the power to indemnify the person against such liability under Section 145 of the Delaware General Corporation Law.

Our bylaws provide for the indemnification to the fullest extent permitted by law any person made or threatened to be made a party to any action, suit, or proceeding, whether civil, criminal, administrative, or investigative, by reason of the fact that such person, or a person of whom he or she is the legal representative, is or was our director, officer, employee, or agent, or serves or served any other enterprise as a director, officer, employee, or agent at our request. This indemnification policy could result in substantial expenditure by us, which we may be unable to recoup.

Insofar as indemnification by us for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to provisions of the Articles of Incorporation and Bylaws, or otherwise, we have been advised that in the opinion of the SEC, such indemnification is against public policy and is, therefore, unenforceable. In the event that a claim for indemnification by such director, officer or controlling person of us in the successful defense of any action, suit or proceeding is asserted by such director, officer or controlling person in connection with the securities being offered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

At the present time, there is no pending litigation or proceeding involving a director, officer, employee or other agent of ours in which indemnification would be required or permitted. We are not aware of any threatened litigation or proceeding which may result in a claim for such indemnification.

Item 16. Exhibits.

The list of exhibits in the Exhibit Index to this prospectus is incorporated herein by reference.

Item 17. Undertakings.

The undersigned registrant hereby undertakes:

(1)

To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i)

to include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii)

to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the SEC pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii)

to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement,

provided, however, that subsections (i), (ii) and (iii) above do not apply if the information required to be included in a post-effective amendment by those subsections is contained in reports filed with or furnished to the SEC by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement, or is contained in a form of prospectus filed pursuant to Rule 424(b) that is part of the registration statement.

(2)

That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(3)

To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4)

That, for purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b) (1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(5)

That, for the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(6)

That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser:

(i)

each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii)

each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(7)

That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the

securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i)

Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii)

Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii)

The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv)

Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(8)

That, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered herein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

(9)

To file, if applicable, an application for the purpose of determining the eligibility of the trustee to act under subsection (a) of Section 310 of the Trust Indenture Act of 1939 in accordance with the rules and regulations prescribed by the SEC under Section 305(b)(2) of the Trust Indenture Act of 1939.

(10)

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements of filing on Form S-3 and has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Shenzhen, China on February 23, 2009.
