LETTER FROM THE CHAIRMAN

Dear Shareholder

On 26 February 2009, AngloGold Ashanti's wholly-owned subsidiary, AngloGold Ashanti Holdings plc, redeemed a US\$1 billion convertible bond issued in February 2004 using the proceeds of a term loan from Standard Chartered Bank which was put in place in November 2008 for that purpose. Given the extremely difficult financial market conditions prevailing at that time, the directors deemed it prudent to establish this bridging term loan as a means of ensuring the AngloGold Ashanti Group's ability to redeem the convertible bond on its maturity date while it sought medium to longer term solutions to its capital requirements.

At the annual general meeting of shareholders held on 15 May 2009, shareholders approved an ordinary resolution granting the directors the authority to issue convertible bonds, convertible into a maximum of 15,384,615 AngloGold Ashanti ADSs. On 22 May 2009, AngloGold Ashanti's wholly-owned subsidiary, AngloGold Ashanti Holdings Finance plc, issued convertible bonds and raised gross proceeds of \$732.5 million. These convertible bonds, which have a five year maturity and pay a coupon of 3.50 percent are convertible into AngloGold Ashanti ADSs at an initial conversion price of US\$47.6126 per AngloGold Ashanti ADS. These convertible bonds are guaranteed by AngloGold Ashanti.

The net proceeds from the issue of these convertible bonds will be used to refinance the AngloGold Ashanti Group's debt facilities and for general corporate purposes. The Company believes that the issue of these convertible bonds and the proceeds therefrom:

- will allow for a longer maturity profile for a substantial portion of AngloGold Ashanti's debt;
- has allowed AngloGold Ashanti Group to obtain funding at favourable interest rates that are lower than the interest rates under its existing debt facilities thereby reducing its financing costs when the proceeds are applied towards reducing the amounts drawn under the bridging term loan from Standard Chartered Bank;
- has allowed AngloGold Ashanti to access a different credit market, thereby reducing the extent of its reliance on the banking market; and
- will, together with the proceeds from the sale of its interest in AngloGold Ashanti's Boddington project, provide AngloGold Ashanti greater balance sheet flexibility to pursue its business strategy.

The approval of the ordinary resolution to be proposed at the general meeting will grant a specific authority to the directors of AngloGold Ashanti to allot and issue a maximum of 15,384,615 ordinary shares upon conversion of the convertible bonds. A 75% majority of the votes cast by shareholders present or represented by proxy at the general meeting is required for approval of the ordinary resolution to grant the specific authority.

I would therefore ask that you vote in favour of the ordinary resolution detailed in this circular.

Yours sincerely

Russell Edey

1.

PURPOSE OF THIS CIRCULAR

At the annual general meeting of AngloGold Ashanti held on 15 May 2009, shareholders, by a 97.05 percent majority, approved an ordinary resolution granting authority:

- to the directors to issue, upon such terms and conditions as the directors in their discretion may deem fit, such number of bonds which may be converted into a maximum, in aggregate, of 15,384,615 AngloGold Ashanti ordinary shares; and
- to procure the issue by a wholly-owned subsidiary of AngloGold Ashanti, upon such terms and conditions as the directors in their discretion may deem fit, such number of bonds, guaranteed by AngloGold Ashanti and which may be converted into a maximum, in the aggregate, of 15,384,615 AngloGold Ashanti ordinary shares.

Pursuant to this authority, AngloGold Ashanti Holdings Finance plc issued the convertible bonds on 22 May 2009. The convertible bonds were listed on the SGX with effect from 09:00 (Singapore time) on Monday, 25 May 2009. The salient features of the convertible bonds are set out in paragraph 3.

The purpose of this circular and the notice of general meeting which forms part of this circular is to furnish information to shareholders, and to convene a general meeting at which shareholders will be asked to grant a specific authority and approval for the directors to allot and issue a maximum of 15,384,615 AngloGold Ashanti ordinary shares underlying the AngloGold Ashanti ADS issuable upon conversion of the convertible bonds. In terms of the Listings Requirements the ordinary resolution granting such authority and approval must be passed by a majority of 75 percent of shareholders present or represented and entitled to vote at the general meeting.

The specific authority will enable AngloGold Ashanti to allot and issue AngloGold Ashanti ordinary shares underlying the AngloGold Ashanti ADSs issuable upon any exercise of conversion rights attached to the convertible bonds.

2.

USE OF PROCEEDS AND RATIONALE FOR THE ISSUE OF THE CONVERTIBLE BONDS

2.1

Use of proceeds

The net proceeds of the offering of the convertible bonds is to be used by the AngloGold Ashanti Group to refinance its debt facilities and for general corporate purposes.

- will allow for a longer maturity profile for a substantial portion of AngloGold Ashanti's debt;
- has allowed AngloGold Ashanti Group to obtain funding at favourable interest rates that are lower than the interest rates under its existing debt facilities thereby reducing its cash financing costs when the proceeds are applied towards reducing the amounts drawn under the bridging term loan from Standard Chartered Bank. ;

DESCRIPTION OF BUSINESS

AngloGold Ashanti is a global gold company with a diversified portfolio of assets in many key gold producing regions. As at 31 December 2008, AngloGold Ashanti had gold reserves of 74.9 million ounces. For the year ended 31 December 2008, AngloGold Ashanti had consolidated gold revenues of US\$3,619 million (which excludes revenues from by-products and interest earned), gold production of 4.98 million ounces and total cash costs of US\$444 per ounce.

AngloGold Ashanti (formerly “AngloGold Limited”) was formed following the consolidation of the gold interests of Anglo American plc into a single company in 1998. At that time, its production and reserves were primarily located in South Africa (97 percent of 1997 production and 99 percent of reserves as at 31 December 1997) and one of its objectives was to achieve greater geographic and ore body diversity. Through a combination of mergers, acquisitions, disposal initiatives and organic growth, and through the operations in which AngloGold Ashanti has an interest, AngloGold Ashanti has developed a high quality, well diversified asset portfolio, including:

- production from 21 operations in ten countries: Argentina, Australia, Brazil, Ghana, Guinea, Mali, Namibia, South Africa, Tanzania and the United States of America;
- production and reserves for the year ended 31 December 2008 of 58 percent and 55 percent, respectively, from operations outside South Africa; and
- production from a broad variety of ore body types as well as a variety of open-pit (42 percent), underground (55 percent) and surface and dump reclamation (3 percent) operations.

AngloGold Ashanti was incorporated in South Africa in 1944 under the name of Vaal Reefs Exploration and Mining Company Limited and in South Africa it is subject to the Companies Act. Paragraph 2 of AngloGold Ashanti’s memorandum of association provides that its main business is to carry on gold exploration, the mining and production of gold, the manufacturing, marketing and selling of gold products and the development of markets for gold. On 26 April 2004, AngloGold Ashanti acquired the entire issued share capital of Ashanti Limited of Ghana and changed its name to AngloGold Ashanti Limited.

As detailed in the report to shareholders for the quarter ended 31 March 2009, the company remains on track to meet its production guidance for the year of between 4.9Moz to 5.0Moz. The annual total cash cost guidance was \$435/oz to \$450/oz and this was based on R9.75/\$, A\$/0.68, BRL2.25/\$ and Argentinean peso 3.65/\$. However, with the strengthening of local currencies and in particular the South African rand, total cash costs are likely to be in the range of \$450/oz to \$460/oz at R9.25/\$ and \$460/oz to \$475/oz at R8.50/\$. Capital expenditure excluding Boddington remains forecast at \$840m in 2009 and management expects to achieve a discount of 6% to the average spot gold price for the year.

On 11 December 2006, shareholders in general meeting authorised the creation of E ordinary shares to be issued pursuant

to an Employee Share Ownership Plan and a Black Economic Empowerment transaction. All the authorised E-ordinary shares

were issued. On vesting, E ordinary shares are cancelled in exchange for ordinary shares, in accordance with the cancellation formula. All E ordinary shares cancelled may not be re-issued and therefore, do not form part of the authorised

but unissued share capital of the Company. The table above reflects the total number of E ordinary shares in issue. The share premium account at 22 June 2009 was R37,721,766,989.

All of the issued AngloGold Ashanti ordinary shares, E ordinary shares, A redeemable preference shares and B redeemable preference shares are fully paid and are not subject to further calls or assessment by AngloGold Ashanti.

All of the A redeemable preference shares and B redeemable preference shares are held by Eastvaal Gold Holdings Limited, AngloGold Ashanti's wholly-owned subsidiary. AngloGold Ashanti's articles of association provide that the A redeemable preference shares and B redeemable preference shares are not transferable.

AngloGold Ashanti has not purchased any of its shares, and currently has no authority to purchase such shares.

The share price history of the AngloGold Ashanti ordinary shares on the JSE is summarised in Annexure B.

UNAUDITED
PRO FORMA FINANCIAL INFORMATION RELATING TO ANGLOGOLD ASHANTI

The unaudited pro forma financial information of AngloGold Ashanti was prepared in order to illustrate the effects of the issue and conversion of the convertible bonds, assuming that the issue and conversion of the convertible bonds took place on 1 January 2008 for purposes of the income statement and on 31 December 2008 for purposes of the balance sheet. The conversion of the convertible bonds is at the discretion of the bondholders and there can be no assurance that any of the convertible bonds will be converted. The information has been prepared for illustrative purposes only and may not, because of its nature, give a true picture of the financial position of AngloGold Ashanti. It does not purport to be indicative of what the financial results would have been if the conversion of the convertible bonds had actually occurred at an earlier date. The pro forma financial information is the responsibility of the directors.

The unaudited pro forma financial information of AngloGold Ashanti should be read in conjunction with the Notes thereto and the report of Ernst & Young Inc. which is annexed as Annexure A.

12

The unaudited pro-forma information as presented below does not include the effect of the Standard Chartered Bank term facility negotiated by the company during November 2008 to replace the 2.375 percent guaranteed convertible bond that matured in February 2009. The interest saving that will arise if the US\$717.5 million net proceeds from the issue of the convertible bonds are applied to part settle the Standard Chartered Bank term facility will result in an effective interest rate reduction of 4.5 percent per annum, being the difference between the effective interest rates of the Standard Chartered Bank term facility and the convertible bonds. This interest saving was not taken into account in the pro-forma information presented below, as the facility was not yet drawn at 31 December 2008.

Notes:

(1) Net asset value per share is computed by dividing total equity by the number of shares in issue. Net tangible asset value per

share is computed by dividing total equity (excluding intangible assets) by the number of shares in issue.

(2) Basic loss per share is computed by dividing the loss attributable to equity shareholders from continuing operations by the

weighted average number of shares in issue.

(3) The diluted loss per share is computed by dividing the loss attributable to equity shareholders from continuing operations by

the weighted average diluted number of shares in issue. The effect of the diluted loss per share is anti-dilutive and therefore

the diluted loss per share is the same as the basic loss per share.

(4) Headline loss excludes separately identifiable re-measurements of the carrying amounts of assets and liabilities after initial

recognition from the calculation of loss per share. Headline loss per share is computed by dividing headline loss by the

weighted average number of shares in issue.

(5) The weighted average number of AngloGold Ashanti ordinary shares in issue was 312,610,124 ordinary, 4,046,364 E ordinary

and 547,460 fully vested options for the year ended 31 December 2008.

(6) The number of AngloGold Ashanti shares in issue as at 31 December 2008 was 353,483,410 ordinary and 3,966,941

E ordinary shares.

(7) Net debt includes both long-term and short-term debt and is net of cash and cash equivalents, restricted cash, unamortised portion of the convertible bond and corporate office lease. Net capital employed is calculated as shareholders' equity adjusted for other comprehensive income and deferred taxation, plus minority interests, interest bearing debt, less cash and cash equivalents.

**INDEPENDENT REPORTING ACCOUNTANTS' REPORT ON THE UNAUDITED
PRO FORMA FINANCIAL
INFORMATION OF ANGLOGOLD ASHANTI LIMITED
INTRODUCTION**

The directors of AngloGold Ashanti Limited ('AngloGold Ashanti') are seeking the granting to and approval of a specific authority for AngloGold Ashanti directors to allot and issue up to a maximum of 15,384,615 ordinary shares of R0.25 each in the share capital of AngloGold Ashanti underlying the AngloGold Ashanti ADSs issuable upon the conversion of the US\$732,500,000 3.50 percent Convertible Bonds due 22 May, 2014 issued by AngloGold Ashanti Holdings Finance plc, a wholly-owned subsidiary of AngloGold Ashanti.

The transaction is called 'the convertible bonds transaction'.

REPORT ON THE UNAUDITED PRO FORMA FINANCIAL INFORMATION

We have performed our limited assurance engagement in respect of the unaudited pro forma financial effects and the unaudited pro forma consolidated balance sheet and income statement as set out in paragraph 6 of the circular to shareholders, to be dated on or about 29 June 2009 (collectively, "the pro forma financial information") issued in connection with the convertible bonds transaction that is the subject of the circular of AngloGold Ashanti.

The pro forma financial information has been prepared in accordance with the requirements of the Listings Requirements of the JSE Limited ("JSE"), for illustrative purposes only, to provide information about how the convertible bonds transaction might have affected the reported historical financial information presented, had the corporate action been undertaken at the commencement of the period or at the date of the pro forma balance sheet being reported on.

DIRECTORS' RESPONSIBILITY

The directors of AngloGold Ashanti are responsible for the compilation, contents and presentation of the pro forma financial information contained in the circular and for the financial information from which it has been prepared. Their responsibility includes determining that: the pro forma financial information has been properly compiled on the basis stated; the basis is consistent with the accounting policies of AngloGold Ashanti; and the pro forma adjustments are appropriate for the purposes of the pro forma financial information disclosed in terms of the JSE Listings Requirements.

REPORTING ACCOUNTANTS' RESPONSIBILITY

Our responsibility is to express our limited assurance conclusion on the pro forma financial information included in the circular to AngloGold Ashanti shareholders. We conducted our assurance engagement in accordance with the International Standard on Assurance Engagements applicable to Assurance Engagements Other Than Audits or Reviews of Historical Financial Information and the Guide on Pro forma Financial Information issued by SAICA. This standard requires us to obtain sufficient appropriate evidence on which to base our conclusion. We do not accept any responsibility for any reports previously given by us on any financial information used in the compilation of the pro forma financial information, beyond that owed to those to whom those reports were addressed by us at the dates of their issue.

SOURCES OF INFORMATION AND WORK PERFORMED

Our procedures consisted primarily of comparing the unadjusted financial information with the source documents, considering the pro forma adjustments in light of the accounting policies of AngloGold Ashanti the issuer, considering the evidence supporting the pro forma adjustments and discussing the adjusted pro forma financial information with the directors of the company in respect of the corporate action that is the subject of this circular. In arriving at our conclusion, we have relied upon financial information prepared by the directors of AngloGold Ashanti and other information from various public, financial and industry sources. While our work performed has involved an analysis of the historical published audited financial information and other information provided to us, our assurance engagement does not constitute an audit or review of any of the underlying financial information conducted in accordance with International Standards on Auditing or International Standards on Review Engagements and accordingly, we do not express an audit or review opinion.

In a limited assurance engagement, the evidence-gathering procedures are more limited than for a reasonable assurance engagement and therefore less assurance is obtained than in a reasonable assurance engagement. We believe our evidence obtained is sufficient and appropriate to provide a basis for our conclusion.

CONCLUSION

Based on our examination of the evidence obtained, nothing has come to our attention, which causes us to believe that:

- the pro forma financial information has not been properly compiled on the basis stated;
- such basis is inconsistent with the accounting policies of the issuer;
- the adjustments are not appropriate for the purposes of the

pro forma financial information as disclosed
in terms of the Sections 8.17 and 8.30 JSE Listings Requirements.

ANGLOGOLD ASHANTI LIMITED

(Incorporated in the Republic of South Africa)

(Registration number 1944/017354/06)

ISIN: ZAE000043485

JSE share code: ANG

(“AngloGold Ashanti” or the “Company”)

NOTICE OF GENERAL MEETING

Notice is hereby given that a general meeting of shareholders of AngloGold Ashanti will be held at 10:00 (South African time) on Thursday, 30 July 2009, in The Auditorium, 76 Jeppe Street, Newtown, Johannesburg, South Africa, for the purpose of considering and, if deemed fit, passing, with or without modification, the following ordinary resolution:

ORDINARY RESOLUTION

“Resolved as an ordinary resolution that, subject to the provisions of the Companies Act, 1973, as amended, and the Listings Requirements of the JSE Limited from time to time, 15,384,615 ordinary shares of R0.25 each in the authorised but unissued share capital of the Company are placed under the control of the directors of the Company, as a specific authority and approval, to allot and issue up to a maximum of 15,384,615 ordinary shares of R0.25 each in the authorised but unissued share capital of the Company, for the purpose of the conversion of the US\$732,500,000 3.50 percent Convertible Bonds due 2014, issued by AngloGold Ashanti Holdings Finance plc, a wholly-owned subsidiary of the Company, and irrevocably guaranteed by the Company.”

REASON FOR THE ORDINARY RESOLUTION

The reason for proposing the above ordinary resolution is to seek a specific authority and approval for the directors of the Company to allot and issue up to 15,384,615 ordinary shares of R0.25 each in the authorised but unissued share capital of the Company at an initial conversion price of US\$47.6126 per AngloGold Ashanti ADS, subject to adjustment, for purposes of the conversion of the US\$732,500,000 3.5 percent convertible bonds issued by AngloGold Ashanti Holdings Finance plc into AngloGold Ashanti American Depositary Shares issuable upon exercise of conversion rights attached to the Convertible Bonds.

VOTING AND PROXIES

In terms of the Listings Requirements of the JSE Limited, the issue of the AngloGold Ashanti ordinary shares in terms of the specific authority and approval granted in terms of the ordinary resolution will constitute an issue of shares for cash and accordingly the ordinary resolution is, in terms of such Listings Requirements, required to be passed by a majority of 75 percent of votes exercisable by shareholders present or represented at the general meeting.

A shareholder entitled to attend and vote at the general meeting may appoint one or more proxies to attend, speak and, on a poll, vote in his/her stead. A proxy need not be a shareholder of the Company.

Certificated shareholders and dematerialised “own name” shareholders (whose name appears on the sub-register maintained by their CSDP or broker), who are unable to attend the general meeting and wish to be represented thereat, must complete and return the attached form of proxy in accordance with the instructions contained therein, so as to reach the Company’s share registrars in South Africa, the United

24

Kingdom, Australia or Ghana by no later than 10:00 (South African time) on Tuesday, 28 July 2009. The addresses of the share registrars are on the cover of the circular of which this notice forms part.

Duly completed AngloGold Ashanti CDI voting instruction forms must be received by the share registrars in Perth, Australia, by 10:00 (Perth time) on Monday, 27 July 2009.

In accordance with the AngloGold Ashanti Ghanaian Depository Shares (“GhDSs”) Agreement dated 26 April 2004, the Depository will mail all appropriate notice, together with a voting instruction form, to holders of GhDSs. Holders of GhDSs may direct the Depository via the voting instruction form to vote on their behalf in the manner such holders may direct.

Dematerialised shareholders (other than dematerialised “own name” shareholders) must advise their CSDP or broker of their voting instructions should they wish to be represented at the general meeting. If, however, such shareholders wish to attend the general meeting in person, they will need to request their CSDP or broker to provide them with the necessary Letter of Representation in terms of the custody agreement entered into between the dematerialised shareholder and the CSDP or broker.

Shareholders may also use the electronic online proxy voting facility for purposes of instructing their CSDP or broker as to how they wish to vote. In order for shareholders to use their online proxy voting facility, which is free of charge, it is necessary to register for the service via the website <http://www.investorportal.co.za> (click on the AngloGold Ashanti icon). Registration is free of charge. A demonstration of the electronic online proxy voting process may be viewed on <http://www.investorportal.co.za>
