Annual Report

Global High Income Fund Inc.

Annual Report

October 31, 2013

Global High Income Fund Inc.:
Managed distribution policy key points to note

- The Fund has a managed distribution policy. Effective June 2012, the Fund makes regular monthly distributions at an annualized rate equal to 7% of the Fund's net asset value, as determined as of the last trading day during the first week of a month (usually a Friday, unless the NYSE is closed that day). (From August 2009 through the monthly distribution for May 2012, the annualized rate had been 8% (which, consistent with the policy, in any given month may have been comprised of a combination of net investment income, short- and/or long-term capital gains, and/or a return of capital)).
 - To the extent that the Fund's taxable income in any fiscal year exceeds the aggregate amount distributed based on a fixed percentage of its net asset value, the Fund would make an additional distribution in the amount of that excess near the end of the fiscal year. To the extent that the aggregate amount distributed by the Fund (based on a percentage of its net assets) exceeds its current and accumulated earnings and profits, the amount of that excess would constitute a return of capital or net realized capital gains for tax purposes. A return of capital may occur, for example, when some or all of the money that shareholders invested in the Fund is deemed to be paid back to shareholders. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with yield or income.
 - You should not draw any conclusions about the Fund's investment performance from the amount of the monthly distribution or from the terms of the Fund's managed distribution policy.
 - The Fund periodically issues notices and press releases estimating the source characteristics of its monthly distributions. The estimated amounts and sources reported in these materials are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for accounting and tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV (or your financial intermediary should provide you with similar information) for the calendar year that will tell you how to report these distributions for federal income tax purposes.
 - The Fund's Board may change or terminate the managed distribution policy at any time without prior notice to Fund shareholders; any such change or termination may have an adverse effect on the market price for the Fund's shares.
 - Further information regarding the Fund's managed distribution policy is contained in the section captioned "Distribution policy" towards the end of this report.
-

Global High Income Fund Inc.

December 13, 2013

Dear Shareholder,

We present you with the annual report for Global High Income Fund (the Fund) for the 12 months ended October 31, 2013.

Portfolio performance

For the 12 months ended October 31, 2013, the Fund declined 4.81% on a net asset value basis and declined 11.11% on a market price basis. In comparison, the Fund's benchmark, the Global High Income Fund Index (the Index), declined 2.07%. Over the same period, the Fund's Lipper Emerging Markets Hard Currency Debt Funds peer group median declined 3.63% on a net asset value basis and declined 9.54% on a market price basis. (For more performance information, including a description of the Index, please refer to Performance at a glance on page 5.)

The Fund did not use structural leverage during the reporting period. This means, the Fund did not have preferred stock outstanding or borrow from banks for investment purposes, as some of its peers may have done. Leverage magnifies returns on both the upside and on the downside and creates a wider range of returns within the Fund's peer group.

The Fund generally traded at a discount to its net asset value (NAV), although the discount widened further during the second half of the reporting period. On the last trading day of the preceding fiscal year, which ended October 31, 2012, the Fund traded at a discount of 5.3%. At the close of the current fiscal period, October 31, 2013, the Fund traded at a discount of 12.1%. As of the same dates, the Lipper peer group reported median discounts of 5.1% and 10.9%, respectively.

Global High Income Fund Inc.

Investment goals:

Primarily, high level of current income; secondarily, capital appreciation

Portfolio management:

Distribution payments:

Monthly

A fund trades at a premium when the market price at which its shares trade is more than its NAV per share. Alternatively, a fund trades at a discount when the market price at which its shares trade is less than its NAV per share. The market price is the price the market is willing to pay for shares of a fund at a given time, and may be influenced by a range of factors, including supply and demand and market conditions. NAV per share is determined by dividing the value of the Fund's securities, cash and other assets,

less all liabilities, by the total number of common shares outstanding.

Market commentary

Despite a strong finish, the emerging markets debt asset class generated weak results during the reporting period as a whole. The asset class rallied during the first two months of the 12-month period, driven by improving economic conditions in the US and signs that China's economy was stabilizing. Investor sentiment was also lifted by further monetary policy accommodation by the Federal Reserve Board (the Fed) and European Central Bank (ECB). The asset class then declined during the next three months as global growth moderated, US Treasury yields increased and commodity prices declined. A strong rally in April helped the asset class post a modest gain for the first half of the reporting period.

However, April's rally proved to be only a temporary respite, as the asset class sharply fell during three of the next four months, largely driven by indications from the Fed that it may begin tapering its asset purchase program sooner than previously expected. This caused Treasury yields to surge higher and many risk assets, including emerging markets debt and local emerging market currencies, to sizably underperform. Disappointing economic data from China and falling commodity prices further exacerbated weakening investor sentiment.

Global High Income Fund Inc.

At the end of the reporting period, particularly from mid-September through October, the asset class recovered some of its losses, as the Fed surprised the market by delaying its asset purchase tapering. This resulted in the decline of US Treasury yields and bolstered the demand for risk assets, including emerging markets debt and currencies.

During the 12 months ended October 31, 2013, US dollar-denominated emerging markets debt, as measured by the JP Morgan Emerging Markets Bond Index Global (EMBI Global), declined 2.58%. Local market investments (in other words, emerging markets debt denominated in the currency of the issuer) fell 1.60%, as measured by the JP Morgan Government Bond Index-Emerging Markets Global Diversified (GBI-EM Global Diversified).

Portfolio commentary

What worked

- **An overweight to Argentine US dollar-denominated debt was beneficial for performance.** After generating weak results during the first half of the reporting period, our overweight to Argentina was rewarded, as the period progressed. In particular, our decision to emphasize short duration Argentinean debt that was not tied to the longstanding dispute between holdouts from the country's 2001 sovereign default aided the Fund's performance.
- **The Fund's positioning in Indonesia, particularly our underweight to Indonesian local debt was additive for results.**
- **Active management of the Fund's exposure in local Turkish debt enhanced results.** We tactically adjusted the Fund's exposure during the reporting period, particularly eliminating our underweight position to Turkish local debt mid-summer on market weakness, followed by taking profits and closing out the overweight in October.
- **Although, overall, the US dollar-denominated emerging markets debt asset class declined during the reporting period, the Fund's overweight exposure to US dollar-denominated debt of Montenegro and Albania was beneficial for results.** As the spreads in those markets narrowed during the reporting period, and neither country is included in the GBI-EM Global Diversified, our positions modestly contributed to returns.

What didn't work

- **Overweights to certain local bonds were negative for performance.**

The largest detractor from the Fund's performance was an overweight to longer duration local Brazilian inflation-linked bonds. As yields of these bonds substantially increased, and the bonds don't mature until 2045, their prices went down significantly.

The Fund's overweights to Thai and Indian local debt were detrimental given their poor performance.

- **An overweight to Mongolia was not rewarded.** Demand was weak as coal prices, a key commodity in the country, declined in the summer of 2013.
- **The Fund's overweight to Sri Lanka hurt performance.** While fundamentals in the country were relatively stable, debt sold off during the second half of the reporting period given weak demand and poor liquidity.
- **Our overweight to local currencies detracted from performance.** Local currencies, as a whole, depreciated versus the

Edgar Filing: GLOBAL HIGH INCOME FUND INC - Form N-CSR

US dollar during the reporting period. Among the Fund's weakest performers were its overweights to the Indian rupee and South African rand.

2

Global High Income Fund Inc.

Portfolio adjustments

- **Several adjustments were made to the portfolio during the reporting period.**

The Fund's allocation to local currencies was reduced during the summer, although we remained overweight versus the Index.

We tactically adjusted the Fund's allocation to US dollar-denominated debt toward the end of August and early September by increasing our exposure in a number of countries, including Turkey, Indonesia and India, that had been hit hard during the sell-off earlier in the summer. This was beneficial, as their spreads¹ subsequently narrowed during the rally in September and October. We then took gains and reduced some of those positions late in September and October.

Use of derivatives

- **The Fund continued to utilize a number of instruments to manage its overall currency exposure.** Currency forwards and currency options were among the most commonly utilized derivative instruments. (A currency forward is an agreement between two parties to exchange a certain amount in currencies at a certain rate at a future date.) During the reporting period, the Fund's overall currency management strategy detracted from results.
- **The Fund used various types of credit-related instruments to manage its credit risk across emerging markets.** Credit default swaps (a type of credit derivative), credit linked notes (notes structured to provide exposure to an underlying bond or asset) and, to a lesser extent, total return swaps were utilized to adjust the Fund's exposure to the debt of certain emerging markets countries. Whereas credit default swaps were generally used to adjust the Fund's US dollar-denominated debt exposure, the other instruments were employed almost exclusively to gain access to various local markets. The overall management of US dollar-denominated assets, including derivatives, modestly contributed to performance while local market exposure generally detracted from results.
- **The Fund engaged in interest rate related derivative instruments, including but not limited to, futures and swaps.** Credit linked notes also played a role in adjusting the Fund's exposure to local yields. Overall, duration and yield curve management provided mixed results during the reporting period.

Outlook

We have a neutral near-term outlook for the emerging markets asset class. Current account deficits in some developing countries, such as India, Turkey and Indonesia, have risen in recent months and pressured their currencies. This pressure could lead to slightly higher inflation in those countries, as well as in South Africa and Brazil, given their weaker currencies. Finally, uncertainties regarding the timing and magnitude of the Fed's tapering could result in periods of heightened volatility.

However, we maintain our positive long-term outlook for the emerging markets asset class. While economic expansions of emerging market countries have decelerated somewhat, growth in developing countries should remain higher than in their developed country counterparts. In addition, emerging markets debt-to-gross domestic product ratios and fiscal budgets are relatively more attractive. We also believe that supply/demand technicals should be supportive and lead to spread tightening over time.

¹ Spread is the difference between the yields paid on a government bond (such as US Treasuries) and a security of a different quality, but with the same or similar maturity. When spreads widen, it implies the market is factoring in greater risk of default for the lower rated security; conversely, when spreads tighten, the market is factoring in less risk. Such movements in spreads generally result in changes in market prices for such securities.

This letter is intended to assist shareholders in understanding how the Fund performed during the 12 months ended October 31, 2013. The views and opinions in the letter were current as of December 13, 2013. They are not guarantees of future performance or investment results and should not be taken as investment advice. Investment decisions reflect a variety of factors, and we reserve the right to change our views about individual securities, sectors and markets at any time. As a result, the views expressed should not be relied upon as a forecast of the Fund's future investment intent. We encourage you to consult your financial advisor regarding your personal investment program.

Investing in the Fund entails specific risks, such as interest rate, credit and the risks associated with investing in the securities of non-US issuers, including those located in emerging market countries. The value of the Fund's investments in foreign securities may fall due to adverse political, social and economic developments abroad and due to decreases in foreign currency values relative to the US dollar. Further detailed information regarding the Fund, including a discussion of principal objectives, principal investment strategies and principal risks, may be found in the fund overview located at <http://www.ubs.com/closedendfundsinfo>. You may also request copies of the fund overview by calling the Closed-End Funds Desk at 888-793 8637.

Past performance does not predict future performance. The return and value of an investment will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. The Fund's net asset value (NAV) returns assume, for illustration only, that dividends and other distributions, if any, were reinvested at the NAV on the payable dates. The Fund's market price returns assume that all dividends and other distributions, if any, were reinvested at prices obtained under the Fund's Dividend Reinvestment Plan. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and other distributions, if any, or on the sale of Fund shares.

¹ The Global High Income Fund Index is an unmanaged index compiled by UBS Global Asset Management (Americas) Inc. constructed as follows: from the Fund's inception until 12/31/93: 100% J.P. Morgan Emerging Markets Bond Index (EMBI); from 01/01/94 to 11/05/06: 100% J.P. Morgan Emerging Markets Bond Index Global (EMBI Global); from 11/06/06 to 03/31/08: 70% J.P. Morgan Emerging Markets Bond Index Global (EMBI Global) and 30% J.P. Morgan Government Bond Index-Emerging Markets Diversified (GBI-EM Diversified); from 04/01/08 to 05/31/08: 50% J.P. Morgan Emerging Markets Bond Index Global (EMBI Global) and 50% J.P. Morgan Government Bond Index-Emerging Markets Diversified (GBI-EM Diversified); from 06/01/08 to present: 50% J.P. Morgan Emerging Markets Bond Index Global (EMBI Global) and 50% J.P. Morgan Government Bond Index-Emerging Markets Global Diversified (GBI-EM Global Diversified). Investors should note that indices do not reflect the deduction of fees and expenses.

² The J.P. Morgan Emerging Markets Bond Index Global (EMBI Global) is an unmanaged index which is designed to track total returns for US dollar-denominated debt instruments issued by emerging market sovereign and quasi-sovereign entities: Brady bonds, loans and Eurobonds. Investors should note that indices do not reflect the deduction of fees and expenses.

Lipper peer group data calculated by Lipper Inc.; used with permission. The Lipper median is the return of the fund that places in the middle of the peer group. Lipper classifies the Fund in its Emerging Markets Hard Currency Debt Funds category, which includes both leveraged and non-leveraged closed-end funds that seek either current income or total return by investing primarily in emerging market debt securities.

Any Fund performance information reflects the deduction of the Fund's fees and expenses, as indicated in shareholder reports, such as investment advisory and administration fees, custody fees, exchange listing fees, etc. It does not reflect any transaction charges that a shareholder may incur when (s)he buys or sells shares (e.g., a shareholder's brokerage commissions).

Investing in the Fund entails specific risks, such as interest rate risk and the risks associated with investing in the securities of issuers in emerging market countries. The value of the Fund's investments in foreign securities may fall due to adverse political, social and economic developments abroad and due to decreases in foreign currency values relative to the US dollar. Investments in emerging market issuers may decline in value because of unfavorable government actions, greater risks of political instability or the absence of accurate information about emerging market issuers. Further detailed information regarding the Fund, including a discussion of principal objectives, principal investment strategies and principal risks, may be found in the fund overview located at <http://www.ubs.com/closedendfundsinfo>. You may also request copies of the fund overview by calling the Closed-End Funds Desk at 888-793 8637.

¹ Prices and other characteristics will vary over time.

² Duration is a measure of price sensitivity of a fixed income investment or portfolio (expressed as % change in price) to a 1 percentage point (i.e., 100 basis points) change in interest rates, accounting for optionality in bonds such as prepayment risk and call/put features.

³ Exposure represents a percentage of market value as of the dates indicated.

⁴ Weightings represent percentage of net assets as of the dates indicated. The Fund's portfolio is actively managed, and its composition will vary over time.

⁵ Weightings represent percentages of net assets as of the dates indicated. The Fund's portfolio is actively managed and its composition will vary over time. Credit quality ratings shown are based on those assigned by Standard & Poor's Financial Services LLC, a part of McGraw-Hill Financial (S&P), to individual portfolio holdings. S&P is an independent ratings agency. Ratings reflected represent S&P individual debt issue credit ratings. While S&P may provide a credit rating for a bond issuer (e.g., a specific company or country); certain issues, such as some sovereign debt, may not be covered or rated and therefore are reflected as non-rated for the purposes of this table. Credit ratings range from AAA, being the highest, to D, being the lowest, based on S&P's measures; ratings of BBB or higher are considered to be investment grade quality. Unrated securities do not necessarily indicate low quality. Further information regarding S&P's rating methodology may be found on its website at www.standardandpoors.com. Please note that references to credit quality made in the commentary above reflect ratings based on multiple providers (not just S&P) and thus may not align with the data represented in this table.

Transfers out of Level 3	
Ending balance	\$

Global High Income Fund Inc.

Portfolio of investments October 31, 2013

Portfolio footnotes

* Non-income producing security.

¹ Security exempt from registration pursuant to Regulation S under the Securities Act of 1933. Regulation S applies to securities offerings that are made outside of the United States and do not involve direct selling efforts in the United States. At October 31, 2013, the value of these securities amounted to \$54,312,333 or 21.08% of net assets.

² Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. These securities are considered liquid, unless noted otherwise, and may be resold in transactions exempt from registration, normally to qualified institutional buyers. At October 31, 2013, the value of these securities amounted to \$42,957,029 or 16.67% of net assets.

³ Variable or floating rate security The interest rate shown is the current rate as of October 31, 2013 and changes periodically.

⁴ Security is illiquid. At October 31, 2013, the value of this security and other illiquid derivative instruments amounted to \$2,916,606 or 1.13% of net assets.

⁵ Security pays, when required, a floating rate that is determined annually based on the Argentina GDP.

⁶ Debt security whose principal and/or interest payments are adjusted for inflation, unlike debt securities that make fixed principal and interest payments. The interest rate paid by the securities is fixed, while the principal value rises or falls based on changes in an index. Thus, if inflation occurs, the principal and interest payments on the securities are adjusted accordingly to protect investors from inflationary loss. During a deflationary period, the principal and interest payments decrease, although the securities' principal amounts will not drop below their face amounts at maturity. In exchange for the inflation protection, the securities generally pay lower interest rates than typical government securities from the issuer's country. Only if inflation occurs will securities offer a higher real yield than a conventional security of the same maturity.

⁷ Rate shown reflects annualized yield at October 31, 2013 on zero coupon bond.

⁸ Step bond Coupon rate increases in increments to maturity. Rate disclosed is as of October 31, 2013. Maturity date disclosed is the ultimate maturity date.

⁹ The table below details the Fund's investments in a fund advised by the same advisor as the Fund. The advisor does not earn a management fee from the affiliated UBS Relationship Fund.

Security description	Value 10/31/12	Purchases during the year ended 10/31/13	Sales during the year ended 10/31/13	Value 10/31/13	Net income earned from affiliate for the year ended 10/31/13
UBS Cash Management Prime Relationship Fund	\$11,067,701	\$83,203,120	\$83,400,615	\$10,870,206	\$9,683

¹⁰ Payments made or received are based on the notional amount.

¹¹ If the Fund is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the underlying securities comprising the referenced index or (ii) receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the underlying securities comprising the referenced index.

¹² Payments from/to the counterparty will be received/made upon the occurrence of bankruptcy and/or restructuring event with respect to the referenced index/obligation.

¹³ If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation.

¹⁴ Credit spreads, represented in absolute terms, utilized in determining the market value as of period end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default or other credit event occurring for the credit derivative. The credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement. A credit spread identified as Defaulted indicates a credit event has occurred for the referenced entity. Credit spreads are unaudited.

Financial highlights

Selected data for a share of common stock outstanding throughout each year is presented below:

	For the years ended October 31,				
	2013	2012	2011	2010	2009
Net asset value, beginning of year	\$13.45	\$13.00	\$14.16	\$12.90	\$9.82
Net investment income ¹	0.68	0.79	0.63	0.77	0.76
Net realized and unrealized gains (losses)	(1.30)	0.65	(0.39)	1.55	3.30
Net increase (decrease) from operations	(0.62)	1.44	0.24	2.32	4.06
Dividends from net investment income	(0.26)	(0.71)	(1.37)	(1.06)	(0.72)
Distributions from net realized gains		(0.28)			
Return of capital	(0.64)		(0.03)		(0.26)
Total dividends, distributions and return of capital	(0.90)	(0.99)	(1.40)	(1.06)	(0.98)
Net asset value, end of year	\$11.93	\$13.45	\$13.00	\$14.16	\$12.90
Market price, end of year	\$10.49	\$12.74	\$12.54	\$14.98	\$11.47
Total net asset value return²	(4.81)%	11.53%	1.95%	18.91%	43.02%
Total market price return³	(11.11)%	9.79%	(6.98)%	41.52%	54.20%
Ratios to average net assets:					
Expenses before fee waivers	1.47%	1.48%	1.50%	1.54%	1.56%
Expenses after fee waivers	1.29%	1.36%	1.44%	1.47%	1.51%
Net investment income	5.29%	6.10%	4.64%	5.76%	6.71%
Supplemental data:					
Net assets, end of year (000 s)	\$257,637	\$290,367	\$280,799	\$305,683	\$278,635
Portfolio turnover rate	42%	52%	71%	84%	104%

¹ Calculated using the average shares method.

² Total net asset value return is calculated assuming a \$10,000 purchase of common stock at the current net asset value on the first day of each year reported and a sale at the current net asset value on the last day of each year reported, and assuming reinvestment of dividends and other distributions at the net asset value on the payable dates. Total net asset value return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or a sale of Fund shares. Total return based on net asset value is hypothetical as investors cannot purchase or sell Fund shares at the net asset value but only at market prices.

³ Total market price return is calculated assuming a \$10,000 purchase of common stock at the current market price on the first day of each year reported and a sale at the current market price on the last day of each year reported, and assuming reinvestment of dividends and other distributions at prices obtained under the Fund's Dividend Reinvestment Plan. Total market price return does not reflect brokerage commissions or the deduction of taxes that a shareholder would pay on Fund dividends/distributions or a sale of Fund shares.

Global High Income Fund Inc.

Notes to financial statements

Organization and significant accounting policies

Global High Income Fund Inc. (the Fund) was incorporated in Maryland on February 23, 1993 and is registered with the US Securities and Exchange Commission (SEC) as a closed-end, non-diversified management investment company. The Fund's primary investment objective is to achieve a high level of current income. As a secondary objective the Fund seeks capital appreciation, to the extent consistent with its primary objective.

In the normal course of business, the Fund enters into contracts that contain a variety of representations that provide general indemnification for certain liabilities. The Fund's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Fund that have not yet occurred. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) is the exclusive reference of authoritative US generally accepted accounting principles (US GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal laws are also sources of authoritative US GAAP for SEC registrants. The Fund's financial statements are prepared in accordance with US GAAP, which may require the use of management estimates and assumptions. Actual results could differ from those estimates. The following is a summary of significant accounting policies:

Valuation of investments

The Fund calculates its net asset value based on the current market value, where available, for its portfolio of securities. The Fund normally obtains market values for its investments from independent pricing sources and broker-dealers. Independent pricing sources may use reported last sale prices, official market closing prices, current market quotations or valuations from computerized evaluation systems that derive values based on comparable investments. An evaluation system incorporates parameters such as security quality, maturity and coupon, and/or research and evaluations by its staff, including review of broker-dealer market price quotations, if available, in determining the valuation of the portfolio investments. Investments also may be valued based on appraisals derived from information concerning the investment or similar investments received from recognized dealers in those holdings. Investments traded in the over-the counter (OTC) market and listed on The NASDAQ Stock Market, Inc. (NASDAQ) normally are valued at the NASDAQ Official Closing Price. Other OTC securities are valued at the last bid price on the valuation date available prior to valuation. Investments which are listed on US and foreign stock exchanges normally are valued at the market closing price, the last sale price on the day the securities are valued or, lacking any sales on such day, at the last available bid price. In cases where investments are traded on more than one exchange, the investments are valued on the exchange designated as the primary market by UBS Global Asset Management (Americas) Inc. (UBS Global AM or the Advisor), the investment advisor of the Fund. UBS Global AM is an indirect wholly owned asset management subsidiary of UBS AG, an internationally diversified organization with headquarters in Zurich and Basel, Switzerland and operations in many areas of the financial services industry. If a market value is not readily available from an independent pricing source for a particular investment, that investment is valued at fair value as determined in good faith by or under the direction of the Fund's Board of Directors (the Board). Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of the investments; and the evaluation of forces which influence the market in which the investments are purchased and sold. Foreign currency exchange rates are generally determined as of the close of the New York Stock Exchange (NYSE).

Global High Income Fund Inc.

Notes to financial statements

Certain investments in which the Fund invests are traded in markets that close before 4:00 p.m., Eastern time. Normally, developments that occur between the close of the foreign markets and 4:00 p.m., Eastern time, will not be reflected in the Fund's net asset value. However, if the Fund determines that such developments are so significant that they will materially affect the value of the Fund's investments, the Fund may adjust the previous closing prices to reflect what is believed to be the fair value of these investments as of 4:00 p.m., Eastern time.

The amortized cost method of valuation, which approximates market value, generally is used to value short-term debt instruments with sixty days or less remaining to maturity, unless the Board determines that this does not represent fair value. Investments in open-end investment companies are valued at the daily closing net asset value of the respective investment company. Pursuant to the Fund's use of the practical expedient within ASC Topic 820, investments in non-registered investment companies are also valued at the daily net asset value. All investments quoted in foreign currencies are valued daily in US dollars on the basis of the foreign currency exchange rates prevailing at the time such valuation is determined by the Fund's custodian and accounting agent.

Futures contracts are generally valued at the settlement price established each day on the exchange on which they are traded. Forward foreign currency contracts are valued daily using forward exchange rates quoted by independent pricing services.

Swaps are marked-to-market daily based upon values from third party vendors or quotations from market makers to the extent available, and the change in value, if any, is recorded as an unrealized gain or loss on the Statement of assets and liabilities. In the event that market quotations are not readily available or deemed unreliable, the swap is valued at fair value as determined in good faith by or under the direction of the Board (or a committee designated by it).

The Board has delegated to the UBS Global Asset Management Global Valuation Committee (GVC) the responsibility for making fair value determinations with respect to the Fund's portfolio holdings. The GVC is comprised of representatives of management, including members of the investment team.

The GVC provides reports to the Board at each quarterly meeting regarding any investments that have been fair valued, valued pursuant to standing instructions approved by the GVC, or where non-vendor pricing sources had been used to make fair value determinations when sufficient information exists during the prior quarter. Fair valuation determinations are subject to review at least monthly by the GVC during scheduled meetings. Pricing decisions, processes, and controls over fair value determinations are subject to internal and external reviews, including annual internal compliance reviews and periodic internal audit reviews of security valuations.

The types of investments for which such fair value pricing may be necessary include, but are not limited to: foreign investments under some circumstances, as discussed below, securities of an issuer that has entered into a restructuring; investments whose trading has been halted or suspended; fixed income securities that are in default and for which there is no current market value quotation; and investments that are restricted as to transfer or resale. The need to fair value the Fund's portfolio investments may also result from low trading volume in foreign markets or thinly traded domestic investments, and when a security that is subject to a trading limit or collar on the exchange or market on which it is primarily traded reaches the limit up or limit down price and no trading has taken place at that price. Various factors may be reviewed in order to make a good faith determination of an investment's fair value. These factors include, but are not limited to, fundamental analytical data relating to the investment; the nature and duration of restrictions on disposition of investments; and the evaluation of forces which influence the market in which the investments are purchased and sold. Valuing investments at fair value involves greater reliance on judgment than valuing investments that have readily available market quotations. Fair value determinations can also involve reliance on quantitative models employed by a fair value pricing service.

Global High Income Fund Inc.

Notes to financial statements

US GAAP requires disclosure regarding the various inputs that are used in determining the value of the Fund's investments. These inputs are summarized into the three broad levels listed below:

Level 1 Unadjusted quoted prices in active markets for identical investments.

Level 2 Other significant observable inputs, including but not limited to, quoted prices for similar investments, interest rates, prepayment speeds and credit risk.

Level 3 Unobservable inputs inclusive of the Fund's own assumptions in determining the fair value of investments.

A fair value hierarchy has been included near the end of the Fund's Portfolio of investments.

In January 2013, Accounting Standards Update 2013-01 (ASU 2013-01), Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities, replaced Accounting Standards Update 2011-11 (ASU 2011-11), Disclosures about Offsetting Assets and Liabilities. ASU 2013-01 is effective for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods. ASU 2011-11 was intended to enhance disclosure requirements on the offsetting of financial assets and liabilities. ASU 2013-01 limits the scope of the new balance sheet offsetting disclosures to derivatives, repurchase agreements, and securities lending transactions to the extent that they are (1) offset in the financial statements or (2) subject to an enforceable master netting arrangement or similar agreement. Management is currently evaluating the application of ASU 2013-01 and its impact, if any, on the Fund's financial statements.

The provisions of ASC Topic 815 Derivatives and Hedging (ASC Topic 815) require qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments and disclosures about credit-risk related contingent features in derivative agreements. Since investment companies value their derivatives at fair value and recognize changes in fair value through the Statement of operations, they do not qualify for hedge accounting under ASC Topic 815. Accordingly, even though the Fund's investments in derivatives may represent economic hedges, they are considered to be non-hedge transactions for purposes of disclosure under ASC Topic 815. ASC Topic 815 requires that (1) objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation, (2) the fair values of derivative instruments and their gains and losses be disclosed in a tabular format, and (3) information be disclosed about credit-risk contingent features of derivatives contracts. Details of this disclosure can be found below as well as in the Portfolio of investments. Swap agreements, forward foreign currency contracts, swaptions and options written entered into by the Fund may contain credit-risk related contingent features that could be triggered subject to certain circumstances. Such circumstances include agreed upon net asset value thresholds. If triggered, the derivative counterparty could request additional cash margin and/or terminate the derivative contract. The aggregate fair value of the derivative contracts that are in a net liability position that contain these triggers can be found in the Portfolio of investments. The aggregate fair value of assets that are already posted as collateral as of October 31, 2013 is reflected in the Statement of assets and liabilities. If the applicable credit-risk related contingent features were triggered as of October 31, 2013, the Fund would be required to post additional collateral or may be required to terminate the contracts and settle any amounts outstanding. The volume of derivatives that is presented in the Portfolio of investments of the Fund is consistent with the derivative activity during the year ended October 31, 2013. The Fund may be a seller of protection through credit default swap agreements which are by nature credit-risk contingent (the terms of these agreements can be found within the Portfolio of investments, with further discussion in the Notes to financial statements).

Global High Income Fund Inc.

Notes to financial statements

Disclosure of derivatives by underlying risk for the Fund as of and for the year ended October 31, 2013 is as follows:

Asset derivatives

	Interest rate risk	Credit risk	Foreign exchange risk	Total
Forward foreign currency contracts ¹	\$	\$	\$ 2,638,429	\$ 2,638,429
Futures contracts ²	134,557			134,557
Options purchased ¹			63,375	63,375
Swap agreements ¹	163,600	20,651	1,221,898	1,406,149
Total value	\$ 298,157	\$ 20,651	\$ 3,923,702	\$ 4,242,510

¹ Statement of assets and liabilities location: Options purchased are shown within investments in securities of unaffiliated issuers, at value, outstanding swap agreements, at value and unrealized appreciation on forward foreign currency contracts.

² Includes cumulative appreciation of futures contracts as reported in the futures contracts table in the Portfolio of investments, but only the unpaid variation margin, if any, is reported within the Statement of assets and liabilities within Variation margin on futures contracts.

Liability derivatives

	Interest rate risk	Credit risk	Foreign exchange risk	Total
Forward foreign currency contracts ¹	\$	\$	\$ (2,182,619)	\$ (2,182,619)
Futures contracts ²	(201,000)			(201,000)
Options written ¹			(49,224)	(49,224)
Swap agreements ¹	(247,864)	(1,167,502)		(1,415,366)
Total value	\$ (448,864)	\$ (1,167,502)	\$ (2,231,843)	\$ (3,848,209)

¹ Statement of assets and liabilities location: Options written, at value, outstanding swap agreements, at value and unrealized depreciation on forward foreign currency contracts.

² Includes cumulative depreciation of futures contracts as reported in the futures contracts table in the Portfolio of investments, but only the unpaid variation margin, if any, is reported within the Statement of assets and liabilities within Variation margin on futures contracts.

Global High Income Fund Inc.

Notes to financial statements

Activities in derivative instruments during the year ended October 31, 2013, were as follows:

	Interest rate risk	Credit risk	Foreign exchange risk	Total
Net realized gain (loss)¹				
Forward foreign currency contracts	\$	\$	\$ (1,226,018)	\$ (1,226,018)
Futures contracts	(120,422)			(120,422)
Options purchased ²			(2,393,548)	(2,393,548)
Options written	3,779		(124,963)	(121,184)
Swap agreements	64,287	(1,132,474)	115,677	(952,510)
Total net realized loss	\$ (52,356)	\$ (1,132,474)	\$ (3,628,852)	\$ (4,813,682)
Change in net unrealized appreciation/depreciation³				
Forward foreign currency contracts	\$	\$	\$ (735,115)	\$ (735,115)
Futures contracts	(119,234)			(119,234)
Options purchased ²			272,987	272,987
Options written			197,236	197,236
Swap agreements	(110,037)	906,656	550,164	1,346,783
Total change in net unrealized appreciation/depreciation	\$ (229,271)	\$ 906,656	\$ 285,272	\$ 962,657

¹ Statement of operations location: Net realized gain (loss) on futures contracts, options written, swap agreements and forward foreign currency contracts.

² Realized and unrealized gain (loss) is included in net realized gain (loss) on investments and change in net unrealized appreciation/depreciation on investments.

³ Statement of operations location: Change in net unrealized appreciation/depreciation on futures contracts, options written, swap agreements and forward foreign currency contracts.

Restricted securities

The Fund may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expenses, and prompt sale at an acceptable price may be difficult. Restricted securities are identified, if any, in the Portfolio of investments and information regarding them, is included in the Fund's Portfolio of investments footnotes.

Investment transactions and investment income

Investment transactions are recorded on the trade date. Realized gains and losses from investment and foreign exchange transactions are calculated using the identified cost method. Interest income is recorded on an accrual basis. Discounts are accreted and premiums are amortized as adjustments to interest income and the identified cost of investments.

Foreign currency translation

The Fund uses the foreign currency exchange rates determined as of the close of regular trading on the NYSE. For purposes of calculating the US dollar equivalent value of a non-US dollar denominated obligation, foreign currency amounts are translated into US dollars on the following basis: (1) market value of investment securities and other assets and liabilities at the exchange rates prevailing at the end of the Fund's fiscal period; and (2) purchases and sales of investment securities and income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the market value of the Fund's portfolio are presented at the foreign exchange rates at the end of the Fund's fiscal period, the Fund does not generally isolate the effect of fluctuations in foreign exchange rates from the effect of the changes in market prices of securities. However, the Fund does isolate the

Global High Income Fund Inc.

Notes to financial statements

effect of fluctuations in foreign exchange rates when determining the gain or loss upon the sale or maturity of foreign currency-denominated securities pursuant to US federal income tax regulations. Certain foreign exchange gains and losses included in realized and unrealized gains and losses are included in, or are a reduction of, ordinary income in accordance with US federal income tax regulations.

Forward foreign currency contracts

The Fund may enter into forward foreign currency exchange contracts (forward contracts) in connection with planned purchases or sales of securities or to hedge the US dollar value of portfolio securities denominated in a particular currency. The Fund may also use forward contracts in an attempt to enhance income or gains.

The Fund has no specific limitation on the percentage of assets which may be committed to such contracts. The Fund may enter into forward contracts or maintain a net exposure to forward contracts only if (1) the consummation of the contracts would not obligate the Fund to deliver an amount of foreign currency in excess of the value of the position being hedged by such contracts or (2) the Fund identifies cash or liquid securities in an amount not less than the value of its assets committed to the consummation of the forward contracts and not covered as provided in (1) above, as marked-to-market daily.

Risks may arise upon entering into forward contracts from the potential inability of counterparties to meet the terms of their forward contracts and from unanticipated movements in the value of foreign currencies relative to the US dollar.

Fluctuations in the value of forward contracts are recorded for book purposes as unrealized gains or losses by the Fund. Realized gains and losses include net gains and losses recognized by the Fund on contracts which have been sold or matured.

Futures contracts

The Fund may use financial futures contracts for hedging purposes and to adjust exposure to US and foreign fixed income markets in connection with a reallocation of the Fund's assets or to manage the average duration of the Fund. The Fund may also use futures contracts in an attempt to enhance income or gains. However, imperfect correlations between futures contracts and the related securities or markets, or market disruptions, do not normally permit full control of these risks at all times. Using financial futures contracts involves various market risks, including interest rate risk. Risks of entering into futures contracts include the possibility that there may be an illiquid market or that a change in the value of the contract may not correlate with changes in the value of the underlying securities. To the extent that market prices move in an unexpected direction, there is a risk that the Fund will not achieve the anticipated benefits of the futures contract or may realize a loss.

Upon entering into a financial futures contract, the Fund is required to deliver to a broker an amount of cash and/or liquid securities equal to a certain percentage of the contract amount. This amount is known as the initial margin. Subsequent payments, known as variation margin, are made or received by the Fund each day, depending on the daily fluctuations in the value of the underlying futures contracts. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the futures contract is closed or expires, at which time the net gain or loss is reclassified to realized gain or loss on futures.

Swap agreements

The Fund may engage in swap agreements, including but not limited to interest rate, currency, total return, and credit default swap agreements. The Fund expects to enter into these transactions to preserve a return or spread on a particular investment or to hedge a portion of the portfolio's duration, to protect against any increase in the price of securities the Fund anticipates purchasing at a later date, to gain exposure to certain markets in the most economical way possible or in an attempt to enhance income or gains.

Global High Income Fund Inc.

Notes to financial statements

The Fund may enter into interest rate swap agreements with another party to receive or pay interest (e.g., an exchange of fixed rate payments for floating rate payments) to protect itself from interest rate fluctuations. This type of swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to a specified interest rate(s) for a specified amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. In addition, the Fund may enter into interest rate cap and floor transactions which involve an agreement between two parties in which one party agrees to make payments to the other when a designated market interest rate goes above (in the case of a cap) or below (in the case of a floor) a designated level on pre-determined dates or during a specified period. Interest rate swap agreements are subject to general market risk, liquidity risk, counterparty risk and interest rate risk.

The Fund may enter into currency swap agreements with another party to receive or pay amounts based on changes in currency exchange rates in order to protect itself from or take advantage of exchange rate fluctuations. The Fund utilizes currency swaps to earn income and enhance returns as well as to manage the risk profile of the Fund. This type of swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to a specified currency exchange rate(s) for a specified amount. Currency swap agreements are subject to general market risk, liquidity risk, counterparty risk, foreign exchange risk and interest rate risk.

Credit default swap agreements involve commitments to make or receive payments in the event of a default or other credit event of a referenced security. As a buyer, the Fund would make periodic payments to the counterparty, and the Fund would receive payments only upon the occurrence of a credit event. If no credit event occurs, the Fund will lose its periodic stream of payments over the term of the contract. However, if a credit event does occur, the Fund typically would receive full notional value for a reference obligation that may have little or no value. As a seller, the Fund would receive periodic payments from the counterparty, and the Fund would make payments only upon the occurrence of a credit event. If no credit event occurs, the Fund will retain the periodic stream of payments it received over the term of the contract. However, if a credit event occurs, the Fund will pay full notional value for a reference obligation that may have little or no value. Credit default swaps may involve greater risks than if the Fund had invested in the reference obligation directly and are subject to general market risk, liquidity risk, counterparty risk and credit risk.

Credit default swap agreements on sovereign issues of an emerging market country involve one party making a stream of payments to another party in exchange for the right to receive a specified return in the event of a default or other credit event. If a credit event occurs and cash settlement is not elected, a variety of other obligations may be delivered in lieu of the specific referenced obligation. The ability to deliver other obligations may result in delivery of a security with a value other than had been anticipated (such as a party's right to choose the deliverable obligation with the lowest value following a credit event). The Fund may use credit default swaps on corporate issues or sovereign issues of an emerging market country to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where the Fund owns or has exposure to the referenced obligation) or to take an active long or short position with respect to the likelihood of a particular issuer's default.

The maximum potential amount of future payments (undiscounted) that the Fund as a seller of protection could be required to make under a credit default swap agreement would be an amount equal to the notional amount of the agreement. Notional amounts of all credit default swap agreements outstanding as of October 31, 2013 for which the Fund is the seller of protection are disclosed under the section "Credit default swaps on corporate and sovereign issues - sell protection" in the Notes to Portfolio of Investments. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into, if any, by the Fund for the same referenced entity or entities.

Global High Income Fund Inc.

Notes to financial statements

The use of swap agreements involves investment techniques and risks different from those associated with ordinary portfolio security transactions. If UBS Global AM is incorrect in its forecast of market values, interest rates and other applicable factors, the investment performance of the Fund will be less favorable than it would have been if this investment technique was never used. Swap agreements do not involve the delivery of securities and are subject to counterparty risk. If the other party to a swap agreement defaults and fails to consummate the transaction, the Fund's risk of loss will consist of the net amount of interest or other payments that the Fund is contractually entitled to receive. Therefore, the Fund would consider the creditworthiness of the counterparty to a swap agreement in evaluating potential credit risk.

The Fund accrues for interim payments on swap agreements on a daily basis, with the net amount recorded within outstanding swap agreements on the Statement of assets and liabilities. Once interim payments are settled in cash, the net amount is recorded as realized gain/loss on swap agreements, in addition to realized gain/loss recorded upon the termination of swap agreements on the Statement of operations. Fluctuations in the value of swap agreements are recorded for financial statement purposes as unrealized appreciation or depreciation on swap agreements.

Structured notes

The Fund may invest in structured notes whose values are based on the price movements of a referenced security or index. The value of these structured notes will rise and fall in response to changes in the referenced security or index. On the maturity date of each structured note, the Fund will receive a payment from a counterparty based on the value of the referenced security or index (notional amount multiplied by the price of the referenced security or index) and record a realized gain or loss.

Structured notes may present a greater degree of market risk than many types of securities and may be more volatile and less liquid than less complex securities. Structured notes are also subject to the risk that the issuer of the structured notes may fail to perform its contractual obligations.

Option writing

The Fund may write (sell) put and call options on foreign or US securities, indices, foreign currencies and interest rate swaps (commonly referred to as swaptions), in order to gain exposure to or protect against changes in the markets. When the Fund writes a call or a put option, an amount equal to the premium received by the Fund is included in the Fund's Statement of assets and liabilities as an asset and as an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. If an option which the Fund has written either expires on its stipulated expiration date or the Fund enters into a closing purchase transaction, the Fund realizes a gain (or loss if the cost of a closing purchase transaction exceeds the premium received when the option was written) without regard to any unrealized gain or loss on the underlying security or derivative instrument, and the liability related to such option is extinguished. If a call option which the Fund has written is exercised, the Fund recognizes a realized gain or loss (long-term or short-term, depending on the holding period of the underlying security) from the sale of the underlying security or derivative instrument and the proceeds from the sale are increased by the premium originally received. If a put option which the Fund has written is exercised, the amount of the premium originally received reduces the cost of the security or derivative instrument which the Fund purchases upon exercise of the option.

In writing an option, the Fund bears the market risk of an unfavorable change in the price of the derivative instrument, security, index or currency underlying the written option. Exercise of an option written by the Fund could result in the Fund selling or buying a derivative instrument, security or currency at a price different from current market value.

Global High Income Fund Inc.

Notes to financial statements

Purchased options

The Fund may purchase put and call options on foreign or US securities, indices, foreign currencies and interest rate swaps (commonly referred to as swaptions), as well as exchange listed call options on particular market segment indices to achieve temporary exposure to a specific security, currency, industry or geographic region. Purchasing call options tends to increase exposure to the underlying instrument. Purchasing put options tends to decrease exposure to the underlying instrument. The Fund pays a premium which is included in the Statement of assets and liabilities as an investment and subsequently marked-to-market to reflect the current value of the option. Premiums paid for purchasing options which expire are treated as realized losses. The risk associated with purchasing put and call options is limited to the premium paid. Premiums paid for purchasing options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying futures, security or currency transaction to determine the realized gain or loss.

Dividends and distributions

Dividends and distributions to shareholders are recorded on the ex-distribution date. The amount of dividends from net investment income and distributions from net realized capital gains and/or return of capital are determined in accordance with income tax regulations, which may differ from US GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences do not require reclassification.

Concentration of risk

Investing in securities of foreign issuers and currency transactions may involve certain considerations and risks not typically associated with investments in US securities. These risks include revaluation of currencies, adverse fluctuations in foreign currency values and possible adverse political, social and economic developments, including those particular to a specific industry, country or region, which could cause the securities and their markets to be less liquid and prices more volatile than those of comparable US companies and US government securities. These risks are greater with respect to securities of issuers located in emerging market countries in which the Fund invests. The ability of the issuers of debt securities held by the Fund to meet their obligations may be affected by economic and political developments particular to a specific industry, country, state or region.

Investment advisor and administrator and other transactions with related entities

The Fund's Board has approved an investment advisory and administration contract (Advisory Contract) with UBS Global AM. In accordance with the Advisory Contract, the Fund pays UBS Global AM an investment advisory and administration fee, which is accrued weekly and paid monthly, at the annual rate of 1.25% of the Fund's average weekly net assets. Since August 1, 2005, UBS Global AM has contractually agreed to waive compensation otherwise payable to it to reduce the fee it receives under the Advisory Contract so that it is paid at the annual rate of 1.25% of the Fund's average weekly net assets on assets up to \$200 million, and at the annual rate of 1.00% of the Fund's average weekly net assets on assets above \$200 million. This fee reduction breakpoint continues indefinitely unless the Board agrees to any change. Additionally, effective August 1, 2012, through July 31, 2013, UBS Global AM agreed voluntarily to waive compensation otherwise payable to it to reduce the fee it receives under the Advisory Contract so that it is paid at the following annual rates:

Average weekly net assets	Advisory fee
Up to \$200 million	1.10%
Above \$200 million	1.00%

This additional fee waiver was extended for another year effective August 1, 2013 through July 31, 2014.

At October 31, 2013, the Fund owed UBS Global AM \$235,387 which is composed of \$273,001 of investment advisory and administration fees less fees waived of \$37,614. For the year ended October 31, 2013, UBS Global AM waived \$494,108 of investment advisory and administration fees from the Fund.

Global High Income Fund Inc.

Notes to financial statements

Additional information regarding compensation to affiliate of a board member

Professor Meyer Feldberg serves as a senior advisor to Morgan Stanley, a financial services firm with which the Fund may conduct transactions, resulting in him being an interested director of the Fund. The Fund has been informed that Professor Feldberg's role at Morgan Stanley does not involve matters directly affecting any UBS funds. Fund transactions are executed through Morgan Stanley based on that firm's ability to provide best execution of the transactions. During the year ended October 31, 2013, the Fund purchased and sold certain securities (e.g., fixed income securities) in principal trades with Morgan Stanley having an aggregate value of \$5,233,167. Morgan Stanley received compensation in connection with these trades, which may have been in the form of a mark-up or mark-down of the price of the securities, a fee from the issuer for maintaining a commercial paper program, or some other form of compensation. Although the precise amount of this compensation is not generally known by UBS Global AM, UBS Global AM believes that under normal circumstances it represents a small portion of the total value of the transactions.

Securities lending

The Fund may lend securities up to 33 % of its total assets to qualified broker-dealers or institutional investors. The loans are secured at all times by cash, cash equivalents or US government securities in an amount at least equal to 102% of the market value of the securities loaned with respect to domestic securities and 105% of the market value of the securities loaned with respect to foreign securities, plus accrued interest and dividends, determined on a daily basis and adjusted accordingly.

The Fund will regain ownership of loaned securities to exercise certain beneficial rights; however, the Fund may bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower fail financially. The Fund receives compensation for lending its securities from interest or dividends earned on the cash, cash equivalents or US government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The Fund did not lend any securities during the year ended October 31, 2013.

Capital stock

There are 100,000,000 shares of \$0.001 par value common stock authorized and 21,591,836 shares outstanding at October 31, 2013. For the years ended October 31, 2013 and October 31, 2012, there were no transactions involving common stock.

Purchases and sales of securities

For the year ended October 31, 2013, aggregate purchases and sales of portfolio securities, excluding short-term securities, were \$108,570,433 and \$114,874,077, respectively.

Federal tax status

It is the Fund's policy to comply with all requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. In addition, by distributing during each calendar year substantially all of its net investment income, net realized capital gains and certain other amounts, if any, the Fund intends not to be subject to a federal excise tax. Accordingly, no federal income tax provision was required.

The tax character of distributions paid during the fiscal years ended October 31, 2013 and October 31, 2012 were as follows:

Distributions paid from:	2013	2012
Ordinary income	\$ 5,652,589	\$ 15,338,633
Return of capital	13,853,476 *	
Net long-term capital gains		6,013,534
Total distributions paid	\$ 19,506,065	\$ 21,352,167

* The return of capital is primarily due to the tax treatment of foreign currency losses.

Global High Income Fund Inc.

Notes to financial statements

At October 31, 2013, the components of accumulated earnings (deficit) on a tax basis were as follows:

Capital and other losses	\$(5,626,286)
Net unrealized depreciation	(3,722,258)
Total accumulated earnings (deficit)	\$(9,348,544)

The difference between book-basis and tax-basis net unrealized appreciation/(depreciation) of investments is attributed to wash sales, premium amortization adjustments and derivative related adjustments.

To reflect reclassifications arising from permanent book/tax differences for the year ended October 31, 2013, the Fund's accumulated undistributed net investment income was decreased \$6,348,717 and accumulated net realized loss was decreased \$6,348,717. These differences are primarily due to tax treatment on foreign currencies, options transactions and swap adjustments.

Under the Regulated Investment Company Modernization Act of 2010 (the Act), net capital losses recognized by the Fund after December 22, 2010 may be carried forward indefinitely, and retain their character as short-term and/or long-term losses. The Act requires that post-enactment net capital losses be used before pre-enactment net capital losses.

At October 31, 2013, the Fund had post-enactment net capital losses incurred that will be carried forward indefinitely as follow:

Short-term losses	Long-term losses	Net capital losses
\$1,416,873	\$1,396,721	\$2,813,594

Qualified late year losses are deemed to arise on the first business day of a Fund's next taxable year. For the year ended October 31, 2013, the Fund did not incur, or elect to defer any such losses.

As of and during the year ended October 31, 2013, the Fund did not have any liabilities for any uncertain tax positions. The Fund recognizes interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statement of operations. During the year, the Fund did not incur any interest or penalties. Foreign taxes have been accrued by the Fund in the accompanying financial statements. Capital gains realized by the Fund on securities issued in or by certain foreign countries may be subject to capital gains tax imposed by those countries.

Each of the tax years in the four year period ended October 31, 2013 remains subject to examination by the Internal Revenue Service and state taxing authorities.

Global High Income Fund Inc.

Report of Ernst & Young LLP, independent registered public
accounting firm

The Board of Directors and Shareholders of
Global High Income Fund Inc.

We have audited the accompanying statement of assets and liabilities of Global High Income Fund Inc. (the Fund), including the portfolio of investments, as of October 31, 2013, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2013, by correspondence with the custodian and others or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Global High Income Fund Inc. at October 31, 2013, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with US generally accepted accounting principles.

New York, New York

Global High Income Fund Inc.

Tax information (unaudited)

Dividends received by tax-exempt recipients (e.g., IRAs and Keoghs) need not be reported as taxable income. Some retirement trusts (e.g., corporate, Keogh and 403(b)(7) plans) may need this information for their annual reporting. Since the Fund's fiscal year is not the calendar year, another notification will be sent in respect of calendar year 2013. The second notification, which will reflect the amount to be used by calendar year taxpayers on their federal income tax returns, will be made in conjunction with Form 1099 DIV and will be mailed no later than January 31, 2014. Shareholders are advised to consult their own tax advisors with respect to the tax consequences of their investment in the Fund.

The foreign taxes paid represent taxes incurred by the Fund on income received by the Fund from foreign sources. Foreign taxes paid may be included in taxable income with an offsetting deduction from gross income or may be taken as a credit for taxes paid to foreign governments. For the year ended October 31, 2013, the amount expected to be passed through to the shareholders as foreign tax credit is approximately \$165,934. In addition, for the year ended October 31, 2013, gross income derived from sources within foreign countries amounted to \$18,002,751. You should consult your tax advisor regarding the appropriate treatment of foreign taxes paid.

Global High Income Fund Inc. General information (unaudited)

The Fund

Global High Income Fund Inc. (the Fund) is a non-diversified, closed-end management investment company whose shares trade on the New York Stock Exchange (NYSE). The Fund's primary investment objective is to achieve a high level of current income. As a secondary objective, the Fund seeks capital appreciation, to the extent consistent with its primary objective. There can be no assurance that the Fund's investment objective will be achieved. The Fund's investment advisor and administrator is UBS Global Asset Management (Americas) Inc. (UBS Global AM).

Shareholder information

The Fund's NYSE trading symbol is GHI. Net asset value and market price information as well as other information about the Fund is updated each business day on UBS's web site at the following internet address:
<http://globalam-us.ubs.com/corpweb/closedendedfunds.do>.

Quarterly Form N-Q portfolio schedule

The Fund will file its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's Web site at <http://www.sec.gov>. The Fund's Forms N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the SEC's Public Reference Room may be obtained by calling 1-202-551-8090. Additionally, you may obtain copies of Form N-Q from the Fund upon request by calling 1-888-793-8637.

Proxy voting policies, procedures and record

You may obtain a description of the Fund's (1) proxy voting policies (2) proxy voting procedures, and (3) information regarding how the Fund voted any proxies related to portfolio securities during the most recent 12-month period ended June 30 for which an SEC filing has been made, without charge, upon request by contacting the Fund directly at 1-888-793-8637, online on UBS's Web site: http://www.ubs.com/us/en/asset_management/individual_investors/closed_end_funds.html or on the EDGAR Database on the SEC's Web site (<http://www.sec.gov>).

Dividend reinvestment plan

The Fund's Board has established a Dividend Reinvestment Plan (the Plan) under which all shareholders whose shares are registered in their own names, or in the name of UBS Financial Services Inc. or its nominee, will have all dividends and other distributions on their shares of common stock automatically reinvested in additional shares, unless such shareholders elect to receive cash. Shareholders who elect to hold their shares in the name of another broker or nominee should contact such broker or nominee to determine whether, or how, they may participate in the Plan.

The ability of such shareholders to participate in the Plan may change if their shares are transferred into the name of another broker or nominee.

A shareholder may elect not to participate in the Plan or may terminate participation in the Plan at any time without penalty, and shareholders who have previously terminated participation in the Plan may rejoin it at any time. Changes in elections must be made in writing to the Fund's transfer agent and should include the shareholder's name and address as they appear on that share certificate or in the transfer agent's records.

An election to terminate participation in the Plan, until such election is changed, will be deemed an election by a shareholder to take all subsequent distributions in cash. An election will be effective only for distributions declared and having a record date at least ten days after the date on which the election is received.

Global High Income Fund Inc.
General information (unaudited)

Additional shares of common stock acquired under the Plan will be purchased in the open market, on the NYSE or otherwise, at prices that may be higher or lower than the net asset value per share at the time of the purchase. Investors should consider whether continued participation in the dividend reinvestment plan is appropriate for them when the Fund's market price exceeds its net asset value; a portion of a dividend/distribution may represent a return of capital, which would be reinvested in the Fund at a premium to net asset value. The number of shares of common stock purchased with each dividend/distribution will be equal to the result obtained by dividing the amount of the dividend/distribution payable to a particular shareholder by the average price per share (including applicable brokerage commissions) that the transfer agent was able to obtain in the open market. The Fund will not issue any new shares in connection with the Plan. There currently is no charge to participants for reinvesting dividends or other distributions. The transfer agent's fees for handling the reinvestment of distributions are paid by the Fund. However, each participant pays a pro rata share of brokerage commissions incurred with respect to the transfer agent's open market purchases of common stock in connection with the reinvestment of distributions. The automatic reinvestment of dividends and other distributions in shares of common stock does not relieve participants of any income tax that may be payable on such distributions.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan with respect to any dividend or other distribution if notice of the change is sent to Plan participants at least 30 days before the record date for such distribution. The Plan also may be amended or terminated by the transfer agent by at least 30 days written notice to all Plan participants. Additional information regarding the Plan may be obtained from, and all correspondence concerning the Plan should be directed to, the transfer agent at BNY Mellon Investment Servicing, P.O. Box 358035, Pittsburgh, PA 15252-8035. For further information regarding the Plan, you may also contact the transfer agent directly at 1-866-352 5528.

Distribution policy

The Fund's Board adopted a managed distribution policy in December 1999, which was revised (1) effective June 2005, (2) effective August 2009 and (3) effective June 2012. Pursuant to the policy as in effect from December 1999 through early May 2005, the Fund made regular monthly distributions at an annualized rate equal to 11% of the Fund's net asset value, as determined as of the last trading day during the first week of that month (usually a Friday unless the NYSE is closed that Friday). The Board approved reducing the annualized rate for distribution pursuant to the policy from 11% to 9% effective beginning with the June 2005 monthly distribution. The Board approved a further reduction in the annualized rate for distributions pursuant to the policy from 9% to 8% in July 2009, effective beginning with the August 2009 monthly distribution. The Board approved a subsequent reduction in the annualized rate for distributions pursuant to the policy from 8% to 7% in May 2012, effective beginning with the June 2012 monthly distribution. Prior to December 20, 1999, the Fund's distributions varied based on the Fund's net investment income and realized capital gains or losses.

Monthly distributions based on a fixed percentage of the Fund's net asset value may require the Fund to make multiple distributions of long term capital gains during a single fiscal year. The Fund has received exemptive relief from the Securities and Exchange Commission that enables it to do so. The Fund's Board receives recommendations from UBS Global AM, the Fund's investment advisor, periodically and no less frequently than annually will reassess the annualized percentage of net assets at which the Fund's monthly distributions will be made.

The above information supplements that contained on the inside front cover of this report.

Global High Income Fund Inc.

Board approval of investment advisory and administration contract (unaudited)

Background At a meeting of the board of Global High Income Fund Inc. (the Fund) on July 16-17, 2013, the members of the board, including the directors who are not interested persons of the Fund (Independent Directors), as defined in the Investment Company Act of 1940, as amended (the 1940 Act), considered and approved the continuance of the investment advisory and administration contract (the Investment Advisory and Administration Contract) of the Fund with UBS Global Asset Management (Americas) Inc. (UBS Global AM). In preparing for the meeting, the board members had requested and received extensive information from UBS Global AM to assist them. The board received and considered a variety of information about UBS Global AM as well as the advisory and administrative arrangements for the Fund. Independent Directors discussed the materials initially provided by management among themselves on several occasions prior to the scheduled board meeting, and independent legal counsel participated in several such discussions. The Independent Directors also met in executive session with their independent legal counsel to review the presentation that had been made to them at the meeting. The Independent Directors also received a memorandum from their independent legal counsel discussing the duties of board members in considering approval of advisory, administration and distribution agreements.

In its consideration of the approval of the Investment Advisory and Administration Contract, the board evaluated the following factors:

Nature, extent and quality of the services under the Investment Advisory and Administration Contract The board received and considered information regarding the nature, extent and quality of advisory services provided to the Fund, a registered closed-end investment company, by UBS Global AM under the Investment Advisory and Administration Contract during the past year. The board also considered the nature, extent and quality of administrative and shareholder services performed by UBS Global AM and its affiliates for the Fund and the resources devoted to, and the record of compliance with, the Fund's compliance policies and procedures. The board noted that it received information at regular meetings throughout the year regarding the services rendered by UBS Global AM concerning the management of the Fund's affairs and UBS Global AM's role in coordinating providers of other services to the Fund. The board's evaluation of the services provided by UBS Global AM took into account the board's knowledge and familiarity gained as board members of funds in the UBS New York fund complex, including the scope and quality of UBS Global AM's investment advisory and other capabilities and the quality of its administrative and other services. The board observed that the scope of services provided by UBS Global AM had expanded over time as a result of regulatory and other developments, including maintaining and monitoring its own and the Fund's expanded compliance programs.

The board had available to it the qualifications, backgrounds and responsibilities of the senior personnel at UBS Global AM responsible for the Fund and had previously met with and received information regarding the person primarily responsible for the day-to-day portfolio management of the Fund and recognized that the Fund's senior personnel at UBS Global AM report to the board regularly and that at each regular meeting the board receives a detailed report on the Fund's performance. The board also considered, based on its knowledge of UBS Global AM and its affiliates, the financial resources available to UBS Global AM and its parent organization, UBS AG. In that regard, the board received extensive financial information regarding UBS Global AM and noted that it was a wholly owned, indirect subsidiary of one of the largest financial services firms in the world. It was also noted that UBS Global AM had approximately \$159 billion in assets under management as of March 31, 2013 and was part of the UBS Global Asset Management Division, which had approximately \$632 billion in assets under management worldwide as of March 31, 2013. The board was also cognizant of, and considered, the regulatory and litigation actions and investigations occurring in the past few years involving UBS AG, UBS Global AM and certain of their affiliates.

The board concluded that, overall, it was satisfied with the nature, extent and quality of services provided (and expected to be provided) to the Fund under the Investment Advisory and Administration Contract.

Global High Income Fund Inc.

Board approval of investment advisory and administration contract (unaudited)

Advisory fees and expense ratios The board reviewed and considered the contractual management fee (the Contractual Management Fee) payable by the Fund to UBS Global AM in light of the nature, extent and quality of the advisory and administrative services provided by UBS Global AM. The board also reviewed and considered the fee waiver arrangements for the Fund and considered the actual fee rate (after taking the waiver into account) (the Actual Management Fee). Additionally, the board received and considered information comparing the Fund's Contractual Management Fee, Actual Management Fee and overall expenses with those of funds in a group of funds selected and provided by Lipper, Inc. (Lipper), an independent provider of investment company data (the Expense Group). The Expense Group consisted of the Fund and three other comparable non-leveraged funds.

In connection with its consideration of the Fund's management fees, the board also received information on UBS Global AM's standard institutional account fees for accounts of a similar investment type to the Fund. The board noted management's explanation that comparisons with such accounts may be of limited relevance given the different structures and regulatory requirements of funds versus such accounts and the differences in the levels of services required by funds and such accounts. The board also received information on fees charged to other funds managed by UBS Global AM.

The comparative Lipper information showed that the Fund's Contractual Management Fee and Actual Management Fee were approximately 10 basis points (*i.e.*, 0.10%) above their respective Expense Group median. The Fund's total expenses were approximately 16 basis points (*i.e.*, 0.16%) above the Expense Group median. Management noted that the Fund, unlike most of its peers, has a broad mandate of investing in both local and external emerging markets debt and making tactical allocation decisions as to when to overweight local currency debt and when to reduce such exposure. Management noted that tapping both local and external emerging markets debt widens the opportunity set and further diversifies the Fund's sources of risk across multiple interest rate and currency markets. Management also noted that the Fund's higher total expense ratio is due largely to the higher management fee, higher custodial fees and other non-management expenses. Management noted that the Fund's custody fees tend to be higher than its Expense Group peers, which it believes is largely attributable to the Fund's sizable exposure to local emerging markets debt, where custody accounts are more costly to maintain. In addition, the board noted that last year, effective August 1, 2012, UBS Global AM had agreed to extend for an additional year, at an increased rate, a waiver of a portion of the fee it receives under the Investment Advisory and Administration Contract, reducing the rate on the first \$200 million of the Fund's average weekly net assets by 0.15% to 1.10%. Management noted that since the increased waiver has not been in place for the full fiscal period, it is only partially reflected in the Lipper data and stated that, at the Fund's current average net assets of \$280.8 million, the actual advisory fee would be at 1.07% and the total expense ratio closer to 1.31%. The board also noted that management proposed to renew the waiver arrangement for an additional 12-month period.

In light of the foregoing, including the extension of the voluntary fee waiver, the board determined that the management fee was reasonable in light of the nature, extent and quality of services provided to the Fund under the Investment Advisory and Administration Agreement. Nonetheless, the board determined that it would closely monitor the Fund's expenses over the upcoming year.

Fund performance The board received and considered (a) annualized total return information of the Fund compared to other funds (the Performance Universe) selected by Lipper over the one-, three-, five-, ten-year and since inception periods ended April 30, 2013 and (b) annualized performance information for each year in the ten-year period ended April 30, 2013. The board was provided with a description of the methodology Lipper used to determine the similarity of the Fund with the funds included in its Performance Universe.

Global High Income Fund Inc.

Board approval of investment advisory and administration contract (unaudited)

The comparative Lipper information showed that the Fund's performance was in the first quintile for the one-year period and in the fifth quintile for the three- and five-year periods. The Fund's ten-year performance was under the Performance Universe median, while the Fund's since inception performance was above the Performance Universe median. For the one-year period ended April 30, 2013, the Fund ranked in the 20th percentile. For the three-, five- and ten-year periods, the Fund ranked in the 99th percentile, and in the since inception period, the Fund ranked in the 33rd percentile. Management noted the Fund's improved performance for the one-year period.

Based on its review of the Fund, the board concluded that the Fund's investment performance was satisfactory, but determined to continue to monitor the Fund's performance over the upcoming year.

Advisor profitability The board received and considered a profitability analysis of UBS Global AM and its affiliates in providing services to the Fund. The board also received profitability information with respect to the UBS New York fund complex as a whole. UBS Global AM's profitability was considered not excessive in light of the nature, extent and quality of the services provided to the Fund.

Economies of scale The board received and considered information from management regarding whether there have been economies of scale with respect to management of the Fund, whether the Fund has appropriately benefited from any economies of scale, and whether there is potential for realization of further economies of scale for the Fund. The board considered whether economies of scale in the provision of services to the Fund were being passed along to the shareholders.

The board noted that the Fund's Contractual Management Fee did not contain breakpoints; however, the Fund receives the benefit of a breakpoint via an older fee waiver agreement instituted in 2005 that can only be changed with the consent of the board. The board considered that the Fund's asset level exceeded the breakpoint as of April 30, 2013 and, as a result, the Fund and its shareholders realized certain economies of scale because the total expense ratio of the Fund was lower than if no breakpoint had been in place. Accordingly, the board determined that economies of scale were passed on to shareholders in the form of a breakpoint in the Actual Management Fee.

Generally, in light of UBS Global AM's profitability data, the Contractual Management Fee and Actual Management Fee and the breakpoint currently in place, the board believed that UBS Global AM's sharing of current economies of scale with the Fund was acceptable.

Other benefits to UBS Global AM The board considered other benefits received by UBS Global AM and its affiliates as a result of its relationship with the Fund, including the opportunity to offer additional products and services to Fund shareholders.

In light of the costs of providing investment advisory, administrative and other services to the Fund and UBS Global AM's ongoing commitment to the Fund, the profits and other ancillary benefits that UBS Global AM and its affiliates received were considered reasonable.

In light of all of the foregoing, the board approved the Investment Advisory and Administration Contract. In making its decision, the board identified no single factor as being determinative in approving the Investment Advisory and Administration Contract. The Independent Directors were advised by separate independent legal counsel throughout the process. The board discussed the proposed continuance of the Investment Advisory and Administration Contract in private sessions with their independent legal counsel at which no representatives of UBS Global AM were present.

Board of Directors & Officers

The Fund is governed by a Board of Directors which oversees the Fund's operations. Directors are classified into three classes. The term of office of one class of directors will expire at the Fund's 2014 annual stockholders meeting, with another class expiring at the 2015 meeting and the remaining class's term expiring at the 2016 meeting, and when the successors to the members of each class have been elected. The Board members were classified as follows: Class I Bernard H. Garil and Heather R. Higgins; Class II Richard Q. Armstrong and Alan S. Bernikow; and Class III Richard R. Burt and Meyer Feldberg. Officers are appointed by the directors and serve at the pleasure of the Board.

The table below shows, for each director and officer, his or her name, address and age, the position held with the Fund, the length of time served as a director or officer of the Fund, the director's or officer's principal occupations during the last five years, the number of funds in the UBS fund complex overseen by the director or for which a person served as an officer, and other directorships held by the director.

The Fund's most recent proxy statement for an annual meeting of shareholders contains additional information about the directors and is expected to be mailed to shareholders around the same time as this annual report.

Interested Directors:

Name, address, and age	Position(s) held with fund	Term of office and length of time served	Principal occupation(s) during past 5 years	Number of portfolios in fund complex overseen by director	Other directorships held by director
Meyer Feldberg; 71 Morgan Stanley 1585 Broadway 33rd Floor New York, NY 10036	Director	Since 1996; Term expires 2016	Professor Feldberg is Dean Emeritus and Professor of Leadership and Ethics at Columbia Business School, although on an extended leave of absence. He is also a senior advisor to Morgan Stanley (financial services) (since March 2005). Professor Feldberg also serves as president of New York City Global Partners (an organization located in part of the Office of the Mayor of the City of New York that promotes interaction with other cities around the world) (since May 2007). Prior to July 2004, he was Dean and Professor of Management of the Graduate School of Business at Columbia University (since 1989).	Professor Feldberg is a director or trustee of 22 investment companies (consisting 54 portfolios) for which UBS Global AM or one of its affiliates serves as investment advisor or manager.	Professor Feldberg is also a director of Macy's, Inc. (operator of department stores), Revlon, Inc. (cosmetics), SAPP, Ltd. (producer of paper), and the New York City Ballet.

UBS family of funds privacy notice

This notice describes the privacy policy of the UBS Family of Funds, the PACE Funds and all closed-end funds managed by UBS Global Asset Management (collectively, the Funds). The Funds are committed to protecting the personal information that they collect about individuals who are prospective, current or former investors.

The Funds collect personal information in order to process requests and transactions and to provide customer service. Personal information, which is obtained from applications and other forms or correspondence submitted to the Funds, may include name(s), address, e-mail address, telephone number, date of birth, social security number or other tax identification number, bank account information, information about your transactions and experiences with the Funds, and any affiliation a client has with UBS Financial Services Inc. or its affiliates (Personal Information).

The Funds limit access to Personal Information to those individuals who need to know that information in order to process transactions and service accounts. These individuals are required to maintain and protect the confidentiality of Personal Information and to follow established procedures. The Funds maintain physical, electronic and procedural safeguards to protect Personal Information and to comply with applicable laws and regulations.

The Funds may share Personal Information with their affiliates to facilitate the servicing of accounts and for other business purposes, or as otherwise required or permitted by applicable law. The Funds may also share Personal Information with non-affiliated third parties that perform services for the Funds, such as vendors that provide data or transaction processing, computer software maintenance and development, and other administrative services. When the Funds share Personal Information with a non-affiliated third party, they will do so pursuant to a contract that includes provisions designed to ensure that the third party will uphold and maintain privacy standards when handling Personal Information. In addition to sharing information with non-affiliated third parties to facilitate the servicing of accounts and for other business purposes, the Funds may disclose Personal Information to non-affiliated third parties as otherwise required or permitted by applicable law. For example, the Funds may disclose Personal Information to credit bureaus or regulatory authorities to facilitate or comply with investigations; to protect against or prevent actual or potential fraud, unauthorized transactions, claims or other liabilities; or to respond to judicial or legal process, such as subpoena requests.

Except as described in this privacy notice, the Funds will not use Personal Information for any other purpose unless the Funds describe how such Personal Information will be used and clients are given an opportunity to decline approval of such use of Personal Information relating to them (or affirmatively approve the use of Personal Information, if required by applicable law). The Funds endeavor to keep their customer files complete and accurate. The Funds should be notified if any Personal Information needs to be corrected or updated. Please call 1-800-647 1568 with any questions or concerns regarding your Personal Information or this privacy notice.

Item 2. Code of Ethics.

The registrant has adopted a code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions pursuant to Section 406 of the Sarbanes-Oxley Act of 2002. (The registrant has designated the code of ethics adopted pursuant to Sarbanes-Oxley as a Code of Conduct to lessen the risk of confusion with its separate code of ethics adopted pursuant to Rule 17j-1 under the Investment Company Act of 1940, as amended.)

Item 3. Audit Committee Financial Expert.

The registrant's Board has determined that the following person serving on the registrant's Audit Committee is an audit committee financial expert as defined in item 3 of Form N-CSR: Alan S. Bernikow. Mr. Bernikow is independent as defined in Item 3 of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

(a)

Audit Fees:

For the fiscal years ended October 31, 2013 and October 31, 2012, the aggregate Ernst & Young LLP (E&Y) audit fees for professional services rendered to the registrant were approximately \$69,564 and \$68,200, respectively.

Fees included in the audit fees category are those associated with the annual audits of financial statements and services that are normally provided in connection with statutory and regulatory filings.

(b)

Audit-Related Fees:

In each of the fiscal years ended October 31, 2013 and October 31, 2012, the aggregate audit-related fees billed by E&Y for services rendered to the registrant that are reasonably related to the performance of the audits of the financial statements, but not reported as audit fees, were approximately \$4,444 and \$4,800, respectively.

Fees included in the audit-related category are those associated with (1) the reading and providing of comments on the 2013 and 2012 semiannual financial statements, and (2) review of the consolidated 2012 and 2011 report on the profitability of the UBS Funds to UBS Global Asset Management (Americas) Inc. and its affiliates to assist the board members in their annual advisory/administration contract reviews.

There were no audit-related fees required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

Edgar Filing: GLOBAL HIGH INCOME FUND INC - Form N-CSR

(c) Tax Fees:

In each of the fiscal years ended October 31, 2013 and October 31, 2012, the aggregate tax fees billed by E&Y for professional services rendered to the registrant were approximately \$6,142 and \$4,825, respectively.

Fees included in the tax fees category comprise all services performed by professional staff in the independent accountant's tax division except those services related to the audits. This category comprises fees for review of tax compliance, tax return preparation and excise tax calculations.

There were no tax fees required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

(d) All Other Fees:

In each of the fiscal years ended October 31, 2013 and October 31, 2012, there were no fees billed by E&Y for products and services, other than the services reported in Item 4(a)-(c) above, rendered to the registrant.

Fees included in the all other fees category would consist of services related to internal control reviews, strategy and other consulting, financial information systems design and implementation, consulting on other information systems, and other tax services unrelated to the registrant.

There were no all other fees required to be approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X during the fiscal years indicated above.

(e) (1) Audit Committee Pre-Approval Policies and Procedures:

The registrant's Audit Committee (audit committee) has adopted an Audit Committee Charter (Amended and Restated as of May 12, 2004-with revisions through July 2013) (the charter). The charter contains the audit committee's pre-approval policies and procedures. Reproduced below is an excerpt from the charter regarding pre-approval policies and procedures:

The [audit] Committee shall:

2. Pre-approve (a) all audit and permissible non-audit services¹ to be provided to the Fund and (b) all permissible non-audit services to be provided by the Fund's independent auditors to UBS Global [Asset Management (Americas) Inc. (UBS Global AM)] and any Covered Service Providers, if the engagement relates directly to the operations and financial reporting of the Fund. In carrying out this responsibility, the Committee shall seek periodically from UBS Global [AM] and from the independent auditors a list of such audit and permissible non-audit services that can be expected to be rendered to the Fund, UBS Global [AM] or any Covered Service Providers by the Fund's independent auditors, and an estimate of the fees sought to be paid in connection with such services. The Committee may delegate its responsibility to pre-approve any such audit and permissible non-audit services to a sub-committee consisting of the Chairperson of the Committee and two other members of the Committee as the Chairperson, from time to time, may determine and appoint, and such sub-committee shall report to the Committee, at its next regularly scheduled meeting after the sub-committee's meeting, its decision(s). From year to year, the Committee shall report to the Board whether this system of pre-approval has been effective and efficient or whether this Charter should be amended to allow for pre-approval pursuant to such policies and procedures as the Committee shall approve, including the delegation of some or all of the Committee's pre-approval responsibilities to other persons (other than UBS Global [AM] or the Fund's officers).

¹ The Committee will not approve non-audit services that the Committee believes may taint the independence of the auditors. Currently, permissible non-audit services include any professional services (including tax services) that are not prohibited services as described below, provided to the Fund by the independent auditors, other than those provided to the Fund in connection with an audit or a review of the financial statements of the Fund. Permissible non-audit services may not include: (i) bookkeeping or other services related to the accounting records or financial statements of the Fund; (ii) financial information systems design and implementation; (iii) appraisal or valuation services, fairness opinions or contribution-in-kind reports; (iv) actuarial services; (v) internal audit outsourcing services; (vi) management functions or human resources; (vii) broker or dealer, investment adviser or investment banking services; (viii) legal services and expert services unrelated to the audit; and (ix) any other service the Public Company Accounting Oversight Board determines, by regulation, is impermissible.

Pre-approval by the Committee of any permissible non-audit services is not required so long as: (i) the aggregate amount of all such permissible non-audit services provided to the Fund, UBS Global [AM] and any service providers controlling, controlled by or under common control with UBS Global [AM] that provide ongoing services to the Fund (Covered Service Providers) constitutes not more than 5% of the total amount of revenues paid to the independent auditors (during the fiscal year in which the permissible non-audit services are provided) by (a) the Fund, (b) its investment adviser and (c) any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the Fund during the fiscal year in which the services are provided that would have to be approved by the Committee; (ii) the permissible non-audit services were not recognized by the Fund at the time of the engagement to be non-audit services; and (iii) such services are promptly brought to the attention of the Committee and approved by the Committee (or its delegate(s)) prior to the completion of the audit.

Edgar Filing: GLOBAL HIGH INCOME FUND INC - Form N-CSR

(e) (2) Services approved pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X:

Audit-Related Fees:

There were no amounts that were approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2013 and October 31, 2012 on behalf of the registrant.

There were no amounts that were required to be approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2013 and October 31, 2012 on behalf of the registrant's service providers that relate directly to the operations and financial reporting of the registrant.

Tax Fees:

There were no amounts that were approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2013 and October 31, 2012 on behalf of the registrant.

There were no amounts that were required to be approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2013 and October 31, 2012 on behalf of the registrant's service providers that relate directly to the operations and financial reporting of the registrant.

All Other Fees:

There were no amounts that were approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2013 and October 31, 2012 on behalf of the registrant.

There were no amounts that were required to be approved by the audit committee pursuant to the de minimis exception for the fiscal years ended October 31, 2013 and October 31, 2012 on behalf of the registrant's service providers that relate directly to the operations and financial reporting of the registrant.

(f) For the fiscal year ended October 31, 2013, if greater than 50%, specify the percentage of hours spent on the audit of the registrant's financial statements for the most recent fiscal year that were attributed to work performed by persons who are not full-time, permanent employees of E&Y. According to E&Y, such amount was below 50%; therefore disclosure item not applicable for this filing.

(g) For the fiscal years ended October 31, 2013 and October 31, 2012, the aggregate fees billed by E&Y of \$134,421 and \$239,287, respectively, for non-audit services rendered on behalf of the registrant (covered), its investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the adviser (non-covered) that provides ongoing services to the registrant for each of the last two fiscal years of the registrant is shown in the table below:

	<u>2013</u>	<u>2012</u>
Covered Services	\$10,586	\$9,625
Non-Covered Services	123,835	229,662

(h) The registrant's audit committee was not required to consider whether the provision of non-audit services that were rendered to the registrant's investment adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser), and any entity

controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence.

Item 5. Audit Committee of Listed Registrants.

The registrant has a separately designated standing audit committee (the Audit Committee) established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The Audit Committee is comprised of the following board members: Mr. Armstrong, Mr. Bernikow, Mr. Burt, Mr. Garil and Ms. Higgins.

Item 6. Investments.

- (a) Included as part of the report to shareholders filed under Item 1 of this form.
- (b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The registrant's Board of Directors believes that the voting of proxies on securities held by the registrant is an important element of the overall investment process. As such, the Board has delegated the responsibility to vote such proxies to the registrant's advisor. Following is a summary of the proxy voting policy of the advisor.

CORPORATE GOVERNANCE PHILOSOPHY, VOTING GUIDELINES AND POLICY SUMMARY

The proxy voting policy of UBS Global Asset Management (Americas) Inc. (UBS Global AM) is based on its belief that voting rights have economic value and should be treated accordingly. Generally, UBS Global AM expects the boards of directors of companies issuing securities held by its clients to act in the service of the shareholders, view themselves as stewards of the company, exercise good judgment and practice diligent oversight of the management of the company. While there is no absolute set of rules that determine appropriate corporate governance under all circumstances and no set of rules will guarantee ethical behavior, there are certain principles which provide evidence of good corporate governance. UBS Global AM may delegate to an independent proxy voting and research service the authority to exercise the voting rights associated with certain client holdings. Any such delegation shall be made with the direction that the votes be exercised in accordance with UBS Global AM's proxy voting policy.

When UBS Global AM's view of a company's management is favorable, UBS Global AM generally supports current management initiatives. When UBS Global AM's view is that changes to the management structure would probably increase shareholder value, UBS Global AM may not support existing management proposals. In general, UBS Global AM generally exercises voting rights in accordance with the following principles: (1) with respect to board structure, (a) the roles of chairman and chief executive generally should be separated, (b) board members should have appropriate and diverse experience and be capable of providing good judgment and diligent oversight of management of the company, and (c) the board should include executive and non-executive members and the non-executive members should provide a challenging, but generally supportive environment; and (2) with respect to board responsibilities, (a) the whole board should be fully involved in endorsing strategy and in all major strategic decisions, and (b) the board should ensure that, among other things, at all times the interests of executives and shareholders are aligned and the financial audit is independent and accurate. In addition, UBS Global AM focuses on the following areas of concern when voting its clients' securities: economic value resulting from acquisitions or disposals; operational performance; quality of management; independent board members not holding management accountable; quality of internal controls; lack of transparency; inadequate succession planning; poor approach to social responsibility; inefficient management structure; and corporate activity designed to frustrate the ability of shareholders to hold the board accountable or realize the maximum value of their investment. UBS Global AM exercises its voting rights in accordance with overarching rationales outlined by its proxy voting policies and procedures that are based on the principles described above.

UBS Global AM has implemented procedures designed to identify whether it has a conflict of interest in voting a particular proxy proposal, which may arise as a result of its or its affiliates' client relationships, marketing efforts or banking, investment banking and broker/dealer activities. To address such conflicts, UBS Global AM has imposed information barriers between it and its affiliates who conduct banking, investment banking and broker/dealer activities and has implemented procedures to prevent business, sales and marketing issues from influencing its proxy votes. Whenever UBS Global AM is aware of a conflict with respect to a particular proxy, the UBS Global AM Corporate Governance Committee is required to review and resolve the manner in which such proxy is voted.

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

- (a) (1) Name Uwe Schillhorn
Title Vice President
Length of Service Since 2004

Business Experience Last 5 Years Mr. Schillhorn is a managing director (since 2010) (prior to which he was an executive director) and head of emerging markets debt (since 2004) of UBS Global AM. Mr. Schillhorn is a vice president of two investment companies (consisting of two portfolios) for which UBS Global AM serves as investment advisor, sub-advisor or manager.

Information is as of January 9, 2014

- (a) (2) (i) Portfolio Manager

Uwe Schillhorn

- (a) (2) (ii) (A) Registered Investment Companies

The portfolio manager is responsible for 3 additional Registered Investment Companies (not including the registrant) totaling approximately \$193 million as of October 31, 2013.

- (a) (2) (ii) (B) Other Pooled Investment Vehicles

The Portfolio Manager is responsible for 17 additional Other Pooled Investment Vehicles totaling approximately \$6 billion as of October 31, 2013.

- (a) (2) (ii) (C) Other accounts

The Portfolio Manager is responsible for 14 additional accounts totaling approximately \$12 billion as of October 31, 2013.

Edgar Filing: GLOBAL HIGH INCOME FUND INC - Form N-CSR

(a) (2) (iii)

Accounts with respect to which an advisory fee is based on the performance of the account as of October 31, 2013.

The Portfolio Manager is responsible for one account with respect to which the advisory fee is based on the performance of the account, and such account had approximately \$280 million in assets as of October 31, 2013.

(a) (2) (iv)

Conflicts.

The portfolio management team's management of the registrant and other accounts could result in potential conflicts of interest if the registrant and other accounts have different objectives, benchmarks and fees because the portfolio management team must allocate its time and investment expertise across multiple accounts, including the registrant. The portfolio manager and the team of which he is a member manage the registrant and other accounts utilizing a model approach that groups similar accounts within a model portfolio. UBS Global AM manages accounts according to the appropriate model portfolio, including where possible, those accounts that have specific investment restrictions. Accordingly, portfolio holdings, position sizes, and industry and sector exposures tend to be similar across accounts, which may minimize the potential for conflicts of interest.

If a portfolio manager identifies a limited investment opportunity that may be suitable for more than one account or model portfolio, the registrant may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible portfolios and accounts. To deal with these situations, UBS Global AM has adopted procedures for allocating portfolio trades across multiple accounts to provide fair treatment to all accounts.

The management of personal accounts by a portfolio manager may also give rise to potential conflicts of interest. UBS Global AM and the registrant have adopted a Code of Ethics that governs such personal trading, but there is no assurance that the Code will adequately address all such conflicts.

(Information in Item 8(a)(2) is provided as of the Registrant's fiscal year end of October 31, 2013.)

(a) (3) Compensation.

UBS Global AM's compensation and benefits programs are designed to provide its investment professionals with incentives to excel, and to promote an entrepreneurial, performance-oriented culture with clear accountability. They also align the interests of investment professionals with those of our clients and other stakeholders.

The total compensation received by the portfolio managers and analysts at UBS Global AM, including the Registrant's portfolio manager, has up to three basic components—a fixed component (base salary and benefits), a variable and discretionary cash component and, for employees whose total compensation exceeds a defined threshold, a variable and discretionary deferred component. These are described in more detail below:

- The fixed component (base salary and benefits) is set with the aim of being competitive in the industry and monitored and adjusted periodically with reference to the relevant local labor market in order to remain so. The fixed component is used to recognize the experience, skills and knowledge that each portfolio manager and analyst brings to their role.
 - Variable compensation is determined annually on a discretionary basis. It is correlated with the individual's financial and non-financial contribution, as assessed through a rigorous performance assessment process, and on the performance of their respective function, of UBS Global AM and of UBS as a whole. As its name implies, variable compensation is subject to change and is delivered in cash and, when over a defined total compensation threshold, deferral vehicles.
-

Edgar Filing: GLOBAL HIGH INCOME FUND INC - Form N-CSR

- Variable deferred employees may have a portion of their variable compensation deferred. Amounts deferred are delivered via two deferral vehicles 75% in the UBS Global AM Equity Ownership Plan (Global AM EOP) and 25% in the Deferred Contingent Capital Plan (DCCP):
- Global AM EOP awards vest over five years with one third of the award vesting in year two, one third in year three and one third in year five, subject to continued service. Through the Global AM EOP, all deferred awards are granted in the form of vehicles aligned to selected UBS Global AM funds, known as Notional Funds (formerly known as Alternative Investment Vehicles or AIVs).
- The DCCP is a new mandatory deferral plan introduced for performance year 2012. Awards under the DCCP vest 100% in year five, subject to continued service.

UBS Global AM believes that not only do these deferral plans reinforce the critical importance of creating long-term business value, with both plans serving as alignment and retention tools.

UBS Global AM strongly believes that aligning portfolio managers' variable compensation to both the short-term and longer-term performance of their portfolios closely aligns the portfolio managers' interests with those of the firm's clients. The total annual variable compensation pool available for distribution is generally dependant upon the overall profitability of UBS Group and UBS Global AM.

The allocation of the variable compensation pool to each portfolio manager is linked to the investment performance of the Registrant versus its benchmark, here a blended benchmark composed of 50% of J.P. Morgan Emerging Markets Bond Index Global and 50% J.P. Morgan Government Bond Index Emerging Markets Global Diversified, and, where appropriate, peer strategies, over one and three years for Equities and Fixed Income and also over five years for Global Investment Solutions.

For analysts, variable compensation is, in general, based on the performance of some combination of model and/or client portfolios, generally evaluated over one and three years and coupled with a qualitative assessment of their contribution. This is coupled with a qualitative assessment of their contribution considering factors such as the quality of their research, stock recommendations and their communication within and between teams and with portfolio managers.

(Information in Item 8(a)(3) is provided as of the Registrant's fiscal year end of October 31, 2013.)

(a) (4) Dollar Range of Securities of Registrant Beneficially Owned by Portfolio Manager.

None

(Information in Item 8(a)(4) is provided as of the Registrant's fiscal year end of October 31, 2013.)

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

There were no purchases made by or on behalf of the Registrant or any affiliated purchaser, as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, of shares of the Registrant's equity securities that are registered by the Registrant pursuant to Section 12 of the Exchange Act made in the period covered by this report.

Item 10. Submission of Matters to a Vote of Security Holders.

The registrant's Board has established a Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee will consider nominees recommended by shareholders if a vacancy occurs among those board members who are not interested persons as defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended. In order to recommend a nominee, a shareholder should send a letter to the chairperson of the Nominating and Corporate Governance Committee, Richard R. Burt, care of the Secretary of the registrant at UBS Global Asset Management, UBS Building, One North Wacker Drive, Chicago, IL 60606, and indicate on the envelope Nominating and Corporate Governance Committee. The shareholder's letter should state the nominee's name and should include the nominee's resume or curriculum vitae, and must be accompanied by a written consent of the individual to stand for election if nominated for the Board and to serve if elected by shareholders.

Item 11. Controls and Procedures.

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.
- (b) The registrant's principal executive officer and principal financial officer are aware of no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940, as amended) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits.

- (a) (1) Code of Ethics as required pursuant to Section 406 of the Sarbanes-Oxley Act of 2002 (and designated by registrant as a Code of Conduct) is filed herewith as Exhibit EX-99.CODE ETH.
 - (a) (2) Certifications of principal executive officer and principal financial officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto as Exhibit EX-99.CERT.
 - (a) (3) Written solicitation to purchase securities under Rule 23c-1 under the Investment Company Act of 1940 sent or given during the period covered by the report by or on behalf of the registrant to 10 or more persons The registrant has not engaged in such a solicitation during the period covered by this report.
 - (b) Certifications of principal executive officer and principal financial officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto as Exhibit EX-99.906CERT.
 - (c) Disclosure pursuant to Section 13(r) of the Securities Exchange Act of 1934, as amended, is attached hereto as Exhibit EX-99.IRANNOTICE.
-
