Edgar Filing: RESEARCH FRONTIERS INC - Form 8-K

Item 7.01 Regulation FD Disclosure

During his keynote address today at the IDTechEx Energy Harvesting Conference in Berlin, Germany, Joseph Harary, President and CEO of Research Frontiers, announced that Teknoglass Solutions LLP has acquired a license from Research Frontiers Inc. to make and sell SPD-SmartGlass architectural smart window products in the United Kingdom and Republic of Ireland. The non-exclusive license grants Teknoglass the right to manufacture and sell SPD-SmartGlass architectural products including windows, doors, solar shading screens, curtainwalls, skylights and skylights, and provides for a 15% royalty to Research Frontiers on sales of licensed SPD-SmartGlass products. The minimum annual royalties and other fees and license terms were not disclosed.

Research Frontiers (Nasdaq: REFR) is the developer and licensor of patented SPD-Smart light-control film technology. SPD-Smart light control film technology transforms widely used products – windows, skylights and more – into products that instantly and precisely control the light, glare and heat entering a home, office, or vehicle. SPD-SmartGlass is instantly tunable to an infinite number of light transmission states regardless of window size, and easily adapts to individual preferences using control devices ranging from basic dimmer switches and photosensors to those that are integrated into a smart home or office intelligent control system. These unequalled performance characteristics help optimize energy-saving daylight harvesting benefits and many other desired outcomes such as increased security, noise reduction and protection from harmful ultraviolet light.

Robert Hudson, Technical Director of Teknoglass Solutions, noted: “The global glass industry is entering a new era where high-performing smart glass products will satisfy longstanding market needs and new ones ranging from energy efficiency to distinctive aesthetics. Our agreement with Research Frontiers, and extensive architectural contact base, reflect a strong belief that SPD-SmartGlass is a strategically-important technology offering tremendous functionality and other benefits to the user. It offers excellent sales potential for our company.”

Joseph M. Harary, President and CEO of Research Frontiers, noted: “Buildings consume over 40% of energy and 73% of electricity. Imagine transforming the skin of a building so that it adapts to changing environmental conditions. Now combine this with sophisticated and custom design and engineering provided by Teknoglass Solutions. It is for these reasons, and their long-standing experience with SPD-SmartGlass technology in some of the world’s most prominent architectural uses of SPD-SmartGlass, that we welcome Teknoglass Solutions as a licensee and are confident in their success to continue to make homes and buildings more beautiful, energy-efficient, and comfortable for occupants.”

Details are noted in the press release attached as Exhibit 99.1 to this Current Report on Form 8-K and incorporated herein by reference. This press release is also available on the Company's website at www.SmartGlass.com and at various other places on the internet.

This report and the press releases referred to herein may include statements that may constitute "forward-looking" statements as referenced in the Private Securities Litigation Reform Act of 1995. Those statements usually contain words such as "believe", "estimate", "project", "intend", "expect", or similar expressions. Any forward-looking statements are made by the Company in good faith, pursuant to the safe-harbor provisions of the Act. These forward-looking statements reflect management's current views and projections regarding economic conditions, industry environments and Company performance. Factors, which could significantly change results, include but are not limited to: sales performance, expense levels, competitive activity, interest rates, changes in the Company's financial condition and several business factors. Additional information regarding these and other factors may be included in the Company's quarterly 10-Q and 10K filings and other public documents, copies of which are available from the Company on request. By making these forward-looking statements, the Company undertakes no obligation to update these statements for revisions or changes after the date of this report.

The information in this Form 8-K or the press release reproduced herein shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, nor shall they be deemed incorporated by reference in any filing under the Securities Act of 1933, except as shall be expressly set forth by specific reference in such filing.

Item 9.01. Financial Statements and Exhibits.

(c) Exhibits.

99.1 Research Frontiers Press Release dated April 2, 2014.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
